- 4.4. In order to document exactly what CADD information was given to the District, Architect and District shall each sign a "hard" copy of reproducible documents that depict the information at the time Architect produces the CADD information. District agrees to release Architect from all liability, damages, and/or claims that arise due to any changes made to this information by anyone other than the Architect or Consultant(s) subsequent to it being given to the District.

In the event of a termination pursuant to this subdivision, Architect may invoice District for all Services performed until the notice of termination, but District shall have the right to withhold payment and deduct any amounts equal to the District's costs because of Architect's actions, errors, or omissions that caused the District to terminate this Agreement. The District may, at its discretion, provide the Architect time to cure its default or breach.
- 5.2. District shall have the right in its sole discretion to terminate this Agreement for its own convenience. In the event of a termination for convenience, Architect may invoice District and District shall pay all undisputed invoice(s) for Services performed until the District's notice of termination.
- 5.3. Except as indicated in this Article, termination shall have no effect upon any of the rights and obligations of the Parties arising out of any transaction occurring prior to the effective date of such termination.
- 5.4. The Architect has the right to terminate this Agreement if the District does not fulfill its material obligations under this Agreement. Such termination shall be effective after receipt of written notice from Architect to the District. Architect may invoice District and District shall pay all undisputed invoice(s) for Services performed until the Architect's notice of termination.
- 5.5. If, at any time in the progress of the Design of the Project, the governing board of the District determines that the Project should be terminated, the Architect, upon written notice from the District of such termination, shall immediately cease Services on the Project. The District shall pay the Architect only the costs associated with the Services provided since the last invoice that has been paid and up to the notice of termination.
- 5.6. If the District suspends the Project for more than one hundred twenty (120) consecutive days, the Architect shall be compensated for Services performed prior to notice of that suspension. When the Project is resumed, the schedule shall be adjusted and the Architect's compensation shall be equitably adjusted to provide for expenses incurred in the resumption of the Architect's Services. ## **Article 6. Indemnity/Architect Liability**

- 6.1. recklessness, errors or omissions, or willful misconduct of Architect, its directors, officials, officers, employees, contractors, subcontractors, consultants, subconsultants or agents, directly or indirectly, arising out of, connected with, or resulting from the performance of the Services, the Project, or this Agreement, including without limitation the payment of all consequential damages. This indemnity excludes Architect's liability as to the active or sole negligence or willful misconduct of the District.

#### **Article 7. Mandatory Mediation for Claims**

- 7.1. The Parties hereto agree prior to commencing any legal action relating to any Claim, as defined herein, to submit the Claim to a mandatory good-faith mediation process ("Mediation"). The Parties' expectations are that if the Claim is made by a third party (e.g., a contractor), that the third party will be a participant in that Mediation. The Parties agree that any statute of limitations applicable to any Claim shall be tolled for the period from the date a Party requests Mediation through the tenth (10<sup>th</sup>) day after termination of the Mediation, unless otherwise agreed to by the Parties.
- 7.2. Except as set forth below, the Parties agree to refrain from filing, maintaining, or prosecuting any action related to the Claim during the pendency of the Mediation provided that the Mediation must commence within thirty (30) days after a Party makes written demand to the other for Mediation.
- 7.3. The Parties shall participate in a minimum of one full-day mediation session before the Mediation may be declared unsuccessful and terminated by either Party. The Mediation shall be conducted in accordance with such rules as the Parties agree upon, or in the absence of agreement, in accordance with the Commercial Mediation Rules of JAMS/Endispute. Evidence of anything said, any admissions made, or any documents prepared in the course of the Mediation shall not be admissible in evidence or subject to discovery in any court action pursuant to Evidence Code Section 1152.5.
- 7.4. The Parties shall mutually agree to the selection of a mediator who is an attorney that is experienced in public works construction claims. If the Parties are unable to agree upon a mediator, then the mediator shall be appointed by JAMS/Endispute.
- 7.5. The Mediation shall take place at a location within twenty (20) miles of the District's administrative office. The mediator's fees and administrative fees, if any, shall be split equally between the Parties, but, unless otherwise agreed to in writing, each Party shall bear its own attorney's fees.
- 7.6. If any Party commences a legal action without first attempting to resolve the Claim as required by this Article, that Party shall be in breach of this Agreement and shall not be entitled to recover attorney's fees that might have otherwise been recoverable.
- 7.7. This mandatory mediation process shall only apply to Claims pursuant to the Architect Indemnity provision herein and shall not apply to any disputes to be resolved pursuant to the Alternative Dispute Resolution provisions herein.

