Board Cover Memorandum

To Board of Education

From Kyla Johnson-Trammell, Superintendent
Jenine Lindsey, General Counsel
Kelly Krag-Arnold, Director, Office of Charter Schools

Meeting Date September 11, 2024

Subject Charter Renewal Initial Public Hearing – KIPP Bridge Academy

Ask of the Board Board members will have the opportunity to ask the lead charter petitioners questions following the presentation.

Background On March 8, 2017, the OUSD Board of Education voted to approve a five-year term for KIPP Bridge Academy. Due to the impacts of the COVID-19 pandemic, Education Code Section 47607.4 extended this term an additional three years, resulting in a charter term which currently expires on June 30, 2025.

On July 15, 2024, KIPP Bridge Academy submitted its renewal petition. KIPP Bridge Academy was placed in the Middle tier by the California Department of Education and is consequently eligible for a 5 year term beginning July 1, 2025.

As outlined in Education Code Section 47605(b), the Initial Public Hearing for KIPP Bridge Academy is taking place within 60 days of the renewal submission. Representatives from the school will present and the OUSD Board will have an opportunity to ask the lead charter petitioners questions following the presentation.

The OUSD Office of Charter Schools is conducting an evaluation of the renewal request and will prepare and post a Staff Report 15 days prior to the Decision Public Hearing, in accordance with California Education Code.

Discussion Board members will have the opportunity to ask the lead charter petitioners questions following the presentation.

Fiscal Impact No direct fiscal impact.

AFFIRMATIONS DECLARATIONS, AND ASSURANCES **and** **DECLARATION**

Affirmation of Conditions Described in Education Code Section 47605(e)

KIPP Bridge Academy (also referred to herein as the “KIPP Bridge” or the “Charter School”); will follow any and all federal, state, and local laws and regulations that apply to KIPP Bridge Academy, including but not limited to:

- ~~Shall~~ KIPP Bridge Academy shall meet all statewide standards and conduct the student assessments required, pursuant to Education Code Sections 60605 and 60851, and any other statewide standards authorized in statute, or student assessments applicable to students in non charter public schools. [Ref. Education Code Section 47605(e)(1)]
- ~~KIPP Bay Area Schools declares that it shall be~~ **nonsectarian** deemed the exclusive public school employer of the employees of KIPP Bridge Academy for purposes of the Educational Employment Relations Act. [Ref. Education Code Section 47605(b)(5)(O)]
- ~~KIPP Bridge Academy shall be non-sectarian~~ in its programs, **admission** enrollment policies, employment practices, and all other operations. **California** [Ref. Education Code (“Ed. Code”) ~~§~~ Section 47605(e)(1)d(6)]
- ~~Shall~~ KIPP Bridge Academy shall not charge tuition, **(including fees or other mandatory payments for attendance at Charter School or for participation in programs that are required for students except as authorized by those**. [Ref. Education Code **provisions that explicitly apply to charter schools**). (Ed. Code ~~§~~ Section 47605(e)(1))
- ~~Shall~~ KIPP Bridge Academy shall enroll all students who wish to attend KIPP Bridge Academy, and who submit a timely application; unless KIPP Bridge Academy receives a greater number of applications than there are spaces for students, in which case admission will be determined through a public random drawing process. Except as required by Education Code Section 47605(d)(2), admission to KIPP Bridge Academy shall not be determined according to the place of residence of the student or his or her parents within the State. Preference in the public random drawing shall be given as required by Education Code Section 47605(d)(2)(B). In the event of a drawing, the chartering authority shall make reasonable efforts to accommodate the growth of the Charter School in accordance with Education Code Section 47605(d)(2)(C). [Ref. Education Code Section 47605(d)(2)(A)-(C)]

- ~~KIPP Bridge Academy~~ shall not discriminate on the basis of the characteristics ~~included~~ listed in Education Code ~~section~~Section 220, ~~including but not limited to~~ (actual or ~~perceived~~ disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, ~~immigration status. (Ed. Code § 47605(e)(1))~~ or any other characteristic that is contained in the definition of hate crimes set forth in Section 422.55 of the Penal Code or association with an individual who has any of the aforementioned characteristics). [Ref. Education Code Section 47605(d)(1)]

1. Except for legally permissible admission preferences [as provided in Education Code section 47605(e)(2)], admission to Charter School shall not be determined according to the place of residence of the pupil, or of the pupil’s parent or legal guardian, within this state, except that an existing public school converting partially or entirely to a charter school shall adopt and maintain a policy giving admission preference to pupils who reside within the former attendance area of that public school. (Ed. Code § 47605(e)(1))

2. Shall admit all pupils who wish to attend Charter School. However, if the number of pupils who wish to attend Charter School exceeds its capacity, attendance, except for existing pupils of the charter school, shall be determined by a public random drawing. Preference shall be extended to pupils currently attending the charter school and pupils who reside in the Oakland Unified School District (“OUSD” or “District”) except as provided for in Education Code section 47614.5. Priority order for any preference shall be determined in the charter petition in accordance with all of the following: (Ed. Code § 47605(e)(2)(A)-(B))

a. Each type of preference shall be approved by OUSD at a public hearing. (Ed. Code § 47605(e)(2)(B)(i))

b. Preferences shall be consistent with federal law, the California Constitution, and Education Code section 200. (Ed. Code § 47605(e)(2)(B)(ii))

c. Preferences shall not result in limiting enrollment access for pupils with disabilities, academically low-achieving pupils, English learners, neglected or delinquent pupils, homeless pupils, or pupils who are economically disadvantaged, as determined by eligibility for any free or reduced-price meal program, foster youth, or pupils based on nationality, race, ethnicity, or sexual orientation. (Ed. Code § 47605(e)(2)(B)(iii))

d. Preferences shall not require mandatory parental volunteer hours as a criterion for admission or continued enrollment. (Ed. Code § 47605(e)(2)(B)(iv))

- ~~The Charter School shall adhere to all provisions of federal law related to students with disabilities including, but not limited to, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990 and the Individuals with Disabilities Education Improvement Act of 2004.~~
- ~~KIPP Bridge Academy shall provide to the Office of Charter Schools information regarding the proposed operation and potential effects of the school, including, but not limited to, the facilities to be used by the school, including where the school intends to locate, the manner in which administrative services will be provided, and potential civil liability effects, if any, upon the school and authorizing board.~~
- ~~KIPP Bridge Academy shall adhere to all applicable provisions of federal law relating to students who are English language learners, including Title VI of the Civil Rights Act of 1964; the Equal Educational Opportunities Act of 1974; MGL c. 76, § 5; and MGL c. 89, 71 § (f) and (I).~~
- ~~KIPP Bridge Academy shall meet all requirements for employment set forth in applicable provisions of law, including, but not limited to credentials, as necessary. [Ref. Title 5 California Code of Regulations Section 11967.5.1(f)(5)(C)]~~
- ~~KIPP Bridge Academy shall ensure that teachers in the Charter School hold a Commission on Teacher Credentialing certificate, permit, or other document equivalent to that which a teacher in other public schools is required to hold. As allowed by statute, flexibility will be given to noncore, non-college preparatory teachers. [Ref. California Education Code Section 47605(I)]~~
- ~~KIPP Bridge shall obtain, keep current, and make available for inspection all necessary teacher certifications, permits, or other documents as required under Education Code Section 47605(I).~~
- ~~KIPP Bridge Academy shall submit required enrollment data each March to the OUSD Office of Charter Schools by the required deadline.~~
- ~~KIPP Bridge Academy shall at all times maintain all necessary and appropriate insurance coverage.~~
- ~~KIPP Bridge Academy shall, for each fiscal year, offer at a minimum, the number of minutes of instruction per grade level as required by Education Code Section 47612.5(a)(1)(A) (D).~~
- If a pupil is expelled or leaves Charter School ~~KIPP Bridge Academy~~ without graduating or completing the school year for any reason, ~~the~~ Charter School shall notify the superintendent of the school district of the pupil's last known address within 30 days, and

shall, upon request, provide that school district with a copy of the cumulative record of the pupil, including report cards or a transcript of grades, or report card and health information. (Ed. Ref. Education Code ~~§Section~~ 47605(e)(3))

3. Shall not discourage a pupil from enrolling or seeking to enroll in the charter school for any reason, including, but not limited to, academic performance of the pupil or because the pupil exhibits any of the characteristics described in Education Code section 47605(e)(2)(B)(iii). (Ed. Code § 47605(e)(4)(A))

4. Shall not request a pupil's records or require a parent, guardian, or pupil to ~~KIPP Bridge Academy shall submit~~ the pupil's records to ~~an annual report and annual independent audits to the OUSD Office of Charter School~~ before enrollment. (Ed. Code § 47605(e)(4)(B))

5. Shall not encourage a pupil currently attending the charter school to disenroll from the charter school or transfer to another school for any reason, including, but not limited to, academic performance of the pupil or because the pupil exhibits any of the characteristics described in Education Code section 47605(e)(2)(B)(iii). (Ed. Code § 47605(e)(4)(C))

6. Shall post the California Department of Education's Charter School Complaint Notice on Charter School's website and Charter School shall provide a parent or guardian, or a pupil if the pupil is 18 years old, a copy of this notice at ~~Schools by all~~ of the following times: When a parent, guardian, or pupil inquires about enrollment; before conducting an enrollment lottery; and before disenrollment of a pupil. (Ed. Code § 47605(e)(4)(D))

Declaration Required by Education Code Sections 47611.5(b) and 47605(c)(6)

Charter School is and shall be deemed the exclusive public employer of the employees of Charter School for purposes of Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, and shall meet the requirements of Government Code sections 3540-3549.3 related to collective bargaining in public education employment (Ed. Code § 47611.5)

Other Assurances

Charter School:

- Shall meet all statewide standards and conduct the pupil assessments required pursuant to Education Code sections 60605 and 60851 and any other statewide standards authorized in statute or pupil assessments applicable to pupils in noncharter public schools. (Ed. Code § 47605(d)(1)) ~~deadlines.~~

- ~~Shall~~ KIPP Bridge Academy shall comply with the conditions of apportionment set forth in Education Code section 47612(b) that average daily attendance not be generated by a pupil who is not a California resident.
- ~~KIPP Bridge Academy shall maintain accurate and contemporaneous written records that document all pupil attendance and make these records available for audit and inspection. [Ref. Education Code Section 47612.5(a)(2)]~~
- ~~KIPP Bridge Academy shall, on a regular basis, consult with its parents and teachers regarding the Charter School's education programs. [Ref. Education Code Section 47605(e)]~~
- ~~KIPP Bridge Academy shall submit to the OUSD Office of Charter Schools the names, mailing addresses, and employment and educational histories of proposed new members of the Governing Board prior to their service.~~
- ~~KIPP Bridge Academy shall, in the event the Governing Board intends to procure substantially all educational services for the charter school through a contract with another person or entity, provide for approval of such contract by the Board of Education in advance of the beginning of the contract period.~~
- ~~KIPP Bridge Academy shall maintain separate accountings of all funds received and disbursed by the Charter School.~~
- ~~KIPP Bridge Academy shall~~ operate in compliance with generally accepted government accounting principles. (Ed. Code § 47605(c)(5)(I))

1. Shall at all times maintain all necessary and appropriate insurance coverage.

2. Shall be subject to conflict of interest and other laws pertaining to public officials, including Government Code section 1090 et seq. and the Political Reform Act. (Ed. Code § 47604.1(b)(3) and (4))

3. Shall require its teachers to hold a certificate, permit, or other document issued by the Commission on Teacher Credentialing (CTC) equivalent to that which a teacher in other public schools would be required to hold. (Ed. Code § 47605(I))

4. Shall not hire any person who has been convicted of a violent or serious felony except as otherwise provided by law, and, if the school contracts with an entity for specified services, verify that any employee of that entity who will have contact with students has had a criminal background check. (Ed. Code §§ 44830.1, 45122.1, and 45125.1)

5. Shall not discriminate against any employee or candidate for employment on the basis of the fact or perception of a person's race, religious creed, color, national origin, ancestry, physical disability,

mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, military and veteran status or any other protected classification, in accordance with applicable law, and shall meet all requirements for employment set forth in applicable provisions of law, including, but not limited to credentials, as necessary. (Government Code § 12940; Title 5 CCR §11967.5.1(f)(5))

6. Shall adhere to all applicable provisions of federal law relating to students with disabilities, including the Individuals with Disabilities Education Act; Section 504 of the Rehabilitation Act of 1974; and Title II of the Americans with Disabilities Act of 1990, and serve students with disabilities in the same manner as such students are served in other public schools. (Ed. Code §§ 47646, 56145)

7. Shall adhere to all applicable provisions of federal law relating to students who are English language learners, including Title VI of the Civil Rights Act of 1964; the Equal Educational Opportunities Act of 1974; MGL c. 76, section 5; and MGL c. 89, 71 sections (f) and (l).

8. Shall follow the provisions of the McKinney–Vento Homeless Assistance Act of 1987 (42 U.S.C. ch. 119 § 11431 *et seq.*) and Education Code sections 48850-48859 to ensure that homeless students and foster youth have access to the same free, appropriate public education, including public preschools, as provided to other children and youths.

9. Shall provide reasonable accommodations on campus to a lactating student to express breast milk, breastfeed an infant child, or address other needs related to breastfeeding. (Ed. Code § 222)

10. Shall provide students the right to exercise freedom of speech and of the press including, but not limited to, the use of bulletin boards; the distribution of printed materials or petitions; the wearing of buttons, badges, and other insignia; and the right of expression in official publications. (Ed. Code §§ 48907 and 48950)

11. Shall comply with all other applicable federal, state and local laws and regulations that pertain to the applicant or operation of the charter school, including, but not limited to, the following:

a. The California Code of Regulations

- ~~• The KIPP Bridge Academy will provide financial statements that include a proposed operational budget with anticipated revenues and expenditures necessary to operate the school, including special education; and cash flow and financial projections for three years of operation.~~
- ~~• KIPP Bridge Academy shall comply with any applicable jurisdictional limitations to locations of its facilities. [Ref. Education Code Sections 47605 and 47605.1]~~

- ~~KIPP Bridge will obtain, keep current, and make available for inspection all necessary permits, licenses, and certifications related to fire, health and safety.~~
- ~~KIPP Bridge Academy shall comply with all laws establishing the minimum and maximum age for public school enrollment. [Ref. Education Code Sections 47612(b) and 47610]~~
- ~~KIPP Bridge Academy shall comply with all applicable portions of the Elementary and Secondary Education Act (“ESEA”), as reauthorized and amended by the Every Student Succeeds Act (“ESEA”).~~
- ~~KIPP Bridge Academy shall comply with the Public Records Act.~~
- ~~KIPP Bridge Academy shall comply with the Family Educational Rights and Privacy Act (20 U.S.C. § 1232g; 34 CFR Part 99)-~~
 - b. ~~Title IX of the Education Amendments of 1972 (20 U.S.C. Sec. 1681 et seq.)~~
- ~~Displaying all~~ KIPP Bridge Academy shall comply with the Ralph M. Brown Act.
 - c. ~~KIPP Bridge Academy shall meet or exceed the legally required postings at school site and online~~
 - d. ~~Following the minimum and maximum age requirements for enrollment~~
- ~~Providing the minimum number of instructional minutes school days. [Ref. Title 5 California Code of Regulations Section 11960]~~

~~NOTE: Throughout this Charter there is specific “District Required Language” (DRL), including but not limited to the above Affirmations, Declarations, and Assurances section. All DRL should be highlighted in gray. To the extent that any inconsistency may exist between any provision contained within the body of the Charter and the DRL, the provisions of the DRL shall control.~~

- ~~KIPP Bridge Academy shall provide to the Office of Charter Schools a school code of conduct, Governing Board bylaws, an enrollment policy, and an approved certificate of building occupancy for each facility in use by the school, according to the schedule set by the Office of Charter Schools but in any event prior to the opening of the school.~~

KIPP Bridge Academy Renewal Petition [2025-2030](#)

92017 – 2022

INTRODUCTION

History of KIPP Bridge Academy

has been a part of the West Oakland community for over twenty years. KIPP Bridge ~~opened~~ ~~has been operating~~ in 2002 as a small autonomous middle school within ~~the~~ Oakland Unified School District since 2002 and was the very first KIPP school in California. ~~The school began as a small autonomous school within OUSD~~ and later became a public charter school. Since its inception, KIPP Bridge has provided a ~~joyful and academically excellent~~ ~~college preparatory~~ education to fifth through eighth ~~grade students~~ ~~(called scholars at KIPP Bridge)~~ ~~for over a decade~~. We are proud of our strong history of serving families from West Oakland ~~with a high quality public school option~~ and are grateful to ~~now~~ call the ~~historic~~ Lafayette campus our home.

During the fall of 2016, ~~KIPP Bridge~~ ~~we~~ expanded to ~~include additional~~ elementary grades ~~in response to family and community demand~~. In one year, KIPP Bridge nearly doubled in size ~~growing from 317~~ ~~now serve~~ students ~~in 5th-8th grades to serving 587 students in~~ ~~from~~ transitional ~~kindergarten (“TK”)-8th~~ ~~Kindergarten through eighth~~ grade. Our expanded school continues to focus on ~~academic excellence, fostering a sense of belonging, developing family and community partnerships, and maintaining~~ ~~attracting~~ dedicated teachers and staff.

~~At KIPP Bridge, we work with~~ ~~, holding high expectations for scholars, and developing both the academic knowledge and character strengths in our students to cultivate a growth mindset—the desire to learn from our challenges and grow as a result. We take this same approach not only on the individual level, but also as a school community. As a result, we have rebuilt our school community stronger than ever, with more support for our most historically marginalized student groups through our Designated English Language Development (“ELD”) curriculum, expanded and improved special education services, the expansion of our Multi-Tiered System of Student Supports (“MTSS”) and Tier 4 behavior intervention program to meet the needs of our most vulnerable students. This strength has helped us succeed with resilience through the pandemic and is evidenced by a large number of families, teachers, students, alumni, community groups, and civic leaders who support our request for our fifth 5-year charter term.~~

As a result of our targeted and intentional efforts to meet our students' and families' needs, KIPP Bridge students are benefitting inside and outside the classroom. They are outperforming that ~~will enable them to pursue~~ **their** peers on state assessments. By the time KIPP Bridge students graduate from 8th grade, they are achieving proficiency on state assessments at higher rates than when they entered. We are proud of the school KIPP Bridge is today—a school that celebrates the rich diversity of the West Oakland community, where students succeed academically and grow as students and as individuals.

Successes and Accomplishments of the Prior Charter Term

Academic & Non-Academic Successes and Accomplishments

- KIPP Bridge developed or expanded the number of programs to support whole-child development, including the Multi-Tiered System of Supports, integrated mental health services, Specialized Teaching Program for students with moderate to severe disabilities or learning needs, and Designated ELD program.
- By the time KIPP Bridge students graduate 8th grade, they achieve proficiency at higher rates on English Language Arts (“ELA”) and Math than when they entered.
- KIPP Bridge’s Black, Latinx, socioeconomically disadvantaged, and English Learner (“EL”) student groups outperformed their peers across the District and State on 2022 and 2023 ELA and Math Smarter Balance Assessment Consortium (“SBAC”).
- KIPP Bridge is committed to social-emotional learning, restorative practices, and individualized support to students according to their needs, which has translated into declining suspension rates and a positive school culture.
- KIPP Bridge has made substantial improvements in its student retention rates and suspension rates over the last three years. The Charter School decreased from a 10% suspension rate in the 2021-22 school year to a 1% rate in 2023-24, and increased retention rates from 79% retained in the 2021-22 school year to 93% in the 2023-24 school year.

dreams and reach their highest potential.

Our mission is for KIPP Bridge scholars to develop the mindsets, character, and skillsets to succeed in high school, college, and the competitive world beyond. As of 2014, 95% of students who completed eighth grade at KIPP Bridge have gone on to graduate from high school, 85% of these graduates have matriculated to college, and 64% are on track to graduate from college (compared to less than 10% of low-income students nationally, and 30% of the population overall¹). Our focus is on college because the data is clear that college completion will maximize the ability of our scholars to lead choice-filled lives.

It is with great excitement and respect that we submit this renewal of the KIPP Bridge Charter, to continue our partnership with the Oakland Unified School District in serving the students of West Oakland.

Support from KIPP Bay Area Schools and the national KIPP network

KIPP Bridge is part of KIPP Bay Area Schools, a nonprofit organization that operates 11 schools that serve over 4,600 students. These schools are located in Oakland, San Francisco, San Lorenzo, San Jose, and Redwood City.

Our Regional Support Office, based out of Oakland, provides oversight and support, including resources and expertise to support teaching and learning, as well as operations expertise to support finances, technology, human resources, and other back-office systems.

KIPP Bay Area Schools enables our school leaders to maintain “power to lead”, which provides them with the autonomy to manage performance and resources in their schools. This means that principals maintain significant autonomy in their management of staffing and budget decisions, while being encouraged to adapt research-based curricula and instructional materials. They also have the latitude to ensure cultural relevance to meet the needs of their communities.

KIPP Bay Area Schools is affiliated with the national KIPP network with over 20 years of experience, of over 200 schools, serving over 80,000 students in high-need communities across

¹Data published from 2014 U.S. Census Bureau, Current Population Survey, Educational Attainment

the country. All KIPP schools are open-enrollment public schools that accept all students, regardless of previous academic achievement, conduct, special needs, or socioeconomic background. Students from our communities face many obstacles, yet they choose to attend a KIPP school because they want a safe, caring, and challenging environment that will provide them with many educational opportunities and support them on the path to and through college.

The need for high quality elementary school options in West Oakland

We believe that parents should have both school choice and access to high quality neighborhood schools. However, because our charter expansion and revision was initially submitted in response to Oakland Unified School District’s 2015 Fall Call for Quality Schools, we feel compelled to include data that support the need for our continuing to provide a high quality elementary school options in West Oakland.

According to the 2015 Strategic Regional Analysis (SRA) conducted by the district, West Oakland is a region of significant environmental stress for students—the highest relative to all other regions of Oakland—and a place where significant opportunity remains to improve the quality of schools. West Oakland has a high rate of eligibility for free/reduced lunch (79%), and the average API score from neighborhood schools in the West region was 639, the lowest of any region within Oakland.

None of the district’s most in-demand schools in terms of number of first choice applications received are in the West region, and many of the schools with the least number of first choice applications are in this region. Only 44% of students² in the West region attend the school in their neighborhood attendance area.

In terms of school choice and charter presence, only 19 percent of students living in the West region are enrolled in a public charter school, also the lowest of all regions. Together, this combined data suggests that students in West Oakland could benefit from more high quality, neighborhood, public school options, so that they do not need to leave their community to access a strong public education. By expanding to elementary grades, we hope that a TK-8 KIPP Bridge will enable more West Oakland families to choose a high quality school in their community.

² 2014-2015 Oakland Unified School District, Strategic Regional Analysis

KIPP Bridge’s track record of success in West Oakland

KIPP Bridge has served students in West Oakland for the past 13 years. The school has successfully educated and supported students at high levels and was named a California Distinguished School in 2010. KIPP Bridge is the only school designated “blue” for academic outcomes in OUSD’s Strategic Regional Analysis of the West region³.

KIPP Bridge’s historical Academic Performance Index has significantly outperformed the State goal of 800, with an API of 905 in 2012–13, 900 in 2011–12, and 911 in 2010–11. In 2013, the last year of the California Standards Test, KIPP Bridge outperformed both the state of California and OUSD in every grade and subject.

Our students’ achievement levels are the result of significant growth and academic progress during their time as scholars at KIPP Bridge. Many of them are behind grade level upon their enrollment at KIPP. For example, in the fall of 2014, 53% of incoming fifth graders scored in the bottom quartile nationally on the norm-referenced Measures of Academic Progress (MAP) test; an additional 24% were in the third quartile. In reading, 65% of incoming fifth graders were in the bottom two quartiles nationally.

During the first year of the SBAC Common Core assessment, KIPP Bridge students demonstrated higher proficiency rates than the district neighborhood school average in each of fifth, sixth, seventh, and eighth grades in English and in sixth, seventh, and eighth grades in math.

We are excited to build on our track record of success with upper elementary and middle school to extend our educational program to West Oakland’s younger scholars.

KIPP Bridge school design and leadership team

KIPP Bridge’s current school leaders have successfully built a strong school culture that enables students to thrive. Our principals are leading a strong team of educators who are critical to the

³2014–2015 Oakland Unified School District, Strategic Regional Analysis

success of our TK-8 school. This team has deep expertise in elementary education, curriculum design, and familiarity with both KIPP and the West Oakland community. For roles, qualifications, and profiles of the leadership and design team of the school, please see Appendix 1.

In addition, our Regional Senior Management Team has deep expertise in urban education across the range of educational programming, development and fundraising, finance, talent recruitment and development, and leadership development. For information on the backgrounds of our Regional Senior Management Team, please see Appendix 2.

Parent engagement in KIPP Bridge expansion

We have a strong history of engaging families and community members in our school. For example, during the process of preparing for our elementary school, we held regular meetings, open to the community, to discuss the vision for the expansion of KIPP Bridge and how the KIPP elementary model can best be adapted for West Oakland. We have also met with numerous West Oakland residents, churches, and community organizations to engage in a dialogue about how KIPP might serve West Oakland's youngest scholars and to solicit feedback on our plans. Our decision to offer all elementary grades in the first year of expansion was a direct result of hearing from parents about their needs, demand for the school, and aspirations for their children.

One of the most powerful aspects of engaging with families and the community is that feedback from these key stakeholders continues to push us to evolve and grow in response to their input. The creative tensions that are part of this engagement process enable us to continue to iterate and improve as an organization, even at times when those changes may not be easy.

In order to deliberately serve the West Oakland community and be part of the overall strategy for elevating education outcomes for all West Oakland students, our charter renewal includes an enrollment preference in the lottery for students who reside in West Oakland.

Our commitment to collaboration with the West Oakland community and OUSD

KIPP Bridge Academy Renewal Petition [2025-2030](#)

We are committed to continuing our partnership with the Oakland Unified School District and community efforts to collaborate on behalf of students. More specifically, we participated in last year's West Oakland Principals Retreat to kick off the conversation about our proposed K-4 expansion and understand more deeply the role KIPP might play alongside other schools in the West Oakland revitalization work. In addition, KIPP continues to contribute to a variety of forums related to education initiatives in Oakland, including the Unified Enrollment Working Group, Community Forum on Attendance, the SRA Dialogue in West Oakland, and Community Meetings supporting the McClymonds High School redesign efforts. We adopted Collective Measureable Pupil Outcomes (MPOs) in collaboration with the Office of Charter Schools MPO process and are participating in the District's Special Education working group. Furthermore, we are committed to participating in emerging discussions of building a District Charter compact and look forward to playing a part in supporting its future success.

In addition, members of the Oakland Unified School District's leadership team have participated in the fourth cohort of the KIPP Leadership Design Fellowship, a professional development program designed for administrators of public school districts, charter school systems, and leadership training organizations to provide intensive training on KIPP's principal development model. As a result of KIPP's federal Investing in Innovation Grant, the KIPP Leadership Design Fellowship was launched 2012, at no cost to participants. It is a cohort based program tailored for school system administrators that provides intensive training on KIPP's principal development model, as a way to share best practices with districts. OUSD staff have participated in this program and brought best practices from KIPP's approach back to Oakland to inform their work with all schools. This is just one example of KIPP's desire to share our lessons learned in recruiting, selecting, training, and evaluating school leaders over the last decade. Please refer to Appendix 3, which contains more information about the KIPP Leadership Design Fellowship.

KIPP also shares best practices and emphasizes transparency of data by publishing an Annual Report Card outlining achievement and attainment data for each school in the KIPP network and publishing the KIPP College Completion Report (Appendix 38a and 38b). In

addition, there is a newly launched online resource called “Beyond KIPP”⁴, which is dedicated to sharing best practices and what we are learning. It makes the lesson plans, frameworks, and tools that are used within KIPP available to all educators, so that we can collectively work together in service of all students.

In order to collaborate and contribute to OUSD efforts to support all students, KIPP Bay Area Schools and KIPP Bridge have committed to the Quality Community Schools Commitments. More specifically, we have agreed to participate in the Unified Enrollment initiative, target recruitment of students with special needs, and share information with the District related to any student expulsion. Specific language related to these commitments is captured in Appendix 4.

At KIPP, we recognize that we have a part to play in the broader work of collaboration across schools, governmental agencies, community organizations, and families to elevate all Oakland students and the West Oakland community as a whole. Please reference Appendix 34 for alignment between this KIPP Bridge charter and the OUSD Quality Pillars.

Please see Appendix 41 for OUSD’s District Required Language.

⁴ <http://kipp.org/our-approach/beyond-kipp>

Charter Renewal Criteria

~~Evidence of Meeting Charter Renewal Standards Pursuant to the amendments made to Education Code Section 47607(b) and the creation of Education California Code of Regulations, Title 5, Section 47607.2, by Assembly Bill 1505 (2019), at 11966.4(a)(1)~~

~~Education Code Section 47607(b) requires that a charter school must meet at least one of the following renewal criteria prior to receiving a charter renewal:~~

- ~~(1) Attained its Academic Performance Index (API) growth target in the time prior year or in two of the last three years, both school wide and for all groups of pupils served by the charter renewal school.~~
- ~~(2) Ranked in deciles 4 to 10, inclusive, on the API in the prior year or in two of the last three years.~~
- ~~(3) Ranked in deciles 4 to 10 inclusive, in the API for a chartering authority shall consider the demographically comparable school in the prior year or in two of the last three years.~~
- ~~(4)(1) The entity that granted the charter determines that the academic performance of the charter school on the state and local indicators reported on the California School Dashboard (“Dashboard”), and, in some circumstances, the is at least equal to the academic performance of the charter school on assessments deemed to be verified data public schools that the charter school pupils would otherwise have been required to attend, as well as the academic performance of the schools in the school district in which the charter school is located, taking into account the composition of the pupil population that is served at the charter school.~~

In addition to the shift toward assessing Dashboard data, Assembly Bill 1505 also created a three-tiered system for evaluating charter schools’ performance based on Dashboard data and metrics as compared to the state average for all students and for subgroups. The California Department of Education (“CDE”) evaluates all charter schools and places them in renewal tracks annually and makes that report available to the public. Renewal tracks most recently came back online this year and the CDE released the performance category data file in March 2024. According to this file, KIPP Bridge Academy is in the middle-performing category for

renewal this year. We present evidence and data below to demonstrate that KIPP Bridge is meeting the renewal criteria for a five-year renewal.

Middle Performing Category Criteria

~~(5) Pursuant to Has qualified for an alternative accountability system pursuant to Education Code Section 52052(h).~~

~~The Charter School meets the criteria of Education Code Section 47607.2:~~

~~(1) The chartering authority shall consider the(b)(1) because it met its 2013 API growth target, schoolwide performance and performance of all subgroups of pupils served by the charter school on the state indicators included in the evaluation rubrics adopted pursuant to Section 52064.5 and the performance of the charter school on the local indicators included in the evaluation rubrics adopted pursuant to Section 52064.5and for all subgroups, achieving an API score of 905.~~

~~(2) The chartering authority shall provide greater weight to performance on measurements of academic performance in determining whether to grant a charter renewal.~~

~~(3) In addition to the state and local indicators, the chartering authority shall consider clear and convincing evidence showing either of the following:~~

~~(A) The school achieved measurable increases in academic achievement, as defined by at least one year's progress for each year in school.~~

~~(B) Strong postsecondary outcomes, as defined by college enrollment, persistence, and completion rates equal to similar peers.~~

~~(4) Subparagraphs (A) and (B) of paragraph (3) shall be demonstrated by verified data, as defined in subdivision (c).~~

Dashboard Academic Indicators: ELA, Math, English Learner Progress Indicator (“ELPI”)

The following section analyzes KIPP Bridge’s academic indicators on the Dashboard in comparison to Oakland Unified Charter School District and the State of California (“State”). We provide this comparison to demonstrate that while KIPP Bridge has room for improvement, we believe we are a vital public school option for Oakland families.

Below is a description of the data outlined in Tables 1 through 3. Note that in 2021, KIPP Bridge participated in optional SBAC administered remotely, which we’ve included below.

- ELA:
 - KIPP Bridge Academy's strongest outcomes in ELA are for our subgroups, specifically our Black, Latinx, and English Learners. During our entire charter term, we have outperformed OUSD in these subgroups, and for the past two years, the State as well. For example, in 2023, 41% meets the criteria of Bridge’s Latinx students were proficient, compared to 23% for OUSD and 36% for the State. We are proud that historically underperforming subgroups are reaching higher proficiency rates under our school model, and we are dedicated to continuing to increase these proficiency levels.
 - In overall performance, we saw a dip in 2021 during the pandemic but rebounded during the return to in-person in 2022. We saw a small decline in 2023 in overall performance from 39% to 35%, but rebounded in 2024 back to 39% proficient. We attribute the dip in 2023 primarily to staffing challenges, including a large cohort of first-time teachers, a new leadership team, and mid-year teacher vacancies. When looking at the data by grade-level, the largest dip in performance was in fourth grade. That year, all fourth graders either had a first-year teacher or experienced a mid-year vacancy. High-quality teachers are the cornerstone of student learning, and this data illustrates their impact. We are proud to share that since the 2021-22 school year, our staffing retention has improved. For the 2024-25 school year, approximately 94% of staff are returning. Additionally, in the 2022-23 school year, our overall Special Education (“SPED”) caseload increased and the number of students with moderate to severe disabilities grew from 3 to 5 students.
 - Post-pandemic, we have seen strong academic rebounds in our Latinx, Black, and Socioeconomically disadvantaged (“SED”) subgroups. These subgroups all experienced a

dip when tested during the pandemic in 2021, but all showed growth in 2022 and 2023, returning to pre-pandemic performance.

- In addition, we are seeing the highest proficiency rates in ELA over the last five administrations of SBAC for our Latinx (49%) and socioeconomically disadvantaged students (37%). We included our preliminary 2023-24 data, with no comparisons to the district and state currently available. Overall, we saw an increase in proficiency rates and for a majority of subgroups. In particular, our Latinx and EL subgroups had large increases in ELA proficiency, growing by 8% in proficiency.

Table 1: Academic Indicator: SBAC Proficiency ELA

● Math:

- Our math data also shows that our strongest comparisons are in our subgroup performance. In 2022 and 2023, KIPP Bridge outperformed the state and OUSD in Latinx, Black, and English-language learner performance. For example, in 2023, 23% of Black students at KIPP Bridge were proficient compared to 11% at OUSD and 17% across the state.
- Unlike in ELA, we saw a slight increase in all students proficiency by 1% from 2022 to 2023. Pre-pandemic, 26% of students were proficient in math (2019), during the pandemic, 18% of students were proficient (2021), and most recently, 25% (2023) are proficient. We are proud that post-pandemic, we are rebounding and achieving proficiency levels similar to pre-pandemic years.
- This upwards trend continued in 2023-24, with 27% of students proficient in math, outperforming our pre-pandemic proficiency rate of 26%. Nearly all subgroups experienced a post-pandemic rebound. For example, 24% of Black students were proficient in 2019, dipped to 17% mid-pandemic, and then increased to 18% in 2022, and 23% in 2023. This continued in our preliminary 2023-24 data, showing growth across subgroups. We are proud our subgroups are beginning to bounce back after the impacts of the pandemic, specifically our Latinx students which posted the highest proficiency rate in Math (32%) over the last five administrations of SBAC in 2024.

Table 2: Academic Indicator: SBAC Proficiency Math

● English Learner Progress Indicator:

○ KIPP Bridge is incredibly proud of the growth we have demonstrated for this subgroup. We went from 34.3% of students making progress toward English proficiency (very low category on the Dashboard) in 2019 to 68% of students making progress in 2022 (very high). This is higher than OUSD and the state and shows a 34 percentage point improvement. In 2023, our scores dipped, and 56.5% of students made progress. Due to the decline, we are categorized as orange on the dashboard, despite comparably outperforming OUSD and the State. We attribute the decline to an increase in our Yemeni population, which required expanding our ELD systems to address English Learners whose first language is Arabic. In addition, we realized we had a gap in staffing. The majority of English Learners were in grades TK-2, and ELD was most established in grades 3-4. In 2024, we added another ELD teacher to address this gap and ensure our earliest learners were getting additional support. We are committed to supporting our English-language learner community, and continuing to provide regular ELD instruction. Additional information on the ways we support our English-language learner community can be found under Element 1.

Table 3: Academic Indicator: ELPI⁵ Comparative Performance

Dashboard Non-Academic Indicators: Suspensions and Chronic Absenteeism

The two non-academic Dashboard indicators for KIPP Bridge are Suspension and Chronic Absenteeism.

KIPP Bridge has implemented several initiatives to improve school culture and build a sense of belonging and community. KIPP Bridge continues to improve upon its use of restorative practices, trauma-informed practices, and social and emotional learning. Key initiatives include the development of Tier 4 interventions to support KIPP Bridge’s most vulnerable students under its Multi-Tiered System of Support, and its Attend, Belong, and Grow initiative, which introduced new structures for supporting attendance.

Additionally, attendance has been a region-wide priority, and the school utilizes a variety of strategies including daily phone calls, attendance meetings, and instilling the importance of attendance across multiple formats including parent education workshops, regular family meetings with chronically absent students, Individualized Education Program (“IEP”) meetings, and positive incentives to celebrate excellent attendance. Additionally, in the 2022-23 school year, KIPP Bridge was awarded the Community School Grant by the State of California. With this additional funding, we hired a full-time Community & Collaborative Support Manager dedicated to providing wraparound support to families. This includes utilizing community resources to support families so their students are in school, every day.

These initiatives are directly related to our ability to lower chronic absenteeism and suspension rates. In 2023-24, chronic absenteeism rates decreased by 17.5% in just two years, with an overall rate of 39% chronically absent. We are incredibly proud to share that our suspension rates have also plummeted in recent years, with a suspension rate of 1% in 2023-24. This is a

⁵ The Dashboard did not include a progress indicator for English Learners in 2018. Therefore, data provided for this academic indicator begins in 2019.

9% decrease in just two years. We attribute this to the support we outlined earlier, as well as a School Leader transition at KIPP Bridge Upper (grades 5-8), where the majority of suspensions come from in middle school. We are proud of these improvements and will continue to work to ensure students are in school and supported.

SBAC Cohort Data

Tables 4 and 5 show the SBAC proficiency rates for students based on their tenure at KIPP Bridge. The first row of data shows proficiency for students who are in their first year at KIPP Bridge, and the second row shows proficiency for students who are in their second or more year at KIPP Bridge. For example, in ELA in 2022-23, out of students who were in their first year at KIPP Bridge Academy, 31% of those students were proficient in ELA, while 36% of students who had been there for two or more years were proficient. Despite one year of outlier data (2021-22-math), the data demonstrates that the longer a student is at KIPP Bridge Academy, the higher percentage of proficiency that group has, when compared to students who have only been at the school for one year. This has remained true before, throughout, and after the pandemic.

Table 4: SBAC Proficiency ELA Based on Student Tenure

Table 5: SBAC Proficiency Math Based on Student Tenure

Verified Data Overview

Verified Data Sources: Below we outline clear evidence demonstrating measurable increases in student academic achievement through the following verified data sources: mCLASS by Amplify (“DIBELS”) and CORE Collaborative (“CORE”) (a methodology for analyzing CAASPP data).

Verified Data Headlines:

- KIPP Bridge’s DIBELS data demonstrates that, on average, a majority of KIPP Bridge kindergarten through 4th graders make average, above average, or well above average growth on reading in one year.

- The CORE data growth metric and index levels show that, when comparing KIPP Bridge students with their academic peers across California in similar subgroups, middle schoolers in 6th through 8th grades make well above average growth.

Verified Data Deep-Dive

Verified data is defined in statute as “data derived from nationally recognized, valid, peer-reviewed, and reliable sources that are externally produced.” (Education Code Section 47607.2(c)(1).) In November 2020, the California State Board of Education (“SBE”) approved the criteria to define “verified data” and the list of valid and reliable assessments and measures of postsecondary outcomes as required by Education Code Section 47607.2, which was further updated in May 2023. From the SBE-approved list of reliable assessments, KIPP Bridge currently participates in mCLASS by Amplify. Additionally, the SBE adopted under their Data Use Procedures that methodologies for analyzing California Assessment of Student Performance and Progress (“CAASPP”) data, including CORE Student Growth Percentiles, can be used to supplement dashboard results if mutually agreed upon by the charter and chartering authority. Thus, we have included CORE Student Growth Percentiles for consideration. (b)(2) because it achieved a 2013 statewide rank of 9 on the API.

mCLASS by Amplify Data Analysis

In the 2022-23 school year, KIPP Bridge began administering DIBELS to assess early literacy development in our kindergarten through 4th grade students. To bolster our early literacy practices post-pandemic, KIPP Public Schools Northern California partnered with Lit⁶ to consult and provide training and implementation support around early literacy. All of our TK-4th grade teachers and instructional aides engaged in Language Essentials for Teachers of Reading and Spelling (“LETRS”) training⁷ to build their content knowledge about the science of reading and have been implementing Core Knowledge Language Arts (“CKLA”), also known as the Science of Reading curriculum, which includes Foundations, Heggerty, and Geodes curriculum for explicit phonics instruction, and transitioned to DIBELS for progress monitoring. Additionally, KIPP Bridge uses small group instruction to ensure students of all reading levels are provided targeted instruction. For those that are identified as reading below grade level, or making below average growth, the school provides interventions. For example, roughly 30-

⁶ Lit is an Early Literacy consulting group.

⁷ Information on Language Essentials for Teachers of Reading and Spelling training can be found here.

40 students in grades K-4 identified as Tier 2 or 3 and therefore received an additional 15 minutes of daily phonics instruction. If one of those Tier 2 or 3 students also participates in our after-school program, they are pulled for additional reading support during the afternoon.

DIBELS has five growth metric levels (well below average, below average, average, above average, and well above average growth), and four performance levels (well below benchmark, below benchmark, at benchmark, and above benchmark). We administer DIBELS three times a year at the Beginning of Year (“BOY”), Middle of Year (“MOY”), and End of Year (“EOY”).

See the below figures for a snapshot of the data looking at the growth metric.

In the 2022-23 school year, based on the Beginning of Year to End of Year growth metric, 55% of the school made average, above average, or well above average growth (shown in Figure 1). Looking at the breakdown by grade, 78% of kindergarten students, 31% of grade 1, 54% of grade 2, 41% of grade 3, and 65% of grade 4 made at least average growth, if not above or well above average. While kindergarten students are showing incredible growth across the year, our older students, who were entering elementary school during the pandemic are needing additional support.

In the 2023-24 school year, 75% of students in grade K-4 made average, above average, or well above average growth from BOY to EOY. We attribute this increased growth to a shift in the Science of Reading Curriculum and Tier 2 literacy interventions during small group reading.

Figure 1: ~~The Charter~~ School Year (“SY”) 2022-23 DIBELS Growth Metric: Whole-School

Composite Growth Bands By Grade

CORE Data Collaborative Data Analysis

The CORE Data Collaborative is a data analysis tool that looks at SBAC scores for students across California. CORE established a growth metric that analyzes aggregate data from a third of all California’s public school students. The CORE growth model measures how students progress in their learning from one year to the next by comparing each students' actual achievement to those in their peer group. The peer group is determined by the students' prior achievement, their demographics and the average prior achievement and demographics of students in their school. Using a students' peer group, CORE data assesses if a student did better than, about as well as or worse than their peers. That information is then aggregated across students by grade level or school to determine who is having the strongest and the weakest impact on student learning.

The CORE growth model reports two growth metrics: a growth percentile and an index level. The growth percentile is based on a 0 to 100 scale ranging from “below average” to “above average” growth. The index level is based on a 1-10 scale, with 10 being the highest performing. The index level represents how far schools have grown student achievement relative to schools serving similar students.

Tables 7, 8, and 9 below report growth percentile and index level for grades 4th through 8th individually, and for elementary school (“ES”) overall (4th/5th) and middle school (“MS”) overall (6th/7th/8th).

CORE Growth Percentile and Index Levels Summary

- ELA:
 - A majority of KIPP Bridge students show above average, or well above average growth compared to their peers. In 5th, 6th, and 7th grade, students show above a 90% growth metric, demonstrating these cohorts of students are making above well above average growth.
 - We see a slight dip in 8th grade, with a growth metric of 60%, however, this is still categorized as slightly above average growth.
 - We see the least amount of growth happening in 4th grade, a stark contrast to the other

grades. We attribute this outcome to the lasting impacts of the pandemic and distance learning, exacerbated by high staff turnover, inexperienced teachers and multiple staff vacancies throughout the year. We discussed these vacancies earlier in the petition in detail. We see the same outcomes here due to the staffing challenges in 4th grade in the 2022-23 school year.

- o The broad trends in overall performance are reflected in subgroup data, with Latinx, Black, ELs, SpED, and Socioeconomically Disadvantaged students showing above average growth in most grades.
- o Index levels paint a similar picture as the growth percentiles, with the ES having a “6/10” and the MS a “10/10” in ELA growth.
- o Despite the challenges in 4th grade, we believe KIPP Bridge’s CORE data illustrates that incredible growth is happening in the majority of our testing grades (5th-8th), when compared to similar peer groups across California. We are confident that with KIPP Bridge’s continued investment in research-backed curriculum, hiring and retaining high-quality teachers, implementing comprehensive support and targeted intervention for all students, we will continue to see above average growth in all grades, and will see significant gains in 4th grade.

Table 7: CORE Growth Percentile: 2021-22 to 2022-23 ELA

● Math:

- o Our math data shows similar growth trends to ELA, with a majority of grades showing well above average growth (>90%). We similarly see below average growth in 4th grade, and attribute this to the same reasons mentioned above.
- o The broad trends in overall performance are reflected in subgroup data, with Latinx, Black, ELs, SpED, and Socioeconomically Disadvantaged students showing above average growth in most grades.
- o Index levels paint a similar picture as the growth percentiles, with the ES having a “7/10” and the MS a “10/10” in Math growth.

Table 8: CORE Growth Percentile: 2021-22 to 2022-23 Math

- Chronic Absenteeism:
 - We received an index level of “1/10” on chronic absenteeism. We noted earlier that we have continued to have a steep decline in the school’s chronic absenteeism raw data, and for the 2023-24 school year declined by an additional 9% from 2022-23. We are confident that if we were able to see the data analysis for growth from 2022-23 to 2023-24, we would see higher numbers. In the Dashboard section outlined above, we outline the many interventions we are utilizing to decrease this rate.
- Suspension Rates:
 - We received an index level of “10/10” on suspensions, reflecting the incredible growth the school has made in this area. We are proud of this metric, and detail our interventions above in the Dashboard Indicator section.

Table 9: CORE Index Levels: School Years 2021-22 to 2022-23

In conclusion, KIPP Bridge meets the renewal criteria under a middle track school based on the schoolwide and subgroup performance on the state indicators referenced above. In addition, KIPP Bridge has declining chronic absenteeism and suspension rates, and high staff retention. As demonstrated in DIBELS, our youngest students are getting the support they need to be strong readers. Through CORE, our middle school students are achieving well above average growth compared to their peers across the State. KIPP Bridge looks forward to the opportunity to continue our work and build on our past successes and lessons to meet our mission. We deeply appreciate our over twenty year history of partnership and trust with parents, the community, and the Oakland Unified School District leadership and Board, and we look forward to the shared work ahead. ~~of Education Code Section 47607(b)(3) because it achieved a 2013 statewide rank of 9 on the API.~~

ELEMENT 1 – Educational ProgramA: DESCRIPTION OF THE EDUCATIONAL PROGRAM

~~“The Governing Law: A description of the educational program of the charter school, designed, among other things, to identify those whom the charter school is attempting to educate, what it means to be an “educated person” in the 21st century, and how learning best occurs. The goals identified in that program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners.” – Ed. – Education Code §Section 47605(cb)(5)(A)(i).~~

~~“Governing Law: The annual goals for the charter school for all pupils and for each subgroup of pupils identified pursuant to Section 52052, to be achieved in the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, *or the nature of the program operated, by the charter school,* and specific annual actions to achieve those goals. A charter petition may identify additional school priorities, the goals for the school priorities, and the specific annual actions to achieve those goals.” – Ed. – Education Code §Section 47605(cb)(5)(A)(ii).~~

1.Mission, Values, School Structure, and KIPP’s Five Pillars

Mission

~~KIPP Bridge Academy shares the mission of KIPP Bay Area Schools: *to operate high achieving public schools in educationally underserved communities, developing in our scholars the knowledge, skills, and character essential to thrive in college, shape their futures, and positively impact the world.* Our aim is to develop poised, confident, articulate citizens who will use their education and life experiences to create positive change in their own lives, within their communities, and in our global society. KIPP Bridge partners with teachers, parents, community members, and the Oakland Unified School District to accomplish our mission and to impart upon our scholars the KIPP motto: *Work Hard. Be Nice.*~~

~~As a TK-8 school, the pursuit of knowledge and success will begin in the earliest grades. We believe in creating a legacy where all scholars will have access to an equitable and high quality education at their neighborhood school that leads to choice filled lives. A deeply committed and~~

KIPP Bridge Academy Renewal Petition [2025-2030](#)

highly motivated staff, in partnership with parents and community, will encourage each scholar to achieve their full potential. The school will place a strong emphasis on a college preparatory academic program and on character development and social emotional learning. We aim to transform and empower our scholars to be fair, have humanity, and be respectful in order to build strong relationships with each other and to build a community that is unified. We stand as *One Team, One Family and One Voice*.

KIPP Bridge Values

The scholars of KIPP Bridge will embody the values of Transform, Respect, Unify, Empower (“**TRUE**”) and the character traits of Bravery, Zest, Gratitude, Social Intelligence, Fairness, Teamwork, Grit, and Love of Learning.

These personal attributes will lead to KIPP Bridge scholars’ ability to self-advocate and repair harm to their communities independently. Our aim is that KIPP Bridge scholars will have the tools to not only advocate for themselves, but for others who have been silenced or forgotten.

“**TRUE**” represents the values KIPP Bridge commits to every day. We want our scholars “to be the change you wish to see in the world.” The values at KIPP Bridge come to life due to many systems and structures at the school. First and foremost, values and character traits develop when the school’s approach to instruction allows children to experience the values and character traits in action. Scholars experience learning activities that create the conditions to persevere, ask questions, show enthusiasm, build relationships, and reflect on who they are.

Beyond that, each month the school will introduce and focus on the value of the month and the two corresponding character traits. Through whole school “Team and Family” celebrations, the leadership team teaches the key components of that value, creates a whole school learning experience, and builds a common language around the values that can be heard and seen every day. In classrooms, scholars will have morning and afternoon Community Circles to infuse value and character instruction into the school. Teachers also create opportunities in class for the team to use the values language while giving one another affirming feedback through shout outs and gratitude.

Each value is linked with a motto or a motivational quote that will reinforce high expectations in academics and develop character excellence that leads to transformative leaders.

Transform: We are driven by the purpose to transform our scholars to thrive in college, shape their futures, and positively impact the world. We have identified three areas of focus for our scholars to be transformative change agents:

- **DOING** (the specific skills and methods for creating change)
- **SEEING** (the ability to make sense of, and reshape perceptions of ‘reality’—scholars see a higher self and recognize their abilities to gain self-control and self-determination)
- **BEING** (personal characteristics and qualities—scholars see themselves as role models; they show bravery and are optimistic and inspire hope for the future).

Respect: We recognize our scholars will encounter many obstacles on their journey to and through college; therefore, we will build a solid foundation of character traits with respect as the driving force. We believe the KIPP Bridge value of respect is the foundational virtue for our character traits of social intelligence, fairness, and gratitude. Social intelligence is the ability for scholars to work well with others, be respectful of people’s differences, and realize there’s a time and place for everything. Fairness will be practiced in all we do as a school. Lastly, we expect our scholars to show gratitude and be thankful not just for the big things, but for the little things in life, as well. We will explain how to show gratitude in a number of ways; a hug, thank you card, surprise others with kindness, etc.⁸

Unify: KIPP Bridge believes that, in order to achieve success and actualize our vision, we must be unified. Our staff must be committed to working together for one cause—the children. Strength comes from being of one mind, power exudes from strength, and, together, we can achieve any goal. Our scholars will understand that when there is teamwork and collaboration, wonderful things can be achieved. We stand unified as one team, one family, and one voice, and we will treat everyone accordingly.

⁸<http://changingminds.org/explanations/needs/fairness.htm>

Empower: We will empower our scholars to approach learning with a motivated and confident mindset, displaying true grit and ready to tackle any task. We will teach them the importance of having a voice, the benefits of speaking the truth, how it is necessary to engage in classroom debates, and to always stand up for what is right and take action for one’s beliefs. They will be empowered to self-advocate for their own learning and recognize the impact their schooling can have on themselves. Beyond the classroom, we will empower our scholars to use their voice in their community to make a difference. Our scholars will feel empowered when they realize they have choices and, with choices, come opportunities.

As the values above are cultivated through a child’s experience at KIPP Bridge, we will watch them grow from young children to young scholars. Through the various structures—morning meetings, Team and Family meetings, character reports, academic report cards and dual-purpose lessons that build these values within every child, the children at KIPP Bridge will grow into well-rounded, motivated, and socially-conscious adults.

TK-8 School Structure

Studies have shown that students in grades 6-8 that attend K-8 schools experience social-emotional and other potential benefits compared to their same grade peers in separate middle schools⁹. The TK-8 structure can also be an asset for families, ensuring continuity of education, culture, and community for their scholars from elementary through middle school. The TK-8 model ensures that parents have a seat in the school for nine years instead of having to re-apply after fourth or fifth grade. Additionally, in cases where families have multiple children, they will be able to have their siblings attend the same school for years.

A TK-8 structure gives the school the opportunity to build community among the older and younger scholars and provides a structured system for the older students to be role models.

⁹Gordon, M, et. al “Review of Literature on Grade Configuration and School Transitions.” March 2011. <http://goo.gl/mDzo2e>
Byrnes, V. and A. Ruby (2007). “Comparing Achievement between K-8 and Middle Schools: A Large-Scale Empirical Study.” American Journal of Education, 114(1): 101-135.
Weiss, C. C. and L. Kipnes (2006). “Reexamining Middle School Effects: A Comparison of Middle Grades Students in Middle Schools and K-8 schools. American Journal of Education, 112(2): 239-272.

For example, as scholars get older, they will have a more opportunities for tutoring, assisting teachers, leading whole school community meetings, and much more.

As a staff, KIPP Bridge teachers and leaders are able to collaborate to build a TK-8 vertically aligned curriculum. Through content teams, professional development, and curriculum planning sessions throughout each year, the curriculum will intentionally grow from one year to the next as scholars prepare for a rigorous high school and, later, college experience. The social emotional learning will also be thoughtfully planned across grade levels so that all children develop the social skills needed to reach their full potential.

KIPP's Five Pillars

The culture of KIPP Bridge Academy is also built upon the founding principles of the Knowledge is Power Program (KIPP) and the original two KIPP public charter schools, KIPP Academy in Houston and KIPP Academy in the Bronx. KIPP schools make no excuses for their performance based on race, gender, socioeconomic status or disability, and have achieved great success by focusing upon its five founding principles:

- **High Expectations.** KIPP has explicitly defined high expectations for academic achievement and conduct that make no excuses based on the background of our students. We expect every student to possess core habits of mind and character and believe that all students deserve access to a college preparatory academic program.
- **Choice & Commitment.** Students, their parents, and the faculty of KIPP schools are part of the school by choice. By making the choice and commitment to be part of the school community; students, parents, and staff at KIPP play an integral role in the school's success.
- **More Time.** KIPP schools know that there are no shortcuts when it comes to success in academics and life. KIPP students have more time in the classroom to acquire the academic knowledge and skills that will prepare them for competitive high schools and colleges, as well as more opportunities to engage in diverse extracurricular experiences.
- **Power to Lead.** The principals of KIPP schools are effective academic and organizational leaders who understand that great schools require great school leaders.

They have control over their school budget and personnel, allowing them maximum effectiveness in helping students learn.

- **Focus on Results.** KIPP schools focus on results. Our goal is for 100% of our students to gain admittance to college or university and mature into passionate, compassionate, and relentless achievers as they make their way to and through college and toward choice-filled careers and lives.

H. Target Population

The Students We Seek to Serve

We believe that the mission, vision, and values of KIPP Bay Area Schools and KIPP Bridge are aligned to the needs of students and families in the West Oakland region.

We are proud to be located in West Oakland and to be in a position to make a positive impact. West Oakland was once a thriving African American community with a rich legacy of cultural history in music, arts, and entertainment. West Oakland was the home of the Black Panthers who fought for social justice and laid the foundation for the free breakfast program: "*Children cannot reach their full academic potential if they have empty stomachs.*" The West Oakland community has faced great obstacles, but we are inspired by our community's rich history and legacy of advocacy and hopeful about the potential for West Oakland to thrive.

There are deep challenges facing students and families in West Oakland. The Strategic Regional Analysis published by OUSD ranked different environmental stressors that impact all OUSD schools. The environmental stress factors that were taken into consideration were violent crime, fresh food access, income, unemployment, student asthma/air quality, liquor stores, and residential vacancy. On a scale of 1 to 5, 1 being least stressed and 5 being most stressed, the schools in West Oakland scored an average of 4.47¹⁰. In the midst of these environmental challenges, West Oakland students face a shortage of high quality elementary options. Only two of the 19 schools in the West region are "green" schools (Berkley Maynard, NOCCS) and only one is a "blue" school (KIPP Bridge). The modal school in the region is red (six of the 19 schools)⁶.

At the same time, more resources are being dedicated to West Oakland schools. OUSD leadership has declared the West Oakland area as a STEM corridor and has dedicated additional resources towards technology in the classroom. McClymonds High School in West Oakland is undergoing a redesign and has received additional resources to do so, including a \$2.5 million grant from Intel to developed career pathways in STEM. West Oakland is a resilient community with a number of initiatives geared toward providing adequate and fair resources to close the

¹⁰ 2014-2015 Oakland Unified School District, Strategic Regional Analysis

achievement gap and put students on the path to college. As a part of this community, KIPP Bridge seeks to be part of its revitalization.

KIPP strongly believes in developing long-lasting community ties in West Oakland. Though KIPP Bridge has been located in West Oakland for 12 years, we understand that there remain opportunities to engage even more deeply with the community. To that end, the KIPP Community and Family Engagement team has been learning from families, community organizations, and prominent community members for the past year. KIPP's community outreach goals are to better understand the needs of families, students, and the West Oakland community. Additionally, KIPP's goal is to understand the unique history of West Oakland and to learn more about the many perspectives represented in the community, so that our work can continue to evolve and improve. For a description of our community engagement efforts to date and our continued plan, please see Appendix 5.

KIPP Bridge already serves students in the West Oakland community, and seeks to continue to do so to an even greater extent. Currently, approximately 71% of current KIPP Bridge's student body is eligible for a free or reduced-price lunch, 97% are students of color (68% African American, 22% Latino, 5% Asian, and 2% American Indian), 11% are English Learners, and 7% have an Individualized Education Plan (IEP). The incoming fifth grade class at KIPP Bridge is 17% English Learners compared to 4% of eighth graders, due to re-designation as students achieve proficiency in English. In comparison, 19% of students in West Oakland schools are English Learners and 79% qualify for free/reduced lunch.¹¹ Figure 2 shows a more detailed analysis of the comparison of KIPP Bridge with other schools in the West Oakland region:

Vincent Academy	24%	90%

~~As a non-selective public school, KIPP Bridge Academy will be tuition free and will enroll any student, regardless of ethnic, socioeconomic or religious background or upon any of the characteristics listed in Education Code Section 220.~~

~~**Vision for serving West Oakland students**~~

~~We have spoken with many families in West Oakland and have learned of parents’ desire to have additional high quality elementary school options located in and designed for their community.~~

~~Appendix 6 shows an analysis of the signatures of parents and guardians who are meaningfully interested in sending their students to KIPP Bridge in transitional kindergarten through fourth grade, representing 260 students in total. The Community and Family Engagement team collected these signatures from both existing KIPP Bridge Families, as well as through broad outreach throughout West Oakland, with no specific, intentional focus~~

¹³ The incoming 5th grade class at KIPP Bridge is 17% English Learners compared to 4% of 8th graders, due to re-designation as students achieve proficiency in English.

on any one area within West Oakland. While a significant number of signers did not specify which schools their student is currently attending (or would attend, in the case of TK), we do know that the majority of families who signed live in West Oakland (68% of students) and a significant portion have students currently attending elementary school within West Oakland (40% of students):

- Martin Luther King Elementary: 57 students, 22% of total
- Lafayette Elementary: 20 students, 8% of total
- Prescott Elementary: 23 students, 9% of total
- Hoover Elementary: 2 students, 1% of total
- All other signatures showing West Oakland residence without indication of elementary school: 74 students, 28% of total

We acknowledge that based on these signatures alone, the opening of elementary grades at KIPP Bridge will likely impact attendance at other elementary schools in West Oakland and, to a lesser extent, elsewhere in Oakland. KIPP Bridge hopes to serve students who are representative of the broader West Oakland community, to bring students who live in West Oakland but who travel outside of their community for school, back to attending school in West Oakland, and to play a part in revitalizing education outcomes for all students in West Oakland.

To realize this vision of engagement, we are pursuing the following strategies:

- To further emphasize our commitment to serving West Oakland families and a student population that closely mirrors the demographics of West Oakland, we have included in our enrollment policies preference for students who reside within West Oakland, followed by preference for students who qualify for free and reduced priced meals. We will adopt geographic boundaries for West Oakland as defined by the District in the Fall Call for Quality Schools¹⁴. For details on our enrollment policies and procedures, please see Element H.
- At the same time, we plan to partner closely with both the District and with community partners to recruit broadly and engage a wide group of parents. To this

¹⁴The Fall Call for Quality Schools guidelines define West Oakland as District 3, west of the 980 freeway.

end, we commit to working with the District in the design and implementation of the Universal Enrollment system with the goal of more comprehensively sharing enrollment information with families and making it easier for families to choose the best school for their needs.

- We have also engaged in broad community outreach to reach a wide spectrum of West Oakland families and are building relationships with community organizations and leaders who serve families in West Oakland. To date, we have met with and engaged in partnership with organizations including Oakland Parks and Recreation Centers, the West Oakland Boys and Girls Club, early childhood learning centers, and others. For details on our ongoing and planned efforts to achieve ethnic and racial balance, please see Element G. For details on our community engagement and recruitment efforts, please see Appendix 5.
- In addition to actively recruiting within the West Oakland region, we welcome the opportunity to serve the diversity of students throughout Oakland. To this end, we have also included a lottery preference for students residing within the boundaries of the Oakland Unified School District.

KIPP Bridge Track Record of Success

We are committed to building a school community that is reflective of the diversity of West Oakland. We draw confidence from our track record of serving students such that we can continue to provide an excellent quality education option for even more elementary students in West Oakland. The following is a selection of data representing the academic achievements of KIPP Bridge students.

Results on the California Assessment of Student Performance and Progress

The California Assessment of Student Performance and Progress (CASPP) replaced the Standardized Testing and Reporting (STAR) system. The chart below shows the English language arts and mathematics results for all schools in the West region, as defined by OUSD's Strategic Regional Analysis.

Figure 3: 2014 – 2015 SBAC results for all West Oakland Schools¹⁵

Additionally, KIPP Bridge students outperformed overall California State averages in ELA and Math across all subgroups (Figure 4).

Results on the California Standards Test and Academic Performance Index

The previous California Standards Test measured how well students had learned a set of academic skills established by the state. The CST was a criterion-referenced test that showed how well KIPP Bridge performed in a given year on mastery of state standards as compared with district and state averages. In 2013, the last year in which the CST was administered, KIPP Bridge outperformed the state and district averages in every grade offered at the school. In addition, KIPP Bridge outperformed neighborhood elementary and middle schools in all grade levels and subjects. Please refer to Appendix 7 for more detail.

The Academic Performance Index (API) score for KIPP Bridge Charter School in 2013 was 905, well above the state's goal of 800. Based on the API score, KIPP Bridge ranked in the top ten percent of all California public schools, regardless of student demographics.

¹⁶ Not enough students tested

¹⁷ Not enough students tested

Figure 5: KIPP Bridge Charter School’s Historical API Scores

Year	API Score
2012-2013	905
2011-2012	900
2010-2011	911

“If the proposed charter school will serve high school pupils, the manner in which the charter school will inform parents about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable and courses approved by the University of California or the California State University as creditable under the “A to G” admissions criteria may be considered to meet college entrance requirements.” – Ed. Code § 47605(c)(5)(A)(iii)

Local Control Accountability Plan (LCAP)

Charter School shall annually submit a Local Control and Accountability Plan (LCAP)/annual update to the Office of Charter Schools on or before July 1, in accordance with Education Code section 47604.33. In accordance with Education Code section 47606.5, Charter School shall annually update its goals and annual actions to achieve those goals identified in the charter pursuant to Education Code section 47605(c)(5)(A)(ii), using the Local Control and Accountability Plan template adopted by the State Board of Education, as it may be changed from time to time, including but not limited to the following:

- A review of the progress towards the goals included in the charter, an assessment of the effectiveness of specific actions toward achieving those goals, and a description of the changes to the specific actions the charter school will make as a result of the review and assessment.
- Listing and description of the expenditures for the fiscal year in implementing the specific actions included in the charter as a result of the reviews and assessments, classified using the California School Accounting Manual.
- To the extent practicable, data shall be reported in a manner consistent with how information is reported on the California School Dashboard.

Charter School shall comply with all other requirements of Education Code section 47606.5, including but not limited to the requirement that Charter School 'shall consult with teachers, principals, administrators, other school personnel, parents, and pupils in developing the local control and accountability plan and annual update (Ed. Code § 47606.5(d)).

Western Association of Schools and Colleges (WASC) Accreditation

If Charter School serves students in grades 9-12, Charter School shall obtain Western Association of Schools and Colleges (WASC) accreditation before Charter School graduates its first class of students.

Mathematics Placement Policy

If Charter School serves ninth grade, Charter School shall comply with the requirements of Education Code section 51224.7 with respect to implementing a fair, objective and transparent mathematics placement policy for pupils entering the ninth grade.

Independent Study

Charter School recognizes that a long-term independent study program (greater than 14 days per school year), is a material term of the educational program described in Charter School's petition. Therefore, if offered, Charter School's petition will contain a reasonably comprehensive description of the long-term independent study program, including how the school will comply with the legal requirements in providing such a program.

KIPP Bridge Academy does not currently offer a long-term independent study program to students. However, we have a KIPP-board approved Independent Study board policy in the event of extenuating, unprecedented circumstances. See Appendix 23.

Home and Hospital Instruction

Charter School is responsible for providing both its general education and special education students with individual home instruction during any period of temporary disability when the student is unable to participate in on-campus instruction. In the case of a parent notifying Charter School of a request for home instruction, Charter School shall determine the appropriateness of home instruction services within five days of the request and shall begin home services within five days of determining eligibility. If a student disenrolls from Charter School in order to enroll with their school district of residence for home instruction, Charter School shall re-admit such students if they request re-enrollment within one calendar year from disenrollment from Charter School.

If a student with an IEP is unable to attend school due to a temporary or ongoing medical or psychological disability, Charter School shall continue to be responsible for the provision of special education and related services during that time. Home instruction for a student with an IEP or Section 504 plan shall only be provided under the following circumstances (5 CCR § 3051.4): the IEP team has recommended home instruction based on a medical report which is from the student's attending physician, surgeon, or psychologist; states the diagnosed condition; certifies that the student's condition prevents attendance in a less restrictive setting; and contains a projected calendar date for the student's return to school.

Home instruction shall be provided only by teachers with valid California teaching credentials who consent to the assignment. There is no provision in statute that specifically addresses instructional content; however, the goal of home instruction should be maintenance of the pupil's former level of performance.

A student with a temporary disability, who is in a hospital or other residential health facility within the boundaries of OUSD, excluding a state hospital, shall receive educational services by OUSD. A pupil with a temporary disability, who is in a hospital or other residential health facility outside the boundaries of OUSD, excluding a state hospital, shall receive educational services by the school district in which the hospital is located. Pursuant to Education Code § 48207, Charter School shall continue to enroll such students while they are receiving Hospital Instruction. Average daily attendance shall be calculated consistent with the law.

Student Enrollment and Grade Levels Served

Charter School will serve a student enrollment at each grade level and at all grade levels combined in each of the years of the term of the Charter as follows:

Maximum Enrollment for Charter Term: 835

Charter School will submit a petition to materially revise its charter if any of the following occur:

1. The Charter School seeks to serve any grade levels not already approved by the District on the schedule approved by the District;
2. The total enrollment in a given year exceeds the maximum enrollment by 5% or more.
3. The total enrollment in a given year is more than 15% below the projected enrollment per the schedule above.

KIPP NorCal does not agree to be bound by the OUSD District Required Language immediately above, which purports to require KIPP Bridge to seek a material revision in the event that any of the unilaterally-imposed thresholds are triggered. Education Code Section 47605(a)(4) identifies only two changes to a charter petition that legally require a material revision: adding an additional facility, or adding a grade level. A small difference between enrollment projections and actual enrollment, particularly as the entire state continues to recover from

the pandemic and increased threats of emergencies, does not rise to that level, and does not require a material revision. Notably, decreasing grade level(s) served does not require a material revision; a change in enrollment projections does not, either.

Hybrid and/or Virtual Classroom Learning

Charter school recognizes that it is obligated to provide adequate supervision of all instruction to promote student learning and pupil safety, and immediate supervision by a properly credentialed instructor as a condition of apportionment. Charter School intends to offer classroom instruction in which the teacher participates virtually (i.e., from a remote location via videoconference) and certifies that virtual instruction shall only be provided synchronously, by a certificated employee holding the credential required for his/her teaching assignment under California law, and with two-way audio and visual feed between teacher and students. Charter School shall also provide in-class supervision by a teacher's aide or certificated employee at all times that virtual instruction is being provided. All instruction shall comply with California State Standards and California Standards for the Teaching Profession. Charter school shall immediately reconfigure all instructional practices to conform with any legislative or regulatory enactments, or Statewide policy directives, regarding virtual instruction.

Special Education: See the Special Education section listed below.

Mission and Vision

Mission & Vision

Our Vision: Every child grows up free to create the future they want for themselves and their communities.

Our Mission: Together with families and communities, we create joyful, academically excellent schools that prepare students with the skills and confidence to pursue the paths they choose—college, career, and beyond—so they can lead fulfilling lives and build a more just world.

Values

KIPP Bridge Academy is split into two different school models to better meet the needs of each student population. KIPP Bridge Rising serves grades transitional kindergarten through fourth grade, and KIPP Bridge Upper serves grades fifth through eighth. Each school has their own School Leader and a different set of core values, outlined below. The two School Leaders partner closely together to ensure alignment across the transitional kindergarten through eighth grade setting, and a smooth transition for those matriculating from fourth to fifth grade.

KIPP Bridge Rising Core Values

KIPP Bridge Upper Core Values

Student Community

Our Student Community

KIPP Bridge believes that all students should have access to a top-quality education, which will prepare them for success in college, career, and life. KIPP Bridge’s student body is reflective of West Oakland’s diverse, vibrant community, and KIPP Bridge honors and respects the diverse backgrounds represented by its students. |

Table 10: Enrollment by Ethnicity (2023-24)

Table 11: Enrollment by Student Group (2023-24)

As a non-selective public school, KIPP Bridge is tuition-free and is open to all students, regardless of ethnic, socioeconomic or religious background. KIPP Bridge conducts its lottery in the spring of each year. Any students who are not admitted through the lottery are placed on a waiting list. More detailed information on enrollment and the lottery can be found in Element 8.

Means to Achieve Mission and Vision

KIPP Bridge Academy is able to achieve its mission and vision through the dedication of staff, students and families, as well as KIPP’s guiding principles, regional and national supports, family engagement, and community interest. This structure has led KIPP Bridge students to

demonstrate success at each step of the pathway to choice-filled lives, from their time in elementary school to middle school to high school and beyond.

Guiding Principles: The KIPP Northern California Difference

Sense of Belonging

KIPP NorCal provides a positive and supportive learning environment where students of all races, incomes, and abilities are known, respected, and empowered. KIPP NorCal uses social-emotional teaching practices that affirm the identity, background, and experience of every KIPP NorCal student.

Academic Excellence

KIPP NorCal fosters a culture of academic excellence and intellectual curiosity through individualized instruction that meets the learning needs of every student. A KIPP NorCal education helps students develop the academic skills and character strengths needed to succeed in college and life.

Family & Community Partnerships

KIPP NorCal partners with families and local organizations in their communities to support healthy development for children. KIPP NorCal joins other educational and community-based groups in advocating for issues that matter to their families, such as immigration rights and racial equity.

College & Career Guidance

KIPP NorCal prepares students to identify their passion, purpose, and plan for how to thrive in college, career & beyond-so they can lead fulfilling lives and build a more just world. The KIPP Forward Team begins working with students starting in 11th grade and continues to support them after high school. KIPP Forward Advisors help alumni navigate the academic, social, and financial challenges they might encounter while in college or pursuing a career.

Teacher Support & Growth

KIPP NorCal recruits and retains a diverse group of teachers with high expectations who believe in KIPP NorCal’s mission and are committed to helping all students reach their full potential. KIPP NorCal equips teachers with opportunities for professional growth through individual coaching and specialized professional development.

Regional and National Supports

Regional Supports

KIPP Northern California is the regional charter management organization that holds the charters for KIPP schools throughout Northern California and is responsible for their operation, sustainability, quality, and growth.

KIPP Northern California enables its schools to focus on teaching, learning, and continuous improvement by centralizing and managing functions such as academic support, fund development, facilities acquisition and development, technology support, financial reporting, accounting, payroll, talent recruitment, compliance, human resources, marketing, scalable back-office business operations, and alumni support. To learn more about KIPP Northern California’s Executive Team, please see Appendix 1.

KIPP Northern California’s Track Record of Success

KIPP currently works with more than 6,500 students and families throughout Northern California. While our work continues, we are proud of our results to date:

- KIPP Northern California students met or exceeded the state average for socioeconomically disadvantaged students by 9 percentage points on SBAC ELA and 9 percentage points on SBAC Math in 2022.
- 92% of KIPP Northern California students graduate from high school within four years.
- 65% of KIPP Northern California alumni are matriculating to 4-year college programs and 29% are matriculating to AA & CTE programs which exceeds the national average across all income groups

- KIPP students are several times as likely to graduate from college as other students from low-income backgrounds. KIPP Northern California's college completion rate for all time is 48%. That rate is higher than the national average for all working age people, and it is significantly higher than the averages for both low-income and first-generation students nationally.

National Supports

KIPP Northern California benefits from the support of a national network of KIPP schools founded 30 years ago, as well as the KIPP Foundation.

KIPP and KIPP Foundation Background

KIPP was founded in 1994 as a special program in a traditional public school in an educationally underserved area of Houston, Texas. KIPP students' accelerated academic achievement fueled the program's expansion. In 2000, Doris and Don Fisher created the KIPP Foundation to grow the KIPP network by training outstanding school leaders to open and operate KIPP schools. Since 1994, KIPP has grown from two teachers in a single classroom to over 250 schools serving more than 100,000 students across the country, and now operates full kindergarten through twelfth grade systems of schools.

The nonprofit KIPP Foundation trains and develops outstanding educators across KIPP regions to open and lead KIPP schools; provides tools, resources and training for excellent teaching and learning; promotes innovation; and facilitates the exchange of insights and ideas across KIPP and other public schools and organizations.

The KIPP Foundation is responsible for supporting excellence and sustainability across the network and leading network-wide innovation efforts. The KIPP Foundation provides a variety of supports and services to KIPP schools and regions in areas including legal support, real estate, technology, finance, corporate governance, operations, communications, marketing, and development.

The School Leader of KIPP Bridge Academy benefits from rigorous and innovative leadership and management training provided by the KIPP Foundation. Please see Appendix 4 for more details about the KIPP Principal in Residence Training leadership program.

KIPP’s National Track Record of Success

Since 1999, KIPP schools nationwide have followed and supported their students through college completion. Every year, hundreds of educators, parents, professors, and interested citizens visit KIPP schools to learn from KIPP’s success in boosting academic achievement and implementing strong school-wide culture. KIPP has been celebrated as a model that works by *The New York Times, The Washington Post, Newsweek, People, Education Week, Business Week, ABC’s Good Morning America, CBS’s 60 Minutes, U.S. News and World Report, USA Today, National Public Radio, PBS, The Oprah Winfrey Show,* and many others.

In September 2015, Mathematica Policy Research released findings from a five-year evaluation of KIPP schools. This was the first report to ever include KIPP schools at all K-12 levels. The report examines KIPP’s impact over the past decade. Some of the key findings are as follows

- Consistent with prior research, KIPP middle schools have positive, statistically significant, and educationally meaningful impacts on student achievement in math, reading, science, and social studies. Average impacts of middle schools were positive and statistically significant throughout the 10-year period covered by the study, though higher in earlier years than recent years.
- KIPP elementary and middle schools have positive impacts on school satisfaction, particularly among parents. More than three-quarters of KIPP elementary parents in the study rate their child’s school as excellent, compared to about half of parents in the control group (defined as those who had applied to KIPP but enrolled elsewhere).

In fall 2023, Mathematica released the latest of their third-party, independent research in a 15-year study of the long-term impacts of attending KIPP schools. The study shows that students who attended and graduated from KIPP were nearly twice as likely to earn their 4-year

degrees as their peers who applied to enter our open-enrollment, non-selective KIPP schools but were not chosen in the random lottery¹⁸.

The report found that the college completion rate of KIPP alumni, if extrapolated nationwide, would completely close the degree completion gap for Black students and nearly close the degree completion gap for Latinx students in the United States. Please see Appendix 24 for additional information on the Mathematica study and similar research demonstrating the efficacy of KIPP’s model.

KIPP Forward

As part of the KIPP commitment to ensure that its students climb the mountain to and through college, KIPP Northern California continues to support students after they leave KIPP high schools through the KIPP Forward (“KF”) program. The mission of KF is for all students to have the access, skills and resources necessary to navigate to and through their postsecondary program into self-sufficient adulthood. The KF team provides structured support focused on postsecondary readiness, persistence, and completion for our alumni.

KIPP Forward’s aim is to support our alumni to feel empowered to pursue their vision of a fulfilling life and build a more just world. We believe that career integration and coaching to strengths as early as possible is a key element to supporting alumni to develop a strong passion and purpose, which will carry them through whatever postsecondary program they choose. We also believe that if students have a strong passion and purpose, self-awareness, and early career exposure, this will increase investment in their K-12 education, because they will be able to make clear connections between theory and practical applications in the real world.

In our region, 50% of all students who have attended a KIPP high school have graduated from a four-year college. This group of KIPP alumni is 95% African American, Asian, or Latino, with more than 88% having qualified for federal free or reduced-price meals. These KIPP alumni

¹⁸ See study here: <https://www.mathematica.org/publications/long-term-impacts-of-kipp-middle-and-high-schools-on-college-enrollment-persistence-and-attainment>

have a higher college completion rate than the average of all students across all income levels nationwide (in 2019, 34% percent of all Americans aged 25 to 29 have earned a bachelor’s degree or higher¹⁹). KIPP’s college completion rate is more than four times the rate of students from low-income communities across the country (for students from low-income families, only 1 in 10 have earned a bachelor’s degree by their mid-20s²⁰). For a recent update on our KIPP Forward Program, please see Appendix 2. Services provided by KIPP Forward include:

Student Support for High School and Postsecondary Success

- College Advising: Ninth through twelfth grade students attending a KIPP High School are provided with college knowledge and academic advising through workshops and meetings. All eleventh and twelfth graders work closely with KIPP Forward Advisors who guide students through the college application process – from researching the right postsecondary program match, completing applications and financial aid to accessing scholarships and enrolling in the best fit postsecondary program.
- Alumni Advising: KIPP Forward Alumni Advisors track academic progress, connect students to services on and off campus, and help alumni stay linked to their KIPP family through outreach, events and the network of KIPP schools that span the country.
- KIPP College Savings Program: KIPP’s College Savings Program consists of three parts: student financial literacy lessons, parent financial empowerment workshops, and enrollment into 529 savings accounts for KIPP NorCal students and alumni. Through our partnership with Utah’s Educational Savings Plan, KIPP students and alumni are eligible to enroll in 529 plans to make saving for college easy, convenient and affordable.
- Internships: Summer internships at KIPP NorCal’s regional office and with corporate partners.
- Career Preparation: Students learn how to build resumes, prepare for interviews, and network with adults.

Connections

¹⁹ See study here: https://nces.ed.gov/programs/coe/pdf/coe_caa.pdf

²⁰ See study here: <https://www.kipp.org/wp-content/uploads/2016/09/CollegeCompletionReport.pdf>

KF builds connections with and between students in the following ways:

- *Alumni Database:* KF tracks student progress and maintains accurate records so we know where our alumni are and where they are headed.
- *Communications:* Facebook connects students and provides information about college advising and college persistence.
- *College Cohorts:* KF Advisors create cohorts and build community among students at local colleges with the goal of building affiliation and connection for students with their university and with each other. Gatherings have included study sessions, baseball games, and holiday celebrations. Because many students live at home or off campus while attending university and commute to campus, College Cohorts foster engagement and connection that increases the likelihood for students to persist through their college experience. Additionally, this program can be especially meaningful for students transferring to a 4-year college from community college or other school. KIPP NorCal currently has College Cohorts at most major, local universities where KIPP alumni enroll, including San Jose State University, UC Berkeley, San Francisco State University, UC Davis, and others.

College Partnerships

Since 2011, KIPP has partnered nationally with colleges and universities to develop and strengthen support systems for first-generation college-going students. Our partner institutions represent the full spectrum of American higher education, from large public research universities to small private liberal arts colleges to community colleges. The goal of these partnerships is for each partnering institution to leverage its recruiting and retention initiatives to ensure KIPP students enroll, persist, and graduate.

In 2018, KIPP shifted its focus to partner with colleges that have a successful track record of supporting and graduating first-generation, low-income students of color and/or institutions that enroll a large number of KIPP alumni year over year. We still continue to partner with over 85 universities, although primarily focus on building new partnerships with the institutions that fit the criteria above.

Today, there is a network of 98 partner universities, both those local to the Bay Area and others around the country. Please see Appendix 3 for a complete list of our current college partnerships across the country. Below is a list of our 12 current, local California College Partners:

- California Polytechnic University, San Luis Obispo
- De Anza College
- Notre Dame de Namur University
- Saint Mary’s College of California
- San Francisco State University
- San Jose State University
- Sonoma State University
- University of San Francisco
- University of California, Berkeley
- University of California, Davis
- University of California, Merced
- University of California, Santa Cruz

Family Engagement and Community Interest

KIPP Bridge Academy values families as essential partners in education. KIPP Bridge Academy provides a variety of opportunities for families to be active participants in the school, from social and cultural events like the Fall Carnival, Eid Festival, Back to School Night, and Literacy Workshops to formal engagement structures such as the KIPP Family Council (“KFC”), and English Learner Advisory Committee (“ELAC”). These events help build a strong school culture and community.

KIPP Bridge Academy is proud to be part of the West Oakland community, and aims to cultivate a lifelong love of learning by developing poised and confident leaders who are committed to serving their community. Current and past community partnerships include the Alameda County Community Food Bank, Sidra MENA Community Wellness, Safe Passages, Family Support Services, Family Paths, One Warm Coat, and Oakland Adopt a Spot.

Working together, KIPP’s Guiding Principles, regional and national supports, family engagement and community partnerships enable KIPP Bridge to prepare its students to thrive in college, career, and beyond, as demonstrated by the data shared in the “Introduction” section above.

Other KIPP Bridge Charter School Successes

Since the school’s inception, KIPP Bridge has maintained an attendance rate of over 95%. Additionally, 85% of students who have completed eighth grade with KIPP Bridge have matriculated to college, including institutions such as CSU East Bay, St. Mary’s College, Spelman College, UC Berkeley, and UC Riverside.

KIPP Bridge’s summer enrichment program allows students to participate in extended, off-campus, learning activities throughout the year and in the summer. Over the years, students have participated in the Center for Talented Youth programs, Stanford University’s residential Great Books program, Stanford Jazz Camp, Summer of Learning, College Track, and the Boys and Girls Club, in addition to other local and national programs.

Student grades and enrollment

Parents advocating for our expansion have children who would be attending elementary grades across all levels in the 2016-17 school year. For data on the grade level and residency of families who have articulated meaningful interest in attending elementary grades at KIPP Bridge, please see Appendix 6. In order to respond to this demand, we plan to serve all grade levels, from TK through eighth grade, in the first year of expansion. The new elementary grades (K-4) will start with approximately 60 students in each grade and grow to 90 students, with the exception of TK, which will serve up to 25 students. The KIPP school model will balance an overall school size that is large enough to provide a variety of school-wide academic and emotional supports and resources with an overall class size that is small enough to create a cohesive school culture where all students and families are known and feel a sense of community and belonging.

Figure 6: Student Enrollment by Year

	2016-2017	2017-2018	2018-2019	2019-2020	2020-2021
Transitional Kindergarten	25	25	25	25	25

III-I. What it Means to be an Educated Person in the 21st Century Learner

Becoming a 21st Century Learner

It is the goal of KIPP Bridge Academy to prepare students with the skills and confidence to pursue the paths they choose — college, career and beyond — so they can lead fulfilling lives and create a more just world. At KIPP Bridge, becoming a learner in the 21st century means:

At KIPP Bridge, becoming a 21st-Century learner means the following:

- Students possess a strong foundation of basic academic skills ~~competency~~ and a broad knowledge base in the core ~~all~~ disciplines of ELA, math ~~language arts, mathematics,~~ science, and history, ~~visual and performing arts, and physical fitness~~
- Students deepen character qualities that allow them to make positive choices in life
- Students are effective and confident oral and written communicators
- Students are comfortable utilizing a wide range of technologies
- Students actively engage with technology to extend their learning through creativity and innovation
- Students are critical thinkers and problem solvers
- Students have an appreciation for the humanities and show respect for diverse cultures
- Students possess a drive to constantly learn and improve themselves
- Students accept personal responsibility for their own actions and their ~~life long love of~~ learning
- Students possess a strong desire to serve the ~~their school~~ community and the ~~communities~~ in which they live and help others
- Students have the desire, discipline ~~character strengths,~~ and dedication to achieve their highest aspirations and dreams
- Students are equipped ~~actively engage with~~ the agency and critical consciousness to drive meaningful change ~~technology to extend their learning through creativity~~ and innovation.

Ultimately, these objectives are met through academic knowledge and skills, personalized instruction, social emotional learning (“SEL”), and a positive school culture and climate.

Developing 21st Century Learners through Academic Knowledge and Skills

Although there are several important factors that contribute to student achievement, research has demonstrated that the quality of instruction in the classroom has twice the impact on student achievement as school-wide policies regarding curriculum, assessment, staff collegiality, and community involvement.²¹— Our focus at KIPP Bridge ~~Academy is therefore~~has always been on developing outstanding educators who have high degrees of success in delivering ~~a~~rigorous academic ~~programs~~program.

The content of the educational program at KIPP Bridge centers on gaining knowledge and mastering particular academic skills, forming effective intellectual habits, and building character strengths – all so that students can lead choice-filled lives. Our academic program is college and career-preparatory, with the necessary supports in place for all students to access the curriculum. More detailed information on the academic program at KIPP Bridge can be found in the “Curriculum and Instruction” section below.

Developing 21st Century Learners through Personalized Learning PlatformsCharacter Development

~~Students need more than academic and intellectual skills alone to succeed in high school, college, and life. In the words of David Levin, co-founder of KIPP: “The experiences of KIPP Academy New York and KIPP Academy Houston have taught us that academics without character is useless; students will have the skills but lack the motivation to use them. Character without academics is hollow; students will have the motivation but not the ability to use it. Together, they have the power to transform lives.”~~

~~According to Dr. Howard Gardner, defining and creating an effective character development program depends on “clarity and common vision”. The following section explains in detail how KIPP Bridge’s values, social emotional learning program, and commitment to restorative practices form the basis of the school’s focus on character development.~~

²¹ Marzano, Robert. September 2003, Educational Leadership.

Developing 21st Century Learners through Personalization

Leveraging technology to achieve personalization is one component of enabling high academic achievement at KIPP Bridge.

Ultimately, our goal is for each student to have full mastery of the knowledge and skills necessary for high school, college, career, and the competitive world post-graduation. beyond. This means that our students must be prepared to be creators, not just consumers, of the innovation that surrounds us in Silicon Valley and beyond the broader Bay Area.

Personalization enables

It all begins with personalization, so that students to be continually challenged at their proximal zone of development. The effective utilization of technology supports student success by providing even greater differentiation and personalization of their learning. At KIPP Bridge, our teachers use technology in combination with other instructional strategies to achieve the following goals:

- Ensure that our students are mastering foundational content knowledge
- Enhance individual achievement and learning through adaptive content solutions and assessments
- Increase more targeted support and time with teachers
- Build higher order thinking, problem solving, and research skills by allowing students to interact with information in multiple ways
- Enable students to collaborate closely with peers on projects
- Enable new forms of student expression and creation
- Facilitate access to data, professional development opportunities, and enhance instructional support (including the organization and distribution of teacher lesson plans)

KIPP Bridge currently has a one to one ratio of devices for each student. The school's emphasis on personalized learning and the integration of instructional technology into classrooms help to reinforce and complement investments that OUSD has made for West Oakland to become a STEM corridor.

Please see Appendix ~~58~~ for a ~~sample~~ list of ~~personalized learning platforms and instructional technology~~ tools ~~currently that will be~~ used at KIPP Bridge Academy, including Lexia, Boost Reading, ST Math, Zearn Math, Ignite Reading, and Epic Books.

Developing 21st Century Learners through Social Emotional Learning and Positive School Culture and Climate

KIPP Bridge prioritizes social and emotional learning and the use of restorative and trauma-informed practices. KIPP Bridge Academy strongly believes social emotional learning and restorative justice will position our students for success in school and in life. We've tailored a Multi-Tiered System of Support to ensure all students get what they need to develop socially and emotionally:

- Tier 1

- Explicitly name SEL curriculum implementation and consultation
- Mental health workshops for families
- Mental health consultations for teachers and staff
- Mental health office hours for staff
- Mental Health office hours for students
- School wide mental health campaigns

- Tier 2

- Social Skills Group - include "time limited group counseling" (ie social skills, grief and loss, divorce, etc.)
- Access to as-needed mental health check-ins (including safety assessments)
- Check In Check Out
- Positive behavior reinforcement plan support (consultation & development)
- Push-in social-emotional support & coaching
- Parent psychoeducation
- Classroom observations
- Teaching & coaching of self-regulation strategies

- Tier 3

- Individual Counseling
- Educationally Related Mental Health Services (including Individual Counseling, Counseling & Guidance, Parent Counseling, Social Work Services, etc.) per a student's IEP
- Targeted case management & collaboration with intensive service providers (Therapeutic Behavioral Services, wraparound, etc.)
- Behavior Intervention Plans for students with IEPs

- [Family counseling](#)
- [Psychosocial assessments for IEP students \(Educationally Related Mental Health Assessment \(“ERMHS”\), Functional Behavioral Assessment \(“FBA”\), etc.\)](#)
- [Crisis counseling & risk assessment](#)
- [Tier 4](#)
 - [Definition: A program tailored to the behavioral, academic and social emotional strengths as well as needs of students and families towards a “choice filled” life; offered through strengths based counseling , enriching activities, tailored academic support and scheduling, social skills development, community resources and more. We aim to empower our students with the joy of learning, to uncover the power within themselves and assist them in building the mindsets, skills and relationships necessary to succeed beyond our school.](#)
 - [Services offered that support the child at school and in life, which can include:](#)

[Table 12: Example Tier 4 Services](#)

[More information on KIPP Bridge Academy’s approach to social and emotional development and restorative justice practices can be found in the section titled “How Learning Best Occurs” below.](#)

[How Learning Best Occurs](#)

[KIPP Bridge Academy’s academic program was built on the core beliefs, practices and lessons learned from high-performing schools in the Bay Area and throughout our country.](#)

[In addition to the guiding principles for all KIPP schools outlined above, the key descriptions of the school experience at KIPP Bridge is captured in three sections on how learning best occurs:](#)

- [Through a rigorous, standards-based curriculum](#)

- Through high-quality instruction
- Through social emotional learning and an integrated system of care

IV. How Learning Best Occurs

~~As we discussed in the section describing our target population, students living in West Oakland face many challenges on the way to achieving their dreams and living choice filled lives. We know that students living in environmentally stressed neighborhoods need additional supports, and our model is designed specifically with these students in mind. KIPP Bridge currently serves many West Oakland students and we have a track record of empowering our students to develop the academic, character, and social strengths to succeed in college and beyond. KIPP Bridge’s approach and vision for supporting young people and families facing tough odds is based on 13 years of experience serving in this community, drawing on the experience and lessons of 10 other schools in the KIPP Bay Area Schools region, as well as the wisdom and experience of over 180 KIPP Schools across the country.~~

Learning Best Occurs with a Rigorous, Standards-Based Curriculum

~~The content of Common Core State Standards (CCSS), adopted by California in 2010, detail the KIPP Bridge curriculum focuses on building upon foundational skills coupled with an emphasis on higher order thinking processes in all content areas. In accordance with state regulations, KIPP Bridge provides the standard age-appropriate curriculum for Mathematics, Science, information K-12 students should know in English Language Arts, History-Social Science, and Visual-Performing Arts and Mathematics at the end of each grade level.~~

~~In line with our mission, The initiative seeks to prepare all students for success in college and beyond, KIPP Bridge has adopted all applicable state content establish consistent learning standards, including Common Core State Standards (“CCSS”), across the Next Generation Science Standards (“NGSS”), English Language Development Standards, History-Social Science Framework, and all other applicable state content standards (hereinafter, collectively “State Standards”) for our states as well as ensure that students. The CCSS represents graduating from high school are prepared to enter two or four-~~

~~year college programs or enter the~~ knowledge and skills that prepare students for college and career. The College and Career Readiness Standards (“CCRS”) and assessments provide a way to measure knowledge and skills and are gateway assessments of whether students are ready to enter college. Together, these standards and assessments ensure that our students are ready to take on the rigors of college and future careers.²²~~workforce.~~ KIPP Bridge is committed to ensuring that our students meet the challenging demands of the State Standards, particularly the Common Core State Standards and Next Generation Science Standards.

The State Standards are supplemented with social-emotional learning, advisories, study skills, extra-curricular activities, technology, and art. Clear and specific standards-based academic objectives are mastered at each grade level as students move through the curriculum at KIPP Bridge’s intensified pace.

Teacher and staff supports:

The adoption of CCSS and NGSS and assessments for our schools is part of a long-term strategy to increase the percentage of our students persisting in and graduating from college. The content knowledge and instructional shifts demanded by the CCSS and NGSS require us to invest even more in our teachers and leaders. KIPP Northern California has invested in the following supports for our staff during the past several years:

- Implemented research-based, CCSS-aligned curricula in Mathematics, ELA, and Science, and set student achievement goals based on CCSS.
- Streamlined our balanced assessment strategy: Elevated and adjusted regional interim assessments for Math, ELA and Science to more effectively identify key strengths and gaps in student learning. SBAC and California Science Test (“CAST”)-aligned interims are administered three times a year, and the data is analyzed with student work in hand to prioritize key gaps and strategically plan for instructional intervention.
- Revamped our regional assessment data system (KIPP Galaxy) to capture and disaggregate assessment data by subgroups. This has allowed us to better identify and respond to region-

²² Source: “How ACT Assessments Align with State College and Career Readiness Standards”, Sara Clough and Scott Montgomery, 2015. (<http://www.act.org/content/dam/act/unsecured/documents/Alignment-White-Paper.pdf>)

wide trends in student learning.

- Partnered with EL Achieve to lead schools in Integrated ELD training that focused on research-based planning and instructional approaches to more effectively meet the needs of EL students.
- Improved access to grade-level content by supporting staff to implement Learning Acceleration practices in ELA and Math to close gaps in unfinished learning.
- Revamped our summer regional sessions for math, science, social studies and ELA teachers to effectively build skills in standards deconstruction, data-driven instructional strategies and backwards planning that inform internalization and planning.
- Partnered with the Relay Graduate School of Education to provide rigorous coaching training to our School Leaders, Assistant Principals and Content Specialists to prepare for the school year with an aligned lens towards effective observation feedback, data-driven instruction, and professional development design.
- Incorporated region-led rigor visits to monitor exemplar-driven internalization and ensure it is used effectively as a scaffold for content development and as a means of monitoring mastery in real time in classrooms.

KIPP Bridge Academy combines rigorous State Standards with pedagogical methodologies that have proven successful. At KIPP Bridge, staff have flexibility to work together to determine the curricula that best match student needs and the demands of the State Standards. Incoming student strengths, needs and performance levels determine the manner in which standards-aligned curriculum is implemented.

Learning Best Occurs with High-Quality Instruction

Implementing a high-quality instructional program is paramount to KIPP’s track record of success. At KIPP Bridge, high-quality instruction is standards-based, with an emphasis on academic, intellectual, and character strengths, and explicitly ties to KIPP Bridge’s mission to become passionate readers and critical thinkers who realize their highest potential to benefit themselves, their families, and their community.

Instructional Power Moves

KIPP Bridge ~~Academy~~ Renewal Petition [2025-2030](#)

Research demonstrates that high-performing teachers do three things in a continuous cycle: internalize standards and content to plan strong lessons, deliver strong instruction, and monitor student learning and respond both in-the-moment and after lesson delivery.

In response to this research, educators at KIPP Bridge engage in 3 Instructional Power Moves:

- Internalization and Planning: Lead teachers in exemplar development to inform internalization and planning and provide feedback on lesson plans
- Observation/Feedback: Observe lesson delivery and provide feedback on instruction (real-time feedback or observation/feedback meeting)
- Data-Driven Instruction: Facilitate data analysis meetings (i.e. Weekly Data Meetings, Interim Assessment Data Days) and provide feedback on teacher’s data analysis, reteach plans and action plans.

KIPP Bridge’s School Leaders and Assistant Principals participate in training from the Relay Graduate School of Education focused on two of the Instructional Power Moves: Observation/Feedback and Data-Driven Instruction. Participation in this training has led to excellent teacher coaching throughout KIPP Bridge Academy as well as improvement in the quality of instruction for all students. For more information on the theory of impact and research behind the Instructional Power Moves, see Appendix 6.

Differentiated Support for All Students

At KIPP Bridge, we believe that differentiated instruction is an essential component of high-quality instruction. During class, KIPP Bridge teachers rigorously monitor student learning throughout lessons and independent work time to collect live data, which enables them to respond in the moment. For example, teachers may use this data to shift the class into differentiated small group works, or re-teach a concept to the whole class. Teachers may also use differentiated materials to meet students where they are. An example of this would be using the same text at different levels of complexity so that all students have the access needed to master the objective.

Outside of class, teachers may also use social-emotional learning time to support students who may be struggling academically. Additionally, afterschool support is offered. Finally, KIPP Bridge uses blended learning programs to support differentiation for students, including Lexia and Khan Academy.

In order to facilitate differentiated instruction, KIPP Bridge teachers participate in weekly data meetings to identify students in need of additional support and develop plans to address gaps. By providing a variety of individualized supports, KIPP Bridge aims to ensure that all students are prepared for success in their rigorous academic program, and are ultimately on the path to leading lives full of choices and opportunities.

Learning Best Occurs through Social Emotional Learning and an Integrated System of Care

At KIPP Northern California, we believe:

- Social emotional skills can be taught and developed
- Behavioral expectations can be taught like academic skills
- We must model, teach, practice, and reinforce our expectations so that they become habit
- Everyone makes mistakes
- It is our job to hold kids accountable when mistakes are made while recognizing the level of support that is needed to repair the harm
- Everyone deserves the right to move on after reconciling the mistake that was made

We create an integrated system of care by fostering the development of social-emotional competencies, using restorative practices to repair any harm to individuals and to the community when mistakes are made, and using trauma-informed practices to create safe and inclusive environments for students.

Table 13: Pathways to Developing Positive School Culture and Climate

Social and Emotional Learning

All students are supported in social and emotional development at KIPP Bridge Academy. As young people grow, they experience new challenges, new emotions, and new situations. Navigating these various experiences is difficult for anyone, and we all must understand that this is a process of growing and learning for all children. In addition to building dedicated time into the schedule for social emotional learning, KIPP Bridge embeds SEL into the general education curriculum through community circles and by using situations that arise at school as learning opportunities to teach competencies and character traits. The figure below outlines the core tenets of SEL:

Figure 7. Core Tenets of Social-Emotional Learning

KIPP Bridge supports teachers to in turn support students' social emotional learning in an approach that mirrors the Response to Intervention and Multi-Tiered Systems of Support:

In Tier 1:

- Prevention-oriented social and emotional learning curriculum for all students
- Students develop values and social emotional competencies through intentional teaching and instruction
- Community building practices through community circles with all students
- Strong parent engagement
- Implicit bias, diversity, and stereotype threat training for all staff to create a culture of belonging
- Staff training on mental health topics may address suicide, trauma, and culturally appropriate classroom intervention strategies

KIPP Bridge ~~Academy~~ Renewal Petition [2025-2030](#)

In Tier 2:

- Comprehensive early indication system that includes academic and non-academic domains Student Success Team (“SST”)/Response to Intervention (“RTI”) Process and Coordination of Services Team (“COST”) to support the whole-child
- Trauma-informed and responsive practices
- Restorative, collaborative, culture and healing informed intervention strategies
- On-campus mental health counseling by school or community based therapists

In Tier 3:

- Targeted, restorative, wrap-around strategies, with family and community as partners
- Comprehensive individualized success plan
- On-campus mental health counseling by school or community based therapists
- Connecting to external resource providers

Restorative Practices

Restorative practices complement the focus on SEL. Through restorative practices, KIPP Bridge students have the opportunity to learn strategies to manage their emotions and understand how their behavior impacts the school community. At KIPP Bridge, we recognize that all people make mistakes and that mistakes are actually opportunities to grow and learn. We hold students accountable to high expectations and provide a high level of support for our students to grow.

As illustrated in the figure below, restorative practices emphasize doing something *with* someone, versus *to* or *for* them.

Figure 8. Restorative Practices

Logical consequences and restorative practices

Consequences must be meaningful for students; they cannot be abstract, extrinsic ideas that do not attach to the behavior. For example, if a student is talking at an inappropriate time during a lesson, a teacher might first stop and ask the student why it is important that the student does not talk during the lesson. As the student explains the importance of being on task, the student understands the impact of their choices. Depending on the root of the problem, students may write a reflection about what happened and then return to the group after sharing the reflection with classmates. If a seriously harmful decision (e.g. hurting a teammate, repeated teasing) has been made, the teacher or leader may choose to use a restorative circle, bringing together everyone involved and others impacted by the situation during a time outside of class. This may include other classmates, family members, coaches, and more, depending on the circumstances and impact.

Restorative conversations

Staff members at KIPP Bridge use restorative conversations to support students when harm has been done to another member of the school community (e.g., saying something hurtful) or to that student (e.g., giving up on a task). A restorative conversation guides the student to repair the harm and better the situation. These are the guiding questions for a restorative conversation:

1. What happened?

2. What were you thinking at the time?
3. What have you thought about since then?
4. Who has been affected by what you have done?
5. What do you think you need to do to make things right?

Ladder of response

Teachers use a number of strategies to ensure all students are learning, remembering that the goal is to restore relationships so that students can engage in learning. Teachers know that there are many ways to respond and that it is important to match the response to the individual student and situation.

The importance of relationships

Through our use of community circles, and through lessons that foster social-emotional as well as academic growth, KIPP Bridge students develop strong connections, strong accountability to one another, and empathy for how others feel in situations. The stronger these relationships are, the greater the impact when a student may seek to repair relationships, speak to peers about a challenge he/she/they is having, or engage in self-reflection. Relationships are at the core of this approach.

Modeling healthy responses

KIPP Bridge staff are taught to consistently model healthy interactions and reactions, especially in times when staff may be frustrated or tired. Our students learn from our modeling. We believe that skillful teachers teach discipline and embrace this as a key function of their role. Therefore, the KIPP Bridge community:

- Holds all members of the school community to high and realistic expectations
- Fosters strong relationships among all members of the school community
- Recognizes that individuals will make mistakes, and that each day is a new one
- Plans precise directions for each activity and transition to create safe, predictable and productive learning spaces

- Uses reminding, redirecting and reinforcing language to help students meet academic and social expectations
- Frequently and clearly talks about and models appropriate behavior
- Provides consequences that are clear, logical, restorative and firm
- Sees and discusses students as individuals
- Restores students to the learning community by teaching pro-social skills and building on individual strengths

Please refer to Element 10 to learn more about our restorative practices as they relate to our discipline policies and procedures.

Trauma-Informed Practices

The traumatic response takes place when individuals experience stressors that overwhelm their capacities to cope. When individuals experience an overwhelming response to events in their environment, it decreases the functioning of their logical and analytical parts of their brain. For students, the result of this may lead to poor academic performance, difficulties focusing, emotional explosions, emotional withdrawal, distrust, and a lack of feeling safe. It is our aim to ensure that our staff have the skills necessary to appropriately respond to said reactions in a way that is supportive to the student. By responding to symptoms of traumatic stress with care and compassion, students will be able to feel safer while at school and in turn will have increased capacities to learn.

Traumatic Informed Practices constitute an intentional approach that takes into consideration the whole picture of the KIPP Bridge community – our learning spaces, how we communicate with one another, how we build relationships, how we intervene when a student shines and when a student demonstrates need for supports, and how we as adults can support in creating safe and inclusive spaces where students are able to learn. For example, KIPP Bridge staff receive professional development about the signs and symptoms of traumatic response, potential triggers in the classroom and learning environment, and de-escalation techniques. Some interventions when operating from this lens and approach include: playing calming music when students are participating in independent work time, doing 5-minute stretch breaks during a longer or more academically rigorous lesson in class, holding emotional support

groups or psychoeducation groups which center on a specific theme that relates to a presenting student need (e.g., a social skills group), student-run groups that educate the community on topics of wellness, providing culturally responsive emotional supports, professional development for school teams that cover the importance of self-awareness and identifying one’s own triggers, or the establishment of CARE Team – a meeting where interventions are identified to better address the presenting need of the highest-need students.

Curriculum and Instruction

Ideal KIPP Bridge Academy Eighth~~KIPP Bridge 8th~~ **Grader: Starting With the End in Mind**

KIPP Bridge eighth graders are academic scholars who possess a lifelong love for learning. The academic program at KIPP Bridge cultivates an intellectual curiosity for all academic disciplines and the academic preparation to be successful in high school, college, and the competitive world beyond. Students leave well-versed in rigorous texts and ~~multicultural~~multi-cultural literature. For students to be prepared for high school level math, students will complete Common Core Math 8 by the time they leave eighth grade and be prepared to take Common Core Algebra I when entering ninth grade. To ensure that students have the knowledge and skills to successfully study science in high school, science coursework includes writing research papers and participating in science labs. The courses offered at KIPP Bridge are grounded in rigor and high engagement, with learning environments that actively engage the student body.

KIPP Bridge eighth graders are creative and critical thinkers. Students at KIPP Bridge learn the habits of inquiry, which lead to a greater understanding and meaning. By knowing how to ask good questions, pose arguments, and provide logical and strong reasoning for their opinions, students develop an intellectual curiosity and creativity for all academic disciplines. Students also possess the ability to listen to different arguments and perspectives as a way to guide and form their own opinions and thinking.

KIPP Bridge eighth graders are confident and articulate speakers and writers. Students will have the confidence and poise to clearly articulate points and make arguments in their classes.

Students feel comfortable sharing ideas or asking questions in groups and in front of their class. In addition, students have several opportunities to make presentations to their classmates.

KIPP Bridge eighth graders exemplify the school values of Transform, Respect, Unify, and Empower (“TRUE”). Students acquire the personal qualities and the skills to confront difficulty and challenges, thoughtfully problem solve, and move forward. Students learn that they must approach life challenges and obstacles with a sense of possibility. KIPP Bridge students learn how to move past the hard parts of their lives that are out of their control. Students learn to be honest citizens who give back to their communities and take responsibility for their actions. Students learn the importance of being part of a functioning team and learn how to work cooperatively in class with their teammates. Most importantly, students gain skills in communication and problem solving and learn how to manage strong feelings and impulses.

A Rigorous Schedule and Academic Calendar

A typical day for a KIPP Bridge student is broken down into the following components:

1. **Core Academic Subjects.** Students are engaged in the standard curriculum areas of ELA, math, science, and social studies.
2. **Non-Core Courses.** In addition to their core courses, students at KIPP Bridge Academy are also offered a variety of non-core coursework, which may include Art, Technology, Physical Education and Mindfulness and Movement.
3. **Supplemental Instruction.** Students also receive supplemental instruction from teachers. For example, students receive math support during a tutorial block, and students receive small group reading instruction.
4. **Enrichment.** KIPP Bridge’s extracurricular program includes competitive sports (such as basketball, volleyball, cross country, softball, golf, and soccer), as well as a variety of clubs such as yearbook, art club, Diamano Coura West African Dance Troop, Choose Me Mentoring, Mentoring Program with UC Berkeley Athletics, and gardening club.

More time on task is central to the success of KIPP Bridge students. Students are offered instruction under an extended day model which includes core and non-core classes,

enrichment opportunities, and supplemental instruction. A typical school day for a KIPP Bridge student is reflected in the schedule in Appendix 7a and 7b.

Annual School Calendar

KIPP Bridge Academy meets or exceeds the instructional minutes requirement as set forth in Education Code Section 47612.5(a)(1), specifically:

- To pupils in kindergarten: 36,000 minutes
- To pupils in first through third grade, inclusive: 50,400 minutes
- To pupils in fourth through eighth grade, inclusive: 54,000 minutes

Please see Appendix 8 for the most recent school calendar. The school calendar may be updated periodically.

Core Curriculum Framework

The core curriculum framework described herein is based upon Common Core State Standards and Next Generation Science Standards for grades kindergarten~~Transitional Kindergarten~~ through eighteenth grade. The framework is designed to ensure that graduates of KIPP Bridge Academy are prepared for the rigor and intensity~~challenges~~ of college-preparatory high school ~~pre-Advanced Placement ("AP") and AP coursework,~~schools. Teachers work with the School Leaders~~Principal~~ to supplement this curriculum with their own innovations, research, and expertise.

A sample scope and sequence for all core subject areas can be found in Appendix 9.

KIPP Bridge’s curriculum draws upon on researched based programs. Below is a matrix of curriculum that may be used. In addition, please see Appendix 9a and 9b for detailed TK-8 instructional blueprints for both Math and English Language Arts that will serve as the foundation for building our master schedule.

Transitional Kindergarten

KIPP Bridge ~~offers~~ ~~is prepared to offer~~ Transitional Kindergarten. ~~The TK curriculum is (TK), which will offer~~ a modified curriculum that is age and developmentally appropriate. The TK curriculum ~~is~~ ~~will be~~ aligned to the California Preschools Learning Foundations as developed by the California Department of Education. The TK classroom ~~emphasizes~~ ~~will emphasize~~ station-based and individualized learning throughout the school day, as well as hands-on experiential learning. Using data to determine each student's skills, the teachers in the TK classroom ~~will~~ work with small groups of students to meet them at their instructional level and support their individual growth. The academic goals ~~for TK~~ ~~will~~ align with preparing scholars for success in the kindergarten classroom the following year. KIPP Bridge TK teachers ~~will~~ have the appropriate ~~credentials~~ ~~credential~~ to work with this age group.

KIPP Bridge is also committed to collaborating with the Oakland Unified School District to ensure that every student thrives by establishing strong outcomes for students from early grades. We share in the broader vision to improve student outcomes, in particular, the goal of ensuring that all third graders are reading ~~at~~ ~~on~~ grade level. We look forward to supporting, learning from, and sharing our learning to support the collective effort in the community.

English-Language Arts

Literacy Vision: Our scholars love and enjoy reading and writing because they engage in texts at their independent level, grow through excellent guidance and coaching, and dive deeply into analysis of complex texts. They do this while knowing that persistence through challenges leads to deep learning.

We aspire to deliver an excellent learning experience for all KIPP students, including building foundational skills in early literacy. This is a specific focus for the following reasons: 1) Teaching all students to read and write proficiently will reduce educational inequities. 2) We know a child’s reading and writing ability has a significant impact on their performance in all subject areas. 3) We know significant improvement in our early literacy performance will have a compounding effect on students’ future performance in all subject areas. 4) **Being able to read and write is fundamental to a child’s success in school and their ability to pursue choice-filled lives.**

At KIPP Bridge, we believe that literacy is the foundation of all learning. To promote literacy, the English-Language Arts program provides a challenging curriculum that is academically rich, intellectually stimulating, and culturally diverse. We teach the Science of Reading (“SoR”). We provide systematic, explicit phonics instruction using research-based curricula. We empower students with strong word recognition skills, building from letters and sounds to word decoding to orthographic mapping. We provide frequent opportunities for students to practice new skills and receive feedback throughout each lesson. We build a strong foundation in our Tier 1 foundational literacy skills instruction so our youngest learners are equipped to weave together their word recognition with their language comprehension skills to become fluent, strategic readers. ~~Our curriculum is designed to help students meet all Common Core reading, writing, and language standards.~~

We center our students’ needs. We follow our foundational literacy skills curricula, planning with a shared criteria for success and prioritizing student engagement during our lessons. We provide access to all our learners by differentiating our questioning and providing multiple modes of learning. We use a critical lens when analyzing the materials and texts we present to our students in whole-group reading so their voices and experiences are represented in their classroom. As elementary schools, we align our foundational literacy goals and strategies so we can create equitable outcomes across all our schools.

We carry a growth mindset. We sharpen our skills as reading teachers by learning and practicing evidence-based instructional strategies. We create space for teachers and leaders to learn from and with each other through professional development and communities of practice. We utilize assessments that provide us key data about students’ decoding strengths and

growth areas in order to measure outcomes and inform our lesson planning. We tailor instruction to students' needs through continuous progress monitoring and responding to student data in our Tier 1 instructional choices as well as our Tier 2 small group reading structures.

In TK-2nd grade, we have recognized that if we are going to truly be able to ensure that all of our students are leaving early elementary (2nd grade) with the ability to read and write on grade level, we need to do five essential things:

1. Continue our focus on foundational literacy skills with a primary emphasis on teaching our students how to read on grade level using the science of reading as our guide.
2. Ensure that our literacy curriculum and program use a structured literacy approach aligned to the science of reading to teach foundational skills.
3. Increase our teachers' knowledge of the science of reading so they can make instructional decisions in their classes that will more effectively support their students' reading and general literacy growth.
4. Use more specific foundational skills tests that assess the Word Recognition strands of Scarborough's Rope so that we can truly identify and shore up any reading gaps.
5. Move towards more substantial alignment across our elementary schools to ensure that we provide equitable tier 1 instruction for all of our students once we have an effective curriculum and assessment in place.

Our curriculum is designed to help students meet all Common Core reading, writing, and language standards. Our goal is to create a Common Core aligned, balanced approach to literacy, allowing scholars to receive guided support on their instructional level and targeted practice as they read on their independent level. High quality, complex texts in the range of genres recommended by the Common Core are the heart of the curriculum. Fiction, informational text, poetry, books, short stories, articles, videos and images are all included with an eye to quality, content, range, and inclusion of diverse peoples and perspectives.

Much of the curricular support will rely on KIPP's Instructional Blueprint for Literacy. Each day our students will engage in word study, read aloud, close and shared reading, guided reading,

independent reading, and writing. Both research and experience show that effective literacy programs build students' word and world knowledge, effectively integrate reading and writing instruction, align with college-ready standards, and most importantly, are centered on authentic, high-quality texts. At least 100 minutes of eyes-on-text is our daily standard. The components of our Balanced Literacy program are:

- Word Study: Students are provided with intensive instruction in phonics (grades TK-3), vocabulary, grammar, and spelling embedded into the curriculum.
- Read Aloud: The teacher reads a text aloud and involves the students in what is read through comprehension activities. Students acquire and sharpen their listening and comprehension skills through this exercise. The teacher also uses this time to model the application of reading skills. Read aloud is used daily in grades TK-4.
- Close and Shared Reading: All students engage with shared, grade-level texts. Literature choices take into consideration themes across content areas, literature genres, and texts read and discussed at exemplary schools. Students also gain considerable exposure to expository text. The majority of the reading instruction can be classified as close reading, in which students progressively develop deeper understanding of key sections of text over multiple reads. ~~Please see Appendix 10 for KIPP's Close Reading Evidence Guide.~~
- Guided Reading: In order to meet the individual needs of all students, students spend time in fluid reading groups working on particular reading skills with the teacher. The rationale is to provide students with enrichment and remedial instruction to ensure each student is a successful reader. This will occur during workshop time while the other students are engaged in workshop stations based on targeted standards.
- Choice Reading: There is a time set aside each day for independent reading (also known as Silent Sustained Reading). Choice reading increases a student's volume of reading and reading stamina. Structures like Accelerated Reader quizzes or reading journals can hold students accountable for their reading during this time.
- Writing:- Students engage in process-based, text-dependent writing. Over the course of the year, students will write in the variety of genres covered by the Common Core

Standards. Writing activities are designed to guide students towards deep content understanding as well as to support mastery of a variety of writing formats and skills.

Kindergarten - 2nd Grade

In Kindergarten through second grade, classes are self-contained, allowing for flexibility within the schedule to experience all components of this comprehensive literacy approach. In the morning, scholars participate in an extended block focused on guided reading, direct word study instruction and independent centers to reinforce their work with foundational literacy skills. Scholars also move flexibly between groups to ensure the instruction is occurring at their independent and instructional level. During the day there are additional reading blocks dedicated to read aloud and close reading, using the [Wit&WisdomKIPP Wheatley](#) Curriculum. Within these blocks, scholars are exposed to high quality texts in which they focus on speaking about, listening to and comprehending age-appropriate literature. In the lower grades, scholars also participate in a Writer’s Workshop where they learn ideas around craft, genre and writing conventions.

3rd Grade - 5th Grade

In third through fifth grade, scholars will experience a Humanities block along with one grade-level wide We Love Reading (choice reading) block so that they experience over three hours of literacy instruction each day—the amount of literacy needed to grow and achieve at the highest level. The Humanities block includes all parts of balanced literacy, specifically guided reading, word study and close reading. In these grades, it is crucial that all scholars spend time engaging in grade-level rigorous texts, while also receiving differentiated instruction at their own independent and instructional reading levels. In the close reading block, there is a focus on text-based writing where scholars are writing evidenced based paragraphs and essays about the non-fiction/social studies and fiction they read. During these [later elementary](#) grades, scholars will also learn to transition from a structure of having one teacher teaching multiple subjects to teachers who specialize in specific subjects. This will prepare scholars to adjust to ~~the~~ having different teachers and learning to transition between classes and spaces in middle school.

6th Grade - 8th Grade

In sixth through eighth grade, scholars continue with the differentiated literacy block, that includes choice reading, close reading, writing, and guided reading for those who still need the support. This allows scholars to spend a majority of their day on literacy while experiencing a more high-school-aligned daily schedule through literacy, math, science, and social studies. Also in the middle school grades, students learn the fundamentals of grammar, the writing process, public speaking, note taking, and learn to identify social and cultural influences and differences in writing. Students work together to revise, edit, and present papers and other research-based presentations. Students whose skills need remediation receive intervention support during school, extra tutorials after school and on weekends in phonics, reading comprehension, spelling, grammar, and writing. ~~By eighth grade, students are able to provide a historically grounded analysis of a literary work and write an expository essay with a strong thesis statement and supporting evidence.~~

are able to provide a historically grounded analysis of a literary work and write an expository essay with a strong thesis statement and supporting evidence.

Mathematics

STEM Vision: Our scholars love that math, science, and technology instruction involves challenges and struggles, knowing that often times they can approach a problem like a puzzle, where they can take many avenues to get to an answer. By building a foundation of fact fluency and then learning the deeper math and science concepts, scholars work through inquiry based approaches to discover new things every day.

The math program at KIPP Bridge is designed to ensure that every student will gain a strong understanding of all math strands, the ability to perform accurate computations, and the application of problem-solving skills at high levels in the real world. KIPP believes that these strands are taught best through a combination of direct instruction of basic skills, hands-on activities to provide a deeper understanding of math concepts by relating them to real world situations and experiences, and differentiated instruction based on the needs of the students.

The use of a common math curriculum at KIPP Bridge creates a cohesive program that allows students to experience the interconnectedness of math concepts, while also providing teachers with the time to focus deeply on the prioritized standards for each grade level. The components of KIPP Bridge’s math program include:

- Fluency Practice: In order to develop the speed, accuracy and flexibility in calculations required by the Common Core, we utilize a variety of fluency activities several times per week. These activities are organized to revisit previously learned material to develop automaticity, anticipate future concepts, and strategically preview or build skills for the day’s Concept Development. Being fluent in math concepts allows students to tackle more challenging multi-step computation and application problems in the upper grades. Automaticity with lower level skills allows students to focus their attention on higher- level skills.
- Conceptual Understanding and Development: The majority of time early in a unit is dedicated to conceptual understanding, as called for by the standards. The number of lessons dedicated to conceptual development decreases as units progress to meet the demands of the rigor shift, providing students with opportunities for application and problem-solving.
- Authentic Problem-Solving (application): Because the standards call for students being able to use math flexibly and in context, it is important that there is time devoted to students being able to apply what they have learned. Within the math block problem-solving occurs 1-2 times per week depending on the content and focus on applying skills and solving problems with the current area of study and emphasize strategies students have been building. Application problems are incorporated into the curriculum and tie directly to the content of the lesson.
- Assessment: In addition to daily exit tickets, unit tests, and benchmark assessments, students are assessed approximately once a week on the most recent concepts that they have learned. This helps teachers monitor if students are retaining concepts from day to day and intervene if necessary before more time has passed if they are not. KIPP Bridge’s math curriculum includes mid and end of unit assessments.
- Student Discourse (reading, writing, and talking about math). KIPP’s instructional vision calls for teachers to explicitly model and support reading, writing and drawing about math as a way to build towards the multiple representations that are part of the Common Core Standards for Mathematical Practice.

- Spiral Review: In order for students to maintain mastery of previously learned content, it is important that they have opportunities to engage in working on previously mastered material. This time can take different formats, depending on the needs of the students.

Kindergarten - 4th Grade

Our elementary grades provide students with frequent opportunities to use hands-on manipulatives to explore mathematical concepts, as well as intentional time spent discussing different approaches to problem solving. Younger students will also alternate between Spatial Temporal (“ST”) Math software focused on individualized learning and building basic skills and small group instruction on new concepts.

5th - 8th Grade

As students move into the middle school program they engage in different lesson types to allow for exploration, direct modeling, discussion and sufficient opportunities to practice key skills. Zearn Math is leveraged as an extension tool to reinforce mathematical understanding or an intervention tool for students in middle school. Lexia complements literacy instruction as the personalization platform for middle school students. Each student will have individualized “curriculum” in Lexia that focus on key concepts for practice. Teachers will also in turn track student progress and will be able to target instruction and individual support.

Science

Science is an essential part of our academic program. KIPP Bridge aligns its science curriculum to state-adopted literacy standards, Common Core State Standards, and Next Generation Science Standards. KIPP Bridge believes that all scholars should experience learning that pushes them to express curiosity and inquire about the world. Science class serves as an anchor for that experience.

Using FOSS kits and the Next Generation Science Standards as guides, KIPP Bridge scholars go through the scientific process and perform many experiments. They eagerly ask questions about the world around them, wondering about the possibilities of what they can create or

what might happen in a given scientific scenario. They imagine and take action, critically observe the world, develop their intuition, as well as their observation, thinking and analytical skills.

Science instruction across the grade levels is organized to best facilitate students' mastery of their grade level content standards in each of the following content strands: physical sciences, life sciences, earth sciences, and investigation and experimentation. At KIPP Bridge, through hands-on practice beginning in kindergarten, the science curriculum places heavy emphasis on learning the knowledge, processes, and skills that students need in order to understand the scientific method and its implications. These processes (e.g. observing, sequencing, measuring, classifying, describing, experimenting, inferring, predicting) are valuable skills to reinforce across disciplines and are learned through experimentation, investigation, and analysis.

In addition to learning the processes of science, students learn valuable content in the areas of chemistry, geology, biology (human, animal, and plant), and physics. The science program at KIPP Bridge provides an interdisciplinary link to math, science, English-Language arts, and technology, and history.

Kindergarten - 4th Grade

In the elementary grades, Science instruction focuses on establishing a strong foundation to enable students to critically observe the world, develop their intuition, observation, thinking and analytical skills. Learning and instruction in earlier grades centers on building students' curiosity and engagement. There is an emphasis on examining local phenomenon, such as local weather patterns, California and Bay Area geology, among other concepts. Science instruction will engage students through the senses and observable data, building deeper, interdisciplinary connection between Science, Math, Literacy and Social Studies. Students will be building a vocabulary for science for the transition to deeper scientific inquiry in middle school. The overall focus throughout the elementary grades is on the application of science on everyday lives.

5th Grade - 8th Grade

At the start of middle school in fifth grade, students are introduced to investigation and experimentation in chemistry, earth, life, and physical sciences, and then focus on earth science in the sixth grade, life science in the seventh grade, and physical science in the eighth grade. At each grade level, hands-on, phenomena based instructional activities are used often so that they can apply the processes and skills they learn. Middle school students will experience more in-depth science concepts and inquiry in preparation for high school.

History-Social Science

Personalized learning for literacy

~~In addition to the instructional strategies listed above, students will also engage in student-centric, adaptive online technology administered by a variety of software program providers. Students will receive differentiated supplementary instruction in reading matched to their learning needs and responsive to how they perform within the program. If students do well, the program speeds students through as fast as they can learn; if a student is struggling, the program cycles back to re-teach lessons and generates reports for teachers to use to provide further intervention. The incorporation of online learning into KIPP Bridge’s instructional program will ensure that students receive highly targeted instruction at their level and will provide valuable data that teachers can use to inform their instruction.~~

Instructional resources to support vision for literacy

~~KIPP Bridge uses a grade level curriculum that supplies the rigor our students will need for college and career success. Curricular resources the school may utilize to implement a Balanced Literacy program include the following:~~

- ~~● KIPP Wheatley: KIPP Wheatley is a comprehensive literacy curriculum for grades K-8 developed by the KIPP Foundation. It is designed to help students meet all Common Core State Standards for reading, writing, and language. KIPP Wheatley contains five modules in the following areas: anchor and supporting texts, close and shared reading, writing, Vocabulary and Grammar, Consistent instructional routines, and Assessments designed to reflect the expectations and rigor of the Common Core~~

State Standards. For an overview of the KIPP Wheatley curriculum, please see Appendix 11.

- ~~Wilson Foundations²³: Based on the Wilson Reading System principles, Wilson Foundations provides research-based materials and strategies essential to a comprehensive reading, spelling, and handwriting program. Students in grades K-3 receive a systematic program in critical foundational skills, emphasizing: Phonemic awareness, Phonics/ word study, High frequency word study, Reading fluency, Vocabulary, Comprehension strategies, Handwriting, Spelling~~
- ~~Leveled Literacy Intervention (LLI)²⁴: The Fountas & Pinnell Leveled Literacy Intervention System (LLI) is a small-group, literacy program designed to help teachers provide daily, small-group instruction at their instructional level. Through systematically designed lessons and original, engaging leveled books, LLI supports learning in both reading and writing, helps students expand their knowledge of language and words and how they work.~~
- ~~Heggarty²⁵: Phonemic Awareness Curriculum, developed by Dr. Michael Heggarty. Phonemic awareness is the understanding that spoken words are made up of individual sounds, which are called phonemes. A child who is phonemically aware is able to isolate sounds, manipulate the sounds, blend and segment the sounds into spoken and written words. Phonemic awareness is an auditory training process. It does not involve print. The daily lessons focusing on ten skills: Letter Naming, Rhyming, Onset Fluency, Blending, Identifying Final and/or Medial Sounds, Segmenting, Adding Phonemes, Deleting Phonemes, Substituting Phonemes, and Language Awareness.~~

²³<http://www.wilsonlanguage.com/programs/foundations/>

²⁴http://www.heinemann.com/fountasandpinnell/lli_Overview.aspx

²⁵<http://www.literacyresourcesinc.com/what-is-phonemic-awareness/>

- Cozy Corner²⁶: Pre-school program that combines story time, music and active conversations to help students practice skills that lead to future literacy success, and to develop the social/emotional skills that prepare them for kindergarten.

- Lucy Calkins' Writer's Workshop²⁷: Writing curriculum for K-8 that supports teaching different types of writing, including opinion, argument, information, and narrative writing, with increasing complexity and sophistication. The curriculum fosters high-level thinking, including regular chances to synthesize, analyze, and critique, and supports greater independence and fluency through intensive writing opportunities. The curriculum also includes strategic performance assessments to help monitor mastery and differentiate instruction and provides a ladder of exemplar texts that model writing progressions across grade levels, K-8.

- Marzano Vocabulary²⁸: A research-based approach to teaching vocabulary involving a six-step process and is aligned to the Common Core. Students with greater vocabularies are better readers. Knowing more words helps students comprehend all the texts they encounter in a school day. More importantly, students who know more words learn faster. When students increase their vocabularies, they are able to construct "networks of knowledge," enabling them to acquire new information more quickly because they can connect it to previously learned information. The six steps of Marzano vocabulary instruction include:
 - Step 1. Provide a description and example of the new term
 - Step 2. Ask students to restate the description in their own words
 - Step 3. Ask students to construct a picture, symbol, or graphic representing the term or phrase
 - Step 4. Engage students periodically in activities that help them add to their knowledge of the terms
 - Step 5. Ask students to discuss the terms with one another

²⁶ <http://teacher.scholastic.com/products/classroombooks/cozycorner.htm>

²⁷ <http://www.heinemann.com/unitsofstudy/writing/#more-info>

²⁸ Marzano, R.J. & Simms, J. (2013). *Vocabulary for the Common Core*. Bloomington: Marzano Research Laboratory.

