ATTACHMENT A-2

SUBROGATION AGREEMENT

This Subrogation Agreement is made and entered into this 1st day of June, 2022 by and between the OAKLAND UNIFIED SCHOOL DISTRICT, hereinafter referred to as “OUSD”, and GEORGE HILLS COMPANY, INC., hereinafter referred to as “GH”.

I.GH does not handle subrogation claims with a value of less than \$1000. For those claims in excess of \$1000, OUSD may,:

a. Authorize GH to act as a representative of OUSD for the investigation, adjustment, processing, supervision and evaluation of an ultimate recovery of potential money from damage claims against parties for whom it is alleged to be legally responsible.

b. Authorize GH to engage the services of a litigation attorney to consult, review, and determine the best legal strategy available at the time to obtain the best possible result for OUSD. Upon determination by the attorney that a civil action is in the best interest of OUSD, GH will notify OUSD and obtain authorization to pursue recovery in accordance with the recommendations of the litigation attorney.

c. While GH is handling a subrogation claim for OUSD pursuant to the terms of this Contract, the institution of a civil action is determined by OUSD to be the best course of action, OUSD may elect to do so at OUSD’s own expense.

i. Recall the claim to OUSD’s control so that OUSD may pursue recovery in a manner to be determined by the OUSD’s attorney to be in the best interest of the OUSD.

ii. In the event OUSD recalls the claim as indicated above, OUSD shall be responsible for payment to GH for any and all time and expense incurred by GH’s subrogation claim adjuster and/or other subrogation division staff up to the time wherein the claim has been recalled by OUSD.

II.OUSD will pay a Subrogation Fee in the amount of 30% for each and every recovery obtained. The minimum amount to be paid to GH will be \$250 per claim upon recovery. However, GH has the authority to reject any claim for any reason, relieving OUSD of any fiscal responsibility for rejected claims only.

a. Generally, no recovery shall be agreed to involving payment plans if the recovery is less than \$5,000 and/or greater than a one-year term. Exceptions can be made on a case-by-case basis. If a recovery is agreed to exceed this amount and/or length of time, Subrogation fee shall be 45%. In the event a payment plan is authorized and entered into, the subrogation fee will be based upon the total amount of the lien and will be invoiced to the OUSD upon the entry of the payment agreement. GH will make every attempt to enforce the provisions of the payment agreement with the claimant, but in no way guarantees the fulfillment of the terms of the payment agreement. In the event the terms of the payment agreement are not fulfilled and

warrant pursuit through the small claims process, authority to pursue through small claims will be requested.

b. Authorize GH to appear in small claims court for recovery of funds. Authority for the pursuit of recovery through small claims will be requested prior to the filing of documents with the court to initiate the small claims action. Each appearance will be an additional fee of \$150. All costs for the handling of small claims court actions, i.e. service of process of documents on the responsible parties, mileage, parking, and toll shall be an additional cost and will be the responsibility of the OUSD. Additional allocated costs shall be billed separately upon the cost being incurred, such as, but not limited to: skip tracing, service of process, and third-party sub contracted investigation.

c. GH reserves the right to cease working on any claim whereas information has not been made available to GH within 120 days after GH has submitted the information and/or documentation request to OUSD, at such time the claim will be closed.

d. Due to the nature of these services, in that compensation is contingent upon recovery, if the contract is terminated prior to recovery or other closure of any claim, the OUSD shall pay GH for all expenses and time spent, to date, on any claim(s) currently open and recovery in process. Payment shall be based on the current hourly rate of GH. GH will submit the final invoice within five business days of termination.

ATTACHMENT D ALLOCATED EXPENSES

Typically, allocated expenses are those expenses that are generated by a claim (by outside vendors other than George Hills) that cannot be foreseen nor included in an agreement. These are generally allocated back to the specific claim file for which the cost was incurred and then charged back to the entity whose claim incurred that cost. In most situations are pass-through costs (with processing fees) for services and/or fees not directly generated by the TPA, but rather by a third-party consultant where the TPA has acted as an agent on behalf of the entity to necessarily outsource services to a third-party consultant and/or miscellaneous fees applicable to the specific claim applied by an outside entity, such as a court or copy service. Below, George Hills has provided a list, by no means an exhaustive list, of typical allocated expenses.

- Fees of outside counsel for claims in suit, coverage opinions, and litigation, and for representation and hearings or pretrial conferences;
- Fees of court reporters;
- All court costs, court fees, and court expenses;
- Fees for service of process;
- CMS reporting costs and fees (ExamWorks);
- Costs of undercover operatives and detectives;
- Costs for employing experts for the preparation of maps, professional photographs, accounting, chemical or physical analysis, or diagrams;
- Costs for employing experts for the advice, opinions, or testimony concerning claims under investigation or in litigation for which a declaratory judgment is sought;
- Costs for independent medical examination or evaluation for rehabilitation;
- Costs of legal transcripts of testimony taken at coroner's inquests, or criminal or civil proceeding;
- Costs for copies of any public records or medical records;
- Costs of depositions and court reporting;
- Costs and expenses of subrogation, (if not George Hills);

- Costs of engineers, handwriting experts, or any other type of expert used in the preparation of litigation or used in a one-time basis to resolve disputes;
- Witness fees and travel expenses;
- Costs of photographers and photocopy services (if not George Hills—our costs for this is included in our rate);

GENERAL INFORMATION AND SUBMITTAL INSTRUCTIONS

GENERAL INFORMATION ABOUT THE OAKLAND UNIFIED SCHOOL DISTRICT

The District is located in and is approximately coterminous with the City of Oakland, California, located on the east side of the San Francisco Bay, approximately 10 miles from San Francisco. The District's boundaries also include small portions of the neighboring cities of Emeryville and Alameda.

The Oakland Unified School District (District) operates under a locally-elected seven member Board form of government and provides educational services to grades CDC/Pre-K - Adult. The District operates eighteen (18) child development centers, forty-seven (47) elementary schools, eleven (11) middle schools, ten (10) high schools, five (5) K-8, four (4) K-12, six (6) alternative education and other programs as well. The District serves approximately 36,886 students.

The District reserves the right to issue other contracts to meet its requirements. Contract award does not preclude the District from using any other service providers for the same contracted services as those secured through this RFP. An underlying principle of this RFP is best value. Best value is determined through a process that evaluates strengths, weaknesses, risks and exemplary customer service.

PROJECT BACKGROUND AND OBJECTIVES

The District seeks to contract with an experienced company (Third Party Administrator ("TPA")) to provide property and liability claims adjusting services. The District's goal is to contract with a TPA that is responsive to the District's needs and is goal oriented, dedicated to high standards of administration, and capable of developing a cost effective and proactive liability administration program. The information contained in this Request for Proposal ("RFP") outlines the requested services; submittal instructions; the materials to be included; and mandatory requirements which must be met to be eligible for consideration.

The District intends to award a two (2) year contract with an option to extend for up to 2 additional years. At the end of the term, the District may issue a new RFP. The contract will begin on July 1, 2022, with the selected TPA required to commit to the District no later than April 1, 2022 to work with the District and its current TPA to allow for transfer of files, development of claims management information system, building electronic interface with the District's Legal and Risk Management departments, and testing and set-up.

The District's current TPA is Cannon Cochran Management Services, Inc. ("CCMSI"),

which has served in that capacity since approximately May 2015. CCMSI has historically assigned the District two (2) to three (3) adjusters who primarily handle the adjusting services. CCMSI works closely with and reports to the General Counsel’s office regarding liability claims, and works closely with and reports to the Risk Management office regarding property damage claims. The District handled adjusting property and liability claims in-house for many years prior to contracting with CCMSI.

The TPA would work closely with the District’s General Counsel and Risk Management Departments. The TPA would serve as a central component of an integrated, multi-disciplinary, property and liability claims program in a manner intended to minimize duplication and staff/resource impacts, and to maximize program flexibility.

As explained in more detail below, the TPA would be responsible for tracking and investigating incidents, complaints, responding to claims, as well as providing guidance and recommendations as to strategies for reducing costs. In addition, the TPA would, as requested or necessary, provide litigation support, as feasible, including investigative services, coordination with any assigned outside defense counsel, and handling small claims actions. The TPA would be expected (as necessary and/or requested) to attend District-related settlement and mediation conferences and hearings on cases and to provide direction and/or recommendations based upon past claims and litigation ADR experience.

The following table shows a five-year history of the following incident and claims-related activity for the District:

Fiscal Year	Liability Incidents Referred to TPA by OUSD	Liability Claims Filed Against OUSD	OUSD Liability Claims Reported to JPA	Property Claims Filed Against OUSD	Property Claims Reported to JPA	Employee Reimbursement Claims
2016-2017	193	133	79	41	27	19
2017-2018	179	126	8	29	1	24
2018-2019	274	178	3	23	0	27
2019-2020	173	131	2	7	1	14
2020-2021	118	69	0	9	1	10

The District will provide additional data to any TPA who requests it, as such data is available. An interested TPA’s request for the data should be directed to Rebecca Littlejohn at rebecca.littlejohn@ousd.org. An interested TPA must allow for up to three (3) business days for the data to be provided.

The parties hereby agree as follows:

1. Term.

a. This Agreement shall start on the below date (“Start Date”): If no Start Date is entered, then the Start Date shall be the latest of the dates on which each of the Parties signed this Agreement.

b. The work shall be completed no later than the below date (“End Date”): If no End Date is entered, then the End Date shall be the first June 30 after the Start Date. 2. Services.

VENDOR shall provide the services (“Services”) as described in #1A and #1B of Exhibit A, attached hereto and incorporated herein by reference. To the extent that there may be a school closure (e.g., due to poor air quality, planned loss of power, COVID-19) or similar event in which school sites and/or District offices may be closed or otherwise inaccessible, VENDOR shall describe in #1B of Exhibit A whether and how its services would be able to continue.

