\*The amount withdrawn was necessary to maintain the \$850 per-pupil funding rate.

\*\*The amount withdrawn was necessary to maintain the \$850 per-pupil funding rate and to meet the required 50% split allocation for FY 2023–24 under Measure H.

\*\*\*The amount withdrawn reflects the recovery of unintentional Charter School overpayments from FY 2017–18. ARISE High School (9121) received an overpayment of \$217,524.52, and Envision High School (9125) received an overpayment of \$2,170.21, both issued through reimbursements.

\*\*\*\*The amount withdrawn addresses overpayments made from Measure N in FY 2023–24 that resulted in a negative balance. These negative balances were associated with Charter School allocations and the Administrative 10% budget. The shortfall was covered by the Measure N Contingency Reserve Fund and offset by a corresponding deposit to the Measure H Contingency Reserve Fund. This adjustment reduced Measure H carryover allocations for affected sites in FY 2024–25 and resulted in a deposit to the Measure H Contingency Reserve Fund.

Over time, a total of \$7.4 million has been drawn from the **Measure N Contingency Fund** to:

- Sustain the \$850 per-pupil funding rate
- Address payment discrepancies related to charter school reimbursements and allocations to the Administrative 10%.

# Impact of a Reduced Contingency Fund

---

## Measure H Contingency Fund – Key Considerations

- **Current Status:** Positive balance; 2026-27 allocations within expected revenue.
- **Future Use:** May be needed for unexpected costs, maintaining per-student funding, or meeting Measure H requirements.

## Risks if Fund is Low:

- **90% Funding Mandate at Risk:** Shortfall in revenue (e.g., more exemptions) could prevent \$850 per-student allocation.
- **Per-Student Funding Could Drop:** Higher enrollment or revenue shortfalls may require reducing allocations.