- Step 6. Involve students periodically in games that allow them to review terms

Differentiation strategies

Research shows that the most productive way to increase the level of text complexity that students can comprehend is to read in the same topic for approximately 6 weeks, which is the approach KIPP Bridge subscribes to. Closely reading passages multiple times supports the skills, reading behaviors and schema that below-level and all readers need. As with any grade-level curriculum, scaffolding support will be needed for below-level readers. KIPP’s Implementation Toolkit for our K-8 literacy program provides scaffolding ideas for each module, as well as a Differentiation Guide that showcases other ideas for when and how to modify the curriculum. For example, already used successfully in many KIPP schools, Fountas and Pinnell’s Leveled Literacy Intervention (LLI) provides resources for small-group supplementary instruction. LLI lessons include phonics/word study, reading, and writing, as well as vocabulary and fluency.

Within KIPP Bridge’s literacy curriculum, there are a number of structures that repeat over the modules and grade levels to help support student automaticity and streamline teacher planning. These include annotation and note-taking routines for reading, graphic organizers and schematics for writing, and discussion-based routines such as the Socratic Seminar. As well, daily checks for understanding are expected to be included within lessons, assessing comprehension and process-based writing. Two to three times during each module, assessments evaluate students’ ability to closely read a new text in the same topic, and to write on demand. Summative assessments are aligned with the Smarter Balanced consortia design specifications.

Please see the following Appendices for additional details and examples of KIPP Bridge’s Literacy curriculum, including:

- Appendix 12: KIPP’s Literacy Vision for K-8, including core beliefs, student habits, teacher habits, and enabling conditions
- Appendix 9a: The KIPP K-8 Literacy Instructional Blueprint
- Appendix 11a and Appendix 11b: An overview of KIPP Wheatley, our core ELA curriculum and The KIPP Wheatley Writing and Close Reading Differentiation Options

- ~~Appendix 14a and Appendix 14b: Sample ELA modules for an elementary and a middle school grade~~

Social Studies

In order to become global citizens and agents of change who will positively impact their community, developing a strong sense of history and social, economic, and political trends over time is essential. The Social Studies curriculum prepares students with knowledge of the major events of history, teaches them to analyze the effect of the past on the present, and provides them with the skills necessary to evaluate current events, political structures, and philosophies.

KIPP Bridge adheres to state-adopted literacy standards in its Social Science curriculum. KIPP Bridge uses teacher-created units and read aloud as tools in ensuring mastery of the content and Common Core Standards in Social Studies. Students develop their historical and social sciences analysis skills through the following intellectual, reasoning, reflection, and research skills: chronological and spatial thinking, research, evidence, and point of view, and historical interpretation.

Social Studies instruction uses a combination of exploration through the use of primary and secondary resources, as well as watching video clips that bring certain topic to life for the students. Students ~~will~~ have the opportunity to conduct research and seek out resources to deepen their knowledge base on a particular topic. The teachers ~~will~~ work collaboratively to order the curriculum for connections to be made across the discipline and reinforce topics taught throughout the day. Visual art and music is analyzed for its cultural, sociological, and historical implications, and students will understand the connection between art, culture, geography, and history.

An understanding of geography is fundamental to understanding the major events of United States and world history, and thus is a focus of the Social Science curriculum. Physical, human, and environmental geography is studied in order to gain deeper insight into the factors that determine how cultures have evolved, how wars have been waged and won, and how humans

have affected the distribution and availability of natural resources throughout history. As part of this process, students become adept at various map skills and must be able to interpret charts, graphs, and other representations of geographical and historical concepts.

The Social Science curriculum is reading and writing intensive and involves the analysis of primary and secondary sources. Students may read historically relevant novels to supplement the knowledge they are gaining in class. Reading historically relevant novels serves the dual function of increasing literacy and providing students with the ability to critically evaluate both historical and contemporary texts. Social Studies classes also reinforce the “writing across the curriculum.” Social Studies teachers partner with English-Language Arts teachers to create common writing expectations and rubrics. All History- Social Science classes require written essays and reports. Students are held accountable not only for content, but for style, organization, and mechanics as well. Students also learn note-taking techniques through Social Studies classes. By the time students leave KIPP Bridge at the end of the eighth grade, they have written and orally presented an in-depth historical research paper involving historical analysis, connections to the present, visual aids, and the use of technology.

The Social Science curriculum is largely project-based. For KIPP Bridge students to become active participants in society, they must be able to function effectively in group-settings and focus on problem solving, analysis, and content. The Social Science curriculum constantly reinforces the values of teamwork, citizenship, and collective goal attainment. Each year, students may participate in in-state and out-of-state field lessons that provide practical application to what they have been studying in history class. For example, when studying United States history in the eighth grade, students visit the State Capitol in Sacramento.

KIPP Bridge adheres to state-adopted literacy standards in its History-Social Science curriculum.

KIPP Bridge aligns with KIPP Northern California’s history-social science vision:

Our vision is to develop the next generation of change-makers, youth who use historical thinking and understanding in order to advocate for a more just world today. We believe that teaching

history is a political and ethical act: we affirm the voices of our students and their communities as they claim and make their histories.

Throughout their years at KIPP Bridge, students receive a college preparatory education in “United States History and Geography” and “World History and Geography.” Each strand focuses on civic and economic implications using research and analysis. An understanding of geography is fundamental to understanding the major events of United States and world history, and thus is a focus of the History-Social Science curriculum. Physical, human, and environmental geography is studied in order to gain deeper insight into the factors that determine how cultures have evolved, how wars have been waged and won, and how humans have affected the distribution and availability of natural resources throughout history.

In order to be fully prepared for excellent high schools and colleges, students need a mastery of the countries, cultures, physical features, environments, and landforms of the world. In addition, they need to be adept at various map skills and must be able to interpret charts, graphs, and other representations of geographical and historical concepts. A thorough understanding of history is necessary for students to become active citizens in our country, and, with growing interconnectedness, our world. The History-Social Science curriculum prepares students with knowledge of the major events of history, teaches them to analyze the effect of the past on the present, and provides them with the skills necessary to evaluate current events, political structures, and philosophies.

The History-Social Science curriculum is reading and writing intensive and involves the analysis of primary and secondary sources. Students may read historically relevant novels to supplement the knowledge they are gaining in class. Reading historically relevant novels serves the dual function of increasing literacy and providing students with the ability to critically evaluate both historical and contemporary texts.

Social Studies classes also reinforce the “writing across the curriculum.” Social Studies teachers partner with ELA teachers to create common writing expectations and rubrics. All History-Social Science classes require written essays and reports. Students are held accountable not only for content, but for style,

organization, and mechanics as well. Students also learn note-taking techniques through Social Studies classes. By the time students leave KIPP Bridge at the end of the eighth grade, they have written and orally presented an in-depth historical research paper involving historical analysis, connections to the present, visual aids, and the use of technology.

Finally, History-Social Science classes examine the art and music of various cultures and civilizations. Visual art and music is analyzed for its cultural, sociological, and historical implications, and students will understand the connection between art, culture, geography, and history.

Non-Core Curriculum Framework

Electives

KIPP Bridge Rising students participate in dance and music class, and have an after-school dance team they participate in. KIPP Bridge Upper students participate in an Ethnic Studies course.

Physical Education

All students at KIPP Bridge regularly receive a structured physical education class in accordance with the California State Standards for physical education. Both content skills and life skills are emphasized in the Physical Education program. Students become more physically fit and learn the benefits of fitness and teamwork and the rules of various sports. As team is an omnipresent theme at KIPP Bridge, the social rules that govern team interaction and competition are taught and reinforced.

The Physical Education program focuses on sports-related activities and physical fitness. Students develop competency in a variety of sports, develop motor skills and coordination, and learn strategies for different sports. Each year, students set individual fitness goals for themselves and work with their instructor throughout the year to meet their goals. KIPP Bridge believes that competency and excellence in athletics can lead to confidence and mental wellbeing in life and that team sports instill dedication and a sense of working for the collective good. The

Physical Education program is thereby focused on improving physical and mental health of students, as well as building an understanding of and appreciation for shared outcomes and collaborations.

In addition to fitness and sports, the physical education program also encompasses a comprehensive health education curriculum. In their extra-curricular time, students have an opportunity to participate in various activities such as hip hop, ballet, sports, and yoga. KIPP Bridge’s competitive sports teams may include girls’ volleyball, girls and boys basketball, soccer, and track and field.

Instructional Methods

KIPP Bridge Academy’s School Leader works with teachers to develop instructional methods that maximize student learning. Students acquire the knowledge and skills needed to pursue academic excellence, as well as the ability to apply, synthesize, evaluate, and expand upon their knowledge.

There are many educational theories and practices that have proven to be effective in the classroom environment; KIPP Bridge Academy does not subscribe to only one approach. KIPP schools believe in allowing successful teachers to teach in an environment that supports their own successful practices and strategies. The advantage of having more time for learning means that multiple instructional techniques can be combined and integrated throughout the day. Instructional methods might include direct instruction, collaborative learning, seminar style learning, and performance assessment.

KIPP Bridge Academy exposes students to a variety of instructional methods that will prepare them for the courses they may encounter in high school and college. For example, students may learn how to debate a given topic, taking sides on an issue and presenting their arguments to the class. Students may also use Socratic Seminar in English and Social Studies classes. In addition to the instructional methods, all staff use the same definition of academic

rigor and strive to increase the rigor of all courses as students move through the Charter School.

KIPP Bridge Academy teaches at all levels of learning. Students whose needs are not met through these teaching methods benefit from a number of alternative instructional techniques, including small group tutorials and one-on-one tutorials.

Instructional Technology

Technology offers many tools to support high academic achievement at KIPP Bridge Academy.

KIPP Bridge Academy has a computer lab as well as a 1:1 Chromebook ratio. While technology is not a core curriculum to be mastered for its own sake, modern technological tools are employed to achieve specific curricular goals. Just as a calculator can assist with higher-level math equations, 21st century technologies are utilized to achieve clear educational outcomes that are measurable, demonstrable, and non-technological in nature. Utilizing technology tools to enhance and improve instructional methods at KIPP Bridge achieves the following goals:

- Enhances individual achievement through assessment technologies.
- Enables teachers and students to effectively collaborate with others.
- Enables new forms of student expression.
- Builds higher order thinking skills and research skills by allowing students to interact with information in multiple ways.
- Facilitates professional development opportunities and enhances instructional support, including the organization and distribution of teacher lesson plans.

In addition, all students at KIPP Bridge Academy learn to use computer technology through their coursework. By the end of eighth grade, they become adept at using Google Documents and using the internet to conduct research.

The Social Science curriculum is largely project-based. For KIPP Bridge students to become active participants in society, they must be able to function effectively in group settings and focus on problem solving, analysis, and content. The Social Science curriculum constantly reinforces the values of teamwork, citizenship, and collective goal attainment. Each year, students may participate in in-state and out-of-state field lessons that provide practical application to what they have been studying in history class. For example, when studying United States history in the eighth grade, students visit the State Capitol in Sacramento.

Instructional resources to support social studies

- KIPP Wheatley: In addition to balanced literacy, the KIPP Wheatley curriculum will also be the basis of Social Studies instruction, particularly in grades K-4. Social Studies and History concepts, investigation, and analysis will be combined with an emphasis on literacy through fiction and non-fiction texts recommended by the KIPP Wheatley curriculum. For example Social Studies modules in KIPP Wheatley, please see Appendix 14a and 14b
- TCI History Alive!²⁹: Social studies curriculum used for grades 5-8, TCI lessons start with a big idea, an essential question, and incorporate graphic note-taking, group work, and step-by-step investigation.

Mathematics

STEM Vision: Our scholars love that math, science, and technology instruction involves challenges and struggles, knowing that often times they can approach a problem like a puzzle, where they can take many avenues to get to an answer. By building a foundation of fact fluency and then learning the deeper math and science concepts, scholars work through inquiry based approaches to discover new things every day.

²⁹ <http://www.teachtci.com/programs/middle-school-social-studies-textbooks-and-curriculum.html>

The math program at KIPP Bridge is designed to ensure that every student will gain a strong understanding of all math strands, the ability to perform accurate computations, and the application of problem solving skills at high levels in the real world. KIPP believes that these strands are taught best through a combination of direct instruction of basic skills, hands-on activities to provide a deeper understanding of math concepts by relating them to real world situations and experiences, and differentiated instruction based on the needs of the students. KIPP Bridge will use a curriculum that reflects the major instructional shifts required to ensure mastery of the Common Core math standards. The use of a common math curriculum at KIPP Bridge will create a cohesive program that allows students to experience the interconnectedness of math concepts, while also providing teachers with the time to focus deeply on the prioritized standards for each grade level.

The rigor shift in the Common Core Standards calls for a balance between conceptual understanding, application, and procedural fluency. However, balance does not mean spending equal amounts of time on each aspect of math instruction during a block of instruction, a week of instruction, or even a unit of instruction. Rather, the balance is reflected in each set of grade-level standards themselves. The language of some standards, indicate the need for deep understanding while other standards specifically state a required fluency.

The components of KIPP Bridge’s math program include:

- Fluency Practice: In order to develop the speed, accuracy and flexibility in calculations required by the Common Core, we utilize a variety of fluency activities several times per week. These activities are organized to revisit previously learned material to develop automaticity, anticipate future concepts, and strategically preview or build skills for the day’s Concept Development. Being fluent in math concepts allows students to tackle more challenging multi-step computation and application problems in the upper grades. Automaticity with lower level skills allows students to focus their attention on higher-level skills.
- Conceptual Understanding and Development: The majority of time early in a unit is dedicated to conceptual understanding, as called for by the standards. The number of lessons dedicated to conceptual development decreases as units progress to meet the

demands of the rigor shift, providing students with opportunities for application and problem solving.

- ~~Authentic Problem Solving (application):~~ Because the standards call for students being able to use math flexibly and in context, it is important that there is time devoted to students being able to apply what they have learned. Within the math block problem-solving occurs 1-2 times per week depending on the content and focus on applying skills and solving problems with the current area of study and emphasize strategies students have been building. Application problems are incorporated into the curriculum and tie directly to the content of the lesson.
- ~~Assessment:~~ In addition to daily exit tickets, unit tests, and benchmark assessments, students are assessed approximately once a week on the most recent concepts that they have learned. This helps teachers monitor if students are retaining concepts from day to day and intervene if necessary before more time has passed if they are not. KIPP Bridge's math curriculum includes mid and end of unit assessments.
- ~~Student Discourse (reading, writing, and talking about math):~~ KIPP's instructional vision calls for teachers to explicitly model and support reading, writing and drawing about math as a way to build towards the multiple representations that are part of the Common Core Standards for Mathematical Practice.
- ~~Spiral Review:~~ In order for students to maintain mastery of previously learned content, it is important that they have opportunities to engage in working on previously mastered material. This time can take different formats, depending on the needs of the students.

Our elementary grades will provide students with frequent opportunities to use hands-on manipulatives to explore mathematical concepts, as well as intentional time spent discussing different approaches to problem solving. Younger students will also alternate between Spatial Temporal (ST) Math software focused on individualized learning and building basic skills and small group instruction on new concepts.

~~As students move into the middle school program they engage in different lesson types to allow for exploration, direct modeling, discussion and sufficient opportunities to practice key skills. ST Math becomes an extension activity or intervention tool for students in middle school. Khan Academy will complement classroom instruction as the personalization platform for middle school students. Each student will have individualized “playlists” in Khan Academy that focus on key concepts for practice, based on her or his MAP assessment outcomes. Teachers will also in turn track student progress through playlists and will be able to target instruction and individual support. KIPP Bridge has had significant experience incorporating Khan Academy into student learning and was one of the first schools to pilot these learning tools in partnership with Khan Academy product developers.~~

Personalized ~~Learning~~ learning for math

~~In addition to~~

~~As discussed in the instructional strategies listed above preceding paragraphs,~~ students ~~will~~ also engage in student-centric, adaptive online technology administered by a variety of software program providers, ~~including ST Math and Khan Academy.~~ Students ~~will~~ receive differentiated supplementary instruction in mathematics ~~and reading~~ matched to their learning needs and responsive to how they perform within the program. If students do well, the program speeds students through as fast as they can learn; if a student is struggling, the program cycles back to re-teach lessons and generates reports for teachers to use to provide further intervention. The incorporation of ~~personalized online~~ learning into KIPP Bridge’s instructional program ~~ensures will ensure~~ that students receive highly targeted instruction at their level and will provide valuable data ~~that which~~ teachers can use to inform their instruction.

Instructional resources to support vision for math

~~Teachers will draw from a variety of resources, including textbooks, critical thinking activities, and math manipulatives. In each grade level, students will learn the fundamentals of each math strand which include number sense, algebra and functions, measurement and geometry, statistics, data analysis, and probability, and mathematical reasoning. Curricular resources the school may utilize to implement a rigorous math program include the following:~~

- Eureka Math³⁰: Pre-K through 12th grade math curriculum developed specifically to align to Common Core standards. This curriculum builds students' knowledge logically and thoroughly to help them achieve deep understanding of Math concepts and recognize how to apply logic and process to new problems.
- Cognitively Guided Instruction³¹: CGI is a research-based professional development program that increases teachers' understanding of the knowledge that students bring to the math learning process and how they connect that knowledge with formal concepts and operations. CGI is guided by two major theses. The first is that children bring an intuitive knowledge of mathematics to school with them and that this knowledge should serve as the basis for developing formal mathematics instruction in primary school. The second thesis is that math instruction should be based on the relationship between computational skills and problem solving, which leads to an emphasis on problem solving in the classroom instead of the repetition of number facts (e.g., practicing the rules of addition and subtraction).
- Spatial Temporal (ST) Math³²: ST Math is a game-based instructional software for K-12 designed to boost math comprehension and proficiency through visual learning and accessing the brain's spatial-temporal reasoning abilities. This software consists of language-independent, animated representations of math concepts.
- Kathy Richardson Developing Number Concepts³³: A K-2 curriculum for number operations that was designed to help young children develop important foundational mathematics concepts. The curriculum includes cohesive and organized sets of activities and lessons focused on particular mathematical ideas. Every concept is developed through teacher-directed and independent activities.

³⁰ <http://greatminds.net/maps/math/home>

³¹ <http://www.promisingpractices.net/program.asp?programid=114#programinfo>

³² <http://www.mindresearch.org/stmath/>

³³ http://www.mathperspectives.com/pub_dnc.html

- ~~Khan Academy³⁴: A free, online learning program that delivers common core aligned math practice and hints/videos that model how to complete exercises. The robust data dashboard helps teachers track and student responsiveness and performance on key concepts and standards. The flexibility in learning paths gives teachers the option of aligning activities to the classroom scope and sequence (or other priorities) or allowing students to progress based on individual needs. The program also allows teachers to create games centered around math instruction with competitions and rewards based on student achievement within the program.~~

Differentiation strategies

~~In order to address the individual needs of students, accelerating those who are ahead and meeting the needs of those who are behind, KIPP supplements math instruction with critical thinking and problem solving activities, which assist in developing a greater understanding of math concepts and higher order thinking skills.~~

~~Please see the following Appendices for additional details and examples of KIPP Bridge’s Math curriculum, including:~~

- ~~Appendix 15: KIPP’s Math Vision for K-8~~
- ~~Appendix 9b: KIPP’s Math Instructional Blueprint~~
- ~~Appendix 16a and Appendix 16b: The Elementary and Middle School Scope and sequence for Eureka Math~~
- ~~Appendix 17a and Appendix 17b: Sample Math modules for an elementary and a middle school grade~~

Science

³⁴~~<https://www.khanacademy.org/>~~

Science is an essential part of our academic program. KIPP Bridge aligns its science curriculum to state-adopted literacy standards, Common Core State Standards, and Next Generation Science Standards (NGSS). KIPP Bridge believes that all scholars should experience learning that pushes them to express curiosity and inquire about the world. Science class serves as an anchor for that experience.

Using FOSS kits and the Next Generation Science Standards as guides, KIPP Bridge scholars go through the scientific process and perform many experiments. They eagerly ask questions about the world around them, wondering about the possibilities of what they can create or what might happen in a given scientific scenario. They imagine and take action, critically observe the world, develop their intuition, as well as their observation, thinking and analytical skills.

Science instruction across the grade levels will be organized to best facilitate the students' mastery of their grade level content standards in each of the following content strands: physical sciences, life sciences, earth sciences, and investigation and experimentation. At KIPP Bridge, through hands-on practice beginning in kindergarten, the science curriculum places heavy emphasis on learning the knowledge, processes, and skills that students need in order to understand the scientific method and its implications. These processes (e.g. observing, sequencing, measuring, classifying, describing, experimenting, inferring, predicting) are valuable skills to reinforce across disciplines and are learned through experimentation, investigation, and analysis.

In addition to learning the processes of science, students learn valuable content in the areas of chemistry, geology, biology (human, animal, and plant), and physics. The science program at KIPP Bridge provides an interdisciplinary link to math, science, English Language arts, and technology, and history.

In the elementary grades, Science instruction will focus on establishing a strong foundation to enable students to critically observe the world, develop their intuition, observation, thinking and analytical skills. Learning and instruction in earlier grades centers on building students' curiosity and engagement. There will be an emphasis on examining local phenomenon, such as local weather patterns, California and Bay Area geology, among other concepts. Science instruction will engage students through the senses and observable data, building deeper, interdisciplinary

connection between Science, Math, Literacy and Social Studies. Students will be building a vocabulary for science for the transition to deeper scientific inquiry in middle school. The overall focus throughout the elementary grades is on the application of science on everyday lives.

At the start of middle school in fifth grade, students will be introduced to investigation and experimentation in chemistry, earth, life, and physical sciences, and then focus on earth science in the sixth grade, life science in the seventh grade, and physical science in the eighth grade. At each grade level, hands-on activities are used often so that they can apply the processes and skills they learn. Middle school students will experience more in-depth science concepts and inquiry in preparation for high school.

Instructional resources to support science program

Curricular resources the school may utilize to implement a rigorous science program include the following:

- ~~FOSS Next Generation Science Programs³⁵: Developed in collaboration with the Lawrence Hall of Science. Includes active learning experiences, aligned to NGSS performance expectations, integrates robust reading and literacy strategies to support the Common Core ELA, and utilizes technology to deliver learning experiences and provide teachers with time-saving classroom management resources.~~
- ~~Amplify Science³⁶: Research-based digital curriculum for grades K-8, tools and assessments students need for developing deep scientific understanding to meet the NGSS. A K-8 Science curriculum aligned to Next Generation Science Standards.~~
- ~~TCI Bring Science Alive³⁷: Science curriculum aligned to Next Generation Science Standards. TCI incorporates student-centered lessons, investigations, online text, simulations, and interactive presentations.~~

³⁵<https://www.deltaeducation.com/foss/next-generation>

³⁶<http://www.amplify.com/curriculum/amplifyscienceintro>

³⁷<http://www.teachtci.com/science/interactive-science-textbooks-and-curriculum.html>

Non-Core Curriculum Framework

Visual and performing arts

KIPP Bridge is proud of its visual and performing arts program. The school has had a strong, longstanding theater program since the inception of the school. Students, staff, and families come together to produce two full theater shows a year; past productions include *The Lion King*, *The Wiz*, and *Annie*. The theater program accommodates as many students into the production as possible, as actors, set designers, costume designers and more. Families are also invited to be involved in productions by building sets, assisting with costume creation, and fundraising for the production. By participating in the theater program students are able to showcase a variety of talents and the entire school comes together as a team and family to ensure a successful production. Shows regularly sell out and fill the entire auditorium of the school.

Students at KIPP Bridge also have the option to participate in the music program. Students in the program learn to read music and play an instrument. The KIPP Bridge orchestra regularly hosts concerts, including “Night at the Movies” where students play pieces from popular movie soundtracks. The music program will also work with the theater program to provide live music during the production.

Physical education

All students at KIPP Bridge regularly receive a structured physical education class in accordance with the California State Standards for physical education. Both content skills and life skills are emphasized in the Physical Education program. Students become more physically fit and learn the benefits of fitness and teamwork and the rules of various sports. As team is an omnipresent theme at KIPP Bridge, the social rules that govern team interaction and competition are taught and reinforced.

The Physical Education program focuses on sports-related activities and physical fitness. Students develop competency in a variety of sports, develop motor skills and coordination, and learn strategies for different sports. Each year, students set individual fitness goals for themselves and work with their instructor throughout the year to meet their goals.

KIPP Bridge believes that competency and excellence in athletics can lead to confidence and mental wellbeing in life and that team sports instill dedication and a sense of working for the collective good. The Physical Education program is thereby focused on improving physical and mental health of students, as well as building an understanding of and appreciation for shared outcomes and collaborations.

In addition to fitness and sports, the physical education program also encompasses a comprehensive health education curriculum. In their extra-curricular time, students have an opportunity to participate in various activities such as hip hop, ballet, sports, and yoga. KIPP Bridge's competitive sports teams may include girls' volleyball, girls and boys basketball, soccer, and track and field.

Learning Best Occurs with High Quality Instruction

At KIPP we have learned that high quality instruction is a result of proper planning and varied instructional techniques and methods that are relevant to students. There are four components to KIPP Bridge's approach to high quality instruction:

1. **Quality Instruction is Standards-Based.** KIPP Bridge correlates its curriculum objectives to the Common Core State Standards adopted by the California State Board of Education. Incoming student needs and performance levels determine the weight that teachers place on different elements of the curriculum.
2. **Quality Instruction is Meticulously Planned.** At the beginning of the year and during staff development opportunities, teachers present their scope and sequences as well as a weekly breakdown of content covered. Sharing their long-term plans ensures that maximum alignment exists both vertically within content areas and horizontally across grade levels. Teachers plan lessons using a common lesson structure that generally includes: the lesson's aim, a do now, a motivation for the lesson, key vocabulary, direct instruction, guided practice, independent practice and homework. Teachers modify their lessons, assessments, classwork, and homework for students with special learning needs as appropriate. Regular classroom observations are used to explore successful planning and implementation.

~~3. **Quality Instruction is Varied Instruction.** Students process material in a variety of ways, so teachers at KIPP Bridge continuously work together to enhance student learning by sharing, developing, and refining effective teaching strategies. The advantage of having more time for learning means that multiple instructional techniques can be combined and integrated throughout the day. Students benefit from varied techniques that include direct instruction, small group work, individualized instruction, peer tutoring, personalized learning activities, and other innovative techniques. Student with special needs works with the school’s learning specialists in small group and one on one settings. Lesson plans incorporate auditory, visual and kinesthetic activities in order to meet the individual needs of all students.~~

~~4. **Quality Instruction is Relevant to Students.** KIPP Bridge combines the Common Core content standards with pedagogical methodologies that have proven successful. The state standards may be supplemented in the following ways: character education, extra-curricular activities, technology, and community service. Teachers also take into consideration the interests and cultural backgrounds of students in an effort to make all instruction relevant and responsive.~~

Please see Appendix 18 for KIPP’s Framework for Excellent Teaching, which describes our approach to quality instruction in detail.

Learning Best Occurs With A Rigorous Schedule and Academic Calendar

More time on task is central to the success of KIPP Bridge scholars. Under the “More Time in School” model, students are offered instruction under an extended-day model which includes core classes, enrichment classes, and supplemental instruction.

At the beginning of the school year, during the orientation and in executing the “Commitment to Excellence” form, parents are introduced to the “More Time in School” model and approach to learning. Families opt in to KIPP’s extended-day model by signing the “Commitment to Excellence” form. We have found that KIPP Bridge students enthusiastically attend school each day and opt into supplemental instruction; KIPP Bridge has a 95% attendance rate.

A typical day for a scholar is broken down into the following three components:

1. **Core Academic Subjects.** Students are engaged in the standard curriculum areas of English language arts, mathematics, science, social studies.
2. **Supplemental Instruction.** Students receive supplemental instruction from teachers. For example, students in the elementary grades may receive additional guided reading time to work on particular reading skills with a teacher. Meanwhile, 7th grade students identified as being “at risk of failing CAHSEE” may participate in a structured literacy intervention class during this time to supplement their daily core English Language Arts instruction.
3. **Enrichment.** The extracurricular program may include competitive sports for upper grades, fine arts, technology classes, and design labs to teach design thinking for all grade levels.

Bell schedules for elementary and middle school grades are reflected in Appendix 19a and Appendix 19b.

Annual School Calendar

KIPP Bridge Academy meets or exceeds the instructional minutes requirement as set forth in Education Code section 47612.5(a) and may offer a before/after school, Saturday, or summer school component. The summer component is scheduled to commence prior to the beginning of the school year (typically August). KIPP Bridge will have at least 175 days of instruction, specifically:

- For students in kindergarten: 36,000 minutes
- For students in first through third grade, inclusive: 50,400 minutes
- For students in fourth through eighth grade: 54,000 minutes

The 2016-17 school calendar for KIPP Bridge is attached in Appendix 20.

Supplemental Programs

KIPP Bridge Academy Renewal Petition [2025-2030](#)

~~KIPP Bridge currently offers after school programs. These programs are developed and determined by the principal to best fit the needs of the students of the school. KIPP Bridge may also partner with local organizations to provide before and after school programming.~~

Summer School Program

~~KIPP Bridge typically offers a summer session as part of its “More Time in School” model, where students are offered enrichment courses and/or supplemental instruction. KIPP Bridge’s summer session typically includes a staff development program that provides teachers with an opportunity to design their goals, objectives, and curriculum for the summer and upcoming school year. Once the summer session has ended, teachers continue their preparation by designing a curriculum for the fall that addresses the specific needs and interests of the students identified during the summer.~~

~~The summer session is brought to life when the students enter the classrooms. During this time, students are introduced to the concepts, challenges, strengths, and rewards of working as a team and family. Above all, students are welcomed into the KIPP culture, and learn what it means to be a KIPP student through introductions to KIPP songs, chants, and projects emphasizing hard work, teamwork, and a culture of high expectations. On the first day of school, all students learn what year they will graduate from college, and begin the process of learning how to focus on their short term, intermediate, and long term goals to be successful at KIPP and at the best high schools and colleges in the country.~~

Promotional Standards

Mastery of the objectives at each grade level is the basis for promotion. Teachers assess a student’s progress every trimester and share that assessment with parents/guardians; in order to gauge whether the student is mastering the objectives throughout the year. Supplemental instruction is offered for all students as part of the standard program of [KIPP Bridge Academy](#)~~the school~~.

~~The program design of KIPP Bridge Academy’s program is designed~~is to ensure that all students succeed. Supplemental instruction provides teachers with the time needed to do remediation ~~or extension~~ work when necessary. ~~There is also time built into the school day for students to receive intervention and acceleration, whether it’s through a computer based program or with the~~

~~teacher directly.~~ Students who are in jeopardy of retention are individually counseled and given extra help in their specific areas of concern. ~~Students who continue to struggle are provided with tutoring from outside sources.~~

In addition to progress reports, in-class tests and teacher observations, students' ~~SBAC~~CAASPP or Northwest Evaluation Association ("NWEA ") Measures of Academic Performance ("MAP") scores, and where applicable, ~~the California~~ English Language Proficiency Assessments for California ("ELPAC") ~~Development Test (CELDT)~~ test scores are also taken into account for promotional purposes.

Learning Best Occurs Through a Positive School Culture

At KIPP Bridge, we bring enthusiasm and joy to our world. Challenges excite us as we persist to achieve our next goal. We are curious and creative, and we build strong relationships with others. Thankful for our community, our teammates, our heritage, and our experiences, we succeed because we believe.

We believe:

- ~~• Social emotional skills can be taught and developed.~~
- ~~• Behavioral expectations can be taught like academic skills.~~
- ~~• We must model, teach, practice, and reinforce our expectations so that they become habit~~
- ~~• Everyone makes mistakes.~~
- ~~• It is our job to hold kids accountable when mistakes are made while recognizing the level of support that is needed to repair the harm.~~
- ~~• Everyone deserves the right to move on after reconciling the mistake that was made.~~

We build strong culture by teaching the school's values, fostering the development of social emotional competencies, and using restorative practices to repair harm when mistakes are made.

School Culture and Climate

KIPP Bridge ~~Academy~~ Renewal Petition [2025-2030](#)

<p>Teach the Values</p> <ul style="list-style-type: none"> • Interactive modeling of the school’s values • Research-based character traits 	<p>Social and Emotional Learning</p> <ul style="list-style-type: none"> • Shared language • Values education • Teaching and learning emotional intelligence • SEL curriculum 	<p>Restorative Practice</p> <ul style="list-style-type: none"> • Community circle culture • Repairing a relationship or situation (restores the team) • Proactive and reactive
---	---	--

Teach the Values

~~At KIPP Bridge, we believe that a positive mindset can transform our students’ character and abilities. We believe our students have character strengths that can be leveraged to help them to be successful. Our students’ understanding of the values of Transform, Respect, Unify, and Empower are central to making sure that they are able to develop as individuals. We believe in cultivating student character by helping them to find their T.R.U.E. selves. For that reason, character building is integrated into the curriculum in all classes.~~

~~During student orientation we focus on teaching our five school values and eight character traits, in addition to rituals, routines, and team building activities. As a staff we do not expect perfect behavior as our students’ transition to KIPP. Therefore, we will make it clear that misbehaviors are learning opportunities. Students will learn that KIPP Bridge is a place where there is a consequence for misbehavior, but it is also a place where you can “reset.”~~

~~KIPP Bridge holds daily morning meetings where we come together as a team and family to model and reteach values, offer inspiration, celebrate successes, and discuss school-wide happenings. We will hold school-wide community circles and restorative conversations with our students that show character strengths in action. As students transition from elementary to middle school grades, we support them to continue to develop their character strengths by becoming agents of change in their community and beyond. This will result in students matriculating from KIPP Bridge as fair minded individuals who are able to respectfully assert themselves to gain what they deserve in life.~~

In addition to the school values of Transform, Respect, Unify, and Empower, we will focus on building the following character traits in our students: Bravery, Fairness, Gratitude, Social Intelligence, and Zest.

Social and Emotional Learning

All scholars need support in social and emotional development. As children grow from year to year, they experience new challenges, new emotions, and new situations. Navigating these various experiences is difficult for anyone, and we all must understand that this is process of growing and learning for all children. Like our academic approach, we infuse the bulk of our social emotional support into the general education curriculum through community circles and teaching children how to respond to situations that arise in class. The graphic below outlines the core tenants of social emotional learning:

We believe that emotional intelligence is as important, if not more important, than academic intelligence in order for our scholars to be successful through college and have a positive impact on their communities. We explicitly teach social emotional skills because they allow

our children to truly exhibit the school's values in a way that builds community at KIPP Bridge.

Social-emotional learning stems from a growth mindset. Thus, teachers and staff at KIPP Bridge approach our important work with children knowing that every child brings strengths to our world and can grow socially and emotionally like they can academically. KIPP Bridge provides support for teachers around how to support SEL in an approach that mirrors the Response to Intervention system:—

In Tier 1:

- Prevention-oriented **social and emotional learning** curriculum for all scholars
- Community building** practices through community circles with all scholars
- Strong **parent engagement**
- Implicit bias**, diversity, and stereotype threat training for all staff to create a culture of belonging

In Tier 2:

- Comprehensive **early warning system** that includes academic and non-academic domains (SST/RTI Process)
- Trauma informed** and responsive practices
- Restorative**, collaborative, culture and healing informed intervention strategies

In Tier 3:

- Targeted, restorative, **wraparound strategies**, with family and community as partners
- Comprehensive **individualized success plan**
- On campus **mental health counseling** by school or community based therapists
- Connecting to **external resource providers**

Tier 1 macro structures ensure that our scholars are developing our values and social emotional competencies through intentional teaching and instruction. Figure 8 shows a list of these structures, their frequency, and what each entails.

Figure 8: Tier 1 Structures to Support Social Emotional Learning

Macro Structure	Frequency	Description
Whole School, Team & Family	1x/week	<ul style="list-style-type: none"> • Celebrating a school value of the week (Based on T.R.U.E. values) • Student performances: dances, recitations, displaying of artwork • Highlighting student achievements (academic, social and emotional)
Morning Meeting	Daily in Cafeteria	<ul style="list-style-type: none"> • Welcome led by Principal to start scholars' day on a positive note • Joyful way to come together as a community • Chants, poems, and shout outs to show values of transform, respect, unify, and empower
Morning Community Circle	Daily in Class	<ul style="list-style-type: none"> • Getting to know classmates through sharing and greeting • Learn and practice social-emotional learning skills • Quote of the day • Morning message
Autonomy of Language	Daily in Class	<ul style="list-style-type: none"> • All teachers reference values throughout lessons • Students celebrate when teammates display values • Posters are displayed that align to values
Closing Community Circles	Daily in Class	<ul style="list-style-type: none"> • Scholars share out something they learned in school • Talk about what students will learn tomorrow • Students color in trackers based on working hard and being nice
Social	Quarterly	<ul style="list-style-type: none"> • A core component of each scholar's report card

Macro Structure	Frequency	Description
Development Report Cards		<ul style="list-style-type: none"> Teachers write descriptors for scholars based on behaviors connected to the values. Used during conversations at family conferences to discuss strengths to leverage and areas for growth.

Restorative Practices

Restorative practices complement the focus on Social Emotional Learning. Through restorative practices, KIPP Bridge students have the opportunity to learn strategies to manage their emotions and understand how their behavior impacts the school community. At KIPP Bridge, we recognize that all people make mistakes and that these are actually opportunities to grow and learn. We hold scholars accountable to high expectations and provide a high level support for our scholars to grow.

As illustrated in the figure below, restorative practices emphasize doing something *with* someone, versus *to* or *for* them.

Logical consequences and restorative practices

KIPP Bridge [Academy Renewal Petition 2025-2030](#)

Consequences must be meaningful for children; they cannot be abstract, extrinsic ideas that do not attach to the behavior. For example, if a scholar is talking at an inappropriate time during a lesson, a teacher might first stop and ask the scholar why it is important that s/he does not talk during the lesson. As the scholar explains the importance of being on task, they understand the impact of their choices. Depending on the root of the problem, scholars may write a reflection about what happened and then return to the group after sharing their reflection with their teammate and apologizing. If a seriously harmful decision (e.g., hurting a teammate, repeated teasing) has been made, the teacher or leader may choose to use a restorative circle, bringing together everyone involved and others impacted by the situation during a time outside of class. This may include other classmates, family members, coaches, and more, depending on the circumstance and impact.

Restorative chats

Staff members at KIPP Bridge use restorative chats to support KIPPsters when harm has been done to a teammate (e.g., saying something mean) or to themselves (e.g., giving up on a task). A restorative chat guides the scholar to repair the harm and better the situation. These are the guiding questions for a restorative chat:

1. What happened?
2. What were you thinking at the time?
3. What have you thought about since then?
4. Who has been affected by what you have done?
5. What do you think you need to do to make things right?

Ladder of response

Teachers use a number of moves to ensure all scholars are learning, remembering that the goal is to restore relationships so that scholars are engaged in learning. We know that there are many ways to respond and that matching is important depending on the child and the situation.

The importance of relationships

Through our use of community circles, and through lessons that foster social emotional as well as academic growth, KIPP Bridge students develop strong connections, a strong accountability to one another, and empathy for how others feel in situations. The stronger

~~these relationships are, the greater the impact when a scholar may need to apologize to a teammate, speak to the class about a challenge s/he is having, or reflect by herself about a poor choice while everyone else gets to continue with the lesson. Relationships are at the core of this work.~~

Modeling healthy responses

~~We teach the KIPP Bridge staff to consistently model healthy interactions and reactions, especially in times when they may be frustrated or tired. Our children learn as much from how they see us act as anything else. We believe that skillful teachers teach discipline and embrace this as a key function of their role, and that the goal of restorative discipline is to restore the child back to the task of learning.~~

~~Therefore, KIPP Bridge will:~~

- ~~● Hold scholars to high and realistic expectations~~
- ~~● Foster strong relationships among scholars~~
- ~~● Recognize that children will make mistakes, and that each day is a new one~~
- ~~● Plan precise directions for each activity and transition to create safe, predictable and productive learning spaces~~
- ~~● Use reminding, redirecting and reinforcing language to help scholars meet academic and social expectations~~
- ~~● Frequently and clearly talk about appropriate behavior~~
- ~~● Provide consequences that are clear, logical, restorative and firm~~
- ~~● See and discuss scholars as individuals~~
- ~~● Restore children to the classroom community by teaching them pro-social skills and building on their strengths.~~

~~Please refer to Element J to learn more about our restorative practices as it relates to discipline.~~

~~We will know that KIPP Bridge has established successful school culture through the following signs and student and teacher actions:~~

~~_____~~
~~_____~~

KIPP Bridge ~~Academy~~ Renewal Petition [2025-2030](#)

Signs of a Successful Culture	Teacher Actions	Student Actions
Students display a love of learning	<ul style="list-style-type: none"> Teachers prioritize creating an engaging curriculum that is infused with joy and allows students to showcase their critical thinking and problem solving skills. We will give our students opportunities to share what they know through partner exchanges and share outs. 	<ul style="list-style-type: none"> Students are open to feedback and critiques. Students are answering questions like “Why did the author write this? What is their goal?” Students are raising hands and showing silent signals to express their excitement and willingness to share what they have learned. Students are producing exemplary work that is displayed in the classrooms.
Grit is at the forefront	<ul style="list-style-type: none"> Teachers create opportunities for students to push through challenging tasks. Teachers celebrate students’ hard work and place an emphasis on effort. 	<ul style="list-style-type: none"> Students acknowledge when something is difficult and continue to try their best. Students prioritize their learning by asking questions when they don’t understand something.
Teamwork is central to academic and social interactions	<ul style="list-style-type: none"> Teachers ensure students are taught how to be successful in multiple environments. This is why we will be purposeful about incorporating character development into everything that we do and this is also why we value the real life experiences we plan for our students such as field lessons or community trips. 	<ul style="list-style-type: none"> Students have a variety of opportunities to demonstrate their knowledge Our students think like a scientist, writer, reader, etc. all at the same time In our planning we aim for depth over breadth. Students will give presentations to their peers. Student leaders will be in each class to greet the various people that come into the classrooms

Signs of a Successful Culture	Teacher Actions	Student Actions
Students demonstrate independence	<ul style="list-style-type: none"> • Our students then will take charge in their end of unit projects and apply learning in a way that is personalized to them • This also related to how much we as a school will prioritize student talk and independent work time in our classrooms. 	<ul style="list-style-type: none"> • Teachers take the time to model their thought processes in all content areas. • Teachers take the time to teach skills rather than steps (teaching algorithm vs. understanding) • Students work in self-directed centers and can share with you what they are working on.
Students value evidence	<ul style="list-style-type: none"> • Students will learn to formulate hypotheses and collect evidence to test these hypotheses. • Students will practice identifying the evidence used in formulating conclusions. • We will make sure that our students have opportunities to speak publicly in front of the school and their class. We will take the time to give them feedback on their oral communication. 	<ul style="list-style-type: none"> • Teachers are repeatedly asking for evidence for our students’ answers “What made you think that?” • Teachers are clearer that right is right, by pushing for evidence. • Teachers have explicit lessons on how to discuss books • Students are demonstrating comprehension through analytical statements more often than through personal connections.
Students use technology and digital media strategically and capably	<ul style="list-style-type: none"> • Each child will be on a computer/ tablet daily to learn how to access information in today’s technology-rich world. • We will understand the difference between a “thinking aim” and a “mastery aim”. We will strive to have students master thinking aims in 	<ul style="list-style-type: none"> • Teachers are perpetually enhancing their own knowledge of technology • Students are using the computers as tools for research, as tools to learn the content, and as tools to create projects. • Teachers are modeling how to identify what is valid research.

Signs of a Successful Culture	Teacher Actions	Student Actions
	<p>conjunction with their mastery aims.</p>	
<p>Students build strong content knowledge</p>	<ul style="list-style-type: none"> • We are clear about what mastery looks like. • We will have spiral assessments in addition to our weekly assessments. 	<ul style="list-style-type: none"> • Teachers plan based on strengths. • Students are aware of what they have mastered and where they are going. • We have a very comprehensive assessment cycle because we understand that our students need to master the content to be successful in college and life.

V.II. Special Populations

KIPP Northern California believes that *all students*, regardless of family background, income, race, religion, disability, gender, or health *can and will learn*. This common belief covers the realm from students behind grade level to ~~special education~~ students with disabilities to English Learners. ~~(EL).~~

KIPP Bridge welcomes students with disabilities. KIPP Bridge recognizes its responsibility to enroll and support all students, regardless of disability, and pledges to continue membership in the El Dorado County Charter Special Education Local Plan Area (“SELPA”) to ensure that a free appropriate public education is provided to all students with disabilities. KIPP Bridge joins all public schools in prioritizing service of students with disabilities and will conduct outreach to such students, recognizing its legal requirement not to discriminate based on ability in admission and the educational program.

KIPP Bridge’s dedicated staff of education specialists, paraeducators and counselors together with KIPP special education department program specialists, psychologists, speech language pathologists, board certified behavior analysts and occupational therapists work closely together with our school leadership team and teachers to ensure that the needs of each student, especially those with Individualized Education Programs , are met. The KIPP Bridge special education staff and service providers meet regularly for program development and to share best practices for supporting special education students. Differentiation is an essential component to all instruction at KIPP Bridge. We work to support the needs of all students, including those who may be academically behind or academically accelerated.

~~KIPP Bridge Academy implements comprehensive programs for all students with special needs, in accordance with applicable state and federal law, and the needs of each student. KIPP Bridge may not provide exemptions on state tests to English Learners or students with disabilities unless otherwise permitted by law.~~

~~Academically Low-Achieving Students with Disabilities~~

Identification and Assessment

KIPP Bridge will use a variety of methods, including parent and teacher referrals, as well as~~and~~ sources of data, to identify students who ~~are most in need of~~ additional support. This includes regular benchmark assessments, standardized tests ~~such as the Developmental Reading Assessment (DRA) and STEP~~, state and national assessments (including the CAASPP and MAP) and other methods. Charter School leadership will use the classroom assessment data to refer, and monitor at-risk students via a Student Success Team model for intensive interventions in math, reading and writing.

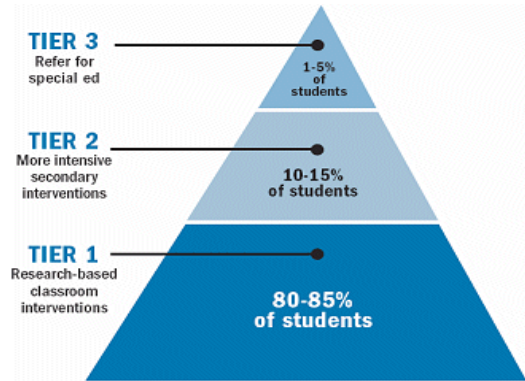

We have developed ~~response to~~ intervention programs to support students who are having difficulty learning or are starting further behind. We utilize a Coordination of Services Team model, a multidisciplinary team of school staff and providers who create a regular forum for reviewing the needs of individual students and the school overall. The COST team leverages a school-wide universal referral system to identify and address student needs holistically and ensure that the overall system of support works together effectively. Student Success Teams, composed of the student, the student’s parent or guardian, the School Leader~~Principal~~, and a KIPP Bridge staff~~faculty~~ member, are responsible for identifying the student’s needs and developing a plan to enable that student to be successful. Student response to general education interventions ~~is~~will be tracked and interventions ~~are~~will be modified as necessary to support individual students’ progress. Students who do not make expected gains despite carefully designed, individualized interventions will be referred to the Special Education team for further evaluation. Each referred student will be assessed in all areas of suspected disability to determine if the student has a disability and qualifies for special education. An IEP will be developed for students who qualify for special education. We involve parents throughout this process to ensure they are informed about their student’s progress and how they can best support his or her development.~~assessment of needs and, where appropriate for the student, development of an individual Education Program (IEP) (see section below).~~

Response to Intervention (RTI)

In class, teachers will use a variety of instructional methods to reach students of all learning modality preferences. With longer school hours and supplemental instruction offered, struggling students will spend more time learning in smaller group environments. The Charter School~~school~~

will utilize a combination of differentiated small group instruction, one-on-one tutorials, and extra support from content area teachers to get students up to grade level. In addition, teachers will be available during limited hours to provide additional help to students with homework by phone, ~~in the evenings and on weekends~~. Students who are behind grade level or in jeopardy of retention will be individually counseled and given extra help in their specific areas of need.

The content of the KIPP Bridge curriculum will focus on the necessary remediation of basic skills, when applicable, coupled with an emphasis on higher order thinking processes in all content areas. Interventions are necessary to support students who are struggling academically. Teachers will use materials that are aligned with a student's Lexile and/or performance level, and will also utilize digital content solutions that target specific skills that a student needs to develop.

~~KIPP Bridge upper school uses a traditional three-tiered approach to RTI, with 10-15% of students in RTI for math and/or reading. NWEA MAP's reading and math assessments are used as the universal screeners. All 5th-8th graders who scored in the bottom quartile are assessed further in order to determine specific skill needs, crosscheck data from MAP, and prioritize the students who are most in need of intensive support. The upper school schedule is strategically designed to release the most skilled reading and math teachers for RTI instruction. This schedule also allows for students to be in both reading and math intervention. All students are reassessed a minimum of three times per year on MAP to ensure that the RTI groups are serving the students who are most in need of intervention.~~

~~For reading intervention, upper school students are assessed with Fountas and Pinnell's Benchmark Assessment System. This data is used to make small reading groups based on reading levels. Teachers use Fountas and Pinnell's Leveled Literacy Intervention (LLI) as their curriculum. LLI also serves as their tool for progress monitoring, using the conferencing and reading record materials that are embedded in the system. Students in intervention groups receive 150 minutes of reading intervention each week. Students who are not in a small reading group are engaged in reading activities during this time. Depending on student need, students do Lexia Core 5, use Accelerated Reader, or read independently. In the lower school, all students are~~

assessed with STEP and receive LLI instruction and personalized learning through Lexia Core 5 during their literacy block.

In grades 5 through 8, all students participate in personalized learning for math during the RTI block. The students in need of the most intensive math intervention receive targeted small group instruction with the math teacher in order to fill the students' gaps in foundational skills. These students have 70 minutes of math intervention each week. For students who are not in a small math group, the table below indicates their personalized learning program:

Student Group	Personalized Learning Program
5th and 6th graders who perform BELOW grade level in math	Zearn Math
5th and 6th graders who perform AT grade level or higher in math	Khan Academy
7th and 8th graders who perform BELOW grade level in math	ST Math
7th and 8th graders who perform AT grade level or higher in math	Khan Academy

KIPP Bridge will regularly monitor student progress through curriculum-based assessments and make adjustments to interventions as appropriate.

In transitional kindergarten through 4th grade, all students receive personalized learning through ST math during their math block. Students in 3rd and 4th grade also receive small group assistance on foundational skills during their extended math block.

Family Involvement

Families are an essential component of supporting student success. Teachers will regularly notify parents about the academic standing of their student(s). Progress reports, benchmark exam scores, teacher notes and phone calls and comments on homework assignments are several examples of how parents may be notified of their child's progress. Parents also have access to students' grades via PowerSchool. As each student's progress is tracked in one or more of these methods, a request for a Student Success Team may be offered when expected progress is not demonstrated within the appropriate time period.

Academically High-Achieving Students

All courses at KIPP Bridge will maintain a standard of rigor that challenges our most academically advanced students, who are identified through the same methods as academically low-achieving students. Teachers and teachers will develop individualized strategies to engage and challenge these students so that they can continue to accelerate their learning.

KIPP Bridge ensures that

We have a plan to ensure every teacher will be ready to set classroom routines and rely on digital formative assessments and adaptive online content to ensure that all students have the opportunity to continue learning after they complete the day's objective during class.

KIPP Bridge also plans to use MAP assessment data to assign weekly personalized usage targets for each student to meet for adaptive online programs in ELA and math. High-achieving students are placed at above-grade levels in each program and/or expected to meet higher progress/per week targets.

Because all students are challenged to reach their intellectual potential~~potentials~~ within the instructional program, KIPP Bridge will~~does~~ not plan to offer a formal, separate program for academically high-achieving students. However, as described, KIPP Bridge will equip teachers with the necessary tools to enable high-achieving students to continue advancing.

We believe that strong family communication is essential to our children's success. One method of communicating academic success to families is through progress reports. Progress reports will be printed and sent home with students two times per month. The purpose of progress reports is to help share information with families about what their child has mastered and what their child needs more support on; they are not part of the student's formal academic record or final grade. Progress reports will also be available for families to view online through ParentSquare.

Special Education

General Assurances and Overview

Students with Disabilities

~~KIPP Bridge embraces Academy recognizes~~ its responsibility to enroll and support all students, and pledges to ensure that a free appropriate public education (“FAPE”) is provided to all students with students with disabilities . The Charter School will who can benefit from its programs and who otherwise qualify for enrollment, and ensure that a free and appropriate education is provided to all students with exceptional needs. KIPP Bridge Academy shall comply with all applicable state and federal laws in serving students with disabilities, including, but not limited to, Section 504 of the Rehabilitation Act (“Section 504”), Title II of the Americans with Disabilities Act (“ADA”) and the Individuals with Disabilities ~~in~~ Education Improvement Act (“IDEA”), and any other civil rights laws enforced by the U.S. Department of Education Office for Civil Rights (“OCR”). The language in this section is intended to provide a reasonably comprehensive description of the special education program in the charter petition, in accordance with Education Code Section 47605(c). IDEA”.

KIPP Bridge will be its own local educational agency (“LEA”) and will continue membership in the El Dorado County Charter SELPA, in conformity with Education Code Section 47641(a). As a member of the El Dorado County Charter SELPA, KIPP Bridge assumes full responsibility for providing special education and related services to eligible students of the Charter School, in accordance with state and federal law. KIPP Bridge agrees to follow policies and procedures of the El Dorado County Charter SELPA and will utilize SELPA forms and information systems necessary to identify and serve students who qualify for special education. KIPP Bridge agrees to collaborate with the SELPA to respond to inquiries and requests and provide access to information and records, as needed, and will be responsible for maintaining confidentiality of student records. KIPP Bridge is in good standing with the El Dorado County Charter SELPA, as documented in Appendix 10.

~~KIPP Bridge Academy shall continue to operate as its own local educational agency (“LEA”) and a member of the El Dorado County Charter School Special Education Local Plan Area (“SELPA”) in accordance with Education Code Section 47641(a).~~

KIPP Bridge ~~Academy~~ Renewal Petition 2025-2030

In the event KIPP Bridge ~~seeks Academy~~ seeks membership in a different state-approved SELPA, KIPP Bridge ~~Academy~~ will provide notice to the District, ~~the SELPA~~, and the ~~California Department of Education~~ SELPA before June 30th of the year before services are to commence. Although a change in LEA status or SELPA membership shall not require a material revision of KIPP Bridge charter, it may require an update of the parties' memorandum of understanding ("MOU") to reflect these changes in legal status.

KIPP Bridge will participate in the quality assurance process for special education as outlined by the state of California (i.e., special education plans, coordinated compliance self-reviews, compliance monitoring, procedural safeguards, and the local plan).

Services for Students Under the IDEA

KIPP Bridge is committed to providing a free appropriate public education that will meet each student's unique needs in the least restrictive environment ("LRE"). The Charter School shall develop an appropriately ambitious individualized education program reasonably calculated to enable the student to make progress appropriate in light of their circumstances in accordance with IDEA, Education Code requirements, and SELPA policies and practices.

Instruction shall be provided in accordance with each student's IEP in the least restrictive environment (preferably the general education setting) with access to rigorous and standards-based curriculum. If a student's IEP team determines that, in order to make progress appropriate to the student's circumstances, the student requires placement outside of a general education classroom, the Charter School shall provide the necessary placement and/or services. The instruction outlined in each student's IEP will be delivered by personnel qualified to do so.

KIPP Bridge shall utilize SELPA forms and follow SELPA policies and procedures in seeking out and identifying and serving students who may qualify for special education programs and services and for responding to record requests and parent complaints, and maintaining the confidentiality of pupil records.

KIPP Bridge agrees to promptly respond to all and provide to the District or SELPA inquiries, to comply with reasonable District or SELPA directives, and to allow the District or SELPA access to Charter School students, staff, facilities, equipment and records as required to fulfill all applicable District or SELPA obligations imposed by law.

Staffing

All special education services at KIPP Bridge will be delivered by individuals or agencies qualified to provide special education services as required by the Education Code and the IDEA. Charter School staff shall participate in SELPA in-service training relating to special education.

KIPP Bridge will be responsible for the hiring, training, and employment of staff necessary to provide special education services to its students, including, without limitation, special education teachers, paraprofessionals, and mental health clinicians. KIPP Bridge shall ensure that all special education staff hired or contracted by KIPP Bridge is qualified pursuant to SELPA policies, as well as meet all legal requirements. KIPP Bridge shall be responsible for the hiring, training, and employment of related services staff necessary to provide special education services to Charter School students, including, without limitation, speech language pathologists, occupational therapists, behavior analysts, and school psychologists.

Together, KIPP Northern California and KIPP Bridge will carefully review enrollment of students with IEPs each year in order to determine staffing of special education teachers, paraeducators and related service providers at the Charter School. The Special Education team at KIPP Northern California will provide coaching and support for all special education teachers, paraeducators and service providers at KIPP Bridge, as well as professional development and consultation for all staff working with students with disabilities, to ensure that all aspects of the IEP and 504 plans are properly implemented.

KIPP Bridge recognizes that all teachers are essential for the implementation of the student’s individualized education program and shall ensure that general education teachers receive training and supervision necessary to properly implement IEPs and 504 plans.

The term “assessments” shall have the same meaning as the term “evaluation” in the IDEA, as provided in Section 1414, Title 20 of the United States Code. KIPP Bridge will determine what assessments, if any, are necessary and arrange for such assessments for referred or eligible students in accordance with applicable law. KIPP Bridge shall obtain parent/guardian consent to assess students and no assessment or evaluation shall be used for admission purposes.

As an independent LEA for special education purposes, when, in the event that KIPP Bridge receives a written request for evaluation, it will be solely responsible for working with parents/guardians to address the request and shall follow SELPA policies, procedures, and timelines. The Charter School shall respond to a written request for assessment within fifteen (15) days with a written Assessment plan if the Charter School concludes that an assessment is appropriate. If the Charter School concludes that an assessment is not appropriate, the Charter School shall respond within fifteen (15) days with a Prior Written Notice.

Upon receipt of the consented Assessment Plan, the Charter School shall conduct an evaluation and hold an IEP meeting within sixty (60) days, not including school breaks greater than five (5) days, of receipt of the parent’s/guardian’s written consent for assessment. Parents/guardians shall be informed that special education and related services are provided at no cost to them.

A staff member will be responsible for gathering all pertinent information and arranging for assessments to be conducted in all areas of suspected disability. Information gathered will be used as tools to determine the student’s disability, eligibility for services, and determining the nature and extent of required services. The types of assessments that may be used for determining eligibility for specialized instruction and services will include, but not limited to:

- Individual testing
- Teacher observations
- Interviews
- Review of school records, reports, and work samples
- Parent input

KIPP Bridge will follow the following assessment guidelines. If a conflict with SELPA policies and procedures exists, then SELPA policies and procedures will govern. KIPP Bridge assumes full responsibility for assessments.

- Parents or guardians of any student referred for assessment must give their written consent for the Charter School to administer the assessment.
- The assessment will be completed and an Individualized Education Program meeting held within 60 days of receipt of the parent’s written consent for assessment.
- The student must be evaluated in all areas related to their suspected disability
- Assessments must be conducted by a person with knowledge of the student’s suspected disability, and administered by trained and knowledgeable personnel and in accordance with any instructions provided by the producer of the assessments. Individually administered tests of intellectual or emotional functioning must be administered by a credentialed school psychologist.
- Assessments will be selected and administered so as not to be racially, culturally, or sexually discriminatory.
- Assessments will be delivered in the student’s primary language, and a qualified interpreter will be provided if needed.
- Assessment tools must be used for purposes for which the assessments or measures are valid and reliable.
- Assessments will be adapted as necessary for students with impaired sensory, physical or speaking skills.
- A multidisciplinary team will be assembled to assess the student, including a teacher knowledgeable in the disability.

Upon completion of the assessment, an IEP team will be assembled to review the results of the assessment and determine the student’s eligibility for special education. KIPP Bridge will be responsible for scheduling, coordinating and facilitating the IEP meeting. Educators qualified to interpret test results will present the assessment data at the IEP meeting. Parents/guardians will be provided with written notice of the IEP meeting, and the meeting

will be held at a mutually agreeable time and place. Interpretation will be provided in the parent's preferred language when requested.

IEP Development

KIPP Bridge understands that the decisions regarding eligibility, goals/objectives, program, services, placement, and exit from special education shall be the decision of the IEP team, pursuant to the IEP process. Programs, services and placements shall be provided to all eligible Charter School students in accordance with the policies, procedures and requirements of the SELPA and State and Federal law.

IEP Implementation and Review

Every student who is assessed for special education will have an IEP that documents assessment results and eligibility determination for special education services.

KIPP Bridge shall be responsible for all school site implementation of the IEP, which will be designed to provide supports and services in the least restrictive environment. As part of this responsibility, IEP goals and services will be linguistically appropriate, as per Education Code Section 56345(b). KIPP Bridge shall provide all home-school coordination and information exchange. KIPP Bridge shall also be responsible for providing all curriculum, classroom materials, classroom modifications, and assistive technology.

KIPP Bridge shall be responsible for conducting IEP reviews and determining necessary supports, services, placements, in accordance with SELPA policies and all applicable laws. The IEP team will formally review the student's IEP at least once a year to determine how the IEP is meeting their needs.~~verifiable assurances of the school's membership in such SELPA.~~ In accordance with IDEA regulations, the IEP team will also conduct a formal review of the IEP once every three years, in which the student is reassessed to determine continuing eligibility and the IEP is reviewed as part of an overall comprehensive reevaluation of the student's progress.

Unless otherwise specified on the student's IEP, KIPP Bridge shall provide parents with timely reports on the student's progress toward meeting annual goals as provided in the student's IEP at least as frequently as report cards are provided for KIPP Bridge's non-special education students, and whether the student is expected to meet their annual goals. The Goals and Objectives section of the IEP will be an attachment to the general progress report. This will serve to document the method by which the student's progress toward achieving the annual goal is measured, the student's progress during the relevant period, the extent to which it is anticipated that the student will achieve the annual goal prior to the next annual review, and where needed, the reasons the student did not meet the goal.

If a parent/guardian or faculty member feels the student's educational needs are not being met, they may request a reassessment or a review of the IEP by the IEP team at any time during the year via written notice to the Charter School. Once the request is received, KIPP Bridge will have thirty (30) days, not including school breaks greater than five (5) days, to hold the IEP meeting.

IEP Meetings

KIPP Bridge shall arrange and notice the necessary IEP meetings. IEP team membership shall be in compliance with state and federal law. KIPP Bridge shall be responsible for having the following individuals in attendance at the IEP meetings: the School Leader and/or KIPP Bridge designated representative with appropriate administrative authority as required by the IDEA; the student's special education teacher; the student's general education teacher if the student is or may be in a regular education classroom; a parent/guardian; the student, if appropriate; and other Charter School representatives who are knowledgeable about the regular education program at KIPP Bridge and/or about the student. KIPP Bridge shall arrange for the attendance or participation of all other necessary staff that may include, but are not limited to, an appropriate administrator to comply with the requirements of the IDEA, a speech therapist, psychologist, occupational therapist, or behavior specialist; and shall document the IEP meeting and provide notice of parental rights.

KIPP Bridge will provide an interpreter at IEP meetings if necessary to ensure that all parents and/or guardians understand and can participate in the IEP process. If a parent cannot attend

the IEP meeting, the Charter School will ensure their participation using other methods, such as video or phone conferencing or meeting at the parent's home.

A copy of the IEP will be given to the parent/guardian in accordance with state and federal laws. Upon the parent or guardian's written consent, the IEP will be implemented by KIPP Bridge. The IEP will include all required components and be written on SELPA forms.

The student's IEP will include the following:

- A statement of the student's present levels of academic achievement and functional performance
- The rationale for placement decisions, including cogent and responsive explanations for the recommendations
- The services the student will receive and the means for delivering those services
- A description of when services will begin, how often the student will receive them, who will provide them, and where they will be delivered
- Measurable annual goals and short-term objectives focusing on the student's current level of performance and appropriately ambitious for the student's circumstances; The goals and objectives will also be linguistically appropriate, as per Ed Code Section 56345(b)
- A description of how the student's progress toward meeting the annual goals will be measured and monitored and when reports will be provided
- Accommodations necessary to measure the academic achievement and functional performance of the pupil on state and district assessments
- For students 16 years of age and older, measurable postsecondary goals related to training, education, employment and independent living skills, along with transition services needed to assist the student in reaching those goals
- The IEP shall be reasonably calculated to enable the child to make progress appropriate in light of the student's circumstances

IEP meetings will be held according to the following schedule:

KIPP Bridge ~~Academy~~ Renewal Petition 2025-2030

- Yearly to review progress toward student’s annual goals and make any necessary changes
- Every three years to review the results of a mandatory comprehensive reevaluation of the student’s eligibility and progress
- After the student has received a formal assessment or reassessment
- When an Individual Transition Plan (“ITP”) is required at the appropriate age
- If a meeting is required to determine if a student’s conduct was a manifestation of the student’s disability
- If the parent or guardian has requested a review of the student’s progress

Special Education Strategies for Instruction and Services

If KIPP Bridge operates as an independent LEA for special education purposes, KIPP Bridge will offer a comprehensive inclusion program that may include, but is not limited to, depending on the needs of the individual student as determined by their IEP team: push-in services, pull-out services, small group instruction, one-on-one instruction, speech, counseling, occupational therapy, co-teaching, and extended school year. Each student’s IEP requires different kinds of accommodations and modifications for instruction and services; therefore, the educational strategies of the IEP will be built around the student’s needs. The instruction outlined in each student’s IEP will be delivered by personnel qualified to do so.

Interim and Initial Placements of New Charter School Students

KIPP Bridge shall comply with Education Code Section 56325 with regard to students transferring into the Charter School within the academic school year. KIPP Bridge shall provide transferring students with FAPE, including services comparable to those listed in the existing IEP.

In accordance with Education Code Section 56325(a)(1), for students who enroll in KIPP Bridge from another school outside of the same SELPA as KIPP Bridge, with a current IEP within the same academic year, KIPP Bridge shall provide the pupil with FAPE, including services comparable to those described in the previously approved IEP, in consultation with the parent(s)/guardian(s), for a period not to exceed thirty (30) days, by which time the Charter School shall adopt the previously approved IEP or shall develop, adopt, and implement a new IEP that is consistent with federal and state law.

In accordance with Education Code Section 56325(a)(2), in the case of a student with disabilities who has an IEP and transfers into KIPP Bridge from a different school within the same SELPA as KIPP Bridge, within the same academic year, KIPP Bridge shall continue to provide services comparable to those described in the existing approved IEP, unless the parent(s)/guardian(s) and KIPP Bridge agree to develop, adopt, and implement a new IEP that is consistent with federal and state law.

For students transferring to KIPP Bridge with an IEP from outside of California during the same academic year, KIPP Bridge shall provide the pupil with FAPE, including services comparable to those described in the previously approved IEP in consultation with the parent(s)/guardian(s), until KIPP Bridge conducts an assessment pursuant to paragraph (1) of subsection (a) of Section 1414 of Title 20 of the United States Code, if determined to be necessary by KIPP Bridge, and develops a new IEP, if appropriate that is consistent with federal and state law.

KIPP Bridge will cooperate with the District regarding sharing information as required by the Education Code.

Mental Health

Whenever necessary, as evidenced by student need, parent/guardian referral or recommendation of a mental health professional on staff, an assessment plan to determine eligibility for Educationally Related Mental Health Services, will be offered to the parent/guardian for consent. If eligible, the student will be provided ERMHS as part of their IEP supports and services.

Professional Development for KIPP Bridge Staff

KIPP Bridge shall seek professional development opportunities for its staff through training opportunities facilitated by the SELPA, Diagnostic Center of Northern California, colleges and universities, and private companies or agencies to ensure compliance with state and federal special education laws as well as implementation of best practices for students with disabilities.

Non-Public School Placements/Non-Public Agencies

KIPP Bridge ~~Academy~~ Renewal Petition [2025-2030](#)

KIPP Bridge shall be solely responsible for selecting, contracting with, and overseeing all non-public schools and non-public agencies used to serve special education students.

Non-discrimination

It is understood and agreed that all children will have access to KIPP Bridge and no student shall be denied admission nor counseled out of KIPP Bridge due to the nature, extent, or severity of their disability or due to the student’s request for, or actual need for, special education services.

Reporting

KIPP Bridge, in collaboration with the SELPA, will collect and maintain the following information on disabled students as required by IDEA:

- A calculation of all school-age students with disabilities being provided special education services by age, grade, category of disability and the number of students with disabilities who are English Learners
- The number of students provided with test modifications and the types and the number of students exempted from Statewide assessments
- The settings in which students with disabilities receive their services, specifically including the portion of the school day they receive services with non-disabled peers and time away from the regular classroom
- The number of students with disabilities suspended "in-school" and out of school, organized by disability and length of suspensions
- The basis of exit from KIPP Bridge of students with disabilities (i.e. attainment of diploma and type, declassified, moved, etc.)

All necessary procedures and practices to ensure confidentiality and accurate/timely reporting will be the responsibility of KIPP Bridge. The designated staff member will ensure that a central file with all special education evaluation material and IEPs is maintained and that this file is locked and confidential, in accordance with IDEA guidelines. The staff member will oversee access to these records, and will be responsible for ensuring that all providers responsible for the implementation of a student’s IEP will have access to a copy of the IEP and will be informed of their specific the event KIPP Bridge Academy seeks to be categorized

~~as a public school of the District solely for purposes of providing special education and related services under the IDEA in accordance with Education Code Section 47641(b), KIPP Bridge Academy will provide required notices and anticipates that a Memorandum of Understanding (“MOU”) would be developed between the District and KIPP Bridge Academy which spells out in detail the responsibilities in implementing the IEP.~~

Parent/Guardian Complaints and Procedural Safeguards

Parents/guardians of students with IEPs at KIPP Bridge must give written consent for the evaluation and placement of their child, be included in the decision-making process when change in placement is under consideration, and be invited, along with teachers, to conferences and meetings to develop their child’s IEP.

KIPP Bridge is committed to the assessment, identification, and placement of students with special needs in the appropriate and least restrictive environment. KIPP Bridge understands the requirement under the IDEA to follow procedures to provide access to due process and the protections conferred by procedural safeguards, which are required by federal law.

KIPP Bridge shall provide a copy of the “Notice of Procedural Safeguards and Parents’ Rights” to the parent a minimum of one time yearly. The Notice of Procedural Safeguards shall also be provided to parents:

- Upon initial referral or parental request for evaluation
- When sending out an Assessment Plan and/or Prior Written Notice
- Upon receipt of the first state complaint in the school year
- Upon receipt of the first due process complaint in the school year
- In accordance with disciplinary procedures
- Upon parental request

KIPP Bridge shall adopt policies and procedures for the investigation and resolution of parental concerns or complaints related to special education services including alleged violation of federal or state laws governing educational programs.

KIPP Bridge shall include in its policies and procedures the employee(s) responsible for receiving complaints, investigating complaints and ensuring compliance. KIPP Bridge’s policies shall ensure that the employee(s) responsible for compliance and/or investigations shall be knowledgeable about the laws/programs that they are assigned to investigate.

KIPP Bridge shall acknowledge parent complaints within five (5) business days. The parents shall be offered a voluntary resolution session (alternative dispute resolution (“ADR”)) to address and resolve concerns that prompted the complaint. If a disagreement or concern persists, parents/guardians have the right to initiate a due process hearing to challenge a decision regarding the identification, evaluation, or educational placement of their child.

Due Process Hearings

Under IDEA, due process hearings are a principal vehicle for resolving disputes between parents of children with disabilities and LEAs concerning identification, evaluation, placement or for provision of FAPE (34 CFR 300.511). Parents, students who have reached the age of majority, and LEAs may request a due process hearing. KIPP Bridge acknowledges its responsibility to resolve disputes or defend due process complaints arising as a result of the Charter School’s alleged failure to provide FAPE to students enrolled in the Charter School. ~~special education services and the manner in which special education funding will flow to the students of KIPP Bridge Academy.~~

KIPP Bridge may also initiate a due process hearing or request for mediation with respect to a student enrolled in the Charter School if it determines such action is legally necessary or advisable. In the event that the parents/guardians file for a due process hearing, KIPP Bridge shall defend the case.

Complaint Procedures

The Charter School shall adopt policies for responding to parental concerns or complaints related to special education services. The Charter School shall receive any concerns raised by parents/guardians regarding related services and rights.

The Charter School’s designated representative shall investigate as necessary, respond to, and address the parent/guardian concern or complaint.

SELPA Representation

KIPP Bridge understands that it shall represent itself at all SELPA meetings.

Funding

KIPP Bridge understands that it will be subject to the allocation plan of the SELPA.

~~KIPP Bridge Academy shall comply with all state and federal laws related to the provision of special education instruction and related services and all SELPA policies and procedures; and shall utilize appropriate SELPA forms. KIPP Bridge Academy may request related services (e.g. Speech, Occupational Therapy, Adapted P.E., Nursing, and Transportation) from the SELPA, subject to SELPA approval and availability. KIPP Bridge Academy may also provide related services by hiring credentialed or licensed providers through private agencies or independent contractors.~~

~~KIPP Bridge Academy shall be solely responsible for its compliance with Section 504 and the ADA. The facilities to be utilized by KIPP Bridge Academy shall be accessible for all students with disabilities.~~

The ARISE Program

~~The ARISE program (Academic Rigor, Independence, Social Skills, and Emotional Intelligence) was started in September 2016 to support the success of our students with severe difficulties in communication, socialization and behavior. School administrators implemented this program in response to the needs of our incoming class of students.~~

~~The ARISE planning and implementation team is guided by KIPP’s following Essential Questions:~~

~~_____~~

~~KIPP Bridge Academy Renewal Petition [2025-2030](#)~~

~~_____~~

~~_____~~

~~_____~~

~~_____~~

- ~~Are we serving the children who need us?~~
- ~~Are our students progressing and achieving academically?~~

~~ARISE is also guided by the beliefs that:~~

- ~~Students with disabilities are general education students first and foremost, worthy of equal respect, opportunities, treatment, status and place.~~
- ~~KIPP educates all students.~~
- ~~All students should be educated in the Least Restrictive Environment.~~
- ~~We can find a solution to any challenge.~~

~~The mission of the ARISE program is to prepare students with severe difficulties in communication, socialization and behavior for a lifetime of learning, employment and civic engagement. Recognizing the unique needs of each student, the ARISE team will provide interventions to enable students to fully participate in and benefit from their KIPP school community. We acknowledge that students are most successful when their family is supported and included as an active member in the development of the student's educational program. Therefore, parent collaboration and training, is an important component of the ARISE program.~~

~~With the understanding that every minute and every interaction provides opportunity for learning, the ARISE team will meet the goals of students by:~~

- ~~Providing meaningful opportunities for participation in general education classes and the greater school community~~
- ~~Incorporating evidence-based interventions into each student's learning plan and IEP services~~
- ~~Evaluating intervention effectiveness through frequent data collection~~
- ~~Encouraging regular parent engagement by creating a welcoming environment and appropriate learning opportunities~~
- ~~Including the student's perspective when developing learning plans as much as possible~~
- ~~Promoting opportunities for generalization of skills in settings outside of school~~
- ~~Providing regular professional development to all members of the school community~~

Section 504 of the Rehabilitation Act

~~KIPP Bridge Academy recognizes its legal responsibility to ensure that no qualified person with a disability shall, on the basis of disability, be excluded from participation, be denied the~~

~~KIPP Bridge Academy Renewal Petition [2025-2030](#)~~

benefits of, or otherwise be subjected to discrimination under any program of KIPP Bridge Academy. Any student, who has a physical or mental impairment that an objectively identified disability which substantially limits one or more a major life activities, has a record of such an impairment, or is regarded as having such an impairment activity including but not limited to learning, is eligible for protections under Section 504 accommodation by KIPP Bridge Academy.

KIPP Bridge shall be solely responsible for its compliance with Section 504 and the ADA. The facilities to be utilized by KIPP Bridge shall be accessible for all students with disabilities.

A 504 team will be assembled by the School Leader/Principal and shall include the parent/guardian, the student (where appropriate) and other qualified persons knowledgeable about the student, the meaning of the evaluation data, placement options, and accommodations. The 504 team will review the student's existing records, including academic, social and behavioral records, and is responsible for making a determination as to whether an evaluation for 504 services or accommodations is appropriate. If the student has already been evaluated under the IDEA/DEIA but found ineligible for special education instruction or related services under the IDEA/DEIA, those evaluations may be used to help determine eligibility under Section 504. The student evaluation shall be carried out by the 504 team, which will evaluate the nature of the student's disability and the impact upon the student's education. This evaluation will include consideration of any behaviors that interfere with regular participation in the educational program and/or activities. The 504 team may also consider the following information in its evaluation:

- Tests and other evaluation materials that have been validated for the specific purpose for which they are used and are administered by trained personnel-
- Tests and other evaluation materials including those tailored to assess specific areas of educational need, and not merely those which are designed to provide a single general intelligence quotient-
- Tests are selected and administered to ensure that when a test is administered to a student with impaired sensory, manual or speaking skills, the test results accurately reflect the student's aptitude or achievement level, or whatever factor the test purports to measure, rather than reflecting the student's impaired sensory, manual or speaking skills-

The final determination of whether the student ~~is eligible for services will~~ or accommodations under Section 504 must ~~will not~~ be ~~identified as a person with a disability is~~ made by the 504 team. ~~Written in writing and~~ notice of the eligibility determination will be provided ~~is given in writing~~ to the parent or guardian of the student in their primary language, along with notice of the procedural safeguards available to them. If during the evaluation, the 504 team obtains information indicating possible eligibility of the student for special education per the IDEA/DEIA, a referral for assessment under the IDEA/DEIA will be made by the 504 team.

If the student is found by the 504 team to qualify for services and supports ~~have a disability~~ under Section 504, the 504 team shall be responsible for determining what, if any, accommodations or services are needed to ensure that the student receives FAPE, a free and appropriate public education (“FAPE”). In developing the 504 Plan, the 504 team shall consider all relevant information utilized during the evaluation of the student, drawing upon a variety of sources, including, but not limited to, assessments conducted by the Charter School’s KIPP Bridge Academy’s professional staff.

The 504 Plan shall describe the Section 504 disability and any program accommodations, modifications or services that may be necessary.

All 504 team participants, parents, guardians, teachers and any other participants in the student’s education, including substitutes and tutors, must have a copy of each student’s 504 Plan. The site administrator will ensure that teachers include 504 Plans with lesson plans for short-term substitutes and that he/she review the 504 Plan with a long-term substitute. A copy of the 504 Plan shall be maintained in the student’s file. Each student’s 504 Plan will be reviewed at least once per year to determine the appropriateness of the Plan, needed modifications to the plan, and continued eligibility.

English Learners

KIPP Bridge will comply with all applicable legal requirements for English Learners, including long-term English Learners (“LTELs”) or English Learners at risk of becoming long-term English

Learners, as they pertain to annual notification to parents, student identification, placement, program options, EL and core content instruction, teacher qualifications and training, reclassification to fluent English proficient status, monitoring and evaluating program effectiveness, and standardized testing requirements. KIPP Bridge will meet all requirements of federal and state law relative to equal access to the curriculum for English Learners. KIPP Bridge will implement policies to assure proper placement, evaluation, and communication regarding ELs and the rights of students and parents.

The Charter School

Services for Students under the “IDEIA”

~~KIPP Bridge Acaedmy shall provide special education instruction and related services in accordance with the provision of special education instruction and related services in accordance with the IDEIA, Education Code requirements, and applicable policies and practices of the SELPA. KIPP Bridge has adopted its own policies and procedures which will align with SELPA policies and procedures, and utilizes SELPA forms in seeking out and identifying and serving students who may qualify for special education programs and services and for responding to record requests and maintaining the confidentiality of pupil records.~~

~~KIPP Bridge Academy agrees to promptly respond to all SELPA inquiries, and to comply with SELPA directives. KIPP Bridge Academy is exclusively responsible for the provision of services (including but not limited to referral, identification, assessment, case management, Individualized Education Plan (“IEP”) development, modification and implementation).~~

Staffing

~~All special education services at KIPP Bridge Academy is delivered by individuals or agencies qualified to provide special education services as required by California’s Education Code and the IDEIA. KIPP school staff participates in in-service training relating to special education by KIPP Bridge Academy and/or the SELPA.~~

~~KIPP Bridge Academy is responsible for the hiring, training, and employment of site staff necessary to provide special education services to its students, including, without limitation, special education teachers, paraprofessionals, and resource specialists. KIPP Bridge Academy ensures that all special education staff hired by KIPP Bridge are qualified pursuant to SELPA~~

~~Bridge Academy designated representative with appropriate administrative authority as required by the IDEIA; the student's special education teacher; the student's general education teacher if the student is or may be in a regular education classroom; the parent(s) or legal guardian(s) if the student is under 18 years old; the student if he/she is 18 years or older, or as appropriate; and other KIPP school representatives who are knowledgeable about the regular education program at KIPP Bridge Academy and/or about the student. KIPP Bridge Academy shall also arrange for the attendance or participation of all other necessary staff that may include, but are not limited to, an appropriate administrator to comply with the requirements of the IDEIA, a speech therapist, psychologist, resource specialist, and behavior specialist; and shall document the IEP meeting and provide the notice of parental rights.~~

~~IEP Development~~

~~KIPP Bridge Academy understands that the decisions regarding eligibility, goals/objectives, program, services, placement, and exit from special education shall be its own, exclusively. Programs, services and placements are provided to all eligible KIPP school students in accordance with the policies, procedures and requirements of the SELPA and State and Federal law.~~

~~IEP Implementation~~

~~KIPP Bridge Academy is responsible for all school site implementation of the IEP. As part of this responsibility, KIPP Bridge Academy provides parents with timely reports on the student's progress as provided in the student's IEP at least as frequently as progress reports are provided for KIPP Bridge Academy's non-special education students. KIPP Bridge Academy also provides all home-school coordination and information exchange. KIPP Bridge Academy is responsible for providing all curriculum, classroom materials, classroom modifications, and assistive technology.~~

~~Interim and Initial Placements of New KIPP School Students~~

~~For students who enroll during the school year in KIPP Bridge Academy from another school district outside of the SELPA with a current IEP, KIPP Bridge shall conduct an IEP meeting within thirty days. Prior to such meeting and pending agreement on a new IEP, KIPP Bridge shall implement the existing IEP at KIPP Bridge, to the extent practicable or as otherwise agreed between KIPP Bridge and parent/guardian.~~

~~Non-Public Placements/Non-Public Agencies~~

~~KIPP Bridge Academy is solely responsible for selecting, contracting with, and overseeing all non-public schools and non-public agencies used to serve special education students. KIPP Bridge shall immediately address all parental requests for services from non-public schools or agencies, unilateral placements, and/or requests for reimbursement.~~

~~Professional Development for KIPP Bridge Staff~~

~~The Principal, regular and special education teaching staff, as well as other appropriate faculty and staff members will attend professional development and/or training meetings necessary to comply with state and federal special education laws, including those sponsored by Oakland Unified School District or the SELPA.~~

~~Non-discrimination~~

~~It is understood and agreed that all students have access to KIPP Bridge Academy and no student shall be denied admission nor counseled out of KIPP Bridge due to the nature, extent, or severity of his/her disability or due to the student’s request for, or actual need for, special education services.~~

~~Parent/Guardian Concerns and Complaints~~

~~KIPP Bridge Academy has adopted policies and procedures in alignment with SELPA policies as they apply to responding to parental concerns or complaints related to special education services. KIPP Bridge’s designated representative shall investigate as necessary, respond to, and address the parent/guardian concern or complaint.~~

~~KIPP Bridge Academy shall timely schedule meetings with parents/guardians or their representatives to address the parent/guardian concerns or complaints so that a representative of each entity may attend. KIPP Bridge Academy, as the LEA, shall be ultimately responsible for determining how to respond to parent concerns or complaints. KIPP Bridge shall respond to any complaint to or investigation by the California Department of Education, the United States Department of Education, Office of Civil Rights or any other agency.~~

~~Due Process Hearings~~

~~_____~~
~~_____~~

KIPP Bridge Academy Renewal Petition [2025-2030](#)

_____ 1592017 – 2022
_____ 159

~~KIPP Bridge Academy may initiate a due process hearing or request for mediation with respect to a student enrolled at KIPP Bridge if it determines such action is legally necessary or advisable. In the event that the parents/guardians file for a due process hearing, or request mediation, KIPP Bridge shall defend the case.~~

~~SELPA Representation~~

~~KIPP Bridge Academy shall represent itself at all SELPA meetings.~~

~~Funding~~

~~KIPP Bridge Academy is subject to the allocation plan of the SELPA.~~

~~English Learners~~

~~KIPP Bridge Academy complies with all federal, state, and judicial mandates for English Learners. An evaluator tests and assesses the English proficiency of students having an English Learner (EL) classification using the California English Language Development Test (CELDT).~~

~~KIPP Bridge is dedicated to providing English Learners with an exceptional education and transitioning them into English Proficiency as soon as possible. The school recognizes the importance of valuing students’ native languages, and reinforces an appreciation for the cultures, customs, and languages of all its students through the Charter School’s~~school’s~~ core curriculum, enrichment programs, ~~and~~ life-skills curriculum, and culturally responsive pedagogy.~~

Students at KIPP Bridge with limited proficiency in English will achieve proficiency in the English language as quickly as possible through the use of the Charter School’s~~school’s~~ services and teaching methods that support English language development in each of the four domains: listening, reading, writing, and speaking. KIPP Bridge will have the necessary supports to ensure~~ensures~~ that regardless of English proficiency, all EL students are included in~~not excluded from~~ curricular and extracurricular~~extra-curricular~~ activities. The Charter School will also make certain ~~based on an inability to speak and understand the language of instruction, and also that EL students are not assigned to special education because of their lack of English proficiency. Parents whose English proficiency is limited receive notices and information from the school in their native language whenever possible to encourage participation in the school by all members of the KIPP Bridge~~ will~~community.~~

~~KIPP Bridge~~ directly ~~provide~~~~provides~~ or ~~make~~~~makes~~ referrals to appropriate support services that may be needed by EL students in order to achieve and maintain a satisfactory level of academic performance. Students will receive designated and integrated ELD instruction across all content areas. Additionally, ~~Such~~ services may include ~~push-in supports~~, individual counseling, group counseling, home visits, and parental counseling.

Identification~~Structured English Immersion Program~~

~~In accordance with KIPP's philosophy of no excuses and more time on task, all students who are English Learners~~

As part of the enrollment process, the Charter School will administer a home language survey upon a student's enrollment into the Charter School (on enrollment forms). For students who are not new to the state public school system, we will determine their EL classification based on prior records. The ELPAC has four proficiency levels (Level 4: well developed; Level 3: moderately developed; Level 2: somewhat developed; and Level 1: minimally developed) and is aligned with the 2012 California ELD Standards.

At the beginning of the school year, all students new to the California public school system upon enrollment who indicate a home language other than English will be ELPAC-tested by a trained evaluator within thirty (30) calendar days of initial enrollment or within sixty (60) calendar days before the date of first enrollment, but not before July 1 of that school year³⁸ and at least annually thereafter between February 1 and May 31 until re-designated as fluent English proficient. On the initial assessment, if the student scores below the established cut-off point on the ELPAC, the student will be classified as an EL student. If the student scores above the established cut-off points on the ELPAC, the student is determined not to be an EL student and will be classified as Initial Fluent English Proficient.

³⁸ The initial assessment is required for students who are entering a California public school for the first time or for students who have not yet been ELPAC tested. All other students who have indicated a home language other than English will continue with annual ELPAC testing ("summative assessment") during the summative assessment testing window.

All EL students must take the annual summative ELPAC every year until they are Reclassified Fluent English Proficient (RFEP). California requires schools monitor the academic progress of RFEP students for four years after they are reclassified.

KIPP Bridge will notify all parents/guardians of the Charter School’s responsibility to conduct ELPAC testing and will inform parents/guardians of ELPAC testing results within 30 calendar days following receipt of test results. The ELPAC shall be used to fulfill the requirements under the Every Student Succeeds Act (“ESSA”) for annual English proficiency testing.

Parents or guardians will be informed of their rights, and they will be encouraged to participate in the reclassification process. All parents or guardians of students classified as EL will be notified in writing of all EL assessment and placement procedures for their child. The Charter School will translate materials as needed to ensure that parents/guardians of EL students understand all communications and are involved in all processes related to the English Language Development of their child.

Instructional Programming for English Learner Instruction

*In accordance with research on language acquisition and State goals, all students who are English Learners will be supported ~~expected~~ **to become proficient in the English language as quickly as possible at KIPP Bridge following a Comprehensive Structured immersion program. Teachers will implement the program following the ELD standards, including both integrated and designated ELD instruction. Drawing on the latest research and KIPP Northern California’s experience, KIPP Bridge will use a range of methodologies aimed to support both newcomer ELs and long-term ELs.***

KIPP Bridge’s Approach to EL Instruction - Structured English Immersion Program

~~at a rapid pace.~~ Based on a substantial research base proving the benefits of a structured English immersion program, KIPP Bridge ~~Academy~~ implements a comprehensive structured immersion program for its EL students.³⁹ ~~Research shows that with the passage of Prop. 227, California~~

³⁹~~The Benefits of English Immersion (Educational Leadership Magazine of the Association for Supervision and Curriculum Development, January 2000).~~

students have made significant gains in reading and writing in English as well as math⁴⁰. It is the goal of KIPP Bridge that all of its students leave the school proficient in the English language and with pride and support for their home language.

English Proficient students participate in a mainstream English Language Arts program with a curriculum based on the Common Core State Standards.

Teachers of English Learners at KIPP Bridge teach to the English Language Development standards as set forth by the California Department of Education. Students of limited English proficiency will receive the same academic content as those students who are native English speakers, which will be based on the Common Core State Standards and College and Career Readiness Standards. In addition to core content, students who are assessed as EL English Learners receive assistance in order to ensure English oral language development. KIPP Bridge will ensure ensures that all EL students have access to the core content, and may contract with the necessary specialists as needed in order to do so. All core instruction will be delivered is in English; however, the level of English used for instruction – both oral and written – will be — is modified appropriately for each EL student.

It is the goal of KIPP Bridge that all of its students leave the Charter School proficient in the English language and with pride and support for their home language. Teachers of English Learners at KIPP Bridge will teach based on the English Language Development standards as set forth acquisition is enhanced by the California Department of Education. This includes integrated ELD, explicit support for all students in acquiring the language needed to comprehend and express understanding of grade-level work, and designated ELD instruction, a protected daily time in the school day for focused instruction on the ELD standards to assist ELs with developing critical English language skills necessary for academic content learning in English.

⁴⁰ Amselle, Jorge and Allison, Amy C. *Two Years of Success: An Analysis of California Test Scores After Proposition 227* (READ Institute, August 2000).

Designated ELD

KIPP Bridge’s focus in designated ELD is to take an asset-based approach to the English spoken by our students and to build on these skills. Designated ELD teachers provide lessons for English Learners to develop English language proficiency. The overall goal of ELD instruction is for students to learn English at the level of a native speaker. Over the course of the required curricular sequence, students are taught language objectives aligned with academic language functions, as well as academic vocabulary and time to practice reading comprehension and writing skills.

Here are the principles that guide our designated ELD instruction:

● **Academic language functions:**

- Most of our Multilingual Learners are not new to the country and are highly proficient in social varieties of English. Our focus in designated ELD is to take an asset-based approach to the English spoken by our students and to build on these skills. ELD teachers provide explicit and targeted instruction on the most critical academic language functions that students will need to access grade-level content. Over the course of our recommended curricular sequence, students are taught language objectives aligned with academic language functions, as well as academic vocabulary and time to practice reading comprehension and writing skills.

● **Structured Conversations:**

- Oral language practice is the primary focus of designated ELD. Classes are structured so that teachers provide mini lessons and then students have the majority of class time to practice speaking in Academic English in complete sentences. Structured student talk routines are encouraged to ensure the oral language practice is targeted. At the conclusion of every class, students have the opportunity to show mastery of the day’s language objective in writing and to reflect on how the designated ELD content relates

to their other classes. This reflection is critical in building student metalinguistic awareness and to support them in building interdisciplinary connections.

- **Data-driven instruction:**

- ELD teachers provide consistent feedback to students on their progress and to collaborate closely with other teachers and Ed Specialists to support overall student growth. Feedback is critical for Multilingual Learners, especially LTELs.
- Using Ellevation, the regional multilingual learner academics provides schools with longitudinal ELPAC data along with interim formative assessments in math, ELA, Science and Social Studies and Smarter Balanced scores in order to progress monitor multilingual learners' performance on different assessments.

- **Strategic grouping:**

- Schools group students according to proficiency level (newcomer, beginner, intermediate, and advanced) using ELPAC scores, formative assessment data and teacher/Ed Specialist input.

Integrated ELD

Teachers strategically support student development in Academic English, while teaching grade-level content through English. As teachers internalize their curricula and write exemplars for their daily objective, they are supported in identifying the language demands of the lesson (vocabulary, recurring linguistic constructions) and designing appropriate scaffolds and structured student talk routines based on their students and their daily language content.

Examples of integrated ELD instructional strategies that may be employed with EL students include:

Exposure to Various Learning Modalities: Exposing students to experiences in a variety of learning modalities (kinesthetic, auditory, and visual) that correspond to the subject matter and grade level curriculum.

In addition to the structured English immersion modifications teachers make in their mainstream classes within KIPP Bridge's extended day schedule, there is ample time that can be used for additional intensive English language instruction. For example, students who enter the school with an EL label can be tutored during study hall or the enrichment period. The school uses proven methodologies including increased time for reading and math, individualized instruction, and extra tutorials for students who are acquiring English.

Examples of instructional models that are employed with EL students at KIPP Bridge Academy include:

1. **Total Physical Response (TPR).** Developed by James J. Asher in the 1960s, TPR is a language learning tool based on the relationship between language and its physical representation or execution. TPR emphasizes the use of physical activity to increase meaningful learning opportunities and language retention. A TPR lesson involves a detailed series of consecutive actions accompanied by a series of commands or instructions given by the teacher. Students respond by listening and performing the appropriate actions (Asher, 2000a). Asher emphasizes that TPR can be the major focus of a language program or an extremely effective supplement, but that in order for it to be truly effective, training should include "a special course along with hands-on experience monitored by a senior instructor who is also skilled in the intricate applications of TPR" (par. 11). *(For a detailed review of the research validating this approach, as well as sample lesson plans and examples of how to use it in the classroom, see Asher, 2000b.)*

2.1 **Cooperative Learning:** Student, Robert E. Slavin (1995) has shown cooperative learning can be effective for students at all academic levels and learning styles. Other research indicates that cooperative learning can be an "effective vehicle for learning content and learning in a second language" (Calderon, 2001; Cohen, Lotan, Scarloss, & Arellano, 1999; McGroarty, 1989, as cited in Calderon, 2001, p.

280). Cooperative learning involves student participation in small-group learning activities that promote positive interactions. As Cochran (1989) notes, "Cooperative learning makes sense for teachers who have Limited English Proficient pupils in their classes because all students are given frequent opportunities to speak and because a spirit of cooperation and friendship is fostered among classmates." Through a shared learning ~~activities~~activity, students benefit from observing learning strategies used by their peers. EL students can benefit from face-to-face verbal interactions, which promote communication that is natural and meaningful.⁴¹ (Johnson, Johnson & Holubec, 1994; Kagan, 1994). Calderon suggests that "cooperative learning is effective when students have an interesting well-structured task such as a set of discussion questions around a story they just read, producing a cognitive map of the story, or inventing a puppet show to highlight character traits" (2001, p. 280).

3.2. Academic Language Scaffolding: ~~The~~. The term "scaffolding" is used to describe the step-by-step process of building students' ability to complete tasks on their own.⁴² (Gibbons, 2002). Academic language scaffolding draws on Cummins's research into Cognitive Academic Language Proficiency (Chamot & O'Malley, 1994; Cummins, 1981). Scaffolding actually consists of several linked strategies, including modeling academic language; contextualizing academic language using visuals, gestures, and demonstrations; and using hands-on learning activities that involve academic language. ~~These strategies are a central part of sheltered instruction methods, but can be used in any classroom context. (See Gibbons [2002] for specific scaffolding strategies.)~~

Maximizing Comprehensible Input and Output: In

~~KIPP Bridge Academy teachers use techniques that maximize comprehensible input. Teachers create learning environments that allow students to practice academic English and produce comprehensible output. At KIPP Bridge, teachers understand that in order for students to gain proficiency in both functional and academic English, students must be exposed to multiple opportunities for receiving comprehensible input and producing comprehensible output. Teachers will create learning environments that allow students to practice academic English and produce~~

⁴¹ Johnson, Johnson & Holubec, 1994; Kagan, 1994

⁴² Gibbons, 2002

comprehensible output by: 1) using backwards design to address cognitive and linguistic demands, 2) creating opportunities for students to learn content and functional language through instruction, 3) incorporating frequent structured student talk, 4) interactive reading and note taking, 5) academic writing support, and 6) using assessments to refine instruction.

Structured Student Talk Routines: To develop communicative competence, English Learners need daily supported opportunities

- KIPP Bridge Academy hires faculty who have received CLAD (Cross-Cultural Language Acquisition Design) training or who are working towards CLAD certification. All teachers are trained to use their second language for diverse purposes. Learning English well requires lots and lots of practice. A key part of student language development relies on teach using the structured opportunities for meaningful academic discourse. Structured student talk routines provide scaffolded opportunities for students to practice English language production. When students are given appropriate direction and support, they actively listen and speak to one another, preventing the one-way communication that occurs when the whole class listens to individual volunteers offer their ideas or respond to teacher questions.⁴³

In addition, KIPP Bridge recognizes that differentiated support may be necessary for both newcomer ELs and long-term ELs. Examples of practices used to serve new EL students include the following:

- Use technology to its fullest potential (i.e. language learning, translation, visual scaffolds for content concepts, student motivation, tracking of student progress)
- Promote development of students' native language skills and incorporate native language instruction into the curriculum where possible

Examples of practices used to serve long-term EL students include the following:

- Specialized English Language Development instruction designed for LTELs (separate from other English Learners), emphasizing writing, academic vocabulary, active engagement, and oral language

⁴³ Norris & Ortega, 2006; Lightbown, Patsy, & Nina Spada, 2006

- Placement in heterogeneous and rigorous grade level content classes mixed with English proficient students and taught with differentiated instructional strategies
- Explicit academic language and literacy development across the curriculum
- Systems for monitoring progress and triggering support and a master schedule designed for flexibility and movement as students progress
- School-wide focus on study skills, metacognition, and learning strategies
- Data meetings and testing accommodations
- Affirming school climate and relevant texts

~~At KIPP Bridge, English immersion and SDAIE methodologies. Furthermore, all teachers will receive professional development on communicating with students designated as EL, English Learners and in techniques for detecting whether a student has English language gaps, and providing supports for English Learners as outlined above. Furthermore, KIPP Bridge will provide deficiencies. KIPP Bridge provides all necessary staff with specialized curricular materials to enable EL students to achieve proficiency. In addition, staff may be trained in various teaching strategies such as GLAD (Guided Language Acquisition Design), scaffolding techniques, songs and chants, and the use of graphic organizers, to ensure that all students are provided with multiple avenues to access the curriculum.~~

Identification of EL Students

~~At the beginning of the school year, KIPP Bridge Academy has a trained evaluator test and assess the English proficiency of students having an English Learner classification, using the California English Language Development Test (CELDT). In addition, the school administers a home language survey to every student's family as part of the enrollment process. For each student new to KIPP Bridge, we first identify any English Learner status using CALPADS. If there is no data in CALPADS, we then rely on the home language survey to identify whether the student needs an assessment of English proficiency. If the student scores below the established cut-off point on this test, the student is classified as an EL student. If the student scores above the established cut-off point on the written test, the student is determined not to be an EL student.~~

~~KIPP Bridge teachers are also responsible for observing each student throughout the class day with an eye towards detecting limited English proficiency. Should a student not be officially~~

~~identified as EL, he/she is monitored regularly via various assessment techniques to ensure their retention of the material.~~

~~All parents or guardians of students classified as English Learners are notified in writing of all EL assessment and placement procedures for their student. The school translates materials as needed to ensure that parents of EL students understand all communications and are involved in all processes related to the English Language Development of their student.~~

Monitoring and Re-Designation of EL Students

The proficiency in the English language of EL students ~~is~~ will be monitored by teachers and qualified evaluators, and ~~is~~ measured at least annually using the ~~ELPAC~~ CELDT and other measures. These assessments benchmark their progress towards proficiency and determine whether continued programming and language support ~~special services~~ are warranted.

Upon a student's reaching proficiency in the English language, programming and language support will specialized English learning services are no longer be required. However, the student will be monitored to ensure they are making academic progress in alignment with their peers. If students fail to meet parity, then they may be provided additional academic services and interventions. An EL student may be considered as having acquired a "reasonable level of English proficiency" and may be reclassified as Fluent English Proficient utilizing, but not limited to, the following criteria:

Assessment of language proficiency using an objective assessment instrument including, but not limited to, all of the following:

- Assessment of language proficiency using an objective assessment instrument including, but not limited to, the Summative ELPAC ~~California English Language Development Test or CELDT.~~
- Participation of the pupil's classroom teachers and any other certificated staff with direct responsibility for teaching or placement decisions of the pupil to evaluate the pupil's curriculum mastery:
 - Parental opinion and consultation, achieved through notice to parents or guardians of the language reclassification and placement including a description of the reclassification process

and the parents' opportunity to participate, and encouragement of the participation of parents or guardians in the reclassification procedure including seeking their opinion and consultation during the reclassification process

- Comparison of the pupil's performance in basic skills against an empirically established range of performance and basic skills based upon the performance of English proficient pupils of the same age that demonstrate to others that the pupil is sufficiently proficient in English to participate effectively in a curriculum designed for pupils of the same age whose native language is English-

Prior to ~~reclassification~~re-classification, all parents/guardians will receive a ~~reclassification~~re-classification meeting notification letter, where they are invited to a meeting to discuss their ~~child's~~student's English proficiency and academic achievement, and possible re-designation to Fluent English Proficient. Progress of students who have been re-designated ~~will be~~is monitored for ~~four~~two years.

KIPP Bridge ~~will evaluate~~Academy evaluates each student's performance in academic content areas to measure the student's progress in core subjects. If an EL student fails to show appropriate progress in these academic areas, ~~content is spiraled and retaught. modifications to the instructional program are made.~~ In addition, KIPP Bridge ~~will~~annually evaluate~~evaluates~~ the progress of its EL students as a group to determine if any broader programmatic modifications are necessary.

Parental Waiver Process

~~The requirement that EL students be placed in a structured English immersion program may be waived by parental consent. At the beginning of each school year, parents/guardians are informed of the placement of their student in a structured English immersion program and are notified of an opportunity to apply for a parental exception waiver. Parents are directed to meet with the Principal to complete the waiver process. Individual schools in which 20 students or more of a given grade level of the same language receive an approved waiver shall be required to offer an alternative program; otherwise, students must be allowed to transfer to a school where such a program is available. KIPP Bridge Academy honors waivers whenever feasible, as per the terms of the law.~~

Special Education and English Learners

KIPP Bridge ~~will apply~~~~Academy applies~~ the same high standard of learning to all students, regardless of disability or language barriers. English Learners who are suspected of having a learning disability ~~will be~~ assessed according to the Child Find/~~identification~~ requirements described in the Special Education section above. Just as all students who are classified as EL students are as fully integrated as possible into the programs of KIPP Bridge ~~Academy~~, so are students with disabilities. EL students with ~~IEPs will be~~~~IEP's are~~ given the necessary materials, mandated services, and equipment to support their learning. The ~~Charter School's~~~~school's~~ extended day and year model allows for significant time for staff to work in a variety of settings with English Learners who are also special education students, in order to bring them to English proficiency as quickly as possible, while meeting all the needs outlined in their IEP. ~~For EL students with moderate/severe disabilities, we administer the Alternate ELPAC as their annual assessment. In addition, we have modified criteria for reclassification which take their IEP goals and alternate assessment performance into consideration.~~

VI. Family and Community Engagement

Family Engagement

KIPP Bridge operates under the premise that teachers, parents, and students must work together as partners to create the potential for a quality education. Parents are a vital part of this partnership and are key stakeholders in the school.

Parental engagement begins with the Commitment to Excellence. The Commitment to Excellence Form (Appendix 21) outlines the ways in which KIPP Bridge asks parents, students and teachers to support the educational mission of the school. The commitment calls for parents to be engaged in and aware of their students' experience and performance at school. It articulates a clear set of expectations for the culture of the school and the roles of students, staff and families. It also calls parents to be in communication and alignment with teachers and school leadership to support student success and invites and encourages parents to become part of the fabric of the school. Examples of parental involvement include: ensuring student attendance, ensuring that homework is completed every night, assisting their student in contacting the teacher regarding any problem or question on an assignment, providing a quiet place with light for their student to study at home, and being available to meet with the teachers at home or at school if the need arises. New to KIPP families attend a ceremony before the start of school where KIPP Bridge staff, students, and parents read the commitment to Excellence together, discuss what these commitments mean to each person, and agree to with each other to uphold these commitments.

Commitment to the school and to student success also comes through deep investment in relationship building with families. KIPP Bridge staff and leadership welcome new families to the school and get to know families and their needs through community outreach, family meetings, and 1:1 meetings with interested parents. As students enroll in the school, relationships are deepened through home visits to families. Parent engagement and satisfaction with the school is something that we measure and evaluate. Our annual Healthy Schools and Regions Survey (HSR) is administered each year across the KIPP network of schools. Parents are a key stakeholder in this survey and we collect and analyze data from over 30 questions covering topics including:

- Family engagement

- Diversity and inclusivity
- Student academic preparedness
- Student motivation, commitment and satisfaction
- School environment
- Values and expectations
- College placement and support
- Staff recruitment and retention
- Student behavior management

KIPP Bridge leadership and staff, as well as our regional leadership, pay close attention to parent responses on the HSR Survey. Parent feedback informs programming and strategic priorities for our school and is a part of the overall performance evaluation for the School Leader. For additional details on the HSR Survey, please see Element C.

Finally, KIPP has deepened its commitment to family and community engagement by investing in a dedicated position responsible for driving this work in West Oakland.

Community Engagement

Building strong links with the local community is critically important to KIPP Bridge’s success. By developing partnerships with community based organizations, non-profit organizations, local schools, universities, and local businesses, KIPP Bridge provides students with the opportunities to build close ties and deep knowledge of their community. These relationships can also bring community leaders and members into deeper relationship with the school through volunteering, celebrations and events, and enable KIPP Bridge to be more known and active in the community and neighborhood. Appendix 5 contains details on community engagement efforts that the KIPP Bridge team has undertaken to date, with plans to further bolster community ties.

VII. School Design Process and Timelines

Ms. Lolita Jackson prepared the KIPP Bridge TK-8 school design plan through a Fisher Fellowship, alongside a cohort of 15 other future KIPP school leaders. The Fisher Fellowship is a one-year program that prepares experienced educators who have achieved significant student academic gains in the classroom to found and lead a new KIPP school in an underserved community. Programming is designed to provide in-depth support and insight into processes and best practices involved in school leadership—ranging from establishing an instructional vision to developing an efficient performance management system; from recruiting students to hiring teachers; from curriculum development to community outreach.

The Fisher Fellowship is designed as a cohort experience that allows participants to deepen their experiences and build lifelines. The Fisher Fellowship culminates during the following summer as fellows open their schools to their first classes of students.

The program aims to empower leaders to do the following:

- Set school-wide goals and create structures to monitor progress and facilitate a data-driven school culture that drives overall health of the school.
- Strengthen self-awareness of one's strengths and areas of growth, understand its impact on self and others, and adapt accordingly.
- Establish and align a clear school vision, mission, and values, and define how it will be operationalized.
- Establish a system that recruits and selects top talent who are aligned to the school's mission, vision, and values.
- Establish a performance management system that develops and retains top talent.
- Establish a vision for academics and school culture that is aligned with the school's mission, vision, and values, and define how it will be operationalized.

Program Timeline

School Design Plan and Supports

During the design year, the school leader has additional time and supports to help create her school design plan. The following elements and corresponding supports are in place such that a comprehensive plan for the school will be create and successfully implemented.

The school design plan is written throughout the Fellowship year, with key deadlines in August 2015, October 2015, November 2015, and January 2016 for the various sections outlined below.

Section	Description	Support Staff
School Overview	Provides description of the school, including school mission, vision, values, and school leader’s profile.	<ul style="list-style-type: none"> • KIPP Foundation coaches
Community and Student Profile	Describes the school community, history, and plan for community engagement. Also includes description of students in the community as well as a plan for recruitment and retention.	<ul style="list-style-type: none"> • Regional community engagement team
Academics	Instructional vision, college-ready goals, instructional methods, and systems for progress monitoring and assessment.	<ul style="list-style-type: none"> • Regional elementary school expert • KIPP teaching and learning team
Talent	Details staffing, recruitment, selection, and hiring. Also includes details about talent development and performance management.	<ul style="list-style-type: none"> • Regional Talent Team • Chief People Officer
Culture	Details how the school will develop a strong culture amongst students, staff, and families.	<ul style="list-style-type: none"> • Chief of Schools • Head of Schools • Director of Teaching and Learning
Operations	Describes information on the schools finances, governance and board structure, facilities, and daily operations.	<ul style="list-style-type: none"> • Director of Finance • Director of Operations • Director of Real Estate
Annual Priorities	Describes priorities for the school in year one, two, three, and beyond.	<ul style="list-style-type: none"> • Chief People Officer • Chief of Schools

Section	Description	Support Staff
	Also details feedback cycles and school review.	
Vital Behaviors and Leadership Priorities	Describes the implementation of the vital behaviors and leadership competencies into the fabric of the school. Also details school leader’s sustainability and how the leader will address school design plan challenges.	<ul style="list-style-type: none"> • Chief of Schools • Chief People Officer • Director of Teaching and Learning

Monitoring and Evaluation of Program Effectiveness

KIPP Bridge evaluates the effectiveness of its education program for ELs by:

- Adhering to adopted academic benchmarks by language proficiency level and years in program to determine annual progress
- Monitoring teacher qualifications and the use of appropriate instructional strategies based on program design
- Monitoring student identification and placement
- Monitoring availability of adequate resources

English Learner Advisory Committee

If KIPP Bridge has 21 or more English Learner students, the Charter School will form an ELAC, which will be responsible for advising the School Leader and staff on programs and services for English Learners and the KIPP Family Council on the development of the Local Control and Accountability Plan (“LCAP”). The ELAC will be comprised of parents of English Learners — at a rate that is at least the same as the percentage of English Learner students based on the total student population — and other parents/guardians, the Charter School staff and/or community members.

Annual Goals and Actions to Achieve the State Priorities

KIPP Bridge ~~Academy~~ Renewal Petition [2025-2030](#)

Pursuant to Education Code Sections 47605(c)(5)(A)(ii) and 47605(c)(5)(B), a reasonably comprehensive description of KIPP Bridge’s annual goals, actions, and measurable outcomes, both schoolwide and for each numerically significant subgroup of students. in and aligned with the State Priorities described in Education Code Section 52060(d), can be found in the Charter School’s Local Control and Accountability Plan. Each of these goals addresses the unique needs of all students attending the Charter School, including our numerically significant student subgroups. The metrics associated with these goals help the Charter School to ensure that these specific subgroups are making satisfactory progress, and are provided with necessary additional supports made possible by additional funds from the Local Control Funding Formula.

Attached, as Appendix 11, is the most recent LCAP, which is also on file with the District. Appendix 11 complies with all requirements pursuant to Education Code Sections 47605(c)(5)(A)(ii) and 47605(c)(5)(B), including the development of school-wide and student subgroup goals, and annual actions, as applicable to the state priorities identified in Education Code Section 52060(d). The Charter School shall annually update and develop the LCAP in accordance with Education Code Section 47606.5 and shall use the LCAP template adopted by the State Board of Education. The Charter School reserves the right to establish additional and/or amend school-specific goals and corresponding assessments throughout the duration of the charter term through the annual LCAP update. The Charter School shall submit the LCAP to the District and County Superintendent of Schools annually on or before July 1, as required by Education Code Section 47604.33. The Charter School shall also present a report on the annual update to the LCAP and the local control funding formula budget overview for parents on or before February 28 of each year at a regularly scheduled Board meeting. The LCAP and any revisions necessary to implement the LCAP shall not be considered a material revision to the charter, and shall be maintained by the Charter School at the school site.

KIPP Bridge Academy Renewal Petition [2025-2030](#)

180 ~~2017 – 2022~~

180

VIII. Organizational Supports that Contribute to Continual Improvement

KIPP Bridge benefits from the learning and innovation that comes from being part of a national network of schools. We are able to continue to learn and improve, based on feedback from research and the opportunity to learn from other KIPP schools across the country.

Longitudinal Research

In addition to monitoring student growth and assessments, KIPP has also embarked upon longitudinal research to understand the impact of our schools on student outcomes. Most recently, in September 2015, Mathematica Policy Research released findings from a five-year evaluation of KIPP schools. This is the first report to ever include KIPP schools at all K-12 levels, including elementary and high schools. The report also examines KIPP's middle school impacts over the past decade. Their key findings are:

- KIPP elementary schools have positive, statistically significant, and educationally meaningful impacts on three of four measures of reading and mathematics skills.
- Consistent with prior research, KIPP middle schools have positive, statistically significant, and educationally meaningful impacts on student achievement in math, reading, science, and social studies. Average impacts of middle schools were positive and statistically significant throughout the 10-year period covered by the study, though higher in earlier years than recent years.
- KIPP high schools have positive, statistically significant, and educationally meaningful impacts on student achievement for high school students new to the KIPP network. For students continuing to KIPP high schools from KIPP middle schools, impacts on achievement are not statistically significant. For this group of continuing KIPP students, KIPP high schools have positive impacts on a variety of college preparation activities and the likelihood of applying to college.
- On surveys of student motivation, engagement, behavior, and educational aspirations, KIPP schools showed no significant impact. However, KIPP elementary and middle schools had positive impacts on parent satisfaction.

A complete copy of the 2015 Mathematica Policy Research Report can be found in Appendix 22a and a summary of additional research studies on the efficacy of the KIPP model can be found in Appendix 22b.

KIPP Through College

As part of the KIPP commitment to ensure that students climb the mountain to and through college, KIPP Bay Area Schools continues to support students after they leave KIPP middle and high schools through the KIPP Through College (KTC) program. The KTC goal is for all students to have the access, skills and resources necessary to navigate to and through college and into self-sufficient adulthood. The KTC team provides structured support focused on college readiness, persistence, and completion until the day alumni receive their college degrees.

Across the country, 44% of students who completed a KIPP middle school ten or more years ago have graduated from a four-year college. This means the original KIPP students from Houston and New York—who are 95% African American or Latino, with more than 85% qualifying for federal free or reduced-price meals—have a higher college completion rate than the average of all students across all income levels nationwide (29 percent of all Americans age 25 to 29 have earned a bachelor’s degree or higher). KIPP’s college completion rate is four times the rate of comparable students from low-income communities across the country (for students from low-income families, only 8 percent have earned a bachelor’s degree by their mid-20s).

While the college graduation rate of our current students is a significant achievement, it is far short of our goal. However, our progress is encouraging. In the Bay Area, 84% of students who completed eighth grade at a KIPP school have enrolled in college.

For more information about KIPP Through College program and results, please see the following appendices:

- Appendix 37: KIPP Through College Program Description
- Appendix 38a and 38b: KIPP Through College, the Promise of College Completion and Data Update

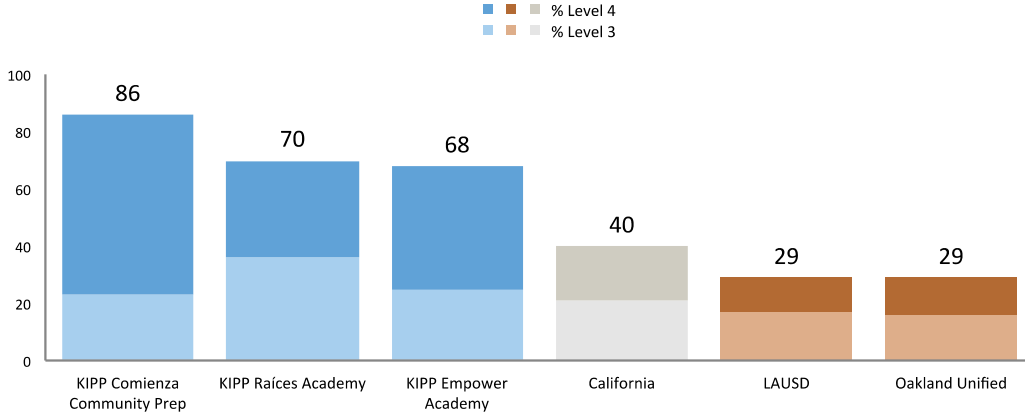

KIPP Bridge will be able to build on the lessons and strategies of sister schools in regions like KIPP LA to inform the design of the expanded TK-8 school. As part of the ongoing school design process, Ms. Jackson has conducted extensive visits and observation of KIPP elementary schools in Los Angeles and elsewhere around the county, taking in lessons, systems and strategies related to curriculum, use of data, school culture and staff recruitment and development. Not all lessons are based on exemplar schools and strategies; some of the design of KIPP Bridge will also benefit from observations and reflections of mistakes and struggles of other schools.

Appendix 23 shows SBAC results for Reading and Math for KIPP LA and elementary schools relative to State, local district, and Oakland Unified School District outcomes⁴⁴.

⁴⁴-KIPP Illuminar served only grades Kindergarten, First, and Second in the 2014-15 school year and, as such, does not yet have SBAC results.

California SBAC 4th Grade Reading

2

Appendix 23 contains additional sample data on State assessment outcomes and accompanying student demographic data for high performing KIPP elementary schools in Los Angeles.

Some examples of ways in which KIPP Bridge will incorporate lessons learned from other KIPP elementary schools include:

Culture: Intentionally building a culture that emphasizes love of learning and a nurturing environment, where all staff members will be able to use consistent language and messaging to promote character traits and maintain consistent expectations across all grade levels. Avoiding behavior systems and structures that may be too rigid and prescriptive, especially for younger grades, instead focusing on setting expectations and helping students to adapt to transitions and behaviors based on a sense of personal agency and responsibility the community.

Instructional strategies: Borrowing systems and strategies for using data to inform learning strategies for each student. Building on observed systems for gathering frequently to examine student data, tools for tracking data, and how to run meetings focused on interpreting student data and developing responsive strategies.

Curriculum: Learning about the role of technology and personalized learning tools to complement instructional strategies. Adoption of ST Math, for example, came from observations of KIPP Comienza and KIPP Illuminar.

In addition to visiting and learning from other KIPP schools, the KIPP Foundation also supports opportunities for KIPP educators and leadership to share best practices and lessons learned. Below are just a few examples of the many opportunities and systems for learning from other KIPP schools. For additional detail on KIPP’s leadership programs and opportunities, please see Appendix 35.

- **KIPP Share:** the national online knowledge sharing platform, where regions and individuals can post and access content and tools across a variety of academic and operational topics
- **KIPP School Summit:** an annual gathering of KIPP educators, leaders and staff from across the country for professional development and network building
- **KIPP School Leadership Programs:** intensive, cohort based leadership development programs for teachers, emerging leaders, principals, and regional leaders
- **Regional Learning Days:** professional development workshops designed around the needs of our schools in the Bay Area, with emphasis on deepening practice and implementing rigorous instruction around the Common Core
- **Communities of Practice:** monthly local gatherings of KIPP role alike peers (e.g., school leaders, vice principals, operations managers) to enable cross-school sharing and collaboration

Finally, KIPP Excelencia Community Prep was the first K-8 KIPP School and opened in fall 2015 in Redwood City. Many on the team who helped to design the core curriculum for KIPP Excelencia were also engaged in building the curriculum, setting targets, and developing assessments alongside Ms. Jackson at KIPP Bridge. KIPP Bridge is able to learn from the design

and successes to date of KIPP Excelencia, while also adapting practices and approaches, so that they are tailored to the needs of the West Oakland context and its student population.

ELEMENT 2 – Measurable Pupil Outcomes~~B: MEASURABLE PUPIL OUTCOMES~~

~~“Governing Law: The measurable pupil outcomes identified for use by the charter school. “Pupil outcomes,” for purposes of this part, means the extent to which all pupils of the charter school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the charter school’s educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all pupil subgroups groups of pupils served by the charter school, as that term is defined in subparagraph (B) of paragraph (3) of subdivision (a) of Section 5205247607. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school.” – Ed. Education Code §Section 47605(c)(5)(B).~~

~~KIPP Bridge Academy’s overarching school outcome goals are the implementation of a consistently high-quality educational program, a fiscally sound business and management structure, and successful networking strategies emphasizing parental and community involvement.~~

High Quality Educational Program

~~KIPP Bridge Academy provides a meaningful college preparatory experience to our students by showing them what they can accomplish in a single year of dedicated hard work, and the level to which they can enhance their self-confidence through academic achievement. Furthermore, KIPP Bridge instills in students the belief that they can and should attend college, and through this process we will provide them the tools to be successful in high school and college.~~

Fiscally Sound Business and Management Structure

~~KIPP Bridge Academy’s business management structure is paramount to the success of the school. Many charter operators focus almost exclusively on the academic program of their school, with very little training and attention towards the school’s fiscal health. KIPP Bay Area Schools’ expert staff, overseen by the Finance and Audit Committees of the Board of Directors, will provide professional financial management for KIPP Bridge. The regional organization’s finance, accounting, human resources, operations, and technology staff provide monthly training~~

and facilitate the sharing of best practices among the school-site business operations staff across the organization.

There are several types and layers of measurable outcomes for KIPP Bridge:

- ~~LCAP alignment with state priorities~~
- ~~Charter renewal~~
- ~~UC-going culture~~
- ~~Overall school culture~~
- ~~Measureable pupil outcomes identified in collaboration with OUSD~~

Building a UC-Ready Culture

At KIPP Bridge, a rigorous curriculum is developed to ensure all scholars are prepared academically and socially for college. Through work by the KIPP Bay Area Schools regional team, we know that two crucial factors determining success in college are the graduation rate for minority, low-income students at that university and the financial demands of attending that school. To be UC-Ready means that scholars are prepared academically and socially to attend one of the competitive University of California schools. The chart below outlines the various ways we will build a UC-Ready Culture.

Area	Purpose	Description
Language	The more our kids and families are taking about college, the more it becomes engrained as the next step for all kids.	<ul style="list-style-type: none"> ● Grades will be referred to by the year that they will graduate high school and go to college. ● Homerooms will be named after UC schools and schools with KIPP partnerships, rather than the alma mater of the homeroom teacher, so that we are getting kids excited about these UC schools. ● “Climbing the Mountain to College” chants are used and college graduation is referenced in chants often. ● “College Bound Hands”—this indicates a zesty hand that is raised high to the sky. ● Refer meeting goals as being “college ready” or “UC ready”
UC Ready Growth Goals	It’s not enough to talk about college and get kids excited about it.	<ul style="list-style-type: none"> ● Individual growth targets based on progress towards our “UC Ready” goals, as defined by MAP scores that are predictive of UC eligible ACT scores.

	Rigorous targets ensure that scholars are truly UC Ready.	<ul style="list-style-type: none"> Track achievement and growth toward these goals, intervening appropriately. Share MAP information and UC Ready tracking during parent conferences with families.
Experiences	Scholars need to experience what college will be like to get excited about college and to prepare for its challenges.	<ul style="list-style-type: none"> Scholars will learn the social skills to prepare them for the college goal—time management, self-control, organization skills, etc. As scholars enter sixth through eighth grades, they will have an increasing amount of independence via scheduling, longer-term projects, and systems of organization so that they prepare for high school and college. Scholars will visit local universities and other campuses and ask college students what life is like there. KTC Classes in 6th through 8th grades that prepare scholars and their families for the financial costs and the college application process.

“The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card.” – Ed. Code § 47605(c)(5)(C)

Increases in Student Academic Achievement, Overall and by Subgroup

Charter School Outcomes that Align with OUSD Office of Charter Schools

Collective MPOs were highlighted as an area of needed development during an independent evaluation of OUSD's Office of Charter Schools by the National Association of Charter School Authorizers (NACSA). One of NACSA's best practices, collective MPOs, is integral to providing some alignment related to performance in a city with such a large charter sector. In addition, collective MPOs that are also informed by OUSD school performance measurements, further support the vision and direction of Superintendent Wilson in moving Oakland towards becoming a District Charter Compact City.

As a result, in addition to state outcome standards, KIPP Bridge Academy has committed to the following set of Measureable Pupil Outcomes with the OUSD Office of Charter Schools. We will continue to participate in the Collective MPO process and will review the targets yearly to ensure targets are realistic, attainable, and relevant.

In accordance with Cal. Ed. Code §47605(b)(5)(A)(ii), KIPP Bridge Academy shall include a description of annual goals for all pupils and for each subgroup of pupils identified pursuant to Section 52052, to be achieved in the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school, and specific annual actions to achieve those goals. A charter petition may identify additional school priorities, the goals for the school priorities, and the specific annual actions to achieve those goals.

KIPP Bridge's pupil outcomes, disaggregated by major subgroups in compliance with Education Code section 47607(b)(5)(A)(ii), are as follows:

Measurable Pupil Outcomes
1. By the end of the charter term, increase the percent of students scoring level 3 or level 4 on the ELA portion of the SBAC by at least 15 percent or achieve a level of 65 percent.

Measurable Pupil Outcomes

2. By the end of the charter term, for each statistically significant student subgroup, increase the percent of students scoring level 3 or level 4 on the ELA portion of the SBAC by at least Amount 1 or achieve a level of Amount 2 (see table below for corresponding amounts).

Subgroup	Amount 1	Amount 2
Hispanic or Latino	15%	70%
African-American	15%	55%
English Learners	15%	15%
Low-Income Students	15%	60%
Special Education	15%	20%

3. By the end of the charter term, increase the percent of students scoring level 3 or level 4 on the Math portion of the SBAC by at least 15 percent or achieve a level of 60 percent.

4. By the end of the charter term, for each statistically significant student group, increase the percent of students scoring level 3 or level 4 on the Math portion of the SBAC by at least Amount 1 or achieve a level if Amount 2 (see table below for corresponding amounts).

Subgroup	Amount 1	Amount 2
Hispanic or Latino	15%	50%
African-American	15%	45%
English Learners	15%	20%
Low-Income Students	15%	45%
Special Education	15%	20%

5. Each year, 60 percent of students will increase 4 RIT points on the Measures of Academic Progress (Reading) or achieve proficiency.

Measurable Pupil Outcomes

6. Each year, Amount 1 percent of students will increase Amount 2 on the Measures of Academic Progress (Reading) or achieve proficiency (see table below for corresponding amounts).

Subgroup	Amount 1	Amount 2
Hispanic or Latino	60%	4 RIT points
African-American	60%	4 RIT points
English Learners	60%	4 RIT points
Low-Income Students	60%	4 RIT points

7. Each year, 20% of ELs will improve one overall proficiency level on CELDT.

8. Each year, have less than 5.5% of students absent more than 10% of the school days (chronic absence).

9. Each year, for each statistically significant student group, have less than 5.5% of students absent more than 10% of the school days (chronic absence) (see table below for corresponding amounts).

Subgroup	Amount 1
Hispanic or Latino	5.5%
African-American	5.5%
English Learners	5.5%
Low-Income Students	5.5%

10. Each year, at least 60% of students and families positively rate school safety. KIPP will measure this via our annual healthy schools survey that is administered to students and families.

- a. Student survey question: “I feel safe at this school”
- b. Family survey question: “My child feels safe at this school”

11. Each year, at least 70% of students and families positively rate academic instruction. KIPP will measure this via our annual healthy schools survey that is administered to students and families.

Measurable Pupil Outcomes
<ul style="list-style-type: none"> a. Student survey question: “My classes are preparing me for college.” b. Family survey question: “The school has a positive impact on my child’s academic performance”
<p>12. Each year, at least 35% of students and families positively rate their voice in school-decision making and/or opportunity for feedback. KIPP will measure this via our annual healthy schools survey that is administered to students and families.</p> <ul style="list-style-type: none"> a. Student survey question: “Students’ ideas about the school are listened to” b. Family survey question: “Parents are involved in making important school decisions.”

Charter School Outcomes that Align with State Priorities

Pursuant to Education Code Section 47605(c)(5)(B), Charter School’s following is a table describing KIPP Bridge Academy’s outcomes that align with the state priorities and the school’s goals and actions to achieve the state priorities, as identified in Element A of this charter.

KIPP Bridge will comply with all requirements pursuant to California Education Code §57605(b)(5)(A)(ii) including developing annual goals, for all pupils (i.e. schoolwide) and for each subgroup of pupils as identified in California Education Code §52052, for each of the applicable eight (8) state priorities identified in California Education Code §52060(d). Beginning in fiscal year 2014-15, KIPP Bridge will comply with all elements of the Local Control Accountability Plan pursuant to regulations and templates adopted by the State Board of Education and reserve the right to establish additional, school-specific goals and corresponding assessments throughout the duration of the charter.

