Budget Justification and Narrative

In the following sections, please review the self-assessment and discuss your team's plan to address the following:

The Goals of the Measure

- Increase access to courses in arts, music, and world languages in grades 6-8
- Improve student retention during the transition from elementary to middle school
- Create a more positive and safe middle school learning environment

1. You **MUST** describe the current programmatic narrative for **EACH** section of the budget narrative based on the Measure G1 Initial Self-assessment and data analysis. Please highlight what G1 specifically supported in the 2017-18 school year.
2. Please explain how you plan to use the Measure G1 funds to develop strategic changes that meet the goals of the measure and that will lead to improved student outcomes.
3. Add additional lines if you would like to add additional budget items.
4. All budget items should total up to the total grant amount based on projected enrollment for 2017-18.

1. Music Program

Programmatic Narrative Based on Rubric

In terms of access/equity, scheduling is set up so that all music students are in music courses in the same 2 period block of the school day. Course sequence is factored into the scheduling of these courses so that students have access to all classes they need to fully develop as a musician. The instructional program has diverse offerings that bring in professional musicians that enhance the educational experience. Students have many performance opportunities outside of school. We currently are in the process of supporting of teaching professionals through the CTE credentialing process and hope to soon have all music faculty CTE credentialed. Our Instrumental Music department has its own facility in the Newberry building at 19th and Telegraph with specialized furniture, relevant equipment, and practice rooms for groups and individuals. Instructional materials are updated regularly and instruments are well maintained. Our Audio Production and Engineering course guides students through advanced music production with current software and state of the art technology. Our music teachers have common planning time commensurate to that of our academic teachers, though we intend to build in more time for collaboration with academic teachers to better develop an integrated program of study.

2. Art Program

Programmatic Narrative Based on Rubric

In terms of instruction, facilities, teachers, equipment, and professional development our art program is similar to that of our music program. We have dedicated facility space, high quality materials and equipment, access to community resources and industry experts, shared professional development opportunities, and highly skilled professional artists as teachers that are pursuing CTE credentialing. We intend to focus a portion of our G1 funding on increasing access to this instruction and curriculum to students that are currently focusing in other art forms to better prepare them for careers in the industry. We have engaged in an intensive self-study throughout this school year. Our primary finding is that to best serve our students we need to fully develop an integrated program of study where the passion our students bring to the arts is best leveraged through all aspects of their daily experience. We have found that any many instances our level of artistic specialization needs to be balanced with breadth in artistic exposure to better prepare students for industry. For instance, only our Digital Media students are currently accessing training in Photoshop on our campus while it has been clearly identified that such technological proficiency is critical in all art industries. In addition to this, we are working to develop courses in the core content areas that authentically integrate the arts into the curriculum and assessments.

Budget	Description of 2019-20 Proposed Expenditures	Anticipated Student Outcome <i>(Include measurable student outcomes for each proposed activity. For example, number of students served, or achievement for specific student group.)</i>
\$6,000.00	Adobe Creative Cloud licenses for 200 students. Currently only our 20-25 Digital Media students are getting access and training in Adobe programs such as Photoshop and Premier. This would allow us to provide such access to many more students .	As made clear by our industry partners, these technological skills are necessary for most creative fields. We anticipate a heightened engagement as we better prepare our students for creative industries. Students will also learn portfolio creation skills through this process making their learning more relevant. 200 students will benefit from this expenditure. This is directly connected to the following G1 goal: <ul style="list-style-type: none"> • Increase access to courses in arts, music, and world languages in grades 6-8

3. World Language Program

Programmatic Narrative Based on Rubric

We offer world language courses in both French and Spanish, but only to our high school students. For middle school students to take language courses they do so through dual enrollment with neighboring city colleges. All students have the opportunity to take complex language offerings in high school and the opportunity to demonstrate their proficiency. There are currently limited opportunities for students to use the target language in a real-world setting.

4. 5th to 6th Grade Enrollment Retention

Programmatic Narrative Based on Data Analysis

As demand has increased for our school our percentage of Oakland residents and students of color has decreased significantly. We have engaged in analysis and implemented our Step It Up team to recruit students of color from Oakland and help these students prepare for artistic audition into the 6th grade. This work has led us to strengthen our relationship with district elementary schools.

Budget	Description of 2019-20 Proposed Expenditures	Anticipated Student Outcome <i>(Include measurable student outcomes for each proposed activity. For example, number of students served, or achievement for specific student group.)</i>
\$6,326.91	Step It Up summer bridge program designed to support our incoming students recruited through the Step It Up Program to be successful in their transition to OSA. This includes support in the culture of being and arts student, socio-emotional needs, navigating a new structure, basic skills beyond the technical skills, etc. The proposed budget for this program includes compensation for a director, arts faculty, and academic faculty.	<p>Our students of color from Oakland that are supported in the audition/enrollment process through the Step It Up program will have higher academic success, higher attendance, and feel more included in our school community. This will serve approximately 80 students and results can be measured through student grades, attendance, and student culture survey. This initiative is directly connected to the following G1 goals:</p> <ul style="list-style-type: none">• Increase access to courses in arts, music, and world languages in grades 6-8.• Improve student retention during the transition from elementary to

		middle school.