In accordance with Paragraph 8 (Compensation), the Services performed by Vendor must meet the approval of OUSD, and OUSD reserves the right to direct VENDOR to redo the Services, in whole or in part, if OUSD, in its sole discretion, determines that the Services were not performed in accordance with this Agreement.

5. Data and Information Requests.

VENDOR shall timely provide OUSD with any data and information OUSD reasonably requests regarding students to whom the Services are provided. VENDOR shall register with and maintain current information within OUSD's Community Partner database unless OUSD communicates to VENDOR in writing otherwise, based on OUSD's determination that the Services are not related to community school outcomes. If and when VENDOR's programs and school site(s) change (either midyear or in subsequent years), VENDOR shall promptly update the information in the database.

6. Confidentiality and Data Privacy.

a. OUSD may share information with VENDOR pursuant to this Agreement in order to further the purposes thereof. (ii) If VENDOR is not a software vendor, it agrees to access or receive identifiable student data, other than directory information, only after executing the OUSD Data Sharing Agreement (available here).

(iii) Notwithstanding Paragraph 28 (Indemnification), should VENDOR access or receive identifiable student data, other than directory information, without first executing a separate data sharing agreement, VENDOR shall be solely liable for any and all claims or losses resulting from its access or receipt of such data.

c. All confidentiality requirements, including those set forth in the separate data sharing agreement, extend beyond the termination of this Agreement.

7. Copyright/Trademark/Patent/Ownership.

VENDOR understands and agrees that all matters produced under this Agreement, excluding any intellectual property that existed prior to execution of this Agreement, shall be works for hire as defined under Title 17 of the United States Code, and all copyrights in those works are the property of OUSD. These matters include, without limitation, drawings, plans, specifications, studies, reports, memoranda, computation sheets, the contents of computer diskettes, artwork, copy, posters, billboards, photographs, videotapes, audiotapes, systems designs, software, reports, diagrams, surveys, source codes or any other original works of authorship, or other documents prepared by VENDOR, its employees, or its subcontractors in connection with the Services performed under this Agreement. - c. Payment for Services shall be made for all undisputed amounts no more frequently than in monthly installment payments within sixty (60) days after VENDOR submits an invoice to OUSD, in accordance with Paragraph 10 (Invoicing), for Services actually performed and after OUSD's written approval that Services were actually performed. The granting of any payment by OUSD, or the receipt thereof by VENDOR, shall in no way lessen the liability of VENDOR to correct unsatisfactory performance of Services, even if the unsatisfactory character of the performance was not apparent or detected at the time a payment was made. If OUSD determines that VENDOR's performance does not conform to the requirements of this Agreement, VENDOR agrees to correct its performance without delay.

- d. Compensation for any Services performed prior to the Start Date or

after the End Date shall be at OUSD's sole discretion and in an amount solely determined by OUSD. VENDOR agrees that it shall not expect or demand payment for the performance of such services.

e. VENDOR acknowledges and agrees not to expect or demand payment for any Services performed prior to the Parties, particularly OUSD, validly and properly executing this Agreement until this Agreement is validly and properly executed and shall not rely on verbal or written communication from any individual, other than the President of the OUSD Governing Board, the OUSD Superintendent, or the OUSD General Counsel, stating that OUSD has validly and properly executed this Agreement.

b. If OUSD, at its sole discretion, determines an invoice fails to include the required elements, OUSD will not pay the invoice and will inform VENDOR of the missing items; VENDOR shall resubmit an invoice that includes the required elements before OUSD will pay the invoice.

c. Invoices must be submitted monthly, and within 30 days of the conclusion of the applicable billing period, unless otherwise agreed. OUSD reserves the right to refuse to pay untimely invoices.

d. OUSD reserves the right to add or change invoicing requirements. If OUSD does add or change invoicing requirements, it shall notify VENDOR in writing and the new or modified requirements shall be mandatory upon receipt by VENDOR of such notice.

e. To the extent that VENDOR has described how the Services may be provided both in-person and not in-person, VENDOR's invoices shall—in addition to any invoice requirement added or changed under subparagraph (c)—indicate whether the Services are provided in-person or not.

f. All invoices furnished by VENDOR under this Agreement shall be delivered to OUSD via email unless OUSD requests, in writing, a different method of

Bidder shall not engage in unlawful discrimination in employment on the basis of actual or perceived; race, color, national origin, ancestry, religion, age, marital status, pregnancy, physical or mental disability, medical condition, veteran status, gender, sex or sexual orientation.
2. Errors and Omissions – If a bidder discovers any ambiguity, conflict, discrepancy, omission, or other error in the RFP, the bidder shall immediately notify the District of such error in writing and request clarification or modification of the document. Modifications will be made by addenda. Such clarification shall be given by written notice to all parties who have been furnished an RFP for bidding purposes, without divulging the source of the request for the same. Insofar as practicable, the District will give such notices to other interested parties, but the District shall not be responsible therefor. If a bidder fails to notify the District, prior to the date fixed for submission of bids, of an error in the RFP known to them, or an error that reasonably should have been known to them, they shall bid at their own risk; and if awarded the contract, the bidder shall not be entitled to additional compensation or time by reason of the error or its later correction. The bidder should carefully examine the entire RFP and addenda thereto, and all related materials and data referenced in the RFP or otherwise available to them, and should become fully aware of the nature and location of the work, the quantities of the work, and the conditions to be encountered in performing the work.
3. Bidder Agreement – In compliance with this RFP, the bidder will propose and agree to furnish all labor, materials, transportation, and services for the work described and specifications and for the items listed herein. A bid is subject to

7. Extra Work – No bill or claim for extra work or materials shall be allowed or paid unless the doing of such extra work or the furnishing of such extra materials shall have been authorized in writing by the District's Director of Transportation.

8. Defense, Indemnity & Hold Harmless – Contractor shall indemnify, hold harmless and defend OUSD and each of its officers, officials, employees, volunteers and agents from any loss, liability, fines, penalties, forfeitures, costs and damages (whether in contract, tort or strict liability, including but not limited to personal injury, death at any time and property damage) incurred by OUSD, Contractor or any other person and from any claims, demands and actions in law or equity (including attorney's fees and litigation expenses), arising or alleged to have arisen directly or indirectly out of performance of this Agreement. Contractor's obligations under the preceding sentence shall apply jointly and severally regardless of whether OUSD or any of its officers, officials, employees, volunteers or agents are actively or passively negligent, but shall not apply to any loss or liability, fines, penalties, forfeitures, costs or damages caused solely by the active negligence or by the willful misconduct of OUSD. If Contractor should subcontract all or any portion of the work or activities to be performed under this MOU, Contractor shall require each subcontractor to indemnify, hold harmless and defend OUSD, its officers, officials, employees, volunteers or agents in accordance with the terms of the preceding paragraph. Contractor also agrees to hold harmless, indemnify, and defend the District and its elective board, officers, agents, and employees from any and all claims or losses

incurred by any supplier, Contractor, or subcontractor furnishing work, services, or materials to Contractor in connection with the performance of this Agreement. This provision survives termination of this Agreement.

9. Disposition of Proposals – All materials submitted in response to this RFP will become the property of the District, and will be returned only at the District's option and at the bidder's expense. The original copy shall be retained for official files and will become a public record after the date and time for final bid submission as specified.

10. Terms of the Offer – The District's acceptance of Bidder's offer shall be limited to the terms herein unless expressly agreed in writing by the District. Proposals offering terms other than those shown herein will be declared non-responsive and will not be considered.

6. George Hills agrees that it is responsible for the protection of the confidentiality, availability, privacy and integrity of OUSD’s information in our custody. George Hills has implemented an Information Security Policy that has been developed to comply with applicable federal and state laws or regulations and industry best practices. We agree that the Information Security Policy applies to all our personnel, including temporary employees, independent contractors and vendors with access to our systems.
7. George Hills will use technological platforms currently in use by OUSD, such as Google Documents, Google Sheets, and Zoom.

J. Reporting and Audits

1. George Hills agrees that we will review on a quarterly basis selected OUSD matters with OUSD's General Counsel Designee(s) and Risk Management Officer, respectively, and/or other designated OUSD officials to discuss the status of ongoing matters and to make case strategy recommendations.
2. George Hills will provide the following reports on a monthly basis – (a) a detailed listing of all open matters (segregated by uniform complaints/incident reports, Government Code claims, and lawsuits) broken down by type of matter, location, date of incident, line of coverage, and such other fields as may be reasonably requested by OUSD; (b) a summary of all claims broken down by location, policy year and line of coverage; (c) a check register listing all checks issued during a reporting period; (d) all payments to outside counsel from the beginning of each fiscal year; and (e) any reports mutually agreed between George Hills and OUSD. Please see a sample report in the XX section.
3. George Hills will provide monthly statistical reports on claims (i.e., open claims, closed claims, and financial reports) on all fees and costs paid on liability claims in a form acceptable to OUSD's General Counsel Designee(s) and Risk Management Officer, respectively. Standard, custom and ad-hoc reports shall be furnished to OUSD at no additional cost, up to four hours (is that right?—we have it in our admin) of programming time.. Reports identified by OUSD shall automatically be generated at the intervals and distributed to the identified parties, as specified by OUSD. George Hills is developing a Portal where all of these reports will be housed and maintained for OUSD access.
4. George Hills will comply with all reporting requirements of OUSD's excess carrier administrator. Requirements include notifying, on a timely basis, OUSD and OUSD's excess carrier administrator of any claims that may exceed OUSD's self-insured retention and/or that meet the reporting requirements of the excess insurer. We agree that such notification shall be by email to OUSD and the insurer and a first report notice shall be submitted to the excess carrier administrator with a copy to OUSD's General Counsel Designee(s) and Risk Management Officer, respectively. We will provide documents to auditors and actuaries upon request. To ensure a high-quality work product, we also agree, upon request, to cooperate, assist and meet with OUSD's General Counsel Designee(s) on audits conducted by OUSD's Office of the General Counsel, Risk Management Department or Excess Carrier administrator.
7. George Hills agrees that OUSD will periodically audit OUSD's claims, to include but not be limited to, the settlement fund and claim file data. The audit will include, but not necessarily be limited to, our compliance with established procedures and controls; prompt, thorough, well documented claims investigations; adjusting expertise consistent with industry standards; settlement; file documentation; and reserves management.

