Priority 4: Community Engagement		<ul style="list-style-type: none"><li>-Community Engagement</li></ul>

# Special Education Context

- Council of Great City Schools Report: 11 recommendations on whole system alignment between general education and special education.
- Inequity: Quality of service, disparate caseloads between elementary and secondary, settlement agreements to families for overcrowded classrooms, providing other supports to classrooms when a teacher is over caseload, and quality of Individual Education Programs (IEPs).
- Increased referrals and students qualifying for Special Education (553 eligible initials August-January). Caseload overages in Resource and Special Day Classes.
- California Department of Education Oversight to assist with IEP compliance. Teachers are learning how to write quality IEPs.
- Fiscal Transparency: use of Non-Public Agencies and increased cost in Non-Public School services although reduced number of students in NPS settings.

# Priority 1: Data Processes and Systems

- Complete integration between Special Education Information System (SEIS) and District Student Information System (AERIES). Continue to work with state on transition to a single State Data System (CALPADS).
- Timely and accurate accounting of students participating in Special Education Program.

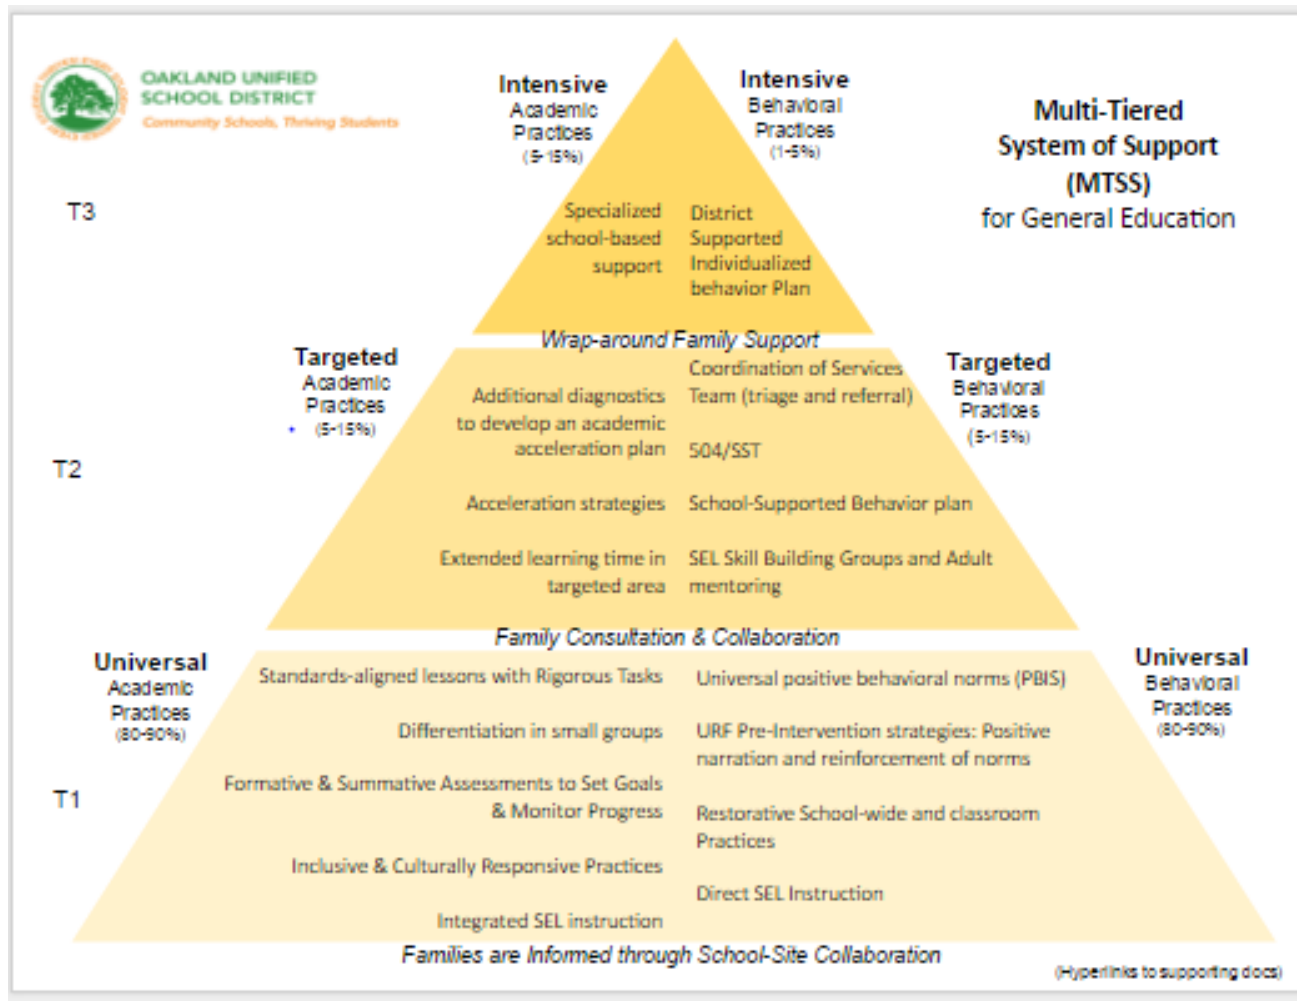

## Priority 1: Improve Individual Education Program (IEP) Compliance and State Performance Indicators

- Graduation rates improving.
- California Department of Education stated improvement in IEP quality (February & March 2017 visit).

## Priority 2: Least Restrictive Environment Continuum of Services: Multi Tiered System of Instruction

## Priority 2: Least Restrictive Environment Continuum of Services: Inclusive Education Practices

*It is the civil right of **every** student to meaningfully participate in general education classrooms and curricula with their age-group peers whenever appropriate. The inclusion educational setting teaches school staff, students, and community, the value of diversity, and provides an inclusive learning environment that prepares everyone involved for cooperative living in a diverse community.*

**Inclusive Practices** are facilitated by a Special Educator and may have Special Education Support Staff assist in General Education classrooms. Inclusive Practices are offered in a variety of schools throughout the PreK-12 continuum and prioritizes serving students as close to their homes as possible. Decisions about appropriate student services are based on the specific needs of individual students reflected within each Individualized Education Program (IEP) designed by each IEP Team.

Inclusion Goal: 100% of schools receive training on how to support students in the least restrictive environment so students receive appropriate services at their home school.

## 2016-2017

- 29 Schools received school based training to increase inclusive practices.
- Central Office staff received a training on Inclusive practices, shared ownership, and necessary conditions for success across networks & departments.
- Increasing inclusive practices and training to 15 new sites.
- Updating Handbook to clarify Inclusive Practices approach.
- Training will be extended to Community Advisory Committee (CAC) in May 2017.

## 2017-2018

- Continue Technical Support for 44 school sites
- Train 30 schools in Inclusive Practices so they are prepared to transition into Inclusive approach.
- Provide 2 training sessions to CAC: Fall and Spring.

## 2018-2019
