Subject Equitable Enrollment Pilot: Proposal to Add Low-Income Enrollment Priority to Sequoia Elementary School

Action Approve Resolution No. 2021-0118 - Adjusting Enrollment Priorities at Sequoia Elementary School

Background The Citywide Plan calls for updates to our enrollment policies to ensure more equity in access to quality schools. To this end, the Superintendent formed a community working group earlier this year to research potential changes. The working group presented a series of recommendations on October 14, 2020, one of which included a recommendation around equitable enrollment pilots at a handful of high-demand schools.

As previously presented to the Board and public on October 14, the rationale for these Equitable Enrollment Initiatives at these schools is as follows:

- The pilot schools have previously expressed interest in exploring enrollment policy changes with a lens of increasing equitable access and diversifying their schools.
- School diversity is a top value that families mentioned in the equitable enrollment community survey.
- These pilots can help inform potential broader policy changes, in particular around how to resolve the tension between neighborhood schools and integration.

Each individual school’s pilot must come to the Board for approval separately. These pilots are intended to be in place for 3 years, but shall be re-evaluated

annually for their impact on student composition and school community sentiment, among other areas.

As discussed during the October 14 presentation from the working group, there are a few main considerations to keep in mind around these pilots:

- Estimated impact was modeled based on recent years of data, which may or may not be a good predictor of what happens in future years.
- Enrollment priority does not guarantee diversity – these schools may need a more comprehensive plan addressing recruitment.
- From the modeling, it does not appear that any one district school would be impacted by losing more than a handful of students who might now get a priority into Sequoia Elementary School. But, we would want to track this, to ensure nearby schools are not negatively impacted.

We see these considerations as areas for us to closely monitor and keep track of, not as reasons not to move forward.

Discussion

OUSD does not currently have a citywide approach to tackling equitable access to schools and/or integration. The work towards a larger enrollment policy update is continuing this school year and will likely take considerable time. Nonetheless, there is a desire from the school communities and from OUSD staff to move forward with a few pilot programs around enrollment priorities to begin to assess what this could look like and the impact.

OUSD staff is bringing forth three proposals for Board consideration: Chabot Elementary, Edna Brewer Middle, and Sequoia Elementary School. These schools are all proposing to add an enrollment priority for students living in low-income areas, after the enrollment priorities for siblings, neighborhood, and school staff children.

The Resolution has been amended since the first read on October 28, 2020 based on feedback from the Board.

Fiscal Impact

Small negative fiscal impact, as we anticipate most but not all families who no longer receive an offer to Sequoia Elementary School will likely attend another OUSD school.
