Budget Justification and Narrative

In the following sections, please review the self-assessment and discuss your team's plan to address the following:

The Goals of the Measure

- Increase access to courses in arts, music, and world languages in grades 6-8
- Improve student retention during the transition from elementary to middle school
- Create a more positive and safe middle school learning environment

1. You **MUST** describe the current programmatic narrative for **EACH** section of the budget narrative based on the Measure G1 Initial Self-assessment and data analysis. Please highlight what G1 specifically supported in the 2017-18 school year.
2. Please explain how you plan to use the Measure G1 funds to develop strategic changes that meet the goals of the measure and that will lead to improved student outcomes.
3. Add additional lines if you would like to add additional budget items.
4. All budget items should total up to the recommended grant amount based on actual 2017-18 LCFF 20 day enrollment.

5. Safe and Positive School Culture

Programmatic Narrative Based on Data Analysis		
<p>Chronic Absenteeism 12.3% Increase School Attendance through building school site teams to analyze data, develop innovative systems, and focus on building relationships to address chronic absence and truancy. OUSD Attendance Goals: Chronic Absence Rate 5% or less, 85% students attending school 95% of school days, ADA 98% Suspensions for use of violence: 45 Strengthening COST and MTSS systems to support students, families and teachers through coaching with Behavioral Health teams to meet highest need students and families. Number of COST Referrals Addressed by JAN 2017: 106 Primary Service Referral: Individual Counseling</p> <p>The top reason for COST referrals at Frick Impact Academy in the 2016-17 and continue to be in the 2017-18 school year were for individual counseling services. Currently we do not have enough therapist on site to see the number of students who exhibit tier three behaviors and need individual services(1:1 and group therapy). We have adopted a newcomer program this school year. With this new population of students, we did not anticipate the amount of services they would need. With an additional 50 students added to our school population this increased the amount of mental health services needed. We have decided to put additional resources into trauma informed practices and mental health services for our entire school population. Currently we have invested in mindfulness practices, trauma informed professional development, and restorative justice practices in efforts to support students' social emotional needs to increase our ADA and decrease the number of office referrals and suspensions. By investing in more resources to support students who display tier two and three behaviors more mental health interns, and a trauma informed art class we will help students to:</p> <ul style="list-style-type: none"> ● Recognizing feelings and bodily reactions to indicate anxiety ● Identifying situations that provoke anxiety or negative expectations ● Changing self-talk from anxious to coping self-talk, and determining coping actions ● Self-evaluation and reinforcement ● Enhanced overall school safety by greater student self awareness
