	Measure N Implementation Narrative
Implementation Success	es
What are some implementation successes that you'd like to lift up and share with others?	 Advisory/WBL opportunities for all students - All students have been enrolled in Advisory using a variety of resources such as Get Focused Stay Focused, ECCO and other online resources and are creating their e-portfolio. In addition, students through the hiring of the WBL, participated in career exploration visits, college visits, and the Career Symposium/Expo. Addition of Lab Science - Biology and Medical Chemistry lab classes are available to students and the students are enjoying the hands-on experiences. Teachers and students are utilizing online platforms, such as Google Drive, Google Classroom and Study. com, to communicate and enhance learning.
How do you know you were successful (evidence, data)?	 100% of ELP students are participating in Advisory and have created a resume. 100% of students in ISP have completed Get Focused Stay Focused assignments. 86% of students completed the semester with credits earned in lab science and 46% of the science students participated in the STEM Expo. 100% of the students in ELP are now using Google Drive and Google Docs to communicate with teachers and staff and work on their e-portfolio. All Math and Science teachers use Google Classroom.
Implementation Challeng	es
What are some implementation challenges you encountered this first year of implementation?	 Master Schedule to accomodate both ISP and ELP - Only students that are scheduled on specific days can participate on that calendar date. Access to computers and internet outside of school - Using a number of online resources such as Google Classroom, Study.com, etc. was difficult for students who didn't have access to either a computer or internet or both. Advisory Curriculum - Has not been consistent throughout both programs and needs to be more streamlined for specific grade levels.
How do you know these were challenges (evidence, data)?	 Students voiced interest in participating in WBL activities but could not due to scheduling. We conducted a survey to see the need for access to computers and internet. Differentiation was necessary when doing college and career planning for the various grade levels.
Learning and Moving For	ward
What did you learn?	We learned that we will need to revise the master schedule to optimize student participation in Advisory and WBL experiences. The Advisory curriculum needs to be developed to cover at least 4 full years based on grade levels. We need to be consistent in collecting and tracking data to measure impact on students' growth and possible post-secondary options.

How are you revising your	The Measure N team will meet twice a month to review data and revise plans as needed. We will survey
strategies and pathway	students every marking period to help inform our work and its relevance to students college and career planning.
development work going	
forward based on what	
you learned?

2. NEEDS ASSESSMENT (thi	ree-year cycle)	c	complete this by: December 16, 2016
A. Schoolwide Strengths	and Challenges		
nstructions:	your goals?	surrent data? y site-specific data or observations. Where are y enges related to the performance of your low-inc ts, and other subgroups.	yhest leverage challenge. you achieving or exceeding your goals? Where are you not meeting some students, English learners, foster youth, students with
Focal Area	Strengths	Challenges (List all challenges impacting each focal area.)	Highest Leverage Challenge (List one challenge.)
Graduate Outcomes	Students are motivated to graduate through credit recovery.	Students arrive below grade-level and have deficient literacy and math skills. Program size, master schedule, and school funding, makes it challenging to offer all courses that meet A-G requirements. Also, the nature of program makes it challenging todesign a Pathway that will meet the needs of all students. Majority of graduating Sojourner Truth students are defaulting to 190 credits (continuation school diploma) upon graduation instead of 230. More importantly, the nature of the program is not designed to support students who are more than two grade level proficiency. Also, the enrollment pattern of students (lack of graduation cohort) and ineffective coding system when students leave, make it very difficult to gather reliable graduation and dropout data.	
	26.5% SRI score is similar to district's 29.3% average	On average 52% of SJT students enter a two or four-year college/university after graduation. However, after six years (past students' graduation) no evidence exist that students graduate with a degree.	Set up site for Sojourner Truth College and Career Readiness Center –to establish a student-learning lab and electronic library to support student research of careers, their community service projects, work on Advisory curriculum, to prepare for college admission and careers, and to collaborate with adults and peers. Increase the # of students who graduate with 230 credits and and meet the A-G requirement by at least 10 %.
	SJT's has 0% suspension rate compared to the district's average of 4.1%	The nature of the program (one-on-one and small group support) enables teachers to establish trusting relationships (SEL) and personalized or differentiated support to meet the needs of our students.	Align the SEL standards and the CHKS survey and educating students and families on the connection
