Narrative: Please provide the reasoning as to why the full Measure G1 allocation was not spent.

In 2019-2020, community meetings and conversation with our middle school families and alumni indicated a need for a secondary language programming at our school. We were excited at the prospect of hiring a part time Spanish teacher for our 5th-8th grade students. Unfortunately, we were not able to find a credentialed Spanish teacher to do this work for the school year.

Due to COVID-19, we have found the need to be better leveraging our outdoor spaces when we think about the wellness, health, and safety of our students who learn most of their day in a 100 year old building (in 2022). Through communication with our school community and hearing their hopes and dreams for our school, they have expressed interest in adding an outdoor learning space that would provide our middle school students with another learning space, things to do during recess other than playing sports in the sun, and improve the overall student culture of our middle school program.
