Conditions for Black Students in SPSA

In the 2022-2023 School Plans for Student Achievement, all OUSD schools have been asked to complete a new section called "Conditions for Black Students".

This is OUSD's first attempt to code strategies, actions and investments for Black students across all schools.

LCFF Calculations for 2021-2022

Every year, OUSD calculates the Local Control Funding Formula it should receive from the state.

LCFF calculations are based on student enrollment.

OUSD receives LCFF funding based on the enrollment of Black students. These base grant funds are to support districts to provide basic services. The supplemental and concentration funding is to be principally directed toward improving or increasing services for Black students across state and local priorities.
