Subject Sustainable Community Schools Redesign Process

Ask of the Board The purpose of this presentation is to discuss and provide feedback on the recommended process for building Sustainable Community Schools through redesign.

Background On January 11, 2023 the Board of Education adopted Resolution No. 2223-0036 - Rescission of School Consolidations for 2022-23. In this Resolution, the Board directed the Superintendent to present options for a new sustainable community schools redesign process by May 31, 2023, with the Impacted Schools being included in the first cohort of schools to be redesigned. Board Directors received a proposed school improvement framework on May 24, 2023 and provided feedback to staff. The feedback provided to staff centered on engagement. District staff engaged with school communities to improve the recommended improvement framework to collect their insights on the improvement framework.

On December 14, 2023, the Board of Directors adopted Resolution 23-2814 Brookfield Elementary School- First Cohort 1- Sustainable Community School Redesign. This resolution requires staff to provide a redesign process and first cohort of schools to participate in the redesign process by June 2024. This proposed school improvement framework is the first read and will come back to the Board of Education in March 2024 for adoption.

Discussion The recommended approach to creating a Sustainable Community Schools Redesign Process is to build a District-wide approach to school improvement. This approach allows the District to evaluate how *all* schools are doing against a defined standard rather than narrowing in on only a few schools identified for improvement. The school improvement framework proposed includes the following steps, 1) Identification; 2) Process; and 3) Content.

Schools that are identified by the proposed metrics would participate in either two

paths of improvement 1) Targeted Improvements or 2) Transformation. Most OUSD schools would be identified for Targeted Improvements, or needing to improve upon a *few* specific identified areas. A smaller portion of schools would be identified for Transformation, or needing to redesign to improve in *all* areas.

When a school is identified for Targeted Improvements, the Process for improvement would be to implement cycles of improvement focused on the targeted areas for improvement. Schools that are identified for Transformation would create an improvement plan through a community based design team. This design process would take place over the course of a year then move towards implementation of the plan after the design year. Implementation would include progress monitoring of the elements of the new design. Schools participating in Transformation would receive support from a set of dedicated staff within the Continuous School Improvement Department, most centrally by a Director of Continuous School Improvement.

The last aspect of the School Improvement Framework is the content in which schools would refine or redesign. These areas include three improvement domains 1) Vision and Mission; 2) Quality Program Implementation; and 3) Collective Leadership and Professional Learning.

Fiscal Impact

Each school that is identified for Cohort 1 School Improvement receives a Design Team fund in the amount of \$50,000 to support the redesign process.

Board Cover Memorandum

To Board of Education

From Mike Hutchinson, Board Member

Meeting Date January 11, 2023

Subject Resolution No. 2223-0036 - Rescission of School Consolidations for 2022-23

Ask of the Board Approval by the Board of Education of Resolution No. 2223-0036 - Rescission of School Consolidations for 2022-23

Background Since OUSD was taken over by the State in 2003, a large number of District schools have been consolidated (i.e., merged or closed) in various phases and cohorts.

The most recent consolidation decision was initiated on January 12, 2022, when the Board approved Resolution No. 2122-0026 - Quality Instruction and Student Supports, Adequate Staffing, Competitive Compensation, and Long-Term Fiscal Stability, which directed the Superintendent to immediately present a list of schools to be closed, merged, or relocated at the end of the 2021-22 and 2022-23 school years.

On January 31, 2022, the Superintendent presented the list pursuant to Resolution No. 2122-0026 as Resolution No 2122-0030 - School Consolidations for 2022-23 and 2023-24. Then, on February 8, 2022, the Board adopted an amended version of Resolution No. 2122-0030, which ultimately approved the following consolidations:

At the End of 2021-22

- Close Community Day School
- Close Parker Elementary
- Merge RISE Community Elementary into New Highland Academy Elementary
- Truncate grades 6-8 at La Escuelita

At the End of 2022-23

- Close Brookfield Elementary
- Close Carl B. Munck Elementary
- Close Grass Valley Elementary
- Close Fred T. Korematsu Discovery Academy Elementary
- Close Horace Mann Elementary
- Truncate grades 6-8 at Hillcrest

At the end of the 2021-22 school year, Parker and Community Day School were closed and grades 6-8 at La Escuelita were truncated as directed by Resolution No. 2122-0030. Additionally, the process to close Brookfield Elementary, Grass Valley Elementary, Carl B. Munck Elementary, Korematsu Elementary, and Horace Mann Elementary (“Impacted Schools”) and truncate grades 6-8 at Hillcrest (“Impacted Grades”) at the end of the 2022-23 school year as directed by Resolution No. 2122-0030 has already begun. This includes, among other things, redrawing attendance zone boundaries, programming the enrollment system, developing enrollment projections, and preparing school sites budgets – all without the Impacted Schools and Impacted Grades. Additionally, staff members at the Impacted Schools and serving the Impacted Grades will also be reassigned consistent with the applicable collective bargaining agreement.

