Module 1 Sorting and Counting	Module 2 Shapes	Module 3 Parts and Patterns	Module 4 Ways to Compare	Module 5 Math Stories	Module 6 Math in Play
<p>Topic A: Use Attributes to Match and Sort</p> <p>Lesson 1: Make a Match</p> <ul style="list-style-type: none"> Use attributes to match objects that are exactly the same. <p>PK.MD.DP1</p> <p>Lesson 2: Same and Different</p> <ul style="list-style-type: none"> Use attributes to compare objects. <p>PK.MD.DP1</p> <p>Lesson 3: Crayon Group</p> <ul style="list-style-type: none"> Make a group that has a given attribute. <p>PK.MD.DP1, PK.CC.DP1</p> <p>Lesson 4: Crayon and Marker Sort</p> <ul style="list-style-type: none"> Use given attributes to sort objects into two groups. <p>PK.MD.DP1, MP7</p> <p>Lesson 5: Sorting Bags</p> <ul style="list-style-type: none"> Sort objects into two or more groups and explain the attributes used to sort. <p>PK.MD.DP1, PK.CC.DP1</p>	<p>Topic A: Spatial Relations</p> <p>Lesson 1: Where Is Rosie?</p> <ul style="list-style-type: none"> Use position words to describe where an object is in space. <p>PK.G.DP1</p> <p>Lesson 2: Use the Clues</p> <ul style="list-style-type: none"> Use position words to find an object. <p>PK.G.DP1, MP6</p> <p>Lesson 3: Build a Map</p> <ul style="list-style-type: none"> Represent a well-known space. <p>PK.G.DP1, MP4</p> <hr/> <p>Topic B: Analyze and Name Two-Dimensional Shapes</p> <p>Lesson 4: Shapes in Art</p> <ul style="list-style-type: none"> Describe the attributes of two-dimensional shapes. <p>PK.G.DP3</p> <p>Lesson 5: Circles</p> <ul style="list-style-type: none"> Name and describe circles. <p>PK.G.DP2, PK.G.DP3, MP3</p>	<p>Topic A: Compose and Decompose Shapes and Numbers</p> <p>Lesson 1: How Many Parts?</p> <ul style="list-style-type: none"> Compose hexagons in more than one way. <p>PK.G.DP5</p> <p>Lesson 2: Bunny Puzzles</p> <ul style="list-style-type: none"> Compose shapes with varied pattern blocks. <p>PK.G.DP5</p> <p>Lesson 3: Decompose 3</p> <ul style="list-style-type: none"> Decompose 3 into different parts. <p>PK.OA.DP3, MP7</p> <p>Lesson 4: Decompose 4</p> <ul style="list-style-type: none"> Decompose 4 into different parts. <p>PK.OA.DP3</p> <p>Lesson 5: Decompose 5</p> <ul style="list-style-type: none"> Decompose 5 into different parts. <p>PK.OA.DP3</p>	<p>Topic A: Describe Size</p> <p>Lesson 1: Big or Small</p> <ul style="list-style-type: none"> Describe objects as <i>big</i> or <i>small</i>. <p>PK.MD.DP2</p> <p>Lesson 2: Puppet’s Bed</p> <ul style="list-style-type: none"> Use volume and area to determine whether an object fits. <p>PK.MD.DP2, MP3</p> <p>Lesson 3: Explore Capacity</p> <ul style="list-style-type: none"> Compare capacities by using the words <i>more</i> or <i>less</i>. <p>PK.MD.DP2</p> <p>Lesson 4: How Much Juice?</p> <ul style="list-style-type: none"> Discuss a representation of data. <p>PK.MD.DP2</p> <hr/> <p>Topic B: Compare Heights and Lengths</p> <p>Lesson 5: Tall or Short</p> <ul style="list-style-type: none"> Describe objects as <i>tall</i> or <i>short</i>. <p>PK.MD.DP2</p>	<p>Topic A: Use the Count Sequence to Add and Subtract 1</p> <p>Lesson 1: Bears on Stairs</p> <ul style="list-style-type: none"> Build number stairs to show the pattern of 1 less in the backward count sequence. <p>PK.CC.DP1</p> <p>Lesson 2: 1 Less</p> <ul style="list-style-type: none"> Model the pattern of 1 less in the backward count sequence. <p>PK.CC.DP1</p> <p>Lesson 3: 1 More, 1 Less</p> <ul style="list-style-type: none"> Look for 1 more and 1 less in an art context. <p>PK.CC.DP1, PK.OA.DP1, MP7, MP8</p> <p>Lesson 4: 1 More, 1 Less the Math Way</p> <ul style="list-style-type: none"> Use fingers to represent 1 more and 1 less. <p>PK.CC.DP7, PK.OA.DP1</p>	<p>Project A: Create a Business</p> <p>PK.CC.DP1, PK.CC.DP3, PK.CC.DP4, PK.CC.DP5, PK.CC.DP6, PK.CC.DP7, PK.CC.DP8, PK.MD.DP1, MP1, MP2, MP5</p> <hr/> <p>Project B: Plan a Celebration</p> <p>PK.CC.DP3, PK.CC.DP4, PK.CC.DP6, PK.CC.DP7, PK.CC.DP8, PK.CC.DP9, PK.G.DP5, PK.OA.DP4, MP1, MP2, MP5, MP6, MP7, MP8</p> <hr/> <p>Project C: Care for Our Space</p> <p>PK.CC.DP1, PK.CC.DP4, PK.CC.DP5, PK.CC.DP8, PK.MD.DP2, PK.OA.DP1, PK.OA.DP2, MP1, MP2, MP4, MP5, MP7</p>

Module 1

Topic B: Answer *How Many* Questions

Lesson 6: Matching Markers

- Match to see whether there are enough.

PK.CC.DP1

Lesson 7: Animal Count

- Move objects to track the count.

PK.CC.DP2, PK.CC.DP4,
PK.CC.DP6

Lesson 8: Let's Count!

- Organize and count a collection of objects.

PK.CC.DP1, PK.CC.DP4,
PK.CC.DP5, PK.CC.DP6

Lesson 9: How Many?

- Answer *how many* questions about objects in varied configurations.

PK.CC.DP6, MP3

Topic C: Match Written Numbers with Sets of Up to 5 Objects

Lesson 10: Written Numbers

- Match written numbers 1, 2, 3, 4, and 5 to quantities.

PK.CC.DP1, PK.CC.DP3

Lesson 11: Match Game

- Match written numbers 0, 1, 2, 3, 4, and 5 to quantities. Understand the meaning of 0.

PK.CC.DP2, PK.CC.DP3, MP4

Lesson 12: Count the Math Way

- Count the math way with written numbers.

PK.CC.DP3

Module 2

Lesson 6: Sort the Shapes

- Sort two-dimensional shapes based on the number of straight sides.

PK.G.DP3, MP7

Lesson 7: Triangles, Rectangles, and Square Rectangles

- Name and describe triangles, rectangles, and square rectangles.

PK.G.DP2, PK.G.DP3

Lesson 8: Shape Games

- Communicate the position of two-dimensional shapes by using position words.

PK.G.DP1, PK.G.DP2

Topic C: Build and Compose Two-Dimensional Shapes

Lesson 9: Shape Pictures

- Compose two-dimensional shapes to make a picture.

PK.G.DP5, MP3

Lesson 10: Shape Puzzles

- Compose two-dimensional shapes to complete shape puzzles.

PK.G.DP5

Lesson 11: Build Shapes

- Copy two-dimensional shapes by using various materials.

PK.G.DP4

Lesson 12: Build My Shape

- Build two-dimensional shapes by using various materials.

PK.G.DP4

Module 3

Lesson 6: 5-Piece Puzzles (Optional)

- Explore how to decompose 5 into different parts.

PK.OA.DP3

Topic B: Use Structure to Explore Numbers 6–10

Lesson 7: Do You See 5?

- See the structure of $5 + n$.

PK.CC.DP2, PK.CC.DP6

Lesson 8: Make Your Own Rekenrek!

- Build a 10-bead rekenrek.

PK.CC.DP7, MP6

Lesson 9: Decompose 6 and 7 (Optional)

- Decompose 6 and 7 into different parts.

PK.CC.DP6, PK.CC.DP7, MP7

Lesson 10: Decompose 8 and 9 (Optional)

- Decompose 8 and 9 into different parts.

PK.CC.DP6, PK.CC.DP7

Lesson 11: Decompose 10 (Optional)

- Decompose 10 into different parts.

PK.CC.DP6, PK.CC.DP7

Topic C: Analyze the Count Sequence

Lesson 12: 1 More

- Count 1 more.

PK.CC.DP1

Module 4

Lesson 6: Compare Heights

- Align endpoints to compare heights by using the words *taller than*, *shorter than*, and *about the same height as*.

PK.MD.DP2

Lesson 7: Compare Lengths

- Align endpoints to compare lengths by using the words *longer than*, *shorter than*, and *about the same length as*.

PK.MD.DP2, MP6

Lesson 8: Compare by Using Numbers

- Directly compare the lengths of two objects by using numbers.

PK.MD.DP2

Lesson 9: Straw Line Up (Optional)

- Put objects in order by length.

PK.MD.DP2

Topic C: Compare Weights

Lesson 10: Heavy or Light

- Describe objects as *heavy* or *light*.

PK.MD.DP2

Lesson 11: Compare Weights

- Compare weights by using the words *heavier than*, *lighter than*, and *about the same weight as*.

PK.MD.DP2

Lesson 12: Balance Scale

- Use a balance scale to compare two objects.

PK.MD.DP2

Lesson 13: Collect Data and Compare

- Use weight to compare data.

PK.MD.DP2, MP4

Module 5

Lesson 5: Market Math

- Use the number sequence to tell how many when 1 is added or 1 is taken away in math stories.

PK.OA.DP1

Topic B: Represent Addition Stories

Lesson 6: Dinosaur Splash

- Model *add to with result unknown* story problems.

PK.OA.DP1

Lesson 7: Draw Math Stories: Addition

- Draw to represent *put together with total unknown* and *add to with result unknown* story problems.

PK.OA.DP1

Lesson 8: Math Tools

- Choose a math tool to solve addition story problems.

PK.OA.DP2, MP4

Lesson 9: Mental Movies: Addition

- Visualize to solve addition story problems.

PK.OA.DP1, PK.OA.DP2

Lesson 10: Train Stories: Addition

- Tell addition stories to match a video.

PK.OA.DP1, PK.OA.DP2

Topic C: Compose and Decompose Numbers in More than One Way

Lesson 11: Break Apart 5

- Decompose 5 in more than one way.

PK.OA.DP3

Module 1

Lesson 13: Rosetta Stone
• Explore written numbers and symbols.
PK.CC.DP3

Lesson 14: Rice Scoops
• Use numbers to tell how many.
PK.CC.DP3, PK.CC.DP5, MP8

Lesson 15: Let's Count!
• Organize and count a collection of objects.
PK.CC.DP1, PK.CC.DP4, PK.CC.DP5, PK.CC.DP6

Topic D: Count Out a Set of Up to 5 Objects

Lesson 16: Number Recipe
• Count out a group of objects to match a written number, part 1.
PK.CC.DP3, PK.CC.DP7, MP3

Lesson 17: Bean Bag Toss
• Count out a group of objects to match a written number, part 2.
PK.CC.DP3, PK.CC.DP7

Lesson 18: Forest Path Game
• Play a game to develop counting and cardinality concepts with numbers to 5.
PK.CC.DP4, PK.CC.DP7

Lesson 19: Math Stories
• Count out a group of objects to model math stories.
PK.CC.DP7

Module 2

Topic D: Analyze Three-Dimensional Shapes

Lesson 13: Shape Towers
• Describe three-dimensional shapes by using informal language.
PK.G.DP3, PK.G.DP5

Lesson 14: Puppet's Picture
• Identify the two-dimensional parts of three-dimensional shapes.
PK.G.DP2, PK.G.DP5

Lesson 15: Roll, Slide, or Stack
• Classify three-dimensional shapes based on the ways they can be moved.
PK.G.DP3, MP7, MP8

Lesson 16: Pyramids!
• Construct a three-dimensional shape by using blocks.
PK.G.DP5

Lesson 17: Let's Count and Record! (Optional)
• Organize, count, and record a collection of objects.
PK.CC.DP1, PK.CC.DP4, PK.CC.DP5, PK.CC.DP6

Module 3

Lesson 13: Number Stairs
• Build number stairs to show 1 more.
PK.CC.DP1, PK.CC.DP7

Lesson 14: Number Detective
• Order written numbers 1–10 and reason about an unknown number in the count sequence.
PK.CC.DP1, MP7, MP8

Lesson 15: Count on the Rekenrek
• Count to 20 on the rekenrek.
PK.CC.DP1

Lesson 16: Counting with Puppet
• Count to 20 with written numbers.
PK.CC.DP1

Lesson 17: Let's Count and Record!
• Organize, count, and record a collection of objects.
PK.CC.DP1, PK.CC.DP4, PK.CC.DP5, PK.CC.DP6

Topic D: Use Structure to Analyze Patterns

Lesson 18: Pattern Units
• Experience and find patterns and pattern units.
PK.OA.DP4, MP7, MP8

Lesson 19: Number Cha-Cha
• Connect numbers and movement patterns.
PK.OA.DP4

Lesson 20: Find the Missing Piece
• Recognize and record patterns.
PK.OA.DP4

Lesson 21: A Story in Strings
• Recognize and extend patterns.
PK.OA.DP4

Module 4

Topic D: Compare Sets

Lesson 14: More or Fewer
• Count and compare groups in math stories.
PK.CC.DP8

Lesson 15: Trains
• Relate *more or fewer* to length.
PK.CC.DP8

Lesson 16: Are There Enough?
• Determine if groups have the same amount.
PK.CC.DP8

Lesson 17: Let's Count and Compare!
• Compare groups by using the words *more than*, *fewer than*, and *the same number as*.
PK.CC.DP8, MP7

Topic E: Reason About Comparisons

Lesson 18: How Many Crayons?
• Discuss a representation of data.
PK.CC.DP8, MP4

Lesson 19: Compare Groups
• Organize data and compare the number of objects in each category.
PK.CC.DP8

Lesson 20: Explore Area (Optional)
• Compare areas by using written numbers.
PK.CC.DP8

Module 5

Lesson 12: Match Game: Make 4
• Compose a number in more than one way.
PK.OA.DP3

Lesson 13: Turtle Time
• Sort objects shown in a picture in more than one way.
PK.OA.DP3, MP7

Lesson 14: Sorting Apples
• Create, analyze, and represent a small data set.
PK.OA.DP3

Topic D: Represent Subtraction Stories

Lesson 15: Under the Sea
• Model *take from with result unknown* story problems.
PK.OA.DP1

Lesson 16: Show and Hide Fingers
• Use fingers to represent subtraction.
PK.CC.DP7, PK.OA.DP1

Lesson 17: Draw Math Stories: Subtraction
• Draw to represent *take from with result unknown* stories.
PK.OA.DP1

Lesson 18: Represent Puffins at the Sea
• Choose a math tool to solve subtraction story problems.
PK.OA.DP2, MP5

Lesson 19: Mental Movies: Subtraction
• Visualize to solve subtraction story problems.
PK.OA.DP1, PK.OA.DP2

Module 6

Module 1

Topic E: Sort to Decompose

Lesson 20: Character Sort

- Sort the same characters in more than one way.

PK.MD.DP1

Lesson 21: How Many Ways?

- Decompose the same number in more than one way.

PK.CC.DP3, PK.MD.DP1

Lesson 22: Animal Sort

- Represent a sort with written numbers.

PK.CC.DP3, PK.MD.DP1, MP8

Lesson 23: Story Cards

- Sort objects shown in a picture in more than one way.

PK.MD.DP1

Lesson 24: Mystery Eggs

- Model story problems to decompose a number.

PK.CC.DP6, PK.MD.DP1

Topic F: Match Written Numbers with Sets of Up to 10 Objects

Lesson 25: More Written Numbers

- Match written numbers 6, 7, 8, 9, and 10 to quantities.

PK.CC.DP1, PK.CC.DP3

Lesson 26: Count on the Rekenrek

- Count to 10 on the rekenrek.

PK.CC.DP1

Lesson 27: 5-Groups

- Count objects in a 5-group configuration.

PK.CC.DP1

Module 2

Module 3

Lesson 22: Red Light, Green Light!

- Record a real-world pattern that occurs over time.

PK.OA.DP4, MP4

Module 4

Lesson 21: How Many Scoops? (Optional)

- Compare capacities by using written numbers.

PK.CC.DP8, PK.MD.DP2

Lesson 22: Compare Attributes

- Compare several measurable attributes of objects.

PK.MD.DP2

Module 5

Lesson 20: Train Stories: Subtraction

- Tell subtraction stories to match a video.

PK.OA.DP1, PK.OA.DP2, MP2

Topic E: Extend and Create Patterns

Lesson 21: Create Patterns

- Create and extend patterns and describe them with ordinal concepts.

PK.CC.DP9, PK.OA.DP4, MP7, MP8

Lesson 22: Music and Movement

- Analyze patterns in music and movement.

PK.OA.DP4

Lesson 23: Patterns Everywhere

- Analyze and create patterns.

PK.OA.DP4

Lesson 24: Let's Count and Record!

- Organize, count, and record a collection of objects.

PK.CC.DP1

Module 6

Module 1

Module 2

Module 3

Module 4

Module 5

Module 6

Lesson 28: Counting with Puppet
 • Answer *how many* questions about objects in varied configurations.
PK.CC.DP6, MP6

Lesson 29: Match Game
 • Match written numbers 6, 7, 8, 9, and 10 to quantities.
PK.CC.DP2, PK.CC.DP3, PK.CC.DP6, MP4

Lesson 30: Let's Count and Record!
 • Organize, count, and record a collection of objects.
PK.CC.DP1, PK.CC.DP4, PK.CC.DP5, PK.CC.DP6

Topic G: Count Out a Set of Up to 10 Objects

Lesson 31: Match or No Match?
 • Count out a group to match a written number.
PK.CC.DP3, PK.CC.DP7

Lesson 32: Make It Match
 • Count out a group of objects to match a written number and record.
PK.CC.DP3, PK.CC.DP7

Lesson 33: Dinosaur World
 • Count out groups to model *add to with result unknown* math stories.
PK.CC.DP7, MP2

Lesson 34: Culminating Activity
 • Sort objects into groups and label them with written numbers.
PK.CC.DP3, PK.CC.DP6, PK.MD.DP1, MP1

K: Part–Part–Total

Module 1 Counting and Cardinality	Module 2 Two- and Three-Dimensional Shapes	Module 3 Comparison	Module 4 Composition and Decomposition	Module 5 Addition and Subtraction	Module 6 Place Value Foundations
<p>Topic A: Classify to Make Categories and Count</p> <p>Lesson 1: Compare objects based on their attributes. K.MD.B.3, MP6, K.Mod1.AD10</p> <p>Lesson 2: Classify objects into two categories. K.MD.B.3, MP2, K.Mod1.AD10</p> <p>Lesson 3: Classify objects into two categories and count. K.CC.B.5, K.MD.B.3, MP7, K.Mod1.AD8, K.Mod1.AD10</p> <p>Lesson 4: Classify objects into three categories and count. K.CC.A.1, K.MD.B.3, MP4, K.Mod1.AD1, K.Mod1.AD10</p> <p>Lesson 5: Classify objects into three categories, count, and match to a numeral. K.CC.A.3, K.MD.B.3, MP3, K.Mod1.AD3, K.Mod1.AD10</p>	<p>Topic A: Analyze and Name Two-Dimensional Shapes</p> <p>Lesson 1: Find and describe attributes of flat shapes. K.G.B.4, MP6, K.Mod2.AD5</p> <p>Lesson 2: Classify shapes as triangles or nontriangles. K.G.A.1, K.G.A.2, K.G.B.4, MP3, MP6, K.Mod2.AD1, K.Mod2.AD3, K.Mod2.AD5</p> <p>Lesson 3: Classify shapes as circles, hexagons, or neither. K.G.A.1, K.G.A.2, K.G.B.4, MP7, K.Mod2.AD1, K.Mod2.AD3, K.Mod2.AD5, K.Mod2.AD6</p> <p>Lesson 4: Classify shapes as rectangles or nonrectangles, with square rectangles as a special case. K.G.A.1, K.G.A.2, K.G.B.4, MP3, MP6, K.Mod2.AD1, K.Mod2.AD3, K.Mod2.AD5, K.Mod2.AD6</p>	<p>Topic A: Compare Heights and Lengths</p> <p>Lesson 1: Align endpoints to compare lengths by using <i>taller than</i> and <i>shorter than</i>. K.MD.A.1, K.MD.A.2, MP6, K.Mod3.AD3, K.Mod3.AD4</p> <p>Lesson 2: Compare lengths of simple straight objects by using <i>longer than</i>, <i>shorter than</i>, and <i>about the same length as</i>. K.MD.A.1, K.MD.A.2, MP6, K.Mod3.AD3, K.Mod3.AD4</p> <p>Lesson 3: Compare lengths of complex objects by using <i>longer than</i>, <i>shorter than</i>, and <i>about the same length as</i>. K.MD.A.2, MP1, K.Mod3.AD4</p> <p>Lesson 4: Compare the lengths of cube sticks to flat shapes. K.MD.A.2, MP6, K.Mod3.AD4</p> <p>Lesson 5: Compare the lengths of two cube sticks.</p>	<p>Topic A: Explore Composition and Decomposition</p> <p>Lesson 1: Compose flat shapes and count the parts. K.G.B.6, MP3, K.Mod4.AD5</p> <p>Lesson 2: Decompose flat shapes and count the parts. K.G.B.6, MP6, K.Mod4.AD5</p> <p>Lesson 3: Decompose a group to identify parts and total. K.OA.A.1, MP4, K.Mod4.AD1</p> <p>Lesson 4: Decompose a group and record parts and total by using a number bond. K.OA.A.1, MP5, K.Mod4.AD1</p> <hr/> <p>Topic B: Record Composition and Decomposition</p>	<p>Topic A: Represent Addition</p> <p>Lesson 1: Represent <i>add to with result unknown</i> story problems by using drawings and numbers. K.OA.A.1, MP2, K.Mod5.AD2</p> <p>Lesson 2: Relate number sentences and number bonds through story problems. K.OA.A.1, MP7, K.Mod5.AD2</p> <p>Lesson 3: Represent and solve <i>add to with result unknown</i> story problems. K.OA.A.1, K.OA.A.2, MP5, K.Mod5.AD2, K.Mod5.AD4, K.Mod5.AD6</p> <p>Lesson 4: Represent decomposition situations by using number bonds and addition sentences. K.OA.A.1, K.OA.A.3, MP6, K.Mod5.AD2, K.Mod5.AD7</p> <p>Lesson 5: Represent <i>take apart with both addends unknown</i> situations with a number sentence.</p>	<p>Topic A: Count and Write Teen Numbers</p> <p>Lesson 1: Describe teen numbers as 10 ones and ___ ones. K.CC.B.5, K.NBT.A.1, MP5, K.Mod6.AD5, K.Mod6.AD8</p> <p>Lesson 2: Find 10 ones in a teen number. K.CC.A.1, K.NBT.A.1, MP7, K.Mod6.AD1, K.Mod6.AD8</p> <p>Lesson 3: Write numerals 11–20. K.CC.A.3, K.NBT.A.1, MP8, K.Mod6.AD2, K.Mod6.AD3, K.Mod6.AD8</p> <p>Lesson 4: Order numerals 0–20. K.CC.B.4.c, K.NBT.A.1, MP7, K.Mod6.AD4, K.Mod6.AD8, K.Mod6.AD9</p> <p>Lesson 5: Reason about a number’s position in the number sequence. K.CC.A.1, K.CC.A.2, MP3, K.Mod5.AD1, K.Mod6.AD1</p>

Module 1

Topic B: Answer *How Many* Questions with Up to 5 Objects

Lesson 6: Organize, count, and represent a collection of objects. K.CC.A.1, K.CC.B.4.a, K.CC.B.4.b, K.CC.B.5, MP1, K.Mod1.AD1, K.Mod1.AD4, K.Mod1.AD5, K.Mod1.AD8

Lesson 7: Practice counting accurately. K.CC.A.3, K.CC.B.4.a, K.CC.B.4.b, K.CC.B.5, MP2, K.Mod1.AD3, K.Mod1.AD4, K.Mod1.AD5, K.Mod1.AD8

Lesson 8: Count sets in linear, array, and scattered configurations. K.CC.B.5, MP2, K.Mod1.AD8

Lesson 9: Conserve number regardless of the arrangement of objects. K.CC.B.4.b, MP 8, K.Mod1.AD6

Topic C: Write Numerals and Create Sets of Up to 5 Objects

Lesson 10: Count out a group of objects to match a numeral. K.CC.B.5, MP2, K.Mod1.AD9

Lesson 11: Write numerals 1–3 to answer *how many* questions. K.CC.A.3, MP6, K.Mod1.AD2

Module 2

Lesson 5: Communicate the position of flat shapes by using position words. K.G.A.1, MP7, K.Mod2.AD2

Topic B: Analyze and Name Three-Dimensional Shapes

Lesson 6: Distinguish between flat and solid shapes. K.G.A.3, MP7, K.Mod2.AD4

Lesson 7: Name solid shapes and discuss their attributes. K.G.A.2, K.G.B.4, MP2, K.Mod2.AD3, K.Mod2.AD5, K.Mod2.AD6

Lesson 8: Classify solid shapes based on the ways they can be moved. K.G.B.4, MP7, K.Mod2.AD5, K.Mod2.AD6

Lesson 9: Match solid shapes to their two-dimensional faces. K.G.A.3, K.G.B.4, MP1, K.Mod2.AD4, K.Mod2.AD5, K.Mod2.AD6

Topic C: Construct Shapes

Lesson 10: Construct a circle. K.G.B.4, K.G.B.5, MP7, K.Mod2.AD5, K.Mod2.AD6, K.Mod2.AD7

Lesson 11: Construct and classify polygons. K.G.A.2, K.G.B.5, MP3, K.Mod2.AD3, K.Mod2.AD7

Module 3

K.MD.A.2, MP4, K.Mod3.AD4

Lesson 6: Compose cube sticks that are the same length. K.MD.A.2, MP2, K.Mod3.AD4

Topic B: Compare Weights

Lesson 7: Compare weights by using *heavier than*, *lighter than*, and *about the same weight as*. K.MD.A.1, K.MD.A.2, MP5, K.Mod3.AD3, K.Mod3.AD5

Lesson 8: Use a balance scale to compare two objects. K.MD.A.2, MP3, K.Mod3.AD5

Lesson 9: Use a balance scale to compare an object to a group of cubes. K.MD.A.2, MP2, K.Mod3.AD5

Lesson 10: Use a balance scale to compare an object to different units. K.MD.A.2, MP4, K.Mod3.AD5

Lesson 11: Observe conservation of weight on the balance scale. K.MD.A.2, MP8, K.Mod3.AD5

Topic C: Compare Sets Within 10

Lesson 12: Relate *more* and *fewer* to length. K.CC.C.6, K.MD.A.1, K.MD.A.2, MP6, K.Mod3.AD1, K.Mod3.AD3, K.Mod3.AD4

Module 4

Lesson 5: Sort to decompose a number in more than one way. K.OA.A.3, MP4, K.Mod4.AD4

Lesson 6: Decompose a number in more than one way and record. K.OA.A.1, K.OA.A.3, MP8, K.Mod4.AD1, K.Mod4.AD4

Lesson 7: Find partners to 5. K.OA.A.1, K.OA.A.3, MP6, K.Mod4.AD1, K.Mod4.AD4

Lesson 8: Find partners to 10. K.OA.A.3, MP4, K.Mod4.AD4

Lesson 9: Compose shapes in more than one way. K.G.B.6, MP6, MP7, K.Mod4.AD5

Lesson 10: Sort and record the decomposition with a number bond. K.OA.A.1, MP4, K.Mod4.AD1

Topic C: Model Composition and Decomposition in Story Problems

Lesson 11: Model *put together with total unknown* story problems. K.OA.A.1, K.OA.A.2, MP5, K.Mod4.AD1, K.Mod4.AD2

Lesson 12: Draw to represent *put together with total unknown* story problems. K.OA.A.2, MP4, K.Mod4.AD2

Lesson 13: Choose a math tool to solve *put together with total unknown* story problems.

Module 5

K.OA.A.1, MP2, K.Mod5.AD2

Lesson 6: Tell addition story problems starting from number sentence models. K.OA.A.1, MP3, K.Mod5.AD2

Lesson 7: Find the total in an addition sentence. K.OA.A.1, K.OA.A.5, MP5, K.Mod5.AD2, K.Mod5.AD9

Topic B: Represent Subtraction

Lesson 8: Understand taking away as a type of subtraction. K.OA.A.1, MP8, K.Mod5.AD3

Lesson 9: Represent *take from with result unknown* story problems by using drawings and numbers. K.OA.A.1, MP2, K.Mod5.AD3

Lesson 10: Represent and solve *take from with result unknown* story problems. K.OA.A.1, K.OA.A.2, MP5, K.Mod5.AD3, K.Mod5.AD4, K.Mod5.AD6

Lesson 11: Represent decomposition situations by using number bonds and subtraction sentences. K.OA.A.1, MP7, K.Mod5.AD3

Lesson 12: Relate parts to total in subtraction situations. K.OA.A.1, K.OA.A.2, MP4, K.Mod5.AD3, K.Mod5.AD4, K.Mod5.AD6

Module 6

Lesson 6: Count out a group of objects to match a numeral. K.NBT.A.1, MP5, MP7, K.Mod6.AD6, K.Mod6.AD8, K.Mod6.AD9

Topic B: Compose and Decompose Teen Numbers

Lesson 7: Decompose numbers 10–20 with 10 as a part. K.CC.B.5, K.NBT.A.1, MP8, K.Mod6.AD5, K.Mod6.AD8, K.Mod6.AD9

Lesson 8: Represent teen number compositions and decompositions as addition sentences. K.OA.A.2, K.NBT.A.1, MP2, K.Mod6.AD7, K.Mod6.AD8, K.Mod6.AD9

Lesson 9: Represent teen number decompositions as subtraction sentences. K.OA.A.2, K.NBT.A.1, MP4, K.Mod6.AD7, K.Mod6.AD8, K.Mod6.AD9

Lesson 10: Make sense of word problems involving teen numbers. K.OA.A.2, K.NBT.A.1, MP1, K.Mod6.AD7, K.Mod6.AD8, K.Mod6.AD9

Lesson 11: Represent teen number decompositions as 10 ones and some ones and find a hidden part. K.OA.A.2, K.NBT.A.1, MP4, MP5, K.Mod6.AD7, K.Mod6.AD8, K.Mod6.AD9

Module 1

Lesson 12: Write numerals 4 and 5 to answer how many questions.
K.CC.A.1, K.CC.A.3, MP2, K.Mod1.AD1, K.Mod1.AD2

Lesson 13: Count out enough objects and write the numeral.
K.CC.B.4.a, K.CC.B.4.b, MP3, K.Mod1.AD4, K.Mod1.AD5

Topic D: Decompose Numbers

Lesson 14: Understand the meaning of zero and write the numeral.
K.CC.A.3, MP2, K.Mod1.AD2, K.Mod1.AD3

Lesson 15: Sort the same group of objects in more than one way and count.
K.MD.B.3, K.OA.A.3, MP6, K.Mod1.AD10

Lesson 16: Decompose a set shown in a picture.
K.MD.B.3, K.OA.A.3, MP5, K.Mod1.AD10

Lesson 17: Model story problems.
MP4, MP5

Lesson 18: Model story problems and identify the numeral referents.
MP2

Topic E: Answer How Many Questions with Up to 10 Objects

Module 2

Lesson 12: Construct solid shapes by using a square base.
K.G.B.4, K.G.B.5, MP6, K.Mod2.AD5, K.Mod2.AD6, K.Mod2.AD7

Lesson 13: Draw flat shapes.
K.G.B.4, K.G.B.5, MP5, K.Mod2.AD5, K.Mod2.AD6, K.Mod2.AD8

Lesson 14: Compose flat shapes.
K.G.A.1, K.G.A.2, MP6, K.Mod2.AD2, K.Mod2.AD3

Lesson 15: Compose solid shapes to create a structure that can fit a toy inside.
K.G.B.4, MP1, K.Mod2.AD5, K.Mod2.AD6

Lesson 16: Organize, count, and represent a collection of objects. (Optional)
MP4

Module 3

Lesson 13: Compare sets by using *more than*, *fewer than*, and *the same number as*.
K.CC.C.6, K.Mod3.AD1

Lesson 14: Use number to compare sets with like units.
K.CC.C.6, MP5, K.Mod3.AD1

Lesson 15: Classify flat shapes into groups and compare the number of shapes in each group.
K.MD.B.3, MP3, K.Mod3.AD6

Lesson 16: Count and compare sets with unlike units.
K.CC.C.6, MP2, K.Mod3.AD1

Lesson 17: Count and compare sets in pictures.
K.CC.C.6, MP1, K.Mod3.AD1

Topic D: Compare Numbers Within 10

Lesson 18: Compare the capacity of containers by using numerals.
K.CC.C.7, MP2, K.Mod3.AD2

Lesson 19: Compare numbers by using *greater than*, *less than*, and *equal to*.
K.CC.C.7, MP6, K.Mod3.AD2

Lesson 20: Compare two numbers in story situations.
K.CC.C.7, MP3, K.Mod3.AD2

Lesson 21: Describe and compare several measurable attributes of objects and sets.

Module 4

K.OA.A.2, MP4, MP5, K.Mod4.AD2

Lesson 14: Model *take apart with both addends unknown* situations.
K.OA.A.2, MP1, K.Mod4.AD3

Lesson 15: Choose a math tool to solve *take apart with both addends unknown* situations.
K.OA.A.1, K.OA.A.2, MP2, K.Mod4.AD1, K.Mod4.AD3

Lesson 16: Compose and decompose numbers and shapes.
K.OA.A.2, MP7, K.Mod4.AD2, K.Mod4.AD3

Lesson 17: Organize, count, and represent a collection of objects. (Optional)
MP7

Lesson 18: Use the structure of 5 and 10 to build a rekenrek. (Optional)
K.OA.A.3, MP5, MP7, K.Mod4.AD4

Module 5

Lesson 13: Tell subtraction story problems starting from number sentence models.
K.OA.A.1, MP3, K.Mod5.AD3

Lesson 14: Find the difference in a subtraction sentence.
K.OA.A.1, K.OA.A.5, MP5, K.Mod5.AD3, K.Mod5.AD10

Topic C: Make Sense of Problems

Lesson 15: Identify the action in a problem to represent and solve it.
K.OA.A.1, K.OA.A.2, MP1, K.Mod5.AD2, K.Mod5.AD3, K.Mod5.AD4, K.Mod5.AD6

Lesson 16: Relate addition and subtraction through word problems.
K.OA.A.1, K.OA.A.2, MP7, K.Mod5.AD2, K.Mod5.AD3, K.Mod5.AD4, K.Mod5.AD6

Lesson 17: Reason about different units to solve story problems.
K.OA.A.2, MP1, K.Mod5.AD4, K.Mod5.AD6

Lesson 18: Count starting from a number other than 1 to find the total.
K.CC.A.2, MP8, K.Mod5.AD1

Lesson 19: Represent and solve *take apart with change unknown* problems.
K.OA.A.1, MP4, K.Mod5.AD2, K.Mod5.AD3

Module 6

Lesson 12: Investigate different ways to decompose teen numbers. (Optional)
K.CC.B.5, MP7, K.Mod6.AD5

Topic C: Count to 100

Lesson 13: Organize, count, and represent a collection of objects.
MP7

Lesson 14: Count by tens.
K.CC.A.1, MP6, K.Mod6.AD1

Lesson 15: Count by tens by using math tools.
K.CC.A.1, MP5, K.Mod6.AD1

Lesson 16: Use the structure of ten to count to 100.
K.CC.A.1, K.CC.A.2, MP7, K.Mod5.AD1, K.Mod6.AD1

Lesson 17: Use patterns in the number sequence to count by ones within 100.
K.CC.A.1, K.CC.A.2, K.CC.A.3, MP7, K.Mod5.AD1, K.Mod6.AD1, K.Mod6.AD3

Lesson 18: Count within and across decades when counting by ones, part 1.
K.CC.A.1, K.CC.A.2, MP3, K.Mod5.AD1, K.Mod6.AD1

Lesson 19: Count within and across decades when counting by ones, part 2.
K.CC.A.1, K.CC.A.2, MP5, K.Mod5.AD1, K.Mod6.AD1

Module 1

Lesson 19: Organize, count, and represent a collection of objects.

K.CC.A.1, K.CC.B.4.a, K.CC.B.4.b, K.CC.B.5, MP5, K.Mod1.AD1, K.Mod1.AD4, K.Mod1.AD5, K.Mod1.AD8

Lesson 20: Count objects in 5-group and array configurations and match to a numeral.

K.CC.B.4.b, K.CC.B.5, K.CC.A.3, MP7, K.Mod1.AD5, K.Mod1.AD8

Lesson 21: Count sets in circular configurations and match to a numeral.

K.CC.A.3, K.CC.B.5, MP6, K.Mod1.AD3, K.Mod1.AD8

Lesson 22: Count sets in scattered configurations and match to a numeral.

K.CC.A.3, K.CC.B.5, MP2, K.Mod1.AD3, K.Mod1.AD8

Lesson 23: Conserve number regardless of the order in which objects are counted.

K.CC.B.4.b, MP8, K.Mod1.AD6

Topic F: Write Numerals and Create Sets of Up to 10 Objects

Lesson 24: Count out a group of objects to match a numeral.

K.CC.B.5, MP4, K.Mod1.AD9

Lesson 25: Write numerals 6 and 7.

K.CC.A.3, MP2, K.Mod1.AD2

Module 2

Module 3

K.CC.C.6, K.MD.A.1, K.MD.A.2, MP1, K.Mod3.AD1, K.Mod3.AD3, K.Mod3.AD4, K.Mod3.AD5

Lesson 22: Organize, count, and represent a collection of objects. (Optional)

MP5

Module 4

Module 5

Lesson 20: Find the number that makes 10 and record with a number sentence.

K.OA.A.4, MP3, K.Mod5.AD8

Lesson 21: Organize drawings to solve problems efficiently.

K.OA.A.1, MP2, MP4, K.Mod5.AD2, K.Mod5.AD3

Topic D: Make Use of Structure

Lesson 22: Identify and extend linear patterns.

K.CC.A.2, MP7, K.Mod5.AD1

Lesson 23: Use a pattern to make a prediction.

K.CC.A.2, MP2, MP7, MP8, K.Mod5.AD1

Lesson 24: Solve story problems by using repeated reasoning.

K.OA.A.1, MP7, MP8, K.Mod5.AD2

Lesson 25: Extend growing patterns.

K.G.B.6, MP7, K.Mod5.AD5

Lesson 26: Reason about numbers to add and subtract.

K.OA.A.1, K.OA.A.4, MP8, K.Mod5.AD2, K.Mod5.AD3, K.Mod5.AD8

Lesson 27: Organize, count, and represent a collection of objects. (Optional)

MP7

Module 6

Topic D: Compare

Lesson 20: Compare totals in story situations. (Optional)

K.CC.C.6, MP3, K.Mod3.AD1

Lesson 21: Count and compare sets with more than 10 objects. (Optional)

K.CC.C.6, MP5, K.Mod3.AD1

Lesson 22: Compare area by comparing number. (Optional)

K.CC.C.6, MP6, K.Mod3.AD1

Lesson 23: Compare lengths of objects by using 10-sticks and cubes. (Optional)

K.CC.C.6, MP7, K.Mod3.AD1

Lesson 24: Organize, count, and represent a collection of objects.

MP7

Module 1

Module 2

Module 3

Module 4

Module 5

Module 6

Lesson 26: Write numeral 8.
K.CC.A.1, K.CC.A.3, MP7,
K.Mod1.AD1, K.Mod1.AD2

Lesson 27: Write numerals 9 and 10.
K.CC.A.3, MP5, K.Mod1.AD2

Lesson 28: Order numerals 1–10
and reason about an unknown
number in the number sequence.
K.CC.A.1, MP7, K.Mod1.AD1

**Topic G: Analyze the Count
Sequence**

Lesson 29: Model the pattern of 1
more in the forward count sequence.
K.CC.B.4.c, MP8, K.Mod1.AD7

Lesson 30: Build number stairs to
show the pattern of 1 more in the
forward count sequence.
K.CC.B.4.c, MP7, K.Mod1.AD7

Lesson 31: Model the pattern of 1
less in the backward count sequence.
K.CC.B.4.c, MP8, K.Mod1.AD7

Lesson 32: Build number stairs to
show the pattern of 1 less in the
backward count sequence.
K.CC.B.4.c, MP7, K.Mod1.AD7

Lesson 33: Organize, count, and
represent a collection of objects.
K.CC.A.1, K.CC.B.4.a,
K.CC.B.4.b, K.CC.B.5, MP4,
K.Mod1.AD1, K.Mod1.AD4,
K.Mod1.AD5, K.Mod1.AD8

Module 1	Module 2	Module 3	Module 4	Module 5	Module 6: Part 1	Module 6: Part 2
Counting, Comparison, and Addition	Addition and Subtraction Relationships	Properties of Operations to Make Easier Problems	Comparison and Composition of Length Measurements	Place Value Concepts to Compare, Add, and Subtract	Attributes of Shapes	Advancing Place Value, Addition, and Subtraction
<p>Topic A: Count and Compare with Data</p> <p>Lesson 1: Organize to find how many and compare. MP6</p> <p>Lesson 2: Organize and represent data to compare two categories. 1.NBT.B.3, 1.MD.C.4, MP2, 1.Mod1.AD8, 1.Mod1.AD9</p> <p>Lesson 3: Sort to represent and compare data with three categories. 1.NBT.B.3, 1.MD.C.4, MP4, 1.Mod1.AD8, 1.Mod1.AD9</p> <p>Lesson 4: Find the total number of data points and compare categories in a picture graph. 1.NBT.B.3, 1.MD.C.4, MP6, 1.Mod1.AD8, 1.Mod1.AD9</p>	<p>Topic A: Reason About Take From Situations</p> <p>Lesson 1: Represent <i>result unknown</i> problems and record as addition or subtraction number sentences. 1.OA.A.1, MP2, 1.Mod2.AD1</p> <p>Lesson 2: Subtract all or subtract 0. 1.OA.C.5, 1.OA.C.6, MP3, MP8, 1.Mod2.AD4, 1.Mod2.AD5</p> <p>Lesson 3: Subtract 1 or subtract 1 less than the total. 1.OA.C.5, 1.OA.C.6, MP3, MP8, 1.Mod2.AD4, 1.Mod2.AD5</p> <p>Lesson 4: Use fingers to subtract 4, 5, and 6 efficiently. 1.OA.C.5, 1.OA.C.6, MP5, MP7, 1.Mod2.AD4, 1.Mod2.AD5</p>	<p>Topic A: Make Easier Problems with Three Addends</p> <p>Lesson 1: Group to make ten when there are three parts. 1.OA.B.3, 1.OA.C.6, MP7, 1.Mod3.AD2</p> <p>Lesson 2: Make ten with three addends. 1.OA.A.2, 1.OA.B.3, MP7, 1.Mod3.AD1</p> <p>Lesson 3: Represent and solve three-addend word problems. 1.OA.A.2, 1.OA.B.3, MP2, 1.Mod3.AD1</p> <p>Lesson 4: Use properties of addition to make three-addend expressions easier. 1.OA.B.3, 1.OA.C.6, MP7, 1.Mod3.AD2, 1.Mod3.AD3</p>	<p>Topic A: Direct and Indirect Length Comparison</p> <p>Lesson 1: Compare and order objects by length. 1.MD.A.1, MP6, 1.Mod4.AD4</p> <p>Lesson 2: Reason to order and compare heights. 1.MD.A.1, MP3, 1.Mod4.AD4</p> <p>Lesson 3: Compare the lengths of two objects indirectly by using a third object. 1.MD.A.1, MP5, MP3, 1.Mod4.AD5</p> <hr/> <p>Topic B: Length Measurement and Comparison</p> <p>Lesson 4: Measure accurately with centimeter cubes. 1.MD.A.2, MP5, MP6, 1.Mod4.AD7</p>	<p>Topic A: Grouping Units in Tens and Ones</p> <p>Lesson 1: Tell time to the hour and half hour using digital and analog clocks. 1.MD.B.3, MP6, 1.Mod5.AD10</p> <p>Lesson 2: Count a collection and record the total in units of tens and ones. 1.NBT.A.1, 1.NBT.B.2.a, 1.NBT.B.2, MP4, 1.Mod5.AD1, 1.Mod5.AD3</p> <p>Lesson 3: Recognize the place value of digits in a two-digit number. 1.NBT.A.1, 1.NBT.B.2.a, 1.NBT.B.2, MP7, 1.Mod5.AD1, 1.Mod5.AD3</p> <p>Lesson 4: Represent a number in multiple ways by trading 10 ones for a ten. 1.NBT.B.2, 1.NBT.B.2.b, 1.NBT.B.2.c, MP2, 1.Mod5.AD2, 1.Mod5.AD3</p>	<p>Topic A: Attributes of Shapes</p> <p>Lesson 1: Name two-dimensional shapes based on the number of sides. 1.G.A.1, MP7, 1.Mod6.AD2</p> <p>Lesson 2: Sort and name two-dimensional shapes based on attributes. 1.G.A.1, MP7, 1.Mod6.AD2</p> <p>Lesson 3: Draw two-dimensional shapes and identify defining attributes. 1.G.A.1, MP4, 1.Mod6.AD2, 1.Mod6.AD3</p> <p>Lesson 4: Name solid shapes and describe their attributes. 1.G.A.1, MP7, 1.Mod6.AD2</p> <p>Lesson 5: Reason about the functionality of three-dimensional shapes based on their attributes. 1.G.A.1, MP6, 1.Mod6.AD2</p>	<p>Topic D: Count and Represent Numbers Beyond 100</p> <p>Lesson 16: Count and record totals for a collection above 100. 1.NBT.A.1, MP6, 1.Mod6.AD8</p> <p>Lesson 17: Read, write and represent numbers greater than 100. 1.NBT.A.1, MP7, 1.Mod6.AD8, 1.Mod6.AD10</p> <p>Lesson 18: Count up and down across 100. 1.NBT.A.1, MP7, 1.Mod6.AD10</p> <p>Lesson 19: Write totals for collections larger than 100 shown in various groups of tens and ones. 1.NBT.A.1, MP3, 1.Mod6.AD8, 1.Mod6.AD9</p>

Module 1

Lesson 5: Organize and represent categorical data.
1.MD.C.4, MP1, 1.Mod1.AD9

Lesson 6: Use tally marks to represent and compare data.
1.NBT.B.3, 1.MD.C.4, MP5, 1.Mod1.AD8, 1.Mod1.AD9

Topic B: Count On from a Visible Part

Lesson 7: Count all or count on to solve *put together with total unknown* situations.
1.OA.C.5, MP8, 1.Mod1.AD2

Lesson 8: Count on from a known part and identify both parts in a total.
1.OA.C.5, MP6, 1.Mod1.AD2

Lesson 9: Count on from both parts and record part–total relationships.
1.OA.B.3, 1.OA.C.5, MP2, 1.Mod1.AD1, 1.Mod1.AD2

Lesson 10: Count on from 5 within a set.
1.OA.C.5, MP7, 1.Mod1.AD2

Lesson 11: See any part in a set and count on.
1.OA.C.5, MP3, 1.Mod1.AD2

Lesson 12: Count on from 10 to find an unknown total.
1.OA.C.5, 1.NBT.B.2, 1.NBT.B.2.b, MP7, 1.Mod1.AD2, 1.Mod1.AD7

Module 2

Topic B: Relate and Distinguish Addition and Subtraction

Lesson 5: Use the Read–Draw–Write process to solve *result unknown* problems.
1.OA.A.1, MP2, 1.Mod2.AD1

Lesson 6: Represent and solve related addition and subtraction *result unknown* problems.
1.OA.A.1, MP4, 1.Mod2.AD1

Lesson 7: Count on or count back to solve related addition and subtraction problems.
1.OA.A.1, 1.OA.C.5, 1.OA.C.6, MP7, 1.Mod2.AD1, 1.Mod2.AD4

Topic C: Find an Unknown Part in Change Unknown Problems

Lesson 8: Interpret and find an unknown change.
1.OA.A.1, MP1, 1.Mod2.AD1

Lesson 9: Represent and solve *add to with change unknown* problems.
1.OA.A.1, MP4, 1.Mod2.AD1

Lesson 10: Represent and find an unknown addend in equations.
1.OA.D.8, MP5, 1.Mod2.AD7

Module 3

Topic B: Make Easier Problems to Add

Lesson 5: Make ten when an addend is 5.
1.OA.B.3, 1.OA.C.6, MP7, 1.Mod3.AD3

Lesson 6: Make ten when the first addend is 9.
1.OA.B.3, 1.OA.C.6, MP2, 1.Mod3.AD3

Lesson 7: Make ten when the first addend is 8 or 9.
1.OA.B.3, 1.OA.C.6, MP3, 1.Mod3.AD3

Lesson 8: Make ten when the second addend is 8 or 9.
1.OA.B.3, 1.OA.C.6, MP7, 1.Mod3.AD3

Lesson 9: Make ten with either addend.
1.OA.B.3, 1.OA.C.6, MP3, 1.Mod3.AD3

Lesson 10: Make ten when there are three addends.
1.OA.B.3, 1.OA.C.6, MP1, 1.Mod2.AD2

Topic C: Make Easier Addition Problems with a Linear Model

Module 4

Lesson 5: Measure and compare lengths.
1.NBT.B.3, 1.MD.A.1, 1.MD.A.2, MP2, MP6, 1.Mod4.AD3

Lesson 6: Measure and order lengths.
1.MD.A.1, 1.MD.A.2, MP2, MP6, 1.Mod4.AD6

Lesson 7: Use 10-centimeter sticks and centimeter cubes to measure.
1.MD.A.2, MP5, MP7, 1.Mod4.AD7

Lesson 8: Draw to represent a length measurement.
1.NBT.B.2, 1.NBT.B.2.a, 1.NBT.B.2.b, 1.MD.A.2, MP4, 1.Mod4.AD2, 1.Mod4.AD7

Lesson 9: Represent a total length as units of tens and ones.
1.NBT.B.2, 1.NBT.B.2.a, 1.NBT.B.2.b, 1.MD.A.2, MP6, 1.Mod4.AD2, 1.Mod4.AD7

Topic C: Comparison Word Problems with Measurement

Lesson 10: Compare to find how much longer.
1.OA.A.1, 1.MD.A.2, MP7, 1.Mod4.AD1, 1.Mod4.AD7

Lesson 11: Compare to find how much shorter.

Module 5

Lesson 5: Reason about equivalent representations of a number.
1.NBT.A.1, 1.NBT.B.2, 1.NBT.B.2.a, 1.NBT.B.2.b, 1.NBT.B.2.c, MP3, 1.Mod5.AD1, 1.Mod5.AD2, 1.Mod5.AD3

Lesson 6: Add 10 or take 10 from a two-digit number.
1.NBT.C.5, MP8, 1.Mod5.AD9

Topic B: Use Place Value to Compare

Lesson 7: Use place value reasoning to compare two quantities.
1.NBT.B.3, MP7, 1.Mod5.AD4

Lesson 8: Use place value reasoning to write and compare 2 two-digit numbers.
1.NBT.B.2, 1.NBT.B.3, MP3, 1.Mod5.AD3, 1.Mod5.AD4

Lesson 9: Compare two quantities and make them equal.
1.NBT.B.3, MP3, 1.Mod5.AD4

Topic C: Addition of One-Digit and Two-Digit Numbers

Lesson 10: Add the ones first.
1.NBT.C.4, MP7, 1.Mod5.AD7

Lesson 11: Add the ones to make the next ten.
1.NBT.C.4, MP8, 1.Mod5.AD7

Module 6: Part 1

Topic B: Composition of Shapes

Lesson 6: Create composite shapes and identify shapes within two- and three-dimensional composite shapes.
1.G.A.2, MP2, 1.Mod6.AD4

Lesson 7: Create new composite shapes by adding a shape.
1.G.A.2, MP8, 1.Mod6.AD4

Lesson 8: Combine identical composite shapes.
1.G.A.2, MP1, 1.Mod6.AD4

Lesson 9: Relate the size of a shape to how many are needed to compose a new shape.
1.G.A.2, MP8, 1.Mod6.AD4

Topic C: Halves and Fourths

Lesson 10: Reason about equal and not equal shares.
1.G.A.3, MP4, 1.Mod6.AD5

Lesson 11: Name equal shares as halves or fourths.
1.G.A.3, MP5, 1.Mod6.AD5

Lesson 12: Partition shapes into halves, fourths, and quarters.
1.G.A.3, MP3, 1.Mod6.AD5

Module 6: Part 2

Topic E: Deepening Problem Solving

Lesson 20: Represent and solve *put together* and *take apart* word problems.
1.OA.A.1, MP4, 1.Mod6.AD7

Lesson 21: Represent and solve *add to* and *take from* word problems.
1.OA.A.1, MP2, 1.Mod6.AD7

Lesson 22: Represent and solve *add to* and *take from with start unknown* word problems.
1.OA.A.1, MP4, 1.Mod6.AD7

Lesson 23: Represent and solve comparison word problems.
1.OA.A.1, MP7, 1.Mod6.AD7

Lesson 24: Reason with non-standard measurement units.
1.OA.A.1, MP6, 1.Mod6.AD7

Lesson 25: Solve non-routine problems. (Optional)
1.OA.A.1, MP1, 1.Mod6.AD7

Topic F: Extending Addition to 100

Lesson 26: Make a total in more than one way.
1.NBT.C.4, MP7, 1.Mod6.AD12

Module 1

Topic C: Count On to Add

Lesson 13: Count on from an addend in *add to with result unknown* situations.
1.OA.C.5, MP5, 1.Mod1.AD2

Lesson 14: Count on to find the total of an addition expression.
1.OA.C.5, 1.OA.C.6, MP3, 1.Mod1.AD3

Lesson 15: Use the commutative property to count on from the larger addend.
1.OA.B.3, MP7, 1.Mod1.AD1

Lesson 16: Use the commutative property to find larger totals.
1.OA.B.3, MP3, 1.Mod1.AD1

Lesson 17: Add 0 and 1 to any number.
1.OA.C.5, 1.OA.C.6, MP8, 1.Mod1.AD3, 1.Mod1.AD4

Topic D: Make the Same Total in Varied Ways

Lesson 18: Determine whether number sentences are true or false.
1.OA.D.7, MP2, 1.Mod1.AD6

Lesson 19: Reason about the meaning of the equal sign.

Module 2

Lesson 11: Represent and solve *take from with change unknown* problems.
1.OA.A.1, MP4, 1.Mod2.AD1

Lesson 12: Represent and find an unknown subtrahend in equations.
1.OA.D.8, MP3, 1.Mod2.AD7

Lesson 13: Represent and solve *add to* and *take from with change unknown* problems.
1.OA.A.1, 1.OA.D.8, MP7, 1.Mod2.AD1, 1.Mod2.AD7

Topic D: Find an Unknown Part by Using Addition and Subtraction

Lesson 14: Represent and solve *put together/take apart with addend unknown* problems.
1.OA.A.1, MP1, 1.Mod2.AD1

Lesson 15: Relate counting on and counting back to find an unknown part.
1.OA.D.8, MP2, 1.Mod2.AD7

Lesson 16: Compare the efficiency of counting on and counting back to subtract.
1.OA.C.5, 1.OA.C.6, MP3, 1.Mod2.AD4

Lesson 17: Use related addition facts to subtract from 10.
1.OA.B.4, MP7, 1.Mod2.AD3

Module 3

Lesson 11: Represent and compare related situation equations, part 1.
1.OA.A.1, 1.OA.A.2, 1.OA.B.3, MP7, 1.Mod2.AD1, 1.Mod3.AD1

Lesson 12: Represent and compare related situation equations, part 2.
1.OA.A.1, 1.OA.A.2, 1.OA.B.3, MP1, MP4, 1.Mod2.AD1, 1.Mod3.AD1

Lesson 13: Count on to make ten within 20.
1.OA.B.3, 1.OA.C.6, MP3, MP5, 1.Mod3.AD3

Lesson 14: Count on to make the next ten within 100.
1.OA.B.3, 1.OA.C.6, MP8, 1.Mod3.AD3

Topic D: Reason About Ten as a Unit to Add or Subtract

Lesson 15: Count and record a collection of objects.
1.NBT.A.1, 1.NBT.B.2, 1.NBT.B.2.a, MP4, 1.Mod3.AD7

Lesson 16: Identify ten as a unit.
1.NBT.A.1, 1.NBT.B.2, 1.NBT.B.2.a, 1.NBT.B.2.b, 1.NBT.B.2.c, MP6, 1.Mod3.AD7, 1.Mod3.AD8

Module 4

1.O.A.1, 1.MD.A.2, MP4, 1.Mod4.AD1, 1.Mod4.AD7

Lesson 12: Find the unknown longer length.
1.OA.A.1, MP5, 1.Mod4.AD1

Lesson 13: Find the unknown shorter length.
1.OA.A.1, MP2, 1.Mod4.AD1

Lesson 14: Measure to find patterns. (Optional)
1.MD.A.2, MP1, MP8, 1.Mod4.AD7

Module 5

Lesson 12: Decompose an addend to make the next ten.
1.NBT.C.4, MP4, 1.Mod5.AD7

Lesson 13: Reason about related problems that make the next ten.
1.NBT.C.4, MP3, 1.Mod5.AD7

Lesson 14: Determine which equations make the next ten.
1.NBT.C.4, MP7, MP8, 1.Mod5.AD7

Topic D: Addition and Subtraction of Tens

Lesson 15: Count on and back by tens to add and subtract.
1.NBT.C.4, 1.NBT.C.6, MP5, 1.Mod5.AD5

Lesson 16: Use related single-digit facts to add and subtract multiples of ten.
1.NBT.C.4, 1.NBT.C.6, MP2, 1.Mod5.AD5

Lesson 17: Use tens to find an unknown part.
1.NBT.C.4, 1.NBT.C.6, MP7, 1.Mod5.AD5

Lesson 18: Determine if number sentences involving addition and subtraction are true or false.
1.OA.D.7, 1.NBT.C.4, 1.NBT.C.6, MP3, 1.Mod5.AD5, 1.Mod1.AD6

Module 6: Part 1

Lesson 13: Relate the number of equal shares to the size of the shares.
1.G.A.3, MP8, 1.Mod6.AD6

Lesson 14: Tell time to the half hour using the term *half past*.
1.MD.B.3, MP3, 1.Mod6.AD1

Lesson 15: Reason about the location of the hour hand to tell time. (Optional)
1.MD.B.3, MP7, 1.Mod6.AD1

Module 6: Part 2

Lesson 27: Add two-digit numbers in various ways, part 1.
1.NBT.C.4, MP3, 1.Mod6.AD11, 1.Mod6.AD12

Lesson 28: Add two-digit numbers in various ways, part 2.
1.NBT.C.4, MP7, 1.Mod6.AD11, 1.Mod6.AD12

Lesson 29: Add tens to make 100. (Optional)
1.NBT.C.4, MP8, 1.Mod6.AD12

Lesson 30: Make the next 10, add tens to make 100.
1.NBT.C.4, MP7, 1.Mod6.AD11, 1.Mod6.AD12

Lesson 31: Add to make 100.
1.NBT.C.4, MP5, 1.Mod6.AD11, 1.Mod6.AD12

Module 1

1.OA.D.7, MP3, MP5, 1.Mod1.AD6

Lesson 20: Find all two-part expressions equal to 6.
1.OA.C.6, MP6, 1.Mod1.AD4, 1.Mod1.AD5

Lesson 21: Find all two-part expressions equal to 7 and 8.
1.OA.C.6, MP8, 1.Mod1.AD4, 1.Mod1.AD5

Lesson 22: Find all two-part expressions equal to 9 and 10.
1.OA.C.6, MP7, 1.Mod1.AD4, 1.Mod1.AD5

Lesson 23: Find the totals of doubles +1 facts.
1.OA.C.5, 1.OA.C.6, MP8, 1.Mod1.AD3

Lesson 24: Use known facts to make easier problems.
1.OA.C.5, 1.OA.C.6, 1.OA.D.7, MP3, 1.Mod1.AD3, 1.Mod1.AD6

Lesson 25: Organize, count, and record a collection of objects. (Optional)
MP4

**Module 2**

Lesson 18: Use related addition facts to subtract.
1.OA.B.4, MP7, 1.Mod2.AD3

Lesson 19: Determine the value of the unknown in various positions.
1.OA.B.4, 1.OA.D.8, MP3, 1.Mod2.AD3, 1.Mod2.AD7

Topic E: Represent and Solve Comparison Problems

Lesson 20: Add or subtract to make groups equal.
1.OA.D.7, MP6, 1.Mod2.AD6

Lesson 21: Represent and solve *compare with difference unknown* problems, part 1.
1.OA.A.1, MP4, 1.Mod2.AD2

Lesson 22: Represent and solve *compare with difference unknown* problems, part 2.
1.OA.A.1, MP2, 1.Mod2.AD2

Lesson 23: Compare categories in a graph to figure out how many more.
1.MD.C.4, MP6, 1.Mod2.AD8

**Module 3**

Lesson 17: Add a two-digit number and a one-digit number.
1.OA.C.6, 1.NBT.2, 1.NBT.B.2.b, 1.NBT.B.2.c, MP7, 1.Mod3.AD5, 1.Mod3.AD8

Lesson 18: Subtract a one-digit number from a two-digit number.
1.OA.C.6, 1.NBT.B.2, 1.NBT.B.2.b, 1.NBT.B.2.c, MP8, 1.Mod3.AD6, 1.Mod3.AD8

Lesson 19: Solve *take from with change unknown* problems with totals in the teens.
1.OA.A.1, 1.NBT.B.2, 1.NBT.B.2.b, 1.NBT.B.2.c, MP2, 1.Mod2.AD1, 1.Mod3.AD8

Topic E: Make Easier Problems to Subtract

Lesson 20: Use strategies to subtract from a teen number.
1.OA.C.6, MP4, 1.Mod3.AD4

Lesson 21: Take from ten to subtract from a teen number, part 1.
1.OA.C.6, MP7, 1.Mod3.AD4

Lesson 22: Take from ten to subtract from a teen number, part 2.
1.OA.C.6, MP5, 1.Mod3.AD4

Module 4**Module 5**

Lesson 19: Add tens to a two-digit number.
1.NBT.C.4, MP8, 1.Mod5.AD6

Lesson 20: Add ones and multiples of ten to any number.
1.NBT.C.4, MP7, 1.Mod5.AD6, 1.Mod.AD7

Topic E: Addition of Two-Digit Numbers

Lesson 21: Use varied strategies to add 2 two-digit addends.
1.NBT.C.4, MP1, 1.Mod5.AD8

Lesson 22: Decompose both addends and add like units.
1.OA.D.7, 1.NBT.C.4, MP7, 1.Mod1.AD6, 1.Mod5.AD8

Lesson 23: Decompose an addend and add tens first.
1.OA.D.7, 1.NBT.C.4, MP5, 1.Mod1.AD6, 1.Mod5.AD8

Lesson 24: Decompose an addend to make the next ten.
1.OA.D.7, 1.NBT.C.4, MP3, 1.Mod1.AD6, 1.Mod5.AD8

Lesson 25: Compare equivalent expressions used to solve two-digit addition equations.
1.OA.D.7, 1.NBT.C.4, MP3, 1.Mod1.AD6, 1.Mod5.AD8

**Module 6: Part 1****Module 6: Part 2**

Module 1

Module 2

Module 3

Module 4

Module 5

Module 6: Part 1

Module 6: Part 2

Lesson 23: Subtract by counting on.
1.OA.C.6, MP2, 1.Mod3.AD4

Lesson 24: Decompose the subtrahend to count back.
1.OA.C.6, MP6, 1.Mod3.AD4

Lesson 25: Choose a strategy to make an easier problem.
1.OA.C.6, MP5, 1.Mod3.AD4

Lesson 26: Pose and solve varied word problems.
1.OA.A.1, 1.OA.A.2, 1.OA.B.3, MP1, MP4, 1.Mod2.AD1, 1.Mod3.AD1

Module 1 Place Value Concepts Through Metric Measurement and Data · Place Value, Counting, and Comparing Within 1,000	Module 2 Addition and Subtraction Within 200	Module 3 Shapes and Time with Fraction Concepts	Module 4 Addition and Subtraction Within 1,000	Module 5 Money, Data, and Customary Measurement	Module 6 Multiplication and Division Foundations
<p>Topic A: Represent Data to Solve Problems</p> <p>Lesson 1: Draw and label a picture graph to represent data. 2.MD.D.10, MP6, 2.Mod1.AD8</p> <p>Lesson 2: Draw and label a bar graph to represent data. 2.MD.D.10, MP8, 2.Mod1.AD8</p> <p>Lesson 3: Use information presented in a bar graph to solve <i>put together</i> and <i>take apart</i> problems. 2.MD.D.10, MP2, 2.Mod1.AD8, 2.Mod1.AD9</p> <p>Lesson 4: Use information presented in a bar graph to solve <i>compare</i> problems. 2.MD.D.10, MP7, 2.Mod1.AD8, 2.Mod1.AD9</p>	<p>Topic A: Simplifying Strategies for Addition</p> <p>Lesson 1: Reason about addition with four addends. 2.NBT.B.6, MP3, 2.Mod2.AD2</p> <p>Lesson 2: Break apart and add like units. 2.NBT.B.7, MP7, 2.Mod2.AD3</p> <p>Lesson 3: Use compensation to add within 100. 2.NBT.B.7, MP2, 2.Mod2.AD3</p> <p>Lesson 4: Use compensation to add within 200. 2.NBT.B.7, MP5, 2.Mod2.AD3</p> <p>Lesson 5: Make a ten to add within 100. 2.NBT.B.7, MP8, 2.Mod2.AD3</p> <p>Lesson 6: Make a ten to add within 200.</p>	<p>Topic A: Attributes of Geometric Shapes</p> <p>Lesson 1: Determine the defining attributes of a polygon. 2.G.A.1, MP6, 2.Mod3.AD4</p> <p>Lesson 2: Use attributes to identify, build, and describe two-dimensional shapes. 2.G.A.1, MP7, 2.Mod3.AD4, 2.Mod3.AD5</p> <p>Lesson 3: Identify, build, and describe right angles and parallel lines. 2.G.A.1, MP6, 2.Mod3.AD4, 2.Mod3.AD5</p> <p>Lesson 4: Use attributes to identify, classify, and compose different quadrilaterals. 2.G.A.1, MP3, 2.Mod3.AD4, 2.Mod3.AD5</p>	<p>Topic A: Mental Place Value Strategies</p> <p>Lesson 1: Organize, count, and represent a collection of objects. 2.NBT.B.8, MP3, 2.Mod4.AD8, 2.Mod4.AD9</p> <p>Lesson 2: Mentally add and subtract multiples of 10 and 100 with unknowns in various positions. 2.NBT.B.8, MP7, 2.Mod4.AD8, 2.Mod4.AD9</p> <p>Lesson 3: Solve multi-step word problems and reason about equal expressions. 2.OA.A.1, 2.NBT.B.8, MP2, 2.Mod4.AD1, 2.Mod4.AD8, 2.Mod4.AD9</p> <p>Lesson 4: Represent and solve <i>compare with bigger unknown</i> word problems.</p>	<p>Topic A: Problem Solving with Coins and Bills</p> <p>Lesson 1: Organize, count, and represent a collection of coins. 2.MD.C.8, MP7, 2.Mod5.AD6</p> <p>Lesson 2: Use the fewest number of coins to make a given value. 2.MD.C.8, MP6, 2.Mod5.AD6</p> <p>Lesson 3: Solve one- and two-step word problems to find the total value of a group of coins. 2.MD.C.8, MP4, 2.Mod5.AD6</p> <p>Lesson 4: Solve one- and two-step word problems to find the total value of a group of bills. 2.MD.C.8, MP2, 2.Mod5.AD6</p> <p>Lesson 5: Use different strategies to make 1 dollar or to make change from 1 dollar. 2.MD.C.8, MP3, 2.Mod5.AD6</p>	<p>Topic A: Count and Problem Solve with Equal Groups</p> <p>Lesson 1: Compose equal groups and write repeated addition equations. 2.OA.A.1, 2.OA.C.4, MP2, 2.Mod6.AD1, 2.Mod6.AD4</p> <p>Lesson 2: Organize, count, and represent a collection of objects. 2.OA.C.4, MP7, 2.Mod6.AD4</p> <p>Lesson 3: Use math drawings to represent equal groups and relate them to repeated addition. 2.OA.C.4, MP8, 2.Mod6.AD4</p> <p>Lesson 4: Represent equal groups with a tape diagram. 2.OA.A.1, 2.OA.C.4, MP4, 2.Mod6.AD1, 2.Mod6.AD4</p>

Module 1

Topic B: Metric Measurement and Concepts About the Ruler

Lesson 5: Connect measurement to physical units by iterating a centimeter cube.
2.MD.A.1, MP6, 2.Mod1.AD1

Lesson 6: Make a 10 cm ruler and measure objects.
2.MD.A.1, MP2, 2.Mod1.AD1

Lesson 7: Measure lengths and relate 10 cm and 1 cm.
2.MD.A.1, MP7, 2.Mod1.AD1

Lesson 8: Make a meter stick and measure with various tools.
2.MD.A.1, MP5, 2.Mod1.AD1

Lesson 9: Relate 1 cm, 10 cm, and 100 cm.
2.NBT.A.1, MP3

Lesson 10: Reason about the relationship between the size of the unit and the number of units needed to measure.
2.MD.A.2, MP8

Topic C: Estimate, Measure, and Compare Lengths

Lesson 11: Estimate and compare lengths.
2.MD.A.3, 2.MD.A.4, MP3, 2.Mod1.AD2, 2.Mod1.AD3

Module 2

2.NBT.B.7, MP7, 2.Mod2.AD3

Lesson 7: Solve word problems by using simplifying strategies for addition.

2.OA.A.1, 2.NBT.B.7, MP5, 2.Mod2.AD1, 2.Mod2.AD3

Topic B: Strategies for Composing a Ten and a Hundred to Add

Lesson 8: Use concrete models to compose a ten.
2.NBT.B.7, MP8, 2.Mod2.AD3, 2.Mod2.AD5

Lesson 9: Use place value drawings to compose a ten and relate to written recordings.
2.NBT.B.7, MP6, 2.Mod2.AD3, 2.Mod2.AD5

Lesson 10: Use concrete models to compose a hundred.
2.NBT.B.7, MP4, 2.Mod2.AD3, 2.Mod2.AD5

Lesson 11: Use math drawings to compose a hundred and relate to written recordings.
2.NBT.B.7, MP6, 2.Mod2.AD3, 2.Mod2.AD5

Lesson 12: Use place value drawings to compose a ten and a hundred with two- and three-digit addends. Relate to written recordings.
2.NBT.B.7, MP3, 2.Mod2.AD3, 2.Mod2.AD5

Module 3

Lesson 5: Relate the square to the cube and use attributes to describe a cube.

2.G.A.1, MP7, 2.Mod3.AD4, 2.Mod3.AD5

Topic B: Composite Shapes and Fraction Concepts

Lesson 6: Recognize that a whole polygon can be decomposed into smaller parts and the parts can be composed to make a whole.
2.G.A.1, MP7, 2.Mod3.AD4, 2.Mod3.AD5

Lesson 7: Combine shapes to create a composite shape and create a new shape from composite shapes.
2.G.A.1, MP3, 2.Mod3.AD4, 2.Mod3.AD5

Lesson 8: Create composite shapes by using equal parts and name them as halves, thirds, and fourths.
2.G.A.3, MP5, 2.Mod3.AD6

Lesson 9: Interpret equal shares in composite shapes as halves, thirds, and fourths.
2.G.A.3, MP3, 2.Mod3.AD6

Topic C: Halves, Thirds, and Fourths of Circles and Rectangles

Lesson 10: Partition circles and rectangles into equal parts and describe those parts as halves.
2.G.A.3, MP7, 2.Mod3.AD6

Module 4

2.OA.A.1, 2.NBT.B.5, MP5, 2.Mod4.AD1, 2.Mod4.AD4

Topic B: Strategies for Composing Tens and Hundreds Within 1,000

Lesson 5: Use the associative property to make a benchmark number to add within 1,000.
2.NBT.B.5, 2.NBT.B.7, 2.NBT.B.9, MP3, 2.Mod4.AD4, 2.Mod4.AD6, 2.Mod4.AD10

Lesson 6: Use compensation to add within 1,000.
2.NBT.B.5, 2.NBT.B.7, 2.NBT.B.9, MP1, 2.Mod4.AD4, 2.Mod4.AD6, 2.Mod4.AD10

Lesson 7: Use concrete models to add and relate them to written recordings.
2.OA.B.2, 2.NBT.B.7, MP6, 2.Mod4.AD2, 2.Mod4.AD6

Lesson 8: Use place value drawings to represent addition and relate them to written recordings, part 1.
2.OA.B.2, 2.NBT.B.7, MP7, 2.Mod4.AD2, 2.Mod4.AD6

Lesson 9: Use place value drawings to represent addition and relate them to written recordings, part 2.
2.OA.B.2, 2.NBT.B.7, MP6, 2.Mod4.AD2, 2.Mod4.AD6

Lesson 10: Choose and defend efficient solution strategies for addition.

Module 5

Lesson 6: Solve word problems by using different ways to make change from 1 dollar.
2.MD.C.8, MP3, 2.Mod5.AD6

Lesson 7: Solve word problems by using bills and coins. (Optional)
2.MD.C.8, MP1, 2.Mod5.AD6

Topic B: Use Customary Units to Measure and Estimate Length

Lesson 8: Iterate an inch tile to create a unit ruler and measure to the nearest inch.
2.MD.A.1, MP6, 2.Mod5.AD1

Lesson 9: Use an inch ruler and a yard stick to estimate and measure the length of various objects.
2.MD.A.1, 2.MD.A.3, MP5, 2.Mod5.AD1, 2.Mod5.AD3

Lesson 10: Measure an object twice by using different length units, and compare and relate measurement to unit size.
2.MD.A.2, MP6, 2.Mod5.AD2

Lesson 11: Measure to compare differences in lengths.
2.MD.A.4, MP5, 2.Mod5.AD4

Lesson 12: Identify unknown numbers on a number line by using the interval as a reference point.
2.MD.B.6, MP7, 2.Mod1.AD5

Module 6

Topic B: Arrays and Equal Groups

Lesson 5: Compose arrays with rows and columns and use a repeated count to find the total.
2.OA.C.3, 2.OA.C.4, MP8, 2.Mod6.AD3, 2.Mod6.AD4

Lesson 6: Decompose arrays into rows and columns and relate them to repeated addition.
2.OA.C.3, 2.OA.C.4, MP7, 2.Mod6.AD3, 2.Mod6.AD4

Lesson 7: Distinguish between rows and columns and use math drawings to represent arrays.
2.OA.C.3, 2.OA.C.4, MP7, 2.Mod6.AD3, 2.Mod6.AD4

Lesson 8: Use square tiles to create arrays with gaps.
2.OA.C.3, 2.OA.C.4, MP7, 2.Mod6.AD3, 2.Mod6.AD4

Topic C: Rectangular Arrays as a Foundation for Multiplication and Division

Lesson 9: Determine the attributes of a square array.
2.OA.C.3, 2.OA.C.4, MP8, 2.Mod6.AD3

Lesson 10: Use math drawings to compose a rectangle.
2.OA.C.3, 2.OA.C.4, MP7, 2.Mod6.AD3

Module 1

Lesson 12: Model and reason about the difference in length.
2.MD.A.4, MP4, 2.Mod1.AD3

Lesson 13: Estimate and measure height to model metric relationships.
2.MD.A.1, 2.MD.A.3, MP5, 2.Mod1.AD1, 2.Mod1.AD2

Lesson 14: Represent and compare students' heights.
2.MD.A.4, MP2, 2.Mod1.AD3

Topic D: Solve Compare Problems by Using the Ruler as a Number Line

Lesson 15: Use a measuring tape as a number line to add efficiently.
2.MD.B.6, MP7, 2.Mod1.AD5, 2.Mod1.AD6

Lesson 16: Use a measuring tape as a number line to subtract efficiently.
2.MD.B.6, MP2, 2.Mod1.AD5, 2.Mod1.AD7

Lesson 17: Represent and solve comparison problems by using measurement contexts.
2.MD.B.5, 2.MD.B.6, MP5, 2.Mod1.AD4, 2.Mod1.AD6, 2.Mod1.AD7

Lesson 18: Solve *compare with difference unknown* word problems by using measurement contexts.
2.MD.B.5, 2.MD.B.6, MP2, MP5, 2.Mod1.AD4, 2.Mod1.AD6, 2.Mod1.AD7

Module 2

Topic C: Simplifying Strategies for Subtraction

Lesson 13: Represent and solve *take from* word problems.
2.OA.A.1, MP3, 2.Mod2.AD1

Lesson 14: Use addition and subtraction strategies to find an unknown part.
2.NBT.B.7, MP7, 2.Mod2.AD4

Lesson 15: Use compensation to subtract within 100.
2.NBT.B.7, MP2, 2.Mod2.AD4

Lesson 16: Use compensation to subtract within 200.
2.NBT.B.7, MP8, 2.Mod2.AD4

Lesson 17: Take from a ten to subtract within 200.
2.NBT.B.7, MP6, 2.Mod2.AD4

Lesson 18: Take from a hundred to subtract within 200.
2.NBT.B.7, MP7, 2.Mod2.AD4

Lesson 19: Solve word problems with simplifying strategies for subtraction.
2.OA.A.1, 2.NBT.B.7, MP3, 2.Mod2.AD1, 2.Mod2.AD4

Topic D: Strategies for Decomposing a Ten and a Hundred to Subtract

Lesson 20: Reason about when to unbundle a ten to subtract.

Module 3

Lesson 11: Partition circles and rectangles into equal parts, and describe those parts as halves, thirds, or fourths.
2.G.A.3, MP6, 2.Mod3.AD6

Lesson 12: Describe a whole by the number of equal parts in halves, thirds, and fourths.
2.G.A.3, MP3, 2.Mod3.AD6

Lesson 13: Recognize that equal parts of an identical rectangle can be different shapes.
2.G.A.3, MP4, 2.Mod3.AD7

Topic D: Application of Fractions to Tell Time

Lesson 14: Distinguish between a.m. and p.m.
2.MD.C.7, MP6, 2.Mod3.AD3

Lesson 15: Recognize time as measurement units.
2.MD.C.7, MP7

Lesson 16: Use a clock to tell time to the half hour or quarter hour.
2.MD.C.7, MP3, 2.Mod3.AD2

Lesson 17: Relate the clock to a number line to count by fives.
2.NBT.A.2, 2.MD.C.7, MP2, 2.Mod3.AD1, 2.Mod3.AD2

Lesson 18: Tell time to the nearest 5 minutes.
2.NBT.A.2, 2.MD.C.7, MP6, 2.Mod3.AD1, 2.Mod2.AD2

Module 4

2.OA.B.2, 2.NBT.B.5, 2.NBT.B.7, 2.NBT.B.9, MP8, 2.Mod4.AD2, 2.Mod4.AD4, 2.Mod4.AD6, 2.Mod4.AD10

Lesson 11: Choose and defend efficient solution strategies to add up to four two-digit numbers.
2.OA.B.2, 2.NBT.B.5, 2.NBT.B.6, 2.NBT.B.9, MP4, 2.Mod4.AD2, 2.Mod4.AD4, 2.Mod2.AD2, 2.Mod4.AD10

Topic C: Simplifying Strategies for Subtracting Within 1,000

Lesson 12: Take from a ten or a hundred to subtract.
2.NBT.B.5, 2.NBT.B.7, 2.NBT.B.9, MP7, 2.Mod4.AD5, 2.Mod4.AD7, 2.Mod4.AD11

Lesson 13: Use compensation to subtract within 1,000.
2.NBT.B.5, 2.NBT.B.7, 2.NBT.B.9, MP3, 2.Mod4.AD5, 2.Mod4.AD7, 2.Mod4.AD11

Lesson 14: Use compensation to keep a constant difference by adding the same amount to both numbers.
2.NBT.B.7, 2.NBT.B.9, MP2, 2.Mod4.AD7, 2.Mod4.AD11

Lesson 15: Use compensation to keep a constant difference by subtracting the same amount from both numbers.

Module 5

Topic C: Use Measurement and Data to Solve Problems

Lesson 13: Solve word problems that involve measurements and reason about estimates.
2.MD.B.5, MP6, 2.Mod5.AD5

Lesson 14: Solve addition and subtraction two-step word problems that involve length.
2.MD.B.5, MP4, 2.Mod5.AD5

Lesson 15: Use measurement data to create a line plot.
2.MD.D.9, MP7, 2.Mod5.AD7

Lesson 16: Create a line plot to represent data and ask and answer questions.
2.MD.D.9, 2.Mod5.AD7

Module 6

Lesson 11: Decompose an array to find the total efficiently.
2.OA.C.3, 2.OA.C.4, 2.G.A.2, MP7, 2.Mod6.AD3, 2.Mod6.AD5

Lesson 12: Reason about how equal arrays can be composed differently.
2.OA.C.3, 2.OA.C.4, 2.G.A.2, MP3, 2.Mod6.AD3, 2.Mod6.AD5

Lesson 13: Decompose an array and relate it to a number bond.
2.OA.C.3, 2.OA.C.4, 2.G.A.2, MP4, 2.Mod6.AD3, 2.Mod6.AD5

Topic D: The Meaning of Even and Odd Numbers

Lesson 14: Relate doubles to even numbers and write equations to express the sums.
2.OA.C.3, MP8, 2.Mod6.AD2

Lesson 15: Pair objects and skip-count to determine whether a number is even or odd.
2.OA.C.3, MP7, 2.Mod6.AD2

Lesson 16: Use rectangular arrays to investigate combinations of even and odd numbers.
2.OA.C.3, MP3, 2.Mod6.AD2

Lesson 17: Solve word problems that involve equal groups and arrays.
2.OA.A.1, 2.OA.C.3, 2.OA.C.4, MP4, 2.Mod6.AD1, 2.Mod6.AD3, 2.Mod6.AD4

Lesson 18: Use various strategies to fluently add and subtract within 100

Module 1

Lesson 19: Solve compare with difference unknown word problems in various contexts.

2.MD.B.5, 2.MD.B.6, MP1,
2.Mod1.AD4, 2.Mod1.AD6,
2.Mod1.AD7

Topic E: Understand Place Value Units

Lesson 20: Count and bundle ones, tens, and hundreds to 1,000.

2.NBT.A.1.a, MP8, 2.Mod1.AD12

Lesson 21: Count efficiently within 1,000 by using ones, tens, and hundreds.

2.NBT.A.2, MP4, 2.Mod1.AD13

Lesson 22: Use counting strategies to solve *add to with change unknown* word problems.

2.OA.A.1, 2.NBT.A.2, MP1,
2.Mod1.AD10, 2.Mod1.AD13

Lesson 23: Organize, count, and record a collection of objects.

2.NBT.A.1.a, 2.NBT.A.2,
2.NBT.A.3, MP1, 2.Mod1.AD12,
2.Mod1.AD13, 2.Mod1.AD15

Topic F: Three-Digit Numbers in Different Forms

Lesson 24: Count up to 1,000 by using place value units.

2.NBT.A.1, 2.NBT.A.1.b,
2.NBT.A.2, MP7, 2.Mod1.AD11,
2.Mod1.AD13

Module 2

2.NBT.B.7, MP7, 2.Mod2.AD4,
2.Mod2.AD6

Lesson 21: Use concrete models to decompose a ten with two-digit totals.

2.NBT.B.7, MP8, 2.Mod2.AD6

Lesson 22: Use place value drawings to decompose a ten and relate them to written recordings.

2.NBT.B.7, MP7, 2.Mod2.AD4,
2.Mod2.AD6

Lesson 23: Use concrete models and drawings to decompose a hundred.

2.NBT.B.7, MP2, 2.Mod2.AD4,
2.Mod2.AD6

Lesson 24: Use place value drawings to decompose a hundred and relate them to written recordings.

2.NBT.B.7, MP8, 2.Mod2.AD4,
2.Mod2.AD6

Lesson 25: Use place value drawings to subtract with two decompositions.

2.NBT.B.7, MP1, 2.Mod2.AD4,
2.Mod2.AD6

Lesson 26: Solve *add to* and *take from with start unknown* word problems.

2.OA.A.1, MP4, 2.Mod2.AD1

Lesson 27: Solve two-step word problems within 100.

2.OA.A.1, MP2

Module 3

Lesson 19: Solve elapsed time problems. (Optional)
MP8

Module 4

2.NBT.B.7, 2.NBT.B.9, MP5,
2.Mod4.AD7, 2.Mod4.AD11

Topic D: Strategies for Decomposing Tens and Hundreds Within 1,000

Lesson 16: Use concrete models to subtract and relate them to written recordings.

2.OA.B.2, 2.NBT.B.7, MP6,
2.Mod4.AD3, 2.Mod4.AD7

Lesson 17: Use place value drawings to represent subtraction with one decomposition and relate them to written recordings.

2.OA.B.2, 2.NBT.B.7, MP5,
2.Mod4.AD3, 2.Mod4.AD7

Lesson 18: Use place value drawings to represent subtraction with up to two decompositions and relate them to written recordings.

2.OA.B.2, 2.NBT.B.7, MP4,
2.Mod4.AD3, 2.Mod4.AD7

Lesson 19: Use place value drawings to represent subtraction from numbers with 0 in the tens and/or ones place and relate to a written recording.

2.OA.B.2, 2.NBT.B.7, MP3,
2.Mod4.AD3, 2.Mod4.AD7

Lesson 20: Subtract by using multiple strategies and defend an efficient strategy.

2.OA.B.2, 2.NBT.B.5, 2.NBT.B.7,
2.NBT.B.9, MP3, 2.Mod4.AD3,
2.Mod4.AD5, 2.Mod4.AD7,
2.Mod4.AD11

Module 5

Module 6

and know all sums and differences within 20 from memory. (Optional)
2.OA.B.2

Module 1

Module 2

Module 3

Module 4

Module 5

Module 6

Lesson 25: Write three-digit numbers in unit form and show the value that each digit represents.
2.NBT.A.1, 2.NBT.A.1.b, MP7, 2.Mod1.AD11

Lesson 26: Write base-ten numbers in expanded form.
2.NBT.A.3, MP7, 2.Mod1.AD15

Lesson 27: Read, write, and relate base-ten numbers in all forms.
2.NBT.A.1, 2.NBT.A.1.b, 2.NBT.A.3, MP3, 2.Mod1.AD11, 2.Mod1.AD15

Topic G: Model Base-Ten Numbers Within 1,000 with Money

Lesson 28: Use place value understanding to count and exchange \$1, \$10, and \$100 bills.
2.NBT.A.1, 2.NBT.A.1.b, 2.NBT.A.1.a, MP6, 2.Mod1.AD11, 2.Mod1.AD12

Lesson 29: Count by \$1, \$10, and \$100.
2.NBT.A.2, MP8, 2.Mod1.AD13, 2.Mod1.AD14

Lesson 30: Determine how many \$10 bills are equal to \$1,000.
2.NBT.A.1, 2.NBT.A.1.a, 2.NBT.A.1.b, 2.NBT.A.2, MP1, 2.Mod1.AD11, 2.Mod1.AD12, 2.Mod1.AD13

Topic E: Apply Efficient Addition and Subtraction Strategies

Lesson 21: Apply strategies to find sums and differences and relate addition to subtraction.
2.NBT.B.7, 2.NBT.B.9, MP7, 2.Mod4.AD6, 2.Mod4.AD7, 2.Mod4.AD10, 2.Mod4.AD11

Lesson 22: Solve *compare with smaller unknown* word problems.
2.OA.A.1, 2.NBT.B.5, MP1, 2.Mod4.AD1, 2.Mod4.AD4, 2.Mod4.AD5

Lesson 23: Solve two-step addition and subtraction word problems.
2.OA.A.1, 2.NBT.B.5, MP5, 2.Mod4.AD1, 2.Mod4.AD4, 2.Mod4.AD5

Lesson 24: Organize, count, and represent a collection of objects.
2.NBT.B.7, MP6, 2.Mod4.AD6, 2.Mod4.AD7

Module 1

Module 2

Module 3

Module 4

Module 5

Module 6

Topic H: Compose and Decompose with Place Value Disks

Lesson 31: Count the total value of ones, tens, and hundreds with place value disks.

2.NBT.A.1, 2.NBT.A.1.b, 2.NBT.A.3, MP6, 2.Mod1.AD11, 2.Mod1.AD15

Lesson 32: Exchange 10 ones for 1 ten, 10 tens for 1 hundred, and 10 hundreds for 1 thousand.

2.NBT.A.1, 2.NBT.A.1.a, 2.NBT.A.1.b, MP7, 2.Mod1.AD11, 2.Mod1.AD12

Lesson 33: Model numbers with more than 9 ones or 9 tens.

2.NBT.A.1, 2.NBT.A.1.b, MP5, 2.Mod1.AD11

Lesson 34: Problem solve in situations with more than 9 ones or 9 tens.

2.NBT.A.1, 2.NBT.A.1.a, 2.NBT.A.1.b, MP3, 2.Mod1.AD11, 2.Mod1.AD12

Topic I: Compare Two Three-Digit Numbers in Different Forms

Lesson 35: Compare three-digit numbers by using $>$, $=$, and $<$.

