Meeting Date January 14, 2026

Subject Agreement between Oakland Unified School District and Valley Precision Grading, Inc. for the latter to donate a field at Burckhalter Elementary School.

Ask of the Board Approval by the Board of Education of the Agreement by and between the District for a Donated Field between Oakland Unified School District (OUSD) and Valley Precision Grading, Inc., for the design and construction of a multi-sport turf field at Burckhalter Elementary School.

Staff recommends approval of this item, as it provides a no-cost infrastructure improvement, aligns with the District’s goal of expanding access to high-quality outdoor play environments, and supports OUSD’s field modernization efforts.

Background OUSD continues to prioritize equitable access to safe, high-quality outdoor play and athletic spaces for students. Many elementary school sites have aging or degraded play surfaces that present ongoing maintenance challenges and limit student use.

Valley Precision Grading, Inc. has committed to perform the design and construction of a new multi-sport turf field at Burckhalter Elementary School at no cost to OUSD. Under the agreement, Valley Precision Grading, Inc. will deliver the project at no cost to OUSD, subject to District design review and approval. The District will retain ownership of the facility and will be responsible for standard ongoing maintenance following project completion.

This agreement is consistent with prior Board-approved donation agreements for athletic facility improvements and supports the District’s broader strategy to leverage philanthropic partnerships to supplement bond-funded investments.

Discussion	<p>The donated field will address existing deferred maintenance issues at Burckhalter Elementary School by replacing worn blacktop with a modern, durable, multi-sport turf surface. Valley Precision Grading, Inc. will lead all design and construction work, with oversight and approval from the District. The quality of the turf product being installed exceeds typical elementary school field standards and will allow OUSD to pilot a new field system that may inform future elementary school field replacements.</p> <p>This project aligns with the District’s current focus on field replacements within the bond program by providing a real-world installation that can be evaluated for durability, maintenance requirements, student use, and lifecycle costs. Lessons learned from this installation will support more informed decision-making as the District plans future investments across multiple sites.</p> <p>The agreement includes standard protections for the District, including indemnification, insurance requirements, and a prohibition on mechanics’ liens against District property. There is no fiscal impact to the General Fund or bond program associated with this item.</p>
Fiscal Impact	<p>There is no fiscal impact to the District. The project is fully funded by Valley Precision Grading, Inc. District costs are limited to coordination, design review, and long-term routine maintenance consistent with existing field assets.</p>
