## Proposal for Montera Middle School

November 2012

### Sylvan System

The Sylvan Learning Center in Piedmont, CA is licensed to offer all Sylvan programs and curricula. The broad base of program options allows us to select what is best for the student. Our organization is held to the highest standards in teacher and administrator qualifications. Our staff is certified, highly qualified and meets the standards set forth by Sylvan Corporate and Western Association of Schools and Colleges (WASC).

All of Sylvan's programs are specifically designed to increase student academic achievement and proficiency. This approach is based on the belief that there is no "one size fits all" method for learning. With this in mind, the Sylvan program offers students a tailored learning environment that fits their individual needs. Our standards based instruction consistently demonstrates that memorization of facts is minimized and the meaning of concepts is emphasized.

The methodology for delivering instruction in a Sylvan program is likely to deviate from the standard teaching practices in the classroom. The program is also based on the belief that in order to shift from a teaching centered process to a learning centered process, it is necessary to accept the principle that no single instructional method is effective for all students.

### Tutoring Plan Overview

All of Sylvan's programs are specifically designed to increase student academic achievement and proficiency. Sylvan curriculum and methodology of instruction are assessment driven and customized. Our program curriculum is designed according to the student's individual needs. The delivery and instruction methods used are varied and adapted to the student's needs as well. The expected frequency of student attendance is high, to which we attribute the fact that students are able to retain and apply what they learn. The class sizes are small and typically grouped by ability, which allows for personalized attention.

#### **Intensive Individual Diagnostic Assessments:**

The first step in identifying the academic needs of the student is a comprehensive diagnostic assessment. The Sylvan Diagnostic Assessment is a comprehensive analysis of academic skills. The assessment identifies what the student understands about a subject and where instruction could be beneficial. The focus shifts from what is known to what is unknown in order to provide a roadmap for future instruction rather than a snapshot of mastered skills.

#### **High quality instruction:**

Our curriculum is developed based on a thorough evaluation of national and state standards. Sylvan's program design goal was to develop a supplemental education system that was both flexible and customizable to ensure state academic standards are met.

The curriculum consistently undergoes an extensive review and is revamped to include the latest technology and/or research. We design the IEPs to meet the student's individual needs and to remediate any skill gaps from prior academic years.

In addition to internal quality assurance procedures, we are audited by our Corporate office on a regular basis, and because we are accredited we are also subject to periodic audits by WASC. This ensures that the highest quality standards are met.
