File ID No.: 13-2913

Introduction Date: 12/11/13

Enactment No.: 14-0128

Enactment Date: 1/29/14

By: **ACTION REQUESTED**

Approve the petition and charter to establish Aspire Technology Charter Academy as an Oakland Unified School District (OUSD) authorized charter school that serves grades TK-5th. The petition presents a sound educational program; the petitioners are demonstrably likely to successfully implement the program set forth in the petition; the petition contains the required signatures and affirmations; and the petition contains reasonably comprehensive descriptions of all of the 16 elements required by the California Charter Schools Act.

SUMMARY

Staff recommends that the OUSD Board of Education approve the petition for Aspire Technology Charter Academy to serve students in grades TK-5th, to begin operation as an OUSD authorized charter school on July 1, 2014. Staff recommends approval based on the following:

- 1) The Aspire Public Schools Charter Management Organization has a positive track record operating schools in Oakland
- 2) The proposed school model/program provides an innovative blended learning curriculum and coding coursework option to elementary students in Oakland USD that does not currently exist within the district
- 3) Due diligence conducted to ensure that the establishment of the charter is consistent with sound educational practices

PROCEDURAL BACKGROUND

- 1) The lead petitioner submitted a petition for the Aspire Technology Charter Academy on December 11, 2013 at a regularly scheduled Board of Education meeting.
- 2) A public hearing was held on January 6, 2014. Representatives from the lead petitioning group, including parents of prospective students, presented.
- 3) Staff conducted Petitioner Interviews on January 15, 2014.

STATUTORY BACKGROUND

Pursuant to Education Code §47605:

Charter law outlines the criteria governing the approval or denial of charter school petitions. The following excerpt is taken from the Charter Schools Act, Education Code §47605. This excerpt delineates charter approval and denial criteria:

A school district governing board shall grant a charter for the operation of a school under this part if it is satisfied that granting the charter is consistent with sound educational practice. The governing board of the school district shall not deny a petition for the establishment of a charter school unless it makes written factual findings, specific to the particular petition, setting forth specific facts to support one or more of the following findings:

- (1) The charter school presents an unsound educational program for the pupils to be enrolled in the charter school.*
- (2) The petitioners are demonstrably unlikely to successfully implement the program set forth in the petition.*
- (3) The petition does not contain the number of signatures required.*
- (4) The petition does not contain an affirmation of each of the conditions described in Education Code §47605(d).*
- (5) The petition does not contain reasonably comprehensive descriptions of the 16 required charter elements.*

DISCUSSION

Staff convened a petition review team, which subsequently conducted an evaluation of the petition pursuant to the Charter Schools Act and with the application of the Oakland Unified School District Petition Evaluation Rubric.

Following the petition review process, staff conducted Petitioner Interviews in an attempt to clarify various aspects of the petition, as well as to evaluate the capacity of the petitioners to successfully implement the program as set forth in the petition.

Aspire Technology Charter Academy proposes to open in Fall 2014 at 3200 62nd Ave, Oakland, CA (former Aspire Millsmont campus). The school will serve approximately 270 students in grades TK-5th.

The staff report and charter petition evaluation contained herein describes the proposed educational program and school operations, as well as an articulation of strengths and foreseeable challenges.

RECOMMENDATION

Staff recommends that the Oakland Unified School District's Board of Education **approve** the petition for Aspire Technology Charter Academy under the California Charter Schools Act. The factual findings illustrated in this report demonstrate that the petition satisfies the five legally required categories of *Education Code § 47605*:

- (1) The charter school presents a sound educational program for the pupils to be enrolled in the charter school;*
- (2) The petitioners are demonstrably likely to successfully implement the program set forth in petition*

- (3) *The petition contains the number of signatures required;*
- (4) *The petition contains an affirmation of each of the conditions described in Education Code §47605(d);*
- (5) *The petition contains reasonably comprehensive descriptions of the 16 required charter elements.*

This approval is for the charter program and operation in its entirety as proposed and revised herein to include all terms and conditions set forth in this report. Any subsequent material revision of the provision of this charter may be made only with the approval of the District as charter authorizer (*Education Code §47607(a)(1)*). Any material revision to any charter component must be proposed and considered according to the standards and criteria in Education Code §47605 (*Education Code §47607(a)(2)*).

The term of this charter will be from July 1, 2014 through June 30, 2019, the maximum period allowed under the California Charter Schools Act (*Education Code §47607(a)(1)*). The District will not accept a charter renewal request more than 270 days prior to the expiration of the charter.

A charter may be revoked by the authority that granted the charter if the authority finds that the charter school committed a material violation of any of the conditions, standards, or procedures set forth in its charter (*Education Code §47607(c)(1)*). The Board of Education's approval of this charter shall incorporate the conditions on opening and associated deadlines as a condition of the charter.

The District retains the authority to delay opening for a period of up to one year, if any of the conditions on opening are not satisfactorily met by the associated deadlines. Not meeting any one of the conditions on opening and associated deadlines set forth in this approval may be grounds for revocation as set forth in the California Charter Schools Act (*Education Code §47607(c)(1)*).

Pursuant to OUSD Governing Board Policy, BP 0420.4, if the school does not open on or before September 30, 2014, it will be considered a demonstration of petitioners' lack of capacity to implement the program set forth in the petition and the District will initiate charter revocation procedures.