2.NBT.A.4, MP6, 2.Mod1.AD16

Module 1

Module 2

Module 3

Module 4

Module 5

Module 6

Lesson 36: Apply place value understanding to compare by using $>$, $=$, and $<$.
2.NBT.A.4, MP8, 2.Mod1.AD16

Lesson 37: Organize, count, represent, and compare a collection of objects.
2.NBT.A.2, 2.NBT.A.4, MP1, 2.Mod1.AD13, 2.Mod1.AD16

Lesson 38: Compare numbers in different forms. (Optional)
2.NBT.A.3, 2.NBT.A.4, MP7, 2.Mod1.AD15, 2.Mod1.AD16

Module 1	Module 2	Module 3	Module 4	Module 5	Module 6
Multiplication and Division with Units of 2, 3, 4, 5, and 10	Place Value Concepts Through Metric Measurement	Multiplication and Division with Units of 0, 1, 6, 7, 8, and 9	Multiplication and Area	Fractions as Numbers	Geometry, Measurement, and Data
<p>Topic A: Conceptual Understanding of Multiplication</p> <p>Lesson 1: Organize, count, and represent a collection of objects. 2.NBT.A.2, MP7</p> <p>Lesson 2: Interpret equal groups as multiplication. 3.OA.A.1, MP6, 3.Mod1.AD1</p> <p>Lesson 3: Relate multiplication to the array model. 3.OA.A.1, MP2, 3.Mod1.AD1</p> <p>Lesson 4: Interpret the meaning of factors as number of groups or number in each group. 3.OA.A.1, MP6, 3.Mod1.AD1</p> <p>Lesson 5: Represent and solve multiplication word problems by using drawings and equations. 3.OA.A.3, MP4, 3.Mod1.AD3</p>	<p>Topic A: Understanding Place Value Concepts Through Metric Measurement</p> <p>Lesson 1: Connect the composition of 1 kilogram to the composition of 1 thousand. 3.MD.A.2, MP7, 3.Mod2.AD5</p> <p>Lesson 2: Estimate the weight of familiar objects and read scales when weighing objects. 3.MD.A.2, MP5, 3.Mod2.AD3, 3.Mod2.AD4</p> <p>Lesson 3: Use all four operations to solve one-step word problems involving weight. 3.MD.A.2, MP2, 3.Mod2.AD3, 3.Mod2.AD5</p> <p>Lesson 4: Connect decomposition of 1 liter to the decomposition of 1 thousand. 3.MD.A.2, MP7, 3.Mod2.AD4</p>	<p>Topic A: Multiplication and Division Concepts with an Emphasis on Units of 6 and 8</p> <p>Lesson 1: Organize, count, and represent a collection of objects. 3.OA.B.5, 3.OA.C.7, MP3, 3.Mod3.AD5, 3.Mod3.AD8</p> <p>Lesson 2: Count by units of 6 to multiply and divide by using arrays. 3.OA.A.3, 3.OA.A.4, 3.OA.B.6, MP2, 3.Mod3.AD3, 3.Mod3.AD4, 3.Mod3.AD7</p> <p>Lesson 3: Count by units of 8 to multiply and divide by using arrays. 3.OA.A.4, 3.OA.B.5, MP2, 3.Mod3.AD4, 3.Mod3.AD5</p> <p>Lesson 4: Decompose pictorial arrays to create expressions with three factors. 3.OA.B.5, MP7, 3.Mod3.AD7</p>	<p>Topic A: Foundations for Understanding Area</p> <p>Lesson 1: Explore attributes of squares, rectangles, and trapezoids. 3.G.A.1, MP6, 3.Mod4.AD1</p> <p>Lesson 2: Recognize area as an attribute of polygons. 3.MD.C.5, 3.MD.C.5.a, 3.MD.C.5.b, 3.MD.C.6, MP5, 3.Mod4.AD2, 3.Mod4.AD3</p> <p>Lesson 3: Tile polygons to find their areas. 3.MD.C.5, 3.MD.C.5.a, 3.MD.5.b, 3.MD.C.6, MP3, 3.Mod4.AD2, 3.Mod4.AD3</p> <p>Lesson 4: Compose rectangles to compare areas. 3.MD.C.5, 3.MD.C.5.a, 3.MD.C.5.b, 3.MD.C.6, MP6, 3.Mod4.AD2, 3.Mod4.AD3</p> <p>Lesson 5: Relate side lengths to the number of tiles on a side. 3.MD.C.5, 3.MD.C.5.a,</p>	<p>Topic A: Partition a Whole into Equal Parts</p> <p>Lesson 1: Partition a whole into equal parts and name the fractional unit. 3.G.A.2, MP6, 3.Mod5.AD10</p> <p>Lesson 2: Partition different wholes into fractional units concretely. 3.G.A.2, MP2, 3.Mod5.AD10</p> <p>Lesson 3: Partition a whole into fractional units by folding fraction strips. 3.G.A.2, MP6, 3.Mod5.AD10</p> <p>Lesson 4: Partition a whole into fractional units pictorially and identify the unit fraction. 3.NF.A.1, 3.G.A.2, MP7, 3.Mod5.AD1, 3.Mod5.AD10</p> <p>Lesson 5: Partition a whole into fractional units and write fractions in fraction form. 3.NF.A.1, 3.G.A.2, MP6, 3.Mod5.AD1, 3.Mod5.AD10</p>	<p>Topic A: Tell Time and Solve Time Interval Problems</p> <p>Lesson 1: Relate skip-counting by fives on the clock to telling time on the number line. 3.MD.A.1, MP7, 3.Mod6.AD1</p> <p>Lesson 2: Count by fives and ones on the number line as a strategy for telling time to the nearest minute on the clock. 3.MD.A.1, MP3, 3.Mod6.AD1</p> <p>Lesson 3: Solve time word problems where the end time is unknown. 3.MD.A.1, MP4, 3.Mod6.AD2</p> <p>Lesson 4: Solve time word problems where the start time is unknown. 3.MD.A.1, MP5, 3.Mod6.AD2</p> <p>Lesson 5: Solve time word problems where the change in time is unknown. 3.MD.A.1, MP7, 3.Mod6.AD2</p>

Module 1

Topic B: Conceptual Understanding of Division

Lesson 6: Explore measurement and partitive division by modeling concretely and drawing.
3.OA.A.2, MP1, 3.Mod1.AD2

Lesson 7: Model measurement and partitive division by drawing equal groups.
3.OA.A.2, MP2, 3.Mod1.AD2

Lesson 8: Model measurement and partitive division by drawing arrays.
3.OA.A.2, 3.OA.A.3, MP1, 3.Mod1.AD2, 3.Mod1.AD3

Lesson 9: Represent and solve division word problems using drawings and equations.
3.OA.A.2, 3.OA.A.3, MP5, 3.Mod1.AD2, 3.Mod1.AD3

Topic C: Properties of Multiplication

Lesson 10: Demonstrate the commutative property of multiplication using a unit of 2 and the array model.
3.OA.A.1, 3.OA.B.5, MP3, 3.Mod1.AD1, 3.Mod1.AD5

Lesson 11: Demonstrate the commutative property of multiplication using a unit of 4 and the array model.

Module 2

Lesson 5: Estimate and measure liquid volume using a vertical number line and connect composition of 1 liter to composition of 1 thousand.
3.MD.A.2 MP6, 3.Mod2.AD3, 3.Mod2.AD4

Lesson 6: Use all four operations to solve one-step word problems involving liquid volume.
3.MD.A.2, MP3, 3.Mod2.AD5

Lesson 7: Solve one-step word problems using metric units.
3.MD.A.2, MP1, 3.Mod2.AD5

Topic B: Rounding to the Nearest Ten and Hundred

Lesson 8: Read temperature on a thermometer using number line concepts.
3.NBT.A.1, MP5, 3.Mod2.AD1

Lesson 9: Round two-digit numbers to the nearest ten on the vertical number line.
3.NBT.A.1, MP2, 3.Mod2.AD1

Lesson 10: Round two- and three-digit numbers to the nearest ten on the vertical number line.
3.NBT.A.1, MP8, 3.Mod2.AD1

Lesson 11: Round to the nearest hundred on the vertical number line.
3.NBT.A.1, MP7, 3.Mod2.AD1

Lesson 12: Estimate sums and differences by rounding.

Module 3

Lesson 5: Use the break apart and distribute strategy to multiply with units of 6 and 8.
3.OA.B.5, MP6, 3.Mod3.AD5

Lesson 6: Use the break apart and distribute strategy to divide with units of 6 and 8.
3.OA.B.5, MP3, 3.Mod3.AD6

Topic B: Multiplication and Division Concepts with an Emphasis on the Unit of 7

Lesson 7: Count by units of 7 to multiply and divide by using arrays and tape diagrams.
3.OA.A.3, 3.OA.A.4, 3.OA.B.6, MP5, 3.Mod1.AD7, 3.Mod3.AD3, 3.Mod3.AD4

Lesson 8: Use the break apart and distribute strategy to multiply with units of 7.
3.OA.A.3, 3.OA.B.5, MP2, 3.Mod3.AD3, 3.Mod3.AD5

Lesson 9: Model the associative property as a strategy to multiply.
3.OA.B.5, MP7, 3.Mod3.AD7

Lesson 10: Use parentheses in expressions with different operations.
3.OA.B.5, MP6, 3.Mod3.AD7

Lesson 11: Use the break apart and distribute strategy to divide with units of 7.
3.OA.B.5, MP3, 3.Mod3.AD6

Module 4

3.MD.C.5.b, 3.MD.C.6, MP8, 3.Mod4.AD1, 3.Mod4.AD2, 3.Mod4.AD3

Topic B: Concepts of Area Measurement

Lesson 6: Tile rectangles with squares to make arrays and relate the side lengths to area.
3.MD.C.6, 3.MD.C.7.a, MP3, 3.Mod4.AD3, 3.Mod4.AD4

Lesson 7: Draw rows and columns to complete a rectangular array and determine its area.
3.MD.C.6, 3.MD.C.7.a, MP1, 3.Mod4.AD3, 3.Mod4.AD4

Lesson 8: Determine the area of a rectangle by using side lengths.
3.MD.C.7.a, 3.MD.C.7.b, MP6, 3.Mod4.AD4, 3.Mod4.AD5

Lesson 9: Multiply side lengths to find the area of a rectangle.
3.MD.C.7.b, MP5, 3.Mod4.AD5

Topic C: Applying Properties of Operations to Area

Lesson 10: Compose large rectangles and reason about their areas.
3.MD.C.7.c, 3.MD.C.7.d, MP7, 3.Mod4.AD6, 3.Mod4.AD7, 3.Mod4.AD8

Module 5

Topic B: Unit Fractions and Their Relationship to the Whole

Lesson 6: Build non-unit fractions less than 1 from unit fractions concretely.
3.NF.A.1, 3.G.A.2, MP7, 3.Mod5.AD2, 3.Mod5.AD10

Lesson 7: Identify and represent a whole as two parts: a unit fraction and a non-unit fraction.
3.NF.A.1, 3.G.A.2, MP2, 3.Mod5.AD1, 3.Mod5.AD2, 3.Mod5.AD10

Lesson 8: Identify and represent a whole as two non-unit fractions.
3.NF.A.1, 3.NF.A.3.c, 3.G.A.2, MP7, 3.Mod5.AD2, 3.Mod5.AD6, 3.Mod5.AD10

Lesson 9: Compare unit fractions by reasoning about their size concretely.
3.NF.A.3.d, 3.G.A.2, MP3, 3.Mod5.AD7, 3.Mod5.AD8, 3.Mod5.AD10

Lesson 10: Compare non-unit fractions less than 1 with the same numerator by using tape diagrams.
3.NF.A.3.d, 3.G.A.2, MP6, 3.Mod5.AD7, 3.Mod5.AD10

Topic C: Fractions on the Number Line

Module 6

Lesson 6: Solve time word problems and use time data to create a line plot.
3.MD.A.1, MP4, 3.Mod6.AD.2

Lesson 7: Count coins and create money word problems. (Optional)
3.OA.D.8, MP2, 3.Mod3.AD9

Topic B: Attributes of Two-Dimensional Figures

Lesson 8: Compare and classify quadrilaterals.
3.G.A.1, MP3, 3.Mod6.AD7

Lesson 9: Compare and classify other polygons.
3.G.A.1, MP6, 3.Mod6.AD7

Lesson 10: Draw polygons with specified attributes.
3.G.A.1, MP5, 3.Mod6.AD7, 3.Mod6.AD8

Lesson 11: Reason about composing polygons by using tetrominoes.
3.G.A.1, MP8, 3.Mod6.AD7, 3.Mod6.AD8

Lesson 12: Reason about composing polygons by using tangrams.
3.G.A.1, MP1, 3.Mod6.AD7, 3.Mod6.AD8

Topic C: Problem Solving with Perimeter

Module 1

3.OA.A.1, 3.OA.B.5, MP7, 3.Mod1.AD1, 3.Mod1.AD5

Lesson 12: Demonstrate the distributive property using a unit of 4.

3.OA.B.5, 3.OA.C.7, MP7, 3.Mod1.AD6, 3.Mod1.AD8

Lesson 13: Demonstrate the commutative property of multiplication using a unit of 3 and the array model.

3.OA.A.1, 3.OA.B.5, MP8, 3.Mod1.AD1, 3.Mod1.AD5

Lesson 14: Demonstrate the distributive property using units of 2, 3, 4, 5, and 10.

3.OA.B.5, 3.OA.C.7, MP2, 3.Mod1.AD6, 3.Mod1.AD8

Topic D: Two Interpretations of Division

Lesson 15: Model division as an unknown factor problem.

3.OA.A.2, 3.OA.A.4, 3.OA.B.6, MP4, 3.Mod1.AD2, 3.Mod1.AD4, 3.Mod1.AD7

Lesson 16: Model the quotient as the number of groups using units of 2, 3, 4, 5, and 10.

3.OA.A.2, 3.OA.A.3, 3.OA.A.4, 3.OA.B.6, MP3, 3.Mod1.AD2, 3.Mod1.AD3, 3.Mod1.AD4, 3.Mod1.AD7

Lesson 17: Model the quotient as the size of each group using units of 2, 3, 4, 5, and 10.

Module 2

3.NBT.A.1, 3.NBT.A.2, MP6, 3.Mod2.AD1, 3.Mod2.AD2

Topic C: Simplifying Strategies to Find Sums and Differences

Lesson 13: Collect and represent data in a scaled bar graph and solve related problems.

3.MD.B.3, MP2, 3.Mod2.AD6, 3.Mod2.AD7

Lesson 14: Use place value understanding to add and subtract like units.

3.NBT.A.2, MP7, 3.Mod2.AD2

Lesson 15: Use the associative property to make the next ten to add.

3.NBT.A.2, MP3, 3.Mod2.AD2

Lesson 16: Use compensation to add.

3.NBT.A.2, MP5, 3.Mod2.AD2

Lesson 17: Use place value understanding to subtract efficiently using take from a ten.

3.NBT.A.2, MP6, 3.Mod2.AD2

Lesson 18: Use place value understanding to subtract efficiently using take from a hundred.

3.NBT.A.2, MP7, 3.Mod2.AD2

Lesson 19: Use compensation to subtract.

3.NBT.A.2, MP2, 3.Mod2.AD2

Module 3

Lesson 12: Solve one-step word problems involving multiplication and division.

3.OA.A.3, MP1, 3.Mod3.AD3

Topic C: Analysis of Patterns Using Units of 9, 0, and 1

Lesson 13: Count by units of 9 to multiply.

3.OA.D.9, MP7, 3.Mod3.AD10

Lesson 14: Apply strategies and identify patterns to multiply with units of 9.

3.OA.B.5, 3.OA.C.7, 3.OA.D.9, MP7, 3.Mod3.AD5, 3.Mod3.AD8, 3.Mod3.AD10

Lesson 15: Reason about and explain patterns of multiplication and division with units of 1 and 0.

3.OA.A.1, 3.OA.A.2, 3.OA.D.9, MP8, 3.Mod1.AD1, 3.Mod1.AD2, 3.Mod3.AD10

Lesson 16: Identify patterns by using the multiplication table.

3.OA.D.9, MP8, 3.Mod3.AD10

Lesson 17: Identify and complete patterns with input-output tables.

3.OA.C.7, 3.OA.D.9, MP1, 3.Mod3.AD8, 3.Mod3.AD10

Lesson 18: Create multiplication and division word problems.

3.OA.A.1, 3.OA.A.2, MP2, 3.Mod3.AD1, 3.Mod3.AD2

Lesson 19: Solve two-step word problems by using the four

Module 4

Lesson 11: Decompose to find the total area of a rectangle.

3.MD.C.7.b, 3.MD.C.7.c, 3.MD.C.7.d, MP4, 3.Mod4.AD5, 3.Mod4.AD6, 3.Mod4.AD7

Lesson 12: Find all possible side lengths of rectangles with a given area.

3.MD.C.7.a, 3.MD.C.7.b, MP3, 3.Mod4.AD4, 3.Mod4.AD5

Topic D: Applications of Area

Lesson 13: Apply area understanding to real-world situations.

3.MD.C.7.b, 3.MD.C.7.c, MP5, 3.Mod4.AD5, 3.Mod4.AD6

Lesson 14: Reason to find the area of composite shapes by using grids.

3.MD.C.7.b, 3.MD.C.7.d, MP2, 3.Mod4.AD5, 3.Mod4.AD7

Lesson 15: Reason to find the area of composite shapes by using rectangles.

3.MD.C.7.b, 3.MD.C.7.d, MP7, 3.Mod4.AD5, 3.Mod4.AD7, 3.Mod4.AD8

Lesson 16: Solve historical math problems involving area.

3.MD.C.5, 3.MD.C.5.a, 3.MD.C.5.b, 3.MD.C.6, MP1, 3.Mod4.AD2, 3.Mod4.AD3

Lesson 17: Apply area concepts to a real-world context.

3.MD.C.7.b, 3.MD.C.7.d, MP4, 3.Mod4.AD5, 3.Mod4.AD7

Module 5

Lesson 11: Locate fractions from 0 to 1 on a number line by using fraction tiles.

3.NF.A.2.a, 3.NF.A.2.b, MP2, 3.Mod5.AD3, 3.Mod5.AD4

Lesson 12: Represent fractions from 0 to 1 on a number line.

3.NF.A.2.a, 3.NF.A.2.b, MP8, 3.Mod5.AD3, 3.Mod5.AD4

Lesson 13: Identify equivalent fractions from 0 to 1 with tape diagrams and on number lines.

3.NF.A.3.a, 3.NF.A.3.b, MP2, 3.Mod5.AD5

Lesson 14: Recognize that equivalent fractions share the same location on a number line.

3.NF.A.3.a, 3.NF.A.3.b, MP7, 3.Mod5.AD5

Lesson 15: Identify fractions on a ruler as numbers on a number line.

3.NF.A.2.a, 3.NF.A.2.b, MP6, 3.Mod5.AD3, 3.Mod5.AD4

Lesson 16: Measure lengths and record data on a line plot.

3.NF.A.3.a, 3.NF.A.3.b, 3.MD.B.4, MP8, 3.Mod5.AD5, 3.Mod5.AD9

Topic D: Comparing Fractions

Lesson 17: Represent fractions greater than 1 on a number line and identify fractions equivalent to whole numbers.

Module 6

Lesson 13: Decompose quadrilaterals to understand perimeter as the boundary of a shape.

3.MD.D.8, MP5, 3.Mod6.AD5

Lesson 14: Measure side lengths in whole number units to determine the perimeters of polygons.

3.MD.D.8, MP7, 3.Mod6.AD5

Lesson 15: Recognize perimeter as an attribute of shapes and solve problems with unknown measurements.

3.MD.D.8, MP7, 3.Mod6.AD5

Lesson 16: Solve problems to determine the perimeters of rectangles with the same area.

3.MD.D.8, MP2, 3.Mod6.AD5, 3.Mod6.AD6

Lesson 17: Solve problems to determine the areas of rectangles with the same perimeter.

3.MD.D.8, MP8, 3.Mod6.AD5, 3.Mod6.AD6

Lesson 18: Solve real-world problems involving perimeter and unknown measurements by using all four operations.

3.MD.D.8, MP1, 3.Mod6.AD5

Topic D: Collecting and Displaying Data

Lesson 19: Measure the perimeter of various circles to the nearest quarter inch by using string.

3.MD.D.8, MP6, 3.Mod6.AD5

Module 1

3.OA.A.2, 3.OA.A.3, 3.OA.A.4, 3.OA.B.6, MP4, 3.Mod1.AD2, 3.Mod1.AD3, 3.Mod1.AD4, 3.Mod1.AD7

Lesson 18: Represent and solve measurement and partitive division word problems.
3.OA.A.2, 3.OA.A.3, MP2, 3.Mod1.AD2, 3.Mod1.AD3

Topic E: Application of Multiplication and Division Concepts

Lesson 19: Use the distributive property to break apart multiplication problems into known facts.
3.OA.B.5, 3.OA.C.7, MP6, 3.Mod1.AD6, 3.Mod1.AD8

Lesson 20: Use the distributive property to break apart division problems into known facts.
3.OA.B.6, 3.OA.C.7, MP3, 3.Mod1.AD7, 3.Mod1.AD8

Lesson 21: Compose and decompose arrays to create expressions with three factors.
3.OA.C.7, MP8, 3.Mod1.AD8

Lesson 22: Represent and solve two-step word problems using the properties of multiplication.
3.OA.A.3, 3.OA.C.7, 3.OA.D.8, MP5, 3.Mod1.AD3, 3.Mod1.AD8, 3.Mod1.AD9

Module 2

Topic D: Two- and Three-Digit Measurement Addition and Subtraction

Lesson 20: Add measurements using the standard algorithm to compose larger units once.
3.NBT.A.2, MP4, 3.Mod2.AD2

Lesson 21: Add measurements using the standard algorithm to compose larger units twice.
3.NBT.A.2, MP5, 3.Mod2.AD2

Lesson 22: Subtract measurements using the standard algorithm to decompose larger units once.
3.NBT.A.2, MP1, 3.Mod2.AD2

Lesson 23: Subtract measurements using the standard algorithm to decompose larger units twice.
3.NBT.A.2, MP6, 3.Mod2.AD2

Lesson 24: Subtract measurements using the standard algorithm to decompose larger units across two place values.
3.NBT.A.2, MP3, 3.Mod2.AD2

Lesson 25: Solve two-step word problems.
3.OA.D.8, MP1, 3.Mod2.AD9

Module 3

operations and assess the reasonableness of solutions.
3.OA.D.8, MP4, 3.Mod3.AD9

Topic D: Multiplication with Multiples of 10 and Further Application of Concepts

Lesson 20: Multiply by multiples of 10 by using the place value chart.
3.NBT.A.3, MP2, 3.Mod3.AD11

Lesson 21: Multiply by multiples of 10 by using place values strategies and the associative property.
3.OA.B.5, 3.NBT.A.3, MP7, 3.Mod3.AD7, 3.Mod3.AD11

Lesson 22: Solve two-step word problems involving multiplication of single-digit factors and multiples of 10.
3.OA.D.8, 3.NBT.A.3, MP4, 3.Mod3.AD9, 3.Mod3.AD11

Lesson 23: Identify patterns and apply strategies to multiply with units of 11 and 12. (Optional)
3.OA.B.5, 3.OA.D.9, MP5, 3.Mod3.AD5, 3.Mod3.AD7, 3.Mod3.AD10

Lesson 24: Organize, count, and represent a collection of objects.
3.OA.B.5, 3.OA.C.7, MP5, 3.Mod3.AD5, 3.Mod3.AD7, 3.Mod3.AD8

Lesson 25: Apply multiplication and division concepts to complete a multi-part task. (Optional)

Module 4

Lesson 18: Find the area of shapes and represent area data on a line plot.
3.MD.C.6, 3.MD.C.7.b, 3.MD.C.7.d, MP6, 3.Mod4.AD3, 3.Mod4.AD5, 3.Mod4.AD7

Lesson 19: Apply area concepts to complete a multi-part task.
3.MD.C.7.b, 3.MD.C.7.d, MP1, 3.Mod4.AD5, 3.Mod4.AD8

Module 5

3.NF.A.3.a, 3.NF.A.3.b, 3.NF.A.3.c, MP7, 3.Mod5.AD5, 3.Mod5.AD6

Lesson 18: Compare fractions with like units by using a number line.
3.NF.A.2.b, 3.NF.A.3.d, MP3, 3.Mod5.AD4, 3.Mod5.AD7

Lesson 19: Compare fractions with unlike units but the same numerator by using number lines.
3.NF.A.3.d, MP1, 3.Mod5.AD7

Lesson 20: Compare fractions with related units by using a number line.
3.NF.A.3.d, MP5, 3.Mod5.AD7

Lesson 21: Compare various fractions by representing them on number lines.
3.NF.A.3.d, MP6, 3.Mod5.AD7

Topic E: Equivalent Fractions

Lesson 22: Identify fractions equivalent to whole numbers by using number lines.
3.NF.A.3.a, 3.NF.A.3.b, 3.NF.A.3.c, MP2, MP8, 3.Mod5.AD5, 3.Mod5.AD6

Lesson 23: Reason to find fractions equivalent to whole numbers by using patterns and number lines.
3.NF.A.3.a, 3.NF.A.3.b, 3.NF.A.3.c, MP5, 3.Mod5.AD5, 3.Mod5.AD6

Lesson 24: Generate equivalent fractions greater than 1 by using a

Module 6

Lesson 20: Record measurement data in a line plot.
3.MD.B.4, MP6, 3.Mod6.AD4

Lesson 21: Create and analyze a line plot for measurement data to the nearest half unit and quarter unit.
3.MD.B.4, MP3, 3.Mod6.AD4

Lesson 22: Generate categorical data and represent it by using a scaled picture graph.
3.MD.B.3, MP1, 3.Mod6.AD3

Lesson 23: Solve problems by creating scaled picture graphs and scaled bar graphs.
3.MD.B.3, MP7, 3.Mod2.AD6, 3.Mod2.AD7, 3.Mod6.AD3

Lesson 24: Organize, count, and represent a collection of objects.
MP5

Lesson 25: Name and count numbers greater than 1,000. (Optional)
MP8

Lesson 26: Fluently multiply and divide within 100 and add and subtract within 1,000.
3.OA.C.7, 3.NBT.A.2, MP3

Module 1

Module 2

Module 3

Module 4

Module 5

Module 6

Lesson 23: Represent and solve two-step word problems using drawings and equations.
3.OA.A.3, 3.OA.C.7, 3.OA.D.8, MP5, 3.Mod1.AD3, 3.Mod1.AD8, 3.Mod1.AD9

3.OA.A.3, 3.OA.D.8, MP1, 3.Mod3.AD3, 3.Mod3.AD9

number line.
3.NF.A.3.b, 3.NF.A.3.c, MP2, 3.Mod5.AD5, 3.Mod5.AD6

Lesson 25: Express whole numbers as fractions with a denominator of 1.
3.NF.A.3.c, MP4, 3.Mod5.AD6

Lesson 26: Create a ruler with 1-inch, half-inch, and quarter-inch intervals.
3.NF.A.2.b, 3.NF.A.3.b, MP7, 3.Mod5.AD4, 3.Mod5.AD5

Lesson 27: Apply fraction concepts to complete a multi-part task. (Optional)
3.NF.A.1, 3.NF.A.2.b, 3.NF.A.3.d, MP4, 3.Mod5.AD2, 3.Mod5.AD4, 3.Mod5.AD7

Module 1 Place Value Concepts for Addition and Subtraction	Module 2 Place Value Concepts for Multiplication and Division	Module 3 Multiplication and Division of Multi-Digit Numbers	Module 4 Foundations for Fraction Operations	Module 5 Place Value Concepts for Decimal Fractions	Module 6 Angle Measurements and Plane Figures
<p>Topic A: Multiplication as Multiplicative Comparison</p> <p>Lesson 1: Interpret multiplication as multiplicative comparison. 4.OA.A.1, 4.OA.A.2, MP7, 4.Mod1.AD1, 4.Mod1.AD2, 4.Mod1.AD3</p> <p>Lesson 2: Solve multiplicative comparison problems with unknowns in various positions. 4.OA.A.1, 4.OA.A.2, MP7, 4.Mod1.AD1, 4.Mod1.AD2, 4.Mod1.AD3</p> <p>Lesson 3: Describe relationships between measurements by using multiplicative comparison. 4.OA.A.1, 4.OA.A.2, MP2, 4.Mod1.AD1, 4.Mod1.AD2, 4.Mod1.AD3</p> <p>Lesson 4: Represent the composition of larger units of money by using multiplicative comparison.</p>	<p>Topic A: Compose and Decompose Units of Ten</p> <p>Lesson 1: Multiply multiples of 10 by one-digit numbers by using the associative property of multiplication. 4.NBT.B.5, MP7, 4.Mod2.AD6</p> <p>Lesson 2: Divide two- and three-digit multiples of 10 by one-digit numbers. 4.NBT.B.6, MP2, 4.Mod2.AD7</p> <p>Lesson 3: Investigate and use a formula for the area of a rectangle. 4.MD.A.3, MP1, 4.Mod2.AD11</p> <hr/> <p>Topic B: Multiplication of Tens and Ones by One-Digit Numbers</p> <p>Lesson 4: Multiply by using familiar strategies. 4.NBT.B.5, MP5, 4.Mod2.AD6</p>	<p>Topic A: Multiplication and Division of Multiples of Tens, Hundreds, and Thousands</p> <p>Lesson 1: Divide multiples of 100 and 1000. 4.NBT.B.6, MP8, 4.Mod3.AD3</p> <p>Lesson 2: Multiply by multiples of 100 and 1000. 4.NBT.B.5, MP7, 4.Mod3.AD2</p> <p>Lesson 3: Multiply a two-digit multiple of 10 by a two-digit multiple of 10. 4.NBT.B.5, MP3, 4.Mod3.AD2</p> <hr/> <p>Topic B: Division of Thousands, Hundreds, Tens, and Ones</p> <p>Lesson 4: Apply place value strategies to divide hundreds, tens, and ones. 4.NBT.B.6, MP1, 4.Mod3.AD3</p>	<p>Topic A: Fraction Decomposition and Equivalence</p> <p>Lesson 1: Decompose whole numbers into a sum of unit fractions. NF.B.3.a, 4.NF.B.3.b, MP7, 4.Mod4.AD4</p> <p>Lesson 2: Decompose fractions into a sum of unit fractions. 4.NF.B.3.a, 4.NF.B.3.b, MP2, 4.Mod4.AD4</p> <p>Lesson 3: Decompose fractions into a sum of fractions. 4.NF.B.3.a, 4.NF.B.3.b, MP6, 4.Mod4.AD4</p> <p>Lesson 4: Represent fractions by using various fraction models. 4.NF.B.3.a, 4.NF.B.3.b, MP4, 4.Mod4.AD4</p> <p>Lesson 5: Rename fractions greater than 1 as mixed numbers.</p>	<p>Topic A: Exploration of Tenths</p> <p>Lesson 1: Organize, count, and represent a collection of money. 4.NF.C.6, MP5, 4.Mod5.AD3</p> <p>Lesson 2: Decompose 1 one and express tenths in fraction form and decimal form. 4.NF.C.6, MP8, 4.Mod5.AD3</p> <p>Lesson 3: Represent tenths as a place value unit. 4.NF.C.6, MP7, 4.Mod5.AD3</p> <p>Lesson 4: Write mixed numbers in decimal form with tenths. 4.NF.C.6, MP6, 4.Mod5.AD3</p> <hr/> <p>Topic B: Tenths and Hundredths</p> <p>Lesson 5: Decompose 1 one and express hundredths in fraction form and decimal form.</p>	<p>Topic A: Lines and Angles</p> <p>Lesson 1: Identify and draw points, lines, line segments, rays, and angles. 4.G.A.1, MP6, 4.Mod6.AD4, 4.Mod6.AD5</p> <p>Lesson 2: Identify right, acute, obtuse, and straight angles. 4.G.A.1, MP7, 4.Mod6.AD4, 4.Mod6.AD5</p> <p>Lesson 3: Draw right, acute, obtuse, and straight angles. 4.G.A.1, MP6, 4.Mod6.AD4, 4.Mod6.AD5</p> <p>Lesson 4: Identify, define, and draw perpendicular lines. 4.G.A.1, MP6, 4.Mod6.AD4, 4.Mod6.AD5</p> <p>Lesson 5: Identify, define, and draw parallel lines. 4.G.A.1, MP6, 4.Mod6.AD4, 4.Mod6.AD5</p>

Module 1

4.OA.A.1, 4.OA.A.2, MP7,
4.Mod1.AD1, 4.Mod1.AD2,
4.Mod1.AD3

Topic B: Place Value and Comparison within 1,000,000

Lesson 5: Organize, count, and represent a collection of objects.
4.NBT.A.2, MP5, 4.Mod1.AD7

Lesson 6: Demonstrate that a digit represents 10 times the value of what it represents in the place to its right.
4.OA.A.1, 4.NBT.A.1, MP8,
4.Mod1.AD1, 4.Mod1.AD2,
4.Mod1.AD6

Lesson 7: Write numbers to 1,000,000 in unit form and expanded form by using place value structure.
4.NBT.A.2, MP7, 4.Mod1.AD7

Lesson 8: Write numbers to 1,000,000 in standard form and word form.
4.NBT.A.2, MP3, 4.Mod1.AD7

Lesson 9: Compare numbers within 1,000,000 by using $>$, $=$, and $<$.
4.NBT.A.2, MP6, 4.Mod1.AD8

Topic C: Rounding Multi-Digit Whole Numbers

Lesson 10: Name numbers by using place value understanding.
4.NBT.A.2, MP8, 4.Mod1.AD7

Module 2

Lesson 5: Multiply by using place value strategies and the distributive property.
4.NBT.B.5, MP7, 4.Mod2.AD6

Lesson 6: Multiply with regrouping by using place value strategies and the distributive property.
4.NBT.B.5, MP6, 4.Mod2.AD6

Lesson 7: Multiply by using an area model and the distributive property.
4.NBT.B.5, 4.MD.A.3, MP7,
4.Mod2.AD6, 4.Mod2.AD11

Lesson 8: Multiply by applying the distributive property and write equations.
4.NBT.B.5, MP3, 4.Mod2.AD6

Lesson 9: Solve multiplication word problems.
4.OA.A.2, 4.NBT.B.5, MP5,
4.Mod2.AD1, 4.Mod2.AD6

Lesson 10: Multiply by applying simplifying strategies. (Optional)
4.NBT.B.5, MP5, 4.Mod2.AD6

Topic C: Division of Tens and Ones by One-Digit Numbers

Lesson 11: Divide by using familiar strategies.
4.NBT.B.6, MP2, 4.Mod2.AD7

Lesson 12: Divide two-digit numbers by one-digit numbers by using an area model.
4.NBT.B.6, MP7, 4.Mod2.AD7

Module 3

Lesson 5: Apply place value strategies to divide thousands, hundreds, tens, and ones.
4.NBT.B.6, MP5, 4.Mod3.AD3

Lesson 6: Connect pictorial representations of division to long division.
4.NBT.B.6, MP6, 4.Mod3.AD3

Lesson 7: Represent division by using partial quotients.
4.NBT.B.6, MP8, 4.Mod3.AD3

Lesson 8: Choose and apply a method to divide multi-digit numbers.
4.NBT.B.6, MP6, 4.Mod3.AD3

Topic C: Multiplication of up to Four-Digit Numbers by One-Digit Numbers

Lesson 9: Apply place value strategies to multiply three-digit numbers by one-digit numbers.
4.NBT.B.5, MP5, 4.Mod3.AD2

Lesson 10: Apply place value strategies to multiply four-digit numbers by one-digit numbers.
4.NBT.B.5, MP7, 4.Mod3.AD2

Lesson 11: Represent multiplication by using partial products.
4.NBT.B.5, MP8, 4.Mod3.AD2

Lesson 12: Multiply by using various recording methods in vertical form.
4.NBT.B.5, MP6, 4.Mod3.AD2

Module 4

4.NF.B.3.a, 4.NF.B.3.b, MP7,
4.Mod4.AD4

Lesson 6: Rename mixed numbers as fractions greater than 1.
4.NF.B.3.a, 4.NF.B.3.b, MP5,
4.Mod4.AD4

Topic B: Equivalent Fractions

Lesson 7: Rename fractions as a sum of equivalent smaller unit fractions.
4.NF.B.3.a, 4.NF.B.3.b, MP2,
4.Mod4.AD4

Lesson 8: Generate equivalent fractions with smaller units for unit fractions.
4.NF.A.1, MP8, 4.Mod4.AD1,
4.Mod4.AD2

Lesson 9: Generate equivalent fractions with smaller units for non-unit fractions.
4.NF.A.1, MP7, 4.Mod4.AD1,
4.Mod4.AD2

Lesson 10: Generate equivalent fractions with larger units.
4.NF.A.1, MP6, 4.Mod4.AD1,
4.Mod4.AD2

Lesson 11: Represent equivalent fractions by using tape diagrams, number lines, and multiplication or division.
4.NF.A.1, MP8, 4.Mod4.AD1,
4.Mod4.AD2

Lesson 12: Generate equivalent fractions for fractions greater than

Module 5

4.NF.C.5, 4.NF.C.6, MP2,
4.Mod5.AD1, 4.Mod5.AD3

Lesson 6: Represent hundredths as a place value unit.
4.NF.C.5, 4.NF.C.6, MP3,
4.Mod5.AD1, 4.Mod5.AD3

Lesson 7: Write mixed numbers in decimal form with hundredths.
4.NF.C.5, 4.NF.C.6, MP7,
4.Mod5.AD1, 4.Mod5.AD3

Lesson 8: Represent decimal numbers in expanded form.
4.NF.C.5, 4.NF.C.6, MP2,
4.Mod5.AD1, 4.Mod5.AD3

Topic C: Comparison of Decimal Numbers

Lesson 9: Compare measurements expressed as decimal numbers.
4.NF.C.7, MP2, 4.Mod5.AD4

Lesson 10: Use pictorial representations to compare decimal numbers.
4.NF.C.7, MP5, 4.Mod5.AD4

Lesson 11: Compare and order decimal numbers.
4.NF.C.7, MP3, 4.Mod5.AD4

Topic D: Addition of Tenths and Hundredths

Lesson 12: Apply fraction equivalence to add tenths and hundredths.
4.NF.C.5, MP1, 4.Mod5.AD2

Module 6

Lesson 6: Relate geometric figures to a real-world context.
4.G.A.1, MP2, 4.Mod6.AD4,
4.Mod6.AD5

Topic B: Angle Measurement

Lesson 7: Explore angles as fractional turns through a circle.
4.MD.C.5.a, MP7, 4.Mod6.AD1

Lesson 8: Use a circular protractor to recognize a 1° angle as a turn through $\frac{1}{360}$ of a circle.
4.MD.C.5, 4.MD.C.6, MP8,
4.Mod6.AD1, 4.Mod6.AD2

Lesson 9: Identify and measure angles as turns and recognize them in various contexts.
4.MD.C.5, 4.MD.C.5.a,
4.MD.C.5.b, MP2, 4.Mod6.AD1

Lesson 10: Use 180° protractors to measure angles.
4.MD.C.5, 4.MD.C.5.a,
4.MD.C.5.b, 4.MD.C.6, 4.G.A.1,
MP6, 4.Mod6.AD1,
4.Mod6.AD2, 4.Mod6.AD4

Lesson 11: Estimate and measure angles with a 180° protractor.
4.MD.C.5, 4.MD.C.5.a,
4.MD.C.5.b, 4.MD.C.6, 4.G.A.1,
MP6, 4.Mod6.AD1,
4.Mod6.AD2, 4.Mod6.AD4

Lesson 12: Use a protractor to draw angles up to 180° .
4.MD.C.6, 4.G.A.1, MP6,
4.Mod6.AD2, 4.Mod6.AD4

Module 1

Lesson 11: Find 1, 10, and 100 thousand more than and less than a given number.
4.NBT.A.2, MP1, 4.Mod1.AD7

Lesson 12: Round to the nearest thousand.
4.NBT.A.3, MP6, 4.Mod1.AD9

Lesson 13: Round to the nearest ten thousand and hundred thousand.
4.NBT.A.3, MP6, 4.Mod1.AD9

Lesson 14: Round multi-digit numbers to any place.
4.NBT.A.3, MP8, 4.Mod1.AD9

Lesson 15: Apply estimation to real-world situations by using rounding.
4.OA.A.3, 4.NBT.A.3, MP3, 4.Mod1.AD4, 4.Mod1.AD9

Topic D: Multi-Digit Whole Number Addition and Subtraction

Lesson 16: Add by using the standard algorithm.
4.OA.A.3, 4.NBT.B.4, MP4, 4.Mod1.AD4, 4.Mod1.AD10

Lesson 17: Solve multi-step addition word problems by using the standard algorithm.
4.OA.A.3, 4.NBT.B.4, MP2, 4.Mod1.AD5, 4.Mod1.AD10

Lesson 18: Subtract by using the standard algorithm, decomposing larger units once.
4.NBT.B.4, MP6, 4.Mod1.AD10

Module 2

Lesson 13: Divide three-digit numbers by one-digit numbers by using an area model.
4.NBT.B.6, MP3, 4.Mod2.AD7

Lesson 14: Divide two-digit numbers by one-digit numbers by using place value strategies.
4.NBT.B.6, MP6, 4.Mod2.AD7

Lesson 15: Divide three-digit numbers by one-digit numbers by using place value strategies.
4.NBT.B.6, MP7, 4.Mod2.AD7

Lesson 16: Divide by using the break apart and distribute strategy.
4.NBT.B.6, MP1, 4.Mod2.AD7

Topic D: Problem Solving with Measurement

Lesson 17: Express measurements of length in terms of smaller units.
4.MD.A.1, 4.MD.A.2, MP8, 4.Mod2.AD8, 4.Mod2.AD9, 4.Mod2.AD10

Lesson 18: Investigate and use formulas for the perimeter of a rectangle.
4.MD.A.3, MP4, 4.Mod2.AD11

Lesson 19: Apply area and perimeter formulas to solve problems.
4.MD.A.3, MP2, 4.Mod2.AD11

Lesson 20: Solve word problems involving additive and multiplicative comparisons.

Module 3

Topic D: Multiplication of Two-Digit Numbers by Two-Digit Numbers

Lesson 13: Multiply two-digit numbers by two-digit multiples of 10.
4.NBT.B.5, MP5, 4.Mod3.AD2

Lesson 14: Apply place value strategies to multiply two-digit numbers by two-digit numbers.
4.NBT.B.5, MP2, 4.Mod3.AD2

Lesson 15: Multiply with four partial products.
4.NBT.B.5, MP6, 4.Mod3.AD2

Lesson 16: Multiply with two partial products.
4.NBT.B.5, MP7, 4.Mod3.AD2

Lesson 17: Apply the distributive property to multiply.
4.NBT.B.5, MP2, 4.Mod3.AD2

Topic E: Problem Solving with Measurement

Lesson 18: Express units of time in terms of smaller units.
4.MD.A.1, 4.MD.A.2, MP1, 4.Mod3.AD4, 4.Mod3.AD5

Lesson 19: Express customary measurements of weight in terms of smaller units.
4.MD.A.1, 4.MD.A.2, MP4, 4.Mod3.AD4, 4.Mod3.AD5

Module 4

1 and generate equivalent mixed numbers.
4.NF.A.1, MP3, 4.Mod4.AD1, 4.Mod4.AD2

Topic C: Compare Fractions

Lesson 13: Compare fractions by using the benchmarks 0 , $\frac{1}{2}$, and 1 .
4.NF.A.2, MP3, 4.Mod4.AD3

Lesson 14: Compare fractions with related denominators.
4.NF.A.2, MP5, 4.Mod4.AD3

Lesson 15: Compare fractions with related numerators.
4.NF.A.2, MP5, 4.Mod4.AD3

Lesson 16: Generate a common numerator or denominator to compare fractions.
4.NF.A.2, MP1, 4.Mod4.AD3

Lesson 17: Apply fraction comparison strategies to compare fractions greater than 1.
4.NF.A.2, MP7, 4.Mod4.AD3

Topic D: Add and Subtract Fractions

Lesson 18: Estimate sums and differences of fractions by using benchmarks.
4.NF.B.3.a, 4.NF.B.3.b, 4.NF.B.3.d, MP3, 4.Mod4.AD4, 4.Mod4.AD7

Lesson 19: Add and subtract fractions with like units.

Module 5

Lesson 13: Apply fraction equivalence to add mixed numbers with tenths and hundredths.
4.NF.C.5, MP7, 4.Mod5.AD2

Lesson 14: Solve word problems with tenths and hundredths.
4.NF.C.5, 4.MD.A.2, MP4, 4.Mod5.AD2, 4.Mod5.AD5

Module 6

Topic C: Determine Unknown Angle Measures

Lesson 13: Decompose angles by using pattern blocks.
4.MD.C.7, MP2, 4.Mod6.AD3

Lesson 14: Find unknown angle measures within right and straight angles.
4.MD.C.7, MP7, 4.Mod6.AD3

Lesson 15: Find unknown angle measures within a decomposed angle of up to 180° .
4.MD.C.7, MP5, 4.Mod6.AD3

Lesson 16: Find unknown angle measures around a point.
4.MD.C.7, MP1, 4.Mod6.AD3

Topic D: Two-Dimensional Figures and Symmetry

Lesson 17: Recognize, identify, and draw lines of symmetry.
4.G.A.3, MP7, 4.Mod6.AD7

Lesson 18: Analyze and classify triangles based on side length, angle measures, or both.
4.G.A.1, 4.G.A.2, MP3, 4.Mod6.AD5, 4.Mod6.AD6

Lesson 19: Construct and classify triangles based on given attributes.
4.G.A.1, 4.G.A.2, MP6, 4.Mod6.AD5, 4.Mod6.AD6

Module 1

Lesson 19: Subtract by using the standard algorithm, decomposing larger units up to 3 times.
4.NBT.B.4, MP1, 4.Mod1.AD10

Lesson 20: Subtract by using the standard algorithm, decomposing larger units multiple times.
4.NBT.B.4, MP7, 4.Mod1.AD10

Lesson 21: Solve two-step word problems by using addition and subtraction.
4.OA.A.3, 4.NBT.B.4, MP4, 4.Mod1.AD5, 4.Mod1.AD10

Lesson 22: Solve multi-step word problems by using addition and subtraction.
4.OA.A.3, 4.NBT.B.4, MP2, 4.Mod1.AD5, 4.Mod1.AD10

Topic E: Metric Measurement Conversion Tables

Lesson 23: Express metric measurements of length in terms of smaller units.
4.MD.A.1, 4.MD.A.2, MP7, 4.Mod1.AD11, 4.Mod1.AD12

Lesson 24: Express metric measurements of mass and liquid volume in terms of smaller units.
4.MD.A.1, 4.MD.A.2, MP5, 4.Mod1.AD11, 4.Mod1.AD12

Module 2

4.OA.A.2, 4.MD.A.2, 4.MD.A.3, MP1, 4.Mod2.AD1, 4.Mod2.AD9, 4.Mod2.AD10, 4.Mod2.AD11

Topic E: Factors and Multiples

Lesson 21: Find factor pairs for numbers up to 100 and use factors to identify numbers as prime or composite.
4.OA.B.4, MP6, 4.Mod2.AD2, 4.Mod2.AD4

Lesson 22: Use division and the associative property of multiplication to find factors.
4.OA.B.4, MP3, 4.Mod2.AD2, 4.Mod2.AD4

Lesson 23: Determine whether a whole number is a multiple of another number.
4.OA.B.4, MP7, 4.Mod2.AD3

Lesson 24: Recognize that a number is a multiple of each of its factors.
4.OA.B.4, MP8, 4.Mod2.AD3

Lesson 25: Explore properties of prime and composite numbers up to 100 by using multiples.
4.OA.B.4, MP3, 4.Mod2.AD3, 4.Mod2.AD4

Lesson 26: Use relationships within a pattern to find an unknown term in the sequence.
4.OA.C.5, MP6, 4.Mod2.AD5

Module 3

Lesson 20: Express customary measurements of liquid volume in terms of smaller units.
4.MD.A.1, 4.MD.A.2, MP5, 4.Mod3.AD4, 4.Mod3.AD5

Topic F: Remainders, Estimating, and Problem Solving

Lesson 21: Find whole-number quotients and remainders.
4.OA.A.3, 4.NBT.B.6, MP2, 4.Mod3.AD1, 4.Mod3.AD3

Lesson 22: Represent, estimate, and solve division word problems.
4.OA.A.3, 4.NBT.B.6, MP1, 4.Mod3.AD1, 4.Mod3.AD3

Lesson 23: Solve multi-step word problems and interpret remainders.
4.OA.A.3, MP4, 4.Mod3.AD1

Lesson 24: Solve multi-step word problems and assess the reasonableness of solutions.
4.OA.A.3, MP3, 4.Mod3.AD1

Module 4

4.NF.B.3.a, 4.NF.B.3.b, MP4, 4.Mod4.AD4

Lesson 20: Subtract a fraction from a whole number.
4.NF.B.3.a, 4.NF.B.3.b, 4.NF.B.3.d, 4.MD.A.2, MP1, 4.Mod4.AD4, 4.Mod4.AD7

Lesson 21: Solve addition and subtraction word problems and estimate the reasonableness of the answers.
4.NF.B.3.a, 4.NF.B.3.b, 4.NF.B.3.d, 4.MD.A.2, MP1, 4.Mod4.AD4, 4.Mod4.AD7

Lesson 22: Add two fractions with related units. (Optional)
4.NF.B.3.a, 4.NF.B.3.b, MP5, 4.Mod4.AD4

Topic E: Add and Subtract Mixed Numbers

Lesson 23: Add a fraction to a mixed number.
4.NF.B.3.c, MP7, 4.Mod4.AD5

Lesson 24: Add a mixed number to a mixed number.
4.NF.B.3.c, 4.NF.B.3.d, MP7, 4.Mod4.AD5, 4.Mod4.AD7

Lesson 25: Subtract a fraction from a mixed number, part 1.
4.NF.B.3.c, MP6, 4.Mod4.AD6

Lesson 26: Subtract a fraction from a mixed number, part 2.
4.NF.B.3.c, MP7, 4.Mod4.AD6

Module 5

Module 6

Lesson 20: Sort polygons based on a given rule.
4.G.A.1, 4.G.A.2, MP1, 4.Mod6.AD5, 4.Mod6.AD6

Lesson 27: Subtract a mixed number from a mixed number.
4.NF.B.3.c, 4.NF.B.3.d, 4.MD.A.2, MP2, 4.Mod4.AD6, 4.Mod4.AD7

Lesson 28: Represent and solve word problems with mixed numbers by using drawings and equations.
4.NF.B.3.d, 4.MD.A.2, MP4, 4.Mod4.AD7

Lesson 29: Solve problems by using data from a line plot.
4.MD.B.4, MP1, 4.Mod4.AD11

Lesson 30: Represent data on a line plot.
4.MD.B.4, MP6, 4.Mod4.AD11

Topic F: Repeated Addition of Fractions as Multiplication

Lesson 31: Decompose non-unit fractions into a product of a whole number and a unit fraction.
4.NF.B.4.a, MP7, 4.Mod4.AD8

Lesson 32: Multiply a fraction by a whole number by using the associative property.
4.NF.B.4.b, MP8, 4.Mod4.AD9

Lesson 33: Solve word problems involving multiplication of a fraction by a whole number.
4.NF.B.4.b, 4.NF.B.4.c, 4.MD.A.2, MP2, 4.Mod4.AD9, 4.Mod4.AD10

Lesson 34: Multiply a mixed number by a whole number by using the distributive property.
4.NF.B.4.b, MP3, 4.Mod4.AD9

Module 1

Module 2

Module 3

Module 4

Module 5

Module 6

			■		
--	--	--	---	--	--

Module 1 Place Value Concepts for Multiplication and Division with Whole Numbers	Module 2 Addition and Subtraction with Fractions	Module 3 Multiplication and Division with Fractions	Module 4 Place Value Concepts for Decimal Operations	Module 5 Addition and Multiplication with Area and Volume	Module 6 Foundations to Geometry in the Coordinate Plane
<p>Topic A: Place Value Understanding for Whole Numbers</p> <p>Lesson 1: Relate adjacent place value units by using place value understanding. 5.NBT.A.1, MP5, 5.Mod1.AD6</p> <p>Lesson 2: Multiply and divide by 10, 100, and 1,000 and identify patterns in the products and quotients. 5.NBT.A.1, 5.NBT.A.2, MP8, 5.Mod1.AD6, 5.Mod1.AD7</p> <p>Lesson 3: Use exponents to multiply and divide by powers of 10. 5.NBT.A.2, MP3, 5.Mod1.AD7, 5.Mod1.AD8</p> <p>Lesson 4: Estimate products and quotients by using powers of 10 and their multiples. 5.NBT, 5.NBT.A.2, MP7, 5.Mod1.AD5, 5.Mod1.AD7</p>	<p>Topic A: Fractions and Division</p> <p>Lesson 1: Interpret a fraction as division. 5.NF.B.3, MP7, 5.Mod2.AD8, 5.Mod2.AD9, 5.Mod2.AD10</p> <p>Lesson 2: Interpret a fraction as division by writing remainders as fractions. 5.NF.B.3, MP5, 5.Mod2.AD9, 5.Mod2.AD10</p> <p>Lesson 3: Represent fractions as division by using models. 5.NF.B.3, MP2, 5.Mod2.AD9, 5.Mod2.AD10</p> <p>Lesson 4: Solve word problems involving division and fractions. 5.NF, 5.NF.B.3, MP1, 5.Mod2.AD1, 5.Mod2.AD9, 5.Mod2.AD10</p>	<p>Topic A: Multiplication of a Whole Number by a Fraction</p> <p>Lesson 1: Find fractions of a set with arrays. 5.NF.B.4.a, 5.NF.B.5.b, MP8, 5.Mod3.AD7, 5.Mod3.AD9</p> <p>Lesson 2: Interpret fractions as division to find fractions of a set with tape diagrams and number lines. 5.NF.B.4.a, 5.NF.B.5.b, MP4, 5.Mod3.AD7, 5.Mod3.AD9</p> <p>Lesson 3: Multiply a whole number by a fraction less than 1. 5.NF.B.4, 5.NF.B.4.a, 5.NF.B.5.a, MP5, 5.Mod3.AD6, 5.Mod3.AD7, 5.Mod3.AD8</p> <p>Lesson 4: Multiply a whole number by a fraction. 5.NF.B.4.a, 5.NF.B.5.a, 5.NF.B.5.b, MP2, 5.Mod3.AD7, 5.Mod3.AD8, 5.Mod3.AD9</p>	<p>Topic A: Understanding Decimal Numbers with Place Value and Fraction Thinking</p> <p>Lesson 1: Model and relate decimal place value units to thousandths. 5.NBT.A, 5.NBT.A.1, 5.NBT.A.3.a, MP8, 5.Mod4.AD5, 5.Mod4.AD6, 5.Mod4.AD9</p> <p>Lesson 2: Represent thousandths as a place value unit. 5.NBT.A, 5.NBT.A.1, 5.NBT.A.3.a, MP7, 5.Mod4.AD5, 5.Mod4.AD6, 5.Mod4.AD9</p> <p>Lesson 3: Represent decimal numbers to the thousandths place in different forms. 5.NBT.A, 5.NBT.A.1, 5.NBT.A.3.a, MP7, 5.Mod4.AD5, 5.Mod4.AD6, 5.Mod4.AD9</p> <p>Lesson 4: Relate the values of digits in a decimal number by using place value understanding. 5.NBT.A.1, MP6, 5.Mod4.AD6</p>	<p>Topic A: Drawing, Analysis, and Classification of Two-Dimensional Figures</p> <p>Lesson 1: Analyze hierarchies and identify properties of quadrilaterals. 5.G.B.3, 5.G.B.4, MP8, 5.Mod5.AD13, 5.Mod5.AD14</p> <p>Lesson 2: Classify trapezoids based on their properties. 5.G.B.3, 5.G.B.4, MP7, 5.Mod5.AD13, 5.Mod5.AD14</p> <p>Lesson 3: Classify parallelograms based on their properties. 5.G.B.3, 5.G.B.4, MP3, 5.Mod5.AD13, 5.Mod5.AD14</p> <p>Lesson 4: Classify rectangles and rhombuses based on their properties. 5.G.B.3, 5.G.B.4, MP6, 5.Mod5.AD13, 5.Mod5.AD14</p> <p>Lesson 5: Classify kites and squares based on their properties.</p>	<p>Topic A: Coordinate Systems</p> <p>Lesson 1: Construct a coordinate system on a line. 5.G.A.1, MP6, 5.Mod6.AD3</p> <p>Lesson 2: Construct a coordinate system in a plane. 5.G.A.1, MP7, 5.Mod6.AD3</p> <p>Lesson 3: Identify and plot points by using ordered pairs. 5.G.A.1, MP1, 5.Mod6.AD3</p> <p>Lesson 4: Describe the distance and direction between points in the coordinate plane. 5.G.A.2, MP2, 5.Mod6.AD4, 5.Mod6.AD5</p> <hr/> <p>Topic B: Patterns in the Coordinate Plane</p> <p>Lesson 5: Identify properties of horizontal and vertical lines. 5.G.A.2, MP8, 5.Mod6.AD5</p>

Module 1

Lesson 5: Convert measurements and describe relationships between metric units.
5.MD.A.1, MP6, 5.Mod1.AD12

Lesson 6: Solve multi-step word problems by using metric measurement conversion.
5.MD.A.1, MP2, 5.Mod1.AD12

Topic B: Multiplication of Whole Numbers

Lesson 7: Multiply by using familiar methods.
5.OA.A.1, 5.NBT.B.5, MP5, 5.Mod1.AD1, 5.Mod1.AD2, 5.Mod1.AD9

Lesson 8: Multiply two- and three-digit numbers by two-digit numbers by using the distributive property.
5.OA.A.1, 5.NBT.B.5, MP8, 5.Mod1.AD1, 5.Mod1.AD2, 5.Mod1.AD9

Lesson 9: Multiply two- and three-digit numbers by two-digit numbers by using the standard algorithm.
5.NBT.B.5, MP6, 5.Mod1.AD9

Lesson 10: Multiply three- and four-digit numbers by three-digit numbers by using the standard algorithm.
5.NBT.B.5, MP6, 5.Mod1.AD9

Lesson 11: Multiply two multi-digit numbers by using the standard algorithm.
5.NBT.B.5, MP3, 5.Mod1.AD9

Module 2

Topic B: Addition and Subtraction of Fractions by Making Like Units

Lesson 5: Add and subtract fractions with related units by using pictorial models.
5.NF.A, MP6, 5.Mod2.AD2, 5.Mod2.AD3

Lesson 6: Add and subtract fractions with related units by using area models to rename fractions.
5.NF.A, MP7, 5.Mod2.AD2

Lesson 7: Add and subtract fractions with related units by finding equivalent fractions numerically.
5.NF.A, 5.NF.A.1, MP5, 5.Mod2.AD2, 5.Mod2.AD4

Lesson 8: Add and subtract fractions with unrelated units by finding equivalent fractions pictorially.
5.NF.A, 5.NF.A.1, MP8, 5.Mod2.AD3, 5.Mod2.AD4

Lesson 9: Add and subtract fractions with unrelated units by finding equivalent fractions numerically.
5.NF.A, 5.NF.A.1, MP5, 5.Mod2.AD2, 5.Mod2.AD4

Topic C: Addition and Subtraction of Fractions, Whole Numbers, and Mixed Numbers

Module 3

Lesson 5: Convert larger customary measurement units to smaller measurement units.
5.NF.B.4.a, 5.NF.B.5.b, 5.MD.A.1, MP6, 5.Mod3.AD7, 5.Mod3.AD9, 5.Mod3.AD14

Lesson 6: Convert smaller customary measurement units to larger measurement units.
5.NF.B.4.a, 5.NF.B.5.b, 5.MD.A.1, MP7, 5.Mod3.AD7, 5.Mod3.AD9, 5.Mod3.AD14

Topic B: Multiplication of Fractions

Lesson 7: Multiply fractions less than 1 by unit fractions pictorially.
5.NF.B.4.a, 5.NF.B.5.a, 5.NF.B.5.b, MP6, 5.Mod3.AD7, 5.Mod3.AD8, 5.Mod3.AD9

Lesson 8: Multiply fractions less than 1 pictorially.
5.NF.B.4.a, 5.NF.B.5.a, 5.NF.B.5.b, MP3, 5.Mod3.AD7, 5.Mod3.AD8, 5.Mod3.AD9

Lesson 9: Multiply fractions by unit fractions by making simpler problems.
5.NF.B.4, 5.NF.B.5.a, 5.NF.B.5.b, MP8, 5.Mod3.AD6, 5.Mod3.AD8, 5.Mod3.AD9

Lesson 10: Multiply fractions greater than 1 by fractions.
5.NF.B.4, 5.NF.B.5.a, 5.NF.B.5.b, MP7, 5.Mod3.AD6, 5.Mod3.AD8, 5.Mod3.AD9

Module 4

Lesson 5: Multiply and divide decimal numbers by powers of 10.
5.NBT.A.2, MP8, 5.Mod4.AD7

Lesson 6: Compare decimal numbers to the thousandths place.
5.NBT.A.3, 5.NBT.A.3.b, MP5, 5.Mod4.AD8, 5.Mod4.AD10

Lesson 7: Round decimal numbers to the nearest one, tenth, or hundredth.
5.NBT.A.4, MP6, 5.Mod4.AD11

Lesson 8: Round decimal numbers to any place value unit.
5.NBT.A.4, MP3, 5.Mod4.AD11

Topic B: Addition and Subtraction of Decimal Numbers

Lesson 9: Add decimal numbers by using different methods.
5.NBT.B, 5.NBT.B.7, MP5, 5.Mod4.AD12, 5.Mod4.AD14, 5.Mod4.AD19

Lesson 10: Add decimal numbers by using place value understanding.
5.NBT.B.7, MP1, 5.Mod4.AD14, 5.Mod4.AD18, 5.Mod4.AD19

Lesson 11: Subtract decimal numbers by using different methods.
5.NBT.B.7, MP7, 5.Mod4.AD15, 5.Mod4.AD18, 5.Mod4.AD19

Lesson 12: Subtract decimal numbers by using place value understanding.

Module 5

5.G.B.3, 5.G.B.4, MP6, 5.Mod5.AD13, 5.Mod5.AD14

Lesson 6: Identify quadrilaterals from given properties.
5.G.B.3, 5.G.B.4, MP1, 5.Mod5.AD13, 5.Mod5.AD14

Lesson 7: Classify quadrilaterals in a hierarchy based on properties.
5.G.B.3, 5.G.B.4, MP7, 5.Mod5.AD13, 5.Mod5.AD14

Topic B: Areas of Rectangular Figures with Fraction Side Lengths

Lesson 8: Find areas of square tiles with fraction side lengths by relating the tile to a unit square.
5.NF.B.4.b, MP7, 5.Mod5.AD2

Lesson 9: Organize, count, and represent a collection of square tiles.
5.NF.B.4.b, MP5, 5.Mod5.AD2

Lesson 10: Find the area of a rectangle with fraction side lengths by relating the rectangle to a unit square.
5.NF.B.5.b, MP7, 5.Mod5.AD2

Lesson 11: Find areas of rectangles with fraction side lengths by using multiplication.
5.NF.B.4.b, MP8, 5.Mod5.AD3

Lesson 12: Multiply mixed numbers.
5.NF.B.4, 5.NF.B.4.b, MP5, 5.Mod5.AD1, 5.Mod5.AD4

Module 6

Lesson 6: Use properties of horizontal and vertical lines to solve problems.
5.G.A.2, MP6, 5.Mod6.AD5

Lesson 7: Generate number patterns to form ordered pairs.
5.OA.B.3, 5.G.A.2, MP7, 5.Mod6.AD1, 5.Mod6.AD2, 5.Mod6.AD5

Lesson 8: Identify addition and subtraction relationships between corresponding terms in number patterns.
5.OA.B.3, 5.G.A.2, MP8, 5.Mod6.AD1, 5.Mod6.AD2, 5.Mod6.AD5

Lesson 9: Identify multiplication and division relationships between corresponding terms in number patterns.
5.OA.B.3, 5.G.A.2, MP8, 5.Mod6.AD1, 5.Mod6.AD2, 5.Mod6.AD5

Lesson 10: Identify mixed-operation relationships between corresponding terms in number patterns. (Optional)
MP7

Topic C: Solve Mathematical Problems in the Coordinate Plane

Lesson 11: Draw lines in the coordinate plane and identify points on the lines.
5.OA.B.3, 5.G.A.2, MP3, 5.Mod6.AD2, 5.Mod6.AD5

Module 1

Topic C: Division of Whole Numbers

Lesson 12: Divide two- and three-digit numbers by multiples of 10.
5.NBT, 5.NBT.B.6, MP2, 5.Mod1.AD5, 5.Mod1.AD10, 5.Mod1.AD11

Lesson 13: Divide two-digit numbers by two-digit numbers in problems that result in one-digit quotients.
5.NBT, 5.NBT.B.6, MP7, 5.Mod1.AD5, 5.Mod1.AD10, 5.Mod1.AD11

Lesson 14: Divide three-digit numbers by two-digit numbers in problems that result in one-digit quotients.
5.NBT, 5.NBT.B.6, MP1, 5.Mod1.AD5, 5.Mod1.AD10

Lesson 15: Divide three-digit numbers by two-digit numbers in problems that result in two-digit quotients.
5.NBT, 5.NBT.B.6, MP7, 5.Mod1.AD5, 5.Mod1.AD10, 5.Mod1.AD11

Lesson 16: Divide four-digit numbers by two-digit numbers.
5.NBT, 5.NBT.B.6, MP2, 5.Mod1.AD5, 5.Mod1.AD10

Module 2

Lesson 10: Add whole numbers and mixed numbers and add mixed numbers with related units.
5.NF.A.1, 5.NF.A.2, MP5, 5.Mod2.AD4, 5.Mod2.AD7

Lesson 11: Add mixed numbers with unrelated units.
5.NF.A.1, 5.NF.A.2, MP2, 5.Mod2.AD4, 5.Mod2.AD5, 5.Mod2.AD6

Lesson 12: Subtract whole numbers from mixed numbers and mixed numbers from whole numbers.
5.NF.A, 5.NF.A.1, 5.NF.A.2, MP6, 5.Mod2.AD2, 5.Mod2.AD4, 5.Mod2.AD7

Lesson 13: Subtract mixed numbers from mixed numbers with related units.
5.NF.A.1, 5.NF.A.2, MP7, 5.Mod2.AD4, 5.Mod2.AD7

Lesson 14: Subtract mixed numbers from mixed numbers with unrelated units.
5.NF.A.1, 5.NF.A.2, MP4, 5.Mod2.AD4, 5.Mod2.AD5, 5.Mod2.AD6

Topic D: Problem Solving and Line Plots with Fractional Measurements

Lesson 15: Represent data on a line plot.
5.MD.B.2, MP6, 5.Mod2.AD11

Lesson 16: Solve problems by using data from a line plot.
5.MD.B.2, MP3, 5.Mod2.AD11

Module 3

Lesson 11: Multiply fractions.
5.NF.B.4.a, 5.NF.B.5.a, 5.NF.B.5.b, MP3, 5.Mod3.AD7, 5.Mod3.AD8, 5.Mod3.AD9

Topic C: Division with a Unit Fraction and a Whole Number

Lesson 12: Divide a nonzero whole number by a unit fraction to find the number of groups.
5.OA.A.2, 5.NF.B.7.b, 5.NF.B.7.c, MP1, 5.Mod3.AD3, 5.Mod3.AD12, 5.Mod3.AD13

Lesson 13: Divide a nonzero whole number by a unit fraction to find the size of the group.
5.NF.B.7.b, 5.NF.B.7.c, MP2, 5.Mod3.AD12, 5.Mod3.AD13

Lesson 14: Divide a unit fraction by a nonzero whole number.
5.NF.B.7.a, 5.NF.B.7.c, MP4, 5.Mod3.AD11, 5.Mod3.AD13

Lesson 15: Divide by whole numbers and unit fractions.
5.NF.B.7.a, 5.NF.B.7.b, 5.NF.B.7.c, MP3, 5.Mod3.AD11, 5.Mod3.AD12, 5.Mod3.AD13

Lesson 16: Reason about the size of quotients of whole numbers and unit fractions and quotients of unit fractions and whole numbers.
5.OA.A.2, 5.NF.B.7.a, 5.NF.B.7.b, MP7, 5.Mod3.AD4, 5.Mod3.AD11, 5.Mod3.AD12

Module 4

5.NBT.B, 5.NBT.B.7, MP5, 5.Mod4.AD12, 5.Mod4.AD15, 5.Mod4.AD19

Lesson 13: Solve word problems involving addition and subtraction of decimal numbers and fractions.
5.NBT.B, MP6, 5.Mod4.AD13

Topic C: Multiplication of Decimal Numbers

Lesson 14: Multiply decimal numbers to hundredths by one-digit whole numbers by using different models.
5.NBT.B.7, MP7, 5.Mod4.AD16, 5.Mod4.AD18, 5.Mod4.AD19

Lesson 15: Multiply decimal numbers to hundredths by one-digit whole numbers and multiples of 10, 100, or 1,000 by using different written methods.
5.NBT.B, 5.NBT.B.7, MP1, 5.Mod4.AD12, 5.Mod4.AD16, 5.Mod4.AD19

Lesson 16: Multiply decimal numbers to hundredths by two-digit whole numbers by using area models and vertical form.
5.NBT.B, 5.NBT.B.7, MP8, 5.Mod4.AD13, 5.Mod4.AD16, 5.Mod4.AD18

Lesson 17: Multiply decimal numbers to hundredths by two-digit whole numbers by using different methods.

Module 5

Lesson 13: Solve mathematical problems involving areas of composite figures with mixed-number side lengths.
5.NF.B.4.b, MP7, 5.Mod5.AD3

Lesson 14: Solve real-world problems involving areas of composite figures with mixed-number side lengths.
5.NF.B.4.b, 5.NF.B.6, MP1, 5.Mod5.AD3, 5.Mod5.AD5

Lesson 15: Solve multi-step word problems involving multiplication of mixed numbers.
5.NF.B.6, MP2, 5.Mod5.AD5

Topic C: Volume Concepts

Lesson 16: Identify attributes and properties of right rectangular prisms.
5.MD.C.3, 5.MD.C.3.a, 5.MD.C.3.b, MP7, 5.Mod5.AD6

Lesson 17: Find the volume of right rectangular prisms by packing with unit cubes and counting.
5.MD.C.3, 5.MD.C.3.a, 5.MD.C.3.b, 5.MD.C.4, MP2, 5.Mod5.AD6, 5.Mod5.AD7

Lesson 18: Find the volume of right rectangular prisms by packing with improvised units.
5.MD.C.4, MP3, 5.Mod5.AD7

Lesson 19: Compose and decompose right rectangular prisms to find their volume by using layers.

Module 6

Lesson 12: Graph and classify quadrilaterals in the coordinate plane.
5.G.A.2, 5.G.B.4, MP7, 5.Mod5.AD14, 5.Mod6.AD5

Lesson 13: Draw symmetric figures in the coordinate plane.
5.G.A.2, MP1, 5.Mod6.AD5

Lesson 14: Solve mathematical problems with rectangles in the coordinate plane.
5.G.A.2, MP5, 5.Mod6.AD5

Lesson 15: Use the coordinate plane to reason about perimeters and areas of rectangles.
5.G.A.2, 5.NF.B.4.b, MP3, 5.Mod5.AD3, 5.Mod6.AD5

Topic D: Solve Real-World Problems with the Coordinate Plane

Lesson 16: Interpret graphs that represent real-world situations.
5.G.A.2, MP3, 5.Mod6.AD4, 5.Mod6.AD5

Lesson 17: Plot data in the coordinate plane and analyze relationships.
5.G.A.2, MP2, 5.Mod6.AD4

Lesson 18: Interpret line graphs.
5.G.A.2, MP2, 5.Mod6.AD5

Lesson 19: Reason about visual patterns by using tables and graphs. (Optional)
MP5

Module 1

Topic D: Multi-Step Problems with Whole Numbers

Lesson 17: Write, interpret, and compare numerical expressions.
5.OA.A.1, 5.OA.A.2, MP6,
5.Mod1.AD1, 5.Mod1.AD3,
5.Mod1.AD4

Lesson 18: Create and solve real-world problems for given numerical expressions.
5.OA.A.1, 5.OA.A.2, MP2,
5.Mod1.AD2, 5.Mod1.AD3

Lesson 19: Solve multi-step word problems involving multiplication and division.
5.OA.A.1, 5.OA.A.2, 5.NBT, MP4,
5.Mod1.AD2, 5.Mod1.AD3,
5.Mod1.AD5

Lesson 20: Solve multi-step word problems involving the four operations.
5.OA.A.1, 5.OA.A.2, 5.NBT, MP1,
5.Mod1.AD2, 5.Mod1.AD3,
5.Mod1.AD5

Module 2

Lesson 17: Solve problems by equally redistributing a total amount.
5.NF.A.2, 5.MD.B.2, MP5,
5.Mod2.AD5, 5.Mod2.AD11

Module 3

Lesson 17: Solve word problems involving fractions with multiplication and division.
5.NF.B.6, 5.NF.B.7.c, MP1,
5.Mod3.AD10, 5.Mod3.AD13

Topic D: Multi-Step Problems with Fractions

Lesson 18: Compare and evaluate expressions with parentheses.
5.OA.A.1, 5.OA.A.2, MP6,
5.Mod3.AD2, 5.Mod3.AD3,
5.Mod3.AD4

Lesson 19: Create and solve one-step word problems involving fractions.
5.NF.B.7.a, 5.NF.B.7.b, 5.NF.B.7.c,
MP2, 5.Mod3.AD11, 5.Mod3.AD12,
5.Mod3.AD13

Lesson 20: Solve multi-step word problems involving fractions and write equations with parentheses.
5.NF, 5.NF.B.7.c, MP4,
5.Mod3.AD5, 5.Mod3.AD13

Lesson 21: Solve multi-step word problems involving fractions.
5.NF, 5.NF.B.6, 5.NF.B.7.c, MP4,
5.Mod3.AD5, 5.Mod3.AD10,
5.Mod3.AD13

Lesson 22: Evaluate expressions involving nested grouping symbols. (Optional)
5.OA.A.1, MP6, 5.Mod3.AD1,
5.Mod3.AD2

Module 4

5.NBT.B, 5.NBT.B.7, MP5,
5.Mod4.AD13, 5.Mod4.AD16,
5.Mod4.AD19

Lesson 18: Relate decimal-number multiplication to fraction multiplication.
5.NBT.B.7, MP8, 5.Mod4.AD16,
5.Mod4.AD18, 5.Mod4.AD19

Lesson 19: Multiply a decimal number by a decimal number.
5.NBT.B, 5.NBT.B.7, MP7,
5.Mod4.AD12, 5.Mod4.AD16,
5.Mod4.AD19

Topic D: Division of Decimal Numbers

Lesson 20: Divide decimal numbers to hundredths by one-digit whole numbers and multiples of 10, 100, or 1,000 by using unit form and place value understanding.
5.NBT.B, 5.NBT.B.7, MP7,
5.Mod4.AD12, 5.Mod4.AD17,
5.Mod4.AD18

Lesson 21: Divide decimal numbers to hundredths by one-digit whole numbers and multiples of 10, 100, or 1,000 by using place value understanding and vertical form.
5.NBT.B.7, MP3, 5.Mod4.AD17,
5.Mod4.AD19

Lesson 22: Divide decimal numbers to hundredths by two-digit whole numbers.
5.NBT.B, 5.NBT.B.7, MP5,
5.Mod4.AD13, 5.Mod4.AD17,
5.Mod4.AD19

Module 5

5.MD.C.3, 5.MD.C.3.a,
5.MD.C.3.b, 5.MD.C.4, MP8,
5.Mod5.AD6, 5.Mod5.AD7

Lesson 20: Interpret volume as filling.
5.MD.C.3, 5.MD.C.3.a,
5.MD.C.3.b, MP2, 5.Mod5.AD6

Lesson 21: Relate volumes of solids and liquid volume.
5.MD.C.3, 5.MD.C.3.a,
5.MD.C.3.b, 5.MD.C.4, MP2,
5.Mod5.AD6, 5.Mod5.AD7

Topic D: Volume and the Operations of Multiplication and Addition

Lesson 22: Find the volumes of right rectangular prisms by using the area of the base.
5.MD.C.5, 5.MD.C.5.a,
5.MD.C.5.b, MP7, 5.Mod5.AD8,
5.Mod5.AD9, 5.Mod5.AD11

Lesson 23: Find the volumes of right rectangular prisms by multiplying the edge lengths.
5.MD.C.5.a, 5.MD.C.5.b, MP7,
5.Mod5.AD9, 5.Mod5.AD10,
5.Mod5.AD11

Lesson 24: Solve word problems involving volumes of right rectangular prisms.
5.MD.C.5, 5.MD.C.5.c, MP2,
5.Mod5.AD8, 5.Mod5.AD12

Lesson 25: Find the volumes of solid figures composed of right rectangular prisms.

Module 6

Lesson 20: Reason about patterns in real-world situations.
5.OA.B.3, 5.G.A.2, MP4,
5.Mod6.AD1, 5.Mod6.AD2,
5.Mod6.AD4

Module 1

Module 2

Module 3

Module 4

Module 5

Module 6

			<p>Lesson 23: Relate division by 0.1 and 0.01 to division by a unit fraction. 5.NBT.B, 5.NBT.B.7, MP8, 5.Mod4.AD12, 5.Mod4.AD17, 5.Mod4.AD19</p> <p>Lesson 24: Divide decimal numbers by decimal numbers, resulting in whole-number quotients. 5.NBT.B, 5.NBT.B.7, MP2, 5.Mod4.AD13, 5.Mod4.AD17, 5.Mod4.AD19</p> <p>Lesson 25: Divide decimal numbers by decimal numbers, resulting in decimal-number quotients. 5.NBT.B, 5.NBT.B.7, MP1, 5.Mod4.AD12, 5.Mod4.AD17, 5.Mod4.AD19</p> <hr/> <p>Topic E: Applications of Decimals</p> <p>Lesson 26: Solve a real-world problem involving metric measurements. Module 1 Ratios, Rates, and Percents	Module 2 Operations with Fractions and Multi-Digit Numbers	Module 3 Rational Numbers	Module 4 Expressions and One-Step Equations	Module 5 Area, Surface Area, and Volume	Module 6 Statistics
<p>Topic A: Ratios</p> <p>Lesson 1: Jars of Jelly Beans</p> <ul style="list-style-type: none"> Use multiplicative reasoning to estimate the solution to a real-world problem. <p>6.RP.A.3, MP3, 6.Mod1.AD3</p> <p>Lesson 2: Introduction to Ratios</p> <ul style="list-style-type: none"> Write ratios that relate two quantities as an ordered pair of numbers. Use ratio language to compare two quantities. <p>6.RP.A.1, MP2, 6.Mod1.AD1</p> <p>Lesson 3: Ratios and Tape Diagrams</p> <ul style="list-style-type: none"> Write multiple ratios to describe the same situation. Represent ratios with tape diagrams. <p>6.RP.A.1, 6.RP.A.3, MP6, 6.Mod1.AD1, 6.Mod1.AD3</p> <p>Lesson 4: Exploring Ratios by Making Batches</p> <ul style="list-style-type: none"> Create ratios by making batches of different quantities. Use tape diagrams to determine unknown quantities in ratios. 	<p>Topic A: Factors, Multiples, and Divisibility</p> <p>Lesson 1: Factors and Multiples</p> <ul style="list-style-type: none"> Use visual models to determine common factors and common multiples of pairs of numbers. <p>6.NS.B.4, MP8, 6.Mod2.AD12, 6.Mod2.AD13</p> <p>Lesson 2: Divisibility</p> <ul style="list-style-type: none"> Determine whether numbers are divisible by other numbers. <p>6.NS.B.4, MP3, 6.Mod2.AD12, 6.Mod2.AD13</p> <p>Lesson 3: The Greatest Common Factor</p> <ul style="list-style-type: none"> Determine the greatest common factor of two whole numbers less than or equal to 100. <p>6.NS.B.4, MP7, 6.Mod2.AD12</p> <p>Lesson 4: The Least Common Multiple</p> <ul style="list-style-type: none"> Find the least common multiple of two whole numbers less than or equal to 12. <p>6.NS.B.4, MP6, 6.Mod2.AD13</p>	<p>Topic A: Integers and Rational Numbers</p> <p>Lesson 1: Positive and Negative Numbers</p> <ul style="list-style-type: none"> Represent quantities in real-world situations by using positive and negative numbers. Plot positive numbers, negative numbers, and 0 on horizontal and vertical number lines. <p>6.NS.C.5, MP2, 6.Mod3.AD1</p> <p>Lesson 2: Integers</p> <ul style="list-style-type: none"> Plot integers and their opposites on horizontal and vertical number lines and identify 0 as its own opposite. Identify the opposite of the opposite of a number. <p>6.NS.C.6.a, MP7, 6.Mod3.AD2, 6.Mod3.AD3</p> <p>Lesson 3: Rational Numbers</p> <ul style="list-style-type: none"> Plot rational numbers on horizontal and vertical number lines. Identify the locations of rational numbers plotted on horizontal and vertical number lines. 	<p>Topic A: Numerical Expressions</p> <p>Lesson 1: Expressions with Addition and Subtraction</p> <ul style="list-style-type: none"> Evaluate expressions with addition and subtraction. <p>6.EE.A.1, MP6, 6.Mod4.AD3</p> <p>Lesson 2: Expressions with Multiplication and Division</p> <ul style="list-style-type: none"> Evaluate expressions with multiplication and division. <p>6.EE.A.1, MP7, 6.Mod4.AD3</p> <p>Lesson 3: Exploring Exponents</p> <ul style="list-style-type: none"> Write numerical expressions by using exponential notation. <p>6.EE.A.1, MP3, 6.Mod4.AD3</p> <p>Lesson 4: Evaluating Expressions with Exponents</p> <ul style="list-style-type: none"> Evaluate numerical expressions written in exponential notation. <p>6.EE.A.1, MP7, 6.Mod4.AD3</p>	<p>Topic A: Areas of Polygons</p> <p>Lesson 1: The Area of a Parallelogram</p> <ul style="list-style-type: none"> Compose parallelograms into rectangles to derive the formula for the area of a parallelogram. Compute the area of a parallelogram by using the formula $A = bh$. <p>6.EE.A.2.c, 6.G.A.1, MP8, 6.Mod4.AD6, 6.Mod5.AD1</p> <p>Lesson 2: The Area of a Right Triangle</p> <ul style="list-style-type: none"> Compose two identical right triangles into a rectangle to derive the formula for the area of a right triangle. Compute the area of a right triangle by using the formula $A = \frac{1}{2}bh$. <p>6.EE.B.7, 6.G.A.1, MP3, 6.Mod4.AD13, 6.Mod5.AD1, 6.Mod5.AD2</p> <p>Lesson 3: The Area of a Triangle</p> <ul style="list-style-type: none"> Compose two identical triangles into a parallelogram to derive the formula for the area of a triangle. Compute the area of any triangle by using the formula $A = \frac{1}{2}bh$. 	<p>Topic A: Understanding Distributions</p> <p>Lesson 1: Posing Statistical Questions</p> <ul style="list-style-type: none"> Identify and write statistical questions. Identify the types of data that can be collected to answer a statistical question. <p>6.SP.A.1, 6.SP.B.5.b, MP6, 6.Mod6.AD1, 6.Mod6.AD6</p> <p>Lesson 2: Describing a Data Distribution</p> <ul style="list-style-type: none"> Given a dot plot, describe the center, spread, and other characteristics of the data distribution. <p>6.SP.A.2, 6.SP.B.5.a, MP2, 6.Mod6.AD2, 6.Mod6.AD5</p> <p>Lesson 3: Creating a Dot Plot</p> <ul style="list-style-type: none"> Create a dot plot and describe a data distribution. <p>6.SP.A.2, 6.SP.B.4, MP1, 6.Mod6.AD2, 6.Mod6.AD4</p>

Module 1

6.RP.A.1, 6.RP.A.3, MP8,
6.Mod1.AD1, 6.Mod1.AD3

Lesson 5: Equivalent Ratios

- Find equivalent ratios by multiplying both numbers in a given ratio by the same nonzero number.
- Use equivalent ratios to find unknown quantities.

6.RP.A.1, 6.RP.A.3, MP2,
6.Mod1.AD1, 6.Mod1.AD3

Topic B: Collections of Equivalent Ratios

Lesson 6: Ratio Tables and Double Number Lines

- Represent equivalent ratios by using ratio tables and double number lines.
- Use representations of ratio relationships to solve problems.

6.RP.A.3, 6.RP.A.3.a, MP7,
6.Mod1.AD3, 6.Mod1.AD4

Lesson 7: Graphs of Ratio Relationships

- Plot points in the coordinate plane that each represent a ratio.
- Identify characteristics of graphs, tables, and double number lines representing ratio relationships.

6.RP.A.3.a, MP2, 6.Mod1.AD4

Lesson 8: Addition Patterns in Ratio Relationships

- Use addition patterns in tables and graphs of equivalent ratios to describe ratio relationships and find unknown quantities.

6.RP.A.1, 6.RP.A.3, 6.RP.A.3.a,
MP7, 6.Mod1.AD1, 6.Mod1.AD3,
6.Mod1.AD4

Module 2

Lesson 5: The Euclidean Algorithm (Optional)

- Find the greatest common factor of large numbers by using the Euclidean algorithm.
- Find the least common multiple of large numbers by using the greatest common factor.

6.NS.B.4, MP7, 6.Mod2.AD12,
6.Mod2.AD13

Topic B: Dividing Fractions

Lesson 6: Dividing a Whole Number by a Fraction

- Divide a whole number by a fraction by using tape diagrams and reasoning about division.

6.NS.A.1, MP2, 6.Mod2.AD4,
6.Mod2.AD5, 6.Mod2.AD6

Lesson 7: Dividing a Fraction by a Whole Number

- Divide a fraction by a whole number.
- Divide a mixed number by a whole number.

6.NS.A.1, MP1, 6.Mod2.AD4,
6.Mod2.AD5, 6.Mod2.AD6

Lesson 8: Dividing Fractions by Making Common Denominators

- Divide a fraction by a fraction by using a common denominator.
- Divide a mixed number by a fraction by using a common denominator.

6.NS.A.1, MP7, 6.Mod2.AD3,
6.Mod2.AD4, 6.Mod2.AD6

Topic C: Dividing Fractions Fluently

Lesson 9: Dividing Fractions by Using Tape Diagrams

Module 3

6.NS.C.6.a, 6.NS.C.6.c, MP3,
6.Mod3.AD3, 6.Mod3.AD6

Lesson 4: Rational Numbers in Real-World Situations

- Represent opposite quantities in real-world situations by using rational numbers.

6.NS.C.5, 6.NS.C.6.a, MP6,
6.Mod3.AD1, 6.Mod3.AD2

Topic B: Ordering and Magnitude

Lesson 5: Comparing Rational Numbers

- Write and interpret statements of comparison about rational numbers.
- Compare rational numbers in real-world situations.

6.NS.C.7, 6.NS.C.7.a, 6.NS.C.7.b,
MP3, 6.Mod3.AD8, 6.Mod3.AD9,
6.Mod3.AD10

Lesson 6: Ordering Rational Numbers

- Order rational numbers.
- Write, interpret, and explain statements of order for rational numbers in real-world situations.

6.NS.C.7, 6.NS.C.7.a, 6.NS.C.7.b,
MP1, 6.Mod3.AD8, 6.Mod3.AD9,
6.Mod3.AD10

Lesson 7: Absolute Value

- Determine the absolute values of rational numbers.

6.NS.C.7.c, MP8, 6.Mod3.AD11,
6.Mod3.AD12

Lesson 8: Absolute Value and Order

Module 4

Lesson 5: Exploring Order of Operations

- Identify the relationships between operations and apply those relationships when evaluating expressions.

6.EE.A.1, MP6, 6.Mod4.AD3

Lesson 6: Order of Operations

- Evaluate numerical expressions with exponents by using the conventional order of operations.

6.EE.A.1, MP1, 6.Mod4.AD3

Topic B: Expressions and Real-World Problems

Lesson 7: Algebraic Expressions with Addition and Subtraction

- Write algebraic expressions to represent descriptions involving addition and subtraction.
- Write descriptions of algebraic expressions involving addition and subtraction.

6.EE.A.2.a, 6.EE.A.2.b, MP8,
6.Mod4.AD4, 6.Mod4.AD5

Lesson 8: Algebraic Expressions with Addition, Subtraction, Multiplication, and Division

- Write algebraic expressions to represent descriptions involving addition, subtraction, multiplication, and division.
- Write descriptions of algebraic expressions involving addition, subtraction, multiplication, and division.

6.EE.A.2.a, 6.EE.A.2.b, 6.EE.A.2.c,
MP6, 6.Mod4.AD4, 6.Mod4.AD5,
6.Mod4.AD6

Module 5

6.EE.A.2.c, 6.G.A.1, MP7,
6.Mod4.AD6, 6.Mod5.AD1

Lesson 4: Areas of Triangles in Real-World Situations

- Use composition or decomposition to write equivalent expressions that represent the area of a triangle.

- Solve real-world and mathematical problems involving the areas of triangles.

6.EE.A.3, 6.G.A.1, MP2,
6.Mod4.AD7, 6.Mod5.AD1,
6.Mod5.AD2

Topic B: Problem Solving with Area

Lesson 5: Perimeter and Area in the Coordinate Plane

- Determine the perimeters of rectangles and polygons graphed in the coordinate plane.
- Determine the areas of parallelograms, rectangles, and polygons graphed in the coordinate plane.

6.NS.C.8, 6.G.A.1, 6.G.A.3, MP7,
6.Mod3.AD14, 6.Mod5.AD1,
6.Mod5.AD5

Lesson 6: Problem Solving with Area in the Coordinate Plane

- Determine the areas of triangles graphed in the coordinate plane.
- Determine the areas of polygons composed of triangles and parallelograms graphed in the coordinate plane.

6.EE.A.3, 6.G.A.1, 6.G.A.3, MP1,
6.Mod4.AD7, 6.Mod5.AD1,
6.Mod5.AD5

Module 6

Lesson 4: Creating a Histogram

- Use a frequency table to construct a frequency histogram for a data distribution.

6.SP.A.2, 6.SP.B.4, MP2,
6.Mod6.AD2, 6.Mod6.AD4

Lesson 5: Comparing Data Displays

- Identify the differences between bar graphs and histograms.
- Construct relative frequency histograms.

6.SP.B.4, 6.SP.B.5.b, MP5,
6.Mod6.AD4, 6.Mod6.AD6

Lesson 6: Selecting a Data Display

- Display data by using a dot plot or a histogram and describe the data distribution.

6.SP.A.1, 6.SP.B.4, MP5,
6.Mod6.AD1, 6.Mod6.AD4

Topic B: Mean and Mean Absolute Deviation

Lesson 7: Using the Mean to Describe the Center

- Describe the center of a data distribution by using an equal share value called the mean.
- Connect the concept of equal shares with the mathematical formula for finding the mean.

6.SP.A.3, 6.SP.B.5.c, MP2,
6.Mod6.AD3, 6.Mod6.AD7

Lesson 8: The Mean as a Balance Point

- Describe the center of a distribution by using the mean and interpret the mean as a balance point.

