# After School Template for High Schools Memorandum of Understanding 2016-2017 Between Oakland Unified School District and Alternatives in Action

1.	Intent. This Memorandum of Understanding ("MOU") establishes the Oakland Unified School District	's
	("OUSD") intent to contract with Alternatives in Action ("AGENCY") to service the contract with Alternatives in Action ("AGENCY")	/e
	as the lead agency to provide after-school and/or summer educational programs and to serve a sufficie	
	number of students and run services for a sufficient number of days to earn the core grant allocation	of
	funding at 335/Life Academy High School under the following grants:	

- California Department of Education ("CDE") 21st Century High School ASSETS Program ("ASSETS Core Grant")
- California Department of Education ("CDE") 21st Century Direct Access Grant ("Direct Access")
- California Department of Education ("CDE") 21st Century Family Literacy Grant ("Family Literacy")
- Term of MOU. The term of this MOU shall be July 1, 2016 to August 20, 2017 and may be extended by written agreement of both parties.
- 3. Termination. OUSD may at any time terminate this MOU for any or no reason upon not less than five (5) days written notice to AGENCY. OUSD shall compensate AGENCY for services satisfactorily provided through the date of termination. In addition, OUSD may terminate this MOU for cause should AGENCY fail to perform any part of this MOU. In the event of termination for cause, OUSD may secure the required services from another contractor. If OUSD's cost of procuring services from another contractor exceeds the cost of providing the services pursuant to this MOU, AGENCY shall pay the additional cost.
- 4. Compensation. The 21st Century ASSETS Core Grant, Family Literacy, and Direct Access grant award amount for Alternatives in Action is \$180,761.00. AGENCY shall be entitled to compensation from these funds in accordance with the following terms and conditions:
  - 4.1. Total Compensation. Subject to the provisions of 4.2 Positive Attendance and the provisions of 4.3 Administrative Fee, AGENCY shall receive the amount of the grant award less OUSD's administrative fees and other site costs agreed to by the Site Administrator and AGENCY.
  - 4.2. Positive Attendance. Payment for services rendered related to the ASSETS Core Grant shall be based on actual student attendance rates (\$10.00 a day per student), not estimates, as those programs are "positive attendance based." OUSD reserves the right to modify the annual core allocation based on reported attendance. In the event that payments made to AGENCY exceed the reported attendance for the Core grant, the AGENCY will return payments to OUSD at the rate of \$10.00 a day per student. Documentation of attendance must be submitted through the OUSD/OFCY attendance systems in order for invoices for payment of services for the ASSETS Core Grant to be processed. (Exhibit A Attendance Reporting Schedule 2016-2017").
    - 4.2.1. Reconciliation Process for Positive Attendance Based Grant Funds. OUSD will adjust the payment of the "positive attendance based" grants based on quarterly review of monthly invoices and attendance for services rendered related to the ASSETS Core Grant for any adjustments resulting from the reconciliation of the attendance reports for that quarter's months. The attendance reconciliation process will assess the program's performance with respect to the required compliance with the grant mandated attendance rates. Based on the review, financial adjustments of additional payment or additional withholding will be made. Any remaining balance(s) will be forwarded to AGENCY or OUSD. Any adjustment required in excess of the withholding will necessitate additional adjustments to future invoices and payments.

