**Highlights from our
April Meeting and our
Process for the
2024-27 Local Control
and Accountability Plan**

On April 17th, we reviewed the metrics and actions that are included in the current LCAP. We also heard about changes that are being proposed by staff.

Link to the folder with the presentation, recording, and notes from 4/17/24:

We had *initial* questions and suggestions about:

- 1) guaranteeing that **ALL** K to 2nd graders are taking the i-ready and that they are **ALL** included in the i-ready data that is reported in the LCAP**
- 2) monitoring reading outcome data by demographic groups**
- 3) setting goals for reading growth in the LCAP, not just for grade level reading. This is a more inclusive approach to promoting reading outcomes for all students.**

4) making sure that all actions have a disaggregated metric, a metric that takes into account the experience of students in more than one of our focal groups.

This would make sure that we set strong goals for those students who might not be gaining access to our targeted strategies and investments.

Example: setting metrics for English Language Learners with IEPs with actions related to English Language Learners in general

5) setting *general* goals for the number/percentage of parents/students completing the California Healthy Kids Survey (LCAP Goal 3)

6) *targeted* goals for parents/students completing the CA Healthy Kids Survey. We want a representative sample for our district. (LCAP Goal 3)

7) targeted goals related to the staffing and retention of Special Education teachers and support staff (LCAP Goals 2 and 4)

8) setting goals in our LCAP for different diploma pathways, not just A-G.

This supports the post-secondary outcomes of **all students.**

It also helps to make sure that we follow State laws and guidance related to high school diploma access for foster students and students with IEPs, among other student groups.

We also had many questions about the use and purpose of Equity Multiplier funding at the schools that are receiving it.

Key question: Since this funding is assigned to schools with high nonstability rates (where more than 25% of the students were enrolled in the school for less than 245 continuous days in the previous year, among other factors),

Shouldn't Equity Multiplier funding and services be mostly directed to serving the students experiencing nonstability?

**We are at the height of
LCAP season.**

We need everyone.

- **PSAC members studied the draft actions under each of the LCAP goals at a special study session on 4/30.**
- **We will review and adopt recommendations for the 2024-27 LCAP at our May 16th meeting.**

**Please note the change of date
for our May meeting.**

We will meet on Thursday 5/16 instead of our usual 3rd Wednesday because the OUSD Honoring Our Own event was scheduled on that day.

Meeting:**

Merger of Schools**

CAC Questions and Concerns

Special Programs:

This must include understanding the *special education programs* and *other disability supports* that are available at each school and that are providing greater access, accessibility, belonging, and positive outcomes for disabled students.

How do we know that disabled students and their peers would have a better experience at a new school? This includes access to ample and good classrooms and instructional space, and not collapsing Special Day classrooms and programs into bigger grade spans (example: a K-1 into a K-2 or K-3)

CAC Questions and Concerns

Condition of a School Facility:

Historically, certain schools have been underresourced and accessibility needs have not been addressed.

How do we address past discrimination in assigning resources to facilities?

CAC Questions and Concerns

Operating costs and associated savings from closures/mergers:

Accessibility and Special Education costs at schools are often segregated from the school's operating cost. How are those costs taken into account?

Are access and accessibility upgrades at receiving schools included in calculating the cost of closures/mergers?

Will OUSD account for any additional individualized services that might become necessary for students with IEPs who have negative impacts due to their structure of support being disrupted? (unique supports provided by the school, essential relationships, challenges in implementing an IEP at a new school and with a new team)

CAC Questions and Concerns

Environmental factors:

Does this include an assessment of safety?

Assessing safety must include taking stock of disability-specific safety needs (e.g. for students who elope) and must include students losing access to siblings and other trusted individuals at the school

CAC Questions and Concerns

Transportation

Transportation for disabled students with IEPs (which is their legal right) must not be used as an argument for closing a particular school or limiting school access for disabled students. This is discriminatory.

Feeder school attendance patterns

Historically, OUSD has not recognized the need for set feeder patterns for students who attend SDCs and similar programs. Classrooms have been moved around year after year, along with the students in them.

Siblings of students in SDCs must be recognized as also needing access to schools with set SDC feeder patterns. This keeps siblings together.

The Community Advisory Committee for Special Education meets on the 2nd Monday of every month. Our next meeting will be on Monday, May 13th.

We will:

- Hear updates related to Extended School Year, access for disabled students to graduation ceremonies and celebrations, and what to look forward to in 2024-25**
- adopt recommendations for the 2024-27 Local Plan for Special Education and related areas in the 2024-27 Local Control and Accountability Plan.**

Almost two thirds of foster youth suspension incidents were for foster youth with IEPs.

**Update on our
Actions to Support
Disabled Foster
Students with IEPs:
Focus on Suspensions**

A) Review Suspension Forms for All 2023-24 High School and 8th Grade Foster Youth with IEPs Who Have Been Suspended (8)

OBJECTIVES

We want to learn if:

- Pre-suspension interventions occurred**
- COST was convened to support the student**
- Foster Youth Services was notified and engaged**
- IEP-related needs were discussed and addressed**
- Members of the adult team were notified and engaged**
- Post-suspension restorative/re-entry process happened**

A) Review Suspension Forms for All 2023-24 High School Foster Youth with IEPs Who Have Been Suspended (8)

NEW: Add a comprehensive IEP review to complement the review of the suspension process for each student

NEXT STEPS—By the End of April

- 1) Identify all members of the *adult team* for suspended students
- 2) Identify supportive staff at school for each student
- 3) Identify Central Office leads to coordinate and support the review process (FYS, Attendance & Discipline, Special Ed, Community Schools)
- 4) Set dates to review the suspension process and IEPs for the impacted students at each school (Skyline, Castlemont, Fremont), preferably as dedicated COST Team meetings.

NEXT STEPS—By the End of May

- Hold all meetings to review the suspension process and the implementation of IEPs

- Related School Sites: 4 middle schools, 5 high schools

3) Offer an Education Advocate to caregivers of high school foster youth with IEPs (from the pool of Education Surrogates)

~28 students

This person can serve as an ally to help with:

- seeking information and resources**
- making connections**
- accelerating processes and responses**
- providing moral and other support within school and district situations**
- providing feedback for the actions of the Foster Youth Advisory and other advocates, etc.**

On 4/23, we also reviewed LCAP metrics and actions for foster students.

We will share our recommendations over email by May 16 and at the LCAP hearing.