5. Safe and Positive School Culture

Programmatic Narrative Based on Data Analysis

We are continuing to improve our restorative practices to decrease the number of suspensions and provide support to better engage students that are chronically absent. Currently our dean of students is leading this initiative, though we recognize that to fully implement a restorative justice program we will need to allocate more resources. We have seen a significant reduction in the overall number of suspensions though we ultimately aim to bring this number to as close to 0% as possible.

1/10/19 Driver Meeting

1. Module 3b: Instruction will be the focus for Thursday's design team meeting

- PBL intro world cafe activity followed by an analysis of one of the projects they have done at OSA.
- Workshop time by committee
 - Instruction committee will look into setting goals and creating a PD plan for this spring
 - Pathway and Grad profile - focus on revising based on last sessions feedback
 - Schedule - more work is needed here...

2. Mike is going to invite Preston to visit and tour the school informally and use it as a time to check in regarding the plan to get off probation.

3. Master Schedule workshop is in support DT's work...

4. Brian made progress with staff on Monday by setting a vision on equity which includes both support as well as changing their admission/audition policy.

Request - Mike requested Pivot to do a presentation on Linked Learning, how it supports equity, and how OSA is already doing a lot of this work. It might be this Monday, but likely the following week's staff meeting. Kenny will prepare a presentation for review.

12/6/18 Driver Meeting Agenda

1. Oceanside Debrief
 - a. Monday debrief - reported out Oceanside visit panel, a great to enrol staff, open minded about time, cohorts.
2. Measure N updates
 - a. CTE was established
 - b. Student support changed
 - c. Funding questions...
3. Subcommittees: Grad profile, pathway design, and Integrated Projects
 - a. What support is needed to move the work forward... how can Mike, Staci, and/or Kenny support this work?
 - b. Grad - can we have a draft ready for feedback?
 - c. Pathway - can we have a modified pathway plan ready that includes the work from last meeting? What additional data do we need to inform this process?
 - d. Integrated Projects - can we identify prototypes to do this spring?
 - i. Set prototype with exhibition for this spring
 - ii. Set PD plan based on new pathway and schedule to get teachers ready for Fall whole school rollout.
 - iii. Or do looking at student work consultancy at a staff meeting
4. Schedule - January...
5. Monday whole school involvement.

DT Agenda (11/8)

5 mins - Connections (Kenny)

2 mins - Goals and Agenda (Kenny)

5 mins - Staci and Mike Frame day (let's talk more on this Tuesday)

- Discovery informs design (Staci?)
- Ideation involves iterative process with user (students and teachers and families)
- Fall, Winter, Spring/Summer Scope (Mike)
 - Walk away goal is that sub-committees have action plan (leadership, dates, check-ins,)

60 mins - Grad Profile (Kenny)

- Robinson school video (5)
- Frame Challenge (2)
- Discovery and Interpret (15) – answer traits questions on inside of gingerbread person
- Ideate and Prototype (15) – what trends to you see....
- Feedback and Refinement – share out you person (15)
- Final question – what is needed to get there? (5)

35 mins – Subcommittees (Mike)

- Reconnect with your groups and identify key trends, additional data
- Identify next steps – use tracker

10 mins - Debrief, next steps, and appreciations (Mike and Staci... kenny takes notes)

Time Management:

- Pivot will only have one facilitator, Kenny, speaking, Mike and Staci will co-facilitate at level they deem appropriate
- Kenny will arrive early with bagels and coffee
- Tables - could be arranged to form 4 groups
- Tech – I plan to get there early... no google slides
-

Connections

Updates - Mike

- Calendar for Fall and Schedule retreat

- Scope and Sequence.

Staci/Mike - frame need for work

Small Groups Discovery/Interpret- (student experience, schedule, integrated proj, and pathway design

- relook at data from last month as well as any additional data
- Interpret - create highlights on chart paper followed by gallery walk.
- Set time for more discovery and schedule of next steps
 - Need to set up more guidance and set parameters
 - Profile - share with their groups
 - What they will be looking for in their meetings
 - Emails, agenda, etc - project plan...
 - Be prepared to report back and have structure for the reporting back...

Dec 7th Measure N presentations - need a leader from each sub-group to talk about the work they are doing to further implement and deepen our impact...

