Memo

To Board of Education
From Measure N Commission
Jason Gumataotao, Chairperson
Louise Waters, Vice Chair
Whitney Dwyer, Secretary
Emma Paulino, Member
James Harris, Member

Board Meeting Date May 4, 2021

Subject Measure N Commission 2021-2022 Education Improvement Plan and Assessment
Services For: Coliseum College Preparatory Academy

Action Requested and Recommendation Approval by the Board of Education of the 2021-2022 Education Improvement Plan and Assessment for Coliseum College Preparatory Academy as "Fully Approved " in an amount not to exceed \$ 229,500.00.

Background

(Why do we need these services? Why have you selected this vendor?)

Competitively Bid

Was this contract competitively bid? No
If no, exception: N/A

Fiscal Impact

Funding resource(s): Measure N

2021-2022 MEASURE N BUDGET

REVISED 4/26/21

School: **COLISEUM COLLEGE PREP ACADEMY**Site #: **232**

Resource	Allocation	Total Expended	Total Remaining
Measure N	\$229,500.00	\$229,500.00	\$0.00

BUDGET ACTION NUMBER	BUDGET JUSTIFICATION	COST	OBJECT CODE	OBJECT CODE DESCRIPTION	POSITION TITLE	FTE	WHOLE SCHOOL / PATHWAY NAME
232-1	Teacher Salaries Stipends: Extended Contracts (salary and benefits) for Intersession. Intersession is providing a supplemental/ additional mastery assignment and coordinated support spaces for students who would otherwise receive an F in their fall course. This is additional time at school from 4-6 hours a day for a month. The extended contracts also fund teachers to support additional opportunities for students to participate in Dual Enrollment, Summer School 2021, Credit Recovery, and Additional Academic support for students.	\$58,201.46	1120	Teacher Salaries Stipends			Community Leadership and Innovation Pathway
232-2	Hire an College and Career Readiness Specialist, at .50 FTE. The College and Career Readiness Specialist is designed to support students in aligning their work in school with opportunities outside of school including summer programs and other enrichment opportunities. Specifically, CCPA would like to support students in using their base in design thinking, makerspace and engineering in exploring related programming in the trades. Additionally, we will continue to align our work with other computer science education programs through tech companies. Our goal is to have all students engaged in their learning and seeing a through line to a future job or educational opportunity that they are excited about pursuing. (Salary & Benefit Costs)	\$52,484.20	2205	Classified Support Salaries	College & Career Readiness Specialist	.50 FTE	Community Leadership and Innovation Pathway
232-3	Books-Other Than Textbooks purchased for 10th-12th grade pathway students to enroll in choice Dual Enrollment courses to provide student access to dual enrollment necessities. Vendors vary based on class and may be Laney Bookstore, Amazon or another vendor that sell college textbooks.	\$10,000.00	4200	Books-Other Than Textbooks			Community Leadership and Innovation Pathway
232-4	Supplies & Materials for Computer Science: supplies for the units to be developed by teachers this summer. In the past they have been technology kits, robot parts, computers and associated supplies.	\$15,000.00	4310	Supplies			Community Leadership and Innovation Pathway
232-5	Consultant Contract with the Oakland Ed Fund to facilitate and pay-out the Exploring College and Career Options (ECCO) 2022 Summer Internship Program. ECCO will provide the opportunity for students to experience college and career options. The stipends for students are paid through the Oakland Ed Fund generally thought the program is administered by the Linked Learning Office.	\$10,000.00	5825	Consultant Contract			Community Leadership and Innovation Pathway

232-6	Hire an College Center Coordinator, at .50 FTE - this is for salary and benefits costs for a staff member to coordinate the work of our college center including coordinating staff, partners and community to support 100% of CCPA in having college or career plans once they graduate. Additionally, the coordinator at CCPA tasked with tracking and increasing (providing concrete feedback that allows an increase) CCPA's student college persistence- we anecdotally believe this is around 50%. We need alignment of efforts that support students in sticking in their programs or changing to other plans that better meet their goals multiple years out from their time at CCPA. (Salary & Benefit Costs)	\$83,814.34	2305	Supervisor & Administrator Salaries	College Center Coordinator	.50 FTE	Community Leadership and Innovation Pathway
-------	--	-------------	------	-------------------------------------	----------------------------	---------	---

