Subject Professional Services Contract - Communities in Collaboration, LLC.
- Board of Education - District 1 (site/department)

Action Requested Approval of professional services contract between Oakland Unified School District and Communities in Collaboration, LLC.. Services to be primarily provided to Board of Education - District 1 for the period of March 1, 2017 through June 30, 2017.

Background
A one paragraph explanation of why the consultant's services are needed.

Oakland's District 1 includes many of the most desirable schools in the city, and it includes some schools that are not schools of choice. District 1 also includes the Santa Fe site, which since 2012 has been used as a temporary school site for Emeryville High School and now Glenview Elementary School, while those schools undergo construction. There is strong interest from the community in seeing the Santa Fe site continue to be used for an education purpose as a district school. The School Board also is examining policy changes around enrollment and school portfolio, and is developing an updated facilities master plan. This consultant will help Director London reach out to the various constituencies who have chosen, or may choose, North Oakland schools to better understand their hopes and expectations for a robust K-12 pipeline. The research will inform the policies and facilities master plan as they pertain to District 1, and engage the community in decisions about the North Oakland portfolio of schools.

Discussion
One paragraph summary of the scope of work.

- The consultant will:
- Convene discovery meetings
 - Develop online survey
 - Work with existing networks – school board, PTAs, and school site leadership – to publicize survey
 - Compile survey data for use in focus groups
 - Convene and facilitate two focus groups, using the assistance of existing networks to identify participants
 - Complete analysis of data from survey and focus groups
- Develop a brief summary report to be presented to District 1 Director

Recommendation Approval of professional services contract between Oakland Unified School District and Communities in Collaboration, LLC.. Services to be primarily provided to Board of Education - District 1 for the period of March 1, 2017 through June 30, 2017.

Proposal and Scope of Work

North Oakland Community Survey on K-8 Needs

Developed for School Board Director Jody London
by
Communities in Collaboration, LLC

As in much of the Bay Area, North Oakland is experiencing rapid demographic changes. Young families have flocked to neighborhoods that offer lower cost of living than in San Francisco or the Peninsula. At the same time, many long-time Oakland residents find themselves priced out of their home neighborhoods. As the demographics continue to shift, it is important to ensure that the public elementary, middle, and high schools available to North Oakland families meet needs of those both new to the community and long-time residents. Currently North Oakland families are served by a number of elementary schools – some over-enrolled, others under-enrolled, as well as Claremont Middle School (a middle school program at Sankofa is currently being phased out), Oakland Technical High School and Oakland International High School. A number of program sites are currently in transition – these include Sankofa and the former Santa Fe Elementary site housing Glenview Elementary students until 2019.

Proposed Work

With these school and neighborhood shifts in process, now is the time to reach out to community to ensure available schools are meeting their needs. It is the goal of Oakland Unified School District (OUSD), and Director London, to ensure that families have excellent local public schools available to them and that programs are strong enough to support all students in arriving at high school prepared to succeed in rigorous programs and academies. The goal of this proposed work is to reach out to the various constituencies who have chosen, or may choose, North Oakland schools to better understand their hopes and expectations for a robust K-12 pipeline through:

- A widely disseminated online survey to understand parent and community priorities for their students and
- Follow up focus groups to engage diverse stakeholders in conversation about the survey findings to help inform future decisionmaking.

This data will also be supported by new demographic and school site data being developed as part of a District-wide facilities master planning process. With local and District data in hand, school board members will be better able to make policy decisions that meet the needs of local families.

Proposed Study and Scope of Work

Based on prior experience with community engagement and working with Oakland Unified, Communities in Collaboration (CIC) recommends a four step process to developing recommendations based on robust data.

Discovery (early to mid-March). Meet with school board member(s), District staff, and other key decisionmakers to further refine goals for this work to ensure the findings will meet OUSD needs.

2. **Survey development and deployment (mid-March to mid-April).** Using information gleaned in the discovery phase, CIC will develop an online survey seeking input from current (and future) OUSD parents. CIC will rely on support from Director London in disseminating information about the survey and will work through existing PTA and school site contacts to generate participation.
3. **Survey data analysis and focus groups (2) (mid-April to mid-May).** Working with small groups of stakeholders, CIC will lead discussion of the survey data to ground truth findings and further illuminate "the story behind the numbers." In our experience, these discussions are critical to ensuring the data is interpreted correctly by including those closest to it in the conversation.
4. **Final report (mid-May to mid-June).** The findings from the survey and focus group will be summarized in a brief (3-5 page) report.

The scope of work outlined in this proposal is expected to take approximately 3-4 months. Assuming an early March 2017 start, the final report should be available by mid-June 2017.

Communities in Collaboration will be responsible for:

- Convening discovery meetings
- Developing online survey
- Working with existing networks – school board, PTAs, and school site leadership – to publicize survey
- Compiling survey data for use in focus groups
- Convening and facilitating two focus groups, using the assistance of existing networks (as named above) to identify participants
- Completing analysis of data from survey and focus groups
- Developing a brief summary report to be presented to Director London

Translation of materials to be discussed as needed.

Estimated Costs for North Oakland Community Survey

This estimate is based on the scope of work described above. Extension of scope of project time frame may result in increased costs not reflected here. CIC bills for hours worked and actual expenses only. Additional work required by changes to the scope of the project will be billed at \$150/hour.

Costs	Rate	Hours	Project total
Survey Consultation Time	150.00	40	6,000.00
Total			6,000.00

This estimate assumes that OUSD will provide any translation of materials and translations services needed for key community events and communications.

Payment schedule: Consultant time and expenses will be billed at the end of each month. Payment is due within 30 days.