6.SP.A.3, 6.SP.B.5.c, MP2,
6.Mod6.AD3, 6.Mod6.AD7

Module 1

Lesson 9: Multiplication Patterns in Ratio Relationships

- Use graphs and tables to explore multiplication patterns in ratio relationships.
 - Use multiplication to complete ratio tables.
- 6.RP.A.3, 6.RP.A.3.a, MP7, 6.Mod1.AD3, 6.Mod1.AD4**

Lesson 10: Multiplicative Reasoning in Ratio Relationships

- Write and use equivalent ratios when one of the numbers in the ratio is 1.
- 6.RP.A.1, 6.RP.A.3, 6.RP.A.3.a, MP8, 6.Mod1.AD1, 6.Mod1.AD3, 6.Mod1.AD4**

Lesson 11: Applications of Ratio Reasoning

- Solve multi-step ratio problems by reasoning about equivalent ratios.
- 6.RP.A.1, 6.RP.A.3, 6.RP.A.3.a, MP1, 6.Mod1.AD1, 6.Mod1.AD3, 6.Mod1.AD4**

Topic C: Comparing Ratio Relationships

Lesson 12: Multiple Ratio Relationships

- Compare ratio relationships by using graphs, tables, and double number lines.
- 6.RP.A.3.a, MP5, 6.Mod1.AD4, 6.Mod1.AD5**

Lesson 13: Comparing Ratio Relationships, Part 1

- Compare ratio relationships by using ratio tables.
- 6.RP.A.3.a, MP7, 6.Mod1.AD5**

Module 2

- Use a tape diagram to divide a fraction by a fraction.
 - Relate division of a fraction by a fraction to an unknown factor problem.
- 6.NS.A.1, MP8, 6.Mod2.AD4, 6.Mod2.AD5, 6.Mod2.AD6**

Lesson 10: Dividing Fractions by Using the Invert and Multiply Strategy

- Use the invert and multiply strategy to divide a fraction by a fraction.
- 6.NS.A.1, MP7, 6.Mod2.AD4, 6.Mod2.AD6**

Lesson 11: Applications of Fraction Division

- Solve real-world problems by dividing fractions and mixed numbers.
- 6.NS.A.1, MP1, 6.Mod2.AD5**

Lesson 12: Fraction Operations in a Real-World Situation

- Add, subtract, multiply, and divide fractions and mixed numbers to solve real-world problems.
- 6.NS.A.1, MP2, 6.Mod2.AD5**

Topic D: Decimal Addition, Subtraction, and Multiplication

Lesson 13: Decimal Addition and Subtraction

- Add and subtract decimals by using the standard algorithms for each operation.
- 6.NS, 6.NS.B.3, MP5, 6.Mod2.AD2, 6.Mod2.AD9**

Lesson 14: Patterns in Multiplying Decimals

Module 3

- Explain the relationship between the order of rational numbers and the order of their absolute values.
 - Order and compare the absolute values of rational numbers and the magnitudes of real-world quantities.
- 6.NS.C.7, 6.NS.C.7.d, MP2, 6.Mod3.AD8, 6.Mod3.AD13**

Lesson 9: Interpreting Order and Distance in Real-World Situations

- Distinguish between comparisons of absolute value and statements of order in real-world situations.
 - Determine and interpret distance between rational numbers.
- 6.NS.C.7.d, MP1, 6.Mod3.AD13**

Topic C: The Coordinate Plane

Lesson 10: The Four Quadrants of the Coordinate Plane

- Use ordered pairs to identify the locations of points in the coordinate plane.
 - Relate the signs of x - and y -coordinates to each of the four quadrants of the coordinate plane.
- 6.NS.C.6.b, MP7, 6.Mod3.AD4**

Lesson 11: Plotting Points in the Coordinate Plane

- Use ordered pairs to plot points in the coordinate plane.
- 6.NS.C.6.b, 6.NS.C.6.c, MP6, 6.Mod3.AD4, 6.Mod3.AD7**

Lesson 12: Reflections in the Coordinate Plane

- Graph points and their reflections in the coordinate plane.

Module 4

Lesson 9: Addition and Subtraction Expressions from Real-World Situations

- Define variables precisely.
 - Write algebraic expressions involving addition and subtraction to represent real-world situations.
- 6.EE.A.2.a, 6.EE.A.2.b, 6.EE.B.6, MP6, 6.Mod4.AD4, 6.Mod4.AD5, 6.Mod4.AD11**

Lesson 10: Multiplication and Division Expressions from Real-World Situations

- Write and interpret algebraic expressions involving multiplication and division that represent real-world situations.
- 6.EE.B.6, MP2, 6.Mod4.AD11**

Lesson 11: Modeling Real-World Situations with Expressions

- Write algebraic expressions with two terms to represent real-world situations
 - involving addition and multiplication.
- 6.EE.A.2.b, 6.EE.A.2.c, 6.EE.B.6, MP2, 6.Mod4.AD5, 6.Mod4.AD6, 6.Mod4.AD11**

Topic C: Equivalent Expressions Using the Properties of Operations

Lesson 12: Applying Properties to Multiplication and Division Expressions

- Write and identify equivalent algebraic expressions involving multiplication and division by using the properties of operations.
- Write algebraic expressions that represent real-world situations.

Module 5

Lesson 7: Areas of Trapezoids and Other Polygons

- Calculate the areas of trapezoids and other polygons by using composition and decomposition.
 - Use composition or decomposition to write equivalent expressions for the areas of polygons.
- 6.EE.A.3, 6.EE.A.4, 6.G.A.1, MP3, 6.Mod4.AD7, 6.Mod4.AD8, 6.Mod5.AD1**

Lesson 8: Areas of Composite Figures in Real-World Situations

- Determine the areas of real-world composite figures.
 - Solve problems in real-world situations involving rates and areas.
- 6.RP.A.3.b, 6.G.A.1, MP4, 6.Mod1.AD6, 6.Mod5.AD1, 6.Mod5.AD2**

Topic C: Nets and Surface Area

Lesson 9: Properties of Solids

- Identify the shapes of the faces of right prisms and pyramids.
 - Name parallel and perpendicular edges and faces of solids.
- 6.G.A.4, MP6, 6.Mod5.AD6**

Lesson 10: Discovering Nets of Solids

- Represent solids by using nets composed of triangles and rectangles.
- 6.G.A.4, MP6, 6.Mod5.AD6**

Lesson 11: Constructing Nets of Solids

- Draw and label nets for three-dimensional objects.
- Determine the surface area of a solid by using its net.

Module 6

Lesson 9: Variability in a Data Distribution

- Describe a data distribution by using the mean and variability.
- 6.SP.A.2, 6.SP.A.3, MP2, 6.Mod6.AD2, 6.Mod6.AD3**

Lesson 10: The Mean Absolute Deviation

- Calculate and interpret the mean absolute deviation for a data distribution.
- 6.SP.A.3, 6.SP.B.5.c, MP8, 6.Mod6.AD3, 6.Mod6.AD7**

Lesson 11: Using the Mean and Mean Absolute Deviation

- Use the mean and mean absolute deviation to describe a data distribution.
- 6.SP.A.3, 6.SP.B.5.c, MP6, 6.Mod6.AD3, 6.Mod6.AD7**

Topic C: Median, Interquartile Range, and Box Plots

Lesson 12: Using the Median to Describe the Center

- Calculate and interpret the median of a data distribution.
- 6.SP.A.3, 6.SP.B.5.c, MP6, 6.Mod6.AD3, 6.Mod6.AD7**

Lesson 13: Using the Interquartile Range to Describe Variability

- Calculate quartiles of a data distribution and describe the variability by using the interquartile range.
- 6.SP.A.3, 6.SP.B.5.c, MP6, 6.Mod6.AD3, 6.Mod6.AD7**

Module 1

Lesson 14: Comparing Ratio Relationships, Part 2

- Compare ratio relationships by creating equivalent ratios.

6.RP.A.3.a, MP3, 6.Mod1.AD5

Lesson 15: The Value of the Ratio

- Compare ratio relationships by using the value of the ratio.

6.RP.A.2, 6.RP.A.3.a, MP6, 6.Mod1.AD2, 6.Mod1.AD5

Topic D: Rates

Lesson 16: Speed

- Find distance and time corresponding to a given speed.
- Identify real-world examples of rates and interpret their meanings in context.

6.RP.A.2, 6.RP.A.3.a, 6.RP.A.3.b, MP2, 6.Mod1.AD2, 6.Mod1.AD4, 6.Mod1.AD6

Lesson 17: Rates

- Identify rates and unit rates.
- Calculate one quantity when given another quantity and a constant rate.

6.RP.A.2, 6.RP.A.3.b, MP2, 6.Mod1.AD2, 6.Mod1.AD6

Lesson 18: Comparing Rates

- Compare rates with like units of measurement by using unit rate.

6.RP.A.2, 6.RP.A.3.a, 6.RP.A.3.b, MP2, 6.Mod1.AD2, 6.Mod1.AD5, 6.Mod1.AD6

Lesson 19: Using Rates to Convert Units

- Convert units of measurement by applying rate reasoning.

Module 2

- Recognize and apply patterns in factors when multiplying whole numbers and decimals.

6.NS.B.3, MP8, 6.Mod2.AD10

Lesson 15: Decimal Multiplication

- Multiply decimals by using the standard algorithm.

6.NS, 6.NS.B.3, MP6, 6.Mod2.AD2, 6.Mod2.AD10

Lesson 16: Applications of Decimal Operations

- Create a model of a building and use decimal operations to calculate cost, revenue, and profit or loss.

6.NS, MP4, 6.Mod2.AD2

Topic E: Division of Multi-Digit Numbers

Lesson 17: Partial Quotients

- Divide multi-digit whole numbers by using the partial quotients method, and express quotients as mixed numbers.

6.NS.B, 6.NS.B.2 MP8, 6.Mod2.AD7, 6.Mod2.AD8

Lesson 18: The Standard Division Algorithm

- Divide multi-digit whole numbers by using the standard algorithm.

6.NS.B.2, MP7, 6.Mod2.AD8

Lesson 19: Expressing Quotients as Decimals

- Divide multi-digit whole numbers by using the standard algorithm, and express quotients as decimals.

6.NS.B.2, MP6, 6.Mod2.AD8

Lesson 20: Real-World Division Problems

Module 3

- Recognize that when two ordered pairs differ only by the sign of one or both coordinates, the locations of the points are related by reflections across one or both axes.

6.NS.C.6.b, 6.NS.C.6.c, MP8, 6.Mod3.AD4, 6.Mod3.AD5, 6.Mod3.AD7

Lesson 13: Constructing the Coordinate Plane

- Draw and label a coordinate plane, choosing a reasonable scale for a given set of points. Plot points and describe how a graph changes when the scale changes.

6.NS.C.6.b, 6.NS.C.6.c, MP5, 6.Mod3.AD4, 6.Mod3.AD7

Lesson 14: Modeling with the Coordinate Plane

- Create time graphs in the coordinate plane.
- Solve real-world problems by using time graphs.

6.NS.C.8, MP4, 6.Mod3.AD14

Topic D: Solving Problems in the Coordinate Plane

Lesson 15: Distance in the Coordinate Plane

- Find the lengths of horizontal and vertical line segments with rational number coordinates as endpoints in the coordinate plane by counting the number of units between endpoints and by using absolute value.

6.NS.C.6.c, 6.NS.C.8, MP8, 6.Mod3.AD7, 6.Mod3.AD14

Lesson 16: Figures in the Coordinate Plane

Module 4

6.EE.A.2.c, 6.EE.A.3, 6.EE.A.4, MP3, 6.Mod4.AD6, 6.Mod4.AD7, 6.Mod4.AD8

Lesson 13: The Distributive Property

- Use the distributive property to write the product of two factors as a sum or difference.

6.NS.B.4, 6.EE.A.3, 6.EE.A.4, MP7, 6.Mod4.AD2, 6.Mod4.AD7, 6.Mod4.AD8

Lesson 14: Using the Distributive Property to Factor Expressions

- Use the distributive property to write a sum or difference as the product of two factors.

6.NS.B.4, 6.EE.A.3, 6.EE.A.4, MP7, 6.Mod4.AD2, 6.Mod4.AD7, 6.Mod4.AD8

Lesson 15: Combining Like Terms by Using the Distributive Property

- Add and subtract like terms by using the distributive property.
- Write an algebraic expression that represents a geometric situation.

6.EE.A.3, 6.EE.A.4, MP7, 6.Mod4.AD7, 6.Mod4.AD8

Lesson 16: Equivalent Algebraic Expressions

- Write equivalent expressions by using the properties of operations and combining like terms.
- Write algebraic expressions that represent real-world situations.

6.EE.A.3, 6.EE.A.4, 6.EE.B.6, MP2, 6.Mod4.AD7, 6.Mod4.AD8, 6.Mod4.AD11

Module 5

6.G.A.4, MP7, 6.Mod5.AD6, 6.Mod5.AD7

Lesson 12: From Nets to Surface Area

- Determine the surface area of a solid.
- Develop the surface area formula for right rectangular prisms and use it to calculate surface area.

6.EE.A.2.c, 6.EE.A.4, 6.G.A.4, MP8, 6.Mod4.AD6, 6.Mod4.AD8, 6.Mod5.AD6

Lesson 13: Surface Area in Real-World Situations

- Solve real-world problems involving rates and surface area of right prisms and pyramids.

6.RP.A.3.b, 6.EE.A.2.c, 6.G.A.4, MP1, 6.Mod1.AD6, 6.Mod4.AD6, 6.Mod5.AD7

Lesson 14: Designing a Box

- Design different boxes for a product and calculate each box's surface area.

6.EE.A.2.c, 6.G.A.4, MP4, 6.Mod4.AD6, 6.Mod5.AD7

Topic D: Volumes of Right Rectangular Prisms

Lesson 15: Exploring Volume

- Find the volumes of right rectangular prisms that have fractional edge lengths by packing with cubes that have fractional edge lengths.

6.G.A.2, MP7, 6.Mod5.AD3

Lesson 16: Applying Volume Formulas

- Solve real-world and mathematical problems by applying the formulas $V = lwh$ and $V = Bh$ to find volumes of right rectangular prisms with fractional edge lengths.

Module 6

Lesson 14: Using a Box Plot to Summarize a Distribution

- Describe a data distribution by using the five-number summary and the interquartile range.
- Construct and interpret a box plot from a five-number summary.

6.SP.A.2, 6.SP.B.4, MP7, 6.Mod6.AD2, 6.Mod6.AD4

Lesson 15: More Practice with Box Plots

- Construct and use box plots to analyze data distributions.

6.SP.A.3, 6.SP.B.4, MP7, 6.Mod6.AD3, 6.Mod6.AD4

Lesson 16: Interpreting Box Plots

- Summarize a data distribution by using a box plot, the median, and the interquartile range.
- Use box plots to compare two data distributions.

6.SP.A.3, 6.SP.B.4, MP7, 6.Mod6.AD3, 6.Mod6.AD4

Topic D: Answering Statistical Questions by Analyzing Data

Lesson 17: Developing a Statistical Project

- Develop a statistical question to guide data collection.
- Develop a plan to collect a data set to answer a proposed statistical question.

6.SP.A.1, 6.SP.B.5.b, MP4, 6.Mod6.AD1, 6.Mod6.AD6

Lesson 18: Connecting Graphical Representations and Summary Measures

Module 1

6.RP.A.2, 6.RP.A.3.b, 6.RP.A.3.d, MP6, 6.Mod1.AD2, 6.Mod1.AD6, 6.Mod1.AD9

Lesson 20: Solving Rate Problems

- Apply rate reasoning to solve real-world ratio problems involving speed, unit pricing, and unit conversions.
- Find an unknown quantity when given a rate and a known quantity.

6.RP.A.2, 6.RP.A.3.b, 6.RP.A.3.d, MP1, 6.Mod1.AD2, 6.Mod1.AD6, 6.Mod1.AD9

Topic E: Percents

Lesson 21: Solving Multi-Step Rate Problems

- Solve problems involving multiple constant rates.

6.RP.A.3.b, 6.RP.A.3.d, MP4, 6.Mod1.AD6, 6.Mod1.AD9

Lesson 22: Introduction to Percents

- Relate percents to a part-to-whole relationship where the whole is 100.
- Model percents and write percents in fraction and decimal forms.

6.RP.A.3.c, MP8, 6.Mod1.AD7

Lesson 23: Finding the Percent

- Calculate a percent when given a part and the whole.
- Discover that if multiple parts make a whole, then the percent representing each of the parts should total 100%.

6.RP.A.3.c, MP8, 6.Mod1.AD7, 6.Mod1.AD8

Lesson 24: Finding a Part

- Calculate a part when given the whole and a percent.

6.RP.A.3.c, MP3, 6.Mod1.AD8

Module 2

- Create and solve real-world division problems.
- 6.NS, MP2, 6.Mod2.AD1**

Topic F: Decimal Division

Lesson 21: Dividing a Decimal by a Whole Number

- Divide a decimal by a multi-digit whole number by using the standard division algorithm.

6.NS.B.3, MP6, 6.Mod2.AD11

Lesson 22: Dividing a Decimal by a Decimal Greater Than 1

- Divide a decimal by a decimal greater than 1 by using the standard algorithm.

6.NS.B.3, MP3, 6.Mod2.AD11

Lesson 23: Dividing a Decimal by a Decimal Less Than 1

- Divide a decimal by a decimal less than 1 by using the standard algorithm.
- Solve real-world problems by dividing a decimal by a decimal.

6.NS.B.3, MP1, 6.Mod2.AD11

Lesson 24: Living on Mars

- Solve real-world problems by performing operations with decimals.

6.NS.B.3, MP1, 6.Mod2.AD2, 6.Mod2.AD11

Module 3

- Graph geometric figures in all four quadrants of the coordinate plane.
- Use distance and symmetry to solve geometric problems in the coordinate plane.

6.NS.C.6.c, 6.NS.C.8, MP7, 6.Mod3.AD7, 6.Mod3.AD14

Lesson 17: Problem Solving with the Coordinate Plane

- Solve geometric and real-world problems by using the coordinate plane.

6.NS.C.6.c, 6.NS.C.8, MP1, 6.Mod3.AD7, 6.Mod3.AD14

Module 4

Topic D: Equations and Inequalities

Lesson 17: Equations and Solutions

- Determine whether a number sentence is true.
- Determine whether a number is a solution to an equation by using substitution.

6.EE.A.2.c, 6.EE.B.5, 6.EE.B.7, MP2, 6.Mod4.AD6, 6.Mod4.AD9, 6.Mod4.AD13

Lesson 18: Inequalities and Solutions

- Represent solutions to inequalities on number lines.
- Identify whether a number is a solution to an inequality by using substitution.

6.EE.B.5, 6.EE.B.8, MP2, 6.Mod4.AD10, 6.Mod4.AD14, 6.Mod4.AD15

Lesson 19: Solving Equations with Addition and Subtraction

- Solve addition and subtraction equations by using tape diagrams and algebraic reasoning.

6.EE.B.5, 6.EE.B.7, MP7, 6.Mod4.AD9, 6.Mod4.AD12

Lesson 20: Solving Equations with Multiplication and Division

- Solve multiplication and division equations by using tape diagrams and algebraic reasoning.

6.EE.B.5, 6.EE.B.7, MP6, 6.Mod4.AD9, 6.Mod4.AD12

Lesson 21: Solving Problems with Equations

- Solve problems by writing and solving equations.

Module 5

6.EE.A.2.c, 6.G.A.2, MP3, 6.Mod4.AD6, 6.Mod5.AD3, 6.Mod5.AD4

Lesson 17: Problem Solving with Volume

- Solve real-world and mathematical problems by applying ratio reasoning to find volumes of right rectangular prisms.

6.EE.A.4, 6.G.A.2, MP8, 6.Mod4.AD8, 6.Mod5.AD4

Lesson 18: Volumes of Composite Solids

- Determine the volumes of solids composed of right rectangular prisms.

6.G.A.2, MP5, 6.Mod5.AD4

Lesson 19: Volume and Surface Area in Real-World Situations

- Solve real-world problems that involve surface area and volume.

6.G.A.2, 6.G.A.4, MP2, 6.Mod5.AD4, 6.Mod5.AD7

Module 6

- Find exact and approximate features of data distributions from data displays.
- Compare the effectiveness of data displays at communicating different features of data distributions.

6.SP.A.2, 6.SP.B.5.c, MP3, 6.Mod6.AD2, 6.Mod6.AD7

Lesson 19: Comparing Data Distributions

- Compare data distributions by using relative frequency histograms and box plots.

6.SP.A.3, 6.SP.B.4, MP7, 6.Mod6.AD3, 6.Mod6.AD4

Lesson 20: Choosing a Measure of Center

- Choose a measure of center for a data distribution.
- Justify the choice of a measure of center based on the shape of the distribution and the context.

6.SP.B.5.d, MD7, 6.Mod6.AD8

Lesson 21: Comparing Measures of Variability

- Recognize measurement variability and its causes.
- Assess variability visually and by using the range, mean absolute deviation, and interquartile range.

6.SP.B.5.b, 6.SP.B.5.c, MP6, 6.Mod6.AD6, 6.Mod6.AD7

Lesson 22: Presenting Statistical Projects

- Present statistical projects that use the investigative process and critique the work of others by using the tools learned in this module.

6.SP.A.3, 6.SP.B.4, MP4, 6.Mod6.AD3, 6.Mod6.AD4

Module 1

Module 2

Module 3

Module 4

Module 5

Module 6

Lesson 25: Finding the Whole
• Calculate the whole when given a part and a percent.

6.RP.A.3.c, MP1, 6.Mod1.AD8

Lesson 26: Solving Percent Problems

• Solve multi-step percent problems.

6.RP.A.3.c, MP1, 6.Mod1.AD7, 6.Mod1.AD8

6.EE.B.7, MP1, 6.Mod4.AD12, 6.Mod4.AD13

Topic E: Relating Variables by Using Tables, Graphs, and Equations

Lesson 22: Relationship Between Two Variables

- Represent a ratio relationship with a table and two-variable equation.
- Identify the independent and dependent variables in a real-world or mathematical situation.

6.RP.A.3, 6.EE.C.9, MP3, 6.Mod4.AD1, 6.Mod4.AD16, 6.Mod4.AD17

Lesson 23: Graphs of Ratio Relationships

- Analyze the relationship between the independent and dependent variables in the graph of a ratio relationship.
- Represent a ratio relationship with a table, graph, and two-variable equation.

6.RP.A.3, 6.EE.C.9, MP5, 6.Mod4.AD1, 6.Mod4.AD16, 6.Mod4.AD17

Lesson 24: Graphs of Non-Ratio Relationships

- Represent a real-world situation with a table, graph, and two-variable equation.
- Analyze the relationship between the variables in a real-world situation.

6.EE.C.9, MP2, 6.Mod4.AD16, 6.Mod4.AD17

Lesson 25: The Statue of Liberty

- Use tables, graphs, and equations to estimate the solution to a real-world problem.

6.EE.C.9, MP4, 6.Mod1.AD16

Module 1 Ratios and Proportional Relationships	Module 2 Operations with Rational Numbers	Module 3 Expressions, Equations, and Inequalities	Module 4 Geometry	Module 5 Percent and Applications of Percent	Module 6 Probability and Populations
<p>Topic A: Understanding Proportional Relationships</p> <p>Lesson 1: An Experiment with Ratios and Rates</p> <ul style="list-style-type: none"> Compare different relationships in situations by using ratio and rate reasoning. <p>7.RP.A.1, 7.RP.A.2.a, MP8, 7.Mod1.AD1, 7.Mod1.AD2</p> <p>Lesson 2: Exploring Tables of Proportional Relationships</p> <ul style="list-style-type: none"> Identify proportional relationships represented in tables by calculating constant unit rates. <p>7.RP.A.1, 7.RP.A.2.a, 7.RP.A.2.c, MP2, 7.Mod1.AD1, 7.Mod1.AD2, 7.Mod1.AD4</p> <p>Lesson 3: Identifying Proportional Relationships in Tables</p> <ul style="list-style-type: none"> Analyze tables to identify proportional relationships. Determine the unit rate associated with a ratio of fractions by evaluating a complex fraction. 	<p>Topic A: Adding Rational Numbers</p> <p>Lesson 1: Combining Opposites</p> <ul style="list-style-type: none"> Represent positive and negative numbers on a number line. Recognize that opposite integers sum to zero. <p>7.NS.A.1.a, 7.NS.A.1.b, MP8, 7.Mod2.AD2, 7.Mod2.AD4</p> <p>Lesson 2: Adding Integers</p> <ul style="list-style-type: none"> Write addition expressions involving integers. Add integers by using a model. <p>7.NS.A.1.b, MP8, 7.Mod2.AD3</p> <p>Lesson 3: Adding Integers Efficiently</p> <ul style="list-style-type: none"> Describe a number and its opposite as additive inverses because they sum to zero. Evaluate addition expressions with two or more addends. <p>7.NS.A.1.b, MP8, 7.Mod2.AD3, 7.Mod2.AD4, 7.Mod2.AD5</p> <p>Lesson 4: KAKOOMA®</p>	<p>Topic A: Equivalent Expressions</p> <p>Lesson 1: Equivalent Expressions</p> <ul style="list-style-type: none"> Generate equivalent expressions by using properties of operations. <p>7.EE.A.1, MP3, 7.Mod3.AD1</p> <p>Lesson 2: The Distributive Property and the Tabular Model</p> <ul style="list-style-type: none"> Generate equivalent expressions containing rational numbers by using the tabular model to represent the distributive property. <p>7.EE.A.1, 7.EE.A.2, MP3, 7.Mod3.AD1, 7.Mod3.AD2</p> <p>Lesson 3: The Distributive Property and Combining Like Terms</p> <ul style="list-style-type: none"> Generate equivalent expressions by applying the distributive property to combine like terms. <p>7.EE.A.1, MP6, 7.Mod3.AD1</p> <p>Lesson 4: Adding and Subtracting Expressions</p>	<p>Topic A: Constructing Geometric Figures</p> <p>Lesson 1: Sketching, Drawing, and Constructing Geometric Figures</p> <ul style="list-style-type: none"> Construct geometric figures with given conditions. Construct geometric figures by using technology. <p>7.G.A.2, MP5, 7.Mod4.AD1</p> <p>Lesson 2: Constructing Parallelograms and Other Quadrilaterals</p> <ul style="list-style-type: none"> Construct parallelograms and other quadrilaterals, given conditions. <p>7.G.A.2, MP6, 7.Mod4.AD1</p> <p>Lesson 3: Side Lengths of a Triangle</p> <ul style="list-style-type: none"> Determine whether a triangle with three given side lengths exists. Determine the relationship between the sum of two side lengths of a triangle and its third side length. <p>7.G.A.2, MP2, 7.Mod4.AD1, 7.Mod4.AD2</p>	<p>Topic A: Proportion and Percent</p> <p>Lesson 1: Proportionality and Scale Factor</p> <ul style="list-style-type: none"> Identify the scale factor of cross sections. <p>7.G.A.1, 7.RP.A.2.c, MP8, 7.Mod5.AD2, 7.Mod5.AD7</p> <p>Lesson 2: Racing of Percents</p> <ul style="list-style-type: none"> Identify proportional relationships and write the constant of proportionality as a percent. Identify percent as a rate per 100. <p>7.RP, 7.RP.A.3, MP7, 7.Mod5.AD1, 7.Mod5.AD3</p> <p>Lesson 3: Percent as a Rate per 100</p> <ul style="list-style-type: none"> Interpret percent as a rate per 100 when solving percent problems. <p>7.RP.A.3, MP5, 7.Mod5.AD3</p> <p>Lesson 4: Proportion and Percent</p> <ul style="list-style-type: none"> Solve percent problems by using equations in the forms $y = kx$ and $\frac{a}{b} = \frac{c}{d}$. <p>7.RP.A.2.c, 7.RP.A.3, MP3, 7.Mod5.AD2, 7.Mod5.AD3</p>	<p>Topic A: Calculating and Interpreting Probabilities</p> <p>Lesson 1: What Is Probability?</p> <ul style="list-style-type: none"> Find a number between 0 and 1 that represents the likelihood that an event will occur. <p>7.SP.C.5, MP2, 7.Mod6.AD5</p> <p>Lesson 2: Empirical Probability</p> <ul style="list-style-type: none"> Calculate empirical probabilities by collecting data from a chance experiment. <p>7.SP.C.6, MP6, 7.Mod6.AD6</p> <p>Lesson 3: Outcomes of Chance Experiments</p> <ul style="list-style-type: none"> Determine the sample space for chance experiments. Given a description of a chance experiment and an event, determine for which outcomes in the sample space the event will occur. <p>7.SP.C.6, MP2, 7.Mod6.AD6</p> <p>Lesson 4: Theoretical Probability</p> <ul style="list-style-type: none"> Calculate theoretical probabilities of events for chance experiments that have equally likely outcomes. <p>7.SP.C.7.a, MP6, 7.Mod6.AD8</p>

<p>7.RP.A.1, 7.RP.A.2.a, 7.RP.A.2.c, MP8, 7.Mod1.AD1, 7.Mod1.AD2, 7.Mod1.AD4</p> <p>Lesson 4: Exploring Graphs of Proportional Relationships</p> <ul style="list-style-type: none"> Identify proportional relationships represented as graphs. Interpret and makes sense of the point $(0, 0)$ in context. <p>7.RP.A.2.a, 7.RP.A.2.b, 7.RP.A.2.d, MP8, 7.Mod1.AD2, 7.Mod1.AD3, 7.Mod1.AD5</p> <p>Lesson 5: Analyzing Graphs of Proportional Relationships</p> <ul style="list-style-type: none"> Analyze graphs or sets of ratios to determine whether they represent proportional relationships. Identify the point on a graph that best shows the constant of proportionality k and explain the meaning of the point in context. <p>7.RP.A.2.a, 7.RP.A.2.b, 7.RP.A.2.d, MP2, 7.Mod1.AD2, 7.Mod1.AD3, 7.Mod1.AD5</p> <p>Lesson 6: Identifying Proportional Relationships in Written Descriptions</p> <ul style="list-style-type: none"> Determine whether a written description represents a proportional relationship. <p>7.RP.A.2.a, 7.RP.A.2.b, MP2, 7.Mod1.AD2, 7.Mod1.AD3</p> <hr/> <p>Topic B: Working with Proportional Relationships</p> <p>Lesson 7: Handstand Sprint</p>	<ul style="list-style-type: none"> Add integers to solve and create puzzles. <p>7.NS.A.1.d, MP1, 7.Mod2.AD8</p> <p>Lesson 5: Decomposing Rational Numbers to Make Addition More Efficient</p> <ul style="list-style-type: none"> Add rational numbers by decomposing them. <p>7.NS.A.1.b, 7.NS.A.1.d, MP3, 7.Mod2.AD3, 7.Mod2.AD8</p> <p>Lesson 6: Adding Rational Numbers</p> <ul style="list-style-type: none"> Fluently add rational numbers. <p>7.NS.A.1.b, 7.NS.A.1.d, MP5, 7.Mod2.AD3, 7.Mod2.AD8</p> <hr/> <p>Topic B: Subtracting Rational Numbers</p> <p>Lesson 7: What Subtraction Means</p> <ul style="list-style-type: none"> Show that the distance between two integers on the number line is the absolute value of their difference. Evaluate integer subtraction expressions by finding the unknown addends. <p>7.NS.A.1.c, MP7, 7.Mod2.AD7</p> <p>Lesson 8: Subtracting Integers, Part 1</p> <ul style="list-style-type: none"> Use expressions, number lines, and patterns to model contextual problems involving subtraction. Write subtraction expressions as equivalent addition expressions. <p>7.NS.A.1.b, 7.NS.A.1.c, MP2, 7.Mod2.AD5, 7.Mod2.AD6</p> <p>Lesson 9: Subtracting Integers, Part 2</p> <ul style="list-style-type: none"> Express subtraction of a number as addition of its opposite. 	<ul style="list-style-type: none"> Generate equivalent expressions by using properties of operations to add and subtract expressions. <p>7.EE.A.1, 7.EE.A.2, MP7, 7.Mod3.AD1, 7.Mod3.AD2</p> <p>Lesson 5: Factoring Expressions</p> <ul style="list-style-type: none"> Generate equivalent expressions by using the distributive property to factor. <p>7.EE.A.1, 7.EE.A.2, MP2, 7.Mod3.AD1, 7.Mod3.AD2</p> <p>Lesson 6: Comparing Expressions</p> <ul style="list-style-type: none"> Use properties of operations to determine whether expressions are equivalent. <p>7.EE.A.1, 7.EE.A.2, MP7, 7.Mod3.AD1, 7.Mod3.AD2</p> <hr/> <p>Topic B: Unknown Angle Measurements</p> <p>Lesson 7: Angle Relationships and Unknown Angle Measures</p> <ul style="list-style-type: none"> Identify and describe angle relationships given in diagrams. Write and solve equations that use angle relationships to find unknown angle measures. <p>7.G.B.5, 7.EE.B.4.a, MP5, 7.Mod3.AD8, 7.Mod3.AD12</p> <p>Lesson 8: Strategies to Determine Unknown Angle Measures</p> <ul style="list-style-type: none"> Identify and describe angle relationships given in diagrams. Write and solve two-step equations that use angle relationships to find unknown angle measures. <p>7.G.B.5, 7.EE.B.4.a, MP6, 7.Mod3.AD8, 7.Mod3.AD12</p>	<p>Lesson 4: Angles of a Triangle</p> <ul style="list-style-type: none"> Determine whether a triangle can be formed with two given angle measures. <p>7.G.A.2, MP3, 7.Mod4.AD1 7.Mod4.AD2</p> <p>Lesson 5: Constructing Quadrilaterals and Triangles</p> <ul style="list-style-type: none"> Construct quadrilaterals given four side lengths and determine whether a unique quadrilateral is formed. Construct triangles given three side lengths and determine whether a unique triangle is formed. <p>7.G.A.2, MP8, 7.Mod4.AD1, 7.Mod4.AD2</p> <hr/> <p>Topic B: Constructing Triangles</p> <p>Lesson 6: Unique Triangles</p> <ul style="list-style-type: none"> Determine that at least three conditions are needed to guarantee a unique triangle. Determine that three angle measures alone do not guarantee a unique triangle. <p>7.G.A.2, MP3, 7.Mod4.AD1, 7.Mod4.AD2</p> <p>Lesson 7: Two Angles and One Side</p> <ul style="list-style-type: none"> Determine whether two angle measures and an included side length guarantee a unique triangle. Determine whether two angle measures and a non-included side length guarantee a unique triangle. <p>7.G.A.2, MP3, 7.Mod4.AD1, 7.Mod4.AD2</p>	<p>Lesson 5: Common Denominators or Common Numerators</p> <ul style="list-style-type: none"> Solve percent problems by using strategies that involve finding common denominators or common numerators to solve proportions. <p>7.RP.A.2.c, 7.RP.A.3, MP5, 7.Mod5.AD2, 7.Mod5.AD3</p> <hr/> <p>Topic B: Part of 100</p> <p>Lesson 6: Finding Commission</p> <ul style="list-style-type: none"> Apply percents in the real-world context of commission. <p>7.RP.A.3, MP1, 7.Mod5.AD3, 7.Mod5.AD4</p> <p>Lesson 7: Finding Discounts</p> <ul style="list-style-type: none"> Apply percents in the real-world context of discounts. <p>7.RP, 7.RP.A.3, MP1, 7.Mod5.AD1, 7.Mod5.AD3, 7.Mod5.AD4</p> <p>Lesson 8: Determining Fees</p> <ul style="list-style-type: none"> Apply percents in the real-world context of fees. <p>7.RP.A.3, MP3, 7.Mod5.AD3, 7.Mod5.AD4</p> <p>Lesson 9: Tax as a Fee</p> <ul style="list-style-type: none"> Apply percents in the real-world context of taxes. <p>7.RP.A.3, MP1, 7.Mod5.AD3, 7.Mod5.AD4</p> <hr/> <p>Topic C: More or Less Than 100%</p> <p>Lesson 10: Percent Increase</p>	<p>Lesson 5: Multistage Experiments</p> <ul style="list-style-type: none"> Use tree diagrams to organize and represent the outcomes in the sample space of a multistage experiment. <p>7.SP.C.8.a, 7.SP.C.8.b, MP7, 7.Mod6.AD10</p> <p>Lesson 6: Outcomes That Are Not Equally Likely</p> <ul style="list-style-type: none"> Calculate probabilities of events for chance experiments that do not have equally likely outcomes. <p>7.SP.C.6, MP7, 7.Mod6.AD6</p> <hr/> <p>Topic B: Estimating Probabilities</p> <p>Lesson 7: The Law of Large Numbers</p> <ul style="list-style-type: none"> Use empirical probability to estimate theoretical probability. Compare probabilities from a theoretical model to observed relative frequencies. <p>7.SP.C.7, 7.SP.C.7.a, 7.SP.C.7.b, MP8, 7.Mod6.AD7, 7.Mod6.AD8, 7.Mod6.AD9</p> <p>Lesson 8: Picking Blue</p> <ul style="list-style-type: none"> Use empirical probabilities to create a probability model. <p>7.SP.C.6, 7.SP.C.7.b, MP2, 7.Mod6.AD6, 7.Mod6.AD9</p> <p>Lesson 9: Probability Simulations</p> <ul style="list-style-type: none"> Use a simulation to generate empirical probabilities for events. <p>7.SP.C.8.c, MP1, 7.Mod6.AD11</p> <p>Lesson 10: Simulations with Random Number Tables</p> <ul style="list-style-type: none"> Conduct simulations with a random number table.
---	--	---	---	---	---

<ul style="list-style-type: none"> Model a situation by using a proportional relationship to solve a problem. <p>7.RP.A.3, MP4, MP5, 7.Mod1.AD6</p> <p>Lesson 8: Relating Representations of Proportional Relationships</p> <ul style="list-style-type: none"> Relate information among tables, graphs, equations, and situations to display a proportional relationship. Identify the constant of proportionality in different representations of a proportional relationship. <p>7.RP.A.2.b, 7.RP.A.2.c, MP7, 7.Mod1.AD3, 7.Mod1.AD4</p> <p>Lesson 9: Comparing Proportional Relationships</p> <ul style="list-style-type: none"> Explain how to use the point $(1, r)$ to find the unit rate of a proportional relationship. Relate the unit rate to the steepness of the line representing the proportional relationship by using the unit rate triangle with vertices $(0, 0)$, $(1, 0)$, and $(1, r)$. <p>7.RP.A.2.b, 7.RP.A.2.d, MP7, 7.Mod1.AD3, 7.Mod1.AD5</p> <p>Lesson 10: Applying Proportional Reasoning</p> <ul style="list-style-type: none"> Represent proportional relationships as equations. Solve problems by applying proportional reasoning. <p>7.RP.A.2.c, 7.RP.A.3, MP2, 7.Mod1.AD4, 7.Mod1.AD6</p> <p>Lesson 11: Constant Rates</p> <ul style="list-style-type: none"> Represent rate problems as proportional relationships with equations. Solve rate problems. 	<ul style="list-style-type: none"> Subtract integers by using equivalent addition expressions. <p>7.NS.A.1.c, 7.NS.A.1.d, MP8, 7.Mod2.AD6, 7.Mod2.AD8</p> <p>Lesson 10: Subtracting Rational Numbers, Part 1</p> <ul style="list-style-type: none"> Evaluate expressions involving subtraction of rational numbers. Use properties of operations to make a simpler expression. <p>7.NS.A.1.c, 7.NS.A.1.d, MP7, 7.Mod2.AD6, 7.Mod2.AD8</p> <p>Lesson 11: Subtracting Rational Numbers, Part 2</p> <ul style="list-style-type: none"> Subtract rational numbers by writing equivalent addition expressions and evaluating them. Module 1 Scientific Notation, Exponents, and Irrational Numbers	Module 2 Rigid Motions and Congruent Figures	Module 3 Dilations and Similar Figures	Module 4 Linear Equations in One and Two Variables	Module 5 Systems of Linear Equations	Module 6 Functions and Bivariate Statistics
<p>Topic A: Introduction to Scientific Notation</p> <p>Lesson 1: Large and Small Positive Numbers</p> <ul style="list-style-type: none"> Write very large and very small numbers in a form that uses exponents to prepare students for scientific notation. Approximate very large and very small quantities. <p>8.EE.A.3, MP2, 8.Mod1.AD8</p> <p>Lesson 2: Comparing Large Numbers</p> <ul style="list-style-type: none"> Write numbers as a single digit times a power of 10 in exponential form to approximate quantities. Compare large and small positive numbers by using <i>times as much as</i> language. <p>8.EE.A.3, 8.EE.A.4, MP7, 8.Mod1.AD9, 8.Mod1.AD11, 8.Mod1.AD12</p> <p>Lesson 3: Time to Be More Precise—Scientific Notation</p> <ul style="list-style-type: none"> Write numbers given in standard form in scientific notation. <p>8.EE.A.3, MP3, 8.Mod1.AD8</p>	<p>Topic A: Rigid Motions and Their Properties</p> <p>Lesson 1: Motions of the Plane</p> <ul style="list-style-type: none"> Informally describe how to map a figure to its image. Demonstrate that the distance between two points stays the same under rigid motions. <p>8.G.A.1, 8.G.A.1.a, 8.G.A.1.b, 8.G.A.1.c, MP5, 8.Mod2.AD1</p> <p>Lesson 2: Translations</p> <ul style="list-style-type: none"> Apply translations to the plane. Identify the basic properties of translations. <p>8.G.A.1, 8.G.A.1.a, 8.G.A.1.b, 8.G.A.1.c, MP6, 8.Mod2.AD1</p> <p>Lesson 3: Reflections</p> <ul style="list-style-type: none"> Apply reflections to the plane. Identify the basic properties of reflections. <p>8.G.A.1, 8.G.A.1.a, 8.G.A.1.b, 8.G.A.1.c, MP8, 8.Mod2.AD1</p> <p>Lesson 4: Translations and Reflections on the Coordinate Plane</p>	<p>Topic A: Dilations</p> <p>Lesson 1: Exploring Dilations</p> <ul style="list-style-type: none"> Informally describe the effects of dilations. Classify a dilation as a transformation that is not a rigid motion. <p>8.G.A.3, MP8, 8.Mod3.AD2</p> <p>Lesson 2: Enlargements</p> <ul style="list-style-type: none"> Apply a dilation with a whole-number scale factor greater than 1. Describe the effects of a dilation with a whole-number scale factor greater than 1. <p>8.G.A.3, MP6, 8.Mod3.AD2</p> <p>Lesson 3: Reductions and More Enlargements</p> <ul style="list-style-type: none"> Apply a dilation with a scale factor greater than 0. Describe the effects of a dilation with a scale factor greater than 0. <p>8.G.A.3, MP8, 8.Mod3.AD2</p> <hr/> <p>Topic B: Properties of Dilations</p>	<p>Topic A: Linear Equations in One Variable</p> <p>Lesson 1: Equations</p> <ul style="list-style-type: none"> Analyze an equation to make sense of how to solve it. Identify whether an equation is a linear equation. <p>8.EE.C.7.b, MP7, 8.Mod4.AD11</p> <p>Lesson 2: Solving Linear Equations</p> <ul style="list-style-type: none"> Identify the properties of equality. Solve multi-step linear equations in one variable with variables on both sides of the equations. <p>8.EE.C.7, 8.EE.C.7.b, MP6, 8.Mod4.AD9, 8.Mod4.AD11</p> <p>Lesson 3: Solving Linear Equations with Rational Coefficients</p> <ul style="list-style-type: none"> Solve multi-step linear equations in one variable with rational coefficients. <p>8.EE.C.7, 8.EE.C.7.b, MP7, 8.Mod4.AD9, 8.Mod4.AD11</p> <p>Lesson 4: Using Linear Equations to Solve Problems</p> <ul style="list-style-type: none"> Define variables and write equations that represent a given situation. 	<p>Topic A: Solving Systems of Linear Equations Graphically</p> <p>Lesson 1: Solving Problems with Equations and Their Graphs</p> <ul style="list-style-type: none"> Formulate a problem from a context. Apply different mathematical tools to model, analyze, and answer a real-world question. <p>8.EE.C.8.a, 8.EE.C.8.b, 8.EE.C.8.c, MP4, 8.Mod5.AD1, 8.Mod5.AD3, 8.Mod5.AD5</p> <p>Lesson 2: Introduction to Systems of Linear Equations</p> <ul style="list-style-type: none"> Graph a system of linear equations to identify the solution. Recognize that the ordered pair representing the intersection point of the lines is the solution to the system of linear equations. <p>8.EE.C.8.a, MP6, 8.Mod5.AD1</p> <p>Lesson 3: Identifying Solutions</p> <ul style="list-style-type: none"> Recognize that a system of linear equations that represents parallel lines has no solution. Analyze a system of linear equations to determine whether a solution exists. 	<p>Topic A: Functions</p> <p>Lesson 1: Motion and Speed</p> <ul style="list-style-type: none"> Calculate the average speed of linear and nonlinear motion. Understand that a function is a special type of rule. <p>8.F.A.1, MP8, 8.Mod6.AD1</p> <p>Lesson 2: Definition of a Function</p> <ul style="list-style-type: none"> Determine that a function is a rule that assigns to each input one and only one output. Identify functions that can be represented by an equation and those that cannot. <p>8.F.A.1, MP2, 8.Mod6.AD1</p> <p>Lesson 3: Linear Functions and Proportionality</p> <ul style="list-style-type: none"> Write equations that represent linear functions. Determine what inputs make sense in the context of a linear function. <p>8.F.A.3, MP2, 8.Mod6.AD3</p> <p>Lesson 4: More Examples of Functions</p> <ul style="list-style-type: none"> Determine that not all functions have numerical inputs and outputs.

Module 1

Lesson 4: Adding and Subtracting Numbers Written in Scientific Notation

- Add and subtract numbers written in scientific notation.
- Rewrite sums and differences in scientific notation.

8.EE.A.4, MP6, 8.Mod1.AD10, 8.Mod1.AD12

Topic B: Properties and Definitions of Exponents

Lesson 5: Products of Exponential Expressions with Whole-Number Exponents

- Apply understanding of exponential notation to write equivalent expressions for $x^m \cdot x^n$.

8.EE.A.1, MP8, 8.Mod1.AD5

Lesson 6: More Properties of Exponents

- Encounter and apply properties of exponents, including raising powers to powers, raising products to powers, and raising quotients to powers.

8.EE.A.1, 8.Mod1.AD5

Lesson 7: Making Sense of the Exponent of 0

- Define x^0 by confirming that the definition upholds the properties of exponents.
- Evaluate powers with an exponent of 0.

8.EE.A.1, 8.EE.A.3, MP3, 8.Mod1.AD5, 8.Mod1.AD8

Lesson 8: Making Sense of Integer Exponents

- Explore and develop an understanding of negative exponents.

Module 2

- Apply translations and reflections on the coordinate plane.

- Use coordinates to describe the location of an image under a translation or a reflection.

8.G.A.3, MP6, 8.Mod2.AD4

Lesson 5: Rotations

- Apply rotations to the plane.
- Identify the basic properties of rotations.

8.G.A.1, 8.G.A.1.a, 8.G.A.1.b, 8.G.A.1.c, MP6, 8.Mod2.AD1

Lesson 6: Rotations on the Coordinate Plane

- Apply rotations around the origin on the coordinate plane.
- Use coordinates to describe the location of an image under a rotation around the origin.

8.G.A.3, MP8, 8.Mod2.AD4

Topic B: Rigid Motions and Congruent Figures

Lesson 7: Working Backward

- Precisely describe the rigid motion required to map an image back onto its original figure.

8.G.A.1, 8.G.A.1.a, 8.G.A.1.b, 8.G.A.1.c, 8.G.A.2, MP8, 8.Mod2.AD1, 8.Mod2.AD3

Lesson 8: Sequencing the Rigid Motions

- Describe a sequence of rigid motions that maps one figure onto another.
- Determine that the properties of individual rigid motions also apply for a sequence of rigid motions.

8.G.A.1, 8.G.A.1.a, 8.G.A.1.b, 8.G.A.1.c, 8.G.A.2, MP1, 8.Mod2.AD1, 8.Mod2.AD3

Module 3

Lesson 4: Using Lined Paper to Explore Dilations

- Draw the image of a segment under a dilation.
- Learn the properties of dilations.

8.G.A.3, MP8, 8.Mod3.AD2

Lesson 5: Figures and Dilations

- Draw images of figures under dilations with various scale factors.

8.G.A.3, MP5, 8.Mod3.AD2

Lesson 6: The Shadowy Hand

- Use a mathematical model to explain a real-world situation.
- Apply properties of dilations to make and test predictions.

8.G.A.3, MP4, 8.Mod3.AD2

Lesson 7: Dilations on a Grid

- Apply dilations on a grid.

8.G.A.3, MP7, 8.Mod3.AD2

Lesson 8: Dilations on the Coordinate Plane

- Apply dilations centered at the origin on the coordinate plane.
- Determine the scale factor of a dilation centered at the origin.

8.G.A.3, MP8, 8.Mod3.AD2, 8.Mod3.AD3

Topic C: Similar Figures

Lesson 9: Describing Dilations

- Precisely describe a dilation given a figure and its image.

8.G.A.3, MP8, 8.Mod3.AD2

Lesson 10: Sequencing Transformations

- Apply sequences of transformations.

Module 4

8.EE.C.7, MP1, 8.Mod4.AD9

Lesson 5: An Interesting Application of Linear Equations, Part 1

- Informally show that every rational number has a decimal form that repeats or terminates.
- Use linear equations to write the fraction form of a decimal with one repeating digit.

8.NS.A.1, 8.EE.C.7.b, MP8, 8.Mod4.AD1, 8.Mod4.AD11

Lesson 6: An Interesting Application of Linear Equations, Part 2

- Use linear equations to write the fraction form of any repeating decimal.

8.NS.A.1, 8.EE.C.7.b, MP8, 8.Mod4.AD1, 8.Mod4.AD11

Topic B: The Structure of Linear Equations in One Variable

Lesson 7: Linear Equations with More Than One Solution

- Identify that linear equations in one variable with infinitely many solutions are equivalent to the equation $a = a$.
- Solve linear equations in one variable that have only one solution or infinitely many solutions.

8.EE.C.7.a, 8.EE.C.7.b, MP7, 8.Mod4.AD10, 8.Mod4.AD11

Lesson 8: Another Possible Number of Solutions

- Identify that linear equations in one variable with no solution are

Module 5

8.EE.C.8.a, 8.EE.C.8.b, MP7, 8.Mod5.AD1, 8.Mod5.AD4

Lesson 4: More Than One Solution

- Recognize that a system of linear equations that represents the same line has infinitely many solutions.
- Analyze whether a system of linear equations has only one solution, no solution, or infinitely many solutions.

8.EE.C.8.a, 8.EE.C.8.b, MP7, 8.Mod5.AD1, 8.Mod5.AD3, 8.Mod5.AD4

Lesson 5: Estimating Solutions

- Recognize and describe the limitations of solving a system of linear equations by graphing.

8.EE.C.8.a, 8.EE.C.8.b, MP1, 8.Mod5.AD1, 8.Mod5.AD3

Topic B: Solving Systems of Linear Equations Algebraically

Lesson 6: Solving Systems of Linear Equations without Graphing

- Solve systems of linear equations by using the substitution method to write the systems as linear equations in one variable.

8.EE.C.8.b, MP6, MP8, 8.Mod5.AD2

Lesson 7: The Substitution Method

- Solve a system of linear equations by using the substitution method.
- Apply the multiplication property of equality as part of the substitution method.

8.EE.C.8.a, 8.EE.C.8.b, MP1, 8.Mod5.AD1, 8.Mod5.AD2

Module 6

- Determine what inputs make sense for a variety of functions.

8.F.A.1, MP7, 8.Mod6.AD1

Lesson 5: Graphs of Functions and Equations

- Determine that if a function can be represented by an equation, then the graph of the function is the same as or some part of the graph of the equation.
- Determine whether a given graph represents a function.

8.F.A.1, MP6, 8.Mod6.AD1

Topic B: Linear and Nonlinear Functions

Lesson 6: Linear Functions and Rate of Change

- Calculate rates on a given interval to determine whether a function is a linear function.
- Determine the rate of change for a linear function and interpret the rate of change in context.

8.F.A.3, 8.F.A.4, 8.SP.A.3, MP2, 8.Mod6.AD3, 8.Mod6.AD4, 8.Mod6.AD5

Lesson 7: Interpreting Rate of Change and Initial Value

- Interpret the rate of change and initial value of a linear function in context.
- Use rate of change to compare two linear functions.

8.F.A.2, 8.F.A.4, 8.SP.A.3, MP2, 8.Mod6.AD2, 8.Mod6.AD4, 8.Mod6.AD5

Lesson 8: Comparing Functions

- Compare two functions represented in different ways.

8.F.A.2, MP5, 8.Mod6.AD2

Module 1

- Write equivalent expressions given an expression of the form $\frac{x^m}{x^n}$.

8.EE.A.1, MP6, 8.Mod1.AD5

Lesson 9: Writing Equivalent Expressions

- Write equivalent expressions by using all the properties and definitions of exponents.

8.EE.A.1, MP7, 8.Mod1.AD5

Lesson 10: Evaluating Numerical Expressions by Using Properties of Exponents (Optional)

- Simplify and evaluate exponential expressions by using the properties and definitions of exponents.

8.EE.A.1, MP3, 8.Mod1.AD5

Topic C: Applications of the Properties and Definitions of Exponents

Lesson 11: Small Positive Numbers in Scientific Notation

- Write small positive numbers in scientific notation.
- Order numbers written in scientific notation.

8.EE.A.3, MP3, 8.Mod1.AD8

Lesson 12: Operations with Numbers in Scientific Notation

- Interpret numbers in scientific notation displayed on digital devices.
- Operate with numbers written in scientific notation.

8.EE.A.4, MP5, 8.Mod1.AD10, 8.Mod1.AD11, 8.Mod1.AD14

Lesson 13: Applications with Numbers in Scientific Notation

Module 2

Lesson 9: Ordering Sequences of Rigid Motions

- Determine whether the order in which a sequence of rigid motions is applied matters.

8.G.A.2, 8.G.A.3, MP8, 8.Mod2.AD2, 8.Mod2.AD4

Lesson 10: Congruent Figures

- Describe a sequence of rigid motions that maps one figure onto a congruent figure.

8.G.A.2, MP6, 8.Mod2.AD3

Lesson 11: Showing Figures Are Congruent

- Show figures are congruent by describing a sequence of rigid motions that maps one figure onto the other.

8.G.A.2, MP1, 8.Mod2.AD2

Topic C: Angle Relationships

Lesson 12: Lines Cut by a Transversal

- Use informal arguments to establish facts about the angles created when pairs of lines are cut by a transversal.

8.G.A.2, 8.G.A.5, MP6, 8.Mod2.AD2, 8.Mod2.AD3, 8.Mod2.AD6

Lesson 13: Angle Sum of a Triangle

- Use informal arguments to verify that the sum of the interior angle measures of a triangle is 180° .

8.G.A.5, MP3, 8.Mod2.AD5

Lesson 14: Showing Lines Are Parallel

- Use informal arguments to conclude that lines cut by a transversal are parallel when angle pairs are congruent.

Module 3

- Recognize a sequence that involves a dilation and a translation as a single dilation.

8.G.A.3, MP1, 8.Mod3.AD2

Lesson 11: Similar Figures

- Describe a sequence of rigid motions or dilations, or both, to show that two figures are similar.
- Identify properties of similar figures.

8.G.A.4, MP6, 8.Mod3.AD4, 8.Mod3.AD5

Lesson 12: Exploring Angles in Similar Triangles

- Recognize that triangles with two pairs of congruent angles are similar.

8.G.A.4, 8.G.A.5, MP7, 8.Mod3.AD4, 8.Mod3.AD5, 8.Mod3.AD6

Lesson 13: Similar Triangles

- Determine whether two triangles are similar by the angle-angle criterion.

8.G.A.4, 8.G.A.5, MP3, 8.Mod3.AD4, 8.Mod3.AD6

Topic D: Applications of Similar Figures

Lesson 14: Using Similar Figures to Find Unknown Side Lengths

- Use properties of similar figures to find unknown side lengths.

8.G.A.5, MP1, 8.Mod3.AD6

Lesson 15: Applications of Similar Figures

- Use properties of similar figures to solve problems.

8.G.A.5, MP2, 8.Mod3.AD6

Module 4

equivalent to the equation $a = b$, where a and b are different numbers.

- Solve linear equations in one variable that have only one solution, infinitely many solutions, or no solution.

8.EE.C.7.a, 8.EE.C.7.b, MP7, 8.Mod4.AD10, 8.Mod4.AD11

Lesson 9: Writing Linear Equations

- Write equations with only one solution, infinitely many solutions, or no solution.
- Classify equations based on their number of solutions.

8.EE.C.7.a, MP7, 8.Mod4.AD10

Lesson 10: Using Linear Equations to Solve Real-World Problems

- Solve real-world problems by using linear equations in one variable.

8.EE.C.7, 8.EE.C.7.a, 8.EE.C.7.b, MP2, 8.Mod4.AD9, 8.Mod4.AD10, 8.Mod4.AD11

Lesson 11: Planning a Trip

- Solve a real-world problem by using linear equations in one variable.

8.EE.C.7, 8.EE.C.7.b, MP4, 8.Mod4.AD9, 8.Mod4.AD11

Topic C: Linear Equations in Two Variables

Lesson 12: Solutions to Linear Equations in Two Variables

- Find solutions to linear equations in two variables.
- Graph the solutions in the coordinate plane.

8.EE.B, MP8, 8.Mod4.AD3

Lesson 13: The Graph of a Linear Equation in Two Variables

Module 5

Lesson 8: Using Tape Diagrams to Solve Systems of Equations (Optional)

- Find the solution to a system of linear equations by using tape diagrams.
- Create tape diagrams to represent a system of linear equations.

8.EE.C.8.b, MP7, 8.Mod5.AD2, 8.EE.C.8.b, MP7, 8.Mod5.AD2,

Lesson 9: Rewriting Equations to Solve a System of Equations

- Solve a system of linear equations by using the substitution method.

8.EE.C.8.b, MP7, 8.Mod5.AD2, 8.Mod5.AD4

Lesson 10: Choosing a Solution Method

- Analyze graphs and systems of equations to determine the number of solutions.
- Construct and critique arguments about the most efficient solution method.

8.EE.C.8.a, 8.EE.C.8.b, MP3, MP5, 8.Mod5.AD1, 8.Mod5.AD2, 8.Mod5.AD4

Topic C: Writing and Solving Systems of Linear Equations

Lesson 11: Writing and Solving Systems of Equations for Mathematical Problems

- Write and solve systems of linear equations for mathematical problems.

8.EE.C.8.b, 8.EE.C.8.c, MP2, 8.Mod5.AD2, 8.Mod5.AD5

Lesson 12: Solving Historical Problems with Systems of Equations

- Write and solve a system of linear equations given a historical situation.

Module 6

Lesson 9: Increasing and Decreasing Functions

- Describe qualitative features of a function by analyzing a graph.
- Sketch the graph of a function given a description.

8.F.B.5, MP6, 8.Mod6.AD6, 8.Mod6.AD7

Lesson 10: Graphs of Nonlinear Functions

- Sketch the graph of a function with certain qualitative features based on a description.
- Classify linear and nonlinear functions given a context, an equation, or a graph.

8.F.A.3, 8.F.B.5, MP3, 8.Mod6.AD3, 8.Mod6.AD6, 8.Mod6.AD7

Topic C: Bivariate Numerical Data

Lesson 11: Scatter Plots

- Construct scatter plots and identify those that show an association between two variables.
- Describe the difference between an association and a cause and effect relationship for numerical variables.

8.SP.A.1, MP2, 8.Mod6.AD8

Lesson 12: Patterns in Scatter Plots

- Identify and describe patterns of association between two variables represented in scatter plots.
- Identify and describe outliers and clusters in context.

8.SP.A.1, MP2, 8.Mod6.AD8

Lesson 13: Informally Fitting a Line to Data

Module 1

- Operate with numbers written in standard form and scientific notation.

8.EE.A.4, MP1, 8.Mod1.AD10, 8.Mod1.AD11

Lesson 14: Choosing Units of Measurement

- Choose appropriate units of measurement and convert units of measurement.

8.EE.A.4, MP2, 8.Mod1.AD13

Lesson 15: Get to the Point

- Model a situation by operating with numbers in scientific notation.

8.EE.A.4, MP4, 8.Mod1.AD12

Topic D: Perfect Squares, Perfect Cubes, and the Pythagorean Theorem

Lesson 16: Perfect Squares and Perfect Cubes

- Recognize perfect squares from 1 to 225 and perfect cubes from 1 to 125.
- Determine all numbers that square or cube to a given number.

8.EE.A.2, MP8, 8.Mod1.AD7

Lesson 17: Solving Equations with Squares and Cubes

- Solve equations of the forms $x^2 = p$ and $x^3 = p$, where p is a rational number and the solutions are rational numbers.

8.EE.A.2, MP3, 8.Mod1.AD6, 8.Mod1.AD7

Lesson 18: The Pythagorean Theorem

- Describe the Pythagorean theorem and the conditions required to use it.

8.G.B.7, 8.Mod1.AD15

Module 2

8.G.A.5, MP3, 8.Mod2.AD6

Lesson 15: Exterior Angles of Triangles

- Use informal arguments to establish facts about the exterior angles of triangles.
- Determine the unknown measure of an interior or exterior angle of a triangle.

8.G.A.5, MP7, 8.Mod2.AD5, 8.Mod2.AD6

Lesson 16: Find Unknown Angle Measures

- Use facts about angle relationships to write and solve equations.

8.G.A.5, MP1, 8.Mod2.AD5, 8.Mod2.AD6

Topic D: Congruent Figures and the Pythagorean Theorem

Lesson 17: Proving the Pythagorean Theorem

- Explain a proof of the Pythagorean theorem.

8.G.B.6, MP3, 8.Mod2.AD7

Lesson 18: Proving the Converse of the Pythagorean Theorem

- Explain a proof of the converse of the Pythagorean theorem.

8.G.B.6, MP3, 8.Mod2.AD7

Lesson 19: Using the Pythagorean Theorem and Its Converse

- Use the converse of the Pythagorean theorem to determine whether a triangle is a right triangle.
- Use the Pythagorean theorem to find unknown side lengths of right triangles.

Module 3

Lesson 16: Similar Right Triangles

- Apply dilations to create similar right triangles.
- Find unknown side lengths in similar right triangles.

8.G.A.3, 8.G.A.5, 8.G.B.7, MP7, 8.Mod3.AD2, 8.Mod3.AD6, 8.Mod3.AD7

Lesson 17: Similar Triangles on a Line

- Determine that right triangles with horizontal and vertical legs and with hypotenuses that lie on the same line are similar triangles.

8.EE.B.6, 8.G.A.4, MP8, 8.Mod3.AD1, 8.Mod3.AD3

Module 4

- Identify that the graph of a linear equation of the form $Ax + By = C$ is a line.

8.EE.B, MP6, 8.Mod4.AD2, 8.Mod4.AD3

Lesson 14: Lines with Special Characteristics

- Graph linear equations of the form $Ax = C$ and $By = C$ where A and B are nonzero.

8.EE.B, MP8, 8.Mod4.AD2, 8.Mod4.AD3

Topic D: Slope of a Line

Lesson 15: Comparing Proportional Relationships

- Graph two proportional relationships and use unit rate to compare the steepness of each line.
- Compare proportional relationships represented in different ways.

8.EE.B.5, MP2, 8.Mod4.AD6

Lesson 16: Proportional Relationships and Slope

- Relate the unit rate of a proportional relationship to the slope of the associated line.
- Find the slope of a line through the origin.

8.EE.5, 8.EE.6, MP6, 8.Mod4.AD5, 8.Mod4.AD7

Lesson 17: Slopes of Rising Lines

- Find slopes of rising lines by using slope triangles.
- Graph a rising line given the slope and a point on the line.

8.EE.B.6, MP1, 8.Mod4.AD7

Lesson 18: Slopes of Falling Lines

Module 5

8.EE.C.8.b, 8.EE.C.8.c, MP2, 8.Mod5.AD2, 8.Mod5.AD5

Lesson 13: Writing and Solving Systems of Equations for Real-World Problems

- Write and solve a system of linear equations given a real-world situation.

8.EE.C.8.b, 8.EE.C.8.c, MP2, 8.Mod5.AD2, 8.Mod5.AD5

Lesson 14: Back to the Coordinate Plane

- Write and solve systems of linear equations when given information about two lines to identify intersection points.

8.EE.C.8.a, 8.EE.C.8.b, 8.EE.C.8.c, MP1, 8.Mod5.AD1, 8.Mod5.AD2, 8.Mod5.AD3

Module 6

- Informally fit a line to data displayed in a scatter plot.
- Make predictions based on the graph of a line fit to data.

8.SP.A.2, MP3, 8.Mod6.AD9

Lesson 14: Determining an Equation of a Line Fit to Data

- Determine an equation of a line informally fit to data displayed in a scatter plot and interpret the slope and y -intercept in context.

8.SP.A.3, MP6, 8.Mod6.AD10

Lesson 15: Linear Models

- Use a linear function to model the association between two numerical variables.
- Informally assess the fit of a line to data in a scatter plot by judging the closeness of the data points to the line.

8.SP.A.2, 8.SP.A.3, MP7, 8.Mod6.AD9, 8.Mod6.AD10

Lesson 16: Using the Investigative Process

- Use the investigative process to explore claims about proportional relationships in the human body.

8.SP.A.2, 8.SP.A.3, MP4, 8.Mod6.AD9, 8.Mod6.AD10

Lesson 17: Analyzing the Model

- Present the results of a statistical investigation.
- Critique the statistical investigations presented by others.

8.SP.A.2, 8.SP.A.3, MP2, 8.Mod6.AD9, 8.Mod6.AD10

Topic D: Bivariate Categorical Data

Module 1

Lesson 19: Using the Pythagorean Theorem

- Apply the Pythagorean theorem to find the unknown length of the hypotenuse of a right triangle.
- Find two consecutive whole numbers which the length of the hypotenuse is between when the length is not rational.
- Use square root notation to express lengths that are not rational.

8.G.B.7, MP2, 8.Mod1.AD15

Lesson 20: Square Roots

- Place square roots on a number line.
- 8.EE.A.2, 8.G.B.7, MP8, 8.Mod1.AD6, 8.Mod1.AD15**

Topic E: Irrational Numbers

Lesson 21: Approximating Values of Roots and π^2

- Approximate values of square roots, cube roots, and π^2 .
- 8.NS.A.2, 8.Mod1.AD3, 8.Mod1.AD4**

Lesson 22: Familiar and Not So Familiar Numbers

- Identify numbers as rational, irrational, and real by their decimal form.
 - Compare the characteristics of rational and irrational numbers.
- 8.NS.A.1, 8.EE.A.2, MP3, 8.Mod1.AD1**

Lesson 23: Ordering Irrational Numbers

- Order irrational numbers.
 - Approximate the value of expressions with irrational numbers.
- 8.NS.A.2, MP7, 8.Mod1.AD2, 8.Mod1.AD3, 8.Mod1.AD4**

Module 2

8.G.B.6, 8.G.B.7, MP7, 8.Mod2.AD7, 8.Mod2.AD8

Lesson 20: Distance in the Coordinate Plane

- Find the distance between two points in the coordinate plane by using the Pythagorean theorem.

8.G.B.8, MP7, 8.Mod2.AD9

Lesson 21: Applying the Pythagorean Theorem

- Apply the Pythagorean theorem to solve real-world and mathematical problems.
- Evaluate square roots.

8.G.B.7, MP2, 8.Mod2.AD8

Lesson 22: On the Right Path

- Model a situation by using the Pythagorean theorem and the distance on a grid to solve a problem.

8.G.B.7, 8.G.B.8, MP4, 8.Mod2.AD8, 8.Mod2.AD9

Module 3

Module 4

- Find slopes of falling lines by using slope triangles.
- Graph a falling line given the slope and a point on the line.

8.EE.B.6, MP3, 8.Mod4.AD7

Lesson 19: Using Coordinates to Find Slope

- Develop a formula for the slope of a line.
- Find the slope of a line given the coordinates of at least two points on the line.

8.EE.B.6, MP8, 8.Mod4.AD7

Topic E: Different Forms of Linear Equations

Lesson 20: Slope-Intercept Form of the Equation of a Line

- Use similar triangles to develop the slope-intercept form of the equation of a line.
- Write equations in slope-intercept form from graphs and graph equations given in slope-intercept form.

8.EE.B, 8.EE.B.6, MP7, 8.Mod4.AD2, 8.Mod4.AD8

Lesson 21: Slope and Parallel Lines

- Determine the relationship between slope and parallel lines.
- Determine whether lines are parallel.

8.EE.B, MP3, 8.Mod4.AD2

Lesson 22: Point-Slope Form of the Equation of a Line

- Use similar triangles to develop the point-slope form of the equation of a line.
- Graph equations given in point-slope form and write equations in point-slope form given graphs.

8.EE.B, MP7, 8.Mod4.AD2

Module 5

Module 6

Lesson 18: Bivariate Categorical Data

- Construct and interpret a two-way table summarizing a bivariate categorical data set.

8.SP.A.4, MP7, 8.Mod6.AD11

Lesson 19: Association in Bivariate Categorical Data

- Determine whether there is evidence of an association between categorical variables that have two possible values.
- Compare and contrast evidence of an association represented in two-way tables and segmented bar graphs.

8.SP.A.4, MP6, 8.Mod6.AD11, 8.Mod6.AD12

Lesson 20: Analyzing Bivariate Categorical Data

- Determine whether there is evidence of an association between categorical variables that have two or more possible values.
- Describe the difference between an association and a cause and effect relationship for categorical variables.

8.SP.A.4, MP5, 8.Mod6.AD11, 8.Mod6.AD12

Topic E: Volume

Lesson 21: Volumes of Prisms and Pyramids

- Find the volume of prisms.
- Develop and use the formula for the volume of a pyramid.

8.G.C.9, MP6, 8.Mod6.AD13

Lesson 22: Volume of Cylinders

- Develop and use the formula for the volume of a cylinder.
- Find volumes of oblique cylinders and prisms.

8.G.C.9, MP8, 8.Mod6.AD13

Module 1

Lesson 24: Revisiting Equations with Squares and Cubes

- Solve equations of the forms $x^2 = p$ and $x^3 = p$, where p is a rational number and the solutions are real numbers.

8.EE.A.2, MP6, 8.Mod1.AD6

Module 2

Module 3

Module 4

Lesson 23: Comparing Equations in Different Forms

- Determine whether linear equations in different forms represent the same line.
- Write linear equations from tables.

8.EE.B, MP7, 8.Mod4.AD2

Topic F: Graphing and Writing Linear Equations

Lesson 24: The Patterns, the Pops, and the Pastries

- Write an equation of a line given a graph.
- Write an equation of a line given information about the line.

8.EE.B, MP1, 8.Mod4.AD2

Lesson 25: Lines, Lines, and More Lines

- Graph linear equations given in various forms.

8.EE.B, MP5, 8.Mod4.AD2

Lesson 26: Linear Equations from Word Problems

- Use linear equations to solve problems with real-world contexts.

8.EE.B, MP2, 8.Mod4.AD4

Lesson 27: Get to Work

- Model a real-world situation with linear equations and use the equations to answer questions about the situation.
- Interpret the meaning of different components of the linear equations in context.

8.EE.B, MP1, 8.Mod4.AD4

Module 5

Module 6

Lesson 23: Volume of Cones

- Develop and use the formula for the volume of a cone.
- Solve problems involving volumes of cylinders, cones, prisms, and pyramids.

8.G.C.9, MP7, 8.Mod6.AD13

Lesson 24: Volume of Spheres

- Develop and use the formula for the volume of a sphere.
- Solve problems involving volumes of cylinders, cones, and spheres.

8.G.C.9, MP6, 8.Mod6.AD13

Lesson 25: Applications of Volume

- Use functions to solve problems involving volumes of cylinders, cones, and spheres.

8.F.B.4, 8.G.C.9, MP1, 8.Mod6.AD4, 8.Mod6.AD13

Module 1 Rational and Irrational Numbers	Module 2 One- and Two-Variable Equations	Module 3 Two-Dimensional Geometry	Module 4 Graphs of Linear Equations and Systems of Linear Equations	Module 5 Functions and Three-Dimensional Geometry	Module 6 Probability and Statistics
<p>Topic A: Add and Subtract Rational Numbers</p> <p>Lesson 1: Adding Integers and Rational Numbers</p> <ul style="list-style-type: none"> Recognize that opposite integers sum to 0. Use number lines and strategies to add rational numbers. <p>7.NS.A.1.a, 7.NS.A.1.b, 7.NS.A.1.c, 7.NS.A.1.d, 7.NS.A.2.a, 7.NS.A.2.b, 7.NS.A.2.c, 7.NS.A. 3, MP2, 7–8.Mod1.AD1, 7–8.Mod1.AD3</p> <p>Lesson 2: KAKOOMA[®] with Rational Numbers</p> <ul style="list-style-type: none"> Use estimation and the properties of operations to add rational numbers. Add rational number to solve and create puzzles. <p>7.NS.A.1.d, 7.NS.A.2.c, MP1, 7–8.Mod1.AD1</p> <p>Lesson 3: Finding Distances to Find Differences</p> <ul style="list-style-type: none"> Show that the distance between two integers on a number line is the absolute value of their difference. 	<p>Topic A: Solving One-Variable Equations and Inequalities</p> <p>Lesson 1: Finding Unknown Angle Measures</p> <ul style="list-style-type: none"> Use angle relationships to determine unknown angle measures. Write and solve equations that use angle relationships to find unknown angle measures. <p>7.G.B.5, MP7, 7–8.Mod2.AD14</p> <p>Lesson 2: Using Equivalent Expressions to Solve Equations</p> <ul style="list-style-type: none"> Generate equivalent expressions by using the properties of operations to add, subtract, factor, and expand linear expressions. Solve equations of the forms $px + q = r$ and $p(x + q) = r$, where p, q, and r are specific integers. <p>7.EE.A.1, 7.EE.A.2, 7.G.B.5, MP1, 7–8.Mod2.AD8, 7–8.Mod2.AD9, 7–8.Mod2.AD14</p> <p>Lesson 3: Solving Equations</p> <ul style="list-style-type: none"> Write and solve equations of the forms $px + q = r$ and $p(x + q) = r$, 	<p>Topic A: Triangles and Circles</p> <p>Lesson 1: Sketching and Constructing Geometric Figures</p> <ul style="list-style-type: none"> Construct geometric figures with given conditions. Determine the relationship between the sum of two side lengths of a triangle and the third side length. <p>7.G.A.2, MP5, 7–8.Mod3.AD3, 7–8.Mod3.AD4</p> <p>Lesson 2: Conditions of Unique Triangles</p> <ul style="list-style-type: none"> Construct triangles with given conditions. Determine which sets of conditions guarantee a unique triangle. <p>7.G.A.2, MP3, 7–8.Mod3.AD3, 7–8.Mod3.AD4</p> <p>Lesson 3: Exploring and Constructing Circles</p> <ul style="list-style-type: none"> Define and construct circles given a radius or diameter. Define pi and use it to determine the circumference of a circle. 	<p>Topic A: Graphs of Linear Equations in Two Variables</p> <p>Lesson 1: Solutions to Linear Equations in Two Variables</p> <ul style="list-style-type: none"> Find solutions to linear equations in two variables. Graph the solutions in the coordinate plane. <p>8.EE.B, MP8, 7–8.Mod4.AD1</p> <p>Lesson 2: The Graph of a Linear Equation in Two Variables</p> <ul style="list-style-type: none"> Identify that the graph of a linear equation of the form $Ax + By = C$ is a line. <p>8.EE.B, MP6, 7–8.Mod4.AD1</p> <p>Lesson 3: Lines with Special Characteristics</p> <ul style="list-style-type: none"> Graph linear equations of the form $Ax = C$ and $By = C$ where A and B are nonzero. <p>8.EE.B, MP8, 7–8.Mod4.AD1</p>	<p>Topic A: Functions</p> <p>Lesson 1: Motion and Speed</p> <ul style="list-style-type: none"> Calculate the average speed of linear and nonlinear motion. Understand that a function is a special type of rule. <p>8.F.A.1, MP8, 7–8.Mod5.AD5</p> <p>Lesson 2: Definition of a Function</p> <ul style="list-style-type: none"> Determine that a function is a rule that assigns to each input one and only one output. Identify functions that can be represented by an equation and those that cannot. <p>8.F.A.1, MP2, 7–8.Mod5.AD5</p> <p>Lesson 3: Linear Functions and Proportionality</p> <ul style="list-style-type: none"> Write equations that represent linear functions. Determine what inputs make sense in the context of a linear function. <p>8.F.A.3, MP2, 7–8.Mod5.AD7</p> <p>Lesson 4: More Examples of Functions</p> <ul style="list-style-type: none"> Determine that not all functions have numerical inputs and outputs. 	<p>Topic A: Calculating and Interpreting Probabilities</p> <p>Lesson 1: What Is Probability?</p> <ul style="list-style-type: none"> Find a number between 0 and 1 that represents the likelihood that an event will occur. Calculate the empirical probability of an event by collecting data from a chance experiment. <p>7.SP.C.5, 7.SP.C.6, MP2, 7–8.Mod6.AD5, 7–8.Mod6.AD6</p> <p>Lesson 2: Outcomes of Chance Experiments</p> <ul style="list-style-type: none"> Determine the sample space for a chance experiment. Given a description of a chance experiment and an event, determine for which outcomes in the sample space the event will occur. <p>7.SP.C.6, MP2, 7–8.Mod6.AD6</p> <p>Lesson 3: Theoretical Probability</p> <ul style="list-style-type: none"> Calculate theoretical probabilities of events for chance experiments that have equally likely outcomes. <p>7.SP.C.7.a, MP6, 7–8.Mod6.AD8</p>

Module 1

- Evaluate integer subtraction expressions by finding the unknown addends in related addition equations.
7.NS.A.1.c, 7.NS.A.1.d, 7.NS.A.2.c, 7.NS.A.3, MP7, 7–8.Mod1.AD1, 7–8.Mod1.AD4

Lesson 4: Subtracting Integers

- Express subtraction of an integer as addition of its opposite.
- Subtract integers by using equivalent addition expressions.

7.NS.A.1.a, 7.NS.A.1.b, 7.NS.A.1.c, 7.NS.A.1.d, 7.NS.A.2.a, 7.NS.A.2.b, 7.NS.A.2.c, 7.NS.A.3, MP8, 7–8.Mod1.AD1, 7–8.Mod1.AD3

Lesson 5: Subtracting Rational Numbers

- Evaluate expressions involving subtraction of rational numbers.
- Subtract rational numbers by using equivalent addition expressions.
7.NS.A.1.a, 7.NS.A.1.b, 7.NS.A.1.c, 7.NS.A.1.d, 7.NS.A.2.a, 7.NS.A.2.b, 7.NS.A.2.c, 7.NS.A.3, MP7, 7–8.Mod1.AD1, 7–8.Mod1.AD2, 7–8.Mod1.AD3

Topic B: Multiply and Divide Rational Numbers

Lesson 6: Multiplying Integers and Rational Numbers

- Use repeated addition and the properties of operations to determine the product of a negative number and a positive number.
- Informally verify that the product of two negative numbers is a positive number.
7.NS.A.1.a, 7.NS.A.1.b, 7.NS.A.1.c, 7.NS.A.1.d, 7.NS.A.2.a, 7.NS.A.2.b, 7.NS.A.2.c, 7.NS.A.3, MP8,

Module 2

where p , q , and r are rational numbers.

7.EE.B.4, 7.EE.B.4.a, 8.EE.C.7.b, MP2, 7–8.Mod2.AD11, 7–8.Mod2.AD17

Lesson 4: Using Equations to Solve Inequalities

- Solve inequalities and graph their solution sets on a number line.
7.EE.B.4, 7.EE.B.4.b, MP8, 7–8.Mod2.AD12, 7–8.Mod2.AD13

Lesson 5: Solving Problems Involving Equations and Inequalities

- Solve inequalities and identify restrictions to their solution sets.
- Solve real-world problems by using equations and inequalities.
7.EE.B.4, 7.EE.B.4.a, 7.EE.B.4.b, 8.EE.C.7.b, MP6, 7–8.Mod2.AD11, 7–8.Mod2.AD12, 7–8.Mod2.AD17

Lesson 6: Expressing Repeating Decimals as Fractions

- Use equations to write the fraction form of any repeating decimal.
7.EE.B.4.a, 8.NS.A.1, 8.EE.C.7.b, MP8, 7–8.Mod2.AD15, 7–8.Mod2.AD17

Topic B: Multi-Step Equations and Their Solutions

Lesson 7: Solving Multi-Step Equations

- Solve multi-step equations in one variable with a variable on both sides of the equations.
- Identify whether an equation is a linear equation.

Module 3

7.G.A.2, 7.G.B.4, MP8, 7–8.Mod3.AD3, 7–8.Mod3.AD5

Lesson 4: Area and Circumference of a Circle

- Estimate the area of a circle.
- Model and describe the relationship between the circumference and the area of a circle.

7.G.B.4, MP7, 7–8.Mod3.AD5, 7–8.Mod3.AD6

Lesson 5: Area and Circumference of Circular Regions

- Model and describe the relationship between the areas of circles and the areas of semicircular and quarter-circular regions.
- Solve problems by using the formulas for the area and the circumference of a circle.
7.G.B.4, MP1, 7–8.Mod3.AD5, 7–8.Mod3.AD6

Lesson 6: Watering a Lawn (Optional)

- Model a situation by using rectangular, circular, semicircular, and quarter-circular regions and calculate area to solve problems.
7.G.B.4, MP1, MP4, 7–8.Mod3.AD5

Topic B: Rigid Motions and Congruence

Lesson 7: Motions of the Plane

- Informally describe how to map a figure to its image.
- Demonstrate that the distance between two points stays the same under rigid motions.

Module 4

Lesson 4: Comparing Proportional Relationships

- Use unit rates to compare the steepness of lines representing proportional relationships.
- Compare proportional relationships represented in different ways.
8.EE.B.5, MP2, 7–8.Mod4.AD3

Topic B: Slope and Equation of a Line

Lesson 5: Proportional Relationships and Slope

- Relate the unit rate of a proportional relationship to the slope of the associated line.
- Find the slope of a line through the origin.
8.EE.B.5, 8.EE.B.6, MP6, 7–8.Mod4.AD2, 7–8.Mod4.AD4

Lesson 6: Slopes of Rising Lines and Falling Lines

- Find slopes of rising lines and falling lines by using slope triangles.
- Graph a line given the slope and a point on the line.
8.EE.B.6, MP8, 7–8.Mod4.AD4

Lesson 7: Using Coordinates to Find Slope

- Develop a formula for the slope of a line.
- Find the slope of a line given the coordinates of at least two points on the line.
8.EE.B.6, MP8, 7–8.Mod4.AD4

Module 5

- Determine what inputs make sense for a variety of functions.
8.F.A.1, MP7, 7–8.Mod5.AD5

Lesson 5: Graphs of Functions and Equations

- Determine that if a function can be represented by an equation, then the graph of the function is the same as or some part of the graph of the equation.
- Determine whether a given graph represents a function.
8.F.A.1, MP6, 7–8.Mod5.AD5

Topic B: Linear and Nonlinear Functions

Lesson 6: Linear Functions and Rate of Change

- Calculate rates on a given interval to determine whether a function is a linear function.
- Determine the rate of change for a linear function and interpret the rate of change in context.
8.F.A.3, 8.F.B.4, MP2, 7–8.Mod5.AD7, 7–8.Mod5.AD8, 7–8.Mod5.AD9

Lesson 7: Interpreting Rate of Change and Initial Value

- Interpret the rate of change and initial value of a linear function in context.
- Use rate of change to compare two linear functions.
8.F.A.2, 8.F.B.4, MP2, 7–8.Mod5.AD6, 7–8.Mod5.AD8, 7–8.Mod5.AD9

Lesson 8: Comparing Functions

- Compare two functions represented in different ways.
8.F.A.2, MP5, 7–8.Mod5.AD6

Module 6

Lesson 4: Multistage Experiments

- Use tree diagrams to organize and represent the outcomes in the sample space of a multistage experiment.
7.SP.C.8.a, 7.SP.C.8.b, MP7, 7–8.Mod6.AD10

Lesson 5: Outcomes That Are Not Equally Likely

- Calculate probabilities of events for chance experiments that do not have equally likely outcomes.
7.SP.C.6, MP7, 7–8.Mod6.AD6

Topic B: Estimating Probabilities

Lesson 6: The Law of Large Numbers

- Use empirical probability to estimate theoretical probability.
- Compare probabilities from a theoretical model to observed relative frequencies.
7.SP.C.7, 7.SP.C.7.a, 7.SP.C.7.b, MP8, 7–8.Mod6.AD7, 7–8.Mod6.AD8, 7–8.Mod6.AD9

Lesson 7: Picking Blue

- Use empirical probabilities to create a probability model.
7.SP.C.6, 7.SP.C.7.b, MP2, 7–8.Mod6.AD6, 7–8.Mod6.AD9

Lesson 8: Probability Simulations

- Use a simulation to generate empirical probabilities for events.
7.SP.C.8.c, MP1, 7–8.Mod6.AD11

Lesson 9: Simulations with Random Number Tables

- Conduct simulations with a random number table.
7.SP.C.8.c, MP5, 7–8.Mod6.AD11

Module 1

7–8.Mod1.AD1, 7–8.Mod1.AD3, 7–8.Mod1.AD5

Lesson 7: Exponential Expressions and Relating Multiplication to Division

- Evaluate exponential expressions that include rational numbers.
- Write division expressions as unknown factor equations to determine the value of the quotients.

7.NS.A.1.d, 7.NS.A.2.a, 7.NS.A.2.c, MP3, 7–8.Mod1.AD1, 7–8.Mod1.AD5

Lesson 8: Dividing Integers and Rational Numbers

- Write rational numbers as quotients of integers.
- Divide rational numbers given in different forms.

7.NS.A.1.a, 7.NS.A.1.b, 7.NS.A.1.c, 7.NS.A.1.d, 7.NS.A.2.a, 7.NS.A.2.b, 7.NS.A.2.c, 7.NS.A.3, MP2, 7–8.Mod1.AD1, 7–8.Mod1.AD2, 7–8.Mod1.AD3

Lesson 9: Decimal Expansions of Rational Numbers

- Determine whether the decimal form of a rational number is a terminating decimal or a repeating decimal by analyzing the factors of the denominator.
- Write rational numbers as either terminating decimals or repeating decimals.

7.NS.A.1.d, 7.NS.A.2.c, 7.NS.A.2.d, 8.NS.A.1, MP6, 7–8.Mod1.AD1, 7–8.Mod1.AD6, 7–8.Mod1.AD7

Module 2

7.EE.B.4.a, 7.G.B.5, 8.EE.C.7.b, MP6, 7–8.Mod2.AD14, 7–8.Mod2.AD17

Lesson 8: Solving Equations with Rational Coefficients

- Solve multi-step equations in one variable with rational coefficients.
- 7.EE.B.4, 7.EE.B.4.a, 8.EE.C.7.a, 8.EE.C.7.b, MP7, 7–8.Mod2.AD11, 7–8.Mod2.AD16, 7–8.Mod2.AD17

Lesson 9: Linear Equations with More Than One Solution

- Determine that linear equations in one variable with infinitely many solutions are equivalent to the equation $a = a$.
- Solve linear equations in one variable that have only one solution or infinitely many solutions.

7.EE.B.4.a, 8.EE.C.7.a, 8.EE.C.7.b, MP7, 7–8.Mod2.AD16, 7–8.Mod2.AD17

Lesson 10: Another Possible Number of Solutions

- Determine that linear equations in one variable with no solution are equivalent to the equation $a = b$, where a and b are different numbers.
- Write linear equations that have only one solution, infinitely many solutions, or no solution.

7.EE.B.4.a, 8.EE.C.7.a, 8.EE.C.7.b, MP7, 7–8.Mod2.AD16, 7–8.Mod2.AD17

Lesson 11: Using Linear Equations to Solve Real-World Problems

- Solve real-world problems by using linear equations in one variable.
- 7.EE.B.3, 7.EE.B.4, 7.EE.B.4.a, 8.EE.C.7.b, MP2, 7–8.Mod2.AD10, 7–8.Mod2.AD11, 7–8.Mod2.AD17

Module 3

8.G.A.1, 8.G.A.1.a, 8.G.A.1.b, 8.G.A.1.c, MP5, 7–8.Mod3.AD7

Lesson 8: Translations, Reflections, and Rotations

- Apply translations, reflections, and rotations to the plane.
- Identify the basic properties of the rigid motions.

8.G.A.1, 8.G.A.1.a, 8.G.A.1.b, 8.G.A.1.c, MP8, 7–8.Mod3.AD7

Lesson 9: Rigid Motions on the Coordinate Plane

- Apply translations, reflections, and rotations on the coordinate plane.
- Use coordinates to describe the location of an image under a translation, reflection, or rotation.

8.G.A.1, 8.G.A.1.a, 8.G.A.1.b, 8.G.A.1.c, 8.G.A.3, MP6, 7–8.Mod3.AD7, 7–8.Mod3.AD10

Lesson 10: Sequencing the Rigid Motions

- Apply and describe sequences of rigid motions.
- Determine that the properties of individual rigid motions also apply for a sequence of rigid motions.

8.G.A.1, 8.G.A.1.a, 8.G.A.1.b, 8.G.A.1.c, 8.G.A.2, MP1, 7–8.Mod3.AD7, 7–8.Mod3.AD8, 7–8.Mod3.AD9

Lesson 11: Showing Figures Are Congruent

- Show figures are congruent by describing a sequence of rigid motions that maps one figure onto the other.

8.G.A.2, MP6, 7–8.Mod3.AD8, 7–8.Mod3.AD9

Module 4

Lesson 8: Slope-Intercept Form of the Equation of a Line

- Use similar triangles to develop the slope-intercept form of the equation of a line.
- Write equations in slope-intercept form from graphs and graph equations given in slope-intercept form.

8.EE.B, 8.EE.B.6, MP7, 7–8.Mod4.AD1, 7–8.Mod4.AD5

Lesson 9: Point-Slope Form of the Equation of a Line

- Use similar triangles to develop the point-slope form of the equation of a line.
- Graph equations given in point-slope form and write equations in point-slope form given graphs.

8.EE.B, MP7, 7–8.Mod4.AD1

Lesson 10: Comparing Equations in Different Forms

- Determine whether linear equations in different forms represent the same line.
- Write linear equations from tables.

8.EE.B, MP7, 7–8.Mod4.AD1

Topic C: Solving Systems of Linear Equations

Lesson 11: Introduction to Systems of Linear Equations

- Graph a system of linear equations to identify the solution.
- Recognize that the ordered pair representing the intersection point of the lines is the solution to the system of linear equations.

