Infrastructure Improvement Project

California Schools Healthy Air, Plumbing and Efficiency (CalSHAPE)

Presented by Facilities Planning & Management

Presented to OUSD Facility Committee

August 21, 2024

www.ousd.org

@OUSDnews

Overview

Objective

- Present detailed project overview for CalSHAPE Project to Facilities Committee
- Establish a level of familiarity and understanding of the project, including Scope of Work, and project costs (*including all funding sources*)
- Address all questions and concerns by Facilities Committee

Desired Outcome

- Overall endorsement and support of project by Facilities Committee for key areas
- Recommendation by Facility Committee to request approval by Board of Directors to enter into a Project Implementation Agreement with Syserco Energy Solutions when it comes to Board in April for approval
- Establish a timeline for project approval that allows maximum amount of work to be completed in October 31, 2026

Background

In June 2021, District Staff engaged with Syserco Energy Solutions (SES) to proceed with detailed engineering and final project development for a comprehensive Energy Services Project. The purpose of this work is to develop a project that will make a District-wide impact, resulting in the following:

- Infrastructure improvements including HVAC, mechanical, plumbing, and refrigeration systems
- Minimally reduce ongoing utility costs
- Carbon dioxide monitoring in classrooms and learning spaces
- Future capital cost avoidance
- Leveraging outside funding sources, demonstrating fiscal responsibility

OUSD has been awarded \$10,540,995 in CalSHAPE Grant Funding

- Funding is allocated toward HVAC ventilation, air quality improvement, and water/plumbing improvements
- Grant-funded projects will provide a detailed assessment, minor repairs and qualify OUSD for future funding at 83 schools
- Up to \$186,000 in annual operational savings
- Projects and all reporting must be **completed** within (24) months of start date in order to utilize grant funding

Funding Sources

Multiple Funding Sources

CalSHAPE Grant Funding

\$10,540,995 awarded to District for HVAC ventilation and water/plumbing improvements

Measure Y Energy Efficiency

\$1.5M with additional Owner Contingency of \$1,204,096 for a total of \$13,245,094

Potential Environmental, Health, and Safety Impacts

OAKLAND UNIFIED
SCHOOL DISTRICT
Community Schools, Thriving Students

- Air quality assessment and improvements in classrooms and learning spaces
 - Improved HVAC ventilation
 - Monitoring of carbon-dioxide levels for classroom safety
- Upgraded refrigeration controls for improved temperature control and alerts in the event of failure of the “door-open” status

Project Financials

Total Project Cost (NTE)	\$13,245,094
<CalSHAPE Grant Funding>	\$10,540,995
Measure Y Energy Efficiency	\$1,704,096
Year 1 Utility & Operational Savings	~\$186,000 annually
NET 20-Year Savings to District	~\$3,720,000

* Based on the following annual escalations:

- Utility = 5.7%
- Water = 3%
- Natural Gas = 4.9%
- Operational = 3%

Project Timeline

Board Consideration of Project Approval	August 2024
Execute Contract / Begin Project Implementation	August 2024
Complete CalSHAPE Scope of Work	October 2026

Estimated Final Completion is October 2026