Resolution No. 2122-0030, as later amended by Resolution No. 2122-0092 - Updating the List of Welcoming Schools, Presenting the Proposed Budget for Welcoming Schools, California Environmental Quality Act Exemption, and Other Matters Related to School Consolidations, identified the following schools as Welcoming Schools:

- Burckhalter Elementary
- East Oakland Pride Elementary
- Edna Brewer Middle
- Elmhurst Middle
- Frick Middle
- Markham Elementary
- Oakland Academy of Knowledge
- Roosevelt Middle
- Westlake Middle

Resolution No. 2122-0030, as later amended by Resolution No. 2122-0092 also directed that \$7 million be invested in the Welcoming Schools over three years and that another \$1 million be spent on supports for the Impacted Schools and Impacted Grades. Some of the combined \$8 million, which the State provided to the District under AB 1840 as a result of approving the school consolidations, has already been expended or encumbered.

Discussion

The proposed Resolution would void and rescind the planned school consolidations approved in Resolution No. 2122-0030 at the Impacted Schools and Impacted Grades for the end of the 2022-23 school year. Under the proposed Resolution, the Board would also direct, among other things, the following:

- Any applicant who already submitted their application for enrollment in OUSD in 2023-24 would have the opportunity to update their choices,
- Any enrollment projections for 2023-24 for schools would be updated,
- Any school site budget projections or allocations for 2023-24 would be updated, and
- Any unspent funding from the \$8 million allocated from AB 1840 to support Welcoming Schools pursuant to Resolution No. 2122-0030 and Resolution No. 2122-0092 - Updating the List of Welcoming Schools, Presenting the Proposed

Budget for Welcoming Schools, California Environmental Quality Act Exemption, and Other Matters Related to School Consolidations would be redirected to support the Impacted Schools (but not the Impacted Grades) and offset any financial impacts of this Resolution.

Additionally, the proposed Resolution has been updated since its introduction to (i) add the direction to reset the attendance boundaries, (ii) to automatically add the student's neighborhood school to their enrollment application for students who reside in the neighborhood boundary of one of the Impacted Schools and have already submitted an enrollment application for 2023-24, and (iii) to automatically assign TK students who applied for Hillcrest to the nearest possible TK site.

Under the proposed Resolution, the Board would also direct the Superintendent to present options for a new sustainable community schools redesign process by May 31, 2023, with the Impacted Schools being included in the first cohort of schools to be redesigned.

If the Board were to adopt the proposed Resolution, there would be impacts on the following areas: School Quality, Enrollment, Budget, Facilities and Maintenance, and Asset Management. Staff initially understood that the proposed Resolution would be brought to a vote on January 25, 2023 and has been preparing its analysis of these impacts for that meeting. It is not possible to finalize the analysis on such short notice (less than a day) and so staff will publish its analysis on January 25, 2023.

Fiscal Impact Available on January 25, 2023

WHEREAS, since the State takeover in 2003, the District has pursued policies that have led to a large number of traditional neighborhood schools being closed, relocated, or privatized;

WHEREAS, most of these decisions have been met with large community opposition and have led to an adversarial relationship between the Board of Education (“Board”) and the constituents they serve.

WHEREAS, the Board is responsible for ensuring that all OUSD students have access to high quality neighborhood schools;

WHEREAS, the Board has the sole authority to set policy for the District, including whether and how to make school changes (e.g., relocation, closure);

Board Cover Memorandum

To Board of Education

From Mike Hutchinson, Board President

Meeting Date December 13, 2023

Subject Designation - Brookfield Elementary School - First School Cohort 1 - Sustainable Community Schools School Redesign

Ask of the Board Approval by the Board of Education of Resolution No. 2324-0163 - Identifying Brookfield Elementary As The First School In Cohort 1 Of Sustainable Community Schools School Redesign.

Background

The first action the new Board took on January 11, 2023 was approving Resolution No. 2223-0035 which rescinded the plan to close schools and directed the superintendent to present options for a new sustainable community schools redesign process, “with the Impacted Schools being included in the first cohort of schools to be redesigned”.

School redesign, using a Sustainable Community Schools Model, is a proven way to bring transformational change to schools and builds off of years of work both within OUSD and nationally. One of the key pillars of this model of school redesign is a year long envisioning/redesign process that is led by a design team made up of the school community. For cohort 1, 2024-25 will be a redesign year and the redesigned schools will launch in 2025-26.

Discussion

The proposed Resolution would designate Brookfield Elementary as the first school in Cohort 1 of Sustainable Community Schools Redesign. Additionally, the proposed Resolution would direct the Superintendent to present a list of any other schools to

potentially add to Cohort 1, and a detailed plan and timeline for Cohort 1 in 2024-25, to the Board for approval by June 30, 2024.

Fiscal Impact None.
