Subject Special Education Local Plan Area (SELPA) - Annual Review

Ask of the Board

Public Hearing and adoption by the Board of Education of the Annual Service Plan and Budget Plan of the Special Education Local Plan Area (SELPA) 2023-2024 School Year.

Background

Pursuant to Federal and State law, all public school districts must find, evaluate, and--if eligible--serve students with disabilities who require Special Education services by providing a continuum of academic and related services that enable each student to make progress in the Least Restrictive Environment (LRE). Oakland Unified School District is of sufficient size and diversity to be its own Special Education Local Plan Area (SELPA), an organizational structure unique to California. This means the OUSD SELPA serves students from birth-22 in many different settings, and the OUSD Board of Education is the SELPA Board, as well. Each year, the SELPA must complete an Annual Service Plan and Annual Budget Plan to detail the revenues and expenses specific to Special Education services for students being served by the SELPA and to describe what those services are.

Discussion

As of 4/15/23, the OUSD SELPA has 6800 eligible students, of whom 6313 attend OUSD public schools. This represents about 18.1% of OUSD's student body. Our SELPA offers a continuum of services for students with an IEP that begins with inclusive services and provides four different types of self-contained classrooms. These services include Specialized Academic Instruction (SAI) and a host of related services, such as speech and language, occupational and physical therapy, mental health counseling, job coaching and college/career awareness, and low incidence services. Our services are implemented by specialized staff, which are funded by a combination of federal, state, and local resources. The Annual Budget Plan provides a summary of the Special Education-specific monies that flow into the SELPA and a

projection of our expenses by object class, as well as a description of the method the SELPA uses to distribute the funds.

Fiscal Impact

The Annual Service and Budget Plan ensures that the SELPA complies with the state Education Code to continue to receive our Special Education-Specific funds..

The Local Plan Section E: Annual Service Plan must be adopted at a public hearing held by the SELPA. Notice of this hearing shall be posted in each school in the SELPA at least 15 days before the hearing. Local Plan Section E: Annual Service Plan may be revised during any fiscal year according to the SELPA's process as established and specified in Section B: Governance and Administration portion of the Local Plan consistent with *EC* sections 56001(f) and 56195.9. Local Plan Section E: Annual Service Plan must include a description of services to be provided by each local educational agency (LEA), including the nature of the services and the physical location where the services are provided (Attachment VI), regardless of whether the LEA is participating in the Local Plan.

Services Included in the Local Plan Section E: Annual Service Plan

All entities and individuals providing related services shall meet the qualifications found in Title 34 of the *Code of Federal Regulations* (34 *CFR*) Section 300.156(b), Title 5 of the *California Code of Regulations* (5 *CCR*) 3001(r) and the applicable portions 3051 et. seq.; and shall be either employees of an LEA or county office of education (COE), employed under contract pursuant to *EC* sections 56365-56366, or employees, vendors or contractors of the State Departments of Health Care Services or State Hospitals, or any designated local public health or mental health agency. Services provided by individual LEAs and school sites are to be included in **Attachment VI**.

Include a description each service provided. If a service is not currently provided, please explain why it is not provided and how the SELPA will ensure students with disabilities will have access to the service should a need arise.

Provide a detailed description of the services to be provided under this code.

Adapting, as appropriate to the needs of the child with a disability, the content, methodology, or delivery of instruction to ensure access of the child to the general curriculum, so that they can meet the educational standards within the jurisdiction of the public agency that apply to all children.

Within Oakland Unified School District SELPA (hereafter referred to as OUSD), Specialized Academic Instruction is provided across a full continuum of programming to support the varied needs of our student population. OUSD SELPA provides Specialized Academic Instruction in the following settings and ways, described from least to most restrictive:

Consultative SAI: A credentialed special education teacher engages with general education staff, related service providers, and/or families to support Individual Education Program (IEP) IEP goal implementation and progress. The special education teacher may recommend

SELPA: Oakland Unified School District Fiscal Year: 2023-24

adaptations and accommodations to curricula, provide recommendations for behavioral supports, or provide tools and materials to facilitate student access.