- 4.2.2. Administrative Charges and Reconcillation. Reconciliation process for positive attendance based grants must factor in the subtraction of administrative and other OUSD central charges, as outlined in section 4.3, from any grant amounts earned through attendance (OUSD indirect, custodial, evaluation, and After School Programs Office administrative and training/technical assistance fees).
- 4.3. OUSD Administrative Fees. OUSD shall charge and withhold up to 14% from the overall 21st Century ASSETS Core Grant, Family Literacy grant, and Direct Access grant for central indirect, administrative, custodial, evaluation, and direct service training and technical assistance costs.
- 4.4. AGENCY Administrative Fees. AGENCY understands and agrees that it may not charge more than 4% of the total contract amount as administrative fees and that its administrative fees must be set at an appropriate dollar amount to keep the 21st Century ASSETS Core Grant, Family Literacy grant, and Direct Access grant within the grant-mandated allowable 15% for total indirect/administrative costs. The agency administrative fees charged to the 21st Century ASSETS Core Grant, Family Literacy grant, and Direct Access grant must be used for direct administrative costs and cannot be used for agency indirect costs. Direct administrative costs consist of expenditures for administrative activities that provide a direct benefit to the 21st Century ASSETS program. Indirect costs consist of expenditures for administrative activities that are necessary for the general operation of the agency, but that cannot be tied to the 21st Century ASSETS program.
- 4.5. Program Budget. The grant will remain as part of the site budget. Funds will be encumbered from the site budget on behalf of AGENCY for the school year 2016-2017 and will not exceed \$180,761.00 in accordance with Exhibit B ("21st CCLC After School Program Plan" and "After School Budget Planning Spreadsheet").
- 4.6. Modifications to Budget. Any modifications to the approved grant budget must be approved by OUSD, AGENCY, and CDE before expenditures of funds for modified line items are authorized. Except as expressly set forth herein, OUSD shall not be liable to AGENCY for any costs or expenses paid or incurred by AGENCY in performing services for OUSD. The granting of any payment by OUSD, or the receipt thereof by AGENCY, shall in no way lessen the liability of AGENCY to correct unsatisfactory work, although the unsatisfactory character of that work may not have been apparent or detected at the time a payment was made. Work, which does not conform to the requirements of this Agreement, may be rejected by OUSD and in that case must be replaced by AGENCY without delay.
- Program Fees. The intent of the 21st Century ASSETS program is to establish local programs that offer academic assistance and enrichment for students in need of such services regardless of their ability to pay. Though it is not against the rules to charge fees for participation in programs, the CA Department of Education discourages it because it could exclude students in need from attending and taking advantage of the after school program. Fees should not create a barrier to participation in the after school program. After school services must be equally accessible to all students targeted for services regardless of their ability to pay. Programs that propose to charge fees may not prohibit any family from participating based on their inability to pay and must offer a sliding scale of fees and scholarships for those who could not otherwise afford to participate. Any income collected from fees must be used to fund program activities specified in the grant application. AGENCY shall do full accounting of fees collected, and documentation shall be kept for 5 years for auditing purposes. If AGENCY decides to charge fees, this decision shall be made collaboratively with the Site Administrator, and AGENCY shall work collaboratively with the Site Administrator and parent leaders to develop an appropriate program fee structure for the school community. AGENCY shall provide the OUSD After School Programs Office with written documentation of the program fee structure prior to charging any program fees, and shall provide OUSD with additional documentation upon request, to ensure grant compliance.

SECTION 2: Alignment with Site Plan (SPSA), Major Improvement Priorities

In collaboration with school leadership, identify the school's Major improvement Priorities where this after school program is identified for its high leverage practices.

As our school community continues to strengthen our career pathways work on campus and across the city of Oakland and aims to address nascent dips in cohort graduation rate. Life Academy has selected academic literacy & case management as major improvement priorities for next school year. Alternatives in Action's extended day program (EDP) will play a vital role in supporting and advancing these efforts on Life Academy's campus. In terms of academic literacy and rigorous academics. EDP will continue to provide universal homework time and will incorporate day school teachers into such academic supports 4 days per week in order to support math and literacy development and promote high quality certification completion. We have placed homework time and academic literacy activities immediately after school day dismissal to accommodate for teacher availability and ensure the maximum amount of students can attend on a daily basis. In order to create & sustain personalized supports, EDP leaders will work closely with the academic counselor and case manager to identify & support students for targeted literacy intervention programs that also take place immediately after school. Working with the counselor, the after school manager will lead a concerted effort to track & verify progress for academic caseload students, determine next steps on an ongoing basis, and lead communication efforts with families and EDP staff to ensure case management efforts take a more proactive rather than reactive approach. More directly related to career pathways work, Alternatives in Action & EDP will continue to offer and support work-based learning efforts by facilitating off-site internships during after school hours, maintaining and building partnerships with placement sites, handling communication to families, and managing program implementation logistics. In addition to these specific high leverage practices, Alternatives in Action's EDP program model is founded on cascading leadership, positive group development, and building networks of care for youth and families. Life Academy administration and Alternatives in Action program leaders believe that this foundation is closely aligned with and, in an over-arching way, will support the school's SPSA for next school year.