KIPP Bridge Academy will do a yearly review of our LCAP goals and outcomes and any revisions necessary to implement the LCAP, including outcomes and methods of measurement listed below, shall not be considered a material revision to the charter, and shall be maintained by KIPP Bridge Academy at the school site.

KIPP Bridge Academy Renewal Petition [2025-2030](#)

By July 1, 2016, and annually thereafter, KIPP Bridge shall update the goals and actions identified in the charter to provide the following, as set forth in Education Code section 47605.5(a):

- A review of the progress towards the goals included in the charter, an assessment of the effectiveness of specific actions toward achieving those goals, and a description of the changes to the specific actions the charter school will make as a result of the review and assessment.
- Listing and description of the expenditures for the fiscal year in implementing the specific actions included in the charter as a result of the reviews and assessments, classified using the California School Accounting Manual.

By September 1, 2016, KIPP Bridge shall also provide updated Measurable Pupil Outcomes that align with goals and actions established pursuant to the Local Control Accountability Plan requirements, based on the template provided by the State Board of Education.

In accordance with SB 1290, KIPP Bridge pupil outcomes will be set related to increases in pupil academic achievement both schoolwide ~~school-wide~~ and for all numerically significant subgroups ~~groups~~ of pupils served by the charter school, as that term is defined in subparagraph (B) of paragraph (43) of subdivision (c) of section 47607. The ~~pupil outcomes shall align with state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school.~~

KIPP Bridge's pupil outcomes shall align with state priorities, as described in subdivision (d) of section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school. Charter School's LCAP goals will serve as the goals for this section unless Charter School's LCAP goals do not include, related to increases in student academic achievement by subgroup, in which case such goals should be included below. ~~pupil academic achievement both school-wide and for all groups of pupils served by the charter school, as that term is defined in subparagraph (B) of paragraph (3) of subdivision (a) of section 47607, shall be aligned with state priorities, as described in subdivision (d) of Section 52060, are as follows~~

[If Charter School's LCAP goals do not include increases in student academic achievement by subgroup, insert student academic achievement goals by subgroup in compliance with Education Code section 47605(c)(5)(B).]

The LCAP subgroup goals below represent the three-year cycle (2024-25 through 2026-27), with KIPP Bridge making progress in key state indicators as demonstrated on the California Dashboard.

KIPP Bridge Academy LCAP Subgroup Goals: Year over Year Goals Beginning School Year 2024-25 through 2026-27

Charter School hereby grants authority to the State of California to provide a copy of aggregated (by school, numerically significant subgroups, etc.) test results directly to the District. Test results for the prior year, if not provided directly to the District by the State in a timely manner, will be provided by the Charter School to the District, upon request, no later than September 1 of each year.

Additional Measurable Pupil Outcomes

Charter School sets the following targets for Measurable Pupil Outcomes related to school culture and climate.

Please see below our MPOs, in alignment with our annual LCAP, which is attached in Appendix 11.

Application of Education Code section 47607.3

Figure 10: KIPP Bridge Academy’s Outcomes to Achieve State Priorities

Outcomes that Align with the State Priorities	
State Priority #1 (Basic Services). The degree to which teachers are appropriately assigned (E.C. §44258.9) and fully credentialed, and every pupil has sufficient access to standards-aligned instructional materials (E.C. §60119), and school facilities are maintained in good repair (E.C. §17002(d))	
Subpriority A – Teachers	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> • KIPP hires and maintains a highly qualified faculty.
Actions to Achieve Goal	<ul style="list-style-type: none"> • Implement a rigorous hiring process, which includes paper screening, formal and informal interviews, performance tasks, curricular and teaching materials review, teaching demonstration, and reference checks. • Provide approximately two weeks of targeted professional development per year for faculty, based on individual goals, school goals, and the needs of students based on data.
Measurable Outcome	<ul style="list-style-type: none"> • Number of teachers appropriately assigned and fully credentialed.
Method of Measurement	<ul style="list-style-type: none"> • The Principal, together with the Human Resources team at KIPP Bay Area Schools, will monitor the credentials.
Subpriority B – Instructional Materials	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> • KIPP Bridge obtains the most up to date standards aligned instructional materials to prepare students for high school and college.
Actions to Achieve Goal	<ul style="list-style-type: none"> • Provide approximately two weeks of targeted professional development per year for faculty, based on individual goals, school goals, and the needs of students based on data. • Research and obtain the most up-to-date standards-aligned materials and participate in a yearly updating process.
Measurable Outcome	<ul style="list-style-type: none"> • Number of teachers with instructional materials that are most up-to-date and standards-aligned.
Method of Measurement	<ul style="list-style-type: none"> • Conduct an annual survey with faculty and staff.

Subpriority C – Facilities	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> • KIPP Bridge facilities are maintained and in good condition.
Actions to Achieve Goal	<ul style="list-style-type: none"> • Regularly review school facilities, document conditions, and address issues in partnership with OUSD.
Measurable Outcome	<ul style="list-style-type: none"> • Condition of facilities and progress made towards repairs/maintenance.
Method of Measurement	<ul style="list-style-type: none"> • Staff will do regular walkthroughs to rate the condition of the facility and address issues in a timely manner. • Conduct an annual survey to students, parents, and staff.

State Priority #2 (Implementation of CCSS). Implementation of Common Core State Standards, including how EL students will be enabled to gain academic content knowledge and English language proficiency.	
Subpriority A – CCSS Implementation	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> • KIPP Bridge will successfully implement the Common Core State Standards into the classroom.
Actions to Achieve Goal	<ul style="list-style-type: none"> • Provide professional development to teachers focused on integrating the Common Core Standards into their classroom.
Measurable Outcome	<ul style="list-style-type: none"> • Student performance on CAASPP assessments will exceed the average performance levels of students in schools with similar demographics in the District.
Method of Measurement	<ul style="list-style-type: none"> • Internal benchmark assessments • CAASPP
Subpriority B – EL Students & Academic Content Knowledge	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> • KIPP Bridge Academy teachers use techniques that maximize comprehensible input for EL students.
Actions to Achieve Goal	<ul style="list-style-type: none"> • Implement a comprehensive structured immersion program for its EL students.
Measurable Outcome	<ul style="list-style-type: none"> • Student performance on CAASPP assessments will exceed the average performance levels of students in schools with similar demographics in the District.
Method of Measurement	<ul style="list-style-type: none"> • Internal benchmark assessments

	<ul style="list-style-type: none"> • CAASPP
Subpriority C – EL Students & English Language Proficiency	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> • KIPP Bridge students achieve proficiency in the English language as quickly as possible through the school’s services and teaching methods.
Actions to Achieve Goal	<ul style="list-style-type: none"> • Provide professional development for teachers on communicating with students designated as EL and in techniques for detecting whether a student has English language deficiencies.
Measurable Outcome	<ul style="list-style-type: none"> • Student performance on CAASPP assessments will exceed the average performance levels of students in schools with similar demographics in the District.
Method of Measurement	<ul style="list-style-type: none"> • CELDT • Internal benchmark assessments • CAASPP

State Priority #3 (Parental Involvement). Parental Involvement, including efforts to seek parent input for making decisions for schools, and how the school will promote parent participation.	
Subpriority A – Achieving/Maintaining Parental Involvement	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> • Parents are a vital part of KIPP Bridge Academy and key stakeholders for the students and school. • Parents of students at KIPP Bridge believe in the mission of the school and are dedicated to help achieve our goals.
Actions to Achieve Goal	<ul style="list-style-type: none"> • Ensure parents ascribe to the Commitment to Excellence form that outlines ways parents need to support the educational mission of the school. • Provide varied communication to parents, including regular calls to parents, home visits, parent-teacher conferences, and other family celebration nights.
Measurable Outcome	<ul style="list-style-type: none"> • 80% of parents or guardians will participate in parent-teacher conferences at the school.
Method of Measurement	<ul style="list-style-type: none"> • KIPP Bridge Academy faculty will track parental involvement throughout the year.
Subpriority B – Promoting Parent Participation	

Goals to Achieve Subpriority	<ul style="list-style-type: none"> Parents of students at KIPP Bridge believe in the mission of the school and are dedicated to help achieve our goals.
Actions to Achieve Goal	<ul style="list-style-type: none"> Encourage parents to be active in the school by participating in the KIPP Parent Association (KPA). Provide parent workshops on various topics (i.e. Common Core, technology at home, character education, healthy relationships, etc.) to enable parents to better support their student’s education.
Measurable Outcome	<ul style="list-style-type: none"> 80% of parents or guardians will participate in a school activity throughout the year.
Method of Measurement	<ul style="list-style-type: none"> The Commitment to Excellence form is a required part of the enrollment packet. KIPP Bridge Academy teachers and staff will be expected to keep parents aware of student progress.

State Priority #4 (Student Achievement). Pupil achievement , as measured by all of the following, as applicable:

- A. Statewide assessments (CAASPP)
- B. The Academic Performance Index (API)
- C. Percentage of pupils who have successfully completed courses that satisfy UC/CSU entrance requirements , or career technical education
- D. Percentage of ELs who make progress toward English language proficiency as measured by the CELDT
- E. EL reclassification rate
- F. Percentage of pupils who have passed an AP exam with a score of 3 or higher
- G. Percentage of pupils who participate in and demonstrate college preparedness pursuant to the Early Assessment Program (E.C. §99300 et seq.) or any subsequent assessment of college preparedness

Subpriority A – CAASPP: ELA/Literacy and Mathematics	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> KIPP Bridge students will exceed the average performance levels of students in schools with similar demographics in the District on the Common Core Assessments.
Actions to Achieve Goal	<ul style="list-style-type: none"> KIPP Bridge teachers and staff will monitor student progress throughout the year and differentiate accordingly.
Measurable Outcome	<ul style="list-style-type: none"> KIPP Bridge will exceed the average performance levels of similar schools on the Academic Performance Index (API).
Method of Measurement	<ul style="list-style-type: none"> CAASPP

Measurable Outcome	<ul style="list-style-type: none"> • KIPP Bridge students graduate the 8th grade as English proficient at a higher rate than the district average.
Method of Measurement	<ul style="list-style-type: none"> • CELDT • CAASPP • California Modified Assessment (as appropriate) • Benchmark Exams • Biannual DRA testing
Subpriority E: College Preparedness	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> • KIPP Bridge provides data to show students readiness for college and yearly growth. • KIPP Bridge Academy will successfully track students that complete 8th grade into their college years.
Actions to Achieve Goal	<ul style="list-style-type: none"> • KIPP Bridge teachers and staff will analyze the NWEA MAP tests in Reading, Language, and Math. These scores provide insight into students' college preparedness. • Track students through placement databases and tracking systems, primarily run by the KIPP Through College (KTC) program.
Measurable Outcome	<ul style="list-style-type: none"> • Number of students completing 8th grade at KIPP Bridge Academy matriculating to a college-preparatory high school
Method of Measurement	<ul style="list-style-type: none"> • High school matriculation data

<p>State Priority #5 (Student Engagement). Pupil engagement, as measured by all of the following, as applicable:</p> <p>A. School Attendance Rates</p> <p>B. Chronic Absenteeism Rates</p> <p>C. Middle school Dropout Rates</p> <p>D. High school Dropout Rates (not applicable)</p> <p>E. High School Graduation Rates (not applicable)</p>	
Subpriority A – Student Attendance Rates	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> • KIPP Bridge’s attendance rates will be above the District norm for schools with similar demographics.
Actions to Achieve Goal	<ul style="list-style-type: none"> • Implement a School Attendance Review Board (SARB) to improve attendance.

Measurable Outcome	<ul style="list-style-type: none"> • KIPP Bridge’s attendance rates will be above the District norm for schools with similar demographics.
Method of Measurement	<ul style="list-style-type: none"> • Attendance records
Subpriority B – Chronic Absenteeism rates	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> • KIPP Bridge’s mobility and truancy will be below the District norm for schools with similar demographics.
Actions to Achieve Goal	<ul style="list-style-type: none"> • Develop a strong school culture that has high expectations for punctuality and attendance for all students.
Measurable Outcome	<ul style="list-style-type: none"> • KIPP Bridge’s mobility and truancy will be below the District norm for schools with similar demographics.
Method of Measurement	<ul style="list-style-type: none"> • KIPP Bridge will track truancy and compare to District norms.
Subpriority C: Middle School Dropout Rates	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> • KIPP Bridge’s drop-out rates will be below the District norm for schools with similar demographics.
Actions to Achieve Goal	<ul style="list-style-type: none"> • Create a small, personalized learning environment, occasionally assisted by technology to address the needs of each student. • Incorporate character traits into daily lessons that support a strong work ethic.
Measurable Outcome	<ul style="list-style-type: none"> • KIPP Bridge’s drop-out rates will be below the District norm for schools with similar demographics.
Method of Measurement	<ul style="list-style-type: none"> • KIPP Bridge will track drop-out rates and compare to District norms.
Subpriority D: High School Dropout Rates (Not Applicable)	
Subpriority E: High School Graduation Rates (Not Applicable)	

<p>State Priority #6 (School Climate). School climate, as measured by all of the following, as application:</p> <p>A. Pupil suspension rates</p> <p>B. Pupil expulsion rates</p> <p>C. Other local measures, including surveys of pupils, parents, and teachers on the sense of safety and school connectedness.</p>	
Subpriority A – Pupil Suspension Rates	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> • KIPP Bridge’s suspension rates will be below the District norm for schools with similar demographics.

Actions to Achieve Goal	<ul style="list-style-type: none"> Integrate character lessons into classroom teaching to promote behavior conducive to learning. Hold students accountable for their behavior with “paycheck systems,” and parental involvement.
Measurable Outcome	<ul style="list-style-type: none"> KIPP Bridge’s suspension rates will be below the District norm for schools with similar demographics.
Method of Measurement	<ul style="list-style-type: none"> KIPP Bridge will monitor suspensions throughout the year and compare data to District norms.
Subpriority B – Pupil Expulsion Rates	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> KIPP Bridge’s expulsion rates will be below the District norm for schools with similar demographics.
Actions to Achieve Goal	<ul style="list-style-type: none"> Hold students accountable for their behavior with “paycheck systems,” and parental involvement. Track student behavior trends to provide individualized support to students.
Measurable Outcome	<ul style="list-style-type: none"> KIPP Bridge’s expulsion rates will be below the District norm for schools with similar demographics.
Method of Measurement	<ul style="list-style-type: none"> KIPP Bridge will monitor expulsions throughout the year and compare data to District norms.
Subpriority C: Other local measures, including surveys of pupils, parents, and teachers on the sense of safety and school connectedness	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> KIPP Bridge’s faculty, students, and parents will endorse the school’s safety procedures and overall climate.
Actions to Achieve Goal	<ul style="list-style-type: none"> Conduct an annual survey of students, parents, and staff to better understand the school’s strengths and areas for improvement.
Measurable Outcome	<ul style="list-style-type: none"> 80% of survey respondents will provide positive feedback on the school safety and connectedness
Method of Measurement	<ul style="list-style-type: none"> Annual survey to parents, students, and staff

State Priority #7 (Course Access). The extent to which pupils have access to, and are enrolled in, a broad course of study, including programs and services developed and provided to unduplicated students (classified as EL, FRPM – eligible, or foster youth; E.C. §42238.02) and students with exceptional needs.
 “Broad course of study” includes the following as applicable:

<ul style="list-style-type: none"> • Grades 1-6: English, mathematics, social sciences, science, visual and performing arts, health, physical education, and other as prescribed by the governing board. (E.C. §51210) • Grades 7-12: English, social sciences, foreign language(s), physical education, science, mathematics, visual and performing arts, applied arts, and career technical education (E.C §51220 (a)-(i)) 	
Goals to Achieve Priority	<ul style="list-style-type: none"> • KIPP Bridge will have a rigorous curriculum that encompasses English, math, social sciences, science, visual and performing arts, health, and physical education for 1st through 6th grade. • KIPP Bridge will have a rigorous curriculum that encompasses English, math, social sciences, science, visual and performing arts, applied arts, and physical education for 7th and 8th grade.
Actions to Achieve Goal	<ul style="list-style-type: none"> • Create daily lesson plans and long-term scope and sequences in each of these classes that align with California and Common Core standards. • Offer classes in English, math, social sciences, science, visual and performing arts, and physical education as standard course enrollment for all students in 1st through 4th grade. • Offer classes in English, math, social sciences, science, visual and performing arts, health, and physical education as standard course enrollment for all students in 5th and 6th grade. • Offer classes in English, math, social sciences, science, visual and performing arts, and physical education as standard course enrollment for all students in 7th and 8th grade. • Offer after school enrichment courses for students that include applied arts, dance, foreign language, and athletics.
Measurable Outcome	<ul style="list-style-type: none"> • 100% of 5th and 6th grade students will be enrolled in English, math, social sciences, science, visual and performing arts, health, and physical education • 100% of 7th and 8th grade students will be enrolled in English, math, social sciences, science, visual and performing arts, applied arts, foreign language(s), and physical education
Method of Measurement	<ul style="list-style-type: none"> • Enrollment records

State Priority #8 (Other Student Outcomes). Pupil outcomes, if available, in the subject areas described above in #7, as applicable.

Subpriority A – English	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> • KIPP Bridge’s students’ scores will exceed the District on California and Common Core assessments. • Students within each subgroup will exceed the average performance levels of subgroup students in the District on the Common Core assessments
Actions to Achieve Goal	<ul style="list-style-type: none"> • Align curriculum and benchmark assessments to the California and Common Core State Standards
Measurable Outcome	<ul style="list-style-type: none"> • KIPP Bridge’s students’ scores will exceed the District on California and Common Core assessments.
Method of Measurement	<ul style="list-style-type: none"> • CAASPP • Benchmark assessments • Student writing samples
Subpriority B – Mathematics	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> • KIPP Bridge’s students’ scores will exceed the District on California and Common Core assessments. • Students within each subgroup will exceed the average performance levels of subgroup students in the District on the Common Core assessments
Actions to Achieve Goal	<ul style="list-style-type: none"> • Align curriculum and benchmark assessments to the California and Common Core State Standards
Measurable Outcome	<ul style="list-style-type: none"> • KIPP Bridge’s students’ scores will exceed the District on California and Common Core assessments.
Method of Measurement	<ul style="list-style-type: none"> • CAASPP • Benchmark assessments • Teacher-made assessments
Subpriority C: Social Sciences	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> • KIPP Bridge’s students’ scores will exceed the District California and Common Core assessments. • Students within each subgroup will exceed the average performance levels of subgroup students in the District on the Common Core assessments
Actions to Achieve Goal	<ul style="list-style-type: none"> • Align curriculum and benchmark assessments to the California and Common Core State Standards

Measurable Outcome	<ul style="list-style-type: none"> • KIPP Bridge’s students’ scores will exceed the District on California and Common Core assessments.
Method of Measurement	<ul style="list-style-type: none"> • Benchmark assessments • Student projects
Subpriority D: Science	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> • KIPP Bridge’s students’ scores will exceed the District California and Common Core assessments. • Students within each subgroup will exceed the average performance levels of subgroup students in the District on the Common Core assessments
Actions to Achieve Goal	<ul style="list-style-type: none"> • Align curriculum and benchmark assessments to the California and Common Core State Standards
Measurable Outcome	<ul style="list-style-type: none"> • KIPP Bridge’s students’ scores will exceed the District on California and Common Core assessments.
Method of Measurement	<ul style="list-style-type: none"> • Benchmark assessments • Student lab reports
Subpriority E: Visual and Performing Arts	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> • KIPP Bridge’s students are introduced to music and learn to play an instrument or a performing arts class
Actions to Achieve Goal	<ul style="list-style-type: none"> • Offer enrichment courses to choose from both in and out of the classroom.
Measurable Outcome	<ul style="list-style-type: none"> • 100% of students will be introduced to music and learn to play an instrument and/or participate in the performing arts program
Method of Measurement	<ul style="list-style-type: none"> • Teacher-created assessments and assignments
Subpriority F: Physical Education	
Goals to Achieve Subpriority	<ul style="list-style-type: none"> • KIPP Bridge’s students are offered activities such as dance, volleyball, basketball, etc.
Actions to Achieve Goal	<ul style="list-style-type: none"> • Offer enrichment courses to choose from both in and out of the classroom.
Measurable Outcome	<ul style="list-style-type: none"> • 100% of students will be offered activities such as dance, volleyball, basketball, etc.
Method of Measurement	<ul style="list-style-type: none"> • Teacher-created assessments and assignments
Subpriority G: Applied Arts, Foreign language, Other subjects	

Goals to Achieve Subpriority	<ul style="list-style-type: none"> • KIPP Bridge’s students are exposed to many different activities and opportunities to learn.
Actions to Achieve Goal	<ul style="list-style-type: none"> • Offer enrichment courses to choose from both in and out of the classroom.
Measurable Outcome	<ul style="list-style-type: none"> • 100% of students are exposed to many different activities and opportunities to learn.
Method of Measurement	<ul style="list-style-type: none"> • Teacher-created assessments and assignments

Under Education Code section 47607.3, if ~~Charter School meets certain criteria outlined~~ the charter school fails to improve outcomes for 3 or more pupil subgroups (or, if less than 3, all pupil subgroups) in ~~section 47607.3(a), 3 of 4 consecutive school years,~~ the following shall apply:

- ~~Depending on circumstances specified in section 47607.3, either the county superintendent of schools or the~~ The chartering authority shall provide technical assistance to the charter school using an evaluation rubric adopted by the State Board.—
- The ~~entity providing technical assistance~~ Superintendent may ~~assign, at the request~~ assistance ~~from of the chartering authority and approval of the State Board,~~ the California Collaborative for Educational Excellence, ~~which may, after consulting with the Superintendent and with the approval of the State Board,~~ to provide advice and assistance to the charter ~~school.~~ schools.—
- The chartering authority shall consider for revocation any charter school to which the California Collaborative for Educational Excellence has provided advice and assistance, and has made findings that: 1) the charter school has failed, or is unable, to implement the recommendations of the California Collaborative for Educational Excellence; or 2) that the inadequate performance of the charter school, based upon the evaluation rubric, is so persistent or so acute so as to require revocation of the charter.

School Outcome Goals

KIPP Bridge Academy's overarching school outcome goals are

KIPP Bridge Academy Renewal Petition 2025-2030

ELEMENT C: ASSESSMENT OF STUDENT AND SCHOOL OUTCOMES

Governing Law: The method by which pupil progress in meeting those pupil outcomes is to be measured. To the implementation of a consistently high-quality educational program, a fiscally sound business and management structure, family engagement, and community impact. KIPP Bridge Academy also aims to cultivate non-academic skills in its students, as described below.

High-Quality Educational Program

KIPP Bridge Academy provides a meaningful and challenging college preparatory experience to its students by setting a high bar for rigor, encouraging curiosity, and nurturing self-confidence through academic pursuit and achievement. KIPP Bridge instills in students *extent practicable, the* belief that they can attend college, if that is the path they choose, and provides them the tools that will support them in the pursuit of fulfilled lives.

Fiscally Sound Business and Management Structure

KIPP Bridge Academy's business management structure is paramount to the success of the Charter School. At KIPP, we are committed to ensuring we deliver the best academic program and maintain the fiscal health of each of our schools. KIPP Northern California's expert staff, overseen by the Finance and Audit Committees of the Board of Directors, provides professional financial management *method for measuring pupil outcomes for* KIPP Bridge. KIPP Northern California's finance, accounting, human resources, operations, and technology staff provide regular training and facilitate the sharing of best practices among the school-site business operations staff across the organization.

Family Engagement

KIPP Bridge Academy Renewal Petition [2025-2030](#)

Parents are the experts on their children and strong influencers and partners in student decisions, making parents critical partners in a student’s helping their children succeed. The partnership between parents, students and teachers forms the necessary foundation for KIPP Bridge and for all students to succeed. KIPP Bridge, in partnership with KIPP Northern California’s Advocacy and Community Engagement Team, regularly provides families with opportunities for meaningful involvement and feedback. We work to ensure families understand how to engage in these opportunities and that their voice and partnership are critically important. Examples include responding to surveys, participating in and leading the KIPP Family Council, engaging with school leadership through Coffee with the Principal, participating in the English Learner Advisory Committee, engaging in parent-teacher conferences, and both planning and participating in social and cultural events at the school. There are also regular opportunities for parents and community members to celebrate the identities, stories, and accomplishments of KIPP Bridge scholars, including student performances, monthly team and family cultural celebrations, and community events such as the Fall Festival. Please see Element 4 for additional details on engaging families and the broader community at KIPP Bridge.

Table 14: Sample of Family Engagement Opportunities at KIPP Bridge

Community Impact

In addition, KIPP Bridge aims to be a strong institution and resource in its community, uniting parents, community members, and educators across diverse backgrounds. KIPP Bridge will share best practices and lessons learned with other KIPP schools as well as charter and District schools within the Oakland Unified School District, and across the state. The ultimate goal of KIPP Bridge is to have a catalytic impact on the way education is implemented, particularly for first-generation, college-bound students.

Non-Academic Skills

In addition to the state priority-aligned goals, KIPP Bridge Academy believes that our students must also develop crucial non-academic skills in order to become successful 21st century learners and lead choice-filled lives. During their tenure at the KIPP Bridge, students will develop the following:

Leadership Abilities

- All students have an opportunity to run for student government and apply for campus "jobs"
- Students take the lead in planning and organizing events
- Students use their writing to consistently suggest improvements on campus

Self-Advocacy & Choice

- Proactive homeroom circles that address choice, voice, autonomy
- Choice in reading and in learning experiences support students with defining their preferences
- Teachers must demonstrate the presence of choice, voice, and autonomy in weekly lesson plans

Interpersonal Skills

- Ratio of 4:1 student:teacher "talk time" in class
- "Turn and Talks" required in all classes (writing and then sharing with a partner)
- Honor Council participates in restorative circles for peer support
- Students participate in Socratic Seminars
 - Students are coached on using habits of discussion including the ability to politely agree/disagree with one another, build on each other's answers, and pose questions to one another
 - Students take on a progressive level of responsibility for leading Socratic Seminars throughout the year

Community Awareness and Involvement

- All students will develop the character traits and skills that allow and encourage them to become concerned and active citizens of their communities, nation, and the world beyond

KIPP Bridge Academy Goals, Actions and Measurable Outcomes Aligned with the Eight State Priorities

KIPP Bridge Academy Renewal Petition [2025-2030](#)

As indicated in Element 1, pursuant to Education Code Sections 47605(c)(5)(A)(ii) and 47605(c)(5)(B), a reasonably comprehensive description of KIPP Bridge’s annual goals, actions, measurable student outcomes, and methods of measurement, both school-wide and for numerically significant subgroups in and aligned with the *state priorities* as described in ~~shall be consistent with the way information is reported on a school accountability report card.~~ Education Code Section 52060(d), can be found in the Charter School’s LCAP. Each of these goals addresses the unique needs of all students attending the Charter School, including our numerically significant student subgroups. The metrics associated with these goals help the Charter School to ensure that these specific subgroups are making satisfactory progress, and are provided with necessary additional supports made possible by additional funds from the Local Control Funding Formula. ~~47605(b)(5)(C).~~

Attached, as Appendix 11, is the most recent LCAP, which is also on file with the District. The Charter School shall annually update and develop the LCAP in accordance with Education Code Section 47606.5 and shall use the LCAP template adopted by the State Board of Education. The Charter School reserves the right to establish additional and/or amend school-specific goals and corresponding assessments throughout the duration of the charter through the annual LCAP update. KIPP Bridge shall submit its LCAP to the District and the County Superintendent of Schools annually on or before July 1, as required by Education Code Section 47604.33. The Charter School shall also present a report on the annual update to the LCAP and the local control funding formula budget overview for parents on or before February 28 of each year at a regularly scheduled Board meeting. The LCAP and any revisions necessary to implement the LCAP shall not be considered a material revision to the charter as defined in Education Code Section 47607.

ELEMENT 3 – Method of Measuring Pupil Outcomes

Governing Law: The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card. Education Code Section 47605(~~cb~~)(5)(C).

KIPP Bridge affirms that, to the extent practicable, the method for measuring pupil outcomes for the state priorities shall be consistent with the way information is reported on a School Accountability Report Card (“SARC”). Specific methods of measurement are identified for each student outcome in Element 2.

KIPP Bridge’s mission is to prepare our students to succeed in high school, college and beyond by developing in them the knowledge, skills, and character essential to succeed while honoring their identities and connections to the community. We understand that such skill mastery occurs in gradual steps, KIPP Bridge will continue to measure the impact and success of its academic programs utilizing several forms of evaluation and assessment, including state mandated tests.

~~If KIPP Bridge Academy does not test with the District, KIPP Bridge Academy hereby grants authority to the State of California to provide a copy of all test results directly to the District as well as the charter school. Test results for the prior year, if not provided directly to the District by the State, will be provided by the charter school to the District no later than September 1 of each year.~~

KIPP Bridge Academy’s Assessment Philosophy

~~KIPP Bridge’s Bridge holds two core beliefs at the heart of our assessment strategy is based on two core beliefs:~~

- **Common assessments ensure everyone has a high bar.** Common assessment data helps us to understand and calibrate KIPP Bridge’s performance levels with those of

other high-performing schools and appropriately prioritize areas for growth, codify best practices, develop meaningful professional development for teachers, and keep our promises to students and families.

- **Assessment is more than tests.** Effective assessment includes systems and processes for analysis and action, including clear roles and responsibilities, aligned calendars with data days, protocols for looking at student work, data-driven instruction, and data-driven decision making. Schools need structures that enable teachers to swiftly analyze and respond to data.

~~Appendix 36 provides additional detail on KIPP's National Assessments Strategy and Philosophy.~~

Assessment of Mastery and Growth: The climb to college-readiness

The specific assessments that KIPP Bridge ~~Academy~~ utilizes can be considered as two measures of progress leading to the same summit: college readiness.

The first — **Standards Mastery** — has many guideposts to ensure students are staying on the right path during their climb. Rather than only mid- and end-of-year milestones, there are numerous checkpoints for feedback on progress and independent abilities. Daily teaching and learning should be focused on this grade-level, sequential progression towards mastery of college-ready standards over time.

The second measure of progress — **Growth** — provides guideposts along the way, but tells students how they compare to others on the climb. Students have their “vitals” taken at the start of this climb so that they know what kind of progression they need to make to maintain or exceed the pace of their peers. At each milestone, students and teachers will understand if they are climbing the mountain at the rate necessary to maximize their potential. However, teachers do not utilize this data to inform daily instruction. Instead, it ~~is will be~~ used to set appropriately rigorous goals, occasionally adjust student groupings, and monitor college readiness levels over time.

The two measures are inherently related, as rigorous efforts on the standards mastery path pay off in the form of substantial growth and ultimate college-ready achievement, whereas

milestone growth checks inform whether our curricular and instructional choices are paying off over time.

KIPP Bridge Academy’s Annual Assessment of Student Outcome Goals Plan

An effective assessment strategy includes measures of both **standards mastery** and **growth** at various levels of granularity. When measuring mastery, we assess students’ absolute performance against college-ready standards using criterion-referenced tests. When measuring growth, we assess the progression of student learning over time using norm-referenced tests (in which students are compared to their peers), with the end goal of having students make better-than-average growth each year in order to climb to college readiness levels. Both forms of assessment are essential to form a holistic sense of a student’s learning and college readiness.

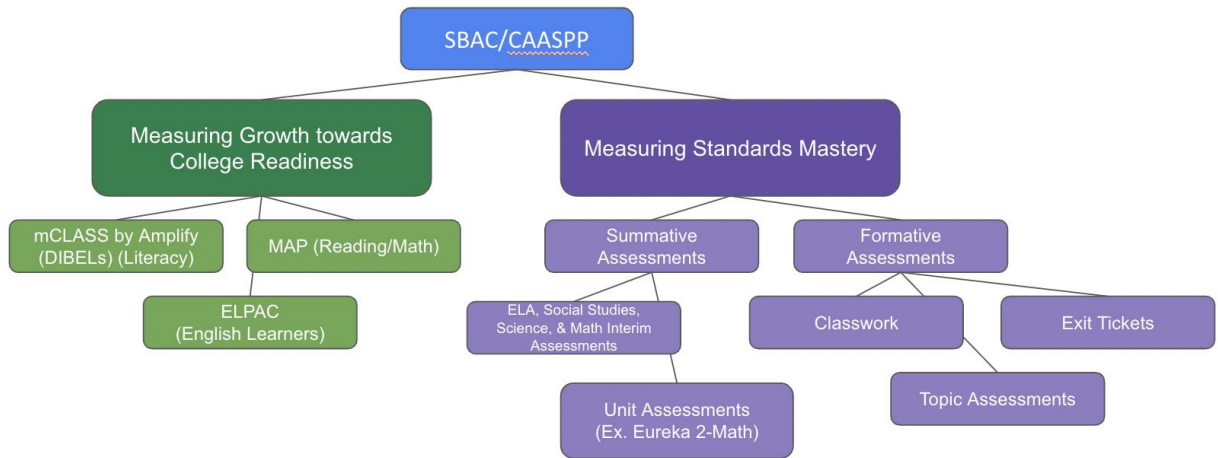

The following table outlines planned assessments for each assessment type to comprise an effective annual assessment plan.

	Type	Assessment Resource	How to Use the Data	Frequency
Formative	Daily / Weekly	<ul style="list-style-type: none"> • Illuminate Assessment Management Platform and associated item banks • Eureka Exit Tickets • KIPP Wheatley CFUs (weekly) 	Measure end of lesson mastery to inform instruction for the following day or following week	Daily and, in some cases, weekly
	Curriculum Based	<ul style="list-style-type: none"> • Teacher-created weekly planned assessments • Eureka mid- and end-of-module assessments • KIPP Wheatley Checkpoints and end- 	Measure mastery of taught standards, strategies, and skills. Use to identify re-teaching needs, grouping of students, remedial	FSA (Friday Skills Assessments): At the close of every week Eureka/KIPP Wheatley: At the mid- and end-of-module.

	Type	Assessment Resource	How to Use the Data	Frequency
		of-module assessments <ul style="list-style-type: none"> • Other subject end-of-unit tests • Formative Reading Assessment: STEP (preK until students STEP out at grade 3). They will then transition to Fontas and Pinel 	strategies, enrichment strategies, or other RTI strategies.	STEP: 4x/year
	Interim	<ul style="list-style-type: none"> • Smarter Balanced, Measured Progress • MARS Performance Tasks 	Measure mastery of standards to date (some provide predictive data ahead of summative)	SBAC: 1 mid-year full assessment; MP 2-3 times per year (piloting) SBAC: ELA interim performance block, 3 times per year MARS: 1-2 times per year
Summative	End-of-Year	<ul style="list-style-type: none"> • State Assessments • MAP 	Measure annual achievement and growth; inform class and group placement; inform growth goals and college readiness	State Assessments MAP: 1-3x/year

Figure 9 below outlines the assessments that are used to measure growth and standards mastery across KIPP Northern California schools.⁴⁵ As seen below, state and local assessments are used to measure both growth and standards mastery. Please see Appendix 12 for KIPP Northern California’s latest assessment vision and plan across the organization and KIPP Foundation.

Figure 9. KIPP Northern California Assessment Structure

⁴⁵ Note that assessments specified solely for students in grades 9-12 in Figure 3 above will not be administered at KIPP Bridge, including: Pre-/Post-ACT, ACT, and AP for All.

Table 15 shows the frequency each assessment at KIPP Bridge will be administered.

Table 15: Assessment Frequency

KIPP Bridge believes in administering a balanced system of assessments, so that:

- School Leaders will be able to monitor students’ progress towards CCSS and NGSS mastery and SBAC/CAST readiness at set, strategic intervals
- Teachers will be able to identify students’ strengths and weaknesses to adjust curriculum and instruction at set, strategic intervals
- Regional Leaders will be able to assess the effectiveness of instructional programs and provide timely differentiated support to schools
- Regional Leaders, School Leaders, and Teachers will be able to develop a common high bar (language, values, etc.) for curriculum and instruction

In keeping with this theory of action, KIPP Bridge will administer a variety of assessment types, including: screening, diagnostic, formative, benchmark/interim, summative, and others. Descriptions of these assessment types are included in Table 17 below.

Table 16: Overview of Assessment Types at KIPP Bridge

Curriculum-Based Unit/Module Assessments

At KIPP Bridge, carefully selected curricula and high quality instruction will be two key components to meeting the rigor demanded by the State Standards. In order to assess student mastery on standards throughout the year, we feel it is important to also collect data from curriculum-based assessments to see what students are retaining within and over the course of a unit of study. Eureka Math, for example, provides topic, mid-module and end-of-module assessments that measure mastery of the content presented within that unit, as well as students' ability to manipulate and apply that knowledge in novel ways. As with interim assessments, teachers will complete assessment analyses after curricular assessments and use this data to inform intervention groups as well as areas to reteach. As appropriate, KIPP Bridge will use the assessments in our core curricula as additional data points for standards mastery throughout the year.

Together, curriculum-based assessments and interim assessment cycles will be the main measures for determining whether students are meeting their achievement targets. They help teachers see whether students have retained information over time and are periodic touch points that are aligned to the CAASPP. With this alignment, the KIPP Bridge team knows that students are on track to meeting CAASPP goals. These cycles also allow the Leadership Team to track progress toward school wide achievement goals.

Daily Formative

Assessment of Student Outcome Goals

Student Assessment and Data Driven Instruction

~~KIPP Bridge teachers and leaders use data to drive decision making on a daily basis. Using the MAP and STEP assessments in the summer, teachers determine scholars' learning level. The MAP is administered in the fall for a baseline diagnostic score and to assess for summer slide, in the winter to progress monitor, and in the spring as a final measurement of growth and achievement.~~

Interim Assessments

~~Teachers will collect data each day through exit tickets, or they will use independent practice as the exit ticket. Beginning around early October, after other routines and systems are in place, grade level teams will be expected to bring together exit tickets to analyze student performance as a form of feedback on their teaching. These formative assessments will be brought together once per week, and in these meetings, teachers will look at student work to determine misconceptions and adjust their lesson plans accordingly.~~

Interim Assessments

Day-to-day, urgency in classrooms comes from the drive to meet ~~studentscholar~~ mastery goals on ~~curricular~~bi-weekly assessments. ~~Curricular~~These bi-weekly assessments ~~will be~~ aligned to interim assessments, which are administered in cycles, or every ~~6 to 8~~10 weeks. ~~These interim assessments~~The interims, and in turn the ~~curricular~~bi-weekly assessments, will reflect the rigor and format of the SBAC, CAST and the State Standards. ~~The instructional.~~The school calendar at KIPP Bridge will include time for re-teaching as necessary.

~~During the~~includes a data analysis process~~day after each interim assessment cycle, as well as a re-teaching week in the instructional calendar.~~

~~In this data analysis~~, teachers analyze the data by standard, by ~~studentscholar~~, by groups of ~~studentscholars~~, and by class. Noticing trends across groups and for individuals, teachers will determine which standards need to be retaught whole group and which standards may

need small group or individual remediation. Additionally, teachers will identify which ~~“bubble standards”~~ need to be spiraled for additional practice. Teachers will complete a comprehensive action plan based on what needs to be taught, when it will be taught, how it will be taught, and to whom.

After each cycle, each teacher will meet/meets with their/his/her coach for a data conference to reflect on student/scholar achievement, the data analysis, and the action plan. During this data conference, the coach may push for clarity, serve as a thought partner, or guide the discussion, depending on the teacher’s skillset. After the data conference, the coach will observe/observes re-teaching lessons and help/helps hold the teacher accountable for recollecting data to gauge improvement.

Additionally, grade level teams will meet to discuss groupings for small group instruction time. Based on the interim data, teachers may switch groups across classes and/or adjust/tweak the frequency with which certain student/scholars receive intervention instruction. This will be/is a time to step back and adjust plans and groups in order to best meet the needs of every single student/scholar.

Schedule of Testing

KIPP Bridge will administer all standards-aligned state and national tests for grades kindergarten through eight as determined by the state and national testing requirements. The Charter School will also administer the following tests at each grade level as outlined below.

Table 17: KIPP Bridge Testing Schedule by Grade

Use of Data

KIPP Bridge staff, students, and parents use data on student progress and outcomes to guide instruction, understand individual student needs, and develop strategies for meeting individual and school-wide goals.

KIPP Bridge collects, analyzes, and reports student data and performance by subject and grade level. The data is also disaggregated annually in KIPP Northern California’s own annual report as well as the SARC to clearly identify the academic performance of students by subgroups. Relevant information about the Charter School will be communicated clearly to parents and community members

~~These interim assessment cycles are the main measure for determining whether scholars are meeting their achievement targets. They help teachers see whether scholars have retained information over time and are periodic touch points that are aligned to the SBAC. With this alignment, the KIPP Bridge team will know that scholars are on track to meeting SBAC goals. These cycles also allow the Leadership Team to track progress toward school-wide achievement goals. All interim assessment data will be entered into a school-wide dashboard that will display data by teachers, grade levels, and according to goals. Every staff member will have access to this dashboard, and the Leadership Team will use this dashboard as a way to determine how to best support teachers, make adjustments on professional development plans, and support Grade Level Team Leaders in prioritizing instructional support for scholars who need extra intervention.~~

Curriculum-Based, Formative Assessments

~~At KIPP Bridge, carefully selected curricula and high quality instruction are two key components to meeting the rigor demanded by the Common Core standards. In order to assess student mastery on standards throughout the year, we feel it is important to also collect data from curriculum-based formative assessments to see what students are retaining within and over the course of a unit of study. Eureka Math, for example, provides mid-module and end-of-module assessments that measure mastery of the content presented within that unit, as well as students’ ability to manipulate and apply that knowledge in novel ways. As appropriate, KIPP Bridge will use the formative assessments in our core curricula as another data point for standards mastery throughout the year.~~

Bi-Weekly Standards Assessments

~~FSA’s serve as the driver for day-to-day instruction. KIPP Bridge administers these formative assessments so that teachers know whether scholars are on track to mastering~~

~~standards on the interim assessments. These FSAs are teacher created based on interim assessments.~~

~~Grade Level Team Leaders (GLTL) are responsible for the outcomes of each grade level and lead weekly analysis of data to formulate strategies and plans for the week to come. During these meetings, GLTL's lead the team in grade level analysis, looking for trends across the grade level and differences. Based on the data, teachers may split scholars into groups across classrooms for small group times. Additionally, one teacher might have done something in their lesson execution or tweaked a lesson plan, resulting in higher data. This teacher will share out key strategies that worked for his/her students. This is a time for the grade level to stay focused on the data, ask questions of one another, share best practices, and come up with solutions.~~

Daily Assessments

~~Teachers collect data each day through exit tickets, or they use independent practice as the exit ticket. Beginning around November, after other routines and systems are in place, grade level teams will be expected to bring together exit tickets to analyze scholar performance as a form of feedback on their teaching. These formative assessments will be brought together every Wednesday, and in these meetings, teachers are looking at scholar work to determine misconceptions and adjust their lesson plans accordingly.~~

STEP and Fountas and Pinnell Literacy Assessments

~~At KIPP Bridge, scholars' reading is assessed using the Strategic Teaching Evaluation of Progress (STEP) (kindergarten through second grade) and Fountas and Pinnell (F&P) (3rd grade and up) assessments five times throughout the year: once in the beginning of the year during orientations, and then once every quarter thereafter. The STEP and F & P both assess scholars for their instructional and independent reading level; however, KIPP Bridge uses F&P after second grade because the assessment is more comprehensive and rigorous for those levels. For K and 1st, the STEP assessment is more rigorous.~~

~~The Instructional Leader meets weekly with grade levels for literacy meetings to lead development around guided reading (year one) and other components of balanced literacy. After each STEP round, the AP uses this time to meet with the grade level around STEP data and take a deep dive into their reading data.~~

Progress Monitoring and Data Gathering

~~Goals~~~~UC Ready goals~~ are rigorous and individualized to ensure that ~~students~~~~scholars~~ are on track for success and ~~growth~~~~growing~~ regardless of whether ~~or not~~ they are on the top quartile, the bottom quartile, or somewhere in between. It is crucial that the KIPP Bridge ~~Leadership Team~~ ~~leadership team is~~ intentional about which data they monitor and why. The table below shows the approach to data ~~specifically from the lens of the KIPP Bridge leadership team~~ and the structures in place for responding to that data throughout the year. ~~The Leadership Team will evaluate~~~~team evaluates~~ all of the following data on an ongoing basis.

Frequency	Assessment	Response Structure
Ongoing	Bi-Weekly FSA's	One-on-one and GL meetings—leadership meets with appropriate teachers and GL's to support and hold accountable.
8-10 week Cycles	Interim and / or module Assessments	Data Days and Data Conferences—time to make plans, tweak these plans and be held accountable toward implementing them.
Quarterly	STEP/F&P	Weekly Literacy Meetings—the AP dives into the data and adjusts these meetings based on trends.
Mid-Year and End of Year	MAP	PD right after winter break—time to step back and analyze growth and achievement according to MAP goals.
Annual	SBAC	Analyze overall performance at the beginning of each year as well as performance on overall claims to identify trends and determine goals for the upcoming school year.

Table 18: Structures for Responding to Data

How ~~Staff Use Student Data~~ ~~staff will use student data~~

KIPP Bridge ~~Academy~~ Renewal Petition [2025-2030](#)

Teachers at KIPP Bridge collect and analyze student data on a daily basis, through daily exit tickets and unit and/or curriculum-based assessments, allowing teachers to adjust instruction from day to day. Additionally, teachers will receive coaching and support to review unit assessments with instructional coaches. Teachers participate in weekly data meetings to analyze data and develop plans to respond as needed, including re-teaching and providing differentiated supports.

~~KIPP Bridge will collect, analyze, and report student data and performance by subject and grade level. The data will also be disaggregated internally to understand the performance of students by subgroups. We will also report results annually through a School Accountability Report Card (SARC), so that relevant information about the school can be communicated clearly to parents and community members.~~

On a regular basis, data from ~~KIPP Bridge~~ assessments will be reviewed alongside other school data through ~~staff~~ Communities of Practice, ~~wherein~~ School ~~Leaders~~leaders, Assistant Principals and Instructional Leaders meet on a monthly basis and analyze the data and progress towards goals. This information ~~informs~~will ~~inform~~ school-wide professional development and teacher-level coaching needs.

All

~~For formative assessments, such as performance tasks,~~ KIPP Bridge staff will also participate in regional professional development days, which take place several times throughout the school year, where all KIPP Northern California teachers gather to calibrate and discuss student work and identify opportunities for ongoing improvement to their practice and instruction. On regional professional development days, teachers review and interpret interim assessment results from CCSS-aligned tests and prepare reteaching lessons to address student understanding gaps

KIPP Northern California’s regional leadership and the regional academics team will also closely review student and school-level data on a regular basis to determine how to provide the resources, strategies and supports for our schools. The regional team also enables schools across our region to compare aggregate data and work together to share best practices.

Please see the section on *Classroom, School-wide, and Region-wide Assessment* below for details on how KIPP uses data and measures at a regional level.

How Students Use Their Own Data

How students will use their own data

KIPP Bridge students will develop an understanding of how to interpret and track data on their academic progress, learn to set personal goals, and know how their efforts will lead to those goals. Awareness of data will also help helps to build life-long habits of goal-orientation, growth mindset mindsets, and determination.

~~Beginning in the elementary grades, students will have visual trackers for reading growth to build excitement around reading progress. Each elementary student will be able to articulate at least one academic goal, typically his or her reading goal. In the middle school grades, each student will learn what their reading and MAP data means and will know their goals. Teachers will help students to track individual growth throughout the year. Middle school students will have transparency into their assessment data and each student will know where she or he is performing relative to grade level.~~

~~Students in both elementary and middle school grades will have access to their data. Elementary students will see their classroom visual trackers as well as their report cards. Elementary report cards will be mastery based so that families know what each student has learned and what she or he still needs to learn. Elementary report cards will also include character and culture assessments.~~

~~Middle school students will receive report cards for each marking period three times per year as well as regular monthly reports on academic progress. Report Middle school students will transition to GPA-oriented report cards and progress reports will be mastery-based in order to develop an orientation toward how their own agency and effort can impact academic goals. Students will also know and understand the results from their individual CAASPP and other assessments and the implications for reaching college readiness. In addition to reports, middle school students~~

will also learn to track access and interpret individual personal academic data generated through personalized learning platforms and content. PowerSchool at any time.

How Families Use Student Data

Appendix 24a and Appendix 24b shows examples of an elementary report card and a middle school report card.

How families will use their student data

Parents, alongside students and teachers, are critical to the success of each student. KIPP Bridge parents and guardians will have regular access to information and data on their student’s experience, both academically and socially. At the core of keeping parents informed of student progress and experience is relationship – parents/guardians will have ready and easy access to their students’ teachers via phone, text, and email and opportunities to meet in-person. KIPP Bridge will maintain maintains a culture of open contact and availability of teachers to both students and parents/guardians.-

In addition, parents/guardians will receive report cards for their students at each marking period. Parents/guardians of students of concern three times each year for both elementary and middle school grades. All parents will be invited to parent-teacher meetings to review and interpret the report cards and discuss strategies for supporting each student. Each teacher will strive strives to meet with parents or guardians of each student, each year.

In elementary grades, the purpose of report card grades is to clearly communicate to families what their children are able to do and what they still need to learn. Therefore, grades have two components: academic and social-emotional. Academic grades are determined by mastery of standards.

In middle school, parents transition alongside students from mastery-based report cards to GPA-based report cards in preparation for high school and college. Parents will have opportunity to participate in report card conferences with teachers three times a year, will receive monthly progress reports alongside students as well as weekly summaries of their students’ character

~~development and contributions to school culture and values.~~ The goal of transparency and frequent discussion about student data with parents/[guardians](#) is to build the partnership and alignment between parents/[guardians](#), students and teachers toward each student’s success at KIPP Bridge, ~~into high school,~~ and, ultimately, ~~in to~~ college and ~~beyond life.~~

Classroom, School-wide, and Region-wide Assessment

KIPP Bridge ~~Academy~~ staff ~~will be~~ held accountable for assessing ~~their~~ students, classrooms, and the ~~Charter School~~ as a whole. In addition to tracking individual student progress, classroom-based and school-wide evaluation ~~will be~~ on-going, with individual classroom and school-wide performance assessments occurring year-round. Measures of classroom and school-wide assessment are tied to ~~the KIPP NorCal’s Foundation’s~~ six essential questions. ~~This framework is used to assess whether our schools, regions and national network are effectively serving the broader KIPP mission.~~ The following performance indicators are reviewed on a regular basis by the KIPP Northern California Regional Leadership Team and the KIPP Northern California Board ~~Bridge leadership team~~ to assess the health of the ~~Charter School~~.

KIPP’s Essential Questions	Performance Indicator
Q1: Are we serving the children who need us?	<ul style="list-style-type: none"> • Enrollment • Staff to student ratio • Average core class size • % of students who qualify for free and reduced lunch • % of students with an IEP • % of English Learners
Q2: Are our students staying with us?	<ul style="list-style-type: none"> • Average daily attendance rate • Student retention • Suspension rate • % of students who recommend the school • % of families who are satisfied with the school • Student character rating

KIPP's Essential Questions	Performance Indicator
Q3: Are our students progressing and achieving academically?	<ul style="list-style-type: none"> • % of students who meet tiered growth and typical growth targets • % of students achieving level 3 and 4 on SBAC
Q4: Are our alumni climbing the mountain to and through college?	<ul style="list-style-type: none"> • High school matriculation • % of KIPP Bridge alumni who attend 4 or 2 year college (tracked in partnership with regional KIPP Through College team)
Q5: Are we building a sustainable people model?	<ul style="list-style-type: none"> • Teacher retention • Teacher satisfaction • School leader tenure • Planned successor
Q6: Are we building a sustainable financial model?	<ul style="list-style-type: none"> • Cash flow, excluding philanthropy • Per pupil funding

Table 19: Six Essential Questions and Performance Indicators

Stakeholder feedback and satisfaction ~~are~~ ~~a~~ critical ~~inputs~~ ~~input~~ into our school and regional evaluations. ~~KIPP Bridge will benefit from two stakeholder surveys. The Healthy Schools and Regions Survey (HSR) is a comprehensive survey developed by the KIPP Foundation has partnered with The New Teacher Project (“TNP”) to administer a stakeholder survey and administered to all teachers, non-teaching staff, and school and regional leaders across the national KIPP network, twice per year. The TNP Insight survey includes research-backed questions that gauge instructional culture at our schools, with proven correlations to student outcomes and staff retention. In addition to these national surveys, we also administer a survey region-wide for our students and teachers to help us evaluate school culture. This survey gives us valuable input and progress monitoring on our~~

school culture priorities, including social-emotional learning, use of restorative practices, and student/teacher relationships.

Our regional and school leadership analyze the results of each survey, with the ability to learn from each other, and benchmark against other schools in the Bay Area region and across 183 KIPP schools nationally. The results of our stakeholder surveys are key components in stakeholder teaching and non-teaching staff, students, parents, and school leaders. Each school and region analyzes the results of the HSR annually and have the benefit of comparing results with schools in other regions and learning from each other. Further, the results of the HSR will also inform the annual performance evaluations for KIPP Bridge school leadership and KIPP Northern California's Bay Area Schools regional leadership.

Additional Accountability Provision

KIPP Bridge is accountable to multiple constituencies: students and their families, the KIPP Northern California Board of Directors, the Oakland Unified School District, and the State Board of Education. Accountability to each of these constituencies covers both fiscal and academic performance. At the end of each school year, KIPP Bridge and KIPP Northern California staff completes a cycle of inquiry in which all collected student data including test scores, daily attendance records, examples of student work and student/parent surveys will be evaluated, strengths and weaknesses are identified, and a course for school wide improvement and growth is charted for the upcoming year.

While the above evaluations and assessments are necessary to ensure KIPP Bridge meets our objectives, the ultimate evaluation is the continued success of our graduates completing college and growing into fulfilling lives. Student success is monitored in college and used to evaluate KIPP Bridge's success in seeing students graduate from college.

~~Appendix 25 and Appendix 25b contains an overview of the HSR Survey as well as the detailed questions from the most recent 2014-15 Survey.~~

KIPP Bridge ~~Academy~~ Renewal Petition [2025-2030](#)

ELEMENT 4 –D: GOVERNANCE AND LEGAL ISSUES

~~“Governing Law: The governance structure of the charter school, including, but not limited to, the process to be followed by the charter school to ensure parental involvement.” – Ed. Education Code §Section 47605(cb)(5)(D).~~

Operation by or as a Nonprofit Public Benefit Corporation

~~As an independent charter school, Charter School, operated as or by its nonprofit public benefit corporation, is a separate legal entity and shall be solely responsible for the debts and obligations of Charter School. Charter School shall comply with the provisions of Education Code section 47604(b)(1) and shall not operate as, or be operated by, a for-profit corporation, a for-profit educational management organization, or a for-profit charter management organization. A for-profit educational management organization and a for-profit charter management organization are entities that manage or operate a charter school.~~

~~Charter School shall ensure that, at all times throughout the term of the Charter, the bylaws of its governing board and/or nonprofit corporation are and remain consistent with the provisions of this Charter. In the event that the governing board and/or nonprofit corporation operating Charter School amend the bylaws to change the number of governing board members, Charter School shall provide a copy of the amended bylaws to the OUSD Office of Charter Schools (“OCS”) within 30 days of adoption.~~

~~Charter School will respond to Public Records Act requests in a timely manner and in compliance with the California Public Records Act (Government Code section 6250 *et seq.*).~~

Indemnification of District

~~Charter School through this Charter agrees to defend, and indemnify and hold harmless the District, its officers, directors, employees, attorneys, agents, representatives, volunteers, successors~~

and assigns (collectively hereinafter “District” and “District Personnel”) from and against any and all actions, suits, claims, demands, losses, costs, penalties, obligations, errors, omissions, or liabilities that may be asserted or claimed by any person, firm or entity arising out of, or in connection with, Charter School’s performance under this Agreement or the Charter, the condition or use of its facilities, or any acts, errors, negligence, omissions or intentional acts by Charter School, its Governing Board, administrators, employees, agents, representatives, volunteers, successors and assigns.

Governing Board Operation

Charter School shall follow Education Code section 47604.1, and comply with the Ralph M. Brown Act (Government Code section 54950 *et seq.*); the California Public Records Act (Government Code section 6250 *et seq.*); Government Code section 1090 *et seq.*; and the Political Reform Act (Government Code section 81000 *et seq.*) Charter School shall also comply with the provisions of Education Code section 47604.1(c) with respect to the location of its meetings, and broadcasting its meetings on a two-way teleconference where required.

Charter School shall publicly post all governing board meeting agendas in accordance with the Brown Act. Charter School shall keep accurate records of all governing board meetings, whether they were canceled, rescheduled, or held, and make board meeting documents, including board meeting minutes, available to the public either upon request or by posting on the charter school's website.

Charter School acknowledges the District’s statutory right to appoint, at the District sole discretion, a single representative of the District’s choosing to the Charter School governing board pursuant to Education Code section 47604(c).

Required Notifications to the District

Charter School shall notify OCS in writing of any citations or notices of workplace hazards; investigations by outside regulatory or investigative agencies, lawsuits, changes in corporate or legal status (e.g. loss of IRS 501(c)(3) status), or other formal complaints or notices, regarding any aspect of Charter School's operations, within one week of receipt of such notices by Charter School. Unless prohibited by law, Charter School shall notify OCS in writing of any internal investigations within one week of commencing investigation. Charter School shall notify OCS within 24 hours of any dire emergency or serious threat to the health and safety of students or staff. This 24-hour notification applies to any allegations of serious misconduct related to student safety or child abuse by any student or adult that occurred on campus.

Charter School Records

Upon receiving a records request from a receiving school/school district, Charter School shall transfer a copy of the student's complete cumulative record within ten (10) school days.

~~KIPP Bridge Academy is non-sectarian in its programs, enrollment policies, employment practices, and all other operations, does not charge tuition, and does not discriminate against any student on the basis of the characteristics listed in Education Code Section 220 (actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Section 422.55 of the Penal Code or association with an individual who has any of the aforementioned characteristics).~~

~~KIPP Bridge Academy and KIPP Bay Area Schools comply with all applicable federal, state and local laws. KIPP Bay Area Schools will retain its own legal counsel when necessary. Both KIPP Bridge and KIPP Bay Area Schools purchase and maintain as necessary general liability, automotive liability, errors and omissions, property, and workers compensation insurance policies, either as part of OUSD's insurance program or its own insurance program.~~

~~The OUSD Board of Education shall be responsible for implementing the Charter Schools Act of 1992 and any other applicable laws in a good faith manner, and will cooperatively pursue any necessary waivers or approvals (e.g., any State Board of Education requirements or KIPP grant~~

applications needing a Local Educational Agency signature) required to implement the charter or seek appropriate funding.

Members of KIPP Bridge Academy's Governing Board, any administrators, managers or employees, and any other committees of the School shall at all times comply with federal and state laws, nonprofit integrity standards and OUSD's Charter School policies and regulations regarding ethics and conflicts of interest so long as such policies and regulations are not in conflict with any then-existing applicable statutes or regulations applicable to charter schools. KIPP Bridge and/or its non-profit corporation will be solely responsible for the debts and obligations of the charter school."

KIPP Bridge Academy operates autonomously from OUSD, with the exception of the supervisory oversight as required by statute and other contracted services as negotiated between the OUSD and the school. Pursuant to California Education Code Section 47604(c), OUSD shall not be liable for the debts and obligations of the school, operated by a California non-profit public benefit corporation, or for claims arising from the performance of acts, errors, or omissions by the school as long as OUSD has complied with all oversight responsibilities required by law.

KIPP Bridge Academy will comply with the District policy related to charter schools to the extent it aligns with and does not exceed the law applicable to charter schools, as it may be changed from time to time as long as the charter school has been given written notice of the policy change.

KIPP Bridge, in accordance with Education Code [section 49068](#). Charter School shall comply with the requirements of California Code of Regulations, title 5, section 3024, regarding the transfer of student special education records. In the event Charter School closes, Charter School shall comply with the student records transfer provisions in Element 15. Charter School shall comply with the requirements of Education Code section 49060 *et seq.*, regarding rights to access student records, and Education Code section 49069.3 and 49069.5 regarding transfer of records for youth in foster care.

Charter School acknowledges that pursuant to Article XVI section 8.5(e) of the California Constitution, sections 2(e), 6, and 8 of Proposition 98, and sections 33126.1(b), 35256(c), and 35258 of the Education Code require schools, including Charter School to provide certain information in certain formats in certain ways to the general public and specifically to parents of students at Charter School and of the District. Charter School further acknowledges that it has the obligation to provide all of such information to the District that is required by these referenced authorities in a timely manner so that the District may meet its obligations under those authorities as well. To the extent that there is information that the District has, but that Charter School does not have that Charter School needs in order to meet its obligations, the District shall provide the same to Charter School in a reasonably timely manner upon request under Education Code section 47604.3.

Charter School in accordance with Education Code section ~~Section~~ 47604.3, shall promptly respond to all reasonable inquiries ~~from the District~~, including but not limited to, inquiries regarding financial records, ~~Letters of Inquiry, and Notices of Concern, from the District~~ and shall consult with the District ~~as needed~~ regarding any such inquiries. ~~Charter School~~ KIPP Bridge acknowledges that it is subject to audit by ~~District. If the District~~ OUSD ~~if OUSD~~ seeks an audit of ~~Charter School, the District~~ KIPP Bridge, OUSD shall assume all costs of such audit. This obligation for the District to pay for an audit only applies if the audit requested is specifically requested by the District and is not otherwise required to be completed by ~~Charter School~~ KIPP Bridge by law or charter provisions.

Charter School Ombudsperson

Charter School shall ensure that, at all times throughout the term of the Charter, a neutral party, "Ombudsperson", is identified to serve as an independent resource, assisting families and community members in investigating and addressing complaints, conflicts, and other school-related issues. This individual's name and contact information should be clearly articulated in the Charter School's student and family handbook or distributed widely.

Legal Structure

KIPP Bridge Academy is a directly funded independent ~~The charter holder and applicant of this charter school, and petition is operated by~~ KIPP Northern California Bay Area Schools, a non-profit public benefit corporation ~~organization~~ registered in the state of California, ~~whose sole member is the KIPP Foundation.~~ It is the responsibility of KIPP Northern California Bay Area Schools to be accountable to the ~~District State of California and OUSD~~ for the implementation of KIPP Bridge's ~~Bridge Academy's~~ charter. KIPP Northern California Bay Area Schools exists to ensure that KIPP Bridge adheres to the proven success of the KIPP model and to this charter, and that KIPP Bridge has the resources and support necessary to be successful. The Board of KIPP Northern California Bay Area Schools governs KIPP Bridge ~~Academy~~.

KIPP Bridge operates autonomously from the District, ~~Bay Area Schools is a duly constituted California Nonprofit Public Benefit Corporation, is governed in accordance with the exception of the supervisory oversight as required by statute applicable California Corporations Code sections, and other contracted services as may be negotiated between the District and the KIPP Bridge. Pursuant to~~ wholly accountable to OUSD's Board of Education Code Section 47604(d), the District shall not be liable for the debts and obligations of the Charter School, operated by a California non-profit public benefit corporation, or for claims arising from the performance of acts, errors, or omissions by the Charter School, as long as the District has complied with all oversight responsibilities required by law.

~~–~~Please refer to ~~Appendices 13, 14 Appendix 26a and 15 Appendix 26b~~ for the organizational documents of KIPP Northern California Bay Area Schools, including the Articles of Incorporation, Bylaws, and Conflict of Interest Code ~~articles of incorporation and bylaws~~.

Governance Structure

The governance structure of KIPP Northern California ~~serves~~ Bay Area Schools achieves three primary objectives:

- To promote the success of KIPP Bridge ~~Academy~~ and its students through local responsibility and autonomy.

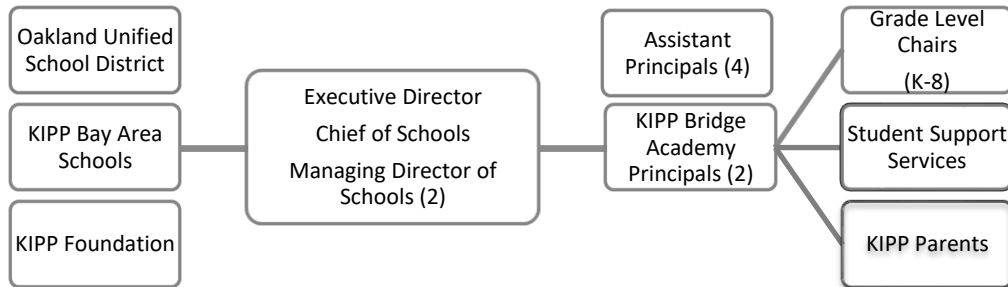

KIPP Bridge ~~Academy~~ Renewal Petition [2025-2030](#)

- To ensure adherence to the proven success of the KIPP educational philosophy that has been demonstrated across the nation-
- To allow the leadership of KIPP Bridge ~~Academy~~ to focus on the educational program of the ~~Charter School~~~~school~~, staff development, and community relations-

Below is an organizational chart of KIPP ~~Bridge's~~~~Bridge Academy's~~ governance structure, including the ~~KIPP Bay Area Schools Board of Directors~~ and ~~KIPP Bridge~~ academic departments:

Figure 10. 11: KIPP Bridge ~~Governance~~~~Academy~~ Organizational Reporting Structure

Board of Directors

The KIPP ~~Northern California Bay Area Schools~~ Board of Directors (“~~the~~ Board”) is the governing body of KIPP Bridge. ~~The Board complies with the Ralph M. Brown Act. Academy.~~ Please see Appendix ~~1627a, Appendix 27b, and Appendix 27e~~ for the Board’s job description, list of board members, and their biographies.

Governance, policy-making authority, and fiduciary responsibility for KIPP Bridge ~~rests Academy rest~~ with the KIPP ~~Northern California Bay Area Schools’~~ Board of Directors. The Board works closely with its ~~Chief Executive Officer/Director~~ and the ~~School Leader/Principal~~ of KIPP Bridge ~~Academy~~ to implement ~~KIPP Northern California’s KIPP’s~~ educational philosophy, ~~as set forth in the Five Pillars.~~

Composition of KIPP ~~Northern California’s Bay Area Schools~~ Board of Directors

KIPP ~~Northern California’s Bay Area Schools’~~ Board of Directors holds public meetings in accordance with the Ralph M. Brown Act ~~and Education Code Section 47604.1(c) and complies with the California Public Records Act.~~ Board ~~directorsmembers~~ support the mission of KIPP ~~Northern California Bay Area Schools~~ and serve voluntarily. KIPP ~~Northern California Bay Area Schools~~ seeks to ensure that its ~~directorsboardmembers~~ represent a broad area of expertise and cross-section of the community at large. KIPP ~~Northern California Bay Area Schools~~ aims to have ~~directorsBoard Members~~ with expertise in real estate, nonprofits, law, finance, management, ~~education, community outreach, and philanthropy, and diversity, equity, and inclusion.~~

KIPP Northern California’s Board will be comprised of 21 directors for the 2024-25 school year, pursuant to its Bylaws, which allows for no less than 15 and no more than 27 directors. Board members are elected to serve three-year terms and may serve up to three consecutive terms. In accordance with Education Code Section 47604(c**b**), the District may appoint a representative to sit on the Board of Directors. If the District chooses to do so, KIPP Northern California may designate an additional member to ensure that the Board is maintained with an odd number of directors. In 2022, the KIPP NorCal Board elected two KIPP Northern California parents to serve on the Board, and plans to include parents on the Board into the future. We are excited by this addition in ensuring our families are involved at all levels of the decision making process.

Board Recruitment Process

The KIPP Northern California Board~~Bay Area Schools board~~ recruiting process includes the following actions:

- Identification of a prospective Board~~board~~ member
- Cultivation and completion of prospective Board member~~a nomination form.~~
- The Board’s Governance Committee reviews nominations quarterly and ranks prospective members based on their ability to meet KIPP Northern California’s strategic goals and maintain KIPP Northern California’s best-in-class Board~~qualifications and desire to serve.~~

The Governance Committee cultivates prospective Board~~board~~ members in the following ways:

- Shares~~Delivers an information packet with~~ information concerning the history and future plans of KIPP Northern California~~Bay Area Schools~~ including specific information regarding the Board and its role in the governance and support of KIPP Northern California~~(i. Bay Area Schools (e. Board~~~~g. board~~ member roles and responsibilities, meeting schedule, committee structure, etc.)~~).~~
- Prospective Board~~board~~ member visits one or more schools operated by KIPP Northern California~~Bay Area Schools~~.
- Prospective Board~~board~~ member meets with the Chief Executive Officer~~Director~~ of KIPP Northern California~~Bay Area Schools~~.
- Prospective Board~~board~~ member interviews with the Governance Committee member(s)~~Member~~.

- Prospective ~~Board~~ member interviews with ~~the~~ Board ~~Chairperson~~ ~~Chair or Vice Chair~~.
- Governance Committee presents formal recommendation to the full ~~Board~~ of KIPP ~~Northern California Bay Area Schools~~; Board votes on prospective candidate(s).
- Board ~~Chairperson~~ ~~Chair~~ meets with ~~the~~ candidate and extends offer to join KIPP ~~Northern California Bay Area Schools~~ Board of Directors.

Board Selection Process

~~KIPP Bridge Academy’s Principal and KIPP Bay Area Schools’ executive team work closely with the Board of Directors to ensure that board members fully support the school’s mission, culture, and goals.~~ The qualifications sought in those candidates interested in serving on the Board include, but are not limited to:

- A dedication to furthering the vision and mission of KIPP ~~Northern California Bay Area Schools~~.
- Willingness to volunteer for one or more ~~Board~~ committees and the ability to contribute appropriate time and energy necessary to follow through on assigned tasks.
- Ability to work within a team structure.
- Expectation that all students can and will realize high academic achievement.
- Specific knowledge, experience, and/or interest in at least one element of governance for KIPP ~~Northern California Bay Area Schools~~.
- Strategic expertise that will advance KIPP Northern California’s mission

New members of the Board of Directors or members seeking another term are chosen through an election process.

Roles and Responsibilities of Board Members

The KIPP ~~Northern California Bay Area Schools~~ Board of Directors’ primary responsibility is to help set policies and guide the executive team and ~~School Leader of KIPP Northern California’s respective charter schools, including KIPP Bridge principals of KIPP Bay Area Schools.~~ ~~The Board is empowered to:~~

The Board is empowered to:

KIPP Bridge ~~Academy~~ Renewal Petition 2025-2030

- Ensure that KIPP Bridge adheres to the goals outlined in this charter, as well as state and federal guidelines and other KIPP ~~Northern California Bay Area Schools~~ policies-
- Hold the ~~School Leader~~Principal of KIPP Bridge and the ~~Chief Executive Officer~~Director of KIPP ~~Northern California Bay Area Schools~~ accountable for the academic and fiscal performance of the ~~Charter School~~school:-
- Provide support to KIPP Bridge for additional fundraising, marketing and other services as needs arise
- Advocate on behalf of KIPP Bridge by working to establish partnerships with community organizations, institutes of higher learning, and foundations and corporate entities that support public education-
- Seek parent, family, and community feedback to support success of schools-
- Define and refine KIPP ~~Bridge's Bay Area Schools~~² mission, vision, and strategic direction-
- Recruit, support, and evaluate the ~~Chief Executive Officer~~Director of KIPP ~~Northern California Bay Area Schools~~:-
- Ensure effective organizational capacity and planning-
- Ensure adequate resources and the effective management of those resources-
- Enhance the organization's public standing-
- Ensure fiscal, legal and ethical integrity and maintain accountability-
- Recruit and orient new ~~Board~~board members-
- Assess ~~Board~~board performance-
- Provide support to KIPP Bridge for additional fundraising, marketing and other services as needs arise-

The Charter School has adopted a Conflict of Interest Code that complies with the Political Reform Act, Corporations Code conflict of interest rules, and Government Code Section 1090, et seq., as set forth in Education Code Section 47604.1, and which shall be updated with any charter school-specific conflict of interest laws or regulations. As noted above, the Conflict of Interest Code is attached as Appendix 15.

The Board may execute any powers delegated by law to it and shall discharge any duty imposed by law upon it and may delegate any of those duties with the exception of budget approval or revision, approval of the fiscal audit and performance report, and the adoption of Board policies. The Board however, retains ultimate responsibility over the performance of those powers or duties so delegated.

Such delegation will:

- Be in writing;
- Specify the entity designated;
- Describe in specific terms the authority of the Board of Directors being delegated, any conditions on the delegated authority or its exercise and the beginning and ending dates of the delegation; and
- Require an affirmative vote of a majority of Board members.

The Charter School Board of Directors will attend an annual in-service for the purposes of training individual Board members on their responsibilities with topics to include, at minimum, ethics, conflicts of interest and the Brown Act.

Board Meetings

The KIPP ~~Northern California Bay Area Schools~~ Board of Directors meets at least quarterly. Meetings comply with the Brown Act. Meeting notices, and agendas , and approved minutes are posted publicly in high traffic areas at the school, such as the administrative office, as well as on the KIPP Northern California school's website, in compliance with the requirements of the Brown Act. Approved minutes from the previous Board meeting are available in the administrative office. The Board Secretary is responsible for recording governing ~~Board~~ actions.

Pursuant to Education Code Section 47604.1(c)(4)(A)-(B), the KIPP Northern California Board of Directors shall meet within the physical boundaries of the county in which the greatest number of students enrolled in those charter schools managed by KIPP Northern California

reside, and a two-way teleconference location shall be established at each KIPP Northern California schoolsite and resource center. In addition, pursuant to Section 47604.1(c)(4)(C), the KIPP Northern California Board shall audio record, video record, or both, all Board meetings and post the recordings on each KIPP Northern California charter school’s website.

Board Committees

The KIPP ~~Northern California Bay Area Schools~~ Board ~~may include~~includes several committees designed to enhance the operation of the ~~Board~~board and provide additional oversight. Individuals who are not directors may participate and be members of Board~~Membership on official board committees, is limited to members of the full board of KIPP Bay Area Schools; however, non-board members may serve as advisors to board committees.~~ Committees of the Board may include:

- **Finance and Investment.** The Finance and Investment Committee reviews and recommends approval of the annual operating budget to the full ~~Board~~board, regularly reviews and monitors financial results, ensures the maintenance of an appropriate capital structure, and oversees the management of financial assets.
- **Governance.** The Governance Committee ensures the health and effectiveness of the full ~~Board~~board and the work it performs for the organization. The committee focuses on ~~Board~~board evaluation, composition, recruiting, nominating, training and education.
- **Audit and Risk Management.** The Audit and Risk Management Committee oversees accounting and financial reporting processes including internal controls, recommends selection of the organization’s auditor to the Board, and oversees the organization’s annual fiscal audit.
- Grievance. The Grievance Committee may act on behalf of the Board in reviewing student expulsions, and responding to employee workplace-related concerns and parent grievances.
- ~~Executive.~~ The Executive Committee assists the Board by having the authority to carry out~~act on behalf of the Board between board meetings and by overseeing key management and compensation matters.~~

- ~~Develop~~ and ~~executingexecute-on~~ the region's vision-
- ~~BuildingBuild~~ and ~~managingmanage~~ a high-performing Regional Team that is able to support schools in their drive to deliver transformational educational outcomes for students-
- ~~BuildingBuild~~ the short and long-term organizational capacity required for operational excellence and sustainability-
- ~~EngagingEngage~~ key constituents-

Please see Appendix ~~1733~~ for ~~the job description for descriptions of~~ KIPP Northern California's ~~ChiefBay Area Schools' Executive OfficerDirector and the regional leadership team.~~

~~Engaging~~ *~~Methods for Holding Governance Structure Accountable to Parents and the~~ School Community*

~~Parental Involvement~~

KIPP Bridge ~~Academy~~ operates under the premise that ~~the~~ teachers, parents/~~families~~, and students must work together as partners to create the potential for a quality education. Parents ~~and families are~~will be a vital part of this partnership. KIPP Bridge ~~Academy~~ involves parents ~~and families~~ as key stakeholders in the ~~Charter School.school~~. KIPP Bridge utilizes opportunities for ~~parent and family engagement and seeks~~parental involvement also as a way to solicit feedback from ~~them~~ as key partners in the success of the Charter School. In order to ~~improve our governance practices and have a board reflective of our values of equity and including, in 2022, two KIPP Public Schools Northern California parents were elected to the Board of Directors. We plan to continue ensuring parent representation on our board.~~

Opportunities for ~~familyparent~~ involvement ~~may~~ include ~~participation in the KIPP Family Council, Coffee with Principal, English Learner Advisory Committee, parentparent-teacher conferences, report card pick up, literacy workshops, review, parent night and newsletters, local field trips, and a variety~~multitude of school-~~wide~~ events each year ~~such as Eid Festival and Pride Parade. KIPP Bridge .KIPP Bridge Academy provides seminars about promoting literacy at home, building financial foundations for college, and on the college admissions process as well as on other needs of the student community. KIPP~~

~~Bridge Academy~~ parents are encouraged to join the KFA, a direct forum for the School Leader and families to engage in ongoing collaboration to ensure the success of the Charter School. ~~KIPP Parent Association (KPA)~~. The ~~KFA~~KPA advises and assists the ~~School Leader~~Principal with activities such as hiring, fundraising, event planning, recruitment, interviews, community outreach, resource development, extracurricular programs, and community service projects. Parents ~~are can~~ also ~~encouraged~~provide input to engage with the school through the KIPP Family Council and engage with KIPP leadership and the Board~~board~~ directly. In addition, we seek opportunities for members of the Board and regional leadership to reach out with parents, either by hosting in-person Q&A sessions onsite at the Charter School or by enabling parents to present their testimony and attend Board meetings. Parents and family members are welcome at KIPP Bridge and are encouraged to volunteer at the Charter School through a variety of opportunities, although there will not be a required number of volunteer hours or days.

Parent Advisory Council

KIPP Bridge has established a KIPP Family Council (“KFC”) to receive and communicate input from the school community to the school leader, as well as to give input on the Local Control and Accountability Plan, in accordance with state and federal legal requirements and as its chose method of meeting federal requirements applicable to Title I recipients. The KFC shall be composed of: the School Leader; teachers selected by teachers at the Charter School; other Charter School personnel selected by other Charter School personnel at the Charter School; and families of students attending the Charter School and/or community members selected by such families. ~~via the KPA.~~

Community Engagement

Building strong links with the local community is critically important to KIPP Bridge’s success. ~~Bridge Academy’s success. KIPP Bridge respects and honors the legacy of the West Oakland community. In an effort to celebrate the richness the community has to offer, KIPP Bridge seeks to partner with individuals and organizations in the community that complement KIPP’s mission. A KIPP staff member operating within the role of Community & Collaborative Support Manager serves~~KIPP Bridge also utilizes opportunities for parental involvement as a liaison between our schools and community partners, with the aim of establishing partnerships that support

our families and students. Current and past partnerships include Alameda County Community Food Bank, Sidra MENA Community Wellness, Safe Passages, Family Support Services, Family Paths, One Warm Coat, and Oakland Adopt a Spot~~way to solicit feedback from the community.~~

KIPP Northern California's Bay Area Schools' management team and/or Board of Directors will respond to all parent and community concerns. Any individual or group may bring complaints or concerns to the management team and/or Board for any reason. Such complaints or concerns directed to the Board will be~~are~~ submitted to the Board up to one week prior to the next Board~~board~~ meeting. Complaints submitted later will be addressed at the subsequent Board meeting.~~of the Board.~~ Emergency issues will be~~are~~ dealt with on an as-needed basis, with the Board responding at or prior to its next regular public meeting. Every effort will be~~is~~ made to respectfully address each matter to the satisfaction of the individual or group that presented the complaint. The Board, as necessary, shall direct the School Leader~~Principal~~ or other responsible party to act upon the complaint and report to the Board. The Board of Directors shall as necessary render its determination in writing.

ELEMENT 5 – Employee Qualifications

“The qualifications to be met by individuals to be employed by the charter school.” – Ed. Code § 47605(c)(5)(E)

Equal Employment Opportunity and Nondiscrimination

Charter School acknowledges and agrees that all persons are entitled to equal employment opportunity. Charter School shall not discriminate against applicants or employees on the basis of race, color, religion, sex, gender, gender expression, gender identity, sexual orientation, pregnancy, national origin, ancestry, citizenship, age, marital status, physical disability, mental disability, medical condition, genetic information, military and veteran status, or any other characteristic protected by California or federal law. Equal employment opportunity shall be extended to all aspects of the employer-employee relationship, including recruitment, selection, hiring, upgrading, training, promotion, transfer, discipline, layoff, recall, and dismissal from employment. Charter School further acknowledges that it shall not retaliate against any employee for engaging in protected activity, exercising a protected right, or initiating or pursuing any claim, proceeding, charge or complaint based upon an allegation of discrimination.

Teacher Credentialing Requirements

Charter School shall adhere to all State and federal requirements that are applicable to teachers and paraprofessional employees. Charter School shall ensure that all teachers meet applicable state requirements for certificated employment, including the provisions of Education Code section 47605(l). Charter School shall maintain current copies of all teacher credentials and make them readily available for inspection.

Reporting Educator Misconduct to the California Commission on Teacher Credentialing

Charter School shall comply with Education Code section 44030.5 with respect to reporting the change in employment status to the California Commission on Teacher Credentialing where the change of employment status is a result of an allegation of misconduct, or while an allegation of misconduct is pending, and with Education Code section 44939.5 regarding the reporting of egregious misconduct.

Employment of Felons

The Charter School shall comply with the provisions of Education Code section 44830.1 and 45122.1 with respect to the submission of fingerprints to the Department of Justice and the employment of persons convicted of violent or serious felonies.

Teacher Certification

KIPP Bridge adheres to the legal requirements of Education Code Sections 47605(l) and 47605.4(a), and shall ensure that KIPP Bridge teachers hold the Commission on Teacher Credentialing certificate, permit, or other document required for the teacher’s certificated assignment. The Charter School may use local assignment options authorized in statute and regulations for the purpose of legally assigning certificated teachers, in the same manner as a governing board of a school district. Teachers employed by charter schools during the 2019-20 school year shall have until July 1, 2025 to obtain the certificate required for the teacher’s certificated assignment.

Certificated teachers are responsible for overseeing student academic progress and for monitoring grading and matriculation decisions as specified in the Charter School's operational policies. The School Leader, together with the Human Resources team at KIPP Northern California, will monitor the credentials and ensure all teachers hold their required certification(s). KIPP Northern California may also employ or retain non-certificated instructional support staff at the Charter School in cases where an individual has an

appropriate mix of subject matter expertise, professional experience, and the demonstrated capacity to work successfully in the Charter School’s rigorous academic environment.

KIPP Bridge will not discriminate or harass based upon the actual or perceived characteristics of race, religion, creed, color, gender, gender identity, gender expression, nationality, national origin, ancestry, ethnic group identification, genetic information, age, medical condition, marital status, sexual orientation, sex and pregnancy, physical or mental disability, childbirth or related medical conditions, military and veteran status, denial of family and medical care leave, immigration status, or on the basis of a person’s association with a person or group with one or more of these actual or perceived characteristics, or any other basis protected by federal, state, local law, ordinance or regulation. KIPP Bridge will be a School of Choice and no employee will be required to be employed. KIPP Bridge will comply with all state and federal laws concerning the maintenance and disclosure of employee records and applicable federal mandates and legal guidelines in the Education Code as well as all federal and state laws for background checks.

The following section outlines the commitments and qualifications of staff at KIPP Bridge.

Staff Commitments

All prospective staff members must show a strong desire to teach an academically intense curriculum, commit to an extended school day, and continue their professional development during the Charter School’s professional development days. Additionally, all staff must meet any additional guidelines and standards set by KIPP Bridge and KIPP Northern California.

All KIPP Bridge faculty will commit to:

- Abide by applicable federal, state, and local laws
- Maintain a professional relationship with all students and a high level of professional conduct
- Refrain from the abuse of alcohol or drugs during the course of professional practice

- Exemplify honor and integrity in the course of professional practice, particularly in the use of public funds and property
- Comply with state, federal, and local laws regarding the confidentiality of student records
- Fulfill the terms and obligations detailed in the Charter School’s charter
- File necessary reports of child abuse
- Adhere to all guidelines in the KIPP Northern California Staff Handbook (Appendix 18) and the KIPP Bridge Team and Family Handbook (Appendix 19)
- Maintain unquestioned integrity and commitment to KIPP Northern California and students

School Leadership

The School Leader will be responsible for the implementation of all aspects of this charter, and for the day-to-day operations and management of

Addressing Complaints

KIPP Bridge Academy.

KIPP NorCal has created a Leadership Excellence Rubric for School Leaders. The Leadership Excellence Rubric was created to support leader growth and development. We believe establishing a rigorous and shared vision for what leadership excellence looks like at KIPP NorCal will help us accelerate leader growth, develop leadership pipelines, align leadership development activities and ultimately, drive stronger and more consistent outcomes for our students. The Leadership Excellence Rubric is attached as Appendix 20.

The following detail the roles, responsibilities, and qualifications of KIPP Bridge’s leadership team:

School Leaders

Reporting to a Managing Director of Schools for KIPP Northern California, the School Leaders set the tone, and is an ambassador of, a powerful vision for student achievement based on KIPP’s philosophy and guiding principles. The School Leaders must strategically implement KIPP Bridge Academy’s mission through effective leadership and management of students and staff. The School Leaders’ collaboration with their leadership teams will result in an instructional program and school environment that prepares every student for success in college and in life.

Qualifications:

- Bachelor’s Degree (required); Master’s Degree (preferred)
- A minimum of 3-5 years teaching in a low income school with demonstrated exemplary student results
- At least two years of leadership in a low income school with demonstrated exemplary student results
- A valid teaching credential in California or a transferable credential from another state preferred
- Deep knowledge of effective research based instructional strategies

- Ability to effectively manage instructional and non-instructional personnel
- Ability to evaluate instructional programs and teaching effectiveness
- Excellent communication, public relations, and interpersonal skills
- Ability to implement effective business systems that ensure proper stewardship of school funds
- Ability to exercise excellent judgment in decision-making
- Knowledge in the selection, training, and supervision of personnel
- Cursory knowledge of the laws, rules, ~~will establish complaint~~ procedures, and programs specifically related to the operation of charter schools
- Proficient knowledge of Google Suite applications (Google Classroom, Hangout, Docs, Sheets, Slides, etc.)
- Ability to learn and utilize instructional technology to support in-class and distance learning (i.e. Zoom, Nearpod)

Assistant Principals

At KIPP Public Schools Northern California, we believe that Assistant Principals are our future School Leaders. We actively develop Assistant Principals for School Leadership and feel the Assistant Principal should consider themselves as an apprentice to the School Leader. The Assistant Principal should gradually build capacity to lead a KIPP school.

The Assistant Principal’s job is to support the Charter School in driving academic and social emotional learning outcomes for students as a key member of the Charter School’s leadership team. Assistant Principals are expected to lead both instruction and school culture, while developing the skills of the Charter School's emerging leaders.

Qualifications:

- Bachelor’s Degree (required); Master’s Degree (preferred)
- A minimum of 3-5 years teaching in a low income school with demonstrated exemplary student results
- A valid teaching credential in California or a transferable credential from another state preferred
- Student Focus: Belief that all students, regardless of background, have the ability to go to and through college; demonstrated commitment to the Charter School’s unique community

- Direction Setting: Ability to set direction for a team and motivate others to action
- Achievement Orientation and Performance Management: Demonstrated student achievement results in own classroom and from teachers that he/she manages
- Cultural Competence: Demonstrated ability to create inclusive environments that honors and supports a diversity of backgrounds and perspectives
- Instructional Leadership: Adept at data analysis; ability to extract meaningful insights across school-wide data
- Instructional Leadership: Expertise in what the school-wide academic standards and state assessments require of students’ knowledge and skills to demonstrate mastery; able to translate student mastery requirements into instructional plans and strategies
- Instructional Leadership: Deep understanding of appropriate application and differentiation of high-leverage instructional strategies (e.g. make kids sweat, pacing, stretch it, etc.) based on comprehension of child development and pedagogy
- Relationship Building: Expertise in cultivating relationships and managing a diverse group of stakeholders
- Achievement Orientation: Demonstrated resilience and focus on student outcomes
- Proficient knowledge of Google Suite applications (Google Classroom, Hangout, Docs, Sheets, Slides, etc.)
- Ability to learn and utilize instructional technology to support in-class and distance learning (i.e. Zoom, Nearpod)

Directors of School Operations

The Directors of School Operations (“DSOs”) lead strategic operational priorities, manage day-to-day school operations, drive efficiencies and systematization, and partner with our instructional leaders to ensure procedures at our school maximize time students spend learning – both in-person and virtually.

The DSOs are instrumental in building and sustaining a thriving school that lasts. At KIPP Northern California, DSOs are the strategic business and operational directors of our schools, whose job is to drive exemplary operational results as key members of the Charter School’s leadership team. KIPP’s DSOs are passionate about working with kids, parents and staff, know the

importance of an excellent education and believe all students deserve the opportunity to attend an excellent school.

The DSOs report to the School Leader and are coached and supported by the Operations team at the Regional Support Office (“RSO”), which supports all KIPP schools in the Bay Area.

Qualifications:

Experience:

- Deep integrity and commitment to KIPP Public Schools Northern California’s mission and values required
- 2+ years of experience in project or program management, operations, human resources or accounting - with clear experience driving stakeholder engagement required
- 1+ year of direct people management and team development experience required
- 1+ year of experience in K-12 education or youth development preferred

Education:

- Bachelor’s Degree in Policy, Business, or related field and 3+ years of work experience or 5+ years’ work experience required

Knowledge/Skills Required:

- Highly self-aware and reflective, with a commitment to feedback and growth
- Ability to self-direct, prioritize and multi-task among competing goals
- Demonstrated experience working and solving problems in a fast-paced, entrepreneurial environment
- Demonstrated ability to work well with others, build relationships across teams, and influence even in the absence of formal authority
- Success leading change initiatives in a complex environment with multiple stakeholders
- Excellent written and verbal communication skills
- Proficiency in one or more of the languages spoken by the communities we work with is required/preferred
- Proficiency in Microsoft Suite or Google Suite required
- Ability to learn and utilize technology necessary to operate in a virtual office environment (i.e.

[Zoom, Go to Meeting\)](#)

Instructional Staff

Teachers

Our teachers play a key role in the establishment of curriculum and culture as they develop a world-class education program from the stages of vision to execution.

The outcomes our students deserve necessitate continuously strong teaching from the time our students enter kindergarten until they graduate from college. As such, our teachers work closely with each KIPP Northern California school’s leadership team to ensure our students learn, grow, and eventually achieve transformative life outcomes. Each teacher will be responsible for ensuring that our students have the opportunity to learn in an environment of joyful, excellent teaching.

Above all else, the most effective teachers find joy and purpose in teaching children the habits necessary to be successful in school and relish the opportunity to imbue our students with a love for learning. Teachers must also be committed to KIPP Northern California’s mission, while possessing the beliefs, character traits, and skills necessary to ensure student growth and achievement.

Teachers are expected to plan, organize and implement an appropriate instructional program in a TK-12 learning environment, both in an in-person classroom setting and virtually, that guides and encourages students to develop and fulfill their academic and socio-emotional potential. Work is performed under the supervision of the School Leader.

Qualifications:

KIPP Bridge Academy Renewal Petition [2025-2030](#)

2602017 – 2022

260

Education:

- B.A/B.S. degree from a regionally accredited institution
- Valid CA certificate, permit, or other document required for the teacher’s certificated assignment, as issued by the Commission on Teacher Credentialing.
 - Teachers employed by charter schools during the 2019-20 school year shall have until July 1, 2025 to obtain the certificate required for the teacher’s certificated assignment

Experience:

- Experience as an educator in a traditionally underserved community for one or more years with demonstrated strong achievement results and documented growth on formative assessments
- Knowledge of child cognitive development and different learning styles
- Ability to establish and maintain cooperative and effective working relationships with others
- Report to work on a regular and punctual basis

Knowledge/Skills Required:

- Model KIPP values
- Possess strong content area knowledge and classroom management skills
- Proficient knowledge of Google Suite applications (Google Classroom, Hangout, Docs, Sheets, Slides, etc.)
- Ability to learn and utilize instructional technology to support in-class and distance learning (i.e. Zoom, Nearpod)
- Communicate well with students, families, and colleagues
- Be committed to working with educationally underserved students
- Believe all students can achieve at the highest academic levels
- Teach in our extended day and year schedule
- Contribute to a relentless and dedicated team of outstanding professionals
- Proficiency in one or more of the languages spoken by the communities we serve a plus

Special Education Teachers (Education Specialists)

Education Specialists serve as Special Education Teachers and Case Managers, working primarily with students with Individualized Education Plans in inclusive settings, resource programs, and

highly specialized Special Education programs, both in an in-person classroom setting and virtually. Education Specialists work closely with school leadership, general education teachers, program specialists, and multidisciplinary teams to plan and implement individualized and rigorous educational programming for students in Special Education. Education Specialists are responsible for Case Management and Compliance, Goal Setting and Progress Monitoring, Stakeholder Engagement and Empowerment, as well as Lesson Planning and Delivery of effective teaching practices for all students.

Above all else, the ideal Education Specialist will find joy and purpose in supporting children to develop the habits necessary to be successful in school and beyond, and they will relish the opportunity to imbue our students with a love for learning. They must also be committed to KIPP Northern California’s mission while possessing the beliefs, character traits, and skills necessary to ensure student growth and achievement.

Qualifications:

Education

- B.A/B.S degree from a regionally accredited institution
- Hold a valid credential or permit as an Education Specialist authorizing service in grade levels & areas assigned as an Education Specialist in the state of CA, along with any appropriate authorizations (e.g., Autism Authorization, Cross-Cultural Language and Academic Development (“CLAD”) Certificate, etc.), or be in the process of securing a valid teaching document

Experience

- Two years of successful, full time teaching experience in Special Education
- Demonstrated success teaching students from educationally underserved areas with strong achievement results and documented growth on formative assessment and/or IEP goal assessment
- Experience as an educator in a traditionally underserved community for one or more years with demonstrated strong achievement results and documented growth on formative assessments
- Knowledge of child cognitive development and different learning styles
- Ability to establish and maintain cooperative and effective working relationships with others

- Spanish, Arabic, Vietnamese, or Mandarin speaking proficiency

Knowledge/Skills Required

- Model KIPP Northern California values
- Possess strong content area knowledge and classroom management skills
- Proficient knowledge of Google Suite applications (Google Classroom, Hangout, Docs, Sheets, Slides, etc.)
- Ability to learn and utilize instructional technology to support in-class and distance learning (i.e. Zoom, Nearpod)
- Communicate well with students, families, and colleagues
- Be committed to working with educationally underserved students
- Believe all students can achieve at the highest academic levels
- Teach in our extended day and year schedule
- Contribute to a relentless and dedicated team of outstanding professionals

Non-Instructional Staff

Paraeducator

Reporting to the School Leader and under the direction of the Education Specialist or other certificated employee, the Paraeducator primarily assists by performing a variety of academic and behavior support duties to individual or small groups of students within the special education classroom, regular classroom and other school settings (both in an in-person classroom setting and virtually). These duties shall be designed to complement the instructional program to maximize learning opportunities for students in a variety of educational settings. The Paraeducator also assists in the establishment and implementation of appropriate classroom and school-wide behavior and assists students to access all aspects of the educational environment of the Charter School and the community.

Qualifications:

Education:

- Completed at least two years of study at an institution of higher education - defined as completion of 48 semester hours (or equivalent trimester hours) of college coursework; or
- Obtained an associate (or higher) degree; or
- Pass the CBEST or a local assessment of knowledge and skills in assisting in instruction
- Registered Behavior Technician certification is preferred, but not required.

Experience:

- Paid or volunteer experience working with or serving individuals with autism or behavioral deficits is preferred

Knowledge/Skills Required:

- Bilingual in languages that are a reflection of populations that the Charter School works with is preferred
- Proficient knowledge of Google Suite applications (Google Classroom, Hangout, Docs, Sheets, Slides, etc.)
- Ability to learn and utilize instructional technology to support in-class and distance learning (i.e. Zoom, Nearpod)
- A deep passion for social justice and equity for all children; believes that all students can achieve at the highest levels, regardless of demography
- Experience working with a diverse staff and students
- Excellent organizational, planning, and implementation skills
- Excellent communication and interpersonal skills
- Results-oriented team player who is dedicated to getting the job done
- Unquestioned integrity and commitment to KIPP Northern California’s mission and values

Mental Health Clinicians

Reporting to the School Leader and receiving coaching from the Regional Clinical Supervisor, the Mental Health Clinician will provide psychotherapeutic interventions, behavioral supports, and mental health treatment services including counseling, consultation, treatment and case

management for all students. The Mental Health Clinician also offers collaboration and training for teachers on mental health topics and interventions that are culturally appropriate and trauma responsive.

Qualifications:

Experience:

- At least one year (2+ years preferred) of post-master’s experience providing mental health and substance abuse services in school-based settings
- At least one year (2+ years preferred) of post-master’s experience providing mental health services in a community mental health setting

Education:

- Master’s Degree in Psychology, Social Work, Marriage and Family Therapy, or a related field
- Possession of associate level registration or counseling licensure as dictated by the California Board of Behavioral and Social Sciences

Knowledge/Skills Required:

- Familiarity with community behavioral health systems of care, including the philosophy of care, levels of care for counseling services, and the delivery of such services, highly preferred
- Familiarity with local community resources/services (which may include health, mental health, substance abuse, vocational, housing, etc.) highly preferred
- Strong commitment to the philosophy, goals, and mission of KIPP Public Schools Northern California and to providing community-based, culturally competent, and client centered mental health treatment and prevention services for the school community
- Commitment to engaging in professional development activities such as trainings, continuing education seminars, case conferences, and reviewing up-to-date material, etc., as related to treatment and intervention strategies for the Charter School community
- Strong interpersonal skills and the ability to work effectively, function independently, and interact professionally with a diverse, multicultural, and interdisciplinary staff of all levels

- Knowledge of crisis intervention, strong work ethic, demonstrated flexibility, superior time management and boundary-holding skills, and a commitment to KIPP Northern California’s philosophy as well as to the foundational school-wide systems at this campus
- Strong skills in self advocacy as well as for advocacy of students and families
- Commitment to systems change, equity and justice as well as to providing services with a trauma-informed care lens
- Familiarity with socio-emotional learning competencies and restorative practices is a plus
- Must be able to effectively communicate with the student or family population
- Bilingual candidates in Spanish, Arabic or Vietnamese also a plus, though not required

Hiring Procedure

KIPP Bridge recruits teachers through various channels including but not limited to: Education Week, Teach for America, Idealist, Ed-Join, the KIPP NorCal website, graduate schools of education, Teacher Residency Programs, LinkedIn and referrals. The KIPP Northern California Regional Support Office supports KIPP Bridge with talent recruitment, primarily by advertising open positions and conducting early-stage interviews.

Prospective teachers usually teach demonstration lessons that must be student-driven and exhibit a strong command of the subject area. Each applicant undergoes formal and informal interviews to ensure that their values are aligned with the KIPP educational philosophy. The School Leader is responsible for the final hiring decision of all Charter School employees.

All faculty and staff undergo a criminal background check and fingerprinting to be conducted by the Department of Justice and the FBI. The applicants are required to provide a full disclosure statement regarding prior criminal records. The Charter School shall verify employment eligibility of all Charter School staff pursuant to all applicable state and federal requirements. In accordance with Education Code Section 49406 and Health and Safety Code Sections 121525 -121555, all Charter School employees shall undergo a tuberculosis (“TB”) risk assessment (and examination, if necessary), upon hire and every four years thereafter.

Compensation

Teachers are the core element of KIPP Northern California’s success. It is therefore essential that teachers are supported, developed, and well-compensated. The Charter School will offer competitive salaries, and compensation is determined individually based on teaching experience and responsibilities undertaken.

In addition to salary, teachers will be offered a competitive benefits package. Salary, and as applicable other financial compensation, is outlined in formal employment offer letters signed by KIPP Northern California and the employee. In addition, KIPP Northern California has a formalized salary scale that will be updated as necessary to adjust for cost of living standards. Standards of professional conduct are clearly explained in the Employee Handbook.

Teacher Professional Development and Evaluation

A Professional Teaching and Learning Environment

Strong, dedicated teachers are the backbone of any excellent school, and KIPP Northern California schools are no exception. KIPP Bridge prioritizes hiring outstanding, committed teachers familiar with the population of students the Charter School serves. Much is expected of KIPP Bridge teachers. In addition to the extended time in class, teachers are expected to be wholly focused on KIPP Bridge’s mission, committed to its values, and open to collaboration and constant learning.

In return, KIPP Bridge’s teachers are treated as the professionals that they are. They are supported in their professional growth with time for planning and collaboration, coaching, and resources for improving instruction. Teachers at KIPP Bridge are encouraged to regularly visit each other’s classrooms to create consistency in content of lessons as well as classroom culture, and to learn from their peers. To continually improve instruction and the implementation of the KIPP model at KIPP Bridge, teachers have the opportunity to receive

feedback from the Charter School’s leadership team on the results of their students. Each teacher is also provided with the necessary tools for effective lesson preparation and communication with families, including a laptop computer, cell phone, and high-speed Internet access. In addition to school-site professional development budgets, teachers have the opportunity to apply for funds from KIPP Northern California to support their professional growth.

Professional Development

At KIPP Bridge, the School Leader and instructional leadership team will set the tone and develop the conditions under which staff members become the keepers of the Charter School’s culture and values and grow as teachers and learners. As a result, staff development supports the Charter School’s mission and basic values by fostering a positive campus culture, sharing the best instructional practices, and encouraging individual teacher growth. Beginning in staff orientation before summer school, the School Leader and instructional leadership team will ensure that teachers fully understand and support the Charter School’s mission, goals, and basic values, emphasizing a rigorous, standards-based college-preparatory program. This orientation will involve specific activities designed to align the staff and foster teamwork, such as learning about our community through community, student, and family panels.

During the school year, staff development continues through professional development days, whole staff meetings, and department and grade level team meetings. Over the course of the year, teachers may receive two weeks of professional development during which they are trained to function effectively within the parameters of the Charter School and to meet the goals outlined in the accountability plan. Teachers are encouraged to observe each other and other excellent teachers in the community and receive regular feedback on their performance, goals, and growth. Staff development also occurs through weekly observation and coaching meetings between teachers and their instructional coaches. Coaches use classroom observations, aligned to the KIPP Northern California Teaching Excellence Rubric, and student data to determine which teaching skills will be highest leverage in increasing student learning and meeting goals.

Prior to the beginning of the school year, teachers attend staff development sessions in order to provide teachers with an opportunity to design their goals, objectives, and curriculum for the summer and the upcoming school year. Also during this time, teachers continue their preparation by adapting curriculum to ~~that~~ address the specific needs and interests of the students.

KIPP Northern California teachers consistently exchange best practices with each other and teachers at similar schools. Professional development involves structured whole staff and small group practice, and is individualized to best serve each teacher’s needs. Teachers may also receive approximately 40 hours of professional development at conferences sponsored by the KIPP Foundation, including the KIPP School Leadership Programs and the Research for Better Teaching programs. Finally, staff may participate in online communities of teachers throughout the KIPP network of schools.

Staff Evaluation Plan

The School Leader is responsible for setting a clear vision for the evaluation of all teachers and support staff. Assistant Principals and other instructional coaches serve as evaluators and lead the development of Personal Development Plans with their coaches throughout the course of the year. The School Leader provides oversight and coaching to instructional leaders and participate in evaluations as appropriate or needed. A critical part of teacher evaluation and retention is based on performance outcomes, measuring student achievement and the teacher's implementation of the curriculum. The annual performance assessment is based on those standards.

The Charter School has established clearly defined criteria for performance reviews that include:

- Commitment to the Charter School’s mission and goals
- Successful implementation of the curriculum and educational philosophy
- High level of professionalism
- High level of accomplishment

- Effective participation in the Charter School’s staff and team

Tools used in the evaluation process include:

- Written evaluations based on classroom observations
- Self-evaluation completed by teacher being evaluated
- Student performance on major assessments
- Evaluation based on the KIPP Northern California’s Teaching Excellence Rubric

Those teachers failing to adhere to the guidelines outlined above, and/or failing to meet the specifications of the evaluation plan, will be subject to dismissal or may not have their employment renewed at the request of the School Leader. See Table 20 for a sample teacher evaluation plan.

Table 20: Sample Staff Evaluation Plan

ELEMENT 6 – Health and Safety

“The procedures that the charter school will follow to ensure the health and safety of pupils and staff. These procedures shall require all of the following:

(i) That each employee of the charter school furnish the charter school with a criminal record summary as described in Section 44237.

(ii) The development of a school safety plan, which shall include the safety topics listed in subparagraphs (A) to (J), inclusive, of paragraph (2) of subdivision (a) of Section 32282.

(iii) That the school safety plan be reviewed and updated by March 1 of every year by the charter school.” – Ed. Code § 47605(c)(5)(F)

Site Safety Plan

Charter School shall develop a school safety plan, which shall include the following topics set forth in Education Code section 32282(a)(2), and which shall be updated by March 1 every year:

(A) Child abuse reporting procedures;

(B) Disaster procedures, routine and emergency, including adaptations for pupils with disabilities;

(C) Policies pursuant to subdivision (d) of Section 48915 for pupils who committed an act listed in subdivision (c) of Section 48915 and other school-designated serious acts that would lead to suspension, expulsion, or mandatory expulsion recommendations;

(D) Procedures to notify teachers of dangerous pupils pursuant to Section 49079;

(E) A discrimination and harassment policy consistent with the prohibition against discrimination set forth in Education Code section 200;

(F) The provisions of any schoolwide dress code, pursuant to Education Code section 35183 that prohibits pupils from wearing “gang-related apparel,” if the school has adopted that type of a dress code;

(G) Procedures for safe ingress and egress of pupils, parents, and school employees to and from school;

(H) A safe and orderly environment conducive to learning at the school;

(I) The rules and procedures on school discipline adopted pursuant to Education Code sections 35291, 35291.5, 47605, and 47605.6;

(J) Procedures for conducting tactical responses to criminal incidents, including procedures related to individuals with guns on school campuses and at school-related functions. The procedures to prepare for active shooters or other armed assailants shall be based on the specific needs and context of each school and community.

Pupil Safety

Immunizations, Health Examinations, and Health Screenings

Charter School shall comply with all federal and state legal requirements related to student immunization, health examination, and health screening, including but not limited to screening for vision, hearing, and scoliosis, to the same extent as would be required if the students were attending a non-charter public school. Charter School shall maintain student immunization, health examination, and health screening records on file.

Suicide Prevention Policy (Grades 7-12)

Charter School shall adopt, at a regularly scheduled meeting, a policy on pupil suicide prevention in Grades 7 through 12 inclusive, that meets the requirements of Education Code section 215, if it serves any of those grade levels. The policy shall be developed in consultation with school and community stakeholders, school-employed mental health professionals, and suicide prevention experts and shall, at a minimum, address procedures relating to suicide prevention, intervention, and postvention, and shall specifically address the needs of high-risk groups, including, but not limited to, all of the following: Youth bereaved by suicide; Youth with disabilities, mental illness, or substance use disorders; Youth experiencing homelessness or in

out-of-home settings, such as foster care; and lesbian, gay, bisexual, transgender, or questioning youth.

Employee Training

Charter School shall ensure that all staff members receive annual training on Charter School's health, safety, and emergency procedures, including but not limited to training on blood borne pathogens, and shall maintain a calendar for, and conduct, emergency response drills for students and staff. Charter School shall also ensure that its employees receive the required sexual harassment training under Govt. Code 12950.1.

Charter School shall provide all employees, and other persons working on behalf of Charter School who are mandated reporters, with annual training on child abuse detection and reporting, which shall occur within the first six weeks of each school year, or within the first six weeks of a person's employment if employed after the beginning of the school year, in accordance with the requirements of Education Code section 44691.

Employee Screening Requirements

Criminal Background Clearances and Fingerprinting

Charter School shall comply with all requirements of Education Code sections 44237, 44830.1 and 45125.1. Charter School shall designate and maintain at all times at least one Custodian of Records duly authorized by the California Department of Justice.

Charter School shall maintain on file and available for inspection evidence that (1) Charter School has performed criminal background checks and cleared for employment all employees prior to employment; (2) Charter School has obtained certification from each of its contracting entities/independent contractors that the entity/contractor has conducted required criminal

background clearances for its employees prior to provision of school site services and/or any contact with students and has requested subsequent arrest notification service; and (3) Charter School has performed criminal background checks and cleared for service all volunteers not directly supervised by staff and who may have contact with students. Charter School shall also ensure that it requests and receives subsequent arrest notifications from the California Department of Justice for all employees and volunteers not directly supervised by staff. Upon request, Charter School shall provide a copy of Department of Justice confirmation of Custodian of Records status for each Custodian of Records.

Tuberculosis Screening

Charter School shall require all employees, and any volunteer or vendor/contracting entity employee who may have frequent or prolonged contact with students, to undergo a risk assessment and/or be examined and determined to be free of active tuberculosis (TB) within the period of 60 days prior to employment/service, in accordance with Education Code section 49406. Charter School shall maintain TB clearance records and certifications on file.

The following is a summary of additional health and safety policies of KIPP Bridge:

Employees

Mandated Child Abuse Reporters

All staff at KIPP Bridge are mandated child abuse reporters and follow all applicable reporting laws. The Charter School shall provide mandated reporter training to all employees annually in accordance with Education Code Section 44691.

Drug Free/Alcohol Free/Smoke Free Environment

KIPP Bridge shall function as a drug, alcohol and smoke free environment.

Students

Immunizations and Health Screenings

All enrolled students who receive classroom-based instruction will be required to provide records documenting immunizations to the same extent that this is required for non-charter public schools pursuant to Health and Safety Code Sections 120325-120375, and Title 17, California Code of Regulations Sections 6000-6075. All rising 7th grade students must be immunized with a pertussis (whooping cough) vaccine booster. Additionally, KIPP Bridge complies with all other applicable student immunization and health screening requirements.

Upon a student’s admission or advancement to 6th grade, the Charter School shall submit to the student and their parent or guardian a notification that advises students to adhere to current immunization guidelines regarding human papillomavirus (“HPV”) before admission or advancement to 8th grade, consistent with the requirements of Education Code Section 48980.4 and Health and Safety Code Section 120336.

Medication at School

KIPP Bridge adheres to Education Code Section 49423 regarding administration of medication in school. Students requiring prescription medications and other medicines during school hours are accommodated in accordance with applicable policies and procedures. The Charter School will adhere to Education Code Section 49414 regarding epinephrine auto-injectors and training for staff members; per AB 1651 (2023), the Charter School shall store emergency epinephrine auto-injectors in an accessible location upon need for emergency use and include that location in annual notices required by law. To the extent the Charter School maintains a stock of albuterol inhalers to respond to respiratory distress in students, the Charter School shall comply with the requirements of Education Code Section 49414.7, including with respect to trainings, notices, and the stocking of albuterol inhalers.

Vision, Hearing, Scoliosis

Students will be screened for vision, hearing, and scoliosis. The Charter School will adhere to Education Code Section 49450, et seq., as applicable to the grade levels served by the Charter School.

Diabetes

The Charter School shall make type 1 diabetes informational materials accessible to the parent or guardian of a pupil when the pupil is first enrolled in elementary school. The Charter School will provide an information sheet regarding type 2 diabetes to the parent or guardian of incoming 7th grade students, pursuant to Education Code Section 49452.7. The information sheet shall include, but not be limited to, all of the following:

1. A description of type 2 diabetes
2. A description of the risk factors and warning signs associated with type 2 diabetes
3. A recommendation that students displaying or possibly suffering from risk factors or warning signs associated with type 2 diabetes should be screened for type 2 diabetes
4. A description of treatments and prevention methods of type 2 diabetes
5. A description of the different types of diabetes screening tests available

Suicide Prevention Policy

The Charter School shall maintain a policy on student suicide prevention in accordance with Education Code Section 215. The Charter School shall review, at minimum every fifth year, its policy on pupil suicide prevention and, if necessary, update its policy. Pursuant to AB 58 (2021-22), the Charter School will also review and update its suicide prevention policy by January 1, 2025 to incorporate best practices identified by the California Department of Education’s model policy, as revised. The policy shall specifically address the needs of high-risk groups, include consideration of suicide awareness and prevention training for teachers, and

ensure that a school employee acts only within the authorization and scope of the employee’s credential or license.

Prevention of Human Trafficking

The Charter School shall identify and implement the most appropriate methods of informing parents and guardians of students in grades 6 through 8 of human trafficking prevention resources.

Menstrual Products

The Charter School shall stock the school’s restrooms at all times with an adequate supply of menstrual products, available and accessible, free of cost, in all women’s restrooms and all-gender restrooms, and in at least one men’s restroom. The Charter School shall post a notice regarding the requirements of Education Code Section 35292.6 and contact information, including an email address and telephone number, for a designated individual responsible for maintaining the requisite supply of menstrual products.

All Gender Restrooms

On or before July 1, 2026, the Charter School shall provide and maintain at least one all-gender restroom for voluntary student use at each of its schoolsites that has more than one female restroom shall have signage identifying the bathroom as being open to all genders, it shall remain unlocked, unobstructed, and easily accessible by any student, and be available during school hours and school functions when students are present. The Charter School shall designate a staff member to serve as a point of contact and to post a notice regarding these requirements.

School Meals

The Charter School shall provide breakfast and lunch free of charge during each school day to any pupil who requests a meal without consideration of pupil’s eligibility for a federally funded free or reduced-price meal, with a maximum of one free meal for each meal service period.

The meals provided under this paragraph shall be nutritionally adequate meals that qualify for federal reimbursement.

The Charter School shall provide each student adequate time to eat as determined by the Charter School in consideration of available guidance.

Recess

As of the 2024-25 school year and except where a field trip or other educational program is taking place, if the Charter School provides recess, to the extent required by Education Code Section 49056, the Charter School shall provide supervised and unstructured recess, distinct from physical education courses and mealtimes, of at least 30 minutes on regular instructional days and at least 15 minutes on early release days. The Charter School shall not restrict a student’s recess unless there is an immediate threat to the physical safety of the student or one or more of their peers.

California Healthy Youth Act

The Charter School will teach sexual health education and human immunodeficiency virus (“HIV”) prevention education to students in grades 7-8 at least once, pursuant to the California Healthy Youth Act (Education Code Section 51930, et seq.).

Mental Health Education

If the Charter School offers one or more courses in health education to students in middle school, the Charter School shall include in those courses instruction in mental health that meets the requirements of Education Code Section 51925, et seq.

Mental Health Information

The Charter School shall create and post a poster at the schoolsite identifying approaches and resources addressing student mental health in compliance with Education Code Section 49428.5. The poster shall be displayed in English and the primary language(s) spoken by 15 percent or more of students enrolled at the schoolsite. The poster shall be prominently and conspicuously displayed in appropriate public areas that are accessible to, and commonly frequented by, students at the schoolsite. The poster shall also be digitized and distributed online to students through social media, internet websites, portals, and learning platforms at the beginning of each school year.

School Safety Plan

The Charter School shall comply with Education Code Section 47605(c)(5)(F)(ii). The School Safety Plan shall be drafted specifically to the needs of the facility in conjunction with law enforcement and the Fire Marshal. Staff shall receive training in emergency response, including appropriate “first responder” training or its equivalent.

Disaster procedures included in the School Safety Plan shall address and include adaptations for students for students with disabilities. To the extent an employee, parent/guardian, educational rights holder, or student brings concerns regarding the procedures to the School Leader and, if there is merit to the concern, the principal shall direct the School Safety Plan to be modified accordingly.

Workplace Violence Prevention Plan

The Charter School shall establish, implement, and maintain, at all times in all work areas, an effective workplace violence prevention plan consistent with the requirements of Labor Code Section 6401.9.

Blood Borne Pathogens

KIPP Bridge shall meet state and federal standards for dealing with blood-borne pathogens and other potentially infectious materials in the Charter School. KIPP Bridge will establish an infectious control plan designed to protect employees and students from possible infection due to contact with blood-borne viruses, including HIV and hepatitis B virus (“HBV”). Whenever exposed to blood or other body fluids through injury or accident, students and staff should follow the latest medical protocol for disinfecting procedures.

Comprehensive Discrimination and Harassment Policies and Procedures

KIPP Bridge is committed to providing a school that is free from discrimination and sexual harassment, as well as any harassment based upon the actual or perceived characteristics of race, religion, creed, color, gender, gender identity, gender expression, nationality, national origin, ancestry, ethnic group identification, genetic information, age, medical condition, marital status, sexual orientation, sex and pregnancy, physical or mental disability, childbirth or related medical conditions, military and veteran status, denial of family and medical care leave, or on the basis of a person’s association with a person or group with one or more of these actual or perceived characteristics, or any other basis protected by federal, state, local law, ordinance or regulation. KIPP Northern California has developed a comprehensive policy to prevent and immediately address any concerns about discrimination or harassment at the Charter School (including employee to employee, employee to student, and student to employee misconduct). Misconduct of this nature is very serious and will be addressed in accordance with the Charter School’s anti-discrimination and harassment policy, which is outlined in detail in the KIPP Northern California Staff Handbook (Appendix 18).

A copy of the policy shall be provided as part of any orientation program conducted for new and continuing pupils at the beginning of each quarter, semester, or summer session, as applicable, and to each faculty member, all members of the administrative staff, and all members of the support staff at the beginning of the first quarter or semester of the school year, or at the time that there is a new employee hired.

Bullying Prevention

The Charter School shall maintain procedures for preventing acts of bullying, including cyberbullying. The Charter School shall annually make available the online training module developed by the CDE pursuant to Education Code Section 32283.5(a) to certificated school site employees and all other school site employees who have regular interaction with children.

Supporting LGBTQ Students

Commencing with the 2025-26 school year and ending with completion of the 2029-30 school year, the Charter School shall use an online training delivery platform and curriculum to provide at least 1 hour of required LGBTQ cultural competency training annually to teachers and other certificated employees and maintain records of such training as required by Education Code Section 218.

Homicide Threats

The Charter School shall comply with all requirements under Education Code Sections 49390-49395 regarding mandatory reporting in response to homicidal threats. All employees and Board members who are alerted to or who observe any threat or perceived threat in writing or through an action of a student that creates a reasonable suspicion that the student is preparing to commit a homicidal act related to school or a school activity shall make a report to law enforcement.

Gun Safety Notice

At the beginning of the first semester, the Charter School shall distribute a notice to the parents/guardians of each student addressing California’s child gun access prevention laws and laws related to firearm safety utilizing the most updated model language published by the California Department of Education.

Athletic Programs

The Charter School shall comply with all applicable laws related to health and safety policies and procedures surrounding athletic programs at charter schools, including but not limited to providing information to athletes regarding sudden cardiac arrest and annually providing each athlete an Opioid Factsheet for Patients.

In the event the Charter School participates in any interscholastic athletic programs, it shall comply with all applicable requirements, including, but not limited to, adopting a written emergency action plan for sudden cardiac arrest or other medical emergencies related to athletic programs, and acquiring at least one automated external defibrillator. Further, Charter School’s emergency action plan shall describe the location of emergency medical equipment and include a description of the manner and frequency at which the procedures to be followed in the event of sudden cardiac arrest and other medical emergencies, including concussion and heat illness will be rehearsed. By July 1, 2024, coach training shall include recognition of the signs and symptoms of and responding to concussions, heat illness, and cardiac arrest.

In the event the Charter School participates in the California Interscholastic Federation it shall, on or before April 1, 2025, post on its website a standardized incident form as developed by the CDE to receive ~~both~~ complaints of racial discrimination, harassment, or hazing alleged to occur at high school sporting games or sporting event and shall include instructions on how to submit a completed incident form consistent with Education Code Section 33353.

Transportation Services

Effective July 1, 2025, the Charter School shall comply with the requirements of Education Code Section 39875(c), if applicable, relating to background checks and testing for individuals providing transportation services for students.

Facility Safety

KIPP Bridge shall comply with Education Code Section 47610 by either utilizing facilities that are compliant with the Field Act or facilities that are compliant with the California Building Standards Code. KIPP Bridge shall ensure that prior to commencement of operations such facilities shall comply with local building and zoning ordinances. Fire inspections at the Charter School facilities shall be conducted in compliance with all applicable laws and regulations. KIPP Bridge will annually test sprinkler systems, fire extinguishers, and fire alarms at its facilities to ensure that they are maintained in an operable condition at all times. The Charter School will hold emergency drills in conjunction with the District (if at a District facility) in compliance with all applicable laws and regulations.

ELEMENT 7 – Balance of Racial/Ethnic, Special Education, and English Learner Students

“The means by which the charter school will achieve a balance of racial and ethnic pupils, special education pupils, and English learner pupils, including redesignated fluent English proficient pupils, as defined by the evaluation rubrics in Section 52064.5, that is reflective of the general population residing within the territorial jurisdiction of the school district to which the charter petition is submitted.” – Ed. Code § 47605(c)(5)(G)

KIPP Bridge strongly believes that a wide cross section of students with a variety of life experiences adds to the learning experience of all. Students will need to learn from others how to respect different viewpoints and find the commonalities in all people. KIPP Bridge strives to serve a student population that will achieve a balance of racial and ethnic students, special education students, and English Learners that is reflective of the general population residing within Oakland.

Outreach

KIPP Bridge may take any of the following steps to recruit and welcome all students who are representative of Oakland’s diverse communities:

- Variety of languages for marketing and recruitment materials, included languages that are emerging (simplified Chinese and Arabic)
- Partner with local community-based organizations to recruit a diverse population of students and provide services to ensure a smooth transition to middle school for new students
- Host information sessions for families of students with disabilities
- Host visits to KIPP Bridge Academy for families of students with disabilities
- Visit and speak at local community based organizations in targeted low-income neighborhoods
- Hire and develop diverse staff from the community to implement recruitment activities, including in the native language of families in the community

KIPP Bridge ~~Academy~~ Renewal Petition [2025-2030](#)

- Post flyers and notices in local supermarkets, restaurants, businesses, churches, community centers, and apartment complexes in low-income neighborhood
- Visit and explain to prospective students and their families the mission of the KIPP Bridge
- Conduct parent information sessions to elaborate on the commitment involved with attending KIPP Bridge
- Canvas various neighborhoods to reach interested families
- Promote KIPP Bridge at various neighborhood festivals and community events
- Make local school visits in the surrounding communities
- Encourage referrals from students and families at other KIPP schools
- Speak at civic organizations, with a particular focus on local community populations
- Place advertisements in local newspapers and community association newsletters
- Speak on local radio stations
- Encourage teacher referrals of students from other campuses
- Hire staff that is representative of the community that KIPP Bridge serves, including parents
- Establish priority for students in-district and families who qualify for FRPM if admission will be determined by a public lottery. See Element 8 for additional details.
- Run digitally placed advertisements across various online media and applications in multiple languages
- Utilize social media to advertise informational nights and school opening

KIPP Bridge shall evaluate its balance of racial and ethnic students, special education students, and English Learners, and adjust recruitment practices, as needed, in order to build a school community that reflects the general population residing within the geographic boundaries of the District.

KIPP Bridge supports the ongoing diversity of student enrollment by ensuring student and subgroups needs are met once enrolled. A comprehensive overview of how we support our Special Education, and English Learner students can be found in Element 1, and a description of our community and family engagement structures are available in Element 2. Additional descriptions can also be found in the 2024-25 Renewal Performance Report in Appendix 26. Examples of support include our Specialized Teaching Program (STP) serving students with moderate to severe disabilities, culturally-affirming events, translating school newsletters,

hosting English Learner Advisory Committee meetings, and hiring and retaining talented English Language Development teachers to support English Learner students.

KIPP Bridge Academy Renewal Petition [2025-2030](#)

ELEMENT 8 – ADMISSION POLICIES AND PROCEDURES

“Admission policies and procedures, consistent with subdivision (e) [of Education Code section 47605].” – Ed. Code § 47605(c)(5)(H)

Documentation of Admissions and Enrollment Processes

Upon request, Charter School will notify the District in writing of the application deadline and proposed lottery date. Charter School will ensure that all application materials will reference these dates as well as provide complete information regarding application procedures, key dates, and admissions preferences and requirements consistent with approved charter.

Charter School shall maintain complete and accurate records of its annual admissions and enrollment processes, including but not limited to documentation of implementation of lottery and waitlist criteria and procedures in accordance with the terms of the Charter, and a record of all written communications with parents related to admissions. These records shall be made available to the District upon request.

As indicated in the affirmations included at the beginning of this petition, Charter School shall comply with all requirements related to admissions preferences found in Education Code section 47605(e)(2)(B).

[Insert additional language showing how Charter School will comply with the above requirements, including how the preferences “shall not result in limiting enrollment access access for pupils with disabilities, academically low-achieving pupils, English learners, neglected or delinquent pupils, homeless pupils, or pupils who are economically disadvantaged, as determined by eligibility for any free or reduced-price meal program, foster youth, or pupils based on nationality, race, ethnicity, or sexual orientation” per Education Code section 47605(e)(2)(B)(iii).

KIPP Bridge will be a tuition-free public school that is open to all residents of the State of California. KIPP Bridge will not discriminate against any student on the basis of race, ethnicity, religion, gender, gender expression, gender identity, national origin, sexual orientation, or disability of the students, parents or guardians, or any of the characteristics listed in Education Code Section 220. KIPP Bridge shall be nonsectarian in its programs, admission policies, and all other operations, and will not charge tuition. Families' inability to pay for materials or activities will not preclude students from being admitted to the Charter School or participating in these activities.

KIPP Bridge intends to serve approximately 570 students in transitional kindergarten through eighth grade. Formal recruitment of incoming students may begin as early as fall of each calendar year for the following school year. KIPP Bridge shall advertise open enrollment within the Oakland community so that all families may have an equal opportunity to apply for admission. The application shall request basic student and family data, including name, date of birth, address and contact information and any other information that could qualify the student(s) for a specific admission preference should a public random drawing ("lottery") be required. Interested families shall be able to meet with staff to review the expectations of the Charter School. The Charter School's website will include information that allows students and parents to be informed about KIPP Bridge's operation as a charter school, its educational programs, and the academic expectations of students.

KIPP Bridge shall admit all pupils who wish to attend the Charter School to the extent that space allows. No test or assessment shall be administered to students prior to acceptance and enrollment into the Charter School. KIPP Bridge will comply with all laws establishing minimum and maximum age for public school attendance in charter schools. Admission, except in the case of a public random drawing, shall not be determined by the place of residence of the pupil or of his or her parent or legal guardian within the state. In accordance with Education Code Sections 49011 and 47605(e)(2)(B)(iv), admission preferences shall not require mandatory parental volunteer hours as a criterion for admission or continued enrollment. KIPP Bridge will notify parents/guardians of applicant students on the application that parental involvement is not a requirement for acceptance to, or continued enrollment at, KIPP Bridge.

In accordance with Education Code Section 47605(e)(4)(A), the Charter School shall not discourage a pupil from enrolling or seeking to enroll in the Charter School for any reason, including, but not limited to, academic performance of the pupil or because the pupil exhibits any of the characteristics described in Education Code Section 47605(d)(2)(B)(iii), including pupils with disabilities, academically low-achieving pupils, English learners, neglected or delinquent pupils, homeless pupils, or pupils who are economically disadvantaged, as determined by eligibility for any free or reduced-price meal program, foster youth, or pupils based on nationality, race, ethnicity, or sexual orientation. Similarly, in accordance with Section 47605(e)(4)(C), the Charter School shall not encourage a pupil currently attending the Charter School to disenroll from the Charter School or transfer to another school for any reason, including, but not limited to the academic performance of the pupil or because the pupil exhibits any of the characteristics described in Education Code Section 47650(e)(2)(B)(iii), as listed above.

Pursuant to Education Code Section 47605(e)(4)(D), the Charter School shall post a notice developed by the CDE on the Charter School website, outlining the requirements of Section 47605(e)(4), and make this notice available to parents.

The Charter School and the District agree to adhere to the requirements related to admission preferences as set forth in Education Code Section 47605(e)(2)(B)(i)-(iv).

The public random drawing process will be open to the public, transparent, and fair. It will be held in a public space large enough to accommodate all interested in attending the drawing and a neutral member of KIPP Northern California’s regional staff will conduct the drawing process. Parents and guardians do not have to be present to participate in the drawing. Details about the timeline and process of the drawing will be available to all applicants’ parents/guardians prior to the drawing, including admission preferences outlined above and other details of when parents/guardians will be notified about the results of the drawing and how to enroll their students after admission.

Pursuant to the stated admission preferences listed above, families will self-report the applicant's qualification for FRPM on the application; no other demographic or socio-economic information will be required on the application.

Homeless and Foster Youth

Charter School shall adhere to the provisions of the McKinney-Vento Homeless Assistance Act and ensure that each child of a homeless individual and each homeless youth has equal access to the same free, appropriate public education as provided to other children and youths. Charter School shall provide specific information, in its outreach materials, websites, at community meetings, open forums, and regional center meetings, that notifies parents that Charter School is open to enroll and provide services for all students, and provides a contact number for access to additional information regarding enrollment. Charter School shall comply with all applicable provisions of Education Code sections 48850 – 48859 with respect to foster children and homeless youth.

Non-Discrimination

Charter School shall not require a parent/legal guardian/student to provide information regarding a student's disability, gender, gender identity, gender expression, nationality, legal or economic status, primary language or English Learner status, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in section 422.55 of the Penal Code, or any other information that would violate federal or state law, prior to admission, participation in any admissions or attendance lottery, or pre-enrollment event or process, or as a condition of admission or enrollment. Charter School may request, at the time of, and as part of, conducting its lottery process, the provision of information necessary to apply specific admissions preferences set forth in this Charter.

Charter School shall not request or require submission of a student’s IEP, 504 Plan, or any other record or related information prior to admission, participation in any admissions or attendance lottery, or pre-enrollment event or process, or as a condition of admission or enrollment.