School:	COLISEUM COLLEGE PREP ACADEMY						School ID:	232	
School Description									
<p>Coliseum College Prep Academy (CCPA) is a small school in East Oakland serving grades 6-12. Our primary commitment is to serve the students of the surrounding community by providing a high-quality secondary school option in the Coliseum neighborhood. We strive to create a college-going culture beginning in middle school that acknowledges the magnitude of the task at hand. We couple our academic program with parent programs that aim to engage, support, and educate. CCPA's academic program is split into three divisions, each with a distinct purpose and corresponding structure to support that purpose. Division 1 (grades 6-7) has the goal of rapid academic growth. To achieve our goal of every student on grade level in English and Math by 8th grade, our Division 1 students have the same teachers for two years to build meaningful relationships. They also participate in a mandatory extended day until 5pm. Division 2 (grades 8-10) is our traditional secondary school structure, with an emphasis on college preparation. Starting with Algebra in the 8th grade, our Division 2 students aim to complete the majority of their A-G requirements during this period. Students are also offered intensive intervention in math and language during the school day. Division 3 (grades 11-12) offers students four core courses at CCPA that are paired with community college classes and/or professional internships in the community so that students graduate with both college credits and real-world experience. Recognizing the barriers that low-income and first generation students face in applying, matriculating and graduating from college, CCPA dedicates one hour per week during junior and senior year for a College Seminar class and maintains a robust calendar of family engagement events which integrate parents into the college-going process. At the end of 12th grade, seniors develop a detailed post-high school plan which is a component of the Senior Capstone project. This intensive and sustained support, coupled with ongoing family communication and 1:1 meetings with students, has increased our students' college application rate to almost 100%. CCPA educates students to become successful in our pathway and on our capstone: https://sites.google.com/ousd.org/ccpa-senior-capstone-2018-19/home. The Community Leadership and Innovation Pathway (CLIP) will provide students with access to an innovative social justice and technology focused pathway within the Information and Communication Technology (Software and Systems Development) industry sector. CLIP will enable CCPA to empower students as problem solvers and innovators in our community and beyond. CLIP will provide CCPA students with new access and opportunities in the rapidly changing tech field, which has not historically engaged communities of color. Ultimately, our goal is to support CCPA students with the tools and broadened perspective to become agents of change in East Oakland and thrive in college. CLIP students will grow into collaborative, empathetic, problem solving, creative thinkers with the design, engineering, and technology skills critical to build real-life solutions that address community needs. To make our students successful in our pathway, CCPA builds problem solving and thinking skills throughout our school beginning in D1 robotics and makespace and weaving through core classes focused on both community/ ethnic studies and technology skills.</p>									
School Mission and Vision									
<p>Coliseum College Prep Academy is dedicated to providing all of our students with a challenging and relevant education that prepares them for entry to UC and CSU schools. Students will leave Coliseum College Prep with the skills and knowledge necessary to pursue their vision for the future and confident in their ability to do so. We are committed to delivering a program that meets each learner's unique needs, capitalizes on their passions, connects their learning to the real world, and requires students to demonstrate what they know and are able to do. The individualized plans inherent in Make the Road are the cornerstone of this vision.</p>

ROOT CAUSE ANALYSIS							
Indicator	Strengths		Highest Leverage Challenge <i>What is the challenge that, if dissolved, would result in elimination, or substantial reduction, in disparities within the indicator identified?</i>		Root Cause Analysis <i>What is the deepest underlying cause, or causes that, if dissolved, would result in elimination, or substantial reduction, of the challenge?</i>		
Four-Year Cohort Graduation Rate	Consistently high graduation year-after-year		Student truancy/absences and mobility. Students ability to persist through credit deficiency issues.		Gentrification. Poverty.		
Four-Year Cohort Dropout Rate	Consistently very low year-after-year.		With reduced funding, maintaining and improving supports.		Budget cuts.		
A-G Completion	Consistently high A-G rate.		Mobility in high school students is where students who do not meet A-G comes from - 0% of CCPAs students who don't meet A-G went to CCPA 9-12.		We can't hold other schools accountable for providing A-G for all. Focus on College Persistence and better matching for college to motivate and engage kids.		
On Track to Graduate - 9th Grade	Many systems and structures exist to maintain graduation status of 9th grade.		Growing the ninth grade teaching cohort and maintaining quality during expansion.		Expansion		
Percentage of students who participated in at least 1 Work-Based Learning activity	Very high participation rate.		Persistence and genuine engagement with internships		We can't hold mentors accountable for providing opportunities that students find interesting. Internships also change from year to year, so institutional knowledge is lost.		
Percentage of students who have passed dual enrollment courses with a C- or better	Very high pass rate. Many students have passed at least one dual enrollment course and many have passed multiple classes.		Communication about student performance in college classes - particularly those that are off campus. Professors' willingness to accommodate diverse student needs.		Student transitions to college courses are challenging and many students need a high level support, which we don't necessarily have resources for always.		