8.EE.C.8.a, 8.EE.C.8.b, MP6, 7–8.Mod4.AD6, 7–8.Mod4.AD8

Module 5

Lesson 9: Increasing and Decreasing Functions

- Describe qualitative features of a function by analyzing a graph.
- Sketch the graph of a function given a description.

8.F.B.5, MP6, 7–8.Mod5.AD10, 7–8.Mod5.AD11

Lesson 10: Graphs of Nonlinear Functions

- Sketch the graph of a function with certain qualitative features based on a description.
- Classify linear and nonlinear functions given an equation or a graph.

8.F.A.3, 8.F.B.5, MP3, 7–8.Mod5.AD7, 7–8.Mod5.AD10, 7–8.Mod5.AD11

Topic C: Surface Area and Cross Sections

Lesson 11: Surface Areas of Prisms and Pyramids

- Determine an efficient strategy for finding the surface area of right prisms by finding the sum of the areas of the lateral faces and bases.
- Calculate the surface areas of right prisms, right pyramids, and solids composed of right prisms and right pyramids.

7.G.B.6, MP6, 7–8.Mod5.AD2

Lesson 12: Surface Area of Cylinders (Optional)

- Calculate the surface area of right circular cylinders.

MP8

Module 6

Topic C: Random Sampling

Lesson 10: Populations and Samples

- Distinguish populations and their characteristics from samples and their statistics.

7.SP.A.1, MP6, 7–8.Mod6.AD1

Lesson 11: Selecting a Sample

- Take a random sample from a population.
- Describe the importance of a random sample in drawing conclusions about a population.

7.SP.A.1, MP2, 7–8.Mod6.AD1

Lesson 12: Sampling Variability When Estimating a Population Mean

- Describe sampling variability in the context of estimating a population mean.
- Use data from a random sample to estimate a population mean.

7.SP.A.1, 7.SP.A.2, MP2, 7–8.Mod6.AD1, 7–8.Mod6.AD2

Lesson 13: Sampling Variability and the Effect of Sample Size

- Observe that increasing the sample size decreases the sampling variability of the sample mean.

7.SP.A.2, MP1, 7–8.Mod6.AD2

Lesson 14: Sampling Variability When Estimating a Population Proportion

- Observe that increasing the sample size decreases the sampling variability of the sample proportion.

7.SP.A.2, MP6, 7–8.Mod6.AD2

Topic C: Properties of Exponents and Scientific Notation

Lesson 10: Large and Small Positive Numbers

- Approximate very large and very small positive numbers and write them as a single digit times a power of 10 or as a single digit times a unit fraction with a denominator written as a power of 10.
- Compare large and small positive numbers by using *times as much as* language.

8.EE.A.3, MP2, 7–8.Mod1.AD13, 7–8.Mod1.AD14

Lesson 11: Products of Exponential Expressions with Positive Whole-Number Exponents

- Apply the product of powers with like bases property to write equivalent expressions given an expression of the form $x^m \cdot x^n$.

8.EE.A.1, MP8, 7–8.Mod1.AD10

Lesson 12: More Properties of Exponents

- Apply properties of exponents, including raising powers to powers, raising products to powers, and raising quotients to powers.

8.EE.A.1, MP8, 7–8.Mod1.AD10

Lesson 13: Making Sense of Integer Exponents

- Confirm that the definition of the exponent of 0 upholds the properties of exponents.
- Apply the definition of a negative exponent to write equivalent expressions.

8.EE.A.1, MP6, 7–8.Mod1.AD10

Topic C: From Ratio Relationships to Proportional Relationships

Lesson 12: An Experiment with Ratios and Rates (Optional)

- Compare different relationships in situations by using ratio and rate reasoning.

7.RP.A.1, 7.RP.A.2.a, MP8, 7–8.Mod2.AD1, 7–8.Mod2.AD2

Lesson 13: Exploring Tables of Proportional Relationships

- Identify proportional relationships represented in tables by calculating constant unit rates.
- Write equations to represent proportional relationships and use them to determine unknown values.

7.RP.A.1, 7.RP.A.2.a, 7.RP.A.2.c, MP2, 7–8.Mod2.AD1, 7–8.Mod2.AD2, 7–8.Mod2.AD4

Lesson 14: Exploring Graphs of Proportional Relationships

- Identify proportional relationships represented as graphs.
- Interpret and make sense of the points $(0, 0)$ and $(1, r)$ in context.

7.RP.A.2.a, 7.RP.A.2.b, 7.RP.A.2.d, MP7, 7–8.Mod2.AD2, 7–8.Mod2.AD3, 7–8.Mod2.AD5

Lesson 15: Relating Representations of Proportional Relationships

- Determine whether a written description represents a proportional relationship.
- Compare proportional relationships.

Topic C: Applications of Congruence

Lesson 12: Lines Cut by a Transversal

- Use informal arguments to establish facts about the angles created when pairs of lines are cut by a transversal.

8.G.A.2, 8.G.A.5, MP6, 7–8.Mod3.AD8, 7–8.Mod3.AD9, 7–8.Mod3.AD15

Lesson 13: Angle Sum of a Triangle

- Use informal arguments to verify that the sum of the interior angle measures of a triangle is 180° .
- Use informal arguments to conclude that lines cut by a transversal are parallel when corresponding angles are congruent.

8.G.A.5, MP3, 7–8.Mod3.AD14, 7–8.Mod3.AD15

Lesson 14: Exterior Angles of Triangles

- Use informal arguments to establish facts about the exterior angles of triangles.
- Determine the unknown measure of an interior or exterior angle of a triangle.

8.G.A.5, MP7, 7–8.Mod3.AD14, 7–8.Mod3.AD15

Lesson 15: Proving the Pythagorean Theorem

- Explain a proof of the Pythagorean theorem.

8.G.B.6, MP3, 7–8.Mod3.AD17

Lesson 12: Identifying Solutions

- Recognize that a system of linear equations that represents parallel lines has no solution.
- Analyze a system of linear equations to determine whether a solution exists.

8.EE.B, 8.EE.C.8.a, 8.EE.C.8.b, MP7, 7–8.Mod4.AD1, 7–8.Mod4.AD6, 7–8.Mod4.AD9

Lesson 13: More Than One Solution

- Recognize that a system of linear equations that represents the same line has infinitely many solutions.
- Analyze whether a system of linear equations has only one solution, no solution, or infinitely many solutions.

8.EE.C.8.a, 8.EE.C.8.b, MP7, 7–8.Mod4.AD6, 7–8.Mod4.AD8, 7–8.Mod4.AD9

Lesson 14: Solving Systems of Linear Equations Without Graphing

- Solve systems of linear equations by using the substitution method to write the systems as linear equations in one variable.

8.EE.C.8.b, MP6, MP8, 7–8.Mod4.AD7

Lesson 15: The Substitution Method

- Solve a system of linear equations by using the substitution method.
- Apply the multiplication property of equality as part of the substitution method.

8.EE.C.8.b, MP1, 7–8.Mod4.AD7, 7–8.Mod4.AD9

Lesson 13: Understanding Planes and Cross Sections

- Sketch cross sections of right prisms and right pyramids cut by a plane parallel or perpendicular to the base.

7.G.A.3, MP7, 7–8.Mod5.AD1

Lesson 14: Cross Section Scavenger Hunt

- Explore cross sections formed when a right prism or a right pyramid is cut by a plane at an angle other than 90° to the base.

7.G.A.3, MP7, 7–8.Mod5.AD1

Lesson 15: Proportionality and Scale Factor of Cross Sections

- Identify the scale factor of cross sections.
- Express scale factor as a percent.

7.G.A.3, MP8, 7–8.Mod5.AD1

Topic D: Volume

Lesson 16: Volume of Prisms

- Develop and use the formula for finding the volume of any right prism.

7.G.B.6, 8.G.C.9, MP7, 7–8.Mod5.AD3

Lesson 17: Volume of Cylinders

- Develop and use the formula for the volume of a cylinder.
- Find volumes of oblique cylinders and prisms.

7.G.B.6, 8.G.C.9, MP8, 7–8.Mod5.AD3

Lesson 18: Designing a Fish Tank

- Model real-world problems involving surface area and volume.

7.G.B.6, 8.G.C.9, MP4, 7–8.Mod5.AD2, 7–8.Mod5.AD3

Topic D: Comparing Populations

Lesson 15: Comparing Sample Means

- Determine whether there is convincing evidence to conclude that two population means differ based on sample estimates.

7.SP.B.3, 7.SP.B.4, MP3, 7–8.Mod6.AD3, 7–8.Mod6.AD4

Lesson 16: Comparing Population Means

- Express the difference in sample means as a multiple of a measure of variability.

7.SP.B.3, 7.SP.B.4, MP7, 7–8.Mod6.AD3, 7–8.Mod6.AD4

Lesson 17: Memory Games

- Make conclusions about a difference in population means by using sample means and mean absolute deviations.

7.SP.B.3, 7.SP.B.4, MP4, 7–8.Mod6.AD3, 7–8.Mod6.AD4

Topic E: Bivariate Numerical Data

Lesson 18: Scatter Plots

- Construct scatter plots and identify those that show an association between two variables.
- Describe the difference between an association and a cause and effect relationship for numerical variables.

8.SP.A.1, MP2, 7–8.Mod6.AD12

Lesson 19: Patterns in Scatter Plots

- Identify and describe patterns of association between two variables represented in scatter plots.

Module 1

Lesson 14: Writing Very Large and Very Small Numbers in Scientific Notation

- Write numbers given in standard form in scientific notation.
- Order numbers written in scientific notation.

8.EE.A.3, MP3, 7–8.Mod1.AD13

Lesson 15: Operations with Numbers Written in Scientific Notation

- Interpret numbers displayed in scientific notation on digital devices.
- Operate with numbers written in standard form and in scientific notation.

8.EE.A.3, 8.EE.A.4, MP6, 7–8.Mod1.AD14, 7–8.Mod1.AD15, 7–8.Mod1.AD17

Lesson 16: Applications with Numbers Written in Scientific Notation

- Choose appropriate units of measurement and convert units of measurement with numbers written in standard form and in scientific notation.
- Operate with numbers written in scientific notation in real-world situations.

8.EE.A.3, 8.EE.A.4, MP1, 7–8.Mod1.AD14, 7–8.Mod1.AD15, 7–8.Mod1.AD16

Lesson 17: Get to the Point

- Model a situation by operating with numbers in scientific notation.
- 8.EE.A.3, 8.EE.A.4, MP4, MP5, 7–8.Mod1.AD14, 7–8.Mod1.AD15, 7–8.Mod1.AD16**

Module 2

7.RP.A.2.b, 7.RP.A.2.c, 7.RP.A.2.d, MP2, 7–8.Mod2.AD3, 7–8.Mod2.AD4, 7–8.Mod2.AD5

Lesson 16: Applying Proportional Reasoning

- Represent rate problems as proportional relationships with equations.
- Solve problems by applying proportional reasoning.

7.RP.A.2.b, 7.RP.A.2.c, 7.RP.A.3, MP2, 7–8.Mod2.AD3, 7–8.Mod2.AD4, 7–8.Mod2.AD6

Lesson 17: Using Proportional Reasoning to Solve Multi-Step Problems

- Solve multi-step ratio problems by using proportional reasoning.
- 7.RP.A.2.c, 7.RP.A.3, 7.EE.B.3, MP5, 7–8.Mod2.AD4, 7–8.Mod2.AD6, 7–8.Mod2.AD10**

Lesson 18: Handstand Sprint

- Model a situation by using a proportional relationship to solve a problem.
- 7.RP.A.2.c, 7.RP.A.3, 7.EE.B.3, MP4, MP5, 7–8.Mod2.AD4, 7–8.Mod2.AD6, 7–8.Mod2.AD10**

Topic D: Percents and Proportional Relationships

Lesson 19: Proportional Reasoning and Percents

- Identify percent as a rate per 100.
- Solve percent problems by using equations of the forms $y = kx$ and $\frac{a}{b} = \frac{c}{d}$.

Module 3

Lesson 16: Proving the Converse of the Pythagorean Theorem

- Explain a proof of the converse of the Pythagorean theorem and use the converse to determine whether a triangle is a right triangle.
- Use the Pythagorean theorem to determine unknown side lengths of right triangles.

8.G.B.6, 8.G.B.7, MP3, 7–8.Mod3.AD17, 7–8.Mod3.AD18

Lesson 17: Applications of the Pythagorean Theorem

- Find the distance between two points in the coordinate plane by using the Pythagorean theorem.
 - Apply the Pythagorean theorem to solve real-world and mathematical problems.
- 8.G.B.7, 8.G.B.8, MP7, 7–8.Mod3.AD18, 7–8.Mod3.AD19**

Topic D: Scale Drawings and Dilations

Lesson 18: Scale Drawings

- Determine whether a scale factor produces an enlargement or a reduction in related figures.
- Create a scale drawing by using the proportional relationship that exists between corresponding distances.

7.G.A.1, MP8, 7–8.Mod3.AD1, 7–8.Mod3.AD2

Lesson 19: Finding Actual Distances from a Scale Drawing

- Use a scale factor to find unknown lengths of a scale drawing or of the original figure.
- 7.G.A.1, MP6, 7–8.Mod3.AD1**

Module 4

Lesson 16: Choosing a Solution Method

- Analyze graphs and systems of equations to determine the number of solutions.
- Construct and critique arguments about the most efficient solution method.

8.EE.C.8.a, 8.EE.C.8.b, MP3, MP5, 7–8.Mod4.AD6, 7–8.Mod4.AD7, 7–8.Mod4.AD9

Topic D: Writing and Solving Systems of Linear Equations

Lesson 17: Writing and Solving Systems of Equations for Mathematical Problems

- Write and solve systems of linear equations for mathematical problems.
- 8.EE.C.8.b, 8.EE.C.8.c, MP2, 7–8.Mod4.AD7, 7–8.Mod4.AD10**

Lesson 18: Writing and Solving Systems of Equations for Real-World Problems

- Write and solve a system of linear equations given a real-world situation.
- 8.EE.C.8.b, 8.EE.C.8.c, MP2, 7–8.Mod4.AD7, 7–8.Mod4.AD10**

Lesson 19: Back to the Coordinate Plane

- Write and solve systems of linear equations when given information about two lines to identify intersection points.
- 8.EE.C.8.a, 8.EE.C.8.b, MP1, 7–8.Mod4.AD6, 7–8.Mod4.AD7, 7–8.Mod4.AD8**

Module 5

Lesson 19: Volumes of Pyramids and Cones

- Develop and use the formulas for the volume of a pyramid and the volume of a cone.
 - Solve problems involving volumes of pyramids and cones.
- 7.G.B.6, 8.G.B.7, 8.G.C.9, MP6, 7–8.Mod5.AD3, 7–8.Mod5.AD4**

Lesson 20: Volume of Spheres

- Develop and use the formula for the volume of a sphere.
- Solve problems involving volumes of cylinders, cones, and spheres.

7.G.B.6, 8.G.C.9, MP6, 7–8.Mod5.AD3

Lesson 21: Volume of Composite Solids

- Find the volume of composite solids.
- 7.G.B.6, 8.G.C.9, MP1, 7–8.Mod5.AD3**

Lesson 22: Volumes of Truncated Cones and Pyramids (Optional)

- Understand that a truncated cone or pyramid is the solid obtained by removing a portion of a cone or pyramid that includes the apex.
- Solve problems involving volumes of truncated cones and pyramids.

7.G.B.6, 8.G.C.9, MP1, 7–8.Mod5.AD3

Lesson 23: Applications of Volume

- Use functions to solve problems involving volumes of cylinders, cones, and spheres.
- 7.G.B.6, 8.G.C.9, 8.F.B.4, MP1, 7–8.Mod5.AD3, 7–8.Mod5.AD8**

Module 6

- Identify and describe outliers and clusters in context.
- 8.SP.A.1, MP2, 7–8.Mod6.AD12**

Lesson 20: Informally Fitting a Line to Data

- Informally fit a line to data displayed in a scatter plot.
 - Determine an equation of a line informally fit to data and interpret the slope and y -intercept in context.
 - Make predictions based on the graph of a line fit to data.
- 8.SP.A.2, 8.SP.A.3, MP3, 7–8.Mod6.AD13, 7–8.Mod6.AD14**

Lesson 21: Linear Models

- Use a linear function to model the association between two numerical variables.
 - Informally assess the fit of a line to data in a scatter plot by judging the closeness of the data points to the line.
- 8.SP.A.2, 8.SP.A.3, MP7, 7–8.Mod6.AD13, 7–8.Mod6.AD14**

Topic F: Bivariate Categorical Data

Lesson 22: Bivariate Categorical Data

- Construct and interpret a two-way table summarizing a bivariate categorical data set.
- 8.SP.A.4, MP7, 7–8.Mod6.AD15**

Lesson 23: Association in Bivariate Categorical Data

- Determine whether there is evidence of an association between categorical variables that have two possible values.

Module 1

Topic D: Rational and Irrational Numbers

Lesson 18: Solving Equations with Squares and Cubes

- Solve equations of the forms $x^2 = p$ and $x^3 = p$, where p is a rational number and the solutions are rational numbers.

8.EE.A.2, MP8, 7–8.Mod1.AD11, 7–8.Mod1.AD12

Lesson 19: The Pythagorean Theorem

- Describe the Pythagorean theorem and the conditions required to use it.
- Apply the Pythagorean theorem to determine the length of a hypotenuse.

8.EE.A.2, 8.G.B.7, MP6, 7–8.Mod1.AD11, 7–8.Mod1.AD12, 7–8.Mod1.AD18

Lesson 20: Using the Pythagorean Theorem

- Use square root notation to express lengths that are not rational and place them on a number line.
- Approximate the value of square roots by using whole-number benchmarks.

7.NS.A.2.d, 8.NS.A.1, 8.EE.A.2, MP8, 7–8.Mod1.AD7, 7–8.Mod1.AD11, 7–8.Mod1.AD12

Lesson 21: Approximating Values of Roots

- Approximate values of square roots and cube roots.

8.NS.A.2, 8.EE.A.2, MP8, 7–8.Mod1.AD8, 7–8.Mod1.AD9, 7–8.Mod1.AD12

Module 2

7.RP.A.2.a, 7.RP.A.2.c, 7.RP.A.3, MP7, 7–8.Mod2.AD2, 7–8.Mod2.AD4, 7–8.Mod2.AD7

Lesson 20: Commissions, Fees, and Taxes

- Apply percents in the real-world contexts of commissions, fees, and taxes.

7.RP.A.3, MP2, 7–8.Mod2.AD6, 7–8.Mod2.AD7

Lesson 21: Discount, Markup, Sales Tax, and Tip

- Apply percents in the real-world contexts of discounts, markups, sales tax, and tips.

7.RP.A.3, 7.EE.A.2, MP1, 7–8.Mod2.AD6, 7–8.Mod2.AD7, 7–8.Mod2.AD9

Lesson 22: Percent Increase and Percent Decrease

- Solve percent problems in real-world contexts that involve percent change.

7.RP.A.3, 7.EE.A.2, MP2, 7–8.Mod2.AD6, 7–8.Mod2.AD7, 7–8.Mod2.AD9

Lesson 23: What Is the Best Deal?

- Calculate multiple discounts and discounted prices.
- Calculate the total amount after tax and tip.

7.RP.A.3, 7.EE.B.3, MP1, 7–8.Mod2.AD6, 7–8.Mod2.AD7, 7–8.Mod2.AD10

Lesson 24: Simple Interest

- Calculate simple interest, principal, time, and interest rate.

7.RP.A.3, MP7, 7–8.Mod2.AD6, 7–8.Mod2.AD7

Module 3

Lesson 20: Scale and Scale Factor

- Find unknown measurements in scale drawings through the appropriate use of scales and scale factors.
- Describe the area of a scale drawing with scale factor r as r^2 times the area of the original figure.

7.G.A.1, MP8, 7–8.Mod3.AD1

Lesson 21: Modeling with Scale Drawings

- Determine the scale factor that relates a second scale drawing to the original figure.
- Model a situation by reproducing a scale drawing at a different scale.

7.G.A.1, MP4, 7–8.Mod3.AD1, 7–8.Mod3.AD2

Lesson 22: Dilations

- Describe dilations and the effects of dilations.
- Apply a dilation with a scale factor greater than 1 to produce an enlargement and with a scale factor greater than 0 and less than 1 to produce a reduction.

7.G.A.1, 8.G.A.3, MP6, 7–8.Mod3.AD1, 7–8.Mod3.AD11

Topic E: Similarity

Lesson 23: Using Lined Paper to Explore Dilations

- Draw the image of a segment under a dilation.
- Learn the properties of dilations.

8.G.A.3, MP8, 7–8.Mod3.AD11

Lesson 24: Figures and Dilations

- Draw images of figures under dilations with various scale factors.

8.G.A.3, MP5, 7–8.Mod3.AD11

Module 4

Lesson 20: Modeling a Real-World Problem

- Formulate a problem from a context.
- Apply different mathematical tools to model, analyze, and answer a real-world question.

8.EE.C.8.a, 8.EE.C.8.b, 8.EE.C.8.c, MP4, 7–8.Mod4.AD6, 7–8.Mod4.AD8, 7–8.Mod4.AD10

Module 5

Module 6

- Compare and contrast evidence of an association represented in two-way tables and segmented bar graphs.

8.SP.A.4, MP6, 7–8.Mod6.AD15, 7–8.Mod6.AD16

Lesson 24: Analyzing Bivariate Categorical Data

- Determine whether there is evidence of an association between categorical variables that have two or more possible values.
- Describe the difference between an association and a cause and effect relationship for categorical variables.

8.SP.A.4, MP5, 7–8.Mod6.AD15, 7–8.Mod6.AD16

Module 1

Lesson 22: Rational and Irrational Numbers

- Classify real numbers as rational or irrational by their decimal form.
- Compare and order rational and irrational numbers.

7.NS.A.2.d, 8.NS.A.1, 8.NS.A.2, MP3, 7–8.Mod1.AD7, 7–8.Mod1.AD8, 7–8.Mod1.AD9

Lesson 23: Revisiting Equations with Square and Cubes

- Solve equations of the forms $x^2 = p$ and $x^3 = p$, where p is a rational number and the solutions are real numbers.

7.NS.A.2.d, 8.NS.A.1, 8.EE.A.2, MP2, 7–8.Mod1.AD7, 7–8.Mod1.AD11, 7–8.Mod1.AD12

Module 2

Lesson 25: Applying Percent Error

- Use absolute error to define percent error.
- Apply percent error to real-world contexts.

7.RP.A.3, MP2, 7–8.Mod2.AD6, 7–8.Mod2.AD7

Module 3

Lesson 25: The Shadowy Hand (Optional)

- Use a mathematical model to explain a real-world situation.
- Apply properties of dilations to make and test predictions.

8.G.A.3, MP4, 7–8.Mod3.AD11

Lesson 26: Dilations on the Coordinate Plane

- Apply dilations centered at the origin on the coordinate plane.
- Determine the scale factor of a dilation centered at the origin.

8.G.A.3, MP8, 7–8.Mod3.AD10, 7–8.Mod3.AD11

Lesson 27: Similar Figures

- Describe a sequence of rigid motions or dilations, or both, to show that two figures are similar.
- Identify properties of similar figures.

8.G.A.4, MP6, 7–8.Mod3.AD12, 7–8.Mod3.AD13

Lesson 28: Exploring Angles in Similar Triangles

- Recognize that triangles with two pairs of congruent angles are similar.

8.G.A.4, 8.G.A.5, MP7, 7–8.Mod3.AD12, 7–8.Mod3.AD13, 7–8.Mod3.AD16

Lesson 29: Using Similar Figures to Find Unknown Side Lengths

- Use properties of similar figures to solve real-world problems and find unknown side lengths.

8.G.A.5, 8.G.B.7, MP2, 7–8.Mod3.AD16, 7–8.Mod3.AD18

Oakland, CA 94607

Sent via Email

Re: KIPP: Public Schools Northern California

To whom it may concern,

KIPP: Public Schools Northern California, which includes KIPP Bayview Academy, KIPP Bayview Elementary, KIPP Bridge Academy, KIPP Heartwood Academy, KIPP Heritage Academy, KIPP King Collegiate High, KIPP Navigate College Prep, Kipp Prize Preparatory Academy, KIPP San Francisco Bay Academy, KIPP San Francisco College Preparatory, KIPP San Jose Collegiate, KIPP Stockton, KIPP Summit Academy, and KIPP University Park, has been a member of the El Dorado Charter SELPA since July 2012. KIPP: Public Schools Northern California is an organizational member in good standing and has demonstrated the commitment and capacity to function as LEAs for special education services.

Please contact me if you have any questions.

Sincerely,

Ginese Quann
Executive Director

Appendix 11- 2024-25 KIPP Bridge
Academy Local Control and
Accountability Plan

KIPP BRIDGE ACADEMY

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: KIPP Bridge Academy

CDS Code: 01612590115014

School Year: 2024-25

LEA contact information:

Michael Burks and Rosie Allen

KIPP Bridge Academy School Leaders

opsadmin@kipnocal.org

510-465-5477

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2024-25 School Year

Projected Revenue by Fund Source

This chart shows the total general purpose revenue KIPP Bridge Academy expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for KIPP Bridge Academy is \$11,403,225, of which \$6,802,592 is Local Control Funding Formula (LCFF), \$2,354,090 is other state funds, \$1,956,911 is local funds, and \$289,632 is federal funds. Of the \$6,802,592 in LCFF Funds, \$2,067,462 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much KIPP Bridge Academy plans to spend for 2024-25. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: KIPP Bridge Academy plans to spend \$11,509,378 for the 2024-25 school year. Of that amount, \$8,902,775 is tied to actions/services in the LCAP and \$2,606,603 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Expenditures not included in the LCAP include select or partial non-instructional salaries, meal service costs, office supplies, school furniture, and costs associated with staff appreciation and student recruitment.

Increased or Improved Services for High Needs Students in the LCAP for the 2024-25 School Year

In 2024-25, KIPP Bridge Academy is projecting it will receive \$2,067,462 based on the enrollment of foster youth, English learner, and low-income students. KIPP Bridge Academy must describe how it intends to increase or improve services for high needs students in the LCAP. KIPP Bridge Academy plans to spend \$3,488,116 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2023-24

This chart compares what KIPP Bridge Academy budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what KIPP Bridge Academy estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2023-24, KIPP Bridge Academy's LCAP budgeted \$1,494,213 for planned actions to increase or improve services for high needs students. KIPP Bridge Academy actually spent \$3,468,270 for actions to increase or improve services for high needs students in 2023-24.

Goals and Actions

Goal

Goal #	Description
1	All students will achieve academically.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
SBAC ELA: State testing results for English Language Arts.	<p>18-19 English language arts results for all students: 36% proficient, 33% OUSD results</p> <p>18-19 English language arts results for students qualifying as low-income students: 34% proficient, 24% OUSD results</p> <p>18-19 English language arts results for multilingual language learners: 11% proficient, 6% OUSD results</p> <p>18-19 English results for students with disabilities: 12%</p>	<p>20-21 English language arts results for all students: 30% proficient; the district did not administer the SBAC and therefore there is no comparable student level data</p> <p>20-21 English language arts results for all students qualifying as low-income: 26% proficient; the district did not administer the SBAC and therefore there is no comparable student level data</p> <p>20-21 English language arts results for multilingual</p>	<p>21-22 English language arts results for all students: 39% proficient, 35% OUSD results</p> <p>21-22 English language arts results for students qualifying as low-income students: 36% proficient, 25% OUSD results</p> <p>21-22 English language arts results for multilingual language learners: 28% proficient, 10% OUSD results</p> <p>21-22 English results for students with disabilities: 16%</p>	<p>22-23 English language arts results for all students: 35% proficient, 33% district results</p> <p>22-23 English language arts results for students qualifying as low-income students: 32% proficient, 22% district results</p> <p>22-23 English language arts results for multilingual language learners: 17% proficient, 6% district results</p> <p>22-23 English language arts results for students with disabilities: 10%</p>	<p>Student ELA SBAC performance meets or exceeds the performance of the district in which it resides.</p> <p>Distance from Standard: +3ppt.</p>

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
	proficient, 9% OUSD results	<p>learners: 23% proficient; the district did not administer the SBAC and therefore there is no comparable student level data</p> <p>20-21 English language arts results for students with disabilities: 6% proficient; the district did not administer the SBAC and therefore there is no comparable student level data</p>	proficient, 13% OUSD results	proficient, 13% district results	
SBAC Math: State testing results for Mathematics.	<p>18-19 Math results for all students: 26% proficient, 27% OUSD results</p> <p>18-19 Math results for students qualifying as low-income students: 27% proficient, 18% OUSD results</p> <p>18-19 Math results for multilingual language learners: 14% proficient, 8% OUSD results</p>	<p>20-21 Math results for all students: 18% proficient; the district did not administer the SBAC and therefore there is no comparable student level data</p> <p>20-21 Math results for all students qualifying as low-income: 17% proficient; the district did not administer the SBAC and therefore there is no</p>	<p>21-22 Math results for all students: 24% proficient, 26% OUSD results</p> <p>21-22 Math results for students qualifying as low-income students: 24% proficient, 15% OUSD results</p> <p>21-22 Math results for multilingual language learners: 23% proficient, 8% OUSD results</p>	<p>22-23 Math results for all students: 25% proficient, 25% district results</p> <p>22-23 Math results for students qualifying as low-income students: 22% proficient, 16% district results</p> <p>22-23 Math results for multilingual language learners: 16% proficient, 6% district results</p>	<p>Student Math SBAC performance meets or exceeds the performance of the district in which it resides.</p> <p>Distance from Standard: +3ppt</p>

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
	18-19 Math results for students with disabilities: 5% proficient, 8% OUSD results	<p>comparable student level data</p> <p>20-21 Math results for multilingual learners: 11% proficient; the district did not administer the SBAC and therefore there is no comparable student level data</p> <p>20-21 Math results for students with disabilities: 4% proficient; the district did not administer the SBAC and therefore there is no comparable student level data</p>	21-22 Math results for students with disabilities: 11% proficient, 12% OUSD results	22-23 Math for students with disabilities: 7% proficient, 11% district results	
CAST Science: State testing for Science.	<p>18-19 CAST results for all students: 11% proficient</p> <p>18-19 CAST results for students qualifying as low-income students: 14% proficient</p> <p>18-19 CAST results for multilingual language learners: 0% proficient</p>	CAST administration was not a viable option in the 20-21 school year and LEAs were not required to provide a local option due to state and federal flexibilities as a result of the COVID pandemic	<p>21-22 CAST results for all students: 12% proficient</p> <p>21-22 CAST results for students qualifying as low-income students: 10% proficient</p> <p>21-22 CAST results for multilingual language learners: 3% proficient</p>	<p>22-23 Science results for all students: 10% proficient</p> <p>22-23 Science results for students qualifying as low-income students: 8% proficient</p> <p>22-23 Science results for multilingual language learners: 0% proficient</p>	The percentage of students meeting or exceeding CAST results has increased 3% or 70% of our students are proficient.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
	18-19 CAST results for students with disabilities: 0% proficient		21-22 CAST results for students with disabilities: 0% proficient	22-23 Science results for students with disabilities: 0% proficient	
<p>Multilingual Learner Reclassification Rate:</p> <p>The rate at which students who are classified as Multilingual Learners become proficient in the English Language, as measured by annual state and local assessments.</p>	12% of students were reclassified as English proficient in the 18-19 school year.	11% of students were reclassified in the 21-22 school year.	<p>9% of T-K 4 students were reclassified as English proficient in the 22-23 school year.</p> <p>22% of 5-8 students were reclassified as English proficient in the 22-23 school year.</p>	7.97% of students were reclassified as English proficient in the 23-24 school year.	20% of Multilingual language learners will be reclassified annually.
<p>English Learner Progress Indicator (ELPI):</p> <p>The rate at which English learners make progress toward English language proficiency.</p>	34% of students made progress towards achieving English language proficiency in the 18-19 school year.	There was no ELPI scores available for the 20-21 school year due to the COVID pandemic.	68% Multilingual learners were making progress towards English proficiency in the 21-22 school year.	56.5% Multilingual learners were making progress towards English proficiency in the 22-23 school year.	50% of multilingual language learners will be making progress towards achieving English language proficiency.

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

All planned actions were carried out in order to make progress towards the articulated goal. The implementation of these actions was consistent with the descriptions outlined in the adopted LCAP, with no substantive differences between the planned actions and their actual implementation.

One of the key successes was the increased focus on ELD, which was supported by regional resources and on-the-ground assistance. This heightened emphasis on ELD was facilitated through the establishment of additional Professional Learning Communities (PLCs) dedicated to sharing best practices and strategies for supporting English Language Learners. The PLCs provided leaders with valuable opportunities to collaborate, learn from one another, and receive targeted guidance from ELD specialists. As a result, teachers were better equipped to meet the unique needs of their English Language Learners.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Due to widespread teacher shortages, KIPP schools were under-hired this year compared to budgeted staffing levels. As a result, a smaller portion of teacher and administrator time was dedicated to professional development than originally planned.

The assistant principals who typically lead teacher development had to reallocate some of their time to filling in gaps in classroom instruction and other duties. This led to a material difference between the budgeted expenditures for PD and the estimated actual PD expenditures. In turn, this discrepancy impacted the planned percentages of improved services. With less PD time than anticipated, the estimated actual percentage of services improved fell short of the planned percentage.

While the PD investment and gains fell short of plan, it's important to note that academic overall quality of instruction were not proportionally impacted, as teachers and administrators worked extra hours and went above and beyond to compensate for the difficult circumstances and to minimize impacts to student learning. KIPP was still able to deliver improved services, just at a somewhat lower percentage than originally planned for this academic year.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

KIPP relies on state testing results as the primary indicators in determining the level of progress towards meeting this academic outcome goal. KIPP administered the SBAC test for both English Language Arts (ELA) and Math as well as the required testing for Multilingual Learners through the ELPAC. The most recent results for 2022-23 demonstrate that the majority of the metrics for success have been met and are continuing to trend positive with YoY improvement.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

After analyzing the data from the Dashboard and other local sources, as well as reflecting on our prior practices, we have identified areas where changes will be made to the goal actions for the coming year.

Ellevation: We are standardizing the use of a new system called Ellevation to better track the progress of our Multilingual Learners (MLs). This system will provide expanded features and more centralized and regional support to ensure that our MLs receive the targeted assistance they need to succeed. By closely monitoring their progress and providing tailored interventions, we aim to improve the academic outcomes of our ML students.

OneKIPP Eureka Squared Math Initiative: As part of our ongoing efforts to enhance our curriculum, we are implementing the One KIPP math initiative, which launches a region-wide math curriculum called Eureka Squared. Eureka Squared is a comprehensive, research-based curriculum that aligns with state standards and provides students with a rigorous and engaging learning experience in mathematics. This curriculum is designed to foster deep conceptual understanding, develop strong problem-solving skills, and promote fluency in mathematical operations. By implementing Eureka Squared, we expect to see significant improvements in student achievement in math and help close any existing gaps. The One KIPP math initiative will also provide our teachers with the necessary professional development and support to effectively implement this new curriculum and ensure its success in the classroom.

EdTech Revamp: We are reorganizing our educational technology systems to provide the most focused and personalized learning opportunities for our students. By streamlining our EdTech resources and ensuring that they are aligned with our curriculum and student needs, we aim to create a more efficient and effective learning environment that promotes student success.

Community Schools Focus on Professional Development: In the coming year, we will be placing a strong emphasis on professional development related to our community schools initiatives. This will include providing additional support for multilingual learners and holistic support for students to improve their academic outcomes. By equipping our teachers and staff with the knowledge and skills necessary to effectively implement these initiatives, we expect to see increased student engagement, well-being, and academic achievement.

Medi-Cal for Special Education (Mental Health and Physical): Our Special Education department will be leveraging Medi-Cal to secure additional mental and physical health service reimbursements for students with Individualized Education Programs (IEPs). This change will create a more sustainable model for providing these critical services to our students with special needs. By ensuring that our students have access to the mental and physical health support they require, we aim to improve their overall well-being and academic success.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	All students and families will be engaged with the school community.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Family Engagement Opportunities: Number of scheduled events in the school year where families and/or the community are invited to participate.	The school held 38 scheduled events in the 20-21 school year where parents and/or community are invited to participate.	The school held 20+ scheduled events in the 21-22 school year where parents and/or community are invited to participate.	The school held 30 scheduled events in the 22-23 school year where families and/or the community were invited to participate.	The number of scheduled events in the 23-24 school year where families and/or the community are invited to participate is to be determined.	KIPP will host ten (10) events or more a year where families and/or the community are invited to attend and participate.
Family Engagement Satisfaction: Annual school culture survey results where families share their satisfaction level with the available opportunities for involvement at the school.	70% of KIPP TK-4 families were satisfied with the parent participation opportunities available at the school in the 20-21 school year. 73% of KIPP 5-8 families were satisfied with the parent participation opportunities available at the school in the 20-21 school year.	62% of KIPP TK-4 families were satisfied with the parent participation opportunities available at the school in the 21-22 school year. 67% of KIPP 5-8 families were satisfied with the parent participation opportunities available at the school in the 21-22 school year.	74% of KIPP TK-4 families were satisfied with the parent participation opportunities available at the school in the 22-23 school year. 78% of KIPP 5-8 families were satisfied with the parent participation opportunities available at the school in the 22-23 school year.	81% of KIPP families (TK-4: 78%, 5-8: 83%) were satisfied with the parent participation opportunities available at the school in the 23-24 school year.	75% of KIPP families are satisfied with the parent participation opportunities available at the school.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
<p>Student Average Daily Attendance:</p> <p>The average percent of students attending school daily.</p>	<p>KIPP reported 93% average daily attendance at P2 in the 20-21 school year.</p>	<p>KIPP reported 87% average daily attendance at P2 in the 21-22 school year for all students.</p> <p>KIPP reported 86%% average daily attendance at P2 in the 21-22 school year for TK-4 students.</p> <p>KIPP reported 86% average daily attendance at P2 in the 21-22 school year for 5-8 students.</p> <p>KIPP reported 87% average daily attendance at P2 in the 21-22 school year for students qualifying as low income.</p> <p>KIPP reported 88% average daily attendance at P2 in the 21-22 school year for multilingual learners.</p> <p>KIPP reported 85% average daily</p>	<p>KIPP reported 89% average daily attendance at P2 in the 22-23 school year for all students.</p> <p>KIPP reported 88% average daily attendance at P2 in the 22-23 school year for TK-4 students.</p> <p>KIPP reported 89% average daily attendance at P2 in the 22-23 school year for 5-8 students.</p> <p>KIPP reported 88% average daily attendance at P2 in the 22-23 school year for students qualifying as low income.</p> <p>KIPP reported 89% average daily attendance at P2 in the 22-23 school year for multilingual learners.</p> <p>KIPP reported 89% average daily</p>	<p>KIPP will be reporting P2 attendance in the spring to report on the final LCAP.</p>	<p>95% average daily attendance or higher in the P2 reporting period.</p>

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
		attendance at P2 in the 21-22 school year for students with disabilities.	attendance at P2 in the 22-23 school year for students with disabilities.		
<p>Student Chronic Absenteeism:</p> <p>Percent of students missing 10% or more of the enrolled school year. 19-20 baseline data has been used to set 3 year goals as it is most representative of a traditional school year. 20-21 data is being shared for reference only.</p>	<p>SY: 19-20</p> <p>KIPP was tracking at 15% chronic absenteeism rate for all students</p> <p>KIPP was tracking at 17% chronic absenteeism rate for students qualifying as low income students</p> <p>KIPP was tracking at 24% chronic absenteeism rate for students with disabilities</p> <p>SY: 20-21</p> <p>KIPP was tracking at 20% chronic absenteeism rate in the 20-21 school year for all students</p> <p>KIPP was tracking at 21% chronic</p>	<p>SY: 21-22</p> <p>KIPP was tracking at 57% chronic absenteeism rate in the 21-22 school year for all students</p> <p>KIPP is tracking at 60% chronic absenteeism rate in the 21-22 school year for students qualifying as low income</p> <p>KIPP is tracking at 56% chronic absenteeism rate in the 21-22 school year for multilingual learners</p> <p>KIPP is tracking at 67% chronic absenteeism rate in the 21-22 school year for students with disabilities</p>	<p>SY: 22-23</p> <p>KIPP is tracking at 44% chronic absenteeism rate in the current school year for all students</p> <p>KIPP is tracking at 46% chronic absenteeism rate in the current school year for TK-4 students</p> <p>KIPP is tracking at 41% chronic absenteeism rate in the current school year for 5-8 students</p> <p>KIPP is tracking at 45% chronic absenteeism rate in the current school year for students qualifying as low income</p> <p>KIPP is tracking at 36% chronic</p>	<p>SY: 23-24</p> <p>KIPP is tracking at 37% chronic absenteeism rate in the current school year for all students.</p> <p>KIPP is tracking at 36% chronic absenteeism rate in the current school year for students qualifying as low income.</p> <p>KIPP is tracking at 30% chronic absenteeism rate in the current school year for multilingual learners.</p> <p>KIPP is tracking at 41% chronic absenteeism rate in the current school year for students with disabilities.</p>	-3ppt in chronic absence

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

All planned actions were carried out in order to make progress towards the articulated goal. The implementation of these actions was consistent with the descriptions outlined in the adopted LCAP, with no substantive differences between the planned actions and their actual implementation.

One of the key successes was the development and strengthening of supportive systems that fostered partnerships with families and helped re-establish expectations for regular attendance following the challenges posed by the pandemic. The school focused on the following strategies:

- Enhanced communication with families: KIPP increased its outreach efforts to families, using various channels such as phone calls, emails, text messages, and home visits to communicate the importance of regular attendance and to provide support and resources as needed.
- Collaboration with community partners: KIPP partnered with local community organizations to provide additional support to families facing challenges that could impact student attendance, such as housing instability, food insecurity, or lack of access to health care.
- Data-driven interventions: KIPP used attendance data to identify students at risk of chronic absenteeism and implemented targeted interventions, such as mentoring programs, counseling services, and individualized attendance plans, to support these students and their families.

Through the consistent implementation of these actions, KIPP experienced a significant improvement in student attendance rates and a reduction in the number of students classified as chronically absent.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between the budgeted expenditures and the estimated actual expenditures and/or planned percentages of improved services and estimated actual percentages of improved services.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

KIPP relies on chronic absence and suspension indicators in determining the level of progress towards meeting this engagement outcome goal. The most recent results for 2022-23 demonstrate that there are mixed results for success across goal 2 metrics, but that results are continuing to trend positive with YoY improvement.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

After analyzing the data from the Dashboard and other local sources, as well as reflecting on our prior practices, we have identified areas where changes will be made to the goal actions for the coming year.

Home Visits: In the upcoming year, our attendance team, in collaboration with the community school managers, will be implementing "porch visits" for students who are not attending school regularly and may be identified as needing additional support. These visits will provide an opportunity for our staff to engage with students and their families in a more personal and supportive manner, helping to identify and address

any barriers to regular attendance. By building stronger relationships with families and providing targeted interventions, we aim to improve attendance rates and reduce chronic absenteeism.

Coordination of Services Team (COST): We will be standardizing the Coordination of Services Team (COST) to support students and families in accessing the resources they need to thrive. COST will review academic and school culture data to identify students who may benefit from differentiated support and will work collaboratively with families, teachers, and community partners to provide targeted interventions. By adopting a holistic approach to student support, we aim to improve academic outcomes, enhance student well-being, and create a more inclusive and equitable learning environment.

DHCS Grant: We have secured a grant from the Department of Health Care Services (DHCS) that will allow us to provide more trauma-informed training for our school mental health counselors. This training will equip our counselors with the knowledge and skills necessary to effectively support students who have experienced trauma, helping to mitigate the impact of adverse experiences on their academic and social-emotional development.

Community Schools: Community school managers will identify and coordinate support services for students and families as part of our Community Schools initiative. These community managers will work closely with local organizations and service providers to connect families with resources such as food assistance, housing support, legal counseling, employment services, and other vital resources. By addressing the diverse needs of our students and their families, we aim to create a more supportive and inclusive learning environment that promotes academic success and overall well-being.

Medi-Cal Reimbursement for Mental Health Services: In the coming year, we will be focusing on maximizing Medi-Cal reimbursement for the mental health care services provided to our students. By leveraging this funding source, we aim to create a more sustainable and comprehensive mental health support system. The reimbursement funds will be reinvested in our mental health professionals. This will allow us to continue to provide individualized and intensive support to students who are struggling with mental health challenges, as well as to implement preventative and early intervention programs to promote overall student well-being.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	All students will have the spaces, resources and opportunities to achieve.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Teacher Resources: Annual teacher survey results: teacher satisfaction with access to current, standards-aligned instructional materials for their classrooms.	<p>KIPP teachers reported 68% satisfaction with access to standards-aligned materials for their classrooms on the 19-20 survey.</p> <p>Question not surveyed in 20-21 due to COVID-19 pandemic and students participating in distance learning. Temporary, alternative metric provide below.</p> <p>KIPP TK-4 teachers reported 54% satisfaction with student's access to rigorous academic curriculum on the 20-21 school survey.</p>	KIPP teachers reported 60% / 67% satisfaction with student's access to rigorous academic curriculum on the 21-22 school survey.	<p>KIPP TK-4 teachers reported 62% satisfaction with student's access to rigorous academic curriculum on the 22-23 school survey.</p> <p>KIPP 5-8 teachers reported 75% satisfaction with student's access to rigorous academic curriculum on the 22-23 school survey.</p>	KIPP teachers reported 79% satisfaction (TK-4: 77%, 5-8: 80%) with student's access to rigorous academic curriculum in the 23-24 school year.	KIPP teachers report 75% or higher satisfaction with access to standards-aligned materials for their classrooms in an annual survey.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
	KIPP 5-8 teachers reported 88% satisfaction with student's access to rigorous academic curriculum on the 20-21 school survey.				
Teacher Professional Development: Annual teacher survey results: teacher satisfaction with the school's commitment to improving teacher's instructional practice.	KIPP TK-4 teachers reported 62% satisfaction with the school's commitment to improving their instructional practice in the 20-21 school year. KIPP 5-8 teachers reported 93% satisfaction with the school's commitment to improving their instructional practice in the 20-21 school year.	KIPP teachers reported 72% / 83% satisfaction with the school's commitment to improving their instructional practice in the 21-22 school year.	KIPP TK-4 teachers reported 74% satisfaction with the school's commitment to improving their instructional practice in the 22-23 school year. KIPP 5th-8th grade teachers reported 54% satisfaction with the school's commitment to improving their instructional practice in the 22-23 school year.	KIPP teachers reported 76% satisfaction (TK-4: 92%, 5-8: 60%) with the school's commitment to improving their instructional practice in the 23-24 school year.	KIPP teachers report 80% or greater satisfaction with the school's commitment to improving their instructional practice.
Access to Rigorous Courses: Percent of students that have access to a full and robust course schedule as defined by the state.	100% of students were enrolled in a broad and rigorous course schedule as defined by the state.	100% of students were enrolled in a broad and rigorous course schedule as defined by the state.	100% of students were enrolled in a broad and rigorous course schedule as defined by the state.	100% of students were enrolled in a broad and rigorous course schedule as defined by the state.	100% of students will have access to a full and robust course schedule as defined by the state.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24

The LCAP will be updated with this data once available.</p>	<p>100% of core teachers are credentialed and appropriately assigned.</p>

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

All planned actions were carried out in order to make progress towards the articulated goal. The implementation of these actions was consistent with the descriptions outlined in the adopted LCAP, with no substantive differences between the planned actions and their actual implementation.

One of the significant successes was the expansion of the expanded learning program. KIPP invested in hiring and training dedicated leaders on campus to build out the program and create strong systems to support its effective implementation. These leaders worked collaboratively with teachers, staff, and community partners to design and deliver engaging and enriching learning experiences for students beyond the regular school day.

The main challenge faced was being under-hired in various positions. The nationwide labor shortage and the competitive job market in the region made it difficult for KIPP to fill all vacant positions, despite ongoing recruitment efforts. This understaffing put additional strain on existing staff members, who had to take on additional responsibilities and workload to compensate for the gaps.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

KIPP had allocated funds in the budget to cover the salaries and benefits of the planned staffing levels across various departments and programs. However, due to the persistent staffing and hiring constraints, the school was unable to fill all the vacant positions as intended. To address this challenge, KIPP deployed leadership positions, such as principals, assistant principals, and instructional coaches, to fill the gaps in teaching and support roles. Additionally, KIPP relied more heavily on substitute teachers to ensure continuity of instruction.

The staffing issues posed challenges to providing the Planned Percentages of Improved Services to students. However, KIPP’s strategy of deploying leadership positions and substitutes to fill the staffing gaps helped to mitigate the impact on the quality and consistency of services.

By having experienced educators, such as principals and instructional coaches, step into teaching and support roles, the school was able to maintain a higher level of instructional quality and student engagement than would have been possible with a more severe staffing shortage.

These leaders brought their expertise and knowledge of best practices to the classroom, ensuring that students continued to receive high-quality instruction and support.

Similarly, the increased use of substitutes, particularly those with long-term assignments, helped to provide continuity and stability in the learning environment. While the use of substitutes may not have fully matched the level of services provided by permanent staff, it allowed KIPP to maintain essential functions and support for students.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

KIPP relies on teacher development and student resources in determining the level of progress towards meeting this resource outcome goal. The most recent results for 2023-24 demonstrate that the majority of the metrics for success have been met and are continuing to trend positive with YoY improvement.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Removal of COVID Health and Safety Measures:

In light of the evolving pandemic situation and the successful implementation of standardized practices and procedures, KIPP has decided to remove the specific focus on COVID health and safety measures as an action for the coming year. KIPP has established a comprehensive set of protocols and guidelines that have been integrated into regular operations, ensuring the ongoing safety and well-being of our students and staff. By removing this specific emphasis, the school can now redirect resources and attention to other critical areas of need while maintaining a commitment to a safe and healthy learning environment.

Transition to Headspace for Staff Mental Health Services:

Recognizing the importance of staff well-being and its impact on student success, KIPP has made a strategic shift in our approach to mental health services for employees. In the coming year, we will be partnering with Headspace, a leading provider of mindfulness and meditation resources, to offer a comprehensive mental health initiative for staff. This change is based on feedback from employees and the growing need for accessible and effective mental health support. By providing staff with the tools and resources to manage stress, enhance resilience, and promote overall well-being, KIPP aims to create a more positive and supportive work environment that ultimately benefits students.

Integration of OneKIPP and Eureka Squared Math Curriculum:

As part of our continuous improvement efforts, KIPP has made a significant change to our instructional resources by adopting the One KIPP initiative, which includes the implementation of the Eureka Squared math curriculum. This research-based curriculum is aligned with state standards and provides a rigorous and engaging learning experience for our students. By focusing on this new math curriculum, KIPP aims to enhance student achievement, deepen conceptual understanding, and foster critical thinking skills. The implementation of Eureka Squared

will be accompanied by extensive professional development for teachers to ensure effective delivery and maximize the impact on student learning outcomes.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Instructions

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Complete the prompts as instructed for each goal included in the 2023–24 LCAP. Duplicate the tables as needed. The 2023–24 LCAP Annual Update must be included with the 2024–25 LCAP.

Goals and Actions

Goal(s)

Description:

Copy and paste verbatim from the 2023–24 LCAP.

Measuring and Reporting Results

Goal Analysis

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

A description of any substantive differences in planned actions and actual implementation of these actions.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

- Describe the effectiveness or ineffectiveness of the specific actions in making progress toward the goal during the three-year LCAP cycle. “Effectiveness” means the degree to which the actions were successful in producing the desired result and “ineffectiveness” means that the actions did not produce any significant or desired result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
 - The reasons for the ineffectiveness, and
 - How changes to the action will result in a new or strengthened approach.

California Department of Education
November 2023

Plan Summary [2024-25]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

KIPP Bridge Academy, located in West Oakland, has been serving the community since its founding as KIPP Oak in 2002. Initially part of the Oakland Unified School District's New Small Autonomous Schools, KIPP Bridge became a charter school in 2004. Under the leadership of Mr. David Ling and later Ms. Jackson, the school established itself as a beacon of high expectations and a safe, disciplined culture that fostered a college-going mindset. In 2016-2017, the elementary school portion was added, and the school relocated to its current location at 1700 Market Street. Today, KIPP Bridge Academy operates with two leadership teams: KIPP Bridge Rising (TK-4) led by Mr. Burks and KIPP Bridge Upper School (5-8) led by Ms. Allen. The dedicated staff at KIPP Bridge Academy is committed to providing an excellent and equitable public school education to the children of Oakland, with the majority of students coming from the surrounding neighborhood.

At KIPP Bridge Rising, the core values of Belong, Learn, and Grow drive the school's mission. The focus is on creating a safe and inclusive environment where every student feels seen, loved, and valued. The school actively works to identify and disrupt systems rooted in white supremacy and anti-blackness that fail the community. Accountability is viewed as a collaborative effort to address injustice and transform what is unjust. The school prioritizes restorative practices, listening to and responding to the needs of families, and engaging in creative problem-solving with empathy.

In the classroom, KIPP Bridge Rising invites shared meaning by planning and progress monitoring with clear goals and criteria for success, while centering student voices and experiences in their learning. Differentiation and planning from the margins ensure that all students have

what they need to feel and be successful. The school encourages active participation and critical thinking, collaborating with students, families, and stakeholders to share student progress and success.

KIPP Bridge Rising believes in the ability of everyone to grow and become stronger with practice, coaching, and a growth mindset. Mistakes are normalized as a tool for improvement, and the school constantly seeks opportunities to disrupt and transform failing systems.

Differentiated teaching and learning are provided for students, staff, and families to tap into their individual and collective potential. Progress is celebrated, and circles are embraced as a key lever toward driving equity and shared meaning.

At KIPP Bridge Upper School (KBUS), the purpose is to empower students to joyfully pursue academic excellence and lead a choice-filled life while becoming purposeful, courageous, curious, empathetic, and loving leaders who transform their communities through college, career, and beyond. This purpose is achieved through collaboration with families and the community, guided by the core values of Love, Purpose, Ujima (collective responsibility), and Perseverance.

KBUS provides a rigorous learning environment focused on reading, critical thinking, and oratory skills. Teachers are content area specialists who differentiate instruction using data and support students in taking ownership of their learning. Social-emotional learning is prioritized, and students are equipped with the skills to effectively self-advocate and achieve their personalized learning goals.

Students at KBUS approach being part of the KIPP Bridge Team and Family with positivity and enthusiasm. They are known for being respectful, engaging, creative, and for honoring their own and one another's backgrounds. By embodying the values of ujima, purpose, perseverance, and love, KBUS creates an inclusive learning environment where Panthers uplift one another as they climb the mountain to college, career, and beyond.

Together, KIPP Bridge Rising and KIPP Bridge Upper School form a cohesive TK-8 educational experience that empowers students to thrive academically, socially, and emotionally. The school's commitment to equity, inclusivity, and excellence, coupled with strong leadership and dedicated staff, ensures that KIPP Bridge Academy continues to make a positive impact on the lives of Oakland's youth and the broader community.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Successes at KIPP Bridge Rising:

KIPP Bridge Rising has celebrated numerous successes in the current school year, as evidenced by their performance on the California School Dashboard and local data. One of the most significant achievements is the outstanding performance of students who identify as Latinx, Black, and Multilingual Learners (MLL) on the SBAC in ELA and Math, outperforming the State of California average. This success can be attributed to the dedicated efforts of the instructional leadership team, consisting of Walter Bounds, Jasmine Shevick, Lissy Allegrotti, and Michael Burks. The team has set a clear vision with well-defined goals, strategies, and enabling systems, such as content team meetings, walkthroughs, and data days, to ensure that teachers effectively follow the instructional cycle of planning/internalizing, instruction, and data analysis.

Another notable achievement is the significant decrease in suspensions, from 10% in 2021-22 and 3% in 2022-23 to just 1% in 2023-24. This improvement can be attributed to the school's focus on creating a positive and inclusive learning environment for all students. Additionally, KIPP Bridge Rising has decreased chronic absenteeism by 8.5% from the previous year, thanks to the tireless efforts of the operations team. Maria Ronquillo, Gisell Andrade, Felicia Harris, and Tiffany Barber actively engage with families of absent students, partner with community organizations to provide resources for attendance, and organize strong family events to strengthen relationships with families.

The school has also seen a 4% increase in family satisfaction with opportunities from 2022-23 to 2023-24, demonstrating their commitment to building a strong community. Moreover, teacher emotional safety and support have increased by 21% during the same period, supported by KIPP Nor Cal's Mental Health for All initiative, which provides all staff members with access to high-quality mental health services.

KIPP Bridge Rising's success can also be attributed to its high teacher retention rate of 91%, which leads to strong relationships and high-quality instruction. While celebrating these achievements, the school recognizes areas for improvement, such as ensuring all students who need IEPs have access to the necessary resources to thrive.

The school has implemented several new initiatives to further enhance student learning and engagement. These include the adoption of the CKLA phonics curriculum, which is leading to more students mastering the word recognition strand of the reading rope and reading on grade level. KIPP Bridge Rising has also introduced an internally created and run SEL program, where staff members create a criteria for success, run weekly Community Meetings, and recognize students with SEL superstar awards for exemplifying weekly SEL skills. Additionally, the school has expanded the EL Achieve program to TK-2 graders by having 3-4 ELD teachers coach TK-2 ELD teachers and sending EL teachers to various professional development opportunities.

As KIPP Bridge Rising continues to build upon its successes and address areas for improvement, the school remains committed to providing an excellent and equitable education for all students, fostering a strong sense of community, and empowering students to thrive academically, socially, and emotionally.

Successes at KIPP Bridge Upper:

KIPP Bridge Upper has demonstrated growth and improvement in the current school year, as evidenced by their progress in various academic areas. The school has seen a 3% increase in proficiency on internal ELA progress monitoring exams, indicating that students are developing stronger literacy skills. Additionally, there has been a 13% decrease in students scoring at Level 1 on these exams, showcasing the effectiveness of targeted interventions and support.

In mathematics, KIPP Bridge Upper has made significant strides, with a 12% increase in students performing at grade level based on the I-Ready Math Exam. Moreover, the school has achieved a 22% decrease in students who are two or more grade levels behind, demonstrating the impact of focused instruction and support in closing achievement gaps.

These successes can be attributed to the implementation of several key systems and the dedication of specific roles within the school. To support students reading below a 3rd-grade level, KIPP Bridge Upper has increased the number of targeted reading groups focusing on building phonics and fluency skills. The school has also extended math class time to 90 minutes daily, allowing for reteaching, review, and the introduction of new lessons, ensuring that students have ample time to grasp and apply mathematical concepts.

Recognizing the importance of writing skills, KIPP Bridge Upper has developed and implemented structured writing units throughout the school year. This initiative has provided students with consistent opportunities to develop and refine their writing abilities across various genres and subject areas.

To further support students who are below grade level in math, teachers review I-Ready math data to identify pre-teach topics, enabling them to provide targeted instruction and scaffolding to help students bridge knowledge gaps and master essential concepts.

KIPP Bridge Upper has also prioritized support for English Language Learners by increasing the number of ELD classes, allowing for more targeted instruction at various proficiency levels. This differentiated approach ensures that all students receive the appropriate level of language support to thrive academically.

In addition to academic interventions, KIPP Bridge Upper has focused on improving student attendance. The school utilizes a Coordination of Services Team (COST) and tiered attendance systems to identify and support students at risk of becoming chronically absent. By investing staff in connecting and following up with families, the school encourages consistent attendance and addresses any barriers or concerns that may impact student presence. The use of incentives has also been effective in promoting regular attendance and fostering a positive school culture.

As KIPP Bridge Upper continues to build upon these successes, the school remains committed to providing a rigorous and supportive learning environment that empowers all students to reach their full potential. Through targeted interventions, data-driven instruction, and a focus on holistic student support, KIPP Bridge Upper is making significant strides in closing achievement gaps and preparing students for success in high school, college, and beyond.

Areas for Continued Growth at KIPP Bridge Rising:

KIPP Bridge Rising has identified several areas for growth based on their annual performance review of the California School Dashboard and local data. While the school has made progress in some areas, there are specific metrics that require focused attention and improvement.

In terms of ELA and Math SBAC scores, KIPP Bridge Rising acknowledges the need to continue closing foundational skill gaps. As students returned to school after the pandemic, 3rd and 4th graders experienced significant gaps in essential skills and knowledge due to the challenges of virtual learning during their kindergarten and 1st-grade years. The school prioritized addressing these gaps in the 2021-22 and 2022-23 academic years, but recognizes that there is still work to be done to ensure all students are performing at grade level.

Another area of concern is the English Learner Progress Indicator, which decreased by 11.6% from 2021-22 to 2022-23. To address this, KIPP Bridge Rising has expanded the EL Achieve program to TK-2 graders by having the 3-4 ELD teacher coach the TK-2 ELD teacher and sending EL teachers to various professional development opportunities. The school has also begun training staff in integrated ELD to ensure that all teachers are equipped with the skills and strategies to support Multilingual Learners effectively.

Chronic absenteeism remains a challenge for KIPP Bridge Rising, with 48.1% of students chronically absent in the 2022-23 school year. Although this represents an 8.5% decrease from the previous year, the school recognizes the need for continued efforts to improve

attendance. To address this issue, KIPP Bridge Rising is working on aligning support systems and collaborating with external partners to provide families with access to resources that help close the gaps preventing consistent school attendance.

The School Culture Index has also seen a decline, dropping by 6% from 2021-22 to 77% in 2022-23. In response, KIPP Bridge Rising has implemented a new SEL program that includes an internally created and run initiative. Staff members have developed an SEL skill criteria for success, and they lead a weekly Community Meeting to kick off the week. Students are featured in videos and receive SEL superstar awards for exemplifying the weekly SEL skill, fostering a positive and supportive school culture.

As KIPP Bridge Rising moves forward, the school remains committed to addressing these areas for growth head-on. By focusing on closing foundational skill gaps, supporting English Learners, improving attendance, and strengthening school culture, KIPP Bridge Rising aims to provide a comprehensive and equitable educational experience for all students. The school will continue to monitor progress, adapt strategies as needed, and collaborate with families and community partners to ensure that every student has the opportunity to thrive academically, socially, and emotionally.

Areas for Continued Growth at KIPP Bridge Upper:

KIPP Bridge Upper has identified ELA and Math SBAC scores as key areas for growth and has implemented several focus initiatives to address these challenges.

To improve ELA SBAC scores, the school has increased the frequency of lesson internalizing meetings, providing teachers with opportunities to develop a clear understanding of grade-level expectations. By deepening their knowledge of the standards and curriculum, teachers can more effectively plan and deliver instruction that meets the needs of all students. Additionally, KIPP Bridge Upper has increased personalized learning time using Lexia Core 5 and Power Up programs, which help build student fluency and reinforce phonics skills. To further support literacy development, the school has extended ELA class time to 90 minutes, allowing for a balanced focus on both reading and writing.

In the area of Math SBAC scores, KIPP Bridge Upper has implemented smaller, more frequent spiraled assessments to closely monitor student progress. By regularly assessing student understanding, teachers can quickly identify areas where students may be struggling and provide targeted support. The school has also established a bi-weekly or weekly routine of reviewing student data from these assessments, enabling teachers to create effective re-teach and review plans that address specific skill gaps and misconceptions.

To support growth in both ELA and Math, KIPP Bridge Upper has emphasized the use of active monitoring within the classroom. This instructional strategy requires increased effort and focus from students, while also providing teachers with opportunities to offer real-time feedback. By engaging students more deeply in the learning process and providing immediate guidance, teachers can help students stay on track and make continuous progress.

As KIPP Bridge Upper continues to implement these focus initiatives, the school remains committed to using data-driven decision-making to inform instruction and support student growth. By regularly assessing the effectiveness of these strategies and making adjustments as needed, KIPP Bridge Upper aims to improve ELA and Math SBAC scores and ensure that all students have the skills and knowledge necessary for success in high school and beyond.

Through a combination of targeted interventions, increased instructional time, personalized learning, and active monitoring, KIPP Bridge Upper is taking a comprehensive approach to addressing these areas of growth. The school's dedication to continuous improvement and its focus on meeting the individual needs of each student demonstrate its commitment to providing a high-quality education that prepares students for success in college, career, and life.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

The school is not currently eligible for technical assistance.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

The school is not currently eligible for comprehensive support and improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

The school is not currently eligible for comprehensive support and improvement.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

The school is not currently eligible for comprehensive support and improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Families	<p>This year's Local Control and Accountability planning process provides meaningful engagement opportunities, allowing for refinement and reflection on goals and actionable steps to enhance student outcomes. Families receive invitations to attend various events with the School Leader, including scheduled LCAP meetings, Coffee with the School Leader sessions, School Site Council Meetings (public), KIPP Family Association Meetings, and English Language Advisory Committee Meetings (public). Interpreters are available at these gatherings, and translated materials are provided in the school's most common languages to ensure equitable engagement. Meeting topics cover a range of subjects, including but not limited to: the CA State Dashboard and LCAP alignment, state priorities, specific school goals, and actionable steps to achieve them. Input is gathered through small group exercises during meetings, where families can brainstorm together and share feedback with the community and school leadership. Additionally, the LCAP survey, the School Culture survey, and summarized empathy interview feedback (families of students with IEPs) are all additional opportunities to collect important feedback to be considered in the school's plan.</p>
Students	<p>Students are engaged in the LCAP process by sharing feedback in regular Pulse Surveys - designed to quickly gather feedback and insights from students about various aspects of their educational experience. These surveys focus on capturing students' thoughts, feelings, and opinions on topics such as their overall satisfaction with the learning environment, their engagement in class, their</p>

	<p>relationships with teachers and peers, their understanding of school priorities and policies, and their general well-being.</p> <p>Student voice is also captured in various ways at the school, including student leadership councils and through regular communication and access to their teachers and administration.</p>
Teachers	<p>Teachers are engaged in the LCAP progress in various ways, including surveys, LCAP meetings, and through regular staff development and feedback channels.</p> <p>The TNTP survey is used to assess various aspects of the teaching profession and educational environment at KIPP - teacher satisfaction, school culture, professional development opportunities, leadership effectiveness, and the overall working conditions within the school. TNTP surveys provide valuable insights into the experiences and perspectives of educators, which are then used to inform decision-making, improve policies and practices, and support teacher retention and effectiveness.</p> <p>Throughout the year, teachers engage in weekly staff meetings where they review data to inform classroom instruction. Beginning in the spring, this development will include a review of longer term data trends that will be used to inform LCAP initiatives for the following school year. Additionally, through individual coaching, teachers will share their feedback and perspectives about their experience, their support needs as well as their ideas for improving student performance.</p>
School Leaders	<p>Engagement with School Leadership is a critical component of the LCAP as a single-site charter school. School principals, assistant principals, content specialists and operational directors must work together to ensure alignment on school goals and lead the LCAP process for their school community. These leaders gather throughout the spring to review student outcomes data, staff data, and review school resources to identify initiatives and priorities which must then be shared and implemented. School leadership is also provided support and access to diverse perspectives (outside of their single school), through their connection to KIPP's regional support office. This partnership provides opportunities for collaboration and resource sharing, including quarterly community of practice meetings,</p>

	professional learning communities, leadership coaching and targeted skill building.
Regional Support Office	The region actively engages with the community and school leadership to best capture the meaningful school-level work that happens each day. This year the school continues their collaboration and consultation with various departments at the regional level to help inform goals, metrics, and outcomes including but not limited to: Operations, Facilities, Data, Human Resources, Finance, Special Education (including the SELPA), and Academics. This engagement includes budget reviews, school site walkthroughs, operational coaching, data analysis, and regular consultations that inform strategic annual planning and goal setting. The regional support team provides opportunities for all Northern California KIPP leaders to engage in professional development and share resources and best practices.
School Community	<p>School level LCAP planning and engagement begins in December in preparation for the updated CA Dashboard release, and includes updated presentation materials that allow the community to engage more equitably (multiple languages, diverse engagement styles and practices, etc.). There is additional Advocacy and Community Engagement (ACE Team) support at meetings and events to answer questions and engage in these important discussions. This involvement and availability strengthen trust and accountability between the KIPP organization, the school, and the community.</p> <p>KIPP takes steps to make governance structures more accessible to the school community. The drafted LCAP is made available for a public hearing in advance of the final June board meeting. Virtual teleconferencing is available for all of KIPP’s public board meetings, and the community is notified in compliance with the Brown Act. Translation services are also available upon request. All KIPP board meeting agendas and minutes are available online at https://kipnocal.org/kip-board-of-directors/.</p>
SELPA	The SELPA provides a review and feedback on KIPP’s annual LCAP.
Bargaining Units	As a charter school, KIPP is not required to engage, nor is it currently applicable, to consult with any local bargaining units of the LEA.

Engagement at KIPP Bridge (K-8):

At KIPP Bridge, both the Rising and Upper schools have actively sought and incorporated feedback from staff, teachers, students, and families to shape their plans for the current and upcoming school years. This collaborative approach ensures that the initiatives implemented are responsive to the needs and concerns of the school community.

At KIPP Bridge Rising, the feedback gathered has led to the development of several key initiatives. In response to input from stakeholders, the school has introduced a new SEL program that focuses on building students' social and emotional skills, fostering a positive school culture, and promoting overall well-being. Additionally, the school has organized a variety of fun family events, such as trunk or treat, bingo night, arts and crafts night, and an Encanto showing, to strengthen the bond between the school and the community it serves.

Based on feedback from staff and students, KIPP Bridge Rising has also realigned shared space expectations, particularly in hallways, to ensure a safe and orderly environment conducive to learning. The school has also moved lunch from classrooms to the cafeteria, creating a more social and communal experience for students. Furthermore, in response to input from teachers and families, KIPP Bridge Rising has adopted the CKLA curriculum, which provides a comprehensive and research-based approach to literacy instruction.

At KIPP Bridge Upper, families expressed a desire for more consistent communication from teachers and the school. In response, the school has increased the frequency of updates sent to families through various channels, including phone calls, Parent Square, and DeansList. This enhanced communication keeps families informed about their children's progress and provides opportunities for meaningful engagement.

Teachers at KIPP Bridge Upper requested increased planning time and a more consistent behavior plan. To address these concerns, the school introduced a new behavior management hierarchy for teachers to follow, providing a clear and structured approach to addressing disciplinary issues. Additionally, the afternoon meeting schedule was adjusted to give teachers more time for planning, allowing them to better prepare for their classes and meet the diverse needs of their students.

Staff members at KIPP Bridge Upper also expressed a desire for more opportunities to build community. In response, the school has created time for consistent Team and Family appreciation activities, fostering a supportive and collaborative environment where staff members can recognize and support one another.

By actively seeking and incorporating feedback from various stakeholders, both KIPP Bridge Rising and KIPP Bridge Upper demonstrate their commitment to creating a school community that is responsive, inclusive, and dedicated to the success and well-being of all students.

Specific 24-25 LCAP influence:

The collective information shared during the annual LCAP process was used to reflect on the school's priorities. The feedback and data indicate that KIPP's mission continues to be in line with the goals of the school community. The results of the surveys along with feedback that we received during engagement/discussion indicated that we needed to continue to focus on the following in the 2024-25 LCAP:

- More 1 on 1 support from teachers for all students and Multilingual Learners to improve academic outcomes: This aligns with the "more time" model that KIPP provides students and families. KIPP will continue to support teachers in this level of student learning and engagement. Professional development, including weekly data driven initiative meetings and manager observation, will be provided that helps teachers identify and support the differentiated needs of students (Professional Development, Goal 1).
- Stronger student relationships between teachers/staff and students that are facing homelessness and or are in foster care: KIPP will leverage the new Coordination of Services Team (COST) to identify resources and remove barriers for students. This may include access to KIPP's mental health supports (Mental Health Clinician, Goal 2) and access to teachers before and after school hours (More Time Action, Goal 3).
- Mental health for all: As a response to continued feedback for more holistic services across students and staff, KIPP will be continuing the services to support the mental health wellbeing for school and regional staff. This initiative is supported by a partnership between Headspace, Seneca and Mindshare, providing community focused, evidence-based, accessible mental health services for KIPP staff and KIPP staff partners/families (Mental Health for All, Goal 3).

Feedback is shared and incorporated regularly at KIPP. These above-listed actions/services were most evident based on the current year's engagement with families during the LCAP process and other family and school community events.

School leaders response to additional, and ongoing community feedback collected in the 2023-24 school year:

KIPP Bridge Rising (TK-4):

I want to express my heartfelt gratitude for continued participation. Your feedback is invaluable to us as we strive to create the best possible learning environment for your children. We are committed to incorporating your input into our efforts to improve student academic outcomes and engagement.

To address academic concerns, we have created a list of students who are currently at risk of not meeting end-of-year benchmarks. Our team has developed individualized Tier 3 academic support plans for these students and has met with each family one-on-one to discuss these plans. We will implement these targeted interventions and closely monitor student progress over the next four weeks. After this period, we will meet with families again to update the plans and address any remaining gaps.

In addition to these targeted interventions, we have developed Crescendo plans for our TK-2 students. These plans focus on remediating student reading gaps through small group instruction during the Tier 1 phonics block and in small group reading sessions. We have also partnered with Ignite Reading to provide our 45 most struggling readers with daily one-on-one tutoring sessions focused on direct phonics instruction.

To improve student engagement, we have implemented a new SEL program that was internally created and is run by our staff. This program centers around a set of SEL skill criteria for success, which are reinforced through weekly Community Meetings, student-starring videos, and SEL Superstar awards for students who exemplify the weekly SEL skill.

We also offer Extended Learning Opportunities (ELO) to provide students with after-school care until 6 pm daily. During school breaks, including February break, spring break, and summer break, we provide intersession programming for 30 days to keep students engaged and learning.

To foster a positive school culture, we have implemented a Proactive Behavior Plan that clearly defines behavioral expectations for all students. These expectations are reinforced through a system of rewards and consequences, including our Fun Friday program. Students earn stars throughout the week for meeting expectations, with those earning 10 or more stars in a day receiving choice time and those earning 50 or more stars in a week receiving special treats during Fun Friday.

We believe that these initiatives, developed in response to your feedback, will help us create a more supportive, engaging, and effective learning environment for all of our students. We are committed to working collaboratively with you to ensure that your children receive the best possible education and are equipped with the skills and knowledge they need to succeed in school and in life.

Thank you again for your ongoing support and partnership. We look forward to continuing to work together to make KIPP Bridge Rising a place where every student can thrive.

KIPP Bridge Upper (5-8):

We would like to take a moment to express our appreciation for your valuable feedback this year. Your insights and opinions are crucial in helping us shape our school's policies and practices to best support your children's academic success and overall well-being.

One of the key areas we have focused on is providing more targeted support for our students' literacy development and language acquisition. In response to your feedback, we have increased the number of small reading groups and Multilingual Learner (ML) language groups. These smaller, more focused groups allow our teachers to provide personalized instruction and support, helping students build essential skills and make meaningful progress in their reading and language development.

We have also prioritized professional development for our teachers, with a specific emphasis on active monitoring and providing immediate feedback on student work. By equipping our teachers with the skills and strategies to closely observe student learning and offer timely, constructive feedback, we aim to create a more engaging and supportive classroom environment that fosters academic growth and success.

To promote a positive school culture and recognize the achievements of our students, we have created weekly Core Value awards. These awards celebrate students who exemplify our school's core values, reinforcing the importance of character development and positive behavior. We have also increased our use of Parent Square to send frequent messages home to families, keeping you informed about your child's progress, upcoming events, and important announcements.

Attendance is a critical factor in student success, and we have taken several steps to support and encourage regular attendance. We have increased incentives for students who demonstrate strong attendance, using trackers and rewards to motivate and acknowledge their commitment to being present and engaged in their learning. For students who struggle with attendance, we have implemented a tiered meeting system and utilize our Coordination of Services Team (COST) to work collaboratively with families to identify and address barriers to attendance, such as exploring alternative transportation options and developing individualized incentive trackers.

Recognizing the importance of extended learning opportunities, we have expanded our after-school program to support a greater number of students. This program provides a safe, supportive environment where students can receive additional academic support, engage in enrichment activities, and build positive relationships with their peers and adult mentors.

To foster a positive and nurturing school environment, we have implemented the Panther Points system, which acknowledges and rewards students for demonstrating positive behavior. Students can earn Panther Points for meeting expectations and exhibiting our school values, with opportunities to redeem their points for special privileges such as Dress Down days and participation in special events.

Finally, we have incorporated Social-Emotional Learning (SEL) lessons that focus on areas of concern identified through our Pulse data and teacher observations. These lessons help students develop essential life skills, such as building healthy relationships and using kind words, promoting a more supportive and inclusive school community.

We believe that these initiatives, developed in response to your feedback, will help us create a more engaging, supportive, and effective learning environment for all of our students. We are committed to working in partnership with you to ensure that your children receive the high-quality education they deserve and are equipped with the skills and knowledge they need to succeed in high school, college, and beyond.

Thank you again for your ongoing support and collaboration. We value your input and look forward to continuing to work together to make KIPP Bridge Upper a place where every student can thrive.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	All students will achieve academically.	Broad Goal

State Priorities addressed by this goal.

Priority 4: Pupil Achievement (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

To increase the rate of students who meet or exceed state standards in English language arts on the SBAC assessment.
 To increase the rate of students who meet or exceed state standards in mathematics on the SBAC assessment.
 To increase the rate of students who meet or exceed state standards in science on the CAST assessment.
 To increase the number of students making annual progress in English language learning.

*Metrics below were not yet fully measurable given the timing of data collection and the requirements for LCAP completion. LCAP metrics below instead reflect prior year data reporting in the designated year to capture a more complete annual metric, including SBAC ELA, SBAC Math, CAST Science, English learner reclassification and English learner progress.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1.1	SBAC ELA: State testing results for English Language Arts.	22-23 English language arts results for all students: 35% proficient, 33% district results 22-23 English language arts results for students qualifying as low-income students: 32% proficient, 22% district results			Increase to MEDIUM on the CA Dashboard, with an increase of 10% YoY	

		<p>22-23 English language arts results for multilingual language learners: 17% proficient, 6% district results</p> <p>22-23 English language arts results for students with disabilities: 10% proficient, 13% district results</p> <p>35.4 points below standard</p>				
1.2	SBAC Math: State testing results for Mathematics.	<p>22-23 Math results for all students: 25% proficient, 25% district results</p> <p>22-23 Math results for students qualifying as low-income students: 22% proficient, 16% district results</p> <p>22-23 Math results for multilingual language learners: 16% proficient, 6% district results</p> <p>22-23 Math for students with disabilities: 7% proficient, 11% district results</p>			Increase to MEDIUM on the CA Dashboard, with an increase of +10 points YoY.	

		56.9 points below standard				
1.3	CAST Science: State testing for Science.	22-23 Science results for all students: 10% proficient 22-23 Science results for students qualifying as low-income students: 8% proficient 22-23 Science results for multilingual language learners: 0% proficient 22-23 Science results for students with disabilities: 0% proficient			Status and performance on the CA Dashboard for CAST has not yet been established, but KIPP will strive for a Yellow + status as we continue to support a growing science focus.	
1.4	Multilingual Learner Reclassification Rate: The rate at which students who are classified as Multilingual Learners become proficient in the English Language, as measured by annual state and local assessments.	7.97% of students were reclassified as English proficient in the 23-24 school year.			20% of Multilingual language learners will be reclassified annually.	
1.5	English Learner Progress Indicator (ELPI):	56.5% Multilingual learners were making progress towards English proficiency in the 22-23 school year.			Maintain HIGH on the CA Dashboard, within 1.9 points YoY.	

	The rate at which English learners make progress toward English language proficiency.					
--	---	--	--	--	--	--

Goal Analysis [2023-24]

An analysis of how this goal was carried out in the previous year.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Support for multilingual learners:	A KIPP administrator is trained to support the success of multilingual learner students (Levels 1-4, RFEP and LTELs) in meeting CA state standards, and to administer the ELPAC exam and other interim assessments in order to assess student progress in attaining proficiency in the English language and in finding success after reclassification. KIPP teachers are trained to use techniques and tools that maximized learning for multilingual learners at all points in their academic journey.	\$466,368.54	Yes

		As a recipient of the California Community Schools Partnership grant, the school has made additional investments in targeted, small group English development.		
1.2	Special education services:	<p>KIPP offers an extensive special education program run by the Regional Support Office in partnership with the El Dorado County Charter SELPA and San Mateo SELPA. The special education department offers interventions for students with IEPs. Services and interventions include specialized academic instruction, language and speech therapy, adapted physical education, occupational therapy, counseling, psychological services, and behavior intervention services. Students with mild to moderate disabilities receive their services as a mix of push-in and pull-out support. Students with moderate to severe disabilities receive their services primarily in a small group, self-contained classroom with targeted mainstreaming appropriate to the student's individualized program. The program maintains a small student to staff ratio and uses a separate curriculum based on modified standards, CAPTAIN evidence-based practices, and community-based instruction. KIPP is committed to creating supportive and regionally-based classrooms for each grade band in order to make the program as accessible as possible.</p> <p>Medi-Cal: KIPP participates in the Medi-Cal Billing Options Program (BOP) and School-Based Medi-Cal Administrative Activities (SMAA) to provide support to students with disabilities.</p>	\$1,013,319.00	No
1.3	Personalized learning and EdTech:	KIPP values innovation in the classroom and seeks to discover new methods of teaching students with diverse needs. By utilizing personalized learning approaches and assessments, KIPP can effectively monitor individual student progress and establish high expectations for achievement. To ensure the most accurate and meaningful engagement with these systems, a dedicated staff member provides support in the administration of EdTech tools.	\$116,932.91	No

		This individualized process, coupled with the reinforcement of high achievement standards, is designed to enhance student outcomes, engagement, and attendance. By tailoring the learning experience to meet the unique needs of each student, KIPP aims to create an environment that fosters academic success and encourages consistent participation in the educational process.		
1.4	Professional development:	KIPP provides high quality professional development for all teachers, based on individual goals, school goals, and the needs of the students based on recent and relevant data. KIPP teachers and staff receive professional development as it relates to the new Common Core State Standards and Culturally Responsive Teaching (CRT) in order for teachers to implement them into classrooms and support students at all levels of proficiency.	\$280,857.42	Yes
1.5	Title III:	KIPP uses title III funds to support the salary of a title III consortium lead multilingual learner (ML) instructional coach. The duties of this position include the implementation of supplemental programming; training and facilitation of data meetings where teachers, APs, and instructional coaches review student data to drive instructional decisions and the effective implementation of ML instructional strategies; targeted coaching and feedback to schools and across schools through classroom observation; and identification of supplemental regional curricula and educational technology designed to improve outcomes for ML students (Levels 1-4, RFEP and LTELs) throughout all stages in their academic journey.	\$16,764.45	Yes
1.6	Data analysis and visualization:	The Data team provides data tools and resources that enable school staff to regularly review critical data, including grades, assignment completion, testing results, culture data, and attendance. Regular data reviews are crucial in identifying early interventions and support for KIPP students, the majority of whom qualify as socio-economically disadvantaged.	\$23,393.32	Yes

1.7	Small group reading focus:	KIPP focuses on improving reading proficiency through interventions that bring together small groups of students who are struggling with reading to receive targeted instruction and support. These interventions involve a teacher or reading specialist leading the group in engaging and interactive reading activities that are designed to build reading skills and improve comprehension.	\$99,948.14	Yes
1.8	Transitional Kindergarten:	<p>KIPP funds a position which serves to improve the transitional kindergarten experience for KIPP's youngest students. This role is responsible for building KIPP's learning vision and strategy, along with programming for elementary schools, with a focus on TK and early childhood and developing and delivering high quality professional development and training to increase the effectiveness of teachers, coaches and content specialists supporting TK students. Additionally, this role serves as the resident expert at KIPP by holding a deep knowledge of TK-2 content, common core standards, instructional materials and resources.</p> <p>KIPP recognizes the need to provide comprehensive supports and services for our socioeconomically disadvantaged students (and their families) from early learning TK/preschool programs in order to address and close the equity learning gap as they transition from TK to kindergarten and to help TK students develop and enhance their literacy skills, build their language (and subsequently, reading) comprehension skills.</p> <p>KIPP recognizes the need to provide comprehensive supports and services for our socioeconomically disadvantaged students (and their families) from early learning TK/preschool programs in order to address and close the equity learning gap as they transition from TK to kindergarten and to help TK students develop and enhance their literacy skills, build their language (and subsequently, reading) comprehension skills.</p> <p>This action is being continued in the LCAP to align with the state's focus on universal transitional kindergarten implementation, and funding.</p>	\$38,813.90	

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	All students and families will be engaged with the school community.	Broad Goal

State Priorities addressed by this goal.

- Priority 3: Parental Involvement (Engagement)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

To increase parent engagement by sustaining or improving the number of opportunities for parental involvement.
 To increase school attendance rates and reduce chronic absenteeism rates.
 To keep students engaged and excited about school, increasing graduation rates, and decreasing suspensions and expulsions.
 To increase staff, student and family satisfaction with the school's climate.

*Some metrics below were not yet fully measurable given the timing of data collection and the requirements for LCAP completion. Select LCAP metrics below instead reflect prior year data reporting in the designated year to capture a more complete annual metric, including chronic absenteeism, suspensions, expulsions, and drop-out rates.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	Family Engagement Opportunities: Number of scheduled events in the school year where families and/or the community are invited to participate.	The school held 18 scheduled events in the 23-24 school year where families and/or the community were invited to participate.			KIPP will host eight (8) events or more a year where families and/or the community are invited to attend and participate.	

2.2	<p>Family Engagement Satisfaction: Annual school culture survey results where families share their satisfaction level with the available opportunities for involvement at the school.</p>	<p>81% of KIPP families (TK-4: 78%, 5-8: 83%) were satisfied with the parent participation opportunities available at the school in the 23-24 school year.</p>			<p>75% of KIPP families are satisfied with the participation opportunities available at the school.</p>	
2.3	<p>Student Average Daily Attendance: The average percent of students attending school daily.</p>	<p>KIPP reported 90.18% attendance for P2.</p>			<p>95% average daily attendance or higher in the P2 reporting period.</p>	
2.4	<p>Student Chronic Absenteeism: Percent of students missing 10% or more of the enrolled school year.23-24 baseline data has been used to set 3 year goals.</p>	<p>SY: 23-24 KIPP is tracking at 39% chronic absenteeism rate in the current school year for all students SED/FRL (low income students): 38% ML (multilingual learners): 33% SWD (students with disabilities): 43%</p>			<p>Reduce chronic absence to MEDIUM on the CA Dashboard, with 3% or greater reduction YoY</p>	
2.5	<p>Student Suspensions:</p>	<p>SY22-23 All students: 3%</p>			<p>Maintain MEDIUM on the CA Dashboard, with</p>	

	The percent of students (count) that have been suspended from school.	Students that qualify as low-income: 3.4% Multilingual learners: 0.9% Students with disabilities: 11.1%			.5% or greater reduction YoY.	
2.6	Student Expulsions: The percent of students that have been expelled from school.	KIPP's 22-23 expulsion rate was 0%.			1% or lower expulsion rate.	
2.7	Drop Out Rate: Students who dis-enroll and do not re-enroll in another public, private or alternative program or school.	NA			2% or lower drop out rate.	
2.8	School Safety: Annual school culture survey results: teachers and students share their perception of student's "emotional safety" at school.*Survey is anonymous and therefore demographic differentiation for responses is not possible to report.	In the 23-24 school year, 59% of students (TK-2: 61%, 3-8: 56%) surveyed responded positively in feeling a sense of emotional safety with school staff and peers. In the 23-24 school year, 55% of staff responded positively when asked about "having the resources to appropriately support our students' emotional			65% of students and staff respond positively when asked about "students feeling/being safe at school" on an annual survey.	

		and behavioral needs".				
2.10	<p>The School Family Culture Index represents questions from the Family School Culture Survey that make up the family school culture experience. The index considers the percent of positive family responses across the following questions:</p> <p>The teachers have built strong relationships with my child.</p> <p>The school has a positive impact on my child's academic performance.</p> <p>How fairly is your child treated by staff?</p> <p>How stressed does your child feel about experiences related?</p> <p>*Survey is anonymous and therefore demographic differentiation for responses is not possible to report.</p>	<p>In the 23-24 school year, 75% of surveyed KIPP families (TK-4: 77%, 5-8: 72%) have had a positive experience with the school.</p> <p>In the 23-24 school year, 81% of surveyed KIPP families indicated that "the teachers have built strong relationships with my child".</p>			75%+ of families have a positive experience with the school.	