#### **Article 8. Fingerprinting**

Pursuant to Education Code section 45125.2, District has determined on the basis of scope of Services in this Agreement of this Project, that Architect, Consultants, and their employees will have only limited contact with pupils at most. #### **Article 9. Responsibilities of the District**

- 9.2. The District shall verbally or in writing advise the Architect if the District becomes aware of any fault or defect in the Project, including any errors, omissions or inconsistencies in the Architect's documents. 17.1.2. If the Architect disagrees with the Disputed Architect Invoice Detail, the Architect shall communicate to the District in writing, and request to meet and confer in good faith with respect to any such disapproved portion or amount of the Architect invoices and the Disputed Architect Invoice Detail to determine if the dispute can be resolved. Such meet and confer communications shall include, but are not limited to, face-to-face meetings within thirty (30) days of the Architect's notice to the District with the appropriate District and Architect personnel as appropriate and necessary.

SUBJECT: **Elmhurst** and Edna Brewer Middle School Synthetic Turf Multi-Use Field Improvements  
Oakland Unified School District  
Verde Design Project No.: 1516200

Dear Maria:

Thank you for allowing Verde Design to provide a proposal for the above referenced project. This proposal shall remain valid for a period of sixty (60) days. Please note we understand that each project site will be its own project and its own contract, but the efforts and economies of scale are assuming that both projects will be awarded to Verde Design at one time.

### PROJECT UNDERSTANDING:

Oakland Unified School District ("District") has identified the desire to install synthetic turf field areas at Elmhurst Middle School and Edna Brewer Middle School sites. Both Projects will use the design/bid/build delivery method. Each project will be submitted to DSA and will have its own separate bid package. The project scope per school site is as follows:

**Edna Brewer:** existing condition is asphalt concrete paving to be changed to synthetic turf playfield (including base preparation and drainage) with site work and benches potentially included (estimated construction cost \$1,200,000). The scope of this design effort is to either install a synthetic turf profile direct on top of the asphalt pavement, thus significantly reducing site work costs, or to excavate and create a new permeable footprint for the turf field within the overall asphalt paving area.

**Elmhurst:** existing condition is natural grass to be changed to synthetic turf playfield (including base preparation and drainage) with site work and benches potentially included (estimated construction cost \$650,000). Field dimensions shall be approximately 102 yards x 43 yards. Improvement standards shall meet NFL grant requirements (these are to be provided to Verde Design by the District). Design scope will include the design of the turf field area, as well as what is anticipated to be extensive field modifications (particularly with respect to the existing irrigation system) surrounding the new turf footprint.

The anticipated schedule for these projects is as follows:

Design: Fall 2015  
DSA submittal December 2015  
Bidding: Spring 2016  
Construction: Summer 2016

Once the project budget has been validated and the project improvements confirmed, we will move into detailed design and construction documentation.

Included in our proposal are optional line item fees for topographic surveying and geotechnical investigative design services (for subgrade treatment for the proposed turf field areas) for the two project areas. Please note that the above optional fee for topographic surveying was for the entire grass area at Elmhurst MS and the lower paved area at Edna Brewer MS. Also, the geotechnical engineering services are limited to the site assessment, evaluation, and recommendations for the planned project improvements. The scope for construction testing, testing, and special inspections are not included in this proposal (as our geotechnical consultant cannot provide these services), and we are asking the District to contract independently for these services.

The project scope will include the review of the site accessibility to and from the fields from the school campus and the nearest parking lot at each school site. We will assess and provide finding on what will trigger these recommendations. Included in the proposal is time to attend a pre-design meeting with DSA to discuss the field project scope and adjacency impacts in terms of accessibility code upgrades. As this work is unknown and can vary from project to project based on DSA input, we have not included any specific effort for code upgrades with respect to accessibility issues beyond the immediate project areas.

The program validation will culminate in a preliminary design plan for the field areas as well as an initial construction budget. Once the project construction budget has been aligned with the desired improvements, we will move into detailed design and construction documentation.

## **SCOPE OF SERVICES**

Verde Design proposes providing the following services in accordance with the above stated project understanding.

