Subject MetWest High School Temporary Enrollment Priority

Action First Read

Background MetWest is proposing to add a temporary feeder school priority for its two co-located middle schools: Westlake and La Escuelita.

MetWest is a high-demand school that has started to expand in 2019-20 as part of the Citywide Plan. The school serves 205 students in 2019-20, up from 160 the prior year, and is projected to eventually serve ~350 students by 2022-23. MetWest is a citywide school without a neighborhood enrollment priority. It is located across two campuses and is co-located with a middle school at each one: Westlake and La Escuelita.

Current challenges faced by MetWest:

- MetWest’s demographics do not reflect OUSD. The school serves lower percentages of African American and Asian students compared to OUSD high schools on average.
- As MetWest continues to expand, the school is interested in ensuring access for all types of students across Oakland.
- Co-locations are challenging for a number of reasons; building community across co-located schools is crucial for the safety and success of students on a shared campus.

Given the challenges faced by MetWest, OUSD staff has worked with MetWest on a proposal to add feeder school priority to MetWest for

both Westlake and La Escuelita, up to 15% of MetWest 9th grade seats for each school. 15% of seats would translate to about 13 seats for Westlake and 13 seats for La Escuelita, out of a total ~88 seats in the MetWest 9th grade. The priority would be temporary for 2 years, at which point it would need to be revisited by staff, Board, and the impacted school communities.

Discussion

MetWest has been conducting community engagement with their own school community and with Westlake and La Escuelita. Furthermore, are also conducting engagement with their top two current feeder schools: Urban Promise Academy (UPA), which is the largest feeder school (24 of 84 current 9th graders at MetWest are from UPA), and Ascend (8 of 84 current 9th graders at MetWest are from Ascend).

OUSD does not currently have a stated strategic plan around diversity. The work towards a larger diversity plan and enrollment policy update is beginning this school year and will likely take considerable time. Nonetheless, there is a desire from the school communities and from OUSD staff to move forward with a few pilot programs around enrollment priorities to begin to assess what this could look like and the impact. Thus, there is a strong desire from many stakeholders to make this enrollment priority temporary (for 2 years) to reflect that it is a pilot program. Furthermore, this proposal for MetWest depends on the particular circumstances of the school co-locations, which may or may not change in the coming years.

Fiscal Impact

Minimal fiscal impact, as we anticipate nearly all families who no longer receive an offer to MetWest will likely attend another OUSD schools. MetWest has also recently expanded to be able to accommodate more families.
