share important information related to the after school and regular school day programs. After school family engagement efforts should be aligned with school day efforts, and support school goals for family involvement. A variety of activities may be offered, including: parent workshops, family celebrations, parent-and-child-together activities, parent leadership and volunteer opportunities.

Family literacy is a required component of all 21<sup>st</sup> Century after school programs. Family literacy services support the educational goals of adult family members, connect them to resources and services in the community, and increase their ability to support their student's learning and development. For 21<sup>st</sup> Century grantees who receive Family Literacy funding: *The activities listed below must align to your 21<sup>st</sup> Century Family Literacy budget plan.*

#### SECTION 9: Chronic Absence Action Plan

Improving school day attendance for all students and reducing chronic absenteeism is one of the key OUSD strategic goals. The district goal is that all students will attend school at least 95% of the required school days or more, thereby achieving satisfactory attendance. Students who attend school 90% or less of required days are considered chronically absent. Students whose attendance falls in the "grey zone" between 90% - 95% are considered at risk of chronic absenteeism.

In partnership with the school day, after school programs can play an important role in supporting student attendance by doing things like celebrating good attendance, informing parents about the importance of attendance, uncovering what challenges students/families are facing that cause them to miss school, regularly monitoring student attendance data, contacting families to let them know their child was missed at school, etc., in addition to providing meaningful after school learning experiences that help keep students engaged and coming.

Below are several key strategies that after school programs can implement in partnership with the school day, in order to promote positive attendance, and support students and families who are struggling with attendance. Select *at least two* of the following strategies below, and identify specific action steps that your program will implement for each strategy.

Strategies to Support Attendance	Action Steps

b) How will the school and lead agency partner work together to ensure that the after school program is aligned and supporting these efforts, and helping to transform school culture and climate? (ie. shared professional development, curriculum, coaching, planning meetings, COST meetings, etc.)

BACR is committed to making every effort to train staff, observe staff and support their on-going development around school climate and culture. We are also making a targeted effort to identify, reflect on and improve on the areas of need we identify through program improvement strategies.

c) Reducing the disproportionate suspension rates of African American students is a key priority for OUSD. Please describe any special efforts your after school program is taking to support the school engagement, social-emotional well-being, and/or academic success of African American students at your school (ie. Manhood Development circles, Ethnic Studies curriculum, recognition ceremonies for student accomplishments, Black professionals as role models or mentors, etc.):

The After School program will support in the development of a manhood development circle facilitated by an extended day staff, using a restorative/social justice lens and ethnic studies theory.

#### 2015-16 After School Enrollment Policy for Glenview Elementary School

OUSD has established district-wide guidelines for Target Population and Enrollment in ASES and 21<sup>st</sup> Century After School Programs. Within these guidelines, each school will create a site-specific After School Enrollment Policy that will be made public to the school community through the following methods:

- Enrollment policy will be included in After School Enrollment Packet and program materials.
- · Enrollment policy will be discussed at after school parent orientation/meetings.
- Enrollment policy will be shared with school faculty.

Target Population(s)	Specific Data to Inform Selection of Program Participants	(High School Only) Indicate if participation is Optional or Mondatory for each target population
Students that will be able to attend program consistently	Attendance Records	
Families in need of After School Programing	Parent and school faculty identified	
Students in need of academic support to improve and/or sustain current academic performance	Test Data and Parent request	
Students in need of social-emotional support	Parent and school faculty identified	
Students who need to increase their positive relationship to school and learning	Parent and school faculty identified	
Students who will bring balance to the program	School faculty identified	
Students that will increase their school day attendance based on enrollment into the program	Parent and school faculty identified	

Target Population: (Describe targeted student populations in order of priority. Specify data that will inform student selection.)

#### Which grade levels will you serve in this program? K-5

Note: The ASES and 21<sup>e</sup> CCLC grants require that programs are open to all students of the school, if space remains after outreach is done to targeted students. (For example, if program slots remain open after you have reached out to fill slots with target populations identified above, then by law, you must accept a kindergarten family that desires program services, even if your program prioritizes students in grades 1-5.)

