Update on Feedback

Guiding questions for Engagements:

What data should be considered to help us identify a school's area for improvement?

What's most important to you in improving a school? What are bright spots in OUSD schools? What do you wish were different?

The intention of our engagement work:

- 1) center voices of those who have not traditionally been listened to in the redesign process and*
- 2) lift up patterns from these engagements and share with the Board.*

Initial Patterns Observed in the Engagement Data

Patterns in the Data

Staff, Families,
and Students
want schools to
be safe,
welcoming, and
joyful.

It's important to
hire, train,
support, and
retain high-
quality teachers,
administrators,
and staff.

Families, students,
and staff want
strong academic
programming across
subjects that
supports a range of
learners, is culturally
relevant, and
includes
enrichments.

Equity, access
and inclusion
for all students
and families is
critically
important.

School Improvement Metrics

Norm Referenced vs. Criterion Referenced

Norm Referenced	Criterion Referenced
How schools compare to other schools.	How schools compare to a set criterion, such as a predetermined standard.
Rank and Compare.	Set a standard and compare schools against that standard.

Recommendation: Criterion Referenced

All Schools are compared against a standard (set of metrics).

Qualitative and Quantitative Data

- Self Assessment Rubrics that schools complete to reflect on each Improvement Domain;
- School Quality Reviews (SQRs) which includes observing teams, conducting interviews and hosting focus groups;
- Participation in and results from Curriculum Embedded Assessments; and
- CA Dashboard.