### **A. Project Start-up / Program Validation / Concept Design**

1. Attend a project kick off meeting with the District and confirm project programmatic information.
2. If optional service is accepted, provide a topographic survey in digital AutoCAD format and input information into computer system. Otherwise, coordinate with District to receive CAD survey.
3. Complete on-site walks of each school area to complete a visual inventory of information compared to the provided topographic survey.
4. Receive any relevant as-built documents available from the District.
5. If optional service is accepted, provide the geotechnical engineering investigative work for the applicable project areas. Otherwise, coordinate with District to receive required report and design information from District's geotechnical engineer.
6. Prepare and set the electronic base for developing the proposed improvements.
7. Attend and facilitate a project meeting with the District to review the initial field designs and initial construction cost budgets for the two sites. The purpose of the meeting is to review collected utility information, geotechnical findings and how they relate to the field areas as developed by Verde Design.
8. Refine the concept designs for the two project sites based on the input received at meeting with District.
9. Develop two dimensional colored design plans for the project sites.

10. Attend up to three community meetings per site (totaling up to six community meetings) to present and discuss the project.
11. Submit electronic copies of Final Conceptual Designs and aligned Construction Cost Budgets to District for review and approval to proceed into Design Development.

**B. Design Development**

1. Develop system designs for the project improvements. Documentation will be at an approximate 30% Construction Documentation level. Improvements to include the following systems:
  - a. Demolition
  - b. Grading
  - c. Drainage / Utilities
  - d. Material / Layout
  - e. Preliminary Construction Cost Statement
2. Meet with District staff to review design development package (two sets to be provided) and receive comments and direction to proceed into full Construction Documentation.

**C. Construction Documentation**

1. Develop a CD package to a 65% level. Develop two separate packages, one for each project site. Each project site will have the following documents:
  - a. Cover Sheet
  - b. Existing Conditions Plan
  - c. Erosion and Sedimentation Control Plan
  - d. Demolition Plan
  - e. Grading Plan
  - f. Drainage / Utility Plan
  - g. Layout Plan
  - h. Materials Plan
  - i. Construction Details
  - j. Technical Specifications (in CSI format)
  - k. Statement of Probable Construction Costs
2. Internal redlining and quality control
3. Submittal preparation and coordination. Submittal will be prepared to include two sets of each package to the District.
4. Attend one meeting with the District to review the 65% submittal packages. Receive comments and authorization to finalize the set.
5. Refine the documents to a DSA submittal level (approximately 95%). This submittal (three sets) will be submitted to DSA for necessary plan review. Two sets of each package will also be provided to the District.
6. 100% / DSA back check submittal package. Upon receiving comments from DSA and the District, we will finalize our construction documents for DSA approval, attend back check appointments at DSA to receive project approval, and upon receipt of scanned approved documents from DSA, deliver the approved package to the District for advertisement and bidding purposes.

**D. Bidding Assistance**

This process is assumed to be two bid packages (one per project site). Verde Design will assist the District in the bid solicitation process. Our work for this effort will be as follows:

1. Contact potential bidders

2. Attend up to two pre-bid meetings with respective bidders.
3. Provide answers to bidder questions to the District for distribution during the bid period.
4. Assist District in evaluating the bids.

**E. Construction Administration / Project Close Out**

Verde Design will provide the following construction administration services as desired by the District for each project site. It is our understanding that each school will be its own project and thus our anticipated effort is based on potentially non-aligned schedules and separate submittal processes, construction meetings, etc.

1. Attend pre-construction coordination meetings.
2. Review and processing of applicable product submittals.
3. Respond to questions from Contractors as applicable.
4. Attend up to twelve construction meetings at each project site (for a total of 24 meetings / visits), including site walks. We assume District Construction Manager will facilitate meetings and administer meeting documentation.
5. Complete Substantial Completion walk-thrus and generation of project punch lists.
6. Review record drawings for underground improvements.
7. Final walk-thrus and punch lists for our scope of work. All subsequent punch walks will be billed on a Time and Materials basis in addition to this proposal.
8. Review all Contractor warranties / guaranties and M&O documentation for our scope of work.
9. Close project and organize electronic files, plans and construction binder.
10. Obtain DSA project certification.
11. Develop a set of project As-Built Drawings in CAD based on the Recode Drawings as provided by the Contractor.
12. Return to the project site 10 months into the 12 month project guarantee period to review project conditions with District staff. Identify potential warranty issues and discuss with District staff what is working well and what needs improvement. Develop document on how to best remedy existing or anticipated issues.

**PROJECT TIMELINE**

Verde Design proposes that the Project Start-up / Concept Design Phase can be completed within six weeks of receiving the written notice to proceed (this is due to the optional service efforts). We can provide a DSA submittal within 12 weeks of receiving contract authorization, which should work with the milestone schedule.