Percentage of students in Linked Learning pathways	Very high participation rate	Space in student schedules to provide more support for students with more moderate/severe needs for differentiation and remediation.	Lack of flexibility in master schedule and need to take A-G
PATHWAY QUALITY ASSESSMENT			
Using the Measure N Self Assessment Rubric, assess the following:	Evidence of Strengths	Areas For Growth	Next Steps
Rigorous Academics (pages 3, 4, 5 of rubric)	All students are given the opportunity to take both Advanced Placement courses in Computer Science. Very few high schools across the nation offer both of these courses. Furthermore, these courses are rarely offered to every student on campus, and a majority of our 10th and 11th grade students enroll in these courses and are successful. Furthermore, gender parity in our computer science courses is a strength given that the field is still heavily male-dominated.	Scaling core instruction. Specifically in mathematics, a coordination between different contents and a lack of systematized intervention.	Develop systematized mathematics intervention. Establish coordination between different mathematics-like content areas.
CTE (pages 3,4,5 of rubric)	Collaboration among CTE instructors is high. We also have a four-year sequence of CTE courses, that all high school students complete.	Integration of CTE courses with other subjects - particularly the Ethnic Studies course	Providing time for deliberate planning across Ethnic Studies and Computer Science.
WBL (page 6 of rubric)	We provide 3 years of work-based-learning opportunities for our students. Given that, most of our students participate within a work-based-learning opportunity.	The sequence should be reviewed so that it is more aligned to current student post-secondary goals.	Survey students to identify current post-secondary goals and then provide planning time for staff to shape WBL opportunities accordingly.
Comprehensive Student Supports (page 7 of rubric)	We provide a variety of supports to students including socio-emotional, academic remediation, skill building, credit recovery and academic support spaces.	In our current structure, students who don't meet expectations languish in internship and college experiences. we need to build in another option that is more supportive and on campus for students who are not yet in the place of success in college classes or internship.	We are shifting how students end up in college classes and internships by adding in a financial literacy class that will be beneficial for students and will allow a bar of expectation to be held to students around performance in internship and college classes.
Pathway Student Outcomes (page 2 of rubric)	Our pathway is not tracked and mirrors the diversity seen within the greater student population. Our pathway demographics are substantially better than most data collected on specific subgroup participation within computer science across the nation. These demographics hold true even when students are given the ability to elect to enroll in more advanced CS coursework.	Our students still underperform on AP exams in Computer Science when compared to the national average. However, these scores mirror the general trend seen for subpopulation participation on the exams. We hope to improve our AP scores for both the AP CSP and AP CSA exams. We also would like to increase the number of students who identify pathway content as relevant to their lives and secondary goals.	Provide time for CTE instructors to plan, organize, and implement opportunities that have been shown to improve student performance on AP exams.

2020-2021: YEAR ONE ANALYSIS						
Pathway Strategic Goals						
Pathway Quality Strategic 3 Year Goal		What evidence will you look for to know you are successful?				
Build out 10th grade capstone that applies pathway skills.		Develop rubric for capstone project and provide time for instructors to plan around the development of skills needed within the capstone project.				
Focus on developing problem solving and troubleshooting skills. Students should be able to replicate a process with precision, and conceptually understand the rationale for that process.		Develop rubric and provide time for instructors to plan around the development of skills needed for successful procedural and conceptual understanding.				
Strengthen project management skills, including collaboration among students, time management and delegation, within mathematics, computer science, engineering and maker space coursework.		Develop rubric and provide time for instructors to plan around the development of skills needed for successful project management.				
Strategic Actions						
Strategic Actions What are the 3-5 key strategic actions for enabling conditions to support high quality pathway development for the whole school?		What evidence will you look for to know you are successful?				
Development of 11th grade AP CSA curriculum		Completion of a year-long course sequence focused on object oriented programming in Java. Survey data should be collected to ensure student reception of curriculum is relevant and interesting. This curriculum should also increase the number of students who pass the AP CSA exam.				
Development of rubrics outlined above		Rubrics are completed and feedback has been collected from instructors that suggests skills are appropriate. These skills are also clearly integrated within mathematics, computer science, engineering and makerspace courses.				
Develop and deliver financial literacy class		A course is offered that allows students to reason about personal finance. Students should be able to articulate a financial plan that is relevant to their post-secondary goals.				
Build interdisciplinary capstone project for 10th grade between ethnic studies and computer science		10th grade students are able to produce a capstone project that successfully integrates skills identified within the rubric.				
Budget Expenditures						
2020-2021 Budget						
Budget Justification: One to two sentences that provides the following information: - What the specific expenditure, vendor, or service is? - How the specific expenditure, vendor, or service provided is aligned to pathway development? - What need this specific expenditure or service addresses?	COST	OBJECT CODE	OBJECT CODE DESCRIPTION	POSITION TITLE	FTE	PATHWAY NAME (if applicable)
Certificated Teacher Salaries: Fund .50 FTE Salary for the Computer Science Teacher Computer Science course series including AP Computer Science applications and a 9th grade coding course. Additionally, this staff member with manage our CS partnerships and student engagement events.	\$34,029.04	1105	Enter object code at left.	Computer Science	.5 FTE	CLIP
Teacher Salary Stipends: Extended Contracts for Intercession (providing a supplemental mastery assignment support spaces for students who would otherwise receive an F in their fall course), Dual Enrollment, Summer School, Credit Recovery, Additional Academic support for students	\$27,400.00	1120	Enter object code at left.			CLIP
Fund .50 FTE Salary for the College Center Coordinator (this is a new position at CCPA designed to push to stronger college persistence- we anecdotally believe this is around 50%, trying to get hard numbers from the clearinghouse and EBCF). We believe we need better plans and matches.	\$88,791.46	2305	Enter object code at left.	College Center Coordinator	.5 FTE	CLIP