K. The TPA's Retention of Support Services

1. OUSD's Risk Management Officer must pre-approve expenditures for support

services which exceed \$500 (Five Hundred Dollars) for a specific service per claim. In selecting support services such as copy services, investigators, experts/consultants and similar providers for handling claims, the TPA shall with OUSD's local business policy. Specifically, in order to provide economic opportunity for Oakland residents and businesses, and stimulate economic development in Oakland, OUSD has implemented a Local, Small Local and Small Local Resident Business Enterprise Program. This is defined in OUSD Administrative Regulation 7115, which includes all details on that program.

L. Closed Files

1. Matters shall be deemed "closed" as follows:
 - a. A uniform complaint or incident report is deemed "closed" when the deadline for filing a Government Code claim has expired, and no such claim has been filed, or when the matter is resolved by settlement.
 - b. A Government Code claim shall be deemed "closed" when the deadline for filing a lawsuit has expired, and no such lawsuit has been filed, or when the matter is resolved by settlement.
 - c. A lawsuit shall be deemed "closed" when the lawsuit is dismissed, the deadline for filing an appeal has expired, and no such appeal has been filed.
2. George Hills, as your TPA, will maintain all closed claim files on behalf of OUSD for a period of fifteen (15) years after the month of closure, or for as long as necessary to protect the applicable statute of limitations, whichever is longer. George Hills agrees that any closed file can be retrieved within 24 hours of us receiving a request from OUSD. We agree that closed claims related to sexual abuse/molestation of a minor shall be maintained indefinitely by George Hills and shall be subject to the 24-hour provision requirement set forth above.

M. Additional Terms

1. George Hills will use the standard/form templates approved by OUSD in managing uniform complaints, incident reports, Government Code claims, and lawsuits, to the extent such approved standard/form templates exist.
2. George Hills agrees that it is the adjuster of record and shall track data using OUSD, as well as excess carrier/excess carrier administrator, and/or industry standard loss and payment codes. George Hills will maintain confidentiality of OUSD claims information.
3. On occasion, OUSD requires special services be provided. Should there be a need for such services, George Hills and OUSD agree to negotiate the cost for said services. Said costs will be independent of the annual agreement fee and shall be paid as an allocated claim expense.
4. George Hills agrees that OUSD reserves the right to discuss modifications and additions to the agreed-upon services throughout the term of this Agreement. Should additional services become desirable, OUSD and George Hills will negotiate the terms of such desired services, as appropriate. If George Hills is unable to provide the desired services in a manner acceptable to OUSD, OUSD may identify an alternate service provider and obtain the services in a manner agreeable to all involved parties.

APPROACH TO SCOPE OF WORK

George Hills has provided a broad approach to our strategy for reducing the amount paid out.

Provide a detailed strategy to reduce the amount paid out. The reality is, until we are engaged as your TPA and have an enriched understanding of OUSD, its environment, community, and claims history we cannot provide a specific strategy. George Hills Purpose Statement is Protect the Asset of our Clients. At our foundation, that is what we do. In addition, many of our firms Values, Staffing and Staff Training, and Best Practices all lead to the best possible outcome. Here are a few strategies we currently employ for our clients:

A. Each claim submitted is reviewed by an experienced public entity supervisor and adjuster on a regular basis to determine:

- 1) What is the potential of this claim? Conduct an early, aggressive investigation to determine all details/ facts of the case
- 2) What are the facts? Identify all avenues for tender; Identify all co-defendants
- 3) Who is the best source of information as to any particular fact? Identify all applicable defenses/ immunities
- 4) Maintain contact and develop a rapport with claimant or counsel; Secure all necessary documentation to evaluate the claim.
- 4) How much is enough? Evaluate strengths and weaknesses in the case to determine OUSD's exposure
- 5) Does the file speak for itself? Move to reject or resolve claim based on the evaluation

B. George Hills believes that timely investigation and communication form the cornerstone of good claims handling. We require 24-hour contact of a client/insured and claimant and 48-hour contact of witnesses, seven-day preliminary reports to the client, and thirty-day full captioned reports. If our investigation causes us to believe the matter is a case of liability against the insured/client, we investigate damages, whether they involve property damage or bodily injury.

C. George Hills believes early contact of all involved parties helps maintain lines of communication and rapport, not only with the insured/client, but also with the claimant; hence, opportunities to resolve our claims early on are more easily had with claimants with whom the adjuster has developed that rapport.

D. George Hills recognizes that the a George Hill's adjuster's job does not end when a case is in litigation becomes litigated. Rather, our adjusters work together with defense counsel to determine the most cost-effective way to gather facts, evaluate liability, and determine damage on items or in areas that remain following our initial investigation. We believe the team approach to litigation management is more effective not only because of the sharing of thoughts and ideas, but also the sharing of responsibility. We believe, it should not become standard procedure to simply routinely forward interrogatories, subpoena records, and take depositions. With our process, limited discovery shortens the life of claims. Early mediation, in fact, is

often used to replace depositions, not only saving the cost of litigation, but helping move the matter towards a quicker resolution. With this end in mind, every George Hills file “speaks for itself” and contains correspondence generated by any and all parties to the loss, statements/interview summaries, photographs where applicable, medical reports and billings, repair estimates, etc.

E. To be certain the economics of claims handling is always in the forefront of George Hills’ claims adjusters, our policy mandates defense budgets be presented by defense counsel and monitored by our adjusters. Moreover, our adjusters are trained to review Reserves (both Indemnity and Expense) with each Diary and Status Report.

F. The handling of claims at the client services levels puts great emphasis on communication—from processing, through document flow and settlement, to ensure all parties are always provided appropriate information in a timely, efficient, and effective way. We work as a team with a client’s loss control staff, our mutual intent being appropriate and fair settlement, the prevention of loss, and the lessening of the severity of any one claim. Supported by our technology & reporting modules, George Hills client services staff is able to guide and support clients in a very cost effective, timely manner.

Provide a detailed transition plan which will ensure the continuance of uninterrupted services to the District and its claimants/litigants. Include in this plan the name/title of the primary and alternate contact person(s), transition timeline, necessary resources for efficient transition and transition costs, if any.

Transition Plan: The transition from one TPA to another can be daunting, but George Hills’ transition process eases the changeover. Once we have been awarded the contract, we will assemble our Onboarding Team which will be led by Chris Shaffer. He is the point of contact for the OUSD, George Hills, and the exiting TPA. We begin this process by meeting with the OUSD to establish the Client Transition Team, review our onboarding process, set activity target dates, and confirm our onboarding meeting schedule. The next step is for George Hills to discuss our TPA Transfer Instructions with the exiting TPA. Finally, our Transition and Implementation Plan is our roadmap to direct us through the steps necessary to complete the transition successfully. The majority of the action items listed in this document will be completed before our contract begins. We encourage weekly meetings to discuss the transition progress. These weekly meetings will include a brief update from each member of our Onboarding team. Our transition process concludes 90 days after our contract begins, and after we meet with OUSD to discuss the implementation process and solicit feedback. **There is no charge for electronic data conversion if OUSD stays with George Hills for five years.**

Describe in detail the TPA's management system and staff experience with converting claim and financial records data from former TPAs to your proposed system. Provide the client's company name, type of system converted from, contact name and phone number, and detail whether or not you have ever converted claim and financial records data from the District's current TPA provider.

Management System and Staff Experience with Data Conversions

George Hills understands that data conversion is an important, integral part of account transition. Conversion and retrieval include the cost of converting data from the current system utilized by OUSD to George Hills' CMIS, Claims XPress. Conversion is led by our experienced George Hills' data conversions team and they have performed several data conversions from all types of claims systems. George Hills has converted claim and financial data from the District's current TPA provider.

Time frame for data transfer is based on amount of historical claim data to be transferred at time contract is awarded, generally less than two months. We will coordinate the transfer of physical files in our initial meetings with OUSD as well as review any claims that may be of an unusual nature or need special handling due to either exposure or complexity of loss. As has been mentioned previously, George Hills' experienced adjusters will prioritize the claims as per case severity and complexity to make sure that each file at the time of transfer is handled properly.

Previous Data Conversion from the District's Current TPA Provider

George Hills IT staff has cumulative experience of several decades exposure to claims and risk management systems employed by TPA's and self-insured public entities in California. Edward Slofkosky, George Hills' data conversion specialist, began converting data from competing TPA's in the early 1990s during his long tenure at Claims Management, Inc. Chris Shaffer, George Hills' COO also has been converting data from TPAs all over California beginning in 1993 at Gregory B. Bragg and Associates. Both Edward and Chris

worked together at York Risk Services Group, where they converted claims data and provided oversight on dozens of claim system conversions, including those from the district's current TPA. Edward and Chris have seen every commercially available system and most proprietary systems used by all major and regional TPAs in the US. The most recent conversion from the current TPA that Edward and Chris worked on was that from The City of Salinas which was performed in 2018. Since joining George Hills in 2018 and 2019 respectively, neither Chris nor Edward have had the opportunity to perform a data conversion from the current TPA's system. However, the team at GH stands ready and is poised to put their vast experience to work to provide a risk free and seamless transition from the current TPA's system.

Describe in detail the TPA's plan for ensuring the District is in full compliance with its obligations under the MMSEA Set Aside requirements.