**CLIENTS RESPONSIBILITIES**

In order to complete the items described in Scope of Services above, we respectfully request that the District to provide the following information:

**Project and Site Information**

1. Any District standards for materials, construction detailing, etc.
2. As-built drawings and CAD (preferred) backgrounds for the existing conditions.
3. Programmatic information known for the desired project improvements (to be obtained during project kick-off meeting)
4. Project specific topographic surveys and geotechnical investigative reports for the two project areas (unless optional services are accepted)

### **SPECIAL PROVISIONS**

Without attempting to be all-inclusive and for purposes of clarity, the following items are specifically not included in the Scope of Services:

1. Meetings other than those listed.
2. 3-D Renderings & Fly Thru Models (can be provided as an add service if desired)
3. Project design documentation or costing in addition to the scope identified above.
4. Acoustical, Electrical, M/E/P, and Structural Engineering or Architecture
5. CEQA, Environmental, or other impact statement documents.
6. Any permit or application fees required for this project
7. Coordination with public agencies, other than DSA and local fire marshal
8. Right-of-way design work.
9. QSD / QSP responsibilities.
10. Booster or Hydraulic Lift Pump System design
11. Construction related geotechnical testing and field inspection work

If the completion of the services is delayed at any time in the progress of the work undertaken in this Agreement by conditions beyond the control of the Consultant; including but not limited to: strikes, lockouts, labor disputes, or the inability of Client, their consultants, utility companies, or jurisdictional agencies to provide required information, processing or direction; the time of completion shall be extended during such period and Consultant shall be held harmless from any and all claims arising out of such delay.

### **PROFESSIONAL COMPENSATION**

Verde Design respectfully presents the following lump sum fee that is broken down by the following fee schedule for the outlined Scope of Services. These fees overall are based on the anticipated work effort that will be required to successfully complete the outlines Scope of Services.

	<u>Fee Amount</u>

Design Development:	\$ 28,400
Construction Documentation:	\$ 48,200
Bidding Assistance:	\$ 4,200
Construction Administration & Project Closeout:	\$ 59,300
<b>Fee Subtotal:</b>	<b>\$174,800</b>

In addition, the following optional services are included in our proposal for necessary consulting services, that the District may elect to have Verde Design (thru its local subconsultants) provide, or the District can provide these services directly.

#### **Optional Service Fees (with fee broken down by site):**

Topographic Surveying (PLS Surveys):		\$ 12,000
Elmhurst Middle School:	\$ 6,700	
Edna Brewer Middle School:	\$ 5,300

Edna Brewer Middle School:	\$ 5,950	

The total fee (inclusive of the optional design services noted above) as broken down by site is as follows.

<b>Elmhurst Middle School:</b>	<b>\$ 106,050</b>
<b>Edna Brewer Middle School:</b>	<b>\$ 92,650</b>

In addition, the District may elect to carry an additional fee allowance, as has been the case on other District projects, for any potential design deviations they want to enlist, though we do not feel this is needed at this point for these two projects.

**District Design Fee Allowance:** **\$ TBD**

The above fees includes all reasonable reimbursable expenses that are outlined to be included in the project scope and the provided products. Additional requested reimbursables will be entitled to bill reimbursable expenses as noted on the attached Charge Rate Schedule. Fees for services outside the scope shown in this proposal will be in addition to the direct labor costs. These may be completed on a time and material basis or negotiated fixed fee at the choice of District.

The fees noted above are based on the project schedule contained in the proposal. Should the client delay the project beyond the agreed upon schedule to a level that puts the project on hold longer than 30 consecutive days, a project re-start fee may apply. This fee will be determined at that point based on the amount of downtime and additional work required to reactivate and reschedule work and staff.

#### **CHANGE IN SERVICES**

Client may order changes in scope or character of service, either decreasing or increasing the amount of Consultant's services, and if necessary, changing the character of services. In the event that such changes are ordered, Consultant is entitled to full compensation for all services performed and expenses incurred prior to receipt of notice of change.

#### **TERMINATION OF AGREEMENT**

This agreement may be terminated by either party at any point with ten (10) days written notice to the other party in the event of substantial failure of performance, or if the client should deem it necessary or desirable to indefinitely suspend the project.

In the event the project is terminated or indefinitely suspended in the manner herein provided, the Landscape Architect shall turn over copies of any and all documents completed to that date. The Landscape Architect shall be entitled to compensation up to and including said termination date. Original work shall remain the property of Verde Design.

#### **BILLINGS AND PAYMENT**

Invoices will be sent by the 10th of the month for work completed through the 25th of the previous month. Any additional services will be billed separate from contracted services.

Maria, if this proposal meets with your approval, please sign the proposal below and/or issue a purchase order that reflects the contents of this proposal. We are excited to continue working with the District and really value our positive relationship.