As indicated in the affirmations included at the beginning of this petition, pursuant to Education Code section 47605(e)(4)(A), Charter School shall not discourage a pupil from enrolling or seeking to enroll in the charter school for any reason.

Parent Engagement

Charter School shall not require a parent or legal guardian of a prospective or enrolled student to perform volunteer service hours or attend an orientation event, or make payment of fees or other monies, goods, or services in lieu of performing volunteer service, as a condition of their child’s admission, continued enrollment, attendance, or participation in the school’s educational activities, or otherwise discriminate against a student in any manner because their parent cannot, has not, or will not provide volunteer service to Charter School.

Public Random Drawing

Following the open enrollment period each year that aligns with the District (mid-November to early February), applications shall be counted to determine whether any grade level has received more applications than availability. In the event the number of applications exceeds capacity, a public random drawing will be held to determine admission in the oversubscribed grade level(s), with the exception of existing students who are guaranteed admission in the following school year.

In the case of a public random drawing, admission preferences shall be given to the following students in the following order:

1. Siblings⁴⁶ of current students and children of employees
2. Students who reside within West Oakland (defined as District 3, west of 980 freeway; as stipulated in OUSD’s Fall Call for Quality Schools) and who are eligible for free and reduced price meals
3. Students who reside within West Oakland (defined as District 3, west of 980 freeway; as stipulated in OUSD’s Fall Call for Quality Schools) and who are ineligible for free and reduced priced meals
4. Students who are eligible for free and reduced priced meals who reside within Oakland Unified School District but outside of West Oakland
5. Students who are ineligible for free and reduced priced meals who reside within Oakland Unified School District but outside of West Oakland
6. Students who are eligible for free and reduced priced meals who reside outside Oakland Unified School District
7. Students who are ineligible for free and reduced priced meals who reside outside Oakland Unified School District
8. All other applicants

The Charter School will take all necessary efforts to ensure lottery procedures are fairly executed. A public random drawing (i.e. lottery) is a random selection process by which applicants are admitted to the Charter School. The Charter School will conduct the lottery in the spring for enrollment in fall of that year. In order to be part of the lottery, a family must complete the school’s application in full and submit it by the stated open enrollment deadline.

During the lottery, the pool of applicants is randomized using a random sequence generator (currently, SchoolMint Student Enrollment System) and takes into consideration the preferences as stated above. Applicants are admitted to the charter school in the order determined by the lottery until all available spaces are filled. Applicants who are not selected

⁴⁶ Siblings given preference in the public random drawing are defined as those who share a biological parent, legal guardian or primary caregiver.

for admission will be placed on a wait list according to the order determined by the lottery. A neutral third-party witness will be present to verify the fairness of the lottery.

An applicant may remain on the waitlist for the school year to which they applied until the end of that school year. Once on the waitlist, an applicant would remain in that position until he/she is offered a spot in the charter school or expresses no further interest. Late applications are held in abeyance for a subsequent lottery, as needed. Applicants are contacted in the order of the waitlist. If applicants from the waitlist are offered a position, they must accept that position within the deadline stated by the school. All schools will make a reasonable attempt to contact applicants before the deadline. If the applicant declines admission or fails to respond, they may be removed from the waitlist or placed at the bottom of the waitlist. Wait lists are not maintained year over year for admission purposes. For admission to subsequent school years, applicants on the waitlist must reapply.

Public random drawing rules, deadlines, dates and times will be communicated in the application form and on the Charter School’s website. Public notice for the date and time of the public random drawing will also be posted once the application deadline has passed. The Charter School will also inform all applicants and interested parties of the rules to be followed during the public random drawing process via mail or email at least two weeks prior to the lottery date.

Parents/guardians of accepted students must complete all steps in the registration process in order to attend the school. As part of this process, all applicants must submit the following registration documents to the charter school:

- Indication of whether the student may require special education or related services, the student’s home language and whether the student may be an English language learner
- Authorization for the school to request and receive student records from all schools the student

has previously attended or is currently attending⁴⁷

- Proof of full immunization or exemption from a medical professional
- Proof of health examinations and oral examination required by the Health and Safety Code
- Proof of age
- Emergency Card
- Proof of residency

As outlined in Element 7 above, it is KIPP Bridge’s intention to enroll students who are traditionally underserved and who represent the balance of racial and ethnic students, special education students, and English Learners, that is reflective of the general population residing within Oakland Unified School District.

⁴⁷ In accordance with Education Code Section 47605(e)(4)(B), the Charter School shall not request a pupil’s records or require a parent, guardian, or pupil to submit the pupil’s records to the Charter School before enrollment.

ELEMENT 9 – Independent Financial Audits

“The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority.” – Ed. Code § 47605(c)(5)(I)

An annual independent financial audit of the books and records of KIPP Bridge will be conducted as required by Education Code Sections 47605(c)(5)(I) and 47605(m). The books and records of the Charter School will be kept in accordance with generally accepted accounting principles (“GAAP”), and as required by applicable law, the audit will employ generally accepted accounting procedures. The Board of Directors has formed an Audit and Risk Management Committee. This audit will be conducted in accordance with applicable provisions within the California Code of Regulations governing audits of charter schools as published in the State Controller’s K-12 Audit Guide, and will verify the accuracy of KIPP Bridge’s financial statements, attendance and enrollment accounting practices, and internal controls.

The Audit and Risk Management Committee annually oversees the selection of an independent auditor who has experience in education finance, and will oversee the completion of an annual audit of KIPP Bridge’s financial books and records. The auditor will have, at a minimum, a CPA and educational institution audit experience and will be approved by the State Controller on its published list as an educational audit provider. To the extent required by applicable federal law, the scope of this audit will be expanded to include any relevant items or processes identified in applicable Office of Management and Budget Circulars. KIPP NorCal will provide the internal controls policy, the full general ledger accounting system, and any reports requested to be provided by the client to the auditors. The Charter School will also make available the receivable and disbursement files.

The annual audit will be completed each year and will be forwarded to the District, the County Superintendent of Schools, the State Controller, and to the California Department of

Education by the 15th of December of each year. KIPP NorCal’s most recent audit report is included as Appendix 21.

The Audit and Risk Management Committee will review any audit exceptions or deficiencies and report recommendations to the KIPP Northern California Board as to how these have been, or will be, resolved. The Board will act upon these recommendations, and report its actions to the District, describing how the exceptions and deficiencies have been or will be resolved to the satisfaction of the District along with an anticipated timeline for the same. Any disagreement between the District and the Charter School concerning the resolution of audit exceptions or deficiencies shall be referred to the dispute resolution process described in Element 14, herein. Audit appeals or requests for summary review shall be submitted to the Education Audit Appeals Panel (“EAAP”) in accordance with applicable law.

The independent financial audit of KIPP Bridge will be public record to be provided to the public upon request. KIPP NorCal will budget in the cost of a full financial audit in its yearly budgeting process.

ELEMENT 10 – Procedures by which Pupils Can Be Suspended or Expelled

“The procedures by which pupils can be suspended or expelled from the charter school for disciplinary reasons or otherwise involuntarily removed from the charter school for any reason. These procedures, at a minimum, shall include an explanation of how the charter school will comply with federal and state constitutional procedural and substantive due process requirements that is consistent with all of the following:

(i) For suspensions of fewer than 10 days, provide oral or written notice of the charges against the pupil and, if the pupil denies the charges, an explanation of the evidence that supports the charges and an opportunity for the pupil to present the pupil’s side of the story.

(ii) For suspensions of 10 days or more and all other expulsions for disciplinary reasons, both of the following:

(I) Provide timely, written notice of the charges against the pupil and an explanation of the pupil's basic rights.

(II) Provide a hearing adjudicated by a neutral officer within a reasonable number of days at which the pupil has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the pupil has the right to bring legal counsel or an advocate.

(iii) Contain a clear statement that no pupil shall be involuntarily removed by the charter school for any reason unless the parent or guardian of the pupil has been provided written notice of intent to remove the pupil no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the pupil or the pupil's parent or guardian or, if the pupil is a foster child or youth or a homeless child or youth, the pupil's educational rights holder, and shall inform the pupil, the pupil's parent or guardian, or the pupil's educational rights holder of the right to initiate the procedures specified in clause (ii) before the effective date of the action. If the pupil's parent, guardian, or educational rights holder initiates the procedures specified in clause (ii), the pupil shall remain enrolled and shall not be removed until the charter school issues a final decision. For purposes of this clause, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions specified in clauses (i) and (ii)." – Ed. Code § 47605(c)(5)(J)

Student Due Process Protections

Charter School's student discipline procedures, at a minimum, shall comply with federal and state constitutional procedural and substantive due process requirements as follows:

(i) For suspensions of fewer than 10 days, Charter School shall provide oral or written notice of the charges against the pupil and, if the pupil denies the charges, an explanation of the evidence that supports the charges and an opportunity for the pupil to present the pupil's side of the story.

(ii) For suspensions of 10 days or more and all other expulsions for disciplinary reasons, Charter School shall provide both of the following:

(I) Timely, written notice of the charges against the pupil and an explanation of the pupil's basic rights.

(II) A hearing adjudicated by a neutral officer within a reasonable number of days at which the pupil has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the pupil has the right to bring legal counsel or an advocate.

(iii) No pupil shall be involuntarily removed by Charter School for any reason unless the parent or guardian of the pupil has been provided written notice of intent to remove the pupil no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the pupil or the pupil's parent or guardian or, if the pupil is a foster child or youth or a homeless child or youth, the pupil's educational rights holder, and shall inform him or her of the right to initiate the procedures specified in clause (ii) before the effective date of the action. If the pupil's parent, guardian, or educational rights holder initiates the procedures specified in clause (ii), the pupil shall remain enrolled and shall not be removed until Charter School issues a final decision. For purposes of this clause, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions specified in clauses (i) and (ii).

As indicated in the affirmations included at the beginning of this petition, pursuant to Education Code section 47605(e)(4)(C), Charter School shall not encourage a pupil currently attending the charter school to disenroll from the charter school or transfer to another school for any reason. (Note: This shall not apply to actions taken by Charter School pursuant to legally permissible expulsion procedures.)

Required Notifications

As indicated in the affirmations included at the beginning of this petition, Charter School shall comply with notification requirements included in Education Code section 47605(e)(3) for any

pupil who is expelled or leaves Charter School without graduating or completing the school year for any reason, and, upon request, will provide the District with the student's last known contact information.

Compliance with OCS Student Discipline Guidelines

Charter School shall comply with the District's "Disciplinary and Expulsion Documentation Requirements Policy," posted on the Student Discipline page of the OUSD Office of Charter Schools website, whose terms are incorporated by reference as if set forth expressly in this Charter. The purpose of this policy is to outline the notification requirements to families and to the Office of Charter Schools.

KIPP Bridge strives to create an environment where students, staff, and community members feel positive and valued, are engaged with their surroundings, form relationships with others, ascribe meaning to what they do, and feel a sense of accomplishment. At KIPP Bridge, we believe that all students can learn. Staying true to that belief means keeping students with KIPP Bridge and supporting not only their academic success, but students' overall well-being and sense of belonging in the community.

Restorative Practices

KIPP Bridge will be focused on restorative practices and social emotional learning as it relates to our retention and disciplinary methods. Restorative practices at KIPP Bridge focuses on the needs of those affected, the offender, as well as the surrounding community. Restorative practices in schools emphasize repairing the harm caused by negative behavior using cooperative processes that include all stakeholders; it means involving students in designing and implementing disciplinary processes that take into account what's best for the student and the community. As much as possible, KIPP Bridge staff will seek to utilize restorative practices in response to any violations of school values. Furthermore, KIPP Bridge will be focused on reducing suspensions and protecting student learning. Even if suspension is deemed the most appropriate disciplinary action, we aim to keep students in school with a

teacher to ensure instructional minutes are not lost. We will also work to restore students to the Charter School community even after strong disciplinary actions such as suspensions.

KIPP Bridge will be built on an understanding of the history and context of the communities it serves and will work closely with the students, families and community to establish practices that will instill a sense of self-awareness, community-orientation, and pride in students.

Pupil Suspension and Expulsion Policy

KIPP Bridge staff is committed to providing a safe learning environment for all students. KIPP Bridge will rely on restorative practices and social emotional supports to address behavioral challenges whenever possible.

However, when a student’s behavior may endanger other students or staff or are excessively disruptive to the learning of other students, there may be grounds for suspension and/or recommendation for expulsion, subject to normal due process requirements described in the KIPP Northern California Pupil Suspension and Expulsion Policy and Procedures, included as Appendix 22. As much as possible, students will remain in school to continue to learn and be part of the Charter School community.

The Pupil Suspension and Expulsion Policy and Procedures have been established in order to promote learning and protect the safety and well-being of all students at the Charter School. In creating this policy, the Charter School has reviewed Education Code Section 48900 *et seq.*, which describe the offenses for which students at noncharter schools may be suspended or expelled and the procedures governing those suspensions and expulsions in order to establish its list of offenses and procedures for suspensions, expulsions, and involuntary removal. The language included in the Pupil Suspension and Expulsion Policy and Procedures is largely consistent with the language of Education Code Section 48900 *et seq.* The Charter School is committed to annual review of policies and procedures surrounding suspensions, expulsions, and involuntary removals, and, as necessary, modification of the lists of offenses for which students are subject to suspension, expulsion, and involuntary removal.

Consistent with this Policy, it may be necessary to suspend or expel a student from regular classroom instruction. The Pupil Suspension and Expulsion Policy and Procedures shall serve as KIPP Bridge’s policy and procedures for student suspension, recommendation for expulsion, and involuntary removal, and it may be amended from time to time without the need to seek a material revision of the charter so long as the amendments comport with legal requirements.

KIPP Bridge will not dismiss students based on poor achievement or minimum grade point average, incomplete or missing assignments, poor attendance nor discipline issues that do not meet criteria for recommending expulsion.

KIPP Bridge will not dismiss students with disabilities who do not meet criteria for recommendation for expulsion. A student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability pursuant to the IDEA or who is qualified for services under Section 504 is subject to the same grounds for suspension and recommendation for expulsion and is accorded the same due process procedures applicable to general education students except when federal and state law mandates additional or different procedures. The Charter School will follow all applicable federal and state laws including but not limited to the applicable provisions of the Education Code, when imposing any form of discipline on a student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according due process to such students.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of the Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

The administration of KIPP Bridge shall ensure that students and their parents/guardians⁴⁸ are notified in writing upon enrollment of all discipline and involuntary removal policies and procedures. The notice shall state that the Policy and its Procedures are available upon request at the School Leader's office.

⁴⁸ The Charter School shall ensure that a homeless child or youth's educational rights holder; a foster child or youth's educational rights holder, attorney, and county social worker; and an Indian child's tribal social worker and, if applicable, county social worker have the same rights as a parent or guardian to receive a suspension notice, expulsion notice, manifestation determination notice, involuntary transfer notice, involuntary removal notice, and other documents and related information. For purposes of this Policy and its Procedures, the term "parent/guardian" shall include these parties.

ELEMENT 11 – Employee Retirement Systems

“The manner by which staff members of the charter schools will be covered by the State Teachers’ Retirement System, the Public Employees’ Retirement System, or federal social security.” – Ed. Code § 47605(c)(5)(K)

KIPP Northern California is committed to providing the most competitive benefit package to its teachers and staff that it can reasonably afford. All KIPP Bridge staff will participate in the Federal Social Security system. KIPP Bridge employees have the option to participate in the KIPP Northern California’s sponsored 401(k) retirement savings plan. KIPP Northern California currently matches eligible individual contributions up to 4% of eligible compensation (including regular wages, overtime pay and discretionary pay such as bonuses and stipends), capped at their annual salary. Employees are fully vested after three years of service. Policies may change during the term of the charter. KIPP Northern California’s Retirement Administrative Committee⁴⁹ routinely reviews potential retirement options for its faculty and staff and will provide the most valuable and convenient options to its employees that the organization can sustain. The Retirement Administrative Committee and Human Resources Department of KIPP Northern California are responsible for ensuring that all appropriate arrangements for retirement coverage have been made for employees.

⁴⁹ KIPP NorCal’s Retirement Administrative Committee is a staff committee supervised by the Director of Human Resources.

ELEMENT 12 – Pupil Attendance Alternatives

“The public school attendance alternatives for pupils residing within the school district who choose not to attend charter schools.” – Ed. Code § 47605(c)(5)(L)

Pupils who choose not to attend the Charter School may choose to attend other public schools in their district of residence or pursue inter-district transfers in accordance with existing enrollment and transfer policies of the District. Parents or guardians of each pupil enrolled in the Charter School shall be informed that the pupil has no right to admission in a particular school of any local educational agency (LEA) (or program of any LEA) as a consequence of enrollment in the Charter School, except to the extent that such a right is extended by the District.

No student may be required to attend KIPP Bridge.

ELEMENT 13 – Employee Rights of Return

“The rights of an employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school.” – Ed. Code § 47605(c)(5)(M)

Employees of the District who choose to leave the employment of the District to work at Charter School shall have no automatic rights of return to the District after employment at Charter School unless specifically and explicitly granted by the District through a leave of absence or other agreement or policy of the District as aligned with the collective bargaining agreements of the District. Leave and return rights for District union-represented employees and former employees who accept employment with Charter School, if any, will be administered in accordance with applicable collective bargaining agreements and any applicable judicial rulings.

No public school district employee shall be required to work at KIPP Bridge.

Sick or vacation leave or years of service credit at the District or any other school district will not be transferred to KIPP Bridge. Employment by KIPP Bridge provides no rights of employment at any other entity, including any rights in the case of closure of KIPP Bridge. The District will determine whether former employees continue to earn service credit while employed at KIPP Bridge.

ELEMENT 14 – Dispute Resolution

“The procedures to be followed by the charter school and the chartering authority to resolve disputes relating to provisions of the charter.” – Ed. Code § 47605(c)(5)(N)

Procedures for Complaints against Charter School

Charter School will establish complaint procedures that address both complaints against the Charter School alleging discrimination or violations of law and complaints regarding other areas. Charter School will ensure that its complaint processes are fair and accessible for families. Charter School will not~~KIPP Bridge will not~~, at any time, refer such complaints to the District for handling.-

The complaint procedures will include the clear information with respect to the response timeline of the school, whether the school’s response will be in writing, the party identified to respond to complaints, the party identified and charged with making final decisions regarding complaints, and whether the final decision will be issued in writing. The procedures will also identify an impartial and neutral ombudsperson for situations in which the school leader is the subject person of the complaint or the ombudsperson has a perceived bias. If the complainant requests an alternate ombudsperson, Charter School shall have a procedure for reviewing the request and responding to the complainant with the findings of the review, and either (a) identifying an alternate ombudsperson, or (b) providing a rationale for why an alternate ombudsperson is not necessary. The complaint procedures will be clearly articulated in the school’s student and family handbook or distributed widely.

Charter School~~KIPP Bridge Academy~~ will designate at least one employee to coordinate its efforts to comply with and carry out its responsibilities under Title IX of the Education Amendments of 1972 (Title IX) and Section 504 of the Rehabilitation Act of 1973 (Section 504) including any investigation of any complaint filed with Charter School~~KIPP Bridge Academy~~ alleging its noncompliance with these laws or alleging any actions which would be prohibited by these laws. Charter School~~KIPP Bridge Academy~~ will notify all its students and employees of the name, office address, and telephone number of the designated employee or employees.

Charter School shall comply with the requirements of Education Code section 221.61 with respect to posting information regarding the filing complaints under Title IX, including but not limited to the following: 1) the name and contact information of the Title IX coordinator; 2) the rights of the pupil and the public and the responsibilities of the Charter School under Title IX; 3) a description of how to file a complaint under Title IX, including an explanation of the statute of limitations, how the complaint will be investigated and how the complainant may further pursue the complaint; and a link to the United States Department of Education Office for Civil rights complaint form.

Charter School~~KIPP Bridge Academy will adopt and publish grievance procedures providing for prompt and equitable resolution of student and employee complaints alleging any action, which would be prohibited by Title IX, or Section 504.~~

~~KIPP Bridge Academy~~ will implement specific and continuing steps to notify applicants for admission and employment, students and parents of elementary and secondary school students, employees, sources of referral of applicants for admission and employment, and all unions or professional organizations holding collective bargaining or professional agreements with the recipient, that it does not discriminate on the basis of sex or mental or physical disability in the educational program or activity which it operates, and that it is required by Title IX and Section 504 not to discriminate in such a manner.

Complaints by Students and Employees

Charter ELEMENT E: EMPLOYEE QUALIFICATIONS

Governing Law: The qualifications to be met by individuals to be employed by the charter school. Education Code Section 47605(b)(5)(E).

Certification

KIPP Bridge Academy conforms to the legal requirement of Education Code Section 47605(l) that all core, college preparatory charter school teachers shall hold a Commission on Teacher Credentialing certificate, permit, or other certification equivalent to that which a teacher in other public schools would be required to hold. Certificated teachers are responsible for overseeing student academic progress and for monitoring grading and matriculation decisions as specified in the school's operational policies. The Principal, together with the Human Resources team at KIPP Bay Area Schools, will monitor the credentials and ensure teachers hold their certification(s). KIPP Bay Area Schools may also employ or retain non-certificated instructional support staff at the school in cases where an individual has an appropriate mix of subject matter expertise, professional experience, and the demonstrated capacity to work successfully in the school's rigorous academic environment. Instructional support staff will not assign grades or approve student work assignments without the approval of a teacher except in non-core or non-college preparatory courses and activities. Job descriptions for teachers, administration, and staff are available upon request

Commitment

All prospective staff must show a strong desire to teach an academically intense curriculum, commit to an extended school day, and continue their professional development. Staff must also meet any additional guidelines and standards set by the KIPP Bridge Academy and KIPP Bay Area Schools.

All KIPP Bridge Academy faculty will commit to:

KIPP Bridge Academy Renewal Petition [2025-2030](#)

- ~~Abide by applicable federal, state, and local laws.~~
- ~~Maintain a professional relationship with all students and a high level of professional conduct.~~
- ~~Refrain from the abuse of alcohol or drugs during the course of professional practice.~~
- ~~Exemplify honor and integrity in the course of professional practice, particularly in the use of public funds and property.~~
- ~~Comply with state, federal, and local laws regarding the confidentiality of student records.~~
- ~~Fulfill the terms and obligations detailed in KIPP Bridge Academy’s charter.~~
- ~~File necessary reports of child abuse.~~
- ~~Adhere to KIPP Bridge Academy’s Commitment to Excellence.~~
- ~~Adhere to all guidelines in KIPP Bay Area Schools Handbook.~~

Hiring Procedure

Teachers are the most important in-school factor contributing to student achievement. KIPP Bridge Academy is dedicated to recruiting a high quality and diverse teaching staff. The school recruits teachers through various channels including Education Week, Teach For America, RISE, Ed Join, the KIPP Bay Area Schools website, graduate schools of education, teacher residency programs, LinkedIn, and referrals. The KIPP Bay Area Schools Regional Support Office supports the KIPP Bridge Academy with talent recruitment, primarily by advertising open positions and conducting early stage interviews.

Prospective teachers usually teach a demonstration lesson that must be student-driven and exhibit a strong command of the subject area. Each applicant will undergo formal and informal interviews to ensure that his/her values are aligned with the KIPP educational philosophy. The Principal is responsible for the final hiring decision.

All faculty and staff undergo a criminal background check and fingerprinting to be conducted by the Department of Justice and the FBI, as well as a child abuse registry check. The applicants are required to provide a full disclosure statement regarding prior criminal records. All staff members are required to produce documents for U.S. employment authorization. For medical safety, all staff must have medical clearance, including a Mantoux tuberculosis (TB) test.

KIPP Bridge Academy Renewal Petition [2025-2030](#)

Compensation

Teachers are the core element of KIPP's success. It is therefore essential that teachers are supported, developed, and well compensated. The school offers competitive salaries, and compensation is determined individually based on teaching experience, responsibilities undertaken, performance, comparable compensation in local districts, and in agreement with the teacher.

It is KIPP's belief that teachers are and should be treated as professionals, and as such, are not hourly employees. In addition to salary, teachers are offered a competitive benefits package. Salary and stipends are outlined in formal employment offer letters signed by KIPP Bay Area Schools and the employee. Standards of professional conduct are clearly explained in the Employee Handbook.

School Management

The Principal is responsible for the implementation of all aspects of this charter, and for the day-to-day operations and management of the school.

The KIPP Foundation has developed a comprehensive Competency Model for Principals. The Competency Model is a leadership development tool that describes the essential qualities, skills, and knowledge that successful KIPP Principals must possess. It is intended to guide principals' evaluation and ongoing professional development. The Competency Model includes a self-assessment template, sample teacher, student, and parent interview questions and a template for board member feedback. These feedback tools are designed to facilitate a breadth and depth of information on the Principal's performance. Please see Appendix 28 for the KIPP Competency Model.

Role and Responsibilities of the Principal

Reporting to the Chief of Schools for KIPP Bay Area Schools, the Principal coordinates all campus level planning and decision making that involve the school's professional staff, parents, and community members. The Principal coordinates with these stakeholders in establishing and reviewing the school's educational plans, goals, performance objectives, and major classroom instructional programs. This structure allows the Principal, teachers, parents, and the community to make school based decisions within the boundaries of the decisions and policies set by the executive team and Board of Directors of KIPP Bay Area Schools.

The role of the Principal is to implement KIPP's Five Pillars in the operation of KIPP Bridge Academy and to be responsible for ensuring that overall curricular policy remains aligned to the school's mission. The Principal develops and maintains, with input from teachers, a cohesive fifth through eighth grade curriculum. The Principal is also responsible for ensuring that the school's curriculum addresses state academic standards and for working with parents and teachers to provide differentiation where necessary to meet the needs of students not achieving expectations.

The qualifications, skills, and qualities of the Principal include the following:

- Bachelor's degree (required); Master's degree (preferred).
- Teaching and/or leadership experience in a low income school with demonstrated exemplary results strongly preferred.
- A deep passion for social justice and equity for all students; a belief that all students can achieve at the highest levels, regardless of demography.
- Ability to work with diverse student body and staff.
- Ability to exercise excellent judgment in decision making.
- Strategic thinking and proactive problem solving.
- Ability to effectively balance the larger vision and plan for the school with ensuring that day to day operations are sound.
- Team player.
- Ability to effectively manage instructional and non instructional personnel.
- Ability to evaluate instructional programs and teaching effectiveness.
- Excellent communication, public relations, and interpersonal skills.
- Ability to implement effective business systems that ensure proper stewardship of school funds.
- Knowledge in the selection, training and supervision of personnel.

Role and Responsibilities of Teachers

Reporting to the Principal, teachers are responsible for all levels of classroom instruction and management. They design, plan and implement a standards based curriculum that prepares

students for success in college. Teachers are additionally responsible for ensuring the school's values are lived through the school's culture.

A Professional Teaching and Learning Environment

Strong, dedicated teachers are the backbone of any excellent school. KIPP Bridge Academy hires outstanding and committed teachers. Much is expected of KIPP teachers. In addition to the extended time in class, teachers are expected to be wholly focused on the school's mission, committed to its values, and open to collaboration and constant learning.

In return, KIPP teachers are treated as highly valued professionals. They are supported in their professional growth with time for planning and collaboration, stipends for conferences and school visits, and resources for improving instruction. Teachers at KIPP regularly visit each other's classrooms to create consistency in content of lessons as well as classroom culture, and to learn from their peers. To continually improve instruction and the implementation of the KIPP model at the school, teachers have the opportunity to receive feedback from their peers and the school's leadership team on the results of their students. Each teacher is also provided with the necessary tools for effective lesson preparation and communication with families, including a laptop computer, cell phone, and high speed Internet access.

Professional Development

At KIPP Bridge Academy, the Principal and instructional leadership team set the tone and develop the conditions under which staff members become the keepers of the school's culture and values and grow as teachers and learners. As a result, staff development supports the school's mission and basic values by fostering a positive campus culture, sharing the best instructional practices, and encouraging individual teacher growth. Beginning in staff orientation before summer school, the Principal and instructional leadership team ensure that teachers fully understand and support the school's mission, goals, and basic values, emphasizing a rigorous, standards based college preparatory program. This orientation involves specific activities designed to align the staff and foster teamwork, such as visiting other KIPP schools and schools of excellence.

During the school year, staff development continues through professional development days, whole staff meetings, and department and grade level team meetings. Over the course of the

year, teachers receive up to two weeks of professional development during which they are trained to function effectively within the parameters of the school and to meet the goals outlined in the accountability plan. Teachers are encouraged to observe each other and other excellent teachers in the community and receive regular feedback on their performance, goals, and growth.

Prior to the summer program for students, teachers attend staff development sessions in order to provide teachers with an opportunity to design their goals, objectives, and curriculum for the summer and the upcoming school year. Once the summer program ends, teachers continue their preparation by designing a curriculum for the fall that address the specific needs and interests of the students identified during the summer.

KIPP teachers consistently exchange best practices with each other and teachers at similar schools. Professional development involves structured whole staff and small group practice, and is individualized to best serve each teacher's needs. Teachers also receive approximately 40 hours of professional development at conferences sponsored by the KIPP Foundation, including the KIPP School Leadership Programs and the Research for Better Teaching programs. Finally, faculty members have the opportunity to participate in online communities of teachers throughout the KIPP network of schools.

Appendix 32a and Appendix 32b are examples of spring and fall regional professional development day agendas

Staff Evaluation Plan

The Principal is responsible for evaluating all teachers and support staff. A critical part of teacher evaluation and retention is based on performance outcomes, measuring student achievement and the teacher's implementation of the curriculum. The annual performance assessment is based on those standards.

KIPP Bridge Academy establishes clearly defined criteria for performance reviews that may include:

- Demonstrated commitment to KIPP Bridge Academy's mission and goals;
- Successful implementation of the curriculum and educational philosophy;
- Student academic progress;

- ~~Contribution to school community;~~
- ~~High level of professionalism;~~
- ~~High level of accomplishment; and~~
- ~~Effective participation in the school's staff and team~~

~~Tools used in the evaluation process may include:~~

- ~~Written evaluations based on classroom observations;~~
- ~~Self evaluation completed by teacher being evaluated;~~
- ~~Student performance on major assessments; and~~
- ~~Feedback from parents, students, and peers.~~

~~Those teachers failing to adhere to the guidelines outlined above, and/or failing to meet the specifications of the evaluation plan, will be subject to dismissal or may not have their employment renewed at the request of the Principal. See Figure 12 below for a sample teacher evaluation plan.~~

KIPP Bridge ~~Academy~~ Renewal Petition 2025-2030

315 ~~2017 – 2022~~

315

ELEMENT F: HEALTH AND SAFETY PROCEDURES

~~Governing Law: The procedures that the charter school will follow to ensure the health and safety of pupils and staff. These procedures shall include the requirement that each employee of the charter school furnish it with a criminal record summary as described in Section 44237. Education Code Section 47605(b)(5)(F).~~

~~In order to provide safety for all students and staff, KIPP Bay Area Schools maintains full health and safety procedures and risk management policies at the KIPP Bridge Academy site in consultation with its insurance carriers and risk management experts.~~

~~The following is a summary of the health and safety policies of KIPP Bridge Academy:~~

Employees

~~KIPP Bridge Academy and KIPP Bay Area Schools comply with all provisions and procedures of Education Code 44237, including the requirement that contractors and employees (as a condition of employment for each new employee not possessing a valid California Teaching Credential) must submit two sets of fingerprints to the California Department of Justice for the purpose of obtaining a criminal record summary. The Human Resources Department of KIPP Bay Area Schools shall monitor compliance with this policy.~~

~~As stated in Element E (Employee Qualifications), all faculty and staff undergo a criminal background check and fingerprinting to be conducted by the Department of Justice and the FBI, as well as a child abuse registry check. Applicants are required to provide a full disclosure statement regarding prior criminal records. All staff is required to produce documents for U.S. employment authorization, and to follow all mandated child abuse reporting laws. Faculty and staff will be tested for tuberculosis prior to commencing employment and working with students as required by Education Code Section 49406.~~

Immunizations and Health Screenings

~~KIPP Bridge Academy complies with the requirement that all students and staff provide records documenting immunizations to the same extent that this is required for non-charter public schools pursuant to Health and Safety Code Sections 120325-120375, and Title 17, California~~

~~Code of Regulations Sections 6000-6075. Additionally, KIPP Bridge Academy complies with applicable student immunization and health screening requirements.~~

~~**Comprehensive Discrimination and Harassment Policies and Procedures**~~

~~KIPP Bridge Academy is committed to providing **for prompt and equitable** a school that is free from discrimination and sexual harassment, as well as any harassment based upon such factors as race, religion, creed, color, national origin, ancestry, age, medical condition, marital status, sexual orientation, disability, or any of the characteristics listed in Education Code Section 220. The school has developed a comprehensive policy to prevent and immediately address any concerns about discrimination or harassment at the school (including employee to employee, employee to student, and student to employee misconduct). Misconduct of this nature is very serious and will be addressed in accordance with the school’s harassment policy, which is outlined in detail in the school’s Employee Handbook.~~

~~**Safety Plan**~~

~~KIPP Bridge Academy adheres to a safety plan, as outlined in the Employee Handbook, which is drafted specifically to meet the needs of the school site. The safety plan includes a comprehensive set of health, safety and risk management policies that address, at a minimum, policies and procedures for responses to disasters and emergencies, including fires and earthquakes, blood-borne pathogens, and a policy establishing KIPP Bridge Academy as a drug, alcohol and tobacco free workplace.~~

~~**Facility Safety**~~

~~KIPP Bridge Academy shall comply with Education Code Section 47610 by either utilizing facilities that are compliant with the Field Act or facilities that are compliant with the California Building Standards Code. KIPP Bridge Academy shall occupy facilities that comply with the Asbestos requirement as cited in the Asbestos Hazard Emergency Response Act (AHERA), 40CFR part 763. AHERA requires that any building leased or acquired that is to be used as a school or administrative building shall maintain an asbestos management plan.~~

~~In the event that KIPP Bridge Academy, for any reason, operates wholly or partially in facilities other than those provided by the District, the school will not be hampered in meeting the goals and objectives set forth in this charter. KIPP Bridge shall partner with the District to ensure that~~

~~_____~~

~~KIPP Bridge Academy Renewal Petition [2025-2030](#)~~

prior to commencement of operations such facilities shall comply with local building and zoning ordinances. The school shall partner with the District to test sprinkler systems, fire extinguishers, and fire alarms at its facilities to ensure that they are maintained in an operable condition at all times.

ELEMENT G: MEANS TO ACHIEVE ETHNIC AND RACIAL BALANCE

Governing Law: The means by which the school will achieve a racial and ethnic balance among its pupils that is reflective of the general population residing within the territorial jurisdiction of the school district to which the charter petition is submitted. Education Code Section 47605(b)(5)(G).

KIPP Bridge Academy is strongly committed to serving the students of West Oakland. We want our school to serve the community and therefore are committed to ensuring that our study body is reflective of the West Oakland community. As such, KIPP Bridge Academy may take any of the following steps to ensure that students who are representative of the territorial jurisdiction of OUSD be recruited and feel welcome:

- Partner with local community based organizations to reach families and recruit a diverse population of students
- Visit and speak at local community based organizations serving a similar demographic as KIPP Bridge
- Visit with and explain to prospective students and their families the mission of KIPP Bridge
- Conduct broader community information sessions to elaborate on the experience of being part of the KIPP Bridge community
- Bring diverse staff on recruiting visits, including those fluent in the native languages of families
- Develop marketing materials in multiple languages and with appropriate cultural context
- Post materials and notices in community hubs, including local supermarkets, restaurants, businesses, churches, community centers, and apartment complexes in low-income neighborhoods
- Promote the school at community events and festivals
- Promote word of mouth sharing about KIPP between families, including encouraging referrals from students and families at other KIPP schools
- Speak at civic organizations, with a particular focus on local community populations

- ~~Place advertisements in local newspapers and community association newsletters~~
- ~~Invite local television and print media reporters to report on the school~~
- ~~Utilize social media to advertise informational nights and school opening~~

~~A detailed outreach plan in West Oakland can be found in Appendix 5. KIPP Bridge Academy is also committed to evaluating its racial and ethnic balance on an annual basis and commits to adjusting recruitment practices if needed in order to build a school community that reflects the district's racial and ethnic composition.~~

ELEMENT H: ADMISSIONS REQUIREMENTS

Governing Law: Admission requirements, if applicable. Education Code Section 47605(b)(5)(H).

~~KIPP Bridge Academy will be nonsectarian in its programs, admission policies, and all other operations, and will not charge tuition nor discriminate on the basis of the characteristics listed in Education Code Section 220 (actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Section 422.55 of the Penal Code or association with an individual who has any of the aforementioned characteristics). As part of the Fall Information Update, KIPP Bridge Academy will notify the District in writing of the application deadline and proposed lottery date. KIPP Bridge Academy will ensure that all application materials will reference these dates as well as provide complete information regarding application procedures, key dates, and admissions preferences and requirements consistent with approved charter.~~

~~KIPP Bridge Academy is a free public school that is open to all residents of the State of California.~~

~~KIPP Bridge shall enroll all pupils who wish to attend the school. No test or assessment shall be administered to students prior to acceptance and enrollment into the school. KIPP Bridge will comply with all laws establishing minimum and maximum age for public school attendance in charter schools.~~

~~KIPP Bridge will serve approximately 835 students in grades TK through 8. Formal recruitment of incoming students may begin as early as fall of each calendar year for the following school year. KIPP Bridge will advertise open enrollment and interested families will be able to meet with staff to review the expectations of the school. Following the open enrollment period each year, applications shall be counted to determine whether any grade level has received more applications than available seats. In the event that applications exceed capacity, a public, random drawing will be held to determine enrollment for the impacted grade level, with the exception of existing students.~~

KIPP Bridge Academy Renewal Petition [2025-2030](#)

~~In the event of a public random drawing, enrollment preference shall be ordered as follows:~~

- ~~1. Siblings of current students and children of employees~~
- ~~2. Students who reside within West Oakland (defined as District 3, west of 980 freeway; as stipulated in OUSD's Fall Call for Quality Schools) and who are eligible for free and reduced price meals~~
- ~~3. Students who reside within West Oakland (defined as District 3, west of 980 freeway; as stipulated in OUSD's Fall Call for Quality Schools) and who are ineligible for free and reduced priced meals~~
- ~~4. Students who are eligible for free and reduced priced meals who reside within Oakland Unified School District but outside of West Oakland~~
- ~~5. Students who are ineligible for free and reduced priced meals who reside within Oakland Unified School District but outside of West Oakland~~
- ~~6. Students who are eligible for free and reduced priced meals who reside outside Oakland Unified School District~~
- ~~7. Students who are ineligible for free and reduced priced meals who reside outside Oakland Unified School District~~

~~Any and all modifications to the enrollment preferences and procedures described in the petition require formal approval by the authorizer as this will be considered a material revision of the charter petition.~~

Lottery Process

~~If KIPP Bridge receives more applications than it has allotted space, then there will be a public, random drawing. Based on the above enrollment preferences, the public, random drawing shall be conducted as follows:~~

- ~~• First, names of siblings of current students and children of employees names will be drawn~~
- ~~• Then, names of students who reside within West Oakland (defined as District 3, west of 980 freeway; as stipulated in OUSD's Fall Call for Quality Schools) and who are eligible for free and reduced priced meals will be drawn~~
- ~~• Then, names of students who reside within West Oakland (defined as District 3, west of 980 freeway; as stipulated in OUSD's Fall Call for Quality Schools) and who are ineligible for free and reduced priced meals will be drawn~~

- ~~Then, names of students who are eligible for free and reduced priced meals who within Oakland Unified School District but outside of West Oakland will be drawn~~
- ~~Then, names of students who are ineligible for free and reduced priced meals who reside within Oakland Unified School District but outside of West Oakland will be drawn~~
- ~~Then, names of students who are eligible for free and reduced priced meals who reside outside Oakland Unified School District~~
- ~~And finally, names of students who are ineligible for free and reduced priced meals who reside outside Oakland Unified School District~~

~~All students not enrolled through the public, random drawing will be given the option to be placed on a waitlist according to their draw in the public, random drawing. This wait list will allow students the option of enrollment in the case of an opening during the current school year. In no circumstance will a waitlist carry over to the following school year.~~

ELEMENT I: FINANCIAL AUDIT

Governing Law: The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority. Education Code Section 47605(b)(5)(I).

An annual independent financial audit of the books and records of KIPP Bridge Academy will be conducted as required by Education Code Sections 47605(b)(5)(I) and 47605(m). The books and records of the school will be kept in accordance with generally accepted accounting principles, and as required by applicable law, the audit will employ generally accepted accounting procedures. The Board of Directors has formed an Audit Committee, a majority of whose members are independent members of the Board. That Audit Committee annually oversees the selection of an independent auditor who has experience in education finance, and will oversee the completion of an annual audit of KIPP Bridge Academy's financial books and records. This audit will be conducted in accordance with the applicable Generally Accepted Accounting Principles and applicable provisions within the California Code of Regulations governing audits of charter schools as published in the State Controller's K-12 Audit Guide, and will verify the accuracy of KIPP Bridge Academy's financial statements (including its Balance Sheet, Income Statement and Cash Flow Statement), attendance and enrollment accounting practices, and internal controls.

The auditor will have, at a minimum, a CPA and educational institution audit experience and will be approved by the State Controller on its published list as an educational audit provider. To the extent required by applicable federal law, the scope of this audit will be expanded to include any relevant items or processes identified in applicable Office of Management and Budget Circulars. KIPP Bay Area Schools will provide the internal controls policy, the full general ledger accounting system, and any reports requested to be provided by the client to the auditors. The school will also make available the receivable and disbursement files.

The annual audit will be completed each year and will be forwarded to the District, the State Controller, and to the California Department of Education by the 15th of December of each year. The Audit Committee will review any audit exceptions or deficiencies and report

recommendations to the full Board of KIPP Bay Area Schools as to how these have been, or will be, resolved. The Board will act upon these recommendations, and report its actions to the District. Any disagreement by the District concerning the resolution of student and employee complaints alleging any audit exceptions or deficiencies shall be referred to the dispute resolution process described in Element N, herein. Audit appeals or requests for summary review shall be submitted to the Education Audit Appeals Panel (“EAAP”) in accordance with applicable law. The independent financial audit of KIPP Bridge Academy will be public record, to be provided to the public upon request.

ELEMENT J: STUDENT DISCIPLINE, SUSPENSION, AND EXPULSION PROCEDURES

Governing Law: The procedures by which pupils can be suspended or expelled. Education Code Section 47605(b)(5)(J).

KIPP Bay Area Schools strives to create an environment where students, staff, and community members feel positive and valued, are engaged with their surroundings, form relationships with others, ascribe meaning to what they do, and feel a sense of accomplishment. At KIPP, we believe that all students can learn. To ensure that all students have the opportunity to learn, we must keep students with KIPP and support not only their academic success, but students’ overall well-being and sense of belonging in the community.

Restorative Justice Practices

KIPP is focused on restorative justice practices and social-emotional learning as it relates to our retention and disciplinary methods. Restorative justice at KIPP focuses on the needs of those affected, the offender, as well as the surrounding community. Restorative justice in schools emphasizes repairing the harm caused by negative behavior using cooperative processes that include all stakeholders; it means involving students in designing and implementing disciplinary processes that take into account what’s best for the student and the community. As much as possible, school staff will seek to utilize restorative circles in response to any violations of school values. Furthermore, KIPP is focused on reducing suspensions and protecting student learning. Even if suspension is deemed the most appropriate disciplinary

action, which would be prohibited by Title IX, or Section 504 we aim to keep students in school with a teacher to ensure instructional minutes are not lost.

Disputes between the District and the Charter School

~~KIPP Bridge Academy is actively implementing restorative justice practices at the school. KIPP Bridge recognizes the history of West Oakland and will work closely with the students, families and community to establish practices that will instill a sense of self-awareness, self-worth and pride in students.~~

Pupil Suspension and Expulsion Policy

~~KIPP Bridge Academy staff are committed to providing a safe learning environment for all students. By signing the Commitment to Excellence, parents and students will be aware of the behavioral expectations of KIPP students. KIPP Bridge relies on restorative justice practices and social emotional supports to address behavioral challenges whenever possible.~~

~~However, when a student's behavior may endanger other students or staff or are excessively disruptive to the learning of other students, there may be grounds for suspension and/or recommendation for expulsion and subject to normal due process requirements described in the KIPP Bay Area Schools Pupil Suspension and Expulsion Policy. As much as possible, students will remain in school to continue to learn and be part of the school community.~~

~~The Pupil Suspension and Expulsion Policy (please refer to Appendix 29) has been established in order to promote learning and protect the safety and well-being of all students at the school. In creating this policy, the school has reviewed Education Code Section 48900 *et seq.*, which describes the non-charter schools' list of offenses and procedures, to establish its list of offenses and procedures for suspensions and expulsions. The language that follows closely mirrors the language of Education Code Section 48900 *et seq.* The school is committed to annual review of policies and procedures surrounding suspensions and expulsions and, as necessary, modification of the lists of offenses for which students are subject to suspension or expulsion. The policy shall serve as KIPP Bridge Academy's policy and procedures for student~~

~~suspension and expulsion and it may be amended from time to time without the need to amend the charter so long as the amendments comport with legal requirements.~~

~~School staff shall enforce disciplinary rules and procedures fairly and consistently among all students. This Policy and its procedures are printed and distributed as part of the Student Handbook and clearly describe discipline expectations. Discipline includes but is not limited to advising and counseling students, conferring with parents/guardians, detention during and after school hours, use of alternative educational environments, suspension and expulsion. The school will seek to remedy misconduct, in appropriate cases, by allowing for a variety of in-house disciplinary actions that could include:~~

- ~~• Additional assignments to be completed at home and/or at school~~
- ~~• Detention after school~~
- ~~• Mandatory homework study hall after school~~
- ~~• Loss of school incentives and school trips~~

~~KIPP Bridge Academy does not dismiss students based on poor achievement or minimum grade point average, incomplete or missing assignments, poor attendance nor discipline issues that do not meet criteria for expulsion. KIPP Bridge Academy also does not dismiss students with special needs who do not meet criteria expulsion.~~

~~Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of the Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.~~

~~The administration of KIPP Bridge Academy shall ensure that students and their parents/guardians are notified in writing upon enrollment of all discipline policies and procedures. The notice shall state that these Policy and Administrative Procedures are available on request at the Principal's office.~~

Legal Assurances

KIPP Bridge Academy Renewal Petition [2025-2030](#)

~~KIPP Bridge Academy shall notify, within 30 days, the superintendent of the school district of any pupil who is expelled or leaves KIPP Bridge without graduating or completing the school year for any reason. The school district notified shall be determined by the pupil's last known address. KIPP Bridge Academy shall, upon request, provide that school district with a copy of the cumulative record of the pupil, including a transcript of grades or report card and health information, pursuant to Education Code Section 47605(d)(3).~~

~~KIPP Bridge Academy shall define any student dismissal under the Charter School's disciplinary procedure, or termination of a student's right to attend the Charter School under its disciplinary procedure, as an "expulsion" under the Education Code."~~

~~In the case of a special education student, or a student who receives 504 accommodations, KIPP Bridge Academy will ensure that it makes the necessary adjustments to comply with the mandates of State and federal laws, including the IDEA and Section 504 of the Rehabilitation Plan of 1973, regarding the discipline of students with disabilities. Prior to recommending expulsion for a Section 504 student or special education student, the charter administrator will convene a review committee to determine 1) if the conduct in question was caused by, or had a direct and substantial relationship to the child's disability; or 2) if the conduct in question was the direct result of the LEA's failure to implement the 504 plan or IEP. If it is determined that the student's misconduct was not caused by or had direct and substantial relationship to the child's disability or the conduct in question was not a direct result of the LEA's failure to implement the 504 plan or IEP, the student may be expelled.~~

ELEMENT K: RETIREMENT SYSTEM

Governing Law: The manner by which staff members of the charter schools will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security. Education Code Section 47605(b)(5)(K).

KIPP Bay Area Schools is committed to providing a generous benefits package to its teachers and staff. All KIPP Bridge Academy staff participates in the federal social security system. In addition, KIPP Bridge Academy staff has the option to participate in the KIPP Bay Area Schools' sponsored 401(K) retirement savings plan. Today, KIPP Bay Area Schools' matches individual contributions up to 4% annually, and the match vests over three (3) years. This policy has been in place since the organization merged in 2008. Policies may change during the term of the charter. KIPP Bay Area Schools will routinely review potential retirement options for its faculty and staff and will provide the most valuable and convenient options to its employees that the organization can sustain. The Human Resources Department of KIPP Bay Area Schools is responsible for ensuring that all appropriate arrangements for retirement coverage have been made for employees.

ELEMENT L: ATTENDANCE ALTERNATIVES

Governing Law: The public school attendance alternatives for pupils residing within the school district who choose not to attend charter schools. Education Code Section 47605(b)(5)(L).

No student shall be required to attend KIPP Bridge Academy. The parent or guardian of each pupil enrolled in the school shall be informed that the pupils have no right to admission to a particular school of any local education agency (or program of any local education agency) as a consequence of enrollment in KIPP Bridge Academy, except to the extent that such right is extended by the local education agency. A student who chooses not to attend KIPP Bridge, or whose conduct requires that student's involuntary transfer from the school, may attend either a local public school to which s/he is assigned or chooses. In addition, s/he can pursue an inter-district transfer in accordance with existing enrollment and transfer policies of OUSD.

ELEMENT M: DESCRIPTION OF EMPLOYEE RIGHTS

Governing Law: The rights of any employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school. Education Code Section 47605(b)(5)(M).

No public school district employee shall be required to work at KIPP Bridge Academy. Permanent employees of OUSD who leave their positions to work at KIPP Bridge will have no automatic rights of return to the District after employment by the school unless specifically granted by the District through a leave of absence or other agreement. KIPP Bridge employees are eligible to work in the District, subject to District policies and all applicable laws.

All employees of KIPP Bridge will be considered the exclusive employees of KIPP Bay Area Schools and not of the District, unless otherwise mutually agreed in writing. Sick or vacation leave or years of service credit at the District or any other school district will not be transferred to KIPP Bridge. Employment by KIPP Bay Area Schools provides no rights of employment at any other entity, including any rights in the case of closure of KIPP Bridge Academy.

ELEMENT N: DISPUTE RESOLUTION PROCESS

~~Governing Law: The procedures to be followed by the charter school and the entity granting the charter to resolve disputes relating to provisions of the charter. Education Code Section 47605(b)(5)(N).~~

~~The following provisions are intended to define a mechanism for: (a) the resolution of any disputes between KIPP Bay Area Schools or KIPP Bridge Academy and the District and; (b) ensuring the high operational standards of KIPP Bridge Academy while minimizing the oversight burdens on the District. With respect to each of these procedures, it is KIPP Bay Area Schools' intention that all public commentary be withheld pending full resolution.~~

~~KIPP Bay Area Schools will provide the District a copy of its Uniform Complaint Process in accordance with provisions of Title 34, Code of Federal Regulations, Section 76.780-783, as defined in Title 5 Education, California Code of Regulations, 4600-4671.~~

~~Disputes Between KIPP Bay Area Schools or KIPP Bridge Academy and the District~~

The staff and Governing Board members of ~~Charter School KIPP Bridge~~ agree to attempt to resolve all disputes between the District and ~~Charter School KIPP Bridge~~ regarding this ~~Charter~~charter pursuant to the terms of this section. Both will refrain from public commentary regarding any disputes until the matter has progressed through the dispute resolution process.

Any controversy or claim arising out of or relating to the ~~Charter~~charter agreement between the District and ~~Charter School KIPP Bridge~~, except any controversy or claim that in any way related to revocation of this ~~Charter~~charter, shall be handled first through an informal process in accordance with the procedures set forth below.

KIPP Bridge ~~Academy~~ Renewal Petition [2025-2030](#)

- 1) (1) Any controversy or claim arising out of or relating to the Charter~~charter agreement~~, except any controversy or claim that in any way related to revocation of the Charter~~this charter~~, must be put in writing (“Written Notification”) by the party asserting the existence of such dispute. If the substance of a dispute is a matter that could result in the taking of appropriate action, including, but not limited to, revocation of the charter in accordance with Education Code section 47607(~~f~~e), the matter will be addressed at the District's discretion in accordance with that provision of law and any regulations pertaining thereto. The Written Notification must identify the nature of the dispute and all supporting facts known to the party giving the Written Notification. The Written Notification may be tendered by personal delivery, mail~~by facsimile~~, or electronically~~by certified~~ mail. The Written Notification, and all subsequent notifications under this procedure, shall be deemed received
- ~~(a)~~ (a) if personally delivered, or sent by electronic mail, upon date of delivery to the address of the person to receive such notice if received by the District~~delivered~~ by 5:00 PM; ~~(b)~~ (b) ~~or otherwise on the business day following personal delivery;~~
 - ~~(b)~~ (b) ~~if by facsimile, upon electronic confirmation of receipt; or~~
 - ~~(e)~~ (a) if by mail, two (2) business days after deposit in the U.S. Mail. All written notices shall be addressed as follows:

KIPP Public Schools Northern California

- (i) Attn: Beth Thompson, Chief Executive Officer; Michael Burks, To-Charter School Leader; Rosie Allen, c/o School Leader~~Director: KIPP Bridge~~

1000 Broadway, Suite 460

Oakland, CA 94607

- (ii) To Director, Office of Charter Schools: 1000 Broadway Suite 639, Oakland, CA 94607

1011 Union Street #947

Oakland, CA 94607

KIPP Bridge ~~Academy~~ Renewal Petition 2025-2030

- 2) ~~(2)~~ A written response (“Written Response”) shall be tendered to the party providing the Written Notification within twenty (20) business days from the date of receipt of the Written Notification. The Written Response shall state the responding party’s position on all issues stated in the Written Notification and set forth all ~~facts~~~~fact~~ which the responding party believes supports its position. The Written Response may be tendered by personal delivery, ~~mail, or electronic mail, by facsimile, or by certified mail. The Written Response shall be deemed received~~
- ~~(i) if personally delivered, upon date of delivery to the address of the person to receive such notice if delivered by 5:00p.m., or otherwise on the business day following personal delivery;~~
 - ~~(ii) if by facsimile, upon electronic confirmation of receipt; or~~
 - ~~(iii)(i) if by mail, two (2) business days after deposit in the U.S. Mail.~~ The parties agree to schedule a conference to discuss the claim or controversy (“Issue Conference”). The Issue Conference shall take place within fifteen (15) business days from the date the Written Response is received by the other party.
- 3) ~~(3)~~ If the controversy, claim, or dispute is not resolved by mutual agreement at the Issue Conference, then either party may request that the matter be resolved by mediation. Each party shall bear its own costs and expenses associated with the mediation. The mediator’s fees and the administrative fees of the mediation shall be shared equally among the parties. Mediation proceedings shall commence within 60 ~~calendar~~ days from the date of the Issue Conference. The parties shall mutually agree upon the selection of a mediator to resolve the controversy or claim at dispute. If no agreement on a mediator is reached within 30 days after a request to mediate, the parties will use the processes and procedures of the American Arbitration Association (“AAA”) to have an arbitrator appointed.
- 4) ~~(4)~~ If the mediation is not successful, the parties agree that each party has exhausted its administrative remedies and shall have any such recourse available by law.

Internal Disputes

KIPP Bridge shall have an internal dispute resolution process to be used for all internal disputes related to the Charter School’s operations. KIPP Bridge will maintain a Uniform Complaint Policy and Procedures, as required by state law. Furthermore, KIPP Bridge will have a Parent and Guardian Grievance policy, the intent of which is to fairly and promptly resolve any concern, dispute, or complaint brought by parents or guardians against any KIPP policy, practice, procedure, or employee. KIPP Bridge’s policies and internal dispute resolution process will be made available to stakeholders. The District shall promptly refer all disputes not related to a possible violation of the charter or law to KIPP Bridge.

ELEMENT 15 – Closure Procedures~~O: SCHOOL CLOSURE PROCEDURES~~

~~“~~

~~*Governing Law:* The procedures to be used if the charter school closes. The procedures shall ensure a final audit of the charter school to determine the disposition of all assets and liabilities of the charter school, including plans for disposing of any net assets and for the maintenance and transfer of pupil records.” – Ed. – Education Code §Section 47605(c)(5)(O).~~

Closure Action

~~The decision to close Charter School must be documented in a “Closure Action.” A Closure Action shall be deemed to have been automatically taken when any of the following occur: the Charter is revoked (subject to the provisions of Education Code section 47607(h)) or non-renewed by the OUSD Board of Education, and the Charter has exhausted any appeals procedures the Charter pursued; the governing board of Charter School votes to close Charter School; the Charter lapses or is surrendered; or the Charter School ceases to serve students for at least six consecutive months.~~

Closure Procedures

~~The procedures for charter school closure set forth below are guided by Education Code sections 47604.32, 47605, and 47607 as well as California Code of Regulations, title 5, sections 11962 and 11962.1, and are based on “Charter School Closure - Requirements and Recommendations” posted on Should KIPP Bridge Academy cease operation, KIPP Bay Area Schools shall comply with all portions of Education Code section 47605, subdivision (b)(5)(P) and Title 5, California Code of Regulations, section 11962 regarding the closure of the School. The entity responsible for conducting closure-related activities shall be KIPP Bay Area Schools. Closure of KIPP Bridge Academy shall be documented by official action of the Board of Directors of KIPP Bay Area Schools. The action will identify the reason for closure. The District will work cooperatively to assist KIPP Bay Area Schools in closure-related activities.~~

KIPP Bridge Academy Renewal Petition [2025-2030](#)

In the event of closure, the following steps are to be implemented:

1. ~~Written notification to parents/guardians/caregivers of the enrolled students of KIPP Bridge Academy will be issued by the school within 72 hours after the determination of a Closure Action. A sample copy of the language used in the written notification is also to be made to the District and other Districts whose attendance boundaries KIPP Bridge Academy reside in within the same time frame.~~
 - a. ~~The written notification will also include information on assistance in transferring each student to another appropriate school, and a process for the transfer of all student records.~~
 - b. ~~The process for transferring student records to the receiving schools shall be in accordance with District procedures for students moving from one school to another.~~
 - c. ~~Parents will also be provided with student information that includes closure notice, grade reports, discipline records, immunization records, completed coursework and credits that meet graduation requirements.~~
2. ~~Written notification to OUSD and other relevant Districts of the list of returning students and their home schools, to be made within 72 hours of the determination of the Closure Action.~~
3. ~~Transfer of student records, including cumulative files, to the receiving schools, within seven calendar days from the determination of an Action to Close.~~

~~Written notification to the California Department of Education [website](#). All references to "Charter School" apply to Charter School, including its nonprofit corporation and governing board.~~

~~Designation of Responsible Person(s), the SELPA, and Funding of Closure~~

~~Prior to or at the time federal social security system of the taking of a Closure Action by either the governing board of Charter School or the OUSD Board of Education, the governing board of Charter School shall designate a person or persons responsible for conducting and overseeing~~

all closure-related procedures and activities, and allocate sufficient funding for, or otherwise determine how Charter School will fund, these activities.

~~4.1. Notification of shall be made by KIPP Bay Area Schools by registered mail within 72 hours of the decision to~~ Closure Action:

Upon the taking of a

~~All written notifications regarding the~~ Closure Action, Charter School shall send written notice of its closure to:

1. The OUSD Office of Charter Schools (OCS). Charter School shall provide OCS with written notice of (1) the person(s) designated to be responsible for conducting and overseeing all closure activities, and (2) the funding for such activities. If the Closure Action is an act of Charter School, Charter School shall provide the OCS with a copy of the governing board resolution or minutes that documents its Closure Action.
2. Parents/guardians of all students, and all majority age and emancipated minor students, currently enrolled in Charter School within 72 hours of the Closure Action. Charter School shall simultaneously provide a copy of the written parent notification to OCS.
3. Alameda County Office of Education (ACOE). Charter School shall send written notification of the Closure Action to ACOE by registered mail within 72 hours of the Closure Action. Charter School shall simultaneously provide a copy of this notification to OCS.
4. The Special Education Local Plan Area (SELPA) in which Charter School participates. Charter School shall send written notification of the Closure Action to the SELPA in which Charter School participates by registered mail within 72 hours of the Closure Action. Charter School shall simultaneously provide a copy of this notification to OCS.
5. The retirement systems in which Charter School's employees participate. Within fourteen (14) calendar days of the Closure Action, Charter School shall notify, as applicable, the State Teachers Retirement System (STRS), Public Employees Retirement System (PERS), the Social Security Administration, and ACOE of the Closure Action, and follow their respective procedures for dissolving contracts and reporting. Charter School shall provide a copy of this notification and correspondence to OCS.

6. The California Department of Education (CDE). Charter School shall send written notification of the Closure Action to the CDE by registered mail within 72 hours of the Closure Action. Charter School shall provide a copy of this notification to OCS.

7. Any school district that may be responsible for providing education services to the former students of Charter School. Charter School shall send written notification of the Closure Action within 72 hours of the Closure Action. This notice must include a list of potentially returning students and their home schools based on student residence. Charter School shall provide a copy of these notifications, if any, to OCS.

8. All Charter School employees and vendors within 72 hours of the Closure Action. Charter School shall simultaneously provide a copy of the written employee and vendor notification to OCS.

Notification of all the parties above, with the exception of employees and vendors, must include but is not limited to the following information:

1. The ~~the~~ effective date of the closure ~~of Charter School~~

2. The ~~the~~ name(s) ~~of~~ and contact information for the person(s) ~~handling to whom reasonable inquiries may be made~~ regarding the closure

3. The students'; ~~the pupils'~~ school districts of residence

5.2. How; and the manner in which parents/guardians ~~of all students, and all majority age and emancipated minor students,~~ may obtain copies of ~~student/pupil records and transcripts,~~ including specific information on completed courses and credits that meet graduation requirements-

In addition to the four required items above, notification of the CDE shall also include:

1. A description of the circumstances of the closure

The location of student and

6. ~~KIPP Bay Area Schools shall allow OUSD access, inspection and copying of all school records, including financial and attendance records, upon written request by the District.~~

~~7. As applicable, KIPP Bay Area Schools will provide parents, students and OUSD with copies of all appropriate student records and will otherwise assist students in transferring to their next school. All transfers of student records will be made in compliance with the Family Educational Rights and Privacy Act (“FERPA”) 20 U.S.C. § 1232g. KIPP Bay Area Schools will ask OUSD to store original records of KIPP Bridge Academy students. All student records of KIPP Bridge Academy shall be transferred to OUSD upon closure. If OUSD will not or cannot store the records, KIPP Bridge Academy shall work with OUSD to determine a suitable alternative location for storage.~~

~~2. All state assessment results, special education records, and personnel records~~

~~In addition to the four required items above, notification of parents/guardians of all students, and all majority age and emancipated minor students, shall also include:~~

- ~~1. Information on how to enroll or transfer the student to an appropriate school~~
- ~~2. A certified packet of student information that includes closure notice, a copy of the student’s cumulative record, which will include grade reports, discipline records, immunization records, completed coursework, credits that meet graduation requirements, a transcript, and state testing results~~
- ~~3. Information on student completion of college entrance requirements, for all high school students affected by the closure~~

~~Notification of employees and vendors shall include:~~

- ~~1. The effective date of the closure of Charter School~~
- ~~2. The name(s) and contact information for the person(s) handling inquiries regarding the closure~~
- ~~3. The date and manner, which shall be no later than 30 days from the effective date of the closure of Charter School, by which Charter School shall provide employees with written verification of employment~~

Within 30 calendar days of the effective date of closure, Charter School shall provide all employees with written verification of employment. Charter School shall send copies of all such employee verification letters to OCS.

Records Retention and Transfer

Charter School shall comply with all applicable laws as well as District policies and procedures, as they may change from time to time, regarding the transfer and maintenance of Charter School records, including student records. These requirements include:

1. Charter School shall provide the District with original student cumulative files and behavior records, pursuant to District policy and applicable District handbook(s) regarding cumulative records for secondary and elementary schools, for all students, both active and inactive, of Charter School. Transfer of the complete and organized original student records to the District, in accordance with District procedures applicable at the time of closure, shall occur within seven (7) calendar days of the effective date of closure.
2. Charter School's process for transferring student records to receiving schools shall be in accordance with OUSD procedures for students moving from one school to another.
3. Charter School shall prepare and provide an electronic master list of all students to OCS in accordance with the District procedures applicable at the time of closure. This list shall include the student's identification number, Statewide Student Identifier (SSID), birthdate, grade, full name, address, home school/school district, enrollment date, exit code, exit date, parent/guardian name(s), and phone number(s). If the Charter School closure occurs before the end of the school year, the list also shall indicate the name of the school to which each student is transferring, if known. This electronic master list shall be submitted to OCS in accordance with District procedures.
4. Charter School must organize the original cumulative files for delivery to the District in two categories: active students and inactive students. Charter School will coordinate with OCS for the delivery of student records.
5. Charter School must update all student records in the California Longitudinal Pupil Achievement Data System (CALPADS) prior to closing.

8.3. Charter School must provide to OCS the name, title, and contact information of the person designated to maintain all Charter School personnel records after the closure. Personnel records to will be transferred to and maintained by the designee must include any and all employee records, including but not limited to, records related to performance and grievance. Charter School must provide to OCS and the designee a spreadsheet of personnel records of all active and inactive employees, that includes dates of employment, role, salary, and any other information necessary for employment verification. Both Charter School and the designee, individually and separately, shall inform OCS immediately upon the transfer of Charter School's employee records to the designee KIPP Bay Area Schools in accordance with applicable law.

6. Charter School shall ensure that all records are boxed and clearly labeled by classification of documents and the required duration of storage in accordance with District procedures.

7. Charter School shall provide to the responsible person(s) designated by the governing board of Charter School to conduct all closure-related activities a list of students in each grade level and, for each student, a list of classes completed and the student's district of residence.

Financial Close-Out

After receiving notification of closure, the CDE may notify Charter School and the authorizing entity of any liabilities Charter School owes the state, which may include overpayment of Local Control Funding Formula and select apportionments, start up grants, or other liabilities. The CDE may ask the County Office of Education to conduct an audit of the charter school if it has reason to believe that the school received state funding for which it was not eligible.

Charter School shall ensure completion of an independent final "closeout audit" within six months after the closure of Charter School that includes:

An

1. A financial closeout audit of the school will be paid for by KIPP Bay Area Schools to determine the disposition of all assets and liabilities of KIPP Bridge Academy, including plans for disposing of any net assets. The final audit will include an accounting of all

financial assets. These may include, including cash and accounts receivable and an inventory of property, equipment, and other items of material value.

2. ~~An, an~~ accounting of all the liabilities. These may include, including accounts payable or and any reduction in apportionments due to as a result of audit findings or other investigations, loans, ~~and~~ unpaid staff compensation, audit findings, or other investigations.

~~9.4. An and an~~ assessment of the disposition of any restricted funds received by or due to Charter School. KIPP Bridge Academy. The assets of KIPP Bridge Academy shall first be prioritized towards paying any debts of KIPP Bridge Academy including any overpayment or over apportionment of state funding, and any and all fees or sums owed to OUSD. All other assets shall be distributed in accordance with the applicable laws and regulations and, to the extent permitted, may be distributed by KIPP Bay Area Schools to other charter schools operated by KIPP Bay Area Schools. The final independent audit shall be completed within six months from the last day of student attendance and will be provided to OUSD promptly upon its completion.

This audit may serve as Charter School's annual audit, if so permitted by the California Department of Education, California State Controller, and/or the State Superintendent of Public Instruction.

~~10.~~ Charter School shall pay for the financial closeout audit of Charter School. This audit will be conducted by a neutral, independent licensed CPA who will employ generally accepted accounting principles. Any liability or debt incurred by Charter School KIPP Bridge Academy will be the responsibility of Charter School KIPP Bay Area Schools and not OUSD. Charter School KIPP Bay Area Schools understands and acknowledges that Charter School will cover the outstanding debts or liabilities of Charter School KIPP Bridge Academy. Any unused monies at the time of the audit will be returned to the appropriate funding source. Charter School

~~11.5.~~ KIPP Bay Area Schools understands and acknowledges that only unrestricted funds will be used to pay creditors. Any unused AB 602 funds or other special education funding will be returned to the District SELPA or the SELPA in which Charter School participates, and other categorical funds will be returned to the source of funds. ~~Any~~

OUSD property that is used by KIPP Bridge Academy remains District property, is not an asset of KIPP Bridge Academy, and must be returned to OUSD when KIPP Bridge Academy closes.

Charter School shall ensure the completion and filing of any annual reports required. These reports include but are not necessarily limited to:

1. Preliminary budget
2. Local control and accountability plan and annual updates
3. Interim financial reports
4. Second interim financial reports
5. Final unaudited reports

These reports must be submitted to the CDE and the authorizing entity in the form required. If Charter School chooses to submit this information before the forms and software are available for the fiscal year, alternative forms can be used if they are approved in advance by the CDE. These reports should be submitted as soon as possible after ~~For six calendar months from the~~ Closure Action, but no later than the required deadline for reporting for the fiscal year.

For apportionment of categorical programs, the CDE will count the prior year average daily attendance (ADA) or enrollment data of the closed Charter School with the data of the authorizing entity. This practice will occur in the ~~until budget allows, whichever comes first~~ year after the closure and will continue until CDE data collection processes reflect ADA or enrollment adjustments for all affected LEAs due to the charter closure.

Disposition of Liabilities and Assets

The closeout audit shall identify the disposition of all liabilities of Charter School. Charter School closure procedures must also ensure appropriate disposal, in accordance with the Charter School's governing board bylaws, fiscal procedures, and any other applicable laws and

regulations, of any net assets remaining after all liabilities of Charter School have been paid or otherwise addressed. Such disposal includes, but is not limited to:

1. Charter School, at its cost and expense, shall return to the District any and all property, furniture, equipment, supplies, and other assets provided to Charter School by or on behalf of the District. The District discloses that the California Education Code sets forth the requirements for the disposition of the District's personal property and Charter School shall bear responsibility and liability for any disposition in violation of statutory requirements.
2. The return of any donated materials and property in accordance with any terms and conditions set when the donations were accepted.
3. The return of any grant and restricted categorical funds to their sources according to the terms of the grant or state and federal law.
4. The submission of final expenditure reports for any entitlement grants and the filing of Final Expenditure Reports and Final Performance Reports, as appropriate.
5. The submission of an inventory of equipment log in coordination with the charter school's independent auditor about the proper procedures for liquidating the assets, consistent with federal regulations. The inventory log shall include:
 - a. Name and contact of person(s) handling the liquidation;
 - b. Each item in excess of \$500 (computers, laptops, printers, and other equipment);
 - c. An identification number that corresponds to a tag on that item;
 - d. The cost of the item and whom/where/date of the item that was donated/sold.

If Charter School is operated by a nonprofit corporation, and if the corporation does not have any functions other than operation of Charter School, the corporation shall be dissolved according to its bylaws.

~~12.6.~~ Charter School shall retain sufficient staff, as deemed appropriate by the Charter School governing board to complete ~~KIPP Bay Area Schools Board, will maintain employment to take care of~~ all necessary tasks and procedures required to close for a smooth closing of the school and transfer records in accordance with these closure procedures. ~~student transfers.~~

~~13.7.~~ ~~Charter School's governing board~~ ~~The KIPP Bay Area Schools Board~~ shall adopt a plan for ~~closure~~ ~~wind-up~~ of ~~Charter School~~ ~~the school~~ and, if necessary, the corporation, in accordance with the requirements of the Corporations Code.

~~Charter School shall provide OUSD within fourteen (14) calendar days of the Closure Action with written notice of any outstanding payments due to staff and the time frame and method by which Charter School will make the payments.~~

~~Prior to final close-out, Charter School shall complete all actions required by applicable law, including but not limited to the following:~~

- ~~1. File all final federal, state, and local employer payroll tax returns and issue final W-2s and Form 1099s by the statutory deadlines.~~
- ~~2. Make final federal tax payments (employee taxes, etc.)~~
- ~~3. Complete and submit all required federal and state filings and notices to the State of California, the Internal Revenue Service, and the Department of the Treasury, including, but not limited to, final tax returns and forms (e.g. Form 990 and related Schedules).~~

~~This Element 15 shall survive the revocation, nonrenewal, expiration, termination, cancellation of this Charter, or any other act or event that would end Charter School's authorization to operate as a charter school or cause Charter School to cease operation. Charter School agrees that, due to the nature of the property and activities that are the subject of this Charter, the District and public shall suffer irreparable harm should Charter School breach any obligation under this Element 15. The District therefore reserves the right to seek equitable relief to enforce any right arising under this Element 15 or any provision of this Element 15 or to prevent or cure any breach of any obligation undertaken, without in any way prejudicing any other legal remedy available to the District. Such legal relief shall include, without limitation, the seeking of a temporary or permanent injunction, restraining order, or order for specific performance, and may be sought in any appropriate court.~~

ADDITIONAL PROVISIONS

~~KIPP Bridge Academy~~ Renewal Petition ~~2025-2030~~

Facilities

Prior to occupancy or use of any school site or facility, Charter School shall provide OCS with a current Certificate of Occupancy or equivalent document issued by the applicable permitting agency that allows Charter School to use and occupy the site as a charter school. Prior to occupancy or use of any school site or facility, Charter School shall provide documentation to OCS that the facility complies with all applicable building codes, standards and regulations adopted by the city and/or county agencies responsible for building and safety standards for the city in which Charter School is to be located. This requirement shall also apply, upon request by the District, to the construction, reconstruction, alteration of or addition to the facility. Charter School shall resolve in a timely manner any and all corrective actions, orders to comply, or notices issued by the authorized building and safety agency or the District. Charter School cannot exempt itself from applicable building and zoning codes, ordinances, and ADA/Section 504 requirements. Charter School shall maintain on file readily accessible records that document facilities compliance and provide such documentation to OCS upon request.

Pest Management: Charter School shall comply with the Healthy Schools Act, Education Code section 17608, which details pest management requirements for schools.

Asbestos Management: Charter School shall comply with the asbestos requirement as cited in the Asbestos Hazard Emergency Response Act (AHERA), 40 C.F.R. part 763. AHERA requires that any building leased or acquired that is to be used as a school or administrative building shall maintain an asbestos management plan.

Hold Harmless/Indemnification Provision

Charter School, through this Charter agrees to defend, indemnify, and hold harmless OUSD, its officers, directors, agents, representatives, employees, attorneys, volunteers, successors and assigns (collectively hereinafter “District” and “District Personnel”) from and against any and all actions, suits, claims, demands, losses, costs, penalties, obligations, errors, omissions, or

liabilities including but not limited to attorneys' fees that may be asserted or claimed by any person, firm or entity arising out of, or in connection with, Charter School's performance under this Agreement or the Charter, the condition or use of its facilities, or any acts, errors, negligence, omissions or intentional acts by Charter School, its Governing Board, administrators, employees, agents, representatives, volunteers, successors and assigns. Moreover, Charter School agrees to indemnify, defend, and hold harmless OUSD and the OUSD Board of Education and their members, officers, directors, agents, representatives, employees and volunteers, for any contractual liability resulting from third party contracts with Charter School's vendors, contractors, partners or sponsors.

Fiscal Matters

District Oversight Costs

The District may charge for the actual costs of supervisory oversight of Charter School not to exceed 1% of the Charter School's revenue, or the District may charge for the actual costs of supervisory oversight of Charter School not to exceed 3% if Charter School is able to obtain substantially rent free facilities from the District. Notwithstanding the foregoing, the District may charge the maximum supervisory oversight fee allowed under the law as it may change from time to time. The oversight fee provided herein is separate and distinct from the charges arising under charter school facilities use agreements.

Third Party Contracts

Charter School shall ensure that all third party contracts, whether oral or written, for supplies, equipment, goods and/or services, for the direct or indirect benefit of, or otherwise related to the operation of Charter School, require compliance with and otherwise conform to all applicable local, state, and federal policies, regulations, laws, and guidelines, including, but not limited to, licensing and permit requirements as well as requirements related to protection of health and safety. Charter School shall notify all parties with whom it enters into a contract that the District

is a separately legal entity and is not responsible for performing any of the Charter School's obligations under the contract, including payment for services.

Special Education Revenue Adjustment/Payment for Services

In the event that Charter School owes funds to the District for the provision of agreed upon or fee for service or special education services or as a result of the State's adjustment to allocation of special education revenues from Charter School, Charter School authorizes the District to deduct any and all of the in lieu property taxes that Charter School otherwise would be eligible to receive under section 47635 of the Education Code to cover such owed amounts. Charter School further understands and agrees that the District shall make appropriate deductions from the in lieu property tax amounts otherwise owed to Charter School. Should this revenue stream be insufficient in any fiscal year to cover any such costs, Charter School agrees that it will reimburse the District for the additional costs within forty-five (45) business days of being notified of the amounts owed.

The Charter School's financial statements, proposed budgets, projections, expenditures, and cashflow shall include the Charter School's anticipated expenditures for special education services, including any projected funding received for special education services, the average cost per pupil of providing special education services, and the extent to which the Charter School projects that it will have to incur special education expenditures from its unrestricted general fund revenues. If the Charter School does not belong to a SELPA as an LEA, it must also provide its projected equitable contribution to Districtwide special education costs.

Audit and Inspection of Records

The District hereby reserves the right, pursuant to its oversight responsibility, to audit Charter School's books, records, data, processes and procedures through the Office of Charter Schools, or in coordination with FCMAT, or in coordination with a mutually agreed upon third party. The audit may include, but is not limited to, the following areas:

- Compliance with terms and conditions prescribed in the Charter,
- Internal controls, both financial and operational in nature,
- The accuracy, recording and/or reporting of school financial information,
- Charter School’s debt structure,
- Governance policies, procedures and history,
- The recording and reporting of attendance data,
- Charter School’s enrollment process, suspension and expulsion procedures, and parent involvement practices,
- Compliance with safety plans and procedures, and
- Compliance with applicable grant requirements.

Charter School shall cooperate fully with such audits and shall make available any and all records necessary for the performance of the audit upon 30 business days notice to Charter School. In extreme circumstances when 30 business days notice may defeat the purpose of the audit, the District may conduct the audit upon 24 hours notice.

In addition, if an allegation of waste, fraud, or abuse of power related to Charter School operations is received by the District, Charter School shall be expected to cooperate with any investigation undertaken by the Office of Charter Schools.

Data and Information Reporting

Charter School shall provide the following data elements to OCS, according to a data reporting calendar that will be published by OCS prior to September 1 of each school year:

- Fall Census Day enrollment spreadsheet
- Reports required by Education Code section 47604.33:
 - Preliminary budget
 - Local control and accountability plan
 - First interim financial report
 - Second interim financial report
 - Final unaudited report
- Other audit-related, attendance, and/or enrollment information and reports:
 - Annual independent audit report (Ed. Code § 47605(m))
 - Independent Auditor Selection Form (Ed. Code § 41020(f)(1))
 - 20 day attendance report (Ed. Code § 47652(a))

- Monthly attendance reports
- Principal Apportionment Data (P1, P2, and P-Annual)
- Monthly student exit reports (Ed. Code § 47605(e)(3))
- Information/documentation related to Charter School’s facilities, SELPA, student/family handbook, and governing board (including membership, bylaws, and specified policies)

Additionally, Charter School shall notify OCS in writing in a timely manner of all changes to leadership at the Charter School, the Charter Management Organization, and the governing board.

~~14. In addition to a final audit, KIPP Bay Area Schools will also submit any required year-end financial reports and any annual reports required pursuant to Education Code Section 47604.33 to the California Department of Education and the District, in the form and time frame required.~~

~~15. As specified by the school’s budget in Appendix 30, the Charter School will utilize the reserve fund to undertake any expenses associated with the closure procedures identified above.~~

outreach, strategy, and alumni support.

Budgeting

Governing Law: The petitioner or petitioners also shall~~also~~ be required to provide financial statements that include a proposed first-year operational budget, including startup costs, and cashflow and financial projections for the first three years of operation. Education Code Section 47605(hg).

The Chief Executive Officer~~Director~~ of KIPP Northern California Bay Area Schools will submit an annual budget for KIPP Bridge Academy to its~~the~~ Board of KIPP Bay Area Schools during the spring of each year. KIPP Northern California's~~The organization's~~ annual fiscal period runs from July 1 through June 30. The KIPP Northern California Bay Area Schools Board of Directors must approve the annual budget by June 30 of each fiscal year.

The financial plan for KIPP Bridge Academy is based on KIPP Northern California's Bay Area Schools' experiences to date. ~~Historical experience provides an amount of certainty in the budget development process. KIPP Bridge Academy makes the following assumptions:~~

- ~~• At steady state, the school will maintain enrollment of approximately 835 students.~~
- ~~• The school will employ approximately 35 to 40 team members on staff, which may include core and elective teachers, counselors, deans and assistant principals, a principal, and operations and facilities staff.~~
- ~~• The school receives revenue principally from the following sources: state and local general purpose funds, categorical block grant, and state lottery funds.~~
- ~~• The school applies directly for funds not included in the charter school categorical block grant including federal entitlement funds.~~
- ~~• The school makes inflation assumptions of approximately 2% to 3% for both revenues and expenditures.~~

As required by Education Code Section 47605(hg), please refer to Appendix 2530 for multi-year financial projections, including a budget and cash flow for the next three years of operation. These documents are based upon the best data available to the petitioners at this time.

Financial Reporting

KIPP Bridge ~~Academy~~ shall provide reports to the District as follows as required by Education Code Section 47604.33, and ~~shall~~may provide additional fiscal reports as requested by the District.

The Charter School shall provide reporting to the District as required by law and as requested by the District including, but not limited to, the following: California Basic Educational Data System (“CBEDS”), actual Average Daily Attendance reports, all financial reports required by Education Code Sections 47604.33 and 47605(m), the SARC, and the LCAP.

The Charter School agrees to and submits to the right of the District to make random visits and inspections in order to carry out its statutorily required oversight in accordance with Education Code Sections 47604.32 and 47607.

Pursuant to Education Code Section 47604.3, the Charter School shall promptly respond to all reasonable inquiries including, but not limited to, inquiries regarding its financial records from the District.

- ~~• By July 1, a preliminary budget for the current fiscal year.~~
- ~~• By July 1, an annual update (LCAP) required pursuant to Education Code Section 47606.5.~~
- ~~• September 1— Final Unaudited Financial Report for Prior Year~~
- ~~• December 1— Final Audited Financial Report for Prior Year~~
- ~~• December 1— First Interim Financial Report for Current Year~~
- ~~• March 1— Second Interim Financial Report for Current Year~~
- ~~• June 15— Preliminary Budget for Subsequent Year~~

Audits

As mentioned above, KIPP Northern California~~KIPP Bay Area Schools~~ will conduct yearly independent financial audits, to be completed by December 15 of each year. An auditor with knowledge and experience in auditing publicly funded schools will be engaged. The Charter School~~school~~ will also keep records of what other information has been requested by the various

KIPP Bridge ~~Academy~~ Renewal Petition 2025-2030

ad-hoc audits it undergoes throughout the year so that it can prepare for them in advance from year to year. Please see Appendix ~~2131~~ for KIPP ~~Northern California's Bay Area Schools'~~ most recent audited financial statements.

Title I Funds

~~To the extent that KIPP Bridge Academy is a recipient of federal funds, including federal Title I, Part A funds, KIPP Bridge has agreed to meet all of the programmatic, fiscal and other regulatory requirements of the ESSA and other applicable federal grant programs. KIPP Bridge agrees that it will keep and make available to the District any documentation necessary to demonstrate compliance with the requirements of the ESSA and other applicable federal programs, including, but not limited to, documentation related to required parental notifications, appropriate credentialing of teaching and paraprofessional staff, where applicable, or any other mandated federal program requirement. The mandated requirements of ESSA include, but are not the limited to, the following:~~

- ~~• Notify parents at the beginning of each school year of their “right to know” the professional qualifications of their child’s classroom teacher including whether the teacher: has met state qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction; is teaching under emergency or other provisional status through which state qualification or licensing criteria have been waived; and is teaching in the field of discipline of the certification of the teacher.~~
- ~~• Develop jointly with, and distribute to, parents of participating children, a school-parent compact.~~
- ~~• Hold an annual Title I meeting for parents of participating Title I students.~~
- ~~• Develop jointly with, agree on with, and distribute to, parents of participating children a written parent involvement policy.~~

~~KIPP Bridge Academy also understands that as part of its oversight of the school, the Office of Charter Schools may conduct program review of federal and state compliance issues~~

Potential Users of Financial Information

Financial statements such as a Balance Sheet, Income Statement, and Statement of Cash Flow will be prepared by KIPP ~~Northern California.Bay Area Schools.~~ Financial statements will be used by the independent auditors hired each year. KIPP ~~Northern California~~~~Bay Area Schools~~ also

expects the financial statements to be requested by such institutional sources of financing as KIPP Bridge may require, including commercial banks and issuers of bonds. The financial statements will also be available for review as desired by any of the [Charter School's school's](#) administration, managers, or Board Members who want to assess the [Charter School's school's](#) financial condition. In addition, Board Members will use the financial statements to confirm existing policies or to create new policies. Finally, KIPP [Northern California Bay Area Schools](#) will submit its annual audited financial statement to the appropriate authorities within the California Department of Education and the District.

Administrative Services

Governing Law: The manner in which administrative services of the [charter school](#) are to be provided. Education Code Section 47605([hg](#)).

KIPP [Northern California provides Bay Area Schools will provide](#) or [procures procure](#) most of its own administrative services including, but not limited to, financial management, personnel, and instructional program development either through its own staff or through an appropriately qualified third-party contractor, and is responsible for producing monthly financial reports and designing a policy of internal controls to ensure fiscal responsibility. The [School Leaders, ChiefPrincipal, Executive OfficerDirector,](#) and the KIPP [Northern California Bay Area Schools](#) Board [of Directors have will](#) also [developed develop](#) other policies and procedures including employee benefits, compensation, evaluations, dispute resolution, disciplinary actions, and student information systems.

Systems for Managing Cash Flow, Purchasing, Payroll, Reporting and Audits

KIPP [Northern California Bay Area Schools](#) has successfully established strict policies governing internal controls. These policies ensure that the internal control mechanisms address legal compliance, conflicts of interest, signature authorities, government access to records, accounting procedures, cash management, budget development, financial reporting, property management and procurement. KIPP [Northern California Bay Area Schools](#) has a check signing policy in place to ensure multiple levels of internal controls involving the [School Leader, financePrincipal, Director of Finance, Executive Director,](#) and [accounting staff, and the executive teamBoard Chair.](#)

Tools Used for Tracking and Reporting Financial Matters

KIPP Bridge [Academy](#) Renewal Petition [2025-2030](#)

KIPP ~~Northern California Bay Area Schools~~ uses an accounting software package to aid in preparing for monthly financial reports and end-of-year audits. This computer system is employed by the KIPP ~~Northern California Bay Area Schools~~ finance and accounting team. The ~~finance and accounting team~~ ~~Director of Finance~~ will prepare financial reports (i.e. g., a balance sheet, income statement, and statement of cash flows) for the ~~School Leaders~~ ~~Principal~~ of KIPP Bridge ~~Academy~~. KIPP ~~Northern California Bay Area Schools~~ will ~~submit quarterly interim~~ ~~prepare regular financial~~ reports ~~according to GAAP~~ and ~~will~~ submit them to the District, ~~on a regular basis~~.

Attendance Accounting

KIPP Bridge ~~will report~~ ~~Academy reports~~ attendance requirements directly to the District in a format acceptable to the District. Required reports regarding daily attendance will be completed and submitted to ~~OUSD~~ ~~the requesting agencies~~.

Payroll

~~KIPP Northern California~~ ~~Payroll expenses will represent approximately two-thirds of KIPP Bridge Academy's total expenses.~~ KIPP ~~Bay Area Schools~~ may choose to either contract with a private vendor for full payroll services – including tax withholdings and other benefit expenses from paychecks, filing the relevant returns with taxing authorities, and producing end-of-year income tax forms for employees – or may provide payroll services in-house.

Vendor Selection and Purchasing

The Board of Directors is responsible for approving KIPP ~~Bridge's~~ ~~Bridge Academy's~~ annual budget, with substantial input from the ~~School Leaders~~ ~~Principal~~ and ~~Chief Executive Officer~~ ~~Director~~. The ~~School Leaders~~ ~~will develop~~ ~~Principal develops~~ the budget proposal in coordination with the ~~finance~~ ~~Executive Director~~ and ~~executive teams~~ ~~Director of Finance~~, and ~~have~~ ~~has~~ the latitude in determining vendor selection and how funds are best used within budget categories. The Board of Directors is responsible for long-range financial and facilities planning. ~~KIPP Bay Area Schools is responsible for soliciting bids as necessary from various vendors (e.g., for food services, office supplies, furniture, telecommunications).~~

Food Services

KIPP Northern California Bay Area Schools may choose to contract for food services with the District. KIPP Northern California provides daily meals to students through the National School Lunch Program (“NSLP”). Eligible students are will be provided meals for free or at a reduced rate in accordance with federal and state nutritional guidelines. We expect that the proportion of students who will be eligible for this program will be similar to the proportion eligible within the District, and allAH eligible students will be included in the District’s reported student counts.

Oversight

Pursuant to California law, the Role of Authorizing Agency

~~The District is required to provide oversight and performance monitoring services, including monitoring school and student performance data, reviewing the Charter School’s audit reports, performing annual~~ has the right to monitor KIPP Bridge Academy through site visits, engaging in any necessary dispute resolution processes, and considering ~~and reviews of reports. The District may charge for the actual costs of supervisory oversight of KIPP BRIDGE not to exceed 1% of the charter amendment and renewal requests. In accordance with Education Code Section 47613(a), school’s revenue, or~~ the District may charge for the actual costs of supervisory oversight of the Charter School not to exceed one (1) percent of the revenue of the Charter School. If the Charter School as stipulated by law if KIPP Bridge is able to obtain substantially rent free facilities from the District. ~~Notwithstanding the foregoing, the District may charge the~~ District may charge for the actual costs of ~~maximum~~ supervisory oversight not to exceed three (3) percent of the revenue of the Charter School in accordance with Education Code Section 47613(b). Pursuant to Education Code Section 47613(f), ~~“revenue of the fee allowed under the law as it may change from time to time.”~~ “The charter school’s revenue” means the amount received in the current fiscal year from the local control funding formula calculated pursuant to Education Code Section 42238.02, as implemented by Education Code Section 42238.03.

~~KIPP Bridge Academy agrees to observe and abide by the following terms and conditions as a requirement for receiving and maintaining their charter authorization:~~

- ~~• KIPP Bridge Academy is subject to District oversight.~~

- ~~The District’s statutory oversight responsibility continues throughout the life of the charter and requires that it, among other things, monitor the fiscal condition of KIPP Bridge Academy.~~
- ~~The District is authorized to revoke this charter for, among other reasons, the failure of KIPP Bridge Academy to meet generally accepted accounting principles or if it engages in fiscal mismanagement in accordance with Education Code Section 47607.~~

~~Accordingly, the District hereby reserves the right, at District cost, pursuant to its oversight responsibility, to audit KIPP Bridge Academy books, records, data, processes and procedures through the Office of Charter Schools or other means. The audit may include, but is not limited to, the following areas:~~

- ~~Compliance with terms and conditions prescribed in the charter,~~
- ~~Internal controls, both financial and operational in nature,~~
- ~~The accuracy, recording and/or reporting of school financial information,~~
- ~~The school’s debt structure,~~
- ~~Governance policies, procedures and history,~~
- ~~The recording and reporting of attendance data,~~
- ~~The school’s enrollment process, suspension and expulsion procedures, and parent involvement practices,~~
- ~~Compliance with safety plans and procedures, and~~
- ~~Compliance with applicable grant requirements.~~

~~KIPP Bridge Academy shall cooperate fully with such audits and to make available any and all records necessary for the performance of the audit upon 30 days’ notice to KIPP Bridge Academy. When 30 days’ notice may defeat the purpose of the audit, the District may conduct the audit upon 24 hours’ notice.~~

~~In addition, if an allegation of waste, fraud or abuse related to KIPP Bridge Academy operations is received by the District, the KIPP Bridge Academy shall be expected to cooperate with any investigation undertaken by the Office of Charter Schools, at District cost. This obligation for the District to pay for an audit only applies if the audit requested is specifically requested by the District and is not otherwise required to be completed by KIPP Bridge Academy by law or charter provisions~~

External Reporting

KIPP Bridge Academy will maintain sufficient staff and systems including technology, required to ensure timely reporting necessary to comply with the law and to meet all reasonable inquiries from District and other authorized reporting agencies.

Facilities

Governing Law: The facilities to be ~~used~~*utilized* by the charter school. The description of the facilities to be used by the charter school shall specify where the charter school intends to locate. Education Code Section 47605(~~hg~~).

KIPP Bridge Academy is committed to serving the ~~West~~ Oakland community. ~~In, and on June 9, 2016, a lease between~~ KIPP Bridge entered an agreement with the ~~Bay Area Schools and Oakland Unified School District~~ was approved by the OUSD board for the former Lafayette Elementary School campus, located at 1700 Market Street ~~in~~, Oakland. The agreement is for an initial 20 year lease ~~The lease is for the 53,000 square foot Lafayette School, as well as the adjacent parking lot and asphalt area, with a term of 20 years with two additional 10-year terms, extending options.~~ The initial rent is \$4.73/square foot for the lease to June 30, 2056. As part building, with increases during the term of the agreement, lease.

KIPP ~~constructed~~ Bridge Academy moved into the facility during the summer of 2016, occupying the existing building. KIPP plans to make improvements to the existing building and build an additional 22 building on the site of approximately 17,000 square-foot facility at the premises for feet to accommodate the KIPP Bridge Middlefull growth of the Charter School. Construction of the improvements was completed during 2018 in time ~~There is a \$9.9 million credit in the lease towards construction costs that offsets the rent to be paid to the District by the Charter School. It is anticipated that the new building will be built for the 2018-2019 academicschool year.~~

KIPP Bridge Academy may exercise its rights under Proposition 39 to secure affordable, quality facilities in the event the current lease between OUSD and KIPP Bay Area Schools is terminated.

KIPP Bridge shall ensure that such facilities shall comply with applicable local building and zoning ordinances and that KIPP Bridge shall have obtained permits under local ordinances for operating a school in such facilities. KIPP Bridge will maintain complete records documenting said compliance, and will maintain on file a copy of all facility inspection records, including the Certificate of Occupancy. The School agrees to test sprinkler systems, fire extinguishers, and fire

~~alarms annually at its facilities to ensure that they are maintained in an operable condition at all times. The School shall conduct fire drills routinely and in conjunction with the District (if at District facilities).~~

~~KIPP Bridge’s facilities will comply with applicable state building code, federal Americans with Disabilities Act (ADA) access requirements, and other applicable fire, health, and structural safety requirements, and will maintain on file readily accessible records documenting such compliance. The school will contract auxiliary services from vendors authorized to meet safety regulations. All certificated and classified staff will be mandated reporters for child abuse. The staff will be trained regarding this responsibility and will be advised to follow all applicable reporting laws.~~

~~If KIPP Bridge Academy fails to submit a certificate of occupancy or other valid documentation to the District verifying that the intended facility in which the school will operate complies with Education Code Section 47610, not less than 30 days before the school is scheduled to begin operation pursuant to the first year__ of this renewal term, it may not commence operations unless an exception is made by the Office of Charter Schools and/or the local planning department or equivalent agency. If KIPP Bridge moves or expands to another facility during the term of this charter, KIPP Bridge shall provide a certificate of occupancy or other valid documentation to the District verifying that the intended facility in which the school will operate complies with Education Code Section 47610, to the District for each facility at least 30 days before school is scheduled to begin operations in the facility or facilities. KIPP Bridge Academy shall not begin operation in any location for which it has failed to timely provide a certificate of occupancy to the District, unless an exception is made by the Office of Charter Schools and/or the local planning department or equivalent agency.~~

Thanks to its partnership with OUSD, KIPP NorCal is happy to be able to provide its students with the sense of security that comes with a permanent school site.

Potential Civil~~Notwithstanding any language to the contrary in this charter, the interpretation, application, and enforcement of this provision are not subject to the Dispute Resolution Process.~~

- Any injury to person or property sustained by KIPP ~~Northern California's Bay Area Schools~~' employees, or by any person, firm, or corporation employed directly or indirectly by KIPP Bridge ~~Academy~~.
- Any injury to person or property sustained by any person, firm, or corporation caused by an act, neglect, default, or omission of KIPP Bridge ~~Academy~~, its officers, employees, or agents.
- The furnishings or use of any copyrighted or un-copyrighted composition, or patented or un-patented invention.

KIPP ~~Northern California Bay Area Schools~~, at its own expense and risk, will defend all legal proceedings on any such liability, claim, or demand that may be brought against it and/or the Board of Directors, or its officers and employees. In addition, KIPP ~~Northern California Bay Area Schools~~ will satisfy any resulting judgments that may be rendered as the result of any such liability, claim, or demand, whether or not such liability, claim, or demand was actually or allegedly caused wholly or in part through the negligence or other ~~tortious/tortuous~~ conduct of KIPP Bridge ~~Academy~~, the Board of Directors or their officers and employees. KIPP ~~Northern California Bay Area Schools~~ has complete liability for all actions of the ~~Charter School/school~~ and its employees in the performance of their duties. KIPP ~~Northern California Bay Area Schools~~ will further indemnify and hold harmless the ~~Oakland Unified School District OUSD~~ of any present or future liability for the ~~Charter School's/school's~~ actions.

~~The corporate bylaws of the Charter School shall provide for indemnification of the Charter School's Board, officers, agents, and employees. In order to mitigate both the potential legal and fiscal liabilities of KIPP Bridge Academy, KIPP Northern California will have in force Bay Area Schools maintains at all times prepaid liability insurance for KIPP Bridge Academy. The OUSD's Board of Trustees will be named as an additional insured on the general liability insurance of the school.~~

~~At minimum, coverage will include:~~

- ~~Workers' compensation as required by the Labor Code of the State of California and Employers' Liability.~~
- Comprehensive Bodily Injury and Property Damage Liability for the combined single limit coverage of not less than \$5,000,000 per single occurrence. The Oakland Unified School District OUSD's Board of Trustees will be named as additionally insured on the "other named insurers." The policy will also provide specifically that any insurance carried by the District, which may be applicable to any claims or loss, will be deemed excess, and KIPP Bridge's general liability insurance. Bay Area Schools' insurance primary, despite any conflicting provisions in the charter school's policy.
- ~~The Oakland Unified School District Commercial Crime coverage for blanket employee theft, disappearance, destruction, and dishonesty in the amount of at least \$50,000 per occurrence.~~
- ~~Commercial Auto Liability coverage with limits of \$1,000,000 Combined Single Limit per Occurrence if KIPP Bridge Academy does not operate a student bus service. If KIPP Bridge provides student bus services, the required coverage limit is \$5,000,000 Combined Single Limit per Occurrence.~~

~~OUSD~~ will be furnished with certificates of insurance signed by an authorized representative of the insurance carriers. OUSD has the right to require complete certified copies of the required insurance policies. ~~Certificates will be endorsed to say: "The insurance afforded by this policy will not be suspended, cancelled, reduced in coverage or limits or non-renewed except after thirty (30) days prior written notice by certified mail, return receipt requested, has been given to the OUSD."~~

Facsimile or reproduced signatures may be acceptable upon review by OUSD. However, OUSD reserves the right to require certified copies of any required insurance policies.

Should KIPP Bridge ~~Academy~~ deem it prudent and/or desirable to have insurance coverage for damage or theft to school, employee or student property, for student accident, or any other type of insurance coverage not listed above, its purchase shall be the responsibility of the Charter School.~~school.~~

Oversight, Reporting, Revocation, and Renewal

KIPP Bridge ~~Academy~~ Renewal Petition 2025-2030

Oakland Unified School District ~~OU~~SD may inspect or observe any part of KIPP Bridge ~~Academy~~ at any time, but shall provide reasonable notice of at least three (3) working days to the ~~Charter School~~ school prior to doing so. In the event that ~~the District~~ ~~OU~~SD believes a cause exists to revoke this charter, it shall follow the requirements of Education Code Section 47607 and all applicable regulations.

~~In the event that OUSD does not believe that KIPP Bridge Academy is making satisfactory progress towards achievement of the goals set forth in this charter, it shall notify KIPP Bay Area Schools in writing, within two months of the receipt of the each performance review, of the specific basis for its conclusions. No later than 120 days prior to the expiration of this charter, KIPP Northern California Bay Area Schools will present the District~~ ~~OU~~SD with a request for renewal (as well as for any amendments), in response to which the District will render a decision pursuant to the processes set forth in Education Code ~~Sections~~ ~~sections~~ 47605 and 47607, and all applicable regulations. ~~KIPP Northern California's charter may be renewed by the District for additional two, five, or five to seven year terms in accordance with the applicable charter renewal criteria as set forth in Education Code Sections 47607 and 47607.2.~~

Term of Charter

The term of this charter shall be for five years beginning July 1, ~~2025~~2017 and expiring on June 30, ~~2030~~2022.

Renewal of Charter

~~KIPP Bridge must submit its renewal petition to the Office of Charter Schools no earlier than 270 days before the charter is due to expire unless otherwise agreed by the Office of Charter Schools~~

Scope of Charter

KIPP ~~Northern California Bay Area Schools~~ shall not operate under the KIPP Bridge ~~Academy~~ name satellite schools, campuses, sites, resource centers or meeting spaces not identified in this charter without the prior written approval of the Superintendent of ~~the Oakland Unified School District~~ ~~OU~~SD.

Material Revisions and Amendments

This petition may be materially revised or otherwise altered, amended, changed, or modified only by mutual agreement of KIPP Northern California and the District. Material revisions will be made pursuant to the standards, criteria, and timelines in Education Code Sections 47605 and 47607.

Force Majeure

Neither party shall be liable if the performance of any part or all of this charter petition is prevented, delayed, hindered or otherwise made impracticable or impossible by reason of any strike, flood, riot, fire, explosion, earthquake, act of terror, act of God, sabotage, accident or any other casualty beyond either party’s control, and which cannot be overcome by reasonable diligence and without unusual expense.

Severability

~~The terms of this charter are severable. If, for any reason, any provision hereof shall be determined to be invalid or unenforceable, the validity and effect of the other provisions hereof shall not be affected thereby.~~

~~The District may revoke the charter of KIPP Bridge in accordance with Education Code Section 47607 and its implementing regulations, any successor provisions to section 47607, or other statutory provisions, if enacted after the date of the charter, regarding the revocation of charters.~~

No Waiver

No waiver of any provision of this petition shall be deemed or shall constitute a waiver of any other provision. Nor shall such waiver constitute a continuing waiver unless otherwise expressly stated.

Amendments

~~This petition may be altered, amended, changed, or modified only by agreement in writing executed by KIPP Bay Area Schools and the President of the OUSD Board of Education authorized to so execute by action of the Board on behalf of OUSD. Material revisions and~~

KIPP Bridge Academy Renewal Petition [2025-2030](#)

~~amendments will be made pursuant to the standards, criteria, and timelines in California Education Code sections 47605 and 47607.~~

Notices

All notices required or permitted by this petition shall be in writing and shall be either hand delivered, sent by facsimile, sent by US mail, postage prepaid, to the addresses as set forth on the signature page hereof. A notice shall be effective either when personally delivered, on the date set forth on the receipt of a facsimile, or upon the earlier of the date set forth on the receipt of registered or certified mail or on the fifth day after mailing.

LIST OF APPENDICES

Public Records

~~KIPP Bridge Academy acknowledges that pursuant to Article XVI section 8.5(e) of the California Constitution, sections 2(e), 6, and 8 of Proposition 98, and sections 33126.1(b), 35256(e), and 35258 of the Education Code require schools, including KIPP Bridge to provide certain information in certain formats in certain ways to the general public and specifically to parents of students at KIPP Bridge Academy and of the District. KIPP Bridge Academy further acknowledges that it has the obligation to provide all of such information to the District that is required by these referenced authorities in a timely manner so that the District may meet its obligations under those authorities as well. To the extent that there is information that the District has, but that KIPP Bridge Charter does not have that KIPP Bridge Charter needs in order to meet its obligations, the District shall provide the same to KIPP Bridge Charter in a reasonably timely manner upon request.~~

Re: Charter Petition for KIPP Bridge Academy

Dear President Davis,

We write with enthusiasm and respect to authorize the submission of this charter renewal petition to the Oakland Unified School District. KIPP NorCal, which operates KIPP Bridge Academy, deems the charter renewal submission to be complete, as attested to below.

For over twenty years, KIPP Bridge Academy has served the students and families of West Oakland. These years have brought significant growth and success to thousands of students and deepened our impact on the number of students from the great city of Oakland who graduate 8th grade prepared for high school, college, career and beyond.

We are proud to report that KIPP Bridge Academy is recovering well post-pandemic, exemplified by our most recent SBAC scores, which showed our students rebounding academically. We are making promising progress in closing pandemic-era learning loss and ensuring students are in school while continuing to support our families and students with the resources they need. We are deeply committed to continuing to work with OUSD and look forward to working with one another and the community for years to come.

CONTENTS OF THE SUBMISSION

In compliance with the District’s submission process for considering a charter petition received¹ for renewal, the following items are enclosed along with this letter:

- Final Renewal Petition** – A final copy of the renewal petition, including all District Required Language (provided by District staff) and all content required by newly enacted

¹ KIPP Bridge Academy is following the District’s procedures out of respect for the chartering authority relationship, but does not concede that these procedures are necessary to follow because Education Code Section 47605(b) leaves to the Charter School exclusively the right to determine that its charter petition submission is complete.

2. **Performance Report** – A performance report using the current Charter Renewal Performance Report template provided by District staff, enclosed as Appendix 26.

3. **Financial Packet** – Financial statements including the annual operating budget and 3-year cashflow and financial projections, as well as backup and supporting documents and budget assumptions (i.e. anticipated revenues and expenditures, including special education, and projected ADA), enclosed as Appendix 25.

4. **Red-Line Petition** – A red-line copy of renewal, showing all changes made to the charter school's most recent District Board-approved petition, uploaded to EpiCenter.

5. **Initial Public Hearing Presentation** – A PowerPoint presentation for the initial public hearing, uploaded to EpiCenter.

6. **Verified Data** – as defined by the State Board of Education demonstrating measurable increases in academic achievement or strong postsecondary outcomes, enclosed as Appendix 27.

Certifications

In compliance with Section 47605(b), we make the following certifications:

1. That we are the authorized representative, and that we are competent and qualified to certify the matter herein;
2. That, as authorized representatives, we have personal knowledge of the facts forming the basis of this certification;
3. That we make this certification for the purposes of Education Code Section 47605(b) only; and
4. That we deem the revised charter petition to be complete.

Timeline

According to Education Code Section 47605(b), no later than 90 days after receiving a complete petition package, the Oakland Unified School District shall grant or deny the charter petition. We anticipate that the District will adhere to this timeline during its consideration of the charter petition.

AFFIRMATIONS DECLARATIONS, AND ASSURANCES

Affirmation of Conditions Described in Education Code Section 47605(e)

KIPP Bridge Academy (also referred to herein as “Charter School”):

1. Shall be nonsectarian in its programs, admission policies, employment practices, and all other operations. (California Education Code (“Ed. Code”) § 47605(e)(1))
2. Shall not charge tuition (including fees or other mandatory payments for attendance at Charter School or for participation in programs that are required for students except as authorized by those Education Code provisions that explicitly apply to charter schools). (Ed. Code § 47605(e)(1))
3. Shall shall not discriminate on the basis of the characteristics included in Education Code section 220, including but not limited to disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, immigration status. (Ed. Code § 47605(e)(1))
4. Except for legally permissible admission preferences [as provided in Education Code section 47605(e)(2)], admission to Charter School shall not be determined according to the place of residence of the pupil, or of the pupil’s parent or legal guardian, within this state, except that an existing public school converting partially or entirely to a charter school shall adopt and maintain a policy giving admission preference to pupils who reside within the former attendance area of that public school. (Ed. Code § 47605(e)(1))
5. Shall admit all pupils who wish to attend Charter School. However, if the number of pupils who wish to attend Charter School exceeds its capacity, attendance, except for existing pupils of the charter school, shall be determined by a public random drawing. Preference shall be extended to pupils currently attending the charter school and pupils who reside in the Oakland Unified School District (“OUSD” or “District”) except as provided for in Education Code section 47614.5. Priority order for any preference shall be determined in the charter petition in accordance with all of the following: (Ed. Code § 47605(e)(2)(A)-(B))
 - a. Each type of preference shall be approved by OUSD at a public hearing. (Ed. Code § 47605(e)(2)(B)(i))
 - b. Preferences shall be consistent with federal law, the California Constitution, and Education Code section 200. (Ed. Code § 47605(e)(2)(B)(ii))
 - c. Preferences shall not result in limiting enrollment access for pupils with disabilities, academically low-achieving pupils, English learners, neglected or delinquent pupils, homeless pupils, or pupils who are economically disadvantaged, as determined by eligibility for any free or reduced-price meal program, foster youth, or pupils based on nationality, race, ethnicity, or sexual orientation. (Ed. Code § 47605(e)(2)(B)(iii))
 - d. Preferences shall not require mandatory parental volunteer hours as a criterion for admission or continued enrollment. (Ed. Code § 47605(e)(2)(B)(iv))

6. If a pupil is expelled or leaves Charter School without graduating or completing the school year for any reason, Charter School shall notify the superintendent of the school district of the pupil's last known address within 30 days, and shall, upon request, provide that school district with a copy of the cumulative record of the pupil, including report cards or a transcript of grades, and health information. (Ed. Code § 47605(e)(3))
7. Shall not discourage a pupil from enrolling or seeking to enroll in the charter school for any reason, including, but not limited to, academic performance of the pupil or because the pupil exhibits any of the characteristics described in Education Code section 47605(e)(2)(B)(iii). (Ed. Code § 47605(e)(4)(A))
8. Shall not request a pupil's records or require a parent, guardian, or pupil to submit the pupil's records to Charter School before enrollment. (Ed. Code § 47605(e)(4)(B))
9. Shall not encourage a pupil currently attending the charter school to disenroll from the charter school or transfer to another school for any reason, including, but not limited to, academic performance of the pupil or because the pupil exhibits any of the characteristics described in Education Code section 47605(e)(2)(B)(iii). (Ed. Code § 47605(e)(4)(C))
10. Shall post the California Department of Education's Charter School Complaint Notice on Charter School's website and Charter School shall provide a parent or guardian, or a pupil if the pupil is 18 years old, a copy of this notice at all of the following times: When a parent, guardian, or pupil inquires about enrollment; before conducting an enrollment lottery; and before disenrollment of a pupil. (Ed. Code § 47605(e)(4)(D))

Declaration Required by Education Code Sections 47611.5(b) and 47605(c)(6)

Charter School is and shall be deemed the exclusive public employer of the employees of Charter School for purposes of Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, and shall meet the requirements of Government Code sections 3540-3549.3 related to collective bargaining in public education employment (Ed. Code § 47611.5)

Other Assurances

Charter School:

1. Shall meet all statewide standards and conduct the pupil assessments required pursuant to Education Code sections 60605 and 60851 and any other statewide standards authorized in statute or pupil assessments applicable to pupils in noncharter public schools. (Ed. Code § 47605(d)(1))
2. Shall operate in compliance with generally accepted government accounting principles. (Ed. Code § 47605(c)(5)(I))
3. Shall at all times maintain all necessary and appropriate insurance coverage.
4. Shall be subject to conflict of interest and other laws pertaining to public officials, including Government Code section 1090 *et seq.* and the Political Reform Act. (Ed. Code § 47604.1(b)(3) and (4))

5. Shall require its teachers to hold a certificate, permit, or other document issued by the Commission on Teacher Credentialing (CTC) equivalent to that which a teacher in other public schools would be required to hold. (Ed. Code § 47605(l))
6. Shall not hire any person who has been convicted of a violent or serious felony except as otherwise provided by law, and, if the school contracts with an entity for specified services, verify that any employee of that entity who will have contact with students has had a criminal background check. (Ed. Code §§ 44830.1, 45122.1, and 45125.1)
7. Shall not discriminate against any employee or candidate for employment on the basis of the fact or perception of a person's race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, military and veteran status or any other protected classification, in accordance with applicable law, and shall meet all requirements for employment set forth in applicable provisions of law, including, but not limited to credentials, as necessary. (Government Code § 12940; Title 5 CCR §11967.5.1(f)(5))
8. Shall adhere to all applicable provisions of federal law relating to students with disabilities, including the Individuals with Disabilities Education Act; Section 504 of the Rehabilitation Act of 1974; and Title II of the Americans with Disabilities Act of 1990, and serve students with disabilities in the same manner as such students are served in other public schools. (Ed. Code §§ 47646, 56145)
9. Shall adhere to all applicable provisions of federal law relating to students who are English language learners, including Title VI of the Civil Rights Act of 1964; the Equal Educational Opportunities Act of 1974; MGL c. 76, section 5; and MGL c. 89, 71 sections (f) and (l).
10. Shall follow the provisions of the McKinney–Vento Homeless Assistance Act of 1987 (42 U.S.C. ch. 119 § 11431 *et seq.*) and Education Code sections 48850-48859 to ensure that homeless students and foster youth have access to the same free, appropriate public education, including public preschools, as provided to other children and youths.
11. Shall provide reasonable accommodations on campus to a lactating student to express breast milk, breastfeed an infant child, or address other needs related to breastfeeding. (Ed. Code § 222)
12. Shall provide students the right to exercise freedom of speech and of the press including, but not limited to, the use of bulletin boards; the distribution of printed materials or petitions; the wearing of buttons, badges, and other insignia; and the right of expression in official publications. (Ed. Code §§ 48907 and 48950)
13. Shall comply with all other applicable federal, state and local laws and regulations that pertain to the applicant or operation of the charter school, including, but not limited to, the following:
 - a. The California Code of Regulations
 - b. The Family Educational Rights and Privacy Act (20 U.S.C. § 1232g; 34 CFR Part 99)
 - c. Title IX of the Education Amendments of 1972 (20 U.S.C. Sec. 1681 *et seq.*)
 - d. Displaying all required postings at school site and online
 - e. Following the minimum and maximum age requirements for enrollment
 - f. Providing the minimum number of instructional minutes

NOTE: Throughout this Charter there is specific “District Required Language” (DRL), including but not limited to the above *Affirmations, Declarations, and Assurances* section. All DRL should be highlighted in gray. To the extent that any inconsistency may exist between any provision contained within the body of the Charter and the DRL, the provisions of the DRL shall control.

INTRODUCTION

KIPP Bridge Academy has been a part of the West Oakland community for over twenty years. KIPP Bridge opened in 2002 as a small autonomous middle school within Oakland Unified and later became a public charter school. Since its inception, KIPP Bridge has provided a joyful and academically excellent education to fifth through eighth-grade students. We are proud of our strong history of serving families from West Oakland and are grateful to call the Lafayette campus our home.

During the fall of 2016, KIPP Bridge expanded to include elementary grades in response to family and community demand. In one year, KIPP Bridge nearly doubled in size growing from 317 students in 5th-8th grades to serving 587 students in transitional kindergarten (“TK”)-8th grade. Our expanded school continues to focus on academic excellence, fostering a sense of belonging, developing family and community partnerships, and maintaining dedicated teachers and staff.

At KIPP Bridge, we work with our students to cultivate a growth mindset—the desire to learn from our challenges and grow as a result. We take this same approach not only on the individual level, but also as a school community. As a result, we have rebuilt our school community stronger than ever, with more support for our most historically marginalized student groups through our Designated English Language Development (“ELD”) curriculum, expanded and improved special education services, the expansion of our Multi-Tiered System of Student Supports (“MTSS”) and Tier 4 behavior intervention program to meet the needs of our most vulnerable students. This strength has helped us succeed with resilience through the pandemic and is evidenced by a large number of families, teachers, students, alumni, community groups, and civic leaders who support our request for our fifth 5-year charter term.

As a result of our targeted and intentional efforts to meet our students’ and families’ needs, KIPP Bridge students are benefitting inside and outside the classroom. They are outperforming their peers on state assessments. By the time KIPP Bridge students graduate from 8th grade, they are achieving proficiency on state assessments at higher rates than when they entered. We are proud of the school KIPP Bridge is today—a school that celebrates the rich diversity of the West Oakland community, where students succeed academically and grow as students and as individuals.

Successes and Accomplishments of the Prior Charter Term

Academic & Non-Academic Successes and Accomplishments

- KIPP Bridge developed or expanded the number of programs to support whole-child development, including the Multi-Tiered System of Supports, integrated mental health services, Specialized Teaching Program for students with moderate to severe disabilities or learning needs, and Designated ELD program.
- By the time KIPP Bridge students graduate 8th grade, they achieve proficiency at higher rates on English Language Arts (“ELA”) and Math than when they entered.
- KIPP Bridge’s Black, Latinx, socioeconomically disadvantaged, and English Learner (“EL”) student groups outperformed their peers across the District and State on 2022 and 2023 ELA and Math Smarter Balance Assessment Consortium (“SBAC”).
- KIPP Bridge is committed to social-emotional learning, restorative practices, and individualized support to students according to their needs, which has translated into declining suspension rates and a positive school culture.
- KIPP Bridge has made substantial improvements in its student retention rates and suspension rates over the last three years. The Charter School decreased from a 10% suspension rate in the 2021-22 school year to a 1% rate in 2023-24, and increased retention rates from 79% retained in the 2021-22 school year to 93% in the 2023-24 school year.

Charter Renewal Criteria

Pursuant to the amendments made to Education Code Section 47607, and the creation of Education Code Section 47607.2, by Assembly Bill 1505 (2019), at the time of charter renewal, a chartering authority shall consider the performance of the charter school on the state and local indicators reported on the California School Dashboard (“Dashboard”), and, in some circumstances, the performance of the charter school on assessments deemed to be verified data.

In addition to the shift toward assessing Dashboard data, Assembly Bill 1505 also created a three-tiered system for evaluating charter schools’ performance based on Dashboard data and metrics as compared to the state average for all students and for subgroups. The California Department of Education (“CDE”) evaluates all charter schools and places them in renewal tracks annually and makes that report available to the public. Renewal tracks most recently came back online this year and the CDE released the [performance category data file](#) in March 2024. **According to this file, KIPP Bridge Academy is in the middle-performing category for renewal this year.** We present evidence and data below to demonstrate that KIPP Bridge is meeting the renewal criteria for a five-year renewal.

Middle Performing Category Criteria

Pursuant to Education Code Section 47607.2:

- (1) The chartering authority shall consider the schoolwide performance and performance of all subgroups of pupils served by the charter school on the state indicators included in the evaluation rubrics adopted pursuant to Section 52064.5 and the performance of the charter school on the local indicators included in the evaluation rubrics adopted pursuant to Section 52064.5.
- (2) The chartering authority shall provide greater weight to performance on measurements of academic performance in determining whether to grant a charter renewal.
- (3) In addition to the state and local indicators, the chartering authority shall consider clear and convincing evidence showing either of the following:
 - (A) The school achieved measurable increases in academic achievement, as defined by at least one year's progress for each year in school.
 - (B) Strong postsecondary outcomes, as defined by college enrollment, persistence, and completion rates equal to similar peers.
- (4) Subparagraphs (A) and (B) of paragraph (3) shall be demonstrated by verified data, as defined in subdivision (c).

Dashboard Academic Indicators: ELA, Math, English Learner Progress Indicator (“ELPI”)

The following section analyzes KIPP Bridge’s academic indicators on the Dashboard in comparison to Oakland Unified School District and the State of California (“State”). We provide this comparison to demonstrate that while KIPP Bridge has room for improvement, we believe we are a vital public school option for Oakland families.

Below is a description of the data outlined in Tables 1 through 3. Note that in 2021, KIPP Bridge participated in optional SBAC administered remotely, which we’ve included below.

- *ELA:*
 - KIPP Bridge Academy's strongest outcomes in ELA are for our subgroups, specifically our Black, Latinx, and English Learners. During our entire charter term, we have outperformed OUSD in these subgroups, and for the past two years, the State as well. For example, in 2023, 41% of Bridge’s Latinx students were proficient, compared to 23% for OUSD and 36% for the State. We are proud that historically underperforming subgroups are reaching higher proficiency rates under our school model, and we are dedicated to continuing to increase these proficiency levels.
 - In overall performance, we saw a dip in 2021 during the pandemic but rebounded during the return to in-person in 2022. We saw a small decline in 2023 in overall performance from 39% to 35%, but rebounded in 2024 back to 39% proficient. We attribute the dip in 2023 primarily to staffing challenges, including a large cohort of first-time teachers, a new leadership team, and mid-year teacher vacancies. When looking at the data by grade-level, the largest dip in performance was in fourth grade. That year, all fourth graders either had a first-year teacher or experienced a mid-year vacancy. High-quality teachers are the cornerstone of student learning, and this data illustrates their impact. We are proud to share that since the 2021-22 school year, our staffing retention has improved. For the 2024-25 school year, approximately 94% of staff are returning. Additionally, in the 2022-23 school year, our overall Special Education (“SPED”) caseload increased and the number of students with moderate to severe disabilities grew from 3 to 5 students.
 - Post-pandemic, we have seen strong academic rebounds in our Latinx, Black, and Socioeconomically disadvantaged (“SED”) subgroups. These subgroups all experienced a dip when tested during the pandemic in 2021, but all showed growth in 2022 and 2023, returning to pre-pandemic performance.
 - In addition, we are seeing the highest proficiency rates in ELA over the last five administrations of SBAC for our Latinx (49%) and socioeconomically disadvantaged students (37%). We included our preliminary 2023-24 data, with no comparisons to the district and state currently available. Overall, we saw an increase in proficiency rates and for a majority of subgroups. In particular, our Latinx and EL subgroups had large increases in ELA proficiency, growing by 8% in proficiency.

Table 1: Academic Indicator: SBAC Proficiency ELA

	2018-2019			2020-21 ¹		2021-22			2022-23			2023-24 ²
	KIPP Bridge	OUSD	State	KIPP Bridge	OUSD/State ³	KIPP Bridge	OUSD	State	KIPP Bridge	OUSD	State	KIPP Bridge
All	36%	33%	51%	30%	NA	39%	35%	47%	35%	33%	47%	39%
Latinx	35%	24%	41%	34%	NA	45%	25%	36%	41%	23%	36%	49%

- *Math:*
 - Our math data also shows that our strongest comparisons are in our subgroup performance. In 2022 and 2023, KIPP Bridge outperformed the state and OUSD in Latinx, Black, and English-language learner performance. For example, in 2023, 23% of Black students at KIPP Bridge were proficient compared to 11% at OUSD and 17% across the state.
 - Unlike in ELA, we saw a slight increase in all students proficiency by 1% from 2022 to 2023. Pre-pandemic, 26% of students were proficient in math (2019), during the pandemic, 18% of students were proficient (2021), and most recently, 25% (2023) are proficient. We are proud that post-pandemic, we are rebounding and achieving proficiency levels similar to pre-pandemic years.
 - This upwards trend continued in 2023-24, with 27% of students proficient in math, outperforming our pre-pandemic proficiency rate of 26%. Nearly all subgroups experienced a post-pandemic rebound. For example, 24% of Black students were proficient in 2019, dipped to 17% mid-pandemic, and then increased to 18% in 2022, and 23% in 2023. This continued in our preliminary 2023-24 data, showing growth across subgroups. We are proud our subgroups are beginning to bounce back after the impacts of the pandemic, specifically our Latinx students which posted the highest proficiency rate in Math (32%) over the last five administrations of SBAC in 2024.

¹ KIPP Bridge participated in optional ELA SBAC testing in the school year 2020-21 and administered the test remotely.

² 2023-24 SBAC data comparisons are not yet available.

³ The state has 2021 data available, but only 23% of students participated so it is not a comprehensive look at performance.

Table 2: Academic Indicator: SBAC Proficiency Math

	2018-2019			2020-21 ⁴		2021-22			2022-23			2023-24 ⁵
	KIPP Bridge	OUSD	State	KIPP Bridge	OUSD/State	KIPP Bridge	OUSD	State	KIPP Bridge	OUSD	State	KIPP Bridge

- *English Learner Progress Indicator:*
 - KIPP Bridge is incredibly proud of the growth we have demonstrated for this subgroup. We went from 34.3% of students making progress toward English proficiency (very low category on the Dashboard) in 2019 to 68% of students making progress in 2022 (very high). This is higher than OUSD and the state and shows a 34 percentage point improvement. In 2023, our scores dipped, and 56.5% of students made progress. Due to the decline, we are categorized as orange on the dashboard, despite comparably outperforming OUSD and the State. We attribute the decline to an increase in our Yemeni population, which required expanding our ELD systems to address English Learners whose first language is Arabic. In addition, we realized we had a gap in staffing. The majority of English Learners were in grades TK-2, and ELD was most established in grades 3-4. In 2024, we added another ELD teacher to address this gap and ensure our earliest learners were getting additional support. We are committed to supporting our English-language learner community, and continuing to provide regular ELD instruction. Additional information on the ways we support our English-language learner community can be found under Element 1.

⁴ KIPP Bridge participated in optional Math SBAC testing in the school year 2020-21 and administered the test remotely.

⁵ 2023-24 SBAC data comparisons are not yet available. Data shown is preliminary.

Table 3: Academic Indicator: ELPI⁶ Comparative Performance

	2019			2022			2023		
	KIPP Bridge	OUSD	State	KIPP Bridge	OUSD	State	KIPP Bridge	OUSD	State

ELPI Status	Very low	Medium	Medium	Very high	Low	Medium	Orange	Orange	Yellow

Dashboard Non-Academic Indicators: Suspensions and Chronic Absenteeism

The two non-academic Dashboard indicators for KIPP Bridge are Suspension and Chronic Absenteeism.

KIPP Bridge has implemented several initiatives to improve school culture and build a sense of belonging and community. KIPP Bridge continues to improve upon its use of restorative practices, trauma-informed practices, and social and emotional learning. Key initiatives include the development of Tier 4 interventions to support KIPP Bridge’s most vulnerable students under its Multi-Tiered System of Support, and its Attend, Belong, and Grow initiative, which introduced new structures for supporting attendance.

Additionally, attendance has been a region-wide priority, and the school utilizes a variety of strategies including daily phone calls, attendance meetings, and instilling the importance of attendance across multiple formats including parent education workshops, regular family meetings with chronically absent students, Individualized Education Program (“IEP”) meetings, and positive incentives to celebrate excellent attendance. Additionally, in the 2022-23 school year, KIPP Bridge was awarded the Community School Grant by the State of California. With this additional funding, we hired a full-time Community & Collaborative Support Manager dedicated to providing wraparound support to families. This includes utilizing community resources to support families so their students are in school, every day.

These initiatives are directly related to our ability to lower chronic absenteeism and suspension rates. In 2023-24, chronic absenteeism rates decreased by 17.5% in just two years, with an overall rate of 39% chronically absent. We are incredibly proud to share that our suspension rates have also plummeted in recent years, with a suspension rate of 1% in 2023-24. This is a 9% decrease in just two years. We attribute this to the support we outlined earlier, as well as a School Leader transition at KIPP Bridge Upper (grades 5-8), where the majority of suspensions come from in middle school. We are proud of these improvements and will continue to work to ensure students are in school and supported.

⁶ The Dashboard did not include a progress indicator for English Learners in 2018. Therefore, data provided for this academic indicator begins in 2019.

SBAC Cohort Data

Tables 4 and 5 show the SBAC proficiency rates for students based on their tenure at KIPP Bridge. The first row of data shows proficiency for students who are in their first year at KIPP Bridge, and the second row shows proficiency for students who are in their second or more year at KIPP Bridge. For example, in ELA in 2022-23, out of students who were in their first year at KIPP Bridge Academy, 31% of those students were proficient in ELA, while 36% of students who had been there for two or more years were proficient. Despite one year of outlier data (2021-22-math), the data demonstrates that the longer a student is at KIPP Bridge Academy, the higher percentage of proficiency that group has, when compared to students who have only been at the school for one year. This has remained true before, throughout, and after the pandemic.

Table 4: SBAC Proficiency ELA Based on Student Tenure

Testing Year	2016-17	2017-18	2018-19	2020-21	2021-22	2022-23	2023-24
% Proficient for students attending 1 year at KIPP Bridge	22%	29%	24%	27%	37%	31%	39%
% Proficient for students attending 2+ years at KIPP Bridge	48%	35%	39%	31%	39%	36%	39%

Table 5: SBAC Proficiency Math Based on Student Tenure

Testing Year	2016-17	2017-18	2018-19	2020-21	2021-22	2022-23	2023-24
% Proficient for students attending 1 year at KIPP Bridge	19%	16%	15%	18%	36%	23%	26%
% Proficient for students attending 2+ years at KIPP Bridge	26%	26%	29%	19%	22%	26%	27%

Verified Data Overview

Verified Data Sources: Below we outline clear evidence demonstrating measurable increases in student academic achievement and strong postsecondary outcomes through the following verified data sources: mCLASS by Amplify (“DIBELS”), and CORE Collaborative (“CORE”) (a methodology for analyzing CAASPP data).

Verified Data Headlines:

- KIPP Bridge’s DIBELS data demonstrates that, on average, a majority of KIPP Bridge kindergarten through 4th graders make average, above average, or well above average growth on reading in one year.
- The CORE data growth metric and index levels show that, when comparing KIPP Bridge students with their academic peers across California in similar subgroups, middle schoolers in 6th through 8th grades make well above average growth.

