The Clinic Liaison work is to implement the program vaccine clinic logistics at each school site; subsequently reducing absenteeism related to the seasonal flu virus.
How will this grant be evaluated for impact upon student achievement? (Customized data design and technical support are provided at 1% of the grant award or at a negotiated fee for a community-based fiscal agent who is not including OUSD's indirect rate of 5.94% in the budget. The 1% or negotiated data fee will be charged according to an Agreement for Grant Administration Related Services payment schedule. This fee should be included in the grant's budget for evaluation.) PROTECTING OUR CHILDREN HELPS PROTECT US ALL.

There are some very bad bugs among us. One of the best ways to protect our community is by vaccinating our children. Through the *Shoo The Flu* program, San Francisco Bay Area children ages 4 through 18 can receive a free flu shot. This will help protect not only them against the ravages of influenza, but also everyone with whom they come in contact. It is the best way to guard against the spread of flu to adults, and especially the elderly.

So, bring in the kids for their free flu shots. And please, help spread the word, not the bugs.

2/1/2013: Shoo the Flu for the 2012-13 season has officially ended. Thanks to the generosity of the Page Family Foundation, 4,886 San Francisco Bay Area children received a free flu shot. Check our website for updates on Shoo the Flu for the 2013-14 flu season.

ABOUT

The Bay Area *Shoo The Flu* initiative was born when Larry and Lucy Page made a commitment to improving the health of the community. They understand that vaccinating children will not only improve children's health, it will also dramatically reduce the risk of the flu spreading to adults. The Centers for Disease Control and Prevention (CDC) has designated December 2-8 as National Influenza Vaccination Week to highlight the importance of continuing flu vaccination throughout the flu season. *Shoo The Flu* hopes to support the CDC in raising awareness that the peak of flu season is in January or February so it is not too late to vaccinate every child in the Bay Area.

Working with Target Pharmacy® locations to administer the free vaccinations was a logical choice since they already provide flu shots at locations throughout the area.
