Please see attached for the Scope of Work.

Program Goals, Guiding Principles

ACPHD, OUSD, and the Page Family Foundation are partnering to develop and implement a multiyear school-located influenza vaccination (SLIV) demonstration project starting in the 2014/2015 influenza season. The objective after 3 years is to enroll all Oakland pre-K and elementary schools, both public and private, and conduct vaccination clinics each fall.

Vaccine will be provided free of charge with an emphasis on LAIV use given its high effectiveness in children and for its logistical ease of use. The goal is to reach a 100% vaccination rate in the children enrolled in participating schools.

Scope of Work description

The Foundation, ACPHD, and OUSD will together promote the program with OUSD administrators and recruit individual schools to participate in the SLIV program. The Foundation will finance and help coordinate vaccine delivery, communications/education/messaging, and the evaluation of the program. Vaccine delivery will include consent, vaccine administration, and immunization registry communications with an eye towards building a sustainable system. The Foundation will work with ACPHD and the California State Health Department to secure Vaccine for Children (VFC) vaccine, state purchased vaccine, and/or privately purchased vaccine. Nurses will be conducting the vaccinations and sourced from a variety of organizations including corporate wellness companies, ACPHD, nursing schools, and others.

Local area physicians groups, immunization coalitions, and other community partners will be consulted as the program is built and implemented. The Foundation will convene program partners to ensure coordination and communication, including participating agencies for operational planning and community stakeholders for strategic level communications.

Research/Data Collection details

The Foundation has contracted with the University of California, Berkeley School of Public Health to design and implement a rigorous study to determine the impact of increasing coverage in children on student-, household-, and community-wide transmission. The University will work closely with ACPHD, OUSD, and contracted firms to design, plan for, and implement the study in OUSD elementary schools and comparison schools in a neighboring school district.

The Bay Area Flu Study will involve recruitment of parents/guardians of OUSD elementary school children and the issuance of a series of household surveys around the time of vaccination and during peak influenza season. A small subset of enrolled parents will be recruited to support specimen collection to test for lab-confirmed influenza.