#### Additional Notes:

- Successful after school programs are heterogeneous and include several target populations.
- Sites cannot simply utilize a first come-first serve process for enrolling students; sites should establish priorities for participation.
- · Programs are intended to help close the achievement gap by serving a variety of students with academic and other needs.
- In alignment with OUSD's strategic goal to reduce chronic absenteeism, programs should consider targeting students at risk of chronic absenteeism, as determined by individual attendance rates between 90 – 95% during the current school year. (Programs should collaborate with school site leadership to obtain student attendance data.)
- Program must enroll adequate numbers of students to meet CDE attendance targets.

Enrollment Process and Timeline: (Summarize your enrollment timeline below. Describe how your school will identify and recruit students beginning in Spring 2015. Indicate how families will be notified of 2015-16 enrollment before the last day of school, June 11, 2015.)

Timeline	After School Enrollment Steps/Process	ASP Coordinator	
Mid April	Registration information goes out		
Mid May	Registration Period	ASP Coordinator	
Mid June	75% of ASP slots filled ASP Coordinator		
August	Fall Registration and Parent Orientation ASP Coordinator		
September	Rosters Solidified and waitlist created ASP Coordinator		

#### Important dates to include in your timeline:

- April June: Spring enrollment for 2015-16 programs.
- Families will be notified of 2015-16 after school enrollment before the last day of school, June 11, 2015.
- After school programs begin on 1\* Day of school, with enrollment at a minimum 75% capacity.
- August September: New school year enrollment of families for remaining program slots.

- Remaining program slots will be filled by September 30, 2015.
- All programs must maintain waitlists after program slots are filled.

#### **School Support for Program Recruitment**

Describe how the school will support after school program recruitment efforts. Specify how school staff will help promote the after school program, refer students, and communicate with families about program opportunities:

BACR schools have always supported program recruitment efforts. It begins with basic referrals from principals, teachers and counselors. Referrals are always based on family need, student academic needs and social needs. School staff also ensure that they inform parents during registration and orientations that there is an after school program that they can register for and how to go about doing so. School staff have applications and informational fliers at their disposal at all times. All school day staff are versed in what the program offers and the site coordinator's information so that the public can access the coordinator for registration procedures. We also have a dedicated bulletin board in a visible/public spaces within most schools to highlight the program and entice participants to register.

Please list specific after school classes/activities that will be facilitated by teachers paid on extended contract. Important note: Teachers on extended contract who are providing direct services to students after school must be paid at the negotiated rate of \$23.16/hr (per OEA contract). After school grant funds can be utilized for this direct service work. The Quality Support Coach cannot provide direct service to students. The Quality Support Coach is primarily responsible for providing coaching and training, and is paid at the negotiated Paid-In-Service rate of \$30.12 for their staff capacity-building services. # **Professional Development and Staff Wellness**

**Professional Development:** After school staff should receive adequate professional development, including coaching support and trainings, in order to grow and improve their practice. Programs should utilize data from the YPQA/SAPQA youth program quality assessment tool to determine the areas of focus for professional development.

Coordinator Summer Institute- All Site Coordinators will participate in 4 days of training that will expand their knowledge on Youth Development, Curriculum Development, Grant Compliance, Policies and Procedures, Self-Care, and Program Quality (SA-YPQA). During Summer Institute Coordinators will have the opportunity to review their program schedule and program plan, create their year plan, plan for parent events, and learn from a variety of experts in the after school field.

Trainings over Time: In addition to Summer Institute, coordinators will have the opportunity to participate in BACR led and outside trainings throughout the school year. These training opportunities may include CPR/First Aid trainings, Bridging the Bay, and Region IV trainings. We have also purchased an online training series called "Safe Schools" where coordinators and line staff may access up to 30 modules related to after school safety and instruction techniques.

Team Cluster Meetings- All Site Coordinators will participate in Team Cluster Meetings led by their Program Manager monthly. During these meetings, the Program Manager will communicate updates from the district, the agency, as well as provide the team with professional development surrounding leadership, program development and youth development. Furthermore, the Program Manager will provide space for the Site Coordinators to receive feedback and workshop site based concerns and program quality.

