The District shall pay the Architect only the costs associated with the Services provided since the last invoice that has been paid and up to the notice of termination.
- 5.6. If the District suspends the Project for more than one hundred twenty (120) consecutive days, the Architect shall be compensated for Services performed prior to notice of that suspension. When the Project is resumed, the schedule shall be adjusted and the Architect's compensation shall be equitably adjusted to provide for expenses incurred in the resumption of the Architect's Services. The Mediation shall be conducted in accordance with such rules as the Parties agree upon, or in the absence of agreement, in accordance with the Commercial Mediation Rules of JAMS/Endispute. Evidence of anything said, any admissions made, or any documents prepared in the course of the Mediation shall not be admissible in evidence or subject to discovery in any court action pursuant to Evidence Code Section 1152.5.

The mediator's fees and administrative fees, if any, shall be split equally between the Parties, but, unless otherwise agreed to in writing, each Party shall bear its own attorney's fees.
- 7.6. If any Party commences a legal action without first attempting to resolve the Claim as required by this Article, that Party shall be in breach of this Agreement and shall not be entitled to recover attorney's fees that might have otherwise been recoverable.

Architect understands and agrees that the Architect's personnel are not and will not be eligible for membership in or any benefits from any District group plan for hospital, surgical, or medical insurance or for membership in any District retirement program or for paid vacation, paid sick leave, or other leave, with or without pay, or for other benefits which accrue to a District employee.
- 19.3. Should District, in its discretion, or a relevant taxing authority such as the Internal Revenue Service or the State Employment Development Department, or both, determine that Architect is an employee for purposes of collection of any employment taxes, the amounts payable under this Agreement shall be reduced by amounts equal to both the employee and employer portions of the tax due (and offsetting any credits for amounts already paid by Architect which can be applied against this liability). District shall then forward those amounts to the relevant taxing authority.
- 19.4. Should a relevant taxing authority determine a liability for past services performed by Architect for District, upon notification of such fact by District, Architect shall promptly remit such amount due or arrange with District to have the amount due withheld from future payments to Architect under this Agreement (again, offsetting any amounts already paid by Architect which can be applied as a credit against such liability).
- 19.5. A determination of employment status pursuant to the preceding paragraphs of this Article shall be solely for the purposes of the particular tax in question and, for all other purposes of this Agreement, Architect shall not be considered an employee of District. Notwithstanding the foregoing, should any court, arbitrator, or administrative authority determine that Architect is an employee for any other purpose, then Architect agrees to a reduction in District's liability resulting from this Agreement pursuant to principles similar to those stated in the foregoing paragraphs so that the total expenses of District under this Agreement shall not be greater than they would have been had the court, arbitrator, or administrative authority determined that Architect was not an employee.
- 19.6. Nothing in this Agreement shall operate to confer rights or benefits on persons or entities not a party to this Agreement.

#### **Article 20. Warranty and Certification of Architect**

- 20.1. Architect warrants and certifies that the Architect is properly certified and licensed under the laws and regulations of the State of California to provide the professional Services that it has herein agreed to perform.

- 20.3. Architect warrants and certifies that it is aware of the provisions of the California Labor Code that require the payment of prevailing wage rates and the performance of other requirements on certain "public works" and "maintenance" projects ("Prevailing Wage Laws"). Since the Architect is performing Services as part of an applicable "public works" or "maintenance" project, and since the total compensation may be One Thousand Dollars (\$1,000) or more, the Architect agrees to fully comply with and to require its Consultant(s) to fully comply with all applicable Prevailing Wage Laws.

- 24.6. Architect shall comply with these provisions within fifteen (15) days of the District's written request to review and audit any or all of Architect's Project-related records and information.

**Article 25. Local, Small Local and Small Local Resident Business Enterprise Program (L/SL/SLRBE).** Architect shall comply with the requirements of the District's L/SL/SLRBE Program, as applicable, which may require a fifty percent (50%) mandatory minimum local participation requirement in the performance of this Agreement. RE: Updated Proposal for Architectural and Engineering Services  
For Laurel Elementary School Finishing Kitchen

Dear Ms. Denney,

Thank you for the opportunity to provide this Architectural and Engineering service proposal for the ~~Kaiser~~ Laurel Elementary School Finishing Kitchen Project. We want to thank you for the opportunity to submit this proposal, and illustrate our strong interest in delivering this project to the District. As you are aware, we have been working on the District's Central Commissary project, and are familiar with the District's goal to provide healthy and nutritious meals to the student. We are familiar with the District's food services goals and the Nutritional Services' process.

This is an updated proposal from the previous proposal dated 11/13/15 to include a study and design related to the seismic retrofit and the acoustics improvement of the existing Multipurpose Building.

As requested by your email dated 11/2/15, we understand that the intent of the project is to provide the following spaces;

- ± 1,200 SF finishing kitchen
- Consider site built construction vs. modular/prefabricated options
- Construction Budget of \$1.2 million for the Finishing Kitchen

In addition, we note that a structural analysis and retrofit will be required for the existing Multipurpose building. Based on the information furnished by Ms. Mary Ledezma, we understand, in general, the existing building will require the following improvements;

- Roof Diaphragm improvement utilizing sheathing improvement or braced frame improvement.
- Steel truss and bottom cord bracing
- Out of plane concrete wall improvement at north and south walls.
- Strengthening of the roof to column connections.

- Potential collector improvement at north and south walls, including connections to the foundation.

The email provided by Mark Moore of ZFA, dated 6/25/15, notes that there is a potential for mandatory retrofit in addition to the voluntary retrofit. The requirement that may arise from the mandatory retrofit is not completely understood, and there may be additional structural improvement considerations in addition to the scope listed above.

Based on this information, our structural scope will include the following:

- Pre-Design site visits and review
- Complete ASCE Tier 1 and 2 assessment
- Coordination with DSA to confirm finding and to define retrofit scope.
- Construction Documents
- Construction Administration and Close out services.

We do not have information on the anticipated construction cost for the structural improvement of the existing building at this point. We will generate estimates as required to inform the District of complete work scope.

We will also include acoustical assessment of the Multipurpose Room and final acoustics verification as a part of this project.

We understand that the project will involve community outreach process. In addition, we believe the following potential design considerations may be applicable for this project.

- Provide site path of travel improvement

The project will be delivered under the DSA project delivery. In addition, it will require the Oakland Fire Prevention Bureau and the County of Alameda Environmental Health review.

Our service will include a review of existing conditions. We understand that the project program is well defined and our service is to confirm the provided program and start the schematic design.

We note that there are site and program related uncertainties. We understand the following requirement.

- District to provide site survey
- Fire sprinkler requirement as well as the service main information is unknown at this point. We will provide a separate fee proposal to address the sprinkler design upon investigation
- District to engage commissioning agent for CBC commissioning and the sustainability/CHPS commissioning requirement
- Utility company coordination by the District. We will provide the necessary documents.
- CGS approval may not be required. We will need to confirm upon review.

The following is the list of team members based on the preliminary information.