#### LCAP Strategic Priorities

In collaboration with school leadership, identify the specific LCAP goal(s) that this afterschool program will intentionally support.

- X College and Career Readiness (LCAP Goal 1)
- X Student Engagement (LCAPT Goal 5)
- X Literacy Proficiency on standards, grade level reading, English Learners Reading Fluency (LCAP Goals 2, 3, 4)
- X Mathematics/STEM Proficiency (LCAP Goal 2)
- X Parent/Family Engagement (LCAP Goal 6)
- X Safe, Healthy and Supportive Schools (LCAP Goal 7)

State 3 - 4 primary goals of the After School Program and intended impacts for participating students.

Describe how these after school goals align with the school's Major Improvement Goals and Strategies identified in its SPSA plan.

- 1. Academics & Literacy Development To provide high-impact targeted and universal academic interventions that are connected to day school experiences, support the academic rigor of Life Academy, and support mastery in English/Language Arts, Science, and Mathematics. To collaborate with day school staff to facilitate literacy activities and interventions in order to set students up for success as they prepare for rigorous career pathway-related learning
- 2. Community Impact & Enrichment Project-Based Learning—To complete community impact projects based on student interests, challenging students to develop public speaking, community organizing, and project planning skills and allowing opportunities for youth to interact positively with the community and experience personal efficacy and growth in social/emotional health. To practice & strengthen participatory research skills within the structure of the Community Impact Project cycle (community scan, resource mapping, project planning, stakeholder presentations, mobilization, implementation, evaluation)
- Cascading Leadership To create effective youth-adult partnerships that engage youth in the decision-making
  processes and facilitation of the after school program and further their own personal & leadership
  development by coaching peers.
- 4. College and Career Readiness- To provide supports, resources, and access to real world experiences that help prepare students for success in college and career beyond high school through a college and career information center, project based learning and 21<sup>st</sup> century skill-building in the after school program, and internships.

 Health/Physical Fitness - To provide strategies and exposure to youth regarding how to increase health and well-being in their lives, school, and community through nutrition, wellness, and sports programming

Additionally, all after school activities at Life Academy through Alternatives in Action are designed to promote a positive school culture by establishing and holding group agreements and teaching the 7Rs: Risk, Respect, Responsibility, Resiliency, Real, Rigor, and Relationships.

### Description and Rationale for Selection of Lead Agency

Describe how the selected lead Agency partner will support the school's plans for Full Service Community School development.

☐ Blended/Hybrid: combination of some extended day and some traditional after school programming

Alternatives in Action Extended Day and Community Programs offer youth and their families a broad range of after school and summer programming along with other school-linked services that prepare young people for success in college, career and community leadership in alignment with Life Academy's vision of implementing a full service community school vision. Our comprehensive community school initiatives are based out of three East Bay school sites: Life Academy of Health and Bioscience in East Oakland, McClymonds High School in West Oakland, and Alternatives in Action's own charter high school in the Seminary neighborhood of east Oakland, which is open to students from other surrounding Alameda and Oakland high schools. We also serve as the lead agency for after school programs at Fremont High School. Through our Community Programs, we partner with school staff, youth, parents and organizations to create powerful, real-world learning opportunities for over 900 high school youth in our "Six Pillars of Collaborative Programming". These include After School Community Projects, Academic Support and College Preparation, Career Development, Parent Engagement, Health and Wellness, and Cascading Leadership. We offer a place and supports that meet the needs of the whole child, from leadership to tutoring to physical check-ups. As youth progress and grow, they may take on roles of greater influence in the school and co-lead programs with other youth.

As a well-established local youth-serving non-profit, Alternatives in Action's effective management and ability to infuse cascading leadership and a community-school approach into out-of-school time programs has led to a fruitful and mutually beneficial collaboration between Life Academy and the organization in recent years. Alternatives in Action lead staff and Life Academy administration work very closely during the school year to develop and maintain responsive, high -quality programming. All program plans are made collaboratively by school administration and lead

agency directors. Additionally, Alternatives in Action supports school-based staff through organization-wide professional development in youth development and job-embedded coaching throughout the school year and summer. All site coordinator and agency director staff members participate in OUSD professional learning communities throughout the year. Alternatives in Action's Life Academy 2015-16 scores for middle (4.0) and high school (4.90) show that the established infrastructure and systems of support at Alternatives in Action can lead to the implementation of highly successful youth development and out-of-school time programming at Life Academy.

