 - d. OUSD may update or modify its invoicing procedures for administrative purposes by providing VENDOR with at least thirty (30) days written notice. Such updates shall become effective upon receipt by VENDOR and shall be deemed incorporated into this AGREEMENT, provided they do not materially alter the scope of SERVICES, compensation, or other substantive terms. - a. For Convenience. Either Party may at any time terminate this AGREEMENT upon ninety (90) days prior written notice to the other Party. OUSD shall compensate VENDOR for SERVICES satisfactorily provided through the date of termination. For OUSD internal purposes, VENDOR understands that upon approval by OUSD legal counsel, the OUSD Superintendent or an OUSD Chief may issue the termination notice without prior approval by the OUSD Governing Board, in which case this AGREEMENT would terminate upon ratification of the termination by the OUSD Governing Board or thirty (30) days after the notice was provided, whichever is later. VENDOR shall immediately stop providing SERVICES upon receipt of the termination notice from the OUSD Superintendent or OUSD Chief.
 - b. For Cause. Either PARTY may terminate this AGREEMENT by giving written notice of its intention to terminate for cause to the other PARTY. issue the termination notice without prior approval by the OUSD Governing Board, in which case this AGREEMENT would terminate upon ratification of the termination by the OUSD Governing Board or three (3) days after the notice was provided, whichever is later, unless the condition or violation ceases or satisfactory arrangements for its correction are made. VENDOR shall immediately stop providing SERVICES upon receipt of the termination notice from the OUSD Superintendent or OUSD Chief. OUSD shall compensate VENDOR for SERVICES satisfactorily provided through the date of termination except in the case of material violation, breach or negligence by VENDOR resulting in materially deficient services or as otherwise provided in this contract.

- c. Due to Unforeseen Emergency or Acts of God. - d. Due to Failure to Ratify by OUSD Board. If, consistent with Paragraph 44 (Signature Authority), this AGREEMENT is executed on behalf of OUSD by the signature of the Superintendent, a Chief, a Deputy Chief, or an Executive Director, and the Board thereafter declines to ratify this AGREEMENT, this AGREEMENT shall automatically terminate on the date that the Board declines to ratify it. Asset Inventory Verification-Machinery, Furniture & Equipment

A detailed inspection and field inventory will be conducted at all buildings, identifying each asset by location, building and room. The on-site asset inventory and verification will:

- Verify asset existence based on scanned re-inventory
- Confirm asset location to the site/building/room level
- Identify unrecorded assets such as additions, retirements, and transfers
- Verify asset status

Our staff will use portable data collection units to verify the asset data and record any missing information including the following data:

- | | |
|--------------------------------|-----------------------------------|
| a. Asset Identification Number | i. Building |
| b. Description | j. Site/Location |
| c. Quantity | k. Room/Sublocation |
| d. Acquisition Date | l. Cost Information |
| e. Manufacturer | m. Funding Source* |
| f. Model | n. Department |
| g. Serial Number | o. Normal Useful Life |
| h. Asset Account | p. Miscellaneous (e.g. old tag #) |

**Fund source will be included if identified on the asset during the inventory process or through a data match by tag number to district provided information. Centurisk is not proposing to research purchase orders or District files to identify fund source for each asset.*

Barcode Tagging- Centurisk staff will record the existing tag number or apply a District provided tag where no tag exists and enter the tag numbers along with all the corresponding asset information into the database.

COSTING AND VALUATION (as needed)

Our investigation of the property will follow generally accepted techniques and will include the use of specific techniques necessary to develop valid and acceptable original cost and date of acquisition for each asset. This includes use of the straight-line method of depreciation. We will determine the original cost by using the following costing methods:

Direct Costing method will be used where historical data is readily available from District records. The actual purchase cost and acquisition date will be maintained for those assets. While Centurisk is not offering a detailed line-by-line reconciliation, our staff will work with records as provided by the District to tie back original cost and dates of acquisition on recent acquisitions.

Standard Costing is used when inventoried property units/groups not matched to a historical record receive an estimated cost, where possible, based upon a standard cost (a known average installed cost for a like unit) at the estimated acquisition date.

Normal Costing method will be used where no historical information is readily available. These assets will be valued on a current basis and back trended to an estimated date of acquisition to estimate the original cost. During the costing and valuation procedures, all items will be assigned a useful life. The useful life of an item will determine its approximate replacement year.

During the valuation research, our appraisers will examine all assets to determine original cost, defined as follows:

Original Cost is the amount originally paid to acquire the asset, including such cost as set-up charges; transportation; taxes; engineering and architectural fees; and title insurance. If an asset was donated or bought for a nominal sum, GAAP requires that the asset be accounted for at market value as of the date of acquisition.

PROJECT DELIVERABLES

Reports will be presented in electronic format and include asset exception reports, draft reports, final detail summary reports as well as a master data file. A narrative section that will certify our inventory and valuation and document our procedures will precede your reports. Reports will include:

Verification Process

Throughout the inventory process, the inventory data is analyzed for discrepancies and inventory exceptions. Upon completion of the onsite fieldwork and offsite valuations, a data match comparing the District fixed asset data in AssetMAXX to the database of information recorded during the onsite fieldwork resulting in the following reports:

- Inventoried Assets (Matches)
- Unrecorded Additions (assets inventoried but not found in District records)
- Unrecorded Retirements (assets in District records but not found during inventory)

**Asset verification results will vary based on the District's fixed asset record accuracy and detail within the current fixed asset listing. Centurisk is not proposing a reconciliation service, determination of the asset status in the exception reports is the responsibility of the District.*

Preliminary Reports

Draft Summary and detail reports will be sent via email in .pdf format for review. We provide two weeks from the point of issuance to determine acceptability of the final data. Upon acceptance, Centurisk will then prepare and deliver final reports in electronic and hard-copy format.

Final Reports

One original of the final reports will be provided in electronic format. Our conclusions will assist the District with meeting financial reporting requirements, external audit requirements and accountability and stewardship of District assets.
