Subject: **Resolution No. 2324-0155 - Prioritizing The
Disposition and Use of Unutilized District
Properties**

Background:

While the Ohlone people were the original occupants of the area that is today known as the City of Oakland, the District is one of the largest landowners in this City, and owns a variety of parcels zoned for a variety of land uses; the District has a total of 108 facility sites; 76 of those sites have TK-12 and Alternative Ed programs (some with shared campuses); 32 of those sites have other uses such as charter schools, adult education programs, early childhood programs, administrative offices, warehouse spaces and unutilized properties; the District has a total of at least nine unutilized sites, or portions of sites. Effective use of these properties requires transparency in identifying unutilized or underutilized District land.

The District seeks to promote the health and welfare of those who live, work, and study within the District. Available District land, prior to disposition, should be made

available for those purposes. Public land is an asset of the people and should be utilized for public good.

There is a great shortage of affordable housing in our City, with the greatest impact on the over 1,600 District students who are unhoused, as well as many thousands more who are in unstable or overcrowded housing situations. In addition, the extremely high cost of housing in Oakland and the surrounding area is one of the prime factors that makes it difficult to attract and retain employees in our District. In response to similar concerns, school districts across the Bay Area and California have explored or are actively engaged in using some of their unutilized or underutilized real property to develop workforce housing.

In a written report dated January 22, 2020, a District-authorized committee with between 7 and 11 members ("7-11 Committee") recommended designating certain District properties as surplus and recommended a priority of potential uses for each property. In addition, the 7-11 Committee recommended that the Board consider adopting an overarching policy for District property that would allow long-term ground leases, while prohibiting the sale of District land.

In consideration of the 7-11 Committee's recommendations, the Board hereby seeks to adopt an overarching policy for District property that seeks to avoid unnecessary sales of District land.

Furthermore, the Board recognizes the need for and desirability of ongoing community involvement with the disposition of District land.

Facilities Committee:

The Facilities Committee, at its meeting on October 19, 2023, heard testimony on the Resolution from the public and deliberated its intent regarding the subject matter. The Committee left open for the Board to determine during its consideration of the Resolution, if adopted, the date by which the requested District Policy should be proposed by the Superintendent to the Board. The Committee, otherwise, hereby recommends adoption of the Resolution [at the November 8, 2023 Regular Meeting of the Board].

Purpose:

The purpose of this Resolution is to direct staff to create unified District Policies regarding the disposition and the prioritization of various uses of District properties not being actively utilized; to ensure that this process is done in a way that maximizes transparency, accountability, and inclusivity; to maximize the amount of affordable housing, for extremely low, very low, and low-income households, with priority to OUSD's 1,600 youth and families that are experiencing homelessness, as well as those in unstable or overcrowded housing situations, on underutilized and surplus District properties; to prioritize the provision of early childcare, youth, and homeless support and shelter services; and to increase available and affordable housing for the District's

workforce of teachers and employees on all remaining underutilized or surplus District properties.