# SECTION 5: Attendance, Program Dates, Minimum Days, and Program Schedule

In order to remain in compliance and meet minimum funding requirements, high school programs are required to operate a minimum of 15 hours per week. This can consist of before and after school programming, as well as weekend, intercession, and summer programming.

\* CDE allows programs to close for a maximum of 3 of these days during the school year for professional development. Families must be notified of these program closure dates in advance, and the lead agency must maintain documentation of professional development activities offered on these dates, including training agenda and staff sign in sheets.

Required # of Program Days your program will operate during School Year 2016-2017 (programs are required to operate between 177 – 180 days of the school year)	177
Projected Daily Attendance during School Year 2016-2017	100 students
Programs are allowed up to three days of program closure during the school year to offer staff professional development. Please list the three days (if any) your program plans to close this year for PD.	1 day in October, 1 day in January, 1 other date TBA (exact dates TBD)

### Minimum Days

Minimum days can have a significant impact on the after school staffing and budget if programs provide increased hours of service due to early dismissal times. Thus, during the program planning process, school leadership and the lead agency partner must discuss the enticipated number of minimum days for the program year, and discuss shared resources to fund minimum day programming when the number of minimum days exceeds the typical OUSD schedule of one minimum day per week for the school year.

	Projected Number of Minimum Days for School Year 2016-2017	scheduled Wednesday
		minimum days + other non-
ĺ		Wednesday minimum days)

Describe funding plan to operate program on minimum days, including additional school resources (if any), to support full program implementation on all minimum days:

Alternatives in Action has factored in extra staffing hours (approximately 1 extra hour per week per hourly staff

member) into next year's budget to ensure extended program coverage on the majority of minimum days in the high school. The programming/content during the extended day program from 4-6pm during minimum days will be coplanned and co-facilitated by the Executive Team (student leadership team).

### Program Schedule

- 1. Submit program schedule as an attachment, using the standard program schedule template. The after school schedule must indicate the school name and the program year. The program schedule must reflect at least 15 hours of programming per week.
- 2. Submit a copy of the school bell schedule for the 2016-17 school year.

Important Notes: The after school schedule must commence immediately the minute the school day bell schedule ends on all program days. Before submitting, compare the school bell schedule with the after school schedule to ensure that the times are aligned. (i.e. If the school bell schedule ends at 2:55 pm, then the after school schedule must begin at 2:55 pm. The same is true on minimum days.)

Please make sure program schedule clearly shows when the following program requirements will take place: For Comprehensive high schools:

- Academic mentoring for 9th graders at risk of failing classes
- Academic supports and mentoring for 10<sup>th</sup> 12<sup>th</sup> grade students taking credit recovery

For Alternative Ed high schools:

College and career readiness activities

# SECTION 6: Transitions Support

Schools have students transitioning in and out over the course of the school year. This includes incoming 9<sup>th</sup> graders, students who are transitioning mid-year from other schools or the juvenile justice system; as well as graduating students.

How will your program collaborate with the school day to support students who are transitioning into the school?

Alternatives in Action's after school manager and parent coach work closely to ensure students new to Life Academy smoothly and successfully transition into both the school and the program. These staff members work closely with the administrative team to welcome new parents & students systematically by arranging an initial meet-and-greet during which the student enrolls in his/her classes for the extended day program and the family gets information about our "parent academy" program. In addition, the parent coach offers information about the rest of the school's array of supportive services to the family

Additionally, the after school manager's active participation on Life Academy's administrative and Coordination of Services (COST) teams informs & supports how the student transitions into the school & EDP. Both of these bodies have intentional conversations & do action planning around students entering Life and having the site's after school program leader as a member is a mutually beneficial arrangement.

# SECTION 7: Academics

Your site should plan to offer a range of academic supports to support students to learn and practice skills and knowledge related to core academic content. Academic activities should be aligned with school goals and support specific student achievement needs defined by the school. Activities should be based on sound instructional strategies aligned with the regular school day program.

