EXHIBIT "A" SCOPE OF WORK

[IF A CONTRACTOR PROVIDES AN ACCEPTABLE DESCRIPTION OF SERVICES AS PART OF A PROPOSAL, THAT DESCRIPTION OF SERVICES MAY BE ATTACHED <u>WITHOUT</u> ANY TERMS, CONDITIONS, LIMITATIONS, ETC., FROM THAT PROPOSAL.]

1. **Description of Services to be Provided:** Provide a description of the service(s) the contractor will provide. Be specific about what service(s) OUSD is purchasing and what *this* Contractor will do.

Bella Bikowsky, PhD, LLC (Dr. Bella Bikowsky) will provide training and technical assistance in support of implementation for up to 25 school sites participating in the School Climate Transformation grant. Activities include professional development trainings, site-based consultation and support to principals and PBIS teams, training and support for all PBIS coaches and Behavioral Health staff supporting implementation, and PD with district leadership to build capacity to sustain implementation of Multi-Tiered Systems of Support beyond the grant period. Bella Bikowsky, PhD, LLC will also assist with the outcome evaluation for this grant to determine the impact of implementing PBIS to transform school climate and culture and improve the conditions for learning for African American students who have historically been excluded from instruction at higher rates than their peers. Total cost for training, TA, and evaluation will not exceed \$30,000 (12 Days) as outlined in the grant proposal. Bella Bikowsky, PhD, LLC assumes responsibility for all travel and lodging costs under this agreement. An additional 6 hours is needed.

2. Specific Outcomes: What are the expected outcomes from the services of this Contract? Be specific. For example, as a result of the service(s): 1) How many more Oakland children are graduating from high school? 2) How many more Oakland children are attending school 95% or more? 3) How many more students have meaningful internships and/or paying jobs? 4) How many more Oakland children have access to, and use, the health services they need? Provide details of program participation (Students will...) and measurable outcomes (Participants will be able to...). NOT THE GOALS OF THE SITE OR DEPARTMENT.

The outcome evaluation will assess the degree to which the project accomplishes its overall goals to improve school climate and thereby improve behavioral and academic outcomes for students – and the particular outcome targets listed in the grant narrative. It will seek to answer these research questions, based on the program goals: 1) How has the multi-tiered behavioral framework improved academic indicators? 2) Do the interventions and/or services reduce the number of disciplinary referrals (especially for those receiving Tier 2 and 3 interventions)? and, 3) Can schools succeed in implementing a multi-tiered behavioral approach with fidelity? Outcomes arising from training and technical assistance include higher rates of effective implementation at all three tiers of support as reflected in fewer office referrals for problem behavior, fewer behavioral referrals of African American students to Special Education, fewer suspensions overall at participating sites, and improved school climate measures according to the California Healthy Kids Survey.