MMSEA Set Aside: George Hills acknowledges we will comply with the mandatory reporting requirements of Section 111 ("Medicare Secondary Payer") of the Medicare, Medicaid and SCHIP Extension Act of 2007 (MMSEA). We have contracted with a highly respected and well-known MMSEA firm, ExamWorks Clinical Solutions, for work in this area and have created an internal Medicare Compliance Team, responsible for knowing MSP, SCHIP, MIR, and Medicare Set Aside Allocation policy, rules, and updates. ExamWorks performs the MMSEA Mandatory Insurer Reporting function for George Hills and our clients. The team acts, in accordance with our MMSEA firm's support, to ensure George Hills is compliant with Medicare regulations. It responds immediately to George Hills Medicare-related questions, concerns, or challenges, ensuring all necessary paperwork and documentation are completed in a timely manner and that all monthly data and progress reports are accurate and current.

Describe in detail the TPA's experience with reporting and interacting with excess liability insurers to ensure the District remains in full compliance with reporting requirements, and detail whether or not you have worked with the District's JPA, Northern California ReLiEF.

George Hills has experience and has interacted with several excess insurance carriers for member school districts in the Ventura County Schools Self-Funding Authority, as well as for the Los Angeles Unified School District. Prompt notice is given to the carriers for any occurrence or accident which appears likely to involve their layer of coverage. Also, carriers are immediately advised of all developments likely to materially affect the interests of the carrier, as well as those involving specified criteria (Death, loss of limb, etc.) regardless of liability.

Reporting and Interacting with Excess Liability Insurers: George Hills will notify on a timely basis, OUSD and excess carrier administrator of any claims that may exceed the District's self-insured retention or meet the reporting requirements of the excess insurer. Such notification shall be by telephone, followed in writing to OUSD and the insurer and a first report notice shall be submitted to the excess carrier administrator with a copy to OUSD. All subsequent communications shall be copied to OUSD. George Hills will notify the excess carrier or its administrator on behalf of OUSD in accordance with the specific requirements of the excess carrier, and will work directly with OUSD in obtaining financial information for recovery from the excess carrier.

George Hills believes in the "when in doubt report" providing the excess carrier with perhaps, on some occasions more information that it needs or requires. We would rather over-report than under-report.

List and describe the features that distinguish the TPA from other third party administrators.

ALLOCATION OF PERSONNEL

Discuss the allocation of personnel the TPA will use to staff a dedicated claims unit to manage and adjust District claims. Describe the title, function and minimum ongoing training/experience requirements.

Proposed Team: George Hills is proposing the following team for this contract. Our in-house litigation team and subrogation recovery services are optional services that are available to OUSD.

George Hill’s proposed OUSD team is a strong differentiator. We selected the professionals to service OUSD because they have decades’ worth of experience, training, and knowledge in dealing with claims and litigation against public entities—including school districts. Most adjusters hold BA or MA degrees, and/or certifications and designations including Associate in Risk Management (ARM); Registered Professional Adjuster (RPA); Casualty Claim Law Associate (CCLA); Workers' Compensation Claims Professional (WCCP); California Self-Insured Administrator Workers' Compensation (SIA); American Institute of Certified Public Accountants (AICPA).

Each proposed GHC/OUSD team member’s workflow and case load is collaborative, balanced, and supported at the primary and investigative levels, as well as checked at the supervisory and quality control levels. All members of the team have extensive relations with defense/plaintiff counsel throughout California, are highly experienced in issues involving the coordination of ADA claims, as well as fire, police, and public works. George Hills requires that client TPA members receive ongoing updates (via emails, webinars, newsletters, as well as conference and forum participation) on current California Government Codes and Legislation, and changing regulations at local, state, and federal levels having direct effect on George Hills’ client base. **All of our supervisors and claim adjusters have completed our comprehensive training program, George Hills Claims University (GHCU) and have earned a Public Entity Claims Professional (PECP) certification. Details on this program are highlighted below.**

George Hills Claims University (GHCU)

It is George Hills's philosophy to deliver a comprehensive and effective training program for our Claims Administration Division (CAD) that aligns with the Vision, Values, and Goals of the Company. By utilizing internal and external resources, our program is cost-effective and presents relevant technical information.

The genesis of GHCU was the reality that students were not going to college to seek a career in insurance claims adjusting and even less in claims adjusting in the public sector. We felt an obligation to attempt to establish a sustainable education forum to continue to have knowledgeable and experienced public entity adjusters.

Currently, we use the University to train all staff in order to get the Public Entity Claims Professional Certificate. This is used upon the hiring of all new staff to ensure each client will have a trained adjuster on their team. Our next phase will be to expand for the use of our clients, and eventually the use of the public. Our training ensures all of our claims staff receive the information and skills to perform the duties of their position successfully.

GHCU was launched using a Learning Management System (LMS) to provide continuous matriculation for our current and future employees. Upon completion of the training courses and successfully passing the exam, individuals will be awarded a certificate and Public Entity Claims Professional (PECP) designation.

George Hills Claims University is available to our clients. If the District expresses interest in our training program, we are pleased to make the courses available to them.

George Hills Additional Training programs includes:

- Monthly training sessions facilitated by industry experts on current and emerging claims related topics like legislative changes, new case laws, and claim trends. We also use this monthly session to refresh our claims administration staff on industry and internal best practices.
 - The recent CA Supreme Court decision on the City of Oroville sewer loss/inverse condemnation case was a recent topic for one of our sessions
- Annual two-day, in-person event for all claims staff, targeted at technical training, overall staff development, and team building. This annual session includes in-depth training and panel discussions on claims technical topics, claim system utilization, and corporate issues. A sample event included discussion about AB 218 - the recent legislation extending the statute of limitations for childhood sexual abuse and molestation claims.

- Online resources and training through George Hills Learning Management System. This Learning Management System is a robust resource/reference library for a wide variety of claims and risk management technical topics as well as structured training courses ranging from entry-level to advanced.
- Company-paid training courses leading to Associate in Claims (AIC) and other pertinent professional designations.
- Active participation in industry associations such as PARMA, CAJPA, League of California Cities, CSAC, AGRiP, and CLM. George Hills encourages employee attendance at their annual conferences and other training events throughout the year.

George Hills is ready and willing to adjust our training program to meet the specific needs and goals of the District.

ASSIGNMENT OF CLAIMS

Explain the TPA's current policies regarding the assignment of claims to each claims supervisor, claims examiner and claims assistant. Include a description of the number and types of claims assigned to each position.

The case load of a GHC claims adjuster/examiner is usually based on the complexity of his/her claims. Typically, GHC claims adjuster caseloads are 50-75 pending files; senior bodily injury adjusters' case loads are 125-150 pending files; and senior property adjusters' case loads are 85-100 pending files. GHC adjusters handling auto, property, and subrogation claims average between 100 and 125 pending files. We attempt to impose a maximum case load of 150 pending files, but we recognize there are often times files on an adjuster's pending list that are dormant, especially for public agencies when files sometimes remain open simply awaiting expiration of the statute following a claim rejection. Having several adjusters available to handle OUSD claims allows flexibility in assignments such that no one adjuster's workload becomes overbearing. (It also gives OUSD coverage through vacations and illness in that one GHC adjuster will be able to cover for another.) GHC will always have adjusters on standby.

EXAMPLES OF EFFECTIVE CLAIM RESOLUTION

Provide three (3) examples of what you consider effective claim resolution within the last 24 months, and why you believe these resolutions were effective.

Los Angeles Unified School District (LAUSD)

We received a claim asserting that a female claimant was bullied and inappropriately touched on multiple occasions at school while traveling to and from school on a contracted bus. We conducted a prompt and thorough investigation, which confirmed multiple prior similar incidents involving the same students at the school site, as well as during the transport from school on a contracted bus. Our investigation revealed that school staff had prior knowledge of the ongoing issues between these students at the school site. Despite this knowledge, staff failed to take affirmative steps to address the situation, which allowed the behavior to continue. We immediately placed the contracted bus company on notice of the claim who turned the matter over to their carrier. We engaged the carrier as well as claimant's attorney throughout the investigation. Ultimately, we secured District authority to approach the bus company's carrier to try and resolve the matter with equal contribution by the District and the carrier up to \$50k each. The bus company's insurance carrier agreed to our proposal and allowed us to assume control of the negotiations for both the District and the insurance carrier. The case ultimately settled prior to litigation for \$30k (District and the insurance carrier each contributed \$15k). This was an extremely beneficial

settlement based on the known facts from the prompt and thorough investigation. The settlement amount for this type was favorable to both the District and bus company. It also saved the District several thousands in legal fees and expenses associated with litigation.

Ventura County Schools Self-Funding Authority (VCSSFA)

A student-athlete on the school's wrestling team was transported by coaches without parental consent to an offsite location for hydration testing. During this time, members of the team engaged in horseplay wherein another student accidentally pushed the claimant's face into a drinking fountain as he was getting a drink of water causing him to sustain a dental injury that required emergency treatment and future dental care. We immediately engaged claimant's mother and remained in contact with her throughout the process. We also engaged claimant's dental provider who provided worked with us to provide a reasonable treatment plan. We were able to agree on an amicable resolution of the matter for \$20k. Once the agreement was reached, we engaged panel counsel to assist in securing a court approved minor's compromise. This was an extremely reasonable settlement based on the liability issues and injuries sustained by the claimant. By engaging claimant's mother early, we were able to avoid her securing counsel that would have driven the case value higher and forced the matter into litigation.

Schools Insurance Group (SIG)

George Hills received a claim from Roseville Joint Union High (SIG) with allegations of loss of hearing by a high school cheerleader. The student contends that she was placed near a loudspeaker while attending a cheer competition, resulting in hearing being permanently altered. The student claims to have informed staff that she was experiencing discomfort and requested she be removed from the area which was denied.

The transfer of risk potential existed with a third-party vendor for the alleged injuries. This vendor was involved in the volume and set-up of the equipment related to this claim. It has been discovered through medical records review and IME that the student has a genetic hearing problem, and it was not caused by a traumatic event. It was crucial in this claim to obtain an expert early in the claim stage to defend the allegations. Further, locating vendors within the event was important to determine responsibility and contribution to the defense of the claim.

STANDARD RATIO FOR CASE CLOSURES

Discuss the TPA's standard ratio for case closures as relates to new claims.