Verified Data Deep-Dive

Verified data is defined in statute as “data derived from nationally recognized, valid, peer-reviewed, and reliable sources that are externally produced.” (Education Code Section 47607.2(c)(1).) In November 2020, the California State Board of Education (“SBE”) approved the criteria to define “verified data” and the list of valid and reliable assessments and measures of postsecondary outcomes as required by Education Code Section 47607.2, which was further updated in May 2023. From the SBE-approved list of reliable assessments, KIPP Bridge currently participates in mCLASS by Amplify. Additionally, the SBE adopted under their Data Use Procedures that methodologies for analyzing California Assessment of Student Performance and Progress (“CAASPP”) data, including CORE Student Growth Percentiles, can be used to supplement dashboard results if mutually agreed upon by the charter and chartering authority. Thus, we have included CORE Student Growth Percentiles for consideration.

mCLASS by Amplify Data Analysis

In the 2022-23 school year, KIPP Bridge began administering DIBELS to assess early literacy development in our kindergarten through 4th grade students. To bolster our early literacy practices post-pandemic, KIPP Public Schools Northern California partnered with Lit⁷ to consult and provide training and implementation support around early literacy. All of our TK-4th grade teachers and instructional aides engaged in Language Essentials for Teachers of Reading and Spelling (“LETRS”) training⁸ to build their content knowledge about the science of reading and have been implementing Core Knowledge Language Arts (“CKLA”), also known as the Science of Reading curriculum, which includes Foundations, Heggerty, and Geodes curriculum for explicit phonics instruction, and transitioned to DIBELS for progress monitoring. Additionally, KIPP Bridge uses small group instruction to ensure students of all reading levels are provided targeted instruction. For those that are identified as reading below grade level, or making below average growth, the school provides interventions. For example, roughly 30-40 students in grades K-4 identified as Tier 2 or 3 and therefore received an additional 15 minutes of daily phonics instruction. If one of those Tier 2 or 3 students also participates in our after-school program, they are pulled for additional reading support during the afternoon.

DIBELS has five growth metric levels (well below average, below average, average, above average, and well above average growth), and four performance levels (well below benchmark, below benchmark, at benchmark, and above benchmark). We administer DIBELS three times a year at the Beginning of Year (“BOY”), Middle of Year (“MOY”), and End of Year (“EOY”).

See the below figures for a snapshot of the data looking at the growth metric.

In the 2022-23 school year, based on the Beginning of Year to End of Year growth metric, 55% of the school made average, above average, or well above average growth (shown in Figure 1). Looking at the breakdown by grade, 78% of kindergarten students, 31% of grade 1, 54% of grade 2, 41% of

⁷ [Lit](#) is an Early Literacy consulting group.

⁸ Information on Language Essentials for Teachers of Reading and Spelling training can be found [here](#).

grade 3, and 65% of grade 4 made at least average growth, if not above or well above average. While kindergarten students are showing incredible growth across the year, our older students, who were entering elementary school during the pandemic are needing additional support.

In the 2023-24 school year, 75% of students in grade K-4 made average, above average, or well above average growth from BOY to EOY. We attribute this increased growth to a shift in the Science of Reading Curriculum and Tier 2 literacy interventions during small group reading.

Figure 4: SY 2023-24 DIBELS Growth Metric: Grade-Breakdown

CORE Data Collaborative Data Analysis

The CORE Data Collaborative is a data analysis tool that looks at SBAC scores for students across California. CORE established a growth metric that analyzes aggregate data from a third of all California’s public school students. The CORE growth model measures how students progress in their learning from one year to the next by comparing each students' actual achievement to those in their peer group. The peer group is determined by the students' prior achievement, their demographics and the average prior achievement and demographics of students in their school. Using a students' peer group, CORE data assesses if a student did better than, about as well as or worse than their peers. That information is then aggregated across students by grade level or school to determine who is having the strongest and the weakest impact on student learning.

The CORE growth model reports two growth metrics: a growth percentile and an index level. The growth percentile is based on a 0 to 100 scale ranging from “below average” to “above average” growth. The index level is based on a 1-10 scale, with 10 being the highest performing. The index level represents how far schools have grown student achievement relative to schools serving similar students.

Tables 7, 8, and 9 below report growth percentile and index level for grades 4th through 8th individually, and for elementary school (“ES”) overall (4th/5th) and middle school (“MS”) overall (6th/7th/8th).

CORE Growth Percentile and Index Levels Summary

- ELA:
 - A majority of KIPP Bridge students show above average, or well above average growth compared to their peers. In 5th, 6th, and 7th grade, students show above a 90% growth metric, demonstrating these cohorts of students are making above well above average growth.
 - We see a slight dip in 8th grade, with a growth metric of 60%, however, this is still categorized as slightly above average growth.
 - We see the least amount of growth happening in 4th grade, a stark contrast to the other grades. We attribute this outcome to the lasting impacts of the pandemic and distance learning, exacerbated by high staff turnover, inexperienced teachers and multiple staff vacancies throughout the year. We discussed these vacancies earlier in the petition in detail. We see the same outcomes here due to the staffing challenges in 4th grade in the 2022-23 school year.
 - The broad trends in overall performance are reflected in subgroup data, with Latinx, Black, ELs, SpED, and Socioeconomically Disadvantaged students showing above average growth in most grades.
 - Index levels paint a similar picture as the growth percentiles, with the ES having a “6/10” and the MS a “10/10” in ELA growth.
 - Despite the challenges in 4th grade, we believe KIPP Bridge’s CORE data illustrates that incredible growth is happening in the majority of our testing grades (5th-8th), when compared to similar peer groups across California. We are confident that with KIPP

Bridge’s continued investment in research-backed curriculum, hiring and retaining high-quality teachers, implementing comprehensive support and targeted intervention for all students, we will continue to see above average growth in all grades, and will see significant gains in 4th grade.

Table 7: CORE Growth Percentile: 2021-22 to 2022-23 ELA

	All ES	4th	5th	All MS	6th	7th	8th
All Students	51%	8%	92%	99%	95%	99%	60%
Latinx	50%	NA ⁹	NA	99%	NA	NA	NA
Black	48%	6%	92%	99%	92%	99%	68%
ELs	48%	NA	NA	96%	NA	NA	NA
SED	50%	8%	92%	99%	95%	99%	61%
SpED	NA	NA	NA	98%	NA	NA	NA

- Math:
 - Our math data shows similar growth trends to ELA, with a majority of grades showing well above average growth (>90%). We similarly see below average growth in 4th grade, and attribute this to the same reasons mentioned above.
 - The broad trends in overall performance are reflected in subgroup data, with Latinx, Black, ELs, SpED, and Socioeconomically Disadvantaged students showing above average growth in most grades.
 - Index levels paint a similar picture as the growth percentiles, with the ES having a “7/10” and the MS a “10/10” in Math growth.

Table 8: CORE Growth Percentile: 2021-22 to 2022-23 Math

	All ES	4th	5th	All MS	6th	7th	8th
All Students	65%	12%	94%	99%	83%	96%	93%
Latinx	67%	NA	NA	99%	NA	NA	NA
Black	61%	8%	94%	99%	80%	95%	94%

⁹ NA= <20 students in that subgroup or grade for at least one year of data (either 2021-22 or 2022-23)

ELs	51%	NA	NA	98%	NA	NA	NA
SED	65%	12%	94%	99%	83%	97%	93%
SpED	NA	NA	NA	97%	NA	NA	NA

- Chronic Absenteeism:
 - We received an index level of “1/10” on chronic absenteeism. We noted earlier that we have continued to have a steep decline in the school’s chronic absenteeism raw data, and for the 2023-24 school year declined by an additional 9% from 2022-23. We are confident that if we were able to see the data analysis for growth from 2022-23 to 2023-24, we would see higher numbers. In the Dashboard section outlined above, we outline the many interventions we are utilizing to decrease this rate.
- Suspension Rates:
 - We received an index level of “10/10” on suspensions, reflecting the incredible growth the school has made in this area. We are proud of this metric, and detail our interventions above in the Dashboard Indicator section.

Table 9: CORE Index Levels: School Years 2021-22 to 2022-23

	ES - Chronic Absenteeism	MS - Chronic Absenteeism	ES-Suspensions	MS-Suspensions	ES-ELA Growth	MS-ELA Growth	ES-Math Growth	MS-Math Growth
Index Level	1	1	10	10	6	10	7	10

In conclusion, KIPP Bridge meets the renewal criteria under a middle track school based on the schoolwide and subgroup performance on the state indicators referenced above. In addition, KIPP Bridge has declining chronic absenteeism and suspension rates, and high staff retention. As demonstrated in DIBELS, our youngest students are getting the support they need to be strong readers. Through CORE, our middle school students are achieving well above average growth compared to their peers across the State. KIPP Bridge looks forward to the opportunity to continue our work and build on our past successes and lessons to meet our mission. We deeply appreciate our over twenty year history of partnership and trust with parents, the community, and the Oakland Unified School District leadership and Board, and we look forward to the shared work ahead.

ELEMENT 1 – Educational Program

“The educational program of the charter school, designed, among other things, to identify those whom the charter school is attempting to educate, what it means to be an “educated person” in the 21st century, and how learning best occurs. The goals identified in that program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners.” – Ed. Code § 47605(c)(5)(A)(i)

“The annual goals for the charter school for all pupils and for each subgroup of pupils identified pursuant to Section 52052, to be achieved in the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, and specific annual actions to achieve those goals. A charter petition may identify additional school priorities, the goals for the school priorities, and the specific annual actions to achieve those goals.” – Ed. Code § 47605(c)(5)(A)(ii)

“If the proposed charter school will serve high school pupils, the manner in which the charter school will inform parents about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable and courses approved by the University of California or the California State University as creditable under the “A to G” admissions criteria may be considered to meet college entrance requirements.” – Ed. Code § 47605(c)(5)(A)(iii)

Local Control Accountability Plan (LCAP)

Charter School shall annually submit a Local Control and Accountability Plan (LCAP)/annual update to the Office of Charter Schools on or before July 1, in accordance with Education Code section 47604.33. In accordance with Education Code section 47606.5, Charter School shall annually update its goals and annual actions to achieve those goals identified in the charter pursuant to Education Code section 47605(c)(5)(A)(ii), using the Local Control and Accountability Plan template adopted by the State Board of Education, as it may be changed from time to time, including but not limited to the following:

- A review of the progress towards the goals included in the charter, an assessment of the effectiveness of specific actions toward achieving those goals, and a description of the changes to the specific actions the charter school will make as a result of the review and assessment.
- Listing and description of the expenditures for the fiscal year in implementing the specific actions included in the charter as a result of the reviews and assessments, classified using the California School Accounting Manual.
- To the extent practicable, data shall be reported in a manner consistent with how information is reported on the California School Dashboard.

Charter School shall comply with all other requirements of Education Code section 47606.5, including but not limited to the requirement that Charter School ‘shall consult with teachers, principals, administrators,

other school personnel, parents, and pupils in developing the local control and accountability plan and annual update (Ed. Code § 47606.5(d)).

Western Association of Schools and Colleges (WASC) Accreditation

If Charter School serves students in grades 9-12, Charter School shall obtain Western Association of Schools and Colleges (WASC) accreditation before Charter School graduates its first class of students.

Mathematics Placement Policy

If Charter School serves ninth grade, Charter School shall comply with the requirements of Education Code section 51224.7 with respect to implementing a fair, objective and transparent mathematics placement policy for pupils entering the ninth grade.

Independent Study

Charter School recognizes that a long-term independent study program (greater than 14 days per school year), is a material term of the educational program described in Charter School's petition. Therefore, if offered, Charter School's petition will contain a reasonably comprehensive description of the long-term independent study program, including how the school will comply with the legal requirements in providing such a program.

KIPP Bridge Academy does not currently offer a long-term independent study program to students. However, we have a KIPP-board approved Independent Study board policy in the event of extenuating, unprecedented circumstances. See Appendix 23.

Home and Hospital Instruction

Charter School is responsible for providing both its general education and special education students with individual home instruction during any period of temporary disability when the student is unable to participate in on-campus instruction. In the case of a parent notifying Charter School of a request for home instruction, Charter School shall determine the appropriateness of home instruction services within five days of the request and shall begin home services within five days of determining eligibility. If a student disenrolls from Charter School in order to enroll with their school district of residence for home instruction, Charter School shall re-admit such students if they request re-enrollment within one calendar year from disenrollment from Charter School.

If a student with an IEP is unable to attend school due to a temporary or ongoing medical or psychological disability, Charter School shall continue to be responsible for the provision of special education and related services during that time. Home instruction for a student with an IEP or Section 504 plan shall only be provided under the following circumstances (5 CCR § 3051.4): the IEP team has recommended home

instruction based on a medical report which is from the student's attending physician, surgeon, or psychologist; states the diagnosed condition; certifies that the student's condition prevents attendance in a less restrictive setting; and contains a projected calendar date for the student's return to school.

Home instruction shall be provided only by teachers with valid California teaching credentials who consent to the assignment. There is no provision in statute that specifically addresses instructional content; however, the goal of home instruction should be maintenance of the pupil's former level of performance.

A student with a temporary disability, who is in a hospital or other residential health facility within the boundaries of OUSD, excluding a state hospital, shall receive educational services by OUSD. A pupil with a temporary disability, who is in a hospital or other residential health facility outside the boundaries of OUSD, excluding a state hospital, shall receive educational services by the school district in which the hospital is located. Pursuant to Education Code § 48207, Charter School shall continue to enroll such students while they are receiving Hospital Instruction. Average daily attendance shall be calculated consistent with the law.

Student Enrollment and Grade Levels Served

Charter School will serve a student enrollment at each grade level and at all grade levels combined in each of the years of the term of the Charter as follows:

	<i>Projected Student Enrollment for Each Year by Grade Level and Total Enrollment</i>				
<i>Grade Level</i>	<i>Year 1: 2025- 26</i>	<i>Year 2: 2026- 27</i>	<i>Year 3: 2027-28</i>	<i>Year 4: 2028-29</i>	<i>Year 5: 2029-30</i>
<i>TK</i>	20	20	20	20	24
<i>K</i>	47	56	56	56	56
<i>1</i>	40	50	56	56	56
<i>2</i>	51	40	54	56	56
<i>3</i>	52	51	43	56	56
<i>4</i>	51	53	56	44	56
<i>5</i>	55	60	66	66	66
<i>6</i>	70	70	70	70	70
<i>7</i>	65	65	65	65	65
<i>8</i>	60	63	63	65	65
<i>Total</i>	<i>511</i>	<i>528</i>	<i>549</i>	<i>554</i>	<i>570</i>

Maximum Enrollment for Charter Term: 835

Charter School will submit a petition to materially revise its charter if any of the following occur:

1. The Charter School seeks to serve any grade levels not already approved by the District on the schedule approved by the District;

2. *The total enrollment in a given year exceeds the maximum enrollment by 5% or more.*
3. *The total enrollment in a given year is more than 15% below the projected enrollment per the schedule above.*

KIPP NorCal does not agree to be bound by the OUSD District Required Language immediately above, which purports to require KIPP Bridge to seek a material revision in the event that any of the unilaterally-imposed thresholds are triggered. Education Code Section 47605(a)(4) identifies only two changes to a charter petition that legally require a material revision: adding an additional facility, or adding a grade level. A small difference between enrollment projections and actual enrollment, particularly as the entire state continues to recover from the pandemic and increased threats of emergencies, does not rise to that level, and does not require a material revision. Notably, decreasing grade level(s) served does not require a material revision; a change in enrollment projections does not, either.

Hybrid and/or Virtual Classroom Learning

Charter school recognizes that it is obligated to provide adequate supervision of all instruction to promote student learning and pupil safety, and immediate supervision by a properly credentialed instructor as a condition of apportionment. Charter School intends to offer classroom instruction in which the teacher participates virtually (i.e., from a remote location via videoconference) and certifies that virtual instruction shall only be provided synchronously, by a certificated employee holding the credential required for his/her teaching assignment under California law, and with two-way audio and visual feed between teacher and students. Charter School shall also provide in-class supervision by a teacher's aide or certificated employee at all times that virtual instruction is being provided. All instruction shall comply with California State Standards and California Standards for the Teaching Profession. Charter school shall immediately reconfigure all instructional practices to conform with any legislative or regulatory enactments, or Statewide policy directives, regarding virtual instruction.

Special Education: *See the Special Education section listed below.*

Mission and Vision

Mission & Vision

Our Vision: Every child grows up free to create the future they want for themselves and their communities.

Our Mission: *Together with families and communities, we create joyful, academically excellent schools that prepare students with the skills and confidence to pursue the paths they choose—college, career, and beyond—so they can lead fulfilling lives and build a more just world.*

Values

KIPP Bridge Academy is split into two different school models to better meet the needs of each student population. KIPP Bridge Rising serves grades transitional kindergarten through fourth grade, and KIPP Bridge Upper serves grades fifth through eighth. Each school has their own School Leader and a different set of core values, outlined below. The two School Leaders partner closely together to ensure alignment across the transitional kindergarten through eighth grade setting, and a smooth transition for those matriculating from fourth to fifth grade.

KIPP Bridge Rising Core Values

Core Value	Core Value Statement
 <p data-bbox="440 877 521 909">Belong</p>	<p data-bbox="781 709 1555 1165">We all will belong because we feel safe to bring our full selves to our community. We answer affirmatively to, 'am I seen?' 'am I loved?' 'am I valued?' We use our awareness and analysis of how all forms of oppression rooted in white supremacy and anti-blackness manifests in our school in order to interrupt actions and systems that fail our community. We view accountability as our work together to address injustice and transform what is unjust. We center people first by interactively modeling everything, relying on restorative practices, and listening and responding to members of our community. We work to understand the needs of families, including their hopes and dreams, by listening and engaging in creative problem solving with empathy and without shaming.</p>
 <p data-bbox="444 1360 511 1392">Learn</p>	<p data-bbox="781 1203 1563 1480">We invite shared meaning in the classroom by planning with the end goal, identifying clear criteria for success, and centering student voices and experiences in their learning. We differentiate to ensure students have what they need to feel and be successful and place thinking on students so they actively participate in their learning. We collaborate with students and families to share student progress and success by continuously listening, affirming, and communicating.</p>
 <p data-bbox="448 1682 513 1713">Grow</p>	<p data-bbox="781 1518 1544 1795">We believe in the ability of everyone growing and becoming stronger with practice, coaching, and a growth mindset. We normalize mistakes as tools to get better and constantly seek opportunities to interrupt and transform failing systems. We differentiate our teaching and learning for students, staff, and families so we can all tap into our individual and collective potential. We name and celebrate progress and embrace circles as the key lever toward driving equity and shared meaning.</p>

KIPP Bridge Upper Core Values

Core Value	Core Value Statement
 <p>Purpose</p>	<p>I will look to my past and forward to my future to find my focus and my purpose.</p>
 <p>Ujima</p>	<p>We will build and maintain our community together. We will make our sister's and brother's problems our problems and solve them together.</p>
 <p>Love</p>	<p>Love is an act of courage. I will love myself, my family, my people, and my community by being compassionate, kind, and respectful.</p>
 <p>Perseverance</p>	<p>I view challenges as an opportunity and mistakes as part of learning. I will keep trying, practicing, and growing.</p>

Student Community

Our Student Community

KIPP Bridge believes that all students should have access to a top-quality education, which will prepare them for success in college, career, and life. KIPP Bridge’s student body is reflective of West Oakland’s diverse, vibrant community, and KIPP Bridge honors and respects the diverse backgrounds represented by its students.

Table 10: Enrollment by Ethnicity (2023-24)

	Black	American Indian or	Asian	Filipinx	Latinx	Pacific Islander	White	Multi-Racial
--	-------	--------------------	-------	----------	--------	------------------	-------	--------------

		Alaska Native						
KIPP Bridge	55%	3%	2%	<1%	24%	1%	9%	6%
OUSD	20%	<1%	10%	<1%	46%	1%	11%	7%

Table 11: Enrollment by Student Group (2023-24)

	English Learner	Homeless Youth	Students with IEPs	Foster Youth	SED
KIPP Bridge	25%	4%	16%	<1%	91%
OUSD	35%	1%	16%	<1%	77%

As a non-selective public school, KIPP Bridge is tuition-free and is open to all students, regardless of ethnic, socioeconomic or religious background. KIPP Bridge conducts its lottery in the spring of each year. Any students who are not admitted through the lottery are placed on a waiting list. More detailed information on enrollment and the lottery can be found in Element 8.

Means to Achieve Mission and Vision

KIPP Bridge Academy is able to achieve its mission and vision through the dedication of staff, students and families, as well as KIPP’s guiding principles, regional and national supports, family engagement, and community interest. This structure has led KIPP Bridge students to demonstrate success at each step of the pathway to choice-filled lives, from their time in elementary school to middle school to high school and beyond.

Guiding Principles: The KIPP Northern California Difference

Sense of Belonging

KIPP NorCal provides a positive and supportive learning environment where students of all races, incomes, and abilities are known, respected, and empowered. KIPP NorCal uses social-emotional teaching practices that affirm the identity, background, and experience of every KIPP NorCal student.

Academic Excellence

KIPP NorCal fosters a culture of academic excellence and intellectual curiosity through individualized instruction that meets the learning needs of every student. A KIPP NorCal education helps students develop the academic skills and character strengths needed to succeed in college and life.

Family & Community Partnerships

KIPP NorCal partners with families and local organizations in their communities to support healthy development for children. KIPP NorCal joins other educational and community-based groups in advocating for issues that matter to their families, such as immigration rights and racial equity.

College & Career Guidance

KIPP NorCal prepares students to identify their passion, purpose, and plan for how to thrive in college, career & beyond-so they can lead fulfilling lives and build a more just world. The KIPP Forward Team begins working with students starting in 11th grade and continues to support them after high school. KIPP Forward Advisors help alumni navigate the academic, social, and financial challenges they might encounter while in college or pursuing a career.

Teacher Support & Growth

KIPP NorCal recruits and retains a diverse group of teachers with high expectations who believe in KIPP NorCal’s mission and are committed to helping all students reach their full potential. KIPP NorCal equips teachers with opportunities for professional growth through individual coaching and specialized professional development.

Regional and National Supports

Regional Supports

KIPP Northern California is the regional charter management organization that holds the charters for KIPP schools throughout Northern California and is responsible for their operation, sustainability, quality, and growth.

KIPP Northern California enables its schools to focus on teaching, learning, and continuous improvement by centralizing and managing functions such as academic support, fund development, facilities acquisition and development, technology support, financial reporting, accounting, payroll, talent recruitment, compliance, human resources, marketing, scalable back-office business operations, and alumni support. To learn more about KIPP Northern California’s Executive Team, please see Appendix 1.

KIPP Northern California’s Track Record of Success

KIPP currently works with more than 6,500 students and families throughout Northern California. While our work continues, we are proud of our results to date:

- KIPP Northern California students met or exceeded the state average for socioeconomically disadvantaged students by 9 percentage points on SBAC ELA and 9 percentage points on SBAC Math in 2022.
- 92% of KIPP Northern California students graduate from high school within four years.
- 65% of KIPP Northern California alumni are matriculating to 4-year college programs and 29% are matriculating to AA & CTE programs which exceeds the national average across all income groups
- KIPP students are several times as likely to graduate from college as other students from low-income backgrounds. KIPP Northern California's college completion rate for all time is 48%. That

rate is higher than the national average for all working age people, and it is significantly higher than the averages for both low-income and first-generation students nationally.

National Supports

KIPP Northern California benefits from the support of a national network of KIPP schools founded 30 years ago, as well as the KIPP Foundation.

KIPP and KIPP Foundation Background

KIPP was founded in 1994 as a special program in a traditional public school in an educationally underserved area of Houston, Texas. KIPP students' accelerated academic achievement fueled the program's expansion. In 2000, Doris and Don Fisher created the KIPP Foundation to grow the KIPP network by training outstanding school leaders to open and operate KIPP schools. Since 1994, KIPP has grown from two teachers in a single classroom to over 250 schools serving more than 100,000 students across the country, and now operates full kindergarten through twelfth grade systems of schools.

The nonprofit KIPP Foundation trains and develops outstanding educators across KIPP regions to open and lead KIPP schools; provides tools, resources and training for excellent teaching and learning; promotes innovation; and facilitates the exchange of insights and ideas across KIPP and other public schools and organizations.

The KIPP Foundation is responsible for supporting excellence and sustainability across the network and leading network-wide innovation efforts. The KIPP Foundation provides a variety of supports and services to KIPP schools and regions in areas including legal support, real estate, technology, finance, corporate governance, operations, communications, marketing, and development.

The School Leader of KIPP Bridge Academy benefits from rigorous and innovative leadership and management training provided by the KIPP Foundation. Please see Appendix 4 for more details about the KIPP Principal in Residence Training leadership program.

KIPP's National Track Record of Success

Since 1999, KIPP schools nationwide have followed and supported their students through college completion. Every year, hundreds of educators, parents, professors, and interested citizens visit KIPP schools to learn from KIPP's success in boosting academic achievement and implementing strong school-wide culture. KIPP has been celebrated as a model that works by *The New York Times*, *The Washington Post*, *Newsweek*, *People*, *Education Week*, *Business Week*, *ABC's Good Morning America*, *CBS's 60 Minutes*, *U.S. News and World Report*, *USA Today*, *National Public Radio*, *PBS*, *The Oprah Winfrey Show*, and many others.

In September 2015, Mathematica Policy Research released findings from a five-year evaluation of KIPP schools. This was the first report to ever include KIPP schools at all K-12 levels. The report examines KIPP's impact over the past decade. Some of the key findings are as follows

- Consistent with prior research, KIPP middle schools have positive, statistically significant, and educationally meaningful impacts on student achievement in math, reading, science, and social studies. Average impacts of middle schools were positive and statistically significant throughout the 10-year period covered by the study, though higher in earlier years than recent years.
- KIPP elementary and middle schools have positive impacts on school satisfaction, particularly among parents. More than three-quarters of KIPP elementary parents in the study rate their child’s school as excellent, compared to about half of parents in the control group (defined as those who had applied to KIPP but enrolled elsewhere).

In fall 2023, Mathematica released the latest of their third-party, independent research in a 15-year study of the long-term impacts of attending KIPP schools. The study shows that students who attended and graduated from KIPP were nearly twice as likely to earn their 4-year degrees as their peers who applied to enter our open-enrollment, non-selective KIPP schools but were not chosen in the random lottery¹⁰.

The report found that the college completion rate of KIPP alumni, if extrapolated nationwide, would completely close the degree completion gap for Black students and nearly close the degree completion gap for Latinx students in the United States. Please see Appendix 24 for additional information on the Mathematica study and similar research demonstrating the efficacy of KIPP’s model.

KIPP Forward

As part of the KIPP commitment to ensure that its students climb the mountain to and through college, KIPP Northern California continues to support students after they leave KIPP high schools through the KIPP Forward (“KF”) program. The mission of KF is for all students to have the access, skills and resources necessary to navigate to and through their postsecondary program into self-sufficient adulthood. The KF team provides structured support focused on postsecondary readiness, persistence, and completion for our alumni.

KIPP Forward’s aim is to support our alumni to feel empowered to pursue their vision of a fulfilling life and build a more just world. We believe that career integration and coaching to strengths as early as possible is a key element to supporting alumni to develop a strong passion and purpose, which will carry them through whatever postsecondary program they choose. We also believe that if students have a strong passion and purpose, self-awareness, and early career exposure, this will increase investment in their K-12 education, because they will be able to make clear connections between theory and practical applications in the real world.

In our region, 50% of all students who have attended a KIPP high school have graduated from a four-year college. This group of KIPP alumni is 95% African American, Asian, or Latino, with more than 88% having qualified for federal free or reduced-price meals. These KIPP alumni have a higher

¹⁰ See study here: <https://www.mathematica.org/publications/long-term-impacts-of-kipp-middle-and-high-schools-on-college-enrollment-persistence-and-attainment>

college completion rate than the average of all students across all income levels nationwide (in 2019, 34% percent of all Americans aged 25 to 29 have earned a bachelor's degree or higher¹¹). KIPP's college completion rate is more than four times the rate of students from low-income communities across the country (for students from low-income families, only 1 in 10 have earned a bachelor's degree by their mid-20s¹²). For a recent update on our KIPP Forward Program, please see Appendix 2. Services provided by KIPP Forward include:

Student Support for High School and Postsecondary Success

- **College Advising:** Ninth through twelfth grade students attending a KIPP High School are provided with college knowledge and academic advising through workshops and meetings. All eleventh and twelfth graders work closely with KIPP Forward Advisors who guide students through the college application process – from researching the right postsecondary program match, completing applications and financial aid to accessing scholarships and enrolling in the best fit postsecondary program.
- **Alumni Advising:** KIPP Forward Alumni Advisors track academic progress, connect students to services on and off campus, and help alumni stay linked to their KIPP family through outreach, events and the network of KIPP schools that span the country.
- **KIPP College Savings Program:** KIPP's College Savings Program consists of three parts: student financial literacy lessons, parent financial empowerment workshops, and enrollment into 529 savings accounts for KIPP NorCal students and alumni. Through our partnership with Utah's Educational Savings Plan, KIPP students and alumni are eligible to enroll in 529 plans to make saving for college easy, convenient and affordable.
- **Internships:** Summer internships at KIPP NorCal's regional office and with corporate partners.
- **Career Preparation:** Students learn how to build resumes, prepare for interviews, and network with adults.

Connections

KF builds connections with and between students in the following ways:

- **Alumni Database:** KF tracks student progress and maintains accurate records so we know where our alumni are and where they are headed.
- **Communications:** Facebook connects students and provides information about college advising and college persistence.
- **College Cohorts:** KF Advisors create cohorts and build community among students at local colleges with the goal of building affiliation and connection for students with their university and with each other. Gatherings have included study sessions, baseball games, and holiday celebrations. Because many students live at home or off campus while attending university and commute to campus, College Cohorts foster engagement and connection that increases the

¹¹ See study here: https://nces.ed.gov/programs/coe/pdf/coe_caa.pdf

¹² See study here: <https://www.kipp.org/wp-content/uploads/2016/09/CollegeCompletionReport.pdf>

likelihood for students to persist through their college experience. Additionally, this program can be especially meaningful for students transferring to a 4-year college from community college or other school. KIPP NorCal currently has College Cohorts at most major, local universities where KIPP alumni enroll, including San Jose State University, UC Berkeley, San Francisco State University, UC Davis, and others.

College Partnerships

Since 2011, KIPP has partnered nationally with colleges and universities to develop and strengthen support systems for first-generation college-going students. Our partner institutions represent the full spectrum of American higher education, from large public research universities to small private liberal arts colleges to community colleges. The goal of these partnerships is for each partnering institution to leverage its recruiting and retention initiatives to ensure KIPP students enroll, persist, and graduate.

In 2018, KIPP shifted its focus to partner with colleges that have a successful track record of supporting and graduating first-generation, low-income students of color and/or institutions that enroll a large number of KIPP alumni year over year. We still continue to partner with over 85 universities, although primarily focus on building new partnerships with the institutions that fit the criteria above.

Today, there is a network of 98 partner universities, both those local to the Bay Area and others around the country. Please see Appendix 3 for a complete list of our current college partnerships across the country. Below is a list of our 12 current, local California College Partners:

- California Polytechnic University, San Luis Obispo
- De Anza College
- Notre Dame de Namur University
- Saint Mary's College of California
- San Francisco State University
- San Jose State University
- Sonoma State University
- University of San Francisco
- University of California, Berkeley
- University of California, Davis
- University of California, Merced
- University of California, Santa Cruz

Family Engagement and Community Interest

KIPP Bridge Academy values families as essential partners in education. KIPP Bridge Academy provides a variety of opportunities for families to be active participants in the school, from social and cultural events like the Fall Carnival, Eid Festival, Back to School Night, and Literacy Workshops to formal

engagement structures such as the KIPP Family Council (“KFC”), and English Learner Advisory Committee (“ELAC”). These events help build a strong school culture and community.

KIPP Bridge Academy is proud to be part of the West Oakland community, and aims to cultivate a lifelong love of learning by developing poised and confident leaders who are committed to serving their community. Current and past community partnerships include the Alameda County Community Food Bank, Sidra MENA Community Wellness, Safe Passages, Family Support Services, Family Paths, One Warm Coat, and Oakland Adopt a Spot.

Working together, KIPP’s Guiding Principles, regional and national supports, family engagement and community partnerships enable KIPP Bridge to prepare its students to thrive in college, career, and beyond, as demonstrated by the data shared in the “Introduction” section above.

What it Means to be an Educated Person in the 21st Century

Becoming a 21st Century Learner

It is the goal of KIPP Bridge Academy to prepare students with the skills and confidence to pursue the paths they choose — college, career and beyond — so they can lead fulfilling lives and create a more just world. At KIPP Bridge, becoming a learner in the 21st century means:

- Students possess a strong foundation of basic academic skills and a broad knowledge base in the core disciplines of ELA, math, science, and history
- Students deepen character qualities that allow them to make positive choices in life
- Students are effective and confident oral and written communicators
- Students are comfortable utilizing a wide range of technologies
- Students actively engage with technology to extend their learning through creativity and innovation
- Students are critical thinkers and problem solvers
- Students have an appreciation for the humanities and show respect for diverse cultures
- Students possess a drive to constantly learn and improve themselves
- Students accept personal responsibility for their own actions and their learning
- Students possess a strong desire to serve the community in which they live and help others
- Students have the desire, discipline, and dedication to achieve their highest aspirations and dreams
- Students are equipped with the agency and critical consciousness to drive meaningful change and innovation.

Ultimately, these objectives are met through academic knowledge and skills, personalized instruction, social emotional learning (“SEL”), and a positive school culture and climate.

Developing 21st Century Learners through Academic Knowledge and Skills

Although there are several important factors that contribute to student achievement, research has demonstrated that the quality of instruction in the classroom has twice the impact on student achievement as school-wide policies regarding curriculum, assessment, staff collegiality, and community involvement.¹³ Our focus at KIPP Bridge Academy is therefore on developing outstanding educators who have high degrees of success in delivering rigorous academic programs.

The content of the educational program at KIPP Bridge centers on gaining knowledge and mastering particular academic skills, forming effective intellectual habits, and building character strengths – all so that students can lead choice-filled lives. Our academic program is college and career-preparatory, with the necessary supports in place for all students to access the curriculum. More detailed information on the academic program at KIPP Bridge can be found in the “Curriculum and Instruction” section below.

Developing 21st Century Learners through Personalized Learning Platforms

Leveraging technology to achieve personalization is one component of enabling high academic achievement at KIPP Bridge.

Ultimately, our goal is for each student to have full mastery of the knowledge and skills necessary for college, career, and the competitive world post-graduation. This means that our students must be prepared to be creators, not just consumers, of the innovation that surrounds us in Silicon Valley and beyond.

Personalization enables students to be continually challenged at their proximal zone of development. The effective utilization of technology supports student success by providing even greater differentiation and personalization of their learning. At KIPP Bridge, teachers use technology in combination with other instructional strategies to achieve the following goals:

- Ensure that our students are mastering foundational content knowledge
- Enhance individual achievement and learning through adaptive content solutions and assessments
- Increase targeted support and time with teachers
- Build higher order thinking, problem solving, and research skills by allowing students to interact with information in multiple ways
- Enable students to collaborate closely with peers on projects
- Enable new forms of student expression and creation

¹³ Marzano, Robert. September 2003, Educational Leadership.

- Facilitate access to data, professional development opportunities, and enhance instructional support (including the organization and distribution of teacher lesson plans)

Please see Appendix 5 for a list of personalized learning platforms and tools currently used at KIPP Bridge Academy, including Lexia, Boost Reading, ST Math, Zearn Math, Ignite Reading, and Epic Books.

Developing 21st Century Learners through Social Emotional Learning and Positive School Culture and Climate

KIPP Bridge prioritizes social and emotional learning and the use of restorative and trauma-informed practices. KIPP Bridge Academy strongly believes social emotional learning and restorative justice will position our students for success in school and in life. We've tailored a Multi-Tiered System of Support to ensure all students get what they need to develop socially and emotionally:

- Tier 1
 - Explicitly name SEL curriculum implementation and consultation
 - Mental health workshops for families
 - Mental health consultations for teachers and staff
 - Mental health office hours for staff
 - Mental Health office hours for students
 - School wide mental health campaigns
- Tier 2
 - Social Skills Group - include "time limited group counseling" (ie social skills, grief and loss, divorce, etc.)
 - Access to as-needed mental health check-ins (including safety assessments)
 - Check In Check Out
 - Positive behavior reinforcement plan support (consultation & development)
 - Push-in social-emotional support & coaching
 - Parent psychoeducation
 - Classroom observations
 - Teaching & coaching of self-regulation strategies
- Tier 3
 - Individual Counseling
 - Educationally Related Mental Health Services (including Individual Counseling, Counseling & Guidance, Parent Counseling, Social Work Services, etc.) per a student's IEP
 - Targeted case management & collaboration with intensive service providers (Therapeutic Behavioral Services, wraparound, etc.)
 - Behavior Intervention Plans for students with IEPs
 - Family counseling
 - Psychosocial assessments for IEP students (Educationally Related Mental Health Assessment ("ERMHS"), Functional Behavioral Assessment ("FBA"), etc.)
 - Crisis counseling & risk assessment
- Tier 4
 - **Definition:** A program tailored to the behavioral, academic and social emotional strengths as well as needs of students and families towards a "choice filled" life; offered through strengths based counseling , enriching activities, tailored academic support and

scheduling, social skills development, community resources and more. We aim to empower our students with the joy of learning, to uncover the power within themselves and assist them in building the mindsets, skills and relationships necessary to succeed beyond our school.

- **Services** offered that support the child at school and in life, which can include:

Table 12: Example Tier 4 Services

Student	School	Parent/Family	Community
Individual Counseling (one on one) Counseling and Guidance (group or push in) Behavior Intervention Services (para) Speech* Occupational Therapy*	Alternative Scheduling Specialized Academic Instruction Teacher Coaching Social Skills Group Psych Services (consult and coaching)	Parent Counseling Parent Workshops	Social Work Services Field Trips Vocational Skill building

More information on KIPP Bridge Academy’s approach to social and emotional development and restorative justice practices can be found in the section titled “How Learning Best Occurs” below.

How Learning Best Occurs

KIPP Bridge Academy’s academic program was built on the core beliefs, practices and lessons learned from high-performing schools in the Bay Area and throughout our country.

In addition to the guiding principles for all KIPP schools outlined above, the key descriptions of the school experience at KIPP Bridge is captured in three sections on how learning best occurs:

- Through a rigorous, standards-based curriculum
- Through high-quality instruction
- Through social emotional learning and an integrated system of care

Learning Best Occurs with a Rigorous, Standards-Based Curriculum

The content of the KIPP Bridge curriculum focuses on building upon foundational skills coupled with an emphasis on higher order thinking processes in all content areas. In accordance with state regulations, KIPP Bridge provides the standard age-appropriate curriculum for Mathematics, Science, English Language Arts, History-Social Science, and Visual-Performing Arts at each grade level.

In line with our mission to prepare all students for success in college and beyond, KIPP Bridge has adopted all applicable state content standards, including Common Core State Standards (“CCSS”), the Next Generation Science Standards (“NGSS”), English Language Development Standards, History-Social Science Framework, and all other applicable state content standards (hereinafter, collectively “State Standards”) for our students. The CCSS represents the knowledge and skills that prepare students for college and career. The College and Career Readiness Standards (“CCRS”) and assessments provide a way to measure knowledge and skills and are gateway assessments of whether students are ready to enter college. Together, these standards and assessments ensure that our students are ready to take on the rigors of college and future careers.¹⁴ KIPP Bridge is committed to ensuring that our students meet the challenging demands of the State Standards, particularly the Common Core State Standards and Next Generation Science Standards.

The State Standards are supplemented with social-emotional learning, advisories, study skills, extra-curricular activities, technology, and art. Clear and specific standards-based academic objectives are mastered at each grade level as students move through the curriculum at KIPP Bridge’s intensified pace.

Teacher and staff supports:

The adoption of CCSS and NGSS and assessments for our schools is part of a long-term strategy to increase the percentage of our students persisting in and graduating from college. The content knowledge and instructional shifts demanded by the CCSS and NGSS require us to invest even more in our teachers and leaders. KIPP Northern California has invested in the following supports for our staff during the past several years:

- Implemented research-based, CCSS-aligned curricula in Mathematics, ELA, and Science, and set student achievement goals based on CCSS.
- Streamlined our balanced assessment strategy: Elevated and adjusted regional interim assessments for Math, ELA and Science to more effectively identify key strengths and gaps in student learning. SBAC and California Science Test (“CAST”)-aligned interims are administered three times a year, and the data is analyzed with student work in hand to prioritize key gaps and strategically plan for instructional intervention.
- Revamped our regional assessment data system (KIPP Galaxy) to capture and disaggregate assessment data by subgroups. This has allowed us to better identify and respond to region-wide trends in student learning.
- Partnered with EL Achieve to lead schools in Integrated ELD training that focused on research-based planning and instructional approaches to more effectively meet the needs of EL students.
- Improved access to grade-level content by supporting staff to implement Learning Acceleration practices in ELA and Math to close gaps in unfinished learning.
- Revamped our summer regional sessions for math, science, social studies and ELA teachers to effectively build skills in standards deconstruction, data-driven instructional strategies and

¹⁴ Source: “How ACT Assessments Align with State College and Career Readiness Standards”, Sara Clough and Scott Montgomery, 2015. (<http://www.act.org/content/dam/act/unsecured/documents/Alignment-White-Paper.pdf>)

backwards planning that inform internalization and planning.

- Partnered with the Relay Graduate School of Education to provide rigorous coaching training to our School Leaders, Assistant Principals and Content Specialists to prepare for the school year with an aligned lens towards effective observation feedback, data-driven instruction, and professional development design.
- Incorporated region-led rigor visits to monitor exemplar-driven internalization and ensure it is used effectively as a scaffold for content development and as a means of monitoring mastery in real time in classrooms.

KIPP Bridge Academy combines rigorous State Standards with pedagogical methodologies that have proven successful. At KIPP Bridge, staff have flexibility to work together to determine the curricula that best match student needs and the demands of the State Standards. Incoming student strengths, needs and performance levels determine the manner in which standards-aligned curriculum is implemented.

Learning Best Occurs with High-Quality Instruction

Implementing a high-quality instructional program is paramount to KIPP's track record of success. At KIPP Bridge, high-quality instruction is standards-based, with an emphasis on academic, intellectual, and character strengths, and explicitly ties to KIPP Bridge's mission to become passionate readers and critical thinkers who realize their highest potential to benefit themselves, their families, and their community.

Instructional Power Moves

Research demonstrates that high-performing teachers do three things in a continuous cycle: internalize standards and content to plan strong lessons, deliver strong instruction, and monitor student learning and respond both in-the-moment and after lesson delivery.

In response to this research, educators at KIPP Bridge engage in 3 Instructional Power Moves:

- *Internalization and Planning*: Lead teachers in exemplar development to inform internalization and planning and provide feedback on lesson plans
- *Observation/Feedback*: Observe lesson delivery and provide feedback on instruction (real-time feedback or observation/feedback meeting)
- *Data-Driven Instruction*: Facilitate data analysis meetings (i.e. Weekly Data Meetings, Interim Assessment Data Days) and provide feedback on teacher's data analysis, reteach plans and action plans.

KIPP Bridge's School Leaders and Assistant Principals participate in training from the Relay Graduate School of Education focused on two of the Instructional Power Moves: Observation/Feedback and Data-Driven Instruction. Participation in this training has led to excellent teacher coaching throughout KIPP Bridge Academy as well as improvement in the quality of instruction for all students. For more information on the theory of impact and research behind the Instructional Power Moves, see Appendix 6.

Differentiated Support for All Students

At KIPP Bridge, we believe that differentiated instruction is an essential component of high-quality instruction. During class, KIPP Bridge teachers rigorously monitor student learning throughout lessons and independent work time to collect live data, which enables them to respond in the moment. For example, teachers may use this data to shift the class into differentiated small group works, or re-teach a concept to the whole class. Teachers may also use differentiated materials to meet students where they are. An example of this would be using the same text at different levels of complexity so that all students have the access needed to master the objective.

Outside of class, teachers may also use social-emotional learning time to support students who may be struggling academically. Additionally, afterschool support is offered. Finally, KIPP Bridge uses blended learning programs to support differentiation for students, including Lexia and Khan Academy.

In order to facilitate differentiated instruction, KIPP Bridge teachers participate in weekly data meetings to identify students in need of additional support and develop plans to address gaps. By providing a variety of individualized supports, KIPP Bridge aims to ensure that all students are prepared for success in their rigorous academic program, and are ultimately on the path to leading lives full of choices and opportunities.

Learning Best Occurs through Social Emotional Learning and an Integrated System of Care

At KIPP Northern California, we believe:

- Social emotional skills can be taught and developed
- Behavioral expectations can be taught like academic skills
- We must model, teach, practice, and reinforce our expectations so that they become habit
- Everyone makes mistakes
- It is our job to hold kids accountable when mistakes are made while recognizing the level of support that is needed to repair the harm
- Everyone deserves the right to move on after reconciling the mistake that was made

We create an integrated system of care by fostering the development of social-emotional competencies, using restorative practices to repair any harm to individuals and to the community when mistakes are made, and using trauma-informed practices to create safe and inclusive environments for students.

Table 13: Pathways to Developing Positive School Culture and Climate

Path	Tools & Strategies
Social and Emotional Learning	<ul style="list-style-type: none"> ● SEL curriculum ● Shared language ● Values education ● Teaching and learning emotional intelligence
Restorative Practices	<ul style="list-style-type: none"> ● Community circle culture ● Repairing a relationship or situation (restoring the team) ● Proactive and reactive techniques
Trauma-Informed Practices	<ul style="list-style-type: none"> ● CARE Team to support with wrap around services ● Mental health counseling supports and interventions that take into account student identity and culture ● Professional development on the impact of trauma and strategies to intervene

Social and Emotional Learning

All students are supported in social and emotional development at KIPP Bridge Academy. As young people grow, they experience new challenges, new emotions, and new situations. Navigating these various experiences is difficult for anyone, and we all must understand that this is a process of growing and learning for all children. In addition to building dedicated time into the schedule for social emotional learning, KIPP Bridge embeds SEL into the general education curriculum through community circles and by using situations that arise at school as learning opportunities to teach competencies and character traits. The figure below outlines the core tenets of SEL:

Figure 7. Core Tenets of Social-Emotional Learning

KIPP Bridge supports teachers to in turn support students' social emotional learning in an approach that mirrors the Response to Intervention and Multi-Tiered Systems of Support:

In Tier 1:

- Prevention-oriented social and emotional learning curriculum for all students
- Students develop values and social emotional competencies through intentional teaching and instruction
- Community building practices through community circles with all students
- Strong parent engagement
- Implicit bias, diversity, and stereotype threat training for all staff to create a culture of belonging
- Staff training on mental health topics may address suicide, trauma, and culturally appropriate classroom intervention strategies

In Tier 2:

- Comprehensive early indication system that includes academic and non-academic domains Student Success Team ("SST")/Response to Intervention ("RTI") Process and Coordination of Services Team ("COST") to support the whole-child
- Trauma-informed and responsive practices
- Restorative, collaborative, culture and healing informed intervention strategies
- On-campus mental health counseling by school or community based therapists

In Tier 3:

- Targeted, restorative, wrap-around strategies, with family and community as partners
- Comprehensive individualized success plan
- On-campus mental health counseling by school or community based therapists
- Connecting to external resource providers

Restorative Practices

Restorative practices complement the focus on SEL. Through restorative practices, KIPP Bridge students have the opportunity to learn strategies to manage their emotions and understand how their behavior impacts the school community. At KIPP Bridge, we recognize that all people make mistakes and that mistakes are actually opportunities to grow and learn. We hold students accountable to high expectations and provide a high level of support for our students to grow.

As illustrated in the figure below, restorative practices emphasize doing something *with* someone, versus *to* or *for* them.

Figure 8. Restorative Practices

Logical consequences and restorative practices

Consequences must be meaningful for students; they cannot be abstract, extrinsic ideas that do not attach to the behavior. For example, if a student is talking at an inappropriate time during a lesson, a teacher might first stop and ask the student why it is important that the student does not talk during the lesson. As the student explains the importance of being on task, the student understands the impact of their choices. Depending on the root of the problem, students may write a reflection about what happened and then return to the group after sharing the reflection with classmates. If a seriously harmful decision (e.g. hurting a teammate, repeated teasing) has been made, the teacher or leader may choose to use a restorative circle, bringing together everyone involved and others impacted by the situation during a time outside of class. This may include other classmates, family members, coaches, and more, depending on the circumstances and impact.

Restorative conversations

Staff members at KIPP Bridge use restorative conversations to support students when harm has been done to another member of the school community (e.g., saying something hurtful) or to that student (e.g., giving up on a task). A restorative conversation guides the student to repair the harm and better the situation. These are the guiding questions for a restorative conversation:

1. What happened?
2. What were you thinking at the time?
3. What have you thought about since then?
4. Who has been affected by what you have done?
5. What do you think you need to do to make things right?

Ladder of response

Teachers use a number of strategies to ensure all students are learning, remembering that the goal is to restore relationships so that students can engage in learning. Teachers know that there are many ways to respond and that it is important to match the response to the individual student and situation.

The importance of relationships

Through our use of community circles, and through lessons that foster social-emotional as well as academic growth, KIPP Bridge students develop strong connections, strong accountability to one another, and empathy for how others feel in situations. The stronger these relationships are, the greater the impact when a student may seek to repair relationships, speak to peers about a challenge he/she/they is having, or engage in self-reflection. Relationships are at the core of this approach.

Modeling healthy responses

KIPP Bridge staff are taught to consistently model healthy interactions and reactions, especially in times when staff may be frustrated or tired. Our students learn from our modeling. We believe that skillful teachers teach discipline and embrace this as a key function of their role. Therefore, the KIPP Bridge community:

- Holds all members of the school community to high and realistic expectations
- Fosters strong relationships among all members of the school community
- Recognizes that individuals will make mistakes, and that each day is a new one
- Plans precise directions for each activity and transition to create safe, predictable and productive learning spaces
- Uses reminding, redirecting and reinforcing language to help students meet academic and social expectations
- Frequently and clearly talks about and models appropriate behavior
- Provides consequences that are clear, logical, restorative and firm
- Sees and discusses students as individuals
- Restores students to the learning community by teaching pro-social skills and building on individual strengths

Please refer to Element 10 to learn more about our restorative practices as they relate to our discipline policies and procedures.

Trauma-Informed Practices

The traumatic response takes place when individuals experience stressors that overwhelm their capacities to cope. When individuals experience an overwhelming response to events in their environment, it decreases the functioning of their logical and analytical parts of their brain. For students, the result of this may lead to poor academic performance, difficulties focusing, emotional explosions, emotional withdrawal, distrust, and a lack of feeling safe. It is our aim to ensure that our staff have the skills necessary to appropriately respond to said reactions in a way that is supportive to the student. By responding to symptoms of traumatic stress with care and compassion, students will be able to feel safer while at school and in turn will have increased capacities to learn.

Traumatic Informed Practices constitute an intentional approach that takes into consideration the whole picture of the KIPP Bridge community – our learning spaces, how we communicate with one another,

how we build relationships, how we intervene when a student shines and when a student demonstrates need for supports, and how we as adults can support in creating safe and inclusive spaces where students are able to learn. For example, KIPP Bridge staff receive professional development about the signs and symptoms of traumatic response, potential triggers in the classroom and learning environment, and de-escalation techniques. Some interventions when operating from this lens and approach include: playing calming music when students are participating in independent work time, doing 5-minute stretch breaks during a longer or more academically rigorous lesson in class, holding emotional support groups or psychoeducation groups which center on a specific theme that relates to a presenting student need (e.g., a social skills group), student-run groups that educate the community on topics of wellness, providing culturally responsive emotional supports, professional development for school teams that cover the importance of self-awareness and identifying one's own triggers, or the establishment of CARE Team – a meeting where interventions are identified to better address the presenting need of the highest-need students.

Curriculum and Instruction

Ideal KIPP Bridge Academy Eighth Grader: Starting With the End in Mind

KIPP Bridge eighth graders are academic scholars who possess a lifelong love for learning. The academic program at KIPP Bridge cultivates an intellectual curiosity for all academic disciplines and the academic preparation to be successful in high school, college, and the competitive world beyond. Students leave well-versed in rigorous texts and multicultural literature. For students to be prepared for high school level math, students will complete Common Core Math 8 by the time they leave eighth grade and be prepared to take Common Core Algebra I when entering ninth grade. To ensure that students have the knowledge and skills to successfully study science in high school, science coursework includes writing research papers and participating in science labs. The courses offered at KIPP Bridge are grounded in rigor and high engagement, with learning environments that actively engage the student body.

KIPP Bridge eighth graders are creative and critical thinkers. Students at KIPP Bridge learn the habits of inquiry, which lead to a greater understanding and meaning. By knowing how to ask good questions, pose arguments, and provide logical and strong reasoning for their opinions, students develop an intellectual curiosity and creativity for all academic disciplines. Students also possess the ability to listen to different arguments and perspectives as a way to guide and form their own opinions and thinking.

KIPP Bridge eighth graders are confident and articulate speakers and writers. Students will have the confidence and poise to clearly articulate points and make arguments in their classes. Students feel comfortable sharing ideas or asking questions in groups and in front of their class. In addition, students have several opportunities to make presentations to their classmates. KIPP Bridge eighth graders exemplify the school values of Transform, Respect, Unify, and Empower (“TRUE”). Students acquire the personal qualities and the skills to confront difficulty and challenges, thoughtfully problem solve, and move forward. Students learn that they must approach life challenges and obstacles with a sense of

possibility. KIPP Bridge students learn how to move past the hard parts of their lives that are out of their control. Students learn to be honest citizens who give back to their communities and take responsibility for their actions. Students learn the importance of being part of a functioning team and learn how to work cooperatively in class with their teammates. Most importantly, students gain skills in communication and problem solving and learn how to manage strong feelings and impulses.

A Rigorous Schedule and Academic Calendar

A typical day for a KIPP Bridge student is broken down into the following components:

1. **Core Academic Subjects.** Students are engaged in the standard curriculum areas of ELA, math, science, and social studies.
2. **Non-Core Courses.** In addition to their core courses, students at KIPP Bridge Academy are also offered a variety of non-core coursework, which may include Art, Technology, Physical Education and Mindfulness and Movement.
3. **Supplemental Instruction.** Students also receive supplemental instruction from teachers. For example, students receive math support during a tutorial block, and students receive small group reading instruction.
4. **Enrichment.** KIPP Bridge’s extracurricular program includes competitive sports (such as basketball, volleyball, cross country, softball, golf, and soccer), as well as a variety of clubs such as yearbook, art club, Diamano Coura West African Dance Troop, Choose Me Mentoring, Mentoring Program with UC Berkeley Athletics, and gardening club.

More time on task is central to the success of KIPP Bridge students. Students are offered instruction under an extended day model which includes core and non-core classes, enrichment opportunities, and supplemental instruction. A typical school day for a KIPP Bridge student is reflected in the schedule in Appendix 7a and 7b.

Annual School Calendar

KIPP Bridge Academy meets or exceeds the instructional minutes requirement as set forth in Education Code Section 47612.5(a)(1), specifically:

- To pupils in kindergarten: 36,000 minutes
- To pupils in first through third grade, inclusive: 50,400 minutes
- To pupils in fourth through eighth grade, inclusive: 54,000 minutes

Please see Appendix 8 for the most recent school calendar. The school calendar may be updated periodically.

Curriculum Overview

Figure 3. Curriculum Matrix

	TK	K	1	2	3	4	5	6	7	8	
Literacy		Wit & Wisdom					KIPP Wheatley				
		CKLA Skills			Bookworms						
		Small Group Intervention									
Social Studies		Wit & Wisdom					TCI: History Alive! and Discovery Education				
Math		Eureka Math Squared									
Science		Amplify Science									

Core Curriculum Framework

The core curriculum framework described herein is based upon Common Core State Standards and Next Generation Science Standards for grades kindergarten through eight. The framework is designed to ensure that graduates of KIPP Bridge Academy are prepared for the rigor and intensity of college-preparatory high school pre-Advanced Placement (“AP”) and AP coursework. Teachers work with the School Leaders to supplement this curriculum with their own innovations, research, and expertise.

A sample scope and sequence for all core subject areas can be found in Appendix 9.

Transitional Kindergarten

KIPP Bridge offers Transitional Kindergarten. The TK curriculum is a modified curriculum that is age and developmentally appropriate. The TK curriculum is aligned to the California Preschools Learning Foundations as developed by the California Department of Education. The TK classroom emphasizes station-based and individualized learning throughout the school day, as well as hands-on experiential learning. Using data to determine each student's skills, the teachers in the TK classroom work with small groups of students to meet them at their instructional level and support their individual growth.

The academic goals for TK align with preparing scholars for success in the kindergarten classroom the following year. KIPP Bridge TK teachers have the appropriate credentials to work with this age group. KIPP Bridge is also committed to collaborating with the Oakland Unified School District to ensure that every student thrives by establishing strong outcomes for students from early grades. We share in the broader vision to improve student outcomes, in particular, the goal of ensuring that all third graders are reading at grade level. We look forward to supporting, learning from, and sharing our learning to support the collective effort in the community.

English Language Arts

Literacy Vision: Our scholars love and enjoy reading and writing because they engage in texts at their independent level, grow through excellent guidance and coaching, and dive deeply into analysis of complex texts. They do this while knowing that persistence through challenges leads to deep learning.

We aspire to deliver an excellent learning experience for all KIPP students, including building foundational skills in early literacy. This is a specific focus for the following reasons: 1) Teaching all students to read and write proficiently will reduce educational inequities. 2) We know a child's reading and writing ability has a significant impact on their performance in all subject areas. 3) We know significant improvement in our early literacy performance will have a compounding effect on students' future performance in all subject areas. 4) Being able to read and write is fundamental to a child's success in school and their ability to pursue choice-filled lives.

At KIPP Bridge, we believe that literacy is the foundation of all learning. To promote literacy, the English-Language Arts program provides a challenging curriculum that is academically rich, intellectually stimulating, and culturally diverse. We teach the Science of Reading ("SoR"). We provide systematic, explicit phonics instruction using research-based curricula. We empower students with strong word recognition skills, building from letters and sounds to word decoding to orthographic mapping. We provide frequent opportunities for students to practice new skills and receive feedback throughout each lesson. We build a strong foundation in our Tier 1 foundational literacy skills instruction so our youngest learners are equipped to weave together their word recognition with their language comprehension skills to become fluent, strategic readers.

We center our students' needs. We follow our foundational literacy skills curricula, planning with a shared criteria for success and prioritizing student engagement during our lessons. We provide access

to all our learners by differentiating our questioning and providing multiple modes of learning. We use a critical lens when analyzing the materials and texts we present to our students in whole-group reading so their voices and experiences are represented in their classroom. As elementary schools, we align our foundational literacy goals and strategies so we can create equitable outcomes across all our schools.

We carry a growth mindset. We sharpen our skills as reading teachers by learning and practicing evidence-based instructional strategies. We create space for teachers and leaders to learn from and with each other through professional development and communities of practice. We utilize assessments that provide us key data about students' decoding strengths and growth areas in order to measure outcomes and inform our lesson planning. We tailor instruction to students' needs through continuous progress monitoring and responding to student data in our Tier 1 instructional choices as well as our Tier 2 small group reading structures.

In TK-2nd grade, we have recognized that if we are going to truly be able to ensure that all of our students are leaving early elementary (2nd grade) with the ability to read and write on grade level, we need to do five essential things:

1. *Continue our focus on foundational literacy skills with a primary emphasis on teaching our students how to read on grade level using the science of reading as our guide.*
2. *Ensure that our literacy curriculum and program use a structured literacy approach aligned to the science of reading to teach foundational skills.*
3. *Increase our teachers' knowledge of the science of reading so they can make instructional decisions in their classes that will more effectively support their students' reading and general literacy growth.*
4. *Use more specific foundational skills tests that assess the Word Recognition strands of Scarborough's Rope so that we can truly identify and shore up any reading gaps.*
5. *Move towards more substantial alignment across our elementary schools to ensure that we provide equitable tier 1 instruction for all of our students once we have an effective curriculum and assessment in place.*

Our curriculum is designed to help students meet all Common Core reading, writing, and language standards. Our goal is to create a Common Core aligned, balanced approach to literacy, allowing scholars to receive guided support on their instructional level and targeted practice as they read on their independent level. High quality, complex texts in the range of genres recommended by the Common Core are the heart of the curriculum. Fiction, informational text, poetry, books, short stories, articles, videos and images are all included with an eye to quality, content, range, and inclusion of diverse peoples and perspectives.

Each day our students engage in word study, read aloud, close and shared reading, guided reading, independent reading, and writing. Both research and experience show that effective literacy programs build students' word and world knowledge, effectively integrate reading and writing instruction, align

with college-ready standards, and most importantly, are centered on authentic, high-quality texts. At least 100 minutes of eyes-on-text is our daily standard. The components of our Balanced Literacy program are:

- **Word Study:** Students are provided with intensive instruction in phonics (grades TK-3), vocabulary, grammar, and spelling embedded into the curriculum.
- **Read Aloud:** The teacher reads a text aloud and involves the students in what is read through comprehension activities. Students acquire and sharpen their listening and comprehension skills through this exercise. The teacher also uses this time to model the application of reading skills. Read aloud is used daily in grades TK-4.
- **Close and Shared Reading:** All students engage with shared, grade-level texts. Literature choices take into consideration themes across content areas, literature genres, and texts read and discussed at exemplary schools. Students also gain considerable exposure to expository text. The majority of the reading instruction can be classified as close reading, in which students progressively develop deeper understanding of key sections of text over multiple reads.
- **Guided Reading:** In order to meet the individual needs of all students, students spend time in fluid reading groups working on particular reading skills with the teacher. The rationale is to provide students with enrichment and remedial instruction to ensure each student is a successful reader. This will occur during workshop time while the other students are engaged in workshop stations based on targeted standards.
- **Choice Reading:** There is a time set aside each day for independent reading (also known as Silent Sustained Reading). Choice reading increases a student's volume of reading and reading stamina. Structures like Accelerated Reader quizzes or reading journals can hold students accountable for their reading during this time.
- **Writing:** Students engage in process-based, text-dependent writing. Over the course of the year, students will write in the variety of genres covered by the Common Core Standards. Writing activities are designed to guide students towards deep content understanding as well as to support mastery of a variety of writing formats and skills.

Kindergarten - 2nd Grade

In Kindergarten through second grade, classes are self-contained, allowing for flexibility within the schedule to experience all components of this comprehensive literacy approach. In the morning, scholars participate in an extended block focused on guided reading, direct word study instruction and independent centers to reinforce their work with foundational literacy skills. Scholars also move flexibly between groups to ensure the instruction is occurring at their independent and instructional level. During the day there are additional reading blocks dedicated to read aloud and close reading, using the Wit&Wisdom Curriculum. Within these blocks, scholars are exposed to high quality texts in which they focus on speaking about, listening to and comprehending age-appropriate literature. In the lower grades, scholars also participate in a Writer's Workshop where they learn ideas around craft, genre and writing conventions.

3rd Grade - 5th Grade

In third through fifth grade, scholars will experience a Humanities block along with one grade-level wide We Love Reading (choice reading) block so that they experience over three hours of literacy instruction each day—the amount of literacy needed to grow and achieve at the highest level. The Humanities block includes all parts of balanced literacy, specifically guided reading, word study and close reading. In these grades, it is crucial that all scholars spend time engaging in grade-level rigorous texts, while also receiving differentiated instruction at their own independent and instructional reading levels. In the close reading block, there is a focus on text-based writing where scholars are writing evidenced based paragraphs and essays about the non-fiction/social studies and fiction they read. During these grades, scholars will also learn to transition from a structure of having one teacher teaching multiple subjects to teachers who specialize in specific subjects. This will prepare scholars to adjust to having different teachers and learning to transition between classes and spaces in middle school.

6th Grade - 8th Grade

In sixth through eighth grade, scholars continue with the differentiated literacy block, that includes choice reading, close reading, writing, and guided reading for those who still need the support. This allows scholars to spend a majority of their day on literacy while experiencing a more high-school-aligned daily schedule through literacy, math, science, and social studies. Also in the middle school grades, students learn the fundamentals of grammar, the writing process, public speaking, note taking, and learn to identify social and cultural influences and differences in writing. Students work together to revise, edit, and present papers and other research-based presentations. Students whose skills need remediation receive intervention support during school, extra tutorials after school and on weekends in phonics, reading comprehension, spelling, grammar, and writing. By eighth grade, students are able to provide a historically grounded analysis of a literary work and write an expository essay with a strong thesis statement and supporting evidence.

Mathematics

STEM Vision: Our scholars love that math, science, and technology instruction involves challenges and struggles, knowing that often times they can approach a problem like a puzzle, where they can take many avenues to get to an answer. By building a foundation of fact fluency and then learning the deeper math and science concepts, scholars work through inquiry based approaches to discover new things every day.

The math program at KIPP Bridge is designed to ensure that every student will gain a strong understanding of all math strands, the ability to perform accurate computations, and the application of problem-solving skills at high levels in the real world. KIPP believes that these strands are taught best through a combination of direct instruction of basic skills, hands-on activities to provide a deeper understanding of math concepts by relating them to real world situations and experiences, and differentiated instruction based on the needs of the students.

The use of a common math curriculum at KIPP Bridge creates a cohesive program that allows students to experience the interconnectedness of math concepts, while also providing teachers with the time to focus deeply on the prioritized standards for each grade level. The components of KIPP Bridge’s math program include:

- **Fluency Practice:** In order to develop the speed, accuracy and flexibility in calculations required by the Common Core, we utilize a variety of fluency activities several times per week. These activities are organized to revisit previously learned material to develop automaticity, anticipate future concepts, and strategically preview or build skills for the day’s Concept Development. Being fluent in math concepts allows students to tackle more challenging multi-step computation and application problems in the upper grades. Automaticity with lower level skills allows students to focus their attention on higher- level skills.
- **Conceptual Understanding and Development:** The majority of time early in a unit is dedicated to conceptual understanding, as called for by the standards. The number of lessons dedicated to conceptual development decreases as units progress to meet the demands of the rigor shift, providing students with opportunities for application and problem-solving.
- **Authentic Problem-Solving (application):** Because the standards call for students being able to use math flexibly and in context, it is important that there is time devoted to students being able to apply what they have learned. Within the math block problem-solving occurs 1-2 times per week depending on the content and focus on applying skills and solving problems with the current area of study and emphasize strategies students have been building. Application problems are incorporated into the curriculum and tie directly to the content of the lesson.
- **Assessment:** In addition to daily exit tickets, unit tests, and benchmark assessments, students are assessed approximately once a week on the most recent concepts that they have learned. This helps teachers monitor if students are retaining concepts from day to day and intervene if necessary before more time has passed if they are not. KIPP Bridge’s math curriculum includes mid and end of unit assessments.
- **Student Discourse (reading, writing, and talking about math).** KIPP’s instructional vision calls for teachers to explicitly model and support reading, writing and drawing about math as a way to build towards the multiple representations that are part of the Common Core Standards for Mathematical Practice.
- **Spiral Review:** In order for students to maintain mastery of previously learned content, it is important that they have opportunities to engage in working on previously mastered material. This time can take different formats, depending on the needs of the students.

Kindergarten - 4th Grade

Our elementary grades provide students with frequent opportunities to use hands-on manipulatives to explore mathematical concepts, as well as intentional time spent discussing different approaches to problem solving. Younger students will also alternate between Spatial Temporal (“ST”) Math software focused on individualized learning and building basic skills and small group instruction on new concepts.

5th - 8th Grade

As students move into the middle school program they engage in different lesson types to allow for exploration, direct modeling, discussion and sufficient opportunities to practice key skills. Zearn Math is leveraged as an extension tool to reinforce mathematical understanding or an intervention tool for students in middle school. Lexia complements literacy instruction as the personalization platform for middle school students. Each student will have individualized “curriculum” in Lexia that focus on key concepts for practice. Teachers will also in turn track student progress and will be able to target instruction and individual support.

Science

Science is an essential part of our academic program. KIPP Bridge aligns its science curriculum to state-adopted literacy standards, Common Core State Standards, and Next Generation Science Standards. KIPP Bridge believes that all scholars should experience learning that pushes them to express curiosity and inquire about the world. Science class serves as an anchor for that experience.

Using FOSS kits and the Next Generation Science Standards as guides, KIPP Bridge scholars go through the scientific process and perform many experiments. They eagerly ask questions about the world around them, wondering about the possibilities of what they can create or what might happen in a given scientific scenario. They imagine and take action, critically observe the world, develop their intuition, as well as their observation, thinking and analytical skills.

Science instruction across the grade levels is organized to best facilitate students’ mastery of their grade level content standards in each of the following content strands: physical sciences, life sciences, earth sciences, and investigation and experimentation. At KIPP Bridge, through hands-on practice beginning in kindergarten, the science curriculum places heavy emphasis on learning the knowledge, processes, and skills that students need in order to understand the scientific method and its implications. These processes (e.g. observing, sequencing, measuring, classifying, describing, experimenting, inferring, predicting) are valuable skills to reinforce across disciplines and are learned through experimentation, investigation, and analysis.

In addition to learning the processes of science, students learn valuable content in the areas of chemistry, geology, biology (human, animal, and plant), and physics. The science program at KIPP Bridge provides an interdisciplinary link to math, science, English-Language arts, and technology, and history.

Kindergarten - 4th Grade

In the elementary grades, Science instruction focuses on establishing a strong foundation to enable students to critically observe the world, develop their intuition, observation, thinking and analytical skills. Learning and instruction in earlier grades centers on building students’ curiosity and engagement. There is an emphasis on examining local phenomenon, such as local weather patterns, California and Bay Area geology, among other concepts. Science instruction will engage students through the senses and observable data, building deeper, interdisciplinary connection between Science, Math, Literacy and

Social Studies. Students will be building a vocabulary for science for the transition to deeper scientific inquiry in middle school. The overall focus throughout the elementary grades is on the application of science on everyday lives.

5th Grade - 8th Grade

At the start of middle school in fifth grade, students are introduced to investigation and experimentation in chemistry, earth, life, and physical sciences, and then focus on earth science in the sixth grade, life science in the seventh grade, and physical science in the eighth grade. At each grade level, hands-on, phenomena based instructional activities are used often so that they can apply the processes and skills they learn. Middle school students will experience more in-depth science concepts and inquiry in preparation for high school.

History-Social Science

In order to become global citizens and agents of change who will positively impact their community, developing a strong sense of history and social, economic, and political trends over time is essential. The Social Studies curriculum prepares students with knowledge of the major events of history, teaches them to analyze the effect of the past on the present, and provides them with the skills necessary to evaluate current events, political structures, and philosophies.

KIPP Bridge adheres to state-adopted literacy standards in its Social Science curriculum. KIPP Bridge uses teacher-created units and read aloud as tools in ensuring mastery of the content and Common Core Standards in Social Studies. Students develop their historical and social sciences analysis skills through the following intellectual, reasoning, reflection, and research skills: chronological and spatial thinking, research, evidence, and point of view, and historical interpretation.

Social Studies instruction uses a combination of exploration through the use of primary and secondary resources, as well as watching video clips that bring certain topic to life for the students. Students have the opportunity to conduct research and seek out resources to deepen their knowledge base on a particular topic. The teachers work collaboratively to order the curriculum for connections to be made across the discipline and reinforce topics taught throughout the day. Visual art and music is analyzed for its cultural, sociological, and historical implications, and students will understand the connection between art, culture, geography, and history.

An understanding of geography is fundamental to understanding the major events of United States and world history, and thus is a focus of the Social Science curriculum. Physical, human, and environmental geography is studied in order to gain deeper insight into the factors that determine how cultures have evolved, how wars have been waged and won, and how humans have affected the distribution and availability of natural resources throughout history. As part of this process, students become adept at various map skills and must be able to interpret charts, graphs, and other representations of geographical and historical concepts.

The Social Science curriculum is reading and writing intensive and involves the analysis of primary and secondary sources. Students may read historically relevant novels to supplement the knowledge they are gaining in class. Reading historically relevant novels serves the dual function of increasing literacy and providing students with the ability to critically evaluate both historical and contemporary texts. Social Studies classes also reinforce the “writing across the curriculum.” Social Studies teachers partner with English-Language Arts teachers to create common writing expectations and rubrics. All History-Social Science classes require written essays and reports. Students are held accountable not only for content, but for style, organization, and mechanics as well. Students also learn note-taking techniques through Social Studies classes. By the time students leave KIPP Bridge at the end of the eighth grade, they have written and orally presented an in-depth historical research paper involving historical analysis, connections to the present, visual aids, and the use of technology.

The Social Science curriculum is largely project-based. For KIPP Bridge students to become active participants in society, they must be able to function effectively in group-settings and focus on problem solving, analysis, and content. The Social Science curriculum constantly reinforces the values of teamwork, citizenship, and collective goal attainment. Each year, students may participate in in-state and out-of-state field lessons that provide practical application to what they have been studying in history class. For example, when studying United States history in the eighth grade, students visit the State Capitol in Sacramento.

KIPP Bridge adheres to state-adopted literacy standards in its History-Social Science curriculum. KIPP Bridge aligns with KIPP Northern California’s history-social science vision:

Our vision is to develop the next generation of change-makers, youth who use historical thinking and understanding in order to advocate for a more just world today. We believe that teaching history is a political and ethical act: we affirm the voices of our students and their communities as they claim and make their histories.

Throughout their years at KIPP Bridge, students receive a college preparatory education in “United States History and Geography” and “World History and Geography.” Each strand focuses on civic and economic implications using research and analysis. An understanding of geography is fundamental to understanding the major events of United States and world history, and thus is a focus of the History-Social Science curriculum. Physical, human, and environmental geography is studied in order to gain deeper insight into the factors that determine how cultures have evolved, how wars have been waged and won, and how humans have affected the distribution and availability of natural resources throughout history.

In order to be fully prepared for excellent high schools and colleges, students need a mastery of the countries, cultures, physical features, environments, and landforms of the world. In addition, they need to be adept at various map skills and must be able to interpret charts, graphs, and other representations of geographical and historical concepts. A thorough understanding of history is necessary for students to

become active citizens in our country, and, with growing interconnectedness, our world. The History-Social Science curriculum prepares students with knowledge of the major events of history, teaches them to analyze the effect of the past on the present, and provides them with the skills necessary to evaluate current events, political structures, and philosophies.

The History-Social Science curriculum is reading and writing intensive and involves the analysis of primary and secondary sources. Students may read historically relevant novels to supplement the knowledge they are gaining in class. Reading historically relevant novels serves the dual function of increasing literacy and providing students with the ability to critically evaluate both historical and contemporary texts.

Social Studies classes also reinforce the “writing across the curriculum.” Social Studies teachers partner with ELA teachers to create common writing expectations and rubrics. All History-Social Science classes require written essays and reports. Students are held accountable not only for content, but for style, organization, and mechanics as well. Students also learn note-taking techniques through Social Studies classes. By the time students leave KIPP Bridge at the end of the eighth grade, they have written and orally presented an in-depth historical research paper involving historical analysis, connections to the present, visual aids, and the use of technology.

Finally, History-Social Science classes examine the art and music of various cultures and civilizations. Visual art and music is analyzed for its cultural, sociological, and historical implications, and students will understand the connection between art, culture, geography, and history.

Non-Core Curriculum Framework

Electives

KIPP Bridge Rising students participate in dance and music class, and have an after-school dance team they participate in. KIPP Bridge Upper students participate in an Ethnic Studies course.

Physical Education

All students at KIPP Bridge regularly receive a structured physical education class in accordance with the California State Standards for physical education. Both content skills and life skills are emphasized in the Physical Education program. Students become more physically fit and learn the benefits of fitness and teamwork and the rules of various sports. As team is an omnipresent theme at KIPP Bridge, the social rules that govern team interaction and competition are taught and reinforced.

The Physical Education program focuses on sports-related activities and physical fitness. Students develop competency in a variety of sports, develop motor skills and coordination, and learn strategies for different sports. Each year, students set individual fitness goals for themselves and work with their instructor throughout the year to meet their goals. KIPP Bridge believes that competency and excellence in athletics can lead to confidence and mental wellbeing in life and that team sports instill dedication

and a sense of working for the collective good. The Physical Education program is thereby focused on improving physical and mental health of students, as well as building an understanding of and appreciation for shared outcomes and collaborations.

In addition to fitness and sports, the physical education program also encompasses a comprehensive health education curriculum. In their extra-curricular time, students have an opportunity to participate in various activities such as hip hop, ballet, sports, and yoga. KIPP Bridge's competitive sports teams may include girls' volleyball, girls and boys basketball, soccer, and track and field.

Instructional Methods

KIPP Bridge Academy's School Leader works with teachers to develop instructional methods that maximize student learning. Students acquire the knowledge and skills needed to pursue academic excellence, as well as the ability to apply, synthesize, evaluate, and expand upon their knowledge.

There are many educational theories and practices that have proven to be effective in the classroom environment; KIPP Bridge Academy does not subscribe to only one approach. KIPP schools believe in allowing successful teachers to teach in an environment that supports their own successful practices and strategies. The advantage of having more time for learning means that multiple instructional techniques can be combined and integrated throughout the day. Instructional methods might include direct instruction, collaborative learning, seminar style learning, and performance assessment.

KIPP Bridge Academy exposes students to a variety of instructional methods that will prepare them for the courses they may encounter in high school and college. For example, students may learn how to debate a given topic, taking sides on an issue and presenting their arguments to the class. Students may also use Socratic Seminar in English and Social Studies classes. In addition to the instructional methods, all staff use the same definition of academic rigor and strive to increase the rigor of all courses as students move through the Charter School.

KIPP Bridge Academy teaches at all levels of learning. Students whose needs are not met through these teaching methods benefit from a number of alternative instructional techniques, including small group tutorials and one-on-one tutorials.

Instructional Technology

Technology offers many tools to support high academic achievement at KIPP Bridge Academy. KIPP Bridge Academy has a computer lab as well as a 1:1 Chromebook ratio. While technology is not a core curriculum to be mastered for its own sake, modern technological tools are employed to achieve specific curricular goals. Just as a calculator can assist with higher-level math equations, 21st century technologies are utilized to achieve clear educational outcomes that are measurable, demonstrable, and non-technological in nature. Utilizing technology tools to enhance and improve instructional methods at KIPP Bridge achieves the following goals:

- Enhances individual achievement through assessment technologies.
- Enables teachers and students to effectively collaborate with others.
- Enables new forms of student expression.
- Builds higher order thinking skills and research skills by allowing students to interact with information in multiple ways.
- Facilitates professional development opportunities and enhances instructional support, including the organization and distribution of teacher lesson plans.

In addition, all students at KIPP Bridge Academy learn to use computer technology through their coursework. By the end of eighth grade, they become adept at using Google Documents and using the internet to conduct research.

Personalized Learning

In addition to the instructional strategies listed above, students also engage in student-centric, adaptive online technology administered by a variety of software program providers. Students receive differentiated supplementary instruction in mathematics and reading matched to their learning needs and responsive to how they perform within the program. If students do well, the program speeds students through as fast as they can learn; if a student is struggling, the program cycles back to re-teach lessons and generates reports for teachers to use to provide further intervention. The incorporation of personalized learning into KIPP Bridge’s instructional program ensures that students receive highly targeted instruction at their level and will provide valuable data that teachers can use to inform their instruction.

Promotional Standards

Mastery of the objectives at each grade level is the basis for promotion. Teachers assess a student’s progress every trimester and share that assessment with parents/guardians in order to gauge whether the student is mastering the objectives throughout the year. Supplemental instruction is offered for all students as part of the standard program of KIPP Bridge Academy.

KIPP Bridge Academy’s program is designed to ensure that all students succeed. Supplemental instruction provides teachers with the time needed to do remediation work when necessary. Students who are in jeopardy of retention are individually counseled and given extra help in their specific areas of concern.

In addition to progress reports, in-class tests and teacher observations, students’ SBAC or Northwest Evaluation Association (“NWEA”) Measures of Academic Performance (“MAP”) scores, and where applicable, English Language Proficiency Assessments for California (“ELPAC”) test scores are also taken into account for promotional purposes.

Special Populations

KIPP Northern California believes that *all students*, regardless of family background, income, race, religion, disability, gender, or health *can and will learn*. This common belief covers the realm from students behind grade level to students with disabilities to English Learners.

KIPP Bridge welcomes students with disabilities. KIPP Bridge recognizes its responsibility to enroll and support all students, regardless of disability, and pledges to continue membership in the El Dorado County Charter Special Education Local Plan Area (“SELPA”) to ensure that a free appropriate public education is provided to all students with disabilities. KIPP Bridge joins all public schools in prioritizing service of students with disabilities and will conduct outreach to such students, recognizing its legal requirement not to discriminate based on ability in admission and the educational program.

KIPP Bridge’s dedicated staff of education specialists, paraeducators and counselors together with KIPP special education department program specialists, psychologists, speech language pathologists, board certified behavior analysts and occupational therapists work closely together with our school leadership team and teachers to ensure that the needs of each student, especially those with Individualized Education Programs , are met. The KIPP Bridge special education staff and service providers meet regularly for program development and to share best practices for supporting special education students. Differentiation is an essential component to all instruction at KIPP Bridge. We work to support the needs of all students, including those who may be academically behind or academically accelerated.

Students with Disabilities

Identification and Assessment

KIPP Bridge will use a variety of methods, including parent and teacher referrals, as well as sources of data, to identify students who need additional support. This includes regular benchmark assessments, standardized tests, state and national assessments (including the CAASPP) and other methods. Charter School leadership will use the classroom assessment data to refer and monitor at-risk students via a Student Success Team model for intensive interventions in math, reading and writing.

We have developed intervention programs to support students who are having difficulty learning or are starting further behind. We utilize a Coordination of Services Team model, a multidisciplinary team of school staff and providers who create a regular forum for reviewing the needs of individual students and the school overall. The COST team leverages a school-wide universal referral system to identify and address student needs holistically and ensure that the overall system of support works together effectively. Student Success Teams, composed of the student, the student’s parent or guardian, the School Leader, and a KIPP Bridge staff member, are responsible for identifying the student’s needs and developing a plan to enable that student to be successful. Student response to general education interventions is tracked and interventions are modified as necessary to support individual students’ progress. Students who do not make expected gains despite carefully designed, individualized

interventions will be referred to the Special Education team for further evaluation. Each referred student will be assessed in all areas of suspected disability to determine if the student has a disability and qualifies for special education. An IEP will be developed for students who qualify for special education. We involve parents throughout this process to ensure they are informed about their student's progress and how they can best support his or her development.

Intervention

In class, teachers will use a variety of instructional methods to reach students of all learning modality preferences. With longer school hours and supplemental instruction offered, struggling students will spend more time learning in smaller group environments. The Charter School will utilize a combination of differentiated small group instruction, one-on-one tutorials, and extra support from content area teachers to get students up to grade level. In addition, teachers will be available during limited hours to provide additional help to students with homework by phone. Students who are behind grade level or in jeopardy of retention will be individually counseled and given extra help in their specific areas of need.

The content of the KIPP Bridge curriculum will focus on the necessary remediation of basic skills, when applicable, coupled with an emphasis on higher order thinking processes in all content areas.

Interventions are necessary to support students who are struggling academically. Teachers will use materials that are aligned with a student's Lexile and/or performance level and will also utilize digital content solutions that target specific skills that a student needs to develop.

KIPP Bridge will regularly monitor student progress through curriculum-based assessments and make adjustments to interventions as appropriate.

Family Involvement

Families are an essential component of supporting student success. Teachers will regularly notify parents about the academic standing of their student(s). Progress reports, benchmark exam scores, teacher notes or phone calls and comments on homework assignments are several examples of how parents may be notified of their child's progress. Parents also have access to students' grades via PowerSchool. As each student's progress is tracked in one or more of these methods, a request for a Student Success Team may be offered when expected progress is not demonstrated within the appropriate time period.

High-Achieving Students

All courses at KIPP Bridge will maintain a standard of rigor that challenges our most academically advanced students, who are identified through the same methods as academically low-achieving students. Teachers will develop individualized strategies to engage and challenge these students so that they can continue to accelerate their learning.

KIPP Bridge ensures that every teacher will be ready to set classroom routines and rely on digital formative assessments and adaptive online content to ensure that all students have the opportunity to continue learning after they complete the day's objective during class.

Because all students are challenged to reach their intellectual potential within the instructional program, KIPP Bridge will not offer a formal, separate program for academically high-achieving students. However, as described, KIPP Bridge will equip teachers with the necessary tools to enable high-achieving students to continue advancing.

We believe that strong family communication is essential to our children's success. One method of communicating academic success to families is through progress reports. Progress reports will be printed and sent home with students two times per month. The purpose of progress reports is to help share information with families about what their child has mastered and what their child needs more support on; they are not part of the student's formal academic record or final grade. Progress reports will also be available for families to view online through ParentSquare.

Special Education

General Assurances and Overview

KIPP Bridge embraces its responsibility to enroll and support all students, and pledges to ensure that a free appropriate public education ("FAPE") is provided to all students with disabilities. The Charter School will comply with all applicable state and federal laws in serving students with disabilities, including, but not limited to, Section 504 of the Rehabilitation Act ("Section 504"), Title II of the Americans with Disabilities Act ("ADA") and the Individuals with Disabilities Education Improvement Act ("IDEA"), and any other civil rights laws enforced by the U.S. Department of Education Office for Civil Rights ("OCR"). The language in this section is intended to provide a reasonably comprehensive description of the special education program in the charter petition, in accordance with Education Code Section 47605(c).

KIPP Bridge will be its own local educational agency ("LEA") and will continue membership in the El Dorado County Charter SELPA, in conformity with Education Code Section 47641(a). As a member of the El Dorado County Charter SELPA, KIPP Bridge assumes full responsibility for providing special education and related services to eligible students of the Charter School, in accordance with state and federal law. KIPP Bridge agrees to follow policies and procedures of the El Dorado County Charter SELPA and will utilize SELPA forms and information systems necessary to identify and serve students who qualify for special education. KIPP Bridge agrees to collaborate with the SELPA to respond to inquiries and requests and provide access to information and records, as needed, and will be responsible for maintaining confidentiality of student records. KIPP Bridge is in good standing with the El Dorado County Charter SELPA, as documented in Appendix 10.

In the event KIPP Bridge seeks membership in a different state-approved SELPA, KIPP Bridge will provide notice to the District, the SELPA, and the California Department of Education before June 30th of the

year before services are to commence. Although a change in LEA status or SELPA membership shall not require a material revision of KIPP Bridge charter, it may require an update of the parties' memorandum of understanding ("MOU") to reflect these changes in legal status.

KIPP Bridge will participate in the quality assurance process for special education as outlined by the state of California (i.e., special education plans, coordinated compliance self-reviews, compliance monitoring, procedural safeguards, and the local plan).

Services for Students Under the IDEA

KIPP Bridge is committed to providing a free appropriate public education that will meet each student's unique needs in the least restrictive environment ("LRE"). The Charter School shall develop an appropriately ambitious individualized education program reasonably calculated to enable the student to make progress appropriate in light of their circumstances in accordance with IDEA, Education Code requirements, and SELPA policies and practices.

Instruction shall be provided in accordance with each student's IEP in the least restrictive environment (preferably the general education setting) with access to rigorous and standards-based curriculum. If a student's IEP team determines that, in order to make progress appropriate to the student's circumstances, the student requires placement outside of a general education classroom, the Charter School shall provide the necessary placement and/or services. The instruction outlined in each student's IEP will be delivered by personnel qualified to do so.

KIPP Bridge shall utilize SELPA forms and follow SELPA policies and procedures in seeking out and identifying and serving students who may qualify for special education programs and services and for responding to record requests and parent complaints, and maintaining the confidentiality of pupil records.

KIPP Bridge agrees to promptly respond to all District or SELPA inquiries, to comply with reasonable District or SELPA directives, and to allow the District or SELPA access to Charter School students, staff, facilities, equipment and records as required to fulfill all applicable District or SELPA obligations imposed by law.

Staffing

All special education services at KIPP Bridge will be delivered by individuals or agencies qualified to provide special education services as required by the Education Code and the IDEA. Charter School staff shall participate in SELPA in-service training relating to special education.

KIPP Bridge will be responsible for the hiring, training, and employment of staff necessary to provide special education services to its students, including, without limitation, special education teachers, paraprofessionals, and mental health clinicians. KIPP Bridge shall ensure that all special education staff hired or contracted by KIPP Bridge is qualified pursuant to SELPA policies, as well as meet all legal

requirements. KIPP Bridge shall be responsible for the hiring, training, and employment of related services staff necessary to provide special education services to Charter School students, including, without limitation, speech language pathologists, occupational therapists, behavior analysts, and school psychologists.

Together, KIPP Northern California and KIPP Bridge will carefully review enrollment of students with IEPs each year in order to determine staffing of special education teachers, paraeducators and related service providers at the Charter School. The Special Education team at KIPP Northern California will provide coaching and support for all special education teachers, paraeducators and service providers at KIPP Bridge, as well as professional development and consultation for all staff working with students with disabilities, to ensure that all aspects of the IEP and 504 plans are properly implemented.

KIPP Bridge recognizes that all teachers are essential for the implementation of the student's individualized education program and shall ensure that general education teachers receive training and supervision necessary to properly implement IEPs and 504 plans.

Notification and Coordination

KIPP Bridge shall follow SELPA policies as they apply to all SELPA schools for responding to implementation of special education services. KIPP Bridge will adopt and implement policies relating to all special education issues and referrals.

Identification and Referral

KIPP Bridge understands its responsibility to ensure that all children with disabilities who need special education and related services are identified, located, and evaluated, regardless of the severity of the disability. KIPP Bridge shall identify, refer, and work cooperatively in locating the Charter School students who have or may have disabilities that qualify them to receive special education services.

KIPP Bridge shall implement a multi-tiered instructional and support framework prior to referring a student for an evaluation under IDEA, but shall ensure that child find identification occurs in a timely manner and that no procedures or practice shall result in delaying or denying this identification. A parent/guardian or KIPP Bridge staff member may request an initial evaluation at any time to determine if the child is a child with a disability, regardless of whether the child has participated in a multi-tiered instructional framework. Special education referrals shall be made only after general education supports and interventions have been considered and provided, as appropriate. KIPP Bridge shall never use assessment or evaluation as a means of denying admission for any student.

As an independent LEA for special education purposes, KIPP Bridge shall be solely responsible for compliance with state and federal Child Find requirements. KIPP Bridge shall implement policies and procedures of the SELPA in which it is a member to ensure timely identification and referral of students suspected of having a disability. The Charter School may also refer a student for services through the provisions of a Section 504 Plan, if appropriate.

Assessments

The term “assessments” shall have the same meaning as the term “evaluation” in the IDEA, as provided in Section 1414, Title 20 of the United States Code. KIPP Bridge will determine what assessments, if any, are necessary and arrange for such assessments for referred or eligible students in accordance with applicable law. KIPP Bridge shall obtain parent/guardian consent to assess students and no assessment or evaluation shall be used for admission purposes.

As an independent LEA for special education purposes, when, in the event that KIPP Bridge receives a written request for evaluation, it will be solely responsible for working with parents/guardians to address the request and shall follow SELPA policies, procedures, and timelines. The Charter School shall respond to a written request for assessment within fifteen (15) days with a written Assessment plan if the Charter School concludes that an assessment is appropriate. If the Charter School concludes that an assessment is not appropriate, the Charter School shall respond within fifteen (15) days with a Prior Written Notice.

Upon receipt of the consented Assessment Plan, the Charter School shall conduct an evaluation and hold an IEP meeting within sixty (60) days, not including school breaks greater than five (5) days, of receipt of the parent’s/guardian’s written consent for assessment. Parents/guardians shall be informed that special education and related services are provided at no cost to them.

A staff member will be responsible for gathering all pertinent information and arranging for assessments to be conducted in all areas of suspected disability. Information gathered will be used as tools to determine the student’s disability, eligibility for services, and determining the nature and extent of required services. The types of assessments that may be used for determining eligibility for specialized instruction and services will include, but not limited to:

- Individual testing
- Teacher observations
- Interviews
- Review of school records, reports, and work samples
- Parent input

KIPP Bridge will follow the following assessment guidelines. If a conflict with SELPA policies and procedures exists, then SELPA policies and procedures will govern. KIPP Bridge assumes full responsibility for assessments.

- Parents or guardians of any student referred for assessment must give their written consent for the Charter School to administer the assessment.
- The assessment will be completed and an Individualized Education Program meeting held within 60 days of receipt of the parent’s written consent for assessment.

- The student must be evaluated in all areas related to their suspected disability
- Assessments must be conducted by a person with knowledge of the student's suspected disability, and administered by trained and knowledgeable personnel and in accordance with any instructions provided by the producer of the assessments. Individually administered tests of intellectual or emotional functioning must be administered by a credentialed school psychologist.
- Assessments will be selected and administered so as not to be racially, culturally, or sexually discriminatory.
- Assessments will be delivered in the student's primary language, and a qualified interpreter will be provided if needed.
- Assessment tools must be used for purposes for which the assessments or measures are valid and reliable.
- Assessments will be adapted as necessary for students with impaired sensory, physical or speaking skills.
- A multidisciplinary team will be assembled to assess the student, including a teacher knowledgeable in the disability.

Upon completion of the assessment, an IEP team will be assembled to review the results of the assessment and determine the student's eligibility for special education. KIPP Bridge will be responsible for scheduling, coordinating and facilitating the IEP meeting. Educators qualified to interpret test results will present the assessment data at the IEP meeting. Parents/guardians will be provided with written notice of the IEP meeting, and the meeting will be held at a mutually agreeable time and place. Interpretation will be provided in the parent's preferred language when requested.

IEP Development

KIPP Bridge understands that the decisions regarding eligibility, goals/objectives, program, services, placement, and exit from special education shall be the decision of the IEP team, pursuant to the IEP process. Programs, services and placements shall be provided to all eligible Charter School students in accordance with the policies, procedures and requirements of the SELPA and State and Federal law.

IEP Implementation and Review

Every student who is assessed for special education will have an IEP that documents assessment results and eligibility determination for special education services.

KIPP Bridge shall be responsible for all school site implementation of the IEP, which will be designed to provide supports and services in the least restrictive environment. As part of this responsibility, IEP goals and services will be linguistically appropriate, as per Education Code Section 56345(b). KIPP Bridge shall provide all home-school coordination and information exchange. KIPP Bridge shall also be responsible for providing all curriculum, classroom materials, classroom modifications, and assistive technology.

KIPP Bridge shall be responsible for conducting IEP reviews and determining necessary supports, services, placements, in accordance with SELPA policies and all applicable laws. The IEP team will formally review the student's IEP at least once a year to determine how the IEP is meeting their needs. In accordance with IDEA regulations, the IEP team will also conduct a formal review of the IEP once every three years, in which the student is reassessed to determine continuing eligibility and the IEP is reviewed as part of an overall comprehensive reevaluation of the student's progress.

Unless otherwise specified on the student's IEP, KIPP Bridge shall provide parents with timely reports on the student's progress toward meeting annual goals as provided in the student's IEP at least as frequently as report cards are provided for KIPP Bridge's non-special education students, and whether the student is expected to meet their annual goals. The Goals and Objectives section of the IEP will be an attachment to the general progress report. This will serve to document the method by which the student's progress toward achieving the annual goal is measured, the student's progress during the relevant period, the extent to which it is anticipated that the student will achieve the annual goal prior to the next annual review, and where needed, the reasons the student did not meet the goal.

If a parent/guardian or faculty member feels the student's educational needs are not being met, they may request a reassessment or a review of the IEP by the IEP team at any time during the year via written notice to the Charter School. Once the request is received, KIPP Bridge will have thirty (30) days, not including school breaks greater than five (5) days, to hold the IEP meeting.

IEP Meetings

KIPP Bridge shall arrange and notice the necessary IEP meetings. IEP team membership shall be in compliance with state and federal law. KIPP Bridge shall be responsible for having the following individuals in attendance at the IEP meetings: the School Leader and/or KIPP Bridge designated representative with appropriate administrative authority as required by the IDEA; the student's special education teacher; the student's general education teacher if the student is or may be in a regular education classroom; a parent/guardian; the student, if appropriate; and other Charter School representatives who are knowledgeable about the regular education program at KIPP Bridge and/or about the student. KIPP Bridge shall arrange for the attendance or participation of all other necessary staff that may include, but are not limited to, an appropriate administrator to comply with the requirements of the IDEA, a speech therapist, psychologist, occupational therapist, or behavior specialist; and shall document the IEP meeting and provide notice of parental rights.

KIPP Bridge will provide an interpreter at IEP meetings if necessary to ensure that all parents and/or guardians understand and can participate in the IEP process. If a parent cannot attend the IEP meeting, the Charter School will ensure their participation using other methods, such as video or phone conferencing or meeting at the parent's home.

A copy of the IEP will be given to the parent/guardian in accordance with state and federal laws. Upon the parent or guardian's written consent, the IEP will be implemented by KIPP Bridge. The IEP will include all required components and be written on SELPA forms.

The student's IEP will include the following:

- A statement of the student's present levels of academic achievement and functional performance
- The rationale for placement decisions, including cogent and responsive explanations for the recommendations
- The services the student will receive and the means for delivering those services
- A description of when services will begin, how often the student will receive them, who will provide them, and where they will be delivered
- Measurable annual goals and short-term objectives focusing on the student's current level of performance and appropriately ambitious for the student's circumstances; The goals and objectives will also be linguistically appropriate, as per Ed Code Section 56345(b)
- A description of how the student's progress toward meeting the annual goals will be measured and monitored and when reports will be provided
- Accommodations necessary to measure the academic achievement and functional performance of the pupil on state and district assessments
- For students 16 years of age and older, measurable postsecondary goals related to training, education, employment and independent living skills, along with transition services needed to assist the student in reaching those goals
- The IEP shall be reasonably calculated to enable the child to make progress appropriate in light of the student's circumstances

IEP meetings will be held according to the following schedule:

- Yearly to review progress toward student's annual goals and make any necessary changes
- Every three years to review the results of a mandatory comprehensive reevaluation of the student's eligibility and progress
- After the student has received a formal assessment or reassessment
- When an Individual Transition Plan ("ITP") is required at the appropriate age
- If a meeting is required to determine if a student's conduct was a manifestation of the student's disability
- If the parent or guardian has requested a review of the student's progress

Special Education Strategies for Instruction and Services

If KIPP Bridge operates as an independent LEA for special education purposes, KIPP Bridge will offer a comprehensive inclusion program that may include, but is not limited to, depending on the needs of the individual student as determined by their IEP team: push-in services, pull-out services, small group

instruction, one-on-one instruction, speech, counseling, occupational therapy, co-teaching, and extended school year. Each student's IEP requires different kinds of accommodations and modifications for instruction and services; therefore, the educational strategies of the IEP will be built around the student's needs. The instruction outlined in each student's IEP will be delivered by personnel qualified to do so.

Interim and Initial Placements of New Charter School Students

KIPP Bridge shall comply with Education Code Section 56325 with regard to students transferring into the Charter School within the academic school year. KIPP Bridge shall provide transferring students with FAPE, including services comparable to those listed in the existing IEP.

In accordance with Education Code Section 56325(a)(1), for students who enroll in KIPP Bridge from another school outside of the same SELPA as KIPP Bridge, with a current IEP within the same academic year, KIPP Bridge shall provide the pupil with FAPE, including services comparable to those described in the previously approved IEP, in consultation with the parent(s)/guardian(s), for a period not to exceed thirty (30) days, by which time the Charter School shall adopt the previously approved IEP or shall develop, adopt, and implement a new IEP that is consistent with federal and state law.

In accordance with Education Code Section 56325(a)(2), in the case of a student with disabilities who has an IEP and transfers into KIPP Bridge from a different school within the same SELPA as KIPP Bridge, within the same academic year, KIPP Bridge shall continue to provide services comparable to those described in the existing approved IEP, unless the parent(s)/guardian(s) and KIPP Bridge agree to develop, adopt, and implement a new IEP that is consistent with federal and state law.

For students transferring to KIPP Bridge with an IEP from outside of California during the same academic year, KIPP Bridge shall provide the pupil with FAPE, including services comparable to those described in the previously approved IEP in consultation with the parent(s)/guardian(s), until KIPP Bridge conducts an assessment pursuant to paragraph (1) of subsection (a) of Section 1414 of Title 20 of the United States Code, if determined to be necessary by KIPP Bridge, and develops a new IEP, if appropriate that is consistent with federal and state law.

KIPP Bridge will cooperate with the District regarding sharing information as required by the Education Code.

Mental Health

Whenever necessary, as evidenced by student need, parent/guardian referral or recommendation of a mental health professional on staff, an assessment plan to determine eligibility for Educationally Related Mental Health Services, will be offered to the parent/guardian for consent. If eligible, the student will be provided ERMHS as part of their IEP supports and services.

Professional Development for KIPP Bridge Staff

KIPP Bridge shall seek professional development opportunities for its staff through training opportunities facilitated by the SELPA, Diagnostic Center of Northern California, colleges and universities, and private companies or agencies to ensure compliance with state and federal special education laws as well as implementation of best practices for students with disabilities.

Non-Public School Placements/Non-Public Agencies

KIPP Bridge shall be solely responsible for selecting, contracting with, and overseeing all non-public schools and non-public agencies used to serve special education students.

Non-discrimination

It is understood and agreed that all children will have access to KIPP Bridge and no student shall be denied admission nor counseled out of KIPP Bridge due to the nature, extent, or severity of their disability or due to the student's request for, or actual need for, special education services.

Reporting

KIPP Bridge, in collaboration with the SELPA, will collect and maintain the following information on disabled students as required by IDEA:

- A calculation of all school-age students with disabilities being provided special education services by age, grade, category of disability and the number of students with disabilities who are English Learners
- The number of students provided with test modifications and the types and the number of students exempted from Statewide assessments
- The settings in which students with disabilities receive their services, specifically including the portion of the school day they receive services with non-disabled peers and time away from the regular classroom
- The number of students with disabilities suspended "in-school" and out of school, organized by disability and length of suspensions
- The basis of exit from KIPP Bridge of students with disabilities (i.e. attainment of diploma and type, declassified, moved, etc.)

All necessary procedures and practices to ensure confidentiality and accurate/timely reporting will be the responsibility of KIPP Bridge. The designated staff member will ensure that a central file with all special education evaluation material and IEPs is maintained and that this file is locked and confidential, in accordance with IDEA guidelines. The staff member will oversee access to these records, and will be responsible for ensuring that all providers responsible for the implementation of a student's IEP will have access to a copy of the IEP and will be informed of their specific responsibilities in implementing the IEP.

Parent/Guardian Complaints and Procedural Safeguards

Parents/guardians of students with IEPs at KIPP Bridge must give written consent for the evaluation and placement of their child, be included in the decision-making process when change in placement is under

consideration, and be invited, along with teachers, to conferences and meetings to develop their child's IEP.

KIPP Bridge is committed to the assessment, identification, and placement of students with special needs in the appropriate and least restrictive environment. KIPP Bridge understands the requirement under the IDEA to follow procedures to provide access to due process and the protections conferred by procedural safeguards, which are required by federal law.

KIPP Bridge shall provide a copy of the "Notice of Procedural Safeguards and Parents' Rights" to the parent a minimum of one time yearly. The Notice of Procedural Safeguards shall also be provided to parents:

- Upon initial referral or parental request for evaluation
- When sending out an Assessment Plan and/or Prior Written Notice
- Upon receipt of the first state complaint in the school year
- Upon receipt of the first due process complaint in the school year
- In accordance with disciplinary procedures
- Upon parental request

KIPP Bridge shall adopt policies and procedures for the investigation and resolution of parental concerns or complaints related to special education services including alleged violation of federal or state laws governing educational programs.

KIPP Bridge shall include in its policies and procedures the employee(s) responsible for receiving complaints, investigating complaints and ensuring compliance. KIPP Bridge's policies shall ensure that the employee(s) responsible for compliance and/or investigations shall be knowledgeable about the laws/programs that they are assigned to investigate.

KIPP Bridge shall acknowledge parent complaints within five (5) business days. The parents shall be offered a voluntary resolution session (alternative dispute resolution ("ADR")) to address and resolve concerns that prompted the complaint. If a disagreement or concern persists, parents/guardians have the right to initiate a due process hearing to challenge a decision regarding the identification, evaluation, or educational placement of their child.

Due Process Hearings

Under IDEA, due process hearings are a principal vehicle for resolving disputes between parents of children with disabilities and LEAs concerning identification, evaluation, placement or provision of FAPE (34 CFR 300.511). Parents, students who have reached the age of majority, and LEAs may request a due process hearing. KIPP Bridge acknowledges its responsibility to resolve disputes or defend due process complaints arising as a result of the Charter School's alleged failure to provide FAPE to students enrolled in the Charter School.

KIPP Bridge may also initiate a due process hearing or request for mediation with respect to a student enrolled in the Charter School if it determines such action is legally necessary or advisable. In the event that the parents/guardians file for a due process hearing, KIPP Bridge shall defend the case.

Complaint Procedures

The Charter School shall adopt policies for responding to parental concerns or complaints related to special education services. The Charter School shall receive any concerns raised by parents/guardians regarding related services and rights.

The Charter School's designated representative shall investigate as necessary, respond to, and address the parent/guardian concern or complaint.

SELPA Representation

KIPP Bridge understands that it shall represent itself at all SELPA meetings.

Funding

KIPP Bridge understands that it will be subject to the allocation plan of the SELPA.

Section 504 of the Rehabilitation Act

KIPP Bridge recognizes its legal responsibility to ensure that no qualified person with a disability shall, on the basis of disability, be excluded from participation, be denied the benefits of, or otherwise be subjected to discrimination under any program of KIPP Bridge. A student who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment, is eligible for protections under Section 504.

KIPP Bridge shall be solely responsible for its compliance with Section 504 and the ADA. The facilities to be utilized by KIPP Bridge shall be accessible for all students with disabilities.

A 504 team will be assembled by the School Leader and shall include the parent/guardian, the student (where appropriate) and other qualified persons knowledgeable about the student, the meaning of the evaluation data, placement options, and accommodations. The 504 team will review the student's existing records, including academic, social and behavioral records, and is responsible for making a determination as to whether an evaluation for 504 services or accommodations is appropriate.

If the student has already been evaluated under the IDEA but found ineligible for special education instruction or related services under the IDEA, those evaluations may be used to help determine eligibility under Section 504. The student evaluation shall be carried out by the 504 team, which will evaluate the nature of the student's disability and the impact upon the student's education. This evaluation will include consideration of any behaviors that interfere with regular participation in the educational program and/or activities. The 504 team may also consider the following information in its evaluation:

- Tests and other evaluation materials that have been validated for the specific purpose for which they are used and are administered by trained personnel
- Tests and other evaluation materials including those tailored to assess specific areas of educational need, and not merely those designed to provide a single general intelligence quotient
- Tests are selected and administered to ensure that when a test is administered to a student with impaired sensory, manual or speaking skills, the test results accurately reflect the student's aptitude or achievement level, or whatever factor the test purports to measure, rather than reflecting the student's impaired sensory, manual or speaking skills

The final determination of whether the student is eligible for services or accommodations under Section 504 must be made by the 504 team. Written notice of the eligibility determination will be provided to the parent or guardian of the student in their primary language, along with notice of the procedural safeguards available to them. If during the evaluation, the 504 team obtains information indicating possible eligibility of the student for special education per the IDEA, a referral for assessment under the IDEA will be made by the 504 team.

If the student is found by the 504 team to qualify for services and supports under Section 504, the 504 team shall be responsible for determining what, if any, accommodations or services are needed to ensure that the student receives FAPE. In developing the 504 Plan, the 504 team shall consider all relevant information utilized during the evaluation of the student, drawing upon a variety of sources, including, but not limited to, assessments conducted by the Charter School's professional staff.

The 504 Plan shall describe the Section 504 disability and any program accommodations, modifications or services that may be necessary.

All 504 team participants, parents, guardians, teachers and any other participants in the student's education, including substitutes and tutors, must have a copy of each student's 504 Plan. The site administrator will ensure that teachers include 504 Plans with lesson plans for short-term substitutes and that he/she review the 504 Plan with a long-term substitute. A copy of the 504 Plan shall be maintained in the student's file. Each student's 504 Plan will be reviewed at least once per year to determine the appropriateness of the Plan, needed modifications to the plan, and continued eligibility.

English Learners

KIPP Bridge will comply with all applicable legal requirements for English Learners, including long-term English Learners ("LTELs") or English Learners at risk of becoming long-term English Learners, as they pertain to annual notification to parents, student identification, placement, program options, EL and core content instruction, teacher qualifications and training, reclassification to fluent English proficient status, monitoring and evaluating program effectiveness, and standardized testing requirements. KIPP Bridge will meet all requirements of federal and state law relative to equal access to the curriculum for

English Learners. KIPP Bridge will implement policies to assure proper placement, evaluation, and communication regarding ELs and the rights of students and parents.

The Charter School recognizes the importance of valuing students' native languages, and reinforces an appreciation for the cultures, customs, and languages of all its students through the Charter School's core curriculum, enrichment programs, life-skills curriculum, and culturally responsive pedagogy.

Students at KIPP Bridge with limited proficiency in English will achieve proficiency in the English language as quickly as possible through the use of the Charter School's services and teaching methods that support English language development in each of the four domains: listening, reading, writing, and speaking. KIPP Bridge will have the necessary supports to ensure that regardless of English proficiency, all EL students are included in curricular and extracurricular activities. The Charter School will also make certain that EL students are not assigned to special education because of their lack of English proficiency.

KIPP Bridge will directly provide or make referrals to appropriate support services that may be needed by EL students in order to achieve and maintain a satisfactory level of academic performance. Students will receive designated and integrated ELD instruction across all content areas. Additionally, services may include push-in supports, individual counseling, group counseling, home visits, and parental counseling.

Identification of English Learners

As part of the enrollment process, the Charter School will administer a home language survey upon a student's enrollment into the Charter School (on enrollment forms). For students who are not new to the state public school system, we will determine their EL classification based on prior records. The ELPAC has four proficiency levels (Level 4: well developed; Level 3: moderately developed; Level 2: somewhat developed; and Level 1: minimally developed) and is aligned with the 2012 California ELD Standards.

At the beginning of the school year, all students new to the California public school system upon enrollment who indicate a home language other than English will be ELPAC-tested by a trained evaluator within thirty (30) calendar days of initial enrollment or within sixty (60) calendar days before the date of first enrollment, but not before July 1 of that school year¹⁵ and at least annually thereafter between February 1 and May 31 until re-designated as fluent English proficient. On the initial assessment, if the student scores below the established cut-off point on the ELPAC, the student will be classified as an EL student. If the student scores above the established cut-off points on the ELPAC, the student is determined not to be an EL student and will be classified as Initial Fluent English Proficient.

¹⁵ The initial assessment is required for students who are entering a California public school for the first time or for students who have not yet been ELPAC tested. All other students who have indicated a home language other than English will continue with annual ELPAC testing ("summative assessment") during the summative assessment testing window.

All EL students must take the annual summative ELPAC every year until they are Reclassified Fluent English Proficient (RFEP). California requires schools monitor the academic progress of RFEP students for four years after they are reclassified.

KIPP Bridge will notify all parents/guardians of the Charter School's responsibility to conduct ELPAC testing and will inform parents/guardians of ELPAC testing results within 30 calendar days following receipt of test results. The ELPAC shall be used to fulfill the requirements under the Every Student Succeeds Act ("ESSA") for annual English proficiency testing.

Parents or guardians will be informed of their rights, and they will be encouraged to participate in the reclassification process. All parents or guardians of students classified as EL will be notified in writing of all EL assessment and placement procedures for their child. The Charter School will translate materials as needed to ensure that parents/guardians of EL students understand all communications and are involved in all processes related to the English Language Development of their child.

Instructional Programming for English Learner Instruction

In accordance with research on language acquisition and State goals, all students who are English Learners will be supported to become proficient in the English language as quickly as possible at KIPP Bridge following a Comprehensive Structured immersion program. Teachers will implement the program following the ELD standards, including both integrated and designated ELD instruction. Drawing on the latest research and KIPP Northern California's experience, KIPP Bridge will use a range of methodologies aimed to support both newcomer ELs and long-term ELs.

KIPP Bridge's Approach to EL Instruction - Structured English Immersion Program

Based on a substantial research base proving the benefits of a structured English immersion program, KIPP Bridge implements a comprehensive structured immersion program for its EL students. Students of limited English proficiency will receive the same academic content as those students who are native English speakers, which will be based on the Common Core State Standards and College and Career Readiness Standards. In addition to core content, students who are assessed as EL receive assistance in order to ensure English language development. KIPP Bridge will ensure that all EL students have access to the core content, and may contract with the necessary specialists as needed in order to do so. All core instruction will be delivered in English; however, the level of English used for instruction – both oral and written – will be modified appropriately for each EL student.

It is the goal of KIPP Bridge that all of its students leave the Charter School proficient in the English language and with pride and support for their home language. Teachers of English Learners at KIPP Bridge will teach based on the English Language Development standards as set forth by the California Department of Education. This includes integrated ELD, explicit support for all students in acquiring the language needed to comprehend and express understanding of grade-level work, and designated ELD instruction, a protected daily time in the school day for focused instruction on the ELD standards to

assist ELs with developing critical English language skills necessary for academic content learning in English.

Designated ELD

KIPP Bridge’s focus in designated ELD is to take an asset-based approach to the English spoken by our students and to build on these skills. Designated ELD teachers provide lessons for English Learners to develop English language proficiency. The overall goal of ELD instruction is for students to learn English at the level of a native speaker. Over the course of the required curricular sequence, students are taught language objectives aligned with academic language functions, as well as academic vocabulary and time to practice reading comprehension and writing skills.

Here are the principles that guide our designated ELD instruction:

- **Academic language functions:**
 - Most of our Multilingual Learners are not new to the country and are highly proficient in social varieties of English. Our focus in designated ELD is to take an asset-based approach to the English spoken by our students and to build on these skills. ELD teachers provide explicit and targeted instruction on the most critical academic language functions that students will need to access grade-level content. Over the course of our recommended curricular sequence, students are taught language objectives aligned with academic language functions, as well as academic vocabulary and time to practice reading comprehension and writing skills.

- **Structured Conversations:**
 - Oral language practice is the primary focus of designated ELD. Classes are structured so that teachers provide mini lessons and then students have the majority of class time to practice speaking in Academic English in complete sentences. Structured student talk routines are encouraged to ensure the oral language practice is targeted. At the conclusion of every class, students have the opportunity to show mastery of the day’s language objective in writing and to reflect on how the designated ELD content relates to their other classes. This reflection is critical in building student metalinguistic awareness and to support them in building interdisciplinary connections.

- **Data-driven instruction:**
 - ELD teachers provide consistent feedback to students on their progress and to collaborate closely with other teachers and Ed Specialists to support overall student growth. Feedback is critical for Multilingual Learners, especially LTELs.

- Using Ellevation, the regional multilingual learner academics provides schools with longitudinal ELPAC data along with interim formative assessments in math, ELA, Science and Social Studies and Smarter Balanced scores in order to progress monitor multilingual learners’ performance on different assessments.
- **Strategic grouping:**
 - Schools group students according to proficiency level (newcomer, beginner, intermediate, and advanced) using ELPAC scores, formative assessment data and teacher/Ed Specialist input.

Integrated ELD

Teachers strategically support student development in Academic English, while teaching grade-level content through English. As teachers internalize their curricula and write exemplars for their daily objective, they are supported in identifying the language demands of the lesson (vocabulary, recurring linguistic constructions) and designing appropriate scaffolds and structured student talk routines based on their students and their daily language content.

Examples of integrated ELD instructional strategies that may be employed with EL students include:

- *Exposure to Various Learning Modalities:* Exposing students to experiences in a variety of learning modalities (kinesthetic, auditory, and visual) that correspond to the subject matter and grade level curriculum.
- *Cooperative Learning:* Student participation in small-group learning activities that promote positive interactions. Through shared learning activities, students benefit from observing learning strategies used by their peers. EL students can benefit from face-to-face verbal interactions, which promote communication that is natural and meaningful.¹⁶
- *Academic Language Scaffolding:* The step-by-step process of building students’ ability to complete tasks on their own.¹⁷ Scaffolding actually consists of several linked strategies, including modeling academic language; contextualizing academic language using visuals, gestures, and demonstrations; and using hands-on learning activities that involve academic language.
- *Maximizing Comprehensible Input and Output:* In order for students to gain proficiency in both functional and academic English, students must be exposed to multiple opportunities for receiving comprehensible input and producing comprehensible output. Teachers will create learning environments that allow students to practice academic English and produce comprehensible output by: 1) using backwards design to address cognitive and linguistic demands, 2) creating opportunities for students to learn content and functional language

¹⁶ Johnson, Johnson & Holubec, 1994; Kagan, 1994

¹⁷ Gibbons, 2002

through instruction, 3) incorporating frequent structured student talk, 4) interactive reading and note taking, 5) academic writing support, and 6) using assessments to refine instruction.

- *Structured Student Talk Routines*: To develop communicative competence, English Learners need daily supported opportunities to use their second language for diverse purposes. Learning English well requires lots and lots of practice. A key part of student language development relies on structured opportunities for meaningful academic discourse. Structured student talk routines provide scaffolded opportunities for students to practice English language production. When students are given appropriate direction and support, they actively listen and speak to one another, preventing the one-way communication that occurs when the whole class listens to individual volunteers offer their ideas or respond to teacher questions.¹⁸

In addition, KIPP Bridge recognizes that differentiated support may be necessary for both newcomer ELs and long-term ELs. Examples of practices used to serve new EL students include the following:

- Use technology to its fullest potential (i.e. language learning, translation, visual scaffolds for content concepts, student motivation, tracking of student progress)
- Promote development of students' native language skills and incorporate native language instruction into the curriculum where possible

Examples of practices used to serve long-term EL students include the following:

- Specialized English Language Development instruction designed for LTELs (separate from other English Learners), emphasizing writing, academic vocabulary, active engagement, and oral language
- Placement in heterogeneous and rigorous grade level content classes mixed with English proficient students and taught with differentiated instructional strategies
- Explicit academic language and literacy development across the curriculum
- Systems for monitoring progress and triggering support and a master schedule designed for flexibility and movement as students progress
- School-wide focus on study skills, metacognition, and learning strategies
- Data meetings and testing accommodations
- Affirming school climate and relevant texts

At KIPP Bridge, all teachers will receive professional development on communicating with students designated as EL, techniques for detecting whether a student has English language gaps, and providing supports for English Learners as outlined above. Furthermore, KIPP Bridge will provide staff with specialized curricular materials to enable EL students to achieve proficiency.

¹⁸ Norris & Ortega, 2006; Lightbown, Patsy, & Nina Spada, 2006

Monitoring and Re-Designation of EL Students

The proficiency in the English language of EL students will be monitored by teachers and qualified evaluators, and measured at least annually using the ELPAC and other measures. These assessments benchmark their progress towards proficiency and determine whether continued programming and language support are warranted.

Upon a student's reaching proficiency in the English language, programming and language support will no longer be required. However, the student will be monitored to ensure they are making academic progress in alignment with their peers. If students fail to meet parity, then they may be provided additional academic services and interventions. An EL student may be considered as having acquired a "reasonable level of English proficiency" and may be reclassified as Fluent English Proficient utilizing, but not limited to, the following criteria:

Assessment of language proficiency using an objective assessment instrument including, but not limited to, all of the following:

- Assessment of language proficiency using an objective assessment instrument including, but not limited to, the Summative ELPAC
- Participation of the pupil's classroom teachers and any other certificated staff with direct responsibility for teaching or placement decisions of the pupil to evaluate the pupil's curriculum mastery
- Parental opinion and consultation, achieved through notice to parents or guardians of the language reclassification and placement including a description of the reclassification process and the parents' opportunity to participate, and encouragement of the participation of parents or guardians in the reclassification procedure including seeking their opinion and consultation during the reclassification process
- Comparison of the pupil's performance in basic skills against an empirically established range of performance and basic skills based upon the performance of English proficient pupils of the same age that demonstrate to others that the pupil is sufficiently proficient in English to participate effectively in a curriculum designed for pupils of the same age whose native language is English

Prior to reclassification, all parents/guardians will receive a reclassification meeting notification letter, where they are invited to a meeting to discuss their child's English proficiency and academic achievement, and possible re-designation to Fluent English Proficient. Progress of students who have been re-designated will be monitored for four years.

KIPP Bridge will evaluate each student's performance in academic content areas to measure the student's progress in core subjects. If an EL student fails to show appropriate progress in these academic areas, content is spiraled and retaught. In addition, KIPP Bridge will annually evaluate the progress of its EL students as a group to determine if any broader programmatic modifications are necessary.

Special Education and English Learners

KIPP Bridge will apply the same high standard of learning to all students, regardless of disability or language barriers. English Learners who are suspected of having a learning disability will be assessed according to the Child Find/identification requirements described in the Special Education section above. Just as all students who are classified as EL students are as fully integrated as possible into the programs of KIPP Bridge, so are students with disabilities. EL students with IEPs will be given the necessary materials, mandated services, and equipment to support their learning. The Charter School's extended day and year model allows for significant time for staff to work in a variety of settings with English Learners who are also special education students, in order to bring them to English proficiency as quickly as possible, while meeting all the needs outlined in their IEP. For EL students with moderate/severe disabilities, we administer the Alternate ELPAC as their annual assessment. In addition, we have modified criteria for reclassification which take their IEP goals and alternate assessment performance into consideration.

Monitoring and Evaluation of Program Effectiveness

KIPP Bridge evaluates the effectiveness of its education program for ELs by:

- Adhering to adopted academic benchmarks by language proficiency level and years in program to determine annual progress
- Monitoring teacher qualifications and the use of appropriate instructional strategies based on program design
- Monitoring student identification and placement
- Monitoring availability of adequate resources

English Learner Advisory Committee

If KIPP Bridge has 21 or more English Learner students, the Charter School will form an ELAC, which will be responsible for advising the School Leader and staff on programs and services for English Learners and the KIPP Family Council on the development of the Local Control and Accountability Plan ("LCAP"). The ELAC will be comprised of parents of English Learners — at a rate that is at least the same as the percentage of English Learner students based on the total student population — and other parents/guardians, the Charter School staff and/or community members.

Annual Goals and Actions to Achieve the State Priorities

Pursuant to Education Code Sections 47605(c)(5)(A)(ii) and 47605(c)(5)(B), a reasonably comprehensive description of KIPP Bridge's annual goals, actions, and measurable outcomes, both schoolwide and for each numerically significant subgroup of students. in and aligned with the State Priorities described in Education Code Section 52060(d), can be found in the Charter School's Local Control and Accountability Plan. Each of these goals addresses the unique needs of all students attending the Charter School, including our numerically significant student subgroups. The metrics associated with these goals help the Charter School to ensure that these specific subgroups are making satisfactory progress, and are

provided with necessary additional supports made possible by additional funds from the Local Control Funding Formula.

Attached, as Appendix 11, is the most recent LCAP, which is also on file with the District. Appendix 11 complies with all requirements pursuant to Education Code Sections 47605(c)(5)(A)(ii) and 47605(c)(5)(B), including the development of school-wide and student subgroup goals, and annual actions, as applicable to the state priorities identified in Education Code Section 52060(d). The Charter School shall annually update and develop the LCAP in accordance with Education Code Section 47606.5 and shall use the LCAP template adopted by the State Board of Education. The Charter School reserves the right to establish additional and/or amend school-specific goals and corresponding assessments throughout the duration of the charter term through the annual LCAP update. The Charter School shall submit the LCAP to the District and County Superintendent of Schools annually on or before July 1, as required by Education Code Section 47604.33. The Charter School shall also present a report on the annual update to the LCAP and the local control funding formula budget overview for parents on or before February 28 of each year at a regularly scheduled Board meeting. The LCAP and any revisions necessary to implement the LCAP shall not be considered a material revision to the charter, and shall be maintained by the Charter School at the school site.

ELEMENT 2 – Measurable Pupil Outcomes

“The measurable pupil outcomes identified for use by the charter school. “Pupil outcomes,” for purposes of this part, means the extent to which all pupils of the charter school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the charter school’s educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all pupil subgroups served by the charter school, as that term is defined in subdivision (a) of Section 52052. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served by the charter school.” – Ed. Code § 47605(c)(5)(B)

“The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card.” – Ed. Code § 47605(c)(5)(C)

Increases in Student Academic Achievement, Overall and by Subgroup

In accordance with Education Code section 47605(c)(5)(B), Charter School’s pupil outcomes will be set related to increases in pupil academic achievement both schoolwide and for all numerically significant subgroups of pupils served by the charter school, as that term is defined in paragraph (4) of subdivision (c) of section 47607. The pupil outcomes shall align with state priorities, as described in subdivision (d) of section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school. Charter School’s LCAP goals will serve as the goals for this section unless Charter School’s LCAP goals do not include increases in student academic achievement by subgroup, in which case such goals should be included below.

The LCAP subgroup goals below represent the three-year cycle (2024-25 through 2026-27), with KIPP Bridge making progress in key state indicators as demonstrated on the California Dashboard.

KIPP Bridge Academy LCAP Subgroup Goals: Year over Year Goals Beginning School Year 2024-25 through 2026-27

Student Group	ELPI	Chronic Absence	Suspension	ELA	Math
English Learners	Maintain BLUE on the CA Dashboard, within 1.9 points YoY	Move to ORANGE on the CA Dashboard, with 10% or greater reduction YoY	Maintain ORANGE on the CA Dashboard, within 0.2% YoY	Maintain ORANGE on the CA Dashboard, with 10+ points increase YoY	Increase to GREEN on the CA Dashboard, with 10+ points increase YoY
Socio-Economically Disadvantaged	NA	Move to ORANGE on the CA Dashboard, with	Move to GREEN on the CA Dashboard, with	Maintain ORANGE on the CA Dashboard,	Increase to GREEN on the CA Dashboard, with

		10% or greater reduction YoY	a 1% or greater decline YoY	with 10+ points increase YoY	10+ points increase YoY
Students with Disabilities	NA	Move to ORANGE on the CA Dashboard, with 10% or greater reduction YoY	Move to GREEN on the CA Dashboard, with a 2.5% or greater decline YoY	Increase to ORANGE on the CA Dashboard, with 12+ points increase YoY	Maintain RED on the CA Dashboard, with 10+ points increase YoY
African American	NA	Move to ORANGE on the CA Dashboard, with 10% or greater reduction YoY	Move to GREEN on the CA Dashboard, with a 1% or greater decline YoY	Maintain ORANGE on the CA Dashboard, with 10+ points increase YoY	Increase to GREEN on the CA Dashboard, with 5+ points increase YoY
Hispanic	NA	Move to ORANGE on the CA Dashboard, with 10% or greater reduction YoY	Maintain GREEN on the CA Dashboard, within 0.2% YoY	Maintain ORANGE on the CA Dashboard, with 5+ points increase YoY	Increase to GREEN on the CA Dashboard, with 10+ points increase YoY

Charter School hereby grants authority to the State of California to provide a copy of aggregated (by school, numerically significant subgroups, etc.) test results directly to the District. Test results for the prior year, if not provided directly to the District by the State in a timely manner, will be provided by the Charter School to the District, upon request, no later than September 1 of each year.

Additional Measurable Pupil Outcomes

Charter School sets the following targets for Measurable Pupil Outcomes related to school culture and climate.

Please see below our MPOs, in alignment with our annual LCAP, which is attached in Appendix 11.

<i>LCAP Alignment</i>	<i>MPO</i>	<i>Target</i>
<i>Goal 2 - Engagement</i> Family Satisfaction with Opportunities for Engagement	Family Satisfaction with Opportunities for Engagement: How satisfied are you with the number of opportunities the school provides for parents on campus?"	75% Positive
<i>Goal 2 - Engagement</i> Student Emotional Safety	Student Emotional Safety: Students feel able to show themselves without fear of threat or harm to one's self image or well being.	65% Positive

<p>Goal 2 - Engagement</p> <p>School Culture Index</p>	<p>The School Family Culture Index: Represents questions from the Family School Culture Survey that make up the family school culture experience. The index considers the percent of positive family responses across the following questions:</p> <ul style="list-style-type: none"> ● Teachers have built strong relationships with my child. ● The school has a positive impact on my child’s academic performance. ● How fairly is your child treated by staff? ● How stressed does your child feel about experiences related to school? 	<p>75% Positive</p>
<p>Goal 3 - Resources</p> <p>Teacher Instructional Practice</p>	<p>Teacher Instructional Practice: My school is committed to improving my instructional practice.</p>	<p>75% Positive</p>
<p>Goal 3 - Resources</p> <p>Teacher Rigorous Academic Curriculum</p>	<p>Rigorous Academic Curriculum: My school implements a rigorous academic curriculum.</p>	<p>75% Positive</p>
<p>Goal 3 - Resources</p> <p>Expanded Learning Opportunities</p>	<p>Expanded Learning Opportunities: Students will be offered access to the Expanded Learning Opportunities Program.</p>	<p>100% Access Offered</p>

Application of Education Code section 47607.3

Under Education Code section 47607.3, if Charter School meets certain criteria outlined in section 47607.3(a), the following shall apply:

- Depending on circumstances specified in section 47607.3, either the county superintendent of schools or the chartering authority shall provide technical assistance to the charter school using an evaluation rubric adopted by the State Board.
- The entity providing technical assistance may request assistance from the California Collaborative for Educational Excellence, which may, after consulting with the Superintendent and with the approval of the State Board, provide advice and assistance to the charter school.
- The chartering authority shall consider for revocation any charter school to which the California Collaborative for Educational Excellence has provided advice and assistance, and has made findings that: 1) the charter school has failed, or is unable, to implement the recommendations of the California Collaborative for Educational Excellence; or 2) that the inadequate performance of the charter school, based upon the evaluation rubric, is so persistent or so acute so as to require revocation of the charter.

School Outcome Goals

KIPP Bridge Academy's overarching school outcome goals are the implementation of a consistently high-quality educational program, a fiscally sound business and management structure, family engagement, and community impact. KIPP Bridge Academy also aims to cultivate non-academic skills in its students, as described below.