# SECTION 8: CAREER-RELATED ACADEMIC ENRICHMENT, College Preparation and WORK-BASED LEARNING

Career-related enrichment activities and physical activity/recreation are required components of the ASES and 21st Century grants. Enrichment activities should provide students with the opportunity to learn and practice technical skills, employability skills and career planning skills. Technical skills are job related and technical skills and knowledge related to anticipate labor market conditions. Employability skills are behaviors, attitudes and habits of the mind that have been referred to as 'soft skills'. Career planning skills are skills and competencies that can be used for lifelong learning, career management, and negotiating transitions throughout a working lifetime. Enrichment activities should intentionally and creatively build skills that support students' success in school and in life.

They will report increased leadership skills, understanding of health content, and ability to positively impact the health of the community.

SECTION 9: ENRICHMENT: Leadership, Social and Emotional Learning, Financial Literacy, Technology, Arts, and Health, Wellness and Fitness.

After school programs should provide structured opportunities for youth to engage in enrichment activities that may not be included in the school day such as leadership, social and emotional learning, financial literacy, Technology/Computer Science, Arts, and Health and Wellness. These opportunities not only engage students but provide skills to support them to become "community ready". This includes preparing students with the skills they need in order to actively participate in a civil society in the digital age.

### SECTION 10: FAMILY ENGAGEMENT / FAMILY LITERACY

After school provides an excellent context to foster parent involvement, connect families to the larger school community, and share important information related to the after school and regular school day programs. After school family engagement efforts should be aligned with school day efforts, and support school goals for family involvement. A variety of activities may be offered, including: parent workshops, family celebrations, parent-and-child-together activities, parent leadership and volunteer opportunities.

Family literacy is a required component of all 21<sup>st</sup> Century after school programs. Family literacy services support the educational goals of adult family members, connect them to resources and services in the community, and increase their ability to support their student's learning and development. For 21<sup>st</sup> Century grantees who receive Family Literacy funding: The activities listed below must align to your 21<sup>st</sup> Century Family Literacy burdet plan.

#### **FAMILY LIAISON:**

Describe the anticipated duties of the Family Liaison in your program. Also identify what supports your school site will provide the Family Liaison, including training and materials.

The Parent Liaison will work with the Community School Manager to ensure that:

- Communication about events, school activities, volunteer opportunities, and academics is completed regularly with all parents of the school and outreach is tracked.
- Agendas for the Parent Leadership Team and Parent Academy are created in collaboration with Administration and the Community School Manager.
- · Facilitation of all parent meetings is either done by the Parent Liaison or another partner/stakeholder.
- · Formal parent/adult education opportunities organized and supervised.
- · Volunteers for field trips, morning breakfast, events, and Wednesday lunches are secured.
- · Parents receive vital school information through robo-calls and regular mailings home.
- Training will be provided through AIA professional development and OUSD Office of Family Engagement Region 2

#### SECTION 11: Chronic Aissence Action Plan

Improving school day attendance for all students and reducing chronic absenteeism is one of the key OUSD strategic goals. The district goal is that all students will attend school at least 95% of the required school days or more, thereby achieving satisfactory attendance. Students who attend school 90% or less of required days are considered chronically absent. Students whose attendance falls in the "grey zone" between 90% - 95% are considered at risk of chronic absenteeism.

In partnership with the school day, after school programs can play an important role in supporting student attendance by doing things like celebrating good attendance, informing parents about the importance of attendance, uncovering what challenges students/families are facing that cause them to miss school, regularly monitoring student attendance data, contacting families to let them know their child was missed at school, etc.,

in addition to providing meaningful after school learning experiences that help keep students engaged and coming.

Below are several key strategies that after school programs can implement in partnership with the school day, in order to promote positive attendance, and support students and families who are struggling with attendance. Select at least two of the following strategies below, and identify specific action steps that your program will implement for each strategy.

