ACC Project No.: 73338

Date Prepared: Monday, April 16, 2018

Scope of Work Description

ACC is proposing to conduct in situ soil sampling for purposes of soil waste characterization and worker exposure prior to the development of a new athletic field at Westlake Middle School in Oakland. The proposed scope consists of the advancement of eight exploratory borings via a hand auger at representative locations across the Site. ACC will subcontract a concrete corer to core 6"-8" diameter holes through the existing asphalt pavement at eight locations. Soil borings will be advanced to 3 feet below ground surface (ft bgs), native soil, or refusal. At each sampling location, representative soil samples will be collected and subsequently composited into a total of two 4:1 composite samples. A California-licensed Professional Geologist will oversee all stages of proposed work. The Client shall be responsible for arranging Site access during regular business hours.

Soil will be obtained from the appropriate sampling depth using a hand auger and will be collected from the barrel of the hand auger using stainless steel sleeves subsequently capped with plastic sheeting and tight-fitting plastic caps. Samples will be stored on ice and delivered to a state-certified laboratory following standard chain-of custody protocol. Sampling equipment will be decontaminated between sampling locations. Exploratory soil borings will be back filled with soil cuttings.

Proposed laboratory analyses are listed below and are typical of landfill requirements. Compositing will be conducted by the laboratory. Proposed laboratory costs are for standard laboratory turnaround (typically 5 to 7 business days starting the day after sampling).

ACC's understanding is soil will be off-hauled to a landfill pending characterization.

ACC will prepare a digital report documenting sampling methodologies, sampling locations, analytical results, conclusions, and recommendations. Proposed work does not include costs for reviewing/signing waste profiles; interaction with the landfills/haulers; or additional hours for consulting beyond the scope of this proposal.

Proposed work is subject to the attached ACC General Terms & Conditions. Work will commence upon receipt of an executed copy of this agreement. If you have questions regarding this proposal please contact Ian Sutherland at 510.773.0752. We appreciate the opportunity to provide this proposal.

All services subject to the Terms & Conditions between ACC and Client as of the date indicated above. Where no specific Terms & Conditions between ACC and Client exist, ACC's 2018 Standard Terms & Conditions apply to all services.