High-Quality Educational Program

KIPP Bridge Academy provides a meaningful and challenging college preparatory experience to its students by setting a high bar for rigor, encouraging curiosity, and nurturing self-confidence through academic pursuit and achievement. KIPP Bridge instills in students the belief that they can attend college, if that is the path they choose, and provides them the tools that will support them in the pursuit of fulfilled lives.

Fiscally Sound Business and Management Structure

KIPP Bridge Academy's business management structure is paramount to the success of the Charter School. At KIPP, we are committed to ensuring we deliver the best academic program and maintain the fiscal health of each of our schools. KIPP Northern California's expert staff, overseen by the Finance and Audit Committees of the Board of Directors, provides professional financial management for KIPP Bridge. KIPP Northern California's finance, accounting, human resources, operations, and technology staff provide regular training and facilitate the sharing of best practices among the school-site business operations staff across the organization.

Family Engagement

Parents are the experts on their children and strong influencers and partners in student decisions, making parents critical partners in a student's helping their children succeed. The partnership between parents, students and teachers forms the necessary foundation for KIPP Bridge and for all students to succeed. KIPP Bridge, in partnership with KIPP Northern California's Advocacy and Community Engagement Team, regularly provides families with opportunities for meaningful involvement and feedback. We work to ensure families understand how to engage in these opportunities and that their voice and partnership are critically important. Examples include responding to surveys, participating in and leading the KIPP Family Council, engaging with school leadership through Coffee with the Principal, participating in the English Learner Advisory Committee, engaging in parent-teacher conferences, and both planning and participating in social and cultural events at the school. There are also regular opportunities for parents and community members to celebrate the identities, stories, and accomplishments of KIPP Bridge scholars, including student performances, monthly team and family cultural celebrations, and community events such as the Fall Festival. Please see Element 4 for additional details on engaging families and the broader community at KIPP Bridge.

Table 14: Sample of Family Engagement Opportunities at KIPP Bridge

Mechanism for Engagement	Description	Frequency
KIPP Family Council	<p>One way we encourage families to be involved is through our KIPP Family Council. This is led by parents, is simultaneously translated into Spanish and Arabic, and works with staff members to support our school community, including our students, families, and staff.</p> <p>The council also works with the School Leader to develop, review, evaluate and approve federal and state programs and/or budgets.</p>	4+ times/year
English Learner Advisory Committee	<p>The ELAC is an opportunity for parents to discuss supports for English Learners at KIPP Bridge.</p>	2 times/year
Meetings with School Leadership <ul style="list-style-type: none"> ● Coffee with the Principal 	<p>Families have the opportunity to speak directly to the School Leader over coffee in the morning.</p>	9 times/year
Food and Clothes Giveaways	<p>Families are invited to come to the school to collect essential resources and connect with school staff</p>	4 times/year

--	--	--

Community Impact

In addition, KIPP Bridge aims to be a strong institution and resource in its community, uniting parents, community members, and educators across diverse backgrounds. KIPP Bridge will share best practices and lessons learned with other KIPP schools as well as charter and District schools within the Oakland Unified School District, and across the state. The ultimate goal of KIPP Bridge is to have a catalytic impact on the way education is implemented, particularly for first-generation, college-bound students.

Non-Academic Skills

In addition to the state priority-aligned goals, KIPP Bridge Academy believes that our students must also develop crucial non-academic skills in order to become successful 21st century learners and lead choice-filled lives. During their tenure at the KIPP Bridge, students will develop the following:

Leadership Abilities

- All students have an opportunity to run for student government and apply for campus "jobs"
- Students take the lead in planning and organizing events
- Students use their writing to consistently suggest improvements on campus

Self-Advocacy & Choice

- Proactive homeroom circles that address choice, voice, autonomy
- Choice in reading and in learning experiences support students with defining their preferences
- Teachers must demonstrate the presence of choice, voice, and autonomy in weekly lesson plans

Interpersonal Skills

- Ratio of 4:1 student:teacher "talk time" in class
- “Turn and Talks” required in all classes (writing and then sharing with a partner)
- Honor Council participates in restorative circles for peer support
- Students participate in Socratic Seminars
 - Students are coached on using habits of discussion including the ability to politely agree/disagree with one another, build on each other's answers, and pose questions to one another
 - Students take on a progressive level of responsibility for leading Socratic Seminars throughout the year

Community Awareness and Involvement

- All students will develop the character traits and skills that allow and encourage them to become concerned and active citizens of their communities, nation, and the world beyond

KIPP Bridge Academy Goals, Actions and Measurable Outcomes Aligned with the Eight State Priorities

As indicated in Element 1, pursuant to Education Code Sections 47605(c)(5)(A)(ii) and 47605(c)(5)(B), a reasonably comprehensive description of KIPP Bridge’s annual goals, actions, measurable student outcomes, and methods of measurement, both school-wide and for numerically significant subgroups in and aligned with the state priorities as described in Education Code Section 52060(d), can be found in the Charter School’s LCAP. Each of these goals addresses the unique needs of all students attending the Charter School, including our numerically significant student subgroups. The metrics associated with these goals help the Charter School to ensure that these specific subgroups are making satisfactory progress, and are provided with necessary additional supports made possible by additional funds from the Local Control Funding Formula.

Attached, as Appendix 11, is the most recent LCAP, which is also on file with the District. The Charter School shall annually update and develop the LCAP in accordance with Education Code Section 47606.5 and shall use the LCAP template adopted by the State Board of Education. The Charter School reserves the right to establish additional and/or amend school-specific goals and corresponding assessments throughout the duration of the charter through the annual LCAP update. KIPP Bridge shall submit its LCAP to the District and the County Superintendent of Schools annually on or before July 1, as required by Education Code Section 47604.33. The Charter School shall also present a report on the annual update to the LCAP and the local control funding formula budget overview for parents on or before February 28 of each year at a regularly scheduled Board meeting. The LCAP and any revisions necessary to implement the LCAP shall not be considered a material revision to the charter as defined in Education Code Section 47607.

ELEMENT 3 – Method of Measuring Pupil Outcomes

Governing Law: The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card. Education Code Section 47605(c)(5)(C).

KIPP Bridge affirms that, to the extent practicable, the method for measuring pupil outcomes for the state priorities shall be consistent with the way information is reported on a School Accountability Report Card (“SARC”). Specific methods of measurement are identified for each student outcome in Element 2.

KIPP Bridge’s mission is to prepare our students to succeed in high school, college and beyond by developing in them the knowledge, skills, and character essential to succeed while honoring their identities and connections to the community. We understand that such skill mastery occurs in gradual steps, KIPP Bridge will continue to measure the impact and success of its academic programs utilizing several forms of evaluation and assessment, including state mandated tests.

KIPP Bridge’s assessment strategy is based on two core beliefs:

- **Common assessments ensure everyone has a high bar.** Common assessment data helps us to understand and calibrate KIPP Bridge’s performance levels with those of other high-performing schools and appropriately prioritize areas for growth, codify best practices, develop meaningful professional development for teachers, and keep our promises to students and families.
- **Assessment is more than tests.** Effective assessment includes systems and processes for analysis and action, including clear roles and responsibilities, aligned calendars with data days, protocols for looking at student work, data-driven instruction, and data-driven decision making. Schools need structures that enable teachers to swiftly analyze and respond to data.

Assessment of Mastery and Growth: The climb to college-readiness

The specific assessments that KIPP Bridge utilizes can be considered as two measures of progress leading to the same summit: college readiness.

The first – **Standards Mastery** – has many guideposts to ensure students are staying on the right path during their climb. Rather than only mid- and end-of-year milestones, there are numerous checkpoints for feedback on progress and independent abilities. Daily teaching and learning should be focused on this grade-level, sequential progression towards mastery of college-ready standards over time.

The second measure of progress – **Growth** – provides guideposts along the way, but tells students how they compare to others on the climb. Students have their “vitals” taken at the start of this climb so that

they know what kind of progression they need to make to maintain or exceed the pace of their peers. At each milestone, students and teachers will understand if they are climbing the mountain at the rate necessary to maximize their potential. However, teachers do not utilize this data to inform daily instruction. Instead, it is used to set appropriately rigorous goals, occasionally adjust student groupings, and monitor college readiness levels over time.

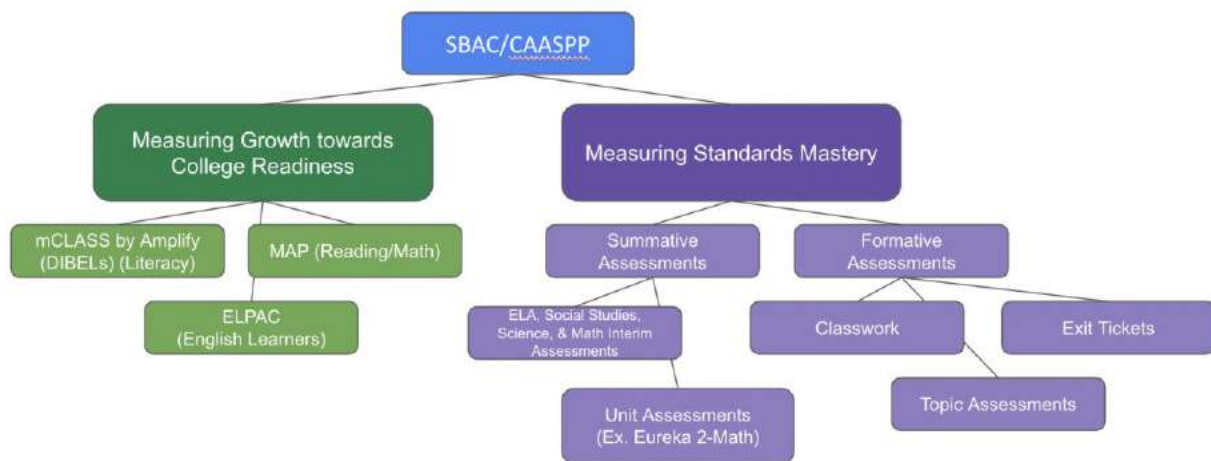

The two measures are inherently related, as rigorous efforts on the standards mastery path pay off in the form of substantial growth and ultimate college-ready achievement, whereas milestone growth checks inform whether our curricular and instructional choices are paying off over time.

Assessment of Student Outcome Goals

An effective assessment strategy includes measures of both standards mastery and growth at various levels of granularity. When measuring mastery, we assess students’ absolute performance against college-ready standards using criterion-referenced tests. When measuring growth, we assess the progression of student learning over time using norm-referenced tests (in which students are compared to their peers), with the end goal of having students make better-than-average growth each year in order to climb to college readiness levels. Both forms of assessment are essential to form a holistic sense of a student’s learning and college readiness.

Figure 9 below outlines the assessments that are used to measure growth and standards mastery across KIPP Northern California schools.¹⁹ As seen below, state and local assessments are used to measure both growth and standards mastery. Please see Appendix 12 for KIPP Northern California’s latest assessment vision and plan across the organization and KIPP Foundation.

Figure 9. KIPP Northern California Assessment Structure

¹⁹ Note that assessments specified solely for students in grades 9-12 in Figure 3 above will not be administered at KIPP Bridge, including: Pre-/Post-ACT, ACT, and AP for All.

Table 15 shows the frequency each assessment at KIPP Bridge will be administered.

Table 15: Assessment Frequency

Assessment	Grade Level	Frequency
mCLASS by Amplify	K-8	3x/year
CAASPP	3-8	1x/year
CAST	5 and 8	1x/year
ELPAC	K-8, as needed	1-2x/year
California Alternate Assessments (“CAA”)	5-8, as needed	1x/year
Benchmark/Interim assessments	K-8	3x/year
Unit/module assessments	K-8	6x/year
Exit tickets	K-8	Daily or weekly
Physical Fitness Test	5 and 7	1x/year

KIPP Bridge believes in administering a balanced system of assessments, so that:

- School Leaders will be able to monitor students’ progress towards CCSS and NGSS mastery and SBAC/CAST readiness at set, strategic intervals
- Teachers will be able to identify students’ strengths and weaknesses to adjust curriculum and instruction at set, strategic intervals
- Regional Leaders will be able to assess the effectiveness of instructional programs and provide timely differentiated support to schools
- Regional Leaders, School Leaders, and Teachers will be able to develop a common high bar (language, values, etc.) for curriculum and instruction

In keeping with this theory of action, KIPP Bridge will administer a variety of assessment types, including: screening, diagnostic, formative, benchmark/interim, summative, and others. Descriptions of these assessment types are included in Table 17 below.

Table 16: Overview of Assessment Types at KIPP Bridge

Type	Purpose of Assessment	Examples
Screening	<ul style="list-style-type: none"> ● Determine whether or not students are at or below grade level; these are generally quick and easy to administer and give a snapshot of a student knowledge and skills ● Guide decisions about intervention placement (i.e. 15 students in the 1st quartile need intervention class) 	<ul style="list-style-type: none"> ● STAR (Accelerated Reader) ● ELPAC initial
Diagnostic	<ul style="list-style-type: none"> ● Identify students' strengths and weaknesses in order to determine appropriate intervention or enrichment support (i.e. 3 students in the intervention class need to develop their understanding of place value) 	<ul style="list-style-type: none"> ● Strategic Teaching and Evaluation of Progress (STEP) ● mCLASS by Amplify ● Teacher-Created ● Curricular Pre-assessments
Formative	<ul style="list-style-type: none"> ● Provide teachers regular information so they can modify teaching and learning activities to improve student achievement 	<ul style="list-style-type: none"> ● Classroom, teacher-created assessments, including exit tickets ● Eureka Math Squared mid-module assessments
Benchmark/ Interim	<ul style="list-style-type: none"> ● Monitor student progress toward mastering grade-level State Standards ● Provide data that can be communicated to a variety of stakeholders (i.e. parents, community members, board members, etc.) ● Provide school and regional leaders access to a common source of student achievement data that can be aggregated or disaggregated to reveal trends and patterns in student performance, identify best practices, or signal the need for additional resources to specific content areas, grade levels, or student groups 	<ul style="list-style-type: none"> ● mCLASS by Amplify ● SBAC IABs (non-performance tasks) ● Math and ELA interim assessments ● Science interims ● Social Studies HAT Interim Assessments
Summative	<ul style="list-style-type: none"> ● Determine mastery of grade level State Standards ● Provide data that can be communicated to a variety of stakeholders (i.e. parents, community members, board members, etc.) ● Provide school and regional leaders access to a common source of student achievement data that can be aggregated or disaggregated to reveal trends and patterns in student performance, identify best practices, or signal the need for additional resources to specific content areas, grade levels, or student groups 	<ul style="list-style-type: none"> ● End of unit/module assessments (i.e. Eureka Squared, KIPP Wit & Wisdom, Amplify Science) ● End of course assessments ● SBAC ● CAST ● ELPAC

Other	<ul style="list-style-type: none"> ● Assess the effectiveness of particular instructional strategies and programs ● Assess the level or quality of implementation of particular instructional strategies, curricular materials and programs 	<ul style="list-style-type: none"> ● Unit or end of module assessments (i.e. Eureka Squared, KIPP Wit & Wisdom, Amplify Science) ● MAP ● ELPAC
-------	---	---

Curriculum-Based Unit/Module Assessments

At KIPP Bridge, carefully selected curricula and high quality instruction will be two key components to meeting the rigor demanded by the State Standards. In order to assess student mastery on standards throughout the year, we feel it is important to also collect data from curriculum-based assessments to see what students are retaining within and over the course of a unit of study. Eureka Math, for example, provides topic, mid-module and end-of-module assessments that measure mastery of the content presented within that unit, as well as students’ ability to manipulate and apply that knowledge in novel ways. As with interim assessments, teachers will complete assessment analyses after curricular assessments and use this data to inform intervention groups as well as areas to reteach. As appropriate, KIPP Bridge will use the assessments in our core curricula as additional data points for standards mastery throughout the year.

Together, curriculum-based assessments and interim assessment cycles will be the main measures for determining whether students are meeting their achievement targets. They help teachers see whether students have retained information over time and are periodic touch points that are aligned to the CAASPP. With this alignment, the KIPP Bridge team knows that students are on track to meeting CAASPP goals. These cycles also allow the Leadership Team to track progress toward school wide achievement goals.

Daily Formative Assessments

Teachers will collect data each day through exit tickets, or they will use independent practice as the exit ticket. Beginning around early October, after other routines and systems are in place, grade level teams will be expected to bring together exit tickets to analyze student performance as a form of feedback on their teaching. These formative assessments will be brought together once per week, and in these meetings, teachers will look at student work to determine misconceptions and adjust their lesson plans accordingly.

Interim Assessments

Day-to-day urgency in classrooms comes from the drive to meet student mastery goals on curricular assessments. Curricular assessments will be aligned to interim assessments, which are administered in cycles, or every 8-10 weeks. These interim assessments, and in turn the curricular assessments, will reflect the rigor and format of the SBAC, CAST and the State Standards. The instructional calendar at KIPP Bridge will include time for re-teaching as necessary.

During the data analysis process, teachers analyze the data by standard, by student, by groups of students, and by class. Noticing trends across groups and for individuals, teachers will determine which standards need to be retaught whole group and which standards may need small group or individual remediation. Additionally, teachers will identify which standards need to be spiraled for additional practice. Teachers will complete a comprehensive action plan based on what needs to be taught, when it will be taught, how it will be taught, and to whom.

After each cycle, each teacher will meet with their coach for a data conference to reflect on student achievement, the data analysis, and the action plan. During this data conference, the coach may push for clarity, serve as a thought partner, or guide the discussion, depending on the teacher’s skillset. After the data conference, the coach will observe re-teaching lessons and help hold the teacher accountable for recollecting data to gauge improvement.

Additionally, grade level teams will meet to discuss groupings for small group instruction time. Based on the interim data, teachers may switch groups across classes and/or adjust the frequency with which certain students receive intervention instruction. This will be a time to step back and adjust plans and groups in order to best meet the needs of every single student.

Schedule of Testing

KIPP Bridge will administer all standards-aligned state and national tests for grades kindergarten through eight as determined by the state and national testing requirements. The Charter School will also administer the following tests at each grade level as outlined below.

Table 17: KIPP Bridge Testing Schedule by Grade

Grade	CAASPP	CAST	ELPAC (if applicable)	Physical Fitness
Kindergarten			X	
Grade 1			X	
Grade 2			X	
Grade 3	X		X	
Grade 4	X		X	
Grade 5	X	X	X	X

Grade 6	X		X	
Grade 7	X		X	X
Grade 8	X	X	X	

Use of Data

KIPP Bridge staff, students, and parents use data on student progress and outcomes to guide instruction, understand individual student needs, and develop strategies for meeting individual and school-wide goals.

KIPP Bridge collects, analyzes, and reports student data and performance by subject and grade level. The data is also disaggregated annually in KIPP Northern California’s own annual report as well as the SARC to clearly identify the academic performance of students by subgroups. Relevant information about the Charter School will be communicated clearly to parents and community members

Progress Monitoring and Data Gathering

Goals are rigorous and individualized to ensure that students are on track for success and growth regardless of whether they are on the top quartile, the bottom quartile, or somewhere in between. It is crucial that the KIPP Bridge Leadership Team be intentional about which data they monitor and why. The table below shows the approach to data and the structures in place for responding to that data throughout the year. The Leadership Team will evaluate all of the following data on an ongoing basis.

Table 18: Structures for Responding to Data

Assessment	Frequency	Response Structure
Exit tickets, curriculum-based assessments	Ongoing	One-on-one and grade level meetings — leadership meets with appropriate teachers and grade levels to support and hold accountable.
mCLASS by Amplify	3x/year	Teachers analyze the data with grade level teams and the support of administrators in order to review students’ reading growth and determine shifts to reading instruction including whole class instruction, guided reading groups, interventions, and personalized learning.
Interim and/or module assessments	8-10 week cycles	In depth data analysis with coach and/or content team for curricular assessments. Teachers and Leaders will carry out in-depth analysis of interim assessments

		results, 3x a year, during Regional PDs. Teachers will leave with a clear understanding of subgroup mastery trends, and create action plans for what to re-teach as well as any interventions that are needed.
CAASPP	Annual	Analyze overall performance at the beginning of each year as well as performance on overall claims to identify trends and determine goals for the upcoming school year.

How Staff Use Student Data

Teachers at KIPP Bridge collect and analyze student data on a daily basis, through daily exit tickets and unit and/or curriculum-based assessments, allowing teachers to adjust instruction from day to day. Additionally, teachers will receive coaching and support to review unit assessments with instructional coaches. Teachers participate in weekly data meetings to analyze data and develop plans to respond as needed, including re-teaching and providing differentiated supports.

On a regular basis, data from assessments will be reviewed alongside other school data through staff Communities of Practice, wherein School Leaders, Assistant Principals and Instructional Leaders meet on a monthly basis and analyze the data and progress towards goals. This information informs school-wide professional development and teacher-level coaching needs.

All KIPP Bridge staff will also participate in regional professional development days, which take place several times throughout the school year, where all KIPP Northern California teachers gather to calibrate and discuss student work and identify opportunities for ongoing improvement to their practice and instruction. On regional professional development days, teachers review and interpret interim assessment results from CCSS-aligned tests and prepare reteaching lessons to address student understanding gaps

KIPP Northern California’s regional leadership and the regional academics team will also closely review student and school-level data on a regular basis to determine how to provide the resources, strategies and supports for our schools. The regional team also enables schools across our region to compare aggregate data and work together to share best practices. Please see the section on *Classroom, School-wide, and Region-wide Assessment* below for details on how KIPP uses data and measures at a regional level.

How Students Use Their Own Data

KIPP Bridge students will develop an understanding of how to interpret and track data on their academic progress, learn to set personal goals, and know how their efforts will lead to those goals. Awareness of data will also help to build life-long habits of goal-orientation, growth mindset, and determination.

Students will receive report cards for each marking period as well as regular reports on academic progress. Report cards and progress reports will be mastery-based in order to develop an orientation toward how their own agency and effort can impact academic goals. Students will also know and understand the results from their individual CAASPP and other assessments and the implications for reaching college readiness. In addition to reports, students will learn to track and interpret individual data generated through personalized learning platforms and content.

How Families Use Student Data

KIPP Bridge parents and guardians will have regular access to information and data on their student’s experience, both academically and socially. At the core of keeping parents informed of student progress and experience is relationships – parents/guardians will have ready and easy access to their students’ teachers via phone, text, email and opportunities to meet in-person. KIPP Bridge will maintain a culture of open contact and availability of teachers to both students and parents/guardians.

In addition, parents/guardians will receive report cards for their students at each marking period. Parents/guardians of students of concern will be invited to parent-teacher meetings to review and interpret the report cards and discuss strategies for supporting each student. Each teacher will strive to meet with parents or guardians of each student, each year. The goal of transparency and frequent discussion about student data with parents/guardians is to build the partnership and alignment between parents/guardians, students and teachers toward each student’s success at KIPP Bridge and, ultimately, in college and beyond.

Classroom, School-wide, and Region-wide Assessment

KIPP Bridge staff will be held accountable for assessing students, classrooms, and the Charter School as a whole. In addition to tracking individual student progress, classroom-based and school-wide evaluation will be on-going, with individual classroom and school-wide performance assessments occurring year-round. Measures of classroom and school-wide assessment are tied to KIPP NorCal’s six essential questions. This framework is used to assess whether our schools, regions and national network are effectively serving the broader KIPP mission. The following performance indicators are reviewed on a regular basis by the KIPP Northern California Regional Leadership Team and the KIPP Northern California Board to assess the health of the Charter School.

Table 19: Six Essential Questions and Performance Indicators

KIPP’s Six Essential Questions	Performance Indicator
Q1: Who is our student community?	<ul style="list-style-type: none"> ● Enrollment ● % students who qualify for free or reduced price meals (“FRPM”)

	<ul style="list-style-type: none"> ● % students with an IEP ● % English Learners
Q2: Are we creating positive school cultures where students stay and thrive?	<ul style="list-style-type: none"> ● Student retention ● Chronic absenteeism ● Suspension rate ● Middle to high school matriculation ● Belonging Index ● Connectedness Index ● SEL Skills Index ● % of parents who would recommend KIPP
Q3: Are our students progressing and achieving academically?	<ul style="list-style-type: none"> ● Student outcomes on SBAC interim and summative assessments ● High school students, grades 10-12, taking, passing AP Exams ● Student outcomes on ACT (11th grade)
Q4: Are our students prepared to lead choice filled lives?	<ul style="list-style-type: none"> ● High school graduation rate ● College matriculation ● College persistence rate ● Estimated college completion rate ● Actual college completion rate
Q5: Are we building a diverse and inclusive people model?	<ul style="list-style-type: none"> ● Teacher retention ● Non-teacher staff retention ● % of staff and % of leadership who identify as people of color ● % of staff that agree to the following statement on the TNTP survey: My school/region has an inclusive culture where staff from diverse backgrounds and perspectives can excel
Q6: Are we building a responsible financial model?	<ul style="list-style-type: none"> ● Schools meeting enrollment target ● Attendance rate ● Cash as % of annual expenses ● Operating cash flow ● Philanthropy Raised/Target

Stakeholder feedback and satisfaction are critical inputs into our school and regional evaluations. KIPP Bridge will benefit from two stakeholder surveys. The KIPP Foundation has partnered with The New Teacher Project (“TNTP”) to administer a stakeholder survey to all teachers, non-teaching staff, and school and regional leaders across the national KIPP network, twice per year. The TNTP Insight survey includes research-backed questions that gauge instructional culture at our schools, with proven correlations to student outcomes and staff retention. In addition to these national surveys, we also administer a survey region-wide for our students and teachers to help us evaluate school culture. This survey gives us valuable input and progress monitoring on our school culture priorities, including social-emotional learning, use of restorative practices, and student/teacher relationships.

Our regional and school leadership analyze the results of each survey, with the ability to learn from each other, and benchmark against other schools in the Bay Area region and across KIPP schools nationally. The results of our stakeholder surveys are key components in the annual performance evaluations for KIPP Bridge leadership and KIPP Northern California’s regional leadership.

Additional Accountability Provision

KIPP Bridge is accountable to multiple constituencies: students and their families, the KIPP Northern California Board of Directors, the Oakland Unified School District, and the State Board of Education. Accountability to each of these constituencies covers both fiscal and academic performance. At the end of each school year, KIPP Bridge and KIPP Northern California staff completes a cycle of inquiry in which all collected student data including test scores, daily attendance records, examples of student work and student/parent surveys will be evaluated, strengths and weaknesses are identified, and a course for school wide improvement and growth is charted for the upcoming year.

While the above evaluations and assessments are necessary to ensure KIPP Bridge meets our objectives, the ultimate evaluation is the continued success of our graduates completing college and growing into fulfilling lives. Student success is monitored in college and used to evaluate KIPP Bridge’s success in seeing students graduate from college.

ELEMENT 4 – GOVERNANCE

“The governance structure of the charter school, including, but not limited to, the process to be followed by the charter school to ensure parental involvement.” – Ed. Code § 47605(c)(5)(D)

Operation by or as a Nonprofit Public Benefit Corporation

As an independent charter school, Charter School, operated as or by its nonprofit public benefit corporation, is a separate legal entity and shall be solely responsible for the debts and obligations of Charter School. Charter School shall comply with the provisions of Education Code section 47604(b)(1) and shall not operate as, or be operated by, a for-profit corporation, a for-profit educational management organization, or a for-profit charter management organization. A for-profit educational management organization and a for-profit charter management organization are entities that manage or operate a charter school.

Charter School shall ensure that, at all times throughout the term of the Charter, the bylaws of its governing board and/or nonprofit corporation are and remain consistent with the provisions of this Charter. In the event that the governing board and/or nonprofit corporation operating Charter School amend the bylaws to change the number of governing board members, Charter School shall provide a copy of the amended bylaws to the OUSD Office of Charter Schools (“OCS”) within 30 days of adoption.

Charter School will respond to Public Records Act requests in a timely manner and in compliance with the California Public Records Act (Government Code section 6250 *et seq.*).

Indemnification of District

Charter School through this Charter agrees to defend, and indemnify and hold harmless the District, its officers, directors, employees, attorneys, agents, representatives, volunteers, successors and assigns (collectively hereinafter “District” and “District Personnel”) from and against any and all actions, suits, claims, demands, losses, costs, penalties, obligations, errors, omissions, or liabilities that may be asserted or claimed by any person, firm or entity arising out of, or in connection with, Charter School’s performance under this Agreement or the Charter, the condition or use of its facilities, or any acts, errors, negligence, omissions or intentional acts by Charter School, its Governing Board, administrators, employees, agents, representatives, volunteers, successors and assigns.

Governing Board Operation

Charter School shall follow Education Code section 47604.1, and comply with the Ralph M. Brown Act (Government Code section 54950 *et seq.*); the California Public Records Act (Government Code section 6250 *et seq.*); Government Code section 1090 *et seq.*; and the Political Reform Act (Government Code section 81000 *et seq.*) Charter School shall also comply with the provisions of Education Code section

47604.1(c) with respect to the location of its meetings, and broadcasting its meetings on a two-way teleconference where required.

Charter School shall publicly post all governing board meeting agendas in accordance with the Brown Act. Charter School shall keep accurate records of all governing board meetings, whether they were canceled, rescheduled, or held, and make board meeting documents, including board meeting minutes, available to the public either upon request or by posting on the charter school's website.

Charter School acknowledges the District's statutory right to appoint, at the District sole discretion, a single representative of the District's choosing to the Charter School governing board pursuant to Education Code section 47604(c).

Required Notifications to the District

Charter School shall notify OCS in writing of any citations or notices of workplace hazards; investigations by outside regulatory or investigative agencies, lawsuits, changes in corporate or legal status (e.g. loss of IRS 501(c)(3) status), or other formal complaints or notices, regarding any aspect of Charter School's operations, within one week of receipt of such notices by Charter School. Unless prohibited by law, Charter School shall notify OCS in writing of any internal investigations within one week of commencing investigation. Charter School shall notify OCS within 24 hours of any dire emergency or serious threat to the health and safety of students or staff. This 24-hour notification applies to any allegations of serious misconduct related to student safety or child abuse by any student or adult that occurred on campus.

Charter School Records

Upon receiving a records request from a receiving school/school district, Charter School shall transfer a copy of the student's complete cumulative record within ten (10) school days in accordance with Education Code section 49068. Charter School shall comply with the requirements of California Code of Regulations, title 5, section 3024, regarding the transfer of student special education records. In the event Charter School closes, Charter School shall comply with the student records transfer provisions in Element 15. Charter School shall comply with the requirements of Education Code section 49060 *et seq.*, regarding rights to access student records, and Education Code section 49069.3 and 49069.5 regarding transfer of records for youth in foster care.

Charter School acknowledges that pursuant to Article XVI section 8.5(e) of the California Constitution, sections 2(e), 6, and 8 of Proposition 98, and sections 33126.1(b), 35256(c), and 35258 of the Education Code require schools, including Charter School to provide certain information in certain formats in certain ways to the general public and specifically to parents of students at Charter School and of the District. Charter School further acknowledges that it has the obligation to provide all of such information to the District that is required by these referenced authorities in a timely manner so that the District may meet its obligations under those authorities as well. To the extent that there is information that the District has,

but that Charter School does not have that Charter School needs in order to meet its obligations, the District shall provide the same to Charter School in a reasonably timely manner upon request under Education Code section 47604.3.

Charter School in accordance with Education Code section 47604.3, shall promptly respond to all reasonable inquiries from the District, including but not limited to, inquiries regarding financial records, Letters of Inquiry, and Notices of Concern, and shall consult with the District as needed regarding any such inquiries. Charter School acknowledges that it is subject to audit by District. If the District seeks an audit of Charter School, the District shall assume all costs of such audit. This obligation for the District to pay for an audit only applies if the audit requested is specifically requested by the District and is not otherwise required to be completed by Charter School by law or charter provisions.

Charter School Ombudsperson

Charter School shall ensure that, at all times throughout the term of the Charter, a neutral party, “Ombudsperson”, is identified to serve as an independent resource, assisting families and community members in investigating and addressing complaints, conflicts, and other school-related issues. This individual’s name and contact information should be clearly articulated in the Charter School’s student and family handbook or distributed widely.

Legal Structure

KIPP Bridge Academy is a directly funded independent charter school, and is operated by KIPP Northern California, a non-profit public benefit corporation registered in the state of California. It is the responsibility of KIPP Northern California to be accountable to the District for the implementation of KIPP Bridge’s charter. KIPP Northern California exists to ensure that KIPP Bridge adheres to the proven success of the KIPP model and to this charter, and that KIPP Bridge has the resources and support necessary to be successful. The Board of KIPP Northern California governs KIPP Bridge.

KIPP Bridge operates autonomously from the District, with the exception of the supervisory oversight as required by statute and other contracted services as may be negotiated between the District and the KIPP Bridge. Pursuant to Education Code Section 47604(d), the District shall not be liable for the debts and obligations of the Charter School, operated by a California non-profit public benefit corporation, or for claims arising from the performance of acts, errors, or omissions by the Charter School, as long as the District has complied with all oversight responsibilities required by law.

Please refer to Appendices 13, 14 and 15 for the organizational documents of KIPP Northern California, including the Articles of Incorporation, Bylaws, and Conflict of Interest Code.

Governance Structure

The governance structure of KIPP Northern California serves three primary objectives:

- To promote the success of KIPP Bridge and its students through local responsibility and autonomy
- To ensure adherence to the proven success of the KIPP educational philosophy that has been demonstrated across the nation
- To allow the leadership of KIPP Bridge to focus on the educational program of the Charter School, staff development, and community relations

Below is an organizational chart of KIPP Bridge’s governance structure:

Figure 10. KIPP Bridge Governance Structure

Board of Directors

The KIPP Northern California Board of Directors (“Board”) is the governing body of KIPP Bridge. The Board complies with the Ralph M. Brown Act. Please see Appendix 16 for the Board’s job description, list of board members, and their biographies.

Governance, policy-making authority, and fiduciary responsibility for KIPP Bridge rests with the KIPP Northern California Board of Directors. The Board works closely with its Chief Executive Officer and the School Leader of KIPP Bridge to implement KIPP Northern California’s educational philosophy.

Composition of KIPP Northern California’s Board of Directors

KIPP Northern California’s Board of Directors holds public meetings in accordance with the Ralph M. Brown Act and Education Code Section 47604.1(c) and complies with the California Public Records Act. Board directors support the mission of KIPP Northern California and serve voluntarily. KIPP Northern California seeks to ensure that its directors represent a broad area of expertise and cross-section of the community at large. KIPP Northern California aims to have directors with expertise in real estate, nonprofits, law, finance, management, education, community outreach, philanthropy, and diversity, equity, and inclusion.

KIPP Northern California’s Board will be comprised of 21 directors for the 2024-25 school year, pursuant to its Bylaws, which allows for no less than 15 and no more than 27 directors. Board members are elected to serve three-year terms and may serve up to three consecutive terms. In accordance with Education Code Section 47604(c), the District may appoint a representative to sit on the Board of Directors. If the District chooses to do so, KIPP Northern California may designate an additional member to ensure that the Board is maintained with an odd number of directors. In 2022, the KIPP NorCal Board elected two KIPP Northern California parents to serve on the Board, and plans to include parents on the Board into the future. We are excited by this addition in ensuring our families are involved at all levels of the decision making process.

Board Recruitment Process

The KIPP Northern California Board recruiting process includes the following actions:

- Identification of a prospective Board member
- Cultivation of prospective Board member
- The Board’s Governance Committee reviews nominations quarterly and ranks prospective members based on their ability to meet KIPP Northern California’s strategic goals and maintain KIPP Northern California’s best-in-class Board

The Governance Committee cultivates prospective Board members in the following ways:

- Shares information concerning the history and future plans of KIPP Northern California including specific information regarding the Board and its role in the governance and support of KIPP Northern California (i.e. Board member roles and responsibilities, meeting schedule, committee structure, etc.)
- Prospective Board member visits one or more schools operated by KIPP Northern California
- Prospective Board member meets with the Chief Executive Officer of KIPP Northern California
- Prospective Board member interviews with the Governance Committee member(s)
- Prospective Board member interviews with the Board Chairperson
- Governance Committee presents formal recommendation to the full Board of KIPP Northern California; Board votes on prospective candidate(s)

- Board Chairperson meets with the candidate and extends offer to join KIPP Northern California Board of Directors

Board Selection Process

The qualifications sought in those candidates interested in serving on the Board include, but are not limited to:

- A dedication to furthering the vision and mission of KIPP Northern California
- Willingness to volunteer for one or more Board committees and the ability to contribute appropriate time and energy necessary to follow through on assigned tasks
- Ability to work within a team structure
- Expectation that all students can and will realize high academic achievement
- Specific knowledge, experience, and/or interest in at least one element of governance for KIPP Northern California
- Strategic expertise that will advance KIPP Northern California’s mission

New members of the Board of Directors or members seeking another term are chosen through an election process.

Roles and Responsibilities of Board Members

The KIPP Northern California Board of Directors’ primary responsibility is to help set policies and guide the executive team and School Leader of KIPP Northern California’s respective charter schools, including KIPP Bridge.

The Board is empowered to:

- Ensure that KIPP Bridge adheres to the goals outlined in this charter, as well as state and federal guidelines and other KIPP Northern California policies
- Hold the School Leader of KIPP Bridge and the Chief Executive Officer of KIPP Northern California accountable for the academic and fiscal performance of the Charter School
- Provide support to KIPP Bridge for additional fundraising, marketing and other services as needs arise
- Advocate on behalf of KIPP Bridge by working to establish partnerships with community organizations, institutes of higher learning, and foundations and corporate entities that support public education
- Seek parent, family, and community feedback to support success of schools
- Define and refine KIPP Bridge’s mission, vision, and strategic direction
- Recruit, support, and evaluate the Chief Executive Officer of KIPP Northern California
- Ensure effective organizational capacity and planning

- Ensure adequate resources and the effective management of those resources
- Enhance the organization’s public standing
- Ensure fiscal, legal and ethical integrity and maintain accountability
- Recruit and orient new Board members
- Assess Board performance
- Provide support to KIPP Bridge for additional fundraising, marketing and other services as needs arise

The Charter School has adopted a Conflict of Interest Code that complies with the Political Reform Act, Corporations Code conflict of interest rules, and Government Code Section 1090, *et seq.*, as set forth in Education Code Section 47604.1, and which shall be updated with any charter school-specific conflict of interest laws or regulations. As noted above, the Conflict of Interest Code is attached as Appendix 15.

The Board may execute any powers delegated by law to it and shall discharge any duty imposed by law upon it and may delegate any of those duties with the exception of budget approval or revision, approval of the fiscal audit and performance report, and the adoption of Board policies. The Board however, retains ultimate responsibility over the performance of those powers or duties so delegated.

Such delegation will:

- Be in writing;
- Specify the entity designated;
- Describe in specific terms the authority of the Board of Directors being delegated, any conditions on the delegated authority or its exercise and the beginning and ending dates of the delegation; and
- Require an affirmative vote of a majority of Board members.

The Charter School Board of Directors will attend an annual in-service for the purposes of training individual Board members on their responsibilities with topics to include, at minimum, ethics, conflicts of interest and the Brown Act.

Board Meetings

The KIPP Northern California Board of Directors meets at least quarterly. Meetings comply with the Brown Act. Meeting notices, agendas, and approved minutes are posted publicly as well as on the KIPP Northern California website, in compliance with the requirements of the Brown Act. The Board Secretary is responsible for recording governing Board actions.

Pursuant to Education Code Section 47604.1(c)(4)(A)-(B), the KIPP Northern California Board of Directors shall meet within the physical boundaries of the county in which the greatest number of students enrolled in those charter schools managed by KIPP Northern California reside, and a two-way teleconference location shall be established at each KIPP Northern California schoolsite and resource

center. In addition, pursuant to Section 47604.1(c)(4)(C), the KIPP Northern California Board shall audio record, video record, or both, all Board meetings and post the recordings on each KIPP Northern California charter school's website.

Board Committees

The KIPP Northern California Board may include several committees designed to enhance the operation of the Board and provide additional oversight. Individuals who are not directors may participate and be members of Board committees. Committees of the Board may include:

- Finance and Investment. The Finance and Investment Committee reviews and recommends approval of the annual operating budget to the full Board, regularly reviews and monitors financial results, ensures the maintenance of an appropriate capital structure, and oversees the management of financial assets.
- Governance. The Governance Committee ensures the health and effectiveness of the full Board and the work it performs for the organization. The committee focuses on Board evaluation, composition, recruiting, nominating, training and education.
- Audit and Risk Management. The Audit and Risk Management Committee oversees accounting and financial reporting processes including internal controls, recommends selection of the organization's auditor to the Board, and oversees the organization's annual fiscal audit.
- Grievance. The Grievance Committee may act on behalf of the Board in reviewing student expulsions, and responding to employee workplace-related concerns and parent grievances.
- Executive. The Executive Committee assists the Board by having the authority to carry out limited, expressly delegated functions between Board meetings.

Consistent with the Bylaws, meetings and actions of Board committees shall be governed by and held in accordance with the provisions of the Bylaws relating to meetings and actions of the Board, including compliance with the Brown Act.

The KIPP Northern California Board may also use, from time to time, ad hoc committees as well as task forces and/or management advisory teams to help with the foregoing topics and specific issues or projects.

KIPP Northern California has and exercises the right to regularly inspect and evaluate the operations and performance of KIPP Bridge to ensure that the Charter School's educational programs are closely monitored and maintain KIPP Northern California standards.

Role and Responsibilities of the Chief Executive Officer in Governance

The Chief Executive Officer of KIPP NorCal is accountable directly to the Board of Directors for the performance of the region and the charter schools within it. The Chief Executive Officer's primary goal is to ensure the high quality, strategic growth and operational sustainability of KIPP Northern California charter schools in his or her region. Key responsibilities include:

- Developing and executing the region's vision
- Building and managing a high-performing Regional Team that is able to support schools in their drive to deliver transformational educational outcomes for students
- Building the short and long-term organizational capacity required for operational excellence and sustainability
- Engaging key constituents

Please see Appendix 17 for the job description for KIPP Northern California's Chief Executive Officer.

Engaging Parents and the Community

KIPP Bridge operates under the premise that teachers, parents/families, and students must work together as partners to create the potential for a quality education. Parents and families are a vital part of this partnership. KIPP Bridge involves parents and families as key stakeholders in the Charter School. KIPP Bridge utilizes opportunities for parent and family engagement and seeks feedback from them as key partners in the success of the Charter School. In order to improve our governance practices and have a board reflective of our values of equity and including, in 2022, two KIPP Public Schools Northern California parents were elected to the Board of Directors. We plan to continue ensuring parent representation on our board.

Opportunities for family involvement may include participation in the KIPP Family Council, Coffee with Principal, English Learner Advisory Committee, parent-teacher conferences, report card pick up, literacy workshops, newsletters, local field trips, and a variety of school events each year such as Eid Festival and Pride Parade. KIPP Bridge parents are encouraged to join the KFA, a direct forum for the School Leader and families to engage in ongoing collaboration to ensure the success of the Charter School. The KFA advises and assists the School Leader with activities such as hiring, fundraising, event planning, community outreach, resource development, extracurricular programs, and community service projects. Parents are also encouraged to engage with the school through the KIPP Family Council and engage with KIPP leadership and the Board directly. In addition, we seek opportunities for members of the Board and regional leadership to reach out with parents, either by hosting in-person Q&A sessions onsite at the Charter School or by enabling parents to present their testimony and attend Board meetings. Parents and family members are welcome at KIPP Bridge and are encouraged to volunteer at the Charter School through a variety of opportunities, although there will not be a required number of volunteer hours or days.

Parent Advisory Council

KIPP Bridge has established a KIPP Family Council (“KFC”) to receive and communicate input from the school community to the school leader, as well as to give input on the Local Control and Accountability Plan, in accordance with state and federal legal requirements and as its chose method of meeting federal requirements applicable to Title I recipients. The KFC shall be composed of: the School Leader; teachers selected by teachers at the Charter School; other Charter School personnel selected by other Charter School personnel at the Charter School; and families of students attending the Charter School and/or community members selected by such families.

Community Engagement

Building strong links with the local community is critically important to KIPP Bridge’s success. KIPP Bridge seeks to partner with individuals and organizations in the community that complement KIPP’s mission. A KIPP staff member operating within the role of Community & Collaborative Support Manager serves as a liaison between our schools and community partners, with the aim of establishing partnerships that support our families and students. Current and past partnerships include Alameda County Community Food Bank, Sidra MENA Community Wellness, Safe Passages, Family Support Services, Family Paths, One Warm Coat, and Oakland Adopt a Spot.

KIPP Northern California’s management team and/or Board of Directors will respond to all parent and community concerns. Any individual or group may bring complaints or concerns to the management team and/or Board for any reason. Such complaints or concerns directed to the Board will be submitted to the Board up to one week prior to the next Board meeting. Complaints submitted later will be addressed at the subsequent Board meeting. Emergency issues will be dealt with on an as-needed basis, with the Board responding at or prior to its next regular public meeting. Every effort will be made to respectfully address each matter to the satisfaction of the individual or group that presented the complaint. The Board, as necessary, shall direct the School Leader or other responsible party to act upon the complaint and report to the Board. The Board of Directors shall as necessary render its determination in writing.

ELEMENT 5 – Employee Qualifications

“The qualifications to be met by individuals to be employed by the charter school.” – Ed. Code § 47605(c)(5)(E)

Equal Employment Opportunity and Nondiscrimination

Charter School acknowledges and agrees that all persons are entitled to equal employment opportunity. Charter School shall not discriminate against applicants or employees on the basis of race, color, religion, sex, gender, gender expression, gender identity, sexual orientation, pregnancy, national origin, ancestry, citizenship, age, marital status, physical disability, mental disability, medical condition, genetic information, military and veteran status, or any other characteristic protected by California or federal law. Equal employment opportunity shall be extended to all aspects of the employer-employee relationship, including recruitment, selection, hiring, upgrading, training, promotion, transfer, discipline, layoff, recall, and dismissal from employment. Charter School further acknowledges that it shall not retaliate against any employee for engaging in protected activity, exercising a protected right, or initiating or pursuing any claim, proceeding, charge or complaint based upon an allegation of discrimination.

Teacher Credentialing Requirements

Charter School shall adhere to all State and federal requirements that are applicable to teachers and paraprofessional employees. Charter School shall ensure that all teachers meet applicable state requirements for certificated employment, including the provisions of Education Code section 47605(I). Charter School shall maintain current copies of all teacher credentials and make them readily available for inspection.

Reporting Educator Misconduct to the California Commission on Teacher Credentialing

Charter School shall comply with Education Code section 44030.5 with respect to reporting the change in employment status to the California Commission on Teacher Credentialing where the change of employment status is a result of an allegation of misconduct, or while an allegation of misconduct is pending, and with Education Code section 44939.5 regarding the reporting of egregious misconduct.

Employment of Felons

The Charter School shall comply with the provisions of Education Code section 44830.1 and 45122.1 with respect to the submission of fingerprints to the Department of Justice and the employment of persons convicted of violent or serious felonies.

Teacher Certification

KIPP Bridge adheres to the legal requirements of Education Code Sections 47605(l) and 47605.4(a), and shall ensure that KIPP Bridge teachers hold the Commission on Teacher Credentialing certificate, permit, or other document required for the teacher's certificated assignment. The Charter School may use local assignment options authorized in statute and regulations for the purpose of legally assigning certificated teachers, in the same manner as a governing board of a school district. Teachers employed by charter schools during the 2019-20 school year shall have until July 1, 2025 to obtain the certificate required for the teacher's certificated assignment.

Certificated teachers are responsible for overseeing student academic progress and for monitoring grading and matriculation decisions as specified in the Charter School's operational policies. The School Leader, together with the Human Resources team at KIPP Northern California, will monitor the credentials and ensure all teachers hold their required certification(s). KIPP Northern California may also employ or retain non-certificated instructional support staff at the Charter School in cases where an individual has an appropriate mix of subject matter expertise, professional experience, and the demonstrated capacity to work successfully in the Charter School's rigorous academic environment.

KIPP Bridge will not discriminate or harass based upon the actual or perceived characteristics of race, religion, creed, color, gender, gender identity, gender expression, nationality, national origin, ancestry, ethnic group identification, genetic information, age, medical condition, marital status, sexual orientation, sex and pregnancy, physical or mental disability, childbirth or related medical conditions, military and veteran status, denial of family and medical care leave, immigration status, or on the basis of a person's association with a person or group with one or more of these actual or perceived characteristics, or any other basis protected by federal, state, local law, ordinance or regulation. KIPP Bridge will be a School of Choice and no employee will be required to be employed. KIPP Bridge will comply with all state and federal laws concerning the maintenance and disclosure of employee records and applicable federal mandates and legal guidelines in the Education Code as well as all federal and state laws for background checks.

The following section outlines the commitments and qualifications of staff at KIPP Bridge.

Staff Commitments

All prospective staff members must show a strong desire to teach an academically intense curriculum, commit to an extended school day, and continue their professional development during the Charter School's professional development days. Additionally, all staff must meet any additional guidelines and standards set by KIPP Bridge and KIPP Northern California.

All KIPP Bridge faculty will commit to:

- Abide by applicable federal, state, and local laws
- Maintain a professional relationship with all students and a high level of professional conduct
- Refrain from the abuse of alcohol or drugs during the course of professional practice
- Exemplify honor and integrity in the course of professional practice, particularly in the use of public funds and property
- Comply with state, federal, and local laws regarding the confidentiality of student records
- Fulfill the terms and obligations detailed in the Charter School's charter
- File necessary reports of child abuse
- Adhere to all guidelines in the KIPP Northern California Staff Handbook (Appendix 18) and the KIPP Bridge Team and Family Handbook (Appendix 19)
- Maintain unquestioned integrity and commitment to KIPP Northern California and students

School Leadership

The School Leader will be responsible for the implementation of all aspects of this charter, and for the day-to-day operations and management of KIPP Bridge Academy.

KIPP NorCal has created a Leadership Excellence Rubric for School Leaders. The Leadership Excellence Rubric was created to support leader growth and development. We believe establishing a rigorous and shared vision for what leadership excellence looks like at KIPP NorCal will help us accelerate leader growth, develop leadership pipelines, align leadership development activities and ultimately, drive stronger and more consistent outcomes for our students. The Leadership Excellence Rubric is attached as Appendix 20.

The following detail the roles, responsibilities, and qualifications of KIPP Bridge's leadership team:

School Leaders

Reporting to a Managing Director of Schools for KIPP Northern California, the School Leaders set the tone, and is an ambassador of, a powerful vision for student achievement based on KIPP's philosophy and guiding principles. The School Leaders must strategically implement KIPP Bridge Academy's mission through effective leadership and management of students and staff. The School Leaders' collaboration

with their leadership teams will result in an instructional program and school environment that prepares every student for success in college and in life.

Qualifications:

- Bachelor’s Degree (required); Master’s Degree (preferred)
- A minimum of 3-5 years teaching in a low income school with demonstrated exemplary student results
- At least two years of leadership in a low income school with demonstrated exemplary student results
- A valid teaching credential in California or a transferable credential from another state preferred
- Deep knowledge of effective research based instructional strategies
- Ability to effectively manage instructional and non-instructional personnel
- Ability to evaluate instructional programs and teaching effectiveness
- Excellent communication, public relations, and interpersonal skills
- Ability to implement effective business systems that ensure proper stewardship of school funds
- Ability to exercise excellent judgment in decision-making
- Knowledge in the selection, training, and supervision of personnel
- cursory knowledge of the laws, rules, procedures, and programs specifically related to the operation of charter schools
- Proficient knowledge of Google Suite applications (Google Classroom, Hangout, Docs, Sheets, Slides, etc.)
- Ability to learn and utilize instructional technology to support in-class and distance learning (i.e. Zoom, Nearpod)

Assistant Principals

At KIPP Public Schools Northern California, we believe that Assistant Principals are our future School Leaders. We actively develop Assistant Principals for School Leadership and feel the Assistant Principal should consider themselves as an apprentice to the School Leader. The Assistant Principal should gradually build capacity to lead a KIPP school.

The Assistant Principal’s job is to support the Charter School in driving academic and social emotional learning outcomes for students as a key member of the Charter School’s leadership team. Assistant Principals are expected to lead both instruction and school culture, while developing the skills of the Charter School's emerging leaders.

Qualifications:

- Bachelor’s Degree (required); Master’s Degree (preferred)
- A minimum of 3-5 years teaching in a low income school with demonstrated exemplary student results
- A valid teaching credential in California or a transferable credential from another state preferred

- Student Focus: Belief that all students, regardless of background, have the ability to go to and through college; demonstrated commitment to the Charter School’s unique community
- Direction Setting: Ability to set direction for a team and motivate others to action
- Achievement Orientation and Performance Management: Demonstrated student achievement results in own classroom and from teachers that he/she manages
- Cultural Competence: Demonstrated ability to create inclusive environments that honors and supports a diversity of backgrounds and perspectives
- Instructional Leadership: Adept at data analysis; ability to extract meaningful insights across school-wide data
- Instructional Leadership: Expertise in what the school-wide academic standards and state assessments require of students’ knowledge and skills to demonstrate mastery; able to translate student mastery requirements into instructional plans and strategies
- Instructional Leadership: Deep understanding of appropriate application and differentiation of high-leverage instructional strategies (e.g. make kids sweat, pacing, stretch it, etc.) based on comprehension of child development and pedagogy
- Relationship Building: Expertise in cultivating relationships and managing a diverse group of stakeholders
- Achievement Orientation: Demonstrated resilience and focus on student outcomes
- Proficient knowledge of Google Suite applications (Google Classroom, Hangout, Docs, Sheets, Slides, etc.)
- Ability to learn and utilize instructional technology to support in-class and distance learning (i.e. Zoom, Nearpod)

Directors of School Operations

The Directors of School Operations (“DSOs”) lead strategic operational priorities, manage day-to-day school operations, drive efficiencies and systematization, and partner with our instructional leaders to ensure procedures at our school maximize time students spend learning – both in-person and virtually.

The DSOs are instrumental in building and sustaining a thriving school that lasts. At KIPP Northern California, DSOs are the strategic business and operational directors of our schools, whose job is to drive exemplary operational results as key members of the Charter School’s leadership team. KIPP’s DSOs are passionate about working with kids, parents and staff, know the importance of an excellent education and believe all students deserve the opportunity to attend an excellent school.

The DSOs report to the School Leader and are coached and supported by the Operations team at the Regional Support Office (“RSO”), which supports all KIPP schools in the Bay Area.

Qualifications:

Experience:

- Deep integrity and commitment to KIPP Public Schools Northern California’s mission and values required
- 2+ years of experience in project or program management, operations, human resources or accounting - with clear experience driving stakeholder engagement required
- 1+ year of direct people management and team development experience required
- 1+ year of experience in K-12 education or youth development preferred

Education:

- Bachelor’s Degree in Policy, Business, or related field and 3+ years of work experience or 5+ years’ work experience required

Knowledge/Skills Required:

- Highly self-aware and reflective, with a commitment to feedback and growth
- Ability to self-direct, prioritize and multi-task among competing goals
- Demonstrated experience working and solving problems in a fast-paced, entrepreneurial environment
- Demonstrated ability to work well with others, build relationships across teams, and influence even in the absence of formal authority
- Success leading change initiatives in a complex environment with multiple stakeholders
- Excellent written and verbal communication skills
- Proficiency in one or more of the languages spoken by the communities we work with is required/preferred
- Proficiency in Microsoft Suite or Google Suite required
- Ability to learn and utilize technology necessary to operate in a virtual office environment (i.e. Zoom, Go to Meeting)

Instructional Staff

Teachers

Our teachers play a key role in the establishment of curriculum and culture as they develop a world-class education program from the stages of vision to execution.

The outcomes our students deserve necessitate continuously strong teaching from the time our students enter kindergarten until they graduate from college. As such, our teachers work closely with each KIPP Northern California school’s leadership team to ensure our students learn, grow, and eventually achieve transformative life outcomes. Each teacher will be responsible for ensuring that our students have the opportunity to learn in an environment of joyful, excellent teaching.

Above all else, the most effective teachers find joy and purpose in teaching children the habits necessary to be successful in school and relish the opportunity to imbue our students with a love for learning.

Teachers must also be committed to KIPP Northern California’s mission, while possessing the beliefs, character traits, and skills necessary to ensure student growth and achievement.

Teachers are expected to plan, organize and implement an appropriate instructional program in a TK-12 learning environment, both in an in-person classroom setting and virtually, that guides and encourages students to develop and fulfill their academic and socio-emotional potential. Work is performed under the supervision of the School Leader.

Qualifications:

Education:

- B.A/B.S. degree from a regionally accredited institution
- Valid CA certificate, permit, or other document required for the teacher’s certificated assignment, as issued by the Commission on Teacher Credentialing.
 - Teachers employed by charter schools during the 2019-20 school year shall have until July 1, 2025 to obtain the certificate required for the teacher’s certificated assignment

Experience:

- Experience as an educator in a traditionally underserved community for one or more years with demonstrated strong achievement results and documented growth on formative assessments
- Knowledge of child cognitive development and different learning styles
- Ability to establish and maintain cooperative and effective working relationships with others
- Report to work on a regular and punctual basis

Knowledge/Skills Required:

- Model KIPP values
- Possess strong content area knowledge and classroom management skills
- Proficient knowledge of Google Suite applications (Google Classroom, Hangout, Docs, Sheets, Slides, etc.)
- Ability to learn and utilize instructional technology to support in-class and distance learning (i.e. Zoom, Nearpod)
- Communicate well with students, families, and colleagues
- Be committed to working with educationally underserved students
- Believe all students can achieve at the highest academic levels
- Teach in our extended day and year schedule
- Contribute to a relentless and dedicated team of outstanding professionals
- Proficiency in one or more of the languages spoken by the communities we serve a plus

Special Education Teachers (Education Specialists)

Education Specialists serve as Special Education Teachers and Case Managers, working primarily with

students with Individualized Education Plans in inclusive settings, resource programs, and highly specialized Special Education programs, both in an in-person classroom setting and virtually. Education Specialists work closely with school leadership, general education teachers, program specialists, and multidisciplinary teams to plan and implement individualized and rigorous educational programming for students in Special Education. Education Specialists are responsible for Case Management and Compliance, Goal Setting and Progress Monitoring, Stakeholder Engagement and Empowerment, as well as Lesson Planning and Delivery of effective teaching practices for all students.

Above all else, the ideal Education Specialist will find joy and purpose in supporting children to develop the habits necessary to be successful in school and beyond, and they will relish the opportunity to imbue our students with a love for learning. They must also be committed to KIPP Northern California’s mission while possessing the beliefs, character traits, and skills necessary to ensure student growth and achievement.

Qualifications:

Education

- B.A/B.S degree from a regionally accredited institution
- Hold a valid credential or permit as an Education Specialist authorizing service in grade levels & areas assigned as an Education Specialist in the state of CA, along with any appropriate authorizations (e.g., Autism Authorization, Cross-Cultural Language and Academic Development (“CLAD”) Certificate, etc.), or be in the process of securing a valid teaching document

Experience

- Two years of successful, full time teaching experience in Special Education
- Demonstrated success teaching students from educationally underserved areas with strong achievement results and documented growth on formative assessment and/or IEP goal assessment
- Experience as an educator in a traditionally underserved community for one or more years with demonstrated strong achievement results and documented growth on formative assessments
- Knowledge of child cognitive development and different learning styles
- Ability to establish and maintain cooperative and effective working relationships with others
- Spanish, Arabic, Vietnamese, or Mandarin speaking proficiency

Knowledge/Skills Required

- Model KIPP Northern California values
- Possess strong content area knowledge and classroom management skills
- Proficient knowledge of Google Suite applications (Google Classroom, Hangout, Docs, Sheets, Slides, etc.)
- Ability to learn and utilize instructional technology to support in-class and distance learning (i.e. Zoom, Nearpod)
- Communicate well with students, families, and colleagues

- Be committed to working with educationally underserved students
- Believe all students can achieve at the highest academic levels
- Teach in our extended day and year schedule
- Contribute to a relentless and dedicated team of outstanding professionals

Non-Instructional Staff

Paraeducator

Reporting to the School Leader and under the direction of the Education Specialist or other certificated employee, the Paraeducator primarily assists by performing a variety of academic and behavior support duties to individual or small groups of students within the special education classroom, regular classroom and other school settings (both in an in-person classroom setting and virtually). These duties shall be designed to complement the instructional program to maximize learning opportunities for students in a variety of educational settings. The Paraeducator also assists in the establishment and implementation of appropriate classroom and school-wide behavior and assists students to access all aspects of the educational environment of the Charter School and the community.

Qualifications:

Education:

- Completed at least two years of study at an institution of higher education - defined as completion of 48 semester hours (or equivalent trimester hours) of college coursework; or
- Obtained an associate (or higher) degree; or
- Pass the CBEST or a local assessment of knowledge and skills in assisting in instruction
- Registered Behavior Technician certification is preferred, but not required.

Experience:

- Paid or volunteer experience working with or serving individuals with autism or behavioral deficits is preferred

Knowledge/Skills Required:

- Bilingual in languages that are a reflection of populations that the Charter School works with is preferred
- Proficient knowledge of Google Suite applications (Google Classroom, Hangout, Docs, Sheets, Slides, etc.)
- Ability to learn and utilize instructional technology to support in-class and distance learning (i.e. Zoom, Nearpod)
- A deep passion for social justice and equity for all children; believes that all students can achieve at the highest levels, regardless of demography
- Experience working with a diverse staff and students

- Excellent organizational, planning, and implementation skills
- Excellent communication and interpersonal skills
- Results-oriented team player who is dedicated to getting the job done
- Unquestioned integrity and commitment to KIPP Northern California’s mission and values

Mental Health Clinicians

Reporting to the School Leader and receiving coaching from the Regional Clinical Supervisor, the Mental Health Clinician will provide psychotherapeutic interventions, behavioral supports, and mental health treatment services including counseling, consultation, treatment and case management for all students. The Mental Health Clinician also offers collaboration and training for teachers on mental health topics and interventions that are culturally appropriate and trauma responsive.

Qualifications:

Experience:

- At least one year (2+ years preferred) of post-master’s experience providing mental health and substance abuse services in school-based settings
- At least one year (2+ years preferred) of post-master’s experience providing mental health services in a community mental health setting

Education:

- Master’s Degree in Psychology, Social Work, Marriage and Family Therapy, or a related field
- Possession of associate level registration or counseling licensure as dictated by the California Board of Behavioral and Social Sciences

Knowledge/Skills Required:

- Familiarity with community behavioral health systems of care, including the philosophy of care, levels of care for counseling services, and the delivery of such services, highly preferred
- Familiarity with local community resources/services (which may include health, mental health, substance abuse, vocational, housing, etc.) highly preferred
- Strong commitment to the philosophy, goals, and mission of KIPP Public Schools Northern California and to providing community-based, culturally competent, and client centered mental health treatment and prevention services for the school community
- Commitment to engaging in professional development activities such as trainings, continuing education seminars, case conferences, and reviewing up-to-date material, etc., as related to treatment and intervention strategies for the Charter School community
- Strong interpersonal skills and the ability to work effectively, function independently, and interact professionally with a diverse, multicultural, and interdisciplinary staff of all levels

- Knowledge of crisis intervention, strong work ethic, demonstrated flexibility, superior time management and boundary-holding skills, and a commitment to KIPP Northern California’s philosophy as well as to the foundational school-wide systems at this campus
- Strong skills in self advocacy as well as for advocacy of students and families
- Commitment to systems change, equity and justice as well as to providing services with a trauma-informed care lens
- Familiarity with socio-emotional learning competencies and restorative practices is a plus
- Must be able to effectively communicate with the student or family population
- Bilingual candidates in Spanish, Arabic or Vietnamese also a plus, though not required

Hiring Procedure

KIPP Bridge recruits teachers through various channels including but not limited to: Education Week, Teach for America, Idealist, Ed-Join, the KIPP NorCal website, graduate schools of education, Teacher Residency Programs, LinkedIn and referrals. The KIPP Northern California Regional Support Office supports KIPP Bridge with talent recruitment, primarily by advertising open positions and conducting early-stage interviews.

Prospective teachers usually teach demonstration lessons that must be student-driven and exhibit a strong command of the subject area. Each applicant undergoes formal and informal interviews to ensure that their values are aligned with the KIPP educational philosophy. The School Leader is responsible for the final hiring decision of all Charter School employees.

All faculty and staff undergo a criminal background check and fingerprinting to be conducted by the Department of Justice and the FBI. The applicants are required to provide a full disclosure statement regarding prior criminal records. The Charter School shall verify employment eligibility of all Charter School staff pursuant to all applicable state and federal requirements. In accordance with Education Code Section 49406 and Health and Safety Code Sections 121525 -121555, all Charter School employees shall undergo a tuberculosis (“TB”) risk assessment (and examination, if necessary), upon hire and every four years thereafter.

Compensation

Teachers are the core element of KIPP Northern California’s success. It is therefore essential that teachers are supported, developed, and well-compensated. The Charter School will offer competitive salaries, and compensation is determined individually based on teaching experience and responsibilities undertaken.

In addition to salary, teachers will be offered a competitive benefits package. Salary, and as applicable other financial compensation, is outlined in formal employment offer letters signed by KIPP Northern

California and the employee. In addition, KIPP Northern California has a formalized salary scale that will be updated as necessary to adjust for cost of living standards. Standards of professional conduct are clearly explained in the Employee Handbook.

Teacher Professional Development and Evaluation

A Professional Teaching and Learning Environment

Strong, dedicated teachers are the backbone of any excellent school, and KIPP Northern California schools are no exception. KIPP Bridge prioritizes hiring outstanding, committed teachers familiar with the population of students the Charter School serves. Much is expected of KIPP Bridge teachers. In addition to the extended time in class, teachers are expected to be wholly focused on KIPP Bridge's mission, committed to its values, and open to collaboration and constant learning.

In return, KIPP Bridge's teachers are treated as the professionals that they are. They are supported in their professional growth with time for planning and collaboration, coaching, and resources for improving instruction. Teachers at KIPP Bridge are encouraged to regularly visit each other's classrooms to create consistency in content of lessons as well as classroom culture, and to learn from their peers. To continually improve instruction and the implementation of the KIPP model at KIPP Bridge, teachers have the opportunity to receive feedback from the Charter School's leadership team on the results of their students. Each teacher is also provided with the necessary tools for effective lesson preparation and communication with families, including a laptop computer, cell phone, and high-speed Internet access. In addition to school-site professional development budgets, teachers have the opportunity to apply for funds from KIPP Northern California to support their professional growth.

Professional Development

At KIPP Bridge, the School Leader and instructional leadership team will set the tone and develop the conditions under which staff members become the keepers of the Charter School's culture and values and grow as teachers and learners. As a result, staff development supports the Charter School's mission and basic values by fostering a positive campus culture, sharing the best instructional practices, and encouraging individual teacher growth. Beginning in staff orientation before summer school, the School Leader and instructional leadership team will ensure that teachers fully understand and support the Charter School's mission, goals, and basic values, emphasizing a rigorous, standards-based college-preparatory program. This orientation will involve specific activities designed to align the staff and foster teamwork, such as learning about our community through community, student, and family panels.

During the school year, staff development continues through professional development days, whole staff meetings, and department and grade level team meetings. Over the course of the year, teachers may receive two weeks of professional development during which they are trained to function

effectively within the parameters of the Charter School and to meet the goals outlined in the accountability plan. Teachers are encouraged to observe each other and other excellent teachers in the community and receive regular feedback on their performance, goals, and growth. Staff development also occurs through weekly observation and coaching meetings between teachers and their instructional coaches. Coaches use classroom observations, aligned to the KIPP Northern California Teaching Excellence Rubric, and student data to determine which teaching skills will be highest leverage in increasing student learning and meeting goals.

Prior to the beginning of the school year, teachers attend staff development sessions in order to provide teachers with an opportunity to design their goals, objectives, and curriculum for the summer and the upcoming school year. Also during this time, teachers continue their preparation by adapting curriculum to address the specific needs and interests of the students.

KIPP Northern California teachers consistently exchange best practices with each other and teachers at similar schools. Professional development involves structured whole staff and small group practice, and is individualized to best serve each teacher's needs. Teachers may also receive approximately 40 hours of professional development at conferences sponsored by the KIPP Foundation, including the KIPP School Leadership Programs and the Research for Better Teaching programs. Finally, staff may participate in online communities of teachers throughout the KIPP network of schools.

Staff Evaluation Plan

The School Leader is responsible for setting a clear vision for the evaluation of all teachers and support staff. Assistant Principals and other instructional coaches serve as evaluators and lead the development of Personal Development Plans with their coaches throughout the course of the year. The School Leader provides oversight and coaching to instructional leaders and participate in evaluations as appropriate or needed. A critical part of teacher evaluation and retention is based on performance outcomes, measuring student achievement and the teacher's implementation of the curriculum. The annual performance assessment is based on those standards.

The Charter School has established clearly defined criteria for performance reviews that include:

- Commitment to the Charter School's mission and goals
- Successful implementation of the curriculum and educational philosophy
- High level of professionalism
- High level of accomplishment
- Effective participation in the Charter School's staff and team

Tools used in the evaluation process include:

- Written evaluations based on classroom observations

- Self-evaluation completed by teacher being evaluated
- Student performance on major assessments
- Evaluation based on the KIPP Northern California’s Teaching Excellence Rubric

Those teachers failing to adhere to the guidelines outlined above, and/or failing to meet the specifications of the evaluation plan, will be subject to dismissal or may not have their employment renewed at the request of the School Leader. See Table 20 for a sample teacher evaluation plan.

Table 20: Sample Staff Evaluation Plan

Frequency	Mode of Evaluation
Weekly	<ul style="list-style-type: none"> ● 10-15 minute observations focused on a particular aspect of teaching excellence
Mid-Year Evaluation	<ul style="list-style-type: none"> ● Full class observation ● Review professional goals: means of achievement and criteria for success ● Describe performance related to criteria ● Compare performance to criteria
Annual End of Year Evaluation	<ul style="list-style-type: none"> ● Discuss evaluation ● Convey findings of evaluation ● Discuss goals for next year ● Supervisor summarizes goals, criteria, and findings ● Teacher reads summary and responds

ELEMENT 6 – Health and Safety

“The procedures that the charter school will follow to ensure the health and safety of pupils and staff.

These procedures shall require all of the following:

(i) That each employee of the charter school furnish the charter school with a criminal record summary as described in Section 44237.

(ii) The development of a school safety plan, which shall include the safety topics listed in subparagraphs (A) to (J), inclusive, of paragraph (2) of subdivision (a) of Section 32282.

(iii) That the school safety plan be reviewed and updated by March 1 of every year by the charter school.”

– Ed. Code § 47605(c)(5)(F)

Site Safety Plan

Charter School shall develop a school safety plan, which shall include the following topics set forth in Education Code section 32282(a)(2), and which shall be updated by March 1 every year:

- (A) Child abuse reporting procedures;
- (B) Disaster procedures, routine and emergency, including adaptations for pupils with disabilities;
- (C) Policies pursuant to subdivision (d) of Section 48915 for pupils who committed an act listed in subdivision (c) of Section 48915 and other school-designated serious acts that would lead to suspension, expulsion, or mandatory expulsion recommendations;
- (D) Procedures to notify teachers of dangerous pupils pursuant to Section 49079;
- (E) A discrimination and harassment policy consistent with the prohibition against discrimination set forth in Education Code section 200;
- (F) The provisions of any schoolwide dress code, pursuant to Education Code section 35183 that prohibits pupils from wearing “gang-related apparel,” if the school has adopted that type of a dress code;
- (G) Procedures for safe ingress and egress of pupils, parents, and school employees to and from school;
- (H) A safe and orderly environment conducive to learning at the school;
- (I) The rules and procedures on school discipline adopted pursuant to Education Code sections 35291, 35291.5, 47605, and 47605.6;
- (J) Procedures for conducting tactical responses to criminal incidents, including procedures related to individuals with guns on school campuses and at school-related functions. The procedures to prepare for active shooters or other armed assailants shall be based on the specific needs and context of each school and community.

Pupil Safety

Immunizations, Health Examinations, and Health Screenings

Charter School shall comply with all federal and state legal requirements related to student immunization, health examination, and health screening, including but not limited to screening for vision, hearing, and scoliosis, to the same extent as would be required if the students were attending a non-charter public school. Charter School shall maintain student immunization, health examination, and health screening records on file.

Suicide Prevention Policy (Grades 7-12)

Charter School shall adopt, at a regularly scheduled meeting, a policy on pupil suicide prevention in Grades 7 through 12 inclusive, that meets the requirements of Education Code section 215, if it serves any of those grade levels. The policy shall be developed in consultation with school and community stakeholders, school-employed mental health professionals, and suicide prevention experts and shall, at a minimum, address procedures relating to suicide prevention, intervention, and postvention, and shall specifically address the needs of high-risk groups, including, but not limited to, all of the following: Youth bereaved by suicide; Youth with disabilities, mental illness, or substance use disorders; Youth experiencing homelessness or in out-of-home settings, such as foster care; and lesbian, gay, bisexual, transgender, or questioning youth.

Employee Training

Charter School shall ensure that all staff members receive annual training on Charter School's health, safety, and emergency procedures, including but not limited to training on blood borne pathogens, and shall maintain a calendar for, and conduct, emergency response drills for students and staff. Charter School shall also ensure that its employees receive the required sexual harassment training under Govt. Code 12950.1.

Charter School shall provide all employees, and other persons working on behalf of Charter School who are mandated reporters, with annual training on child abuse detection and reporting, which shall occur within the first six weeks of each school year, or within the first six weeks of a person's employment if employed after the beginning of the school year, in accordance with the requirements of Education Code section 44691.

Employee Screening Requirements

Criminal Background Clearances and Fingerprinting

Charter School shall comply with all requirements of Education Code sections 44237, 44830.1 and 45125.1. Charter School shall designate and maintain at all times at least one Custodian of Records duly authorized by the California Department of Justice.

Charter School shall maintain on file and available for inspection evidence that (1) Charter School has performed criminal background checks and cleared for employment all employees prior to employment; (2) Charter School has obtained certification from each of its contracting entities/independent contractors that the entity/contractor has conducted required criminal background clearances for its employees prior to provision of school site services and/or any contact with students and has requested subsequent arrest notification service; and (3) Charter School has performed criminal background checks and cleared for service all volunteers not directly supervised by staff and who may have contact with students. Charter School shall also ensure that it requests and receives subsequent arrest notifications from the California Department of Justice for all employees and volunteers not directly supervised by staff. Upon request, Charter School shall provide a copy of Department of Justice confirmation of Custodian of Records status for each Custodian of Records.

Tuberculosis Screening

Charter School shall require all employees, and any volunteer or vendor/contracting entity employee who may have frequent or prolonged contact with students, to undergo a risk assessment and/or be examined and determined to be free of active tuberculosis (TB) within the period of 60 days prior to employment/service, in accordance with Education Code section 49406. Charter School shall maintain TB clearance records and certifications on file.

The following is a summary of additional health and safety policies of KIPP Bridge:

Employees

Mandated Child Abuse Reporters

All staff at KIPP Bridge are mandated child abuse reporters and follow all applicable reporting laws. The Charter School shall provide mandated reporter training to all employees annually in accordance with Education Code Section 44691.

Drug Free/Alcohol Free/Smoke Free Environment

KIPP Bridge shall function as a drug, alcohol and smoke free environment.

Students

Immunizations and Health Screenings

All enrolled students who receive classroom-based instruction will be required to provide records documenting immunizations to the same extent that this is required for non-charter public schools pursuant to Health and Safety Code Sections 120325-120375, and Title 17, California Code of Regulations Sections 6000-6075. All rising 7th grade students must be immunized with a pertussis (whooping cough) vaccine booster. Additionally, KIPP Bridge complies with all other applicable student immunization and health screening requirements.

Upon a student's admission or advancement to 6th grade, the Charter School shall submit to the student and their parent or guardian a notification that advises students to adhere to current immunization guidelines regarding human papillomavirus ("HPV") before admission or advancement to 8th grade, consistent with the requirements of Education Code Section 48980.4 and Health and Safety Code Section 120336.

Medication at School

KIPP Bridge adheres to Education Code Section 49423 regarding administration of medication in school. Students requiring prescription medications and other medicines during school hours are accommodated in accordance with applicable policies and procedures. The Charter School will adhere to Education Code Section 49414 regarding epinephrine auto-injectors and training for staff members; per AB 1651 (2023), the Charter School shall store emergency epinephrine auto-injectors in an accessible location upon need for emergency use and include that location in annual notices required by law. To the extent the Charter School maintains a stock of albuterol inhalers to respond to respiratory distress in students, the Charter School shall comply with the requirements of Education Code Section 49414.7, including with respect to trainings, notices, and the stocking of albuterol inhalers.

Vision, Hearing, Scoliosis

Students will be screened for vision, hearing, and scoliosis. The Charter School will adhere to Education Code Section 49450, *et seq.*, as applicable to the grade levels served by the Charter School.

Diabetes

The Charter School shall make type 1 diabetes informational materials accessible to the parent or guardian of a pupil when the pupil is first enrolled in elementary school. The Charter School will provide an information sheet regarding type 2 diabetes to the parent or guardian of incoming 7th grade students, pursuant to Education Code Section 49452.7. The information sheet shall include, but not be limited to, all of the following:

1. A description of type 2 diabetes
2. A description of the risk factors and warning signs associated with type 2 diabetes

3. A recommendation that students displaying or possibly suffering from risk factors or warning signs associated with type 2 diabetes should be screened for type 2 diabetes
4. A description of treatments and prevention methods of type 2 diabetes
5. A description of the different types of diabetes screening tests available

Suicide Prevention Policy

The Charter School shall maintain a policy on student suicide prevention in accordance with Education Code Section 215. The Charter School shall review, at minimum every fifth year, its policy on pupil suicide prevention and, if necessary, update its policy. Pursuant to AB 58 (2021-22), the Charter School will also review and update its suicide prevention policy by January 1, 2025 to incorporate best practices identified by the California Department of Education's model policy, as revised. The policy shall specifically address the needs of high-risk groups, include consideration of suicide awareness and prevention training for teachers, and ensure that a school employee acts only within the authorization and scope of the employee's credential or license.

Prevention of Human Trafficking

The Charter School shall identify and implement the most appropriate methods of informing parents and guardians of students in grades 6 through 8 of human trafficking prevention resources.

Menstrual Products

The Charter School shall stock the school's restrooms at all times with an adequate supply of menstrual products, available and accessible, free of cost, in all women's restrooms and all-gender restrooms, and in at least one men's restroom. The Charter School shall post a notice regarding the requirements of Education Code Section 35292.6 and contact information, including an email address and telephone number, for a designated individual responsible for maintaining the requisite supply of menstrual products.

All Gender Restrooms

On or before July 1, 2026, the Charter School shall provide and maintain at least one all-gender restroom for voluntary student use at each of its schoolsites that has more than one female restroom shall have signage identifying the bathroom as being open to all genders, it shall remain unlocked, unobstructed, and easily accessible by any student, and be available during school hours and school functions when students are present. The Charter School shall designate a staff member to serve as a point of contact and to post a notice regarding these requirements.

School Meals

The Charter School shall provide breakfast and lunch free of charge during each school day to any pupil who requests a meal without consideration of pupil's eligibility for a federally funded free or reduced-

price meal, with a maximum of one free meal for each meal service period. The meals provided under this paragraph shall be nutritionally adequate meals that qualify for federal reimbursement.

The Charter School shall provide each student adequate time to eat as determined by the Charter School in consideration of available guidance.

Recess

As of the 2024-25 school year and except where a field trip or other educational program is taking place, if the Charter School provides recess, to the extent required by Education Code Section 49056, the Charter School shall provide supervised and unstructured recess, distinct from physical education courses and mealtimes, of at least 30 minutes on regular instructional days and at least 15 minutes on early release days. The Charter School shall not restrict a student's recess unless there is an immediate threat to the physical safety of the student or one or more of their peers.

California Healthy Youth Act

The Charter School will teach sexual health education and human immunodeficiency virus ("HIV") prevention education to students in grades 7-8 at least once, pursuant to the California Healthy Youth Act (Education Code Section 51930, *et seq.*).

Mental Health Education

If the Charter School offers one or more courses in health education to students in middle school, the Charter School shall include in those courses instruction in mental health that meets the requirements of Education Code Section 51925, *et seq.*

Mental Health Information

The Charter School shall create and post a poster at the schoolsite identifying approaches and resources addressing student mental health in compliance with Education Code Section 49428.5. The poster shall be displayed in English and the primary language(s) spoken by 15 percent or more of students enrolled at the schoolsite. The poster shall be prominently and conspicuously displayed in appropriate public areas that are accessible to, and commonly frequented by, students at the schoolsite. The poster shall also be digitized and distributed online to students through social media, internet websites, portals, and learning platforms at the beginning of each school year.

School Safety Plan

The Charter School shall comply with Education Code Section 47605(c)(5)(F)(ii). The School Safety Plan shall be drafted specifically to the needs of the facility in conjunction with law enforcement and the Fire

Marshal. Staff shall receive training in emergency response, including appropriate “first responder” training or its equivalent.

Disaster procedures included in the School Safety Plan shall address and include adaptations for students for students with disabilities. To the extent an employee, parent/guardian, educational rights holder, or student brings concerns regarding the procedures to the School Leader and, if there is merit to the concern, the principal shall direct the School Safety Plan to be modified accordingly.

Workplace Violence Prevention Plan

The Charter School shall establish, implement, and maintain, at all times in all work areas, an effective workplace violence prevention plan consistent with the requirements of Labor Code Section 6401.9.

Blood Borne Pathogens

KIPP Bridge shall meet state and federal standards for dealing with blood-borne pathogens and other potentially infectious materials in the Charter School. KIPP Bridge will establish an infectious control plan designed to protect employees and students from possible infection due to contact with blood-borne viruses, including HIV and hepatitis B virus (“HBV”). Whenever exposed to blood or other body fluids through injury or accident, students and staff should follow the latest medical protocol for disinfecting procedures.

Comprehensive Discrimination and Harassment Policies and Procedures

KIPP Bridge is committed to providing a school that is free from discrimination and sexual harassment, as well as any harassment based upon the actual or perceived characteristics of race, religion, creed, color, gender, gender identity, gender expression, nationality, national origin, ancestry, ethnic group identification, genetic information, age, medical condition, marital status, sexual orientation, sex and pregnancy, physical or mental disability, childbirth or related medical conditions, military and veteran status, denial of family and medical care leave, or on the basis of a person’s association with a person or group with one or more of these actual or perceived characteristics, or any other basis protected by federal, state, local law, ordinance or regulation. KIPP Northern California has developed a comprehensive policy to prevent and immediately address any concerns about discrimination or harassment at the Charter School (including employee to employee, employee to student, and student to employee misconduct). Misconduct of this nature is very serious and will be addressed in accordance with the Charter School’s anti-discrimination and harassment policy, which is outlined in detail in the KIPP Northern California Staff Handbook (Appendix 18).

A copy of the policy shall be provided as part of any orientation program conducted for new and continuing pupils at the beginning of each quarter, semester, or summer session, as applicable, and to each faculty member, all members of the administrative staff, and all members of the support staff at

the beginning of the first quarter or semester of the school year, or at the time that there is a new employee hired.

Bullying Prevention

The Charter School shall maintain procedures for preventing acts of bullying, including cyberbullying. The Charter School shall annually make available the online training module developed by the CDE pursuant to Education Code Section 32283.5(a) to certificated school site employees and all other school site employees who have regular interaction with children.

Supporting LGBTQ Students

Commencing with the 2025-26 school year and ending with completion of the 2029-30 school year, the Charter School shall use an online training delivery platform and curriculum to provide at least 1 hour of required LGBTQ cultural competency training annually to teachers and other certificated employees and maintain records of such training as required by Education Code Section 218.

Homicide Threats

The Charter School shall comply with all requirements under Education Code Sections 49390-49395 regarding mandatory reporting in response to homicidal threats. All employees and Board members who are alerted to or who observe any threat or perceived threat in writing or through an action of a student that creates a reasonable suspicion that the student is preparing to commit a homicidal act related to school or a school activity shall make a report to law enforcement.

Gun Safety Notice

At the beginning of the first semester, the Charter School shall distribute a notice to the parents/guardians of each student addressing California's child gun access prevention laws and laws related to firearm safety utilizing the most updated model language published by the California Department of Education.

Athletic Programs

The Charter School shall comply with all applicable laws related to health and safety policies and procedures surrounding athletic programs at charter schools, including but not limited to providing information to athletes regarding sudden cardiac arrest and annually providing each athlete an Opioid Factsheet for Patients.

In the event the Charter School participates in any interscholastic athletic programs, it shall comply with all applicable requirements, including, but not limited to, adopting a written emergency action plan for sudden cardiac arrest or other medical emergencies related to athletic programs, and acquiring at least one automated external defibrillator. Further, Charter School's emergency action plan shall describe the location of emergency medical equipment and include a description of the manner and frequency at which the procedures to be followed in the event of sudden cardiac arrest and other medical emergencies, including concussion and heat illness will be rehearsed. By July 1, 2024, coach training shall include recognition of the signs and symptoms of and responding to concussions, heat illness, and cardiac arrest.

In the event the Charter School participates in the California Interscholastic Federation it shall, on or before April 1, 2025, post on its website a standardized incident form as developed by the CDE to receive complaints of racial discrimination, harassment, or hazing alleged to occur at high school sporting games or sporting event and shall include instructions on how to submit a completed incident form consistent with Education Code Section 33353.

Transportation Services

Effective July 1, 2025, the Charter School shall comply with the requirements of Education Code Section 39875(c), if applicable, relating to background checks and testing for individuals providing transportation services for students.

Facility Safety

KIPP Bridge shall comply with Education Code Section 47610 by either utilizing facilities that are compliant with the Field Act or facilities that are compliant with the California Building Standards Code. KIPP Bridge shall ensure that prior to commencement of operations such facilities shall comply with local building and zoning ordinances. Fire inspections at the Charter School facilities shall be conducted in compliance with all applicable laws and regulations. KIPP Bridge will annually test sprinkler systems, fire extinguishers, and fire alarms at its facilities to ensure that they are maintained in an operable condition at all times. The Charter School will hold emergency drills in conjunction with the District (if at a District facility) in compliance with all applicable laws and regulations.

ELEMENT 7 – Balance of Racial/Ethnic, Special Education, and English Learner Students

“The means by which the charter school will achieve a balance of racial and ethnic pupils, special education pupils, and English learner pupils, including redesignated fluent English proficient pupils, as defined by the evaluation rubrics in Section 52064.5, that is reflective of the general population residing within the territorial jurisdiction of the school district to which the charter petition is submitted.” – Ed. Code § 47605(c)(5)(G)

KIPP Bridge strongly believes that a wide cross section of students with a variety of life experiences adds to the learning experience of all. Students will need to learn from others how to respect different viewpoints and find the commonalities in all people. KIPP Bridge strives to serve a student population that will achieve a balance of racial and ethnic students, special education students, and English Learners that is reflective of the general population residing within Oakland.

Outreach

KIPP Bridge may take any of the following steps to recruit and welcome all students who are representative of Oakland’s diverse communities:

- Variety of languages for marketing and recruitment materials, included languages that are emerging (simplified Chinese and Arabic)
- Partner with local community-based organizations to recruit a diverse population of students and provide services to ensure a smooth transition to middle school for new students
- Host information sessions for families of students with disabilities
- Host visits to KIPP Bridge Academy for families of students with disabilities
- Visit and speak at local community based organizations in targeted low-income neighborhoods
- Hire and develop diverse staff from the community to implement recruitment activities, including in the native language of families in the community
- Post flyers and notices in local supermarkets, restaurants, businesses, churches, community centers, and apartment complexes in low-income neighborhood
- Visit and explain to prospective students and their families the mission of the KIPP Bridge
- Conduct parent information sessions to elaborate on the commitment involved with attending KIPP Bridge
- Canvas various neighborhoods to reach interested families
- Promote KIPP Bridge at various neighborhood festivals and community events
- Make local school visits in the surrounding communities
- Encourage referrals from students and families at other KIPP schools
- Speak at civic organizations, with a particular focus on local community populations

- Place advertisements in local newspapers and community association newsletters
- Speak on local radio stations
- Encourage teacher referrals of students from other campuses
- Hire staff that is representative of the community that KIPP Bridge serves, including parents
- Establish priority for students in-district and families who qualify for FRPM if admission will be determined by a public lottery. See Element 8 for additional details.
- Run digitally placed advertisements across various online media and applications in multiple languages
- Utilize social media to advertise informational nights and school opening

KIPP Bridge shall evaluate its balance of racial and ethnic students, special education students, and English Learners, and adjust recruitment practices, as needed, in order to build a school community that reflects the general population residing within the geographic boundaries of the District.

KIPP Bridge supports the ongoing diversity of student enrollment by ensuring student and subgroups needs are met once enrolled. A comprehensive overview of how we support our Special Education, and English Learner students can be found in Element 1, and a description of our community and family engagement structures are available in Element 2. Additional descriptions can also be found in the 2024-25 Renewal Performance Report in Appendix 26. Examples of support include our Specialized Teaching Program (STP) serving students with moderate to severe disabilities, culturally-affirming events, translating school newsletters, hosting English Learner Advisory Committee meetings, and hiring and retaining talented English Language Development teachers to support English Learner students.

ELEMENT 8 – ADMISSION POLICIES AND PROCEDURES

***“Admission policies and procedures, consistent with subdivision (e) [of Education Code section 47605].”
– Ed. Code § 47605(c)(5)(H)***

Documentation of Admissions and Enrollment Processes

Upon request, Charter School will notify the District in writing of the application deadline and proposed lottery date. Charter School will ensure that all application materials will reference these dates as well as provide complete information regarding application procedures, key dates, and admissions preferences and requirements consistent with approved charter.

Charter School shall maintain complete and accurate records of its annual admissions and enrollment processes, including but not limited to documentation of implementation of lottery and waitlist criteria and procedures in accordance with the terms of the Charter, and a record of all written communications with parents related to admissions. These records shall be made available to the District upon request.

As indicated in the affirmations included at the beginning of this petition, Charter School shall comply with all requirements related to admissions preferences found in Education Code section 47605(e)(2)(B).

[Insert additional language showing how Charter School will comply with the above requirements, including how the preferences “shall not result in limiting enrollment access access for pupils with disabilities, academically low-achieving pupils, English learners, neglected or delinquent pupils, homeless pupils, or pupils who are economically disadvantaged, as determined by eligibility for any free or reduced-price meal program, foster youth, or pupils based on nationality, race, ethnicity, or sexual orientation” per Education Code section 47605(e)(2)(B)(iii).

KIPP Bridge will be a tuition-free public school that is open to all residents of the State of California. KIPP Bridge will not discriminate against any student on the basis of race, ethnicity, religion, gender, gender expression, gender identity, national origin, sexual orientation, or disability of the students, parents or guardians, or any of the characteristics listed in Education Code Section 220. KIPP Bridge shall be nonsectarian in its programs, admission policies, and all other operations, and will not charge tuition. Families’ inability to pay for materials or activities will not preclude students from being admitted to the Charter School or participating in these activities.

KIPP Bridge intends to serve approximately 570 students in transitional kindergarten through eighth grade. Formal recruitment of incoming students may begin as early as fall of each calendar year for the following school year. KIPP Bridge shall advertise open enrollment within the Oakland community so that all families may have an equal opportunity to apply for admission. The application shall request basic student and family data, including name, date of birth, address and contact information and any other information that could qualify the student(s) for a specific admission preference should a public

random drawing (“lottery”) be required. Interested families shall be able to meet with staff to review the expectations of the Charter School. The Charter School’s website will include information that allows students and parents to be informed about KIPP Bridge’s operation as a charter school, its educational programs, and the academic expectations of students.

KIPP Bridge shall admit all pupils who wish to attend the Charter School to the extent that space allows. No test or assessment shall be administered to students prior to acceptance and enrollment into the Charter School. KIPP Bridge will comply with all laws establishing minimum and maximum age for public school attendance in charter schools. Admission, except in the case of a public random drawing, shall not be determined by the place of residence of the pupil or of his or her parent or legal guardian within the state. In accordance with Education Code Sections 49011 and 47605(e)(2)(B)(iv), admission preferences shall not require mandatory parental volunteer hours as a criterion for admission or continued enrollment. KIPP Bridge will notify parents/guardians of applicant students on the application that parental involvement is not a requirement for acceptance to, or continued enrollment at, KIPP Bridge.

In accordance with Education Code Section 47605(e)(4)(A), the Charter School shall not discourage a pupil from enrolling or seeking to enroll in the Charter School for any reason, including, but not limited to, academic performance of the pupil or because the pupil exhibits any of the characteristics described in Education Code Section 47605(d)(2)(B)(iii), including pupils with disabilities, academically low-achieving pupils, English learners, neglected or delinquent pupils, homeless pupils, or pupils who are economically disadvantaged, as determined by eligibility for any free or reduced-price meal program, foster youth, or pupils based on nationality, race, ethnicity, or sexual orientation. Similarly, in accordance with Section 47605(e)(4)(C), the Charter School shall not encourage a pupil currently attending the Charter School to disenroll from the Charter School or transfer to another school for any reason, including, but not limited to the academic performance of the pupil or because the pupil exhibits any of the characteristics described in Education Code Section 47650(e)(2)(B)(iii), as listed above.

Pursuant to Education Code Section 47605(e)(4)(D), the Charter School shall post a notice developed by the CDE on the Charter School website, outlining the requirements of Section 47605(e)(4), and make this notice available to parents.

The Charter School and the District agree to adhere to the requirements related to admission preferences as set forth in Education Code Section 47605(e)(2)(B)(i)-(iv).

The public random drawing process will be open to the public, transparent, and fair. It will be held in a public space large enough to accommodate all interested in attending the drawing and a neutral member of KIPP Northern California’s regional staff will conduct the drawing process. Parents and guardians do not have to be present to participate in the drawing. Details about the timeline and process of the drawing will be available to all applicants’ parents/guardians prior to the drawing,

including admission preferences outlined above and other details of when parents/guardians will be notified about the results of the drawing and how to enroll their students after admission.

Pursuant to the stated admission preferences listed above, families will self-report the applicant's qualification for FRPM on the application; no other demographic or socio-economic information will be required on the application.

Homeless and Foster Youth

Charter School shall adhere to the provisions of the McKinney-Vento Homeless Assistance Act and ensure that each child of a homeless individual and each homeless youth has equal access to the same free, appropriate public education as provided to other children and youths. Charter School shall provide specific information, in its outreach materials, websites, at community meetings, open forums, and regional center meetings, that notifies parents that Charter School is open to enroll and provide services for all students, and provides a contact number for access to additional information regarding enrollment. Charter School shall comply with all applicable provisions of Education Code sections 48850 – 48859 with respect to foster children and homeless youth.

Non-Discrimination

Charter School shall not require a parent/legal guardian/student to provide information regarding a student's disability, gender, gender identity, gender expression, nationality, legal or economic status, primary language or English Learner status, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in section 422.55 of the Penal Code, or any other information that would violate federal or state law, prior to admission, participation in any admissions or attendance lottery, or pre-enrollment event or process, or as a condition of admission or enrollment. Charter School may request, at the time of, and as part of, conducting its lottery process, the provision of information necessary to apply specific admissions preferences set forth in this Charter.

Charter School shall not request or require submission of a student's IEP, 504 Plan, or any other record or related information prior to admission, participation in any admissions or attendance lottery, or pre-enrollment event or process, or as a condition of admission or enrollment.

As indicated in the affirmations included at the beginning of this petition, pursuant to Education Code section 47605(e)(4)(A), Charter School shall not discourage a pupil from enrolling or seeking to enroll in the charter school for any reason.

Parent Engagement

Charter School shall not require a parent or legal guardian of a prospective or enrolled student to perform volunteer service hours or attend an orientation event, or make payment of fees or other monies, goods, or services in lieu of performing volunteer service, as a condition of their child's admission, continued

enrollment, attendance, or participation in the school’s educational activities, or otherwise discriminate against a student in any manner because their parent cannot, has not, or will not provide volunteer service to Charter School.

Public Random Drawing

Following the open enrollment period each year that aligns with the District (mid-November to early February), applications shall be counted to determine whether any grade level has received more applications than availability. In the event the number of applications exceeds capacity, a public random drawing will be held to determine admission in the oversubscribed grade level(s), with the exception of existing students who are guaranteed admission in the following school year.

In the case of a public random drawing, admission preferences shall be given to the following students in the following order:

1. Siblings²⁰ of current students and children of employees
2. Students who reside within West Oakland (defined as District 3, west of 980 freeway; as stipulated in OUSD’s Fall Call for Quality Schools) and who are eligible for free and reduced price meals
3. Students who reside within West Oakland (defined as District 3, west of 980 freeway; as stipulated in OUSD’s Fall Call for Quality Schools) and who are ineligible for free and reduced priced meals
4. Students who are eligible for free and reduced priced meals who reside within Oakland Unified School District but outside of West Oakland
5. Students who are ineligible for free and reduced priced meals who reside within Oakland Unified School District but outside of West Oakland
6. Students who are eligible for free and reduced priced meals who reside outside Oakland Unified School District
7. Students who are ineligible for free and reduced priced meals who reside outside Oakland Unified School District
8. All other applicants

The Charter School will take all necessary efforts to ensure lottery procedures are fairly executed. A public random drawing (i.e. lottery) is a random selection process by which applicants are admitted to the Charter School. The Charter School will conduct the lottery in the spring for enrollment in fall of that year. In order to be part of the lottery, a family must complete the school’s application in full and submit it by the stated open enrollment deadline.

²⁰ Siblings given preference in the public random drawing are defined as those who share a biological parent, legal guardian or primary caregiver.

During the lottery, the pool of applicants is randomized using a random sequence generator (currently, SchoolMint Student Enrollment System) and takes into consideration the preferences as stated above. Applicants are admitted to the charter school in the order determined by the lottery until all available spaces are filled. Applicants who are not selected for admission will be placed on a wait list according to the order determined by the lottery. A neutral third-party witness will be present to verify the fairness of the lottery.

An applicant may remain on the waitlist for the school year to which they applied until the end of that school year. Once on the waitlist, an applicant would remain in that position until he/she is offered a spot in the charter school or expresses no further interest. Late applications are held in abeyance for a subsequent lottery, as needed. Applicants are contacted in the order of the waitlist. If applicants from the waitlist are offered a position, they must accept that position within the deadline stated by the school. All schools will make a reasonable attempt to contact applicants before the deadline. If the applicant declines admission or fails to respond, they may be removed from the waitlist or placed at the bottom of the waitlist. Wait lists are not maintained year over year for admission purposes. For admission to subsequent school years, applicants on the waitlist must reapply.

Public random drawing rules, deadlines, dates and times will be communicated in the application form and on the Charter School's website. Public notice for the date and time of the public random drawing will also be posted once the application deadline has passed. The Charter School will also inform all applicants and interested parties of the rules to be followed during the public random drawing process via mail or email at least two weeks prior to the lottery date.

Parents/guardians of accepted students must complete all steps in the registration process in order to attend the school. As part of this process, all applicants must submit the following registration documents to the charter school:

- Indication of whether the student may require special education or related services, the student's home language and whether the student may be an English language learner
- Authorization for the school to request and receive student records from all schools the student has previously attended or is currently attending²¹
- Proof of full immunization or exemption from a medical professional
- Proof of health examinations and oral examination required by the Health and Safety Code
- Proof of age
- Emergency Card
- Proof of residency

²¹ In accordance with Education Code Section 47605(e)(4)(B), the Charter School shall not request a pupil's records or require a parent, guardian, or pupil to submit the pupil's records to the Charter School before enrollment.

As outlined in Element 7 above, it is KIPP Bridge’s intention to enroll students who are traditionally underserved and who represent the balance of racial and ethnic students, special education students, and English Learners, that is reflective of the general population residing within Oakland Unified School District.

ELEMENT 9 – Independent Financial Audits

“The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority.” – Ed. Code § 47605(c)(5)(I)

An annual independent financial audit of the books and records of KIPP Bridge will be conducted as required by Education Code Sections 47605(c)(5)(I) and 47605(m). The books and records of the Charter School will be kept in accordance with generally accepted accounting principles (“GAAP”), and as required by applicable law, the audit will employ generally accepted accounting procedures. The Board of Directors has formed an Audit and Risk Management Committee. This audit will be conducted in accordance with applicable provisions within the California Code of Regulations governing audits of charter schools as published in the State Controller’s K-12 Audit Guide, and will verify the accuracy of KIPP Bridge’s financial statements, attendance and enrollment accounting practices, and internal controls.

The Audit and Risk Management Committee annually oversees the selection of an independent auditor who has experience in education finance, and will oversee the completion of an annual audit of KIPP Bridge’s financial books and records. The auditor will have, at a minimum, a CPA and educational institution audit experience and will be approved by the State Controller on its published list as an educational audit provider. To the extent required by applicable federal law, the scope of this audit will be expanded to include any relevant items or processes identified in applicable Office of Management and Budget Circulars. KIPP NorCal will provide the internal controls policy, the full general ledger accounting system, and any reports requested to be provided by the client to the auditors. The Charter School will also make available the receivable and disbursement files.

The annual audit will be completed each year and will be forwarded to the District, the County Superintendent of Schools, the State Controller, and to the California Department of Education by the 15th of December of each year. KIPP NorCal’s most recent audit report is included as Appendix 21.

The Audit and Risk Management Committee will review any audit exceptions or deficiencies and report recommendations to the KIPP Northern California Board as to how these have been, or will be, resolved. The Board will act upon these recommendations, and report its actions to the District, describing how the exceptions and deficiencies have been or will be resolved to the satisfaction of the District along with an anticipated timeline for the same. Any disagreement between the District and the Charter School concerning the resolution of audit exceptions or deficiencies shall be referred to the dispute resolution process described in Element 14, herein. Audit appeals or requests for summary review shall be submitted to the Education Audit Appeals Panel (“EAAP”) in accordance with applicable law.

The independent financial audit of KIPP Bridge will be public record to be provided to the public upon request. KIPP NorCal will budget in the cost of a full financial audit in its yearly budgeting process.

ELEMENT 10 – Procedures by which Pupils Can Be Suspended or Expelled

“The procedures by which pupils can be suspended or expelled from the charter school for disciplinary reasons or otherwise involuntarily removed from the charter school for any reason. These procedures, at a minimum, shall include an explanation of how the charter school will comply with federal and state constitutional procedural and substantive due process requirements that is consistent with all of the following:

(i) For suspensions of fewer than 10 days, provide oral or written notice of the charges against the pupil and, if the pupil denies the charges, an explanation of the evidence that supports the charges and an opportunity for the pupil to present the pupil’s side of the story.

(ii) For suspensions of 10 days or more and all other expulsions for disciplinary reasons, both of the following:

(I) Provide timely, written notice of the charges against the pupil and an explanation of the pupil’s basic rights.

(II) Provide a hearing adjudicated by a neutral officer within a reasonable number of days at which the pupil has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the pupil has the right to bring legal counsel or an advocate.

(iii) Contain a clear statement that no pupil shall be involuntarily removed by the charter school for any reason unless the parent or guardian of the pupil has been provided written notice of intent to remove the pupil no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the pupil or the pupil’s parent or guardian or, if the pupil is a foster child or youth or a homeless child or youth, the pupil’s educational rights holder, and shall inform the pupil, the pupil’s parent or guardian, or the pupil’s educational rights holder of the right to initiate the procedures specified in clause (ii) before the effective date of the action. If the pupil’s parent, guardian, or educational rights holder initiates the procedures specified in clause (ii), the pupil shall remain enrolled and shall not be removed until the charter school issues a final decision. For purposes of this clause, “involuntarily removed” includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions specified in clauses (i) and (ii).” – Ed. Code § 47605(c)(5)(J)

Student Due Process Protections

Charter School’s student discipline procedures, at a minimum, shall comply with federal and state constitutional procedural and substantive due process requirements as follows:

(i) For suspensions of fewer than 10 days, Charter School shall provide oral or written notice of the charges against the pupil and, if the pupil denies the charges, an explanation of the evidence that supports the charges and an opportunity for the pupil to present the pupil’s side of the story.

(ii) For suspensions of 10 days or more and all other expulsions for disciplinary reasons, Charter School shall provide both of the following:

(I) Timely, written notice of the charges against the pupil and an explanation of the pupil's basic rights.

(II) A hearing adjudicated by a neutral officer within a reasonable number of days at which the pupil has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the pupil has the right to bring legal counsel or an advocate.

(iii) No pupil shall be involuntarily removed by Charter School for any reason unless the parent or guardian of the pupil has been provided written notice of intent to remove the pupil no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the pupil or the pupil's parent or guardian or, if the pupil is a foster child or youth or a homeless child or youth, the pupil's educational rights holder, and shall inform him or her of the right to initiate the procedures specified in clause (ii) before the effective date of the action. If the pupil's parent, guardian, or educational rights holder initiates the procedures specified in clause (ii), the pupil shall remain enrolled and shall not be removed until Charter School issues a final decision. For purposes of this clause, "involuntarily removed" includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions specified in clauses (i) and (ii).

As indicated in the affirmations included at the beginning of this petition, pursuant to Education Code section 47605(e)(4)(C), Charter School shall not encourage a pupil currently attending the charter school to disenroll from the charter school or transfer to another school for any reason. (Note: This shall not apply to actions taken by Charter School pursuant to legally permissible expulsion procedures.)

Required Notifications

As indicated in the affirmations included at the beginning of this petition, Charter School shall comply with notification requirements included in Education Code section 47605(e)(3) for any pupil who is expelled or leaves Charter School without graduating or completing the school year for any reason, and, upon request, will provide the District with the student's last known contact information.

Compliance with OCS Student Discipline Guidelines

Charter School shall comply with the District's "Disciplinary and Expulsion Documentation Requirements Policy," posted on the Student Discipline page of the OUSD Office of Charter Schools website, whose terms are incorporated by reference as if set forth expressly in this Charter. The purpose of this policy is to outline the notification requirements to families and to the Office of Charter Schools.

KIPP Bridge strives to create an environment where students, staff, and community members feel positive and valued, are engaged with their surroundings, form relationships with others, ascribe meaning to what they do, and feel a sense of accomplishment. At KIPP Bridge, we believe that all students can learn. Staying true to that belief means keeping students with KIPP Bridge and supporting not only their academic success, but students' overall well-being and sense of belonging in the community.

Restorative Practices

KIPP Bridge will be focused on restorative practices and social emotional learning as it relates to our retention and disciplinary methods. Restorative practices at KIPP Bridge focuses on the needs of those affected, the offender, as well as the surrounding community. Restorative practices in schools emphasize repairing the harm caused by negative behavior using cooperative processes that include all stakeholders; it means involving students in designing and implementing disciplinary processes that take into account what's best for the student and the community. As much as possible, KIPP Bridge staff will seek to utilize restorative practices in response to any violations of school values. Furthermore, KIPP Bridge will be focused on reducing suspensions and protecting student learning. Even if suspension is deemed the most appropriate disciplinary action, we aim to keep students in school with a teacher to ensure instructional minutes are not lost. We will also work to restore students to the Charter School community even after strong disciplinary actions such as suspensions.

KIPP Bridge will be built on an understanding of the history and context of the communities it serves and will work closely with the students, families and community to establish practices that will instill a sense of self-awareness, community-orientation, and pride in students.

Pupil Suspension and Expulsion Policy

KIPP Bridge staff is committed to providing a safe learning environment for all students. KIPP Bridge will rely on restorative practices and social emotional supports to address behavioral challenges whenever possible.

However, when a student's behavior may endanger other students or staff or are excessively disruptive to the learning of other students, there may be grounds for suspension and/or recommendation for expulsion, subject to normal due process requirements described in the KIPP Northern California Pupil Suspension and Expulsion Policy and Procedures, included as Appendix 22. As much as possible, students will remain in school to continue to learn and be part of the Charter School community.

The Pupil Suspension and Expulsion Policy and Procedures have been established in order to promote learning and protect the safety and well-being of all students at the Charter School. In creating this policy, the Charter School has reviewed Education Code Section 48900 *et seq.*, which describe the

offenses for which students at noncharter schools may be suspended or expelled and the procedures governing those suspensions and expulsions in order to establish its list of offenses and procedures for suspensions, expulsions, and involuntary removal. The language included in the Pupil Suspension and Expulsion Policy and Procedures is largely consistent with the language of Education Code Section 48900 *et seq.* The Charter School is committed to annual review of policies and procedures surrounding suspensions, expulsions, and involuntary removals, and, as necessary, modification of the lists of offenses for which students are subject to suspension, expulsion, and involuntary removal.

Consistent with this Policy, it may be necessary to suspend or expel a student from regular classroom instruction. The Pupil Suspension and Expulsion Policy and Procedures shall serve as KIPP Bridge's policy and procedures for student suspension, recommendation for expulsion, and involuntary removal, and it may be amended from time to time without the need to seek a material revision of the charter so long as the amendments comport with legal requirements.

KIPP Bridge will not dismiss students based on poor achievement or minimum grade point average, incomplete or missing assignments, poor attendance nor discipline issues that do not meet criteria for recommending expulsion.

KIPP Bridge will not dismiss students with disabilities who do not meet criteria for recommendation for expulsion. A student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability pursuant to the IDEA or who is qualified for services under Section 504 is subject to the same grounds for suspension and recommendation for expulsion and is accorded the same due process procedures applicable to general education students except when federal and state law mandates additional or different procedures. The Charter School will follow all applicable federal and state laws including but not limited to the applicable provisions of the Education Code, when imposing any form of discipline on a student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according due process to such students.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of the Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

The administration of KIPP Bridge shall ensure that students and their parents/guardians²² are notified in writing upon enrollment of all discipline and involuntary removal policies and procedures. The notice shall state that the Policy and its Procedures are available upon request at the School Leader's office.

²² The Charter School shall ensure that a homeless child or youth's educational rights holder; a foster child or youth's educational rights holder, attorney, and county social worker; and an Indian child's tribal social worker and, if applicable, county social worker have the same rights as a parent or guardian to receive a suspension

notice, expulsion notice, manifestation determination notice, involuntary transfer notice, involuntary removal notice, and other documents and related information. For purposes of this Policy and its Procedures, the term “parent/guardian” shall include these parties.

ELEMENT 11 – Employee Retirement Systems

“The manner by which staff members of the charter schools will be covered by the State Teachers’ Retirement System, the Public Employees’ Retirement System, or federal social security.” – Ed. Code § 47605(c)(5)(K)

KIPP Northern California is committed to providing the most competitive benefit package to its teachers and staff that it can reasonably afford. All KIPP Bridge staff will participate in the Federal Social Security system. KIPP Bridge employees have the option to participate in the KIPP Northern California’s sponsored 401(k) retirement savings plan. KIPP Northern California currently matches eligible individual contributions up to 4% of eligible compensation (including regular wages, overtime pay and discretionary pay such as bonuses and stipends), capped at their annual salary. Employees are fully vested after three years of service. Policies may change during the term of the charter. KIPP Northern California’s Retirement Administrative Committee²³ routinely reviews potential retirement options for its faculty and staff and will provide the most valuable and convenient options to its employees that the organization can sustain. The Retirement Administrative Committee and Human Resources Department of KIPP Northern California are responsible for ensuring that all appropriate arrangements for retirement coverage have been made for employees.

²³ KIPP NorCal’s Retirement Administrative Committee is a staff committee supervised by the Director of Human Resources.

ELEMENT 12 – Pupil Attendance Alternatives

“The public school attendance alternatives for pupils residing within the school district who choose not to attend charter schools.” – Ed. Code § 47605(c)(5)(L)

Pupils who choose not to attend the Charter School may choose to attend other public schools in their district of residence or pursue inter-district transfers in accordance with existing enrollment and transfer policies of the District. Parents or guardians of each pupil enrolled in the Charter School shall be informed that the pupil has no right to admission in a particular school of any local educational agency (LEA) (or program of any LEA) as a consequence of enrollment in the Charter School, except to the extent that such a right is extended by the District.

No student may be required to attend KIPP Bridge.

ELEMENT 13 – Employee Rights of Return

“The rights of an employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school.” – Ed. Code § 47605(c)(5)(M)

Employees of the District who choose to leave the employment of the District to work at Charter School shall have no automatic rights of return to the District after employment at Charter School unless specifically and explicitly granted by the District through a leave of absence or other agreement or policy of the District as aligned with the collective bargaining agreements of the District. Leave and return rights for District union-represented employees and former employees who accept employment with Charter School, if any, will be administered in accordance with applicable collective bargaining agreements and any applicable judicial rulings.

No public school district employee shall be required to work at KIPP Bridge.

Sick or vacation leave or years of service credit at the District or any other school district will not be transferred to KIPP Bridge. Employment by KIPP Bridge provides no rights of employment at any other entity, including any rights in the case of closure of KIPP Bridge. The District will determine whether former employees continue to earn service credit while employed at KIPP Bridge.

ELEMENT 14 – Dispute Resolution

“The procedures to be followed by the charter school and the chartering authority to resolve disputes relating to provisions of the charter.” – Ed. Code § 47605(c)(5)(N)

Procedures for Complaints against Charter School

Charter School will establish complaint procedures that address both complaints against the Charter School alleging discrimination or violations of law and complaints regarding other areas. Charter School will ensure that its complaint processes are fair and accessible for families. Charter School will not, at any time, refer such complaints to the District for handling.

The complaint procedures will include the clear information with respect to the response timeline of the school, whether the school’s response will be in writing, the party identified to respond to complaints, the party identified and charged with making final decisions regarding complaints, and whether the final decision will be issued in writing. The procedures will also identify an impartial and neutral ombudsperson for situations in which the school leader is the subject person of the complaint or the ombudsperson has a perceived bias. If the complainant requests an alternate ombudsperson, Charter School shall have a procedure for reviewing the request and responding to the complainant with the findings of the review, and either (a) identifying an alternate ombudsperson, or (b) providing a rationale for why an alternate ombudsperson is not necessary. The complaint procedures will be clearly articulated in the school’s student and family handbook or distributed widely.

Charter School will designate at least one employee to coordinate its efforts to comply with and carry out its responsibilities under Title IX of the Education Amendments of 1972 (Title IX) and Section 504 of the Rehabilitation Act of 1973 (Section 504) including any investigation of any complaint filed with Charter School alleging its noncompliance with these laws or alleging any actions which would be prohibited by these laws. Charter School will notify all its students and employees of the name, office address, and telephone number of the designated employee or employees.

Charter School shall comply with the requirements of Education Code section 221.61 with respect to posting information regarding the filing complaints under Title IX, including but not limited to the following: 1) the name and contact information of the Title IX coordinator; 2) the rights of the pupil and the public and the responsibilities of the Charter School under Title IX; 3) a description of how to file a complaint under Title IX, including an explanation of the statute of limitations, how the complaint will be investigated and how the complainant may further pursue the complaint; and a link to the United States Department of Education Office for Civil rights complaint form.

Charter School will implement specific and continuing steps to notify applicants for admission and employment, students and parents of elementary and secondary school students, employees, sources of referral of applicants for admission and employment, and all unions or professional organizations holding

collective bargaining or professional agreements with the recipient, that it does not discriminate on the basis of sex or mental or physical disability in the educational program or activity which it operates, and that it is required by Title IX and Section 504 not to discriminate in such a manner.

Complaints by Students and Employees

Charter School will adopt and publish grievance procedures providing for prompt and equitable resolution of student and employee complaints alleging any action, which would be prohibited by Title IX, or Section 504.

Disputes between the District and the Charter School

The staff and Governing Board members of Charter School agree to attempt to resolve all disputes between the District and Charter School regarding this Charter pursuant to the terms of this section. Both will refrain from public commentary regarding any disputes until the matter has progressed through the dispute resolution process.

Any controversy or claim arising out of or relating to the Charter between the District and Charter School, except any controversy or claim that in any way related to revocation of this Charter, shall be handled first through an informal process in accordance with the procedures set forth below.

(1) Any controversy or claim arising out of or relating to the Charter, except any controversy or claim that in any way related to revocation of the Charter, must be put in writing (“Written Notification”) by the party asserting the existence of such dispute. If the substance of a dispute is a matter that could result in the taking of appropriate action, including, but not limited to, revocation of the charter in accordance with Education Code section 47607(f), the matter will be addressed at the District's discretion in accordance with that provision of law and any regulations pertaining thereto. The Written Notification must identify the nature of the dispute and all supporting facts known to the party giving the Written Notification. The Written Notification may be tendered by personal delivery, mail, or electronic mail. The Written Notification, and all subsequent notifications under this procedure, shall be deemed received (a) if personally delivered, or sent by electronic mail, upon date of delivery to the address of the person to receive such notice if received by the District by 5:00 PM; (b) if by mail, two (2) business days after deposit in the U.S. Mail. All written notices shall be addressed as follows:

KIPP Public Schools Northern California

Attn: Beth Thompson, Chief Executive Officer; Michael Burks, School Leader; Rosie Allen, School Leader

1000 Broadway, Suite 460

Oakland, CA 94607

To Director, Office of Charter Schools:

1011 Union Street #947
Oakland, CA 94607

(2) A written response (“Written Response”) shall be tendered to the party providing the Written Notification within twenty (20) business days from the date of receipt of the Written Notification. The Written Response shall state the responding party’s position on all issues stated in the Written Notification and set forth all facts which the responding party believes supports its position. The Written Response may be tendered by personal delivery, mail, or electronic mail.

The parties agree to schedule a conference to discuss the claim or controversy (“Issue Conference”). The Issue Conference shall take place within fifteen (15) business days from the date the Written Response is received by the other party.

(3) If the controversy, claim, or dispute is not resolved by mutual agreement at the Issue Conference, then either party may request that the matter be resolved by mediation. Each party shall bear its own costs and expenses associated with the mediation. The mediator’s fees and the administrative fees of the mediation shall be shared equally among the parties. Mediation proceedings shall commence within 60 calendar days from the date of the Issue Conference. The parties shall mutually agree upon the selection of a mediator to resolve the controversy or claim at dispute. If no agreement on a mediator is reached within 30 days after a request to mediate, the parties will use the processes and procedures of the American Arbitration Association (“AAA”) to have an arbitrator appointed.

(4) If the mediation is not successful, the parties agree that each party has exhausted its administrative remedies and shall have any such recourse available by law.

Internal Disputes

KIPP Bridge shall have an internal dispute resolution process to be used for all internal disputes related to the Charter School’s operations. KIPP Bridge will maintain a Uniform Complaint Policy and Procedures, as required by state law. Furthermore, KIPP Bridge will have a Parent and Guardian Grievance policy, the intent of which is to fairly and promptly resolve any concern, dispute, or complaint brought by parents or guardians against any KIPP policy, practice, procedure, or employee. KIPP Bridge’s policies and internal dispute resolution process will be made available to stakeholders. The District shall promptly refer all disputes not related to a possible violation of the charter or law to KIPP Bridge.

ELEMENT 15 – Closure Procedures

“The procedures to be used if the charter school closes. The procedures shall ensure a final audit of the charter school to determine the disposition of all assets and liabilities of the charter school, including plans for disposing of any net assets and for the maintenance and transfer of pupil records.” – Ed. Code § 47605(c)(5)(O)

Closure Action

The decision to close Charter School must be documented in a “Closure Action.” A Closure Action shall be deemed to have been automatically taken when any of the following occur: the Charter is revoked (subject to the provisions of Education Code section 47607(h)) or non-renewed by the OUSD Board of Education, and the Charter has exhausted any appeals procedures the Charter pursued; the governing board of Charter School votes to close Charter School; the Charter lapses or is surrendered; or the Charter School ceases to serve students for at least six consecutive months.

Closure Procedures

The procedures for charter school closure set forth below are guided by Education Code sections 47604.32, 47605, and 47607 as well as California Code of Regulations, title 5, sections 11962 and 11962.1, and are based on “Charter School Closure - Requirements and Recommendations” posted on the California Department of Education website. All references to “Charter School” apply to Charter School, including its nonprofit corporation and governing board.

Designation of Responsible Person(s) and Funding of Closure

Prior to or at the time of the taking of a Closure Action by either the governing board of Charter School or the OUSD Board of Education, the governing board of Charter School shall designate a person or persons responsible for conducting and overseeing all closure-related procedures and activities, and allocate sufficient funding for, or otherwise determine how Charter School will fund, these activities.

Notification of Closure Action

Upon the taking of a Closure Action, Charter School shall send written notice of its closure to:

1. The OUSD Office of Charter Schools (OCS). Charter School shall provide OCS with written notice of (1) the person(s) designated to be responsible for conducting and overseeing all closure activities, and (2) the funding for such activities. If the Closure Action is an act of Charter School, Charter School shall provide the OCS with a copy of the governing board resolution or minutes that documents its Closure Action.
2. Parents/guardians of all students, and all majority age and emancipated minor students, currently enrolled in Charter School within 72 hours of the Closure Action. Charter School shall simultaneously provide a copy of the written parent notification to OCS.

3. Alameda County Office of Education (ACOE). Charter School shall send written notification of the Closure Action to ACOE by registered mail within 72 hours of the Closure Action. Charter School shall simultaneously provide a copy of this notification to OCS.
4. The Special Education Local Plan Area (SELPA) in which Charter School participates. Charter School shall send written notification of the Closure Action to the SELPA in which Charter School participates by registered mail within 72 hours of the Closure Action. Charter School shall simultaneously provide a copy of this notification to OCS.
5. The retirement systems in which Charter School's employees participate. Within fourteen (14) calendar days of the Closure Action, Charter School shall notify, as applicable, the State Teachers Retirement System (STRS), Public Employees Retirement System (PERS), the Social Security Administration, and ACOE of the Closure Action, and follow their respective procedures for dissolving contracts and reporting. Charter School shall provide a copy of this notification and correspondence to OCS.
6. The California Department of Education (CDE). Charter School shall send written notification of the Closure Action to the CDE by registered mail within 72 hours of the Closure Action. Charter School shall provide a copy of this notification to OCS.
7. Any school district that may be responsible for providing education services to the former students of Charter School. Charter School shall send written notification of the Closure Action within 72 hours of the Closure Action. This notice must include a list of potentially returning students and their home schools based on student residence. Charter School shall provide a copy of these notifications, if any, to OCS.
8. All Charter School employees and vendors within 72 hours of the Closure Action. Charter School shall simultaneously provide a copy of the written employee and vendor notification to OCS.

Notification of all the parties above, with the exception of employees and vendors, must include but is not limited to the following information:

1. The effective date of the closure of Charter School
2. The name(s) and contact information for the person(s) handling inquiries regarding the closure
3. The students' school districts of residence
4. How parents/guardians of all students, and all majority age and emancipated minor students, may obtain copies of student records and transcripts, including specific information on completed courses and credits that meet graduation requirements

In addition to the four required items above, notification of the CDE shall also include:

1. A description of the circumstances of the closure
2. The location of student and personnel records

In addition to the four required items above, notification of parents/guardians of all students, and all majority age and emancipated minor students, shall also include:

1. Information on how to enroll or transfer the student to an appropriate school
2. A certified packet of student information that includes closure notice, a copy of the student's cumulative record, which will include grade reports, discipline records, immunization records, completed coursework, credits that meet graduation requirements, a transcript, and state testing results
3. Information on student completion of college entrance requirements, for all high school students affected by the closure

Notification of employees and vendors shall include:

1. The effective date of the closure of Charter School
2. The name(s) and contact information for the person(s) handling inquiries regarding the closure
3. The date and manner, which shall be no later than 30 days from the effective date of the closure of Charter School, by which Charter School shall provide employees with written verification of employment

Within 30 calendar days of the effective date of closure, Charter School shall provide all employees with written verification of employment. Charter School shall send copies of all such employee verification letters to OCS.

Records Retention and Transfer

Charter School shall comply with all applicable laws as well as District policies and procedures, as they may change from time to time, regarding the transfer and maintenance of Charter School records, including student records. These requirements include:

1. Charter School shall provide the District with original student cumulative files and behavior records, pursuant to District policy and applicable District handbook(s) regarding cumulative records for secondary and elementary schools, for all students, both active and inactive, of Charter School. Transfer of the complete and organized original student records to the District, in accordance with District procedures applicable at the time of closure, shall occur within seven (7) calendar days of the effective date of closure.
2. Charter School's process for transferring student records to receiving schools shall be in accordance with OUSD procedures for students moving from one school to another.
3. Charter School shall prepare and provide an electronic master list of all students to OCS in accordance with the District procedures applicable at the time of closure. This list shall include the student's identification number, Statewide Student Identifier (SSID), birthdate, grade, full

name, address, home school/school district, enrollment date, exit code, exit date, parent/guardian name(s), and phone number(s). If the Charter School closure occurs before the end of the school year, the list also shall indicate the name of the school to which each student is transferring, if known. This electronic master list shall be submitted to OCS in accordance with District procedures.

4. Charter School must organize the original cumulative files for delivery to the District in two categories: active students and inactive students. Charter School will coordinate with OCS for the delivery of student records.
5. Charter School must update all student records in the California Longitudinal Pupil Achievement Data System (CALPADS) prior to closing.
6. Charter School must provide to OCS the name, title, and contact information of the person designated to maintain all Charter School personnel records after the closure. Personnel records to be transferred to and maintained by the designee must include any and all employee records, including but not limited to, records related to performance and grievance. Charter School must provide to OCS and the designee a spreadsheet of personnel records of all active and inactive employees, that includes dates of employment, role, salary, and any other information necessary for employment verification. Both Charter School and the designee, individually and separately, shall inform OCS immediately upon the transfer of Charter School's employee records to the designee.
7. Charter School shall ensure that all records are boxed and clearly labeled by classification of documents and the required duration of storage in accordance with District procedures.
8. Charter School shall provide to the responsible person(s) designated by the governing board of Charter School to conduct all closure-related activities a list of students in each grade level and, for each student, a list of classes completed and the student's district of residence.

Financial Close-Out

After receiving notification of closure, the CDE may notify Charter School and the authorizing entity of any liabilities Charter School owes the state, which may include overpayment of Local Control Funding Formula and select apportionments, start up grants, or other liabilities. The CDE may ask the County Office of Education to conduct an audit of the charter school if it has reason to believe that the school received state funding for which it was not eligible.

Charter School shall ensure completion of an independent final "closeout audit" within six months after the closure of Charter School that includes:

1. An accounting of all financial assets. These may include cash and accounts receivable and an inventory of property, equipment, and other items of material value.
2. An accounting of all liabilities. These may include accounts payable or reduction in apportionments due to loans, unpaid staff compensation, audit findings, or other investigations.

3. An assessment of the disposition of any restricted funds received by or due to Charter School.

This audit may serve as Charter School's annual audit, if so permitted by the California Department of Education, California State Controller, and/or the State Superintendent of Public Instruction.

Charter School shall pay for the financial closeout audit of Charter School. This audit will be conducted by a neutral, independent licensed CPA who will employ generally accepted accounting principles. Any liability or debt incurred by Charter School will be the responsibility of Charter School and not OUSD. Charter School understands and acknowledges that Charter School will cover the outstanding debts or liabilities of Charter School. Any unused monies at the time of the audit will be returned to the appropriate funding source. Charter School understands and acknowledges that only unrestricted funds will be used to pay creditors. Any unused AB 602 funds or other special education funding will be returned to the District SELPA or the SELPA in which Charter School participates, and other categorical funds will be returned to the source of funds.

Charter School shall ensure the completion and filing of any annual reports required. These reports include but are not necessarily limited to:

1. Preliminary budget
2. Local control and accountability plan and annual updates
3. Interim financial reports
4. Second interim financial reports
5. Final unaudited reports

These reports must be submitted to the CDE and the authorizing entity in the form required. If Charter School chooses to submit this information before the forms and software are available for the fiscal year, alternative forms can be used if they are approved in advance by the CDE. These reports should be submitted as soon as possible after the Closure Action, but no later than the required deadline for reporting for the fiscal year.

For apportionment of categorical programs, the CDE will count the prior year average daily attendance (ADA) or enrollment data of the closed Charter School with the data of the authorizing entity. This practice will occur in the first year after the closure and will continue until CDE data collection processes reflect ADA or enrollment adjustments for all affected LEAs due to the charter closure.

Disposition of Liabilities and Assets

The closeout audit shall identify the disposition of all liabilities of Charter School. Charter School closure procedures must also ensure appropriate disposal, in accordance with the Charter School's governing board bylaws, fiscal procedures, and any other applicable laws and regulations, of any net assets remaining after all liabilities of Charter School have been paid or otherwise addressed. Such disposal includes, but is not limited to:

1. Charter School, at its cost and expense, shall return to the District any and all property, furniture, equipment, supplies, and other assets provided to Charter School by or on behalf of the District. The District discloses that the California Education Code sets forth the requirements for the disposition of the District's personal property and Charter School shall bear responsibility and liability for any disposition in violation of statutory requirements.
2. The return of any donated materials and property in accordance with any terms and conditions set when the donations were accepted.
3. The return of any grant and restricted categorical funds to their sources according to the terms of the grant or state and federal law.
4. The submission of final expenditure reports for any entitlement grants and the filing of Final Expenditure Reports and Final Performance Reports, as appropriate.
5. The submission of an inventory of equipment log in coordination with the charter school's independent auditor about the proper procedures for liquidating the assets, consistent with federal regulations. The inventory log shall include:
 - a. Name and contact of person(s) handling the liquidation;
 - b. Each item in excess of \$500 (computers, laptops, printers, and other equipment);
 - c. An identification number that corresponds to a tag on that item;
 - d. The cost of the item and whom/where/date of the item that was donated/sold.

If Charter School is operated by a nonprofit corporation, and if the corporation does not have any functions other than operation of Charter School, the corporation shall be dissolved according to its bylaws.

Charter School shall retain sufficient staff, as deemed appropriate by the Charter School governing board to complete all necessary tasks and procedures required to close the school and transfer records in accordance with these closure procedures.