It is always the goal to maintain a 100% closing ratio of existing to new claims on a monthly basis. With that goal in mind, there can be times where an unexpectedly high number of new claims, a catastrophic loss, a trial or other unusual event(s) could limit the adjuster's ability to achieve the 100% ratio in any given month. In that scenario, the adjuster is expected to achieve a higher monthly ratio in subsequent months to maintain the 100% benchmark over a 6-12 month average.

CLOSURE PERFORMANCE COMPARISONS

Explain how the TPA utilizes closure performance comparisons and the frequency that these comparisons are calculated. Explain other criteria used to determine the appropriateness of closing claims.

George Hills' state-of-the-art claims handling technology, Claims Xpress (CXP) provides us with a claims dashboard so that managers can determine adjuster case loads, closure rates, and monitor client's needs closely and effectively. This tool is available to the managers at a moment's notice. Performance is monitored as needed.

CLAIMS AND LITIGATION MANAGEMENT GUIDELINES

Provide the TPA's Claims and Litigation Management Guidelines.

George Hills focus on public entities and each individual client has allowed us to create both a comprehensive and adaptable claims management structure and methodology. This allows us to customize a Work Plan and Approach to each and every client yet provide a structure of success and that encompasses more than claims processing functions and focuses on efficient, cost-effective, and strategic claims resolutions. With the staffing and management approach, discussed in the preceding section, we are able to partner together for our success.

BEST PRACTICES CLAIMS APPROACH

George Hills' *Best Practices General Liability Claims Handling Manual* and *Best Practices General Liability Litigation Manual*—both of which all George Hills claims processors, adjusters, and supervisors must follow in accordance with the specific rules, regulations, and requirements of an individual client—fully support the scope of work, procedures, processes, and requests of the District. George Hills' stated mission is always "to provide the highest level of quality, customer-focused claims service." We accomplish this by assigning teams of experienced individuals, who have managed similar accounts for many years.

George Hills' best practices approach to claims management centers around early communication and transparency of information. Early communication with claimants leads to a faster claim resolution, and our transparency of information gives the District insight to the claims process from inception to close.

Each area discussed below embeds our Best Practices guidelines:

Best Practice Quality Control: George Hills' processes, procedures, and methodologies center around adjuster accuracy and customer satisfaction. Quality control comes at the technological (automated) level and at the human (adjuster/supervisor) level by George Hills' supervisors.

Communication: Phone calls and e-mails receive a response within 24 hours. All other written communication receives a response within three business days.

Contacts:

- 24-hour emergency contact is made within one hour of assignment or phone call.
- Initial contact will be made with insured/client, claimant and witnesses within one business day of receipt of their information. If no contact is made with the claimant, two subsequent contact

attempts via telephone will be made within the first 48 hours after receipt of the claim. If we do not have contact information for the claimant, or have incorrect information, extra attempts will be made to secure correct contact information, such as a Google or online “white pages” search. If OUSD’s protocols are such that claimant is not to be contacted, that will be documented in the adjuster’s file notes.

- An acknowledgment letter or email will be sent to all pertinent parties containing the adjuster’s contact information and claim number unless instructed otherwise.

Best Practice Claim Data and Information Management: George Hills’ ability to develop and maintain the District’s data metrics for decision-making as well as provide accurate statistical reporting is due solely to our commitment to best practices in our Information Technology processes. In 2015, we migrated our claims data to Insurity’s CMIS – CXP. This change has provided George Hills and our clients with much greater expert resources. Additionally, George Hills can rely on Insurity’s commitment to security to ensure your data is safe. To illustrate this commitment, Insurity completes an annual disaster recovery exercise to safeguard against potential data loss.

Timely resolution of claims is another best practice we employ. Generally speaking, the longer a file is open, the costlier it is for our clients. Superfluous open reserves on our client’s book of business can negatively affect financial results. As such, one of the items reviewed by the supervisors when they are auditing files is timeliness of closures. The supervisor will also review whether the adjuster is continuing to update the claim diary. Every time an adjuster picks up a file, they should do everything necessary to get the file closer to resolution.

Data Entry: When a claim/loss is received, the supervisor completes an Initial Claim Data Entry (ICDE) form and emails it to the assigned claims processor for the opening of the electronic claim file. The designated support staff will perform the following actions:

- Assign a claim number
- Enter the data into CXP within 24 hours of receipt of the claim/loss
- Attach any paperwork received with the claim to CXP
- Notify the responsible adjuster via email upon completion of data entry

These actions trigger CXP to set an automatic diary for the adjuster and their supervisor

File Set-Up: Upon receiving notification of data entry completion, and upon instruction taken from the Initial Claim Data Entry form, the claims processor will take the following steps:

- Send an acknowledgment of new assignment to the District within 24 hours of receipt of assignment.
- Make initial phone contact with the claimant or their attorney, if so instructed, and send an acknowledgment letter to the claimant or their attorney.
- Attach all pertinent paper documentation to the claim/loss to the CXP file.
- Once notified that the claim has been entered and acknowledgment letter has been sent, the adjuster will review the information in CXP for accuracy.
- **File Notepad** – A file note will be created in Notepad each time an activity occurs. Dropdown boxes for notepad types allow the adjuster to be specific as to the type of activity (i.e., phone call, correspondence received or sent, claim filed). The subject line allows for further specific yet brief information for an at-a-glance review in CXP. Notepads are important to document phone conversations or receipt of materials; they serve as a chronological “outline” of what activity has taken place.

- **Plan of Action (POA)** – Each file is required to have an initial claim review note (within the first seven days of receipt) outlining the basics of the claim. After that, Notepad entries reflect an updated Plan of Action (a type of Notepad entry) every 30 days. The District will have online access to the POA entries in the claim summary view. The POA's are also available as a report for the District and are useful for claim reviews.
- **Reserves** – Adjusters are required to set initial file reserves for indemnity and expenses (legal and adjusting) within five days of assignment.
- **Payments** – This tab is used to enter all payments issued by the District and/or by George Hills. All payments will have a copy of related documentation, the invoice, a copy of the release/settlement agreement, any OFAC checks, and W-9's as needed.

Reserving of Claims: The establishment of reserves is a significant task, as it impacts critical areas such as funding levels and future debt. George Hills' philosophy is to establish separate reserves for indemnity and expense. However, George Hills will reserve according to the District's policy. Adjusters review the reserves of a claim each time they touch the file, and specifically on each diary date. Reserves take into consideration liability as to the District and comparative fault of the claimant/plaintiff, type of injury, damages, prognosis, expenses (e.g., medical and wage), and any anticipated general damages. George Hills normally reserves on a "most probable outcome" basis.

Updating Clients on Major Reserve Changes: The District will receive monthly reports which include reserves and/or reserve changes. CXP will send push notifications when the reserve change meets the threshold that George Hills and the District have established. Our best practices dictate that all reserve changes be entered as soon as the adjuster becomes aware of the need for a change.

Supervisory Approval of Reserve Changes: The decision-making authority on revising the reserve is initially set at the level where the work is being done. However, large increases in reserves will be reported immediately to the supervisor and/or the District as required.

Notification and Updating of Excess Insurers: It is the responsibility of the adjuster to promptly report any case meeting the reporting requirements of the excess carrier or as instructed by the client. George Hills will notify the District's excess carrier in any number of situations according to the requirements of the excess policy carrier's stipulations. First, the excess carrier is notified no later than 30 days after receipt of notice of a reportable claim. Second, notification is sent when reserves are set on any reportable claim or suit involving multiple claims or suits arising out of one occurrence or any claims or reserves amounting to 50 percent or more of the retained limit. Third, excess carriers are notified regarding Title 42 USC 1983 cases in which a complaint has been served, and the plaintiff is represented by legal counsel or with reserves of 25 percent or more of the retained limit. Lastly, regardless of the reserve, notification is sent for any claim involving the following:

- One or more fatalities
- Loss of a limb
- Loss of use of any sensory organ
- Quadriplegia or paraplegia
- Third-degree burns involving ten percent or more of the body
- Serious facial disfigurement
- Paralysis
- Closed head injuries

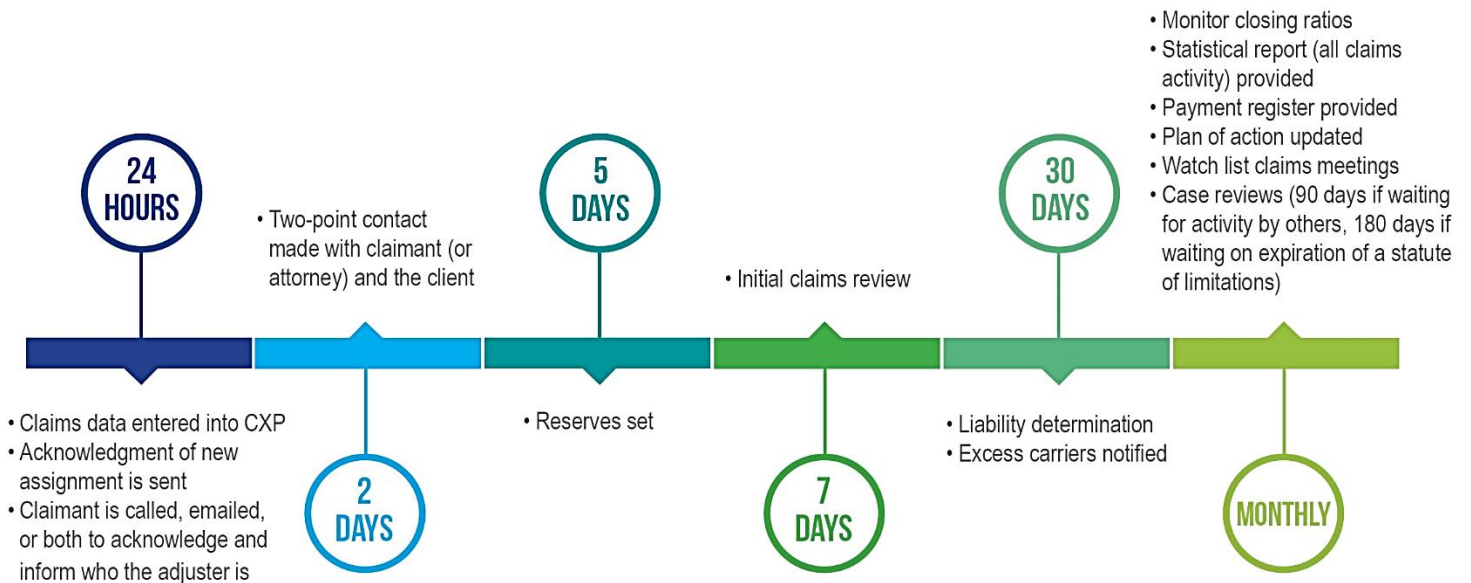

Diaries and Claim Progress Notes: Diary systems are established to ensure that each assigned case is reviewed at least once every 30 days on active files, extended diaries up to 90 days on those waiting activity by others, and up to 180 days on those files in which the adjuster is awaiting the expiration of the statute of limitations. All diaries are maintained through CXP.