Strategies to Support Attendance	Action Steps
a) Recruit and address the needs of students who are at risk of chronic absenteeism.	<ul> <li>All families will enroll students in Extended Day Programs (either after school program or internships) at Registration for the school.</li> <li>During the first week of school, all 9/10<sup>th</sup> graders will participate in Orientation to Extended Day Programs and will select programs based on personal interest.</li> <li>All students not attending school or program will meet with the Community Programs Coordinator during Advisory class to select a program and commit to attend.</li> <li>Students will be held accountable for attendance through EDP grades that will be recorded on students' transcripts.</li> </ul>
b) Inform parents about the importance of attendance and encourage parents to help each other get their students to class.	<ul> <li>Parents will receive information about programs at registration, conferences, and in the mail with report cards</li> <li>Phone calls will be made to families of non-participating students</li> <li>Parent liaison will coordinate with school secretary to make personal calls to parents of students with poor attendance to emphasize importance of school participation &amp; attendance</li> <li>Advisory teachers will reinforce importance of programs during parent communication</li> </ul>
c) Track students with poor program attendance and reach out to find out why and how attendance could be improved.	<ul> <li>Weekly attendance reports (August-October) and monthly attendance reports (November-June) will be shared with Extended Day Program and day school teaching staff</li> <li>Staff, including family liaison, will reach out to non-participating students through one on one meetings, phone calls home, and invitations to engage.</li> <li>Attendance trends will be shared and analyzed each marking period with teachers</li> </ul>
d) Celebrate good attendance and/or offer meaningful incentives to attract and reward students for attending our program.	<ul> <li>Attendance awards will be given out during academic awards assemblies for participation in programs.</li> </ul>

#### SECTION 12: Transforming School Culture and Climate

After school programs can play a critical role in support the school's efforts to transform school culture and climate, helping to make schools positive, safe, and supportive places for all students to stay engaged, be successful, and thrive.

- a) The following are paths that OUSD schools are taking to change discipline and transform school culture and climate. What strategy/strategies is your school utilizing to transform school culture and climate?
  - \_X \_ PBIS (Positive Behavioral Interventions and Support)
- X Restorative Justice
- X Social and Emotional Learning

- b) How will the school and lead agency partner work together to ensure that the after school program is aligned and supporting these efforts, and helping to transform school culture and climate? (ie. shared professional development, curriculum, coaching, planning meetings, COST meetings, etc.)

Alternatives in Action works with Life Academy to provide many supports to transform school culture and climate and to align practices in discipline policy.

- Alternatives in Action's Community Programs Director at Life Academy leads the site's COST meetings and completes
  all corresponding data tracking activities in order to link students and families to campus services and identify patterns
  in how the school intervenes with students experiencing academic, behavioral, and social-emotional struggles.
- All Extended Day Programs integrate agreements to meet the social emotional learning needs of the program
  participants into each group. Youth are held accountable for their behavior through the agreements. Program rules
  and consequences align to the school day discipline policy.
- Extended Day Programs build positive relationships amongst youth and adults to support the social emotional learning and development of each student. Curriculum is age appropriate and responsive to the learning needs of students by subject area.
- The Extended Day Program staff are integrated into Life Academy staff retreats and trainings to ensure collaboration and alignment from school day into after school.
- The Community Programs Director and Program Coordinators meet regularly with the administrative team and Life staff to align practices.

### 2016-17 After School Enrollment Policy for Life Academy of Health & Bioscience High School

OUSD has established district-wide guidelines for Target Population and Enrollment in ASES and 21<sup>st</sup> Century After School Programs. Within these guidelines, each school will create a site-specific After School Enrollment Policy that will be made public to the school community through the following methods:

- . Enrollment policy will be included in After School Enrollment Packet and program materials.
- Enrollment policy will be discussed at after school parent orientation/meetings.
- · Enrollment policy will be shared with school faculty.

Target Population: (Describe targeted student populations in order of priority. Specify data that will inform student selection.)

Target Population(s)	Specific Data to Inform Selection of Program Participants	(Nigh School Only) Indicate if perticipation is Optional or Mandatory for each target population
9 <sup>th</sup> and 10 <sup>th</sup> grade	Ali 9 <sup>th</sup> and 10 <sup>th</sup> Graders enrolled	Mandatory- attached to Academy Elective Credit
11th and 12 <sup>th</sup> Grade	Internship Placements	Mandatory- attached to Academy Internship Credit
9 <sup>th</sup> -12 <sup>th</sup> Grade	Academic Revolution Zone Interventions	Mandatory for students below 2.0 GPA and other students identified by grade level teams as needing targeted support and homework help in core classes

## Which grade levels will you serve in this program? 9th-12th (see nature of programming for each grade above)

Note: The ASES and 21<sup>st</sup> CCLC grants require that programs are open to all students of the school, if space remains after outreach is done to targeted students. (For example, if program slots remain open after you have reached out to fill slots with target populations identified above, then by law, you must accept any student that desires program services.)