Regular Setting SAI Only: Students receive direct support and accommodations from a special education teacher or support staff under the direction of a teacher within their general education classroom. This may include working with a student individually or in a small group to break down and adapt classroom content, provide direct support with implementation of accommodations and modifications specified in the IEP, or supporting students' behavioral and attention-related needs.

Resource Specialist Services: Students may receive a combination of regular setting SAI as described above and separate setting, small group instruction specific to IEP goals and assessed areas of need. Resource Specialists may work with individuals or small groups in accordance with IEPs to provide intervention related to literacy, mathematics, writing, executive functioning and organizational skills, and self-help and self-determination skills. In OUSD SELPA, a Resource Specialist may have a caseload of up to 27 students and will provide SAI as indicated in individual IEPs.

Separate Setting SAI, Mild-Moderate: Students receive instruction for some or all of their academic instructional minutes in a separate, small-group setting with a special education teacher and one or more support staff. The smaller classroom size and student:staff ratio allow for more differentiation of classroom content and a more intensive focus on each students' assessed needs and goals. In this setting, the teacher implements general, CCSSaligned

curriculum in an adapted manner in addition to intervention materials aligned to students' remedial instruction needs. Typically, students participating in mild-moderate programming access the general education environment for physical education, electives/specials, and nonacademic times. Within OUSD SELPA, the average mild-moderate class size is thirteen students.

Separate Setting SAI, Moderate-Intensive: Students receive instruction for most of their academic instructional minutes in a separate, small-group setting with a special education teacher and two or more support staff. There may be specialty staff present, as well, such as behavioral aides and nurses, depending upon students' IEPs. The special education teacher utilizes modified, separate curriculum aligned to CCSS connectors, in addition to providing direct programming related to self help, independent living and prevocational skills. Typically, students engage with typically-developing peers for physical education and mealtimes, and some students may participate in other regular setting-courses based on their unique skills, interests and needs. In Oakland, the average classroom for moderate-intensive SAI is ten students.

SAI in a Nonpublic School Under Contract: When all less restrictive options have been considered and rejected based on the profundity of a students' disability, the IEP team may determine that a nonpublic program is required for a FAPE. For these students, SAI is provided by a teacher and support staff employed by a nonpublic school working under contract with OUSD. Students attend a small, specialized setting with no access to typicallydeveloping

peers. Typically, classrooms are small (8-12 students) and staffing ratios are high

to address students' behavioral and physical care needs. In OUSD SELPA, there are students receiving SAI in NPS setting participating leading toward diplomas and certificates of completion.

SAI in a Home or Hospital Setting: When required based on a students' unique medical needs, OUSD SELPA provides specialized academic instruction in students' homes or within local hospitals. This service is provided individually with a special education teacher working with the student for short periods of time based on their disability impact and stamina. Materials are selected based on the students' present levels and needs, with mild-moderate students engaging in adapted general curricula and moderate-intensive students participating in alternative curricula.

All SAI services are provided by either a credentialed Education Specialist with authorization in the area appropriate for the population served (e.g. Mild-Moderate or Moderate-Severe) or by a paraprofessional working under the direction of a credentialed teacher.