Goal Analysis [2023-24]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Family involvement and support:	KIPP encourages families to be active members of the school by providing multiple opportunities for participation and engagement, such as the KIPP Family Association, LCAP meetings, and student productions to showcase talent. The Advocacy and Community Engagement (ACE) team works to disrupt racial and socioeconomic inequalities in educational access and outcomes by fostering an inclusive culture of family engagement, building a support network of community-based organizations, and empowering families to be advocates for their children and communities. The school's dedicated ACE team member provides focused coaching and feedback, collaborates on community outreach, and develops strategies to increase parent participation.	\$101,871.55	Yes

2.2	Improve attendance:	The school administration recognizes the importance of improving regular attendance and has assigned dedicated staff to spearhead the effort. The school has implemented a series of "parents as partners" initiatives that aim to foster a sense of belonging and connection to the school among families. Key strategies include making live, personal phone calls to the family of any student who is absent, sending personalized mailed communications in families' home languages to encourage them to prioritize attendance, and scheduling intervention meetings between school staff and families to collaboratively address attendance concerns.	\$30,615.60	Yes
2.3	Communication resources:	KIPP demonstrates a continued commitment to the "more time" model that supports struggling students by providing communication resources to facilitate interaction between teachers and students/families. KIPP staff are issued work cell phones, and students and families also have access to teachers through email and the ParentSquare messaging system. These resources allow for calls and other contact outside of the regular school day, enabling students/families to get the additional support needed to make progress on coursework and helping to build meaningful relationships between staff and families.	\$39,586.47	Yes
2.4	Improving school climate:	Social emotional learning (SEL) is a critical component of KIPP's model that focuses on developing students' emotional intelligence, self-awareness, self-regulation, social awareness, and relationship skills. KIPP provides SEL instruction and opportunities for students to practice these skills, helping to further develop the resilience, empathy, and communication skills students need to thrive in school and beyond. Additionally, KIPP aims to create a positive and inclusive school culture where students feel safe, respected, and connected to their peers and teachers.	\$174,552.50	Yes
2.5	Mental health clinician:	The mental health clinician plays a critical role in providing on-site culturally responsive and trauma-informed mental health and socioemotional support to students on campus. These clinicians offer a range of services, including psychotherapeutic interventions, behavioral supports, teacher coaching	\$272,429.54	Yes

		and mental health treatment services such as counseling, consultation, treatment, and case management for students receiving either Educationally Related Mental Health Services or general education counseling.		
2.6	Community Schools:	<p>KIPP has received implementation grant funding from the California Community Schools Partnership Program (CCSPP) as a part of Cohort 2 and will spend the next five years and efforts on implementing these initiatives that are specifically aligned with the Four Pillars of Community Schools - 1. Integrated Student Supports; 2. Expanded and Enriched; 3. Learning Time and Opportunities; 4. Collaborative Leadership and Practices. Research has shown that full-service community schools are an effective place-based strategy to meet the educational needs of high need students, especially students who come from historically underserved, impoverished communities. Community school interventions have shown to have a positive impact on various outcomes: academic achievement, high school graduation, attendance, and overall, improved wellbeing and a sense of self. Students and families also feel more supported by their community and more empowered; they're equipped with the right tools and resources needed to lead productive fulfilling lives.</p> <p>Regional Collaborative Care and Support Managers (CCSMs) will be hired with CCSPP funds to champion our whole child approach, boost student behavior health, and align resources across teams, schools, and community partners. CCSMs will serve as: the main drivers behind needs assessment work, project managers overseeing the implementation of community schools initiatives, resource managers, act as participants and leaders of the coordination of services; and lastly, they will manage Coordination of Service referrals.</p>	\$69,772.93	Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	All students will have the spaces, resources and opportunities to achieve.	Maintenance of Progress Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
 Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

Increase or maintain the rate of students who have access to common core aligned materials.
 Increase or maintain the rate of teachers who feel they receive adequate professional development.
 Increase or maintain the rate of students that have access to a full and rigorous course schedule.
 Ensure that facilities are maintained and in good condition.
 Increase or maintain the rate of teachers who are credentialed.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.1	Teacher Resources: Annual teacher survey results: teacher satisfaction with access to current, standards-aligned instructional materials for their classrooms.	KIPP teachers reported 79% satisfaction (TK-4: 77%, 5-8: 80%) with student's access to rigorous academic curriculum in the 23-24 school year.			KIPP teachers report 75% or higher satisfaction with access to standards-aligned materials for their classrooms in an annual survey.	
3.2	Teacher Professional Development:	KIPP teachers reported 76% satisfaction (TK-4: 92%, 5-8: 60%) with the			KIPP teachers report 75% or greater satisfaction	

	Annual teacher survey results: teacher satisfaction with the school's commitment to improving teacher's instructional practice.	school's commitment to improving their instructional practice in the 23-24 school year.			with the school's commitment to improving their instructional practice.	
3.3	Access to Rigorous Courses: Percent of students that have access to a full and robust course schedule as defined by the state.	100% of students were enrolled in a broad and rigorous course schedule as defined by the state.			100% of students will have access to a full and robust course schedule as defined by the state.	
3.4	Facilities Inspection Tool: Annual inspection of school facilities and major systems by the county office of education.	KIPP received a rating of "Good" during an annual inspection of the school's facilities and major systems by the county office of education.			Facilities inspection tool: Facility rating of "fair" or above during the annual inspection of school facilities and major systems by the KIPP Facilities Team.	
3.5	Teacher Credentialing: Status of teachers credentialed and teaching core classes.	100% of teachers are credentialed, 6% of teachers (2) are mis-assigned in the 23-24 school year.			100% of core teachers are credentialed and appropriately assigned.	
3.6	Teacher Retention: The rate at which current year teachers are expected to return the following school year.	88% (TK-4) and 64% (5-8) of teachers are expected to return in the 24-25 school year from the previous year.			80% of teachers are expected to return for the following school year.	

Goal Analysis [2023-24]

An analysis of how this goal was carried out in the previous year.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Hiring process:	KIPP implements a rigorous hiring process, which includes screening, formal and informal interviews, performance tasks, curricular and teacher materials review, teaching demonstrations, and reference checks by a dedicated team.	\$76,040.82	Yes
3.2	Title I and II, improving academic outcomes:	KIPP teachers receive observation, coaching, and support from school leadership to improve outcomes for students, with a focus on students identified as needing additional interventions. This development and coaching is customized, supporting both the students and the teachers' growth and development.	\$254,837.10	Yes

3.3	Credentialing Specialist:	KIPP employed personnel responsible for supporting the adequate credentialing of teachers. This dedicated resource supported the school and teachers through credential transition guidance, and housing and onboarding assistance. This additional resource ensures that teachers are always prepared to offer the highest quality instruction to all students.	\$70,451.82	No
3.4	Resources:	KIPP prioritized the need for excellent resources and provided teachers with the supplies, learning tools and technology that they needed to teach common core curriculum in the classroom successfully. The annual selection process for these materials required a robust, in-depth review of student performance data by subgroup and included many learning modalities, including reading materials, text books, planners, classroom equipment, testing materials and more. Only materials that could meet the needs of all students were selected and used to bring all student subgroups to the highest level of achievement.	\$392,252.28	No
3.5	More teacher time:	In an effort to close academic gaps, KIPP teachers spend more time instructing students than is required by the state. All teachers commit to this increased instructional time, and KIPP offers competitive teacher salaries to support this "more time" model.	\$254,307.85	Yes
3.6	Custodial and facility staff:	KIPP prioritized creating a safe, clean and welcoming learning environment. KIPP continued strict cleaning and disinfecting procedures that were developed as a result of the COVID-19 pandemic in alignment with CDC health and safety standards. KIPP invested in additional equipment including disinfectant wipes and hand washing station supplies,	\$310,177.51	No

		and in additional training for janitorial staff to ensure that high cleaning standards were met.		
3.7	Facilities and emergency procedures:	KIPP invested in the maintenance (repairs, security, rent, utilities) of school buildings to keep them at the standard that all students deserve. KIPP had procedures for emergencies to ensure the safety of students and staff -- including a comprehensive school safety plan that included fire, earthquake, intruder and infectious diseases procedures. Regular maintenance reviews ensured that issues were identified and addressed as quickly as possible.	\$1,113,319.89	No
3.8	KIPP teachers:	<p>KIPP is committed to providing high quality teachers by offering competitive teacher salaries that allow us to attract a capable and diverse staff.</p> <p>Teachers have the most direct, sustained contact with students. Research suggests that, among school-related factors, teachers matter most. When it comes to student performance on reading and math tests, a teacher is estimated to have two to three times the impact of any other school factor, including services, or facilities. Therefore, teachers who work at KIPP must have strong and positive recommendations, evidence of strong connections with students and their families, must be team players, flexible, smart, community service oriented, embody and exemplify the values of the school, and be committed to the vision and mission of KIPP.</p>	\$2,267,018.47	No
3.9	Personal learning technology devices:	KIPP is committed to continuing access to technology by providing each student with a Chromebook. These devices have been integrated into the learning experience, enabling students to research, collaborate, and create. They provide access to a wealth of educational resources,	\$130,223.26	Yes

		including online textbooks, interactive learning platforms, and educational applications.		
3.10	Health and safety:	<p>KIPP’s focus has been on reducing risk by layering strategies that protect the health and safety of our students and staff.</p> <p>All students deserve healthy spaces where they can learn and thrive.</p>	\$22,600.00	No
3.11	Support for new teachers:	Teachers new to KIPP receive an additional week of dedicated professional development and onboarding to best prepare them to support students. Additional support includes high-quality dedicated coaching where new teachers have the opportunity to apply what they learned, gain hands-on experience in real classrooms, differentiated instruction, and working directly with diverse learners in a supervised context.	\$59,968.88	Yes
3.12	Expanded enrichment opportunities:	<p>KIPP schools serve as safe and accessible spaces for students by providing at least nine hours of on-campus opportunities daily. Morning on-campus activities may include access to breakfast, teacher and staff support, as well as early drop-off for busy families. After school activities may include enrichments, clubs, tutoring, sports, or other extracurricular activities.</p> <p>KIPP also provides intersession opportunities during non-school days.</p>	\$984,041.65	Yes
3.13	KIPP Contributions	The KIPP 401(k) Plan is designed to help KIPP employees save for the future by making 401(k) contributions on a tax-advantaged basis. For employees who make 401(k) salary deferral contributions, KIPP Northern California makes matching contributions to the account based on the 401(k) contributions each pay period, helping employees grow their money over time.	\$159,921.36	Yes

3.14	Continuity of Learning:	KIPP employs multiple direct financial strategies to support increased teacher retention, including intent to return bonuses, as well as increased stipends for teaching staff that provide in-house teaching substitution. These strategies aim to ensure continuity of learning for students by fostering a stable teaching environment and addressing the challenges of teacher absences.	\$56,594.53	Yes
3.15	Mental Health for All:	The mental health for all initiative focuses on supporting the mental health of KIPP staff through new holistic resources, supports, and training. Staff receive access to fast, dependable connections to mental health professionals for benefit-eligible staff and dependents, as well as a learning platform through Headspace 12 therapy sessions annually for benefit-eligible staff and dependents at no cost; opportunities for input through an organization-wide survey to inform how to better integrate mental health into KIPP's people culture strategy; role-based training for all leaders across the region; and the formation of a region-wide Mental Health Workgroup.	\$5,793.00	Yes

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.1	<p>Action: Support for multilingual learners:</p> <p>Need: KIPP has a higher population of multilingual learners than the state of California and is</p>	Multilingual learners may face unique challenges in the classroom, such as difficulty understanding instruction, limited English vocabulary, and cultural differences that may impact their learning experience. These challenges can hinder academic progress. By providing these additional supports, KIPP can help multilingual learners succeed academically and reach their full potential. This not only benefits the individual	ELPI and reclassification results.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>exceeding the state’s results for English Learner Progress (ELPI).</p> <p>Scope: LEA-wide</p>	<p>students but also contributes to the overall success of the school and the broader community.</p>	
<p>1.4</p>	<p>Action: Professional development:</p> <p>Need: KIPP’s majority student population qualify as socioeconomically disadvantaged. Recent state testing results (2022-23) for socio-economically disadvantaged exceeded or met the results of the authorizing district.</p> <p>Scope: LEA-wide</p>	<p>Teachers who participate in effective professional development programs gain new skills, knowledge, and strategies that help them better support students with the highest needs. For example, professional development provides teachers with training in culturally responsive practices, differentiated instruction, and strategies for working with students who have experienced trauma. This supports teachers in better understanding and meeting the needs of unique student experiences, and ultimately leading to improved academic achievement and better outcomes.</p> <p>KIPP is dedicated to seeing growth and will allocate dedicated time to professional development to improve results, as research indicates that sustained, intensive professional development focusing on specific instructional practices and content knowledge is associated with improved student achievement (Darling-Hammond et al., 2017; Yoon et al., 2007). By allocating significantly more time to professional development compared to the district, with 10+ fully dedicated days for all teachers, KIPP demonstrates its investment in its teachers' continuous growth and improvement. This increased time allows for deeper exploration of effective teaching strategies, data analysis, and collaboration among educators, which in turn leads to better-equipped teachers who can more</p>	<p>State testing results - ELA and Mathematics with a focus on socioeconomically disadvantaged pupils.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		effectively meet the diverse needs of their students (Desimone, 2009). Given that the total number of professional development days is significantly higher than the district and the development approach is focused on KIPP's highest-need students, this action will contribute to increasing services to teachers and therefore improving academic achievement and engagement for the school's unduplicated students, such as those who are socioeconomically disadvantaged and/or multilingual learners.	
1.5	<p>Action: Title III:</p> <p>Need: KIPP has a higher population of multilingual learners than the state of California and is exceeding the state's results for English Learner Progress (ELPI).</p> <p>Scope: LEA-wide</p>	ELPI and reclassification results.	Research has shown that targeted professional development and coaching for teachers can significantly improve the effectiveness of instruction for multilingual learners (Darling-Hammond et al., 2017; Garet et al., 2001). By providing training and facilitating data meetings where teachers, APs, and instructional coaches review student data, the ML instructional coach enables data-driven instructional decisions and promotes the effective implementation of ML instructional strategies. This approach aligns with evidence-based practices that emphasize the importance of using data

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
			<p>to inform instruction and support student learning (Hamilton et al., 2009). Furthermore, the ML instructional coach's targeted coaching and feedback through classroom observations ensures that teachers receive individualized support to improve their practice, which has been shown to be an effective method for enhancing teacher quality and student outcomes (Joyce & Showers, 2002; Knight, 2007). The identification of supplemental regional curricula and educational technology designed specifically to improve outcomes for ML students further demonstrates KIPP's commitment to providing high-quality, evidence-based resources for student learning.</p>
<p>1.6</p>	<p>Action: Data analysis and visualization:</p> <p>Need: The majority of KIPP students qualify as socio-economically disadvantaged. According to a report by the National Center for Education</p>	<p>By regularly reviewing critical data such as grades, testing results, and attendance, KIPP can identify early warning signs of academic struggles and provide targeted interventions. KIPP data demonstrates that socio-economically disadvantaged students meet more thresholds for intervention than all other students. These data</p>	<p>State testing results - ELA and Mathematics.</p> <p>Attendance and chronic absence results With a focus on socioeconomically</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Statistics, these students are more likely to face academic challenges such as lower proficiency levels, higher dropout rates, and lower college enrollment rates than their higher-income peers.</p> <p>Scope: LEA-wide</p>	<p>analysis and visualization tools help school teams better understand a student's holistic experience at school, support increased identification of early and meaningful interventions, and improve the number of services to the school's unduplicated student population (students qualifying as socioeconomically disadvantaged).</p>	<p>disadvantaged students on both data results.</p>
<p>1.7</p>	<p>Action: Small group reading focus:</p> <p>Need: The literacy gaps in KIPP's most vulnerable populations, Black Student Learners, Multilingual Language Learners, and Student Learners with Disabilities, are the largest when compared to "all students."</p> <p>Scope: LEA-wide</p>	<p>Literacy Tier 1 instruction aims to address the gaps in word recognition in order to increase language comprehension and ultimately, reading comprehension. Research has consistently shown that explicit, systematic instruction in phonemic awareness, phonics, fluency, vocabulary, and comprehension strategies is effective for improving reading skills in all students, including those who are struggling readers (National Reading Panel, 2000; Foorman et al., 2016). By providing targeted small group instruction that focuses on these essential components of reading, KIPP is implementing evidence-based practices that have been shown to benefit all students, regardless of their background or learning needs. Furthermore, by ensuring that these support programs are culturally responsive and tailored to meet the unique needs of the school's student population, KIPP is addressing the importance of culturally relevant pedagogy in promoting academic success for all students (Ladson-Billings, 1995; Gay, 2010). KIPP's daily focus on reading and additional opportunities to learn and practice are prioritized for students facing the widest learning gaps, ultimately increasing and improving services for the school's unduplicated student population (multilingual learners, socioeconomically disadvantaged, other subgroups identified by</p>	<p>State testing results - ELA.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		KIPP). However, these evidence-based practices and the emphasis on culturally responsive teaching also serve to benefit all students by creating a more inclusive and effective learning environment that supports the development of strong literacy skills.	
2.1	<p>Action: Family involvement and support:</p> <p>Need: Increasing family involvement can have a significant positive impact on the academic achievement and social-emotional development of students who qualify as socioeconomically disadvantaged. When families are actively involved in their children's education, it can lead to improved academic performance, increased motivation, better attendance, increased engagement, and improved social-emotional well-being. By working together with families, schools can help create a more equitable and inclusive education system that greatly benefits the highest need students while also seeing improvement for all students.</p> <p>Scope: LEA-wide</p>	The actions taken by KIPP to encourage family involvement have been specifically tailored to support families with additional needs, such as flexible and varied event times and opportunities, translated and accessible materials, and dedicated ACE staff. These actions increase and improve services for the school's unduplicated student population, which includes students who qualify as socioeconomically disadvantaged and multilingual learners. Family involvement helps create a supportive home environment that reinforces the importance of education, which helps children stay on track with their school work. When parents and family members are involved in their children's education, students feel more supported and encouraged to do well in school, which can help increase student engagement and motivation to succeed academically. Additionally, family involvement can help improve student attendance and foster positive social-emotional development. By providing these services on an LEA-wide or schoolwide basis, KIPP ensures that all students, particularly those from disadvantaged backgrounds, benefit from the positive outcomes associated with increased family involvement in education.	Family engagement opportunities, family engagement satisfaction survey results.
2.2	<p>Action: Improve attendance:</p>	The school takes a non-punitive, personal approach to build strong relationships and understand the unique circumstances of each family. These additional supports are intended to improve attendance for KIPP's highest needs	Chronic absence and average daily attendance rates with a focus on socioeconomically disadvantaged students.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Need: While the school continues to make significant gains in reducing chronic absence, over 20% of students that qualify as socioeconomically disadvantaged are still chronically absent. Regular attendance is crucial for students to fully participate in classroom activities, engage with teachers and peers, and receive necessary academic and social-emotional support.</p> <p>Scope: LEA-wide</p>	<p>students, and with this focus, the school anticipates improved attendance across all students. The increased opportunities and personal connections/touch points with families contribute to increasing services for the school's high unduplicated student population.</p> <p>By providing personalized support and building strong relationships with families, the school is implementing evidence-based practices that have been shown to improve attendance. A report by Attendance Works (2017) emphasized the importance of implementing multi-tiered systems of support (MTSS) that provide targeted interventions for students with attendance challenges. The report also highlighted the effectiveness of strategies such as positive messaging, family engagement, and data-driven decision making in promoting regular attendance. By focusing on improving attendance for its highest-need students and providing these services on an LEA-wide or schoolwide basis, KIPP ensures that all students, particularly those from disadvantaged backgrounds, benefit from the positive outcomes associated with regular attendance.</p>	
2.3	<p>Action: Communication resources:</p> <p>Need: KIPP has seen promising results on the school culture index, which represents questions from the Family School Culture</p>	<p>The accessible touchpoints between KIPP teachers and students/families provided through communication resources can improve students' engagement and motivation, leading to better academic outcomes. Research has shown that strong teacher-student relationships are associated with increased student engagement, higher academic achievement, and better social-emotional outcomes (Roorda, Koomen, Spilt, & Oort, 2011). Furthermore, a meta-analysis by</p>	<p>Family school culture index and student / teacher relationships results.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Survey that make up the student and family experience. While these results are currently positive, KIPP wants to continue to focus on activities that support connection due to the high number of students that qualify as socioeconomically disadvantaged.</p> <p>Expanded learning time initiatives have demonstrated great promise in improving academic outcomes among students who are most likely to fall behind. Building positive relationships between teachers and students is crucial for creating a supportive and safe learning environment that encourages engagement and motivation. This is particularly important for students who may lack support at home or have experienced trauma or stress that may affect learning.</p> <p>Scope: LEA-wide</p>	<p>Hattie (2009) found that teacher-student relationships have a significant positive effect on student learning.</p> <p>Providing opportunities for extended learning time and facilitating communication between teachers and students/families is particularly beneficial for unduplicated student populations, such as those who qualify as socioeconomically disadvantaged. A report by the National Center on Time and Learning (2015) highlighted the effectiveness of expanded learning time programs in improving academic outcomes for disadvantaged students, noting that these programs can help close achievement gaps and promote educational equity.</p> <p>By offering communication resources and opportunities for extended learning time on an LEA-wide or schoolwide basis, KIPP ensures that all students, particularly those from disadvantaged backgrounds, have access to the support and resources they need to succeed academically. This approach is supported by research emphasizing the importance of providing comprehensive, schoolwide interventions to address the needs of struggling students (Borman, Hewes, Overman, & Brown, 2003; Sailor et al., 2006).</p>	
2.4	<p>Action: Improving school climate:</p> <p>Need: Suspension rates remain higher for KIPP students that qualify as socioeconomically</p>	<p>Social-emotional learning practices require a larger, whole-school initiative to truly support those who are most vulnerable, as all students, staff, and leaders participate in shared learning and actions, such as morning community circles, restorative practices, chants, and restorative attendance conferences. Research has consistently shown that SEL programs have a positive impact on</p>	<p>Student suspension rates, with a focus on socioeconomically disadvantaged students.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>disadvantaged students compared to “all KIPP students,” as reported on the CA Dashboard.</p> <p>Students who attend KIPP may face challenges including food scarcity, unstable living conditions, limited access to essential resources, and sometimes even severe trauma. Supporting a restorative approach to behavioral interventions and leveraging strong social-emotional instruction ensures KIPP is working with students and families to develop trust, empathy, and strong relationships that lead to better outcomes for students.</p> <p>Scope: LEA-wide</p>	<p>students' academic performance, behavior, and mental health (Durlak, Weissberg, Dymnicki, Taylor, & Schellinger, 2011; Taylor, Oberle, Durlak, & Weissberg, 2017). A meta-analysis by Durlak et al. (2011) found that students who participated in SEL programs demonstrated significant improvements in social and emotional skills, attitudes, behavior, and academic performance compared to students who did not participate in such programs.</p> <p>SEL programs have been found to be particularly beneficial for students who qualify as socioeconomically disadvantaged and those who have experienced trauma (Jagers, Rivas-Drake, & Williams, 2019; Jennings & Greenberg, 2009). By providing SEL instruction and support on an LEA-wide or schoolwide basis, KIPP ensures that all students, particularly those who are most vulnerable, have access to the resources and support they need to develop essential social and emotional competencies. This approach aligns with research highlighting the importance of implementing comprehensive, schoolwide SEL initiatives to create a positive school climate and promote the well-being and success of all students (Elias et al., 1997; Greenberg et al., 2003).</p>	
2.5	<p>Action: Mental health clinician:</p> <p>Need: KIPP would like to see growth in the emotional safety and support of student survey results, which represents questions from the The New Teacher Project (TNTP). KIPP wants to continue to focus on activities that support connection to resources due to the high</p>	<p>Addressing poverty and providing mental health resources for students can help alleviate stressors and improve mental health, leading to better academic performance and overall well-being. The services provided by the mental health clinicians are part of a larger multi-tiered system of support (MTSS), which offers specific interventions based on need. Research has shown that MTSS is an effective framework for addressing the academic, behavioral, and social-emotional needs of all</p>	<p>Emotional safety and support of students survey results.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>number of students that qualify as socioeconomically disadvantaged.</p> <p>Scope: LEA-wide</p>	<p>students, particularly those who face additional challenges (Averill & Rinaldi, 2011; Sugai & Horner, 2009).</p> <p>A study by Fazel, Hoagwood, Stephan, and Ford (2014) found that school-based mental health services can significantly improve academic outcomes and reduce emotional and behavioral problems among students, especially those from low-income families. Furthermore, research by Durlak, Weissberg, Dymnicki, Taylor, and Schellinger (2011) demonstrated that universal social and emotional learning programs, which are a key component of MTSS, can lead to significant improvements in students' social and emotional skills, attitudes, behavior, and academic performance.</p> <p>While all students will benefit from the implementation of an MTSS and the support of mental health clinicians, KIPP's students who qualify as socioeconomically disadvantaged may require higher tier interventions, which include services supported or coordinated by the mental health clinician. This targeted approach aligns with research emphasizing the importance of providing intensive, individualized support for students with the greatest needs (Fuchs & Fuchs, 2006; Lane, Oakes, & Menzies, 2014). By providing these services on an LEA-wide or schoolwide basis, KIPP ensures that all students, particularly those from disadvantaged backgrounds, have access to the mental health support they need to thrive academically and emotionally, ultimately increasing and improving services for the school's unduplicated student population.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
<p>2.6</p>	<p>Action: Community Schools:</p> <p>Need: Research has shown that full-service community schools are an effective place-based strategy to meet the educational needs of high-need students. Students from disadvantaged backgrounds often face a range of challenges that can impact their academic success, such as poverty, trauma, and limited access to resources and support services (Oakes, Maier, & Daniel, 2017).</p> <p>Scope: LEA-wide</p>	<p>By implementing the Four Pillars of Community Schools, KIPP is working to create a comprehensive support system that addresses the diverse needs of its students and families. The Regional Collaborative Care and Support Managers (CCSMs) will play a crucial role in this initiative by serving as the main drivers behind needs assessment work, project managers overseeing the implementation of community schools initiatives, resource managers, participants and leaders in the coordination of services, and managers of Coordination of Service referrals. This collaborative and integrated approach aligns with research highlighting the importance of providing comprehensive, wraparound services to support the success of students from disadvantaged backgrounds (Dryfoos, 2000; Valli, Stefanski, & Jacobson, 2014).</p> <p>By implementing the community schools model on an LEA-wide or schoolwide basis, KIPP is working to improve services for its unduplicated student population. Research has shown that community schools can be particularly effective in supporting the needs of students from families and communities that qualify as low-income (Heers, Van Klaveren, Groot, & Maassen van den Brink, 2016; Maier et al., 2017). Through this initiative, students and families will feel more supported by their community and more empowered, as they build important skills.</p>	<p>Chronic absence rates and school culture index responses.</p>
<p>3.1</p>	<p>Action: Hiring process:</p> <p>Need:</p>	<p>By implementing a rigorous hiring process that focuses on diverse and equitable hiring practices, KIPP is working to ensure that all students, particularly those who qualify as socioeconomically disadvantaged, have access to</p>	<p>Teacher credential data results.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Research has consistently shown that teacher quality is one of the most important factors influencing student achievement, particularly for students that qualify as socioeconomically disadvantaged (Darling-Hammond, 2000; Rivkin, Hanushek, & Kain, 2005). A study by Egalite, Kisida, and Winters (2015) found that students of color who were taught by teachers of the same race/ethnicity experienced positive effects on their academic achievement and attitudes towards school.</p> <p>This dedicated team supplements the traditional hiring process by focusing on diverse and equitable hiring practices, with goals to bring in staff that can best support high-needs students and increase the number of teaching staff who self-identify as people of color.</p> <p>Scope: LEA-wide</p>	<p>high-quality teachers who can best support their learning needs. Effective teachers are subject to robust screenings to ensure they will be successful working with KIPP communities to improve the quality of instruction for KIPP's unduplicated student population.</p> <p>This approach aligns with research emphasizing the importance of providing students that qualify as socioeconomically disadvantaged with access to highly effective teachers and a diverse teaching workforce in order to promote educational equity and improve student outcomes (Darling-Hammond, 2015; Ingersoll & May, 2011). By providing these services on an LEA-wide or schoolwide basis, KIPP ensures that all students, regardless of their background, have the opportunity to learn from skilled and diverse educators who can help them achieve academic success.</p>	
3.2	<p>Action: Title I and II, improving academic outcomes:</p> <p>Need: KIPP has seen mixed results between elementary and middle school teacher's experiences with their professional development, which represents questions from the The New Teacher Project (TNTP) survey.</p>	<p>Through targeted professional development led by the school's leadership, effective, evidence-based educational strategies are taught and modeled to close the achievement gap and enable high-needs students to meet the state's challenging academic standards. Research has consistently shown that high-quality professional development can significantly improve teacher effectiveness and student achievement (Darling-Hammond, Hyler, & Gardner, 2017; Yoon, Duncan, Lee, Scarloss, & Shapley, 2007). A meta-analysis by Kraft, Blazar,</p>	Teacher professional development survey results.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>While these results are trending positive, KIPP wants to continue to focus on teacher development as we embark on the implementation of a new regional academic curriculum.</p> <p>Strong, supportive, and prepared teachers are critical to student achievement, particularly for students who qualify as socioeconomically disadvantaged or have been identified as needing additional support. These students often face educational inequities and may require more targeted interventions and high-quality instruction to close achievement gaps (Darling-Hammond, 2010; Isenberg et al., 2016).</p> <p>Scope: LEA-wide</p>	<p>and Hogan (2018) found that teacher coaching had a positive effect on student achievement, with larger effects observed in studies that focused on specific subject areas and provided more intensive coaching.</p> <p>Research has highlighted the importance of teacher retention and continuity in promoting student success, particularly in high-needs schools (Ronfeldt, Loeb, & Wyckoff, 2013; Sutcher, Darling-Hammond, & Carver-Thomas, 2016). By providing ongoing professional development opportunities and supporting a leadership pipeline, KIPP is working to build continuity in teaching and leadership for the school communities, which can contribute to improved student outcomes.</p> <p>Providing targeted development for teachers with these additional resources in order to attain higher academic achievement contributes to increasing and improving services for the school's unduplicated student population, particularly those who qualify as socioeconomically disadvantaged</p>	
3.5	<p>Action: More teacher time:</p> <p>Need: Students who qualify as socioeconomically disadvantaged often face educational inequities and may require additional instructional time and support to close achievement gaps and stay engaged in school (Patall, Cooper, & Allen, 2010; Redd et al., 2012).</p>	<p>More time initiatives have shown promise in improving academic outcomes among students who are most likely to fall behind. Research has demonstrated that increased instructional time can lead to improved student achievement, particularly for students from disadvantaged backgrounds (Battistin & Meroni, 2016; Figlio, Holden, & Ozek, 2018). By providing additional focused time, KIPP aims to support struggling students, engage them more fully, and reduce the likelihood of dropping out. This contributes to increasing services for the school's unduplicated student population. Offering competitive teacher salaries helps attract and</p>	<p>Teacher academic curriculum survey results.</p> <p>State testing results - ELA and Mathematics.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>KIPP has seen promising results in teacher's alignment with KIPP's academic approach, which represents questions from the The New Teacher Project (TNTP) survey. While these results are currently positive, KIPP would like to ensure that teachers remain engaged as we embark on a new regional curriculum.</p> <p>Scope: LEA-wide</p>	<p>retain high-quality educators, which is crucial for implementing effective extended learning time programs (Darling-Hammond, 2000; Ronfeldt, Loeb, & Wyckoff, 2013). By providing these services on an LEA-wide or schoolwide basis, KIPP ensures that all students have access to the additional instructional time and support they need to succeed academically and stay engaged in school.</p>	
<p>3.9</p>	<p>Action: Personal learning technology devices:</p> <p>Need: Families are surveyed about access to the internet at home and comfort with navigating technology in order to build technology fluency that prepares students and families for next-generation learning. Support of students and families during the COVID-19 crisis showed higher technology needs for KIPP's student population that qualifies as socioeconomically disadvantaged.</p> <p>Scope: LEA-wide</p>	<p>KIPP maintains a 1:1 ratio for devices to ensure no student has a gap in access, and devices are available for at-home use if needed. Research shows that access to technology and digital tools can enhance learning, engagement, and achievement, particularly for disadvantaged students (Darling-Hammond et al., 2014; Zheng et al., 2016). Providing technology access and support is crucial for promoting educational equity and preparing students for success in a digital world (Warschauer et al., 2004). The continuation of robust technology supports serves to increase and improve services for KIPP's unduplicated student population, particularly those who qualify as socioeconomically disadvantaged. By providing these services on an LEA-wide or schoolwide basis, KIPP ensures all students have the tools and support they need to succeed in a technology-driven learning environment.</p>	<p>Teacher academic curriculum survey results.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
<p>3.11</p>	<p>Action: Support for new teachers:</p> <p>Need: New teacher development plays a crucial role in achieving success with students who may have higher learning needs.</p> <p>KIPP has seen mixed results between elementary and middle school teacher's experiences with their professional development, which represents questions from the The New Teacher Project (TNTP) survey. While these results are trending positive, KIPP wants to continue to focus on teacher development as we embark on the implementation of a new regional academic curriculum.</p> <p>Scope: LEA-wide</p>	<p>By investing in a new teacher development program, KIPP equips educators with the necessary knowledge, tools, and support to more effectively meet the needs of diverse learners. Research has shown that high-quality teacher induction and mentoring programs can improve teacher effectiveness, retention, and student achievement (Ingersoll & Strong, 2011; Schmidt, Young, Cassidy, Wang, & Laguarda, 2017). New teachers who undergo this development build a deeper understanding of the specific needs of their students, enabling them to create inclusive and engaging learning environments. Additional professional development and onboarding time to prepare new KIPP teaching staff serves to improve services for the school's unduplicated population, particularly those who qualify as socioeconomically disadvantaged and multilingual learners. By providing these services on an LEA-wide or schoolwide basis, KIPP ensures that all students, regardless of their background or learning needs, have access to well-prepared and supported teachers who can effectively facilitate their academic success.</p>	<p>Teacher professional development survey results.</p>
<p>3.12</p>	<p>Action: Expanded enrichment opportunities:</p> <p>Need: Students who qualify as socioeconomically disadvantaged may face challenges in accessing extracurricular activities or may not have a safe and supportive environment</p>	<p>Research conducted by the Afterschool Alliance (2016) showed that participation in after-school programs was associated with improved academic performance, particularly in reading and math. The study also found that students who participate in after-school programs are more likely to graduate high school and pursue post-secondary education. After-school programs provide a safe and supportive environment for students, particularly those who qualify as socioeconomically disadvantaged and may not have access to</p>	<p>Family school culture index and emotional safety and support of students survey results.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>outside of school hours. These students may also benefit from additional learning opportunities and support to help close the achievement gap (Afterschool Alliance, 2016; Lauer et al., 2006).</p> <p>Scope: LEA-wide</p>	<p>extracurricular activities or face other challenges at home. By offering extended enrichment time, KIPP contributes to increasing (time) and improving (quality) services for the school's unduplicated student population. By providing these services on an LEA-wide or schoolwide basis, KIPP ensures that all students, regardless of their background or family resources, have access to a wide range of enriching activities and support that can foster their academic, social, and emotional development.</p>	
<p>3.13</p>	<p>Action: KIPP Contributions</p> <p>Need: During a period where many districts reduced roles, cut benefits, or other staff services, KIPP maintained normal hiring and return practices and has retained the discretionary 401(k) matching option at 100% of the 4% employee contribution. These employee services are intended to support teachers in their professional and personal endeavors while also aiming to retain quality teachers at higher rates year over year. High teacher turnover can disproportionately impact students with high needs, as they may experience a lack of continuity in their learning and development (Ronfeldt, Loeb, & Wyckoff, 2013; Simon & Johnson, 2015).</p>	<p>KIPP 401(k) matching contributions are supplemental and serve as a way to support and retain high-quality teaching talent in the competitive Bay Area market. Research has shown that teacher retention is crucial for promoting student achievement and creating a stable learning environment, particularly in schools serving high-needs populations (Darling-Hammond, 2000; Ingersoll, 2001). By offering competitive benefits and supporting teachers' financial well-being, KIPP aims to increase retention rates and ensure continuity of learning and development for students who are disproportionately impacted by high teacher turnover. This is especially important for KIPP schools, where the percentage of students with high needs is significantly higher than the state average. Studies have found that teacher turnover can negatively affect student achievement, with a more pronounced impact on students from disadvantaged backgrounds (Hanushek, Rivkin, & Schiman, 2016; Ronfeldt et al., 2013). By providing these services on an LEA-wide or schoolwide basis, KIPP is working to improve</p>	<p>Teacher retention data results.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Scope: LEA-wide</p>	<p>services for the school's unduplicated population by creating a more stable and supportive learning environment with experienced, committed teachers.</p>	
<p>3.14</p>	<p>Action: Continuity of Learning:</p> <p>Need: Teacher turnover can have a significant negative impact on student learning, particularly for students with high needs who may be more vulnerable to the disruptions caused by frequent changes in teaching staff (Ronfeldt, Loeb, & Wyckoff, 2013; Simon & Johnson, 2015). Additionally, the shortage of available substitute teachers during the pandemic has made it difficult for schools to ensure continuity of learning when regular teachers are absent (Kraft & Simon, 2020).</p> <p>Scope: LEA-wide</p>	<p>Teacher return bonuses serve as an effective strategy to enhance teacher retention rates and acknowledge the dedication and commitment of experienced teachers. Research has shown that financial incentives can be a powerful tool for retaining high-quality teachers, particularly in schools serving disadvantaged student populations (Clotfelter, Glennie, Ladd, & Vigdor, 2008; Springer, Swain, & Rodriguez, 2016). By offering bonuses to returning teachers, KIPP is working to create a stable and supportive working environment that reduces turnover rates and ensures continuity of learning for students. In-house teaching substitution, supported by increased stipends for teaching staff, provides important continuity for students when regular teachers are absent. This approach allows KIPP to leverage the expertise of its existing teachers and maintain a sense of stability in the classroom, even when faced with the challenges of teacher absences and substitute shortages. Research has highlighted the importance of maintaining instructional continuity and minimizing disruptions to student learning (Miller, Murnane, & Willett, 2008; Sawchuk, 2021). These additional financial incentives are intended to retain quality teachers at higher rates year over year. Increasing retention at KIPP schools, where the percentage of students with high needs is significantly higher than the state average, will ensure continuity of learning and development for</p>	<p>Teacher retention data results.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>students who are disproportionately impacted by high teacher turnover, thereby improving services for the school's unduplicated population. By providing these services on an LEA-wide or schoolwide basis, KIPP is working to create a stable and supportive learning environment that promotes academic success for all students, particularly those with the greatest needs.</p>	
<p>3.15</p>	<p>Action: Mental Health for All:</p> <p>Need: KIPP's most valuable resource is its people. The work, while incredibly rewarding and impactful, is also demanding. The past few years have been particularly challenging and stressful while in recovery from the COVID-19 pandemic. Teacher well-being and mental health are crucial factors in promoting job satisfaction, retention, and ultimately, student success (Greenberg, Brown, & Abenavoli, 2016; McLean & Connor, 2015). Supporting teachers' mental health is especially important in schools serving high-needs populations, where the demands on educators may be greater (Herman, Hickmon-Rosa, & Reinke, 2018).</p> <p>Scope:</p>	<p>The mental health for all initiative services are intended to support teachers in their professional and personal endeavors while also aiming to retain quality teachers at higher rates year over year. Research has shown that teacher well-being and mental health are significant predictors of job satisfaction, commitment, and retention (Jennings & Greenberg, 2009; Skaalvik & Skaalvik, 2011). By providing comprehensive mental health resources and support, KIPP is working to create a positive and supportive work environment that promotes teacher well-being and reduces the risk of burnout.</p> <p>Increasing retention at KIPP schools, where the percentage of students with high needs is significantly higher than the state average, will ensure continuity of learning and development for students who are disproportionately impacted by high teacher turnover. Studies have found that teacher turnover can have a negative impact on student achievement, particularly in schools serving disadvantaged populations (Hanushek, Rivkin, & Schiman, 2016; Ronfeldt, Loeb, & Wyckoff, 2013).</p> <p>By providing these mental health services and supports on an LEA-wide or schoolwide basis,</p>	<p>Teacher retention data results.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide	KIPP is working to improve services for the school's unduplicated population by fostering a stable, supportive, and mentally healthy teaching staff. This approach aligns with research highlighting the importance of teacher well-being in promoting positive student outcomes and creating a nurturing learning environment (Jennings & Greenberg, 2009; Roeser, Skinner, Beers, & Jennings, 2012).	

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
1.1	<p>Action: Support for multilingual learners:</p> <p>Need: KIPP has a higher population of multilingual learners than the state of California and is exceeding the state's results for English Learner Progress (ELPI).</p> <p>Scope:</p>	Multilingual learners may face unique challenges in the classroom, such as difficulty understanding instruction, limited English vocabulary, and cultural differences that may impact their learning experience. These challenges can hinder academic progress. Providing these additional, targeted supports for multilingual learner students in order to attain higher academic achievement has contributed to improving services for the school's unduplicated student population (multilingual learners).	ELPI and reclassification results.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	Limited to Unduplicated Student Group(s)		
1.5	<p>Action: Title III:</p> <p>Need: KIPP has a higher population of multilingual learners than the state of California and is exceeding the state’s results for English Learner Progress (ELPI).</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>	<p>Research has shown that targeted professional development and coaching for teachers can significantly improve the effectiveness of instruction for multilingual learners (Darling-Hammond et al., 2017; Garet et al., 2001). By providing training and facilitating data meetings where teachers, APs, and instructional coaches review student data, the ML instructional coach enables data-driven instructional decisions and promotes the effective implementation of ML instructional strategies. This approach aligns with evidence-based practices that emphasize the importance of using data to inform instruction and support student learning (Hamilton et al., 2009). Furthermore, the ML instructional coach's targeted coaching and feedback through classroom observations ensures that teachers receive individualized support to improve their practice, which has been shown to be an effective method for enhancing teacher quality and student outcomes (Joyce & Showers, 2002; Knight, 2007). The identification of supplemental regional curricula and educational technology designed specifically to improve outcomes for ML students further demonstrates KIPP's commitment to providing high-quality, evidence-based resources for student learning.</p>	<p>ELPI and reclassification results.</p>

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

--

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		20.6
Staff-to-student ratio of certificated staff providing direct services to students		13.6

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA’s community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA’s LCAP.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA’s annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* sections [52060\(g\) \(California Legislative Information\)](#) and [52066\(g\) \(California Legislative Information\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section [47606.5\(d\) \(California Legislative Information\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062 \(California Legislative Information\)](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).

- For COEs, see [Education Code Section 52068 \(California Legislative Information\)](#); and
- For charter schools, see [Education Code Section 47606.5 \(California Legislative Information\)](#).
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in EC sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of EC sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: EC Section [42238.024\(b\)\(1\) \(California Legislative Information\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain

accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.

- If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
- Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 . Leave blank until then.	Enter information in this box when completing the LCAP for 2026–27 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 and 2026–27 . Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
 - The reasons for the ineffectiveness, and
 - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.

- For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
- As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
- These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.
- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.
- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

- The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8).

Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type “Yes” if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type “No” if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If “Yes” is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as

a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

- As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**

- This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**

- This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).

- **7. Total Estimated Actual Expenditures for Contributing Actions**

- This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).

- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

- **5. Total Planned Percentage of Improved Services (%)**

- This amount is the total of the Planned Percentage of Improved Services column.

- **8. Total Estimated Actual Percentage of Improved Services (%)**

- This amount is the total of the Estimated Actual Percentage of Improved Services column.

- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**

- This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**

- This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**

- This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

2024-25 Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
KIPP Bridge Academy	Michael Burks and Rosie Allen KIPP Bridge Academy School Leaders	opsadmin@kippnorcal.org 510-465-5477

Introduction

The California State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area.

This template is intended as a drafting tool and based on the Local Performance Indicator Quick Guide published by CDE in January 2024.

Performance Standards

The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Local Indicators

The local indicators address the following state priority areas:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home

- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA’s Teacher Assignment Monitoring and Outcome data available at <https://www.cde.ca.gov/ds/ad/tamo.asp>.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and
- The number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same public meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers an annual local climate survey that captures a valid measure of student perceptions of school safety and connectedness, in at least one grade within each grade span(s) the LEA serves (e.g., TK-5, 6-8, 9-12), and reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA’s Teacher Assignment Monitoring and Outcome data available at <https://www.cde.ca.gov/ds/ad/tamo.asp>.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and
- The number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Academic Year	Total Teaching FTE	Clear	Out-of-Field	Intern	Ineffective	Incomplete	Unknown	N/A
2021-22	26	11.30	5	1.70	6.70	0	1.20	0

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0%

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

Implementation of State Academic Standards (LCFF Priority 2)

LEAs may provide a narrative summary of their progress in the implementation of state academic standards based on locally selected measures or tools (Option 1). Alternatively, LEAs may complete the optional reflection tool (Option 2).

OPTION 1: Narrative Summary (Limited to 3,000 characters)

In the narrative box provided on the Dashboard, identify the locally selected measures or tools that the LEA is using to track its progress in implementing the state academic standards adopted by the state board and briefly describe why the LEA chose the selected measures or tools.

Additionally, summarize the LEA's progress in implementing the academic standards adopted by the SBE, based on the locally selected measures or tools. The adopted academic standards are:

- English Language Arts (ELA) – Common Core State Standards for ELA
- English Language Development (ELD) (Aligned to Common Core State Standards for ELA)
- Mathematics – Common Core State Standards for Mathematics
- Next Generation Science Standards
- History-Social Science
- Career Technical Education
- Health Education Content Standards
- Physical Education Model Content Standards
- Visual and Performing Arts
- World Language

In line with our mission to prepare all students for success in college and beyond, KIPP supports Common Core State Standards (“CCSS”) in grades K-12. The CCSS represent the knowledge and skills that prepare students for college and careers. These standards and assessments ensure that our students are ready to take on the rigors of college and future careers. We measure our progress in ELA and Math testing for students with similar demographics to those in our authorizing district and report our outcomes to our families in our annual Local Control and Accountability Plan process.

The content of KIPP curriculum focuses on building upon foundational skills coupled with an emphasis on higher-order thinking processes in all content areas. In accordance with state regulations, KIPP provides the standard age-appropriate curriculum for Mathematics, Science, English-Language Arts and History-Social Science at each grade level, K-12. State academic standards for ELA, ELD, and Math have been fully implemented. Progress toward fully implementing all other content standards are tracked on KIPP's annual performance dashboard, with priority currently given to Next Generation Science Standards.

We set annual goals around usage of standards-aligned curriculum for our teachers and providing supports for our students to ensure progress in the classroom. KIPP conducted a specific curriculum selection process to determine the best tools to support standards-aligned classroom instruction. The school leadership teams, with feedback from teachers, selected programs and materials that are aligned with the school's priorities in improving all students' standards-based mastery. Tools selected have a high potential for driving student growth on Common Core State Standards. Additionally, KIPP has adopted UC Berkeley Lawrence Hall of Science's Amplify Science K-8 curriculum, which offers a rigorous approach to science instruction that leverages immersive simulations of the scientific phenomenon that support content development. This instruction is supplemented by backward planning to NGSS-aligned Interim assessments.

Implementation of State Academic Standards (LCFF Priority 2)

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.

Rating Scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					
ELD (Aligned to ELA Standards)					
Mathematics – Common Core State Standards for Mathematics					
Next Generation Science Standards					
History-Social Science					

2. Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.

Rating Scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					
ELD (Aligned to ELA Standards)					
Mathematics – Common Core State Standards for Mathematics					
Next Generation Science Standards					
History-Social Science					

3. Rate the LEA’s progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					
ELD (Aligned to ELA Standards)					
Mathematics – Common Core State Standards for Mathematics					
Next Generation Science Standards					
History-Social Science					

Other Adopted Academic Standards

4. Rate the LEA’s progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Career Technical Education					
Health Education Content Standards					
Physical Education Model Content Standards					
Visual and Performing Arts					
World Language					

Support for Teachers and Administrators

5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole					
Identifying the professional learning needs of individual teachers					
Providing support for teachers on the standards they have not yet mastered					

Optional Narrative (Limited to 1,500 characters)

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: ¹

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):
 - 1 – Exploration and Research
 - 2 – Beginning Development
 - 3 – Initial Implementation
 - 4 – Full Implementation
 - 5 – Full Implementation and Sustainability
4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.
5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Practices	Rating Scale Number
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.	4
2. Rate the LEA's progress in creating welcoming environments for all families in the community.	4
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.	4

Practices	Rating Scale Number
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.	4

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

At KIPP, we believe that if we can engage parents in a meaningful way, we can help build parents' efficacy, recognize our families as true assets to the school, and leverage the community's strengths, experiences, and knowledge to build and develop the school. We also hope that this involvement adds to our families' abilities as well, creating lasting change that will stay with them throughout their experiences, at our school and beyond.

We communicate with families regularly through multiple modes including, but not limited to: newsletters, emails, phone calls, and text messages. Students and families have staff member's email address and cell phone number to reach out about homework support or for other concerns or questions. Progress reports and report cards are sent home throughout the year to keep families informed about their student's academic success. Families are encouraged to set up conferences with teachers and the school provides multiple opportunities to connect with parents/guardians. Any student who is in danger of retention is required to meet with teachers and administrators to identify additional supports. Each year the school begins forming relationships with families during orientation, prior to the start of the new year. This early welcome allows students and families to feel more connected to the school and start a successful year.

KIPP's KFA (KIPP Family Association) has active families that participate in monthly meetings to plan and implement special events for students, families and the community, and advocate for the school's continued academic growth. Parents/guardians are the primary drivers of KIPP's KFA. The school leader meets regularly with the KFA team to assist with any projects and to ensure alignment between the school and the community.

KIPP educates teachers, principals, and other staff on the value of contributions of parents/guardians and how to communicate and work together as equal partners in some of the following ways: front office and operational staff members receive professional development on creating a warm and welcoming environment for all school visitors, including parents/guardians and families, all school staff must have evidence of strong connections with students and their families.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

KIPP believes that relationship building with the community and families is a key component to opening and operating a high achieving school. KIPP teachers are currently receiving focused professional development that aims to support students more holistically in the classroom (Culturally Responsive Teaching), building more trusted and respected relationships that lead to improved student outcomes. However, this engagement must go beyond the classroom in the form of strong communication between school staff and families. When handled with respect and cultural sensitivity, school-family communication and engagement provides an opportunity to live out the values of inclusiveness and equity. Teacher, and other school staff will be following these important guidelines to avoid communication pitfalls and support teacher-family relationships built on respect (per the Learning for Justice, Family and Community Engagement Critical Practices, a project of the Southern Poverty Law Center):

- Assume good intentions, and approach all families as partners who want the best for their children.
- Invite parents or guardians to share knowledge about their students' lives, interests, hopes and struggles.

- Invite parents or guardians to share information about family cultures and traditions.
- Recognize and respect differences in family structures.
- Recognize the role that identity and background may play in shaping relationships between teachers and families.
- Bring a sense of self-reflectiveness and cultural humility to all conversations and interactions.
- View linguistic, cultural and family diversity as strengths.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

The majority of KIPP families qualify as underrepresented. Therefore, communication, materials, meetings and other school sponsored events are always created considering the unique needs of the community.

The school hosted over 20 virtual and in-person events (when health and safety allowed) where all families were invited. In an annual family survey, 74% (Rising)/78% (Upper) of families indicated that they were satisfied with the opportunities to get involved on campus. KIPP will employ the Culturally Responsive Teaching methods to existing school communications and will continue to use surveys, conferences, regular phone communication and other forms of contact to engage all parents/guardians.

Because language plays a crucial role in families' lives, teachers will communicate with parents in their home languages as much as possible. Family materials will be provided in students' home languages. When translation is needed, a school-provided translator will be employed.

Additionally, KIPP will provide different types of opportunities for families to participate, including events that take place in the AM, or PM to allow for different family schedules and childcare needs.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Practices	Rating Scale Number
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.	3
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.	3
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.	4

Practices	Rating Scale Number
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.	3

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

KIPP assists parents in understanding state standards and assessments, and how to monitor their child's progress and work with teachers to improve their child's achievement through constant communication between the school and home. Parents are given their child's teacher's cellular phone number to use whenever they need clarification about an academic assignment or need to talk about their child's progress. Parents are involved in planned parent nights as well as parent/teacher conferences where they learn ways to support their child at home and about their child's progress. Parents of students at the school can also participate in School Site Council and English Language Advisory Committee.

KIPP provides parents with an explanation of the curriculum used at the school, the assessments used to measure student progress, and the proficiency levels students are expected to meet through report cards, parent-teacher conferences, weekly newsletters, parent workshops, and data reports. Parents receive training on how to support the development of their child's reading, writing, and mathematical skills at KIPP Family Associate meetings.

KIPP will continue to assess the language needs of families to ensure that materials and presentations are being made available in an accessible way.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

The vision of KIPP's Advocacy and Community Engagement team is to disrupt racial and socioeconomic inequalities in educational access and outcomes by fostering an inclusive culture of family engagement, building a support network of community based organizations and empowering families to be advocates for their children and communities. KIPP continues to grow from families being engaged and attending to leading and advocating more actively. KIPP supports this capacity building with regular KIPP Family Association and School Site Council meetings that focus on the following topics throughout the school year: KIPP 101, Local Control and Accountability, ParentSquare Communication Tool, Attendance, Testing Results, Restorative Practices, Social Media, Mental Health and Suicide Prevention, as well as Substance Abuse and Positive Parenting Techniques. During these meetings KIPP aims to share and inform as much as listen and learn from the diverse experiences of KIPP families. Improvement in this area will include expanding critical topics requested by families, and encouraging leadership during these meetings among family and community members.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

The majority of KIPP families qualify as underrepresented. Therefore, communication, materials, meetings and other school sponsored events are always created considering the unique needs of the community.

KIPP will continue to seek diverse perspectives through active recruitment of families to the School Site Council (SSC), English Language Advisory Committee (ELAC), and KIPP Family Association. Activities within these groups will actively seek feedback to improve capacity building topics and techniques to increase whole school engagement.

Additionally, KIPP will provide different types of opportunities for families to participate, including events that take place in the AM, or PM to allow for different family schedules and childcare needs.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Practices	Rating Scale Number
1. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.	3
2. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.	3
3. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.	2
4. Rate the LEA's progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.	3

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

- Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Seeking Input for Decision-Making.

Parent involvement in decision making at KIPP is demonstrated in multiple ways.

The parent and family engagement policy is developed jointly, updated periodically, and agreed on with parents. KIPP's processes for developing and evaluating its parent engagement policy with the involvement of parents include the following: asking for feedback on the policy during an annual meeting, school site council meetings, parent surveys, asking for feedback and input during monthly family nights or workshops. The parent and family engagement policy is sent home with each student in case parents are unable to attend meetings at the school, as well as distributed and discussed at an early School Site Council meeting.

The parent engagement policy process is aligned with the school's LCAP stakeholder involvement process, and the school makes every effort to align, coordinate, and integrate parent involvement programs and activities across Federal, State, and local programs, in addition to conducting activities (e.g., parent workshops, SSC, ELAC, parent-teacher conferencing) to support parents' participation in their children's education. During the annual LCAP stakeholder engagement meeting, the School Leader presents to parents the goals, actions and services, and outcomes in the school's LCAP. Parents record their feedback on a survey in real time and online. This parent input influences all aspects of school culture.

KIPP will continue to assess the language needs of families to ensure that materials and presentations are being made available in an accessible way.

- Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Seeking Input for Decision-Making.

KIPP supports family engagement and decision making through the School Site Council (SSC) and the English Learner Advisory Committee (ELAC) which meet regularly throughout the school year. The KIPP Family Association (KFA) also has regular opportunities to share feedback and bring forth ideas, concerns and recommendations to the school leader. Improvement in this area will include renewed and revised materials related to the CA Dashboard and increased engagement in the annual Local Control and Accountability Plan process.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

The majority of KIPP families qualify as underrepresented. Therefore, communication, materials, meetings and other school sponsored events are always created considering the unique needs of the community.

KIPP will continue to seek diverse perspectives through active recruitment of families to the School Site Council (SSC), English Language Advisory Committee (ELAC), and KIPP Family Association. Activities within these groups will actively seek feedback to improve capacity building topics and techniques to increase whole school engagement.

Additionally, KIPP will provide different types of opportunities for families to participate, including events that take place in the AM, or PM to allow for different family schedules and childcare needs.

School Climate (LCFF Priority 6)

Introduction

The initial design of the Local Control Funding Formula recognized the critical role that positive school conditions and climate play in advancing student performance and equity. This recognition is grounded in a research base demonstrating that a positive school climate directly impacts indicators of success such as increased teacher retention, lower dropout rates, decreased incidences of violence, and higher student achievement.

In order to support comprehensive planning, LEAs need access to current data. The measurement of school climate provides LEAs with critical data that can be used to track progress in school climate for purposes of continuous improvement, and the ability to identify needs and implement changes to address local needs.

Introduction

LEAs are required, at a minimum, to annually administer a local climate survey. The survey must:

- Capture a valid measure of student perceptions of school safety and connectedness in at least one grade within each grade span the LEA serves (e.g. TK-5, 6-8, 9-12); and
- At a minimum, report disaggregated data by student groups identified in California Education Code 52052, when such data is available as part of the local school climate survey.

Based on the analysis of local data, including the local climate survey data, LEAs are to respond to the following three prompts. Each prompt response is limited to 3,000 characters. An LEA may provide hyperlink(s) to other documents as necessary within each prompt:

Prompt 1 (DATA): Describe the local climate survey data, including available data disaggregated by student groups. LEAs using surveys that provide an overall score, such as the California Healthy Kids Survey, are encouraged to report the overall score for all students as well as available student group scores. Responses may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

75% of KIPP families (TK-4: 77%, 5-8: 72%) have a positive experience with the school.

55% of student surveys indicated a positive response to feelings of emotional safety at the school.

Prompt 2 (MEANING): Describe key learnings, including identified needs and areas of strength determined through the analysis of data described in Prompt 1, including the available data disaggregated by student group.

The School Culture Survey is still used to comprehensively assess school culture and measure progress on our restorative practice and SEL initiatives. School Culture Teams use these survey results to inform school practices and identify professional development needs and supports for teachers. The School Family Culture Index represents questions from the Family School Culture Survey that make up the family school culture experience. The index considers the percent of positive family responses across the following questions:

The teachers have built strong relationships with my child.

The school has a positive impact on my child's academic performance.

How fairly is your child treated by staff?

How stressed does your child feel about experiences related to school?

How receptive is your school to parent feedback?

I would recommend KIPP to other families.

The Student Pulse Survey was administered throughout the year to meet the needs of students at the moment -- including adjusting critical SEL curriculum and providing additional support and intervention services for families. Questions tied to emotional safety included understanding who to go to at the school if a student was made to feel unsafe by their peers or a staff member, and willingness to engage with teachers when there are concerns about safety or bullying.

Prompt 3 (USE): Describe any changes to existing plans, policies, or procedures that the LEA determines necessary in order to address areas of need identified through the analysis of local data and the identification of key learnings. Include any revisions, decisions, or actions the LEA has, or will, implement for continuous improvement purposes.

KIPP leadership is committed to acting on this important feedback and results from our community have contributed to continuing and prioritizing an improved school climate and culture. KIPP combined California's rigorous content standards with the pedagogical methodologies that have proven successful in these crucial areas, including: character education, extra-curricular activities, technology, and community service. Teachers take into consideration the interests and cultural backgrounds of students in an effort to make all instruction relevant and purposeful. It is equally important that all scholars are offered support in social and emotional development. As young people grow from year-to-year, they experience new challenges, new emotions, and new situations. Students need more than academic and intellectual skills alone to thrive in college, career and life. When a school is a positive place to be, students and teachers are happy to be there, do their best, and make their best better. Research has shown that positive school culture is the basis for sustainable learning and preparation for the tasks and tests of life and that a positive school culture and climate has a direct impact on student's academic success, graduation rates, and overall well-being and connection to their school community.

KIPP has built a strong and supportive school environment through both Social Emotional Learning (SEL) and Restorative Practices. SEL is developing social and emotional competence in order to understand, manage, and express the social-emotional aspects of one's life in ways that enable the successful management of life tasks such as learning, forming relationships, solving everyday problems, and adapting to the complex demands of growth and development. Restorative Practices is a component of our approach to SEL and refers to a behavior management philosophy that seeks to redress the harms created by conflicts by repairing the relationships of those most directly involved. Second Step Curriculum supports our SEL work in the classroom, and The Complete Restorative Practices Implementation Guidebook has been developed by KIPP's school culture team to guide school leadership. Like our academic approach, we infused the bulk of our social emotional support into the general education curriculum through community circles and teaching young adults how to respond to situations with their peers in real time.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

There was a continued partnership with other KIPP schools in the region to create curriculum resources and common benchmark assessments that were aligned to the Common Core State Standards. Teachers were provided tools and resources for use in their classrooms. There was a rigorous selection process to determine the tools and resources for alignment with common core and college and career readiness standards. Course scheduling and student assignments were part of a Leadership and Teacher collaboration to ensure that students were best supported in their learning. This intentional and individualized approach to scheduling using data and feedback better prepares students for success in high school, college and beyond. KIPP believes that all students, regardless of family background, income, race, religion, disability, gender, or health can and will learn. KIPP implemented comprehensive programs for all students with special needs, in accordance with applicable state and federal law, and the needs of each child.

KIPP measures success by the percentage of students enrolled in a broad course of study across all student groups.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

100% of students had access to a broad course of study including courses described under EC section 51210, as applicable. Additionally, programs and services were developed and provided to individuals with exceptional needs, including students on an IEP. KIPP offers enrichment courses to all students, including various music options, physical education, and student leadership.

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

No current barriers exist to prevent the LEA from providing access to a broad course of study for all students.

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

KIPP will continue the actions and services that have proved successful in providing access to a broad course study for all students.

Coordination of Services for Expelled Students – COE Only (LCFF Priority 9)

Assess the degree of implementation of the progress in coordinating instruction for expelled students in your county.

Rating Scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Coordinating Instruction	1	2	3	4	5
1. Assessing status of triennial plan for providing educational services to all expelled students in the county, including:	[No response required]	[No response required]	[No response required]	[No response required]	[No response required]
a. Review of required outcome data.					
b. Identifying existing educational alternatives for expelled pupils, gaps in educational services to expelled pupils, and strategies for filling those service gaps.					
c. Identifying alternative placements for pupils who are expelled and placed in district community day school programs, but who fail to meet the terms and conditions of their rehabilitation plan or who pose a danger to other district pupils.					
2. Coordinating on development and					

Coordinating Instruction	1	2	3	4	5
implementation of triennial plan with all LEAs within the county.					
3. Establishing ongoing collaboration and policy development for transparent referral process for LEAs within the county to the county office of education or other program options, including dissemination to all LEAs within the county a menu of available continuum of services for expelled students.					
4. Developing memorandum of understanding regarding the coordination of partial credit policies between district of residence and county office of education.					

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

Assess the degree of implementation of coordinated service program components for foster youth in your county.

Rating Scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Coordinating Services	1	2	3	4	5
1. Establishing ongoing collaboration and supporting policy development, including establishing formalized information sharing agreements with child welfare, probation, Local Education Agency (LEAs), the courts, and other organizations to support determining the proper educational placement of foster youth (e.g., school of origin versus current residence, comprehensive versus alternative school, and regular versus special education).					

Coordinating Services	1	2	3	4	5
2. Building capacity with LEA, probation, child welfare, and other organizations for purposes of implementing school-based support infrastructure for foster youth intended to improve educational outcomes (e.g., provide regular professional development with the Foster Youth Liaisons to facilitate adequate transportation services for foster youth).					
3. Providing information and assistance to LEAs regarding the educational needs of foster youth in order to improve educational outcomes.					
4. Providing direct educational services for foster youth in LEA or county-operated programs provided the school district has certified that specified services cannot be provided or funded using other sources, including, but not limited to, Local Control Funding Formula, federal, state or local funding.					
5. Establishing ongoing collaboration and supporting development of policies and procedures that facilitate expeditious transfer of records, transcripts, and other relevant educational information.					
6. Facilitating the coordination of post-secondary opportunities for youth by engaging with systems partners, including, but not limited to, child welfare transition planning and independent living services, community colleges or universities, career technical education, and workforce development providers.					
7. Developing strategies to prioritize the needs of foster youth in the community, using community-wide assessments that consider age group, geographical area, and identification of highest needs students based on academic needs and placement type.					

Coordinating Services	1	2	3	4	5
<p>8. Engaging in the process of reviewing plan deliverables and of collecting and analyzing LEA and COE level outcome data for purposes of evaluating effectiveness of support services for foster youth and whether the investment in services contributes to improved educational outcomes for foster youth.</p>					

Appendix 12- KIPP Northern California Assessment Vision and Plan

SY24-25 One KIPP Pyramid and Requirements

We are on a multi-year journey to implement shared practices in five priority areas that will enable us to be a best-in-class school system where at least 75% of students are on track for positive college and career outcomes by SY 27-28. From SY 23-24 to SY 27-28, we will be focused on implementing shared practices in K-8 Literacy, K-8 Math, High School, Postsecondary Match, and Leadership Development. The One KIPP Practices Pyramid outlines the inter-related systems and structures that are essential to operating schools with excellence and aligning our network to pursue our common goals and shared mission. As we work toward becoming the best K-12 school system in the country, we will standardize select practices within the Pyramid and create systems of support that will enable consistent excellence across the network. All resources to support implementation are linked in the [One KIPP Library](#) on KIPP Share, selected resources are linked throughout this document.

This document is consistently updated to reflect any changes and includes links to further guidance. Last updated: May 13, 2024.

Any adjustments from previous update are noted with a ★. Any new information added since previous update is in green. Please see release notes for further information in the [Appendix](#).

One KIPP Priorities Multi-Year Implementation

In each year of our multi-year journey, we will adopt large-scale, shared practices in certain One KIPP Priorities that will require investments in change management to drive strong initial adoption and implementation (these are shaded in dark blue). One KIPP Priorities over time will enter a steady state, during which we may implement small-scale refinements to drive improvement and will continue to focus on fidelity of implementation.

One KIPP Priority Overview: K-8 Literacy

The table below outlines shared goal(s) and programmatic practices that all regions will implement in SY24-25. We will continue to update this document so that it fully reflects operational requirements. The practices and support below reflect the actions that- when done with excellence- are most essential to outcomes across the network, as such, we will prioritize rigorous progress monitoring and accountability in these areas. The Foundation will provide resources, targeted support, and opportunities for collaboration to achieve excellence across these practices.

What required practices will the network implement in SY 24-25?	
<p>K-8 Literacy</p> <ul style="list-style-type: none"> • K-2 Foundational Literacy • K-8 Reading Comprehension & Writing 	<p>Shared Goals & Measures</p> <ul style="list-style-type: none"> ✓ All regions set annual goals on an aligned set of metrics according to KF goal setting guidance <p>Reflection & Accountability Spaces (One KIPP SY24-25 PD Calendar)</p> <ul style="list-style-type: none"> ✓ Attend CAO & ED Community Calls & Convenings ✓ RAL Community Calls <p>Teaching & Learning Systems</p> <ul style="list-style-type: none"> ✓ Adopt and execute K-12 Arc of the Year (adapt current Arc to reflect One KIPP practices or adopt KF provided K-12 Arc) <p>★ Curriculum & Assessment (Assessment Guidance)</p> <ul style="list-style-type: none"> ✓ Administer DIBELS 8th Edition K-8 BOY, MOY, EOY ✓ Path A – Early Adopters, SY24-25: <ul style="list-style-type: none"> ○ Implement approved K-8 reading comprehension and writing curriculum, Fishtank ELA. ○ Administer required assessments in Illuminate DnA as outlined in Path A: Early Adoption Guiding Document for Fishtank ELA. ✓ Path B – prepare for SY25-26 implementation of approved K-8 reading comprehension and writing curriculum, Fishtank ELA. ✓ Regions not currently using CKLA Skills: Regions scoring below "above average" from MOY to EOY in SY 23-24 and then again from BOY to MOY in SY 24-25 will be required to prepare to switch their early literacy curriculum to CKLA Skills in the fall of SY 25 - 26. <p>Instructional Minutes (Instructional Minutes Guidance):</p> <ul style="list-style-type: none"> ✓ 60-minute daily core foundational skills block, K-2. 30-minute foundation skills class periods 3-5x/week in ES. <p>Adult Learning</p> <ul style="list-style-type: none"> ✓ Regions provide ongoing curriculum-specific training (Path A SY24-25, Path B SY25-26) - (Resource: In Region PD Recommendations) ✓ Regions provide LETRS Vol 1 or state required comparable training for K-2 teachers (in SY 24-25 or SY 25-26) ✓ Regions send relevant staff to KF provided One KIPP programming – details: Spring 2024 PD Schedule One KIPP SY24-25 PD Calendar <p>People Systems (One KIPP Roles and Responsibilities)</p> <ul style="list-style-type: none"> ✓ Staff this work at the regional level so a point person has the responsibility of and capacity to lead literacy implementation efforts <p>Data Systems</p> <ul style="list-style-type: none"> ✓ Illuminate DnA ✓ Amplify: mCLASS ✓ Amplify: DIBELS Data System (DDS) for 7th and 8th grade
<p>Priority Goals and Measures</p>	<ul style="list-style-type: none"> • X% of students in grades K-2 scoring at or above benchmark on mCLASS DIBELS 8 • X% of students in grades 3-8 passing the ELA/Reading state standardized assessment

One KIPP Priority Overview: Math Excellence

The table below outlines shared goal(s) and programmatic practices that all regions will implement in SY24-25. We will continue to update this document so that it fully reflects operational requirements. The practices and support below reflect the actions that- when done with excellence- are most essential to outcomes across the network, as such, we will prioritize rigorous progress monitoring and accountability in these areas. The Foundation will provide resources, targeted support, and opportunities for collaboration to achieve excellence across these practices.

What required practices will the network implement in SY 24-25?	
Math Excellence K-8 Math	<p>Shared Goals & Measures</p> <ul style="list-style-type: none"> ✓ All regions set annual goals on an aligned set of metrics according to KF goal setting guidance <p>Reflection & Accountability Spaces (One KIPP SY24-25 PD Calendar)</p> <ul style="list-style-type: none"> ✓ Attend CAO & ED Community Calls & Convenings ✓ RAL Community Calls <p>Teaching & Learning Systems</p> <ul style="list-style-type: none"> ✓ Adopt and execute K-12 Arc of the Year (adapt current Arc to reflect One KIPP practices or adopt KF provided K-12 Arc) <p>Curriculum & Assessment (Assessment Guidance)</p> <ul style="list-style-type: none"> ✓ Implement Eureka Math², Imagine Learning: Illustrative Math, or Open-Up Curriculum in grades K-8 ✓ Administer unmodified curriculum embedded end of module/end of unit assessments in grades K-8 in Illuminate DnA based on program scope and sequence ✓ Administer Common Math Assessment (CMA) 2X/year in grades 3-8 (MOY and EOY) in Illuminate DnA <p>Instructional Minutes (Instructional Minutes Guidance)</p> <ul style="list-style-type: none"> ✓ 60-minute daily core block K-8 and additional non-core time (ES: 120+ min./week, MS: 90+ min./week) <p>Adult Learning</p> <ul style="list-style-type: none"> ✓ Regions provide ongoing curriculum-specific training (Resource: In Region PD Recommendations) ✓ Regions send relevant staff to KF provided One KIPP programming – details: Spring 2024 PD Schedule One KIPP SY24-25 PD Calendar <p>People Systems (One KIPP Roles and Responsibilities)</p> <ul style="list-style-type: none"> ✓ Staff this work at the regional level so a point person has the responsibility of and capacity to lead math implementation efforts <p>Data Systems</p> <ul style="list-style-type: none"> ✓ Illuminate DnA
Priority Goals and Measures	<ul style="list-style-type: none"> • X% of students in grades 3-8 passing the Mathematics/Algebra state standardized assessment

One KIPP Priority Overview: High School

The table below outlines shared goal(s) and programmatic practices that all regions will implement in SY24-25. We will continue to update this document so that it fully reflects operational requirements. The practices and support below reflect the actions that- when done with excellence- are most essential to outcomes across the network, as such, we will prioritize rigorous progress monitoring and accountability in these areas. The Foundation will provide resources, targeted support, and opportunities for collaboration to achieve excellence across these practices.

What required practices will the network implement in SY 24-25?	
High School	<p>Shared Goals & Measures</p> <ul style="list-style-type: none"> ✓ All regions set annual goals on an aligned set of metrics according to KF goal setting guidance <p>Reflection & Accountability Spaces (One KIPP SY24-25 PD Calendar)</p> <ul style="list-style-type: none"> ✓ HS and region monitor and respond to 9th Grade Academic Health Metrics at least bi-weekly ✓ High schools & region monitor and respond to school culture metrics ✓ Attend CAO & ED Community Calls & Convenings <p>Teaching & Learning Systems</p> <ul style="list-style-type: none"> ✓ Adopt and execute K-12 Arc of the Year (adapt current Arc to reflect One KIPP practices or adopt KF provided K-12 Arc) <p>Curriculum & Assessment (Assessment Guidance):</p> <ul style="list-style-type: none"> ✓ All HS students take the official ACT/SAT twice – once in spring 11th grade and once in fall 12th grade ✓ 11th graders take a practice ACT/SAT exam in the fall of 11th grade prior to sitting for the official exam ✓ 9th and 10th graders take the College Board provided official PSAT or ACT provided official PreACT <p>School Culture</p> <ul style="list-style-type: none"> ✓ Adopt and implement practices from the One KIPP HS Culture Playbook <p>School Operations</p> <ul style="list-style-type: none"> ✓ Regions have a standardized Academic Policy Manual and aligned HS gradebooks that meet minimum requirements and support 9th grade academic health <p>Adult Learning</p> <ul style="list-style-type: none"> ✓ Regions send relevant staff to KF provided One KIPP programming – details: Spring 2024 PD Schedule One KIPP SY24-25 PD Calendar <p>People Systems (One KIPP Roles and Responsibilities):</p> <ul style="list-style-type: none"> ✓ Staff this work at the regional level so that there is a point person for each of the following responsibilities: lead 9th grade academic health efforts, coordinate HS assessments, registrar duties, school operations and data, and HS school culture ✓ Academic Health Dashboard is supported by a regional data leader owning maintenance of HS data products <p>Data Systems</p> <ul style="list-style-type: none"> ✓ Regions have an Academic Health Dashboard that meets minimum requirements ✓ Regional site on KIPP Foundation’s Tableau Server for Academic Health Dashboard ✓ Illuminate DnA ✓ College Board: PSAT 8/9 & PSAT Registration, PSAT 8/9, PSAT, & SAT Data Access ✓ ACT: PreACT 8/9 & PreACT Ordering, PreACT 8/9, PreACT, & ACT Data Access
Priority Goals and Measures	<ul style="list-style-type: none"> • X% of students in grade 11/grade 12 scoring 21+ on the ACT (or equivalent on the SAT) • X% of students in grades 9-12 with unweighted, cumulative, EOY GPA of 2.0+ • X% of students in grades 9-12 with unweighted, cumulative, EOY GPA of 3.0+ • X percentage-point decrease in students in grades 9-12 with 1 or more course failures • X% of students attending 90% or more of days in membership • X% of students retained in school from fall to fall

One KIPP Priority Overview: Postsecondary Match

The table below outlines shared goal(s) and programmatic practices that all regions will implement in SY24-25. We will continue to update this document so that it fully reflects operational requirements. The practices and support below reflect the actions that- when done with excellence- are most essential to outcomes across the network, as such, we will prioritize rigorous progress monitoring and accountability in these areas. The Foundation will provide resources, targeted support, and opportunities for collaboration to achieve excellence across these practices.

What required practices will the network implement in SY 24-25?	
Postsecondary Match Grades 9-12	<p>Shared Goals & Measures</p> <ul style="list-style-type: none"> ✓ All regions set annual goals on an aligned set of metrics according to KF goal setting guidance <p>Reflection & Accountability Spaces (One KIPP SY24-25 PD Calendar)</p> <ul style="list-style-type: none"> ✓ Counseling team meets at least 2x per month to review Match and counseling data and plan action steps ✓ Attend Director of College and Career Counseling (DCCC) calls ✓ Attend KIPP Forward Managing/Regional Director calls <p>Teaching & Learning Systems</p> <ul style="list-style-type: none"> ✓ Adopt and execute K-12 Arc of the Year (adapt current Arc to reflect One KIPP practices or adopt KF provided K-12 Arc) <p>Curriculum & Assessment</p> <ul style="list-style-type: none"> ✓ Provide access to YouScience assessment and Overgrad tool for all students by start of Junior year <p>Methods</p> <ul style="list-style-type: none"> ✓ Region supports an Early Decision cohort of eligible students ✓ Seniors draft a quality personal statement by October 1st ✓ Regions participate in Nudge for Match <p>Instructional Minutes</p> <ul style="list-style-type: none"> ✓ High schools implement Junior and Senior seminars ✓ Counselors hold 1:1s with Juniors and Seniors at least 2x/per year <p>Adult Learning (One KIPP SY24-25 PD Calendar)</p> <ul style="list-style-type: none"> ✓ Counselors and KIPP Forward staff attend two national trainings/PD (State of the State – all; Summer Learning – new staff and new managers) <p>People Systems (One KIPP Roles and Responsibilities)</p> <ul style="list-style-type: none"> ✓ Region staffs KIPP Forward lead that serves as regional subject matter expert on college & career, manages partnerships, manages persistence and/or career integration team (if applicable), provides dotted line management to school-based counseling leads, and is accountable to region’s Match goals ✓ School staffs Counseling lead that manages the counseling team, leads school-based counseling strategy and programming, sits on the high school leadership team, and is accountable to school’s Match goals <p>Data Systems</p> <ul style="list-style-type: none"> ✓ Regions enter relevant data into national systems for Match- Alumni Database (ADB) and Overgrad. Consult with KF before considering changes or new adoption of software.
Priority Goals and Measures	<ul style="list-style-type: none"> • Increase of Principals meeting One KIPP aligned student outcomes goals • Increase Principal retention

Non-Priority Specific One KIPP Requirements

There is a limited set of practices that are required to support One KIPP. We will continue to update this document so that it fully reflects operational requirements.

What required practices will the network implement in SY 24-25?	
Non-Priority Specific	<p>Reflection & Accountability Spaces</p> <ul style="list-style-type: none">✓ Attend COO, CFO, CPO Community Calls✓ More information about Community Calls in One KIPP SY24-25 PD Calendar <p>Data Systems</p> <ul style="list-style-type: none">✓ Collect and submit data to the KIPP Foundation per the Regional Data Collection & Verification Calendar (SY23-24 Calendar SY24-25 Calendar coming early May 2024)

APPENDIX: Release notes

In-document indicators: ★ Yellow star indicates modified text from previous release | green text indicates new information from previous release

May 13, 2024 Release Notes:

- **Added:** Assessment requirement information for regions who are “Path A” early adopters for literacy. More information on KIPP Share: [Path A: Early Adoption Guiding Document for Fishtank ELA](#).

April 16, 2024 Release Notes:

- **Removed:** Administer Writing CBMs in 2nd, 4th and 6th, 8th grades at BOY, MOY, and EOY in Illuminate DnA. These assessments will be implemented in SY25-26, there is an opportunity to pilot in SY24-25.
- **Added:** Fishtank ELA as the approved K-8 reading comprehension and writing curriculum.

April 2, 2024 Release Notes:

- **Whole Document, Removed:** Monthly call cadences. Please refer to the [One KIPP SY24-25 PD Calendar](#) and forthcoming calendar invitations for precise information on community calls.
- **Post-Secondary Match, New:** Added language to clarify the relevant data that needs to be entered into Overgrad and ADB.
- **Leadership Development, New:** Added language to clarify use of the Leadership Competency Model

March 4, 2024 Release Notes:

- **Whole Document:**
 - **New:** Data Systems section added throughout and additional requirements/supports about goal setting.
 - **New:** Links to more specific resources included.
 - **Modified:** Shared goals & measures language to align with the K-12 Arc of the Year. More specific information about shared goal setting will be provided in late March.
 - **Modified:** “Adopt K-12 Arc of the Year, an organizing framework that prioritizes school leader actions by season that help establish joyfully excellent classrooms and data-driven progress monitoring.” – Regions should either adopt the KF provided Arc OR modify their existing Arc to reflect One KIPP practices
 - **Modified:** Adult Learning to point to [One KIPP SY24-25 PD Calendar](#)
 - **Removed:** “Supports” column as it did not represent an exhaustive list of the ways the Foundation plans to support regions, re-focused the document specifically on requirements
- **K-8 Literacy:**
 - **Removed:** “Administer unmodified curriculum embedded assessments (Path A)”
 - **Modified:** LETRS Requirement, K-2: All regions will now have two years (instead of 1) to complete LETRS Vol. 1 training. The second year comes at a cost to the region.
 - **Modified:** CKLA Skills, K-2: Regions scoring below "above average" from MOY to EOY for the SY 23-24 school year and then again from BOY to MOY in SY 24-25 will be required to switch their early literacy curriculum to CKLA Skills in the fall of SY 25-26 (originally required switch take place in SY 23-24).
 - **Removed:** KIPP Foundation support: Baseline reading comprehension and writing curriculum training for all regions will now be available in Spring 2025. Path A Regions who are choosing early adoption will have training offered by the curriculum vendor (TBD – May) but there will not be Foundation training support until Spring 2025.
 - **Modified:** Instructional minutes – removed Path A minutes as requirement and specified foundational skills minute requirements. See [linked guidance](#) for most specific information.
- **High School:**
 - **Removed:** “All supported AP classes administer AP Mock Exams in the spring”
- **Post-Secondary Match:**
 - **Modified:** Staffing language adjusted to identify the types of responsibilities that need to exist instead of requiring specific job titles.

- **Leadership Development:**

- **Removed:** Principal Managers provide Principals a TBD # observation, feedback, and progress monitoring toward proficiency on competencies and core leader moves.
- **Removed:** “Professional learning communities for Principal Manager Managers and Principal Managers to review data from Principal Development & Management Cycle, support fidelity of implementation, and Principal development” – replaced with “Monthly Principal Manager Community Calls”
- **Modified:** for clarity – there is a Principal and a Principal Manager Arc of the Year. Principals & Principal Managers are developed and held accountable to implementing skills by season as outlined in the Principal K-12 Arc of the Year and Principal Manager K-12 Arc of the Year

November 29, 2024 – Original Release at RLR

Assessment Philosophy

As part of our commitment to support our students to and through college, KIPP Public Schools Northern California believes in the power of assessment *for* learning and in the value of assessment *of* learning. This assessment plan serves both of these purposes. This document will: 1) clarify the types of assessments, including their relationship to each other & purpose(s) and 2) outline our regional administration expectations for grade levels with testing windows.

Goals: Growth and Proficiency on our North Star

Assessments*

- 5% increase in students scoring 3 or 4 on SBAC
- 5% decrease in students scoring a 1 or 2
- Or 80% proficiency in ELA
- Or 70% proficiency in Math

SMARTER BALANCED ASSESSMENT

Measuring Growth: Progress Monitoring or Diagnostic

MAP exams

F&P/STEP/ROAR testing

Pre-Assessments

Measuring Standards Mastery: Progress on CCSS

Unit/Module Assessments:

- EOM/MM
- Topic/Chapter Assessments

Interims:

- Performance Tasks
- IABs; ICAs

Exit Slips

Classwork

PL Reports

Curricular Assessment Plan:

	ELA	MATH	SCIENCE	SOCIAL STUDIES
<p>Formative Curricular Assessments</p> <p><i>Why they matter:</i></p> <ul style="list-style-type: none"> - They provide teachers relevant and timely data sources about student mastery. - Provide information on how well students access content knowledge and its application in a new context. - Curricular assessments provide us with a good pulse of short-term retention. 	<p>Wheatley:</p> <ul style="list-style-type: none"> • The Wheatley checkpoint - SR that is aligned to the texts that were read (omit the ones associated with texts not prioritized) • Focus Writing Task #1 <ul style="list-style-type: none"> ○ Questions: will all APs be able to discuss published FWT when we meet for PLCs? Deprioritize FWT during PLCs and prioritize PT during RLD? ○ Assessment Practice Writing Tasks <p>Workshop:</p> <ul style="list-style-type: none"> • Mid-module assessments • End-of-module assessments 	<ul style="list-style-type: none"> • Eureka Mid-Module (MM)- SR (10 questions) <ul style="list-style-type: none"> ○ Collecting and analyzing data prior to end of unit that allows you to correct course if needed • End-of-Module (EOM)- SR + OER (OER should be a longer component than SR) <ul style="list-style-type: none"> ○ Provides more cumulative overview including free-response assessment to demonstrate higher level understanding 	<ul style="list-style-type: none"> • Critical Juncture Assessment (CJA) <ul style="list-style-type: none"> ○ Have been edited down to reduce total number of questions and add CAST and interim-aligned practice ○ Provides understanding of where students are mid-unit • End of Unit (EOU) <ul style="list-style-type: none"> ○ Have been edited down to reduce total number of questions and add CAST and interim-aligned practice ○ Provides understanding of where students are at the end of the unit. 	<p>N/A</p>
<p>Interim Assessments</p> <p><i>Why they matter:</i></p> <ul style="list-style-type: none"> - Interim assessments provide relevant, cumulative data that allow teachers to understand student mastery relative to our north star assessments and grade-level readiness. - Provide an accurate picture of long-term retention of skills. - Interim Dos and Don'ts 	<p>Fall: SR - 1 literary, 1 informational, 1 listening passage (12-16 questions) + performance task</p> <hr/> <p>Winter: SR - 1 literary, 1 informational, 1 listening passage (12-16 questions) + performance task</p> <hr/> <p>Spring: SR - 1 literary, 1 informational, 1 listening passage (12-16 questions) + performance task</p>	<p>Fall:</p> <ul style="list-style-type: none"> - Math SR - (13-14 questions) - Math PT (5-6 questions) <hr/> <p>Winter</p> <ul style="list-style-type: none"> - Math SR - (15-16 questions) - Math PT (5-6 questions) <hr/> <p>Spring</p> <ul style="list-style-type: none"> - Math SR - (22-28 questions) - Math PT (5-6 questions) 	<p>Fall: SR + CR (11-14 items)</p> <ul style="list-style-type: none"> • Covers 1-2 units • Includes 2-3 constructed response <hr/> <p>Winter: SR + CR (13-16 items)</p> <ul style="list-style-type: none"> • Covers 1-2 units + fall content • Includes 2-3 constructed response <hr/> <p>Spring: SR + CR (14-18 items)</p> <ul style="list-style-type: none"> • Covers 1-2 units + fall and winter content • Includes 2-3 constructed response 	<p>Fall HAT: skills: sourcing</p> <hr/> <p>Winter HAT: skills: sourcing, contextualization</p> <hr/> <p>Spring HAT: skills: sourcing, contextualization, corroboration</p>

ELA INTERIM 23-24 SEQUENCE

	FALL REGIONAL LEARNING DAY Friday, November 3, 2023		WINTER REGIONAL LEARNING DAY Monday, February 5, 2024		SPRING REGIONAL LEARNING DAY Friday, March 29	
Testing Window	WEEK 1: October 16-October 20 WEEK 2: October 23- October 27		WEEK 1: January 16-January 19 WEEK 2: January 22- January 26		WEEK 1: March 4- March 8 WEEK 2: March 11-March 15 WEEK 3: March 18- March 22	
DATA DUE	DATA DUE: Tuesday, October 31		DATA DUE: Tuesday, January 30		DATA DUE: Wednesday, March 27	
Assmt. Overview	<p>Part 1: SBAC Reading Selected Response generally has 11-17 items. Selected IABs were prioritized based on the highest leverage claims outlined in SBAC blueprints: reading literary and informational and listen/interpret. IABs are “stitched” together and items selected using schools’ scope and sequence documents. Wheatley augmentation: identified gaps in the curriculum would be addressed with routines for standard 4 would be woven into weekly lessons</p> <p>Part 2: SBAC Writing Performance tasks are aligned with the curriculum and primarily assess standards within the module Selected RLD PTs were vetted by APs + Content leads and have been prioritized based on Grade Level Scope & Sequence and Alignment to Focus Standards</p>

Appendix 13- Articles of Incorporation

2880966

FILED *OS*
SECRETARY OF STATE
STATE OF CALIFORNIA

**AMENDED AND RESTATED ARTICLES OF INCORPORATION OF
KIPP BAY AREA SCHOOLS**

lee JUL -1 2019 

The undersigned certify that:

1. They are the President and the Secretary of KIPP Bay Area Schools, a California nonprofit public benefit corporation (the "Corporation").
2. The Articles of Incorporation of the Corporation are amended and restated to read in full as follows:

ARTICLE I

The name of this corporation is KIPP Bay Area Schools.

ARTICLE II

A. This corporation is a nonprofit public benefit corporation and is not organized for the private gain of any person. It is organized under the Nonprofit Public Benefit Corporation Law for public and charitable purposes.

B. This Corporation is organized and is to be operated exclusively for charitable and educational purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code of 1986, as now in effect or as may hereafter be amended (the "Code") including, without limitation, operation of the Northern California public schools affiliated with KIPP Foundation and that implement the KIPP education philosophy, including KIPP Bayview Academy, KIPP Heartwood Academy, KIPP King Collegiate High School, KIPP OAK College Preparatory, KIPP San Francisco Bay Academy, KIPP San Jose Collegiate, KIPP Summit Academy, and such other KIPP schools as this Corporation may establish.

C. In furtherance of its corporate purposes, this corporation shall have all the general powers enumerated in Sections 5140 and 5141 of the Nonprofit Public Benefit Corporation Law, as now in effect or as may hereafter be amended, together with the power to solicit grants and contributions for such purposes.

ARTICLE III

This Corporation shall have no members within the meaning of the Nonprofit Public Benefit Corporation Law.

ARTICLE IV

A. Notwithstanding any other provision of these Articles, this corporation shall refrain from activities not permitted to be carried on by a corporation exempt from federal income tax

under Section 501(c)(3) of the Code, or by a corporation, contributions to which are deductible under Sections 170(c)(2), 2055(a)(2), 2106(a)(2)(A)(ii), 2522(a)(2), or 2522(b)(2) of the Code.

B. No substantial part of the activities of this Corporation shall consist of the carrying on of propaganda or otherwise attempting to influence legislation, nor shall this Corporation participate in, or intervene in (including the publication or distribution of statements), any political campaign on behalf of or in opposition to any candidate for public office.

ARTICLE V

The property of this Corporation is irrevocably dedicated to charitable and educational purposes meeting the requirements for exemption under Section 214 of the California Revenue and Taxation Code. No part of the net income or assets of this corporation shall ever inure to the benefit of any director, officer, or member, of this Corporation, or any other private person, except that the Corporation is authorized and empowered to pay reasonable compensation for services rendered to or for the Corporation and to make payments and distributions in furtherance of the purposes set forth in Article II of these Articles of Incorporation. Upon the liquidation, dissolution or winding up of this Corporation (whether voluntary, involuntary, or by operation of law), this Corporation shall, after paying for or making adequate provision for payment of all of the liabilities of the Corporation, transfer all of the remaining property and assets of the Corporation, as the Board of Directors shall determine, to a nonprofit corporation or other organization which is organized and operated exclusively for charitable and educational purposes meeting the requirements for exemption under Section 214 of the California Revenue and Taxation Code and as shall at that time qualify as an exempt organization under Section 501(c)(3) of the Code and Section 2370ld of the California Revenue and Taxation Code. To the extent consistent with the foregoing limitations, this Corporation shall transfer all of such remaining property and assets to KIPP Foundation.

ARTICLE VI

The Corporation has a policy of racial nondiscrimination as to students, fellows and employees, and therefore does not discriminate against applicants, students, fellows or employees on the basis of race, color, national or ethnic origin in the administration of any policy or program.

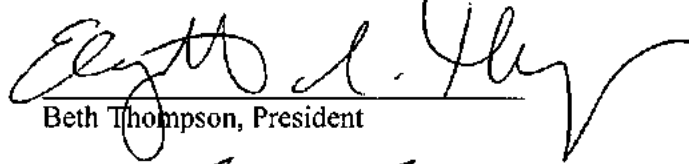

ARTICLE VII

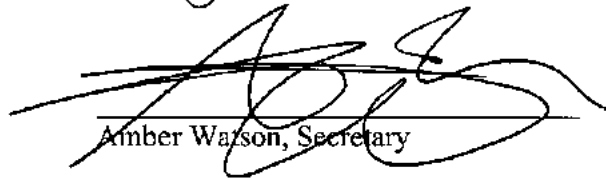

These Articles of Incorporation may be amended by the affirmative vote of a majority of the members of the Board of Directors then in office.