Charter School's governing board shall adopt a plan for closure of Charter School and, if necessary, the corporation, in accordance with the requirements of the Corporations Code.

Charter School shall provide OUSD within fourteen (14) calendar days of the Closure Action with written notice of any outstanding payments due to staff and the time frame and method by which Charter School will make the payments.

Prior to final close-out, Charter School shall complete all actions required by applicable law, including but not limited to the following:

1. File all final federal, state, and local employer payroll tax returns and issue final W-2s and Form 1099s by the statutory deadlines.
2. Make final federal tax payments (employee taxes, etc.)

3. Complete and submit all required federal and state filings and notices to the State of California, the Internal Revenue Service, and the Department of the Treasury, including, but not limited to, final tax returns and forms (e.g. Form 990 and related Schedules).

This Element 15 shall survive the revocation, nonrenewal, expiration, termination, cancellation of this Charter, or any other act or event that would end Charter School's authorization to operate as a charter school or cause Charter School to cease operation. Charter School agrees that, due to the nature of the property and activities that are the subject of this Charter, the District and public shall suffer irreparable harm should Charter School breach any obligation under this Element 15. The District therefore reserves the right to seek equitable relief to enforce any right arising under this Element 15 or any provision of this Element 15 or to prevent or cure any breach of any obligation undertaken, without in any way prejudicing any other legal remedy available to the District. Such legal relief shall include, without limitation, the seeking of a temporary or permanent injunction, restraining order, or order for specific performance, and may be sought in any appropriate court.

ADDITIONAL PROVISIONS

Facilities

Prior to occupancy or use of any school site or facility, Charter School shall provide OCS with a current Certificate of Occupancy or equivalent document issued by the applicable permitting agency that allows Charter School to use and occupy the site as a charter school. Prior to occupancy or use of any school site or facility, Charter School shall provide documentation to OCS that the facility complies with all applicable building codes, standards and regulations adopted by the city and/or county agencies responsible for building and safety standards for the city in which Charter School is to be located. This requirement shall also apply, upon request by the District, to the construction, reconstruction, alteration of or addition to the facility. Charter School shall resolve in a timely manner any and all corrective actions, orders to comply, or notices issued by the authorized building and safety agency or the District. Charter School cannot exempt itself from applicable building and zoning codes, ordinances, and ADA/Section 504 requirements. Charter School shall maintain on file readily accessible records that document facilities compliance and provide such documentation to OCS upon request.

Pest Management: Charter School shall comply with the Healthy Schools Act, Education Code section 17608, which details pest management requirements for schools.

Asbestos Management: Charter School shall comply with the asbestos requirement as cited in the Asbestos Hazard Emergency Response Act (AHERA), 40 C.F.R. part 763. AHERA requires that any building leased or acquired that is to be used as a school or administrative building shall maintain an asbestos management plan.

Hold Harmless/Indemnification Provision

Charter School, through this Charter agrees to defend, indemnify, and hold harmless OUSD, its officers, directors, agents, representatives, employees, attorneys, volunteers, successors and assigns (collectively hereinafter “District” and “District Personnel”) from and against any and all actions, suits, claims, demands, losses, costs, penalties, obligations, errors, omissions, or liabilities including but not limited to attorneys’ fees that may be asserted or claimed by any person, firm or entity arising out of, or in connection with, Charter School’s performance under this Agreement or the Charter, the condition or use of its facilities, or any acts, errors, negligence, omissions or intentional acts by Charter School, its Governing Board, administrators, employees, agents, representatives, volunteers, successors and assigns. Moreover, Charter School agrees to indemnify, defend, and hold harmless OUSD and the OUSD Board of Education and their members, officers, directors, agents, representatives, employees and volunteers, for any contractual liability resulting from third party contracts with Charter School’s vendors, contractors, partners or sponsors.

Fiscal Matters

District Oversight Costs

The District may charge for the actual costs of supervisorial oversight of Charter School not to exceed 1% of the Charter School's revenue, or the District may charge for the actual costs of supervisorial oversight of Charter School not to exceed 3% if Charter School is able to obtain substantially rent free facilities from the District. Notwithstanding the foregoing, the District may charge the maximum supervisorial oversight fee allowed under the law as it may change from time to time. The oversight fee provided herein is separate and distinct from the charges arising under charter school facilities use agreements.

Third Party Contracts

Charter School shall ensure that all third party contracts, whether oral or written, for supplies, equipment, goods and/or services, for the direct or indirect benefit of, or otherwise related to the operation of Charter School, require compliance with and otherwise conform to all applicable local, state, and federal policies, regulations, laws, and guidelines, including, but not limited to, licensing and permit requirements as well as requirements related to protection of health and safety. Charter School shall notify all parties with whom it enters into a contract that the District is a separately legal entity and is not responsible for performing any of the Charter School's obligations under the contract, including payment for services.

Special Education Revenue Adjustment/Payment for Services

In the event that Charter School owes funds to the District for the provision of agreed upon or fee for service or special education services or as a result of the State's adjustment to allocation of special education revenues from Charter School, Charter School authorizes the District to deduct any and all of the in lieu property taxes that Charter School otherwise would be eligible to receive under section 47635 of the Education Code to cover such owed amounts. Charter School further understands and agrees that the District shall make appropriate deductions from the in lieu property tax amounts otherwise owed to Charter School. Should this revenue stream be insufficient in any fiscal year to cover any such costs, Charter School agrees that it will reimburse the District for the additional costs within forty-five (45) business days of being notified of the amounts owed.

The Charter School's financial statements, proposed budgets, projections, expenditures, and cashflow shall include the Charter School's anticipated expenditures for special education services, including any projected funding received for special education services, the average cost per pupil of providing special education services, and the extent to which the Charter School projects that it will have to incur special education expenditures from its unrestricted general fund revenues. If the Charter School does not belong to a SELPA as an LEA, it must also provide its projected equitable contribution to Districtwide special education costs.

Audit and Inspection of Records

The District hereby reserves the right, pursuant to its oversight responsibility, to audit Charter School's books, records, data, processes and procedures through the Office of Charter Schools, or in coordination with FCMAT, or in coordination with a mutually agreed upon third party. The audit may include, but is not limited to, the following areas:

- Compliance with terms and conditions prescribed in the Charter,
- Internal controls, both financial and operational in nature,
- The accuracy, recording and/or reporting of school financial information,
- Charter School's debt structure,
- Governance policies, procedures and history,
- The recording and reporting of attendance data,
- Charter School's enrollment process, suspension and expulsion procedures, and parent involvement practices,
- Compliance with safety plans and procedures, and
- Compliance with applicable grant requirements.

Charter School shall cooperate fully with such audits and shall make available any and all records necessary for the performance of the audit upon 30 business days notice to Charter School. In extreme circumstances when 30 business days notice may defeat the purpose of the audit, the District may conduct the audit upon 24 hours notice.

In addition, if an allegation of waste, fraud, or abuse of power related to Charter School operations is received by the District, Charter School shall be expected to cooperate with any investigation undertaken by the Office of Charter Schools.

Data and Information Reporting

Charter School shall provide the following data elements to OCS, according to a data reporting calendar that will be published by OCS prior to September 1 of each school year:

- Fall Census Day enrollment spreadsheet
- Reports required by Education Code section 47604.33:
 - Preliminary budget
 - Local control and accountability plan
 - First interim financial report
 - Second interim financial report
 - Final unaudited report
- Other audit-related, attendance, and/or enrollment information and reports:
 - Annual independent audit report (Ed. Code § 47605(m))
 - Independent Auditor Selection Form (Ed. Code § 41020(f)(1))
 - 20 day attendance report (Ed. Code § 47652(a))
 - Monthly attendance reports
 - Principal Apportionment Data (P1, P2, and P-Annual)

- Monthly student exit reports (Ed. Code § 47605(e)(3))
- Information/documentation related to Charter School’s facilities, SELPA, student/family handbook, and governing board (including membership, bylaws, and specified policies)

Additionally, Charter School shall notify OCS in writing in a timely manner of all changes to leadership at the Charter School, the Charter Management Organization, and the governing board.

Financial Plan and District Impact Statement

KIPP Bridge operates with a sound financial model. The operation of the Charter School is designed to be self-sufficient. However, KIPP Northern California may contract with the District for various operational services including leasing of facilities, food service, and special education services.

Financial Position

Due to a focus on a fiscally sound business and management structure, KIPP Northern California has received unqualified audit opinions year after year. KIPP Northern California closed FY23 with a fund balance of approximately 132% of annual expenses. We ended FY23 with cash reserves totaling approximately 111% of annual expenses.

KIPP Bridge’s funding sources will be diverse. The per-pupil payments from local and state sources and federal school funding programs will be combined with other grants and donations. If KIPP Bridge’s financial goals were to fall short, the organization’s substantial fund balance would provide a cushion while the Charter School made necessary changes to its operating model.

KIPP Bridge will maintain a relatively lean administrative staff and low overhead in order to allocate more funds to direct instructional materials and teaching staff. KIPP Bridge will pay KIPP Northern California a management and service fee. This fee supports the shared services at the KIPP Northern California regional support office, capturing efficiencies and economies of scale so that the administration at KIPP Bridge can focus on instructional leadership. Services provided by the regional office include compliance, reporting, facilities management, human resources, technology support, accounting, payroll, benefits administration, financial management, audit preparation, board development, teacher recruitment, academic oversight and support, special education, blended learning support, fundraising, outreach, strategy, and alumni support.

Budgeting

***Governing Law:** The petitioner or petitioners also shall be required to provide financial statements that include a proposed first-year operational budget, including startup costs, and cashflow and financial projections for the first three years of operation. Education Code Section 47605(h).*

The Chief Executive Officer of KIPP Northern California will submit an annual budget for KIPP Bridge to its Board during the spring of each year. KIPP Northern California's annual fiscal period runs from July 1 through June 30. The KIPP Northern California Board of Directors must approve the annual budget by June 30 of each fiscal year.

The financial plan for KIPP Bridge is based on KIPP Northern California's experiences to date. As required by Education Code Section 47605(h), please refer to Appendix 25 for multi-year financial projections, including a budget and cash flow for the next three years of operation. These documents are based upon the best data available to the petitioners at this time.

Financial Reporting

KIPP Bridge shall provide reports to the District as follows as required by Education Code Section 47604.33, and shall provide additional fiscal reports as requested by the District.

The Charter School shall provide reporting to the District as required by law and as requested by the District including, but not limited to, the following: California Basic Educational Data System ("CBEDS"), actual Average Daily Attendance reports, all financial reports required by Education Code Sections 47604.33 and 47605(m), the SARC, and the LCAP.

The Charter School agrees to and submits to the right of the District to make random visits and inspections in order to carry out its statutorily required oversight in accordance with Education Code Sections 47604.32 and 47607.

Pursuant to Education Code Section 47604.3, the Charter School shall promptly respond to all reasonable inquiries including, but not limited to, inquiries regarding its financial records from the District.

Audits

As mentioned above, KIPP Northern California will conduct yearly independent financial audits, to be completed by December 15 of each year. An auditor with knowledge and experience in auditing publicly funded schools will be engaged. The Charter School will also keep records of what other information has been requested by the various ad-hoc audits it undergoes throughout the year so that it can prepare for them in advance from year to year. Please see Appendix 21 for KIPP Northern California's most recent audited financial statements.

Potential Users of Financial Information

Financial statements such as a Balance Sheet, Income Statement, and Statement of Cash Flow will be prepared by KIPP Northern California. Financial statements will be used by the independent auditors hired each year. KIPP Northern California also expects the financial statements to be requested by such

institutional sources of financing as KIPP Bridge may require, including commercial banks and issuers of bonds. The financial statements will also be available for review as desired by any of the Charter School's administration, managers, or Board Members who want to assess the Charter School's financial condition. In addition, Board Members will use the financial statements to confirm existing policies or to create new policies. Finally, KIPP Northern California will submit its annual audited financial statement to the appropriate authorities within the California Department of Education and the District.

Administrative Services

Governing Law: The manner in which administrative services of the charter school are to be provided. Education Code Section 47605(h).

KIPP Northern California provides or procures most of its own administrative services including, but not limited to, financial management, personnel, and instructional program development either through its own staff or through an appropriately qualified third-party contractor, and is responsible for producing monthly financial reports and designing a policy of internal controls to ensure fiscal responsibility. The School Leaders, Chief Executive Officer, and the KIPP Northern California Board of Directors have also developed other policies and procedures including employee benefits, compensation, evaluations, dispute resolution, disciplinary actions, and student information systems.

Systems for Managing Cash Flow, Purchasing, Payroll, Reporting and Audits

KIPP Northern California has successfully established strict policies governing internal controls. These policies ensure that the internal control mechanisms address legal compliance, conflicts of interest, signature authorities, government access to records, accounting procedures, cash management, budget development, financial reporting, property management and procurement. KIPP Northern California has a check signing policy in place to ensure multiple levels of internal controls involving the School Leader, finance and accounting staff, and the executive team.

Tools Used for Tracking and Reporting Financial Matters

KIPP Northern California uses an accounting software package to aid in preparing for monthly financial reports and end-of-year audits. This computer system is employed by the KIPP Northern California finance and accounting team. The finance and accounting team will prepare financial reports (i.e. a balance sheet, income statement, and statement of cash flows) for the School Leaders of KIPP Bridge. KIPP Northern California will submit quarterly interim reports and submit them to the District.

Attendance Accounting

KIPP Bridge will report attendance requirements directly to the District in a format acceptable to the District. Required reports regarding daily attendance will be completed and submitted to OUSD.

Payroll

KIPP Northern California may choose to either contract with a private vendor for full payroll services – including tax withholdings and other benefit expenses from paychecks, filing the relevant returns with taxing authorities, and producing end-of-year income tax forms for employees – or may provide payroll services in-house.

Vendor Selection and Purchasing

The Board of Directors is responsible for approving KIPP Bridge’s annual budget, with substantial input from the School Leaders and Chief Executive Officer. The School Leaders will develop the budget proposal in coordination with the finance and executive teams, and have the latitude in determining vendor selection and how funds are best used within budget categories. The Board of Directors is responsible for long-range financial and facilities planning.

Food Services

KIPP Northern California may choose to contract for food services with the District. KIPP Northern California provides daily meals to students through the National School Lunch Program (“NSLP”). Eligible students are provided meals for free or at a reduced rate in accordance with federal and state nutritional guidelines. We expect that the proportion of students who will be eligible for this program will be similar to the proportion eligible within the District, and all eligible students will be included in the District’s reported student counts.

Oversight

Pursuant to California law, the District is required to provide oversight and performance monitoring services, including monitoring school and student performance data, reviewing the Charter School’s audit reports, performing annual site visits, engaging in any necessary dispute resolution processes, and considering charter amendment and renewal requests. In accordance with Education Code Section 47613(a), the District may charge for the actual costs of supervisory oversight of the Charter School not to exceed one (1) percent of the revenue of the Charter School. If the Charter School is able to obtain substantially rent free facilities from the District, the District may charge for the actual costs of supervisory oversight not to exceed three (3) percent of the revenue of the Charter School in accordance with Education Code Section 47613(b). Pursuant to Education Code Section 47613(f), “revenue of the charter school” means the amount received in the current fiscal year from the local control funding formula calculated pursuant to Education Code Section 42238.02, as implemented by Education Code Section 42238.03.

Facilities

Governing Law: The facilities to be used by the charter school. The description of the facilities to be used by the charter school shall specify where the charter school intends to locate. Education Code Section 47605(h).

KIPP Bridge Academy is committed to serving the Oakland community. In 2016, KIPP Bridge entered an agreement with the Oakland Unified School District for the former Lafayette Elementary School, located at 1700 Market Street in Oakland. The agreement is for an initial 20 year lease term with two additional 10 year terms, extending the lease to June 30, 2056. As part of the agreement, KIPP constructed an additional 22,000-square-foot facility at the premises for the KIPP Bridge Middle School. Construction of the improvements was completed during 2018 in time for the 2018-2019 academic year.

Thanks to its partnership with OUSD, KIPP NorCal is happy to be able to provide its students with the sense of security that comes with a permanent school site.

Potential Civil Liability Effects

Governing Law: Potential civil liability effects, if any, upon the charter school and upon the school district. Education Code Section 47605(h).

The Board of Directors of KIPP Northern California, the Charter School's administrative staff, and their respective representatives will be solely responsible for all aspects of the day-to-day operations of KIPP Bridge, including, but not limited to, making necessary provisions for accounting, budgeting, payroll, purchasing, liability insurance, and the like.

KIPP Bridge shall be operated by KIPP Northern California, a California non-profit public benefit corporation. This corporation is organized and operated exclusively for charitable purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code and California Revenue and Taxation Code Section 23701(d). Pursuant to Education Code Section 47604(d), an entity that grants a charter to a charter school operated by or as a non-profit public benefit corporation shall not be liable for the debts or obligations of the charter school or for claims arising from the performance of acts, errors or omissions by the charter school if the authority has complied with all oversight responsibilities required by law. KIPP Bridge shall work diligently to assist the Oakland Unified School District in meeting any and all oversight obligations under the law, including monthly meetings, reporting, or other District-requested protocol to ensure the District shall not be liable for the operation of the Charter School.

The KIPP Northern California Board of Directors will institute appropriate risk management practices as discussed herein, including screening of employees, establishing codes of conduct for students, and dispute resolution.

KIPP Northern California will hold harmless and indemnify Oakland Unified School District from every liability, claim, or demand that may be made by reason of:

- Any injury to person or property sustained by KIPP Northern California’s employees, or by any person, firm, or corporation employed directly or indirectly by KIPP Bridge
- Any injury to person or property sustained by any person, firm, or corporation caused by an act, neglect, default, or omission of KIPP Bridge, its officers, employees, or agents
- The furnishings or use of any copyrighted or un-copyrighted composition, or patented or un-patented invention

KIPP Northern California, at its own expense and risk, will defend all legal proceedings on any such liability, claim, or demand that may be brought against it and/or the Board of Directors, or its officers and employees. In addition, KIPP Northern California will satisfy any resulting judgments that may be rendered as the result of any such liability, claim, or demand, whether or not such liability, claim, or demand was actually or allegedly caused wholly or in part through the negligence or other tortious conduct of KIPP Bridge, the Board of Directors or their officers and employees. KIPP Northern California has complete liability for all actions of the Charter School and its employees in the performance of their duties. KIPP Northern California will further indemnify and hold harmless the Oakland Unified School District of any present or future liability for the Charter School’s actions.

The corporate bylaws of the Charter School shall provide for indemnification of the Charter School’s Board, officers, agents, and employees. In order to mitigate both the potential legal and fiscal liabilities of KIPP Bridge, KIPP Northern California will have in force at all times prepaid liability insurance for KIPP Bridge. The Oakland Unified School District Board of Trustees will be named as additionally insured on KIPP Bridge’s general liability insurance.

The Oakland Unified School District will be furnished with certificates of insurance signed by an authorized representative of the insurance carriers. OUSD has the right to require complete certified copies of the required insurance policies. Facsimile or reproduced signatures may be acceptable upon review by OUSD. However, OUSD reserves the right to require certified copies of any required insurance policies.

Should KIPP Bridge deem it prudent and/or desirable to have insurance coverage for damage or theft to school, employee or student property, for student accident, or any other type of insurance coverage not listed above, its purchase shall be the responsibility of the Charter School.

Oversight, Reporting, Revocation, and Renewal

Oakland Unified School District may inspect or observe any part of KIPP Bridge at any time, but shall provide reasonable notice of at least three (3) working days to the Charter School prior to doing so. In the event that the District believes a cause exists to revoke this charter, it shall follow the requirements of Education Code Section 47607 and all applicable regulations.

No later than 120 days prior to the expiration of this charter, KIPP Northern California will present the District with a request for renewal (as well as for any amendments), in response to which the District will render a decision pursuant to the processes set forth in Education Code Sections 47605 and 47607, and all applicable regulations. KIPP Northern California's charter may be renewed by the District for additional two, five, or five to seven year terms in accordance with the applicable charter renewal criteria as set forth in Education Code Sections 47607 and 47607.2.

Term of Charter

The term of this charter shall be for five years beginning July 1, 2025 and expiring on June 30, 2030.

Scope of Charter

KIPP Northern California shall not operate under the KIPP Bridge name satellite schools, campuses, sites, resource centers or meeting spaces not identified in this charter without the prior written approval of the Superintendent of the Oakland Unified School District.

Material Revisions and Amendments

This petition may be materially revised or otherwise altered, amended, changed, or modified only by mutual agreement of KIPP Northern California and the District. Material revisions will be made pursuant to the standards, criteria, and timelines in Education Code Sections 47605 and 47607.

Force Majeure

Neither party shall be liable if the performance of any part or all of this charter petition is prevented, delayed, hindered or otherwise made impracticable or impossible by reason of any strike, flood, riot, fire, explosion, earthquake, act of terror, act of God, sabotage, accident or any other casualty beyond either party's control, and which cannot be overcome by reasonable diligence and without unusual expense.

No Waiver

No waiver of any provision of this petition shall be deemed or shall constitute a waiver of any other provision. Nor shall such waiver constitute a continuing waiver unless otherwise expressly stated.

Notices

All notices required or permitted by this petition shall be in writing and shall be either hand delivered, sent by facsimile, sent by US mail, postage prepaid, to the addresses as set forth on the signature page hereof. A notice shall be effective either when personally delivered, on the date set forth on the receipt of a facsimile, or upon the earlier of the date set forth on the receipt of registered or certified mail or on the fifth day after mailing.

FY 24 Executive Team Bios

Person	Current Bio
Beth Thompson	<p>CHIEF EXECUTIVE OFFICER</p> <p>Beth Thompson is the founding CEO of KIPP Northern California where she is responsible for the organization’s performance, growth, and sustainability. KIPP Northern California currently works with over 6,500 students and their families in 21 schools across seven cities and has supported over 4,000 alumni on their journeys to fulfilling lives.</p> <p>Before becoming KIPP Northern California’s CEO in 2006, Beth created and implemented a strategic growth plan for KIPP schools on the West Coast, including securing charters, start-up funding, facilities, and community support. She has also worked on the founding team of NewSchools Venture Fund, and more recently, as an Executive Coach building capacity in KIPP CEOs across the country. She holds a B.A. in political science, M.A. in education, and an MBA with a certificate in nonprofit management—all from Stanford University. She is a proud resident of Oakland, parent of two elementary-school children, board member of Cambiar Education, and co-founder of Greenhouse E3.</p>
Jorge Miranda	<p>CHIEF OF SCHOOLS</p> <p>He was most recently the Vice President of High Schools with the KIPP Foundation where he led KIPP’s national high school strategy, including school design, leadership implementation, academic health support, assessment strategy and curriculum development. Over the last 12 years with the KIPP Foundation, he has had the pleasure of working with many KIPP NorCal high schools and leaders and is excited to join the team. Jorge came to KIPP following his time as principal at Match Public High School in Boston from 2006 to 2011, during which Match was recognized several times as one of the top charter high schools in the country by Newsweek, U.S. News and World Report, and New Leaders for New Schools. Jorge was the first in his family to graduate from college, graduating from Dartmouth College with a major in government and minor in education.</p>
Jenny Tan	<p>SUPERINTENDENT</p> <p>Jenny Tan graduated from the University of California at Berkeley with an undergraduate degree in Cognitive Science. Tan earned a Master's Degree and a Licensure for School Leadership from Harvard University's Graduate School of Education. During her tenure as the elementary school principal of the Andre Agassi College Preparatory Academy, she helped the school achieve the highest distinctions possible: "Exemplary" and "High</p>

	<p>Achieving" as determined by the Nevada Department of Education. She later became the first Chief Academic Officer for KIPP Colorado, where she supported their elementary, middle, and high schools to become top performing schools as designated by Denver Public Schools. Tan then joined the KIPP Foundation allowing her to work with senior academic leaders across the KIPP network. She was most recently an Associate Dean with the Relay Graduate School of Education where she conducted leadership training for principals and assistant principals throughout California. Tan is excited to serve KIPP NorCal's 6500 students and 21 schools every day.</p>
Cory Vastola	<p>CHIEF FINANCIAL AND OPERATING OFFICER Cory joined the KIPP Bay Area Public Schools Finance Team in 2013 as an Education Pioneers Analyst Fellow. Prior to KIPP, he worked in economic consulting in New York City. A native of Seal Beach, California, Cory holds a B.A. in Economics from Brown University. Education is his passion, but in his spare time, Cory enjoys playing the viola in the Bay Area Rainbow Symphony.</p>
Dave Ling	<p>CHIEF PEOPLE OFFICER David is the Chief People Officer for KIPP Northern California. In this role David oversees the Talent, People Initiatives, and Human Resources departments in an effort to recruit, develop and retain incredible individuals to support joyful, academically excellent schools. He also oversees the KIPP Forward team and their work to ensure that KIPP Northern California alumni feel empowered to pursue their vision of a fulfilling life and build a more just world.</p> <p>Prior to becoming Chief People Officer, David served as KIPP Bay Area Public Schools Managing Director of Talent, Managing Director of Student Services, and the Director of KIPP Through College, as well as the school leader at KIPP Bridge Charter School in Oakland, California from 2003 –2009. Before joining KIPP, David taught 7th and 8th grade Social Studies in Baltimore, Maryland as a Teach For America corps member. A Bay Area native, he is a graduate of UC Berkeley (B.A.) and Johns Hopkins University (M.A.T.), as well as the 2002 KIPP School Leadership Program. David lives in the East Bay with his wife and two sons.</p>
Hillary Harmssen	<p>CHIEF EXTERNAL IMPACT OFFICER Hillary is the Chief External Impact Officer at KIPP Public Schools Northern California where she is responsible for leading her teams to build effective partnerships with key external stakeholders including district and statewide electeds, community leaders, families, donors and the media to ensure our schools continue to grow and thrive. Hilary brings over 20 years of experience in the nonprofit sector in the arenas of educational equity, community development, affordable housing and economic development. Prior to joining KIPP, she worked at the California Charter Schools Association for 10 years serving as a relentless advocate for charter public schools and leading the organization's</p>

	<p>advocacy, policy and political work across the Bay Area and Northern California. A Bay Area native, Hilary holds a BA in American Studies from Cornell University and a Master of Public Policy from the University of Southern California. Hilary lives on the Peninsula with her husband and three children.</p>
Savina Woodyard	<p>CHIEF EQUITY AND STRATEGY OFFICER Dr. Savina Woodyard is a Bay Area native, hailing from Oakland, California. She graduated from UCLA in 2005 and completed her Masters in Education from Loyola Marymount University in 2007. She graduated from the University of Southern California with her Doctorate in Education in 2011 and was accepted into the Miles Family Fellowship, a part of the KIPP Leadership pipeline. She worked as an Assistant Principal for two years at KIPP Academy of Opportunity, before returning to the Bay Area to help open KIPP San Francisco College Preparatory, as a founding Dean of Instruction and College Counselor and became the principal of the school in the Fall of 2017. In 2019, she transitioned into the role as the Director of People Initiatives, in which she oversaw the region's Teacher Residency Program, Teacher Induction Program, Leadership Development and piloted the Emerging Leaders of Color program.</p>

Appendix 2- KIPP Forward Program
Update March 2024

KIPP Forward Update

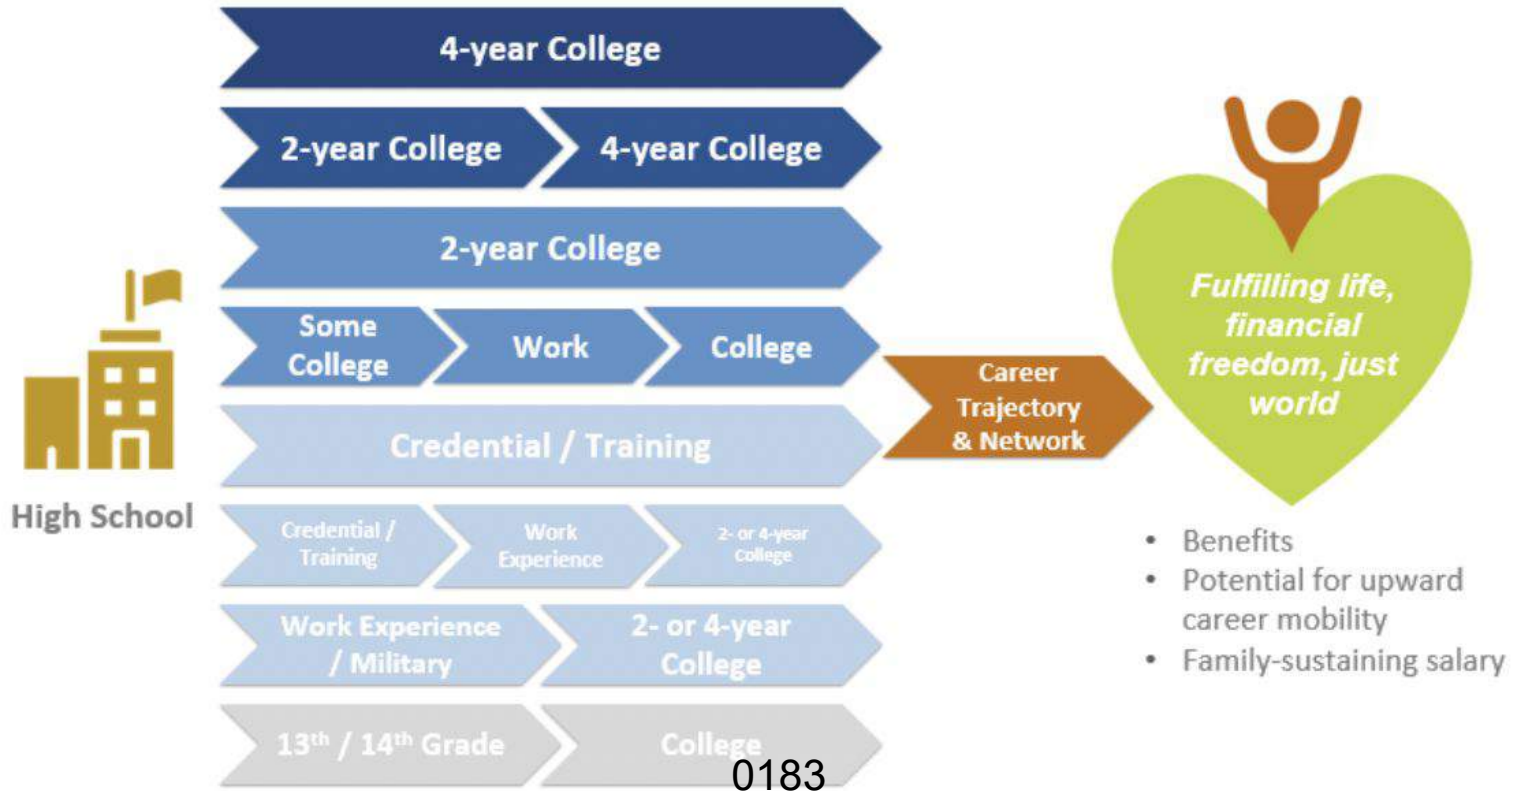

Allyson Takara, Director of KIPP Forward

KIPP:Public Schools

NORTHERN CALIFORNIA

0181

College, Career, and Beyond Still Remains, with a Clearer Focus

KIPP NorCal KIPP Forward's purpose has **not** changed - we are "business as usual"

What Shifted for KIPP NorCal

- The KIPP Foundation is focusing **all** of their efforts on K-12 academics
- Commitment and alignment to **all** national initiatives
 - Postsecondary Match as a national priority means more resources, and also more alignment and oversight
- More collaboration across schools and the region to improve HS matriculation and share back alumni experience

What's the Same for KIPP NorCal

- Continued commitment to support students across all pathways in their postsecondary journeys
 - KIPP Forward support starting in 11th grade through postsecondary program
 - 1:1 Postsecondary Advising
 - Emergency Funds
 - Career Programming for HS students and Alumni
 - Strong Transition

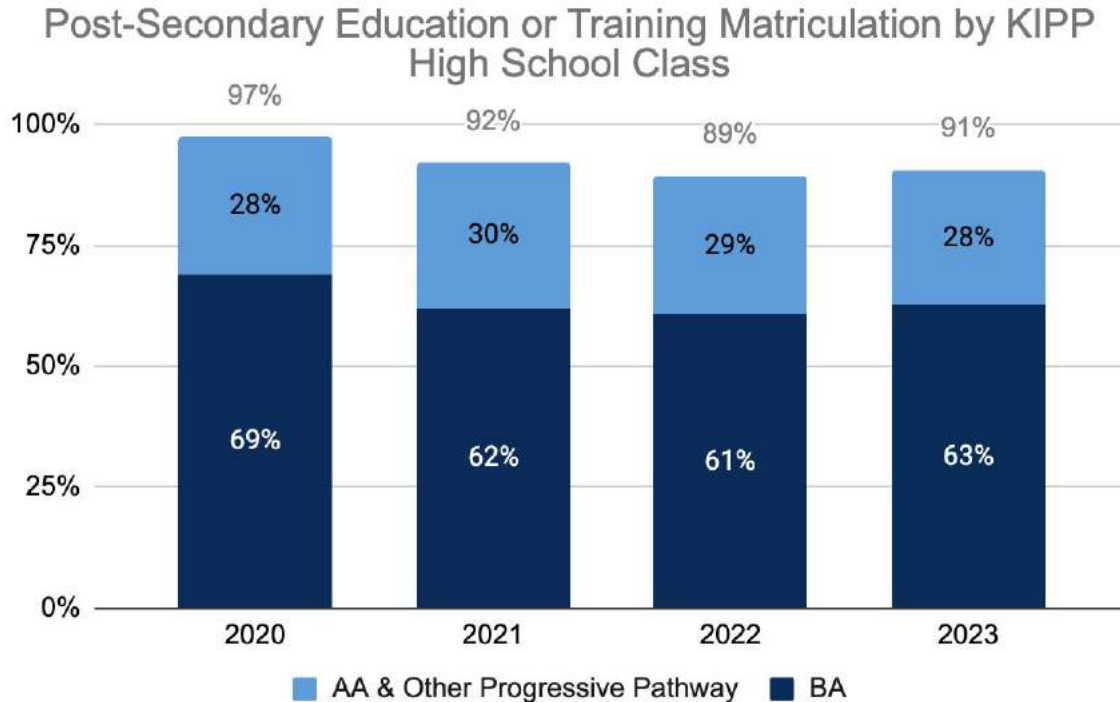

Attainment Data

And Programmatic Highlights

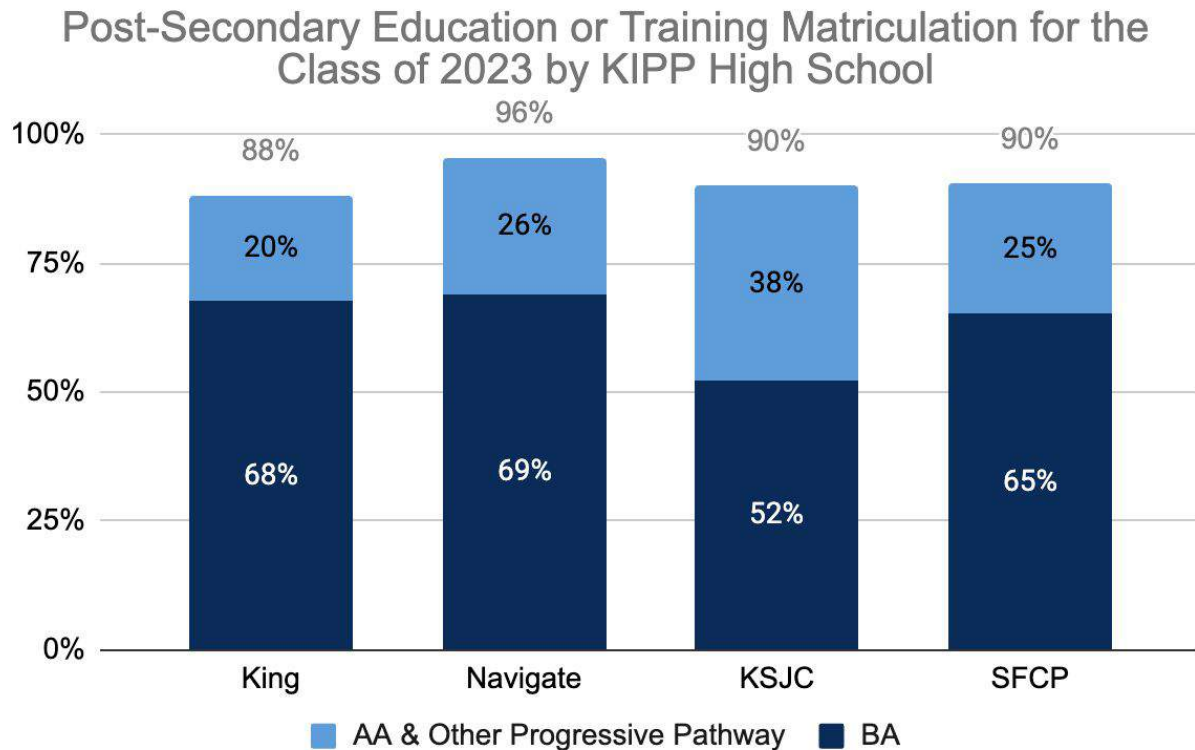

All KIPP NorCal HS Alumni

Key Metrics	Overall across Time
Matriculation	
Post-Secondary Education or Training Program (<i>Overall</i>)	94%
College (<i>BA</i>)	65%
<i>AA, Career Technical Edu (CTE), Military, Apprenticeship</i>	29%
College Persistence (<i>BA</i>)	51%
6-Year¹ College Completion (<i>BA</i>)	42%
All-Time¹ College Completion (<i>BA</i>)	48%

Matriculation Rates Are Up 2%

There Is Some Variation in Matriculation Rates by High School

The Gaps in Matriculation Have Remained Steady by Race/Ethnicity

College (BA) Matriculation by Race/Ethnicity

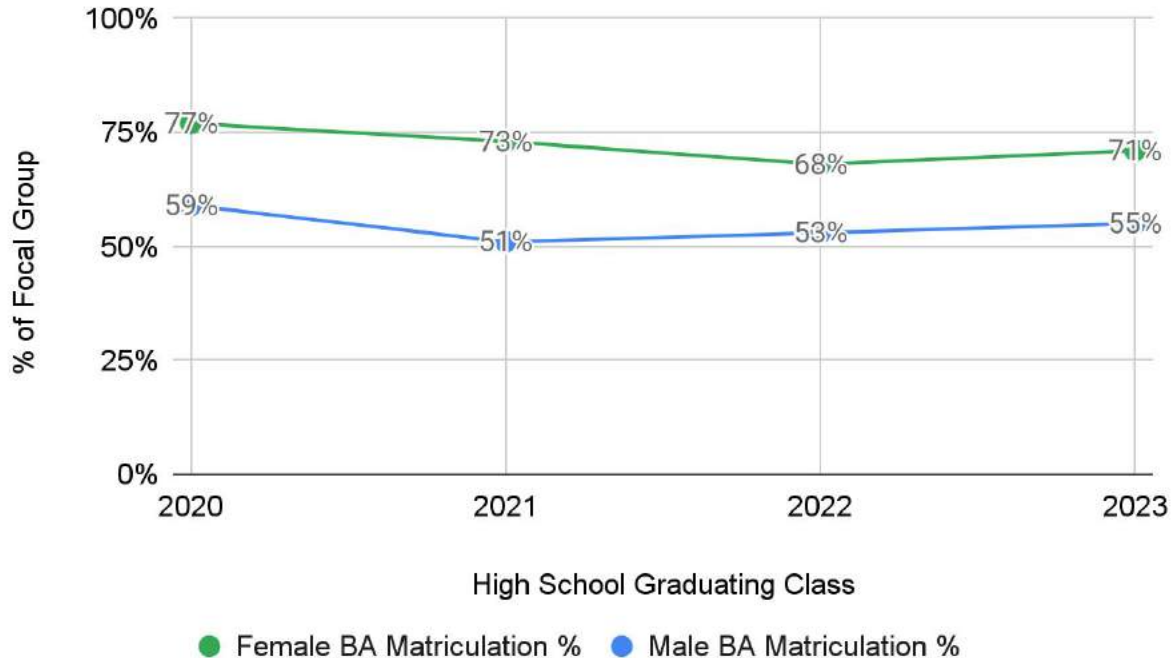

KIPP High School Graduating Class

● Latinx ● Black ● AAPI

0189

Matriculation Gaps by Gender Have Also Stayed Consistent

College (BA) Matriculation by Gender

College (BA) Matriculation: Race/Ethnicity & Gender

0191

BA Persistence Remains Steady After the Second Year of Enrollment

■ BA 0192

Although Still Experiencing Gaps Compared to AAPI Student Population, Latinx and Black Student Persistence Is Increasing

College (BA) Persistence by Race/Ethnicity

6-Year Graduation Rate is Down; Pandemic Impacts Were Significant

6-Year BA Completion by KIPP High School Class

In FY23, we prioritized:

Re-enrolling
Alumni to
Postsecondary
Programs

Piloting
Mentorship Pilot
for Black
Students

Partnering with
community orgs
and higher ed

We Are Seeing Some Promising Results!

Re-Enrolling Alumni

- **76** students have re-enrolled; **72%** are persisting
- Grant will sunset at the end of FY24; re-enrollment will be integrated to Postsecondary Success team

Piloting Mentorship Pilot for Black Students

- Paired **6** Black Juniors at KIPP King in SY22-23
- **100%** of students' post assessment results indicate professional or personal development
- Continuing to run the pilot at KIPP King in SY 23-24 (currently recruiting students)

Partnering with community orgs and higher ed

- We've partnered with a number of organizations to bring career connected learning experiences to our students!
 - Hall Capital
 - Accenture
 - Veggielution
 - Field trips to college campuses

Manase % 2020 completed
CyberHigh to graduate, then
enrolled at EVC for a Medical
Assisting Certificate

*"I'd describe my experience as
delightful and inspiring. Even if you
learn that the career you planed on
isn't what you want to do anymore
it is still nice to gain some type of
knowledge [about] the working life
of an adult. I'd say the pros of this
program is getting to know new
people and building a professional
network"*

Alumni Early Career Outcomes Survey

Several factors are correlated with better early career outcomes across three key categories:

Programming in High School

Choice of Postsecondary Pathway

Career Related Opportunities

Drivers of variability | Several factors are correlated with better early career outcomes, across three key categories

DRIVERS OF VARIABILITY

FINDINGS

Note: These drivers were validated as meaningful using linear regression analysis

Programming in high school

High school GPA > 3.5

- +10pp earning a living wage

HS helped understand career opportunities

- +12pp 'thriving'
- +10pp with strong early job

Choice of postsecondary pathway

Obtained a bachelor's degree

- +\$9k average annual income
 - Even more for those who attend the most selective colleges (+\$17k) and/or had a college GPA over 3.5 (+\$11k), vs. those without a bachelor's degree
- +16pp earn a living wage

Studied STEM, business, or skilled trades

- +\$7k average income for STEM bachelor's grads over other majors

Obtained a professional certificate

- Income similar to bachelor's grads
- \$7k less debt than bachelor's grads

Career related opportunities

Work in science, tech, or engineering

- +\$17k average annual income
- +28pp earning a living wage

Took a class that taught skills related to future job

- +13pp with a strong early job
- +13pp 'thriving'

Major field of study aligned with current job

- +\$9k average annual income

Internship aligned with career interests

- +\$7k average annual income

Used college career counseling services

- +\$7k average annual income

Received networking experience

- +\$6k average annual income

Received career skill building support

- +9pp with a strong early job
- +7pp 'thriving'

0202

Note: Drivers of outcomes are simple mean differences from the data that also showed statistical significance when we tested a series of multi-variate regression analysis; Source: 2023 Alumni Early Career Outcomes Survey (N=2359); MIT living wage

Appendix 4- KIPP Principal in Residence Training Overview

KIPP® Public Schools

NORTHERN CALIFORNIA

Principal In Residence

Program Overview

Principal In Residence Program

Are you ready to lead for wider impact?

At KIPP NorCal, we believe the role of the principal is the most important cultural and instructional leadership position within our organization. As such, KIPP NorCal is therefore investing in a residency program to ensure that there is a transparent pathway to principalship with an equitable selection process.

The highly selective 1 to 2-year residency is designed to prepare aspiring principals in the adaptive, technical, and managerial skills to lead a KIPP Northern California school as either a successor or a founding leader.

Residencies

PIRs are placed in a 1-2 year residency at a high-performing school with intensive on-the-ground development. Your residency school will expose you to excellent school design and provide a Mentor School Leader who serves as the model and coach for strong leadership.

Development Roadmap & Performance Assessments

Each PIR has a development plan that is mapped to critical School Leadership skills. You will be observed frequently in-school and must pass ~30 performance assessments aligned to these skills to demonstrate school leader readiness.

Coaching

You will receive ongoing coaching against the development plan by two on-the-ground mentors: the Mentor School Leader and the Director of Leadership Development.

Formal Professional Development

You will receive formal professional development aligned to the Development Roadmap and targeting specific developmental needs.

Readiness Checkpoints

Quarterly readiness checkpoints provide an opportunity for the PIR and the development team – the Mentor SL, Director of Leadership Development, and other regional stakeholders, to reflect on progress towards School Leader Readiness.

Transition/Launch Planning

PIRs receive supported planning throughout the process to step into the School Leader seat as a Successor or Founder school leader.

Potential

People

Principal Role

KIPP NorCal PIR program invests in the potential of our highest performing talent to create impact for students and lead our network of schools in the coming years.

As a PIR, you are a full-time member of your residency school leadership team.

You will be supported in your development by a Mentor School Leader, a Director of Leadership Development, School Leader Manager, and your cohort of PIRs.

KIPP NorCal aims to develop all PIRs towards the school leader seat contingent on the right school match and progression through the Development Roadmap skills.

PIRs do not always assume a School Leadership position in the same school as their Residency placement.

Selection Process

We're excited about your interest in the KIPP Northern California's Principal in Residence program. Once we have reviewed your application, we will invite you to our pre-selection process and gather references from your current and past teammates. We will then invite you to full-day, in-person interviews with KIPP Northern California's senior and school-based leadership.

What We're Looking For...

KIPP Leading for Learning Readiness Criteria

The [LFL Readiness Criteria](#) outline the skills needed to be an effective school leader. PIRs will develop these skills through a personalized development plan supported by aligned professional development, coaching, and on-the-job practice.

Readiness

To get the most out of the Principal in Residence, candidates should enter the program as an "Experienced Assistant Principal" having demonstrated the ability to coach and develop teachers, drive grade/department-wide culture, and lead school-wide initiatives.

How do I Apply?

Appendix 6- Relay Graduate School Instructional Power Moves Overview

Leading for Learning -- Part II: Instructional Power Moves Research and Theory of Impact

We believe . . .

If we have the “right people” in the “right roles” at the “right time” doing the “right things”, KIPP will be able to drive student outcomes and serve more students.

Part I: Leading For Learning “Right Roles”

In 2015, the KIPP network rallied around the research that high-performing schools were led by 3 school-based leaders: a **School Leader** who dedicated 75% of his/her time to improving instruction; an apprentice **Assistant Principal** whose role mirrored the School Leader and had responsibilities for culture and instruction¹; and a **School Operations Leader** who helped to drive operational excellence and free instructional leaders’ time.

We have seen significant progress on getting to the “right roles”:

- School Leaders reduced their time spent on operations by more than half since 2015 and are hovering at ~70% time spent on instructional leadership
- 85% of KIPP Schools have an apprentice Assistant Principal
- 75% of KIPP schools have a School Operations Leader versus 32% in 2015

Primacy of Instructional Leadership:

In our extensive Leading for Learning research², we identified 8 actions that, when combined, have proven to produce consistent outcomes for students. We found high-performing School Leaders:

1. Set ambitious school-wide vision and goals that lead students on a path to and through college
2. Relentlessly plan and prioritize to achieve goals
3. Develop a pipeline of future leaders and teach and insist that leadership team members are true owners of the work
4. Proactively model a positive learning culture, but refrain from frequent involvement in low-leverage reactive student discipline
5. Hire and retain diverse, highly-effective teachers
6. Build his/her own and all staff’s knowledge of effective instructional design and academic standards
7. Develop teachers to provide rigorous and high-quality instruction
8. Foster sustainability by engaging lifelines and renewing to get stronger

¹ IMPORTANT CLARIFICATION ON AP ROLE: Responsibilities for “culture” and “instruction” do not indicate a grade level AP; in most schools, because APs are novice, they will need to be coaching by content (e.g. ELA AP) because they will not have sufficient expertise across subjects to support content knowledge development of teachers.

² Large-scale analytical studies: We read over 50 books, articles and large-scale analytical studies on principal effectiveness. A sampling of this literature includes: Michael Fullan’s *The Principal*; Paul Bambrick-Santoyo’s *Leverage Leadership*; Richard DuFour and Robert J. Marzano’s *Leaders of Learning*; Kim Marshall’s *High Leverage School Leader Activities*; McKinsey & Co.’s *Capturing the Leadership Premium*; New Leaders for New Schools’ *Playmakers: How Great Principals Build and Lead Great Teams of Teachers*; Public Impact’s *School Turnaround Competencies*; US DOE’s *Achieving Dramatic School Improvement*; and Stanford Education Institute’s *Principal Time Use*. Case Studies on KIPP Leaders and cousin CMOs: We reviewed the performance of KIPP’s 362 past and present School Leaders and identified 15 School Leaders who had sustained in their role and met our cut-offs on student achievement, student retention, and teacher tenure. We also spoke with leaders from the following CMOs: Aspire Schools, Achievement First, Brooke Charter Schools, Success Charter Network, Uncommon Schools. In interviews with these School Leaders, we uncovered common themes in the behaviors and competencies that have informed our recommendations. In interviews with these School Leaders, we uncovered common themes in the behaviors and competencies that have informed our recommendations.

Leading for Learning -- Part II: Instructional Power Moves Research and Theory of Impact

And, the research concluded that the difference between good school leaders and exceptional school leaders rests on expertise in improving the quality of instruction in the building (through actions #6 and #7). In a review of 27 studies on the effects of school leadership on student outcomes, researchers found that on average “instructional leaders,” who focused on improving classroom instruction, had a 3-4 times greater effect on student achievement than more general “transformational leaders.” They concluded, “the more leaders focus their relationships, their work and their learning on the core business of teaching and learning, the greater their influence on student outcomes.”³

Part II: The Instructional Power Moves

Given the importance of actions #6 (build own and staff content knowledge) and #7 (develop teachers), we have continued to clarify how, specifically, leaders can drive excellent instruction. In particular we found that a School Leader’s job is to train and develop the instructional coaches in their building and that these instructional coaches executed 3 Instructional Power Moves to develop their teachers.

We start with the research that high-performing teachers do three things in a continuous instructional cycle:

- Internalize standards and content and plan strong lessons⁴
- Deliver strong instruction (managing the class and teaching rigorous lessons)⁵
- Monitor student learning and respond both in-the-moment and after lesson delivery

While high-performing teachers are able to perform these actions independently, most KIPP teachers are novice. Across the KIPP network, ~60% of our teachers are in their first two years of teaching at KIPP (and these trends persist year-over-year). As such, instructional coaches⁶ play a critical role in accelerating teacher excellence by supporting the instructional cycle through **3**

Instructional Power Moves:

- **Internalization and Planning:** Lead teachers in internalization and planning and provide feedback on lesson plans
- **Observation/Feedback:** Observe lesson delivery and provide feedback on instruction [real-time feedback or observation/feedback meeting]
- **DDI:** Facilitate data analysis meetings [Weekly Data Meetings, Interim Assessment Data Days] and provide feedback on teacher’s data analysis and reteach plans⁷

³ Viviane M. Robinson, Claire Lloyd, Kenneth J. Rowe, *The Impact of Leadership on Student Outcomes: An Analysis of the Differential Effects of Leadership Types*.

⁴ There is a wealth of research on the impact that planning and internalization of content and standards has in driving strong instructional practice. (Jackson & Davis, 2000; Bain & Jacobs, 1990; Walls, Nardi, von Minden & Hoffman, 2002) “Organizing time and preparing materials in advance of instruction have been noted as important aspects of effective teachers” (James Stronge, *Qualities of Effective Teachers*) and “effective teachers take into account the abilities of their students and the students’ strengths and weaknesses... [they] planned in response to individual student performance” (Fuchs, et al, 1994).

⁵ Bain, H.P. & Jacobs, R. (1990). *The case for smaller classes and better teachers*.

⁶ At KIPP, instructional coaches are inclusive of anyone who directly coaches teachers (School Leaders, APs, deans, instructional coaches, etc.). Approximately 70% of KIPP School Leaders directly coach teachers and have an average coaching load of 5 teachers.

⁷ Bambrick-Santoyo, P. (2010). *Driven by Data*.

Leading for Learning -- Part II: Instructional Power Moves Research and Theory of Impact

Our research suggests that the Power Moves are a reinforcing cycle that support teachers throughout their instructional coaching cycle and are focused on building teachers' capacity.⁸ They drive significant results when teachers received support on all three.⁹ In fact, Charter School Growth Fund recently published an article chronicling Achievement First's rapid student achievement gains after Common Core (a CMO in the northeast).¹⁰ Notably, after investing in the 3 Power Moves combined, the network saw strong, sustained growth in the 2016 and 2017 school years, seeing +24% proficiency gains in ELA and +20% gains in math.¹¹

Power Move: Internalization and Planning

Coaches play a critical role in developing teachers' content knowledge and helping them be prepared to deliver high-quality lessons.¹² In particular, our research found coaches spent their time with teachers on internalization and planning in three main ways: 1) supporting teachers in unpacking standards for upcoming modules/units and lessons; 2) producing a strong, executable lesson plan that the teacher is prepared to deliver; and 3) when there was not a pre-existing curricula, backwards mapping lessons to standards to create a teaching scope and sequence¹³.

⁸ Pearson and Gallagher. *Gradual Release of Responsibility Model*. 1983.

⁹ We do not yet have conclusive evidence on whether it is most effective to coach a teacher on one lesson across an integrated cycle (i.e. co-plan the same lesson that is then observed and analyzed). This is a subject of further study.

¹⁰ Charter School Growth Fund published a study of Achievement First's remarkable student gains in the 2016 & 2017 school years. In it, Superintendents Dacia Tool and Doug McCurry credit their success to their teacher development that focused on: planning, delivery, and attention to results/data (which mirror KIPP's Power Moves).

¹¹ Charter School Growth Fund's The Achievement First Story: <https://stories.chartergrowthfund.org/the-achievement-first-story-part-2-big-steps-to-a-storybook-ending-4356d5b4764f>.

¹² In a review of practices from high-performing CMOs, we found a focus on preparing teachers to unpack standards in preparation for lesson delivery including Uncommon Schools, Success Academies, Aspire, IDEA, Friendship Public Charter School. Knight, Jim. *Instructional Coaches Make Progress Through Partnership*, 2004; Garet, M., et. al. (2010). Middle School Mathematics Professional Development Impact Study: Findings after the first year of implementation (NCEE 2010-4009). Washington, DC: U.S. Department of Education, Institute of Education Sciences, National Center for Education Evaluation and Regional Assistance.

¹³ McTighe, Jay and Williams, Grant. *Understanding By Design*. 2005. Farr, Steven. *Teaching as Leadership*. 2010.

Leading for Learning -- Part II: Instructional Power Moves Research and Theory of Impact

What To Do:

Specifically, coaches should:

- Review or co-plan one high-priority¹⁴ lesson plan per teacher per week (note: if a teacher is struggling with planning, may need to co-plan the lesson)
- Lead the “Lesson Internalization and Planning Meeting” (in KIPP high schools, called a “co-planning” meeting) in either a 1:1 meeting or Content Team each week¹⁵
- Observe teacher lesson delivery with lesson plans in hand

And to ensure that coaches can effectively support teachers in their internalization and planning, School Leaders should:

- Observe and provide feedback to coaches leading the “Lesson Internalization and Planning Meeting” using the “Internalization and Planning Mastery Rubric”¹⁶

Power Move: Observation and Feedback

Extensive research has demonstrated the importance of observation and feedback in instructional coaching¹⁷ and for years, KIPP leaders have implemented the practice of observation and feedback. From our research, the key differentiator in effectiveness of observation and feedback rests on the coach: 1) accurately diagnosing the highest leverage needs of the classroom against a research-based rubric¹⁸; 2) creating a bite-sized action step so that a teacher can develop incrementally¹⁹; 3) effectively delivering the action step to a teacher (which is dependent on a trusting relationship)²⁰; 4) practicing the action step before lesson delivery²¹.

¹⁴ High-priority lessons will be designated in ‘module/unit internalization’ and include important foundational standards

¹⁵ Content Teams (i.e. groups of teachers internalizing the same grade/subject’s curricula) are the ideal construct for internalization; when this construct is not feasible within a single school, may want to construct virtual collaboration opportunities across schools in a region or use a 1:1 coaching meeting

¹⁶ Once a coach has demonstrated proficiency in leading these meetings and the underlying content knowledge, School Leader will check in as needed.

¹⁷ Marzano, R. and Simms, J. *Coaching Classroom Instruction*. 2013.

¹⁸ In his findings on effective instructional coaching practices, Kirk Walters (*Instructional Coaching Strategies to Support Student Success in Algebra*, 2014) noted that effective coaching included: “structured feedback on a narrow set of instructional practices” and coaches focused on “identifying the key aspects of instruction that the coaching will target. Instead of launching general coaching initiatives, select a rubric that is research based and focus on a subset of practices that teachers can digest and incrementally improve.”

¹⁹ Marzano, R. and Simms, J. *Coaching Classroom Instruction*. 2013, According to Marzano’s research: “focusing on one goal at a time is key to effective growth and sustainable performance.” (21-28).

²⁰ Marzano, R. and Simms, J. *Coaching Classroom Instruction*. 2013, According to Marzano’s research: “trust among coaches and teachers greatly increases teachers’ willingness to make changes in their instructional habits or behaviors” (9-10); Rogers, C. R., & Farson, R. E. (2006). Active listening. In J. S. Osland, M. E. Turner, D. A. Kolb, & I. M. Rubin (Eds.), *The organizational behavior reader* (8th ed., pp. 279–290).

²¹ According to research by TNTP: “The goal of deliberate practice is to create automaticity in the execution of a skill or technique. In the classroom, this translates to a teacher’s ability to implement a skill with minimal intellectual effort...These action steps should be concrete, clear, and immediately actionable – “bite-sized” – and focus on only one routine.” Dr. K. Anders Ericsson defines deliberate practice as “activities designed...for the sole purpose of effectively improving specific aspects of an individual’s performance.” Implementing deliberate practice techniques is one of the most effective ways for school leaders to support teachers in developing their instructional skills.” https://tntp.org/assets/tools/Deliberate_Practice_TNTP_6JUN2013.pdf.

Leading for Learning -- Part II: Instructional Power Moves Research and Theory of Impact

About two-thirds of KIPP coaches are new to their role and therefore novice in their instructional coaching. In our research on KIPP coaches, we found that a major challenge for novice coaches was providing precise, accurate action steps for teachers. We also heard resounding feedback from the network that the Relay tools for observation and feedback were helping them to get better:

“Relay is set out with indicators to check off - there’s step one, here’s how to do this, here’s the script. It’s literally the difference between improv and a dramatic reading. Both are great -- but to do improv, you have to have a certain amount of skills and talent to do it.” (KIPP Regional Leader)

“I used to go into a feedback meeting and O3 and not know how to deliver the feedback. Relay has helped me and my AP a ton in that regard. I now use the ‘See It, Name It, Do It’ approach from Relay. When I’m using it in an O3, it’s productive, and I can get through the whole thing.” (KIPP School Leader)

Therefore, KIPP has opted to adopt Relay’s tools for Observation/Feedback including the *Get Better Faster Scope and Sequence* (to aid in diagnosing action steps), the *Giving Effective Feedback. See It. Name It. Do It. Protocol* (for instructional coaches to provide feedback), and the *Observation/Feedback Mastery Rubric* (to evaluate coaches’ proficiency in observation/feedback).

What To Do:

Specifically, coaches should:

- Schedule and conduct at least one, 15-minute observation weekly of each teacher using *Get Better Faster* to diagnose instruction
- Allocate at least 15 minutes of a weekly “prep block” per teacher to plan for the Observation/Feedback meeting and write the script for the *Giving Effective Feedback* protocol
- Schedule and lead one, 30-minute (max) Observation/Feedback meeting weekly with each teacher to provide and practice a bite-sized, high-leverage action step

And to ensure that coaches can effectively support teachers in their lesson execution, School Leaders should:

- Schedule at least one opportunity to progress monitor and develop each coach’s Observation/Feedback per week, which may include:
 - Co-observing classes with the coach to norm on action steps or provide feedback on real-time coaching
 - Observing coach leading an Observation/Feedback meeting and providing feedback on his/her coaching (and assess the coach against the “Observation/Feedback Mastery Rubric”)
 - Reviewing observation tracker (looking for bite-sized action steps, strong progression of action steps toward PD goal, etc.) and giving feedback on quality of action steps
 - Norming and reflecting on a common bar of excellence across school instructional leadership team by leading walkthroughs

Power Move: Data Driven Instruction (DDI)

In his seminal book *Driven By Data*, Paul Bambrick-Santoyo asserts that the key practice that separates the great schools from an average school are the schools’ DDI practices. Bambrick-Santoyo states, “I am convinced that data-driven instruction is the single most effective use of a

Leading for Learning -- Part II: Instructional Power Moves Research and Theory of Impact

school leader's time."²² At the heart of DDI is the data-analysis meeting where a coach facilitates a teacher through analyzing his/her student data and determining next steps for student mastery.

There are three aspects of DDI that KIPP will focus on to ensure that we are able to truly unleash the power of data in our schools.

1. **Strategic Assessments:** Our research demonstrated that in the most high-performing schools, the assessments used were a) instructional interims (administered every 6-8 weeks); b) common across the region across grades and classes (allowing for comparison); and c) aligned to both rigorous standards (e.g. College and Career Readiness Standards or Common Core Standards) AND the high-stakes exam (e.g. ACT).²³

In addition, high-performing schools created "assessment maps" that outlined the expected data that would be available over the course of the year including interims, unit/module exams, quizzes, or exit tickets. They then used these maps to outline their anticipated DDI structures. For example, interims would necessitate a whole-school Data Day to analyze the results and make programmatic decisions for the school; whereas, unit/module exams might necessitate a Weekly Data Meeting in a "content team."

2. **Rigorous Data Analysis:** To make data meetings effective, the analysis of the data must be accurate, rigorous and deep. From our research, that means cutting data to be analyzed in a variety of different "views" including the *student level*, *skill/standard level*, *question level*, *whole class level*, and *comparative level (against other classes)*. It also means that the coach and teacher understand the implications of the analysis on the upcoming teaching plans.
3. **Frequent Action:** Rigorous analysis is a mere intellectual exercise if there are a no concrete actions and adjustments to instruction. To aid in this, **KIPP will adopt the practice of Weekly Data Meetings** whereby a coach facilitates an analysis of the most recent, highest stakes assessment in a weekly meeting either 1:1 with a coach or within a content team. Given the positive impact of the Relay DDI tools and resources in the KIPP network, we will adopt the Weekly Data Meeting Protocol and associated reteach strategies.

"It's great that we're emphasizing weekly data meetings. It's powerful to see a coach and teacher sitting down and planning what would be changed. I've never seen us be so intentional about using the weekly data meetings to drive reteaching. I know I've seen an immediate impact on students, as well as our teachers' ability to do it without the coach." (KIPP Regional Leader)

What To Do:

Specifically, coaches should:

- Conduct a Weekly Data Meeting with a group of teachers who have administered the same assessment (may necessitate cross-region collaboration) or 1:1 if no other teacher has administered the same assessment (for formative and unit/module assessments)
- Prepare for said Weekly Data Meeting by:

²² Bambrick-Santoyo, Paul. (2012). *Leverage Leadership*.

²³ Note: In our own KIPP network, data indicates that KIPP high schools who implemented the interim assessments with more fidelity had greater growth on ACT scores (on average high-implementers had 3.5x higher ACT scores than low performers in 9th grade, .75x higher scores in 10th grade, and .2x higher score in 11th grade); Bambrick-Santoyo, Paul. *Driven by Data*.

Leading for Learning -- Part II: Instructional Power Moves Research and Theory of Impact

- Taking the assessment/doing the student work and outlining an “exemplar”
- Reviewing the students’ completed work and independently analyzing the student work against the exemplar
- Evaluating the teacher’s data analysis based on own coach analysis
- When applicable, coach will also lead a data day for interim assessment analysis

To ensure strong teacher and coach DDI practices in the school, School Leaders should:

- Observe and provide feedback to coaches leading the “Weekly Data Meeting” (live or video) using the “Weekly Data Meeting Mastery Rubric”²⁴

And a School Leader should execute the following as needed:

- Analyze interim assessment data and determine school-wide action steps
- Audit teacher analysis of assessments
- Review student assessment data and probe on reteach plans
- Analyze teacher practice data (e.g. coaching action steps) and student mastery data to identify school-wide trends; determine interventions for individual teachers (e.g. next steps for their 1:1 coaching), instructional coaches or whole school (e.g., PD)²⁵

SUMMARY OF TOOLS:

	Internalization and Planning	Observation / Feedback	DDI
Teacher Support Tool: <i>Tool to specify excellence in teacher practice</i>	<i>Curriculum Internalization Guides (e.g., Wheatley Reading Internalization Guide)</i>	<i>Get Better Faster</i>	<i>Weekly Data Meeting Protocol* (note: WDM Protocol acts as both coach/teacher facing support tool) K-12 LASR Daily Data Dive (D3)</i>
Meeting Protocol: <i>Tool that coach uses to run the Power Move meeting</i>	<i>Lesson Internalization and Planning Meeting Protocol</i>	<i>Giving Effective Feedback. See It. Name It. Do It. Protocol.</i>	<i>Weekly Data Meeting Protocol</i>
Mastery Rubric: <i>Tool that the School Leader uses to assess coach’s mastery of the Power Move</i>	<i>Internalization and Planning Mastery Rubric</i>	<i>Observation/Feedback Mastery Rubric</i>	<i>Weekly Data Meeting Mastery Rubric</i>

Conditions for Success:

While the Power Moves are a proven recipe to improve instruction, we know that these moves cannot be executed in a vacuum and are aided by important conditions for success. We found that coaches are dependent on school-based conditions for success, the most important of which are:

- Strong learning environment with consistent expectations for staff and student behavior
- Rigorous, aligned curriculum and assessment strategy

²⁴ Once a coach has demonstrated proficiency in leading these meetings and the underlying content knowledge, School Leader will check in as needed.

²⁵ Review of practices at high-performing KIPP schools did not indicate a *weekly* school leadership team meeting was a high-leverage action to ensure strong teacher and coach DDI practices in the school. KF will undertake further research in 2018-19 to inform recommendations around SLT time reflecting on broader trend data.

Leading for Learning -- Part II: Instructional Power Moves Research and Theory of Impact

- Time to prepare and execute the full instructional coaching cycle
- Lines-of-sight into student outcome and teacher practice data (aided by data infrastructure, like Whetstone)
- Opportunity to develop leaders' technical and adaptive skills

A note on time: According to survey data, the average KIPP AP coaches 8 teachers²⁶ and works about 50 hours per week.²⁷ Our research revealed that instructional coaches should allocate about 3.25-4.25 hours per teacher per week to run the full cycle of Instructional Power Moves (note that ~1.5 hours is meeting time). ***This amounts to 26-34 hours of dedicated coaching time per week and ~16-24 hours left in the school week to accomplish other non-coaching tasks.***

While these time estimates are based on actual schools' experiences in implementing the Power Moves, there are three important considerations that will dictate time:

- **Coaching Load:** To do the instructional coaching cycle well, coaches need to allocate appropriate time. When coaches begin to have coaching loads in excess of 12 teachers, it becomes difficult for them to perform the cycle well due to lack of time.
- **Skill of Coach:** APs who are brand new to their role may be less efficient in their role and thus will require more time (the upper ranges of time in the chart below). Many schools in our research accounted for this by reducing the coaching load of rookie coaches.
- **Needs of Teachers:** Ultimately the instructional coaching cycle is intended to support teachers and thus the needs of the individual teachers will dictate the coaching time. Teachers who are strong in planning may not need as much Internalization and Planning support. Teachers who are new or struggling need more time in Observation/Feedback.

Anticipated Coach Time Per Week for Each Teacher			
	Internalization/Planning	Observation/Feedback	DDI
Meeting Time and Structure	45 minutes	30 minutes max ²⁸	30-45 minutes
	ES: Content Team focused on Internalization and Planning	ES/MS/HS: 1:1 with coach	ES: Content Team focused on WDM
	MS: Content Team (if other teachers with same content) or 1:1 with coach		MS: Content Team (if other teachers with same content) or 1:1 with coach
	HS: 1:1 with coach		HS: 1:1 with coach
Observation Time	n/a	15 minutes	n/a
Individual Prep Time	30 minutes – 1 hour (should include: a) read lesson and re-read associated text* for 10-20 min; b) prep Lesson Internalization and Planning meeting for 20-40 min)	15-30 minutes	30 minutes (analyze data; review teacher's analysis)
Total Time	1.25 -1.75 hours	1-1.5 hours	1 -1.25 hours
TOTAL TIME PER TEACHER	3.25-4.25 hours per teacher coached * Note: comprehensive reading of texts are outside of this weekly accounting; will be dependent on text length and can add substantive prep work to a coach's load		

²⁶ According to TNTP survey data in answer to the question: "How many teachers do you coach?"

²⁷ According to TNTP survey data on average hours worked per week

²⁸ While many instructional coaches spend more than 30 minutes in the Observation/Feedback cycle, our research with Relay indicates that it is less than optimum and may result in coaching not focused on bite-sized action steps.

Leading for Learning -- Part II: Instructional Power Moves Research and Theory of Impact

Partnership with Relay:

From our research, the schools with strong results had well-trained coaches who had expertise in instructional coaching. Given that, KIPP Foundation has decided to partner with Relay Graduate School of Education to develop our instructional leaders on two Power Moves: Observation/Feedback and DDI. In the 2018-19 school year, all KIPP Foundation programming will headline with Relay instructors and practices. Based on the research that has found that schools and regions that had high implementation of Relay practices resulted in statistically significant increases in student achievement, our programs will insist on high-implementation to ensure that we are best serving students. In fact, this data suggests that with low implementation, there can be a potentially negative effect on student outcomes (red bar below).

*There is a statistically significant difference between "High" and "Low" implementers when considering how their "distance" from peers changed ($p = .03$)

PB#2: Genes are instructions for producing proteins. PB#3: Through sexual reproduction, an organism inherits a random combination of gene versions (alleles) from its parents. PB#4: The temperature of an object is related to the kinetic energy of its molecules, which increases as the speed of the molecules increases. PB#5: Warmer objects transfer energy to cooler objects when they are in contact. PB#6: The size of the objects in contact affects the amount of energy transfer between them and the amount of temperature change. Fall Science Interns - 6th Grade
6	(TE) Thermal Energy	MS-PS1-4 MS-PS1-3 MS-PS1-4	SEP-#3 SEP-#1	CCC5 CCC7	TE_CJA TE_EOU	Full Progress Builds Cohesive Flowchart Science Background	PB#1: The amount of energy transferred from the sun to the surface of a location depends on the location's latitude. PB#2: Ocean currents can affect the air temperature of a location by affecting the amount of energy in the surface of the location. PB#3: The direction of prevailing winds and the position of the continents determine the path of the ocean currents. PB#4: Rain can happen when an air parcel cools and loses energy. The loss of energy causes water vapor in the air parcel to condense and fall as rain. PB#5: A warmer air parcel has more energy, so it can rise higher into the troposphere and lose more energy, which can result in a greater amount of rain. PB#6: Wind can push an air parcel higher into the troposphere causing the air parcel to lose more energy, which can result in a greater amount of rain. Winter Science Interns - 6th Grade
6	(OAC) Ocean, Atmosphere, & Climate	MS-ESS2-3 MS-ESS2-6	SEP-#3 SEP-#7	CCC1 CCC2	OAC_CJA OAC_EOU	Full Progress Builds Cohesive Flowchart Science Background	PB#1: The amount of energy transferred from the sun to the surface of a location depends on the location's latitude. PB#2: Ocean currents can affect the air temperature of a location by affecting the amount of energy in the surface of the location. PB#3: The direction of prevailing winds and the position of the continents determine the path of the ocean currents. PB#4: Rain can happen when an air parcel cools and loses energy. The loss of energy causes water vapor in the air parcel to condense and fall as rain. PB#5: A warmer air parcel has more energy, so it can rise higher into the troposphere and lose more energy, which can result in a greater amount of rain. PB#6: Wind can push an air parcel higher into the troposphere causing the air parcel to lose more energy, which can result in a greater amount of rain. Spring Science Interns - 6th Grade
6	(WP) Weather Patterns	MS-ESS2-4 MS-ESS2-5 MS-ESS2-6	SEP-#4 SEP-#7	CCC1 CCC2	WP_CJA WP_EOU	Full Progress Builds Cohesive Flowchart Science Background	PB#1: Changes in the amount of carbon dioxide and methane in the atmosphere are correlated with changes in the amount of energy absorbed by Earth's surface. PB#2: Carbon dioxide and methane affect the balance of energy entering and exiting the Earth system. PB#3: Carbon dioxide and methane redirect outbound energy, which causes less energy to exit.
6	(ECC) Earth's Changing Climate	MS-ESS3-4 MS-ESS3-5	SEP-#2 SEP-#4	CCC2 CCC5	ECC_CJA ECC_EOU	Full Progress Builds Cohesive Flowchart Science Background	PB#1: Changes in the amount of carbon dioxide and methane in the atmosphere are correlated with changes in the amount of energy absorbed by Earth's surface. PB#2: Carbon dioxide and methane affect the balance of energy entering and exiting the Earth system. PB#3: Carbon dioxide and methane redirect outbound energy, which causes less energy to exit.
6	(ECC) Engineering Internship	MS-ESS3-3 MS-ETS1-1-4	SEP-#1 SEP-#2 SEP-#3	CCC4		Unit Map Science Background	
6	(GOM) Geology on Mars	MS-ESS1-3	SEP-#4 SEP-#5	CCC4 CCC7		Unit Map Science Background	
7	(PM) Plate Motion	MS-ESS2-2 MS-ESS2-3 MS-ESS2-2	SEP-#4 SEP-#5	CCC1 CCC3	PM_CJA PM_EOU	Full Progress Builds Cohesive Flowchart Science Background	PB#1: The Earth's entire outer layer (below the water and soil that we see) is made of solid rock that is divided into plates. Earth's plates can move. PB#2: The plates move on top of a soft, solid layer of rock called the mantle. At plate boundaries where the plates are moving away from each other, rock rises from the mantle and hardens, adding new solid rock to the edges of the plates. At plate boundaries where plates are moving toward each other, one plate moves underneath the other and sinks into the mantle. PB#3: Plates travel at a rate too slow to be experienced by humans but can travel great distances over time.
7	(PM) Engineering Internship	MS-ESS2-2	SEP-#1 SEP-#2 SEP-#3	CCC4		Unit Map Science Background	
7	(RT) Rock Transformations	MS-ESS2-1	SEP-#2	CCC5	RT_CJA RT_EOU	Full Progress Builds Cohesive Flowchart Science Background	PB#1: Rocks that form in different ways are different types of rock. PB#2: Material for rock formations can come from rock formations that are weathered or melted. PB#3: Rock formations can move between Earth's surface and its interior, which can lead to their transformation.
7	(PC) Phase Change	MS-PS1-4 MS-PS1-5	SEP-#2 SEP-#3	CCC3 CCC5	PC_CJA PC_EOU	Full Progress Builds Cohesive Flowchart Science Background	PB#1: When a substance changes phase, the freedom of movement of its molecules has changed. PB#2: Energy transfers cause phase changes. PB#3: Molecular attraction affects the amount of energy transfer required for a phase change.
7	(EC) Engineering Internship	MS-ETS1-1-4	SEP-#1 SEP-#2 SEP-#3	CCC4		Unit Map Science Background	
7	(CR) Chemical Reactions	MS-PS1-1 MS-PS1-2 MS-PS1-3 MS-PS1-5	SEP-#2 SEP-#3	CCC3 CCC5	CR_CJA CR_EOU	Full Progress Builds Cohesive Flowchart Science Background	PB#1: Different substances have different properties. This is because every substance is made of a unique group of certain type and number of atoms. This group repeats to make up the substance. PB#2: During chemical reactions, atoms that make up the starting substance(s) rearrange to form different groups of atoms that repeat, resulting in different substance(s). PB#3: During chemical reactions, the ending substances are formed from the same type and number of atoms that made up the starting substances because atoms cannot be created or destroyed.
7	(BP) Populations & Resources	MS-LS2-1 MS-LS2-2 MS-LS2-4 MS-LS2-5	SEP-#2 SEP-#1	CCC2 CCC7	BP_CJA BP_EOU	Full Progress Builds Cohesive Flowchart Science Background	PB#1: There are always births and deaths occurring in a population. Changes in the number of births and deaths can change the size of a population. PB#2: A change in the number of births and deaths in a population can be caused by a change in the size of its resource populations or consumer populations. PB#3: A change in the number of births and deaths in a population can be caused by a change in the size of a population other than its resource or consumer population. Spring Science Interns - 7th Grade
7	(ME) Matter, Energy, & Ecosystems	MS-LS1-6 MS-LS2-3	SEP-#2 SEP-#6	CCC2 CCC5	ME_CJA ME_EOU	Full Progress Builds Cohesive Flowchart Science Background	PB#1: Producers make energy storage molecules using the carbon from carbon dioxide. PB#2: All organisms give off carbon dioxide when they release energy from energy storage molecules. PB#3: Carbon cannot be produced or used up, so in a closed system there is a fixed amount.
8	(HE) Harnessing Human Energy	MS-PS3-1 MS-PS3-5	SEP-#2	CCC4 CCC5	HE_EOU	Unit Map Science Background	
8	(FM) Force & Motion	MS-PS2-1 MS-PS2-2 MS-PS3-1	SEP-#2 SEP-#3	CCC2 CCC3	FM_CJA FM_EOU	Full Progress Builds Cohesive Flowchart Science Background	PB#1: A force causes a change in an object's velocity. PB#2: An object's mass determines its velocity change for a given force. PB#3: When two objects collide, both experience the same strength force, but in opposite directions.
8	(FM) Engineering Internship	MS-ETS1-1-4	SEP-#1 SEP-#2 SEP-#3	CCC6		Unit Map Science Background	
8	(MF) Magnetic Force	MS-PS2-3 MS-PS2-5 MS-PS3-5	SEP-#2 SEP-#7	CCC4 CCC5	MF_CJA MF_EOU	Full Progress Builds Cohesive Flowchart Science Background	PB#1: Magnetic fields exert force from a distance that can repel like poles or attract opposite poles. PB#2: Potential energy is stored in a system when a magnet is moved against magnetic force. PB#3: Moving a magnet against a stronger magnetic force transfers more energy to the magnetic field. Magnetic force is stronger closer to a magnet.
8	(LW) Light Waves	MS-PS4-1 MS-PS4-2 MS-PS4-3	SEP-#3 SEP-#6	CCC2 CCC5	LW_CJA LW_EOU	Full Progress Builds Cohesive Flowchart Science Background	PB#1: Light carries energy that can be absorbed by a material, causing the material to change. PB#2: Different types of light can change a material in different ways; a material can absorb energy from some types of light but not others. PB#3: Light can be absorbed, reflected, or transmitted by a material; if the light is reflected or transmitted, the energy is not absorbed and the material will not change. Winter Science Interns - 8th Grade
8	(NS) Natural Selection	MS-LS4-4 MS-LS4-4 MS-LS4-6	SEP-#4 SEP-#5	CCC2 CCC7	NS_CJA NS_EOU	Full Progress Builds Cohesive Flowchart Science Background	PB#1: Adaptive traits become more common while traits that are non-adaptive become less common in a population over many generations. PB#2: Individuals with adaptive traits are more likely to live longer and pass on those traits to their offspring. PB#3: Mutations can sometimes introduce new traits into a population.
8	(NS EU) Natural Selection Engineering Internship	MS-ETS1-1-4	SEP-#1 SEP-#2 SEP-#3	CCC2		Unit Map Science Background	
8	(EH) Evolutionary History	MS-LS4-1 MS-LS4-2 MS-LS4-4 MS-LS4-5 MS-ESS1-4	SEP-#4 SEP-#7	CCC1 CCC3	EH_EOU	Full Progress Builds Cohesive Flowchart Science Background	PB#1: Body structures shared between species are evidence that these two species inherited the shared structures from a common ancestor population. PB#2: Species that share structures can have differences because they have been in separate environments, and have changed in different ways over time. PB#3: Fossil populations separate and begin evolving differences at different points in time, similarities and differences in body structures can be used to interpret evolutionary relationships.

23-24 SCOPE + PACING GUIDE - Grade 5

DIRECTIONS FOR USE:

- This scope will serve as a baseline as you build your own Amplify pacing calendar aligned to your specific school calendars.
- The content of our 23-24 Interim assessments align to the prescribed sequence in our pacing calendars.
- Please aim to stay within **2 weeks** of the listed dates to ensure that you are on pace.

PES	1	Mon, 8/21/23	PES.1.2	use models to find evidence for the shape of Earth and begin to explain the location of stars in space. First Academic Day	5-ESS1-1	#2: Developing and Using Models	
PES	1	Tue, 8/22/23	PES.1.3	use a book to make visualizations and compare the size and distance of objects on Earth and in space.	5-ESS1-1	#8: Obtaining, Evaluating, and Communicating Information	
PES	1	Wed, 8/23/23	PES.1.4	investigate models to visualize and explain where stars are and how far stars are from Earth.	5-ESS1-1	#2: Developing and Using Models	
PES	1	Thu, 8/24/23	1.5	use models to visualize and make measurements to explain when stars are in the sky and why stars appear to be different sizes in the sky.	5-ESS1-1	#2: Developing and Using Models	
	1	Fri, 8/25/23	FLEX				
PES	2	Mon, 8/28/23	1.6	gather evidence from different sources to explain why the sun appears so bright and why we can't see stars in the daytime.	5-ESS1-1	#6/7: Constructing Explanations and Arguing from Evidence	
PES	2	Tue, 8/29/23	1.7	write scientific explanations with evidence and reasoning to explain why we don't see a lot of stars in the daytime.	5-ESS1-1	#6/7: Constructing Explanations and Arguing from Evidence	
PES	2	Wed, 8/30/23	2.1	use a model to observe and explain the pattern of when stars are visible in the sky.	5-ESS1-2	#2: Developing and Using Models	
PES	2	Thu, 8/31/23	2.2	investigate what causes the pattern of when constellations are visible in the sky by gathering and analyzing data.	5-ESS1-2	#3: Planning and Carrying Out Investigations	
	2	Fri, 9/1/23	Flex				
		Mon, 9/4/23	Break	LABOR DAY			
PES	3	Tue, 9/5/23	2.2a	use data to explain why shadows change size and direction throughout the day.	5-ESS1-2	#6/7: Constructing Explanations and Arguing from Evidence	
PES	3	Wed, 9/6/23	2.3	use models to gather evidence and draw conclusions about how the earth moves.	5-ESS1-2	#2: Developing and Using Models	
PES	3	Thu, 9/7/23	2.4	gather evidence and draw conclusions about the way things fall.	5-PS2-1	#3: Planning and Carrying Out Investigations	
	3	Fri, 9/8/23	Flex	<i>Note - Recommend spending this flex day on shadows (Lesson 2.2 c)</i>			
PES	4	Mon, 9/11/23	2.5	model the movement of Earth to show which way is up and which way is down in different locations.	5-PS2-1	#2: Developing and Using Models	
PES	4	Tue, 9/12/23	2.6	write scientific explanations with evidence and reasoning to explain why the sun is up sometimes, but not other times.	5-PS2-1	#6/7: Constructing Explanations and Arguing from Evidence	
PES	4	Wed, 9/13/23		PES Critical Juncture Assessment			
PES	4	Thu, 9/14/23	3.1	create a systematic investigation to gather data and explain when we see different constellations in the sky.	5-ESS1-2	#3: Planning and Carrying Out Investigations	
	4	Fri, 9/15/23	Flex	<i>Note - Recommend spending this flex day on writing structure</i>			
PES	5	Mon, 9/18/23	3.2	use models to describe why we see different constellations at different times of the year.	5-ESS1-2	#2: Developing and Using Models	
PES	5	Tue, 9/19/23	3.3	plan an investigation to show when we see different constellations in the sky throughout the year.	5-ESS1-2	#3: Planning and Carrying Out Investigations

		Green = Interims Red = Due dates		Purple = Priority lesson Green = Assessments Orange = RLDs Grey = Holiday	Bold = Priority Standard Unbolded = Supporting		Lessons Skipped to review or spiral back
PES	5	Wed, 9/20/23	3.4	use text evidence to obtain information about when we see different stars and to identify the location of a specific star.	5-ESS1-2	#8: Obtaining, Evaluating, and Communicating Information	
PES	5	Thu, 9/21/23	3.5	Identify patterns to write explanations about when we see different stars throughout the year.	5-ESS1-2	#6/7: Constructing Explanations and Arguing from Evidence	
	5	Fri, 9/22/23	Flex				
PES	6	Mon, 9/25/23	3.6	use evidence to identify the missing piece of the artifact and write scientific explanations.	5-ESS1-2	#6/7: Constructing Explanations and Arguing from Evidence	
PES	6	Tue, 9/26/23	4.1	use text to understand what makes an investigation successful and how we can plan our own investigations.	5-ESS1-2	#3: Planning and Carrying Out Investigations	
PES	6	Wed, 9/27/23	4.2	plan a systematic investigation to look at patterns in the constellations.	5-ESS1-2	#3: Planning and Carrying Out Investigations	
PES	6	Thu, 9/28/23	4.3	collect data and reflect on their investigation Plans to explain why we see constellations sometimes, but not all the time.	5-ESS1-2	#3: Planning and Carrying Out Investigations	
	6	Fri, 9/29/23	Flex				
	7	Mon, 10/2/23		PES End of Unit Assessment			
MM	7	Tue, 10/3/23	1.2	describe and classify substances based on the observable properties of substances and mixtures. <i>Note - Our regional content lead recommends MM 1.2 before 1.1.</i>	5-PS1-3	#3: Planning and Carrying Out Investigations	
MM	7	Wed, 10/4/23	1.1	use observations to make a hypothesis about what happened to different mixtures.	5-PS1-3	#3: Planning and Carrying Out Investigations	
MM	7	Thu, 10/5/23	1.3a	identify the different particles that make up matter and explain how they are different.	5-PS1-1	#2: Developing and Using Models	
	7	Fri, 10/6/23	Flex				
	8	Mon, 10/9/23		Indigenous People's Day			
MM	8	Tue, 10/10/23	1.3b	identify the different phases of matter, how they're different, and how they change between phases.	5-PS1-1	#2: Developing and Using Models	
MM	8	Wed, 10/11/23	1.4	perform an experiment to identify the different atoms or molecules in a mixture and explain how and why those molecules separate.	5-PS1-3	#3: Planning and Carrying Out Investigations	
MM	8	Thu, 10/12/23	1.5	use a physical model to observe how molecules separate in chromatography and use those observations to identify similarities and differences in molecules.	5-PS1-3	#2: Developing and Using Models	
	8	Fri, 10/13/23	Flex				
	9	Mon, 10/16/23		Fall Science Interim 3-8 Fall Interim Window Opens			
MM	9	Tue, 10/17/23	1.9	revise chromatography models using their knowledge of molecules and the separation of mixtures.	5-PS1-3	#2: Developing and Using Models	
MM	9	Wed, 10/18/23	2.1	use their knowledge of the properties of mixtures to analyze different ingredients to make an ideal salad dressing with given properties.	5-PS1-3	#3: Planning and Carrying Out Investigations	
MM	9	Thu, 10/19/23	2.2	use a digital model to investigate how and why some substances dissolve in water.	5-PS1-3	#2: Developing and Using Models	
	9	Fri, 10/20/23	Flex				
MM	10	Mon, 10/23/23	2.3	use observations and inferences to determine what happens on the macroscale and nanoscale when substances are added to water.	5-PS1-3	#3: Planning and Carrying Out Investigations	
MM	10	Tue, 10/24/23	2.4	analyze and compare models of solubility and use them to create their own nanoscale model and written explanation of the behavior of molecules within salad dressing.	5-PS1-1	#2: Developing and Using Models	
MM	10	Wed, 10/25/23	2.5a	analyze a digital model to determine the solubility of different substances and demonstrate their understanding of solubility and how/why substances dissolve.	5-PS1-3	#2: Developing and Using Models	

23-24 SCOPE + PACING GUIDE - Grade 5

DIRECTIONS FOR USE:

- This scope will serve as a baseline as you build your own Amplify pacing calendar aligned to your specific school calendars.
- The content of our 23-24 Interim assessments align to the prescribed sequence in our pacing calendars.
- Please aim to stay within **2 weeks** of the listed dates to ensure that you are on pace.

Module	Wk.	Date	Lesson #	Topic + Lesson and Assessment Links	Priority Standard	Focus Science and Engineering Practice (SEP #)	NOTES
MM	10	Thu, 10/26/23	2.5b	Purple = Priority lesson Green = Assessments Orange = RLDs Grey = Holiday	5-ESS2-2	#6/7: Constructing Explanations and Arguing from Evidence	Lessons Skipped to review or spiral back
MM	10	Fri, 10/27/23	Flex	3-8 Fall Interim Window Closes			
MM	11	Mon, 10/30/23		MM End of Unit Assessment			Skip chapter 3 and 4 of modeling matter.
MM	11	Tue, 10/31/23	1.1	will complete a hands-on activity to identify the amount of water on Earth and be able to identify the percentage of fresh water compared to all water found on Earth. evaluate and determine human impact on water availability to create a written statement defining the problem of fresh water availability in East Ferris. Note - Combine lessons, include more relevant scenarios from California water crisis.	5-ESS2-2	#4: Analyzing and Interpreting Data	
MM	11	Wed, 11/1/23	1.2 + 1.3	3-8 Fall Interim Data Due	5-ESS2-2	#1/6: Defining Problems and Designing Solutions	
MM	11	Thu, 11/2/23	Flex				
MM	11	Fri, 11/3/23	Fall RLD	FALL RLD - TK-8			
MM	12	Mon, 11/6/23	2.1	make predictions and explanations about the process of condensation through a hands on investigation.			
MM	12	Tue, 11/7/23	2.2	complete an investigation to understand that when water vapor gets cold, it causes condensation (liquid water) to form.	5-ESS2-1	#3: Planning and Carrying Out Investigations	
MM	12	Wed, 11/8/23	2.3	observe water vapor at the nanoscale in the Simulation and show that observation through a visual model and written explanation.	5-ESS2-1	#2: Developing and Using Models	
MM	12	Thu, 11/9/23	Flex				
MM	12	Fri, 11/10/23		Veterans Day			
TES	13	Mon, 11/13/23	2.4	use the Simulation as well as hands on activities to explain where water vapor comes from through the process of evaporation.	5-ESS2-1	#2: Developing and Using Models	
TES	13	Tue, 11/14/23	2.5	explain how water on Earth is a non-renewable resource that cycles through the Earth System.	5-ESS2-2	#6/7: Constructing Explanations and Arguing from Evidence	
TES	13	Wed, 11/15/23	2.5b	reflect on their learning and create a hands on presentation of their understanding of concepts of the water cycle	5-ESS2-1	#8: Obtaining, Evaluating, and Communicating Information	
TES	13	Thu, 11/16/23	2.6	TES Critical Juncture Assessment			
TES	13	Fri, 11/17/23	Flex				
TES	14	Mon, 11/20/23		Thanksgiving Break			
TES	14	Tue, 11/21/23		Thanksgiving Break			
TES	14	Wed, 11/22/23		Thanksgiving Break			
TES	14	Thu, 11/23/23		Thanksgiving Break			
TES	14	Fri, 11/24/23		Thanksgiving Break			
TES	14	Mon, 11/27/23	3.1	use readings as well as a hands-on activity to explain where condensation happens in the atmosphere.	5-ESS2-1	#8: Obtaining, Evaluating, and Communicating Information	
TES	14	Tue, 11/28/23	3.2	collect and graph data to show how temperature can affect the physical state of water molecules.	5-ESS2-1	#4: Analyzing and Interpreting Data	
TES	14	Wed, 11/29/23	3.3	explain why East Ferris does not get a lot of rain using their understanding of condensation and evaporation.	5-ESS2-1	#6/7: Constructing Explanations and Arguing from Evidence	
TES	14	Thu, 11/30/23	4.1	investigate how the shape of a landform can affect the way that water vapor moves in the atmosphere.	5-ESS2-1	#4: Analyzing and Interpreting Data	
TES	14	Fri, 12/1/23	Flex				

23-24 SCOPE + PACING GUIDE - Grade 5

TES	17	Thu, 1/4/24	Flex	Flex - use for interim review, reteach or to finish objectives			
	17	Fri, 1/5/24	Flex	Flex - use for interim review, reteach or to finish objectives			
TES	18	Mon, 1/8/24	5.1	investigate the properties of substances before a chemical reaction and the properties of a mixture after a chemical reaction.	5-PS1-4	#3: Planning and Carrying Out Investigations	
TES	18	Tue, 1/9/24	5.2	determine how chemical reactions occur through reading a text and completing written reflections based on the text.	5-PS1-4	#8: Obtaining, Evaluating, and Communicating Information	
	18	Wed, 1/10/24	5.3	use the Simulation to observe conservation of matter in a chemical reaction and identify a chemical reaction using visual models.	5-PS1-2	#2: Developing and Using Models	
	18	Thu, 1/11/24	5.4	identify how changing variables affect chemical reactions and complete a written analysis of our observations.	5-PS1-4	#3: Planning and Carrying Out Investigations	Skip end of unit since we are so close to the interim window - prioritize chemical reactions.
	18	Fri, 1/12/24	Flex	Flex - use for interim review, reteach or to finish objectives			
		Mon, 1/15/24		MLK Jr. Day			

23-24 SCOPE + PACING GUIDE - Grade 5

DIRECTIONS FOR USE:

- This scope will serve as a baseline as you build your own Amplify pacing calendar aligned to your specific school calendars.
- The content of our 23-24 Interim assessments align to the prescribed sequence in our pacing calendars.
- Please aim to stay within **2 weeks** of the listed dates to ensure that you are on pace.

Module	Wk.	Date	Lesson #	Topic + Lesson and Assessment Links	Priority Standard	Focus Science and Engineering Practice (SEP #)	NOTES
	#	Green = Interims Red = Due dates		Purple = Priority lesson Green= Assessments Orange = RLDs Grey = Holiday	Bold = Priority Standard Unbolded = Supporting		Lessons Skipped to review or spiral back
	19	Tue, 1/16/24	5.6	reflect on the Earth System unit and provide ideas about how people can solve water shortage issues. 3-8 Interim Window Opens	5-ESS3-1	#8: Obtaining, Evaluating, and Communicating Information	
	19	Wed, 1/17/24		Winter Science Interim - Day 1			
TES	19	Thu, 1/18/24		Winter Science Interim - Day 2			
TES	19	Fri, 1/19/24	Flex				
TES	19	Mon, 1/22/24	1.1	make inferences from a diagram and a data table to write an argument about why snakes are not growing and thriving in a forest ecosystem.	5-LS2-1	#4: Analyzing and Interpreting Data	
TES	20	Tue, 1/23/24	1.2	write and share out ideas about what is happening to the Natural Resources Rescue project site based on provided data; set up a model ecosystem in a terrarium for future analysis.	5-LS2-1	#3: Planning and Carrying Out Investigations	
TES	20	Wed, 1/24/24	1.3	list items that are made of matter and explain how matter flows through an ecosystem; apply this understanding to food chains.	5-LS2-1	#6/7: Constructing Explanations and Arguing from Evidence	
	20	Thu, 1/25/24	1.4	use evidence from a video and model to write a claim that states how organisms use the food molecules that they eat.	5-LS2-1	#6/7: Constructing Explanations and Arguing from Evidence	
	20	Fri, 1/26/24	Flex	3-8 Interim Window Closes			
ER	20	Mon, 1/29/24	1.5	use the simulation to predict and verify what happens to the food molecules when an organism eats.	5-LS2-1	#2: Developing and Using Models	
ER	21	Tue, 1/30/24	1.6	use a digital model to represent what happens to matter within an ecosystem; identify multiple food chains within a food web.	5-LS2-1	#2: Developing and Using Models	
ER	21	Wed, 1/31/24	1.7	build an interactive model of an everglades swamp ecosystem and use the model to explain how the removal of an organism would affect the other organisms. 3-8 Winter Interim Data due	5-LS2-1	#2: Developing and Using Models	
ER	21	Thu, 2/1/24	1.8	write a scientific argument, supported with at least three pieces of evidence, that explains to Natural Resources Rescue why the jaguars and sloths aren't growing and thriving in the rainforest project site.	5-LS2-1	#6/7: Constructing Explanations and Arguing from Evidence	
	21	Fri, 2/2/24	Flex				
		Mon, 2/5/24		TK-8 Winter RLD			
ER	22	Tue, 2/6/24	2.1	use data and observations from the simulation and terrariums to identify and verify where plants get their food molecules from.	5-LS1-1	#4: Analyzing and Interpreting Data	
ER	22	Wed, 2/7/24	2.2	use evidence from a text and evidence from the unit simulation to synthesize an understanding of where plants get their food molecules from.	5-LS1-1	#6/7: Constructing Explanations and Arguing from Evidence	
ER	22	Thu, 2/8/24	2.3	apply knowledge and understanding of how plants make food molecules through a board game and a digital modeling tool.	5-LS1-1	#2: Developing and Using Models	
	22	Fri, 2/9/24	Flex				
ER	23	Mon, 2/12/24	2.4	use evidence from the unit simulation to choose and justify between two competing claims.	5-LS1-1	#6/7: Constructing Explanations and Arguing from Evidence	
ER	23	Tue, 2/13/24	2.5	model the path of energy into and through an ecosystem; analyze a restoration case study.	5-PS3-1	#2: Developing and Using Models	
ER	23	Wed, 2/14/24	2.6	explain how and why scientists engage in arguments by reading about Rachel Carson's work on pesticides in ecosystems.	5-ESS3-1	#8: Obtaining, Evaluating, and Communicating Information	
ER	23	Thu, 2/15/24	2.7a	write a scientific argument, supported with at least three pieces of evidence, that explains to Natural Resources Rescue why the cecropia trees are not growing and thriving in the rainforest project site.	5-PS3-1	#6/7: Constructing Explanations and Arguing from Evidence	

23-24 SCOPE + PACING GUIDE - Grade 5

DIRECTIONS FOR USE:

- This scope will serve as a baseline as you build your own Amplify pacing calendar aligned to your specific school calendars.
- The content of our 23-24 Interim assessments align to the prescribed sequence in our pacing calendars.
- Please aim to stay within **2 weeks** of the listed dates to ensure that you are on pace.

Module	Wk.	Date	Lesson #	Topic + Lesson and Assessment Links	Priority Standard	Focus Science and Engineering Practice (SEP #)	NOTES
		Green = Interims Red = Due dates		Purple = Priority lessons Green = Assessments Orange = RLDs Grey = Holiday	Bold = Priority Standard Unbolded = Supporting		Lessons Skipped to review or spiral back
	23	Fri, 2/16/24		ER Critical Juncture Assessment			
				February Break			
				February Break			
				February Break			
				February Break			
ER	24	Mon, 2/26/24	3.1	observe two soil samples and our terrariums to investigate how soil conditions can affect plant growth and survival	5-LS1-1	#4: Analyzing and Interpreting Data	
ER	24	Tue, 2/27/24	3.2	synthesize what makes up soil and summarize the role of decomposers.	5-LS2-1	#8: Obtaining, Evaluating, and Communicating Information	
ER	24	Wed, 2/28/24	3.3	gather and analyze evidence from the simulation for how decomposers affect the soil.	5-LS2-1	#6/7: Constructing Explanations and Arguing from Evidence	
ER	24	Thu, 2/29/24	3.4	observe how adding and removing nutrients from soil affects plant health, size, and growth in the simulation.	5-LS2-1	#6/7: Constructing Explanations and Arguing from Evidence	
	24	Fri, 3/1/24	Flex				
ER	24	Mon, 3/4/24	3.5	use a digital modeling tool, a resource book, and an incomplete argument to fully identify the role that nutrients play in plant growth and health.	5-LS2-1	#2: Developing and Using Models	
				3-8 Spring Interim Window Opens			
				write a scientific argument, supported with at least three pieces of evidence, that explains to Natural Resources Rescue why the cecropia trees are not growing and thriving in the soil.	5-LS2-1	#6/7: Constructing Explanations and Arguing from Evidence	
ER	25	Tue, 3/5/24	3.6

MB	1	Mon, 8/21/23	1.2	gather evidence from the Scale Tool and their own scale models to obtain information about the size of cells. First Day of Academics	MS-LS1-1		
MB	1	Tue, 8/22/23	1.3	compare the sizes of cells and molecules, then conduct a simulated investigation to gather evidence about microorganisms on the human body.	MS-LS1-1	#8: Obtaining, Evaluating, and Communicating Information	
MB	1	Wed, 8/23/23	2.2	analyze and interpret data and text to make connections between the microorganisms in the gut microbiome and the effects on the human body.	MS-LS1-1	#8: Obtaining, Evaluating, and Communicating Information	
MB	1	Thu, 8/24/23	2.3	evaluate evidence to explain the effects of antibiotics in the human microbiome.	MS-LS1-2	#6/7: Constructing Explanations and Arguing from Evidence	
	1	Fri, 8/25/23	Flex				
MB	2	Mon, 8/28/23	2.4	analyze experimental data and text to explain how the interactions between bacteria and its environment can affect the human body.	MS-LS1-2	#6/7: Constructing Explanations and Arguing from Evidence	
MB	2	Tue, 8/29/23	2.5	analyze and interpret data to argue the effects of fecal transplants on bacteria in the human gut microbiome.	MS-LS1-2	#6/7: Constructing Explanations and Arguing from Evidence	
MB	2	Wed, 8/30/23	2.7	construct a scientific argument using strong, relevant evidence that supports how different bacteria can have helpful or harmful effects on the human gut microbiome.	MS-LS1-2	#6/7: Constructing Explanations and Arguing from Evidence	
MB	2	Thu, 8/31/23	Flex				
	2	Fri, 9/1/23	Flex				
		Mon, 9/4/23	Break	LABOR DAY			
MET	3	Tue, 9/5/23	1.2	analyze models of a body cell to predict what molecules they require to function properly.	MS-LS1-3	#2: Developing and Using Models	
MET	3	Wed, 9/6/23	1.3	create a model to explain which molecules are important for our cells to be able to function properly; evaluate medical data to determine why Elisa feels tired all of the time.	MS-LS1-3	#2: Developing and Using Models	
MET	3	Thu, 9/7/23	2.1	model the human body, its component molecules, and subsystems.	MS-LS1-3	#2: Developing and Using Models	
	3	Fri, 9/8/23	Flex				
MET	4	Mon, 9/11/23	2.2, 2.3	obtain information to create body system models that represent different medical conditions.	MS-LS1-3	#2: Developing and Using Models	
MET	4	Tue, 9/12/23	2.4	explain how oxygen, glucose, and amino acid levels differ in a functioning body and a body with a medical condition.	MS-LS1-3	#6/7: Constructing Explanations and Arguing from Evidence	
MET	4	Wed, 9/13/23	2.5	Critical Juncture Assessment			
MET	4	Thu, 9/14/23	2.7	analyze and interpret medical data to diagnose Elisa with a medical condition.	MS-LS1-3	#4: Analyzing and Interpreting Data	
	4	Fri, 9/15/23	Flex				
MET	5	Mon, 9/18/23	3.1	collect and analyze evidence to explain what molecules cells need to create energy.	MS-LS1-7	#6/7: Constructing Explanations and Arguing from Evidence	
MET	5	Tue, 9/19/23	3.2	participate in a chemical reaction lab to explain what happens when cellular respiration occurs in our body.	MS-LS1-7	#2: Developing and Using Models	

23-24 SCOPE + PACING GUIDE - Grade 6

DIRECTIONS FOR USE:

- This scope will serve as a baseline as you build your own Amplify pacing calendar aligned to your specific school calendars.
- The content of our 23-24 Interim assessments align to the prescribed sequence in our pacing calendars.
- Please aim to stay within **2 weeks** of the listed dates to ensure that you are on pace.

		Fri, 11/24/23		Thanksgiving Break			
TR	14	Mon, 11/27/23	4.1	analyze and interpret data to investigate how protein molecules are linked to traits and obtain information to determine the factors that can affect traits.	MS-LS3-2	#4: Analyzing and Interpreting Data	
TR	14	Tue, 11/28/23	4.2	make and evaluate arguments as to whether or not the cause of a trait is a result of environmental factors, inherited gene version combinations, or a genetic mutation.	MS-LS3-2	#6/7: Constructing Explanations and Arguing from Evidence	
TR	14	Wed, 11/29/23	4.3	make and evaluate arguments as to whether or not the cause of a trait is a result of environmental factors, inherited gene version combinations, or a genetic mutation.	MS-LS3-2	#6/7: Constructing Explanations and Arguing from Evidence	
TR	14	Thu, 11/30/23	4.4	End of Unit Assessment			
	14	Fri, 12/1/23	Flex				
TE	15	Mon, 12/4/23	1.2	describe the difference between the movement of hot water and cold water by conducting a hands-on investigation (lab).	MS-PS3-5	#3: Planning and Carrying Out Investigations	
TE	15	Tue, 12/5/23	1.3	describe the difference between warm water and cold water on a molecular scale by investigating on the Sim.	MS-PS3-5	#2: Developing and Using Models	

23-24 SCOPE + PACING GUIDE - Grade 6

DIRECTIONS FOR USE:

- This scope will serve as a baseline as you build your own Amplify pacing calendar aligned to your specific school calendars.
- The content of our 23-24 Interim assessments align to the prescribed sequence in our pacing calendars.
- Please aim to stay within **2 weeks** of the listed dates to ensure that you are on pace.

Module	Wk.	Date	Lesson #	Topic + Lesson and Assessment Links	Standard(s)	Focus Science and Engineering Practice (SEP #)	NOTES
	#	Green = Interims Red = Due Dates		Purple = Priority lesson Green= Assessments Light yellow =foundational lessons Orange = RLDs Grey = Holiday	Bold = Priority Standard Unbolded = Supporting <i>Italic = Additional</i>		Lessons Skipped to review or spiral back
TE	15	Wed, 12/6/23	1.4	compare the average speed of objects in a molecule by creating models and calculating averages.	MS-PS3-5	#5: Using Mathematics and Computational Thinking	
TE	15	Thu, 12/7/23	2.2	explain what causes molecules to change speed by reading an article and simulating temperature change.	MS-PS3-4	#8: Obtaining, Evaluating, and Communicating Information	
	15	Fri, 12/8/23	Flex				
TE	16	Mon, 12/11/23	2.3	explain what causes molecules to change speed by reading an article and simulating temperature change.	MS-PS3-4	#8: Obtaining, Evaluating, and Communicating Information	
TE	16	Tue, 12/12/23	2.4	identify what causes the transfer of energy between two things to stop by investigating in the Sim.	MS-PS3-4	#2: Developing and Using Models	
TE	16	Wed, 12/13/23	2.5	communicate how energy transfers between things and when energy stops transferring between things, by creating and explaining models that represent Riverdale School.	MS-PS3-4	#8: Obtaining, Evaluating, and Communicating Information	
TE	16	Thu, 12/14/23	2.6	<u>Critical Juncture Assessment</u>			
	16	Fri, 12/15/23	Flex				
		Mon, 12/18/23		Winter Break			
		Tue, 12/19/23		Winter Break			
		Wed, 12/20/23		Winter Break			
		Thu, 12/21/23		Winter Break			
		Fri, 12/22/23		Winter Break			
		Mon, 12/25/23		Winter Break			
		Tue, 12/26/23		Winter Break			
		Wed, 12/27/23		Winter Break			
		Thu, 12/28/23		Winter Break			
		Fri, 12/29/23		Winter Break			
TE	17	Mon, 1/1/24		Winter Break	MS-PS3-4	#2: Developing and Using Models	
TE	17	Tue, 1/2/24		Winter Break	MS-PS3-4	#2: Developing and Using Models	
TE	17	Wed, 1/3/24	3.1	demonstrate how things made of different numbers of molecules transfer energy and reach equilibrium by reading an article and building a physical model.	MS-PS3-3	#2: Developing and Using Models	
TE	17	Thu, 1/4/24	3.2	demonstrate how things made of different numbers of molecules transfer energy and reach equilibrium by reading an article and building a physical model.	MS-PS3-3	#6/7: Constructing Explanations and Arguing from Evidence	
	17	Fri, 1/5/24	Flex				
TE	18	Mon, 1/8/24	3.3	identify the main factors that determine a system's equilibrium temperature by analyzing a demo and modeling the factors in the Sim.	MS-PS3-3	#6/7: Constructing Explanations and Arguing from Evidence	
TE	18	Tue, 1/9/24	3.4	use multiple sources of evidence to write a recommendation of which heating system the principal should use by completing a Reasoning Tool.	MS-PS3-3	#6/7: Constructing Explanations and Arguing from Evidence	
TE	18	Wed, 1/10/24	4.1	analyze evidence by engaging in a card sort in order to prepare for the Science Seminar.	MS-PS3-3	#6/7: Constructing Explanations and Arguing from Evidence	Note - Option to skip TE EOU bec
	18	Thu, 1/11/24	4.2	engage in and facilitate a Science Seminar to discuss why people on Louis Island are sick.			
	18	Fri, 1/12/24	Flex				
		Mon, 1/15/24		MLK Jr. Day			
	19	Tue, 1/16/24	4.3	write a scientific argument to explain what happened on Louis Island.			
	19	Wed, 1/17/24		3-8 Winter Interim Window Opens Winter Science Interim - Day 1			

23-24 SCOPE + PACING GUIDE - Grade 6

DIRECTIONS FOR USE:

- This scope will serve as a baseline as you build your own Amplify pacing calendar aligned to your specific school calendars.
- The content of our 23-24 Interim assessments align to the prescribed sequence in our pacing calendars.
- Please aim to stay within **2 weeks** of the listed dates to ensure that you are on pace.

Module	Wk.	Date	Lesson #	Topic + Lesson and Assessment Links	Standard(s)	Focus Science and Engineering Practice (SEP #)	NOTES

	19	Thu, 1/18/24		Winter Science Interim - Day 2			
	19	Fri, 1/19/24	Flex				
OAC	19	Mon, 1/22/24	1.2	identify the relationship between temperature and energy using the simulator in order to predict how energy in the air in Colombia would likely be different during El Niño years.	MS-ESS2-5	#4: Analyzing and Interpreting Data	
OAC	20	Tue, 1/23/24	1.3	analyze data from a model to defend a claim that explains how energy is transferred to the air above Christchurch.	MS-ESS2-5	#4: Analyzing and Interpreting Data	
OAC	20	Wed, 1/24/24	1.4	analyze and interpret world maps of incoming solar energy and temperature to construct visual models and explain why two locations have different temperatures.	MS-ESS2-6	#4: Analyzing and Interpreting Data	
OAC	20	Thu, 1/25/24	1.5	analyze solar energy and ocean temperature data during normal years and El Niño years to determine the factors that affect air temperature in Christchurch.	MS-ESS2-6	#4: Analyzing and Interpreting Data	
	20	Fri, 1/26/24	Flex	3-8 Winter Interim Window Closes			
OAC	20	Mon, 1/29/24	2.2	analyze maps and evidence from "Oceans in Motion" in order to predict the ocean surface temperature at two locations with the same latitude.	MS-ESS2-6	#4: Analyzing and Interpreting Data	
OAC	21	Tue, 1/30/24	2.3	observe the transfer of energy from two different locations in the simulator in order to explain how the temperature of ocean currents affects the air temperature of the locations the currents pass by.	MS-ESS2-6	#6/7: Constructing Explanations and Arguing from Evidence	
OAC	21	Wed, 1/31/24	2.4	analyze data collected in Christchurch during El Niño years in order to infer why the water temperature is colder in those years.	MS-ESS2-6	#4: Analyzing and Interpreting Data	
OAC	21	Thu, 2/1/24	2.5	Critical Juncture Assessment			
	21	Fri, 2/2/24	Flex				
		Mon, 2/5/24		TK-8 Winter RLD			
OAC	22	Tue, 2/6/24	3.1+3.2	analyze the results of a physical model in order to infer the ways in which the direction of currents is influenced.	MS-ESS2-6	#2: Developing and Using Models	
OAC	22	Wed, 2/7/24	3.3	determine the relationship between ocean currents and prevailing winds in order to change the air temperature at a location in the Simulator.	MS-ESS2-6	#4: Analyzing and Interpreting Data	
OAC	22	Thu, 2/8/24	3.4	analyze evidence in order to determine why Christchurch has cooler than usual temperatures during El Niño years.	MS-ESS2-6	#6/7: Constructing Explanations and Arguing from Evidence	
	22	Fri, 2/9/24	Flex				
OAC	23	Mon, 2/12/24	4.1	analyze evidence cards in order to align them with specific claims.	MS-ESS2-6	#6/7: Constructing Explanations and Arguing from Evidence	
OAC	23	Tue, 2/13/24	4.2	evaluate the quality of evidence in order to argue in favor of a claim that explains the climate of South China during the late carboniferous period.	MS-ESS2-6	#6/7: Constructing Explanations and Arguing from Evidence	
OAC	23	Wed, 2/14/24	4.3	implement their understanding of the effect of the prevailing winds, ocean currents, and energy transfer on air temperature in order to write an argument about how South China's air temperature during the late carboniferous period compares to its air temperature today.	MS-ESS2-6	#6/7: Constructing Explanations and Arguing from Evidence	
OAC	23	Thu, 2/15/24	4.4	End of Unit Assessment			
	23	Fri, 2/16/24	Flex				
		Mon, 2/19/24		February Break			
		Tue, 2/20/24		February Break			
		Wed, 2/21/24		February Break			
		Thu, 2/22/24		February Break			

23-24 SCOPE + PACING GUIDE - Grade 6

DIRECTIONS FOR USE:

- This scope will serve as a baseline as you build your own Amplify pacing calendar aligned to your specific school calendars.
- The content of our 23-24 Interim assessments align to the prescribed sequence in our pacing calendars.
- Please aim to stay within **2 weeks** of the listed dates to ensure that you are on pace.

	#	Green = Interims Red = Due Dates		Purple = Priority lesson Green= Assessments Light yellow =foundational lessons Orange = RLDs Grey = Holiday	Bold = Priority Standard Unbolded = Supporting Italic = Additional		Lessons Skipped to review or spiral back
		Fri, 2/23/24		February Break			
WP	24	Mon, 2/26/24	1.2	gather evidence from a sim investigation to explore the relationship between surface water and rainfall.	MS-ESS2-4	#6/7: Constructing Explanations and Arguing from Evidence	
WP	24	Tue, 2/27/24	1.3	use models to collect evidence of why and when condensation occurs.	MS-ESS2-4	#2: Developing and Using Models	
WP	24	Wed, 2/28/24	1.4+1.5	gather evidence from a text and data from the sim to understand how temperature changes lead to rainfall.	MS-ESS2-4	#6/7: Constructing Explanations and Arguing from Evidence	
WP	24	Thu, 2/29/24	1.6	create a model to explain how changes in the amount of surface water can affect the amount of rainfall.	MS-ESS2-4	#2: Developing and Using Models	
	24	Fri, 3/1/24	Flex				
				create models to explain how energy transfer can determine how high an air parcel will rise.			
WP	24	Mon, 3/4/24	2.1	3-8 Spring Interim Window Opens	MS-ESS2-5	#2: Developing and Using Models	
WP	25	Tue, 3/5/24	2.2, 2.3	gather evidence from text and analyze data from the sim to identify relationships between energy transfer, air parcels, and the amount of rainfall.	MS-ESS2-5	#6/7: Constructing Explanations and Arguing from Evidence	
WP	25	Wed, 3/6/24	2.4	create models to explain how changes to an air parcel's temperature can affect the amount of rainfall.	MS-ESS2-5	#2: Developing and Using Models	
	25	Thu, 3/7/24	Flex				
	25	Fri, 3/8/24	Flex				
	25	Mon, 3/11/24		Spring Interim - Day 1			
	26	Tue, 3/12/24		Spring Interim - Day 2			
WP	26	Wed, 3/13/24	3.1	investigate the effects of air pressure on wind and rainfall.	MS-ESS2-5	#3: Planning and Carrying Out Investigations	
WP	26	Thu, 3/14/24	3.2	evaluate, analyze, and interpret evidence to determine how wind can affect the severity of a storm.	MS-ESS2-5	#6/7: Constructing Explanations and Arguing from Evidence	
	26	Fri, 3/15/24	Flex				
WP	27	Mon, 3/18/24	3.3a	analyze and interpret data, create visual models, and write final arguments about the factors that caused Galetown's recent severe rainstorms.	MS-ESS2-5	#6/7: Constructing Explanations and Arguing from Evidence	
WP	27	Tue, 3/19/24	3.3b	analyze and interpret data, create visual models, and write final arguments about the factors that caused Galetown's recent severe rainstorms.	MS-ESS2-5	#6/7: Constructing Explanations and Arguing from Evidence	
WP	27	Wed, 3/20/24	4.1	evaluate the strength of available evidence.	MS-ESS2-5	#6/7: Constructing Explanations and Arguing from Evidence	
WP	27	Thu, 3/21/24	4.2	analyze and interpret data about factors that affected the weather near the Carson Education Center.	MS-ESS2-5	#6/7: Constructing Explanations and Arguing from Evidence	
	27	Fri, 3/22/24	Flex	3-8 Spring Interim Window Closes			
WP	27	Mon, 3/25/24	4.3	discuss data about weather events and make an argument about what type of storm damaged the wilderness education center.	MS-ESS2-5	#6/7: Constructing Explanations and Arguing from Evidence	
WP	28	Tue, 3/26/24	4.4	Weather Patterns End of Unit 3-8 Spring Interim Data Due			
	28	Wed, 3/27/24	Flex				
	28	Thu, 3/28/24	Flex				
	28	Fri, 3/29/24		TK-8 Spring RLD #1			
		Mon, 4/1/24		Cesar Chavez Day			

23-24 SCOPE + PACING GUIDE - Grade 6

	#	Green = Interims Red = Due Dates		Purple = Priority lesson Green= Assessments Light yellow =foundational lessons Orange = RLDs Grey = Holiday	Bold = Priority Standard Unbolded = Supporting Italic = Additional		Lessons Skipped to review or spiral back
		Tue, 4/2/24		TK-8 Spring RLD #2- SF SCHOOLS			
		Wed, 4/3/24		Spring Break			
		Thu, 4/4/24		Spring Break			
		Fri, 4/5/24		Spring Break			
ECC	29	Mon, 4/8/24	1.2	describe the general trends in Earth's global average temperature and ice cover in order to understand what two main aspects of climate change are.	MS-ESS3-5	#4: Analyzing and Interpreting Data	
ECC	29	Tue, 4/9/24	1.3	use the Sim to model why Earth's ice is decreasing.	MS-ESS3-5	#2: Developing and Using Models	
ECC	29	Wed, 4/10/24	1.4	test changes to the atmosphere in order to observe how they change the amount of energy absorbed by Earth's surface.	MS-ESS3-5	#3: Planning and Carrying Out Investigations	
ECC	29	Thu, 4/11/24	1.5	describe trends in global average temperature as well as changes to the gases in the atmosphere by analyzing graphs.	MS-ESS3-5	#4: Analyzing and Interpreting Data	
	29	Fri, 4/12/24	Flex				
ECC	30	Mon, 4/15/24	2.1	explore how energy entering and exiting the Earth system impacts global average temperature by using a physical model and analyzing tests on the Sim.	MS-ESS3-5	#2: Developing and Using Models	
ECC	30	Tue, 4/16/24	2.2	obtain and evaluate information from "Past Climate Change" to explain how energy entering and exiting the Earth system affects climate.	MS-ESS3-5	#8: Obtaining, Evaluating, and Communicating Information	
ECC	30	Wed, 4/17/24	2.3	construct a model showing how carbon dioxide affects the amount of energy entering and exiting the Earth system.	MS-ESS3-5	#2: Developing and Using Models	
ECC	30	Thu, 4/18/24	2.4	Critical Juncture Assessment			
	30	Fri, 4/19/24	Flex				
ECC	31	Mon, 4/22/24	2.6	use the Sim to gather evidence on how carbon dioxide and methane impact energy that is entering and exiting the Earth system, in order to explain how these gases affect global average temperature.	MS-ESS3-5	#6/7: Constructing Explanations and Arguing from Evidence	
ECC	31	Tue, 4/23/24	2.7	explain what climate change is by creating a visual model and constructing an explanation for the public.	MS-ESS3-5	#6/7: Constructing Explanations and Arguing from Evidence	
ECC	31	Wed, 4/24/24	3.1	use the Sim to test and describe the impact that human activities have on the makeup of the atmosphere, and therefore, climate change.	MS-ESS3-5	#3: Planning and Carrying Out Investigations	
ECC	31	Thu, 4/25/24	3.2	ask questions and obtain information about how human actions cause and reduce climate change.	MS-ESS3-4	#8: Obtaining, Evaluating, and Communicating Information	
	31	Fri, 4/26/24	Flex				
ECC	31	Mon, 4/29/24	3.3	describe and model different actions we can take to reduce climate change and how these actions would affect gases in the atmosphere.	MS-ESS3-4	#2: Developing and Using Models	
ECC	32	Tue, 4/30/24	4.1	investigate volcanic eruptions and how they impact global temperature by analyzing graphs and running tests on the Sim.	MS-ESS3-2	#3: Planning and Carrying Out Investigations	
ECC	32	Wed, 5/1/24	4.2	make an initial argument about how volcanic eruptions impact Earth's atmosphere by carefully analyzing evidence cards and drawing a conclusion.	MS-ESS3-2	#6/7: Constructing Explanations and Arguing from Evidence	
ECC	32	Thu, 5/2/24	4.3	engage in a Science Seminar to discuss how a large volcanic eruption could have affected the atmosphere and global average temperature in the past.	MS-ESS3-2	#6/7: Constructing Explanations and Arguing from Evidence	
	32	Fri, 5/3/24	Flex				
ECC	33	Mon, 5/6/24	4.4	End of Unit Assessment			
ECC EI	33	Tue, 5/7/24	1.1	<i>Introducing the Engineering Internship</i>	MS-ESS3-3	#1/6: Defining Problems and Designing Solutions	
ECC EI	33	Wed, 5/8/24	1.2	<i>Becoming a Roof Specialist</i>	MS-ESS3-3	#1/6: Defining Problems and Designing Solutions

GOM	1	Mon, 8/21/23	1.2	Gather evidence about how the landforms on Mars were formed, Construct explanations about how the channels on Mars were formed using the observations made about geologic processes on Earth. First Day of Academics	MS-ESS2-2	#6/7: Constructing Explanations and Arguing from Evidence	
GOM	1	Tue, 8/22/23	1.3	analyze evidence about the origin of a mystery object on the surface of Mars, evaluate two claims about how the channel formed on the surface of Mars.	MS-ESS2-2	#6/7: Constructing Explanations and Arguing from Evidence	
GOM	1	Wed, 8/23/23	2.2	Gather evidence from multiple sources to determine how flowing water can erode rock to form channels.	MS-ESS2-2	#6/7: Constructing Explanations and Arguing from Evidence	
GOM	1	Thu, 8/24/23	2.3	Use models to investigate how the channel formed on Mars.	MS-ESS2-2	#2: Developing and Using Models	
	1	Fri, 8/25/23	Flex				
GOM	2	Mon, 8/28/23	3.1	determine the geologic process that formed the channel on Mars by interpreting evidence.	MS-ESS2-2	#6/7: Constructing Explanations and Arguing from Evidence	
GOM	2	Tue, 8/29/23	3.2	Analyze and evaluate a final piece of evidence to determine how the channel on Mars was formed.	MS-ESS2-2	#6/7: Constructing Explanations and Arguing from Evidence	
GOM	2	Wed, 8/30/23	3.3, 3.4	Construct final arguments about which geologic process formed the channel on Mars.	MS-ESS2-2	#6/7: Constructing Explanations and Arguing from Evidence	
GOM	2	Thu, 8/31/23		Geology on Mars End of Unit			
	2	Fri, 9/1/23	Flex				
		Mon, 9/4/23	Break	LABOR DAY			
PM	3	Tue, 9/5/23	1.2	describe the composition of Earth's outer layer where the Mesosaurus fossils are found by analyzing data from core samples.	MS-ESS2-2	#4: Analyzing and Interpreting Data	
PM	3	Wed, 9/6/23	1.3	obtain evidence from a digital model and map to determine the relationship between earthquakes and plate boundaries.	MS-ESS2-3	#4: Analyzing and Interpreting Data	
PM	3	Thu, 9/7/23	1.4	construct visual models of the plate boundary between South American and Africa using earthquake data to explain what the land is like where the Mesosaurus fossils were found.	MS-ESS2-3	#2: Developing and Using Models	
	3	Fri, 9/8/23	Flex				
PM	4	Mon, 9/11/23	2.1	use evidence from physical and digital models to explain how Earth's plates interact with Earth's mantle.	MS-ESS2-3	#6/7: Constructing Explanations and Arguing from Evidence	
PM	4	Tue, 9/12/23	2.2	actively read "Listening to Earth" to explain what happens to plates at convergent and divergent plate boundaries.	MS-ESS2-3	#8: Obtaining, Evaluating, and Communicating Information	
PM	4	Wed, 9/13/23	2.3	use a physical model and the article "Listening to Earth" to explain what happens to the plates and mantle at convergent and divergent plate boundaries.	MS-ESS2-3	#2: Developing and Using Models	
PM	4	Thu, 9/14/23	2.4	gather evidence from the SIM in order to create models that explain what happens to rock during divergent and convergent plate motion.	MS-ESS2-3	#6/7: Constructing Explanations and Arguing from Evidence	
	4	Fri, 9/15/23	Flex				

23-24 SCOPE + PACING GUIDE - Grade 7

DIRECTIONS FOR USE:

- This scope will serve as a baseline as you build your own Amplify pacing calendar aligned to your specific school calendars.
- The content of our 23-24 Interim assessments align to the prescribed sequence in our pacing calendars.
- Please aim to stay within **2 weeks** of the listed dates to ensure that you are on pace.

Unit	Wk.	Date	Module/Topic/Lesson	Topic + Lesson and Assessment Links	Standard(s)	Focus Science and Engineering Practice (SEP #)	NOTES
#	#	Green = Interims Red = Due Dates		Purple = Priority lesson Green= Assessments Orange = RLDs Grey = Holiday	Bold = Priority Standard Unbolded = Supporting Italic = Additional		Lessons Skipped to review or spiral back
PM	5	Mon, 9/18/23	2.5	use a plate boundary evidence map to determine the plate boundary located between South America and Africa and explain how this affects the rock from the mantle at this boundary.	MS-ESS2-3	#6/7: Constructing Explanations and Arguing from Evidence	
PM	5	Tue, 9/19/23	2.6	Plate Motion Critical Juncture			
PM	5	Wed, 9/20/23	3.1	use evidence from the SIM to explain the rate of plate motion.	MS-ESS2-3	#6/7: Constructing Explanations and Arguing from Evidence	
PM	5	Thu, 9/21/23	3.2	identify evidence that supports the theory of continental drift as they read "A Continental Puzzle".	MS-ESS2-3	#8: Obtaining, Evaluating, and Communicating Information	
	5	Fri, 9/22/23	Flex				
PM	6	Mon, 9/25/23	3.3	explain the location of continents in the past and present using the article "A Continental Puzzle" and creating a paper model of an ancient supercontinent.	MS-ESS2-3	#8: Obtaining, Evaluating, and Communicating Information	
PM	6	Tue, 9/26/23	3.4	analyze and interpret evidence to construct scientific arguments about how and why plate motion separated the Mesosaurus fossils.	MS-ESS2-3	#6/7: Constructing Explanations and Arguing from Evidence	
PM	6	Wed, 9/27/23	4.1	use patterns in landforms and geologic events to determine which kind of plate motion is occurring near Jalisco, Mexico.	MS-ESS2-3	#6/7: Constructing Explanations and Arguing from Evidence	
PM	6	Thu, 9/28/23	4.2	engage in a class discussion using evidence to support whether divergent or convergent plate motion explains patterns of geologic activity near Jalisco, Mexico.	MS-ESS2-3	#6/7: Constructing Explanations and Arguing from Evidence	
	6	Fri, 9/29/23	Flex				
PM	7	Mon, 10/2/23	4.3	construct written arguments using evidence and reasoning to explain which type of plate motion best explains the patterns of geologic activity near Jalisco, Mexico.	MS-ESS2-3	#6/7: Constructing Explanations and Arguing from Evidence	
PM	7	Tue, 10/3/23	4.4	Plate Motion End of Unit			
PMEI	7	Wed, 10/4/23	1.1	Introducing the Engineering Internship	MS-ESS3-2	#1/6: Defining Problems and Designing Solutions	
PMEI	7	Thu, 10/5/23	1.2	Modeling a Tsunami Wave	MS-ESS3-2	#1/6: Defining Problems and Designing Solutions	
	7	Fri, 10/6/23	Flex				
	8	Mon, 10/9/23		Indigenous People's Day			
PMEI	8	Tue, 10/10/23	1.3	Researching Plate Motion and Tsunamis	MS-ESS3-2	#1/6: Defining Problems and Designing Solutions	
PMEI	8	Wed, 10/11/23	1.4	Learning About Tsunami Warning Systems	MS-ESS3-2	#1/6: Defining Problems and Designing Solutions	
PMEI	8	Thu, 10/12/23	1.5	Designing Tsunami Warning Systems	MS-ESS3-2	#1/6: Defining Problems and Designing Solutions	
	8	Fri, 10/13/23	Flex				
PMEI	9	Mon, 10/16/23	1.6	Choosing Optimal Design 3-8 Fall Interim Window Opens	MS-ESS3-2	#1/6: Defining Problems and Designing Solutions	
PMEI	9	Tue, 10/17/23	1.7	Composing Proposal Outline	MS-ESS3-2	#8: Obtaining, Evaluating, and Communicating Information	
PMEI	9	Wed, 10/18/23	1.8	Completing Proposal Presentation	MS-ESS3-2	#8: Obtaining, Evaluating, and Communicating Information	
PMEI	9	Thu, 10/19/23	1.9	Presentations	MS-ESS3-2	#8: Obtaining, Evaluating, and Communicating Information	
PMEI	9	Fri, 10/20/23	1.10	Engineering Process Reflection	MS-ESS3-2	#8: Obtaining, Evaluating, and Communicating Information

23-24 SCOPE + PACING GUIDE - Grade 7

DIRECTIONS FOR USE:

- This scope will serve as a baseline as you build your own Amplify pacing calendar aligned to your specific school calendars.
- The content of our 23-24 Interim assessments align to the prescribed sequence in our pacing calendars.
- Please aim to stay within **2 weeks** of the listed dates to ensure that you are on pace.