SELPA: Oakland Unified School District Fiscal Year: 2023-24 Justification for Natural Environment Exception: "Deaf and Hard of Hearing Children, like all children, need to be in a linguistically rich environment, in which the language is fully accessible to the deaf or hard of hearing child. The curriculum must focus on the development of communication skills and linguistic competence, to help ensure later academic, social and vocational success. The deaf/hard of hearing-toddler program supports students' learning in developmentally appropriate context and focuses on the unique communication needs of the deaf and hard of hearing students through a total communication approach (use of sign language, speech and auditory skills) in order to support student success." - Guidelines for Program Standards for Deaf and Hard of Hearing -Guideline Standard 28 & 29 ■ 260-Special Education Aide (Ages 0-2 only) Service is Not Currently Provided Provide a detailed description of the services to be provided under this code. OUSD SELPA does not provide respite care. Local Early Intervention providers within the area offer this support to families of students with disabilities, including the Regional Center, with whom OUSD has a MOU. ■ 340-Intensive Individual Instruction Provide a detailed description of the services to be provided under this code. Within OUSD SELPA, students receive Intensive Individual Services when they demonstrate significant, profound needs relative to behavioral or physical health that necessitate having individual support throughout their school day. Intensive Individual Services may be provided by a district paraprofessional trained in the student's unique needs or a behavioral aide (e.g. RBT) from a nonpublic agency under contract with the SELPA. The SELPA encourages teams to rotate staff so the child maintains individual service throughout the day but avoids the

prompt dependence that can develop with a single provider across all minutes.

OUSD SELPA utilizes an assessment process to help IEP teams determine if IIS may be necessary and to develop criteria for a fade plan for such services when the student

Instruction delivered one-to-one or in a small group as specified in an IEP enabling the individual(s) to participate effectively in the total school program. OUSD SELPA provides services for preschool-aged students who are eligible for Special Education under Individual and Small Group Instruction. Within OUSD SELPA, preschool services are offered at a variety of school sites to allow for integration with typical peers, as well as at a separate special education center. Services are led by an early childhood special educator and include a small class size and support staff to ensure small-group, differentiated instruction is possible. Students may attend for a full or partial day depending upon their attentional baselines and IEP goals. Within the preschool school day, students focus on pre-academic skills, communication, and daily living skills to prepare them for a successful transition to kindergarten. In addition to core programming in the aforementioned areas, students have opportunities for structured play and enrichment that builds motor skills and coordination and reinforces pro-social behaviors.		
■ 415–Speech and Language Provide a detailed description of the services to be provided.	Service is Not Currently Provided	
Language and speech services provide remedial intervention for eligible individuals with difficulty understanding or using spoken language. The difficulty may result from problems with articulation (excluding abnormal swallowing patterns, if that is the sole assessed disability); abnormal voice quality, pitch, or loudness; fluency; hearing loss; or the acquisition, comprehension, or expression of spoken language. Within OUSD SELPA, speech and language services are our second-highest incidence service after specialized academic instruction, with several thousand students receiving services across our continuum. Much like SAI, speech and language services can take several forms, including:		

Consultative Speech-Language Services: A speech-language pathologist (SLP) engages with special education staff, general education staff, and/or families to provide recommended strategies to support the student's communication needs within the home or school setting. Consultation may include training staff on the implementation of speech strategies, providing specialized materials or tools, and modeling the implementation of accommodations. 'Push-in' Speech-Language Services: Under this service modality, a speech-language pathologist would provide services to one or more students within their primary classroom setting. This may take the form of the SLP working with an individual student during a lesson

or instructional period that is conducive to the implementation of speech goals or the SLP