3. The foregoing amendment to and restatement of the Articles of Incorporation has been duly approved by the Board of Directors.
4. The foregoing amendment to and restatement of Articles of Incorporation has been duly approved by the required vote of the members.

We further declare under penalty of perjury under the laws of the State of California that the matters set forth in this certificate are true and correct of our own knowledge.

Dated:

Beth Thompson, President

Amber Watson, Secretary

Appendix 14- KIPP Northern California Bylaws

**SECOND AMENDED AND RESTATED BYLAWS
OF
KIPP BAY AREA SCHOOLS**

**ARTICLE I
NAME**

Section 1.1 Name. The name of this corporation is KIPP Bay Area Schools (the "Corporation").

**ARTICLE II
PURPOSE**

Section 2.1 Purpose. The Corporation has been organized as set forth in the Articles of Incorporation. The Corporation shall take no action that is inconsistent with the Articles of Incorporation or these Bylaws.

**ARTICLE III
OFFICE**

Section 3.1 Offices. The Corporation's principal office shall be located in Alameda County, California. The Board (as defined in Section 5.1 below) may change the location of the Corporation's principal office.

**ARTICLE IV
CORPORATION WITHOUT MEMBERS**

Section 4.1 Corporation without Members. The Corporation shall have no members within the meaning of the Nonprofit Corporation Law.

**ARTICLE V
BOARD OF DIRECTORS**

Section 5.1 Powers. Subject to the provisions of the Nonprofit Corporation Law and any limitations in the Articles of Incorporation, all powers and activities of the Corporation shall be exercised and managed by the Board of Directors of the Corporation (the "Board"). Directors shall have no power as individual directors and shall act only as members of the Board.

Section 5.2 Number of Directors. The authorized number of directors who shall constitute the Board shall be such number as may be fixed by a resolution of the Board from time to time, provided, however, that the authorized number shall not be less than 15 and shall not be more than 27.

Section 5.3 Qualifications of Directors. The qualifications for directors are generally the ability to attend Board meetings, a willingness to actively support and promote the Corporation, and a dedication to its charitable and educational endeavors. Notwithstanding any other applicable conflict of interest limitations, the majority of directors will be financially non-interested in the Corporation, as defined by Section 5227 of the Corporations Code.

Section 5.4 Election and Term of Office.

(a) The Board shall elect directors to serve for three-year terms. Directors shall be elected by vote of a majority of the directors then in office. Terms for directors shall end on the last day of a fiscal year, regardless of when in a fiscal year a director is elected. A director shall hold office until a successor has been elected and duly qualified or until that director's earlier resignation or removal in accordance with these Bylaws.

(b) Directors may serve no more than three consecutive terms, except as indicated in Section 5.4 (b) (i) and (ii) below. A director who served three such consecutive terms and leaves the Board shall not become eligible for service on the Board until at least one year passes after he or she last served on the Board. If initial service on the Board began other than on the first day of a fiscal year, service prior to the beginning of the first full fiscal year after election shall not be counted in applying the term limit rule set out in this Section 5.4(b).

(i) If an otherwise termed-out director is also serving as an officer at the end of his or her final term, then the director's term as a director will be extended unless and until the Board elects a replacement officer;

(ii) the Chairman may recommend and the Board may approve an extension, in increments of one-year, to the final term of an otherwise termed-out director in those rare instances where the director is leading a project or initiative deemed critical to the organization.

Section 5.5 Resignation. A director may resign at any time by giving written notice to the Chair of the Board, the Chief Executive Officer or the Secretary. Any resignation shall take effect upon receipt of notice or at any later time specified in that notice. Unless otherwise specified in the notice of resignation, affirmative acceptance of the resignation shall not be necessary to make it effective. If the resignation specifies a

later effective date, a successor may be elected prior to such effective date to take office when the resignation becomes effective.

Section 5.6 Removal. Any director may be removed, with or without cause, by the vote of the majority of the Board of Directors then in office. Any vacancy caused by the removal of a director shall be filled as provided in Section 5.7.

Section 5.7 Vacancies. A vacancy in the Board shall be deemed to exist if a director dies, resigns, is removed, or in the event that the actual number of directors is less than the authorized number for any reason. The Board may declare vacant the office of any director who has been declared of unsound mind by a final order of court; has been convicted of a felony; or has been found by final order or judgment of any court to have breached any duty under Section 5230 under the Nonprofit Corporation Law. Vacancies on the Board may be filled by a majority of the directors then in office. Each director appointed to fill a vacancy shall hold office for the unexpired portion of the term, or until his or her death, resignation, or removal from office.

Section 5.8 Leave of Absence. A director may request, and the board may approve a leave of absence for a period not to exceed one year. In such instances, the board may extend the term of such director for up to one year. During the leave of absence, the director shall not be considered a director "in office" for any purpose, or counted for quorum under section 6.8.

Section 5.9 Representative of a Charter Authorizer. Notwithstanding any other provisions of these Bylaws, the number of directors shall be increased as needed if one or more charter authorizer(s) choose(s) to appoint a representative to the Board. The term, removal and replacement of such a director shall be governed by applicable provisions of these Bylaws, the Nonprofit Corporation Law and other applicable laws.

Section 5.10 Compensation of Directors. Directors shall not receive any compensation for their services as directors. The Board may authorize the advance or reimbursement to a director of actual reasonable expenses incurred in carrying out his or her duties as a director.

Section 5.11 Board Committees. The Board may create one or more board committees to serve at the pleasure of the Board ("Board Committees"). Appointments to any Board Committee shall be by a vote of a majority of the directors then in office. Board Committees may be given authority of the Board, subject to the limitations specified in Section 5212 of the Nonprofit Corporation Law and in the board resolution creating or delegating authority to the Board Committee. Individuals who are not directors may

participate in and be members of Board Committees. Committees of the Board may include:

(a) The Executive Committee assists the Board by having the authority to carry out limited, expressly delegated functions between meetings of the Board and subject to statutory limitations on committee action.

(b) The Audit and Risk Management Committee oversees accounting and financial reporting processes including internal controls, recommends selection of the organization’s auditor to the Board, and oversees the organization’s annual fiscal audit. This committee shall comply with all requirements of the Nonprofit Integrity Act for audit committees.

Section 5.12 Advisory Board. The Board may create an advisory board, consisting of persons who are not officers of the Corporation or members of the Board, to serve at the pleasure of the Board and to report its findings and recommendations, and to carry on such activities as requested by the Board on subjects of interest to which the members of such an advisory board have a particular expertise or capability. The appointment of members of such an advisory board requires Board approval. Any such advisory board, to the extent provided in the resolution of the Board, shall act only in an advisory capacity to the Board, shall have no legal authority to act for the Corporation and shall be clearly titled and held out as an “advisory board.”

ARTICLE VI MEETINGS OF BOARD AND COMMITTEES

Section 6.1 Open Meetings and Brown Act Compliance. The Corporation shall call, notice and conduct all Board and Board Committee meetings, including meetings relating to election and removal of directors and filling of vacancies on the Board, and otherwise take all actions as may be required by the “Brown Act” (Government Code Section 54950 *et seq.*) and any other applicable open meeting laws.

Section 6.2 Annual Meeting. An annual meeting of the Board shall be held each year on a date to be specified by the Board and shall coincide with one of the regular meetings. Agenda items at the annual meeting shall include election of directors and election of officers as appropriate.

Section 6.3 Regular Meetings. Regular meetings of the Board, including the annual meeting, shall be held at a date, time, and place to be fixed from time to time by resolution of the Board. The Board shall hold at least four regular meetings in each fiscal year. Meetings shall be held in locations and in a manner consistent with the Brown Act and the Charter Schools Act.

Section 6.4 Special Meetings. Special meetings of the Board may be called by the Chair of the Board, the Chief Executive Officer, or any two directors. Meetings shall be held in locations and in a manner consistent with the Brown Act and the Charter Schools Act.

Section 6.5 Notice of Regular Meetings. The regular meetings may be held without notice to the Board if the date, time, and place of the regular meetings are fixed by resolution of the Board. In accordance with the Brown Act, at least 72 hours before a regular meeting, the Corporation shall post an agenda containing a brief description of each item of business to be transacted or discussed at the meeting. The agenda shall be posted at or near the meeting location that is freely accessible to members of the public, and on the Corporation's website.

Section 6.6. Notice of Special Meetings. In accordance with the Brown Act, the Corporation shall give at least 24 hours' notice of any special meeting to each director and to the public through posting of an agenda at or near the meeting location that is freely accessible to members of the public, and on the Corporation's website. Any such notice shall be addressed or delivered to each director at the director's address as it is shown on the records of the Corporation, or as may have been given to the Corporation for purposes of notice or, if an address is not showing on the Corporation's records or is not readily ascertainable, at the place at which the meetings of the Board are regularly held. Notice by mail shall be deemed received at the time a properly addressed written notice is deposited in the United States mail, postage prepaid. Any other written notice shall be deemed received at the time it is personally delivered to the recipient or is delivered to a common carrier for transmission, or is actually transmitted by the person giving the notice by electronic means to the recipient. Oral notice may be deemed received at the time it is communicated, in person or by telephone or wireless, to the recipient or to a person at the office of the recipient whom the person giving the notice has reason to believe will promptly communicate it to the receiver.

Section 6.7 Waiver of Notice. To the extent permitted by law, the transactions of any meeting of the Board, however called and noticed, shall be valid as though taken at a meeting duly held after proper call and notice, if a quorum is present, and if, either before or after the meeting, each of the directors not present provides a waiver of notice, a consent to holding the meeting, or an approval of the minutes in writing. All waivers, consents and approvals shall be filed with the corporate records or made a part of the minutes of the meeting. Notice of a meeting shall also be deemed given to any director who attends the meeting without protesting the lack of adequate notice before the meeting or at its commencement.

Section 6.8 Quorum and Voting. A majority of the actual directors then in office shall constitute a quorum for the transaction of business. The vote of a majority of the

directors present at a meeting at which a quorum is present shall be the act of the Board, except as provided by Section 5211 of the Nonprofit Corporation Law or these Bylaws. The following actions may not be taken by the Corporation or the Board without approval of at least a majority of the directors then in office at a meeting at which a quorum is present:

- a) election of a director (including an election to fill a vacancy) under Sections 5.4 or 5.7 of these Bylaws;
- b) removal of a director under Sections 5.6 or 5.7 of these Bylaws;
- c) appointments to a Board Committee under Section 5.10 of these Bylaws;
- d) election, appointment or termination of the Chief Executive Officer under Sections 8.2 or 8.10 of these Bylaws;
- e) entry into or performance of a merger agreement to which the Corporation is party, a sale of substantially all of the assets of the Corporation or the dissolution or liquidation of the Corporation;
- f) entry by the Corporation into a financial commitment, including, without limitation, entry into a credit agreement, real estate lease or equipment lease, in an amount in excess of that which may be approved by a Board Committee under the charters for the Board Committees or other delegated authority;
- g) submission to a school district or other applicable government body of a charter petition for a new school;
- h) closing of an existing school;
- i) amendment of the Articles of Incorporation of the Corporation; or
- j) amendment of these Bylaws under Section 13.1 of these Bylaws.

Except as otherwise provided in these Bylaws or in the Articles of Incorporation or by law, no business shall be considered by the Board at any meeting at which a quorum is not present, and the only motion which the Chair of the Board shall entertain at such meeting is a motion to adjourn. The directors present at a duly called and held meeting at which a quorum is initially present may continue to do business notwithstanding the loss of a quorum at the meeting due to a withdrawal of directors from the meeting, provided that no action may be taken thereafter unless and until a quorum is restored.

Section 6.9 Telephone and Electronic Meetings. Directors may participate in a meeting through use of conference telephone or electronic video screen communication. Participation in a meeting through use of conference telephone or electronic video screen communication constitutes presence in person at that meeting so long as all members participating in the meeting are able to hear one another. In addition, the meeting shall be conducted in accordance with these Brown Act requirements: (a) a quorum of the members of the Board shall participate in the teleconference meeting from locations within the Corporation's jurisdiction, defined as all counties wherein the Corporation operates a charter school; (b) all votes taken during a teleconference meeting shall be taken by roll call; (c) the Corporation shall post agendas at all teleconference locations with each

teleconference location being identified in the notice and agenda of the meeting; (d) all locations where a member of the Board participates in the teleconference meeting must be fully accessible to members of the public and shall be listed on the agenda; (e) members of the public must be able to hear what is said during the meeting and shall be provided with an opportunity to address the Board directly at each teleconference location; and (f) the agenda shall indicate that members of the public attending a meeting conducted via teleconference need not give their name when entering the conference call.

Section 6.10 Board Committee Meetings. Meetings and actions of Board Committees shall be governed by and held in accordance with the applicable provisions of these Bylaws relating to meetings and compliance with the Brown Act.

ARTICLE VII CERTAIN MATTERS

Section 7.1 Conflict of Interest Policy and Code. The Board shall maintain in effect a Conflict of Interest Policy and Conflict of Interest Code that reflects federal and state laws applicable to nonprofit corporations and charter schools. The policy shall include, without limitation, provisions relating to (a) eligibility for positions including membership on the Board; (b) disclosure and reporting by directors, officers, committee members, and employees of financial or other interests that constitute or could result in a conflict of interest; (c) steps that must be taken by the directors, officers or employees, including abstention, data assessment and documentation requirements, to approve a decision or transaction that involves an actual or apparent conflict of interest; and (d) regular monitoring and enforcement of policy compliance by the Corporation.

Section 7.2 Board-Approved Policies. The Board may adopt additional governance and management policies as it deems appropriate.

Section 7.3 Executive Compensation Review. The Board (or a Board Committee) shall review any compensation packages (including all benefits) of the chief executive officer and the chief financial officer, and shall approve such compensation only after determining that the compensation is just and reasonable. Such review and approval shall occur annually, as well as when such officer is hired, when the term of employment of such officer is renewed or extended, and when the compensation of such officer is modified, unless the modification applies to substantially all of the employees of the Corporation.

ARTICLE VIII OFFICERS

Section 8.1 Officers. The officers of the Corporation shall be a Chair of the Board, a Chief Executive Officer (the "Chief Executive Officer"), a Secretary, and a Chief Financial Officer (the "Chief Financial Officer"). The Chair of the Board must be a director.

The Corporation may also have such other officers, such as a Vice Chair, as may be determined by the Board. One person may hold two or more offices, except that neither the Secretary nor the Chief Financial Officer may serve concurrently as the Chair of the Board or the Chief Executive Officer. Subject to the authority of the Board, the officers shall have the authority and responsibilities provided for in these Bylaws and as generally pertain to their respective offices.

Section 8.2 Election and Term. The officers of the Corporation shall be elected by the Board by a vote of a majority of the directors then in office. . An officer who is a director and not an employee of the Corporation shall serve for a two-year term (or until his or her resignation or removal as a director, whichever is sooner). The exception is the Board Chair, who will serve one three-year term as the Board Chair. Officers who are employees shall serve subject to the rights, if any, of an officer under any contract of employment, or to their separation from such employment, and shall not be subject to a term limit.

Section 8.3 Chair of the Board.

(a) The Chair of the Board shall, if present, preside at all meetings of the Board, and shall exercise and perform such other powers and duties as may be prescribed by these Bylaws or the Board.

(b) The Board will elect the successor to the Chair of the Board at the annual meeting or other meeting closest in time to one year prior to the expiration of the Chair of the Board's term of office. Such successor shall during that year hold the title of Chair-Elect, serve as a member of the Executive Committee, if any, and exercise and perform such other powers and duties as may be prescribed by the Board.

Section 8.5. Vice Chair of the Board. The Board at its discretion may elect a Vice Chair. The Vice Chair of the Board, in the absence of the Chair of the Board, shall preside at meetings of the Board, and shall exercise and perform such other powers and duties as may be prescribed by the Board.

Section 8.6 Leadership in the Absence of the Chair of the Board

(a) In the absence of the Chair of the Board, the duties of the Chair of the Board, namely, to preside at meetings of the Board, and exercise and perform such other powers and duties as may be prescribed by the Board, shall be carried out as laid out in 8.6b, until the Chair of the Board returns, or until the Board arranges otherwise:

(b) By the Vice Chair of the Board; and if there be no Vice Chair, then by the most recent former Chair of the Board still serving on the Board; and if the most recent former Chair of the Board is not present or available, then by the Chair of the Executive

Committee; and if the Chair of the Executive Committee is not present or available, the Board may agree upon a Board member to serve as a temporary Chair.

Section 8.7 Chief Executive Officer. The Chief Executive Officer shall be the chief executive officer of the Corporation unless such title is assigned to another officer of the Corporation. The Chief Executive Officer shall generally supervise, direct and control the activities and affairs of the Corporation, and shall see that all orders and resolutions of the Board are carried into effect. The Chief Executive Officer shall exercise and perform such other powers and duties as may be prescribed by these Bylaws or by the Board, and by contract if an employee.

Section 8.8 Secretary. The Secretary shall keep or cause to be kept a full and complete record of the proceedings of the Board and its committees, shall give or cause to be given notice of all Board meetings as required by law or these Bylaws, and in general shall exercise and perform such other powers and duties as may be prescribed by these Bylaws or by the Board.

Section 8.9 Chief Financial Officer. The Chief Financial Officer shall keep and maintain, or cause to be kept and maintained, adequate and correct books and records of account. The Chief Financial Officer shall send or cause to be given to the directors such financial statements and reports as are required to be given by law, and as may be prescribed by these Bylaws or by the Board. The Chief Financial Officer shall deposit, or cause to be deposited, all money and other valuables in the name and to the credit of the Corporation with such depositories as designated by the Board, shall disburse or cause to be disbursed the Corporation's funds as directed by the Board, shall render to the Chief Executive Officer and Board, upon request, an account of the Chief Financial Officer's transactions as Chief Financial Officer and of the financial condition of the Corporation, and shall exercise and perform such other powers and duties as may be prescribed by these Bylaws or the Board.

Section 8.10 Resignation. An officer may resign at any time by giving written notice to the Corporation. Any resignation shall take effect upon receipt of notice or at any later time specified in that notice. Unless otherwise specified in the notice of resignation, affirmative acceptance of the resignation shall not be necessary to make it effective. Any resignation is without prejudice to the contract or other rights, if any, of the Corporation in respect of the officer.

Section 8.11 Removal. An officer may be removed from office with or without cause by the Board or by an officer, on whom such power of removal may be conferred by the Board, provided, however, that removal of the Chief Executive Officer requires approval by a majority of the directors then in office.

Section 8.12 Vacancies. A vacancy in any office for any reason shall be filled by the Board.

ARTICLE IX INDEMNIFICATION

Section 9.1 Definitions. For purposes of this Article, “Agent” means any person who is or was a director, officer, employee or other agent of the Corporation, or is or was serving at the request of the Corporation as a director, officer, employee or other agent of another foreign or domestic corporation, partnership, joint venture, trust or other enterprise, or was a director, officer, employee or agent of a predecessor corporation of the corporation or another enterprise at the request of such predecessor corporation; “Proceeding” means any threatened, pending or completed action or proceeding, whether civil, criminal, administrative or investigative; and “Expenses” includes, without limitation, attorneys’ fees and any expenses incurred in establishing a right to indemnification under Section 9.2 of this Article.

Section 9.2 Right to Indemnity. The Corporation may, subject to and to the fullest extent permitted by law, indemnify any person who was or is a party or is threatened to be made a party to any Proceeding by reason of the fact that such person is or was an Agent of the Corporation, against expenses, judgments, fines, settlements and other amounts actually and reasonably incurred in connection with the Proceeding.

Section 9.3 Approval of Indemnity. On written request to the Board by any Agent seeking indemnification, to the extent that the Agent has been successful on the merits, the Board shall promptly authorize indemnification in accordance with Section 5238(d) of the Nonprofit Corporation Law. Otherwise, the Board shall promptly determine, by a majority vote of a quorum consisting of directors who are not parties to the Proceeding, whether, in the specific case, the Agent has met the applicable standard of conduct stated in Section 5238(b) or Section 5238(c) of the Nonprofit Corporation Law, and, if so, may authorize indemnification to the extent permitted thereby.

Section 9.4 Advancing Expenses. The Board may authorize the advance of Expenses incurred by or on behalf of an Agent of the Corporation in defending any Proceeding before the final disposition of such Proceeding, if the Board finds that: (a) the requested advances are reasonable in amount under the circumstances; and (b) before any advance is made, the Agent submits a written undertaking satisfactory to the Board, in its sole discretion, to repay the advance unless it is ultimately determined that the Agent is entitled to indemnification for the Expenses under this Article.

Section 9.5 Insurance. The Board shall have the power to purchase and maintain insurance on behalf of any Agent against any liability asserted against or incurred by the Agent in such capacity or arising out of the Agent’s status as such, whether or not the

Corporation would have the power to indemnify the Agent against such liability under this Article; provided, however, that the Corporation shall not have the power to purchase and maintain such insurance to indemnify any Agent of the Corporation for a violation of Section 5233 of the Nonprofit Corporation Law.

ARTICLE X FISCAL YEAR AND REPORTING OBLIGATIONS

Section 10.1 Fiscal Year. The fiscal year of the Corporation shall begin on July 1 and end on June 30. The Board may change the fiscal year of the Corporation as it deems appropriate.

Section 10.2 Financial Reporting. The Corporation shall produce and provide to the Board the financial and other reports required by the Nonprofit Corporation Law, including, without limitation, the annual report required by Section 6321 and the statement of transactions or indemnification required by Section 6322, and if required produce and make publicly available the financial statements required by the Nonprofit Integrity Act.

ARTICLE XI GIFTS, GRANTS, CONTRACTS, INVESTMENTS

Section 11.1 Gifts. The Board may accept on behalf of the Corporation any contribution, gift, bequest or devise for the general purposes or for any specific purpose of the Corporation. The Corporation shall retain complete control and discretion over the use of all contributions it receives.

Section 11.2 Grants. The Board shall exercise itself, or delegate, subject to its supervision, control over grants, contributions, and other financial assistance provided by the Corporation, including, without limitation, fiscal sponsorship relationships.

Section 11.3 Contracts. The Board may authorize any officer(s) or agent(s), in the name of and on behalf of the Corporation, to enter into any contract or execute any instrument. Any such authority may be general or confined to specific instances, or otherwise limited. Unless otherwise determined by the Board, the Chair of the Board and the Chief Executive Officer are authorized to execute such instruments on behalf of the Corporation.

Section 11.4 Payment of Money. The Board shall adopt a policy specifying the authority of the officers of the Corporation to approve expenditures by the Corporation and sign related documents on behalf of the Corporation. Unless otherwise determined by the Board, all checks, drafts or other orders for payment of money out of the funds of the Corporation and all notes or other evidences of indebtedness of the Corporation must be

signed on behalf of the Corporation by the Chair of the Board, Chief Executive Officer, or the Chief Financial Officer.

Section 11.5 Deposits. The funds of the Corporation not otherwise employed, including any amounts in any reserve fund, shall be deposited from time to time to the order of the Corporation in such banks, trust companies or other depositories as the Board may select.

Section 11.6 Investments. In investing, reinvesting, purchasing, acquiring, exchanging, selling and managing the Corporation's investments, other than assets which are directly related to the Corporation's public or charitable programs, the Board shall avoid speculation, looking instead to the permanent disposition of the funds, considering the probable income, as well as the probable safety of the Corporation's capital. No investment violates this Section where it conforms to provisions authorizing the investment contained in an instrument or agreement under which the assets were contributed to the Corporation.

ARTICLE XII OTHER PROVISIONS

Section 12.1 Rights of Inspection. Every director shall have the right at any reasonable time to inspect and copy all books, records and documents, and to inspect the physical properties of the Corporation.

Section 12.2 Electronic Transmissions. Unless otherwise provided in these Bylaws, and subject to applicable law (including, without limitation, the Brown Act) and to any guidelines and procedures that the Board may adopt from time to time, the terms "written" and "in writing" as used in these Bylaws include any form of recorded message in the English language capable of comprehension by ordinary visual means, and may include electronic transmissions, such as facsimile or e-mail, provided (i) for electronic transmissions from the corporation, the corporation has obtained an unrevoked written or oral consent from the recipient to the use of such means of communication; (ii) for electronic transmissions to the corporation, the corporation has in effect reasonable measures to verify that the sender is the individual purporting to have sent such transmission; and (iii) the transmission creates a record that can be retained, retrieved, reviewed, and rendered into clearly legible tangible form.

ARTICLE XIII AMENDMENTS

Section 13.1 Amendment of Bylaws. Except as otherwise provided by law, these Bylaws may be amended or repealed and new bylaws may be adopted by approval of a majority of the directors then in office.

Amended and restated as of September 13, 2019.

Appendix 15- KIPP Conflict of Interest Code

**CONFLICT OF INTEREST CODE FOR THE
KIPP Bay Area Schools**

The Political Reform Act (Government Code Section 81000, et seq.) requires state and local government agencies to adopt and promulgate conflict of interest codes. The Fair Political Practices Commission has adopted a regulation (2 Cal. Code of Regs. Section 18730) which contains the terms of a standard conflict of interest code, which can be incorporated by reference in an agency's code. After public notice and hearing it may be amended by the Fair Political Practices Commission to conform to amendments in the Political Reform Act. Therefore, the terms of 2 California Code of Regulations Section 18730 and any amendments to it duly adopted by the Fair Political Practices Commission are hereby incorporated by reference. This regulation and the attached Appendices designating officials and employees and establishing disclosure categories shall constitute the conflict of interest code of the **KIPP Bay Area Schools**.

Individuals holding designated positions shall file their statements of economic interest with **KIPP Bay Area Schools**, which will make the statements available for public inspection and reproduction. (Gov. Code Section 81008.) All statements will be retained by **KIPP Bay Area Schools**.

APPENDIX "A"
DESIGNATED PERSONS

<u>Designated Positions</u>	<u>Disclosure Category</u>
Members of the Board of Directors	1, 4
Chief Executive Officer	1, 2
Chief of Schools	1, 2
Chief People Officer	1, 2
Chief of Growth, Real Estate, Advocacy and Community Engagement Officer	1, 2
Chief External Affairs and Communications Officer	1, 2
Chief Operating Officer	1, 2
Director of Finance	2
Director of Technology	3
Director of Special Education	3
Director of School Operations	3
School Leaders	3
Consultant/New Position	*

*The CEO may determine in writing that a particular consultant or new position, although a "designated position", is hired to perform a range of duties that is limited in scope and thus is not required to fully comply with the disclosure requirements above. Such written determination shall include a description of the consultant's or new position's duties and, based upon that description, a statement of the extent of disclosure

requirements. The CEO's determination is a public record and shall be retained for public inspection in the same manner and location as this conflict of interest code.

PUBLIC OFFICIALS WHO MANAGE PUBLIC INVESTMENTS

The following positions are NOT covered by the conflict-of-interest code because they must file under Government Code Section 87200 and, therefore, are listed for informational purposes only:

Members of the Finance Committee

Chief Financial Officer (CFO)

Consultants that Manage Public Investments

An individual holding one of the above listed positions may contact the Fair Political Practices Commission for assistance or written advice regarding their filing obligations they believe that their position has been categorized incorrectly. The Fair Political Practices Commission makes the final determination whether a position is covered by Government Code Section 87200.

APPENDIX "B"

DISCLOSURE

CATEGORIES

Category 1. Designated positions assigned to this category must report:

Interests in real property of the type and legal designation that can be utilized for public school use within the jurisdiction.

Category 2. Designated positions assigned to this category must report:

Investments and business positions in business entities and sources of income (including receipt of gifts, loans, and travel payments) from sources of the type that are contractors engaged in the performance of work, training, consulting or services, or are sources that manufacture or sell supplies, instructional materials, machinery, equipment, or vehicles of the type utilized by KIPP Bay Area Schools.

Category 3. Designated positions assigned to this category must report:

Investments and business positions in business entities and sources of income (including receipt of gifts, loans, and travel payments) from sources of the type that are contractors engaged in the performance of work, training, consulting or services, or are sources that manufacture or sell supplies, instructional materials, machinery, equipment, or vehicles of the type utilized by the designated position's department.

Category 4. Designated positions assigned to this category must report:

Investments and business positions in business entities and sources of income (including receipt of gifts, loans, and travel payments) from sources of the type that provide financial accounting auditing services.

This is the last page of the conflict of interest code for the **KIPP Bay Area Schools**

CERTIFICATION OF FPPC APPROVAL

Pursuant to Government Code Section 87303, the conflict of interest code for the **KIPP Bay Area Schools** was approved on 10/15/ 2021. This code will become effective on 11/14/ 2021.

Appendix 16- KIPP Board Member Job
Description, List of 2023-24 Board
Members, and Biographies

KIPP®Public Schools

NORTHERN CALIFORNIA

Board of Directors Job Description Primary Responsibilities and Criteria for Selection

PRIMARY RESPONSIBILITIES

The responsibilities of the board include:

- Define and refine the organization’s mission, vision, and strategic direction
- Recruit, support, and evaluate the CEO
- Ensure effective organizational capacity and planning
- Ensure adequate resources and the effective management of those resources
- Monitor the organization’s programs and services
- Enhance the organization’s public standing
- Ensure fiscal, legal and ethical integrity and maintain accountability
- Recruit and orient new board members
- Assess board performance

Note that the legal responsibilities of nonprofit boards include standards of conduct described as “the duty of care, the duty of loyalty, and the duty of obedience.” These standards are defined under well established principles of nonprofit corporate law

CRITICAL COMPONENTS OF AN EFFECTIVE BOARD

- Focused on big picture and long-term sustainability of the region and its schools, not the day-to-day business of running the region or the schools
- Sufficient diversity to support healthy deliberations on all matters
- Has clear officer succession plan and continually cultivates and nominates new board members with needed skills
- Clearly understands the distinctions between management and governance
- Has a firm understanding of KIPP’s regional and school-based financial position and reviews the organization’s financial health on a regular basis (e.g. including approval of the annual budget)
- Well versed in the overall health and performance of the organization
- Evaluates the CEO on an annual basis

RESPONSIBILITIES OF INDIVIDUAL BOARD MEMBERS

- Be an active advocate and ambassador for the values, mission, and vision of the organization
- Champion KIPP’s commitment to diversity, equity and inclusion
- Regularly attend and participate in board and advisory council meetings, as well as fundraising events
- Contribute to the effective operation of the board by focusing on the good of the organization and the group, supporting board decisions once they are made, and participating in an honest appraisal of one’s own performance and that of the board as a whole

KIPP®Public Schools

NORTHERN CALIFORNIA

Board of Directors Job Description Primary Responsibilities and Criteria for Selection

- Stay informed about the organization and its issues by reviewing materials, participating in discussions, and asking strategic questions
- Use personal and professional contacts to reach into diverse communities to identify and recruit donors, volunteers, and advocates to support the organization
- Serve as a council chair or member (or on ad hoc task forces created by the board)
- Help raise funds by working on a particular fundraising project or carrying out a particular fundraising responsibility or goal
- Inform the board of all potential conflicts of interest
- Adhere to relevant policies and procedures set by the board
- Travel to Santa Clara County for quarterly meetings (note: in-person meetings are currently suspended due to the COVID-19 pandemic; the board is meeting virtually until further notice.)

ESTIMATED TIME COMMITMENT FOR BOARD MEMBERS

- Attend regular Board Meetings and Annual Retreat (with a calendar of meeting dates set annually and an expectation of $\geq 80\%$ attendance. Typical meeting length is 4 hours and roughly 5-7 meetings per year)
- Attend Advisory Council and/or Board Committee meetings (with a calendar of meeting dates set annually and an expectation of $\geq 80\%$ attendance)
- Prepare for board and Council or Committee meetings (typically taking 3-4 hours of preparation per meeting)
- Complete projects/attend events outside of board meetings
- Visit KIPP school(s) at least once a year
- Engage with KIPP stakeholders (families, students, staff, community members, etc.)

CRITERIA FOR BOARD MEMBER SELECTION

Characteristics of all board members:

- Residing in the Bay Area or Central Valley as of July 1, 2022
- Meets standards of conduct regarding duty of care, loyalty and obedience
- Supports the values, mission, vision, and strategic direction of the organization
- Prioritizes organizational needs over personal agenda
- Communicates openly and effectively
- Thinks critically and strategically
- Listens well and is receptive to feedback
- Is willing and able to participate in dialogue and deliberations

KIPP®Public Schools

NORTHERN CALIFORNIA

Board of Directors Job Description Primary Responsibilities and Criteria for Selection

- Welcomes divergent views to create the best solutions for the organization
- Has an affinity for working in a group; works well with others
- Possess entrepreneurial spirit and be interested in building the organization
- Recognized and respected in local or professional communities
- Has the necessary time to dedicate to active board service
- Has desire and commitment to bring resources, expertise and relationships to bear in service of organization and schools

Range of desired functional skills and experience:

- Education – charter schools, K-12 education, higher education; served on board of a school
- Community outreach -- experience working in the communities our schools are a part of
- KIPP Parent- is a parent/guardian of a current a student(s) attending a KIPP school in Northern California
- Advocacy -- able to represent and advocate on behalf of organization
- Diversity, equity and inclusion -- expertise in training/leading adults in building equitable, anti-racist systems and structures
- Multisite/growing operations – experience with multisite service organizations or networks of schools
- Business/Finance – accounting, banking, venture capital, strategy consulting, CFO experience
- Legal – experience in law, especially nonprofit law
- Facilities – real estate, facilities financing, construction management
- Fundraising – experience in cultivation of donors, face-to-face solicitations, or special events
- Governance – previous nonprofit board experience

Types of diversity desired:

- Geographic – to span range of communities of KIPP NorCal schools
- Race/ethnicity – reflective of our school communities
- Diverse socioeconomic status
- Gender
- Age
- Other seen or unseen identities reflected in our school communities
- Functional skills/experience

KIPP Northern California 2023-24 Board Member Biographies

Grace Voorhis

Grace serves as KIPP Northern California's Board Chair. Grace also serves as a Director for Alder Graduate School of Education, a teacher training graduate school; the Advisory Council of the Stanford Graduate School of Education; and as a Director on the Silicon Schools Fund Board. Grace previously worked in venture capital and investment banking.

Abe M. Friedman

Abe is a Partner and Head of PJT Camberview and serves as a member of the Board of Advisors of the NYU Law Institute for Corporate Governance & Finance. He previously served as a co-director of the Stanford Institutional Investor Forum. Abe was previously the mayor of Piedmont and served on the city council for 8 years. He currently serves as KIPP Northern California's Vice-Chair and Governance Chair.

Sumari Barnes

Sumari is a Project Coordinator for DCG Strategies, a commercial real estate firm with a mission to serve California's community-benefit organizations. Sumari is a KIPP Northern California alumni, and previously attended KIPP Bridge Academy before pursuing her BA from Loyola Marymount University in African American Studies with a double minor in Political Science and Journalism.

Michael Cohen

Michael, co-founder, and Principal of Strada, is a member of the Investment Committee and helps lead Strada's deal sourcing efforts. Michael was the City of San Francisco's primary negotiator on many of the largest development projects over the last decade, including Naval Station Treasure Island, the Hunters Point Shipyard, and the Transbay Terminal. Michael serves as the chair of KIPP Northern California's Facilities Advisory Council.

Caretha Coleman

Getting her start at Hewlett Packard, Caretha has spent 40 years in the technology industry working with start-ups and early-stage ventures in the areas of organizational strategy development; and executive coaching and effectiveness. Her philanthropic interests center on work focused on underrepresented populations. Caretha is co-founder of the Black Directors Health Equity Agenda and member of the Board. She chairs the board of The Leverage Network (TLN), is a board member of Accion Opportunity Fund, KIPP Schools in Northern California, and member of the national board of Facing History and Ourselves. In addition, she serves on the advisory boards of the Black Economic Alliance and Culture Shift. She has been recognized as one of the Bay Area's most Influential Women by the San Francisco Business Times; and Outstanding Director by the Silicon Valley Business Journal, and was named a Visionary Leader by the SF Chronicle for her work in diversity.

D’Lonra Ellis

D’Lonra C. Ellis is the Chief Legal Officer of the Oakland Athletics. D’Lonra is an Adjunct Professor at UC Hastings College of Law and sits on the board of Bay Area Legal Aid, which provides direct legal services to low-income residents in seven Bay Area counties. D’Lonra is also on the board of Seven Stories Institute, which runs a non-profit bookstore collective in the Washington Heights neighborhood of New York City.

Laura Fisher

Laura Fisher is a therapist for youth and families in underserved populations. She had previously served on boards for health, education, and civic engagement such as Peer Health Exchange, Civil Society at Stanford University, and The San Francisco Day School.

Jessica García-Kohl

Jessica García-Kohl is the Executive Director of the Westly Foundation. For two decades, she has dedicated her career to nonprofit, government, and philanthropic sectors, strengthening communities and creating equitable opportunities for children, youth, and families. She serves as Vice President for the Board of MidPen Housing and is a Board of Director for Braven.

Heather Gardley

Heather has four students attending KIPP Schools, one student at KIPP King High School, and three students at KIPP Summit. Heather has 16 years of work experience in higher education and currently works as the Director, Student Conduct, Rights & Responsibilities at CSU East Bay. Heather is the former Board President and Treasurer of Tri-City Mothers of Multiples. Heather and her family reside in the East Bay.

Ron Gonzales

Ron Gonzales is the President and CEO of the Hispanic Foundation of Silicon Valley dedicated to improving the quality of life for Silicon Valley Latinx families and is President and CEO of Presencia, LLC, which provides marketing and sales consulting services. He served as Mayor of San José, California, and on the Santa Clara County Board of Supervisors, and the Sunnyvale City Council. He currently serves on the Silicon Valley Capital Club Board of Governors, and Board of Directors for SV@Home.

Gustavo Gonzalez

Gustavo has been a KIPP parent for nine years, with two children attending KIPP San Jose Collegiate, and KIPP Heartwood. Gustavo is a former Board of Trustee at Alum Rock School District, the former President of the Santa Clara Association of Realtors, and former Juvenile Justice Commissioner of Santa Clara County. Gustavo is a San Jose native and resides there with his family.

Haley Lopez

Haley Lopez is KIPP Northern California alum who works in the tech industry. She has been involved with a variety of local organizations; City Youth Now, Boys & Girls Clubs of San

Francisco, KIPP Foundation, and SMASH. Her passion stems from her own experience with community organizations and the support they provided her and her family.

Aubrey Merriman

Aubrey Merriman is the current CEO of LifeMoves. LifeMoves' mission to end homelessness by providing interim housing, supportive services, and building collaborative partnerships. Aubrey is the former CEO of Boys & Girls Club of North San Mateo County, Executive Director of Summer Search Silicon Valley, and Senior VP of Special Olympics Northern California. Aubrey's passion for KIPP's work is fueled by his lived experience with educational inequity.

Jenny Risk

Jenny Shimizu Risk is a community volunteer and philanthropist in education. She previously served as the co-Chair of the Nueva School's Innovative Learning Conference Planning Committee, as a KIPP board member in Nashville, and on the Nashville Advisory board for Stand For Children. She is on the Advisory Council of the Stanford Graduate School of Education and the Advisory Council for the Arts Division at University of California, Santa Cruz.

Jose Rodriguez

Jose Rodriguez is the CEO of El Concilio in Stockton, California. One of the largest community-based, nonprofit social service providers in the Central Valley, El Concilio is dedicated to empowering California's diverse low-income, minority, and marginalized communities by providing critically needed comprehensive and compassionate programs and services.

Emily Rummo

Emily Rummo is a founding Partner at Transcend, a nonprofit that leads innovation in school design in close partnership with schools across the country. Before joining Transcend, she was the founding Chief Operating Officer at KIPP Bay Area Schools and served in that role from 2008 – 2014.

Sohi Sohn Chien

Sohi Sohn Chien serves as Board Chair of the Community School of Music and Arts, bringing art and music education to over 29,500 Bay Area students. She is a founding member of Silicon Valley Community Foundation's Donor Circle for Safety Net: Housing. She previously did policy work at Google and was a founding board member of My New Red Shoes, bringing new clothing and shoes to children in underserved communities to help them start the new school year. Sohi currently serves as KIPP Northern California's Development Chair.

David Stinfil

David Stinfil serves as Managing Director at Siebert Williams Shank, an investment bank. He also currently serves as Chair of the Finance Committee for the Board of the Alameda Health System Foundation and as Chair of the Finance Council for the Board of KIPP Public Schools Northern California.

Sandi Thompson

Sandi Thompson is currently a volunteer immigration attorney practicing through Catholic Charities. She also serves on the Obama Foundation West Coast Advisory Board, the Center for Gender and Refugee Studies, WorkLife Law Center, and Lawyers for America. Thompson previously served as a Planning Commissioner for the Town of Woodside, a Board Member of the University of California Hastings College of the Law and Peninsula Open Space Trust.

Blake Grossman

Blake Grossman is a Managing Member at ThirdStream Partners, focusing on venture and strategic opportunities in financial services and financial technologies. Blake has a twenty-eight-year career in the financial industry, notably serving as the CEO of Barclays Global Investors and the Vice Chairman of BlackRock.

Octavio Sandoval

Octavio Sandoval, CFA, CAIA, is currently the Director of Investments at Illumen Capital. He genuinely seeks innovative solutions to address social and economic injustice facing historically disadvantaged and underrepresented communities. He believes structural problems require structural solutions.

Prior to Illumen Capital, Octavio was a leader at MassMutual Life Insurance Company in building the emerging fund manager program, which allocated \$50 million to a wide variety of BIPOC-led funds that invest in BIPOC-led startups. At MassMutual, Octavio also deployed over \$500 million in allocations to various alternative investment strategies, including private equity and private credit. Prior to MassMutual, Octavio held positions throughout traditional finance, including roles within investment banking, private wealth management, and capital markets.

Octavio earned a B.S. in Applied Economics & Management at Cornell University and holds an M.B.A. from MIT Sloan School of Management. Octavio is an active KIPP alum and serves as a board member of KIPP Northern California.

Appendix 17- KIPP Northern California Chief Executive Officer Job Description

Job Description: Chief Executive Officer, KIPP Public Schools Northern California

At KIPP Public Schools Northern California, we launch and operate joyful, academically excellent schools where all students learn, achieve and belong.

Who we are: KIPP Public Schools Northern California is a nonprofit network of 15 open-enrollment, high-performing, college-preparatory public charter schools. We educate over 6,000 students in grades TK-12 throughout the Bay Area and are expanding to Stockton. Additionally, we support approximately 3,000 alumni on their journey to and through high school and college.

Our Mission: KIPP Public Schools Northern California operates high achieving public schools in educationally underserved communities, developing in our students the knowledge, skills and character essential to thrive in college, shape their futures, and positively impact the world.

Our Theory of Action: By building a growing TK-12 network of inclusive, community-focused, college-preparatory schools that empower students and parents; supporting students through college and to career; and developing highly effective teachers and leaders -- KIPP Public Schools Northern California will disrupt racial and socio-economic inequities in educational access and outcomes, and achieve a catalytic impact on the broader public education system.

Our Vision for Diversity, Equity & Inclusion: Our mission and theory of action describe our belief in the transformative power of education to play a critical role in combating systemic racism and all forms of oppression. We know that we can't succeed -- and that any perceived successes will ring hollow -- without an active and explicit commitment to diversity, equity and inclusion. We will hold ourselves accountable to continuous learning and improvement as we work together to implement [our vision](#) with courage and humility.

Reporting Relationship: The Chief Executive Officer reports to the KIPP Public Schools Northern California Board of Directors and manages the Chief of Schools; Chief People Officer; Chief of External Affairs & Communications Officer; Chief of Growth, Real Estate & Community Engagement; Chief Equity & Inclusion Officer; Managing Director of Finance; Managing Director of Operations & Information; and Executive Affairs Manager.

Chief Executive Officer Overview:

The Chief Executive Officer (CEO) is the leader of KIPP Public Schools Northern California, with ultimate accountability for student success and organizational health. The CEO is responsible for developing high-quality strategies and plans ensuring their alignment with both short and long-term objectives; developing a highly effective Executive Leadership Team; and overseeing all operations and activities to ensure that they produce the desired results and are consistent with the overall vision, mission, values, and strategy of KIPP Public Schools Northern California. The ideal candidate

for this position deeply understands scaling systems and how to unlock the full potential of people in an entrepreneurial, mission-driven organization. The CEO is also the public face of the organization, playing a leadership role in fundraising, KIPP network and charter sector leadership, and community engagement.

Major Responsibilities of CEO:

Mission, Vision, Culture

- Ensure that the organization's strategies are aligned to the vision and mission for KIPP Bay Area and the KIPP network.
- Ensure that team members are supported and held accountable for modeling organizational values and contributing to a healthy culture that drives student success.

Strategy, Planning and Performance Management

- Develop and execute a multi-year strategic plan to drive improvement in student experiences and outcomes, define the organization's growth plan, and generate necessary resources to implement the plan.
- Oversee the development of a long-term and annual budget, priorities, goals, and initiatives in partnership with the Executive Team.
- Oversee the development and implementation of progress monitoring systems to assess all aspects of school and regional health (e.g., programmatic, operational, financial).

Fiduciary

- Act as primary liaison to the Board of Directors, engaging Board members in the current and future needs of the organization, and expanding the Board as appropriate. - Ensure compliance with all rules, regulations and provisions within each of KIPP Bay Area's charters and with all applicable laws.
- Act in the best interests of the organization and its students including avoiding conflicts of interest, understanding and evaluating day to day operations to mitigate risk, and informing the Board of Directors about major issues facing the organization.

Team Leadership and Talent Development

- Recruit, develop and retain members of the Executive Team; design a high-impact organizational structure to deploy their talents and drive student outcomes. - Ensure team members identify and develop successors for critical leadership positions and that we build a thriving school-based leadership pipeline.
- Ensure KIPP Bay Area's commitment to diversity, equity, and inclusiveness while effectively working with individuals of all genders, races, ethnicities, and backgrounds.

Community Building and External Relations

- Build coalitions, relationships, and partnerships with key stakeholders including families, community partners, authorizers, elected officials, and funders.
- Ensure the design and execution of a successful fundraising strategy.
- Oversee the implementation of a robust local and state advocacy strategy. - Demonstrate leadership as a member of KIPP's national network by fully engaging as a member of KIPP's Regional Leader community and participating in national advocacy. - Serve as the

key voice of KIPP Public Schools Northern California enhancing the organization's visibility, brand recognition and credibility.

Qualifications and Desired Characteristics:

The ideal candidate has proven executive leadership skills, has managed a large scale non-profit or school system, and has a track record leading successful change management initiatives. Specifically, this individual will have the following experience and capabilities:

- A history of successful leadership, teamwork, effective management, and extensive track record of achieving impressive results, both individually and through others. Experience working with large and growing teams.
- Ability to quickly and effectively build relationships across a multi-site model, engaging a diverse group of stakeholders. Approachability, strong listening skills, and the ability to diffuse and resolve high-tension situations.
- Continuous learner who
- Experience creating a vision and roadmap and successfully executing on a large scale change management initiative.
- Comfort and experience on topics of race, class and gender in building teams and improving performance.
- Savvy, polished communicator who brings a passion for the KIPP Public Schools Northern California's mission as its chief spokesperson.
- Familiarity and experience in working with large, complex multi-unit and multi-year budgets. Comfort with making difficult budgetary decisions that align with key priorities and financial sustainability.
- Familiarity and experience with large-scale fundraising, including cultivation, solicitations and stewardship.
- Ability to balance data, wisdom, experience, and judgment to make sound decisions aligned with the KIPP culture and values.
- Unquestioned integrity and commitment to KIPP Bay Area Public Schools mission, vision and values.

Salary & Benefits:

We offer a competitive salary and excellent benefits package, depending on experience and qualifications.

KIPP Public Schools Northern California is an equal opportunity employer and does not discriminate on the basis of race, color, religion, sex, age, national origin, veteran status, disability, sexual orientation/gender identity, or any other characteristic protected by applicable law. KIPP Public Schools Northern California strives to ensure that our careers website is accessible to all, including individuals with disabilities. If you require reasonable accommodation for any part of the application or hiring process due to a disability, please contact us. You can find our contact information on our website, <http://www.kippnorcal.org/>. Information will be sent to a talent acquisition representative who will provide assistance to ensure appropriate consideration in the hiring process.

Appendix 18- KIPP Northern California Staff Handbook

KIPP:Public Schools

NORTHERN CALIFORNIA

Staff Member Handbook 2024

About This Handbook

This Staff Handbook is intended to help each staff member understand policies and procedures at KIPP Public Schools Northern California (“KIPP”). Staff members are expected to read this Handbook thoroughly and to know and abide by the policies outlined herein, as revised over time, throughout their employment. Our goal is for this Handbook to serve as a useful reference throughout the staff member’s employment at KIPP. This Handbook cannot anticipate every situation or answer every question about employment, and it is not an employment contract. Where appropriate and necessary, those in supervisory positions at KIPP will explain additional procedures and policies.

KIPP reserves the right to change, deviate from, eliminate, or revise the Handbook, except for the at-will provisions, at any time, without notice, whenever KIPP determines that such action is warranted. This Handbook supersedes and replaces all previous staff policies, practices and procedures.

If a staff member has any questions about any policies or procedures, whether or not they are referred to in this Handbook, they should contact KIPP’s Human Resources team.

Handbook Updates

This Handbook can be found in digital form in KIPP Northern California’s Human Resources Information System (HRIS)/Payroll System. Any updates or revisions to policies or procedures will be posted on the KIPP staff member Portal for staff members’ reference. We anticipate updating our policies routinely. Staff members are responsible for remaining up-to-date on all available policies.

Staff Handbook Acknowledgement

Welcome!

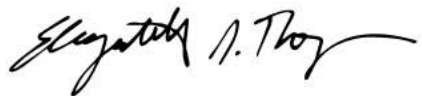

We are thrilled you have chosen to take part in the journey to realize the mission of KIPP Public Schools Northern California - together with families and communities, to create joyful, academically excellent schools that prepare students with the skills and confidence to pursue the paths they choose – college, career, and beyond – so they can lead fulfilling lives and build a more just world.

This Handbook is a reference guide for staff of KIPP. It provides general information regarding the policies and procedures of KIPP. We encourage you to read it carefully.

If you have any questions about anything in this Handbook or any policy or procedure of KIPP, please reach out to your supervisor or to the Human Resources team.

We look forward to working together to prove the possibility - that demography does not define destiny.

Sincerely,

A handwritten signature in black ink, appearing to read "Beth Thompson". The signature is fluid and cursive, with a long horizontal flourish extending to the right.

Beth Thompson
KIPP Public Schools Northern California

About KIPP Public Schools Northern California

KIPP Public Schools Northern California is a non-profit network of 19 TK–12th grade, free, public charter schools open to all students. Our schools work with nearly 6,800 students in East Palo Alto, Oakland, Redwood City, San Francisco, San Jose, San Lorenzo, and Stockton.

Our Vision

Every child grows up free to create the future they want for themselves and their communities.

Our Mission

Together with families and communities, we create joyful, academically excellent schools that prepare students with the skills and confidence to pursue the paths they choose —college, career, and beyond—so they can lead fulfilling lives and build a more just world.

KIPP Across the Nation

KIPP is a non-profit network of college-preparatory public charter elementary, middle, and high school schools. We have a twenty (20)-year track record of preparing our students in educationally underserved communities for success in college and life. The Knowledge is Power Program (KIPP) began in 1994 in Houston, Texas. Today, there are more than two hundred (200) KIPP schools in twenty (20) states and Washington, D.C. educating 88,000 students.

KIPP schools are organized into regions. The KIPP Northern California region is one of the largest. Other large KIPP Regions include Houston, New York, New Jersey, Los Angeles, New Orleans, and Washington, D.C. The KIPP Foundation is headquartered in San Francisco and provides services to all KIPP schools and regions such as professional development to KIPP staff nationwide, developing and implementing the national KIPP strategy, and advocating for KIPP on the national stage.

KIPP Health Benefits

In addition to providing the benefits described in this Handbook, KIPP provides other benefits as required by law. KIPP reserves the right to eliminate or modify its benefit policies at any time to the full extent legally permissible. If staff members have any questions regarding these policies and/or eligibility, they should contact the KIPP Human Resources team.

Healthcare Benefits

KIPP offers medical, dental and vision (collectively, “healthcare”) insurance plan benefits to staff members, and their eligible dependents including domestic partners, who are regularly scheduled to work twenty (20) or more hours per week and who otherwise meet the requirements of the health care plans offered by KIPP.

KIPP also offers health care benefits to temporary staff members working over twenty (20) hours per week and for periods longer than ninety (90) days, subject to the terms, conditions, and limitations of each plan.

The current KIPP benefits brochure, summary plan descriptions, and associated forms can be found on the KIPP Staff Member Portal via HRIS/Payroll System. Staff members are eligible for health care coverage on the first (1st) of the month following their date of hire.

Domestic Partnerships

KIPP's definition of a Domestic Partner is a person who meets the following eligibility requirements:

- Domestic partners are two (2) adults who have chosen to share one another's lives in an intimate and committed relationship of mutual caring
- Both persons have a common residence
- Neither person is married to someone else or is a member of another domestic partnership with someone else that has not been terminated, dissolved, or annulled
- Are responsible for each other's basic living expenses during the domestic partnership and share financial responsibility for any debts incurred as a direct result of an extension of benefits
- The two (2) persons are not related by blood in a way that would prevent them from being married to each other in this state
- Both persons are at least 18 years of age
- Both persons are capable of consenting to the domestic partnership at the time the domestic partnership is established
- May be of the same or opposite sex

Certain policies and plans require us to abide by the state definition of domestic partnership. The definition above applies whenever KIPP has the opportunity to define this type of relationship.

Cobra Benefits

When coverage under KIPP's health insurance plans ends, staff members or their dependents can continue coverage for eighteen (18) or thirty-six (36) months, depending upon the reason benefits ended. To continue coverage, a staff member must pay the full cost of coverage – the staff member contribution and KIPP's previous contribution plus a possible administrative charge.

Medical coverage for a staff member, their spouse or domestic partner, and eligible dependent children can continue for up to eighteen (18) months if coverage ends because:

- Employment ends, voluntarily or involuntarily, for any reason other than gross misconduct; or
- Hours of employment are reduced below the amount required to be considered a full-time staff member or part-time, making a staff member ineligible for the plan.

This eighteen (18) month period may be extended an additional eleven (11) months in cases of disability subject to certain requirements. This eighteen (18) month period may also be extended an additional eighteen (18) months if other events (such as a divorce or death) occur subject to certain requirements.

A staff member's spouse or domestic partner and eligible dependents can continue their health coverage for up to thirty-six (36) months if coverage ends because:

- The staff member dies while covered by the plan;
- The staff member and their spouse become divorced or legally separated;
- The staff member becomes eligible for Medicare coverage, but their spouse has not yet reached age sixty-five (65); or

- The staff member's dependent child reaches an age which makes them ineligible for coverage under the plan.

Rights similar to those described above may apply to retirees, spouses and dependents if the employer commences a bankruptcy proceeding and those individuals lose coverage.

KIPP will notify staff members or their dependents if coverage ends due to termination or a reduction in work hours. If a staff member becomes eligible for Medicare, divorced or legally separated, dies, or when a dependent child no longer meets the eligibility requirements, the staff member or a family member are responsible for notifying KIPP within thirty (30) days of the event. KIPP will then notify the staff member or their dependents of the staff member's rights.

Health coverage continuation must be elected within sixty (60) days after receiving notice of the end of coverage, or within sixty (60) days after the event causing the loss, whichever is later.

There are certain circumstances under which coverage will end automatically. This happens if:

- Premiums for continued coverage are not paid within thirty (30) days of the due date;
- The staff member (or their spouse or child) become covered under another group health plan which does not contain any exclusion or limitation with respect to any pre-existing condition the staff member (or the staff member's spouse or child, as applicable) may have;
- KIPP stops providing group health benefits;
- The staff member (or the staff member's spouse or child) become entitled to Medicare; or
- The staff member extended coverage for up to twenty-nine (29) months due to disability and there has been a final determination that the staff member is no longer disabled.

Retirement Plan

With the exception of eligible staff at KIPP Summit Academy, staff members are eligible to participate in KIPP's 401(k) plan starting on the first of the month following thirty (30) days of employment. Please visit the KIPP Staff Member Portal for the current KIPP Benefits Guide.

KIPP Summit Academy participates in the California State Teachers Retirement System ("CalSTRS") and all eligible staff members are generally required to participate upon their date of hire. Please see the KIPP Staff Member Portal for the current KIPP Benefits Guide.

Time Off and Leaves of Absence

Holidays and Paid Time Off

Full-time and part-time exempt staff members working twenty (20) or more than hours per week will receive time off with pay at their normal base rate for the holidays and/or school breaks detailed in their school site's Policies and Procedures Handbook or in the RSO Holiday Calendar for RSO staff.

Non-exempt staff members working twenty (20) or more than hours per week who are required to work on a federal holiday will be paid for the holiday and time worked at the staff member's regular rate of pay. Holiday pay is not counted as hours worked for purposes of calculating overtime. School scheduled breaks are not considered holidays.

Exempt staff members working a federal holiday, must notify HR/Payroll to be given a floating holiday to be used within 60 days.

Part-time and temporary staff members working less than twenty (20) hours per week, or working an assignment that is less than ninety (90) days are not eligible for paid holidays and/or school breaks. If a holiday and/or school break falls during a regularly scheduled work day, that staff member will not be paid for that day. The staff member may request to work an alternative schedule to maintain the same number of hours of work and compensation, which may be granted only at the manager's discretion. If approved, the manager will need to notify HR immediately in writing.

Holidays and school breaks are governed by a staff member's position and school site or RSO calendar.

Essential Work Days (School Staff Only)

In order to be eligible for holiday and/or school break pay, staff members must work the day before and the day after holidays and/or school breaks. School leaders and managers, at their discretion, reserve the right to establish additional blackout periods, such as during peak seasons, where staff members are not eligible to take "personal necessity" sick time. This does not apply to approved leave of absences or absences wherein supporting documentation is provided. Please note that the three (3) "personal necessity" sick days cannot be used immediately following or before Blackout dates. Blackout dates must be communicated in advance in writing.

Please consult your School leader or manager if you think you may need to request leave during this period.

Essential Work Days (RSO Staff Only)

In order to be eligible for holiday pay, staff members must work the day before and the day after holidays or be approved for use of available Paid Time Off. Managers, at their discretion, reserve the right to establish additional blackout periods, such as during peak seasons, where staff members are not eligible to take Paid Time Off. Blackout dates must be communicated in advance in writing.

Please consult your manager if you think you may need to request leave during this period.

Paid Sick Leave (School Staff Only)

To help prevent loss of earnings that may be caused by accident or illness, or by other emergencies, KIPP offers paid sick leave to its staff members. Sick leave may be taken to receive preventive care (including annual physicals or flu shots) or to diagnose, treat, or care for an existing health condition. Staff members may also use sick leave to assist a family member (i.e., children, students' family members, spouses/domestic partners, grandparents, grandchildren, or siblings) or a designated person (i.e., one who is identified by the staff member at the time of the request) who must receive preventative care or a diagnosis, treatment, or care for an existing health condition. Staff members may be limited to one (1) designated person per 12-month period. Staff members may also take paid sick leave to receive medical care or other assistance to address instances of domestic violence, sexual assault, or stalking, or bone marrow or organ donation by the staff member or the staff member's family member.

Paid sick leave is available to all school-based staff members. All eligible full-time, school-based staff shall be credited with forty-eight (48) hours, or six (6) days, of sick leave at the beginning of each academic year. An additional twenty-four (24) hours of sick leave will be accrued on a proportional basis throughout the school year in order to comply with local ordinance. Eligible staff members will have a total of seventy-two (72) hours of sick leave available for use throughout the school year. Full-time

school-based staff who are hired after the beginning of the academic school year, shall receive a prorated amount of sick leave based upon remaining time in the work year. Part-time employees shall accrue one (1) hour of sick leave for every thirty (30) hours worked.

Staff can use paid sick leave immediately following the staff member's start date.

Sick leave must be taken by eligible staff members in increments of one (1) hour. Accrued sick leave carries over from year to year up to a cap of seventy-two (72) hours. KIPP does not pay staff members in lieu of unused sick leave.

If a staff member is absent longer than three (3) days due to illness, medical evidence of the staff member's illness and/or medical certification of their fitness to return to work satisfactory to KIPP may be required. KIPP will not tolerate abuse or misuse of sick leave privileges. If KIPP suspects abuse of sick leave, KIPP may require a medical certification from a staff member verifying the staff member's absence or they may be subject to KIPP's disciplinary process.

Once a staff member has exhausted their sick leave, the staff member may continue on an unpaid medical leave depending upon the facts and circumstances of the staff member's basis for leave beyond accrued sick leave. Staff member requests for unpaid medical leave must be approved in advance by KIPP and may require medical certification.

Personal Necessity Leave (School Staff Only)

Staff members may use up to twenty-four (24) hours, or three (3) days, of their sick leave for personal necessity reasons annually, including appointments and other matters which cannot be handled outside regular work hours. Personal necessity leave is not vacation, and unused personal necessity leave is not paid out. Please note that personal necessity leave, outside of medical reasons, cannot be accessed during school blackout periods. Staff Members must request personal necessity leave at least two (2) weeks in advance unless an emergency situation occurs.

Process for Requesting Sick Leave (School Staff Only)

All requests for sick leave must be reported to the School Leader, Assistant Principal and/or Director of School Operations . Staff members must provide as much advance notice as possible. In emergency situations or unexpected illness, the staff member must notify their School Leader, Assistant Principal and/or Director of School Operations, by no later than 6:30 a.m. the day of the absence. Unless the situation is an emergency, teachers must submit lesson plans to their School Leader and/or Assistant Principal prior to the absence. To support instruction in the event of an unforeseen absence, all teachers must submit one emergency lesson plan to the School Leader/ Assistant Principal before September 15th of the current school year. This plan will be kept on file and must be replaced after each use.

Unless the staff member's School Leader instructs otherwise, the following process should be followed for requesting sick leave. To request sick leave, enter a Time-Off Request (Sick Leave) in the Staff Member Portal via HRIS/Payroll System. Staff members will be notified by a system email from our HRIS/Payroll System when their School Leader/immediate supervisor approves their request. Staff members are able to track their sick leave usage and balance in the Staff Member Portal via HRIS/Payroll System.

Understandably, some days will be approved retroactively if the staff member needs to call their School Leader/Assistant Principal/Director of School Operations in the event of an emergency or unexpected

illness. Retroactive time must be entered into the KIPP Staff Member Portal within twenty-four (24) hours of the staff member’s return from sick leave.

Paid Time Off (RSO Staff Only)

All full-time Regional Support Office (RSO) staff members will accrue a minimum total of eighteen (18) days of Paid Time Off (PTO), (a combination of vacation, sick time and personal holidays) per year. All part-time staff members working at least twenty (20) hours per week but less than forty (40) hours per week will accrue a prorated amount of PTO based on the scheduled hours worked per week. Staff members working under 20 hours per week are not eligible for PTO, and shall accrue paid sick leave consistent with part-time school staff members (at the rate of one (1) hour for every thirty (30) hours worked). PTO accrues on a per pay period basis, and is tracked based on the staff member’s date of hire, not the calendar year. PTO that is not used in a calendar year may be carried over into the next year, up to the maximum limit.

Accrual rates increase based on years of employment at the RSO. The rates correspond with the year of service. For example, staff members who have worked at the RSO and who have completed three (3) years will accrue PTO at 7.67 hours/pay period beginning in their fourth year of service. Years of service for PTO accrual calculations begin when a staff member starts working at the RSO; previous years of experience at a KIPP Northern CA schools or elsewhere do not factor into this calculation.

Years of Service at RSO	Per Pay Period Accrual	Accrued Days/Hours Per Year	Maximum Accrual
Years 0-3	6.00 hours	18 days/144 hours	216 hours
Years 4-5	7.67 hours	23 days/184 hours	276 hours
Years 6+	9.33 hours	28 days/224 hours	336 hours

PTO Accrual Limits (RSO STAFF Only)

If a staff member reaches the accrual limit, they will stop accruing additional PTO until some of the balance is used.

Accrual of PTO while on Leave (RSO STAFF Only)

Staff members at the RSO will not accrue paid time off during any unpaid leave of absence. Integrated parental leave pay does not count as paid leave. Paid time off will begin to accrue once the staff member returns to service of more than twenty (20) hours per week.

Separation from Employment (RSO Staff Only)

PTO vests at the time it is earned. Any staff member whose employment terminates will be paid for accrued, but unused PTO days.

Process for Taking PTO (RSO Staff Only)

Each staff member shall obtain their manager’s approval at least one (1) week prior to taking time off, unless the PTO is used for legitimate, unexpected illness or emergencies. Staff members wishing to take more than one (1) week of PTO shall obtain their manager’s approval at least six (6) weeks prior to the need for leave unless the PTO is used for legitimate, unexpected illness or emergencies. PTO requests

must be submitted to managers via the KIPP Staff Member Portal via HRIS/Payroll System in advance of scheduled time off and within twenty-four (24) hours of returning from unscheduled time off.

Leaves of Absence

KIPP understands that there may be times where a staff member may need to take extended time away from work due to medical, family care, pregnancy, or other personal reasons. As such, KIPP is pleased to offer the following types of leaves of absence.

Family and Medical Leave Act (FMLA) and California Family Rights Act (CFRA)

Under the Federal Family and Medical Leave Act (“FMLA”) and the California Family Rights Act (“CFRA”), eligible staff members are eligible for unpaid, job-protected leave for certain specified reasons. The maximum amount of leave a staff member may take is twelve (12) workweeks (or twenty-six (26) workweeks where indicated) of FMLA/CFRA leave, measured in a rolling 12-month period measured backwards.

Eligibility Criteria

To be eligible for FMLA/CFRA leave, the staff member must have:

1. Worked at least 12 months for KIPP Northern California. Time worked at other KIPP regions does not count towards the 12 months,
2. Worked at least 1,250 hours in the immediately preceding 12 months before the date your leave would begin,
3. Work at a location where KIPP employs at least fifty (50) staff members within seventy-five (75) miles of the work site, (except for purposes of CFRA where the School must only have at least five (5) staff members).

Trigger Events

FMLA/CFRA leave may be taken for the following reasons:

1. Birth of a child, or to care and/or bond with a newborn,
 - a. Leaves for this purpose must conclude twelve (12) months after the birth, adoption, or placement. Documentation must be presented to determine eligibility.
 - b. If both parents are employed by the School, they each will be entitled to a separate twelve (12) weeks of leave for this purpose, which cannot be loaned or otherwise assigned from one staff member to the other.
2. The placement of a child with the staff member and/or domestic partner for adoption or foster care, or to bond with the child. Documentation must be presented to determine eligibility
3. To care for an immediate family member (defined as staff member’s spouse, domestic partner, child, domestic partner’s child, or parent) or designated person (for CFRA purposes) with a serious health condition,
 - a. A qualifying family member may also include a grandparent, grandchild, parent-in-law, or sibling for CFRA purposes.
 - b. A designated person is defined as any individual related by blood or whose association with the staff member is the equivalent of a family relationship.
 - i. a staff member can only designate one (1) “designated person” every twelve (12) months and must do so at the time of their request for leave of absence

4. Because of a staff member’s own serious health condition that makes a staff member unable to perform at least one of the essential functions of their job (other than disability caused by pregnancy, childbirth, or other related medical reasons, which is covered by a separate policy),
 - a. A *“serious health condition”* is an illness, injury (including, but not limited to, on-the-job injuries), impairment, or physical or mental condition of the staff member or a child, parent, or spouse of the staff member that involves either inpatient care or continuing treatment, including, but not limited to, treatment for substance abuse.
 - b. *“Inpatient care”* means a stay in a hospital, hospice, or residential health care facility, any subsequent treatment in connection with such inpatient care, or any period of incapacity. A person is considered an “inpatient” when a health care facility formally admits him/her to the facility with the expectation that he/she will remain at least overnight and occupy a bed, even if it later develops that such person can be discharged or transferred to another facility and does not actually remain overnight.
 - c. *“Incapacity”* means the inability to work, attend school, or perform other regular daily activities due to a serious health condition, its treatment, or the recovery that it requires.
 - d. *“Continuing treatment”* means ongoing medical treatment or supervision by a health care provider.
5. To care for a covered service member with a serious injury or illness related to certain types of military service,
 - a. A *“Covered Servicemember”* is a member of the Armed Forces, including a member of the National Guard or Reserves, who is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness.
 - b. The term *“serious injury or illness”* means an injury or illness incurred by the member in the line of duty while on active duty in the Armed Forces that may render the member medically unfit to perform the duties of the member’s office, grade, rank, or rating.
6. To handle certain qualifying exigencies resulting from a staff member’s spouse, child, or parent who are called to active duty in the US Armed Forces.
 - a. *“Qualifying exigencies”* include activities such as short-notice deployment, military events, arranging alternative childcare, making financial and legal arrangements related to the deployment, rest and recuperation, counseling, and post-deployment debriefings.

Using FMLA/CFRA Leave

Eligible staff members may use FMLA/CFRA in a single block of time, intermittently, or by reducing the normal work schedule when medically necessary for their own serious health condition or for the care of a family member or designated person (for purposes of CFRA) with a serious health condition. Leave may not exceed twelve (12) workweeks total for any one, or combination of the above-described reasons.

- *“Twelve workweeks”* is defined as the equivalent of twelve (12) of the staff member’s normally scheduled workweeks. For a full-time staff member who works five (5) eight-hour days per week, “twelve workweeks” means sixty (60) eight-hour working days.
- In addition to the twelve (12) work weeks of FMLA/CFRA leave that may be taken, a staff member who is the spouse, son, daughter, parent, or next of kin of a covered Armed Forces service member may also be entitled to a total of twenty-six (26) work weeks of FMLA leave during a twelve (12) month period to care for the servicemember.
- The “twelve month period” in which twelve (12) weeks of FMLA and CFRA leave may be taken is the twelve (12) month period immediately preceding the commencement of any FMLA/CFRA leave.

- If an observed holiday falls within a week taken as FMLA/CFRA leave, the week is nevertheless counted as a week of FMLA/CFRA leave.
- If the School's or regional support office's business activity has temporarily ceased for some reason and staff members are generally not expected to report for work for one or more weeks, such as the Winter Break, Spring Break, or Summer Vacation, the days the activities have ceased do not count against the staff member's FMLA or CFRA leave entitlement.
- Similarly, if a staff member uses FMLA/CFRA leave intermittently, in increments of less than one (1) week, the fact that a holiday may occur within a week in which a staff member partially takes leave does not count against the staff member's leave entitlement unless the staff member was otherwise scheduled and expected to work during the holiday.

Pay While on Leave

Although leave under FMLA/CFRA is unpaid, staff members may be entitled to use their sick time, PTO, parental leave, and/or any state programs (such as State Disability Insurance (SDI) and/or Paid Family Leave (PFL)) for wage replacement. When eligible wage replacement options are exhausted, any portion of leave not covered will be unpaid. Staff members may not receive more than 100% of their regular wages while out on leave. The use of sick time, SDI, and PFL does not extend the length of FMLA and/or CFRA leave.

Sick time or PTO accrues during any pay period in which there was a minimum of one (1) worked day prior to the start or upon return from leave.

Health Benefits

Staff members on a job-protected FMLA/CFRA leave will maintain the same level of coverage of health insurance benefits for the duration of the eligible leave.

KIPP will continue to pay the employer portion of the staff member's health benefits, during FMLA/CFRA leave, at the same level and under the same conditions as coverage would have been provided if the staff member had been continuously employed during the leave period.

Staff members are required to pay benefit premiums for any part of their group health coverage or voluntary benefit elections. KIPP will provide the staff member with advance written notice of the terms and conditions under which premium payments must be made while on leave. KIPP may recover the health benefit costs paid on behalf of a staff member during his/her FMLA/CFRA leave if:

1. The staff member fails to return from leave after the period of leave to which the staff member is entitled has expired. A staff member is deemed to have "failed to return from leave" if he/she works less than thirty (30) days after returning from FMLA/CFRA; and
2. The staff member's failure to return from leave is for a reason other than the continuation, recurrence, or onset of a serious health condition that entitles the staff member to FMLA/CFRA leave, or other circumstances beyond the control of the staff member.

If the staff member fails to submit benefit premium payments, KIPP may recover the health benefit costs paid on behalf of the staff member during their FMLA/CFRA leave.

Years of Service

A staff member on FMLA/CFRA leave remains a staff member and the leave will not constitute a break in service. A staff member who returns from FMLA/CFRA leave will return with the same years of service they had when the leave commenced.

Medical Certifications

Upon being notified that a staff member requires an FMLA/CFRA qualifying leave, Human Resources will ask the staff member to submit a medical certification form completed and signed by their health care provider regarding the staff member's own serious health condition or the serious health condition of a family member or designated person. Absent extenuating circumstances, failure to provide the required certification within fifteen (15) days of the leave request date may result in denial of the leave request until such certification is provided, and may result in disciplinary action.

KIPP will notify the staff member in writing if the certification is incomplete or insufficient, and will advise the staff member what additional information is necessary in order to make the certification complete and sufficient. KIPP may contact the staff member's health care provider to authenticate a certification as needed.

If KIPP has reason to doubt the medical certification supporting a leave because of the staff member's own serious health condition, KIPP may request a second opinion by a health care provider of its choice (paid for by KIPP). If the second opinion differs from the first one, KIPP may pay for a third, mutually agreeable, health care provider to provide a final and binding opinion.

Recertifications are required if leave is sought after expiration of the time estimated by the health care provider. Failure to submit required recertifications can result in termination of the leave.

Leave Request Procedures

Leave requests must be approved in advance by Human Resources, except in emergency situations where providing advance notice is not possible. If the need for leave is foreseeable, staff members must provide KIPP with at least 30 days advance notice. If the need is not foreseeable, and 30 days' notice is not possible, notice must be given as soon as practical.

1. A staff member should initiate a request for FMLA/CFRA leave by reaching out to the Human Resources Department. A staff member requesting a leave of absence, will be given a copy of the current FMLA/CFRA leave policy.
2. Staff members should provide not less than thirty (30) days' notice for foreseeable childbirth, placement, or any planned medical treatment for the staff member or their qualifying family member or designated person. Failure to provide such notice is grounds for denial of a leave request, except if the need for FMLA/CFRA leave was an emergency or was otherwise unforeseeable.
3. Where possible, staff members must make a reasonable effort to schedule foreseeable planned medical treatments so as not to unduly disrupt the operations of their worksite.
4. If FMLA/CFRA leave is taken because of the staff member's own serious health condition or the serious health condition of the staff member's qualifying family member or designated person, the leave may be taken intermittently or on a reduced leave schedule when medically necessary, as determined by the health care provider of the person with the serious health condition.
5. If FMLA/CFRA leave is taken because of the birth of the staff member's child or the placement of a child with the staff member for adoption or foster care, the leave must be taken in increments of one (1) week.

6. If a staff member needs intermittent leave or leave on a reduced leave schedule that is foreseeable based on planned medical treatment for the staff member or a family member or designated person, the staff member may be transferred temporarily to an available alternative position for which he or she is qualified that has equivalent pay and benefits and that better accommodates recurring periods of leave than the staff member's regular position.
7. KIPP will respond to a FMLA/CFRA leave request no later than five (5) business days of receiving the request. If an FMLA/CFRA leave request is granted, KIPP will notify the staff member in writing that the leave will be counted against the staff member's FMLA/CFRA leave entitlement. This notice will explain the staff member's rights, responsibilities and the consequences of failing to satisfy them.

Return to Work

Upon timely return at the expiration of the FMLA/CFRA leave period, a staff member is entitled to the same or a comparable position with the same or similar duties and same pay, benefits, and other terms and conditions of employment unless the same position and any comparable position(s) have ceased to exist because of legitimate business reasons unrelated to the staff member's FMLA/CFRA leave.

When a request for FMLA/CFRA leave is granted to a staff member, KIPP will give the staff member a written guarantee of reinstatement at the termination of the leave (with the limitations explained above).

Before a staff member will be permitted to return from FMLA/CFRA leave taken because of their own serious health condition, the staff member must obtain a certification from their health care provider that he/she is able to resume work.

If a staff member can return to work with limitations, KIPP will evaluate those limitations and, if possible and if undue hardship is not caused to the organization, will accommodate the staff member as required by law. If accommodation cannot be made, the staff member will be separated from employment.

Employment during Leave

No staff member, including staff members on FMLA/CFRA leave, may accept employment with any other employer without KIPP's written permission. A staff member who accepts such employment without KIPP's written permission will be deemed to have resigned from employment with KIPP.

Personal Leave of Absence: Unpaid Time- Off

An unpaid leave of absence may be granted, if two of the qualifying reasons are met:

1. If a staff member does not qualify for a protected leave (FMLA/CFRA) and the qualifying event falls under FMLA/CFRA reasons or
2. For an urgent personal need where the staff member has used all Sick/PTO days, but is asking for one-off unpaid days.

A request for a personal leave of absence must be submitted to the staff member's manager and to Human Resources. An unpaid personal leave is granted at the discretion of management, and all requests are evaluated on a case-by-case basis and shall not exceed four (4) weeks or twenty (20) working days in a rolling 12 month period, for unpaid leave that would otherwise fall under CFRA/FMLA but the staff member does not qualify for. For urgent personal need reasons, the unpaid leave should not

exceed three (3) working days or twenty-four (24) hours in the school year. Unpaid time for both reasons mentioned above are cumulative and do not need to be taken consecutively.

Human Resources will provide a determination notice to the staff member and staff member's manager. Proof of leave is required for all requests. Examples of proof include medical certifications, obituary, death certificate and/or funeral confirmation, among others.

Staff members must not accept other employment while they are on a personal leave of absence. Acceptance of other employment while on leave will be treated as a voluntary resignation from the staff member's at-will employment.

In an effort to ensure that staff members take the necessary leave time to be/get well, staff members shall not perform any work while on a leave of absence and shall surrender any KIPP laptops and cell phones prior to beginning a leave of absence.

Unless otherwise required by law, staff members must use all accrued sick leave and PTO before applying for and being granted an unpaid leave of absence. Use of sick leave or PTO time does not extend the time granted under an approved leave.

Unpaid Time-Off Request Procedures

Unpaid Time-Off requests must be approved in advance by the School Leader/Manager and Human Resources, except in emergency situations where providing advance notice is not possible. If the need for leave is foreseeable, staff members must provide KIPP with at least 30 days advance notice. If the need is not foreseeable, and 30 days' notice is not possible, notice must be given as soon as practical.

Approval decisions will take into account essential work days and staffing for the school or department. Requests may be denied on the basis of this, or other reasonable circumstances.

Staff members may be eligible to apply for State Disability Insurance ("SDI") and/or Paid Family Leave ("PFL") benefits during a personal leave of absence (see below). If benefits are granted by the Employment Development Department ("EDD"), they will run concurrently with an otherwise authorized personal leave of absence. In such circumstances, the use of SDI or PFL benefits and/or paid time off during the personal leave period will not extend the length of the leave beyond what may be granted by KIPP. The receipt of SDI or PFL does not create a right to benefits during a personal leave of absence and does not impact the rights to reinstatement set forth in this personal leave policy.

The number of staff members on a personal leave of absence at any one time shall be subject to the reasonable requirements of KIPP with respect to the efficient and orderly operation of KIPP.

For those staff members receiving group health benefits, staff members are eligible to continue on KIPP's health insurance plans for up to one month following the start of their leave of absence. Staff members are still responsible for their portion of health insurance premiums each month during leave.

If a staff member's coverage ends, they may be eligible to continue insurance coverage under COBRA.

Benefit/service credit will not be accrued towards PTO (RSO staff only) for the duration of the leave. Staff members returning from a leave of absence during the course of a calendar year will receive only a prorated portion of PTO benefits for the duration of that year.

Returning from Personal leave of Absence

Staff members cannot return from a medical leave of absence without first providing a sufficient doctor's return to work authorization.

It should also be noted by the staff member that a return to work from a personal leave of absence is contingent upon an available opening at that time and should be verified with Human Resources before reporting back to work. When business considerations require, the job of a staff member on leave may be filled by a temporary or regular replacement.

A staff member should give the leave administrator and HR seven (7) days' notice before returning from leave. Any staff member who fails to report for work at the end of an approved leave may be deemed to have voluntarily resigned. Whenever KIPP is notified of a staff member's intent to return from a leave, KIPP will attempt to place the staff member in their former position or in a comparable position with regard to salary and other terms and conditions for which the staff member is qualified. However, re-employment cannot always be guaranteed.

If staff members need further information regarding Leaves of Absence, they should be sure to consult HR.

Pregnancy Disability Leave (PDL)

Any staff member who is disabled by pregnancy, childbirth, or a related medical condition is eligible for a Pregnancy Disability Leave of Absence (PDL). There is no length of service requirement.

For purposes of this policy, a staff member is disabled when, in the opinion of their healthcare provider, they cannot work at all or are unable to perform any one or more of the essential functions of their job or to perform them without undue risk to themselves, the successful completion of their pregnancy, or to other persons as determined by a healthcare provider. This term also applies to certain pregnancy-related conditions, such as severe morning sickness or if a staff member needs to take time off for prenatal or postnatal care, bed rest, postpartum depression, and the loss or end of pregnancy (among other pregnancy-related conditions that are considered to be disabling).

Reasonable Accommodation for Pregnancy-Related Disabilities

Any staff member who is affected by pregnancy may also be eligible for a temporary transfer or another accommodation. There is no length of service requirement. A staff member is affected by pregnancy if the staff member is pregnant or has a related medical condition, and because of pregnancy, their healthcare provider has certified that it is medically advisable for the staff member to temporarily transfer or to receive some other accommodation.

KIPP will provide a temporary transfer to a less strenuous or hazardous position or duties or other accommodation to a staff member affected by pregnancy if the staff member:

1. Requests a transfer or other accommodation;
2. The request is based upon the certification of their health care provider as "medically advisable;" and
3. The transfer or other requested accommodation can be reasonably accommodated pursuant to applicable law.

As part of this accommodation process, no additional position will be created and KIPP will not release another staff member, transfer another staff member, promote, or transfer any staff member who is not qualified to perform the new job.

Advance Notice

To be approved for a pregnancy disability leave of absence, a temporary transfer or other reasonable accommodation, the staff member must:

1. Provide thirty (30) days' advance notice before the leave of absence, transfer or reasonable accommodation is to begin, if the need is foreseeable;
2. Provide as much notice as is practicable before the leave, transfer or reasonable accommodation when thirty (30) days' notice is not foreseeable; and
3. Provide a signed medical certification from the staff member's health care provider that states that the staff member is disabled due to pregnancy or that it is medically advisable for the staff member to be temporarily transferred or to receive some other requested accommodation.
4. Where possible, staff members must make a reasonable effort to schedule foreseeable planned medical treatments so as not to unduly disrupt KIPP's operations.
5. Pregnancy disability leave may be taken intermittently or on a reduced leave schedule when medically advisable, as determined by the staff member's healthcare provider.
6. If a staff member needs intermittent leave or a reduced leave schedule that is foreseeable based on planned medical treatment, the staff member may be transferred temporarily to an available alternative position for which they are qualified that has equivalent pay and benefits that better accommodates recurring periods of leave than the staff member's regular position.
7. In most cases, KIPP will respond to a pregnancy disability leave request within two (2) days of acquiring knowledge that the leave qualifies as pregnancy disability and, in any event, within ten (10) days of receiving the request. If a pregnancy disability leave request is granted, KIPP will notify the staff member in writing and leave will be counted against the staff member's pregnancy disability leave entitlement. This notice will explain the staff member's obligations and the consequences of failing to satisfy them.

KIPP may require staff members to provide a new certification if the staff member requests an extension of time for their leave, transfer or other requested accommodation.

Medical Certifications

- Staff members requesting a pregnancy disability leave must provide medical certification from their healthcare provider via our Leaves Administrator Platform. Failure to provide the required certification in a timely manner (within fifteen (15) days of the leave request) may result in a denial of the leave request until such certification is provided.
- Re-certifications are required if leave is sought after expiration of the time estimated by the healthcare provider. Failure to submit required recertifications can result in termination of the leave.

Duration

Pregnancy disability leave may be taken in one or more periods, but not to exceed four (4) months total. "Four months" means the number of days the staff member would normally work within four months. For a full-time staff member who works five (5) eight (8) hour days per week, four (4) months means 693 hours of leave or approximately $17\frac{1}{3}$ weeks.

For staff members who work more or less than forty (40) hours per week, or who work on variable work schedules, the number of working days that constitutes four (4) months is calculated on a pro rata or proportional basis. For example, for a staff member who works twenty (20) hours per week, “four months” means 346.5 hours of leave entitlement (20 hours per week times $17 \frac{1}{3}$ weeks). For a staff member who normally works forty-eight (48) hours per week, “four months” means 832 hours of leave entitlement (48 hours per week times $17 \frac{1}{3}$ weeks).

Staff members shall not perform any work while on pregnancy disability leave and shall surrender any KIPP laptops and cell phones prior to beginning such leave.

At the end of a staff member’s pregnancy disability leave, a staff member who has a disability (which may or may not be due to pregnancy, childbirth, or related medical conditions) may be entitled to reasonable accommodation. Entitlement to additional leave must be determined on a case-by case basis, taking into account a number of considerations such as whether an extended leave is likely to be effective in allowing the staff member to return to work at the end of the leave, with or without further reasonable accommodation, and whether or not additional leave would create an undue hardship for KIPP. KIPP is not required to provide an indefinite leave of absence as a reasonable accommodation.

Any temporary transfer or other reasonable accommodation provided to a staff member affected by pregnancy will not reduce the amount of Pregnancy Disability Leave time the staff member has available to them unless the temporary transfer or other reasonable accommodation involves a reduced work schedule or intermittent absences from work.

Reinstatement

Upon timely return at the expiration of the pregnancy disability leave period, a staff member is entitled to the same position unless the staff member would not otherwise have been employed in the same position at the time reinstatement is requested. If the staff member is not reinstated to the same position, they must be reinstated to a comparable position unless one of the following is applicable:

1. The employer would not have offered a comparable position to the staff member if the staff member would have been continuously at work during the pregnancy disability leave.
2. There is no comparable position available, to which the staff member is either qualified or entitled, on the staff member’s scheduled date of reinstatement or within sixty (60) calendar days thereafter. KIPP will take reasonable steps to provide notice to the staff member if and when comparable positions become available during the sixty (60) day period.

A “comparable” position is a position that involves the same or similar duties and responsibilities and is virtually identical to the staff member’s original position in terms of pay, benefits, and working conditions.

When a request for pregnancy disability leave is granted to a staff member, KIPP will give the staff member a written guarantee of reinstatement at the end of the leave (with the limitations explained above).

Before staff members will be allowed to return to work in their regular job following a pregnancy disability leave or absence of three (3) days or transfer, they must provide KIPP with a certification from their healthcare provider that they can safely perform all of the essential duties of the position, with or without reasonable accommodation. If a staff member does not provide such a release prior to or upon

reporting for work, the staff member will be sent home until a release is provided. Any time the staff member is not allowed to work due to not having provided the required release will be unpaid and is considered unapproved time off until we receive a fitness for duty form.

If the staff member can return to work with limitations, KIPP will evaluate those limitations and, if possible, will accommodate the staff member as required by law. If accommodation cannot be made, the staff member will be medically separated from KIPP.

Failure to return to work at the conclusion of the leave of absence may result in termination of employment, unless the staff member is taking additional leave provided by law or KIPP policy or KIPP has otherwise approved the staff member to take additional time off.

Integration with Other Benefits

Pregnancy Disability Leaves of Absence and accommodations that require staff members to work a reduced work schedule or to take time off from work intermittently are unpaid. Staff members may elect to use accrued sick leave during the pregnancy disability leave; RSO staff members may elect to use accrued PTO during the pregnancy disability leave. However, the use of paid time off will not extend the available leave of absence time. PTO and sick leave hours will not accrue during any unpaid portion of the leave of absence, and hourly staff members will not receive pay for official holidays that are observed during their leave of absence except during those periods when staff members are substituting PTO or sick leave for unpaid leave.

Staff members may apply for California State Disability Insurance (“SDI”) benefits. Staff members may apply for SDI benefits online at www.edd.ca.gov. Any SDI for which staff members are eligible will be integrated with accrued PTO, sick leave, or other paid time off benefits so that staff members do not receive more than 100% of their regular pay.

Benefits

KIPP will maintain a staff member’s health insurance benefits during a staff member’s Pregnancy Disability Leave for a period of up to four (4) months, as defined above, on the same terms as they were provided prior to the leave time. If a staff member takes additional time off following a Pregnancy Disability Leave that qualifies as California Family Rights Act (“California Family Rights Act”) leave, KIPP will continue the staff member’s health insurance benefits for up to a maximum of twelve (12) work weeks in a twelve (12)-month period.

EXAMPLE: a staff member takes 17.33 work weeks off due to a pregnancy disability. Assuming the staff member is eligible for FMLA and CFRA leave, their Pregnancy Disability Leave will also be concurrently covered by FMLA and the staff member’s group health insurance coverage would continue for the entire 17.33 work week period. If, after the staff member’s Pregnancy Disability Leave and FMLA, has been completed, the staff member wishes to take twelve (12) additional weeks off from work to bond with a new baby under CFRA, KIPP will continue health insurance benefits for the twelve (12) workweek period.

KIPP can recover premiums that it already paid on behalf of a staff member if both of the following conditions are met:

1. The staff member fails to return from leave after the designated leave period expires.
2. The staff member’s failure to return from leave is for a reason other than the following:
 - The staff member is taking leave under the CFRA

- There is a continuation, recurrence or onset of a health condition that entitles the staff member to pregnancy disability leave
- There is a non-pregnancy related medical condition requiring further leave
- Any other circumstance beyond the control of the staff member

Years of Service

A staff member on pregnancy disability leave remains a staff member of KIPP and a leave will not constitute a break in service. When a staff member returns from pregnancy disability leave, they will return with the same years of service they had when the leave commenced.

Employment During Leave

No staff member, including staff members on pregnancy disability leave, may accept employment with any other employer without KIPP’s written permission. A staff member who accepts such employment without written permission will be deemed to have resigned from employment.

KIPP Paid Parental Leave

Paid parental leave can be used to bond with a newborn child or child placed with the staff member for adoption or foster care. To be eligible for this paid leave, the time off must be taken within one (1) year of the birth or placement of the child.

KIPP will pay staff members an additional optional wage benefit for eight (8) weeks to supplement the wage replacement received through Paid Family Leave (“PFL”) program. The sum of all benefits at any time cannot exceed 100% of the staff member’s regular weekly gross earnings.

