- Expenditures provide proper justification that demonstrates the alignment to build out and integration of the four pillars of Linked Learning
- Expenditures should support the Theory of Action, should address the Root Cause Analysis, and should ensure the implementation of the Strategies in order to meet the Goals of your SPSA and the purpose of Measure N
- Expenditures are in addition to, and not in place of, services that would otherwise be provided to participating students with state and local funds if Measure N funds were not available
- Expenditures are not being used to cover the expenses of programmatic elements, staff salary, and costs that were previously being funded by the school
- Plan includes adequate and sustainable resources to support key goals and strategies that align to pathway development work and coherence