Section E: Annual Service Plan Fiscal Year: 2023-24 SELPA: Oakland Unified School District working with a small group of students to facilitate their language production during a structured task while the special education teacher works with the remainder of the class. Separate Setting Speech-Language Services: In this form, a SLP will remove an individual student or small group of students from their classroom setting to work with them in a separate setting. The SLP will design and implement lessons that are specific to students' goals related to articulation, expressive language, receptive language, and/or pragmatic language skills. This may include social skills groups for students who have IEP goals related to this communication domain. ■ 425–Adapted Physical Education Service is Not Currently Provided Provide a detailed description of the services to be provided under this code. Adapted PE (APE) involves adapting, as appropriate, the general education physical education curriculum to ensure access for students with disabilities. Adapted PE specialists may provide direct or consultative services. Consultative services may include collaboration with general physical educators to co-plan or modify existing PE lessons and units, as well as collaboration with other motor-related service providers (e.g. physical therapists or orientation and mobility specialists) to ensure consistent application of fine and gross motor supports. Direct services may include providing physical education class to one or more students, coteaching with a general PE teacher, and providing specialized equipment and materials in real time to enable greater access for students whose disabilities may impede access to the general PE curriculum. 435-Health and Nursing: Specialized Service is Not Currently Provided Physical Health Care Provide a detailed description of the services to be provided under this code. Specialized physical health care services means those health services prescribed by the child's licensed physician and surgeon, requiring medically related training of the individual who performs the services and which are necessary during the school day to enable the child to attend school (5 CCR Section 3051.12[b]). Specialized physical health care services include but are not limited to suctioning, oxygen administration, catheterization, nebulizer treatments, insulin administration, and glucose testing. These services are provided, pursuant to an IEP, by a registered physical therapist, or physical therapist assistant, when assessment shows a discrepancy between gross motor performance and other educational skills. Physical therapy includes, but is not limited to, motor control and coordination, posture and balance, self-help, functional mobility, accessibility and use of assistive devices. Services may be provided within the classroom, other educational settings or in the home, and may occur in groups or individually. These services may include adaptations to the student's environment and curriculum, selected therapeutic techniques and activities, and consultation and collaborative interventions with staff and parents. Educationally-related physical therapy services are provided for students who require such

motor supports in accordance with IEPs. Physical therapists perform the following roles when providing services under this category:
-Consultation with other service providers and general educators to make recommendations

- and ensure implementation of motor-related accommodations/modifications;
- -Direct support to students to build their gross motor functions for the purposes of better accessing their instructional program;
- -Training and support for families to address students' motor needs;
- -Provision of and training on the use of specialized equipment or materials for students with challenges accessing the physical learning environment due to their disability.

One-to-one counseling, provided by a qualified individual pursuant to an IEP. Counseling may focus on such student aspects as education, career, personal, or be with parents or staff members on learning problems or guidance programs for students. Individual counseling is expected to supplement the regular guidance and counseling program.

When a student in OUSD SELPA requires mental health support due to the impact of their disability, the IEP team may consider the provision of individual counseling services through the IEP. Many schools within OUSD SELPA offer these services through the general

Section E: Annual Service Plan Fiscal Year: 2023-24 Oakland Unified School District SELPA: education program, as well. Within Special Education, individual counseling is provided by either a district-employed school social worker or a nonpublic agency therapist under contract with the district depending on the setting of the service and the program placement of the child. Therapists are social workers with appropriate training and credentials. The therapists meet with each student individually as indicated in their IEP to address educationally-related mental health needs that are presenting as barriers to educational progress. This may include mental health assessment and diagnosis, collaborative goal planning, and direct therapy in a variety of modalities based on students' developmental levels and needs (e.g. talk therapy, play-based therapy). ■ 515–Counseling and Guidance Service is Not Currently Provided Provide a detailed description of the services to be provided under this code. IEP required group counseling is expected to supplement the regular guidance and counseling program. In addition to individual therapy services, some students within OUSD SELPA may require additional mental health services to support their social skills, emotional regulation, and positive choice-making within the school environment. Within OUSD SELPA, counseling and guidance services are provided within a small group, separate setting format to address the aforementioned needs through engagement in scenario-building, social skills games and curricula, and talk-based activities. These services focus on ensuring students understand the options available to them for postsecondary education, know how to apply for colleges and technical schools, and engage in courses and experiences aligned to the requirements for such colleges. Services are provided by special education teachers and may include: support with high school course selection, online research into post-secondary institutions aligned to students' interests, liaising with local college students, and trips to local colleges and universities to learn about student life on campus. 830-Vocational Assessment, Counseling, Service is Not Currently Provided Guidance, and Career Assessment Provide a detailed description of the services to be provided under this code. As a part of preparing for post-secondary transition, youth with IEPs may participate in vocational and career assessment services. These services may be provided by special education teachers or career/transition services case managers. These services include the administration of measures designed to help students better understand their strengths and potential career preferences and to connect those interests to schooling or training to be employed within a field of interest. Projected special education budget funding, revenues, and expenditures by LEAs are specified in **Attachments II–V.** This includes supplemental aids and services provided to meet the needs of students with disabilities as defined by the Individuals with Disabilities Education Act (IDEA) who are placed in regular education classrooms and environments, and those who have been identified with low incidence disabilities who also receive special education services.