- Also, good to visit other schools both locally and CA

Vision/Mision

1. What should [school name] graduates **know**?
2. What should [school name] graduates **be able to do**?
3. What should [school name] graduates **be like**?

ESLR's - unpack what you see, how does this connect with your ideal graduate?

Start Planning backwards - what experiences do you need to provide to get your ideal graduate? What more discovery do we need?

possible equity issue (as mentioned by Measure N commission), make sure we know this is an iterative process, a lot of this is already in place already....

Fall Convening 2018:

We are looking forward to our November Beyond High School network convening. In anticipation of this and to best design our time together, please complete a short survey:

<https://goo.gl/forms/3fKHAoG2xuK7FgBH3>

Please see some basic information below and a more detailed agenda will follow.

When:

Our upcoming convening will be held on November 14th-16th 2018

Where:

Members of the Pivot team will be coming to Oceanside on Tuesday night (November 13th). Wednesday morning's optional site visit will likely be in San Diego. Wednesday afternoon's convening opening and all of Thursday's activities will all be in Oceanside. Friday morning's site visit will be in Paramount.

Convening goals:

- Connect with other educators in the Beyond High School network
- Be inspired by and learn from other schools and pathways
- Deepen our understanding of growth culture
- Reflect, refine, and deepen design work for Linked Learning implementation and certification

Schedule:**November 14th**

- High Tech High site visit (9 am)
- Network opening (3:00 pm)
- Network reception (5 pm)

November 15th

- Oceanside school site visit (8 am)
- Shared learning on growth culture and unlocking time
- Team design time and cross team consultancy
- Other TBD (see survey link above!)

November 16th

- Optional morning site visit to Odyssey STEM Academy in Paramount (8 am)
- Possible afternoon site visit TBD
- In process of setting up visit to an Arts school.

Student Experience Data

1. What do you see?
 - a. *missing a lot of answers, many kids did not answer survey, missing many student voices*
 - b. *Lack of support for mental health only 14% gone to mental health... 44% struggle with mental health*

- c. *Few students arrive at school rested..*
 - d. *Students don't treat each other with respect 40% didn't agree that they are respected*
 - e. *Home with both parents... Black students 60% do not come from home with both parents... different home environments*
 - f. *Counselors are busy but only reaching a small number of students... structural challenges may contribute to this*
 - g. *60% of students mental health issues... likely not getting support*
 - h. *Low amount of men of color and the isolation they experience (pg 2-3)*
 - i. *Pg 6 40% identify as something other than straight, how are we serving this population and do we talk about it*
 - j. *People may not know that there are counselors or other resources, not as advertised.*
 - k. *Pg. 13 87% of kids have positive relationship with teachers, but 58% do not feel like kids are known outside of class.*
 - l. *Same feedback about administrators pg. 17*
 - m. *Pg 16 students who feel teachers don't know them outside of class is too high for arts*
 - n. *Pg 13 and 23 Depression, there is a structure on the underneath side, how many counselors can we have and what is our infrastructure that helps supports being known and the isolation that comes up.*
 - o. *41% of students engage in disruptive behavior, how do students view themselves and what it does for their ability to learn and thrive and how to shift this perception.*
2. *What else came up that we want to know more about?*
- a. *Relationships with teachers and people skipping class... how are they connected?*
 - b. *What are the classes that are exhibiting more disengagement with students*
 - c. *Creating listening forums to learn more from particular populations and groups?*
 - d. *Create a culture of feedback in school and how to give and accept feedback...*
 - e. *I want to know more about my students and what is happening at home and we are guessing a lot about our students home life and need to know more to better support our students*
 - f.
 - g. *Do students feel their grades reflect what they have learned in class... I got good grade but I was only doing busy work and not really learning.*

10/11/18 Driver Meeting

Agenda -

1. Connections - 5 Things in 87 Seconds or rock paper scissors
2. Design Brief (LF) and intro Robert
3. Updates - Measure N
4. Mike/Kenny frame discovery
5. Watch video - IDEO
6. Whole group looks for patterns in student survey data

7. Folks select one of four groups to look at data, notice patterns, answer guiding questions, and present out to whole group.
8. Presentations - Are there any additional noticings or interpretations from other groups? What opportunities do we see? What additional discovery data should we gather?
9. Next steps and sub-committees
10. Reflections, Debrief, Appreciations, Closing

School Culture:

- Data - Whole group with look at student survey (MO has already distributed).
- Questions:
 - What do you see? Do see any patterns? Are there themes or trends in the data?
 - What surprises do you see? What feelings come up when you see the data? What excites you? What frustrates you?
- Now What...?
 - How do we use this data to increase equitable experience for all students?
 - What questions do we want to explore more?