Benefits with associated positions	\$49,845.03	3000	Enter object code at left.			CLIP
Textbooks for students to enroll in Dual Enrollment courses provide student access to dual enrollment supports.	\$7,834.49	4200	Enter object code at left.			CLIP
Supplies for Computer Science: supplies for the units to be developed by teachers this summer. In the past they have been technology kits, robot parts, computers and associated supplies.	\$15,000.00	4310, 4315, 4410, 4420	Enter object code at left.			CLIP
Consultant Contract for the Exploring College and Career Options (ECCO) Summer Internship program. ECCO will provide the opportunity for students to experience college and career options.	\$10,000.00	5825	Enter object code at left.			CLIP

2021-2022: YEAR TWO ANALYSIS**Pathway Strategic Goals**

<i>Pathway Quality Strategic 3 Year Goal</i>	What actions did you take that improved outcomes? How do you know you were successful?	What will you do different next year to continue to improve?
Build out 10th grade capstone that applies pathway skills.	The instructional work of distance learning was more about subsistence, forced growth and student support than a vertical alignment of skills and knowledge. The vision is to create a senior project like capstone at 10th grade, but this did not happen this year.	We will reattempt this work next year.
Focus on developing problem solving and troubleshooting skills. Students should be able to replicate a process with precision, and conceptually understand the rationale for that process.	In many ways students grew A LOT in these skills this past year. The sheer volume of new platforms and tech issues created countless opportunities for kids to grow in their problem solving, troubleshooting and persistence. Our attendance and overall ability to do new technological things grew over the year increased as kids learned how to manage the nuances of new things applied across a variety of technologies. Instead of being told exactly what to do, kids had to describe their conditions and position. It was a turn in the exact direction we wanted from "help me" to "what i need is.." learning.	It will be powerful if we can support children in seeing their growth in problem solving with tech issues and connect it to larger ideas of how we problem solve across issues.
Strengthen project management skills, including collaboration among students, time management and delegation, within mathematics, computer science, engineering and maker space coursework.	Again, our collaborative work took somewhat of a hit this year. Though we did ultimately get to functional small group work, it took a lot of structures of accountability and smaller groups. It was not the project based learning that we envisioned. This year was great for thinking about how to differentiate in structures and support for individuals. We can use that learning to help us grow our students soft skills.	Continue to work towards a 10th grade capstone that engages students collaboratively around a self guided task.

For 2021-2022 are there any revisions to the strategic actions or new strategic actions, list below:

Strategic Actions - What are the 3-5 key new or revised strategic actions to support pathway development in 2021-2022?	What evidence will you look for to know you are successful? - How are you considering adapting your strategic actions for 2021-2022 given what you have learned this year about how to best support students?
Reflection process on troubleshooting and problem solving during distance learning, and a connection to our work in designing or improving solutions we develop.	Have student do a particular reflection on how they managed tech issues in March 2020 vs March 2021. What shifted? How do you do it? Can we create a rubric and generalize this to other kinds of work to do or improve something?
Design a 10th grade capstone through a collaboration btw CS, ELA and Ethnic Studies and focused on design thinking.	A project will happen. This is an adult move at the base.
Work to (re)build motivation and a deeper sense of purpose/ possibility in student work and pathway opportunities. Increase opportunities to connect pathway work to future opportunities.	Increase partnerships to keep pace with expansion and support the growth of CCPAs previous culture of summer programs and general motivation to participate in opportunities.

