History of the Probationary Process

Overview Probationary Process

Board Recommendations

Board recommends probationary schools get more intensive supports to implement strategies that support Linked Learning before funding is reduced

Consultations

Sites are provided consultation with staff to review feedback and get an overview of probationary process and expectations

Capacity Building

Sites are required to hire a Linked Learning coach, participate in site leader community of practice, and CMO leadership meetings.

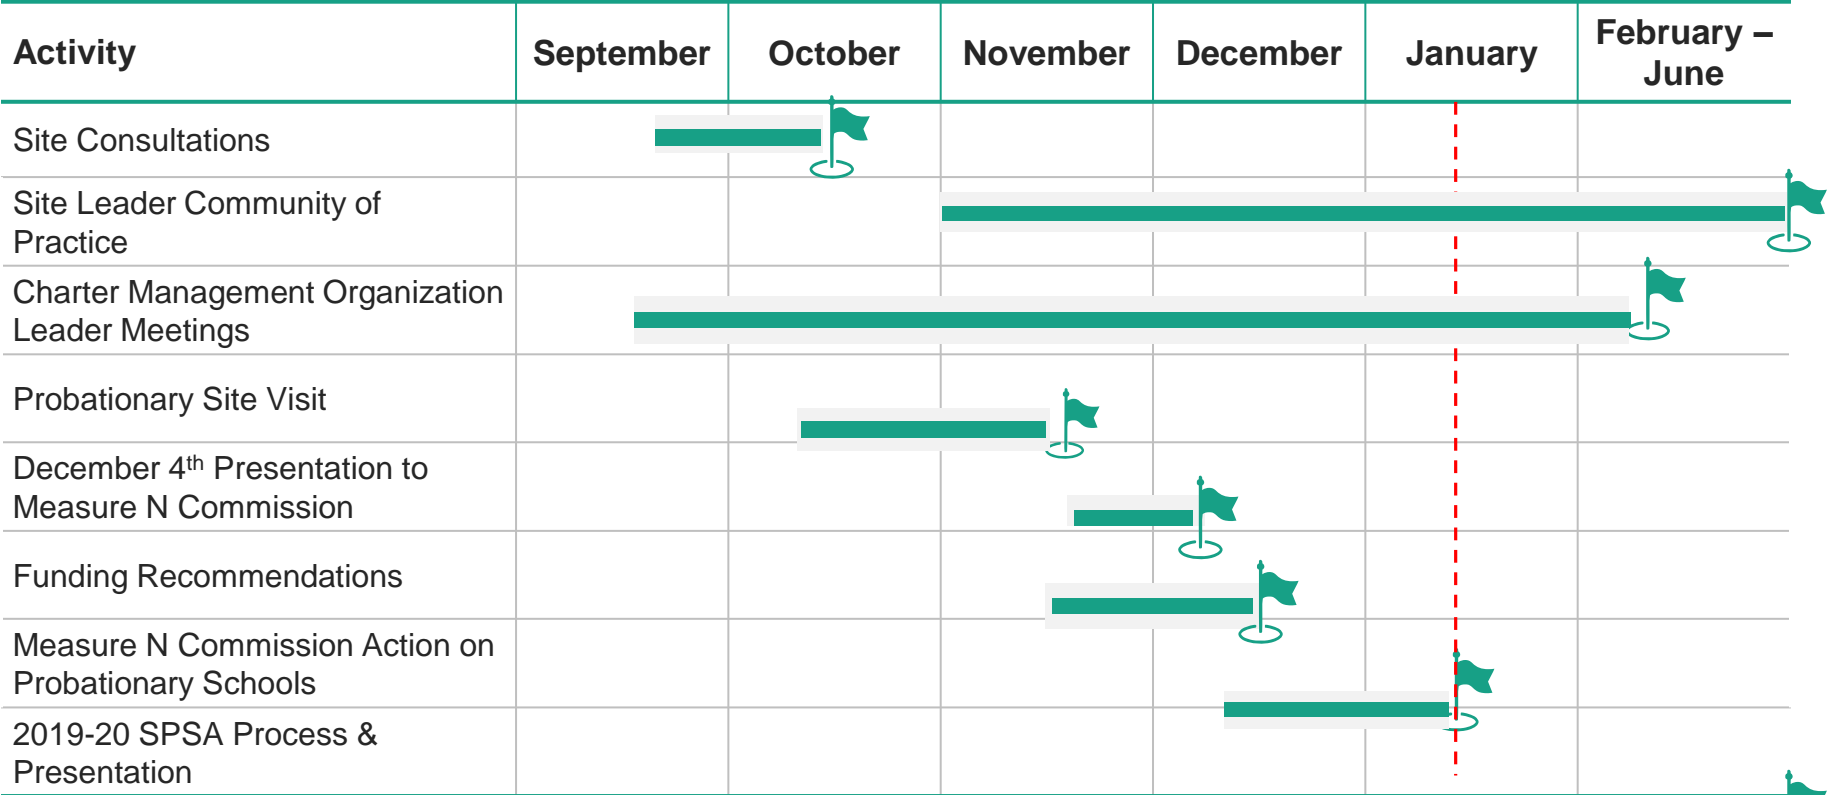

Site Visits and Feedback

Site visits include meetings with students, teachers, administrative teams, and classroom observations.

Final Presentation

Schools submitted final plans to Measure N Commission and answered key questions regarding their progress and plans for 2018-19

Funding Recommendations

	Key Indicators
Full Implementation Approved \$850	<ul style="list-style-type: none"> School has clear and consistent vision for the pathway theme and program design over the course of receiving Measure N funding School has operationalized all 4 elements of Linked Learning including rigorous academics, integrated student supports, work based learning and career technical education. School is striving to continuously improve the overall quality of the student's Linked Learning experience Funding is aligned to integrate both college and career readiness
Probationary Full Implementation \$850	<ul style="list-style-type: none"> School has clear and consistent vision for the pathway theme and program design since the inception of probationary status School has operationalized the Linked Learning elements including work based learning and career technical education with a building career technical education sequence of 2 or more courses. School is striving to continuously improve the overall quality of the student's Linked Learning experience Funding is aligned to integrate both college and career readiness
Probationary Planning & Piloting \$525	<ul style="list-style-type: none"> The school's vision and focus has developed some coherence during the probationary phase of the grant School has some elements of Linked Learning solidly built out, but are still piloting other ideas aligned to Linked Learning Pathway Development Does not have a comprehensive view of how career technical education is integrated into the school or is still learning about how to implement Linked Learning instructionally
Probationary Planning \$200	<ul style="list-style-type: none"> School has consistently shifted focus or theme during the life of the funding and lacks coherence Funding is not directly aligned to support the build out the 4 elements of Linked Learning and may be using funding to supplant The school did not directly address the feedback that was provided by staff during the process or missed key milestones and meetings There is significant implementation risk based off a lack of staff awareness and buy-in of the school direction Does not have a comprehensive view of how career technical education is integrated into the school and has an overall focus solely on college readiness