*Someone will be taking notes of comments (Robert or Laura)

<p>Schedule Data - Abl survey (MO) Questions - What do you see? Do see any patterns? What surprises do you see? Is there themes or trends in the data? What feelings come up when you see the data?  - a. Sub- committee with Gideon?
 - i. Survey current pbl best practices
 - ii. Current integration with arts
 - iii. Thoughts for Pd calendar this year
 - iv. 10/11 will present at driver meeting

Plan Design/Development Team Meeting

3. Wordle and documentation of their process
4. Design Brief
 - a. Basic calendar and deliverable s
 - b. End goals and check points
5. Discovery & Interpret
 - a. IDEO video? (3 min clip on discovery)
 - b. What data will you bring to the meeting?
 - i. School- level quantitative data
 1. Culture survey - kids don't see connection to y
 - ii. Student survey data
 - iii. Industry partners that exist, work-based learning that's happening
 1. Mike doc - current wbl experience (shadows, ad hoc
 2. Creative art science (current using inhouse arts teachers)
 - iv. CTE sequence, college-prep courses, where is integration happening?
 1. All in a-g
 2. AP and honors
 - v. Teacher survey data -
 1. Matt is doing this
 2. Gideon is on it
 - vi. Arts industry data, Oakland, Bay Area? (Matthew)

1. None now as school
2. Matt will find more data in union related folks - maybe jig too...
3. Survey arts teachers about industry data
- c. Activity for looking at the data and interpreting it
- d. Deciding what other discovery data is needed and creating a plan for getting it

Next Meeting(s)

1. Vision/Mission (3rd meeting) - mike
2. Grad Profile (3rd meeting) - counselor Snyder and Shultz, should own it - mike
3. Strategic plan - mike

Dev Team:

OSA debrief:

Icebreaker was fun

Agenda 4/18/19

Agenda:

Connector, framing, and updates (30),

Updates (10),

New Sub -committees(50),

Committee reflection and next steps (30)

*** I will frame the sub-committee work as a rapid fire prototyping process by starting the discovery work on Thursday, recruiting new members, and having a plan together for May 16th final meeting for this year.**

I will be creating a google doc with links to various discovery documents and sources like UCCI site... and others , but just serve as a start, and hopefully the groups will start adding to it.

Agenda 3/14/19

Goals

§Review Data from family, students, and staff

§Create next steps and priorities based on data

Agenda:

Connector, framing, and updates (10),

Data Dive and Sharing(50),

POC Minutes 3/5

Pathway Structures

- By combining emphases and combining into two pathways we create the condition to implement structures that connect students from multiple sub-pathways.
- Shared experiences
- School leadership can now more strategically implement resources in an equitable way for all students in a pathway.
- Coherence, alignment, and integration. Structures need to facilitate these qualities so it does not become confusing.
- Taking art courses as electives outside of their emphasis.
- Block schedules
- How does 5th academic period provide opportunity for extended arts experiences
- Flex period allows time for all the extracurricular activities that currently happen during lunch or after school. This includes club meetings, assemblies, etc. Like a student prep period.
- Family engagement should be improved with advisory. Student led conferences.

Graduate Profile

- Should be memorable, brandable, easy to connect to.
- R.E.A.D.Y
- Reflection, engagement, advocacy, dedication, your voice/your journey
- How do we know if a student is living up to these expectations?
- Are these indicators of success/college and career readiness.
- Captures the middle ground well but may need more specifics about artistic and academic success.
- Should middle and high school have separate profiles.
- Sub committee specifically wanted one for both school.
- Apathetic students? How do we make sure that they don't get lost. Students with barriers, are they appropriately involved?
- What mechanisms are in place to measure R.E.A.D.Y.
- Middle school students that do not go to high school at OSA need to be considered.

Integrated Program of Study

- Access to art across pathways
- Academic courses cohorted by pathways. Assignment can be assigned from the art class and submitted to the academic class.
- Having to purchase curriculum to support cohorted classes.
- Practical application of pathway content including entrepreneurship and career technical skills.
- Will make a well-rounded artist.
- What are the priorities in deciding upon new courses to offer? Can students of color be the focus of this?

Bell Schedules

- Two day or four day block?
- Not everyday looks the same, blocks meet on alternating days.
- Previous experience: less transparent from parents perspective in terms of what was going on daily. Needs to be presented properly.
- For certain courses it is great, for others it not as supportive to the subject matter. Math and foreign language tend to not like it.
- What is most important to our population of people?
- How do absences play into this?
- Cava: Seems great for her student because it's a less to manage on a daily basis. Concern is, will the homework be doubled because of the day off?
- Concerns about apathetic students.
- As school becomes more diverse how are these structures addressing this.
- If students are coming in from Title 1 schools, we need way more structure.
- Specific curriculum needs to be discussed