#### **Additional Notes:**

- Successful after school programs are heterogeneous and include several target populations.
- Sites cannot simply utilize a first come-first serve process for enrolling students; sites should establish priorities for participation.
- Programs are intended to help close the achievement gap by serving a variety of students with academic and other needs.
- In alignment with OUSD's strategic goal to reduce chronic absenteeism, programs should consider targeting students at risk of chronic absenteeism, as determined by individual attendance rates between 90 95% during the current school year. (Programs should collaborate with school site leadership to obtain student attendance data.)
- Program must enroll adequate numbers of students to meet CDE attendance targets.

**Enrollment Process and Timeline:** Summarize your enrollment timeline below. Describe ongoing program outreach and recruitment efforts, beginning in Spring 2016.

Timeline	After School Enrollment Steps/Process	Individual(s) responsible

### **Professional Development and Staff Wellness**

Professional Development: After school staff should receive adequate professional development, including coaching support and trainings, in order to grow and improve their practice. Programs should utilize data from the YPQA/SAPQA youth program quality assessment tool to determine the areas of focus for professional development.

- a) What professional development, coaching, and training supports will be provided by the lead agency partner?

  Alternatives in Action makes great investments in their after school program staff development by offering formal professional development through multi-day new staff and beginning of the year orientation in August, weekly staff professional development meetings related to relevant topics in youth and community development throughout the school year, weekly one-on-one meetings between program leadership and line staff, job-embedded coaching connected to regular class observations, monthly adult reflection sessions, and encouraging staff to seek out training opportunities outside of the organization that relate to their content area.

I understand that professional development helps ensure program quality. My program is committed to providing/accessing professional development opportunities for after school staff, based on needs identified by program data. My program will adequately budget for staff time to participate in professional development over the course of the year (for line staff, this includes 10 hours/staff for participation in the continuous quality improvement process, plus an additional 10 – 20 hours of PD/year). 

Yes

Staff Wellness

e) Please describe ways your program will work to support staff wellness over the course of the year:

All after school program staff will be required to complete an adult learning plan, which will include one goal around personal health and wellness. Supervisors will check in with their staff about progress towards these self-set health and wellness goals in weekly one-on-one meetings throughout the year. Additionally, Alternatives in Action will hold monthly adult reflection sessions for all staff in the organization, including after school program staff at Life Academy. ### Addendum for 21st Century Community Learning Center Grantees Only

Equitable Access: (must be completed by all programs that receive 21st Century Equitable Access funding)

Some 21st Century programs receive extra Equitable Access funding. The intent of Equitable Access funding is to provide targeted supports for special populations of students who may face challenges and barriers to program participation. Examples of allowable use of Equitable Access funds include:

- additional academic interventions/supports to struggling students (ie. English Language Learners, students with special needs, etc.)
- mental health support services that enable students to fully participate in the after school program
- translation services, bus tickets, and other supports that make it possible for students to participate in program

How will your 21<sup>st</sup> Century program support equitable access in your program? Which population(s) of students in your program will receive extra support through the Equitable Access supplemental grant? Please describe your planned use of Equitable Access funds. Your plans must align with your Equitable Access budget.

Because over 75% of Life Academy's student population is Latino and the vast majority of these students' families use Spanish as their primary language, we plan to focus our efforts to ensure equitable access to our program on this population of students and families.

Our parent liaison, community schools manager, and project group coaches will collaborate to employ targeted outreach strategies with these families in order to ensure they remain informed, included, and involved in all aspects of after school programming at Life Academy. The program coordinator will ensure recruitment and retention of these students in both academic and enrichment classes in the after school program.

Additionally, the community school manager, project group coaches, and after school coordinator will plan and implement a targeted intervention program called the Academic Revolution Zone designed to offer additional academic supports and small group tutoring to struggling students, a disproportionate number of whom are Latino and minority students. While these students' families would normally have to pay for private tutoring in order to receive such services, we will offer these services for free at the school site so these students are allowed equitable access to the benefits of increased exposure to academic content in a supportive and more individualized setting
