Exhibit A - Galileo Learning Scope of Work (2018)

Program Elements:

- Nebulas (pre-K & K), our youngest innovators in training, enjoy a cozy camper-to-staff ratio of 8:1. We shower them with guidance and attention, and draw them out with enticing projects and activities. We also introduce them to structured collaboration, an underappreciated facet of learning and an essential element of innovation.
- We maintain a snug 10:1 camper-to-staff ratio, even as Stars (1st- 2nd) begin to think and act more independently. We leave them to pursue projects longer—sometimes developing a single idea over several days. We encourage Stars to take greater risks and stretch their understanding of artistic and scientific concepts as they design, test and redesign their work.
- The leaders of our camp communities, Supernovas (3rd- 5th) experience every phase of the innovator's process. They immerse themselves in complex multi-day projects that stretch their creativity and powers of deduction. They use sophisticated tools with increasing independence and come together fluidly to tackle challenges as a team. Red Supergiants—the honorary title given to Supernovas entering 5th grade—get the chance to develop their leadership skills by mentoring younger innovators.
- Summer Quest (5th- 8th) campers are a busy lot. They spend 4 hours a day working in their majors—learning new skills, collaborating with their major-mates, taking an idea from vision to reality—but camp certainly isn't all work and no fun.

Services Offered:

- Every week is packed with out-of-the-classroom opportunities to participate in camp-wide activities or play games. Inside their majors and out of them, campers have plenty of room to relax, play, build new friendships or simply hang out with some of Galileo's inspiring staffers. 2018 camp themes include Space Exploration, Incredible Human Body, Galileo Markers: Materials Challenge, and Road Trip Adventure.

Typical Daily Agenda:

- 8:00-9:00 AM: Optional extended care
- 9:00-9:15 AM: Summer camp begins—opening ceremony and/or team building
- 9:15-10:30 AM: Major time
- 10:30-10:45 AM: Snack break
- 10:45-12:00 PM: Major time
- 12:00-1:00 PM: Lunch (bring your own or sign up for our healthy lunch program) and camp activities
- 1:00-2:30 PM: Major time
- 2:30-3:00 PM: All-camp activity and/or closing ceremony
- 3:00 PM: Summer camp ends—parents pick up campers and sign out with staff
- 3:00-6:00 PM: Optional extended care

EXHIBIT B - GALILEO STATEMENT OF QUALIFICATIONS

WHERE IT ALL BEGAN –AND WHERE IT’S GOING

Before Stanford grad Glen Tripp established the first Galileo camp in Palo Alto in 2002, he wasn’t hearing much talk in the education world about design thinking, creative problem solving or innovation strategies. Educators were a lot more focused on academic subjects such as math and literacy.

BUT GLEN AND HIS CO-CONSPIRATORS SAW THINGS A LITTLE DIFFERENTLY.

They saw a world that needed innovators and problem-solvers. They also saw a window of opportunity to complement what kids learn during the school year with a new and powerful experience—that of approaching learning fearlessly and creatively as innovators. The window was summer. And so Galileo was born.

TODAY, GALILEO OPERATES OVER 70 INNOVATION CAMPS AROUND THE BAY AREA, SOUTHERN CALIFORNIA, AND CHICAGO.

Everything that happens at them is informed by our Galileo Innovation Approach (affectionately known as the “GIA”). Inspired by the innovation process developed at the Stanford d.school, the GIA is a distillation of everything kids need to learn to envision and create a better world—the mindset, the knowledge and the process.

KIDS ABSORB THE GIA NOT BY LISTENING TO BORING LECTURES, BUT BY ACTING. They internalize it through an endless series of art projects, science experiments and outdoor activities. Apparently, it’s infectious. Parents of our campers tell us their kids exude a newfound confidence. They no longer fear mistakes—they embrace them as a natural part of refining their cool idea. And they continue to create works of art and invent problem-solving contraptions out of household recyclables long after summer camp is over.

IT'S BEEN MORE THAN TEN YEARS and thousands of campers since our inception. We're successfully igniting a new generation of fearless innovators. We hope we're preparing each one of them to live a freer, happier life, and to make their own contribution to a brighter world we all can enjoy.

OUR MISSION: CREATE A WORLD OF FEARLESS INNOVATORS

Something powerful happens at Galileo that doesn't happen at other camps. Sure, kids have fun. They have a lot of fun. They come home glowing, grimy and wiped out.

But amidst the frenzy, they also learn something with the potential to change them—and the world—profoundly. They learn how to fail. Not in a humiliating or dispiriting way. But in a self-assured way, that helps turn them into hardy, risk-taking creators and problem-solvers.

Multiply that inversion times thousands of kids every summer and you have Galileo's audacious mission—to nurture and inspire a daring new generation of fearless innovators.

Armed with an innovation process inspired by the Stanford d.school, Galileo instructors facilitate campers' hands-on exploration of science, art and outdoor activities. Behind every activity, an idea. And a mindset—visionary, courageous, collaborative, determined, reflective.

In pre-K, campers may build a crude xylophone or design a lion mask. By 8th grade, they may program their own video game, design their own fashion line, or breathe life into some creation entirely of their own invention.

The products are cool. But the by-products—supreme confidence and a boldness of vision worthy of our camp's patron saint—are what will eventually rock our world.

OUR SECRET SAUCE: THE GALILEO INNOVATION APPROACH

We're on a mission to develop innovators who envision and create a better world. We do it by teaching campers to understand and apply the Galileo Innovation Approach—or the “G.I.A.,” as we sometimes like to call it.

