# EXECUTIVE SUMMARY

OAKLAND UNIFIED  
SCHOOL DISTRICT

*Community Schools, Thriving Students*

- The District budget is based on the legislatively approved 2012-13 State Budget which recommended flat funding for K-12 education if the taxes pass. Although we assume flat State funding for 2012-13, we have followed the Board's direction and allocated additional funds to school site budgets.
- On June 15, the Legislature approved the 2012-13 State Budget. Because of the dependence on the results of the Governor's tax initiatives on the November ballot, we are anticipating further revisions to the budget later this year.
- If the Governor's tax initiatives do not pass, the impact to our budget is estimated to be \$441/ADA, or \$13.5 M (net). This amount is reserved in the Unrestricted General Fund's Fund Balance to absorb this reduction, however; significant cuts will need to be made in Fiscal Year 2013-14.
- Because over 85% of the District's Unrestricted General Fund revenues come from the State, the proposed budget adoption is based on our best thinking and planning for several scenarios.
- Some adjustments from current year include:
  - School closures, consolidations and grade expansions
  - Charter conversions
  - \$14M more unrestricted allocations to remaining schools (after charter conversions, closed and consolidated schools)
  - Additional investment in safety (10 additional Security School Officers (SSOs) and resources allocated centrally for camera maintenance
  - Additional centrally funded custodial resources for schools with added health clinics
  - Teacher Special Assignment (TSA) strategy at 3 high schools

## Difference in PEC Positions - PEC Reduction Decisions Criteria

- Ensure compliance with IEPs
- Protect direct student services in the classroom
- Meet or Exceed State/Federal Mandates
- Align positions and expertise to student needs especially regarding increases in students with moderate to severe disabilities such as autism and behavioral challenges
- Align positions to the Strategic Plan (e.g. academic focus- Common Core State Standards, increase the level of inclusion in general education classes for students with disabilities to 20 %)

## Educational Impact Analysis

- **Sustained Quality of Educational Services**
  - **RSP Ratios**
    - Student-teacher ratio (caseloads) in resource program will be standardized to 28:1. Current ratio varies from 25:1 to 28:1. Reduced travel time and number of schools for RSP teachers will support higher quality educational support. (Students in these programs primarily receive instruction from General Education teachers, resource specialist program teachers support instruction by collaborating with General Ed teachers.)
  - **SDC Ratios**
    - The **Special Day Class** (SDC) non-severe class size may increase by an average of two to three students. The classroom caseload will be an average of 14 to 16 students. The SDC severe classroom caseload will be an average of 10-12 students. A possible increase of one to two students. All classrooms receiving an increased load will be reviewed for educational impact and monitored by the Coordinators.
  - **IA/IS/Aide to Special Education**
    - The initial Instructional Assistants, Intervention Specialists and Aide to Special Education position reductions were separations or vacancies. Reconfigurations in staffing will be based on student need as indicated in IEPs.
- Improved capacity in General Ed teachers to effectively include Students with Disabilities in General Education classrooms: **Centralized** Teachers on Special Assignment- Program Specialists will have a clear responsibility to build capacity. They will receive intensive training to perform new functions, including the development of shared responsibility across General Education school staff.
- The office manager, administrative assistant and data analyst positions related to **central office** management have no direct impact on educational experience of children.

## Governor's Fiscal Outlook

## The California Economy

© 2012 School Services of California, Inc.

- The California economy is recovering slowly as well
  - The state leads the nation in exports, especially to the “Pacific Rim” countries, with total exports increasing 11% in 2011
  - The high-tech sector is also a strong advantage for California
    - The Facebook initial public offering (IPO) alone could add \$1.5 billion in tax revenues in 2011-12 and 2012-13
  - The state’s housing market, however, continues to be a drag on growth
- Like the nation, California’s employment growth has sputtered this spring
  - In March, the state added 18,200 jobs and the unemployment rate increased slightly to 11%, up from 10.9% one month earlier
  - The state has added about 385,900 jobs since the recovery began almost three years ago
    - Remember: the recession wiped out about 1.3 million jobs

## Governor's Fiscal Outlook

- **It's all about the economics**
  - Revenues are improving at a much slower rate than expected in January
  - Immense pressure on the State Budget and competition for limited resources
  - The revised Budget has a lot of moving parts again this year
  - Bottom line: Best case is flat funding for education – and maybe a lot worse
- **In January, the Governor's tax initiative was expected to fill the revenue gap**
  - In May, revenues have fallen, and, if the initiative passes, it fills only half the gap
- **Education policy, expectations for student performance, and funding for schools are not aligned**
- **Today's funding level may be our new reality for the foreseeable future**

## Governor's Fiscal Outlook

### The May Revision

- The May Revision first recognizes that January's projected \$9.2 billion State Budget shortfall has grown to \$15.7 billion in May
  - Even if the Governor's tax measure passes in November, there will still be a significant State Budget problem
- As a result, the Governor proposes:
  - More cuts to the non-Proposition 98 side of the Budget
  - More manipulations to reduce Proposition 98 actual funding
  - But, in the end, planned K-12 funding is much like the January proposal
    - Flat funding if the taxes pass
    - Big cuts if they don't
  - 2012-13 will not be a good year for education funding
    - And failure of the taxes would make it a disaster

## Governor's Fiscal Outlook

- Temporary taxes
  - More reliance on temporary taxes than ever
- Cash deferrals
  - Deferrals are the balancer; Proposition 98 gains disappear by reducing deferrals
- Redevelopment agencies (RDA)
  - State counts RDA money as property taxes, offsetting General Fund costs
- Weighted Student Formula (WSF)
  - Grade span adjustments and additional revised add-ons
- Flexibility proposals
  - Still alive – no changes from January
- Transitional Kindergarten (TK)
  - Governor reduces savings estimate, but still proposes elimination of the mandate

## Governor's Fiscal Outlook

### Current-Year Revenue Limits

- For 2011-12, revenue limits were reduced as a result of the midyear “trigger” reductions
  - 0.198% reduction to districts’ undeficited revenue limit, or about \$13 per ADA on average
  - 0.65% reduction to districts’ undeficited revenue limit, or about \$42 per ADA for all school districts, related to the \$248 million cut to home-to-school and special education transportation
    - This change was enacted by Senate Bill 81 (Chapter 2/2012)
    - The 2011 Budget Act originally would have eliminated one-half of districts’ transportation funding for 2011-12
- The midyear “trigger” reductions were one-time and these funds are restored for 2012-13