Eligibility

See table below for eligibility requirements. Any employer requirements for paid leave outside of this pay policy will be followed by KIPP. To receive the paid parental leave, staff members must apply for PFL through the California Employment Development Department (“EDD”).

Employment Time	Leave type	Pay
6-12 months ** (San Francisco based staff only)	Staff member not eligible for FMLA/CFRA job protection. May request KIPP Personal Leave (no job protection)	Eligible for KIPP Paid Parental Leave Pay if receiving PFL benefits
0-12 months ** (Non- San Francisco based staff)	Staff member not eligible for FMLA/CFRA Job Protection. May request KIPP Personal Leave (no job protection)	Not Eligible for KIPP Paid Parental Leave Pay
>1 year	Staff member eligible for FMLA/CFRA job protection if they meet the FMLA/CFRA requirements (refer to FMLA/CFRA section of the handbook)	Eligible for KIPP Paid Parental Leave Pay if receiving PFL benefits

Frequency

Staff members are eligible for pay under this policy once every twelve (12) months. The twelve (12)-month period is a “rolling” period measured backwards from the date a staff member takes any paid parental leave. Example: a staff member goes on leave on July 31st. KIPP looks back twelve (12) months (from July 31st back to the previous August 1) to see if any leave has been used.

Using Paid Time Off

Once payments from KIPP have ended and the staff member is still on leave, the staff member has the option to use any accrued paid time off in accordance with KIPP existing paid time off policies.

Both Caregivers Employed By KIPP

If both caregivers work for KIPP, each caregiver is eligible for the pay benefit based on this policy. Pay is not limited or prorated between the caregivers.

A staff member is not eligible for primary care and secondary care leave for the same child. The staff member is only eligible for one leave benefit.

Confirmation of EDD Payments

The staff member must provide the amount of paid benefits that will be received upon amount confirmation from the state. Due to the normal delay in the receipt of state benefits, it may take several weeks for written notification to be received by the staff member.

KIPP Holidays / Breaks / Vacations

Staff members on leave are subject to their specific school or office holiday schedule. When this holiday/vacation payment is applicable, it does not extend the duration of KIPP’s paid parental leave, but rather replaces the paid parental leave for that period of time. For example, if a staff member is eligible for six (6) weeks of paid parental leave and during week two (2) the school is closed, the staff member would receive five (5) weeks of paid parental leave and one (1) week of full pay during week two for a total of six (6) weeks. Full pay due to holidays and vacations replaces Parental Leave Pay.

San Francisco: Family Friendly Workplace Ordinance

In accordance with the San Francisco FFWO, staff members that have been employed with KIPP for more than six (6) months and who work at least eight (8) hours per week on a regular basis, may request a flexible or predictable working arrangement if needed to assist with caregiving responsibilities for:

1. A child or children under the age of eighteen (18);
2. A person or persons with a serious health condition in a family relationship with the staff member; or
3. A parent (age 65 or older) of the staff member.

To request this, the staff member may submit a written claim to the Human Resources Team (hr@kippnorcal.org). The staff member will receive a request to meet with the HR team within twenty-one (21) days to discuss the claim, and they will receive a written response.

Industrial Injury Leave (Workers' Compensation)

KIPP, in accordance with State law, provides insurance coverage for staff members in case of work-related injuries. The workers' compensation benefits provided to injured staff members may include:

- Medical care;
- Cash benefits, tax-free to replace lost wages; and
- Vocational rehabilitation to help qualified injured staff members return to suitable employment.

To ensure staff members receive any worker's compensation benefits to which they may be entitled, staff members will need to:

- Immediately report any work-related injury to their manager;
- Seek medical treatment and follow-up care if required;
- Complete a written staff member's Claim Form (DWC Form 1) and return it to their manager, their Director Of School Operations (if applicable) or HR; and
- Provide KIPP with a certification from their healthcare provider regarding the need for workers' compensation disability leave as well as their eventual ability to return to work from leave.

It is KIPP's policy that when there is a job-related injury, the first priority is to ensure that the injured staff member receives appropriate medical attention. KIPP, with the help of its insurance carrier, has selected medical centers to meet this need. Each medical center was selected for its ability to meet anticipated needs with high quality medical service and a location that is convenient to KIPP's operations.

- If a staff member is injured on the job, they are to go or be taken to the approved medical center for treatment. If injuries are such that they require the use of emergency medical systems ("EMS") such as an ambulance, the choice by the EMS personnel for the most appropriate medical center or hospital for treatment will be recognized as an approved center.
- All accidents and injuries must be reported to their manager/School Leader, to the school's Director Of School Operations and/or to Human Resources. Failure by a staff member to report a work-related injury by the end of their shift could result in loss of insurance coverage for the staff member. Staff members may choose to be treated by their personal physician at their own expense, but are still required to go to KIPP's approved medical center for evaluation. All job-related injuries must be reported to the appropriate State Workers' Compensation Bureau and the insurance carrier.
- When there is a job-related injury that results in time away from work, the staff member must have a medical release from KIPP's approved medical facility before returning to work.
- Any time there is a job-related injury, KIPP's policy may require drug/alcohol testing along with any medical treatment provided to the staff member.

Military and Military Spousal Leave of Absence

KIPP shall grant a military leave of absence to any staff member who must be absent from work due to service in the uniformed services in accordance with the Uniformed Services Employment and Reemployment Rights Act of 1994 ("USERRA"). All staff members requesting military leave must provide

advance written notice of the need for such leave, unless prevented from doing so by military necessity or if providing notice would be impossible or unreasonable.

If military leave is for thirty (30) or fewer days, KIPP shall continue the staff member's health benefits. For service of more than thirty (30) days, the staff member shall be permitted to continue their health benefits at their option through COBRA. Staff members are entitled to use accrued PTO as wage replacement during time served, provided such PTO is accrued prior to the leave.

Except for staff members serving in the National Guard, KIPP will reinstate those staff members returning from military leave to their same position or one of comparable seniority, status, and pay if they have a certificate of satisfactory completion of service and apply within ninety (90) days after release from active duty or within such extended period, if any, as required by law. For those staff members serving in the National Guard, if they left a full-time position, they must apply for reemployment within forty (40) days of being released from active duty, and if the staff member left part-time employment, they must apply for reemployment within five (5) days of being released from active duty.

Staff members who are absent from work while fulfilling their covered service obligation under the USERRA or California law shall be credited, upon their return to KIPP, with the hours of service that would have been performed but for the period of absence from work due to or necessitated by USERRA-covered service. Exceptions to this policy will occur wherever necessary to comply with applicable laws.

KIPP shall grant up to ten (10) days of unpaid leave to staff members who work more than twenty (20) hours per week and who are spouses of deployed military servicemen and servicewomen. The leave may be taken when the military spouse is on leave from deployment during a time of military conflict. To be eligible for leave, a staff member must provide KIPP's with (1) notice of intention to take military spousal leave within two (2) business days of receiving official notice that the staff member's military spouse will be on leave from deployment, and (2) documentation certifying that the staff member's military spouse will be on leave from deployment during the time that the staff member requests leave.

Bereavement Leave

Staff members are eligible to receive paid bereavement leave if they have been employed for at least 30 days. There is no annual cap on the number of days a staff member is able to take Bereavement leave pursuant to the law, meaning a staff member can take up to five days of bereavement leave per occurrence. It will only be the first five (5) days or three (3) days in any twelve (12) month period that will be paid. Staff members may use Paid Time Off or Necessity leave in subsequent occurrences.

Full-time and part-time staff members may take up to five (5) days of paid bereavement leave for the death of an immediate family member. An immediate family member is defined as a spouse, domestic partner, child (biological, adopted, foster, step, legal ward, or child of a domestic partner), parent, parent-in-law, sibling, grandparent or grandchild.

Full-time and part-time staff members may take up to three (3) consecutive days of paid bereavement leave per rolling twelve (12) month period for the death of a non-immediate family member. For purposes of this policy, the following people qualify as a "non-immediate family member": aunts, uncles, cousins, nephews, nieces, and spouse's or domestic partner's siblings, aunts, uncles, cousins, nephews, and nieces.

Full-time and part-time staff members may take up to five (5) days of paid bereavement leave for the death of an immediate family member. An immediate family member is defined as a spouse, domestic

partner, child (biological, adopted, foster, step, legal ward, or child of a domestic partner), parent, parent-in-law, sibling, grandparent or grandchild.

Full-time and part-time staff members may take up to three (3) consecutive days of paid bereavement leave per rolling twelve (12) month period for the death of a non-immediate family member. For purposes of this policy, the following people qualify as a “non-immediate family member”: aunts, uncles, cousins, nephews, nieces, and spouse’s or domestic partner’s siblings, aunts, uncles, cousins, nephews, and nieces.

Staff members must submit proof of needing the leave by providing a copy of death certificate, published obituary or written verification of death, burial, or memorial services from a mortuary, funeral home, burial society, crematorium, religious institution, or governmental agency. The documentation must be provided within 30 days of the first day of bereavement leave. The leave may be taken intermittently, but must be completed within 3 months (90 days) of the family member’s death.

Jury Duty Leave

Full-time and part-time staff members will be granted paid time off for jury duty for up to ten (10) working days per rolling twelve (12) month period. Any time beyond ten (10) days necessary to complete jury duty will be without pay. Part-time staff members will be paid for those days they were regularly scheduled to work if they are required to serve jury duty. Temporary staff members are not eligible for paid jury duty leave and will receive time off without pay for the entire duration of the jury duty.

Exempt staff members that have used all ten (10) days of jury duty pay and are on jury duty for a partial week will be paid their full salary so long as they continue to perform work. KIPP may make salary deductions if an exempt staff member performs no work at all in the work week.

Staff members must inform their Supervisor and the Human Resources team of their need for jury duty leave as soon as they receive a summons or subpoena to appear. To request time off, please submit a copy of the court summons to the Human Resources team.

Witness Duty Leave

KIPP will provide staff members with time off to appear in court or other judicial proceedings as a witness to comply with a valid subpoena or other court order. This leave is unpaid, but staff members may use available sick time or PTO.

Staff members must inform their Manager and the HR team of their need for witness duty leave as soon as the staff member receives a subpoena or court order. To request time off, please submit a copy of the subpoena or court order to the Human Resources team.

Time-off to Vote

If a staff member does not have sufficient time outside of working hours to vote in an official state-sanctioned election, the staff member may take off enough working time to vote. Such time off shall be taken at the beginning or the end of the regular working shift, whichever allows for more free time and the time taken off shall be combined with the voting time available outside of working hours to a maximum of two (2) hours combined. Under these circumstances, a staff member will be allowed a maximum of two (2) hours of time off during an election day without loss of pay. When possible, a staff member requesting time off to vote shall give their manager/School Leader at least two (2) days’ notice.

Religious/Cultural Observances

KIPP will reasonably accommodate a staff member's known religious creed or cultural background. This may include an altered work schedule or time off, assuming such accommodations can be made in such a way as to not cause undue hardship to KIPP or any of its other staff members. Requests for accommodations should be made to the staff member's Manager and the HR Team (hr@kipnocal.org) with at least two (2) weeks' notice, and together they will determine how best to honor the request given work demands and job role. Staff members should request a religious observance leave from their employer in writing. The request should include details about the observance, such as the dates and times of the holiday and any other information that may be relevant to the request. It is also important for staff members to state how long they would like to be off work.

Recognized religious holidays may be taken off by a staff member whose religion requires observance of the particular day. Staff members are eligible for up to two (2) days off, per fiscal year, with pay to accommodate a religious or cultural observance after the request for accommodation has been approved. If additional time is granted, any available "personal necessity" or PTO (RSO) time must be used. If all time is exhausted, additional time will be unpaid under this policy. All steps will be taken to reasonably accommodate a religious holiday (or practice) absent a need or undue hardship by the School.

Victims of Abuse Leave

KIPP provides reasonable and necessary unpaid leave and other reasonable accommodations to staff members who are victims of domestic violence, sexual assault, stalking or other crimes. Such leave may be taken to attend legal proceedings or to obtain or attempt to obtain any relief necessary, including a restraining order, to ensure the staff member's own health, safety or welfare, that of the staff member's child or children or when a person whose immediate family member is deceased as the direct result of a crime. A crime includes a crime or public offense that would constitute a misdemeanor or felony if the crime had been committed in California by a competent adult, an act of terrorism against a resident of California (whether or not such act occurs within the state), and regardless of whether any person is arrested for, prosecuted for, or convicted of, committing the crime. Staff members may also request unpaid leave for the following purposes:

1. Seek medical attention for injuries caused by domestic violence, sexual assault, or stalking.
2. Obtain services from a domestic violence shelter, program, or rape crisis center.
3. Obtain psychological counseling for the domestic violence, sexual assault, or stalking.
4. Participate in safety planning, such as relocation, to protect against future domestic violence, sexual assault, or stalking.

To request leave under this policy, a staff member should provide KIPP with as much advance notice as practicable under the circumstances. If advance notice is not possible, the staff member requesting leave under this policy should provide KIPP one (1) of the following certifications upon returning back to work:

5. A police report indicating that the staff member was a victim of domestic violence, sexual assault, or stalking.
6. A court order protecting the staff member from the perpetrator or other evidence from the court or prosecuting attorney that the staff member appeared in court.
7. Documentation from a licensed medical professional, domestic violence or sexual assault counselor, licensed health care provider, or counselor showing that the staff member's absence was due to treatment for injuries or abuse from domestic violence, sexual assault, or stalking.

8. Any other form of documentation that reasonably verifies that the crime or abuse occurred, including but not limited to, a written statement signed by the staff member, or an individual acting on the staff member's behalf, certifying that the absence is for a purpose authorized under the law.

Staff members requesting leave under this policy may choose to use PTO/sick time. In addition, KIPP will provide reasonable accommodations to staff members who are victims of domestic violence, sexual assault or stalking for the staff members' safety while at work. Eligible staff members may access this leave effective date of hire. To request an accommodation under this policy, a staff member should contact Human Resources.

Bone Marrow and Organ Donation Leave

As provided by California law, KIPP will grant a paid leave of absence for organ or bone marrow donors. To be eligible for bone marrow or organ donation leave ("Donor Leave"), the staff member must have been employed by KIPP for at least ninety (90) days immediately preceding the Donor Leave.

Organ Donation

A leave not exceeding sixty (60) days to a staff member who is an organ donor in any one-year period, for the purpose of donating their organ to another person.

Bone Marrow Donation

A leave not exceeding five (5) days to a staff member who is a bone marrow donor in any one (1) year period, for the purpose of donating their bone marrow to another person.

A staff member requesting Donor Leave must provide written verification to the School that he or she is a donor and that there is a medical necessity for the donation of the organ or bone marrow.

The leave of absence is not a break in service for the purpose of salary adjustments, or paid time off. KIPP will continue and pay for any coverage under a group health plan for the staff member during the entire leave of absence.

KIPP requires that the staff member taking leave for bone marrow donation first use up to five (5) days of sick leave or PTO. A staff member must first use two (2) weeks' worth of earned but unused sick leave or PTO for organ donation. Leave for the purpose of organ or bone marrow donation may be taken in one or more periods of time. If the staff member has an insufficient number of paid leave days available, the leave will otherwise be paid.

The law does not allow such leave to run concurrently with leave taken pursuant to either the Family and Medical Leave Act (FMLA) or the California Family Rights Act (CFRA).

Staff members returning from donor leave will be reinstated to the position held before the leave began, or a position with equivalent benefits, pay and other terms and conditions of employment. KIPP reserves the right to refuse to reinstate a staff member if the reason is unrelated to the exercise of rights under the donor leave.

School Appearance and Activities Leave

As required by law, KIPP will permit a staff member who is a parent or guardian (including a stepparent, foster parent, or grandparent) of school children, from kindergarten through grade twelve (12), or a child

enrolled with a licensed child care provider, up to forty (40) hours of unpaid time off per school year (up to eight (8) hours in any calendar month of the school year) to participate in activities of a child's school or child care. If more than one (1) parent or guardian is a staff member of KIPP, the staff member that first provides the leave request will be given the requested time off. Where necessary, additional time off will also be permitted where the school requires the staff member(s) appearance.

The staff member requesting school leave must provide reasonable advance notice of the planned absence. The staff member must use accrued but unused paid leave (e.g., PTO or sick leave) to be paid during the absence.

When requesting time off for school activities, the staff member must provide verification of participation in an activity as soon as practicable. When requesting time off for a required appearance, the staff member(s) must provide a copy of the notice from the child's school requesting the presence of the staff member.

The Workplace

Staff Member Classifications

All KIPP staff members are classified as either "exempt" or "non-exempt." A staff member's duties, responsibilities, and salary determine whether their position is exempt or non-exempt. Staff members who are classified as non-exempt complete time cards and are eligible for overtime pay according to applicable law. Staff members in exempt positions are not eligible for overtime pay.

In addition, staff will fall within one of the following categories:

Full-Time Staff

Full-time staff members are those who are regularly scheduled to work at least forty (40) hours per week. Generally, full-time staff members are eligible for the benefits and leaves of absence described in this Handbook, subject to the terms, conditions, and limitations of each benefit and leave program.

Part-Time Staff

Part-time staff members are those employed who are regularly scheduled to work thirty-nine (39) hours or less per week. Generally, part-time staff regularly scheduled to work twenty (20) or more hours per week are eligible for the benefits and leaves of absences described in this Handbook, subject to the terms, conditions, and limitations of each benefit and leave program. Staff regularly scheduled to work less than twenty (20) hours per week receive legally mandated benefits and leaves, but are ineligible for all of KIPP's other employment benefits and leave programs. A change from part-time to full-time status will be effective only if the staff member has been advised of the change by the staff member's supervisor and Human Resources.

Temporary Staff

Temporary staff members are those staff members who are hired to work for a limited period of time or for a specific project.

Temporary Employment - Without Benefits

Temporary staff members working less than twenty (20) hours per week or working less than ninety (90) days are not eligible for benefits or paid time off. Temporary school-based staff members who work less than thirty (30) days for KIPP in a year are not eligible to accrue paid sick leave except where required by applicable local ordinances.

Temporary Employment - With Benefits

Temporary staff members who work more than 30 days are eligible to accrue paid sick leave. Temporary staff members working over twenty (20) hours per week and for periods longer than ninety (90) days will be eligible for benefits subject to the terms, conditions, and limitations of each plan.

At-Will Employment

Except if stated expressly otherwise by an employment contract, all staff members are considered "at-will" staff members of KIPP. Accordingly, either KIPP or the staff member can terminate this relationship at any time, for any reason, with or without cause, and with or without advance notice.

Nothing contained in this Handbook, employment applications, KIPP memoranda or other materials provided to staff members in connection with their employment shall require KIPP to have “cause” to terminate a staff member or otherwise restrict KIPP’s right to release a staff member from their at-will employment with KIPP. Statements of specific grounds for termination set forth in this Handbook or elsewhere are not all-inclusive and are not intended to restrict KIPP’s right to terminate at-will. No KIPP representative, other than the Board of Directors or its designee, is authorized to modify this policy for any staff member or to make any representations to staff members or applicants concerning the terms or conditions of employment with KIPP that are not consistent with KIPP’s policy regarding “at-will” employment.

This policy shall not be modified by any statements contained in this Handbook or staff member applications, KIPP memoranda, or any other materials provided to staff members in connection with their employment. Further, none of those documents whether singly or combined, or any employment practices, shall create an express or implied contract of employment for a definite period, nor an express or implied contract concerning any terms or conditions of employment.

Meal and Rest Periods

Non-exempt staff members working at least five (5) hours are provided with an unpaid thirty (30) minute meal period, to be taken approximately in the middle of the workday but by no later than the end of the 5th hour of work. A staff member may waive this meal period if the day’s work will be completed in no more than six (6) hours, provided the staff member and their supervisor mutually consent to the waiver in writing. For instructions on this process reach out to HR@kippnorcal.org.

Non-exempt staff members are also provided with a ten (10) minute rest period for every four (4) hours worked which should be scheduled towards the middle of the four (4) hour work period as practicable. Staff members are prohibited from combining meal and rest period time.

A staff member’s supervisor must be aware of and approve scheduled meal and rest periods. Staff members must immediately inform their supervisor if they are prevented from taking their meal and/or rest periods. Staff members are expected to observe assigned working hours and the time allowed for meal and rest periods.

Attendance and Tardiness

All staff members are expected to arrive at work consistently and on time. Individual work schedules may vary for each site and/or team, and they are set forth by the manager/School Leader. Absenteeism and tardiness negatively affects KIPP’s ability to run its educational program, disrupts consistency in students’ learning, and the ability to run an effective operation.

If it is necessary to be absent or late, staff members are expected to contact the School Leader/supervisor as soon as possible but no later than one and half hours (1.5 hours) before the start of the workday. Staff members absent from work longer than one (1) day, are expected to keep the School Leader/supervisor sufficiently informed of the situation.

If a staff member must take a midday absence for an appointment, staff members are required to gain approval from their managers of their arrival and departure. Non-exempt employees must clock out and in for time off campus.

Excessive unpaid or unexcused absences and/or tardiness may result in disciplinary action up to and including release from employment with KIPP.

Absences for more than three (3) consecutive days without notifying the School Leader/supervisor will be considered a voluntary resignation from employment, and will be processed accordingly.

Time Cards/Records

By law, KIPP is obligated to keep accurate records of the time worked by non-exempt staff members. Such staff members shall be required to utilize KIPP's time card system.

Non-exempt staff members must accurately clock in and out of their shifts. The time card documents a staff member's arrival and departure time, as well as lunch and for absences like doctors or dentist's appointments. All staff members are required to keep their manager advised of their departures from and return to the school/regional office premises during the workday.

Non-exempt staff members are solely responsible for ensuring accurate information on their time cards and remembering to record time worked daily. If a staff member forgets to mark their time card or makes an error on the time card, the staff member must (1) enter the correction information in the Comments section of their electronic time card; and (2) contact their Director Of School Operations/supervisor to make the correction. In order for non-exempt staff members to be compensated accurately for time worked, they should not perform any off-the-clock work, including but not limited to checking emails before/after work hours, performing work in the morning before logging in, and running work related errands after logging out. This ensures that non-exempt staff members are only working during their work hours.

No one may record hours worked on another staff member's time card or clock in or out for another staff member with the exception of the staff member's direct supervisor who may need to correct time card entries on behalf of the staff member. Any staff member who violates any aspect of this policy may be subject to disciplinary action, up to and including release from at-will employment.

Remote Work Policy (RSO Staff Only)

In an effort to best meet the educational needs of our students and families, school site staff members are not eligible for remote work. RSO staff members, however, follow a hybrid work policy.

KIPP's hybrid work policy requires that all RSO staff members work onsite* at least two days a week and may work the 3 other days remotely. When working remotely, all staff must always be working from California unless approved by Manager and HR. Staff that are attending a conference are approved for one week to work from that site.

*Onsite work means a staff member must be at one of the sites listed below:

1. The RSO Oakland or one of our RSO satellite offices (i.e. Stockton, San Jose, etc.)
2. at a school site or
3. at a designated site that makes sense for your job (i.e. on a college campus if working with students for KIPP Forward).

If an onsite day needs to be changed, it must be done so with the approval of your direct manager. This is to ensure consideration for office capacity as well as organizational need.

Personal Business

KIPP's facilities for handling mail and telephone calls are designed to accommodate KIPP business. Staff members should have their personal mail directed to their home address and limit personal telephone calls to an absolute minimum. Any personal calls made on KIPP provided equipment should not be made outside the immediate dialing area. KIPP materials, time or equipment should not be used for personal projects.

Personal Appearance/ Standards of Dress

During the workday, personal appearance becomes a facet of how staff members represent KIPP. KIPP's stance on what constitutes professional and appropriate personal appearance may differ from the views of any individual staff member. The purpose of this policy is to clarify KIPP's expectations and requirements for staff members in regard to personal appearance, dress, and grooming. The supervisors of individual work sites may adopt more specific codes to govern personal appearance at that work site, such as requiring non-denim pants.

This policy is not intended to restrict a staff member's ability to groom or dress in accordance with religious or cultural customs, or in accordance with their gender identity. If staff members have concerns or questions about the impacts of the dress code on a protected aspect of their identity, such as their gender identity, religion, or medical condition, they should consult the Director of Human Resources.

Staff members are encouraged to wear clothing that will present an image consistent with and appropriate to their general job responsibilities, and will not interfere with learning. Accordingly, all staff members shall adhere to the following standards of dress:

1. Clothing and jewelry must be safe and appropriate to the environment.
2. No undergarments should be showing, or be able to show while performing any regular job responsibilities.
3. Crop tops are not permitted.
4. Gym attire and/ or sleepwear are not permitted.
5. Clothing or jewelry with logos that depict and/ or promote gangs, drugs, alcohol, tobacco, sex, violence, illegal activities, profanity or obscenity are not permitted.
6. Shoes should be worn that are appropriate to a staff member's job responsibilities.

Security Protocols

Maintaining the security of our school campuses and sites is the responsibility of all KIPP staff members. KIPP has developed guidelines to help maintain a secure workplace. Staff members should be aware of unknown persons loitering in parking areas, walkways, entrances and exits and service areas. Staff members should report any suspicious persons or activities to their manager or their school administration team. Staff members' desks and/or offices should be secured at the end of the day. Staff members should immediately notify their manager and/or school administration team when keys are missing, or if security access codes or passes have been breached.

Occupational Safety

KIPP is committed to the safety of its staff members, students, vendors, contractors and the public. The prevention of accidents is the responsibility of every KIPP supervisor. Staff members are expected to accept and promote the established safety regulations and procedures. Every effort will be made to provide adequate safety training. If a staff member is ever in doubt how to perform a job or task safely,

staff member's should request clarification from their supervisor. Staff members must report unsafe conditions immediately to their manager.

KIPP's management is required to provide safe and healthy working conditions for all staff members and to establish and require the use of safe practices at all times. Failure to comply with or enforce KIPP safety and health rules, practices and procedures could result in disciplinary action up to and including possible termination.

Accident/ Incident Reporting

It is the duty of every staff member to immediately or as soon as is practical report any accident or injury occurring during work or on KIPP premises to their manager so that arrangements can be made for medical or first aid treatment, as well as for investigation and follow-up purposes.

Staff Member Wages

Work Hours and Overtime for Non-Exempt Staff

Staff members classified as non-exempt (hourly) are eligible for overtime pay according to applicable law. Overtime will be computed based on actual time worked, and does not include holiday or PTO/sick time.

According to applicable law, staff members in exempt (salary) positions are not eligible for overtime pay. Exempt staff members may have to work hours beyond their normal schedules as work demands require. No overtime compensation will be paid to these exempt staff members, nor are exempt staff members eligible for time off in lieu of overtime.

Overtime Pay

Whether a staff member is exempt from, or subject to overtime pay, will be determined on a case-by-case basis and will be indicated in the staff member's job description. Non-exempt staff members may be required to work beyond the regularly scheduled workday or workweek as necessary. Only actual hours worked in a given workday or workweek can apply in calculating overtime for non-exempt staff members. KIPP will attempt to distribute overtime evenly and accommodate individual schedules. All overtime work must be previously authorized by the staff member's direct supervisor. KIPP provides compensation for all overtime hours worked by non-exempt staff members in accordance with state and federal law as follows:

For staff members subject to overtime, all hours worked in excess of eight (8) hours in one workday or forty (40) hours in one workweek shall be treated as overtime. Compensation for hours in excess of forty (40) for the workweek or in excess of eight (8) and not more than twelve (12) for the workday, and for the first eight (8) hours on the seventh consecutive day in one workweek, shall be paid at a rate of one and one-half times the staff member's regular rate of pay. Compensation for hours in excess of twelve (12) in one workday and an excess of eight (8) on the seventh consecutive workday of the workweek shall be paid at double the regular rate of pay.

Payroll Withholdings

As required by law, KIPP shall withhold Federal Income Tax, State Income Tax, Social Security (“FICA”) and State Disability Insurance from each staff member’s pay as follows:

1. Federal Income Tax Withholding: The amount varies with the number of exemptions the staff member claims and the gross pay amount.
2. State Income Tax Withholding: The same factors which apply to federal withholdings apply to state withholdings.
3. FICA: The Federal Insurance Contribution Act requires that a certain percentage of staff member earnings be deducted and forwarded to the federal government, together with an equal amount contributed by KIPP.
4. State Disability Insurance (“SDI”): This state fund is used to provide benefits to those out of work because of illness or disability.

For explanations on staff member payroll withholdings, staff members should reach out to the HR department to discuss.

Staff members may change the number of withholding allowances claimed for Federal Income Tax purposes at any time by filling out a new W-4 form and submitting it via the Staff Member Portal in the HRIS/Payroll system.

All Federal, State, and Social Security taxes will be automatically deducted from paychecks. The federal Withholding Tax deduction is determined by the staff member’s W-4 form. The W-4 form is initially completed upon hire, and it is the staff member’s responsibility to report any changes in filing status and to fill out a new W-4 form via the staff member Self-Service Portal.

At the end of the calendar year, a “withholding statement” (“W-2”) will be prepared and forwarded to each staff member for use in connection with preparation of income tax returns. The W-2 shows Social Security information, taxes withheld and total wages.

Staff members may also have deductions made to their paychecks when a wage overpayment occurs. The School may require the staff member to reimburse an overpayment through a mutually agreeable method, including through cash repayment or a deduction of the staff member’s payroll check, among other options. A staff member who is separated from employment before full repayment of the overpayment amount shall have any remaining amounts withheld from their final check. The School also reserves the right to exercise any and all other legal means to recover any additional amounts owed. The School shall provide staff members with advance written notice of the deduction prior to the pay period where it will go into effect.

Pay Periods

Staff members are paid on the 15th and last day of the month, except when those days fall on a holiday or a weekend, in which case staff members are paid on the prior work day. Staff members are paid via automatic payroll deposit (“Direct Deposit”) or through live check. All staff members are paid for the time that they work. If staff members believe an error has been made in their paycheck, please contact the KIPP Human Resources team as soon as possible. A staff member’s paycheck will not be released to another person without the written authorization from the staff member.

Wage Attachments and Garnishments

Under normal circumstances, KIPP will not assist creditors in the collection of personal debts from its staff members. However, creditors may resort to certain legal procedures such as garnishments, levies or judgments that require KIPP, by law, to withhold part of a staff member's earnings in their favor.

Staff members are strongly encouraged to avoid such wage attachments and garnishments. If KIPP is presented with a second garnishment request concerning a staff member, Human Resources may reach out to discuss the situation with the staff member.

Health, Safety and Security

Equal Employment Opportunity Policy

KIPP is an equal opportunity employer. It is the policy of KIPP to afford equal employment and advancement opportunity to all qualified individuals without regard to:

- Race or ethnicity (including traits historically associated with race, such as hair texture and hairstyle, including but not limited to braids, locks, and twists);
- Color;
- Gender (including gender identity, gender expression, and transgender identity, whether or not the staff member is transitioning or has transitioned);
- Sex (including reproductive health decision-making, pregnancy, childbirth, breastfeeding, and medical conditions related to such);
- Sex stereotype (including an assumption about a person's appearance or behavior, gender roles, gender expression, or gender identity, or about an individual's ability or inability to perform certain kinds of work based on a myth, social expectation, or generalization about the individual's sex);
- Religious creed (including religious dress and grooming practices);
- Marital/registered domestic partner status;
- Age (forty (40) and over);
- National origin or ancestry (including native language spoken and possession of a driver's license issued to persons unable to prove their presence in the U.S. is authorized by federal law);
- Physical or mental disability (including HIV and AIDS);
- Medical condition (including cancer and genetic characteristics);
- Taking of a leave of absence pursuant to the Family Medical Leave Act ("Family and Medical Leave Act"), Pregnancy Disability Leave ("Pregnancy Disability Leave ") law, Americans with Disabilities Act ("ADA"), California Family Rights Act ("California Family Rights Act"), the Fair Employment and Housing Act ("FEHA"), or laws related to domestic violence, sexual assault and stalking;
- Genetic information;
- Sexual orientation;
- Weight and height;
- Military and veteran status; or
- Any other consideration made unlawful by federal, state, or local laws.

This policy extends to all job applicants and staff members and to all aspects of the employment relationship, including the hiring of new staff members and the training, transfer, promotion, discipline, termination, compensation and benefits of existing staff members.

Accommodations for Individuals with Disabilities

KIPP Northern California is committed to ensuring an equal opportunity for qualified individuals with disabilities. To comply with applicable federal and state laws ensuring equal employment opportunities to qualified individuals with a disability, KIPP will make reasonable accommodations for the known physical or mental limitations of an otherwise qualified individual with a disability who is an applicant or a staff member unless undue hardship would result or be to direct threat to the safety of the staff member or others in the workplace. A reasonable accommodation is any change or adjustment to the workplace that permits a qualified applicant or staff member with a disability to participate in the job application process, to perform the essential functions of a job, or to enjoy the benefits and privileges of employment equal to those enjoyed by staff members with disabilities.

In general, it is an applicant or staff member's responsibility to notify KIPP Northern California if they require an accommodation. To request an accommodation, staff members should contact the Human Resources team and request such an accommodation at hr@kippnorcal.org. Staff members will be required to submit a medical certification form completed and signed by their health care provider with information about their condition. Such information will be kept confidential to the fullest extent permitted by the law. KIPP will identify possible accommodations, if any, that will help eliminate the limitation. If the accommodation is reasonable and will not impose an undue hardship, KIPP will make the accommodation.

Accommodations for Religious Beliefs

KIPP is committed to providing reasonable accommodations for a staff member's bona fide religious beliefs, unless doing so would cause undue hardship to the school operations.

Accommodations for Nursing Mothers

KIPP accommodates lactating staff members by providing a reasonable amount of break time to any staff member who desires to express breast milk for an infant child, for up to one year after the birth of their child. The break time shall, if possible, run concurrently with any break time already provided to the staff member. Staff members who need break time provided to express breast milk outside of regularly scheduled time that does not run concurrently with breaks time already provided to the staff member should contact Human Resources at hr@kippnorcal.org to engage in an interactive process regarding lactation accommodations.

KIPP will make reasonable efforts to provide staff members who need a lactation accommodation with the use of a room or other private location that is located close to the staff member's work area. Such a room and/or location shall not be a bathroom. Staff members shall be given access to a sink with running water and a refrigerator. Staff members with private offices may be required to use their offices to express breast milk. Staff members who desire lactation accommodations should contact their supervisor to request accommodations.

Policy Against Unlawful Workplace Harassment, Discrimination and Retaliation

KIPP is committed to providing a work environment that is free of illicit harassment based on any protected characteristics. As a result, KIPP maintains a strict policy prohibiting sexual harassment and harassment against staff members, applicants for employment, individuals providing services in the

workplace pursuant to a contract, unpaid interns or volunteers based on any legally-recognized basis, including, but not limited to, their actual or perceived race (including traits historically associated with race, such as hair texture and hairstyle, including but not limited to braids, locks, and twists), color; gender (including gender identity, gender expression, and transgender identity, whether or not the staff member is transitioning or has transitioned); sex (including reproductive health decision-making, pregnancy, childbirth, breastfeeding, and related medical conditions); religious creed (including religious dress and grooming practices); marital/registered domestic partner status; age (forty (40) and over); national origin or ancestry (including native language spoken and possession of a driver's license issued to persons unable to prove their presence in the U.S. is authorized by federal law); physical or mental disability (including HIV and AIDS); medical condition (including cancer and genetic characteristics); taking a leave of absence authorized by law; genetic information; sexual orientation; weight and height, military and veteran status; or any other consideration made unlawful by federal, state, or local laws.

This policy applies to all persons involved in our operations, including co-workers, supervisors, managers, temporary or seasonal workers, agents, clients, vendors, customers, or any other third party interacting with KIPP ("third parties") and prohibits proscribed harassing conduct by any staff member or third party of KIPP, including nonsupervisory staff members, supervisors and managers. If such harassment occurs on KIPP's premises or is directed toward a staff member or a third party interacting with KIPP, the procedures in this policy should be followed.

Sexual Harassment Defined

Sexual harassment includes unwanted sexual advances, requests for sexual favors or visual, verbal or physical conduct of a sexual nature when:

- Submission to such conduct is made a term or condition of employment; or
- Submission to, or rejection of, such conduct is used as a basis for employment decisions affecting the individual; or
- Such conduct has the purpose or effect of unreasonably interfering with a staff member's work performance or creating an intimidating, hostile or offensive working environment.

Sexual harassment also includes various forms of offensive behavior based on sex and includes gender-based harassment of a person of the same sex as the harasser. The following is a partial list:

- Unwanted sexual advances
- Offering employment benefits in exchange for sexual favors
- Making or threatening reprisals after a negative response to sexual advances
- Visual conduct: leering; making sexual gestures; displaying sexually suggestive objects or pictures, cartoons, posters, websites, emails or text messages
- Verbal conduct: making or using derogatory comments, epithets, slurs, sexually explicit jokes, or comments about a staff member's body or dress
- Verbal sexual advances or propositions
- Verbal abuse of a sexual nature; graphic verbal commentary about an individual's body; sexually degrading words to describe an individual; suggestive or obscene letters, notes or invitations
- Physical conduct: touching, assault, impeding or blocking movements
- Retaliation for reporting harassment or threatening to report sexual harassment

A staff member may be liable for harassment based on sex even if the alleged harassing conduct was not motivated by sexual desire. A staff member who engages in unlawful harassment may be personally liable for harassment even if KIPP had no knowledge of such conduct.

Other Types of Harassment

Prohibited harassment on the basis of any legally protected classification, including, but not limited to: race, color, national origin, ancestry, physical or mental disability, medical condition, genetic information, marital status (including domestic partnership status), age (40 or over), sexual orientation, Civil Air Patrol status, military and veteran status, immigration status or any other consideration protected by federal, state or local law, includes behavior similar to the illustrations above pertaining to sexual harassment. This includes conduct such as:

- Verbal conduct including threats, epithets, derogatory comments or slurs based on an individual's protected classification;
- Visual conduct, including derogatory posters, photographs, cartoons, drawings or gestures based on protected classification; and
- Physical conduct, including assault, unwanted touching or blocking normal movement because of an individual's protected status.

Abusive Conduct Prevention/Training

As per law, all supervisors of staff will receive sexual harassment, discrimination, and retaliation training within six (6) months of their assumption of a supervisory position and will receive further training once every two (2) years thereafter. All other non-supervisory staff members will receive one (1) hour of sexual harassment prevention training within six (6) months of hire and every one (1) year thereafter. Such training will address all legally required topics, including information about the negative effects that abusive conduct has on both the victim of the conduct and others in the workplace, as well as methods to prevent abusive conduct undertaken with malice a reasonable person would find hostile, offensive, and unrelated to an employer's legitimate business interests. Abusive conduct includes but is not limited to repeated infliction of verbal abuse, such as the use of derogatory remarks, insults, and epithets, verbal or physical conduct that a reasonable person would find threatening, intimidating, or humiliating, or the gratuitous sabotage or undermining of a person's work performance. Supervisors shall also be trained on how to appropriately respond when the supervisor becomes aware that a staff member is the target of unlawful harassment. Other staff will receive sexual harassment training and/or instruction concerning sexual harassment in the workplace as required by law.

Complaint Procedure

KIPP's reporting procedure provides for a thorough and objective investigation of any harassment or discrimination claim, appropriate disciplinary action against one found to have engaged in prohibited harassment or discrimination, and appropriate remedies for any victim of harassment or discrimination, if warranted under the circumstances.

Any staff member who believes that they have been harassed, discriminated against, or subjected to retaliation or abusive conduct by a coworker, supervisor, agent, client, vendor, customer, or any other third party interacting with KIPP in violation of the foregoing policies, or who is aware of such behavior against others, should immediately provide a written or verbal report to any of the following: (1) their supervisor; (2) any other member of management; (3), Human Resources email at hr@kipppnorcal.org; or (4) Grace Voorhis, Board Chair at grace.voorhis@kipppnorcal.org.

Staff members are not required to make a complaint directly to their immediate supervisor. **Supervisors and managers who receive complaints of misconduct must immediately report such conduct to the HR Director and/or the Associate Director of HR.** When a report is received, KIPP will conduct a fair, timely,

thorough and objective investigation that provides all parties appropriate due process and reaches reasonable conclusions based on the evidence collected. KIPP expects all staff members to fully cooperate with any investigation conducted by KIPP into a complaint of proscribed harassment, discrimination or retaliation, or regarding the alleged violation of any other KIPP policies. KIPP will maintain confidentiality surrounding the investigation to the extent possible and to the extent permitted under applicable federal and state law. Complaints which fall within the scope of Title IX will be handled in accordance with KIPP's Title IX Policy and Procedures.

Upon completion of the investigation, KIPP will communicate its conclusion as soon as practical. If KIPP determines that this policy has been violated, remedial action will be taken, commensurate with the severity of the offense, up to and including termination of employment. Appropriate action will also be taken to deter any such conduct in the future.

Protection Against Retaliation

Retaliation is prohibited against any person by another staff member or by KIPP for using KIPP's complaint procedure, reporting discrimination or harassment or filing, testifying, assisting or participating in any manner in any investigation, proceeding or hearing conducted by Human Resources or a governmental enforcement agency. Prohibited retaliation includes, but is not limited to, termination, demotion, suspension, failure to hire or consider for hire, failure to give equal consideration in making employment decisions, failure to make employment recommendations impartially, adversely affecting working conditions or otherwise denying any employment benefit.

Staff members who believe that they have been retaliated against should promptly report the retaliation verbally or in writing to any of the following:

- (1) Any manager
- (2) Chief People Officer
- (3) Human Resources Director
- (4) Associate Director of Human Resources
- (4) via email at hr@kippnorcal.org

Any report of retaliatory conduct will be investigated in a fair, timely, thorough and objective manner in accordance with the investigation procedure.

If KIPP determines that unlawful retaliation has occurred, it will take remedial action, commensurate with the severity of the offense. KIPP will also take appropriate action to deter future retaliation. KIPP will not retaliate against any staff member for filing a complaint and will not knowingly permit retaliation by management staff members or co-workers.

Liability for Unlawful Harassment

Any person who is found to have engaged in unlawful harassment is subject to disciplinary action up to and including discharge from employment.

A person who engages in harassment may be held personally liable for monetary damages. KIPP does not consider conduct in violation of this policy to be within the course and scope of employment or the direct consequence of the discharge of one's duties. Accordingly, to the extent permitted by law, KIPP reserves the right not to provide a defense or pay damages assessed against a staff member or anyone providing services under contract for conduct in violation of this policy.

Additional Enforcement Information

In addition to KIPP's internal complaint procedure, staff members should also be aware that the United States Equal Employment Opportunity Commission ("EEOC"), the California Department of Fair Employment and Housing, and other state anti-discrimination agencies investigate and prosecute complaints of harassment or discrimination in employment. Staff members who believe that they have suffered unlawful discrimination, harassment, or retaliation may file a complaint with either of these agencies. These agencies serve as neutral fact finders and attempt to help the parties voluntarily resolve disputes.

Whistleblower Policy

KIPP requires its officers, staff members, interns, and volunteers to observe high standards of ethics in the conduct of their duties and responsibilities within KIPP. As representatives of KIPP, all individuals must practice honesty and integrity in fulfilling all responsibilities and must comply with all applicable laws and regulations.

It is the policy of KIPP to encourage its staff members to disclose policy violations, improper activities, and any conditions that are a significant threat to public health or safety, and to protect those who come forward to report such violations, activities, or conditions. As such, staff members shall have the right to disclose any: (1) violations of KIPP's policies, procedures, or rules; (2) activity by KIPP or by a KIPP staff member that violates state or federal law (including, but not limited to corruption, malfeasance, bribery, theft or misuse of KIPP property, fraudulent claims, fraud, coercion, conversion, malicious prosecution, or willful omission to perform a duty), is economically wasteful, or involves gross misconduct, incompetence, or inefficiency; or (3) condition that may significantly threaten the health or safety of staff members or the public. When the staff member has reasonable cause to believe that the information discloses a violation of state or federal statute, or a violation of or noncompliance with a local, state, or federal rule or regulation, he or she has the right to disclose such information to a government or law enforcement agency or to refuse to participate in any such activity.

No staff member shall use or attempt to use their official authority or influence to intimidate, threaten, coerce, or command another staff member for the purpose of interfering with that staff member's right to disclose the aforementioned protected information. No one who in good faith reports such protected information, or who, in good faith, cooperates in the investigation of the protected information, shall suffer harassment, retaliation, or adverse employment action. However, any report that the reporter has good reason to believe is false will be viewed as a serious disciplinary offense.

Any staff member who has disclosed protected information and believes that he or she has subsequently been subjected to harassment, retaliation, or adverse employment action shall file a complaint with their supervisor or Human Resources. All complaints will be investigated in a fair, timely, thorough and objective manner. If a report of harassment or retaliation is substantiated, remedial action will be taken, commensurate with the severity of the offense, up to and including discharge.

Workplace Violence

It is the policy of KIPP that violence or threats of violence in any form are unacceptable and will not be tolerated. This policy reaffirms KIPP's commitment that all staff members should be able to enjoy a work environment free from all forms of violence. In addition, KIPP believes that workplace violence should be

prevented to the extent reasonably possible. This policy sets forth KIPP's Workplace Violence Prevention Policy.

This policy covers all staff members, interns, and volunteers of KIPP. KIPP will not tolerate, condone or allow violence, whether engaged in by staff members, supervisors, managers, non-staff members (including students, students' family members, contract workers or vendors), visitors, or others who conduct business with KIPP. KIPP encourages the reporting of all incidents or threats of violence regardless of who the offender may be.

This policy prohibits all acts or threats of violence, inappropriate aggression, or intimidation in any form, including verbal, written, physical, or any conduct that may be construed as a racial, sexual, ethnic or religious slur, or a slur based upon based on actual or perceived characteristics of race or ethnicity, nationality, religion, physical or mental disability, sex, sexual orientation, gender, gender identity, gender expression, immigration status, or any other consideration made unlawful under federal, state or local laws.

This policy is intended to bring KIPP into compliance with existing legal provisions requiring employers to provide a safe workplace; it is not intended to create any obligations beyond those required by existing law.

Definitions

Workplace violence is any intentional conduct that is sufficiently severe, offensive, or intimidating to cause an individual to reasonably fear for their personal safety or the safety of their family, friends, and/or property such that employment conditions are altered or a hostile, abusive, or intimidating work environment is created for one or several KIPP staff members. Workplace violence may involve any threats or acts of violence occurring on KIPP's premises, regardless of the relationship between KIPP and the parties involved in the incident. It also includes threats or acts of violence that affect the business interests of KIPP or that may lead to an incident of violence on KIPP's premises. Threats or acts of violence occurring off KIPP's premises that involve staff members, students, students' family members, agents, or individuals acting as a representative of KIPP, whether as victims of, or active participants in the conduct, may also constitute workplace violence. Specific examples of conduct that may constitute threats or acts of violence under this policy include, but are not limited to, the following:

- Threats or acts of physical or otherwise aggressive conduct directed toward another individual;
- Threats or acts of physical harm directed toward an individual or their family, friends, associates, or property;
- The intentional destruction or threat of destruction of KIPP's property or the property of another individual;
- Harassing or threatening phone calls, texts, emails, social media posts, etc.;
- Surveillance;
- Stalking;
- Veiled threats of physical harm or similar intimidation; and
- Any conduct resulting in the conviction under any criminal code provision relating to violence or threats of violence that adversely affects KIPP's legitimate business interests.

Reporting Complaints

Any pattern of behavior that seems to indicate violence toward another individual must be reported to any member of management and/or Human Resources. Any staff member who is threatened with

violence, observes a threat, or otherwise becomes aware of a threat of violence must report this conduct promptly. If a staff member or other individual is in immediate danger or observes a violent action toward another individual, contact law enforcement as appropriate; report to Supervisor and Human Resources as soon as possible. Any report of an act of violence will be kept confidential to the extent possible.

Enforcement

Any person who engages in a threat or violent action on KIPP's property may be removed from the premises as quickly as safety permits and may be required, at KIPP's discretion, to remain off KIPP premises, pending the outcome of an investigation of the incident.

When threats are made or acts of violence are committed by a staff member(s), a judgment will be made by KIPP as to what actions are appropriate, including possible medical evaluation, law enforcement involvement, and/or possible disciplinary action.

Under this policy, decisions may be needed to prevent a threat from being carried out, a violent act from occurring, or a life-threatening situation from developing. No existing policy or procedure of KIPP should be interpreted in a manner that prevents the making of these necessary decisions.

Although KIPP's ability to control the actions of third parties is limited, KIPP will make a reasonable response to threats or actions of violence by third parties. The appropriate action will depend upon the particular facts and circumstances of the situation, as determined through the investigation of the complaint.

KIPP will make the sole determination of whether, and to what extent, threats or acts of violence will be acted upon by KIPP. In making this determination, KIPP will undertake a case-by-case analysis in order to ascertain whether there is a reasonable basis to believe that workplace violence has or will occur. No provision of this policy shall alter the at-will nature of employment at KIPP.

Investigation

KIPP will promptly investigate all allegations of workplace violence or threats thereof. The investigation will include obtaining documentation of the objectionable behavior or other misconduct and/or the interview of witnesses to the conduct.

No Retaliation

KIPP will not permit retaliation against any individual who reports workplace violence. Any staff member found to have engaged in retaliation against another individual for reporting violence will be subject to corrective action, up to and including termination of employment.

If, however, the investigation results in a finding that a staff member knowingly falsely accused another individual of violence or threats of violence or made such accusations in a malicious manner, the accusing staff member will be subject to corrective action, up to and including termination of employment.

Staff Internal Complaint Policy

KIPP has established the following internal complaint protocol, the intent of which is to resolve disputes or complaints in a fair and prompt manner. This policy applies to internal complaints not otherwise covered by this Handbook.

Most complaints can be resolved by informal discussions between the concerned party and the other individual(s) involved, or the other individual's supervisor; this is KIPP's preferred method for conflict resolution. However, staff members have multiple ways to reach out to express concerns and resolve an issue as outlined below.

Any staff member who wishes to lodge a complaint against another KIPP staff member or staff member practices can do so by contacting the HR Director, Chief People Officer, or CEO. If a complaint is against the CEO, a staff member may contact the Board. Because a staff member's failure to promptly file a complaint impedes KIPP's ability to investigate and resolve a complaint, staff members are encouraged to file all formal complaints no later than thirty (30) days after the incident. If the incident occurs at the end of the school year, staff members are encouraged to file all formal complaints by June 30 of the current school year.

The CEO or their designee (or the Board or designee, in the event a complaint is against the CEO), will investigate complaints appropriately under the circumstances and pursuant to the applicable procedures, and if necessary, take appropriate remedial measures to ensure effective resolution of any complaint. All complainants will be notified that information obtained from the complainants and thereafter will be maintained in a manner as confidential as possible, but in some circumstances confidentiality cannot be assured.

The HR Director will notify the person filing the complaint and the staff member charged, of the final determination in a timely manner.

If the complaint is not resolved, the HR Director will review the complaint and related material, interview parties, and submit findings and recommendations to the Chief People Officer and CEO for final review and resolution.

It is KIPP's expectation that all parties involved shall cooperate in resolving the complaint. In no case is there to be retaliation from any involved party.

Workplace Health and Safety

KIPP has an established policy of providing a safe workplace for all staff members consistent with current federal, state and local laws, as well as proven “common sense” safety practices.

It is only through the combined efforts and interest of all staff members that we can continue to make KIPP a safe place in which to work. Staff members are expected to work safely, observe safety regulations, and report unsafe conditions immediately to the Director Of School Operations at their school site or the Regional Operations team at the RSO.

In compliance with Proposition 65, KIPP will inform staff members of any known exposure to a chemical known to cause cancer or reproductive toxicity.

Non-Smoking Policy

Smoking or vaping shall not be permitted anywhere on the grounds of a school site or the Regional Support Office. This policy applies to all KIPP staff members, students, alumni, contractors, consultants, temporary workers, volunteers, visitors, and community members.

Substance-Free Workplace

KIPP is committed to providing a drug-free, alcohol-free, healthful, and safe workplace. To promote this goal, staff members are required to report to work in appropriate mental and physical condition to perform their jobs.

No staff member may use, manufacture, distribute, dispense, possess, distribute, sell, or be under the influence of alcohol or illegal drugs while: (1) on KIPP property; (2) conducting or performing activities on behalf of KIPP (regardless of location); or (3) responsible for the safety of others in connection with, or while performing, KIPP-related business. An illegal drug is any drug or substance that is illegal under state or federal law. Violations of this policy may lead to disciplinary action, up to and including immediate termination of employment, and/or required participation in a substance abuse rehabilitation or treatment program.

KIPP recognizes that there are times when the consumption of alcohol may be acceptable, for example, at a staff holiday party or work conference. Only the moderate and limited use of alcohol is acceptable on such occasions. Staff members are expected to remain responsible, professional, and sober at all times, and permission from their Supervisor or the CEO must be received before any alcohol comes on any non-school KIPP premises at any time during the day or year. Under California law, alcohol on school premises, even when students are not present, is strictly prohibited. Consumption of alcohol on a KIPP field trip/ lesson or at any time when students are present and/or under KIPP’s care is prohibited.

California Public Records Act (CPRA)

In 1968, the California Legislature enacted the [California Public Records Act](#) (CPRA) under Government Code (GC) sections 7920.530-7922.000. It requires that government records be disclosed to the public, upon request, unless there are privacy and/or public safety exemptions which would prevent doing so. As a California charter school organization, KIPP is legally required to comply with the CPRA. KIPP will comply with any public requests as long as it qualifies under the CPRA.

Media Relations

It is KIPP's goal to give the media a clear, consistent, and up-to-date message about our organization and its programs and services. Since information about our activities changes often, it is easy to provide the media with information that may be inaccurate or misleading.

Staff members are not permitted to make any statement or representation regarding matters of KIPP business to the media on the School's behalf without the prior written consent of their Supervisor and the CEO or designee. All calls from newspapers, magazines, radio and television reporters, or other media outlets must be immediately referred to the Regional Team at media@kipnocal.org.

Audio/Video Content Policy

Staff members must remember that they are role models for students and representatives of the School and Organization. To ensure a safe and productive environment in the workplace, staff members must refrain from playing music, podcasts, audio books, videos, or any other audio/video recording out loud in a way that is disruptive to the organization's operations. Audio/video content containing graphic, violent, sexual, racist, religious, or otherwise inappropriate lyrics language is inappropriate for a workplace environment are/is not permitted to be played where other staff members, students, or stakeholders are able to see and/or hear. If the lyrics and/or images can be questioned, it is best to assume they are inappropriate.

While staff members are permitted to listen to any music, podcasts, audio books, or audio/video recordings of their choice with headphones on during their breaks or during the workday, as long as it does not interfere with the Organization's operations or the performance of their job duties. However, staff members must refrain from listening to music, podcasts, audio books, or any other audio recordings containing inappropriate lyrics language as described above without headphones on during working hours as this is disruptive to the Organization's environment. Visual (i.e. videos) images that are graphic, violent, sexual, racist, religious, or otherwise inappropriate images and language are inappropriate for the workplace. Any staff member who violates this policy may be subject to disciplinary action.

Non-Fraternization Policy

KIPP wants to avoid misunderstandings, actual or potential conflicts of interest, complaints of favoritism, possible claims of sexual harassment and the staff member morale problems that can potentially result from romantic and/or intimate relationships involving managerial staff members and their subordinates, managers and other staff members within their sphere of influence at KIPP, and any staff members and recent KIPP alumni.

KIPP permits the employment of qualified family members, domestic partners, and significant others as long as employment does not create a conflict of interest or undermines KIPP's operations. In accordance with KIPP's employment policies, staff member hiring or promotion will be based on a candidates or staff member's job qualifications and performance. Relationships by family, marriage, domestic partnership, friendship, romantic involvement shall neither advantage or disadvantage a staff member's selection, promotion, salary or other conditions of employment.

To safe-guard against personal relationships interfering with, or appearing to interfere with, workplace operations, KIPP will not knowingly place family members, domestic partners, significant others, or individuals engaged in a romantic relationship in a supervisor-supervisee relationship. Furthermore, KIPP strongly discourages supervisors from engaging in romantic relationships with their director reports, and from hiring family members. KIPP also discourages KIPP staff from engaging in romantic relationships with students' family members and/or other family members of students. Lastly, KIPP strongly discourages staff members from becoming romantically involved with KIPP interns at any time of their internship, regardless if the staff member supervises the intern or not.

All KIPP staff members are prohibited from having romantic and/or intimate relationships with KIPP alumni that are receiving regular services with KIPP Forward. These relationships raise concerns regarding timing of consent, conflicts of interest, and the appearance of impropriety. They are problematic because of the recent unequal status of the parties, particularly when the staff member had supervisory, instructional, or other professional responsibility over the student. These relationships also damage the credibility or reputation of the staff member and KIPP, especially in the eyes of the families KIPP serves, and expose both the staff member and/or KIPP to liability.

If a supervisor becomes romantically involved with a supervisee (direct or indirect report), another staff member, intern, or a student's family member, staff members shall alert the Human Resources department as soon as possible to address the situation. If, in the opinion of KIPP, a personal relationship creates a conflict of interest, causes disruption, creates a negative or unprofessional work environment or presents concerns regarding supervision, safety, security, or morale, KIPP reserves the right to re-assign reporting relationships and/or roles. For the purposes of this policy, a supervisor is defined as anyone who has the ability to hire, fire, promote, demote, discipline, evaluate, or determine the compensation of their supervisee.

Safe School Environment

KIPP is committed to creating a safe learning and working environment for all students and staff members. KIPP recognizes the harmful effects of discrimination, harassment, intimidation, and bullying on student learning and school attendance and desires to provide a safe school environment that protects students from physical and emotional harm.

KIPP prohibits unlawful discrimination, harassment, intimidation, and bullying based on actual or perceived characteristics of race or ethnicity, nationality, religion, physical or mental disability, sex, sexual orientation, gender, gender identity, gender expression, immigration status, or any other consideration made unlawful under federal, state or local laws. This policy applies to all acts related to school activity or school attendance under the jurisdiction of KIPP, including any acts occurring on KIPP property or during a KIPP event, regardless of the location.

Any staff member who witnesses an act of discrimination, harassment, intimidation, or bullying based on an actual or perceived characteristic must take immediate steps to intervene when safe to do so. Additionally, any staff member who observes or receives a report of unlawful discrimination, harassment, intimidation, or bullying must promptly report the conduct to the School Leader, whether or not the target of the conduct makes a report or files a complaint. Any staff member who permits or engages in prohibited discrimination, harassment, intimidation, bullying, or retaliation shall be subject to disciplinary action, up to and including termination.

Required Trainings

In our effort to ensure every staff member is equipped with the information required to keep students safe, and to foster a productive work environment, all KIPP Northern CA staff member's are expected to take a series of training sessions within 30 days of employment and yearly thereafter.

- Human Resources
 - Sexual Harassment: Staff to Staff
 - Sexual Harassment: Student Issues and Response
- Social and Behavioral
 - Mandated Reporting

Other training may be assigned based on a staff member's job responsibilities. Failure to complete required mandatory training in a timely manner, may be subject to disciplinary action and/or placement of unpaid administrative leave until training is completed.

Professional Boundaries: Staff/KIPPster Interaction Policy

For the purposes of this policy, the term "KIPPster" refers to any current KIPP Student, or alumni still enrolled in a KIPP program, including KIPP Forward which extends throughout their college career.

KIPP recognizes its responsibility to make and enforce all rules and regulations to bring about the safest environment possible for students, alumni enrolled in KIPP programs, and KIPP staff.

Corporal Punishment

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of, or willfully causing the infliction of, physical pain on a student.

For purposes of this policy, corporal punishment does not include a staff member's use of force that is reasonable and necessary to protect the staff member, students, staff or other persons or to prevent damage to property.

For clarification purposes, the following examples are offered for direction and guidance of KIPP personnel:

Examples of PERMITTED actions (NOT corporal punishment)

- Stopping a student from fighting with another student;
- Preventing a pupil from committing an act of vandalism;
- Defending yourself from physical injury or assault by a student;
- Forcing a pupil to give up a weapon or dangerous object;
- Requiring an athletic team to participate in strenuous physical training activities designed to strengthen or condition team members or improve their coordination, agility, or physical skills;
- Engaging in group calisthenics, team drills, or other physical education or voluntary recreational activities.

*Examples of **PROHIBITED** actions (corporal punishment)*

- Hitting, shoving, pushing, or physically restraining a student as a means of control;
- Making students do push-ups, run laps, or perform other physical acts that cause pain or discomfort as a form of punishment;
- Paddling, swatting, slapping, grabbing, pinching, kicking, or otherwise causing physical pain.

Professional Boundaries

This policy is intended to guide all faculty and staff in conducting themselves in a way that reflects the highest standards of behavior and professionalism required of school staff members and to specify the boundaries between students, alumni, and staff. Trespassing the boundaries of a staff member/KIPPster relationship is deemed an abuse of power and a betrayal of public trust.

All staff must carefully review this policy along with each of the examples given in the policy related to acceptable and unacceptable staff member behavior (see examples in section below). Although this policy gives specific, clear direction, it is each staff member's obligation to avoid situations that could prompt suspicion by students' family members, students, alumni, colleagues, or school leaders. One viable standard that can be quickly applied when the staff member is unsure if certain conduct is acceptable is to ask themselves, "Would I be engaged in this conduct if my family or colleagues were standing next to me?"

Some activities may seem innocent from a staff member's perspective, but can be perceived as flirtation, sexual insinuation, or unprofessional from a student, alumni, or parent's point of view. The objective of providing examples of acceptable and unacceptable behaviors listed below is not to restrain innocent, positive relationships between staff and students, but to prevent relationships that could lead to, or may be perceived as, sexual misconduct or generally unprofessional.

Staff members must understand their own responsibility for ensuring that they do not cross the boundaries as written in this policy. Disagreeing with the wording or intent of the established boundaries will be considered irrelevant for disciplinary purposes. Thus, it is crucial that all staff members learn this policy thoroughly and apply the lists of acceptable and unacceptable behaviors to their daily activities. Although sincere, competent interaction with KIPPsters certainly fosters learning, staff interactions with KIPPsters, including alumni receiving services through KIPP Forward, must respect professional boundaries surrounding potential activities, locations, and intentions.

Staff members are expressly prohibited from engaging in, soliciting, or encouraging a sexual relationship or sexual activity with a KIPPster, regardless of whether the KIPPster is an adult and the relationship or activity is consensual. Additionally, sexual relationships or sexual activities between staff members and former KIPPsters are prohibited if the staff member pursued an intimate or sexual relationship with the former KIPPster while the former KIPPster was enrolled as a KIPP student or in a KIPP program and while the staff member was employed by KIPP.

Duty to Report

All staff members play an integral role in keeping our KIPPsters safe, and it is a staff member's duty to report any concerns related to misconduct to the appropriate authority, both internal and external, even if they don't have full information or context. When any staff member reasonably suspects or believes that another staff member may have crossed the boundaries specified in this policy, he or she must

immediately report the matter to a school administrator and/or to the Human Resources Department at hr@kipnocal.org. If necessary, a staff member must report the incident(s) to law enforcement, including Child Welfare Services (CWS). All reports shall be treated as confidential to the fullest extent possible under the circumstances. It is the duty of the school administration team, HR Director, and/or the Associate Director of HR to investigate and thoroughly report the situation to the CEO in a timely manner. Staff members must also report to the school administration team any awareness or concern of student behavior that crosses boundaries or where a student appears to be at risk for physical and/or sexual abuse.

Examples of Unacceptable Behavior

This is not an exhaustive list.

- Any conduct that may constitute harassing or discriminatory behavior, as defined in KIPP's Policy Against Unlawful Workplace Harassment, Discrimination, and Retaliation and KIPP's Safe School Environment Policy
- Giving gifts to a KIPPster that are of a personal and intimate nature
- Kissing of any kind
- Any type of unnecessary physical contact with a KIPPster in a private situation
- Making or participating in sexually inappropriate comments
- Sexual jokes
- Seeking emotional involvement with a KIPPster for a staff member's benefit
- Listening to or telling stories that are sexually oriented
- Discussing inappropriate personal troubles or intimate issues with a KIPPster in an attempt to gain their support and understanding
- Becoming involved with a KIPPster so that a reasonable person may suspect inappropriate behavior
- Having/inviting one student into the staff member's home is unacceptable
- Providing any treatment that could be viewed as preferential or unprofessional (buying lunches, special privileges, etc.)
- Being alone in a room with a student at school with the door closed/locked

Cautionary Staff/Student Behavior

These behaviors should only be exercised when a reasonable and prudent person, acting as an educator, is prevented from using better practice or behavior. Staff members should inform their supervisor of the circumstance and occurrence prior to or immediately after the occurrence.

- Remarks about the physical attributes or development of anyone
- Excessive attention toward a particular student
- Sending emails, text messages or letters to students if the content is not about school activities
- Having a group of KIPPsters over a staff member's house with school administration and parent/guardian permission

Examples of Acceptable Behavior

- Emails, text, phone calls and instant messages to KIPPsters that are professional and pertain to school activities or classes. Communication should be limited to school technology.
- Keeping the door open when alone with a KIPPster
- Keeping reasonable space between staff member and a KIPPster

- Stopping and correcting a KIPPster if they cross a staff member’s own personal boundaries
- Keeping students' family members informed when a significant issue develops about a student
- Keeping after-class discussions with a student professional
- Recognizing the responsibility to stop unacceptable behavior of KIPPsters or coworkers
- Giving KIPPsters praise and recognition without touching them
- Pats on the back, high fives and handshakes are acceptable
- Hugging students is only appropriate if it is done in a public space where others are present, minimal bodily contact is involved (e.g. side or arm around the shoulder hug) and it does not make the student uncomfortable in any way (ask in advance; don’t assume). Please be aware of the positive reinforcement methods that are age-appropriate for students (e.g. elementary students may appreciate a quick hug while middle and high schoolers may not). When in doubt, do not hug a student
- Asking if staff members actions are worth their job and career

Required Safety Practices for the Protection of Staff and Students

- Obtaining signed parental consent and written approval from the school leader are required for any non-sponsored after school activity
- Obtaining formal approval to take KIPPsters off school property for activities such as field trips, athletic events or competitions
- Asking another staff member to be present if the staff member will be alone with any type of special needs student
- Asking another staff member to be present when the staff member must be alone with a student after regular school hours
- Asking for advice from fellow staff or administrators if found in a difficult situation related to boundaries
- Involving their supervisor if conflict arises with a KIPPster
- Informing their School Leader about situations that have the potential to become more severe
- Making detailed notes about an incident that could evolve into a more serious situation later
- Keeping their professional conduct a high priority

Use of Technology by Staff to Communicate with KIPPsters

Any communication by a KIPP staff member with KIPPsters -- including through the use of electronic media or technology -- should always be limited to KIPP business and maintain a strictly professional tone. KIPP staff should only use KIPP provided equipment and contact information to communicate with students and students' family members/guardians.

Child Abuse and Neglect: Identification and Reporting

All staff must follow state laws on reporting abuse. The California Child Abuse and Neglect Reporting Act (“CANRA”), codified at California Penal Code Sections 11164-11174.3, requires Mandated Reporters (as defined in the Act) to report suspected child abuse or neglect. KIPP considers all staff members Mandated Reporters. As such, all staff members are required to submit a report of any observed, actual knowledge of, or reasonably suspect child abuse or neglect at home, on KIPP property, during a school event, or by KIPP personnel to promptly report the concern to an appropriate law enforcement agency and to KIPP.

Definitions

“*Child*” means a person under the age of 18 years.

“*Child Abuse or Neglect*” includes: (1) physical injury or death inflicted by other than accidental means upon a child by another person; (2) sexual abuse, including sexual assault or sexual exploitation, as defined in Penal Code Section 11165.1; (3) neglect as defined in Penal Code Section 11165.2; (4) the willful harming or injuring of a child or the endangerment of the person or health of a child, as defined in Penal Code Section 11165.3; and (5) unlawful corporal punishment or injury as defined in Penal Code Section 11165.4. Child abuse or neglect does not include a mutual affray between minors or an injury caused by reasonable and necessary force used by a peace officer acting within the course and scope of their employment.

“*Mandated Reporter*” includes all KIPP staff members for purposes of this policy. It includes all teachers, teachers’ assistants, classified staff members, administrators, and coaches.

“*Reasonable Suspicion*” means that it is objectively reasonable for a person to entertain a suspicion, based upon facts that could cause a reasonable person in a like position, drawing, when appropriate, on their training and experience, to suspect child abuse or neglect. However, reasonable suspicion does not require certainty that child abuse or neglect has occurred, nor does it require a specific medical indication of child abuse or neglect; any reasonable suspicion is sufficient.

Mandated Reporters

All staff members are considered to be mandated reporters, and they must sign a statement that he or she has knowledge of the Child Abuse and Neglect Reporting Act and will comply with those provisions. KIPP will provide annual training on the mandated reporting requirements. This training will include training in identification and reporting of child abuse and neglect, and information about the failure to report an incident of known or reasonably suspected child abuse or neglect, as required by Penal Code Section 11166, is a misdemeanor punishable by up to six (6) months confinement in a county jail, or by a fine of one-thousand dollars (\$1,000), or by both that imprisonment and fine.

All staff members required to receive mandated reporter training must provide proof of completing the training within the first six (6) weeks of each school year or within the first six (6) weeks of that staff member’s employment.

Reportable Incidents

A mandated reporter **must** make a report using the procedures provided below whenever, in their professional capacity or within the scope of their employment, they has knowledge of, or observes a child, whom the mandated reporter knows or reasonably suspects has been the victim of child abuse or neglect.

Any mandated reporter who has knowledge of or who reasonably suspects that a child is suffering serious emotional damage, or is at a substantial risk of suffering serious emotional damage, based on evidence of severe anxiety, depression, withdrawal, or untoward aggressive behavior toward self or others, may make a report to the appropriate agency.

Any other person who has knowledge of, or observes, a child whom they knows or reasonably suspects has been a victim of child abuse or neglect may report the known or suspected instance of child abuse or

neglect to the appropriate agency. For purposes of this paragraph, “any other person” includes any person not identified as a mandated reporter, or any mandated reporter who acts in their private capacity and not in their professional capacity or within the scope of their employment.

Any KIPP staff member who reasonably believes that they have observed the commission of a murder, rape, lewd or lascivious act by use of force, violence, duress, menace, or fear of immediate and unlawful bodily injury against a victim who is a child shall notify a peace officer.

Reporting Responsibilities

The reporting duties of mandated reporters are individual, and cannot be delegated to another person. However, when two (2) or more mandated reporters jointly have knowledge of a known or suspected instance of child abuse or neglect, and when there is an agreement among them, the report may be made by a member of the team selected by mutual agreement, and a single report may be made and signed by the selected member of the reporting team. But any member who has knowledge that the member designated to report has failed to do so shall thereafter make the report.

No supervisor or administrator may impede or inhibit a mandated reporter from making a report. Any KIPP staff member who prevents another KIPP staff member from submitting a report may be subject to disciplinary action, up to and including termination of employment.

Reporting Procedures

Please be aware that it is each mandated reporter’s duty to report the known or suspected instance of child abuse only. Staff members are not required to investigate or substantiate the suspected abuse; the law enforcement agencies are charged with investigating the matter. If a staff member believes a child is at immediate risk or if a crime is in progress, they should immediately call 911.

External Reports

Mandated reporters are legally required to externally report known or suspected child abuse or neglect as follows:

Step One: Initial Telephone Report

Immediately, or as soon as practicable, make an initial telephone report to one of the following:

- Any police department or sheriff’s department (Not including the school district police or security department);
- A county probation department, if designated by the county to receive mandated reports; or
- The county welfare department (Child Welfare Services)
 - Oakland: (510) 259-1800
 - San Francisco: (800) 856-5553
 - San Jose: (408) 299-2071, (408) 683-0601, (650) 493-1186
 - San Lorenzo and Oakland: (510) 259-1800
 - Redwood City: (650) 802-7922 or (800) 632-4615
 - Stockton: (209) 468-1333

Step Two: Written Report

Within thirty-six (36) hours of knowing or observing the information concerning the incident, the mandated reporter must prepare and send, fax, or electronically submit to the appropriate law enforcement agency a written follow-up report, which includes Form SS 8572, available at http://ag.ca.gov/childabuse/pdf/ss_8572.pdf.

Internal Reports

Under this policy, anyone who is required to make an external report is encouraged, but not required, to make an internal report to their School Leader and/or director as soon as possible after the initial telephone report. Reporting the information to the School Leader or any other member of the KIPP community shall not be a substitute for making a mandated report to the appropriate agency.

Student Transportation Policy

The safe operation of motor vehicles is very important at KIPP. Only KIPP employees operating KIPP-Owned or rental vehicles are allowed to transport students. Prior to transporting students, all employees must be cleared to drive by Human Resources and the School Operation Team by demonstrating that they are over the age of 25, maintain a satisfactory DMV driving record, and have a valid California driver's license. DMV record checks will be requested annually for employees approved to transport students.

- Employees must maintain a clean driving record, and infractions may result in not being approved or the revocation of a driving privilege. Employees with driving records with two (2) points or more shall not be permitted to transport students or operate any vehicle for KIPP business.
- Employees with one or more of the following citations on their record may NOT drive on behalf of the School: Driving under the influence of drugs or alcohol, failure to stop for an accident, homicide, manslaughter, or assault arising out of the operation of a motor vehicle, driving with a revoked or suspended license, possession of an opened container of alcohol in a vehicle, speed contest drag or highway racing, attempting to elude a police officer, hit and run, reckless driving, and car safety seat violations.
- Employees convicted of a felony shall not be permitted to transport KIPP students.

While transporting students, KIPP employees will:

- Obey all traffic laws, and at no time shall employees drive longer than eight (8) hours in a 24-hour period. Drivers are encouraged to take 15-minute breaks from driving once every two (2) hours.
- Use the safest and most direct routes of travel at all times during field trips or excursions.
- Only utilize cell phones in hands-free mode for the purpose of navigation while driving, and only if they can do so safely.
- Not exceeding the legal occupancy limit of ten (10) occupants (including the driver), and students will be seated with individual seat belts at all times.
- Not transport non-employee passengers either during or after normal business hours unless prior approval from the School Leader or School Operations Team is granted and the non-employee signs a waiver of liability
- Not transport students or recent alumni, college-age or younger, in the KIPP employees' personal vehicles. However, permissible exceptions may occur when:
 - the KIPP employee is also the parent of the student

- the KIPP employee (acting in their capacity as a parent), drives an activities carpool (not sponsored by the KIPP School) on the weekend and/or after school for their child and their child's friend and has obtained permission from that child's parent or guardian
- the KIPP employee is a parentally approved emergency contact for a colleague and drives their child, who is also a student at the KIPP School.
- Not ride in vehicles operated by students or recent alumni, college-age or younger.

KIPP-Owned Vehicles

KIPP-Owned vehicles are purchased and maintained by KIPP Schools and may only be operated by KIPP employees on authorized KIPP business.

Operation of KIPP-owned Vehicle on KIPP Business

All KIPP employees authorized to drive on KIPP business will exhibit safe and courteous driving practices and ensure that vehicles be maintained in safe working order. KIPP-Owned vehicles may not be used for personal errands or personal business (e.g., going to the bank, visiting relatives, etc.) Unauthorized use or negligent or wrongful acts or omissions while operating a KIPP-Owned vehicle is grounds for discipline, up to and including termination.

Employees approved to operate KIPP-Owned vehicles shall be responsible to:

1. Make reasonable inspections of the vehicle to ensure it is in safe working order, including confirming that the School has adhered to routine maintenance and servicing of the vehicle.
2. Ensure the vehicle is in a neat and clean condition.
3. Ensure that any equipment and tools are properly loaded and secured to minimize the likelihood of loads shifting and/or creating a hazard during transport.
4. Secure and lock the vehicle whenever it is not in use.
5. Not leaving valuables in plain sight, which could encourage a criminal to break and enter the vehicle.
6. Report any vehicle damage in writing immediately to the School Leader or the School's Operation Team.

Insurance for KIPP-Owned Vehicles

KIPP may be liable for damages incurred as a result of the negligent operation of its vehicles by its approved employees while engaged in authorized KIPP business. Employees who are involved in an accident while engaged in anything other than authorized KIPP business will not be covered by KIPP's insurance and will bear sole liability for any damages or injuries incurred as a result of their unauthorized use.

Non-Owned Vehicles

A Non-Owned vehicle is one that is not owned by KIPP, most commonly a rented vehicle, that may only be operated by KIPP employees on authorized KIPP business. Non-Owned vehicles rented by KIPP must be designed for carrying not more than ten (10) persons, including the driver.

Operation of Non-Owned Vehicle on KIPP Business

Non-Owned vehicles may only be used on KIPP business if their use is approved by the School Leader or the School's Operation Team. Use may only be approved if the employee renting the vehicle demonstrates that they possess a satisfactory DMV driving record and a valid California driver's license.

Insurance for Non-Owned Vehicles

If an employee is traveling on a KIPP-approved trip and requires the use of a rental vehicle, KIPP requires the purchase of the maximum insurance coverage available through the rental company. Insurance coverage must meet or exceed the minimum amounts required by law. A copy of the rental automobile insurance policy showing the named insured, vehicle description, policy number, and policy limits shall be provided to the School Leader or the School's Operation Teams in advance of the vehicle's use.

If the use of a rented vehicle is approved and damage or injuries result during the approved use, it is understood that any available KIPP insurance coverage will come into force if and only if the rental insurance is exhausted. KIPP liability coverage is available only in instances where a KIPP employee is performing approved KIPP business directly connected with their assignment. No KIPP coverage is available for damage or injuries resulting from non-approved use. Employees and their insurers are responsible for injuries or damages that result from the negligent or wrongful act or omission in the operation of a rental vehicle unless the laws of the state in which the vehicle is operated serve to change that rule.

Ridesharing Programs

If a student requires assistance with transportation of any sort, whether to go home or to a school-related event, follow these steps until the transportation is arranged:

- Contact the student's parent/guardian to request that he/she transport the student.
- Determine whether the student can take public transportation. Ask: How old is the student? Does the student typically take public transportation to/from school?
- Contact the student's emergency contacts to request that he/she transport the student.

If, and only if, all parents/guardians and emergency contacts are unable to transport the student and public transportation is not a viable option, contact your manager to determine an appropriate alternative transportation option.

Hop Skip Drive and Kango

- KIPP prioritizes (first) [Hop Skip Drive](#) and (second) [Kango](#) due to these vendors' rigorous standards for driver background checks and support for minor passengers without adult accompaniment.
- KIPP staff are not required to escort/ride with KIPP students being transported by these two vendors.
 - KIPP staff must confirm real-time dropoff and safe arrival of students via the app tracker **and** verbal confirmation from the parent guardian
- KIPP recommends that the parent/guardian download and use the rideshare app directly.

Uber and Lyft

- Uber and Lyft are not options for students in elementary school, grades TK - fourth
- Request permission from your manager to escort/ride with the student to their destination via Uber or Lyft and:
 - Make every effort to find a second school staff member to accompany you.
 - Log all relevant transportation details in your student information system as soon as possible.
 - Forward all receipts to the approving manager.

Loading and Unloading of School Bus or School Activity Bus

KIPP staff members should always be involved and active in the supervision of the loading and unloading of students at the School and on school activity trips to ensure no student is left unattended on the school bus or school activity bus.

To do this, KIPP staff shall adhere to the following procedures:

- Before leaving the school site for a school activity, the KIPP teacher/head chaperone for the trip shall ensure they have a copy of the class roster with all student names.
- Once the bus reaches the destination, a KIPP teacher/head chaperone shall be the first person off the bus and will note each student who exits the bus by comparing the exiting students against the class roster.
- A KIPP staff member/chaperone shall be the last person to exit the bus at each stop to ensure no students are left on board. Before exiting the bus, the staff member/chaperone will walk up the aisle, checking each seat and area on the floor by each seat to ensure no students are present.
- Once all students and staff/chaperones have exited the bus, but before leaving for the designated activity, the KIPP teacher/head chaperone will conduct another roll call by calling out each student's name and waiting for verbal and visual confirmation from the student of being present.
- The KIPP teacher/head chaperone will discuss with the bus driver a way to contact each other in the event it is later discovered a student is still on the bus.

Confidentiality of Information

During employment, staff members may have access to and/or become aware of information of a confidential, proprietary, or private nature ("Confidential Information"). For purposes of this policy, "Confidential Information" includes but is not limited to: information and data relating to KIPP students; non-public information data relating to donors, donor prospects, and donations; non-public KIPP budget or financial information; and payroll and personnel information relating to current or former staff members. All records concerning special education pupils shall be kept strictly confidential and maintained in separate files

At all times during and after employment with KIPP, staff members are required to hold all Confidential Information in trust and keep Confidential Information confidential. During employment with KIPP, staff members may use Confidential Information or disclose Confidential Information to a third party only: (1) as permitted with the prior written consent of KIPP; or (2) as may otherwise be required by law. Staff members should act responsibly with respect to materials containing Confidential Information, and, if disposing of materials containing Confidential Information, must do so properly and completely.

Staff members who are in doubt about whether information should be disclosed or used should discuss the situation with their Supervisor and/or the Human Resources Team before disclosing or using the information.

Staff members' obligations under this Confidentiality of Information policy remain in effect even after their employment relationships with KIPP ends. After separation of employment, staff members may not use or disclose Confidential Information to any third party unless required to do so by law. Upon separation of employment, staff members must immediately return to KIPP any and all computers, documents, computer or electronic files, cellular phones, printouts, copies, or other information containing Confidential Information in their possession, custody or control. If the staff members are requested to disclose Confidential Information to a third party in a subpoena or similar type of request, staff members shall give KIPP notice of such request as soon as is reasonably possible.

Direct any questions about confidentiality obligations to the Human Resources Team. Failure to maintain confidentiality may result in disciplinary action, up to and including release from at-will employment.

Please note: KIPP is required to comply with the Public Records Act (“PRA”). Any staff member asked to disclose information by an external party under the Public Records Act shall not respond to the request directly, but should report the request to their Supervisor. All such requests should be forwarded to the Associate Director of Growth, boardsecretary@kippnorcal.org, who can respond on behalf of the region.

Conflict of Interest Policy

KIPP expects staff members to conduct business according to the highest ethical standards of conduct. Staff members may not enter into transactions which benefit or appear to benefit their personal interests including family, friendships, financial, or social factors that may compromise their judgment, decisions, or actions in the workplace. A potential or actual conflict of interest occurs whenever a staff member is in a position to influence a decision that may result in a gain for the staff member, family member, or friend.

Additionally, some positions are subject to higher disclosure requirements and legal oversight. These include School Leaders and some regional leadership positions. These staff members should refer to the Conflict of Interest Code and contact the Board Secretary with questions.

Although it is not possible to specify every action that might create a conflict of interest, this policy sets forth the ones which most frequently present problems. If a staff member has any question whether an action or proposed course of conduct would create a conflict of interest, the staff member should immediately contact the Human Resources Department to obtain advice on the issue. The purpose of this policy is to protect KIPP and its staff members from any conflicts of interest that might arise.

A violation of this policy will result in immediate and appropriate discipline, up to and including immediate termination.

Financial Interest in a Vendor

Staff members and their immediate family may not own or hold any significant financial interest in one of KIPP’s vendors, except where such ownership or interest consists of securities in a publicly owned company regularly traded on the open market. A KIPP staff member who attempts to contract with any KIPP entity for work supplied by a company they own and/or manage is in violation of this policy, and may be subject to disciplinary action up to, and including, termination of employment.

Acceptance of Gifts

No staff member may solicit or accept gifts of significant value (i.e., in excess of \$25), lavish entertainment, or other benefits from potential and actual vendors. Special care must be taken to avoid even the impression of a conflict of interest.

A staff member may entertain business partners if such entertainment is consistent with accepted business practices, does not violate any law or generally accepted ethical standards, and the public disclosure of facts will not embarrass KIPP. Any questions regarding this policy should be addressed to the Human Resources Department.

Reporting Potential Conflicts

Staff members must promptly disclose actual or potential conflicts of interest, in writing, to their supervisor and to the Human Resources department. Approval will not be given unless the relationship will not damage KIPP.

Staff Member Compliance Expectations

KIPP is committed to ensuring that we are compliant with federal and state laws. Staff members are expected to fully comply with requests for documentation, including but not limited to, work authorization, background clearance, TB clearance and Commission on Teacher Credentialing (“CTC”) documents. Failure to comply may result in disciplinary action, being placed on unpaid administrative leave, or termination of employment.

Place of Residence

It is the policy of KIPP that staff members must reside in California in order to remain in paid active status. KIPP shall not authorize staff members to reside outside of California while working on its behalf. This policy shall not restrict staff members who reside in California from making temporary school-related trips outside of California on KIPP’s behalf.

Employment Clearances

Every staff member (including interns) must obtain the below clearances to comply with state and federal labor law and education code regulations. Documentation associated with these clearances are confidential, unless there is a valid business reason for doing so. New or rehired staff members cannot report to work until all clearances are in place. HR will notify the staff member and their manager when the staff member is cleared to work.

Immigration Compliance

KIPP complies with applicable immigration law, including the Immigration Reform and Control Act of 1986 and the Immigration Act of 1990. As a condition of employment, every individual must provide satisfactory evidence of their identity and legal authority to work in the United States. However, KIPP will not check the employment authorization status of applicants who were not offered positions with KIPP, unless required to do so by law.

KIPP shall not discharge a staff member, or in any manner discriminate, retaliate, or take any adverse action (*e.g.*, threatening to report the suspected citizenship or immigration status of a staff member or a member of the staff member’s family), against any staff member or applicant for employment because the staff member or applicant exercised a right protected under applicable law. Further, KIPP shall not discriminate against any individual because they hold or present a driver’s license issued per Vehicle Code § 12801.9 to persons who have not established their federally-authorized presence in the United States. Finally, in compliance with the Immigrant Worker Protection Act, the School shall not allow a federal immigration enforcement agent to enter any nonpublic areas of the School without a judicial warrant, or voluntarily give consent to an agent to access, review or obtain staff member records without a subpoena or judicial warrant. If a search of staff member records is authorized by a valid subpoena or judicial warrant, the School will give staff members notice of the inspection both before and after it has occurred as required by law.

If staff members have any questions or need more information on immigration compliance issues, they should contact their manager and/or Human Resources.

Tuberculosis Testing

All newly hired staff members of KIPP must submit written proof from a health care provider of a risk assessment examination for tuberculosis (TB) within the last sixty (60) days. If TB risk factors are identified, a physician must conduct an examination to determine whether the staff member is free of infectious TB. The examination for TB consists of an approved TB test, which, if positive, will be followed by an x-ray of the lungs, or in the absence of skin testing, an x-ray of the lungs. All staff members will be required to undergo TB risk assessments and, if risk factors are found, the examination at least once every four (4) years. Volunteers are required to undergo a TB examination. The TB risk assessment and, if indicated, the examination is a condition of initial employment with KIPP and the cost of the exam will be borne by the applicant.

Documentation of staff member compliance with TB risk assessments and examinations are housed in KIPP's HRIS/Payroll System. Volunteer compliance will be kept on file in the office they work in. This requirement also includes contract food handlers, substitute teachers, and student teachers serving under the supervision of an educator. Any entity providing student services to KIPP will be contractually required to ensure that all contract workers have had TB testing that shows them to be free of active TB prior to conducting work with KIPP students.

Criminal Background Checks

As required by law, all individuals working or volunteering at KIPP will be required to submit to a criminal background investigation. No condition or activity will be permitted that may compromise KIPP's commitment to the safety and the well-being of students takes precedence over all other considerations. Conditions that preclude working at KIPP include conviction of a controlled substance or sex offense, or a serious or violent felony. Additionally, should a staff member be arrested for, charged with, or convicted of any offense, the staff member must immediately report as much to their manager and Human Resources.

KIPP's clearance is independent of any previously-obtained clearance and cannot be used for credentialing purposes or future clearance with another employer or organization. *Also note that the background clearance can only be performed in California.* Staff members relocating from another state must wait until they are in California to initiate the background clearance. In some instances, rehired staff members will need to obtain a new background clearance.

If an adverse action appears on a candidate's background check, HR will review the information and may contact the candidate for additional information in order to determine whether or not employment can be extended.

Credentialing Compliance

California's state licensing body for teachers is the Commission on Teacher Credentialing ("CTC"). State credentialing guidelines require teachers in charter schools to hold a valid credential as would be expected of a teacher in a traditional public school.

KIPP expects teachers to obtain and maintain a valid credential or permit for the duration of their classroom assignment at all times. This may require additional exams and/or coursework. Failure to

make steady progress toward a clear credential, or failure to obtain/maintain the required credential, may result in being placed on unpaid administrative leave and/or termination of employment.

Teachers are expected to have their credentials in place by their start date. If not appropriately credentialed at time of hire, the teacher will be placed on a credential contract, which will provide a pathway for becoming appropriately credentialed.

Per Federal Funding Requirements, Paraeducator roles require a high school diploma or equivalent and either a passing score on a KIPP-approved assessment **OR** at least 48 semester units of college credit.

KIPP is aware that the credentialing process is challenging and HR will provide guidance through webinars, individual consultations, and email. Please note that expenses associated with credentialing are not covered by KIPP. We advise teachers to check with their tax consultant about writing off expenses as a deduction on personal income taxes.

Privacy

All staff members have the right to discuss personal information with co-workers, including their gender identity or expression, family history and makeup, religious and political affiliations, health history, and sexual orientation openly, or to keep that information private. Each staff member gets to decide when, with whom, and how much to share their personal information. However, if a staff member is seeking a medical leave, a reasonable accommodation, Pregnancy Disability Leave, FMLA and/or CFRA leave, the staff member may be required to disclose certain medical information, as required by law, in order for the staff member's request for leave/reasonable accommodation(s) to be approved. Management and Human Resources staff shall not disclose any other staff member's personal information to any unauthorized third parties.

Staff Information

It is important that each staff member's personal data such as address, telephone number, number of dependents, beneficiaries, and tax withholding information be accurate and up-to-date. Updating this information is the responsibility of individual staff members, and KIPP does not take responsibility for errors in staff member personal data. Staff members must log on to the KIPP Northern California's HRIS/Payroll System to change their personal information as soon as possible after the change.

Names/ Pronouns

A staff member has the right to be addressed by the name, pronoun, and formal prefix (ex. Mr./Ms./Mx. etc.) that correspond to their gender identity, upon request. A court-ordered name or gender change is not required. The intentional or persistent refusal to respect a staff member's gender identity (e.g., intentionally referring to the staff member by a name or pronoun that does not correspond to the staff member's gender identity) can constitute harassment and is a violation of this policy, and may result in disciplinary action. If a staff member is unsure what pronoun a coworker might prefer, they may politely ask their co-worker how they would like to be addressed.