Unit	Wk.	Date	Module/Topic/Lesson	Topic + Lesson and Assessment Links	Standard(s)	Focus Science and Engineering Practice (SEP #)	NOTES	
#		Green = Interims Red = Due Dates		Purple = Priority lesson Green= Assessments Orange = RLDs Grey = Holiday	Bold = Priority Standard Unbolded = Supporting <i>Italic = Additional</i>		Lessons Skipped to review or spiral back	
RT	10	Tue, 10/24/23	1.2	make detailed observations of the properties of four different rock samples to gather evidence about how and where the rocks formed.	MS-ESS2-1	#4: Analyzing and Interpreting Data		
RT	10	Wed, 10/25/23	1.3	use a digital model and cross section models to discover the ways that rocks form.	MS-ESS2-1	#2: Developing and Using Models		
RT	10	Thu, 10/26/23	1.4	use a physical model to explain how igneous and sedimentary rock form.	MS-ESS2-1	#2: Developing and Using Models		
	10	Fri, 10/27/23	Flex	3-8 Fall Interim Window Closes				
RT	11	Mon, 10/30/23	1.5	create a visual model showing how sedimentary rock and igneous rock formed, and use that model to analyze evidence to evaluate claims for how the Rocky Mountains and Great Plains formed.	MS-ESS2-1	#2: Developing and Using Models		
RT	11	Tue, 10/31/23	2.1	gather evidence from a video and the SIM to describe the energy source that drives the formation of sediment and magma.	MS-ESS2-1	#6/7: Constructing Explanations and Arguing from Evidence		
RT	11	Wed, 11/1/23	2.2	actively read "Devils Tower" to gather information about how energy sources transform rock material.	MS-ESS2-1	#8: Obtaining, Evaluating, and Communicating Information		
	11	Thu, 11/2/23	Flex					
	11	Fri, 11/3/23	Fall RLD	FALL RLD - TK-8				
RT	12	Mon, 11/6/23	2.3	gather evidence from a physical model, a video and the article to explain how energy from the sun and the Earth's interior can transform rock.	MS-ESS2-1	#8: Obtaining, Evaluating, and Communicating Information	Note - skip critical juncture, since we are so close to EOU and interims.	
RT	12	Tue, 11/7/23	2.4	explain in writing and create a model to show which energy source formed the rock of the Great Plains and the Rocky Mountains.	MS-ESS2-1	#6/7: Constructing Explanations and Arguing from Evidence		
RT	12	Wed, 11/8/23	3.1, 3.2	actively read about how uplift and subduction move rock formations and use the sim to model how these motions change rock.	MS-ESS2-1	#8: Obtaining, Evaluating, and Communicating Information		
	12	Thu, 11/9/23	Flex					
	12	Fri, 11/10/23		Veterans Day				
RT	13	Mon, 11/13/23	3.3	use a classroom model to show how uplift and subduction can expose rock formations to new energy sources.	MS-ESS2-1	#2: Developing and Using Models		
RT	13	Tue, 11/14/23	3.4	analyze evidence, create a model and write a scientific explanation explaining how the Rocky Mountains and Great Plains formed.	MS-ESS2-1	#6/7: Constructing Explanations and Arguing from Evidence		
RT	13	Wed, 11/15/23	4.4	<u>End of Unit Assessment</u>				Skip chapter 4 of rock transformations
	13	Thu, 11/16/23	Flex					
	13	Fri, 11/17/23	Flex					
		Mon, 11/20/23		Thanksgiving Break				
		Tue, 11/21/23		Thanksgiving Break				
		Wed, 11/22/23		Thanksgiving Break				
		Thu, 11/23/23		Thanksgiving Break				
		Fri, 11/24/23		Thanksgiving Break				
PC	14	Mon, 11/27/23	1.2	identify the 3 states of matter; describe the macroscale appearance of the 3 states of matter.	MS-PS1-4	#2: Developing and Using Models		
PC	14	Tue, 11/28/23	1.3	use a model to describe how the appearance of a substance is related to the behavior of its molecules.	MS-PS1-4	#2: Developing and Using Models		

23-24 SCOPE + PACING GUIDE - Grade 7

DIRECTIONS FOR USE:

- This scope will serve as a baseline as you build your own Amplify pacing calendar aligned to your specific school calendars.
- The content of our 23-24 Interim assessments align to the prescribed sequence in our pacing calendars.
- Please aim to stay within **2 weeks** of the listed dates to ensure that you are on pace.

Unit	Wk.	Date	Module/Topic/Lesson	Topic + Lesson and Assessment Links	Standard(s)	Focus Science and Engineering Practice (SEP #)	NOTES
	#	Green = Interims Red = Due Dates		Purple = Priority lesson Green= Assessments Orange = RLDs Grey = Holiday	Bold = Priority Standard Unbolded = Supporting <i>Italic = Additional</i>		Lessons Skipped to review or spiral back
PC	14	Wed, 11/29/23	1.4, 1.5	Develop models to describe what happens at the macroscale and microscale during a phase change.	MS-PS1-4	#2: Developing and Using Models	
PC	14	Thu, 11/30/23	1.6	Explain what happens to the molecules when a substance changes phase; Begin developing models that show what happens to substances during freezing and evaporation.	MS-PS1-4	#6/7: Constructing Explanations and Arguing from Evidence	
	14	Fri, 12/1/23	Flex				
PC	15	Mon, 12/4/23	2.1	model how the transfer of energy into or out of a substance can cause a molecules' freedom of movement to change	MS-PS1-4	#2: Developing and Using Models	
PC	15	Tue, 12/5/23	2.2	explain how energy is related to temperature.	MS-PS3-5	#6/7: Constructing Explanations and Arguing from Evidence	
PC	15	Wed, 12/6/23	2.3	evaluate evidence in order to construct arguments about energy transfer caused the Methane lake on Titan to evaporate.	MS-PS3-5	#6/7: Constructing Explanations and Arguing from Evidence	
PC	15	Thu, 12/7/23	3.1	explain whether adding and removing energy always leads to a phase change; identify the connection between attraction and the amount of energy needed for a phase change.	MS-PS1-4	#6/7: Constructing Explanations and Arguing from Evidence	
	15	Fri, 12/8/23	Flex				
PC	16	Mon, 12/11/23	3.2	use a digital model to investigate how molecular attraction affects the amount of energy that must be transferred to or from a substance to cause a phase change.	MS-PS1-4	#2: Developing and Using Models	
PC	16	Tue, 12/12/23	3.3	Synthesize the factors that affect phase change of liquid methane on Titan.	MS-PS1-4	#6/7: Constructing Explanations and Arguing from Evidence	
PC	16	Wed, 12/13/23	3.4	Phase Change Critical Juncture Assessment /End of Unit combined assessment

23-24 SCOPE + PACING GUIDE - Grade 7

DIRECTIONS FOR USE:

- This scope will serve as a baseline as you build your own Amplify pacing calendar aligned to your specific school calendars.
- The content of our 23-24 Interim assessments align to the prescribed sequence in our pacing calendars.
- Please aim to stay within **2 weeks** of the listed dates to ensure that you are on pace.

	0	Fri, 8/18/23		<i>Use week to build culture, systems, and routines.</i>		
HHE	1	Mon, 8/21/23	1.2	conduct a hands on investigation in order to determine whether something has energy. First Day of Academic Instruction	MS-PS3-1	#3: Planning and Carrying Out Investigations
HHE	1	Tue, 8/22/23	1.3	analyze diagrams and scenarios in order to determine if an object has kinetic and potential energy.	MS-PS3-1	#2: Developing and Using Models
HHE	1	Wed, 8/23/23	1.4	annotate a nonfiction text in order to investigate energy inventions.	MS-PS3-1	#8: Obtaining, Evaluating, and Communicating Information
HHE	1	Thu, 8/24/23	2.2	gather evidence in order to explain how objects obtain energy.	MS-PS3-1	#6/7: Constructing Explanations and Arguing from Evidence
	1	Fri, 8/25/23	FLEX			
HHE	2	Mon, 8/28/23	2.3	write a scientific argument in order to persuade the rescue team to solve their energy problems by using a specific energy source	MS-PS3-1	#6/7: Constructing Explanations and Arguing from Evidence
HHE	2	Tue, 8/29/23	3.1	obtain information from a scientific text in order to begin planning a design for an energy system that uses human kinetic energy.	MS-PS3-1	#8: Obtaining, Evaluating, and Communicating Information
HHE	2	Wed, 8/30/23	3.2	construct a visual model displaying their energy system design in order to generate a report to energy workers.	MS-PS3-1	#2: Developing and Using Models
HHE	2	Thu, 8/31/23	3.3	determine which pieces of evidence are reliable in order to construct a scientific argument.	MS-PS3-1	#6/7: Constructing Explanations and Arguing from Evidence
	2	Fri, 9/1/23	Flex			
		Mon, 9/4/23	Break	LABOR DAY		
HHE	3	Tue, 9/5/23	3.4	End of Unit Assessment		
FM	3	Wed, 9/6/23	1.2	explain how an object can change direction by drawing a model and describing what happened.	MS-PS2-2	#2: Developing and Using Models
FM	3	Thu, 9/7/23	1.3	analyze evidence using a digital model in order to explain how an object can experience different changes in velocity.	MS-PS2-2	#2: Developing and Using Models
	3	Fri, 9/8/23	Flex			
FM	4	Mon, 9/11/23	1.4	collect evidence from a model in order to explain how force strength determines how an object experiences a change in velocity.	MS-PS2-2	#2: Developing and Using Models
FM	4	Tue, 9/12/23	1.5	create a model in order to show how force direction and strength impacts velocity change.	MS-PS2-2	#2: Developing and Using Models
FM	4	Wed, 9/13/23	1.6	construct a visual and written scientific explanation in order to explain the cause and effect relationship between force strength and velocity change.	MS-PS2-2	#6/7: Constructing Explanations and Arguing from Evidence
FM	4	Thu, 9/14/23	2.1	calculate velocity during a hands on investigation in order to determine how same strength force impacts velocity changes in different mass objects.	MS-PS2-2	#5: Using Mathematics and Computational Thinking
	4	Fri, 9/15/23	Flex			
FM	5	Mon, 9/18/23	2.2 + 2.3	identify the effects of mass on force and velocity in order to analyze how mass impacts changes in velocity.	MS-PS2-2	#4: Analyzing and Interpreting Data
FM	5	Tue, 9/19/23	2.4	Force and Motion Critical Juncture Assessment		
FM	5	Wed, 9/20/23	3.1	gather evidence from a scientific text in order to explain the direction force is exerted during a collision.	MS-PS2-1	#8: Obtaining, Evaluating, and Communicating Information
FM	5	Thu, 9/21/23	3.2	execute same mass collisions and different mass collisions in order to analyze the factors that determine changes in velocity	MS-PS2-2	#3: Planning and Carrying Out Investigations

23-24 SCOPE + PACING GUIDE - Grade 8 Amplify Science

DIRECTIONS FOR USE:

- This scope will serve as a baseline as you build your own Amplify pacing calendar aligned to your specific school calendars.
- The content of our 23-24 Interim assessments align to the prescribed sequence in our pacing calendars.
- Please aim to stay within **2 weeks** of the listed dates to ensure that you are on pace.

Unit	Wk.	Date	Lesson #		Standard	Priority Science and Engineering Practice (SEP #)	NOTES
	#	Green = Interims Red = Due Dates			Bold = Priority Standard Unbolded = Supporting		Lessons Skipped to review or spiral back
	5	Fri, 9/22/23	Flex				KWBAT solve word problems to find the missing variable, applying Newton's 2nd law of motion.
FM	6	Mon, 9/25/23	3.3	compare how collision forces affect the change in velocity of objects with different masses	MS-PS2-2	#4: Analyzing and Interpreting Data	
FM	6	Tue, 9/26/23	3.4	analyze evidence using a digital model in order to explain how objects can experience different changes in velocity during a collision.	MS-PS2-2	#4: Analyzing and Interpreting Data	
FM	6	Wed, 9/27/23	4.1	describe the effects of friction on motion in order to recreate a car crash in a movie scene.	MS-PS2-1	#4: Analyzing and Interpreting Data	
FM	6	Thu, 9/28/23	4.3	construct a scientific argument in order to explain how the laws of motion determine force direction, force strength and mass during collisions.	MS-PS2-1	#6/7: Constructing Explanations and Arguing from Evidence	
	6	Fri, 9/29/23	Flex				
FM	7	Mon, 10/2/23	4.4	<u>Force and Motion End of Unit Assessment</u>			
FMEI	7	Tue, 10/3/23	1.1	Introduce Engineering and Design Internship	MS-ETS1-1-4	#1/6: Defining Problems and Designing Solutions	
FMEI	7	Wed, 10/4/23	1.2	Design an Egg Drop Model	MS-ETS1-1-4	#1/6: Defining Problems and Designing Solutions	
FMEI	7	Thu, 10/5/23	1.3	Redesign Egg Drop Model	MS-ETS1-1-4	#1/6: Defining Problems and Designing Solutions	
	7	Fri, 10/6/23	Flex				
	8	Mon, 10/9/23		Indigenous People's Day			
FMEI	8	Tue, 10/10/23	1.4	Introduce Futura Supply Drop	MS-ETS1-1-4	#1/6: Defining Problems and Designing Solutions	
FMEI	8	Wed, 10/11/23	1.5	Analyze Supply Drop Designs	MS-ETS1-1-4	#1/6: Defining Problems and Designing Solutions	
FMEI	8	Thu, 10/12/23	1.6	Choose optimal design	MS-ETS1-1-4	#1/6: Defining Problems and Designing Solutions	
	8	Fri, 10/13/23	Flex				
FMEI	9	Mon, 10/16/23	1.7	Compose proposal outlines 3-8 Fall Interim Window Opens	MS-ETS1-1-4	#8: Obtaining, Evaluating, and Communicating Information	
FMEI	9	Tue, 10/17/23	1.8	Write design proposals	MS-ETS1-1-4	#8: Obtaining, Evaluating, and Communicating Information	
FMEI	9	Wed, 10/18/23	1.9	Complete design proposals	MS-ETS1-1-4	#8: Obtaining, Evaluating, and Communicating Information	
FMEI	9	Thu, 10/19/23	1.10	Reflecting + Applying on Engineering Process	MS-ETS1-1-4	#8: Obtaining, Evaluating, and Communicating Information	
	9	Fri, 10/20/23	Flex				
	10	Mon, 10/23/23		Fall Science Interim			
MF	10	Tue, 10/24/23	1.2	explore the movement of magnetic and explain the conditions necessary for magnets to move closer together or farther apart.	MS-PS2-5	#1: Asking Questions	
MF	10	Wed, 10/25/23	1.3	create a model to show the motion of attractive and repulsive magnets and describe the forces involved in magnetic pairs.	MS-PS2-5	#2: Developing and Using Models	
MF	10	Thu, 10/26/23	1.4	explain how magnetic forces on earth impact navigational compasses by engaging with a text on Earth's magnetic field.	MS-PS2-5	#1: Asking Questions	
	10	Fri, 10/27/23	Flex	3-8 Fall Interim Window Closes			
MF	11	Mon, 10/30/23	1.5	describe the motion of magnets by modeling magnetic field lines in attracting and repelling magnetic systems.	MS-PS2-5	#2: Developing and Using Models	
MF	11	Tue, 10/31/23	1.6	writing evidence based arguments by analyzing force and magnetic field lines in systems of repelling magnets	MS-PS2-5	#6/7: Constructing Explanations and Arguing from Evidence	

23-24 SCOPE + PACING GUIDE - Grade 8 Amplify Science

DIRECTIONS FOR USE:

- This scope will serve as a baseline as you build your own Amplify pacing calendar aligned to your specific school calendars.
- The content of our 23-24 Interim assessments align to the prescribed sequence in our pacing calendars.
- Please aim to stay within **2 weeks** of the listed dates to ensure that you are on pace.

Unit	Wk.	Date	Lesson #	Standard	Priority Science and Engineering Practice (SEP #)	NOTES
#		Green = Interims Red = Due Dates		Bold = Priority Standard Unbolded = Supporting		Lessons Skipped to review or spiral back
MF	11	Wed, 11/1/23	2.1	analyzing real world magnetic systems and describe changes in potential and kinetic energy. 3-8 Fall Interim Data Due	MS-PS3-2	#2: Developing and Using Models
MF	11	Thu, 11/2/23	2.2	gather evidence from different magnetic systems and describe how potential and kinetic energy are created in magnetic systems.	MS-PS3-2	#6/7: Constructing Explanations and Arguing from Evidence
	11	Fri, 11/3/23	Fall RLD	FALL RLD - TK-8		
MF	12	Mon, 11/6/23	2.3	use models to describe the transfer of potential to kinetic energy in a system of magnets.	MS-PS3-2	#2: Developing and Using Models
MF	12	Tue, 11/7/23	2.4	writing evidence based arguments by describing how distance and motion impact potential and kinetic energy in magnetic systems.	MS-PS2-3	#6/7: Constructing Explanations and Arguing from Evidence <i>Skip Magnetic Force Critical Juncture, unless there is additional time</i>
MF	12	Wed, 11/8/23	3.1	gather evidence from repelling magnets and describe how distance impacts potential and kinetic energy in magnetic systems	MS-PS2-3	#6/7: Constructing Explanations and Arguing from Evidence
MF	12	Thu, 11/9/23	3.2	explain the changes in potential energy of attracting and repelling magnets when magnets are moved against a force by gathering evidence from simulated magnets	MS-PS3-2	#6/7: Constructing Explanations and Arguing from Evidence
	12	Fri, 11/10/23		Veterans Day		
MF	13	Mon, 11/13/23	3.3	model and explain the transfer of potential to kinetic energy in a system of moving magnets.	MS-PS3-2	#2: Developing and Using Models
MF	13	Tue, 11/14/23	4.1	use scientific evidence in a design analysis to select a magnetic car design that will have the greatest transfer of potential to kinetic energy.	MS-PS3-2	#6/7: Constructing Explanations and Arguing from Evidence
MF	13	Wed, 11/15/23	4.2	explain how different variables change the amount of potential and kinetic energy in a system of magnets by gathering evidence from a simulation	MS-PS3-2	#6/7: Constructing Explanations and Arguing from Evidence
MF	13	Thu, 11/16/23	4.4	Magnetic Force End of Unit Assessment		
	13	Fri, 11/17/23	Flex			
		Mon, 11/20/23		Thanksgiving Break		
		Tue, 11/21/23		Thanksgiving Break		
		Wed, 11/22/23		Thanksgiving Break		
		Thu, 11/23/23		Thanksgiving Break		
		Fri, 11/24/23		Thanksgiving Break		
LW	14	Mon, 11/27/23	1.2	gather evidence to prove that light carries energy	MS-PS4-1	#6/7: Constructing Explanations and Arguing from Evidence
LW	14	Tue, 11/28/23	1.3	use evidence to explain why light can cause materials to change.	MS-PS4-1	#6/7: Constructing Explanations and Arguing from Evidence
LW	14	Wed, 11/29/23	1.4	create a model that shows how light from the sun can cause skin cancer	MS-PS4-2	#2: Developing and Using Models
LW	14	Thu, 11/30/23	2.1	use digital evidence to explain why different light sources may have different effects on materials	MS-PS4-2	#6/7: Constructing Explanations and Arguing from Evidence
	14	Fri, 12/1/23	Flex			
LW	15	Mon, 12/4/23	2.2	use textual evidence to explain why plants can only grow under certain types of light	MS-PS4-2	#6/7: Constructing Explanations and Arguing from Evidence
LW	15	Tue, 12/5/23	2.3	analyze wave models to compare and contrast light sources and their effects on materials.	MS-PS4-1	#2: Developing and Using Models
LW	15	Wed, 12/6/23	2.4	use evidence to create models that demonstrate how different types of light affect genetic material.	MS-PS4-2	#2: Developing and Using Models
LW	15	Thu, 12/7/23	2.5	use evidence to explain how melanin provides protection against skin cancer.	MS-PS4-2	#6/7: Constructing Explanations and Arguing from Evidence
	15	Fri, 12/8/23	Flex			
LW	16	Mon, 12/11/23	3.1	use a model to explain how light can be reflected, transmitted, or absorbed	MS-PS4-2	#2: Developing and Using Models

23-24 SCOPE + PACING GUIDE - Grade 8 Amplify Science

NSEI	25	Wed, 3/6/24	1.9	Composing Final Proposal		#8: Obtaining, Evaluating, and Communicating Information
NSEI	25	Thu, 3/7/24	1.10	Reflection on engineering processes and presentation		#8: Obtaining, Evaluating, and Communicating Information

23-24 SCOPE + PACING GUIDE - Grade 8 Amplify Science

DIRECTIONS FOR USE:

- This scope will serve as a baseline as you build your own Amplify pacing calendar aligned to your specific school calendars.
- The content of our 23-24 Interim assessments align to the prescribed sequence in our pacing calendars.
- Please aim to stay within **2 weeks** of the listed dates to ensure that you are on pace.

Unit	Wk.	Date	Lesson #	Standard	Priority Science and Engineering Practice (SEP #)	NOTES
	#	Green = Interims Red = Due Dates		Bold = Priority Standard Unbolded = Supporting		Lessons Skipped to review or spiral back
NSEI	25	Fri, 3/8/24	Flex			
	25	Mon, 3/11/24		Spring Science Interim		
EH	26	Tue, 3/12/24	1.2	group different species by analyzing and interpreting similarities in body structures.	MS-LS4-2	#4: Analyzing and Interpreting Data
EH	26	Wed, 3/13/24	1.3	explain how similarities in body structures of different species to identify evidence of a common ancestor.	MS-LS4-2	#6/7: Constructing Explanations and Arguing from Evidence
EH	26	Thu, 3/14/24	1.4	make inferences about the relationships between organisms by interpreting evolutionary trees.	MS-LS4-2	#4: Analyzing and Interpreting Data
EH	26	Fri, 3/15/24	Flex			
EH	27	Mon, 3/18/24	1.5	use observations of body structures to make inferences about common ancestors.	MS-LS4-2	#4: Analyzing and Interpreting Data
EH	27	Tue, 3/19/24	2.1	construct explanations about how differences in body structures affect the function of that structure in different environments	MS-LS1-4	#6/7: Constructing Explanations and Arguing from Evidence
EH	27	Wed, 3/20/24	2.2	identify how organisms evolve into different species by reading a scientific article.	MS-LS4-2	#8: Obtaining, Evaluating, and Communicating Information
EH	27	Thu, 3/21/24	2.3	model how environmental changes may influence speciation	MS-LS1-4	#2: Developing and Using Models
EH	27	Fri, 3/22/24	Flex	3-8 Spring Interim Window Closes		
EH	27	Mon, 3/25/24	2.4	investigate and model how evolutionary changes happen on a large time scale.	MS-LS4-1	#2: Developing and Using Models
EH	28	Tue, 3/26/24	2.5	create a model that represents how organisms with common ancestors can have similar and different body structures	MS-LS4-2	#2: Developing and Using Models
EH	28	Wed, 3/27/24	2.6	Evolutionary History Critical Juncture Assessment		
	28	Thu, 3/28/24	Flex			
	28	Fri, 3/29/24		TK-8 Spring RLD #1		
		Mon, 4/1/24		Cesar Chavez Day

Wheatley Resources 23-24

Includes: KIPP Foundation Online Lesson Hub, KIPP Wheatley "print" lessons and handouts, PDFs of texts, module internalization template, lesson internalization protocol, ELA Regional Content Lead resources

Click on the links below for resources

Document/Resource	Description
KIPP Wheatley Online Lesson Hub	Virtual versions of KIPP Wheatley lessons released during SY20-21 (no changes for this year). Make note of unavailable "print lessons."
KIPP Wheatley "Print Lessons" and assessments, and PDFs of texts (available 8/16/23)	19-20 Wheatley "print lessons," checkpoints, and end-of-module assessments downloaded from KIPP Share and PDFs of texts within grade level folders
Module Internalization Template	Template for KIPP Wheatley Module Internalization (the major difference between network and our region is backwards planning from interim)
Curriculum Module Internalization Guide	23-24 KIPP Wheatley reading lesson internalization protocol
Reading lesson internalization protocol	23-24 KIPP Wheatley writing lesson internalization protocol
Writing lesson internalization protocol	From the KIPP Foundation: thinking steps listed for each reading standard
KIPP Teacher Resource Guide	Teacher leaders created sample module internalization guides, pacing guides, and listening and vocabulary routines. Resources from 20-21 are included for reference and 23-24 will be added as our regional content leads complete them.
ELA Regional Content Lead folder (vocabulary routines here)

KINDERGARTEN WIT & WISDOM: PACING GUIDE

Module	Wk.	Date	Module/Lesson	Text(s)	Lesson Objectives	Check For Understanding	Standards	NOTES
0	3	Mon, 8/23/21	M0L1	Wild about Books	Make observations about <i>Wild about Books</i> .	Share an observation by completing a sentence frame.		
0	3	Tue, 8/24/21	M0L2	Wild about Books	Identify key details in <i>Wild about Books</i> .	Create a Tableau to demonstrate key details from the text.		
0	3	Wed, 8/25/21	M0L3	Wild about Books	Identify how words and pictures work together in <i>Wild about Books</i> to communicate key details and meaning.	Make an observation about the relationship between words and pictures in a Think-Pair-Share.		
0	3	Thu, 8/26/21	M0L4	Wild about Books	Determine an essential meaning of <i>Wild about Books</i> . Express understanding of how the librarian makes reading fun for the animals.	Discuss essential meanings of the text during a Mix and Mingle. Use information from the Evidence Organizer to describe how the librarian makes reading fun.		
0	3	Fri, 8/27/21	M0L5	Wild about Books	Discuss how <i>Wild about Books</i> builds knowledge of reading. Improve writing by responding to peer feedback.	Participate in a Socratic Seminar. Add a detail to a Response Journal entry after receiving feedback from a peer.		
1	4	Mon, 8/30/21	M1L1	My Five Senses	Ask questions about the illustrations in <i>My Five Senses</i> . Represent learning through drawing and dictation. Ask and answer questions about key vocabulary in <i>My Five Senses</i> .	Think-Pair-Share using question words from the Wonder Wheel. Complete a sentence frame for <i>My Five Senses</i> . Think-Pair-Share to develop questions about <i>My Five Senses</i> .	RI K.1, K.5 W K.8 SL K.1.a, K.2 L K.1.d, K.6	
1	4	Tue, 8/31/21	M1L2	My Five Senses <i>Le Gourmet</i>	Identify key details and discuss the main topic of <i>My Five Senses</i> . Interpret expressions from <i>My Five Senses</i> and link them to sensory experiences and feelings.	Think-Pair-Share to identify the main topic and key details of sections from the text. Identify sensory experiences in <i>My Five Senses</i> , and describe the associated feelings based on evidence from the text.	RI K.1, K.2, K.3, K.4 W K.2, K.8 SL K.1.a, K.2, K.4 L K.4.a, K.1.f, K.5.c	
1	4	Wed, 9/1/21	M1L3	My Five Senses <i>Le Gourmet</i>	Identify how words and pictures work together in <i>My Five Senses</i> to communicate key details. Identify whether information responds to a prompt. Experiment with answering a prompt by completing a sentence frame.	Respond to TDQs. Respond nonverbally to completed sentence frames. Complete a sentence frame in the Response Journal.	RI K.1, K.2, K.5 W K.2, K.8, K.4 SL K.1.a, K.2, K.6 L K.1.f, K.5.c	
1	4	Thu, 9/2/21	M1L4	My Five Senses <i>Le Gourmet</i>	Use the pictures and language in <i>My Five Senses</i> to determine the text's essential meaning. Execute verbally responding to a prompt. Generate and apply sensory adjectives for taste to real-life situations.	Respond to TDQs. Verbally complete a sentence frame in preparation for Focusing Question Task 1. Use sensory adjectives in sentences.	RL K.1, K.6 W K.8 SL K.1.a, K.2 L K.5.d, K.1.f, K.5.c	
1	4	Fri, 9/3/21	M1L5	My Five Senses <i>Le Gourmet</i>	Verbalize understanding of <i>My Five Senses</i> . Express understanding of the function and purpose of the five senses. Generate and apply sensory adjectives for smell to real-life situations.	Think-Pair-Share about skills gleaned from <i>My Five Senses</i> to add to the class Knowledge Journal. Complete Focusing Question Task 1. Use sensory adjectives in sentences.	RL K.1, K.6, K.7 W K.8 SL K.1.a, K.2 L K.1.f	
	5	Mon, 9/6/21	No School	Labor Day				
1	5	Tue, 9/7/21	M1L6	My Five Senses	Ask questions about <i>My Five Senses</i> . Explain the importance of taking turns in conversation. Ask and answer questions about key vocabulary in <i>My Five Senses</i> .	Use question words on the Wonder Wheel to generate questions. Share observations about the importance of using one voice at a time. Think-Pair-Share to generate a meaning for the word every.	RL K.1, K.4, K.5, K.6 SL K.4 L K.1.d, K.2.d	
1	5	Wed, 9/8/21	M1L7	My Five Senses	Identify key details and discuss the main topic of <i>My Five Senses</i> . Use text evidence to answer student-generated questions. Experiment with using text evidence to identify which sense the boy is using in <i>My Five Senses</i> .	Think-Pair-Share about the main topic and key details. Collaboratively identify textual evidence to answer a question. Think-Pair-Share to complete a sentence frame, and use evidence from the text.	RL K.2, K.7 W K.2 SL K.1 L K.2.c, d, K.5.c	
1	5	Thu, 9/9/21	M1L8	My Five Senses	Identify how words and illustrations work together to communicate key details in <i>My Five Senses</i> . Use text evidence to verbally complete sentence frames. Generate and apply sensory adjectives for touch to real-life situations.	Annotate illustrations. Verbally execute Focusing Question Task 2. Use sensory adjectives in sentences.	RI K.1, K.6, K.7, K.9 W K.8 SL K.1.a, K.2 L K.1.f, K.5.c	
1	5	Fri, 9/10/21	M1L9	My Five Senses	Provide examples of how the five senses help us learn about the world. Identify the front cover, back cover, and title page of a book. Generate and apply sensory adjectives for hearing to real-life situations.	Complete Focusing Question Task 2. Annotate the parts of a book. Use sensory adjectives in sentences.	RI K.1, K.2, K.5 W K.2, K.8, K.4 SL K.1.a, K.2, K.6 L K.1.f, K.5.c	
1	6	Mon, 9/13/21	M1L10	My Five Senses	Provide examples of how the five senses help us learn about the world. Identify the front cover, back cover, and title page of a book. Generate and apply sensory adjectives for hearing to real-life situations.	Complete Focusing Question Task 2. Annotate the parts of a book. Use sensory adjectives in sentences.	RI K.1, K.2, K.5 W K.2, K.8, K.4 SL K.1.a, K.2, K.6 L K.1.f, K.5.c	
1	6	Tue, 9/14/21	M1L11	Last Stop on Market Street	Ask questions about <i>Last Stop on Market Street</i> . Examine the importance of listening with your senses. Ask and answer questions about key vocabulary in <i>Last Stop on Market Street</i> .	Generate questions using Question Corners. Share observations about the importance of listening with your senses. Act out vocabulary from the text.		
1	6	Wed, 9/15/21	M1L12	Last Stop on Market Street	Identify key events in <i>Last Stop on Market Street</i> . Experiment with listening with your senses. Determine new meanings for familiar words from <i>Last Stop on Market Street</i> , and act out their different meanings.	Retell events in order. Evaluate how well pairs listened with their senses. Act out the meaning of duck(ed) based on the context.	RL K.1, K.2, K.5 SL K.1.a, K.2 L K.4.a	
1	6	Thu, 9/16/21	M1L13	Last Stop on Market Street	Answer questions about the illustrations and words in the text to identify which senses CJ uses to engage with his surroundings. Experiment with adding details to a drawing. Identify sensory adjectives from <i>Last Stop on Market Street</i> and use them in sentences to describe real-life experiences.	Collect evidence for the Focusing Question Task. Complete a Response Journal entry. Think-Pair-Share experiences with seeing spotted things.	RL K.1, K.6 W K.8 SL K.1.a, K.2 L K.5.d, K.1.f, K.5.c	
	6	Fri, 9/17/21	No School	School Based PD Day - No Students				
1	7	Mon, 9/20/21	M1L14	Last Stop on Market Street	Analyze descriptive words in the text to gather more details about text evidence in preparation for the Focusing Question Task. Experiment with adding details from the text to a drawing. Identify the parts of a complete sentence.	Add details to the Evidence Organizer. Use text evidence to add details to a Response Journal drawing. Identify and act out complete sentences.	RL K.1, K.6, K.7 W K.8 SL K.1.a, K.2 L K.1.f	

1	7	Tue, 9/21/21	M1L15	Last Stop on Market Street	Use the illustrations and the words to identify the essential meaning of Last Stop on Market Street. Express understanding of how CJ's senses help him learn about the world. Produce complete sentences about the illustrations in Last Stop on Market Street.	Respond to TDQs. Begin Focusing Question Task 3. Create complete sentences describing CJ and Nana's actions	RL K.1, K.6 W K.2, KK.8, K.4 SL K.1.a, K.2 L K.1.f	
1	7	Wed, 9/22/21	M1L16	Last Stop on Market Street	Practice speaking one voice at a time about Last Stop on Market Street. Express understanding of how CJ's senses help him learn about the world. Identify the author and illustrator of Last Stop on Market Street and define their roles in telling the story. Demonstrate understanding of grade-level vocabulary.	Participate in a Socratic Seminar on Last Stop on Market Street. Complete Focusing Question Task 3. Complete New-Read Assessment 2. Complete Practice Direct Vocabulary Assessment.	RL K.1, K.6 W K.2, K.8, K.4 SL K.1.a L 1.6	
1	7	Thu, 9/23/21	M1L17	Chicka Chicka Boom Boom Flower Day	Ask questions about the events in Chicka Chicka Boom Boom. Participate in shared writing to label details in Flower Day.	Think-Pair-Share using question words from the Wonder Wheel. Identify the first sound in details from Flower Day.	RL K.1, K.4, K.5, K.6 SL K.4 L K.1.d, K.2.d	
1	7	Fri, 9/24/21	Flex Day					
1	8	Mon, 9/27/21	M1L18	Chicka Chicka Boom Boom Flower Day	Identify key events and details in Chicka Chicka Boom Boom. Label main figures and objects in Flower Day using initial letter sounds. Define descriptive words and phrases from Chicka Chicka Boom Boom, and use them to describe real-life experiences.	Retell the story by acting out key events and details. Label Handout 18A. Think-Pair-Share to discuss real-life situations where stooped is used.	RL K.2, K.7 W K.2 SL K.1 L K.2.c, d, K.5.c	
1	8	Tue, 9/28/21	M1L19	Chicka Chicka Boom Boom "Chicka Chicka Boom Boom" song/video Flower Day Le Gourmet	Identify how words and illustrations work together to communicate key details in Chicka Chicka Boom Boom. Label details in a drawing about Chicka Chicka Boom Boom using initial sounds. Speak in complete sentences while describing the events in Chicka Chicka Boom Boom.	Create a drawing based on words from the text. Label a drawing made from the words in the text. Produce complete sentences describing the illustrations in Chicka Chicka Boom Boom.	RL K.1, K.6, K.7 W K.2 SL K.1.a, K.2, K.6 L K.2.c, d, K.6, K.1.f	
1	8	Wed, 9/29/21	M1L20	Chicka Chicka Boom Boom Flower Day	Identify and interpret repetitions and emphasis of words in Chicka Chicka Boom Boom. Use illustrations and words from the text to collect evidence for Focusing Question Task 4. Define and use words with the morpheme re-	Students Think-Pair-Share about TDQ 4. Share evidence with a partner. Complete a sentence frame about the meaning of the word rewrite.	RL K.1, K.3, K.6 W K.8 SL K.1 L K.4.b	
1	8	Thu, 9/30/21	M1L21	Chicka Chicka Boom Boom "Chicka Chicka Boom Boom" song/video Flower Day	Use the words and illustrations to interpret the essential meaning in Chicka Chicka Boom Boom. Express understanding of how the five senses help readers learn from Chicka Chicka Boom Boom. Demonstrate understanding of grade-level vocabulary.	Think-Pair-Share about TDQ 2. Begin Focusing Question Task 4. Complete direct vocabulary assessment.	RL K.1, K.7 W K.2, K.8, K.4 SL K.1.a, K.6 L K.2.c, d, 1.6	
1	8	Fri, 10/1/21	M1L22	Chicka Chicka Boom Boom Flower Day (Art) by Diego Rivera	Express understanding of how the five senses help readers learn from Chicka Chicka Boom Boom. Add detail to the Focusing Question Task using phonetic labels.	Complete Focusing Question Task 4. Add two phonetic labels to Focusing Question Task 4.	RL K.1 W K.2, K.4, K.2 SL K.1.a, b, K.2, K.6 L K.2.c, d, K.6	
1	9	Mon, 10/4/21	M1L23	Rap a Tap Tap "Eight-Year-Old Tap Prodigy Little Luke"	Ask questions about the key events, details, and words in Rap a Tap Tap. Using labeling with letters, label a drawing from the text as a class. Ask and answer questions about key vocabulary in Rap a Tap Tap.	Complete New-Read Assessment 3. Think-Pair-Share about the importance of labeling with letters. Discuss the illustration on pages 9–10 to determine the meaning of folks.	RI K.1, K.4, K.6 SL K.1.a, K.2 L K.2.c, d, K.1.d, K.6	
1	9	Tue, 10/5/21	M1L24	Rap a Tap Tap "Great Depression"	Identify key details in Rap a Tap Tap. Using labeling with letters, label a drawing from the text. With support, identify and explain the purpose of prepositions.	Create a Moving Tableau, and contribute to class list of key details. Add labels to a drawing. Think-Pair-Share on the purpose of prepositions.	RI K.2 SL K.1 L K.2.b, c, d, K.1.e	
1	9	Wed, 10/6/21	M1L25	Rap a Tap Tap "The Harlem Renaissance"	Identify how illustrations reveal deeper meaning in Rap a Tap Tap. Examine the importance of collaborative conversations. Draw and label one thing you learned from the illustrations.	Answer TDQs about illustrations in the text. Share observations about the importance of conversations. Complete a Response Journal entry.	RI K.4, K.7 SL K.1, K.2 W K.2 L K.2.c, d	
1	9	Thu, 10/7/21	M1L26	Rap a Tap Tap "Bojangles Step Dance"	Describe words and sounds in Rap a Tap Tap, including how they deepen meaning in the text. Using the Evidence Organizer, construct sentences to begin Focusing Question Task 5. With support, use prepositions to complete a sentence frame.	Respond to a TDQ. Begin the Focusing Question Task. Use prepositions to describe the location of a puppet.	RI K.1, K.7 W K.2 SL K.1, K.2 L K.1.f, K.2.c, d, K.1.e	
1	9	Fri, 10/8/21	Flex Day					
	10	Mon, 10/11/21	No School	Indigenous People's Day				
1	10	Tue, 10/12/21	M1L27	Rap a Tap Tap "Bojangles Step Dance"	Use illustrations and words to identify the essential meaning of Rap a Tap Tap. Experiment with collaborative conversations. Use labeling with letters to add detail to the Focusing Question Task. With support, verbally create a sentence with a preposition.	Respond to TDQs. Evaluate conversations in pairs. Continue Focusing Question Task. Create sentences using prepositions to describe the position of a puppet.	RI K.1, K.2, K.7 W K.2 SL K.1, K.2, K.6 L K.2.c, d, K.1.e, f	
1	10	Wed, 10/13/21	M1L28	Rap a Tap Tap "Bojangles Step Dance"	Express understanding of how the senses help readers learn from Rap a Tap Tap. With support, verbally create a sentence with a preposition.	Complete Focusing Question Task 5. Create sentences using the preposition cards to describe where Bojangles is.	RI K.1 W K.2, K.4 SL K.1 L K.2.c, d, K.1.e, f	
1	10	Thu, 10/14/21	M1L29	My Five Senses, Margaret Miller My Five Senses, Alikei	Engage in a collaborative conversation to synthesize information from Module 1 texts. Demonstrate understanding of grade-level vocabulary.	Participate in a Socratic Seminar on both versions of My Five Senses. Complete Direct Vocabulary Assessment.	RL K.1 SL K.1 L K.1.d, K.6	
1	10	Fri, 10/15/21	M1L30	All module texts	Express understanding of how the senses help us learn. With support, evaluate writing and use complete sentences to share reflections.	Begin EOM Task. Use complete sentences to describe what they did well in their EOM Task.	RI K.1 RL K.5 W K.2, K.8, K.4 SL K.1.a, b, K.6 L K.2.c, d, K.1.f	

1	11	Mon, 10/18/21	M1L31	All module texts	Express understanding of how the senses help us learn. With support, evaluate writing, and use complete sentences to share reflections.	Complete the EOM Task. Use complete sentences to describe what they did well in their EOM Task.	RI K.1 W.K.2, K.8, K.4 SL K.1.a, b, K.6 L.K.2.c, d, K.1.f	
1	11	Tue, 10/19/21	M2L1	All module texts	Ask questions about Three Little Pigs with a variety of question words. Describe the importance of planning sentences and practice a planning strategy to tell who did what.	Use words from the Question Cube to ask questions about the text. Think-Pair-Share to tell why authors plan sentences.	RL K.1, K.5 SL K.1.a, K.2 L.K.1.d, f	
2	11	Wed, 10/20/21	M2L2	Three Little Pigs, Adaptation Farm Animals	Ask questions and share observations about key details in Farm Animals. Examine the importance of speaking with a strong voice. Identify and act out real-life connections between verbs and their meanings.	Generate questions using the Question Cube. Think-Pair-Share about the effects of different tones of voice. Act out scratch, leap, and sneak and Think-Pair-Share real-life experiences of each.	RI K.1 W.K.6 SL K.6 L.K.1.b, K.5.c	
2	11	Thu, 10/21/21	M2L3	Farm Animals	Identify the main topic and key details from sections of Farm Animals. Experiment with speaking with a strong voice. Practice using a strategy to plan for writing.	Retell key details from Farm Animals. Practice reading fluently. Use Planning a Sentence chart to create new sentences verbally.	RI K.2, K.7 SL K.1.a, K.2, K.6 L.K.1.f	
2	11	Fri, 10/22/21	Flex Day					
2	12	Mon, 10/25/21	M2L4	Farm Animals	Identify how illustrations and words reveal factual information about real farm animals. Experiment with speaking with a strong voice. Act out and sort how animals move to gain a sense of strut, gallop, and waddle.	Respond to TDQs. Verbally rehearse sentences for the Focusing Question Task. Draw animal examples for each word.	RI K.1, K.7 W.K.6, K.8 SL K.6 L.K.1.f, b, K.5.a	
2	12	Tue, 10/26/21	M2L5	Farm Animals	Use the words and illustrations in Farm Animals to determine the text's essential meaning. Express understanding of facts about farm animals learned from the text Farm Animals. Describe the purpose of using an alphabet resource to write words.	Think-Pair-Share about the author's purpose. Begin Focusing Question Task 1. Think-Pair-Share to describe using an alphabet strip.	RI K.1, K.4, K.5 W.K.2, K.6, K.8 SL K.1.a, K.6 L.K.1.a, f, K.2.c, d	
2	12	Wed, 10/27/21	M2L6	Farm Animals	Express understanding of facts about real farm animals learned from the text Farm Animals. Use an alphabet resource to write words.	Complete Focusing Question Task 1. Use an alphabet strip to write one animal name.	RI K.1 W.K.2, K.6, K.8 SL K.6 L.K.1.a, f, K.2.c, d	
2	12	Thu, 10/28/21	M2L7	The Year at Maple Hill Farm "The Seasons Song" video	Ask questions about The Year at Maple Hill Farm. Represent learning through writing and drawing. Describe and sort types of weather to gain a sense of the seasons.	Use words from the Question Cube to ask questions about the text. Record observations about The Year at Maple Hill Farm in Response Journals. Draw a picture of each season.	RI K.1, K.5 W.K.8 SL K.1.a, K.2 L.K.2.c, d, K.5.a	
	12	Fri, 10/29/21	No School	School Based PD Day - No Students				
2	13	Mon, 11/1/21	M2L8	The Year at Maple Hill Farm "The Seasons Song" video	Identify key details from sections of The Year at Maple Hill Farm. Examine the importance of adding prepositional phrases to sentences. Use an alphabet strip to add sounds to writing.	Retell key details of a given main topic from The Year at Maple Hill Farm. Think-Pair-Share about the importance of expanding sentences. Use an alphabet strip to write words.	RI K.1, K.2, K.4, K.7 SL K.1.a L.K.1.e, f, K.2.c, d	
2	13	Tue, 11/2/21	M2L9	The Year at Maple Hill Farm The Cornell Farm "The Seasons Song" video	Identify key details from sections of The Year at Maple Hill Farm. Identify words that can be used to describe the clothing worn each season.	Retell key details of a given main topic from The Year at Maple Hill Farm. Mix and Mingle to share descriptive words and identify season for clothing examples.	RI K.1, K.2, K.4, K.7 RL K.3 SL K.6 L.K.5.c	
2	13	Wed, 11/3/21	M2L10	"The Seasons Song" video The Year at Maple Hill Farm, Alice and Martin Provensen The Cornell Farm, Edward Hicks	Use illustrations and words in The Year at Maple Hill Farm to collect evidence for the Focusing Question Task. Produce and expand a sentence about life on Maple Hill Farm.	Add text evidence to the Evidence Organizer. Verbally expand a sentence using a prepositional phrase about the seasons.	RI K.1, RI K.2, RI K.7 W.K.2 SL K.1, SL K.6 L.K.1.e, L.K.1.f, L.K.2.c, L.K.2.d	
2	13	Thu, 11/4/21	M2L11	The Year at Maple Hill Farm, Alice and Martin Provensen The Cornell Farm, Edward Hicks	Use the words and illustrations in The Year at Maple Hill Farm to determine the text's essential meaning. Express understanding of how authors create settings in a story	Respond to Text-Dependent Questions Begin Focusing Question Task 2	RI K.1, RI K.2, RI K.7, RI K.3 W.K.2, W.K.8 SL K.1.a L.K.1.a, L.K.1.e, L.K.1.f, L.K.2.b, L.K.2.c, L.K.2.d, L.K.5.a, L.K.5.c, L.K.5.b	
2	13	Fri, 11/5/21	Flex Day

(W.1.2, W.1.7, W.1.8)	Orally rehearse informative paragraph for the End-of-Module Task.	Reading: RI.1.1 Writing: W.1.2, W.1.7, W.1.8, W.4*, W.10* Speaking and Listening: SL.1.1.a, SL.1.5 Language: L.1.1.j, L.1.2.b, L.1.6
3	21	Wed, 1/19/22	M2L34	All Module Texts	Write an informative paragraph about an animal's unique features and how the animal uses them. (W.1.2, W.1.7, W.1.8, L.1.1.h, L.1.1.i, L.1.1.j, L.1.2.b, SL.1.5)	Write an informative paragraph for the End-of-Module Task that includes a topic statement, details, and a conclusion.	Reading: RI.1.1 Writing: W.1.2, W.1.7, W.1.8 Speaking and Listening: SL.1.1.a, SL.1.5 Language: L.1.1.j, L.1.2.b, L.1.1.i, L.1.1.h
3	21	Thu, 1/20/22	M2L35	All Module Texts	Add a drawing to a written description of an animal's unique features to clarify ideas. (SL.1.5)	Add details to a drawing to clarify ideas in an informative paragraph about an animal's unique features.	Reading: RI.1.1 Writing: W.1.2, W.1.7, W.1.8 Speaking and Listening: SL.1.5 Language: L.1.1.j, L.1.2.b, L.1.1.i, L.1.1.j
3	21	Fri, 1/21/22	M2L36	All Module Texts	Speak in complete sentences during a Socratic Seminar focusing on what has been discovered about animals' unique features. (SL.1.1.a, SL.1.1.b, SL.1.6)	Speak in complete sentences as recorded on the Socratic Seminar Checklist.	Reading: RI.1.1 Writing: W.1.2 Speaking and Listening: SL.1.1.a, SL.1.1.b, SL.1.6
3	22	Mon, 1/24/22	M3L1	The Wind," James Reeves All Module Texts	Distinguish between module texts that provide information and those that tell stories. (RL.1.5)	In small groups, predict whether module texts will provide information or tell a story.	Reading: RI.1.1, RL.1.5, RF.1.4 Speaking and Listening: SL.1.1.a, SL.1.6 Language: L.1.5.d
3	22	Tue, 1/25/22	M3L2	Feel the Wind, Arthur Dorros	Generate and answer questions about Feel the Wind using key details from the text. (RI.1.1)	Write questions on sticky notes.	Reading: RL.1.1, RI.1.1, RI.1.4 Speaking and Listening: SL.1.1.c Language: L.1.5.c
3	22	Wed, 1/26/22	M3L3	Feel the Wind, Arthur Dorros	Identify the main topic and retell key details of sections of Feel the Wind. (RI.1.2)	In pairs, orally identify the key details and main topic of sections of the text using the Buttons and Boxes routine.	Reading: RI.1.1, RI.1.2, RI.1.9, RL.1.1 Writing: W.1.7, W.1.8 Speaking and Listening: SL.1.1 Language: L.1.5.c

3	22	Thu, 1/27/22	M3L4	Feel the Wind, Arthur Dorros	Identify the main topic and retell key details of sections of Feel the Wind. (RI.1.2)	In pairs, orally identify the key details and main topic of sections of the text.	Reading: RI.1.1, RI.1.2, RI.1.9, RF.1.4 Writing: W.1.7, W.1.8 Speaking and Listening: SL.1.1, SL.1.2 Language: L.1.1.c
	22	Fri, 1/28/22	No School	School Based PD Day (No Students)			
3	23	Mon, 1/31/22	Flex Day				
	23	Tue, 2/1/22	No School	Lunar New Year			
3	23	Wed, 2/2/22	M3L5	Feel the Wind, Arthur Dorros	Distinguish between information provided by illustrations and information provided by the words in Feel the Wind. (RI.1.6)	Orally explain the difference between information provided by the words and illustrations in response to TDQs 1–5.	Reading: RL.1.1, RI.1.4, RI.1.6, RI.1.7, RI.1.9 Writing: W.1.7, W.1.8 Speaking and Listening: SL.1.1.a, SL.1.2 Language: L.1.4.a, L.1.1.c
3	23	Thu, 2/3/22	M3L6	Feel the Wind, Arthur Dorros	Support the essential meaning of Feel the Wind with text evidence. (RI.1.2)	Indicate text evidence that supports the essential meaning by standing when it is read aloud.	Reading: RI.1.1, RI.1.2, RI.1.9, RF.1.4 Writing: W.1.2, W.1.7, W.1.8 Speaking and Listening: SL.1.1.a, SL.1.2 Language: L.1.1.c
3	23	Fri, 2/4/22	M3L7	Feel the Wind, Arthur Dorros	Write an informative paragraph about hurricane winds using information from multiple sources. (W.1.2, W.1.7, W.1.8, L.1.1.c)	Complete Part 2 of Focusing Question Task 1.	Reading: RI.1.3, RL.1.5, RF.1.4 Writing: W.1.2, W.1.7, W.1.8 Speaking and Listening: SL.1.1.c Language: L.1.1.c, L.1.1.c
	24	Mon, 2/7/22		TK-8 Winter RLD			
3	24	Tue, 2/8/22	M3L8	Feelings, Aiki	Generate and answer questions about Feelings using key details from the text, including questions to clear up confusion. (RI.1.1, SL.1.1.c)	Write questions on sticky notes.	Reading: RI.1.1, RI.1.4, RI.1.6 Speaking and Listening: SL.1.1.c, SL.1.2 Language: L.1.1.f
3	24	Wed, 2/9/22	M3L9	Feel the Wind, Arthur Dorros Feelings, Aiki	Identify the reasons given to support the author's points in sections of Feelings. (RI.1.8)	Jigsaw assigned vignettes in small groups, to identify the reasons that support the author's point.	Reading: RI.1.1, RI.1.6, RI.1.8 Writing: W.1.3 Speaking and Listening: SL.1.1, SL.1.2 Language: L.1.5.c
3	24	Thu, 2/10/22	M3L10	Feelings, Aiki	Distinguish between information provided by the illustrations and information provided by the words in Feelings. (RI.1.6)	Orally explain the difference between information provided by the text and illustrations in response to TDQs 4–6.	Reading: RI.1.1, RI.1.5, RI.1.6 Writing: W.1.3 Speaking and Listening: SL.1.1, SL.1.2 Language: L.1.1.f
3	24	Fri, 2/11/22	M3L11	Feelings, Aiki	Determine the essential meaning of Feelings and support it with text evidence. (RI.1.2)	Think-Pair-Share to respond to TDQ 4 by highlighting details that support the essential meaning.	Reading: RI.1.2, RF.1.4 Writing: W.1.3 Speaking and Listening: SL.1.1, SL.1.2 Language: L.1.1.f
3	25	Mon, 2/14/22	M3L12	Feelings, Aiki	Write a story using the illustrations in the vignette "Lost and Found" from Feelings. (W.1.3)	Write a story about an illustration from the text to complete Focusing Question Task 2.	Reading: RL.1.5, RF.1.4 Writing: W.1.3 Speaking and Listening: SL.1.1, SL.1.2 Language: L.1.5.d
3	25	Tue, 2/15/22	M3L13	Gilberto and the Wind, Marie Hall Ets	Generate and answer questions about Gilberto and the Wind using key details from the text. (RL.1.1)	Write questions on sticky notes.	Reading: RL.1.1, RL.1.5 Speaking and Listening: SL.1.3 Language: L.1.4.a, L.1.5.c
3	25	Wed, 2/16/22	M3L14	Gilberto and the Wind, Marie Hall Ets	Retell Gilberto and the Wind using key details from the text. (RL.1.2)	Orally retell events of the story.	Reading: RL.1.2, RL.1.3 Writing: W.1.3 Speaking and Listening: SL.1.1.a, SL.1.2 Language: L.1.4.a
3	25	Thu, 2/17/22	M3L15	Gilberto and the Wind, Marie Hall Ets	Identify words and phrases in Gilberto and the Wind that suggest feelings and appeal to the senses. (RL.1.4)	Identify sensory words and phrases by using a Nonverbal Signal as the text is read aloud.	Reading: RL.1.1, RL.1.4, RF.1.4 Writing: W.1.3 Speaking and Listening: SL.1.1, SL.1.2 Language: L.1.1.e
3	25	Fri, 2/18/22	M3L16	Gilberto and the Wind, Marie Hall Ets	Determine the central message of Gilberto and the Wind based on text evidence. (RL.1.2) Write a resolution to a problem in a story about the Wind and Gilberto. (W.1.3)	Think-Pair-Share to determine the central message based on text evidence. Individuals add a resolution to a story.	Reading: RL.1.1, RL.1.2, RL.1.3, RF.1.4 Writing: W.1.3 Speaking and Listening: SL.1.1, SL.1.2 Language: L.1.5.d
		Mon, 2/21/22	No School	February Break			
		Tue, 2/22/22	No School	February Break			
		Wed, 2/23/22	No School	February Break

1	4	Fri, 9/3/21	M1L5	<i>How Do You Know It's Fall?</i>	Identify key details and main topic of a section of text from <i>How Do You Know It's Fall?</i> with support. Draft a Topic statement with support. Create a word web for academic and content vocabulary word migrate, including how migration is a change in animal behavior caused by the coming of fall.	Answer the Framing Question. Draft 2 Topic statements. <i>Students create individual word webs in Vocabulary Journals.</i>	RI 2.1.a, 2.2, 2.4 W 2.2 SL 2.1.a, 2.6 L 2.4.e, 2.5.a	
	5	Mon, 9/6/21	No School	Labor Day				
1	5	Tue, 9/7/21	M1L6	<i>A Color of His Own</i>	Recount what happens in <i>A Color of His Own</i> . Form complete sentences with multiple subjects.	Orally recount the story using Story Stones. After practicing several examples, assign students to write two sentences with multiple subjects in their Knowledge Journals about the text or about fall, underlining the subjects.	RL 2.1, 2.2 W 2.2 SL 2.1, 2.6 L 2.1.f	
1	5	Wed, 9/8/21	M1L7	<i>A Color of His Own</i>	Compare the chameleon's attempts to solve the problem in the beginning and at the end of <i>A Color of His Own</i> . Choose evidence that provides support of an explanation of the ways the chameleon changes. Construct simple sentences with one or more subjects and multiple verbs based on the characters in <i>A Color of His Own</i> .	Stop-and-Jot about differences between the two attempts to solve his problem. Record evidence on Assessment 17. <i>Students compose three to five simple sentences about the text or about fall, using more than one verb.</i>	RL 2.1, 2.3, 2.5 W 2.2, 2.8, 2.10 SL 2.1, 2.2, 2.6 L 2.1.f	
1	5	Thu, 9/9/21	M1L8	<i>How Do You Know It's Fall?</i>	Record evidence and respond to the Focusing Question Task with support. Identify and agree upon rules for a successful Socratic Seminar. Continue to build understanding of sentence elements by identifying the verbs that correspond with the subjects of sentences in Deep Dive 7, from <i>How Do You Know It's Fall?</i>	Answer the Framing Question. Establish expectations for a Socratic Seminar <i>Students independently identify the verbs corresponding with the subjects in sentences from the text, Handout 7B.</i>	RI 2.2 W 2.2, 2.8 SL 2.1.a, b, c, 2.6 L 2.1.f	
1	5	Fri, 9/10/21	M1L9	<i>How Do You Know It's Fall?</i>	Synthesize learning about change in fall and informational texts. Prepare for and contribute to the Socratic Seminar. Combine simple sentences into compound sentences about fall using conjunctions.	Answer the Framing Question. Prepare for and contribute to the Socratic Seminar. <i>Students write one or more compound sentences about fall and post on a Graffiti Wall.</i>	RI 2.1, 2.2 SL 2.1.a, b, c, 2.6 W 2.8, 2.10 L 2.1.f	
1	6	Mon, 9/13/21	M1L10	<i>The Little Yellow Leaf</i> <i>How Do You Know It's Fall?</i>	Compare the whole message and partial messages in conversations. Use information from illustrations and text to ask and answer questions about <i>The Little Yellow Leaf</i> . Revise sentence fragments from classroom anchor charts into complete sentences.	Generate questions on Notice/Wonder charts. With a partner, students decide whether entries from the main lesson anchor chart are complete sentences or fragments, and each student enters two revised complete sentences in his or her Knowledge Journal.	RL 2.1, 2.7 W 2.10 SL 2.2, 2.1.a L 2.4.a, 2.1.f	
1	6	Tue, 9/14/21	M1L11	<i>The Little Yellow Leaf</i>	Recount what happens in <i>The Little Yellow Leaf</i> . Explain why evidence is important in informative writing. Create moving tableau for verbs that demonstrate real-life connections and how word choice affects the text.	Orally recount the story using Story Stones and sentence frames. Stop-and-Jot about why evidence is important in informative writing. Direct students work with a partner to create entries in their Vocabulary Journals for the two verbs from their group.	RL 2.1, 2.3, 2.7 RI 2.2 W 2.2 SL 2.1, 2.2, 2.4, 2.6 L 2.5.b	
1	6	Wed, 9/15/21	M1L12	<i>The Little Yellow Leaf</i>	Explain what happens in the beginning, middle, and end of <i>The Little Yellow Leaf</i> . Identify what information is provided in the beginning and end of a story and the purpose of each. Analyze how adjectives help describe setting and action in <i>The Little Yellow Leaf</i>	Students orally complete Sentence Frames about the story's beginning, middle, and ending. Students write about how problem and resolution correspond to the beginning and end of narrative text. <i>Students choose two of the adjectives from the lesson and make an entry in Vocabulary Journals explaining how the adjective helps readers visualize action and meaning in the text.</i>	RL 2.1, 2.2, 2.3, 2.5, 2.7 RF 2.4 W 2.10 SL 2.1.a, 2.6 L 2.4.c, d, 2.1.e, 2.5.b	

1	6	Thu, 9/16/21	M1L13	<i>The Little Yellow Leaf</i>	Identify the central message of <i>The Little Yellow Leaf</i> . Select and use evidence in an informative paragraph. Describe nature during fall using adjectives from the text.	Explain what lesson the Little Yellow Leaf learns in <i>The Little Yellow Leaf</i> . Rehearse and write informative paragraph about how the Little Yellow Leaf changes, including temporal words, evidence, and Topic Statement. Students post at least two word pairs using adjectives on Graffiti Wall and enter in Vocabulary Journals.	RL 2.2 W 2.2, 2.10 SL 2.1, 2.6 L 2.1.e, f	
	6	Fri, 9/17/21	No School	School Based PD Day - No Students				
1	7	Mon, 9/20/21	M1L14	<i>The Little Yellow Leaf</i>	Revise and reflect on informative writing about change. Articulate new knowledge gained from reading <i>The Little Yellow Leaf</i> . Revise written work composed during the main lesson, using adjectives to add detail.	Revise Focusing Question Task according to Informative Writing Checklist. Respond to the Content Framing Question in Response Journal. Students use adjectives to add detail to their writing from the main lesson.	RL 2.1, 2.2 W 2.2, 2.4, 2.5, 2.10 SL 2.1, 2.6 L 2.1.e	
1	7	Tue, 9/21/21	M1L15	<i>A Color of His Own</i>	Identify story elements and evidence of change in <i>A Color of His Own</i> . Classify questions about <i>A Color of His Own</i> that relate to prior knowledge. Make real-life connections to the word camouflage and use a dictionary to confirm its meaning.	Complete the New-Read Assessment. Select a question that relates to the Knowledge Journal and explain the relationship. Students enter keyword definitions in Vocabulary Journals.	RL 2.1, 2.2, 2.3, 2.4, 2.5 RI 2.7 W 2.2, 2.8, 2.10 SL 2.1, 2.2, 2.6 L 2.4.e, 2.5.a	
1	7	Wed, 9/22/21	M1L16	<i>A Color of His Own</i>	Recount what happens in <i>A Color of His Own</i> . Form complete sentences with multiple subjects.	Orally recount the story using Story Stones. After practicing several examples, assign students to write two sentences with multiple subjects in their Knowledge Journals about the text or about fall, underlining the subjects.	RL 2.1, 2.2 W 2.2 SL 2.1, 2.6 L 2.1.f	
1	7	Thu, 9/23/21	M1L17	<i>A Color of His Own</i>	Compare the chameleon's attempts to solve the problem in the beginning and at the end of <i>A Color of His Own</i> . Choose evidence that provides support of an explanation of the ways the chameleon changes. Construct simple sentences with one or more subjects and multiple verbs based on the characters in <i>A Color of His Own</i> .	Stop-and-Jot about differences between the two attempts to solve his problem. Record evidence on Assessment 17. Students compose three to five simple sentences about the text or about fall, using more than one verb.	RL 2.1, 2.3, 2.5 W 2.2, 2.8, 2.10 SL 2.1, 2.2, 2.6 L 2.1.f	
1	7	Fri, 9/24/21	Flex Day					
1	8	Mon, 9/27/21	M1L18	<i>A Color of His Own</i>	Write an informative paragraph about how the chameleon changes, including a topic statement and evidence that supports the topic. Determine the central message of <i>A Color of His Own</i> .	Draft the FQT. Record the central message in the Response Journal.	RL 2.2, 2.3 W 2.2, 2.10 SL 2.1, 2.6 L 2.1.e, f	
1	8	Tue, 9/28/21	M1L19	<i>A Color of His Own</i> <i>The Little Yellow Leaf</i>	Describe knowledge and skills gained from reading <i>A Color of His Own</i> . Link students' own comments to the remarks of others in a discussion comparing the Little Yellow Leaf and the chameleon. Vary sentence structures by combining sentences using conjunctions.	Students Jot-Pair-Share. Participate in a Socratic Seminar. Students write two compound sentences in their Knowledge Journals or Response Journals.	RL 2.1, 2.3 W 2.5, 2.10 SL 2.1, 2.6 L 2.1.f	
1	8	Wed, 9/29/21	M1L20	<i>Why Do Leaves Change Color?</i>	Record observations and questions about <i>Why Do Leaves Change Color?</i> Identify the connection between leaves and trees. Connect academic vocabulary words separate, shape with content knowledge from additional texts in the module.	Answer the Framing Question. Respond to New-Read Assessment questions. Enter keyword definitions in Vocabulary Journals.	RI 2.1, 2.3a SL 2.1.c, 2.2, 2.6 L 2.5.a	
1	8	Thu, 9/30/21	M1L21	<i>Why Do Leaves Change Color?</i>	Identify the main topics and details of <i>Why Do Leaves Change Color?</i> Examine and identify characteristics of conclusions. Apply Outside-in strategy and morphemes to determine meaning of uncurled and disappear in <i>Why Do Leaves Change Color?</i>	Answer the Framing Question. List characteristics of conclusions. Students enter keyword definitions in Vocabulary Journals.	RI 2.1, 2.2 W 2.2 SL 2.1.a, c, 2.2, 2.6 L 2.4.b, c	
1	8	Fri, 10/1/21	M1L22	<i>Why Do Leaves Change Color?</i>	Use key terms to identify change process in leaves. With support, draft a conclusion. Analyze multiple-choice questions to choose the correct definition for survive and usually.	Answer the Content Framing Question. Select and submit your best conclusion sentence. Students enter key word definitions in Vocabulary Journals.	RI 2.1, 2.2, 2.4 W 2.2 SL 2.1.b, c, 2.6 L 2.4.a, e	
1	9	Mon, 10/4/21	M1L23	<i>Why Do Leaves Change Color?</i>	Determine connections between key terms and topics. Draft and rehearse an informative paragraph. Combine simple sentences using conjunctions to explain key concepts from <i>Why Do Leaves Change Color?</i>	Answer the Content Framing Question. Complete an evidence chart and rehearsal of a paragraph Students work with a partner, combining two sets of simple sentences into compound sentences and recording in Vocabulary Journals.	RI 2.3, 2.3 W 2.2, 2.8, 2.4 SL 2.1.b, c, 2.6 L 2.5, 2.1.f	
1	9	Tue, 10/5/21	M1L24	<i>Why Do Leaves Change Color?</i>	Identify the connections between texts and module learning Publish an informative paragraph about the impact of weather on trees in fall. Self-assess informative paragraphs drafted in response to the Focusing Question Task for compound sentences, module vocabulary, and complete sentences.	Answer the Content Framing Question. Write and share informative paragraph. Students assess their own sentences for subjects and verbs and opportunities to include a compound sentence, using Handout 24A: Informative/Explanatory Writing Checklist.	RI 2.10, 2.3 W 2.2, 2.4, 2.10 SL 2.1, 2.6 L 2.1.f	
1	9	Wed, 10/6/21	M1L25	<i>Sky Tree</i> <i>"Weather"</i> <i>Paris Street, Rainy Day</i> <i>Hunters in the Snow</i> <i>Bathers at Asnières</i> <i>Autumn Landscape</i>	Describe the impact of color in <i>Sky Tree</i> paintings.	Complete Handout 25B.	RL 2.1, 2.2, 2.7 SL 2.1, 2.2, 2.6	
1	9	Thu, 10/7/21	M1L26	<i>Sky Tree</i>	Generate and respond to student-generated questions about <i>Sky Tree</i> , including questions about the meaning of unknown words. Revise a sample paragraph about trees by inserting missing sentences. Select the best definition of multiple-meaning words flutter and huddle and consider how a variety of verbs depict actions in <i>Sky Tree</i> .	Record inferred meanings of unknown words in Vocabulary Journals. Indicate sentence order on Handout 26A Students enter keyword definitions in Vocabulary Journals.	RL 2.1, 2.4 W 2.2, 2.5 SL 2.1, 2.6 L 2.4.a, b, c

	10	Mon, 10/11/21	No School	Indigenous People's Day				
1	10	Tue, 10/12/21	M1L27	<i>Sky Tree</i>	Identify and sequence key details in <i>Sky Tree</i> . Identify and revise missing elements of a sample informative paragraph about the river in <i>Sky Tree</i> . Analyze how the author develops imagery using academic vocabulary opened and drifted.	Complete a timeline of key details on Handout 27A: <i>Sky Tree</i> Timeline. Complete checklist and add sentences on Handout 27B: Revision Paragraph and Checklist. Collaboratively develop keyword definitions and enter them on the Word Wall while students record entries in Vocabulary Journals.	RL 2.2, 2.4, 2.5 W 2.2, 2.5, 2.10 SL 2.1, 2.6 L 2.1.e, f, 2.5	

1	10	Wed, 10/13/21	M1L28	Sky Tree	Describe the structure of Sky Tree by interpreting specific references to seasons. Analyze how Locker uses varied sentence structure to give his text rhythm.	Discuss and label pages on which a season begins. Students use sticky notes to choose and mark a page in text where the author makes an interesting use of varied sentence lengths, and note reason for the choice.	RL 2.2, 2.4, 2.5, 2.7 SL 2.1, 2.6 L 2.4.a, 2.1.f	
1	10	Thu, 10/14/21	M1L29	Sky Tree	Determine the central message of Sky Tree. Plan and draft an informative paragraph about how Sky Tree shows the cycle of seasons. Demonstrate understanding of module vocabulary by analyzing correct or incorrect word use in context.	Quick Write about TDQ 3. Respond to the Focusing Question Task	RL 2.2, 2.5 W 2.2, 2.5, 2.8 W 2.4, 2.10 SL 2.1.b, c, 2.6 L 2.1.e, L 2.1.f, 2.6	
1	10	Fri, 10/15/21	M1L30	All module texts	Synthesize evidence from two texts in a verbal paragraph about how changes in fall impact people. Demonstrate understanding of module vocabulary by analyzing correct or incorrect use in context.	Rehearse an informative paragraph. Assessment 30: Vocabulary Assessment	RI 2.1, 2.2 W 2.7, 2.8 SL 2.1, 2.2, 2.6 L 2.6	
1	11	Mon, 10/18/21	M1L31	All module texts	Synthesize evidence from two texts in an informative paragraph about how changes in fall impact plants or animals. Revise draft for using a checklist.	Draft EOM Task.	RI 2.2 RL 2.2 W 2.2, 2.4, 2.8 SL 2.1.a, c, 2.6 L 2.1.f	
1	11	Tue, 10/19/21	M1L32	All module texts	Revise and publish an informative paragraph about how changes in fall impact plants or animals. Describe knowledge and skills gained from studying module texts. Vocabulary Assessment, Part 2.	Complete EOM paragraph. Write Three-Two-One Reflection.	RI 2.2 RL 2.2 W 2.2, 2.5, 2.8 SL 2.1, 2.2, 2.6	
2	11	Wed, 10/20/21	M2L1	<i>The Buffalo Are Back "Buffalo Dusk" "Buffalo Dusk" video</i>	Ask and answer questions about The Buffalo Are Back and "Buffalo Dusk." Use a known root word (settle) as a clue to the meaning of unknown words (settling, settler, settled) with the same root word.	Contribute questions to a Notice and Wonder Chart for The Buffalo Are Back. Complete close activity using settling, settler, and settled.	RI 2.1 SL 2.1 L 2.4.c	
2	11	Thu, 10/21/21	M2L2	<i>The Buffalo Are Back "Buffalo Dusk" "Buffalo Dusk" video</i>	Understand and retell main topics and key events described in The Buffalo Are Back. Understand and use topic-specific words and phrases in informative writing. Distinguish shades of meaning among the related verbs wobbled, roamed, galloped, charged, and rushed.	Contribute to a class timeline by illustrating the sequence of events in The Buffalo Are Back. Identify and replace topic-specific words and phrases. Organize words on a word line, according to the speed the words describe.	RI 2.1, 2.2, 2.4, 2.7 W 2.2, 2.10 SL 2.4 L 2.4.a, 2.5.a, b	
		Fri, 10/22/21	Flex Day					
2	12	Mon, 10/25/21	M2L3	<i>The Buffalo Are Back "Buffalo Dusk"</i>	Describe relationships between people, plants, and animals in The Buffalo Are Back. Identify words that are not topic-specific in a sentence and replace with topic-specific words. Categorize academic words from The Buffalo Are Back into two categories to build an understanding of the word tough.	Record one connection from The Buffalo Are Back in Response Journals. Complete Handout 3B. Complete Handout 3C.	RI 2.3 W 2.2, 2.10 SL 2.2 L 2.4.a, 2.5.a	
2	12	Tue, 10/26/21	M2L4	<i>The Buffalo Are Back "Buffalo Dusk"</i>	Use the words and illustrations in The Buffalo Are Back to determine the text's essential meaning. Express understanding of how the American Indians and early Americans impacted the prairie in the early American West. Categorize topic-specific vocabulary to make real-life connections between words.	Write a sentence detailing the essential meaning in Response Journals. Write an informative paragraph to begin Focusing Question Task 1. Identify and describe the process of categorizing words.	RI 2.2, 2.6, 2.7 RI 2.3 W 2.2, 2.8, 2.10 SL 2.1 L 2.4, 2.5.a	
2	12	Wed, 10/27/21	M2L5	<i>The Buffalo Are Back "Buffalo Dusk"</i>	Understand and apply correct structure to an informative paragraph with a topic statement, evidence, and concluding statement and include text-specific words and phrases that enhance meaning. Identify real-life connections between the concept of impact and topic-specific vocabulary.	Complete informative paragraph for Focusing Question Task 1. Students use impacted correctly and make connections between impact and a real-life example.	RF 2.4 RI 2.3 W 2.2, 2.5, 2.8 L 2.5.a	
2	12	Thu, 10/28/21	M2L6	<i>Plains Indians</i>	Use a Wonder Wheel to ask and answer questions about Plains Indians. With support, identify and explain the purpose of frequently occurring irregular plural nouns.	Write questions on sticky notes to contribute to a Notice and Wonder Chart about Plains Indians. In pairs, students sort and label nouns as irregular or regular.	RI 2.1 W 3.10 SL 2.2, 2.6 L 2.1.b	
	12	Fri, 10/29/21	No School	School Based PD Day - No Students				
2	13	Mon, 11/1/21	M2L7	Plains Indians	Recount the main topic and key details from pages 10–12 of Plains Indians. Analyze how points support a topic statement about nomadic and non-nomadic Plains Indians. Form and use frequently occurring irregular plural nouns.	Think-Pair-Share about text-dependent question 2. Jot-Pair-Share in their Response Journals. Complete Handout 7B.	RI 2.2, 2.5 W 2.2, 2.5, 2.10 SL 2.2, 2.6 L 2.1.b	
2	13	Tue, 11/2/21	M2L8	American History to 1920—Children's Video Project Plains Indians	Identify main topics and details and explain how they are used to organize understanding of informative text. Demonstrate how to choose points when writing informative text. Form and use frequently occurring irregular plural nouns.	Recount a section's main topic and details using Buttons and Bags. Sort points to support a topic statement. Students complete Handout 8B and write captions for photos on pages 14, 19, 21, and 27.	RI 2.2, 2.4 RF 2.4 W 2.2, 2.10 SL 2.6 L 2.4.a, e, 2.1.b	
2	13	Wed, 11/3/21	M2L9	Plains Indians	Record evidence and choose strong points for the Focusing Question Task. Use context clues and text features to determine the meaning of the academic and content vocabulary word nomadic.	Draft Focusing Question Task 2. Underline words/phrases that give more information about the meaning of nomadic.	RI 2.3 RF 2.4 W 2.2, 2.8 SL 2.6 L 2.4.a, e	
2	13	Thu, 11/4/21	M2L10	Plains Indians	Explain what life was like for Plains Indians while practicing how to vary inflection in discussions. Express understanding of content knowledge and new skills, citing evidence from Plains Indians. Pull from a variety of strategies (context clues, root words, and glossary) to build an understanding of the academic and content word reservation.	Participate in a Socratic Seminar. Contribute to the class Knowledge Journal. Locate and add the definitions of reservation and reserve to their personal dictionaries.	RI 2.1, 2.2 RF 2.4 W 2.8, 2.10 SL 2.1, 2.4, 2.6 L 2.4.a, c, e

		Fri, 9/17/21	No School	School-Based PD Day				
1	6	Mon, 9/20/21	M1L13	<i>The Fantastic Undersea Life of Jacques Cousteau</i> <i>The Gulf Stream</i>	Ask questions about key details in <i>The Fantastic Undersea Life of Jacques Cousteau</i> . Identify how an author groups related information together and why it is important. <i>Determine the meaning of new words formed from the morphemes of biography.</i>	RI 3.1 W 3.2 SL 3.1.b, SL 3.2 L 3.4.b	Students record two questions based on their reading of <i>The Fantastic Undersea Life of Jacques Cousteau</i> and explain how the questions relate to the text. Arrange sentences from <i>The Fantastic Undersea Life of Jacques Cousteau</i> so that related information is grouped together. <i>Students explain how the morphemes bio- and graph help determine the meaning of the word biography.</i>	
1	6	Tue, 9/21/21	M1L14	<i>The Fantastic Undersea Life of Jacques Cousteau</i>	Explain how the sequence of the text and illustrations explain why and how Jacques Cousteau explored the sea. Group related information together in an explanatory paragraph. <i>With support, produce compound sentences.</i>	RI 3.1, RI 3.2, RI 3.4, RI 3.5 W 3.2.a SL 3.1.b L 3.4.a, L 3.1.i	Students complete a Quick Write responding to a prompt Write an original compound sentence using two vocabulary words <i>Students add the suffix -ed to two verbs and use the verbs correctly in the present and simple past tenses.</i>	
1	6	Wed, 9/22/21	M1L15	<i>The Fantastic Undersea Life of Jacques Cousteau</i> Video: "Cousteau's Silent World: Shipwreck Excerpt"	Explain how quotations add meaning to the text of <i>The Fantastic Undersea Life of Jacques Cousteau</i> . Explain how an author uses illustrations to aid in comprehension. <i>Distinguish the literal and nonliteral meaning of words and phrases in The Fantastic Undersea Life of Jacques Cousteau.</i>	RI 3.1, RI 3.5, RI 3.7, RI 3.9 W 3.2.a SL 3.1.b L 3.5, L 3.5.a	Select a quotation from the bubble text features and explain how it supports the author's text on the same page. Identify the topic of a group of related ideas from <i>The Fantastic Undersea Life of Jacques Cousteau</i> and write two or three sentences explaining how the illustration aids in comprehension. <i>Choose one example of nonliteral language and explain how the example helps them understand Jacques Cousteau better.</i>	
1	6	Thu, 9/23/21	M1L16	<i>The Fantastic Undersea Life of Jacques Cousteau</i>	Identify the main idea and essential meaning of <i>The Fantastic Undersea Life of Jacques Cousteau</i> . Group related information together in an explanatory paragraph and include an illustration to aid in comprehension. <i>With support, explain the purpose of the simple past tense and use the simple past tense correctly.</i>	RI 3.1, RI 3.2, RI 3.4, RI 3.5, RI 3.7 W 3.2.a, W 3.8 SL 3.1.b L 3.4.a, L 3.1.e	In pairs, write a summary that identifies the important elements of the book and its essential meaning. Illustrate, label, and explain the purpose and use of one of the tools Jacques Cousteau uses. <i>Write an original sentence using the simple past tense of a verb and explain how the verb tense affects the meaning of the sentence.</i>	
1	6	Fri, 9/24/21	Flex					
1	7	Mon, 9/27/21	M1L17	<i>The Fantastic Undersea Life of Jacques Cousteau</i> <i>Ocean Sunlight: How Tiny Plants Feed the Seas</i>	Explain why and how scientists explore the sea, using information from <i>Ocean Sunlight: How Tiny Plants Feed the Seas</i> and <i>The Fantastic Undersea Life of Jacques Cousteau</i> . Plan a written response to an expository prompt. <i>With support, use conventional spelling for adding suffixes to base words.</i>	RI 3.1, RL 3.2 W 3.2.a, W 3.4, W 3.8 SL 3.1, SL 3.2, SL 3.4, SL 3.6 L 3.1.e, L 3.2.e	Students engage in a Socratic Seminar, following agreed-upon rules, offering elaboration and details as needed, and using complete sentences. Students use a checklist to self-assess their participation. Complete a Writing Planner in preparation for writing a multi-paragraph essay explaining why and how scientists explore the sea. <i>Students choose two verbs and correctly use the simple past tense of each verb in an original sentence.</i>	
1	7	Tue, 9/28/21	M1L18	<i>The Fantastic Undersea Life of Jacques Cousteau</i> <i>Ocean Sunlight: How Tiny Plants Feed the Seas</i>	Demonstrate understanding of the main ideas of <i>Ocean Sunlight: How Tiny Plants Feed the Seas</i> and <i>The Fantastic Undersea Life of Jacques Cousteau</i> by writing an explanatory paragraph using topic statements, related information that is grouped together, and an illustration to support comprehension. Identify connections between words used to describe Jacques Cousteau's response to the ocean and their use in real life.	RI 3.2 W 3.2.a, W 3.4, W 3.5, W 3.8 SL 3.1.b L 3.1, L 3.4, L 3.5.b	Revise writing using the Praise-Question-Suggestion strategy. <i>Students identify a vocabulary word and the clues that helped them identify the word.</i>	
1	7	Wed, 9/29/21	M1L19	<i>The Gulf Stream Shark Attack!</i>	Ask and answer questions about sharks based on a text. Use the text and photographs to answer questions about sharks and to develop new questions. <i>Clarify the precise meaning of habitat.</i>	RI 3.1, RI 3.4, RI 3.5 SL 3.1.b, SL 3.2 L 3.4.a, L 3.4.d	Record noticings and questions based on text and images in <i>Shark Attack!</i> on a Notice and Wonder Chart in student Response Journals. Identify a question that can be answered now and explain how the answer to the question was found. <i>Write an original sentence using the word habitat.</i>	
1	7	Thu, 9/30/21	M1L20	<i>Shark Attack!</i>	Identify the main idea and key details in a selected excerpt from "Shark Attacks—The Facts." Identify the facts, definitions, and details in the exemplar paragraph. <i>Identify real-life connections between words about ocean food chains and their use</i>	RI 3.2, RI 3.4, RI 3.5, RI 3.7 W 3.2.b SL 3.1, SL 3.2 L 3.4.d, L 3.4.a	In pairs, complete a Boxes and Bullets organizer to identify the main idea and key details in an excerpt from the chapter. Respond to the question, "Why is it important to develop a topic with facts, definitions, and details?" using a Whip Around <i>Students illustrate a connection between at least two of the words and display in classroom as a review.</i>	
1	7	Fri, 10/1/21	M1L21	<i>Shark Attack!</i>	Use text features to locate information related to shark safety. Develop a topic with facts, definitions, and details. <i>See word relationships within a continuum to distinguish shades of meaning.</i>	RI 3.2, RI 3.4, RI 3.5, RI 3.7 W 3.2.b SL 3.1.b, SL 3.6 L 3.5.c	Use text features to answer questions related to shark safety. Collaboratively write an explanatory paragraph using facts, definitions, and details to explain a piece of equipment. <i>Write an original sentence using a word that expresses an emotion.</i>	

WIT AND WISDOM STANDARDS SCOPE + PACING GUIDE -

Module	Wk.	Date	Module/Lesson	Text	Lesson Objectives	Standard(s)	Check For Understanding	NOTES

1	8	Mon, 10/4/21	M1122	<i>Shark Attack!</i>	Use text features, including photographs, to locate and use information efficiently. Take brief notes and sort evidence into categories. Develop a topic with facts, definitions, and details. <i>Define and use the words predator and prey.</i>	RI 3.1, RI 3.4, RI 3.5, RI 3.7 W 3.2.a, b, d, W 3.8 SL 3.1.b L 3.4.a, L 3.4.b	Complete New-Read Assessment 1. Complete a graphic organizer to sort related evidence. Use Hand Paragraph Writing Planner to develop a topic with facts, definitions, and details in a paragraph about the title of the text <i>Shark Attack!</i> <i>Students work in pairs to complete one Frayer model for predator and another Frayer model for prey.</i>	
1	8	Tue, 10/5/21	M1123	<i>Shark Attack!</i>	Identify the main idea in a passage of <i>Shark Attack!</i> Using the main idea and details from the text, explain the dangers and benefits of studying sharks. <i>Identify real-life connections between words and their use.</i>	RI 3.1, RL 3.2, RI 3.4, RI 3.7 W 3.8 SL 3.1, SL 3.2, SL 3.4, SI 3.6 L 3.5.b		
1	8	Wed, 10/6/21	M1124	<i>Giant Squid: Searching for a Sea Monster</i>	Ask and answer questions about <i>Giant Squid</i> , referring explicitly to text. Identify how an author uses linking words and phrases to connect ideas in an exemplar explanatory paragraph. <i>Distinguish shades of meaning among related words that describe large to different degrees.</i>	RI 3.1 W 3.2.c SL 3.1.b, SL 3.2 L 3.4.a, L 3.5.c	Use a sticky note to record a question about a noticing or wondering in <i>Giant Squid</i> . Analyze how Mary Cerullo and Clyde Roper group related information together in <i>Giant Squid</i> . Students create a value line, arranging words in order from the strongest meaning to the weakest meaning.	
1	8	Thu, 10/7/21	M1125	<i>Giant Squid: Searching for a Sea Monster</i>	Use key details to identify the main idea of a chapter in <i>Giant Squid</i> . Use linking words and phrases to connect ideas in an explanatory paragraph. <i>With support, use conventional spelling for adding suffixes to base words.</i>	RI 3.2, RI 3.3, RI 3.4 W 3.2.c SL 3.1.b, SL 3.4 L 3.4.a, L 3.1.e, L 3.2.e	Use a graphic organizer to explain how key details support a main idea in a chapter of <i>Giant Squid</i> . Add linking words and phrases to a paragraph from <i>Giant Squid: Searching for a Sea Monster</i> . <i>Students exchange cards and use the rules on the anchor chart to form the simple past tense of the verb on the card they received.</i>	
1	8	Fri, 10/8/21	M1126	<i>Giant Squid: Searching for a Sea Monster</i> "Quest for the Giant Squid"	Identify the main idea and key details in a passage; identify and use text features to locate information; use context clues to determine the meaning of a word. Gather information from <i>Giant Squid: Searching for a Sea Monster</i> and sort evidence into provided categories. Explain how text features, including chapter titles, support meaning in <i>Giant Squid: Searching for a Sea Monster</i> . Notice how an author chooses words and phrases for effect in <i>Giant Squid</i>	RI 3.2, RI 3.5, RI 3.7, RI 3.9 W 3.8 SL 3.1.b L 3.4.a, L 3.3.a	Complete New Read Assessment 2. Students work in groups to gather information and explain how the author uses text features to organize information. Independently write a brief response explaining how text features support meaning. <i>Students use three of the words from the lesson to write at least two sentences expressing their own feelings about giant squid.</i>	
		Mon, 10/11/21	No School	Indigenous People's Day				
1	9	Tue, 10/12/21	M1127	<i>Giant Squid: Searching for a Sea Monster</i>	Ask and answer questions about the last chapter of <i>Giant Squid: Searching for a Sea Monster</i> . Determine the essential meaning of <i>Giant Squid: Searching for a Sea Monster</i> . <i>Capitalize appropriate words in titles.</i>	RI 3.1, RI 3.2, RI 3.3 W 3.8 SL 3.1, SL 3.2, SL 3.3, SL 3.6 L 3.4.a, L 3.2.a	Students generate original text-dependent questions that they would like to ask either Dr. Roper or Dr. Kubodera. Write a summary of <i>Giant Squid: Searching for a Sea Monster</i> that explains the essential meaning of the book. <i>Students write and review sentences with correctly capitalized titles.</i>	
1	9	Wed, 10/13/21	M1128	<i>Shark Attack!</i> <i>Giant Squid: Searching for a Sea Monster</i> Virtual Tour of the National Aquarium "White Ibis"	Gather information from <i>Giant Squid: Searching for a Sea Monster</i> and sort evidence into provided categories. Engage in a Socratic Seminar, following agreed-upon rules, offering elaboration and details as needed, and using complete sentences. <i>Explain the function of adjectives in general and in specific sentences.</i>	RI 3.1, RI 3.2, RI 3.5, RI 3.7 W 3.8 SL 3.1, SL 3.2, SL 3.3, SL 3.6 L 3.1.a, L 3.6	Students work in groups to complete an Evidence Organizer gathering information about the work of Clyde Roper. Students use a checklist to self-assess their participation and write a brief reflection. <i>Use adjectives in an original sentence describing squid</i>	
1	9	Thu, 10/14/21	M1129	<i>Shark Attack!</i> <i>Giant Squid: Searching for a Sea Monster</i> Virtual Tour of the National Aquarium "White Ibis"	Plan a written response to an expository prompt about why and how scientists explore either sharks or giant squid. <i>Identify real-life connections between the words observe and explore.</i>	RI 3.1, RI 3.2, RI 3.5, RI 3.7 W 3.2.a, b, c, W 3.8 SL 3.1.b L 3.6, L 3.5.c	In their Response Journals, students briefly explain how exploring or observing is important to the daily work of people in two professions from the module. <i>In their Response Journals, students briefly explain how exploring or observing is important to the daily work of people in two professions from the module.</i>	
1	9	Fri, 10/15/21	Flex					
1	10	Mon, 10/18/21	M1130	<i>Shark Attack!</i> <i>Giant Squid: Searching for a Sea Monster</i> "Excellence in Exhibition Label Writing Competition 2011"	Write an informative text for using topic statements, facts and details, and illustrations to provide information for a particular audience. Edit and revise writing based on feedback from a peer reviewer. <i>Produce original compound sentences using basic conjunctions.</i>	RI 3.2, RI 3.5, RI 3.7 W 3.2.a, b, c, W 3.4, W 3.5, W 3.8 SL 3.1.b L 3.6, L 3.1.i	Create a didactic wall panel for the National Aquarium, explaining why and how scientists study sharks or giant squid. Respond to feedback from a peer reviewer by incorporating suggestions or explaining decision to ignore suggestions. <i>Students revisit their response to Focusing Question Task 3 and identify or create a compound sentence or find two simple sentences to write as compound sentence.</i>	
1	10	Tue, 10/19/21	M1131	"The Sea Wind" <i>The Boating Party Under the Wave off Kanagawa</i> <i>The Gulf Stream Amos & Boris</i> <i>The Fantastic Undersea Life of Jacques Cousteau</i> <i>Shark Attack!</i> <i>Giant Squid: Searching for a Sea Monster</i>	Gather information from print and visual sources; take brief notes sources and sort evidence into provided categories. Plan an essay that uses text evidence to explain why people explore the sea. <i>Review module academic and content vocabulary.</i>	RL 3.2, RL 3.7 RI 3.2, RI 3.7 W 3.2.a, b, W 3.5, W 3.8 SL 3.1.b L 3.4	Create and complete a graphic organizer reviewing an assigned text. Complete a graphic organizer and draft two topic statements. <i>Students complete a Vocabulary Assessment Study Guide.</i>

2	17	Tue, 12/14/21	M2L20	<i>One Giant Leap</i>	Identify the stages of the Apollo 11 mission described in <i>One Giant Leap</i> . Clearly state an opinion and provide strong supporting reasons. <i>Identify and examine how to use subordinating conjunctions.</i>	RI 3.1, RI 3.3, RI 3.4 W 3.1.b, W 3.10 SL 3.1.d L 3.4, L 3.1.h	Students independently recount the events of the Apollo 11 mission described in <i>One Giant Leap</i> , using words pertaining to time and sequence. Collaboratively write a paragraph that clearly states an opinion and provides strong supporting reasons. <i>In their Response Journals, students explain why subordinating conjunctions are important to writers and provide one example of a subordinating conjunction.</i>	
2	17	Wed, 12/15/21	M2L21	<i>One Giant Leap</i>	Explain the literal and nonliteral meaning of Neil Armstrong's words. Clearly state an opinion and provide strong supporting reasons. <i>Use subordinating conjunctions to create complex sentences.</i>	RI 3.1, RI 3.2 W 3.1.b, W 3.10 SI 3.1.d L 3.4, L 3.1.h, L 3.1.i	Students briefly explain the meaning of Neil Armstrong's famous quote. Independently write a paragraph that clearly states an opinion and provides strong supporting reasons. <i>Select a subordinating conjunction to make a complex sentence.</i>	
2	17	Thu, 12/16/21	M2L22	<i>One Giant Leap</i>	Explain how repetition conveys the essential meaning of <i>One Giant Leap</i> . Revise an opinion paragraph. <i>Use a subordinating conjunction to create a complex sentence.</i>	RI 3.1, RI 3.2 W 3.1, W 3.5, W 3.10 SL 3.1.d L 3.4.a, L 3.1.h, L 3.1.i	Students write a brief response to a prompt. Revise an opinion paragraph in response to peer feedback, focusing on supporting reasons. <i>Write a complex sentence using a subordinating conjunction.</i>	
2	17	Fri, 12/17/21	M2L23	<i>Moonshot</i> <i>One Giant Leap</i> "Apollo 11: The Eagle Has Landed" "We Choose the Moon," from a speech by President John F. Kennedy	Students ask and answer questions, citing evidence from the module texts. Provide a conclusion statement for an opinion essay. <i>Use the Outside-In strategy to determine meanings of the words ascent and descent.</i>	RI 3.1 W 3.1.d, W 3.10 SL 3.5 L 3.4.a, L 3.4.d	Students review what they have learned while reading <i>Moonshot</i> and <i>One Giant Leap</i> and write a brief reflection in their Knowledge Journals. Independently write a conclusion paragraph for an opinion essay. <i>Write a sentence for each word and add an illustration to show that the words are antonyms.</i>

2	18	Mon, 1/3/22	No School	School-Based PD Day				
2	18	Tue, 1/4/22	M2L24	"We Choose the Moon," from a speech by President John F. Kennedy	Explain a point of view that is different from or similar to that of John F. Kennedy's, using evidence from the speech "We Choose the Moon." <i>Use coordinating and subordinating conjunctions to create compound and complex sentences.</i>	RI 3.1, RI 3.6 W 3.10 SL 3.1.d, SL 3.2, SL 3.4 L 3.1.h, i	Students participate in a Socratic Seminar to discuss why John F. Kennedy "chose the moon" and discuss if they would have done the same. <i>Use a coordinating or subordinating conjunction to write a compound or complex sentence.</i>	
2	18	Wed, 1/5/22	M2L25	<i>Moonshot</i> <i>One Giant Leap</i>	Plan a written response to an opinion prompt. <i>Determine how the prefix dis- changes the meaning of a root word.</i>	RI 3.3, RI 3.9 W 3.1, W 3.4, W 3.8 SL 3.1.b, SL 3.1.d, SL 3.4 L 3.4.a, L 3.4.c	Complete a Writing Planner in preparation for writing an opinion paragraph about being an astronaut on the Apollo 11 mission. <i>In their Response Journals, students write an original sentence using the word discomfort.</i>	
2	18	Thu, 1/6/22	M2L26	<i>Moonshot</i> <i>One Giant Leap</i>	Write and revise an opinion essay that includes a clearly stated opinion, supporting reasons, evidence, elaboration, and a concluding statement or section. Revise writing based on peer feedback. <i>Use coordinating and subordinating conjunctions to create compound and complex sentences.</i>	RI 3.1, RI 3.3, RI 3.9 W 3.1, W 3.4, W 3.5, W 3.8 SI 3.1.b, SL 3.1.d L 3.1.a, L 3.2.a, L 3.6, L 3.1.h, i	Write an opinion essay about being an astronaut on the Apollo 11 mission. Revise writing using the Praise-Question-Suggestion strategy. <i>Revise the Focusing Question Task to include both a compound sentence and a complex sentence.</i>	
2	18	Fri, 1/7/22	M2L27	<i>Zathura</i>	Identify important story elements in <i>Zathura</i> . Analyze how an author uses linking words and phrases to connect opinions with reasons in a model opinion essay. Use a known root word as a clue to determine the meaning of malfunction.	RL 3.1, RL 3.2, RL 3.7 W 3.1.c, W 3.10 SL 3.1.b, SL 3.2 L 3.4.a, L 3.4.c	Illustrate and label a problem and solution in <i>Zathura</i> . Students review the model paragraph in pairs to find other examples of linking words that connect opinions with reasons. <i>In their Response Journals, students explain how knowing the meaning of the root funct- helps decode other unfamiliar words.</i>	
2	19	Mon, 1/10/22	M2L28	<i>Zathura</i>	Explain the effects of the characters' actions in <i>Zathura</i> . Use linking words and phrases to connect opinions and reasons. <i>Distinguish between the literal and nonliteral meaning of language in Zathura.</i>	RL 3.1, RL 3.3, RL 3.7 W 3.1.c SL 3.1.b, d, SL 3.2 L 3.4.a, L 3.5.a	Explain the effects of one of Walter's or Danny's actions. Collaboratively write a paragraph that clearly states an opinion about <i>Zathura</i> and that uses linking words and phrases to connect the opinion with reasons. <i>Students identify an example of nonliteral language that expresses Walter's feelings at the end of the story.</i>	
2	19	Tue, 1/11/22	M2L29	All texts for Modules 1, 2, 3	Identify a central message in <i>Zathura</i> and explain how the message builds knowledge. Prepare to conduct a short research project about the Moon. <i>Examine the function of pronouns in sentences.</i>	RL 3.1, RL 3.2 RI 3.1, RI 3.7 W 3.7, W 3.10 SI 3.1.b, d, SL 3.2 L 3.4, L 3.1.a	Write a brief reflection about knowledge gained from reading <i>Zathura</i> . Generate guiding questions for a short research project. <i>Rewrite a sentence using a pronoun, and circle the pronoun.</i>

2	20	Mon, 1/17/22	No School	MLK Jr. Day				
2	20	Tue, 1/18/22			Winter ELA Interims--Selected Response			
2	20	Wed, 1/19/22			Winter ELA Interims--Selected Response			
2	20	Thu, 1/20/22			Winter ELA Interims--Performance Task (Opinion)			
2	20	Fri, 1/21/22			Winter ELA Interims--Performance Task (Opinion)			
2	21	Mon, 1/24/22	M2L32	Space Object Box: "Little Bear, etc." motif <i>Starfield</i> "TateShots: ARTIST ROOMS Vija Celmins"	Explain how Joseph Cornell and Vija Celmins represent space. <i>Review and practice grade-level vocabulary</i>	RL 3.1 SL 3.1, SL 3.2, SL 3.4, SL 3.6 L 3.6	Students take part in a Socratic Seminar to discuss which piece of art to include in an exhibit about space and assess their own participation. <i>Create a Vocabulary Study Guide.</i>	
2	21	Tue, 1/25/22	M2L33	<i>Starfield</i> Space Object Box "Little Bear, etc." motif <i>Zathura</i> "Pegasus and Perseus" "Pegasus and Bellerophon" "Callisto and Her Son"	Plan a written response to an opinion prompt. <i>Identify real-life connections between miniature and its use.</i>	RL 3.1 RI 3.3 W 3.1, W 3.4 SL 3.1.b, d, SL 3.4 L 3.5.b	Complete a Writing Planner in preparation for writing an opinion paragraph about which text or art piece helps people better understand space. <i>Students identify a sentence that correctly uses the word miniature.</i>	
2	21	Wed, 1/26/22	M2L34	<i>Starfield</i> "Stars" Space Object Box: "Little Bear, etc." motif <i>Zathura</i> "Pegasus and Perseus" "Pegasus and Bellerophon" "Callisto and Her Son"	Write an opinion essay that includes a clearly stated opinion, supporting reasons, evidence, elaboration, and a concluding statement or section, and linking words or phrases. Revise writing based on peer feedback. <i>Revise a text to demonstrate how adjectives, adverbs, pronouns, conjunctions, and sentence variety can improve writing.</i>	RI 3.1 RI 3.3 W 3.1, W 3.5 SL 3.1.b, d L 3.1.a, L 3.1.h, L 3.1.i	Write an opinion essay about which text or art piece helps people better understand space. Revise writing using the Praise-Question-Suggestion strategy. <i>Students work independently to revise a paragraph to meet the criteria on a checklist.</i>	
2	21	Thu, 1/27/22	M2L35	All module texts	Gather information from print and visual sources; take brief notes and sort evidence into provided categories. Plan a written response to an opinion prompt. <i>Review module academic and content vocabulary.</i>	RL 3.1 RI 3.2 W 3.1, W 3.8 SL 3.1.b, SL 3.1.d L 3.6	Create and complete a graphic organizer reviewing an assigned text. Complete a Writing Planner in preparation for writing an opinion essay, using textual evidence, about whether or not you would travel to the Moon. <i>Students complete a Vocabulary Assessment Study Guide.</i>	
		Fri, 1/28/22	No School	School-Based PD Day				
2	22	Mon, 1/31/22	M2L36	All module texts	Synthesize evidence from multiple texts to write End-of-Module opinion essay. Edit and revise writing based on feedback from a peer reviewer. <i>Demonstrate acquisition of module academic and content vocabulary.</i>	RL 3.1 RI 3.1 W 3.1, W 3.4, W 3.5, W 3.8 L 3.1.a, L 3.1.h, L 3.1.i, L 3.6	Write an End-of-Module opinion essay. Respond to feedback from a peer reviewer by incorporating suggestions or explaining decisions to ignore suggestions. <i>Students complete Assessment 36B: End-of-Module Vocabulary Direct Assessment.</i>	
2	22	Tue, 2/1/22	No School	Lunar New Year				
3	22	Wed, 2/2/22 (Winter Interim data due)	M3L1	Grandfather's Journey "Japanese Immigrant's Trunk" "Kimono Show Introduces Occasions and Styles of Japanese Traditional Clothing" "Grandfather's Journey by Allen Say"	Notice one detail and ask one question about Grandfather's Journey. Identify the elements of an effective introduction to an explanatory essay in Response Journals <i>Write two sentences about Grandfather using the words immigrant and emigrant.</i>	RL 3.1, RL 3.4, RL 3.6, RL 3.7 RI 3.1, RI 3.4 RF 3.4 W 3.2.a SL 3.1 L 3.4.a	Write a postcard to Grandfather describing one detail you noticed and asking one question you wondered about his journey. Identify the elements of an effective introduction to an explanatory essay in Response Journals <i>Write two sentences about Grandfather using the words immigrant and emigrant.</i>	
3	22	Thu, 2/3/22	M3L2	<i>Grandfather's Journey</i> "Immigration: Who and Why?"	Identify the characters, setting, and plot in Grandfather's Journey. Write an introduction for an explanatory essay that engages the reader and orients the reader to the topic. <i>Distinguish shades of meaning among journey, voyage, traveled, trip.</i>	RL 3.1, RL 3.2, RL 3.4, RL 3.7 RF 3.4 W 3.2.a SL 3.1 L 3.5.b	Collaboratively complete a graphic organizer recording key details from <i>Grandfather's Journey</i> . Collaboratively write a hook for an expository text about immigration. <i>Students use a target word in an example sentence and explain why the target word does or does not make sense in the sentence.</i>

3	22	Fri, 2/4/22	M3L3	Grandfather's Journey	Explain how Grandfather's actions, thoughts, and feelings affect the events in <i>Grandfather's Journey</i> . Prepare to speak in a small-group discussion and ask questions to create rich discussions. Plan an introduction to an explanatory essay. <i>Identify real-life connections between explore and its use in Grandfather's Journey.</i>	RL 3.1, RL 3.3, RL 3.6 RF 3.4 SL 3.1.a, SL 3.1.c, SL 3.3 L 3.1.h, L 3.5.b	In small groups, students add evidence to a graphic organizer. Students complete Handout 3A and ask a group member to peer-review participation. Use an organizer to plan an introduction paragraph for an explanatory essay. <i>Students complete two sentence frames and explain which meaning of the word explore makes sense in their sentences.</i>	
	23	Mon, 2/7/22	No School	TK-8 Winter RLD				
3	23	Tue, 2/8/22	M3L4	Grandfather's Journey	Students use two pieces of text evidence to identify the narrator's point of view. Students peer-review introduction paragraphs. <i>With support, identify and form possessives with singular and plural nouns.</i>	RI 3.1, RL 3.6 RF 3.4 W 3.2.a, W 3.5 SL 3.1.a, SL 3.1.c L 3.2.d, L 3.4.b	Students write three to five sentences explaining the narrator's point of view about where home is. Students provide and respond to peer feedback. <i>In their Response Journals, students draft one sentence using a singular possessive noun and a second sentence that uses the plural possessive of the same noun.</i>	
3	23	Wed, 2/9/22	M3L5	Grandfather's Journey	Demonstrate how word choices can develop a character and his actions. Examine the way information is grouped together in compare and contrast writing. <i>Use possessives with singular and plural nouns to complete a brief narrative.</i>	RL 3.1, RL 3.3, RL 3.4 RF 3.4 W 3.2.a SL 3.1	Complete sentence frames to identify how word choices or repetition explain a character and his actions. Apply the Painted Essay strategy to a compare-and-contrast essay. <i>Form and use singular and plural possessive nouns to complete a short narrative.</i>	
3	23	Thu, 2/10/22	M3L6	Grandfather's Journey	Identify a central message in <i>Grandfather's Journey</i> . Group similarities together in one paragraph and differences together in another paragraph in a compare-and-contrast essay. <i>Use an abstract noun in a sentence that demonstrates a real-life connection to its meaning.</i>	RL 3.2, RL 3.3, RL 3.7 W 3.2.a SL 3.1.c, SL 3.2 L 3.1.c, L 3.5.b	Students record a central message in <i>Grandfather's Journey</i> on a graphic organizer. Complete sentence frames for a compare-and-contrast essay. <i>Students orally practice using an abstract noun and identify in their Response Journals a real-life connection between the word and its use.</i>	
3	23	Fri, 2/11/22	M3L7	Tea with Milk	Notice two important elements of <i>Tea with Milk</i> . Identify linking words and phrases in a compare-and-contrast essay. <i>Use the known root –graph and context clues to determine the meaning of calligraphy.</i>	RL 3.1, RL 3.4, RL 4.7 RF 3.4 W 3.2.c SL 3.1 L 3.4.a, L 3.4.c	Students write a postcard to Masako, noting one detail and one question that emerged while reading <i>Tea with Milk</i> . Circle linking words and phrases in a compare-and-contrast essay and contribute examples to an anchor chart. <i>Students write an original sentence using the word calligraphy.</i>	
3	24	Mon, 2/14/22	M3L8	Tea with Milk "Oral History Library"	Write a short paragraph to recount <i>Tea with Milk</i> . Prepare to speak by coming to a discussion prepared and asking questions to check understanding. Recognize the importance of using compare-and-contrast linking words and phrases. <i>Identify examples of subject-verb agreement in a text.</i>	RL 3.1, RL 3.2, RL 3.9 RF 3.4 W 3.2.c SL 3.1.a, SL 3.1.c, SL 3.3 L 3.4.c, L 3.1.f	In their Response Journals, students write a short paragraph to recount <i>Tea with Milk</i> . Complete a Speaking and Listening Checklist. Explain the importance of the linking word in a comparison or contrast sentence. <i>Highlight singular and plural subjects and verbs on an excerpt from Tea with Milk.</i>	
3	24	Tue, 2/15/22	M3L9	"Ann K. Nakamura: Image of Americans" Tea with Milk	Explain how Masako's actions, thoughts, feelings, and words affect the events in <i>Tea with Milk</i> . Practice preparing for a discussion and asking questions to check understanding of information presented, stay on topic, and link their comments to the remarks of others. Use linking words and phrases to compare and contrast. <i>Identify examples of pronoun-antecedent agreement in a text.</i>	RL 3.1, RL 3.3, RL 3.6 RF 3.4 W 3.2.c SL 3.1.a, SL 3.1.c, SL 3.3 L 3.4.a, L 3.5.b, L 3.1.f	Students add evidence to a graphic organizer. Complete a checklist and peer-review, based on student participation in a small-group discussion. Students use linking words to compare or contrast topics in a paragraph and circle the transition words in a partner's writing. <i>Complete a sentence frame identifying a pronoun and its antecedent.</i>	
3	24	Wed, 2/16/22	M3L10	Tea with Milk Grandfather's Journey	Distinguish own point of view from May's point of view in <i>Tea with Milk</i> . <i>Students ensure subject-verb agreement.</i>	RL 3.3, RL 3.6 RF 3.4 W 3.10 SL 3.1, SL 3.3, SL 3.6 L 3.1.f	Students participate in a Socratic Seminar to discuss whether or not they agree with May's decision to stay in Japan. <i>Students conduct a targeted revision of a short piece of writing by circling the subject of each sentence and underlining the verb. If the subject and verb do not agree, students place a light check mark in the margin. If the subject and verb do not agree, students make corrections as needed.</i>	
3	24	Thu, 2/17/22	M3L11	Tea with Milk	Listen for key words and use key details to identify a central message in <i>Tea with Milk</i> . Revise linking words and phrases in compare-and-contrast writing. <i>Examine the purpose of dialogue in literature.</i>	RL 3.2, RL 3.4 RF 3.4 W 3.2.c, W 3.5 SL 3.1 L 3.2.c	Students complete a graphic organizer. Rewrite paragraphs from Lesson 10 and write two to three sentences explaining which paragraph uses stronger linking words and phrases. <i>Students identify the punctuation marks in an excerpt from Tea with Milk</i>	
		Mon, 2/21/22	No School	February Break				
		Tue, 2/22/22	No School	February Break				
		Wed, 2/23/22	No School	February Break				
		Thu, 2/24/22	No School	February Break

	#	Pink = Wednesdays used for Flex			Green= Assessments Light yellow = Foundational Lessons Orange = RLDs Grey = Holidays Regular Text: Core Lesson Italicized Text: Deep Dive		Includes both core lesson and deep dive	Lessons Skipped to review or spiral back
3	25	Mon, 2/28/22	M3L12	<i>Tea with Milk</i> <i>Grandfather's Journey</i>	Compare-and-contrast elements of two texts by the same author. Plan a compare-and-contrast essay about similarities and differences between <i>Grandfather's Journey</i> and <i>Tea with Milk</i> . <i>Analyze and demonstrate knowledge of rules for punctuating dialogue.</i>	RL 3.2, RL 3.3, RL 3.9 W 3.5, W 3.8, W 3.10 SL 3.1.a, SL 3.1.c L 3.1.f, L 3.2.c	Highlight similarities and differences between two texts by Allen Say noted on a graphic organizer. <i>Students use editing marks to punctuate a passage of text with dialogue correctly.</i>	
3	25	Tue, 3/1/22	M3L13	<i>Tea with Milk</i> <i>Grandfather's Journey</i>	Draft a multi-paragraph essay that compares and contrasts how two stories by the same author explain the challenges of moving to a new country. <i>Identify real-life connections between reaction words and their use.</i>	RL 3.2, RL 3.3, RL 3.9 W 3.2, W 3.4 SL 3.1.a, SL 3.1.c, SL 3.3 L 3.1.f, L 3.3.b, L 3.5.b	Students independently draft a multi-paragraph explanatory essay that compares and contrasts <i>Grandfather's Journey</i> and <i>Tea with Milk</i> . <i>Students choose a word that describes one of Grandfather's reactions and write a sentence using the word to explain when they had a similar reaction to something.</i>	
3	25	Wed, 3/2/22	M3L14	<i>Tea with Milk</i> <i>Grandfather's Journey</i>	Students use checklists to provide and use targeted feedback to strengthen compare-and-contrast essays. <i>Peer-evaluate FQ1 and revise for correct subject-verb agreement.</i>	RL 3.2, RL 3.3, RL 3.9 W 3.2, W 3.5 SL 3.1.a, SL 3.1.c, SL 3.3 L 3.1.f	Use a checklist to provide and implement targeted feedback for revisions. <i>Students use a checklist to give and receive targeted feedback regarding subject-verb agreement.</i>	
3	25	Thu, 3/3/22	M3L15	<i>Family Pictures</i> "Two Places to Call Home" "Día de los Muertos Festival 2015—Artist Talk by Carmen Lopez Garza 1"	Analyze a character in a piece of fiction. <i>Use the known affix bi- as a clue to the meaning of the unknown word bilingual.</i>	RL 3.1, RL 3.2, RL 3.3, RL 3.4, RL 3.6, RL 3.7, RL 3.9 RI 3.1 SL 3.1 L 3.4.c, L 3.5.a, L 3.5.b, L 3.4.a	Students complete New-Read Assessment 1. <i>Students draft an original sentence using the word bilingual.</i>	
3	25	Fri, 3/4/22	M3L16	<i>Coming to America</i> <i>Liberty Enlightening the World</i> <i>Family Pictures</i> <i>Tea with Milk</i>	Ask and answer questions based on a new informational text. Analyze how an author engages and orients the reader in a narrative. <i>Explain the function of commas in addresses.</i>	RL 3.1, RL 3.4 RI 3.4 W 3.3.a SL 3.1 L 3.4.a, L 3.2.b	In Response Journals, record one question and one observation. Explain how an author engages and orients a reader. <i>In their Response Journals, students explain the function of a comma in an address.</i>	
3	26	Mon, 3/7/22	M3L17	<i>Liberty Enlightening the World</i> <i>Coming to America</i> Interview with William Greiner	Create a timeline that shows key moments in the history of immigration to America. Analyze how an author engages and orients the reader in a narrative. <i>Use commas in an address correctly.</i>	RI 3.1, RI 3.3 RL 3.4 RF 3.4 W 3.3.a SL 3.2 L 3.4.a, L 3.2.b	Students use timeline and sequence words to participate in a Whip Around, giving a chronological overview of immigration to America. Identify examples of narrative introductions that engage and orient the reader. <i>Correctly arrange the elements of an address.</i>	
3	26	Tue, 3/8/22	M3L18	<i>Coming to America</i> "Visitors in the Statue of Liberty's Crown" "The Torch of the Statue of Liberty" "The Statue's Shackles and Feet"	Use knowledge from back matter in <i>Coming to America</i> to add detail to a timeline. Plan an introduction to a narrative that engages and orients the reader. <i>Distinguish shades of meaning between descendant, ancestor, and generation.</i>	RI 3.3, RI 3.5 RF 3.4 W 3.3.a SL 3.1, SL 3.3 L 3.5.b, L 3.5.c	Students add one detail from the back matter to their timelines and explain how it helped them better understand immigration. Organize ideas for a narrative using the first three letters of the ESCAPE mnemonic. <i>With a partner, draw and label a picture showing three generations of a family.</i>	
3	26	Wed, 3/9/22	M3L19	<i>Coming to America</i> <i>Liberty Enlightening the World</i> <i>Washington Monument</i> <i>Gateway Arch</i> "Oral History Library"	Write an introduction to a narrative that engages and orients the reader. Revise narrative introductions based on peer feedback. <i>Students create an original sentence using native to explain a real-life connection between the word and its use.</i>	RI 3.1, RI 3.2, RI 3.7 W 3.3.a SL 3.2 L 3.5.b	Using the ESCAPE mnemonic, write an introduction for a narrative. Use feedback from peer review to revise introductions.	
3	26	Thu, 3/10/22	M3L20	<i>Coming to America</i> <i>Grandfather's Journey</i>	Determine the essential meaning of a text. Analyze how an author organizes an event sequence in narrative writing. <i>Demonstrate understanding of the abstract noun opportunity.</i>	RI 3.2, RI 3.4, RI 3.7 W 3.3.a, W 3.10 SL 3.1 L 3.4.a, L 3.1.c	Students write a three- to five-sentence paragraph explaining the essential meaning of <i>Coming to America</i> . Collaboratively identify the events in the beginning, middle, and end of <i>Grandfather's Journey</i> . <i>Draw a picture representing opportunity and explain how the picture represents opportunity.</i>

3	28	Tue, 3/22/22	M3L22	<i>Coming to America</i> "The New Colossus" <i>Liberty Enlightening the World</i>	Identify a central message in the Statue of Liberty. Participate in a Socratic Seminar using speaking and listening skills to provide relevant evidence in answer to a question. <i>Identify three patterns for forming irregular plural nouns.</i>	RL 3.1 W 3.10 SL 3.1, SL 3.2, SL 3.3, SL 3.6 L 3.6	Students determine and write about the central message of the Statue of Liberty in their response journals. Students complete a Socratic Seminar Self-Assessment. <i>In their Response Journals, students write the rule to form the plural form of opportunity.</i>	
3	28	Wed, 3/23/22	M3L23	<i>Coming to America</i>	Plan a written response to a narrative prompt. Gather information from multiple sources and sort into categories. <i>Identify three patterns for forming irregular plural nouns.</i>	W 3.3.a, W 3.4 SL 3.1.c L 3.1.f, L 3.2.b, L 3.1.b	Complete a writing planner in preparation for writing a narrative that identifies why an immigrant came to America and describes the immigrant's feelings upon first seeing the Statue of Liberty. Annotate knowledge to categorize it as knowledge of the world, knowledge of ideas, and knowledge of skills. <i>Students choose one of the irregular plural nouns they noticed in a classmate's work and use it in an original sentence, using correct spelling.</i>	
3	28	Thu, 3/24/22 Spring Interim Data Due	M3L24	<i>Coming to America</i>	Write a narrative with an introduction that orients the reader to the situation, introduces the characters, and describes the setting. Revise writing based on peer feedback. Use information gained from artwork and text to demonstrate understanding of a topic. <i>Peer-evaluate FQ2 letter and revise for correct usage of subject-verb agreement, and using commas in addresses.</i>	RI 3.7 W 3.3.a, W 3.4, W 3.5 L 3.1.f, L 3.2.b,	Write a narrative that explains a character's reason for immigrating to America and describes the first moment the character saw the Statue of Liberty. Use feedback from small-group peer-review to revise writing. Record categorized knowledge in Knowledge Journal. <i>Students use a checklist to make targeted revisions.</i>	
3	28	Fri, 3/25/22	M3L25	<i>The Keeping Quilt</i> "The Keeping Quilt"	Students use text evidence to ask and answer questions about <i>The Keeping Quilt</i> . Organize an event sequence that unfolds naturally. <i>Identify regular and irregular verbs in a text.</i>	RL 3.1, RL 3.4, RL 3.7, RL 3.2 RF 3.4 W 3.3.a SL 3.1 L 3.4.a, L 3.1.d	Students complete a Three-Two-One Ticket in their Response Journals, recording questions and observations about <i>The Keeping Quilt</i> . Explain the importance of sequencing events. <i>Students independently identify and sort regular and irregular verbs in an excerpt from The Keeping Quilt.</i>	
3	29	Mon, 3/28/22	M3L26	<i>The Keeping Quilt</i>	Sequence the multiple generations in <i>The Keeping Quilt</i> and identify how the quilt was used in each generation. Organize an event sequence that unfolds naturally. Revise writing based on peer feedback. <i>Notice patterns in irregular verbs.</i>	RL 3.2, RL 3.3 RF 3.4 W 3.3.a, W 3.3.c, W 3.5 SL 3.1.a, SL 3.1.c, SL 3.3 L 3.5.b, L 3.1.d	Students complete a graphic organizer charting the use of the quilt in each generation. Use sticky notes to organize the events in a narrative that tells the story of an immigrant traveling to America. Use feedback from a partner to revise writing. <i>Write two sentences that use the present and past of an irregular verb.</i>	
3	29	Tue, 3/29/22	M3L27	<i>The Keeping Quilt</i>	Recognize similarities and differences between characters from different generations of one family. Analyze how an author uses dialogue to develop experiences and events in narrative writing. <i>Form and use irregular verbs.</i>	RL 3.1, RL 3.2, RL 3.3, RL 3.4 W 3.3.b SL 3.1.a, SL 3.1.c, SL 3.2, SL 3.3 L 3.1.c, L 3.1.d	On an Exit Ticket, note a similarity and difference between how two characters from different generations use the keeping quilt. Write four to six sentences explaining how dialogue develops the characters and experiences in the story <i>Tea with Milk</i> . <i>Students correctly use irregular verbs in a short piece of writing.</i>	
3	29	Wed, 3/30/22	M3L28	<i>The Keeping Quilt</i>	Explain how family traditions both stayed the same and changed over several generations of Patricia Polacco's family. Use dialogue to develop experiences and events in narrative writing. <i>Compose and punctuate dialogue for characters in The Keeping Quilt.</i>	RL 3.2, RL 3.3 RF 3.4 W 3.3.b, W 3.10 SL 3.1 L 3.1.c, L 3.4.a, L 3.5.b, L 3.2.c	Students use text evidence to explain the use of repetition in <i>The Keeping Quilt</i> . With a partner, write dialogue between two characters. <i>Students independently draft several lines of dialogue, including multiple speakers.</i>	
		Thu, 3/31/22	No School	School-Based PD Day

3	31	Mon, 4/18/22	M3L32	<i>The Keeping Quilt</i>	Plan a written response to a narrative prompt. <i>Review and practice vocabulary words from Assessed Vocabulary list.</i>	RL 3.1, RL 3.3 W 3.3, W 3.4 L 3.1.b, L 3.2.c, L 3.2.d, L 3.6	Complete a Writing Planner in preparation for writing a narrative that describes the moment when Patricia's mother first tells her about how the keeping quilt is important to their family and a reminder of their traditions. <i>In small groups, students review the vocabulary words and create sketches or context sentences for unknown words on the study guide.</i>	
3	31	Tue, 4/19/22	M3L33	<i>The Keeping Quilt</i>	Write a narrative. Edit and revise writing based on feedback from a peer reviewer. <i>Peer-evaluate a narrative and revise for correct usage of possessives, subject-verb agreement, and punctuating dialogue.</i>	RL 3.1, RL 3.3 W 3.3, W 3.4, W 3.5, W 3.8 L 3.1.f, L 3.2.c, L 3.2.d, L 3.1.f	Write a short narrative that describes the moment when Patricia's mother first tells her about how the keeping quilt is important to their family and a reminder of their traditions. Formulate questions for peer review and respond to peer feedback. <i>Use a checklist to provide feedback and make targeted revisions.</i>	
3	31	Wed, 4/20/22	M3L34	<i>Grandfather's Journey</i> <i>Tea with Milk</i> <i>Coming to America</i> <i>The Keeping Quilt</i>	Plan a written response to narrative prompt. <i>Demonstrate acquisition of academic and content vocabulary from module word list.</i>	RL 3.1 W 3.3, W 3.5, W 3.8 SI 3.1.a, SL 3.1.c, SL 3.3 L 3.6, L 3.5.b,	Complete a Writing Planner in preparation for writing a narrative that describes a particular moment based on the events depicted in one of four module texts. <i>Students complete Assessment 34B: Vocabulary Assessment.</i>	
3	31	Thu, 4/21/22	M3L35	<i>Grandfather's Journey</i> <i>Tea with Milk</i> <i>Coming to America</i> <i>The Keeping Quilt</i>	Use evidence from a module text to write an End-of-Module narrative. Edit and revise writing based on feedback from a peer reviewer. <i>Peer-evaluate EOM and revise for correct usage of irregular plural nouns, abstract nouns, and dialogue punctuation.</i>	RL 3.1 RI 3.1 W 3.3, W 3.4, W 3.5, W 3.8 L 3.1.b, c, d, f, L 3.2.c, d	Write an End-of-Module narrative describing a particular moment from one of the module texts. Respond to feedback from a peer reviewer by adding dialogue and descriptions of thoughts, actions, or feelings where needed. <i>Students use a checklist to review a peer's essay and edit their own work.</i>	
3	31	Fri, 4/22/22	Flex					
4	32	Mon, 4/25/22	M4L1	<i>Emma's Rug</i>	Use text and illustrations to complete a story map that organizes the basic elements of Emma's Rug. Use a shared digital organizer to take notes collaboratively, using provided categories. <i>Make a real-life connection between inspiration and its use.</i>	RL 3.1, RL 3.2, RL 3.7 RF 3.4 W 3.6, W 3.8 SL 3.1 L 3.5.b	Based on class discussion and notes, complete a graphic organizer to identify the story elements of <i>Emma's Rug</i> . Review your notes with your group and share them with the class, identifying which category on the shared digital organizer to use. <i>In your Response Journal, write an original sentence using inspiration to explain how you get ideas for artwork.</i>	
4	32	Tue, 4/26/22	M4L2	<i>Emma's Rug</i>	Identify a source of inspiration for Emma, and provide evidence based on the text and illustrations to support your response. Analyze the parts of a model thesis statement. <i>Use a dictionary to determine the precise meaning of unknown words.</i>	RL 3.1, RL 3.2, RL 3.7 RF 3.4 W 3.2.a, W 3.6, W 3.8 SL 3.1, SL 3.3, SL 3.6 L 3.4.d	Complete a graphic organizer that identifies an important source of inspiration for Emma, and provide evidence from the text and illustrations to support your choice. Check the effectiveness of a thesis statement by answering two questions: What is the topic of the essay? What are the supporting points? <i>In your Response Journal, use one of the synonyms we defined today to write an original sentence about Emma.</i>	
4	32	Wed, 4/27/22	M4L3	<i>Emma's Rug</i>	Participate in a Socratic Seminar discussing which of two illustrations better supports a central message in Emma's Rug. Identify the elements of a thesis statement. Examine differences between conventions for spoken and written English. <i>Experiment with distinguishing between conventions of spoken and written Standard English.</i>	RL 3.1, RL 3.2, RL 3.7 W 3.2.a SL 3.1, SL 3.3, SL 3.6 L 3.3.b	Participate in a Socratic Seminar, and complete a self- and peer-assessment. Underline the topic in a thesis statement, and star the supporting points. Answer a multiple-choice question identifying conventions of spoken and written English. Complete sentence frames to explain how to use conventions of spoken and written English. <i>Complete sentence frames to explain how to use the conventions of spoken and written English to convey similar ideas.</i>	
4	32	Thu, 4/28/22	M4L4	<i>Alvin Ailey</i> Excerpts from <i>Revelations</i> Excerpt of 2013 National Book Festival	Record and categorize one detail and one question about Alvin Ailey. Use research to plan an explanatory essay that includes a thesis statement. <i>Use the known root graph to determine the precise meaning of choreography, and clarify with a dictionary.</i>	RL 3.1 RI 3.1, RI 3.4 RF 3.4 W 3.2.a, W 3.5, W 3.7, W 3.8 SL 3.1 L 3.4.c, L 3.4.d	On an Exit Ticket, record and categorize one detail and one question about Alvin Ailey, using categories provided on a shared evidence catcher. Complete the thesis statement section of a writing planner in preparation for writing a research-based explanatory essay. <i>Write your own definition of choreography in your Vocabulary Journal, and then confirm or revise definitions after checking in a dictionary.</i>	
4	32	Fri, 4/29/22	M4L5	<i>Alvin Ailey</i> Excerpts from <i>Revelations</i> transcript of interview with Andrea Davis Pinkney "Working as a Team on Children's Books" "Brian Pinkney"	Prepare a short group presentation about the logical connection between paragraphs in <i>Alvin Ailey</i> , noting conventions of spoken English. Use time-order words to explain Alvin Ailey's sources of inspiration in the correct sequence. Research and plan for an explanatory essay. <i>Elaborate on the meaning of revelation through context clues, and clarify precise meaning with a dictionary.</i>	RL 3.1 RI 3.1, RI 3.3, RI 3.8 RF 3.4 W 3.2.a, W 3.5, W 3.6, W 3.7, W 3.8 SL 3.1, SL 3.4, SL 3.6 L 3.3.b, L 3.4.a, L 3.4.d	Prepare a group presentation and then ask a peer from another group to assess the presentation. In groups create a paragraph using time-order words to list Alvin Ailey's sources of inspiration and influence as described in the text in the correct sequence. Complete a writing planner as preparation for writing a research-based explanatory essay. <i>Write your own definition of revelation in your Vocabulary Journal.</i>	
		Mon, 5/2/22	No School	Eid				
4	33	Tue, 5/3/22	M4L6	<i>Alvin Ailey</i> Excerpt from 1988 interview with Alvin Ailey	Explain how nonliteral language and word choices develop an understanding of the biography's subject. Research Alvin Ailey in preparation for writing an explanatory essay. <i>Use a known prefix and sentence-level context as clues to determine the meaning of the word rehearsed, and clarify precise meaning with a dictionary.</i>	RL 3.4 RI 3.1, RI 3.2, RI 3.4 RF 3.4 W 3.7, W 3.8 SL 3.1, SL 3.4, SL 3.6 L 3.3.b, L 3.4.d, L 3.5.a	In your Response Journal, explain how one example of nonliteral language and one word you learned while reading <i>Alvin Ailey</i> help you understand Alvin Ailey or his work better. Research Alvin Ailey by reading the back matter from <i>Alvin Ailey</i> by Andrea Davis Pinkney and collecting information on a research note catcher. <i>Use context clues and a known prefix to determine the meaning of rehearsed, and confirm the definition using a dictionary.</i>
