Dear Board Members

Please let us keep our library
We need for many reason.

One reason I need my library
is because I can learn more
stuff. Another reason our library
is important is because I wanted
to see some more cool pictures.
Our library helps me finding
book I want. Without our library
I will not able to read. Finally, we
need our library because it help
us learn. I really hope you help us
fight to keep our libraries open.

Sincerely
Trimh

Please help us keep our library! Here are some reasons why we need it:

One reason we need our library is that our students can check out books to read at home. Not all of our students live near public libraries, nor do they have books at home. I like going to our library and seeing their joy and surprise at finding new books or recognizing ones we read in class.

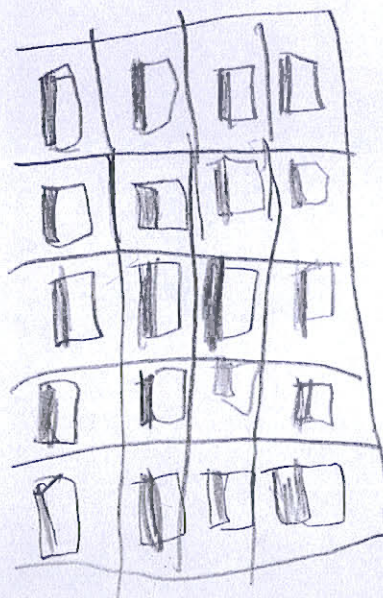

Another reason our library is important is the variety of books it has: fiction, non-fiction, different genres and languages. Without our library, my students would not have

Dear Board Members,

My name is Mia and I go to Bellavista. Please don't close the library. I have reasons why you shouldn't close the library. one reason you shouldn't close the library is that the kids in second grade, first grade and tk can't have a turn to read new books and learn about history or science.

Another reason is that you can be educated. like if you need to learn about wind mills then you read about wind mills.

My last reason you shouldn't shut down the library is that it help us to be smarter. like if you are bad at math then you read math books. And if you read a book with no pictures then you can imagine the pictures inside your head. Please don't close our library it is very important to me.

Sincerely,
Mia

Dear Board Members,

My name is Jeremiah. My school is Bella Vista elementary. Please don't close our library, here are some reasons why.

One reason is my family has not taken me to the library since I was 5 or 6. And the library has all my favorite books like Diary of a Wimpy Kid and Bad Guys.

My second reason is if you close the library I will be bored every time I read a book and I will never want to read a book again. And I don't want that to happen at all.

My last reason is if we have to do a book report. I like to do it with a book that I like. And if we have to use our favorite books we won't have them because we didn't go to the library. And that would stink.

So please don't close our library.

Dear board members, My name is Marcelo Zamora And I am a student at Bella Vista And on thursday I got news that we might not have a library next year but I want to keep our school library. And I am giving you three good reasons Why. Reason number one. Reading is important. Ever since I started going to school at Bella Vista I have been reading. It is very fun to read. Reason number two. People might not have a chance to go to the public library that school we have a library and it might close next year. Now some people might not get a chance but if you at Bella Vista you can check books. Reason number three. You can get smart by reading books. If you read a non-fiction book you can get smart. Thank you for reading. I hope you will agree to keep the library open. Love, Marcelo

We shouldn't close all school district library because in the school library we get to choose our own book to keep and read the whole week. And we could ask the librarian to find what book you're looking for!

We also shouldn't close all school district library because it will lower students' reading stamina because the books in the library that are higher than the students' reading levels. And can improve students' reading skills.

You shouldn't close the library and that's why.

We all love books

Dear President + Eng, members of the OUSD Board
of Directors and Measure G Committee Members,

The library is an important tool for students and
really boosts their morale. I use the library every
day and would have a very different life without
it.

- A CONCERNED LIBRARY
TECH

Dear President Eng, members of the OUSD Board of Directors and Measure G Committee Members,

I am writing with grave concern about the future of OUSD libraries. The decision to change Measure G library funding to site-based allocations on a per school basis threatens the ability to provide all Oakland students with a quality education, which includes a well-found school library with certified staff.

I am a teacher at Bella Vista Elementary school. For the past three years we have been so fortunate to have a dedicated passionate library tech. Her salary has been paid, in part, by Measure G funds. If the amount for the 2019-20 school year is reduced to \$20K, our site will not be able to keep her. Our students will lose a valuable resource who fosters independent reading, creativity in the maker space, and a love of literacy. Please reconsider!

Thank you for your time. Deborah Gibbons
