In the event of a termination pursuant to this subdivision, Architect may invoice District for all Services performed until the notice of termination, but District shall have the right to withhold payment and deduct any amounts equal to the District's costs because of Architect's actions, errors, or omissions that caused the District to terminate this Agreement. The District may, at its discretion, provide the Architect time to cure its default or breach.
- 5.2. District shall have the right in its sole discretion to terminate this Agreement for its own convenience. In the event of a termination for convenience, Architect may invoice District and District shall pay all undisputed invoice(s) for Services performed until the District's notice of termination.

- 5.5. If, at any time in the progress of the Design of the Project, the governing board of the District determines that the Project should be terminated, the Architect, upon written notice from the District of such termination, shall immediately cease Services on the Project. - 5.6. If the District suspends the Project for more than one hundred twenty (120) consecutive days, the Architect shall be compensated for Services performed prior to notice of that suspension. When the Project is resumed, the schedule shall be adjusted and the Architect's compensation shall be equitably adjusted to provide for expenses incurred in the resumption of the Architect's Services. Article 7. Mandatory Mediation for Claims

- 7.1. The Parties hereto agree prior to commencing any legal action relating to any Claim, as defined herein, to submit the Claim to a mandatory good-faith mediation process ("Mediation"). The Parties agree that any statute of limitations applicable to any Claim shall be tolled for the period from the date a Party requests Mediation through the tenth (10th) day after termination of the Mediation, unless otherwise agreed to by the Parties.
- 7.2. - 7.3. The Parties shall participate in a minimum of one full-day mediation session before the Mediation may be declared unsuccessful and terminated by either Party. The Mediation shall be conducted in accordance with such rules as the Parties agree upon, or in the absence of agreement, in accordance with the Commercial Mediation Rules of JAMS/Endispute. Evidence of anything said, any admissions made, or any documents prepared in the course of the Mediation shall not be admissible in evidence or subject to discovery in any court action pursuant to Evidence Code Section 1152.5.
- 7.4. The Parties shall mutually agree to the selection of a mediator who is an attorney that is experienced in public works construction claims. If the Parties are unable to agree upon a mediator, then the mediator shall be appointed by JAMS/Endispute.
- 7.5. The Mediation shall take place at a location within twenty (20) miles of the District's administrative office. The mediator's fees and administrative fees, if any, shall be split equally between the Parties, but, unless otherwise agreed to in writing, each Party shall bear its own attorney's fees.
- 7.6. If any Party commences a legal action without first attempting to resolve the Claim as required by this Article, that Party shall be in breach of this Agreement and shall not be entitled to recover attorney's fees that might have otherwise been recoverable.
- 7.7. This mandatory mediation process shall only apply to Claims pursuant to the Architect Indemnity provision herein and shall not apply to any disputes to be resolved pursuant to the Alternative Dispute Resolution provisions herein.

- 17.1.2. If the Architect disagrees with the Disputed Architect Invoice Detail, the Architect shall communicate to the District in writing, and request to meet and confer in good faith with respect to any such disapproved portion or amount of the Architect invoices and the Disputed Architect Invoice Detail to determine if the dispute can be resolved. Such meet and confer communications shall include, but are not limited to, face-to-face meetings within thirty (30) days of the Architect's notice to the District with the appropriate District and Architect personnel as appropriate and necessary.

Re: Fee Proposal to Correct Non-Compliant Conditions
For Cole School Tenant Improvement Project

Dear Mr. Jang,

murakami/Nelson is pleased to submit the following fee proposal for services to develop a plan of action to address possible non-compliant condition(s) identified by DSA in their "Order to Comply for the Cole School Tennant Improvement Project". In their "Order to Comply" DSA identified signage, in-fill walls and full eight partition walls as being of concern. The murakami/Nelson team will assist the District in providing DSA the information they are requesting and to design mitigations for any deficiencies that are found. In addition to the identified areas of concern DSA will likely require path of travel and restroom upgrades to be incorporated into the project in conformance with DSA IR 11B-10. Any new construction and work previously constructed as part of the TI project will have to comply with the current code. This may require reconstructing elements of the TI project.

Additionally, OUSD has requested that murakami/Nelson design the repair and/or replacement of two exterior stairs to the second floor of the school. Design of emergency stabilization measures for those stairs was covered under a separate proposal. Design, construction documents, bidding and construction administration services for the repair and/or replacement of those stairs is part of this proposal.

murakami/ Nelson will become the Design Professional in General Responsible Charge for the project. To assist us we have selected RP Gallagher Associates for structural engineering, AME for destructive investigations and materials testing, Kister Savio & Rei for surveying and civil engineering, H&M Mechanical for mechanical engineering, BWF for electrical engineering, and Mack5 for cost estimating. We are prepared to retain an elevator consultant; however, based upon information provided by OUSD, we understand that the elevator controls were recently modified to comply with current access requirements. Should DSA require documentation to confirm that the elevator systems and controls meet current code requirements we would retain VDA, a Bay Area elevator consultant, to prepare a report and if necessary design corrective modifications.

***Stair Repair would be \$6,700 less than replacement*

Cost Estimates for "Order to Comply" / Access / Stairs

murakami/Nelson	2,000
Mack ⁵	<u>9,800</u>
TOTAL	\$11,800

We will bill hourly for the above services, based upon our and our consultants' standard hourly rates not to exceed **\$182,580**. Reimbursable expenses (overnight shipping, delivery services, DSA scanning, DSA Fees, etc.) will be billed at 1.1 times the actual cost.

This fee can be considered to represent an upper limit; however, it is possible DSA will ask for more work to be done than what I have described. I will advise you if that occurs and what impact it will have on our fee. Our rational with the Plan of Action is to propose a reasonable approach to answering DSA's questions and provide enough information to be confident the project was built according to the CBC requirements. As I mentioned I am assuming that a minimum of \$200,000 of accessibility work will be required.

Upon receiving a Notice of Intent to Award we will develop a Plan of Action with the understanding that a contract will be executed within one month of the Notice to Proceed.

Very truly yours,
murakami/Nelson