Budget Analysis of 2020-2021 Measure N Budget						
Impact of 2020-2021 Budget Expenditures - How did distance learning impact your budget expenditures? - What did you find was the most effective use of resources towards your goals and strategic actions and why?						
Minimesters made it challenging to get the depth of the work. AP courses were shortened. We added in study groups, but I'm not sure we bridged the gap. Overall engagement and student support was OK (97%, first on campus learning hub started October 2020, grade relatively equivalent), but the rigor and depth of content felt less than a normal year. This can be attributed to structure or the general level of stress in the community and its impact on learning.						
The most effect supports for the 20-21 school year was summer curriculum development and extended contracts to increase student supports during distance learning.						
Budget Expenditures						
2021-2022 Budget: Enabling Conditions Whole School						
Budget Justification: Enter one to two sentences to create a Proper Justification using the questions below. Explicitly describe the expenditure - no vague language, no acronyms, no hyperlinks and quantify when applicable. - What is the specific expenditure or service type? - How does the specific expenditure or service type support or is aligned to pathway development? - How does this expenditure improve student engagement and how many students will be served? - What need does this specific expenditure or service type address?						
	COST	OBJECT CODE	OBJECT CODE DESCRIPTION	POSITION TITLE	FTE	PATHWAY NAME (if applicable)
Teacher Salaries Stipends: Extended Contracts (salary and benefits) for intersession. Intersession is providing a supplemental/ additional mastery assignment and coordinated support spaces for students who would otherwise receive an F in their fall course. This is additional time at school from 4-6 hours a day for a month. The extended contracts also fund teachers to support additional opportunities for students to participate in Dual Enrollment, Summer School 2021, Credit Recovery, and Additional Academic support for students.	\$58,201.46	1120	Teacher Salaries Stipends			Community Leadership and Innovation Pathway
Hire an College and Career Readiness Specialist, at .50 FTE. The College and Career Readiness Specialist is designed to support students in aligning their work in school with opportunities outside of school including summer programs and other enrichment opportunities. Specifically, CCPA would like to support students in using their base in design thinking, makerspace and engineering in exploring related programming in the trades. Additionally, we will continue to align our work with other computer science education programs through tech companies. Criteria 3: Alignment of Funding to Linked Learning Criteria, Permissible Expenses, and Measure N Plan

Category	Compliant & Aligned 4	Compliant Partially Aligned 3	Non-Compliant • Supplanting • Not Allowable 2	Missing 1
Budget <i>The school has thoughtfully allocated Measure N funds to support the continuous improvement of Linked Learning career academies.</i> <ul style="list-style-type: none">Expenditures clearly support of and come from the needs and logical through line that is evident in the Education Improvement PlanExpenditures provide proper justification that demonstrates the alignment to build out and integration of the four pillars of Linked LearningExpenditures address the Root Cause Analysis, and should ensure the implementation of the Strategies in order to meet the goals of the plan and the purpose of Measure NExpenditures are in addition to, and not in place of, services that would otherwise be provided to participating students with state and local funds if Measure N funds were not availableExpenditures are not being used to cover the expenses of programmatic elements, staff salary, and costs that were previously being funded by the schoolExpenditures are necessary due to the existence of Linked Learning pathways at the school site	Score: 4 Rationale: <ul style="list-style-type: none">25% of their Measure N budget is to support intercession60% is for hiring a college and career readiness specialist and a college center coordinatorThe above budgetary priorities reflect a commitment to creating a space for teachers to support students with demonstrating mastery in core content that is hands on, experiential, and allows students to value and share their different learning styles			

Final Recommendation

Fully Approved

School is actively implementing Linked Learning as is evidenced by the establishment of all four pillars of Linked Learning
School is focused on the continuous improvement of the Linked Learning career academy and addressing the root causes of current student outcomes

Strengths:

- There is a clear focus on not allowing the last year of Distance Learning go to waste. The reflection process has the ability to take the struggles of the year and turn them into valuable learning opportunities.

Key Questions:

- N/A

Budget Feedback:

- Continue to use the questions or prompts that were created by the Measure N Commission and Staff to explicitly describe the expenditure when creating the strategic action. This information will ensure you create a proper justification - it is required for all Measure N approval requests. The questions are in the Measure N EIP, under Budget Justification. Measure N Staff can also share them if need be.

Next Steps:

What	Suggested Lead	Deliverable	Date
Ensure when entering Measure N expenditures in Escape that you include a justification that is aligned with your Measure N EIP. Additionally, attach all of the supporting documents required for submission and approval.	Principal Administrative Assistant Pathway Coach		Ongoing FY 2021-2022
