Statement of Qualifications

The National Equity Project (formerly the Bay Area Coalition for Equitable Schools / BayCES) works to dramatically improve educational experiences, outcomes, and life options for historically underserved students by building the capacity of leaders and teachers to meet the learning needs of every student.

Since 2000, we have supported over 100 schools in over a dozen districts to better serve low-income, African American and Latino students through a positive climate for learning, effective relationships between staff and students, and data-driven instructional improvement. The National Equity Project has coached hundreds of leaders to improve educational equity and student learning in schools and districts. As a leader of the small schools movement in the Bay Area, we helped to open over 40 new small schools focused on personalization, teacher collaboration, and equity. Evaluations show that these schools have accelerated student learning. Our coaching staff consists of 24 former teachers and administrators, and experts in organizational change and development.

In the course of this work, the National Equity Project has developed tools and processes to build leadership capacity for guiding equity focused reform while addressing institutional resistance to change. Our Leading for Equity (LFE) programs build leadership at any formal level of an organization through the development of cultural competence, emotional intelligence, communication and relationship skills, and a deep understanding of the effects of underlying beliefs on behavior and performance. Through supportive, blame-free institutes and coaching, LFE helps clients understand and address racial and cultural dynamics that impede the success of change efforts and perpetuate racial inequities.