File notes indicate the prompt establishment of an initial diary date and subsequent follow-up diary dates at intervals dependent on claim activity. Notes include action taken from the previous note entry and an updated Plan of Action documenting the adjuster’s plan for future activity to move the claim towards resolution. No claim is re-diaried without indicating specifically why no further action was taken.

George Hills’ claims supervisor will maintain separate diaries and other audit controls necessary to review and ensure timeliness in handling as well as ensuring other claims standards and reporting requirements are being met.

Timeline of the Claims Handling Process

The following takes place from receipt of a new claim:

Cost Saving Methods: Through our efficient and thorough investigation, there is a two-point contact within one business day of receipt of each claim, we ensure the liability investigation is completed early, and many claims are not pursued when they are denied or rejected early on. In these instances:

- **Attorneys Will Likely Pass on the Case:** Attorneys are less likely to take a case that has already been denied.
- **Establishing Defense Early:** By not establishing your defense position early, a claimant is often more likely to think they will get a settlement.
- **Securing Witness and Claimant Statements Early on:** This action is essential, lest they forget the details or have the opportunity to revise the facts to help their position.

- **Indexing Claimants Pursuing Injury Claims:** We verify if they have made similar claims in the past and/or have prior injuries that are unrelated to our matter.
- **Secure Complete Medical Records:** If there is liability, and injuries are claimed, we secure complete medical records to check for pre-existing conditions.
- We explore all tender possibilities based on the claimant's allegations because allegations trigger coverage regardless of liability.

Litigation Management

- Our adjusters secure the litigation budget within 45 days of assignment to defense counsel. They review defense counsel bills in detail to ensure they are reasonable and in line with the litigation budget.
- Adjusters are trained to perform a risk weighted analysis early on in litigation to establish a target settlement number before incurring extensive defense costs, pursuant to the District's risk protocols.
- We believe adjusters should complete tasks rather than an attorney wherever possible.
- We utilize statutory settlement offers such as 998's when appropriate to possibly recover costs if a favorable verdict is received.

LITIGATION MANAGEMENT

George Hills' philosophy and guidelines for providing litigation management services are as follows. When a claim becomes litigated, George Hills' claims adjusters do not simply assign a file to defense counsel and disappear but operate as true litigation managers. We believe it is the responsibility of our claims adjusters to work closely with defense counsel until the case is resolved and the claim file is closed. A good early investigation, coupled with an experienced litigation manager, helps bring the case to earlier resolution. We strategize early and often with the client and defense counsel and monitor the case to be certain counsel stays on track.

Within five days of the assignment by OUSD, contact will be made by the lead claims adjuster and with any assigned defense counsel. An appropriate plan of action will be discussed, and initial case analysis will be reviewed to determine what course of discovery and motion/defense strategy to implement.

Within 60 days following assignment of a case, defense counsel will complete and return a complete case analysis to OUSD, the George Hills adjuster, and the claims supervisor. The case analysis will include a comprehensive evaluation of the case and formalize the defense strategy crafted by the team.

In addition to the initial case analysis, counsel will provide an accurate estimate of defense costs for all litigated cases as set forth in the exhibits. Defense counsel is expected to stay within the estimated case budget throughout the litigation and to report on fees expended in relation to the budget as requested.

After an initial case analysis, defense counsel will provide mandatory written status reports at 60-day intervals, setting forth all substantive developments. The defense attorney handling the claim will prepare the status reports. Defense counsel will report only on new developments since the last report because it is not necessary to repeat case facts or information previously reported. Status reports will be as straightforward and as objective as possible to allow the George Hills adjuster and claims supervisor to meaningfully analyze the case and determine the course of action to be taken.

Additionally, George Hills monitors defense counsel to ensure that counsel stays true to the plan of action and within the defense budget. This includes monitoring defense counsel procedures, mandating regular reporting by defense counsel, and reviewing legal bills for appropriateness as directed by the American Bar Association standards or by the OUSD's instructions to ensure the claim is resolved in the most cost-efficient manner.

Furthermore, George Hills has developed specific guidelines that include creating and monitoring a watch list of any claims that, because of allocated expenses, expense reserves, case reserves, or a combination thereof, present a threat to pooled funds or have already reached pooled funds. Though the OUSD may wish to assign claims to their watch list for the Litigation Manager, George Hills' watch list typically starts at the primary level. If chosen to provide third-party administration services, George Hills will continue to follow these guidelines to create a watch list of claims that have the potential to exceed OUSD's SIRs and monitor those claims until the case resolves.

CLIENT COMMUNICATION

Discuss the TPA's interaction with clients in reporting on account management or claims related issues. Explain how frequently you expect supervisors and/or adjusters to initiate contact with District personnel. Also explain your protocol regarding returning telephone and/or E-Mail messages.

Building a client services relationship that is considered collaborative and a partnership is a priority for George Hills. After award of contract, The George Hills' team will meet with OUSD to establish mutually agreed upon communication protocols and preferred method of communication—email, telephone, or text. Typically, all supervisor/manager/adjuster requested communications with client personnel are frequent and transparent.

It is important to note, George Hills' senior executive contact, Chris Shaffer, Chief Operating Officer is always only a phone call away to discuss any account management issues or concerns. In a nutshell, we anticipate very little time or resources will be required from OUSD staff in our delivery of TPA services to the District—but our communication with OUSD will be as much as the District requests.

Historically, George Hills' handling of claims at the client services levels puts great emphasis on communication—from processing, through document flow and settlement, to ensure all parties are always provided appropriate information in a timely, efficient, and effective manner. As requested by OUSD, George Hills will closely monitor litigation efforts providing regular communication to OUSD staff—who will authorize all depositions and any sub rosa or independent investigative activities. Settlement authority on litigated claims must be approved by OUSD staff prior to being presented or negotiated with claimant's attorney. Prior to any settlement conference, George Hills and/or legal counsel, whichever is appropriate, will provide OUSD staff with written analysis of the case, including options and recommendation for settlement.

INFORMATION TECHNOLOGY

George Hills' ability to develop and maintain the District's data metrics for decision-making as well as provide accurate statistical reporting is due solely to our commitment to best practices in our Information

ClaimsXPress

Technology processes. In 2013, George Hills migrated our claims data to a new CMIS – ClaimsXPress (CXP). This change has provided George Hills and our clients with streamline, secure and robust claim management software platform managed by superior technical resources. Additionally, George Hills IT team and our system provider's expert IT staff have a commitment to security to ensure your data is safe and backed-up to protect if system compromised. Most importantly, GH has grown to have a team of CMIS experts, whom have lead the evolution of making our version of CXP a public entity industry leading system.

Claim files in CXP are simple to obtain and thorough in content. Through CXP, adjusters can track claim frequency and severity, and loss trending analysis, among other things. Our CXP database is extensive, giving our adjusters and clients immediate access to a wide array of data. Claim files are organized, so the contents are orderly and contain documentation of all financial activity (payments, reserves, recoveries). Reserve changing, whether initial or otherwise, automatically generate a file note in Notepad and include the comments. Each file will speak for itself and will contain all reports documenting the adjuster's investigation, including but not limited to: correspondence to and from all parties; documentation of damages; reports from all parties, including those from experts. **Through our CXP database, our clients will have 24-7 access to real-time activity on claims, and reports that can be exported to PDF or MS Excel. CXP is also able to import and sort information from a standard Google Sheets Spreadsheet.**

ClaimsXPress includes embedded functionality for client specific configuration and rules, and is in production with self-insured entities (public and private), carriers and pools. ClaimsXPress delivers a robust set of highly flexible features that can be leveraged by George Hill's IT staff to meet your most demanding workflows and specific claims needs.

List and describe the management information reports generated by the TPA's system. Identify those reports which are standard and included in the service fee. Identify those reports which are optional and the cost for generating these reports. Include in each description the interval at which the reports are generated. Provide a one-page example of each of five (5) reports listed and explain how each will assist the District in managing its program.

As part of your onboarding process, George Hills will hold a training session with all potential client-side CXP users, ensuring that everyone has the desired level of access and understanding of the system. CXP has a set of standard claims handling reports available our clients, but the system can also be customized to produce unique reports specific to your needs. The District can safely and securely access their reports via an automated encrypted email from their point of contact. All of these reports are available for export to Microsoft Excel or Adobe PDF formats on demand. There may be additional charges for custom reporting if a third-party programmer is needed for three hours or more and is client specific.

CXP Claims is an entirely paperless system. All of the claim files are stored electronically using the CXP Cloud storage system, available to any authorized user using any browser at any time. George Hills' ability to maintain data and provide enhanced statistical reporting is due to our long use of best practice technology to maintain data and provide enhanced statistical reporting. George Hills' proprietary iMetrics™ Business Intelligence Reporting service provides optimum targeted, on-demand data for liability and property claims decision-making.