The GIA is inspired by the innovation process developed at the Stanford d.school. We took some of their fundamental ideas, added our own, then adapted it for kids from pre-K through 8th grade, when they're especially open to absorbing new ways to think, explore and create.

These are the three components of the Galileo Innovation Approach:

1. THE INNOVATOR'S MINDSET: HOW GALILEO INNOVATORS APPROACH THE WORLD

I AM VISIONARY

- I envision a better world
- I imagine things that don't exist yet
- I believe it's my place to turn ideas into reality

I AM COURAGEOUS

- I freely share my creative thoughts
- I stretch myself to try new things
- I embrace challenges

I AM COLLABORATIVE

- I value the unique perspectives of others
- I build on the ideas of others
- I use my strengths to support the work of others

I AM DETERMINED

- I persevere until I achieve my goal
- I recognize setbacks as opportunities to learn
- I know that innovation and mastery require effort

I AM REFLECTIVE

- I take time to think about what is and isn't working in my design
- I think about how my work impacts other people and the world
- I seek feedback to improve myself and my work

2. THE INNOVATOR'S KNOWLEDGE: WHAT GALILEO INNOVATORS NEED TO UNDERSTAND

CONCEPTS AND FACTS:

- The big ideas, principles and facts relevant to their work

HISTORICAL CONTEXT:

- The contributions of relevant movements, artists, scientists, designers and other experts who came before them

SKILLS AND TECHNIQUES:

- How to use materials, tools and technology that allow them to effectively create, test and share their ideas

AUDIENCE AND ENVIRONMENT:

- The needs and circumstances of their users and the physical context in which their work will be received

3. THE INNOVATOR'S PROCESS: HOW GALILEO INNOVATORS INNOVATE

1. WE HAVE A TOTALLY AUDACIOUS MISSION

We think the world needs innovators. We also think kids who learn to explore and fail without fear—the essence of innovation—are happier, more creative and more confident when faced with life’s challenges. They don’t always get this incredible boost in other settings, but thousands of them have been getting it at Galileo since 2002.

2. WE HAVE PROGRAMS FOR KIDS FROM PRE-K THROUGH 8TH GRADE

Drawing heavily from the innovation process inspired by the Stanford d.school, we design and run a constantly-evolving series of programs for kids from pre-K through 8th grade. For kids pre-K through 5th grade, there’s Camp Galileo. For kids from 5th grade through 8th, there’s Galileo Summer Quest. We also design and run camps for The Tech Museum of Innovation—4th-8th grade—and the Chabot Space & Science Center—3rd-7th grade.

3. WE HAVE OVER 70 LOCATIONS AROUND THE BAY, SOUTHERN CALIFORNIA, AND CHICAGO

The demand for our camps grows every summer, so there’s likely to be a location near you. That means you don’t have to choose between the demands of work and life and treating your kids to a thrilling and potentially life-altering experience. To add to the convenience, we offer extended care from 8 am to 6 pm, and an optional healthy lunch program.

4. OUR INSTRUCTORS AND COUNSELORS ARE THE BEST IN THE BUSINESS

A camp is only as good as the people who nurture and inspire your kids every day. Our screening process is meticulous. Only the sharpest and most talented instructors, counselors and interns make the cut. Many are professional teachers and educators. Many have also been with us for many years. Each camp location bears their unique stamp, and pulsates with their infectious energy.

5. CAMP GALILEO COMBINES ART, SCIENCE AND OUTDOOR ACTIVITIES AROUND WEEKLY THEMES

We group kids pre-K through 5th grade into three age levels. Then we welcome our budding innovators into a world constructed around a weekly theme bursting with creative possibilities. Each day, campers participate in a carefully integrated mix of art, science and outdoor activities, calibrated for their age group and presented via a whimsical week-long narrative arc. They learn game-changing lessons, like the innovator’s mindset, the power of collaboration and how to embrace rather than fear mistakes.

6. AT GALILEO SUMMER QUEST, CAMPERS CHOOSE WEEK-LONG “MAJORS”

Older innovators choose from over 18 majors, then spend an entire week at a time focused on realizing their own personal vision—whether they’re designing a fashion line or video game, creating their signature recipe, or building a high-performance go-kart. We surround our campers with expert instructors, professional tools and materials, and eager collaborators. The rest is pure innovation.

7. OUR PATRON SAINT IS ONE OF HISTORY’S MOST PRODIGIOUS INNOVATORS

When Stanford grad Glen Tripp established our first camp in Palo Alto in 2002, he named it after 16th-century wildman Galileo Galilei. He wasn’t trying to create a generation of heretics. He wanted to instill in kids the same spirit of fearlessness and creative action embodied by Galileo. That gene was inherited by visionaries like Frida Kahlo, Miles Davis and Steve Jobs. Now we’re passing it on to the next generation of fearless innovators to create a bright new world.

Hi Jessica and Cynthia,

I hope you and your families, as well as members of the OUSD community, are safe and healthy.

I left voicemails with you both today, unfortunately, share the news that we are unable to run camp this summer. We are so disappointed that we're not able to serve kids in Oakland; this is such a challenging time for everyone, including us at Galileo. We really appreciate and value our partnership and look forward to working together next year. I attached a formal letter as well in case that is needed for reference.

I'll definitely be in touch in the beginning of the school year to plan for summer 2021. I'll also be sure to keep you posted on any new resources we develop to share with your families.

Thank you all for the many hours you've spent to support this partnership. I'm excited for it to continue in 2021! I hope you all stay healthy and safe in the meantime.

In innovation,
Matt