Recommendation:

Approval of the Aspire Technology Charter Academy (ATCA) charter petition, as revised, to reflect the terms and conditions set forth in this report, to begin operation July 1, 2014, and to expire June 30, 2019. Staff recommends approval of a full five-year term of operation. If conditions set forth here-in are not met as of August 1, 2014, and/or the petitioner and the Board of Education of the Oakland Unified School District mutually agree that success of the program would benefit from a delayed opening, the charter term will reflect the actual operation of the school to allow for a full five-year term of operation.

Proposed location of school	3200 62 nd Ave. Oakland, CA 94605 (p. 3)
Composition of petitioner group	Parents of Oakland students and CMO leadership/staff

Anticipated enrollment at full capacity	270 (Appendix I)
Target student population	“We also seek to provide our students the preparation to excel in computer science, the highest paying college degree, which is a field with unfilled employment opportunities across the nation. Currently, only 15% of the high school students who take the Computer Science Advanced Placement Exam are women and only 8% of the students are African American or Hispanic. These groups of students are missing out on opportunities that others have been given, and are even less likely to pursue Computer Science coursework in college. By serving students who match the demographics of the District below and sharing our learning with others, we believe we can reverse this trend and create a

	pipeline for underrepresented students in Computer Science coursework and related fields.” (p.11)

Brief description of the kind of school to be chartered.

“With this school, Aspire will prepare Oakland students with new ways of using technology to learn logical reasoning, algorithmic thinking, and structured problem solving, while developing 21st century technology skills. Aspire will combine best practices in blended learning, which combines teacher-led small group instruction with digital learning, interdisciplinary units and computer science instruction to leverage technology for learning. Students will not only follow individualized learning paths on computers as part of their core instruction, but will also learn how computers actually process information. Students will progress from kindergarten through fifth grade with an increasingly challenging coding curriculum.” (p.8)

Brief explanation of the mission of proposed charter school.

“The School’s mission is to prepare students to excel in college and life by giving them the intellectual, social-emotional and technical skills and habits of mind required to succeed in the 21st Century.

By equipping our students with the ability to code, we help their systematic problem-solving, while developing the technology skills needed to navigate increasingly complex technology-driven solutions in education and the workplace, and fostering such social skills as grit, tenacity and persistence in the face of new challenges. This is what it means to be an ‘educated person’ in the 21st century.” (p.10)

G. PUPIL PROGRESS

Summative evaluations measure student performance for the purpose of evaluating academic program effectiveness and overall school operation. In other words, they are used to determine how much students have learned.

Formative evaluations measure student performance for the purpose of determining students' learning needs and to inform instructional strategies. In other words, they are used to determine what students still need to learn.

A plan for evaluating Pupil Progress excels if it uses both formative and summative and includes the following characteristics:

1. **Assessments:** *Does the school have valid and reliable measures of student progress?*
 - Identification of the expected range of formative and summative assessments including but not limited to state-mandated assessments;
 - Evidence that assessments will be valid and reliable measures of student progress toward achieving the identified Pupil Outcomes.
2. **Instruction Improvement:** *Does the school have a sound plan for using assessments to inform instruction?*
 - A coherent strategy for using student assessment and performance data to evaluate and inform instruction on an ongoing basis.
3. **Reporting:** *Is the school committed to reporting and disseminating performance information?*
 - A plan for sharing performance information, including standardized test results, with students, families and public agencies, as required.
 - A clear description of the manner in which stakeholders will act upon and make use of the performance information provided.

EDUCATIONAL PROGRAM SUMMARY

Strengths

The petition provides evidence of a comprehensive, coherently described, and aligned educational program that is sound and likely to meaningfully benefit the target population, as well as providing an innovative elementary school option to Oakland families. The assessment system is comprehensive and includes structured use of data for improving individual student performance and informing program improvement. The model has high learning expectations with scaffolded supports through Personalized Learning Plans and academic/socio-emotional interventions to assist students and families in meeting these goals. The technology elements of the model including: 2:1 devices, blended learning across all subject areas, and coding coursework, are all innovative approaches to educating 21st century learners/leaders.

Concerns and Additional Questions

The closure of Aspire Millsmont, and this petition for ATCA at the same location, brings into question how the educational program will be different/more successful than the last. When posed this question in the interview, the following points were made as to how the new school will "...look remarkably different":

- "Right now blended learning is only accessible to our third through fifth grades; next year it will be available to all of the kids TK-5th."
- Fully implemented blended learning at ATCA will allow teachers time to provide more targeted-differentiated instruction throughout the day via small group rotations
- Coding course has never been offered at Millsmont, but will be at ATCA
- Millsmont had an 8:1 student to computer ratio mainly housed in the learning lab, while and ATCA will be 2:1 in all classrooms

The petition does not denote the amount of time that will be dedicated to ELD supplemental instruction on a daily/weekly basis.

The Charter Schools Act requires the authorizer to determine whether the petitioners are “demonstrably unlikely to successfully implement the program.” Experience with new school development demonstrates that unless petitioners have sound plans and capacity for governance, management, employment and financial operation, they are unlikely to successfully implement the program. This section should provide a clear, convincing picture of the petitioners’ capacity to operate the school successfully.