Coordinator Supervisions-All site coordinators will meet at least two times a month to discuss site progress, individual coordinator goals, staff development and other site based subjects with their supervisor. This is opportunity for 1 on 1 support.

Line Staff Summer Institute- All Group Leaders will participate in a 5-day day institute that will expand their knowledge on youth development, classroom/behavior management strategies, project based lesson plans, cooperative games, emergency procedures, mandated reporting, and policies and procedures.

Site Specific Staff Meetings- All Site Coordinators will have the opportunity to plan and lead their own staff meetings with their line staff. At

То	Board of Education		
From	Antwan Wilson, Superintendent		
Board Meeting Date (To be completed by Procurement)	June 24, 2015		
Subject	Master Memorandum of Understanding between Oakland Unified School District and Bay Area Community Resources		
Action Requested	Authorize the President and Secretary of the Board to enter into and execute a Memorandum of Understanding with Bay Area Community Resources, on behalf of the District to provide services to students. This establishes a one year relationship with Bay Area Community Resources, and a not-to-exceed amount of \$4,045,188.25. This amount is projected using historical cost data, known changes to the number of sites served and expected available grant funding allowable.		
Background A one paragraph explanation of why the consultant's services are needed.	The Oakland Unified School District enters into contracts each year to provide professional services that support the District's academic mission. The Master MOU establishes all terms and conditions, a defined menu of services with negotiated rates, and allows for the gathering of necessary supporting documentation to further streamline the process of receiving necessary services, while keeping the integrity of checks and balances, as well as maintaining oversight by the Governing Board.		
	A Menu of Services was established that would allow a principal to "Order" from the Menu using the Individual Service Agreement (ISA). This is essential to promoting transparency of services, and the costs of those services, between like schools. Each Individual Service Agreement is submitted to the board for approval. In the event that this vendor receives more orders for service than anticipated, an amendment to this MOU will request a new not-to-exceed amount.		
Discussion	Vendor: Bay Area Community Resources		
One paragraph summary of the scope of work.	Overview of Services: Bay Area Community Resources contracts with schools to be a lead agency to provide high quality after school programming consisting of academic enrichment and recreational physical activities, family literacy and targeted Equitable Access services to students that are high risk.		
	Not-To-Exceed Amount: <u>\$4,045,188.25</u>		
	Determination of the Not-to-Exceed Amount is based on historical data and projections for the coming school year, it is anticipated that Bay Area Community Resources will provide services to 28 school sites.		

The District contracts with agencies to provide various activities and after school programs. Chosen by the number of sites served with District and the long standing relationship with the agencies, the Master Memorandum of Understanding establishes a relationship with Bay Area Community Resources, defining terms and conditions as well as setting a maximum not-to-exceed ceiling amount. This ceiling is derived from historical cost data, and known changes in sites to be served, as well as expected grant funding. In addition, the District has been working with agencies to provide a Menu of Service, which delivers a clear and measurable scope of work. Analogous to ordering from a common table menu, each product is described and the price is clearly quoted, establishing and promoting a more perfect competition where the consumer, here the principal, is informed of the services offered, and the price for those services. This allows the principal to easily compare services and prices, and plan for programmatic needs.

Fiscal Impact There is no funding associated with the Master Memorandum of Understanding or the Amendment to the Master Memorandum of Understanding herewith. The Master Memorandum of Understanding establishes a relationship, as well as setting the terms and conditions with Bay Area Community Resources. The funding source for each Individual Service Agreement will be determined separately and individually. Funding for the Individual Service Agreement is verified through a review of the BDT budget process, and a review of State and Federal compliance funding when applicable.

Recommendation Approval of the Master MOU between Bay Area Community Resources and the Oakland Unified School District authorizing the President and Secretary of the Board to enter into and execute the Master Memorandum of Understanding and Individual Service Agreement(s) with Bay Area Community Resources in an amount not-to-exceed \$4,045,188.25.