The use of CXP increases our firm's service capabilities by streamlining our workflow and allowing for customization of reporting capabilities. The alignment of these technologies with George Hills' services provides real-time access to decision-making data, metrics, and trends. When it comes to read-only access, reporting, and modification abilities, our technology offering is unmatched. The following exhibits feature examples of Claims Reports including an iMetrics report from CXP.

Describe the unique features of the management information reports provided by the TPA which are not typically provided by other TPAs.

George Hills Claims Xpress (CXP) software has robust, state-of-the art efficiencies and capabilities as well as enhanced client reporting capabilities. CXP’s best practices hosting service solution, CXP Cloud, (and its mobile app, CXP Mobile) enables client claims data to be accessed from anywhere, at any time with solid data security. Along with its exceptional data security/disaster recovery core, CXP Cloud hosting provides a world class infrastructure for all data it hosts and maintains—i.e., it is demonstrably responsive, reliable,

scalable, and high performance. Other benefits of CXP Cloud include 100% network uptime guarantee; commitment to security at the physical, operational, and system levels; a full coverage service hosting and operating environment; primary and disaster recovery sites; and backup solutions that ensure your data availability and security.

As mentioned previously, George Hills can offer through CXP enhanced iMetrics Reports – including charts from the client’s data, valued at a defined point in time in consideration of different metrics. We can also provide the claims dashboard from within the claims system itself that gives clients real time data at their fingertips—displayed in pie charts and bar graphs—such as closing ration, new claims per month, current claims inventory. For additional cost, we can provide a Risk Management Annual Reports, summarizing a client’s entire Risk Management Program—i.e., fiscal year’s losses and costs for Client’s General Liability, Property and Subrogation Recovery Programs. All George Hills’ generated monthly reports, including our monthly loss reports, help our clients manage their programs by providing real-time technology-based visibility and control of their processes and procedures. George Hills is very happy to provide information on individual cases on request and discuss any statistical reports needed by the OUSD.

Describe the TPA's ability to provide the District with a minimum of seven (7) MIS user connections on existing personal computers allowing for full database access and standard/ad hoc report writing/generating, and the cost, if any, for such service.

George Hills has the ability to provide OUSD with a minimum of seven (7) MIS user connections on existing personal computers with full read only access. CXP is a web-based application, making it accessible from almost every computer – even from home computers. Due to security reasons and to ensure the utmost data integrity, clients do not have access to the backend database. All standard/ad hoc report writing/generating will come from George Hills’ OUSD Account professional team.

Discuss the MIS technical support services provided by the TPA. Include the location of MIS staff and how many clients are serviced from that location.

George Hills has a dedicated Business Systems/IT Department that will work directly with OUSD, for setting up custom reports, requesting special reports, and inputting and managing data entry. The ease of use of the CXP management and reporting allows the adjusters to provide better and more timely service to clients.” Our 150+ clients are provided technology and business systems support from our corporate headquarters in Sacramento/Rancho Cordova.

FEE SECTION TERMS

One Time Start-up Fee—The process of on-boarding a new client covers many areas, from establishing expectations, policies and procedures to designing the infrastructure to meet the needs of risk management, council, and department heads. It also involves time and effort in establishing the Trust Account or check writing, W-9 and all federal and state reporting requirements. Most importantly claims triage. This is not time spent on the actual data conversion.

Annual Administration Fee—George Hills has determined it takes a company wide effort to ensure we exceed the expectations of our clients. As such we feel it transparent to separately identify and charge for those critical function that are not directly tied to claims handling. As such we include an annual administration fee which includes the following activities:

- Access to CMIS and training
- A monthly listing of open claims, showing expense categories, reserves, and total incurred
- Monthly claim summary reports
- Providing loss run data and required reports
- Providing annual reports to outside agencies
- Filing of regulatory reports (such as 1099, W-9, etc.)
- Establish and maintain a trust fund to pay indemnity and expenses that may be due on claims. The amount to be maintained in the trust fund shall be determined in the on-boarding process. (Note: if trust fund is not set-up with the George Hills preferred bank, there may be an additional set-up fee)
- New bank account set up (signature cards, test checks, online access, set up bank in CXP)-- George Hills' preferred bank is California Bank & Trust. Should another bank be selected, an additional setup fee may be charged due to the complexities and amount of time and effort
- Approval process shall be documented in George Hills Special Claims Handling Standards and Instruction form
- Process checks weekly
- Submit positive pay if applicable/monitor positive pay (review daily emails from bank for exceptions)
- Maintain a copy of all checks drawn by George Hills to pay claims and claims related expenses
- Submit monthly check registers of all transactions made for the period
- Monitor account balance, prepare replenishment requests as needed (customize request for each client's need)
- Monthly bank reconciliation (prepared and sent to assigned client personnel)
- Special reports that requested to go with billing invoices (by member, claim type, etc.)
- Payment of invoices that are pass-throughs (i.e., invoices for medical record copies, ExamWorks, etc.)
- Certificates of insurance
- The handling of paper file expenses during conversion, if applicable

Mileage - Adjuster—Mileage is paid at the current IRS rate.

MMSEA—Both the one-time setup fee and the annual reporting fee are paid directly to ExamWorks.

Adjuster Travel Expenses—for mediations, settlement conferences, trials, etc.; subject to prior approval and submitted with receipts.

CXP Access Fee—Included in the annual administration fee is the setup and management of five (5) user accounts through our MIS CXP.

iMetrics Report Fee—There will be no charge for our iMetrics business intelligence reports with executive in-person debriefs.

Custom Reports—Additional charges for custom reporting shall be defined as, requiring a third-party programmer for three hours or more and is client specific.

Conversion Fees—This \$20,000 fee is intended to cover costs associated with data conversion, transition, and contract closeout. The data conversion fee is dependent on many factors which will need to be discussed. If George Hills is retained for five years, then we will absorb 100 percent of the conversion fee. If George Hills is not retained for the full length of the proposed contract, then the client shall be subject to a fee of 20 percent each year not retained (this does not include shipping, storing, scanning, copying, or otherwise handling open or closed paper claims files, this shall be a separate charge based on the Scope of Services).

George Hills will charge for any agreed services related to conversion, copying, scanning, shipping, and disposal.

Catastrophic Pricing—Applicable only to fixed fee and time and expense, with a cap fee agreement. George Hills recognizes that in the event of a catastrophe, additional hours will need to be applied to the handling of such claims. As such, to preserve the quality and efficiency of service for which we have been known, George Hills proposes that should a catastrophic event occur resulting in 10 or more claimants or claims from a single occurrence, the client shall be billed at the current hourly rate.

3% Escalator—George Hills' pricing option for the contract is estimated as a 3% annual increase.

Termination Fee—In the event of contract termination, George Hills' procedures and cost for run-off claims will be billed at the current hourly rate; no charge for historical loss summaries. George Hills believes that the successful transition of claims requires preparation, so we ask for 90 days' notice if the contract is terminated without cause, to properly and efficiently facilitate the transition of claims management.

General File—A general administrative file shall be established and maintained to track effort related to services necessary to fulfill our contractual obligations and not otherwise associated with a claim.

Storage—George Hills will charge for any services related to storage, retrieval, copying, scanning, shipping, and disposal of paper files.

ADJUSTING SERVICES FEES

Option 1a: Time and Expense—George Hills believes, as in the legal field, services surrounding claims and potential litigation are best captured by directed effort. In this case, the client only pays for the services requested. In a time and expense environment, George Hills applies its best practice approach to all claims; unless the client adjusts, restricts, or expands such services. A general administrative file will be established and maintained to track effort related to services necessary to fulfill our contractual obligations not otherwise associated with a claim.

Time and Expense for Adjusting Services	
Supervisor	\$118/hour *
Adjuster	\$94/hour *
Claims Processing	\$77/hour *

Option 1b: Time and Expense with a Cap—George Hills believes that this can be the best of both worlds. It allows the realities of the unknown to dictate service results but has some budget certainty. The cap will always be more than the fixed fee to protect the unknown but often can result in less cost too. The cap is a movable target and really should be adjusted annually until the services and relationship have settled.

The above hourly rates by position are the same for both options A1 and A2. The only difference shall be that George Hills commits to an annual maximum of \$220,000 on adjusting services for option A2. Please note the catastrophic pricing is applicable.*

**Subject to the 3% escalator*

Option 2: Flat Fee—George Hills believes this is a workable solution for public agencies seeking budget certainty. Unfortunately, it has its challenges. First, every other significant component of a claim (settlement and legal fees) are not predictable and, as such, making the adjusting costs fixed will ensure that 100 percent of the time the fee will be wrong. Secondly, the result could be that the client is receiving far more resources than they are paying for, or the client is paying for far more resources than they are receiving in services on any one claim. Either outcome is wrong.

In this environment, George Hills makes every effort to be resource sensitive in applying our best practices to ensure we balance the economics. No matter what, we put forth the right effort to resolve the claim. We do, however, adjust practices that can and should be adjusted to meet our clients budget goals.

Flat Fee	Fee
Fixed fee for handling all incidents: tracking, investigations, reporting, and collaboration with OUSD	\$50,000
Fixed Fee for Claims services for all filed claims	\$140,000
Year 1 Total Fixed Fee	\$190,000
First Year Discount	-\$19,000
Year 1 Total Fixed Fee with 10% Discount	\$171,000
Year 2+ Total Fixed Fee	\$195,700

GENERAL ADMINISTRATIVE FEES—ADDITIONAL TO ADJUSTING FEES

All pricing is based on the current average of 200 incidents, 130 general liability, and 20 property claims per year. Should the claim volume change more than 10% in severity or frequency in a year, we request reevaluation of our pricing agreement.