IMPORTANT: Adjustments to any year's apportionment must be received by the California Department of Education (CDE) from the SELPA prior to the end of the first fiscal year (FY) following the FY to be adjusted. The CDE will consider and adjust only the information and computational factors originally established during an eligible FY, if the CDE's review determines that they are correct. California *Education Code* (*EC*) Section 56048

Pursuant to *EC* Section 56195.1(2)(b)(3), each Local Plan must include the designation of an administrative entity to perform functions such as the receipt and distribution of funds. Any participating local educational agency (LEA) may perform these services. The administrative entity for a multiple LEA SELPA or an LEA that joined with a county office of education (COE) to form a SELPA, is typically identified as a responsible local agency or administrative unit. Whereas, the administrative entity for single LEA SELPA is identified as a responsible individual. Information related to the administrative entity must be included in Local Plan Section A: Contacts and Certifications.

a. Describe the SELPA's allocation plan, including the process or procedure for allocating special education apportionments, including funds allocated to the RLA/AU/responsible person pursuant to *EC* Section 56205(b)(1)(A).

As a single-district SELPA, OUSD is the AU for OUSD SELPA. We distribute funds in accordance with the purpose of each resource. Special Education positions are funded centrally and assigned to school sites to ensure a full continuum of Special Education and related services based on student enrollment and residence data. Funds are further allocated in collaboration with the SELPA Director and the district Chief Academic Officer to ensure sufficient support and materials for home-hospital instruction, privately-placed students, nonpublic school students, and students in independent study programs. Finally, the SELPA manages the distribution and maintenance of materials and equipment purchased with low incidence funds on behalf of students with disabilities.

Fiscal Year: 2023-24

Each SELPA must adhere to requirements for developing and reporting special education budget revenue and expenditures. The following excerpt is taken from California School Accounting Manual (CSAM): Procedure 755 Special Education on page 755-1 and included to assist the SELPA with completing Section D: Annual Budget Plan information for each LEA participating in the SELPA's Local Plan.

Special education budgets are complex and are of great interest to the public, both locally and statewide. EC Section 56205(b)(1) requires that a special education budget shall identify particular elements. Identification of the following elements is facilitated by the standardized account code structure (SACS):

- 1. Apportionment received by the LEA in accordance with the allocation plan adopted by the SELPA. (The apportionment is tracked in SACS in the resource field in combination with the revenue code in the object field.)
- 2. Administrative costs of the plan. (These costs are tracked in the function field.)
- 3. Costs of special education services to pupils with severe disabilities and low-incidence disabilities. (This population is identified by the goal field.)
- 4. Costs of special education services to pupils with nonsevere disabilities. (This population is identified by the goal field.)
- 5. Costs of supplemental aids and services provided to meet the individual needs of pupils placed in regular education classrooms and environments. (Costs of these aids and services are tracked in the function field.)
- 6. Costs of regionalized operations and services and direct instructional support by program specialists in accordance with Part 30, Chapter 7.2, Article 6, of the California EC, Program Specialists and Administration of Regionalized Operations and Services. (These costs are tracked in the goal field for regionalized operations and in the function field for instructional services.)
- 7. Use of property taxes allocated to the SELPA pursuant to EC Section 2572. (Property taxes allocated to the SELPA are tracked in the resource field and identified by a revenue code in the object field.)