Allocated Expenses

Typically, allocated expenses are those expenses that are generated by a claim (by outside vendors other than George Hills) that cannot be foreseen nor included in an agreement. These are generally allocated back to the specific claim file for which the cost was incurred and then charged back to the entity whose claim incurred that cost. In most situations are pass-through costs (with processing fees) for services and/or fees not directly generated by the TPA, but rather by a third-party consultant where the TPA has acted as an agent on behalf of the entity to necessarily outsource services to a third-party consultant and/or miscellaneous fees applicable to the specific claim applied by an outside entity, such as a court or copy service. Below, George Hills has provided a list, by no means an exhaustive list, of typical allocated expenses.

- Fees of outside counsel for claims in suit, coverage opinions, and litigation, and for representation and hearings or pretrial conferences;
- Fees of court reporters;
- All court costs, court fees, and court expenses;
- Fees for service of process;
- CMS reporting costs and fees (ExamWorks);
- Costs of undercover operatives and detectives;
- Costs for employing experts for the preparation of maps, professional photographs, accounting, chemical or physical analysis, or diagrams;
- Costs for employing experts for the advice, opinions, or testimony concerning claims under investigation or in litigation of for which a declaratory judgment is sought;
- Costs for independent medical examination or evaluation for rehabilitation;
- Costs of legal transcripts of testimony taken at coroner's inquests, or criminal or civil proceeding;
- Costs for copies of any public records or medical records;
- Costs of depositions and court reporting;
- Costs and expenses of subrogation, (if not George Hills);
- Costs of engineers, handwriting experts, or any other type of expert used in the preparation of litigation or used in a one-time basis to resolve disputes;
- Witness fees and travel expenses;
- Costs of photographers and photocopy services (if not George Hills—our costs for this is included in our rate);
- Costs of appraisal fees and expenses not included in flat fee or performed by others;
- Costs of indexing claimants;
- Services performed outside the TPA's normal geographical regions;
- Costs associated with Medicare Set-Aside analysis and submission or Medicare Conditional Lien negotiation;
- Investigation of possible fraud including SIU services and related expenses; and/or
- Any other similar cost, fee, or expense that is not otherwise included in the TPA's service fees that is reasonably chargeable to the investigation, negotiation, settlement, or defense of a claim or loss or to the protection or perfection of the subrogation rights of the entity. (includes time, travel and lodging).

Bidder shall not engage in unlawful discrimination in employment on the basis of actual or perceived; race, color, national origin, ancestry, religion, age, marital status, pregnancy, physical or mental disability, medical condition, veteran status, gender, sex or sexual orientation.
2. Errors and Omissions – If a bidder discovers any ambiguity, conflict, discrepancy, omission, or other error in the RFP, the bidder shall immediately notify the District of such error in writing and request clarification or modification of the document. Modifications will be made by addenda. Such clarification shall be given by written notice to all parties who have been furnished an RFP for bidding purposes, without divulging the source of the request for the same. Insofar as practicable, the District will give such notices to other interested parties, but the District shall not be responsible therefor. If a bidder fails to notify the District, prior to the date fixed for submission of bids, of an error in the RFP known to them, or an error that reasonably should have been known to them, they shall bid at their own risk; and if awarded the contract, the bidder shall not be entitled to additional compensation or time by reason of the error or its later correction. The bidder should carefully examine the entire RFP and addenda thereto, and all related materials and data referenced in the RFP or otherwise available to them, and should become fully aware of the nature and location of the work, the quantities of the work, and the conditions to be encountered in performing the work.
3. Bidder Agreement – In compliance with this RFP, the bidder will propose and agree to furnish all labor, materials, transportation, and services for the work described and specifications and for the items listed herein. A bid is subject to

acceptance at any time within sixty (60) days after opening of the same, unless otherwise stipulated. Bids cannot be corrected or altered after opening by the District.

5. Bidders' Understanding – It is understood and agreed that the bidder has been, by careful examination, satisfied as to the nature and location of the work; the character, quality and quantity of the materials to be provided; the character of equipment and facilities needed preliminary to and during the prosecution of the work; and general and local conditions, and all other matters which can in any way affect the work under the contract. No verbal agreement or conversation with any officer, agent or employee of the District, either before or after the execution of the contract, shall affect or modify any of the contractual terms or obligations.

6. Intent of Specifications – All work that may be called for in the specifications shall be executed and furnished by the successful bidder(s), and should any work or materials be required which is not denoted in the specifications, either directly or indirectly but which is nevertheless necessary for the execution of the contract, the bidder is to understand the same to be implied and required, and shall perform all such work and furnish any such material as fully as if it were particularly delineated or described.

7. Extra Work – No bill or claim for extra work or materials shall be allowed or paid unless the doing of such extra work or the furnishing of such extra materials shall have been authorized in writing by the District's Director of Transportation.

Contractor's obligations under the preceding sentence shall apply jointly and severally regardless of whether OUSD or any of its officers, officials, employees, volunteers or agents are actively or passively negligent, but shall not apply to any loss or liability, fines, penalties, forfeitures, costs or damages caused solely by the active negligence or by the willful misconduct of OUSD. If Contractor should subcontract all or any portion of the work or activities to be performed under this MOU, Contractor shall require each subcontractor to indemnify, hold harmless and defend OUSD, its officers, officials, employees, volunteers or agents in accordance with the terms of the preceding paragraph. Contractor also agrees to hold harmless, indemnify, and defend the District and its elective board, officers, agents, and employees from any and all claims or losses

incurred by any supplier, Contractor, or subcontractor furnishing work, services, or materials to Contractor in connection with the performance of this Agreement. This provision survives termination of this Agreement.

9. Disposition of Proposals – All materials submitted in response to this RFP will become the property of the District, and will be returned only at the District's option and at the bidder's expense. The original copy shall be retained for official files and will become a public record after the date and time for final bid submission as specified.

10. Terms of the Offer – The District's acceptance of Bidder's offer shall be limited to the terms herein unless expressly agreed in writing by the District. Proposals offering terms other than those shown herein will be declared non-responsive and will not be considered.

 - a. Authorize GH to act as a representative of OUSD for the investigation, adjustment, processing, supervision and evaluation of an ultimate recovery of potential money from damage claims against parties for whom it is alleged to be legally responsible.
 - b. Authorize GH to engage the services of a litigation attorney to consult, review, and determine the best legal strategy available at the time to obtain the best possible result for OUSD. Upon determination by the attorney that a civil action is in the best interest of OUSD, GH will notify OUSD and obtain authorization to pursue recovery in accordance with the recommendations of the litigation attorney.
 - c. While GH is handling a subrogation claim for OUSD pursuant to the terms of this Contract, the institution of a civil action is determined by OUSD to be the best course of action, OUSD may elect to do so at OUSD's own expense.
 - i. Recall the claim to OUSD's control so that OUSD may pursue recovery in a manner to be determined by the OUSD's attorney to be in the best interest of the OUSD.
 - ii. In the event OUSD recalls the claim as indicated above, OUSD shall be responsible for payment to GH for any and all time and expense incurred by GH's subrogation claim adjuster and/or other subrogation division staff up to the time wherein the claim has been recalled by OUSD.
- II. OUSD will pay a Subrogation Fee in the amount of 30% for each and every recovery obtained. The minimum amount to be paid to GH will be \$250 per claim upon recovery. However, GH has the authority to reject any claim for any reason, relieving OUSD of any fiscal responsibility for rejected claims only.

GH will make every attempt to enforce the provisions of the payment agreement with the claimant, but in no way guarantees the fulfillment of the terms of the payment agreement. In the event the terms of the payment agreement are not fulfilled and warrant pursuit through the small claims process, authority to pursue through small claims will be requested.

- c. GH reserves the right to cease working on any claim whereas information has not been made available to GH within 120 days after GH has submitted the information and/or documentation request to OUSD, at such time the claim will be closed.
- d. Due to the nature of these services, in that compensation is contingent upon recovery, if the contract is terminated prior to recovery or other closure of any claim, the OUSD shall pay GH for all expenses and time spent, to date, on any claim(s) currently open and recovery in process. Payment shall be based on the current hourly rate of GH. GH will submit the final invoice within five business days of termination.

ALLOCATED EXPENSES

Typically, allocated expenses are those expenses that are generated by a claim (by outside vendors other than George Hills) that cannot be foreseen nor included in an agreement. These are generally allocated back to the specific claim file for which the cost was incurred and then charged back to the entity whose claim incurred that cost. In most situations are pass-through costs (with processing fees) for services and/or fees not directly generated by the TPA, but rather by a third-party consultant where the TPA has acted as an agent on behalf of the entity to necessarily outsource services to a third-party consultant and/or miscellaneous fees applicable to the specific claim applied by an outside entity, such as a court or copy service. Below, George Hills has provided a list, by no means an exhaustive list, of typical allocated expenses.

- Fees of outside counsel for claims in suit, coverage opinions, and litigation, and for representation and hearings or pretrial conferences;
- Fees of court reporters;
- All court costs, court fees, and court expenses;
- Fees for service of process;
- CMS reporting costs and fees (ExamWorks);
- Costs of undercover operatives and detectives;
- Costs for employing experts for the preparation of maps, professional photographs, accounting, chemical or physical analysis, or diagrams;
- Costs for employing experts for the advice, opinions, or testimony concerning claims under investigation or in litigation for which a declaratory judgment is sought;
- Costs for independent medical examination or evaluation for rehabilitation;
- Costs of legal transcripts of testimony taken at coroner's inquests, or criminal or civil proceeding;
- Costs for copies of any public records or medical records;
- Costs of depositions and court reporting;
- Costs and expenses of subrogation, (if not George Hills);
- Costs of engineers, handwriting experts, or any other type of expert used in the preparation of litigation or used in a one-time basis to resolve disputes;
- Witness fees and travel expenses;
- Costs of photographers and photocopy services (if not George Hills—our costs for this is included in our rate);
- Costs of appraisal fees and expenses not included in flat fee or performed by others;
- Costs of indexing claimants;
- Services performed outside the TPA's normal geographical regions;
- Costs associated with Medicare Set-Aside analysis and submission or Medicare Conditional Lien negotiation;
- Investigation of possible fraud including SIU services and related expenses; and/or