Official Records

A staff member's official record is contained in KIPP Northern California's HRIS/Payroll System and the staff member's name or record in HRIS/Payroll System must match their Social Security Card as required by applicable law. Staff members have the ability to designate their preferred name and gender identity

in HRIS/Payroll System via custom fields, and have the right to be addressed as such verbally and on unofficial records. To the extent legally and procedurally possible, KIPP will change a staff member's records to reflect a change in name or gender upon request from the staff member. Certain types of official records, like those relating to payroll, insurance plans and retirement accounts, may require legal documentation before changes can be made. If a new or transitioning staff member has questions about KIPP records or ID documents, the staff member should contact Human Resources.

Expense Policy

At KIPP, we are all responsible for the prudent stewardship of public funds. In this section, we will review general spending guidelines, and the three (3) methods available to you for paying for goods and services— arranged from first to last in order of preference: (1) invoice, (2) staff member reimbursement, and (3) KIPP credit card.

General Spending Guidelines

All spending must be pre-approved by a staff member's manager and/or someone with spending authority. Our culture of thrift requires everyone to limit their spending to what is necessary for their work.

The following purchases are not allowed:

- Items for personal, non-work use
- Purchases without an itemized receipt or invoice (with the exception of bridge toll charges, public transportation, and parking up to the limits outlined below)
- Alcohol
- Tobacco and nicotine products
- Cannabis
- Goods purchased without sales tax (i.e., goods purchased and consumed in CA must be charged CA sales tax)
- Cash advances
- Personal care expenses (e.g., hotel gym/health club fees, laundry)
- Travel upgrade fees (e.g. early check-in fees for hotels or flights, travel insurance)
- Gifts or gift cards of any kind

Local / Ground Travel

- Every staff member is assigned a work base location by their manager. This location will either be a KIPP school in our region or the RSO. When a staff member is traveling locally for KIPP, they may be reimbursed for costs associated with that travel starting at their work base location. KIPP does not reimburse staff members for the normal cost of commuting to and from their home and work base location.
- Personal vehicles
 - Reimbursement is based on the mileage traveled using the IRS-determined rate.
 - Gasoline purchases for personal vehicles and insurance deductibles will not be reimbursed. These expenses are covered in the mileage reimbursement.
 - Parking tickets, traffic citations, toll violations, damage to your personal vehicle, and other similar costs are not reimbursable.
 - If a staff member does not have access to a car and needs to travel for work, their manager must approve the use of a Getaround, Zipcar, or rental car. These are expensive and should be used sparingly.
- Rideshare apps and Taxis

- staff members should use their best judgment regarding the usage of ridesharing apps (e.g., Lyft and Uber) for transportation incurred for KIPP. It should only be used if at the time it is the most feasible and reasonable option, and after having considered more cost-effective options, such as public transportation and carpooling.
- **Parking**
 - KIPP will reimburse staff members for parking while traveling for work purposes.
 - Parking within the Bay Area: \$30.00 reimbursement limit per day.
 - Parking tickets and traffic citations are not reimbursable.

Long-distance / Air travel

- In order to secure the lowest rates, staff members shall purchase tickets at least thirty (30) days in advance of any travel and shall choose the least expensive travel option available, balancing cost with travel time.
- Staff members who have less than thirty (30) days' notice of required travel shall purchase tickets within seven (7) days of learning of the need for the travel.
- Tickets that exceed pre-approved costs may only be purchased if authorized by a supervisor or individual with spending authority.
- KIPP will reimburse coach tickets as well as the following:
 - One checked bag
 - Wi-fi on flights, if used for work
- Other add-ons or amenities may be purchased with a staff member's own funds but are not reimbursable. Examples include upgrades/extra legroom charges, early check-in fees, and seat reservation fees.
- Flights purchased with miles or points do not have a cash value, and therefore are not reimbursable.
- Staff members may choose to use their personal vehicle for long distance travel. Mileage for a one-way trip over 150 miles may not be reimbursed without pre-approval.

Lodging

- In order to secure the lowest rates, staff members shall book lodging at least thirty (30) days in advance of any travel and shall choose the least expensive option available, balancing cost with other practical criteria (e.g., proximity to meeting locations).
- Staff members who have less than thirty (30) days' notice of required travel shall purchase lodging within seven (7) days of learning of the need for the travel.
- Lodging that exceeds pre-approved costs may only be purchased if authorized by a supervisor or individual with spending authority.
- Room upgrades or other amenities may be purchased with a staff member's own funds but are not reimbursable.
- Lodging purchased with points or other rewards do not have a cash value, and therefore are not reimbursable.

Meals and Alcohol

- Food and beverage purchases while traveling in the Bay Area are not reimbursable.
- Meals during travel outside the Bay Area: \$50.00 limit per person per day
- Managers must pre-approve any KIPP-related meals (e.g. a manager takes their direct report out to lunch).
- Up to 20% gratuity will be reimbursed. The tip amount must be itemized on the receipt.
- Alcohol purchases are not reimbursable. Under California law, alcohol on school premises, even when students are not present, is strictly prohibited. Consumption of alcohol on a KIPP field trip/ lesson or at any time when students are present and/or under KIPP's care is prohibited.

Payment Methods

Please refer to the Accounting Handbook Folder available on Google Drive for further information about the following payment methods. The three (3) methods available to staff members for paying for goods and service are listed from first to last in order of preference.

1. Invoice
 - a. When making a purchase, request an invoice for the services or products provided.
 - b. Typically, invoices are paid within 30 days of the completion of the service or delivery of the product.
 - c. Staff members must submit all invoices to their Director Of School Operations for the payment and approval process.
2. Reimbursement
 - a. Staff members may use their own personal funds for job-necessary expenses or to make purchases on behalf of KIPP, if the purchase is pre-approved by their manager or another budget manager.
3. KIPP Credit Card
 - a. KIPP issues credit cards to select staff members for pre-approved, job-necessary spending.

Discipline and Termination of Employment

Job Performance Guidelines (Code of Conduct)

Staff members are expected to observe certain standards of job performance and good conduct. The rules set forth below are intended to provide staff members with some guidelines regarding expected conduct and performance. The following list is intended to set out limited examples and is not intended to be exhaustive. Staff members should be aware that conduct not specifically listed below also might result in disciplinary action up to, and including, termination.

Staff members may be disciplined (including but not limited to receipt of verbal warnings, receipt of written warnings, or suspensions) and/or terminated for poor job performance or misconduct, including but not limited to the following:

1. Failure to meet performance standards;
2. Inability or failure to appropriately instruct, or associate with students;
3. Dishonesty;
4. Falsifying, tampering, or concealing information on an employment record (including a resume or time sheet) or other KIPP record;
5. Willfully, maliciously or negligently making false statements regarding any co-worker or KIPP, making threats or using abusive or otherwise inappropriate language toward fellow staff members, students, students' family members, or visitors;
6. Gossiping, Inappropriate tone or facial expressions;
7. Inappropriately grabbing, groping or touching a fellow co-worker;
8. Sharing of personal information without consent;
9. Theft or the deliberate or careless damage or destruction of KIPP property, or the property of KIPP's staff members, students or anyone on KIPP property; or unauthorized removal of KIPP property, records, or documents;
10. Unauthorized use, possession, alteration or transfer of KIPP supplies or resources;
11. Refusal/failure to comply with any federal or state regulation or law; refusal/failure to comply with any KIPP rule, policy or procedure, including but not limited to safety, health, and security

- policies and rules, KIPP's Policy Against Harassment, KIPP's Policy Concerning Violence In The Workplace and KIPP's Substance-Free Workplace Policy;
12. Failure to obtain or adequately maintain proper certifications, credentials and/or licenses for the position ;
 13. Behavior, conduct or inaction leading to the endangerment or harm of a child or children, whether physical, emotional, or mental; behavior, conduct or inaction which could have led to the endangerment or harm of a child or children, whether physical, emotional, or mental;
 14. Excessive absenteeism or tardiness, unreliable attendance or punctuality;
 15. Misrepresentation of information in connection with any leave of absence from work or application for or use of KIPP benefit;
 16. Knowingly permitting unauthorized persons to be in school facilities or on school property;
 17. Failure to return to work upon expiration of authorized leave;
 18. Engaging in any type of criminal conduct;
 19. Any act or acts which cause KIPP to be unable to invest the amount of trust or confidence required to continue employment;
 20. Fighting or instigating a fight on KIPP premises;
 21. Violations of the drug and alcohol policy;
 22. Using or possessing firearms, weapons or explosives of any kind on School premises;
 23. Gambling on KIPP premises;
 24. Use of profane, abusive or threatening language in conversations with other staff members and/or intimidating or interfering with other staff members;
 25. Conducting personal business during business hours and/or unauthorized use of telephone lines for personal calls;
 26. Posting any notices on KIPP premises without prior written approval of management, unless posting is on a KIPP bulletin board designated for staff member postings;
 27. Immoral or indecent conduct;
 28. Engaging in sabotage or espionage (industrial or otherwise);
 29. Sleeping during work hours;
 30. Release of confidential information without authorization;
 31. Any other conduct detrimental to other staff members or KIPP's interests or its efficient operations;
 32. Refusal to speak to supervisors or other staff members;
 33. Acts of insubordination - refusing to perform a task or duty assigned or act in accordance with instructions provided by a staff member's manager or other authority;
 34. Tampering with or falsifying any report or record including but not limited to, personnel, absentee, sickness, or production of records including applications for employment and time cards

Nothing in this Handbook is intended to alter the staff member's at-will status of employment with KIPP. In addition, no disciplinary procedure or progressive disciplinary process implemented by KIPP at any time is intended to alter the at-will status of employment with KIPP. Please refer to the At-Will Employment policy in this Handbook for more information.

Off-Duty Conduct

While KIPP does not seek to interfere with the off-duty and personal conduct of its staff members, certain types of off-duty conduct may interfere with KIPP's legitimate business interests. For this reason, staff members are expected to conduct their personal affairs in a manner that does not adversely affect KIPP or its own integrity, reputation, or credibility. Illegal or immoral off-duty conduct by a staff member

that adversely affects KIPP’s legitimate business interests or the staff member’s ability to perform their work will not be tolerated.

While employed by KIPP, staff members are expected to devote their energies to their jobs with KIPP. For this reason, second jobs are strongly discouraged. The following types of additional employment elsewhere are strictly prohibited:

- Additional employment that conflicts with a staff member’s work schedule, duties, and responsibilities at KIPP.
- Additional employment that creates a conflict of interest or is incompatible with the staff member’s position with KIPP.
- Additional employment that impairs or has a detrimental effect on the staff member’s work performance at KIPP.
- Additional employment that requires the staff member to conduct work or related activities on KIPP’s property during the employer’s working hours or using KIPP’s facilities and/or equipment; and
- Additional employment that directly or indirectly competes with the business or the interests of KIPP.

Staff members who wish to engage in additional employment that may create a real or apparent conflict of interest must submit a written request to KIPP explaining the details of the additional employment. If the additional employment is authorized, KIPP assumes no responsibility for it. KIPP shall not provide workers’ compensation coverage or any other benefit for injuries occurring from or arising out of additional employment. Authorization to engage in additional employment can be revoked at any time.

Acceptable Use of KIPP Property and Technology Resources

Definitions

For purposes of this policy, “technology resources” refers to all KIPP electronic devices and systems, software, and means of electronic communication including, but not limited to, the following:

- All computers and workstations, including laptop computers, desktop computers, Chromebooks, iPads, tablets, and servers;
- Computer hardware and peripheral equipment such as disk drives, printers, projectors, document cameras, modems, scanners, fax machines, and copiers;
- Supported and designated computer software applications and associated system and user-created files and data;
- Standard and cellular telephones, voicemail systems, email systems, portable computer devices, digital cameras; and video recorders.

KIPP Property refers to objects owned and housed on KIPP premises, including but not limited to: desks, tables, workstations, cabinets, drawers, and shelves, as well as books, textbooks, maps, materials, instruments, tools, machines, and vehicles.

“Acceptable Use” of technology is defined as the collection of individual behavior, interaction, and utilization, with and of, all computing and peripheral equipment, software, and technology services that are procured, implemented, and supported by KIPP.

Acceptable Use of KIPP Property and Technology

KIPP will provide staff members with access to property and technology resources as necessary and appropriate to fulfill assigned responsibilities. If KIPP staff members choose to supply personal technology resources, KIPP is not responsible for support, modification, repair, integration, or performing work on personal technology resources. KIPP staff members will use only KIPP supported email and KIPP supported online document storage to communicate with other KIPP staff members. Students who are assigned work requiring the use of personal technology resources after-hours away from a KIPP campus are exempted from this requirement.

KIPP staff members are responsible for the physical safety of the technology resources provided to them. Staff members should keep these resources on their person or in a locked and secure location at all times. When using KIPP property, staff members are expected to exercise care, perform required maintenance where assigned, and follow all operating instructions, safety standards, and guidelines.

KIPP staff members are required to comply with all state and federal laws, the policies of KIPP, and with standards of professional and personal courtesy and conduct. KIPP staff members may not use any KIPP-issued technology resources to access, transmit, save, share, or print sexually-explicit images, messages, or any other medium containing such content. In addition, staff members may not access, transmit, save, share, or print materials that contain ethnic slurs, racial epithets, derogatory, defamatory, obscene or offensive statements or images, or any other content that may be construed as harassment based on someone's race, national origin, sex, gender identity, sexual orientation, physical or mental disability, religious beliefs or any other characteristic protected by federal, state or local laws.

KIPP's technology resources are to be used by the KIPP staff for the purpose of KIPP activities. This policy does not prohibit use of technology resources for reasons of a personal or social nature on the staff member's non-work time, providing such use does not violate any of KIPP's policies, break local, state, or federal law, result in any monetary cost to KIPP, impair intended use and functionality by the addition, removal, or alteration of equipment or software, or detract from the staff member's performance of job duties. KIPP does not provide support for the storage and installation of personal hardware or software and related data on KIPP technology resources. Therefore, KIPP will not repair or back up such data and software. This includes personal music, videos, pictures, and other documents. KIPP reserves the right to determine when personal use of technology resources or other KIPP property is excessive or improper, and may require reimbursement or other remediation.

The following activities are prohibited while using KIPP technology resources:

- Knowingly giving one's password to others;
- Attempting to gain unauthorized access to KIPP technology resources, attempts to disrupt it in any way, or attempts to destroy or alter data;
- Plagiarism;
- Using the organization's time and resources for personal gain;
- Sending or posting discriminatory, harassing, or threatening messages or images;
- Using abusive or otherwise objectionable language in either public or private messages;
- Stealing, using, or disclosing someone else's code or password without authorization;
- Attempting to break into the computer system of another organization or person;
- Accessing, saving, transmitting, or printing any pornographic materials;

- Sending or posting chain letters, solicitations, or advertisements not related to business purposes or activities; and
- Using the Internet for political causes or activities, religious activities, or any sort of gambling as a representative of KIPP.

Cellular Telephone Use Policy

KIPP provides cellular telephones for all instructional staff, school leadership, and RSO staff members. Managers can request KIPP cellular phones for other roles as needed. Cellular telephones are the property of KIPP.

The staff member understands that KIPP requires all teachers and staff members to have a cellular phone to fulfill their work duties, as determined by the School Leader or direct supervisor. The staff member therefore agrees to maintain a cellular phone provisioned through KIPP's cellular phone plan for required work purposes.

The staff member understands that this cellular telephone is intended for educational and professional purposes associated with the performance of employment and job duties at KIPP. Specifically, the purposes for which the staff member uses this phone are:

1. To communicate with other KIPP staff members, both during the school day and after working hours; and
2. To communicate with KIPP students and their families, both during the school day and after working hours. The provisioned cellular telephone is the only approved cellular telephone staff members may contact students and families from.
3. Staff members are prohibited from contacting KIPP students and their families from personal cellular telephone numbers.
4. For cellular phones provisioned on the KIPP plan, KIPP will pay the regular monthly fee.
5. The staff member agrees to maintain an outgoing voicemail message that is professional in tone, and which includes their name, position, the School's name, and instructions to call their supervisor's and/or School Leader's cell phone in case of emergency.
6. All text and voicemail messages on KIPP-issued cellular phones are the property of KIPP. All Internet traffic and all messages sent and received, including personal messages, photos, Internet browsing traffic, and all data and information stored on KIPP's email, voicemail system or cell phones are KIPP property, regardless of the content. Therefore, staff members should not assume that messages and files attached to messages are confidential. Back-up copies of texts and voicemails may be maintained and/or referenced for business or legal reasons. All passwords used to access technology resources must be available to KIPP upon request.

Use of KIPP Cell Phone While Driving

In the interest of the safety of our team members and other drivers, staff members are prohibited from using cell phones without a hands-free device while driving.

If a staff member's job requires that they keep their cell phone turned on while you are driving, staff members must use a hands-free device. Under no circumstances should staff members place phone calls while operating a motor vehicle. Violating this policy is a violation of law and KIPP policy.

Writing, sending, or reading text-based communication, including text messaging, instant messaging, and email, on a wireless device or cell phone while driving is prohibited. Violating this policy is a violation of law and KIPP policy.

Computer Agreement

1. KIPP agrees to provide one computer to a staff member identified to be in need of such a computer to fulfill work duties, as determined by the School Leader or direct supervisor.
2. The staff member is responsible for storing all materials in Google Drive as a reliable cloud backup; there is no external backup of staff member computers.
3. The staff member understands that the computer provided and all issued components are the property of KIPP, and that although the computer and components may be transported from school premises during the staff member's term of employment, they remain the property of KIPP. Staff members who are released from their employment for any reason must return their assigned computer and components no later than their final day of employment with KIPP.
4. KIPP staff members have local administrative rights for their computer, which means they can download and install the educational programs as they deem necessary.
5. All email messages and documents, including photos, associated with a staff member's KIPP account and computer files stored on their KIPP-issued computer are the property of KIPP. All Internet traffic and all messages sent and received, including personal messages, Internet browsing traffic, and all data and information stored on KIPP's email and computer systems are KIPP property, regardless of the content. Therefore, staff members should not assume that messages and files are confidential. Back-up copies of emails and computer files may be maintained and/or referenced for business or legal reasons. All passwords used to access technology resources must be available to KIPP upon request.

Damage and Safety of Technology

It is understood that accidents happen, but staff are encouraged to take the best possible care of all school property and technology resources. KIPP staff members are responsible for the physical safety of the technology resources provided to them. Staff members should keep these resources on their person or in a locked and secure location at all times.

- If equipment or items are lost, sustain physical damage or are stolen, staff members should notify their school supervisor immediately so that the problem can be addressed.
 - If a staff member fails to notify their supervisor in a timely manner, they may be held personally liable for the replacement.
- In the event that a staff member's equipment is lost or damaged, KIPP will provide a one-time refurbished replacement device.
- In the event that a staff member's equipment is lost or damaged any subsequent time, the staff member may be responsible for a refurbished replacement device.
- In the case of theft, the staff member is responsible for filing a police report and providing the school administration team with pertinent details.

Privacy

All technology resources are KIPP property. All Internet traffic and all messages sent and received, including personal messages, Internet browsing traffic, and all data and information stored on KIPP's email, voicemail system, cell phones, or computer systems are KIPP property, regardless of the content. KIPP reserves the right to access, monitor, and inspect all of its technology resources including its computers, cellular telephones, voicemail, email, and any other data storage communications systems,

at any time, at its sole discretion. KIPP staff members have no right of privacy with respect to any messages or information created, maintained, sent, received or stored on KIPP technology resources, even if those devices require a personal password to use or access, or if the information has been deleted. KIPP reserves the right to advise appropriate legal authorities of any incident involving technology resources where it reasonably believes a staff member may have violated the law. All passwords used to access technology resources must be available to KIPP upon request.

Return of KIPP Property and Technology Resources

KIPP staff members who are issued KIPP property or technology resources must return the items when requested by KIPP or upon separation from KIPP. Staff members may face disciplinary action, up to and including dismissal, if any KIPP property or technology resources issued to them are lost, damaged, misused or not returned to KIPP upon request. KIPP reserves its right to recover the value of its property or technology resources from a KIPP staff member to the full extent authorized by law.

Functionality and Accuracy

KIPP network and systems administrators will make a good faith effort to keep the system and its available information accurate; however, the KIPP community acknowledges that KIPP makes no warranty of any kind, either express or implied, regarding the accuracy, quality, or validity of any of the data or information available.

Repairs

KIPP purchases full warranties for all laptops and phones purchased for staff usage. If repairs are required on any KIPP purchased tech equipment, staff members are responsible for notifying the Tech Team immediately. If a staff member completes an unauthorized repair on KIPP equipment, KIPP reserves the right to recover the value of its property or technology resources from the staff member.

Violations of Policy

Any violation or abuse of this Policy is just cause for taking disciplinary action, up to and including termination, removal of all KIPP network privileges and accounts, and/or legal action. KIPP anticipates that such actions can be avoided since they cause problems for all concerned.

DonorsChoose.org Materials Ownership Policy

Materials funded through DonorsChoose.org are considered to be the property of the school. If a teacher leaves a school, any materials that have been delivered to the school by default should remain at the school.

Policy for Staff Use of Social Media

General

KIPP supports staff use of social media communication for personal and professional use, recognizing that staff members have a strong voice in representing the organization. All KIPP staff members engaged in personal or professional social media communications which reference KIPP -related content, shall do so in a manner consistent with the organization's mission and values, administrative policies and

procedures, safeguards to ensure the privacy and security of staff member and student information, as well as proprietary business information.

KIPP's media release covers official KIPP use only. KIPP staff members may not post media of students, staff, or students' family members, including but not limited to: photographs, videos, audio clips, and/or statements on personal or social media sites such as Facebook, without prior documented approval from their respective School Leader, or the Regional Support Office. Similarly, any personal mention of students' names should be with first names only.

If a staff member communicates on social media sites, blogs, wikis, videos, podcasts, social networks, or other forms of online communication regarding KIPP, the individual should disclose their connection/role within our organization. When doing so, a staff member should use good judgment along with proper, accurate business correspondence style.

Because communications to the public that undermine confidence in individual KIPP staff members or team members may make it more difficult to manage and motivate students, staff members should not use blogs, web pages or social networking sites to present information about themselves, colleagues or students that may undermine the reputation of KIPP or open anyone associated with KIPP to criticism. Pictures or descriptions of conduct that would subject a teacher to school discipline could be detrimental to that teacher's status as an educator and could negatively impact the academic process.

Staff members should also consider carefully the impact on KIPP of information presented on a personal blog, website, or social networking site. Although maintaining a personal blog/web site is private conduct, information connecting the writer with KIPP may affect the writer's status among colleagues, may be hurtful to colleagues, may be misconstrued by students' family members, and may become a subject of gossip among students. Blogging or use of a web site or social networking sites potentially impairs a staff member's ability to command respect among students and students' family members. Therefore, staff members should avoid blogging/creating social networking content that has the potential to be in contradiction with KIPP's educational mission.

The inappropriate use of social media communications by KIPP staff members, which conflicts with the organization's mission and values, violates administrative policies and procedures, and/or compromises the privacy and security of confidential information, shall be subject to corrective action, up to and including termination. In addition, breach of confidential business or student information may also be subject to investigation and/or legal proceedings.

Facebook, Instagram, Tik Tok, and Other Social Media Sites: KIPP Recommendation

If a staff member is on social media and wishes to connect with any KIPP students (current or alumni under the age of 18), their students' family members or families, we recommend the staff member create and maintain two distinct profiles: one personal and one professional. Invite any students (current or alumni), their students' family members and/or families to friend their professional profile only. Before connecting with a KIPP student or alumni under the age of 18, staff members must request approval from their students' family members and/or guardians.

Benefit: Professional and personal representations are completely separate. Personal postings and photos posted by staff members or others will not be visible to members on their professional Facebook profile. The professional page can incorporate discussions and other notes specifically related to a current class.

Internet Safety Policy

It is the policy of KIPP to:

- Prevent user access and transmission of inappropriate material via the Internet utilizing KIPP technology resources;
- Prevent unauthorized access and other unlawful online activity;
- Prevent unauthorized online disclosure, use, or dissemination of personal identification information of minors; and
- Comply with the Federal Communications Commission's Children's Internet Protection Act (CIPA).

This policy applies to all KIPP staff members, including students, teachers, staff, and contractual or temporary staff and/or volunteers.

Technology Protection Measure

KIPP shall filter all Internet traffic to ensure it is appropriate for minors and in compliance with all local, state and federal mandates. KIPP shall maintain the necessary licensing to ensure all applicable categories of harmful Internet content are blocked and inaccessible by staff members.

KIPP shall also provide for the day-to-day administration of this content filter, which includes, but is not limited to:

- Manual blocking and unblocking of sites based on requests with legitimate educational purpose;
- Application of appropriate licensing information;
- Selection/de-selection of website categories deemed appropriate or inappropriate by the KIPP leadership community;
- Review and analysis of usage and filtering logs;
- Communication with specific school leadership concerning data and reports generated through the content filtering system.

Monitoring and Supervision of Online Activities

It will be the responsibility of all members of KIPP staff responsible for allocating KIPP technology resources for student use to supervise and monitor appropriate usage of KIPP technology resources, especially Internet access, in accordance with the Children's Internet Protection Act. This includes, but is not limited to:

- Logging and reporting of KIPP technology resource usage, especially Internet access;
- In-classroom monitoring of student use of technology resources;
- Follow-up meetings with students and/or students' family members concerning student use of technology resources.

KIPP staff members are responsible for providing instruction to students concerning appropriate online behavior utilizing KIPP technology resources. Such instruction shall include review of specific inappropriate behavior, the consequences of such behavior, and an indication of how staff will assist students to be successful with the use of KIPP technology resources while avoiding inappropriate

content. Internet Safety education topics include, but are not limited to: online behavior and ethics, social networking safety, chat room safety, cyberbullying awareness and response and other online

Violation of Policy

Any violation or abuse of this policy by staff is just cause for taking disciplinary action, up to and including dismissal, removal of all KIPP network privileges and accounts, and/or legal action. To keep KIPP technology resources and property safe, viable, effective, and user friendly, all KIPP employees must work cooperatively and responsibly using this policy. KIPP reserves the right to update this policy and/or to change the technology protection measure at any time, with or without notice.

Family Education Rights and Privacy Act (FERPA)

The student education records contained in KIPP electronic and physical data sources are subject to the federal Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. §1232g.

With few exceptions, FERPA prohibits schools from disclosing *personally identifiable information* contained in student education records without prior written parent consent. Violation of FERPA could subject KIPP to severe penalties, including the termination of eligibility to receive funding under any applicable federal program.

However, one exception, which permits disclosure without prior parent consent, is disclosure to *school officials with legitimate educational interests*.

As a staff member of KIPP, employees agree not to disclose any of the personally identifiable information they acquire in the course of their duties to other parties who are not school officials unless they have obtained prior written parental consent in accordance with FERPA guidelines for the disclosure.

State and federal law does allow directory information to be disclosed to requestors, except those who intend to use the information for commercial purposes. KIPP's policy is not to release directory information to requestors unless KIPP deems it to be in the interests of our students and families. The Team and Family handbook informs families of their right to opt-out of such disclosures by notifying us in writing by September 1 of the school year.

Definitions

Student Education Records

Are records directly related to students and maintained by the school or a party acting for the school.

Personally Identifiable Information

Includes, but is not limited to:

- Student names;
- Names of student's parents or other family members;
- Student or student's family addresses;
- Personal identifiers, such as student social security numbers or school-assigned student

numbers;

- o Lists of personal characteristics that would make student identity easily traceable; or
- o Other information that would make a student's identity easily traceable.

School Official with Legitimate Educational Interest

A person employed by KIPP as an administrator, supervisor, instructor, or support staff member (including health, medical, law enforcement, or technical personnel); a person serving on the school's board of directors; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, data analyst, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing their tasks.

Directory information

Includes, but is not limited to:

- o Student names;
- o Parents'/guardians' names;
- o Address;
- o Electronic mail address;
- o Phone number;
- o Dates of attendance;
- o Participation in officially recognized activities and sports;
- o Weight and height of members of athletics teams;
- o Degrees, honors, and awards received; and
- o The most recent educational agency or institution attended

Any time student level information (even directory information) is shared externally, a data sharing agreement is required to be in place. Whenever possible, student names and identifiers should be removed. If an employee is asked to disclose student level information to an external organization, the employee should ask their Supervisor to ensure the disclosure is allowed under FERPA and that the appropriate agreements/protocols are in place.

Emergency Procedures

Each school and the regional support office has an emergency plan specific to that site. Drills, including fire, earthquake, and lockdown, are practiced regularly throughout the year. In the event of an emergency, please follow the emergency plan as practiced as well as any further instructions from either the administrative team and/or the local fire and police departments.

Below please find our emergency procedures at a glance. When in doubt, always dial 911 for help. For schools to communicate with the RSO, please dial KIPP's emergency line at (510) 543-1020.

FIRE

- Recognize bell tones indicating fire
- Evacuate students/staff from the classroom/office or immediate area
- If it's safe to do so, bring a radio and backpack from your classroom/office
- Turn off lights
- Close doors, and leave the doors unlocked

- Lead students/staff to the designated area
- If the designated area is inaccessible, use your judgment and radio to determine a safe alternative
- Conduct attendance swiftly, and assemble with your teams for a briefing

Earthquake

- Recognize ground shaking
- Instruct students/staff, and anyone in your area to drop, cover and hold until the shaking stops
- Evacuate students/staff from the classroom/office or immediate area
- If it's safe to do so, bring a radio and backpack from your classroom/office
- Turn off lights
- Close doors, and leave unlocked
- Lead students/staff to the designated area LineEgress to line up on point in the designated area
- If the designated area is inaccessible, use your judgment and radio to determine a safe alternative
- Conduct attendance swiftly, and assemble with your teams for a briefing

Lockdown

- Recognize a lockdown from the PA, text, or other mode of communication
- Close and lock the door
- Turn off lights
- Close and lock windows
- Close drapes/shades/curtains
- Silence your cell phone, and instruct others in your area to do so
- Instruct students/staff to lay down and remain silent
- Wait for instructions from the School Leader, Director of School Operations, or Police Department
- Upon authorized instruction:
 1. Evacuate students/staff from the classroom/office or immediate area
 2. If it's safe to do so, bring a radio and backpack from your classroom/office
 3. Turn off lights
 4. Close doors, and leave unlocked
 5. If the designated area is inaccessible, use your judgment and radio to determine a safe alternative
 6. Conduct attendance swiftly, and assemble with your teams for a briefing

For technology support, please contact support@kippnorcal.org or call 510-858-6100.

Staff Member Handbook Acknowledgement

I acknowledge that I have received a copy of the KIPP Staff Member Handbook. I understand that I am responsible for reading the Handbook and for knowing and complying with the policies outlined in the Handbook during my employment with KIPP Public Schools Northern California (“KIPP”). I also understand that if I am ever unclear on any language or policies, and procedures in this Handbook, it is my responsibility to seek clarification from the organization. I understand that failure to comply with KIPP’s rules and regulations may result in disciplinary action, up to and including release from employment.

I understand and agree that I am employed by KIPP on an at-will basis, which means that my employment is for no definite period and may be terminated by me or by KIPP at any time and for any reason, with or without cause or advance notice. I also understand that KIPP may demote or discipline me or otherwise alter the terms of my employment at any time at its discretion, with or without cause or advance notice.

I understand that the policies contained in this Handbook are guidelines only and are not intended to create any contractual rights or obligations. I also understand that to retain the necessary flexibility in the administration of policies and procedures, except for the at-will policy, KIPP reserves the right to change, revise, supplement or rescind the provisions of this Handbook and the policies or procedures on which they were based. Any changes to this Handbook must be in writing and must be signed by a KIPP representative authorized to make such changes. Any changes will be posted on the KIPP Portal, as referenced in this Handbook, and staff members are responsible for remaining up-to-date on all available policies. No one other than the CEO of KIPP has the authority to enter into an agreement altering a staff member’s at-will employment. Any such agreement must be in writing, must be signed by the CEO of KIPP and by the affected staff member, and must express an unambiguous intent to alter the at-will nature of the employment relationship.

I understand that this Acknowledgment contains a full and complete statement of the agreements and understandings that it recites, and I agree that no one has made any promises or commitments to be contrary to the foregoing. I also understand that this Handbook supersedes all previous Handbooks and manuals.

KIPP Bridge Upper School Panther Purpose

At KBUS, our purpose is to empower students to joyfully pursue academic excellence and lead a choice filled life while also ensuring they become purposeful, courageous, curious, empathetic and loving leaders who transform their communities by way of college, career, and beyond.

Fulfilling this purpose requires us to collaborate with families and our community as we lean into our core values of Love, Purpose, Ujima, and Perseverance.

KBUS Core Values

Purpose – Having a sense of purpose means understanding the meaning or reason behind what we do. Students must have a sense of purpose behind their education. This purpose provides motivation and helps KIPPsters to develop their authentic selves as they strive for academic excellence.

Ujima – Means collective work and responsibility. Through Ujima we build and maintain our community together and make our brother's and sister's problems our problems and to solve them together

Love – When we lead our lives with love, we make compassion the guiding force behind all our actions and interactions. Love contributes to furthering the cause of the universe and thereby gives our action greater meaning.

“In speaking of love we are not referring to some sentimental emotion. It would be nonsense to urge men to love their oppressors in an affectionate sense [...] When we speak of loving those who oppose us [...] we speak of a love which is expressed in the Greek word Agape. Agape means nothing sentimental or basically affectionate; it means understanding, redeeming goodwill for all men, an overflowing love which seeks nothing in return.” (Dr. MLK Jr.) Agape is a willingness to go to any length to restore community.

Perseverance – Perseverance is the ability to push through challenges. Perseverance means that students and staff are able to wait and work through difficulties, whether they have to do with your mind, their bodies, or their emotions. The symbol we use for perseverance is an Oak tree, similar to the symbol of Oakland. That is because we are in Oakland that has a long history of people of color persevering. Also, an Oak starts from a tiny acorn and little by little becomes a mighty tree.

KBUS History

KIPP Bridge was founded as KIPP Oak in West Oakland during the summer of 2002 as a part of the Oakland Unified School District's New Small Autonomous Schools. In 2004, KIPP Bridge became a charter school. Under the leadership of Mr. David Ling, KIPP Bridge became known for having a safe and disciplined culture that fostered a college-going mindset. In 2009, Ms. Jackson became the principal and over the next several years KIPP Bridge solidified its standing in the community as a school of high expectations. In 2016 - 2017, the elementary school portion of KIPP Bridge Academy was added and at that time the school relocated to 1700 Market Street. KIPP Bridge Upper School is the 5th through 8th grade portion of KIPP Bridge Academy with Ms. Allen as principal. KIPP Bridge Upper School staff is committed to providing an excellent and equitable public school education to the children of Oakland. In January of 2018, Ms. Salome Portugal took over Bridge as the school leader of KIPP Bridge Upper School because the school began to struggle with both academics and culture during the expansion. Under her leadership, KBUS began to re-emerge as a leader in the Norcal KIPP region. In 2020, Dr. Haughton stepped in to lead the school through the COVID pandemic and supported students as they transitioned from virtual to in-person instruction. Ms. Allen joins the KIPP:Bridge team this year to continue to support the school legacy as a leader in the region.

Instructional Vision

At KIPP Bridge Academy students thrive in a rigorous learning environment focused on reading, critical thinking, and oratory skills. Teachers are specialists in their content area, they differentiate instruction using data, and support students to take ownership of their learning. Students and teachers prioritize social emotional learning, and students know how to effectively self-advocate to ensure they achieve their personalized learning goals.

Cultural Vision

At KIPP Bridge Academy, students approach being part of the KIPP Bridge Team and Family with positivity and enthusiasm. Bridge students will be known for being respectful, engaging, creative, and for honoring our own and one another's backgrounds. By living our values of ujima (collective responsibility), purpose, perseverance, and love we will create an inclusive learning environment where Panthers uplift one another as they climb the mountain to college, career and beyond.

Guiding Principles aka “We Believes”

We use these We Believes to help inform the decisions we make and the priorities that we set at KIPP Bridge.

Academic We Believes

- We believe that fostering a growth mindset and encouraging an intrinsic love of learning will develop KBUS students into lifelong learners and thinkers.
- We believe that all students are capable of learning, deserve opportunities for academic success, and learn best when the classroom is appropriately differentiated for individual needs.
- We believe that teaching is most effective when content is strategically planned and mapped out prior to instruction.
- We believe that student learning is most accurately described when it is based on mastery of content area standards. These standards are focused on preparing students to be on a college-going track.

Culture We Believes

- We believe that community and collective purpose is key to our success.¹
- We believe that high expectations and continuous learning are the responsibility of everyone in our school. We value growth mindset for children and adults.
- We believe that every teacher takes responsibility for every student, regardless of whether or not we teach him/her.
- We believe that the partnership between school staff, families and children is crucial to our success with students.
- We believe that when students belong to a safe and joyful community that honors their identities, they will work and behave in the best way possible.
- We believe that students learn best when there are clear, reasonable, and consistently upheld expectations and routines. (When expectations are not met, they are paired with logical consequences and addressed respectfully and promptly.)
- We believe students should have a chance to learn from their mistakes, and use them as opportunities to learn and grow as individuals and in relationship to others.
- We believe that the ongoing development of self-awareness and cultural competence is the responsibility of both children and adults of the KIPP Bridge community.

¹ “Ubuntu” - Southern African ethical concept meaning “I am because we are” and “In’La’Kech” a Mayan concept meaning “you are my other me”

KIPP Character Strengths

Success depends on both academics and character.

We help students practice the following character strengths, which is essential for student success and well-being.

Zest – An approach to life filled with excitement and energy.

Curiosity – The search for information for its own sake. Exploring a wide range of information when trying to draw a conclusion, including information that challenges our own initial assumptions.

Gratitude – Appreciation for the benefits we receive from others and the desire to reciprocate with our own positive actions.

Grit – Perseverance and passion for long-term goals.

Optimism – The expectation that the future holds positive possibilities and the confidence that, with effort, these possibilities become likelihoods

Self-control – The capacity to regulate thoughts, feelings, or behaviors when they conflict with valued goals.

Social-intelligence – Awareness of other people’s motives and feelings and using this understanding to navigate social situations appropriately.

Section II: Daily Student Life @ KBUS

Attendance Counts!

Attendance is a critical factor in your child’s success at KIPP Bridge. In KIPP, we believe that students deserve more time in school to become truly college-ready. It puts a strain on your student, other students, and teachers every time a Bridge child is absent. School staff, students and parents all make a commitment to avoid absences so that we can deliver on our Commitment to Excellence on behalf of your child and all of the students at KIPP Bridge. Our goal is to have all students in school everyday to maximize their learning time.

What happens if my child is frequently absent?

Absences and Missed School Work

Students are responsible for completing all of their classwork and homework, regardless of absence reason or length of absence. Students must speak with teachers to collect missed work and schedule re-teaching. Copies of homework are available in folders in each classroom.

If, due to an unforeseen circumstance, you think your child will be absent for more than two days (and it is not due to a medical problem documented by a doctor), **it is required that you schedule a meeting with the Assistant Principal or Principal as soon as possible.** Please note that it is against school policy to take vacation on school days.

Arrival and Dismissal

Students should arrive at school by 8:20am to line up and enter with their class. At that time we say morning affirmations, walk into class together, and listen to announcements. At 8:31 students are considered late. The impact of being tardy, is not being present for community building, homework not being given full credit (late homework is reduced value), missing announcements of important school-wide events, and possibly serving detention. Please avoid tardiness.

Students are dismissed at 3:15pm every day. We do not have sufficient staffing to provide daycare outside of the afterschool program. Families of students who are repeatedly picked up late may be charged hourly for the cost of an additional daycare provider for their child. Student safety is our primary concern at KIPP Bridge. On time, supervised, and orderly pick up can be achieved with staff and parents working together.

Transportation Flow

The following procedures have been agreed to with KIPP Bridge parents and neighbors for the safety of our children and for the good of the neighborhood.

Drop Off Traffic Policy

- Please drive your car to the pick-up/drop-off area on **Market or West street**. Students should exit your car curbside. You may not leave your vehicle if you are in a drop-off area.
- **Another option is to park your car legally**, making sure to not block driveways in the neighborhood and **walk your student** to the school.

Pick-up Traffic Policy

- Please drive your car to the **pick-up/drop-off area on Market or West street**. Students should enter your car curbside. You may not leave your vehicle if you are in a drop-off area.
- **Park the car legally**, in the neighborhood and/or walk, and meet your child at a school exit. Students may walk home or take the bus with a walking or bus pass.

Schedule

Breakfast, Lunch & Snacks

Breakfast is offered to students from 8:10-8:20am in the multi-purpose room (MPR). Students who arrive on time for breakfast are welcome to come to the MPR and eat. Since breakfast ends promptly at 8:20, your child will not have the opportunity to eat if he or she arrives after 8:20.

Students eat lunch with their grade-level. Students are given approximately 20-25 minutes to eat and then go out for recess. (Sometimes recess is held before lunch depending on the grade-level.) Students can also eat a snack during their recess time. Furthermore, snacks are provided after school for all students in the afterschool program.

In an effort to provide students with a healthy environment, students may only bring healthy snacks to school. Children need healthy snacks to help them grow, learn, and stay healthy. Some healthy snacks foods:

- Cereal with Milk
- Low-fat cheese melted on whole -grain bread
- Fresh cut- up fruit with yogurt for dipping
- Baked tortilla chips and salsa
- Vegetables and low- fat dip

*Prohibited foods (p. 26) will be taken from the student and kept until the end of the day. Please do NOT bring McDonalds, KFC, or other prohibited food to your Panther at school.

Sports/Scholar Athletes

In addition to physical education, grades 6, 7 and 8 will have the opportunity to participate in a sports program. Students will be able to sign up for sports teams at the beginning of each season. In order to participate, students must maintain a minimum academic GPA of 2.0. Students who are absent from school are not permitted to attend practice or games on the same day of their school absence. Students who are suspended will be restricted from practice and games. Repeated suspensions will result in being removed from the team.

Clubs

In addition to dances and community events, there are clubs depending on staff interests and availability. Students must maintain a 2.0 GPA to participate in school sports and student government. While a staff member is required to run any club or sport, we welcome parent volunteers to help supervise these activities. Please reach out to Coach Porter (tiffany.porter@kipbridge.org) if you would like to offer your support.

Daily Routines and Student Organization to Build Scholarly Habits

We believe it is our responsibility to teach students scholarly habits that will set them up for success in middle school, high school and beyond. We will model, teach and insist that students develop and maintain these essential skills.

Daily Supplies Checklist

Students should come to school every day with the following items:

- Backpack with pens, pencils, paper, erasers, highlighters, and personal pencil sharpener (No Sharpies)
- Agenda with parent/guardian signature
- Completed homework in homework folder
- Class binders and any other required materials
- Proper uniform
- Just-right book(s) for independent reading
- Water bottle, lunch and/or healthy snack

Student materials and organization

- All students will be given a homework folder. This folder will go home each night with homework to be completed and returned each day with completed homework. Completed homework will then be transferred to their content binders.
- All students will be given binders. Students will be taught to organize their classwork, homework, and assessments in these binders. Binders could be checked by teachers during the year to ensure they are organized. You can help your scholar by looking through the binder with them at home.
- All students must come to school daily with a backpack, sharpened pencils, highlighters, lined paper, a just-right book for independent reading and a water bottle/healthy snack. They must also come with their own personal school supplies.

Homeroom

Each morning at 8:25 when the whistle blows, students line up by homeroom with their homeroom teacher. Students then walk silently to their homeroom class where they begin their day from 8:30 - 8:50 am in the homeroom. During homeroom, teachers check uniform compliance, homework completion and signed agendas. Teachers also take attendance and make announcements. Finally, teachers use this time to check in with students and set the tone for the day. During homeroom, students are expected to read independently.

Independent Reading and Just Right Books

At KBUS, we want to foster a lifelong love of learning and reading. As research shows that the more students read on their level, the greater their reading achievement, each day students will be given 20-25 minutes of independent choice reading time during the school day and 20 minutes of independent reading assigned for homework. While students are encouraged to bring books from their local library or home, all students will be supported to choose “just right” books from their classroom libraries. A “just right” book is a book that is at or just above a students’ reading level and which they are excited to read. Students will be required to complete independent reading logs to document their progress. Students will take Accelerated Reading quizzes to check their comprehension of the books they read. **This is an area where we absolutely need parent support. Parents, the single most important you can do for your child is read to them, have them see you reading, have them read to you, and just have them read in general.**

Contact Teachers For Help When Needed

Calling Teachers on their Cell Phones

- Students may call or text teachers on their cell phones from 5:00 pm to 7:00 pm Monday through Thursday evenings for questions on assignments and for 2 hours on Sundays (at teacher discretion)

- Parents should feel free to call teachers during regular work hours (8:00am – 4:30pm M-F). Teachers will return calls from adults within 24 hours.
- Emailing Teachers - For students or parents who have questions that are less urgent and can be responded to within 24 work hours, please use email. Professional language and format should be used at all times when emailing teachers. If communication is not consistently provided please reach out to school administrators:
 - Principal Ms. Allen (General Information, SPED) - Rosie.Allen@kipppbridge.org
 - Assistant Principal Ms. Waiters (ELA)- Jasmine.waiters@kipppbridge.org
 - Assistant Principal Ms. Williams (STEM) - Jasmine.Williams@kipppbridge.org
 - Director of School Operations Daisy Padilla - Daisy.Padilla@Kippbridge.org
 - Dean of Culture Danilo Juarez - danilo.juarez.gonzales@kipppbridge.org
 - Afterschool Director Sean Keelan - sean.keelan@kipppbridge.org
- For absences or lateness, students and/or parents should call the office (510-543-0078), not the teachers' cell phones.

KIPPisms

These are expressions used in most KIPPs, including KIPP Bridge Upper School

All of us will learn/lead	KIPP's motto in which KIPP has an inclusive education for principals, teachers, and more to collaborate to meet all student needs.
Assign yourself	Students are expected to assign themselves rather than wait for teachers to give them directions.
Be the constant	In reference to the mathematical terminology that a constant value cannot change. Therefore, students should not necessarily change themselves because outside influences tell them so.
Build a better tomorrow	Goal for students to build a better tomorrow for themselves amidst a competitive world.
Climbing the mountain to college	Expression used to illustrate the focus, determination, and grit it takes a KIPPster to get to (and through) college. Every decision a KIPPster makes can have an impact on their path to college.
Do the right thing when no one is looking	A saying that emphasizes integrity and ability to do what is right despite the lack of an authority figure
Find a way or make one	If a path or solution does not already exist, KIPPsters are encouraged to make one themselves
Holding each other accountable	Act of ensuring that all members of the community complete their duties in a timely and high-quality fashion.
Leave a place better than you found it	KIPPsters are encouraged to leave places better than they found it. This can be emphasized especially during field trips.
One team, one sound	Expression used to illustrate how the members of a community need to operate with unity.
Read Baby Read	A phrase from a chant created by Harriett Ball who trained the KIPP co-founders (see below)
Team always beats individual	By working as one team, we can learn from each other's successes and struggles, taking full advantage of the collective talent and innovation
To and Through	KIPP's mission to get students to and through college
KIPP Praise Claps	Various claps of appreciation that are expressed in unison in appreciation for a teammate. For example, a teacher will say, let's give three claps of praise for Mr. Smith, K I P P! (clap, clap, clap).

KIPP's Credo

If there is a problem, we look for a solution

If there is a better way, we find it.

If a teammate needs help, we give it.

If we need help, we ask.

Read, Baby, Read

"You gotta read, baby, read

You gotta read, baby, read

The more we read, the more we know

'Cause knowledge is power

And power is freedom

And we WANT it...

So read, baby, read.

KIPP" (clap + SLANT)

Morning affirmation

Adult whistles at 8:25am. All Unity Clap as they get to line.

Call: Good morning KIPPsters

Response: "Good morning 'x', Team, and Family."

Call: Purpose (clap)

Response: "Purpose. I will look to my past and forward to my future to find my focus and my purpose."

Call: Ujima (clap)

Response: "Ujima. We will build and maintain our community together. We will make our sister's and brother's problems our problems and solve them together."

Call: Love (clap)

Response: "Love. Love is an act of courage. I will love myself, my family, my people, and my community by being compassionate, kind, and respectful."

Call: Perseverance (clap)

Response: "Perseverance. I view challenge as an opportunity and mistakes as part of learning. I will keep trying, practicing, and growing."

Call: "K.I.P.P."

Response: clap, clap, clap

High Expectations & Structures

Respectful Communication and Professionalism

Mutual respect is necessary for a healthy school environment and therefore is our most important expectation. Everyone on KBUS campus, including students, are expected to treat one another with kindness and respect. Examples of politeness and professionalism expected by Team and Family members are speaking in kind tones, using positive body language (for example, looking at one another when speaking, never rolling eyes nor stomping one's feet), and greeting one another. Our school is a professional learning environment that should be welcoming and supportive of every person who is part of, or visiting, our KBUS Team and Family.

Student Communication and Manners

"Our language is a reflection of ourselves. A language is an exact reflection of the character and growth of its speakers." - Cesar Chavez

Responding to and asking questions of Adults

- Students should make eye contact with the adult.
- Students should always say the adult's title (Dr, Mr., Ms.) and last name.
- Students should speak loud and clear.
- Students should use a respectful tone.

Welcoming Visitors

- Students should make eye contact with the visitor.
- Students should speak loud and clear.
- Students should use a respectful tone.
- Students should smile and treat them as a member of our Team and Family.
- When a visitor is in the classroom, the ambassador student who is closest to the door, should make an effort to provide them with an overview of what the class is doing.
- Students should shake the person's hand and greet them by saying, *"Welcome to KIPP Bridge Academy. My name is (state full name) and this class is "xth grade (content - Social Studies, ELA, Math, or Science)"*.

Shaking Hands

- Students should look the person in the eye.
- The handshake should be firm.
- Students should introduce themselves to the person and show an interest in them by asking them a question. (i.e. How are you doing? May I help you?)
- Students should bring closure to a conversation with a firm handshake and a display of appreciation for their time. (i.e. It was nice meeting you. Thank you for your time.)

How Students Address the Team & Family during Advisory/Assemblies

- Students must stand.
- Students must speak loud and clear.
- Students must begin by saying "Team and Family" or "Fellow Panthers" followed by their question/concern or statement in complete sentences.

These forms of communication teaches our students good manners, proper etiquette, and prepares them for the real world success we expect in their future.

SLANTing/Tracking

Students are expected to SLANT in classrooms at any time someone is addressing the class, whether it be a teacher, another adult, or student. The reason that we use SLANT, especially tracking, at KIPP Bridge is because it shows respect to the speaker and helps us be better learners. When we move our sight and body position toward the speaker, it creates a supportive environment for Team and Family members by showing that you care about what the student is saying. Studies show that when we track, we are better able to focus on listening.

- Students will practice the habit of SLANTing:

Sitting respectfully,
Listening to teammates and teachers,
Asking and answering questions,
Nodding heads or using non-verbal signals to show “I’m following along”, and
Tracking the speaker.

- All eyes should be on whoever is speaking.
- If anyone comes to the door (another teacher, the principal, a parent, etc.) student eyes should remain on the speaker.

The classroom ambassador will greet any visitors.

SLANTing teaches students habits for good learning, ensures active listening, and helps with professionalism and focus.

Noise-level Expectations

Specifying appropriate noise levels for each activity helps keep a classroom orderly and also helps students learn appropriate volumes for different academic activities. Every classroom has a poster explaining the noise levels. Students are expected to follow the voice-level requested by teachers and staff.

Silent Signals

We use silent signals to support orderly and engaged classrooms. Common signals are:

- Yes - shake open hand on the side of one’s head
- No - flat palm down and wave side to side
- I agree - pink and thumb out waving back and forth

- May I go get water? - hold up three fingers
- May I go to the restroom? - hold up the letter R in sign language
- May I get a pencil - one finger up

Classroom Entry & Two-Minute Hustle

All classes start with the 2-minute hustle because this prep time supports students to set up for class, start off organized, and avoids distractions around needed supplies later. These are the steps for classroom entry.

- Students enter a classroom, walk directly to their seat, unpack their materials, and get ready for class at noise level: 0 (silent)
- All students are expected to have the following items on their desks at the end of the 2-minutes:
 - Agenda opened to the current day and writing down homework/announcements. Homework that is due that day.
 - IR book
 - Pencil
 - Other materials designated by classroom teacher
 - Students will begin reading their IR books or begin their “Get Down to Business” (GDTB) immediately after completing the 2-minute hustle unless otherwise directed by the classroom teacher.

Bathroom Use

We want to make sure students maximize learning time and do not miss out on key instruction.

- Students should use the restroom before school, during lunch/recess, and during elective classes.
- During core classes, students will be allowed to use the restroom during independent practice time only, except in the event of an emergency. They should be out of class no longer than 5 minutes.
- During the first and last 15 minutes of class, passes will not be issued for the bathroom.
- Students should use the hand signal (sign-language letter r) to signify that they need to use the bathroom.
- Students who need to use the bathroom more frequently should have a medical note on file.
- Students must have a pass from class when they are in the hallways.
- Students who use the restroom and leave class too frequently in a trimester (for example more than 30 times) may be asked to serve a 15 min detention for each extra bathroom time.
- Students who need an escort (adult or student) because of not meeting bathroom procedures previously (or being on in-school suspension) will be identified to all grade level staff including enrichment teachers and coverage staff.

Lunchroom Expectations

Eating School Lunch

- Students are expected to walk to the lunch line quietly when they enter the cafeteria.
- Students will not voice their food complaints to the cafeteria staff. However, if they have any suggestions they will direct them to the Operations Manager.

Etiquette in the Multi-purpose Room (MPR)/cafeteria

- Students will talk at an inside voice volume and monitor their noise level at their table throughout lunch.
- If students are too loud, they will be placed on silent lunch.
- If students are not actively eating, we encourage them to wear their masks.
- For safety reasons, students must raise their hand and ask permission to leave their seat. (hand signals should be used)
- Students must walk and never run in the MPR.
- Students will not throw food in the MPR.
- Leave the space better than you found it - clean.

Emptying trash

- Students will be dismissed to throw away trash as they finish eating.
- When their table is called for dismissal, students will look around and gather any trash left on the floor or tables and place it in the trash can even if it's not theirs.
- If any trash is left on the tables or floor by any class, students should return to clean the area.

Leaving the Cafeteria

- Students will exit the cafeteria quietly with all of their belongings to class/cooperative play/recess.
- Students will put their belongings in the designated place assigned to their grade level and choose a physical activity in which to participate unless transitioning to class.
- Students will not be allowed to re-enter the cafeteria before lunch is over, without a pass.

Cleanliness

At KIPP we practice the motto of “leave a space better than we found it.” This means that we clean areas even if we were not the mess makers and we contribute to the overall beautification of all areas that are part of the school. This includes facilities on and off campus and may include, but is not limited to pushing in chairs, picking up trash, or cleaning of tables. This is in line with our value of Ujima - collective work and responsibility.

Uniform Policy

Students wear uniforms at KBUS in order to provide a safe and equitable environment that is aligned with our mission statement. KBUS will provide the first two polo shirts at no cost. Additional polo shirts, sweatshirts, and jackets may be purchased.

REQUIRED UNIFORM ATTIRE

Uniform Polo Shirts

- Every grade level wears a unique polo color with our school logo that represents our school colors :
 - 5th Grade - Aqua
 - 6th Grade - Royal Blue
 - 7th Grade - Navy Blue
 - 8th Grade - Black or Gold
- No writing on the shirt or coloring of the KIPP logo.
- If a sweatshirt or jacket is worn, a KIPP polo must still be worn underneath.

Khaki/Black/Blue Pants

- Pants/Shorts/Skirts must look professional (no rips or sagging) in any of the following colors: khaki, navy blue, or black.
- Skirts must be at knee-level or lower
- Skirts must be worn with shorts under (built-in are fine)

P.E. Appropriate Shoes

- Shoes must be P.E. appropriate (athletic shoes with laces), even on "free dress" days

KIPP Jackets/Sweatshirts/Undershirts

- If wearing a jacket or sweatshirt, it must be KIPP gear AND you must still wear your uniform polo underneath.
- A long sleeve under the uniform polo is ok, but NO hoodies are allowed.

PROHIBITED ITEMS

Tops

- No non-KIPP jackets/sweaters to be worn over uniform shirts
- No hoodies over or under your polo

Bottoms

- No ripped pants or blue jeans
- No sagging pants
- No skirts with knee-high socks or shoes
- No sweatpants or basketball shorts
- No leggings

Shoes

- No uggs, crocs, or slides

Headwear

- No head scarves fully covering your head
- No bandanas of any color
- No hats or hoods
- No sunglasses

Uniform Policy

FRIDAY ATTIRE

On Fridays, students must follow the required uniform policy, BUT has the option to wear any of the following:

Tops

- KIPP Uniform Polo
- KIPP T-Shirt (Spirit, etc)
- College Gear

Bottoms

- Khaki/Blue/Black pants
- Jeans/Cargos (any non-ripped pants of any color)

FREE DRESS ATTIRE (SPECIAL OCCASIONS)

On special occasions, students might be given a “free dress” pass. Free dress means that students may be out of uniform. The expectation for free dress is that students should still wear school-appropriate clothing.

- No ripped pants or blue jeans
- No sagging pants
- No skirts with knee-high socks or shoes
- No sweatpants or basketball shorts
- No leggings
- No uggs, crocs, or slides
- No head scarves fully covering your head
- No bandanas of any color
- No hats or hoods
- No sunglasses

We strive to maintain a distraction-free and professional learning environment and would like student clothing to support this effort.

UNIFORM VIOLATIONS

Students who are in violation of the uniform policy **will be sent to the office to call home to request that a family member bring the student the proper uniform**. Students will not be allowed to return to class and will be required to wait in the school office until a parent/guardian provides the appropriate uniform attire. If there is an emergency (or other special circumstances), please send your child with a note and explanation of why your student is out of uniform and we may be able to lend them the proper uniform (based on availability). Students may also be asked to serve detention if they come to school out of uniform.

RELIGIOUS/MEDICAL EXEMPTIONS

Any student who requires an exemption from any part of the uniform policy must present their request in writing from parent/guardian for approval by the principal.

PURCHASING UNIFORMS

Every student receives 2 free uniform polo shirts at the beginning of the school year. You can purchase additional uniform polos at www.bancroft-uniforms.com. Be sure to create an account, if you don't already have one. For the school name enter: bridgeoakland

Am I allowed to bring this to school?

Prohibited Items for students - Students are not allowed to bring the following items to school:

- Excessive amounts of cash
- Very valuable items
- Sharpie or permanent markers
- Toys, video games, game systems
- Non-school related electronics
- Matches or lighters
- E-cigarettes, vape pens, etc.
- Illegal substances
- Weapons (or toy weapons)
- Fidget spinners
- Putty or slime (Homemade or store bought)
- Water balloons
- Water guns
- Candy
- Sports equipment (basketballs, hockey sticks, boxing gloves, etc) If they have to bring items it must be checked in with their Grade Level Chair. KBUS will not be responsible for lost or stolen items.

If these items are brought to school, they will be confiscated, and held by the administration. Parents may retrieve the items from administration. Students may be assigned a consequence like detention. In some circumstances, these items will be returned only to parents or guardians.

Electronic Devices

KBUS will not be responsible for any damaged, lost, or stolen electronic devices. Kindles may be used by students for reading purposes only. Any student using an electronic reading device for anything but reading will result in the same consequences and procedures followed for cell phones and other electronic devices.

Cell phones - Cell phones are allowed at KBUS but will be collected first thing in the morning and **must remain OFF** (not on silent or vibrate) during school hours. This is to avoid inappropriate use of cell phones in the bathrooms or in other areas of campus. KBUS is not responsible for lost or stolen cell phones. Students may use cell phones before and after school (**outside** of the school building only) to contact family members or for emergency purposes only.

Urgent calls: If students need to make a phone call during the day to a family member in order to address an illness or other emergency, they may ask permission to use the school phone **in the main office**.

If cell phones go off during the day or students are caught using a cell phone (calling, texting, playing games, etc.) during school hours, they will be confiscated and will be **kept by an assistant principal** and only released to a parent or guardian. If the problem persists, the student will not be allowed to carry a cell phone to school. ***KIPP Bridge Academy is not responsible for any lost, stolen, or damaged cell phones. Please do not send your student to school with very expensive cell phones.***

Disciplinary Hierarchy and Consequences

Ladder of Response

Teachers use a number of moves to ensure all scholars are learning, remembering that the goal is to restore relationships so that scholars are engaged in learning. We know that there are many ways to respond and that matching is important depending on the child and the situation. Below is an example of a ladder of actions that a teacher might take based on KIPPsters' choices in the classroom.

Level of Infraction	Consequence Options	Responsible Party
<p>Level 1</p> <p>Behaviors that cause mild disruptions in class such as inappropriate talking, getting out of the seat, etc.</p> <p>*Do Not log into DeansList*</p>	<p>Quick moves/Corrections</p> <ul style="list-style-type: none"> - General redirection - Warning/Redirection (verbal or written) - Proximity - Phone Call (might just be positive words) - Brief stop and wait - Name drop - Quick Check In - Reflection Time (5-10 minutes in Calm Down Corner with a restorative conversation of 1-5 minutes before returning to seat) <ul style="list-style-type: none"> - Spot needs to be separate from other classroom space <p>If multiple students are demonstrating level 1 behaviors, a whole class reset is needed (and discuss impact of the behaviors)</p>	<p>Teacher</p>
<p>Level 2</p> <p>Failure to participate a more disruptive behaviors such as name calling, cursing, hitting a peer; repeated Level 1 infractions</p> <p>*Log infraction into DeansList (Have</p>	<ul style="list-style-type: none"> - One-to-on side conversation - Longer Reflection Time (10-15 minutes in Calm Down Corner with a written reflection and restorative conversation of 1-5 minutes before 	<p>Teacher or Grade Team Leader</p>

<p>teacher's put behavior in via phone app and then narrative in later)</p>	<p>returning to seat)</p> <ul style="list-style-type: none"> - If sent to another room and disrupts, it becomes a Level 3 - Apology Letter - Parent/Guardian Contact - Lunch or Afterschool Detention with Teacher or GLC 	
<p>Level 3</p> <p>Larger scale infractions such as skipping class, fighting, sexual harassment, bullying, drug or weapons possessions, cyber bullying; repeated Level 2 infractions;</p> <p>*Teacher logs it as an infraction AND submits a referral via DeansList</p> <p>*Administrator handles consequence</p>	<ul style="list-style-type: none"> - Administrative Referral and removal from class - Restorative Conversation - Action oriented creative consequence (assisting a staff member, working on a group project, writing an apology letter, etc.) - Parent/Guardian Conference - Reverse Suspension - In School Suspension - Out of School Suspension 	<p>Coleman, Haughton, or Holt</p>

Consequences

Consequence	Owner	Description
Teacher or Grade Level Lunch Detention	Teachers and GTLs	Teacher discretion
Admin Lunch Detention	Coleman, Williams, and Allen	Daily in a corner of the MPR
Teacher or Grade Level Afterschool Detention	Teachers and GTLs	<p>4:10 to 5:00 (On days that teachers do not have meetings or reteach) .</p> <p>Will depend on the behavior, but examples are:</p> <ul style="list-style-type: none"> - Cleaning or organizing - Team building or group project - Tutoring for other students

		<ul style="list-style-type: none"> - Writing apology letters - Playing academic review game
Admin Afterschool Detention	Coleman, Allen, and Williams	<p>Monday, Tuesday, or Thursday: 4:00 - 5:00 Wednesday: 2:00 - 3:00</p> <p>Will depend on the behavior, but examples are:</p> <ul style="list-style-type: none"> - Restorative conversation <ul style="list-style-type: none"> - Create strategies to make better choices - Cleaning or organizing - Team building or group project - Tutoring for other students - Writing apology letters - Playing academic review game
In School Suspension (ISS)	Coleman, Allen, and Williams	<ol style="list-style-type: none"> 1. The student remains in a different Grade Team Leader’s classroom all day or 2. Student spends the day shadowing and assisting a member of the LEAD Team <p>Students are not allowed to participate in afterschool activities.</p>
Out of School Suspension (OSS)	Coleman, Allen, and Williams	<p>Students are not allowed on campus or at campus events, games, etc. for the duration of their 1-3 day suspension.</p>

Socio-Emotional Learning (SEL)

All learners need support in social and emotional development. As children grow from year-to-year, they experience new challenges, new emotions, and new situations. Navigating these various experiences is part of the challenge of adolescence and part of the process of growing and learning for all students. We infuse the bulk of our social emotional support into the general education curriculum through community circles and teaching children how to respond to situations that arise in class. In addition, we make time in our schedule weekly for Team and Family and use the program Second Step to supplement our SEL curriculum. The scope and sequence for SEL learning is as follows:

Social & Emotional Learning Core Competencies

Unit 1 - Growth mindset and Goal setting

Unit 2 - Connecting personal values to decision-making

Unit 3 - Thoughts, emotions, and decisions

- Handling emotions
- Responding to anger
- Calming strategies

Unit 4 - Resolving and avoiding peer conflicts

- Perspectives
- Challenging assumptions
- Avoiding conflicts
- Bullying and upstanders
- Gender harassment

Although across grades 5th through 8th, the overarching topics are the same, the approach to teaching them is focused on age-appropriate challenges and circumstances.

Other Student Supports and Safety

Emergency Drills

KBUS holds the following each year:

- 4 fire drills with evacuation;
- 3 earthquake drills/disaster;
- 2 shelter-in-place drills;
- 2 lockdown drills

The required evacuation map and protocol is posted in every room. Students are to remain silent and follow their teacher according to their map and to stay with their class. Students must go directly out of the building and stay as a class in the designated outdoor location until given further instructions. Students failing to appropriately practice will practice again during their recess. Any students that need any additional practice will be scheduled by KBUS staff.

Counseling/Mental Health Services

KIPP Bridge Upper School's Mental Health Counselor works closely with staff and families to create a strong support network for students who experience mental health challenges that impact their learning. Students who might benefit from working with a counselor will be referred by teachers, staff, or parents. At that time the counselor will assess the student to determine the best support moving forward. Students could either work with the school counselor or be referred to other outside agencies. Parents/guardians will be notified of any referrals made to outside agencies and will be kept informed of their child's progress, as deemed appropriate by the school counselor.

Academic Program

Core Subjects

At KIPP Bridge Academy, the core subjects are English Language Arts, Mathematics, Science and Social Studies. These core subject classes are grounded in the Common Core State Standards (CCSS), the Next Generation Science Standards (NGSS) and History-Social Science Framework (HSS).

Enrichment Classes

In the 2022-2023 school year, KIPP Bridge Academy will offer Physical Education and Financial Literacy to all students.. Please note that this year Enrichment classes will be graded similar to core classes. However, the grade will count as half of the value as a core class towards G.P.A.

Textbooks

Student textbooks, novels, and workbooks are considered school property. Students are issued books throughout the year. Teachers check the textbooks out to students using a book check out system. Students are responsible for the issued or borrowed textbooks or books; if lost, stolen, or damaged, the student and parent is responsible for payment to replace the book. Parents are required to cover the costs of any damage beyond regular wear and tear, or loss of textbooks/class books. Each student and guardian sign a form accepting responsibility if the book is lost. All books must be returned by January 30th and again on June 1st 2023 in good condition. In order for students to participate in end of year and extracurricular activities students must return all textbooks or pay for them by deadline. Additionally, reports cards withheld if school property has not been returned, paid for and/or replaced.

Assessments and Tracking

Gathering data on student performance is incredibly important to our instructional practice at KIPP Bridge Academy. As educators, we believe that we must continue to adjust our instruction until all of our students have mastered the content, and regular instruction and tracking of mastery helps us track their progress. To us, mastery is defined as the ability of a student to correctly answer at least 80% of questions on a topic or skill correctly. Below are the ways we continue to track the learning of our students:

Formative Assessments and Checking for Understanding

Assessment is a tool to understand, as a teacher, what the students know and do not know. It is also the best way to reflect on your teacher's teaching, and inevitably the learning that is taking place in the classroom.

At KIPP Bridge Academy, teachers constantly assess the learning that is taking place in the classroom through formative assessments and checks for understanding. Some examples of formative assessments that teachers use are: exit tickets, short quizzes, check-ins, conferences, class work assignments, journal entries, homework, etc. All of these tools (formative assessments) are used to assess student learning. Teachers then use this data to pull small groups, remediate individually, or re-teach the entire lesson. These formative assessments are counted only as a small portion of students' final grade as they are more about practicing the skill.

Summative Assessments and Tracking

Teachers conduct a more formal assessment at the middle and end of each unit/module to measure student mastery of standards. Mid and End of Unit/Module assessments might include tests, projects, performance tasks, written papers, etc. These are all examples of *summative assessments*. In every classroom, teachers actively use a tracking tool to show the students' progress toward mastering each standard. All summative assessments are sent home with students so parents are aware of student progress in class. We ask that parents sign the assessment to acknowledge receiving it, and have students return it to school the next day. We encourage parents to have conversations with students around their progress in class. Students who score below

Mastery/Approaching will have a chance to take a retake within two weeks of a summative assessment **if they attend a reteach session**. Please see the grading and retake section for more information on our retake policy

Other Assessments

As a school, we administer several other assessments to measure student academic progress. All students will complete a reading assessment at the beginning of the year. Students will take this on-line reading assessment throughout the year so that we can measure and celebrate their growth.

To better serve our students who are scoring below grade level, some students will also be assessed with the Fountas and Pinnell Reading Assessment to provide us with more in-depth information. This allows us to track student reading growth over the course of the year and better support our students.

To assess the Common Core State Standards, students will engage in several interdisciplinary performance tasks during the school year to measure their overall critical thinking and problem solving skills. These tasks integrate several standards and require students to apply their learning to new situations. In addition, students will take Regional Interim Assessments in ELA, Math, Science and Social Studies each trimester. Finally, all students are required to take the Smarter Balanced State Test in the Spring. 5th and 8th grade students will also take the California Science Test (CAST).

Communicating Grades & Progress

We believe that all stakeholders benefit from clear, consistent communication between teachers and parents about student progress. The following are the required reports/communication that must take place. Teachers are welcome to communicate student progress/grades more frequently.

School/Team-Created Reports

- *Weekly Growth Report* – communicates data from Dean’s List and is sent home weekly.
- *Academic Progress Report*: communicates student academic progress (focused primarily on mastery of standards) and is sent home 2 times per trimester.
- *Academic Report Card* - communicates student academic progress (focused primarily on mastery of standards) and is sent home at the end of each semester.

Pre-Arranged Conferences

- The school will set up parent-student-teacher conferences for any students currently failing (below Approaching/70%) at the time of Trimester 1 Report card, Trimester 2 Report Card. Parents or Teachers can schedule additional conferences regarding grades in between these dates. Parents, please reach out to your child’s teacher and make an appointment if you have concerns about your student’s academic progress.

Parents Sign Summative Assessments

- All summative assessment results must be communicated to parents. Graded summative assessments are sent home with students, signed by parents/guardians, and returned to school the next day.
- Formative assessments also represent an opportunity to communicate with parents about how their student is progressing toward mastery in the unit. Formative assessments should be tracked as data in Powerschool (at least 2 per week) so teachers can reference when meeting with parents, as needed.
- **NOTE: Extra credit is not allowed on summative assessments or in the gradebook.** For students to improve their grade, they must independently demonstrate mastery of the standard through a retake.

Parent/Family Involvement

Parental Involvement and Volunteering

Please reach out to your child's teacher or the operations associate (front office) to offer your time to volunteer. We request 10 volunteer hours per family. These can be accrued through helping teachers in a classroom, as a field trip chaperone, or through events. The KIPP Family Association is a great way to connect to volunteer opportunities. Also, families can reach out to the front desk for other opportunities.

Home-School Communication

A pre-recorded phone call will be sent to parents/guardians each week with updates and information regarding school events. Parents should check students' agendas and folder nightly for papers and communication from teachers.

Parent/Teacher Conferences

We schedule conferences to discuss academic or character-related issues during the school year. Both parent/guardian and student (if requested) must attend. Parents and guardians are encouraged to set up conferences with grade level chairs.

Agenda/Parent Signatures

Each night for 5th and 6th grade and weekly for 7th and 8th , parents/guardians are required to sign the student's agenda. By signing student agendas and homework, parents/guardians are communicating that they acknowledge the assignments and ensure that their child has given their best effort in completing them. Families are welcome and encouraged to contact the teachers regarding their child's academic progress.

KIPP Family Association - KFA

All parents/guardians are strongly encouraged to become members of our KIPP Bridge Family Association (KFA). KFA will hold monthly meetings to discuss school events and community issues, to plan fundraising events, to strategize around volunteering at the school, and to address any other important issues or concerns that may arise. Active membership is expected of every parent and can be fulfilled by meeting attendance, participation in events, coordinating or chairing events, and/or volunteering at the school. School-site Council representatives are voted in each year and support with family input to Bridge program and policies. SSC is a committee within KFA that includes teachers and administration. SSC meetings are on the same nights as KFA meetings.

PowerSchool

PowerSchool is Bridge's grading and attendance system. Students and families should access grading and attendance information online at URL: <https://kipnocal.powerschool.com/PUBLIC/home.html> (Powerschool App District Code: WKJP)

At the beginning of each school year, KBUS sends a letter home with further instructions for Power School's web-access, web identifications, and passwords. We will provide a lesson for students on how to check their grades and give them 5-10 minutes each week to do this.

Parent Surveys

KBUS will conduct a parent survey to determine parent needs, concerns, and assessment of the school. The results of this survey will be used to evaluate the progress of the school, and to suggest programmatic changes. We may also administer additional parent surveys throughout the year to gather feedback from parents.

ParentSquare

KIPP Bridge will be using a system called Parent Square to send messages to families. These messages may include information about upcoming school events, emergency notifications, attendance issues, or other things that the school feels are important for families to be aware of. The messages will be sent via text message, email, or phone calls using the contact information that you provide upon registration. We recommend that families install the Parent Square application!

[This FAQ](#) will help you with common questions parents have about using ParentSquare. If you still need support please fill out the [ParentSquare Help Request Form](#). Thank you.

KIPP Northern California Board Meetings

The duties of the Board include defining the organization's strategic direction, serving as a fiduciary and ensuring fiscal health, ensuring adequate resources to achieve organizational goals, establishing regional policy, and championing the organization in the community. Families may give public testimony to share their feedback with the Board.

For more information on dates and how to attend please click on the link below:

[KIPP NorCal: Board of Directors Meeting Schedule 2021- 2022](#)

Grievance Policy

KIPP takes parent and guardian concerns and complaints seriously. There are no negative consequences for filing a complaint, or asking for assistance in doing so. No reprisals or retaliation shall be invoked against any student, parent or guardian for processing, in good faith, a complaint, either on an informal or formal basis, or for participating in any way in these complaint procedures.

If an issue arises that you would like to resolve at the school, [please consult our official grievance policy](#), which outlines the appropriate steps.

You can also email your Family Engagement Contact: Charlie Mintz: charles.mintz@kippnorcal.org

Family Supports

[Our family engagement team is available to support any needs your family might have outside the classroom. If you would like to get help completing an application, learn about resources in your community, or receive a referral to an organization that can support your family's needs, you can reach out to your Family Engagement Contact Charlie Mintz at 510-914-7408](#)

Parent/Guardian Visitors

Parents or guardians at KIPP Bridge Academy are encouraged to visit the school. **ALL** visitors must check in at the front reception office upon their arrival so that they can sign in and obtain a visitor badge identifying themselves. We ask that all visitors respect the learning process by quietly observing classes, and by not distracting the students or teacher. Visitors may be asked to leave a classroom or the school grounds if their presence is a distraction to instruction and learning. The Principal reserves the right to require parents/guardians to schedule an observation of their student's classroom. If parents want to speak with a teacher directly, the best way to do this is to call and schedule a meeting. Teachers are not available to speak with parents while they are teaching, but they will return calls within 24 hours of receiving a message.

Non-Parent Visitors

All other visitors must have a specific purpose for their visit and contact the Principal beforehand to arrange a visit. During their visit, they must abide by the same requirements as parent visitors. Again, **all visitors** must check in at the front reception office upon their arrival so that they can sign in and obtain a visitor badge that identifies them. We ask that all visitors respect the learning process by quietly observing classes, and by not distracting the students or teacher. Visitors may be asked to leave a classroom or the school grounds if their presence is a distraction to learning or the educational environment.

For All Guests to KBUS ...

Welcome! We strive to create a culture of warmth and belonging at KBUS and respectfully request that everyone:

Support the Learning Environment

Visitors must have a pass and the front office will text the teacher to let him/her know the nature of your visit. Once in the classroom please observe silently. Do nothing that would disrupt student learning. Teachers cannot speak to other adults when they are teaching classes.

Communicate with Respect

Adults who raise their voice to another adult or child or use profanity on campus will be asked to leave. We model for our students expressing our concerns or making requests with respect. KBUS staff are all on the side of our students and therefore their families. Any adult on campus must interact with respect.

Keep Students Feeling Safe

Adults should never talk to children who are from other families about concerns they have. If you have a concern about a student's behavior, please address that student's parent/guardian or a staff member. When adults argue, children become afraid. Anyone who contributes to an unsafe climate will be asked to leave campus.

We want our school to be a place where everyone can gather and connect. First and foremost, this space is for our amazing KIPP students and all of the adults that support their learning. KBUS staff will do everything possible to ensure that students and adults on campus feel safe and supported.

KIPP Northern California Public Schools Team and Family Regional Policies

About KIPP

KIPP Across the Nation

KIPP schools are tuition-free, public charter schools open to all students. KIPP schools are united by a common mission, a commitment to excellence, and a belief that if we help children develop the academic and character strengths they need for college and choice filled lives, they will be able to build a better tomorrow for themselves, for their communities, for us all. Today, there are over 230 KIPP schools in 30 regions across the country educating over 100,000 students.

KIPP Bay Area Public Schools

KIPP Bay Area Public Schools (“KIPP” in this document) is a nonprofit organization that operates 15 schools and a Regional Support Office. In these elementary, middle, and high schools, 6,200 students are being prepared for success in college and the world beyond. These public charter schools are located in East Palo Alto, Oakland, San Jose, San Francisco, San Lorenzo, and Redwood City.

Our KIPP Bay Area Public Schools family includes:

- KIPP Bayview Elementary School (grades TK-3, growing to TK-4), San Francisco
- KIPP Valiant Community Prep (grades TK-3, 6-8, growing to TK-8), East Palo Alto
- KIPP Bridge Academy (Elementary TK-4 and Middle 5-8), Oakland
- KIPP Summit Academy (grades 5-8), San Lorenzo
- KIPP King Collegiate High School (grades 9-12), San Lorenzo
- KIPP Heartwood Academy (grades 5-8), San Jose
- KIPP Heritage Academy (grades 5-8), San Jose
- KIPP Prize Preparatory Academy (grades 5-8), San Jose
- KIPP San Jose Collegiate (grades 9-12), San Jose
- KIPP Navigate College Preparatory (grade 9-10, growing to 9-12), San Jose
- KIPP Bayview Academy (grades 5-8), San Francisco
- KIPP San Francisco Bay Academy (grades 5-8), San Francisco
- KIPP San Francisco College Preparatory (grades 9-12), San Francisco
- KIPP Excelencia Community Prep (grades TK-8), Redwood City
- Regional Support Office, Oakland

What Makes KIPP Different

At KIPP, teachers, students, and families are all united around the same goal—college graduation and choice-filled lives. Our success is driven by:

- **High Expectations:** We create a culture of support and achievement and personalize learning based on a student’s needs, skills, and interests.
- **Focus on Character:** We believe that our students need both a strong academic foundation and well-developed character strengths to succeed in college and the world beyond.
- **Highly Effective Teachers and Leaders:** We empower educators to lead school teams and invest in training to help them grow as professionals.
- **Safe, Structured, and Nurturing Environments:** Our schools provide a safe, structured, and nurturing environment so that our students thrive and maximize their learning.
- **KIPP Through College:** Counselors support students as they prepare for college and career, and navigate social, academic, and financial challenges while in college.

General Information

KIPP College Savings Program

At KIPP, we know that understanding the cost of college and having access to savings accounts are crucial to earning a college degree. KIPP Bay Area Public Schools is excited to help families open 529 college savings accounts to start planning for the cost of books, transportation, laptops, health insurance and other hidden costs of college. If you are interested in opening a 529 account for your KIPPster, you can enroll online at www.kippbayarea.org/programs-and-initiatives or email us at collegesavings@kippbayarea.org for more information.

Admissions and Enrollment Information

KIPP Bay Area Public Schools operates tuition-free, public charter schools open to all students residing in the State of California. KIPP schools are attended by students who have freely chosen to enroll. Students who choose to accept the academic program of a KIPP school agree to abide by the policies of the school. Parents/guardians whose children are in a structured English immersion program have the right to apply for a parental exception waiver. To apply for a waiver, parents/guardians should contact the main office. Students may also take a leave of absence by completing a Leave of Absence Form and obtaining approval from the school leader. The complete Admissions and Enrollment Policy is available online and from the school office or online.

Annual Notice: Nondiscrimination Statement

KIPP Schools do not discriminate against any student or employee on the basis of actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, immigration status, religion, religious affiliation, sexual orientation, or any other characteristic that is contained in the definition of hate crimes in the California Penal Code.

KIPP Schools adhere to all provisions of federal law related to students with disabilities, including, but not limited to, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990 (“ADA”), and the Individuals with Disabilities Education Improvement Act of 2004 (“IDEIA”).

KIPP Schools are committed to providing a work and educational atmosphere that is free of unlawful harassment under Title IX of the Education Amendments of 1972 (sex); Titles IV, VI, and VII of the Civil Rights Act of 1964 (race, color, or national origin); The Age Discrimination in Employment Act of 1967; The Age Discrimination Act of 1975; the IDEIA; and Section 504 and Title II of the ADA (mental or physical disability). KIPP Schools also prohibit sexual harassment, including cyber sexual bullying, and harassment based upon pregnancy, childbirth or related medical conditions, race, religion, religious affiliation, creed, color, immigration status, gender, gender identity, gender expression, national origin or ancestry, physical or mental disability, medical condition, marital status, age, sexual orientation, or any other basis protected by federal, state, local law, ordinance or regulation. KIPP Schools do not condone or tolerate harassment of any type, including discrimination, intimidation, or bullying, including cyber sexual bullying, by any employee, independent contractor or other person with which KIPP Schools do business, or any other individual, student, or volunteer. This applies to all employees, students, or volunteers and relationships, regardless of position or gender. KIPP Schools will promptly and thoroughly investigate any complaint of harassment and take appropriate corrective action, if warranted. Inquiries, complaints, or grievances regarding harassment as described in this section, above, should be directed to the KIPP Uniform Complaint Procedures (“UCP”) Compliance Officer:

Employee Uniform Complaints: Lupita Medina, Director of Human Resources | Phone: 510-465-5477 Email: lupita.medina@kippbayarea.org

Student Level Uniform Complaints: Marie Huxley, Chief Academic Officer | Phone: 510-465-5477 Email: marie.huxley@kippbayarea.org

Media Authorization Information

From time to time, the media (i.e., newspaper, radio, television) may visit KIPP school campuses to photograph, tape record, and/or videotape students or write stories of general public interest regarding KIPP schools, which may involve students. Additionally, KIPP Bay Area, KIPP Through College, and the KIPP Foundation (altogether referred to as “KIPP”) regularly take pictures and videos of students involved in various school and school-sponsored activities and publishes these images in its own newsletters and public

relations and professional development materials via print and online media.

By consenting to the media authorization form in your student's registration packet, parents/guardians understand that under California law, individuals have the legal right to control the use of their name, likeness and images. By consenting you also grant and assign KIPP, its officers, employees, and agents (including third-party photographers), the right to (1) photograph and record your student when he/she is engaged in any KIPP school event or activity; and (2) reproduce, distribute, display, create derivative works of and otherwise use your student's name, photograph, recording and likeness for and in connection with internal needs (including instruction and character development in classrooms), public relations, fundraising, activities, publicity, and promotional purposes of KIPP schools, including, but not limited to, yearbooks, newspapers, street banners, school related/sponsored websites, brochures, media, public awareness campaigns and displays by any media (print or electronic), and in online forums managed and maintained by KIPP staff for the purpose of learning and/or extra-curricular KIPP activities (including but not limited to Facebook, , blogs, Twitter, and Instagram), that are deemed appropriate. Your consent to media authorization remains in effect even if the student is no longer enrolled at KIPP unless you specifically revoke your authorization and request that KIPP remove your child from its publications.

By consenting to the media authorization form, you agree that you nor your student will receive any compensation for the aforementioned grant and assignment. You further agree that neither you nor your student shall have any right, title or interest, including copyrights, in any material created by KIPP or its agents pursuant to this agreement.

No Show Policy

When students are not in attendance on the first five (5) days of school, KIPP Schools will attempt to reach the parent/guardian on a daily basis for each of the first five (5) days to determine whether the student has an excused absence, consistent with the process outlined in this Policy. If the student has a basis for an excused absence, parents must notify the school of the absence and provide documentation consistent with this Policy. However, consistent with the process below, students who are not in attendance due to an unexcused absence by the fifth day of school will be disenrolled from the school roster, as it will be assumed that the student has chosen another school option.

1. Students who are not in attendance on the first day of school will be contacted by phone to ensure their intent to enroll.
2. Students who have indicated their intent to enroll but have not attended by the third (3) day will receive a letter indicating the student will be disenrolled after the fifth day of school if the student has not attended school without valid excuse.
3. Students who have indicated their intent to enroll but have not attended by the fifth (5) day will receive a phone call reiterating the content of the letter.
4. Students who have not attended by the sixth (6) day, and do not have an excused absence as defined above for not being in attendance will be disenrolled from the roster.
5. The KIPP Schools will use the contact information provided by the parent/guardian in the registration packet.
6. The KIPP Schools will send the Involuntary Removal Notice to the Parent/Guardian
7. Upon removal, the last known school district of residence will be notified of the student's failure to attend the KIPP Schools and the disenrollment within thirty (30) days of the disenrollment.

Academics

Attendance and Truancy Policy

Students are expected to be in class each day and on time so that they are ready to learn. It is the responsibility of the parents/guardians to see that their children attend school regularly and on-time. It is important that students be in class and ready to learn at the beginning of the school day.

Support outstanding school attendance at home by:

- Making sure your child gets enough sleep and a nutritious breakfast each day
- Helping your child develop a positive attitude toward school and learning and encouraging him/her to participate in school activities
- Teaching the benefits of good attendance and consequences of poor attendance
- Creating backup systems (alternative plans for getting to and from school)
- Creating morning and evening routines
- Posting school calendars, school attendance policy, and schedules in a visible place
- Making your school aware of any issues that may be affecting your child's attendance

- Making sure your child’s school has your accurate daytime contact information, including cell phone number and/or e-mail address
- Notifying school staff if your child suffers from a chronic health condition and how this condition is impacting school attendance

School sites shall administer school site-determined initial consequences, including but not limited to, meetings with students and parents/guardians, warnings, or loss of privileges for students who are tardy or absent. As discussed below under the “Procedures for Excessive Unexcused Absences and Tardies,” KIPP Schools has established procedures to address repeated absences or truanancies.

Tardies

Tardiness is disruptive to the learning process. It has a negative impact on the entire class, not just the child who is tardy. It is the policy of KIPP Schools that students arrive to class on time.

Students who arrive thirty (30) minutes after the tardy bell are considered tardy. Students who are tardy will be evaluated per the consequences listed in the procedures section, below. Students who arrive late to school must personally come to the main office to document their time of arrival. The student will then be given a tardy pass to admit him/her into the classroom and will not be allowed into the classroom without this pass.

When possible, parents/guardians should avoid scheduling appointments during school hours.

The following are excused tardies (with 24-hour advanced notice):

- Medical, dental, optometric or chiropractic appointments (documentation must be provided upon return to school)
- Funeral Service for an immediate family member

All other tardies will be considered an unexcused tardy, unless excused at the School Leader’s sole discretion.

Absences

Students are responsible for collecting and making up any work that was missed during their absence. Repeatedly submitting work late due to absence may have an impact on students' grades as determined by each school site.

Absence from school shall be excused only for health reasons, family emergencies and justifiable personal reasons, as permitted by law or this Attendance Policy (Parent/ Guardian must notify the School and provide requested documentation). A student's absence shall be excused for the following reasons:

- Medical, dental, optometric or chiropractic appointments*
 - Students in grades 7-12, inclusive, may be excused from school for the purpose of obtaining confidential medical services without the consent of the student’s parent or guardian.
- Personal Illness- three (3) or more absences must be verified by a physician
- A Court Appearance (and, for students of age, jury duty)
- Attendance at funeral service for an immediate family member
 - Excused absence in this instance shall be limited to one (1) day if the service is conducted in California or three (3) days if the service is conducted out of state.
 - “Immediate family” shall be defined as mother, father, grandmother, grandfather, spouse, son/son-in-law, daughter/daughter-in-law, brother, sister or any relative living in the student’s household.
- Participation in religious instruction or exercises in accordance with Charter School policy
 - The student shall be excused for this purpose on no more than four (4) school days per month.
- For the purpose of attending the pupil’s naturalization ceremony to become a United States citizen.
- Quarantine under the direction of a county or city health officer
- For the purposes of jury duty in the manner provide for by law.
- Due to the illness or medical appointment during school hours of a child of whom the pupil is the custodial parent, including absences to care for a sick child for which the school shall not require a note from the doctor.
- To permit the pupil to spend time with an immediate family who is an active duty member of the uniformed services, as defined in Education Code Section 49701, and has been called to duty for, is on leave from, or has immediately returned from, deployment to a combat zone or combat support position. Absences granted pursuant to this paragraph shall be granted for a period of time to be determined at the discretion of KIPP Schools.
- For purpose of serving as a member of a precinct board for an election pursuant to Election Code Section 12302.
- Authorized at the discretion of a school administrator, as described in subdivision (c) of Section 48260.

In addition, a student's absence shall be excused for justifiable personal reasons such as:

- Appearance in court.
- Attendance at a funeral.
- Observation of a holiday or ceremony of his/her religion.
- Attendance at religious retreats for no more than four (4) hours during a semester.
- Attendance at an employment conference, or attendance at an educational conference on the legislative or judicial process offered by a nonprofit organization upon written request by parent and approval by the School Leader or designee pursuant to uniform standards established by the Board.

*Note that absences due to medical appointments will not be excused for a full day unless accompanied by a doctor's note.

Student absences may also be excused for the following reasons if approved by a School Leader:

- Medical exclusion or exemption
- Revoked suspension through appeals procedure
- Pre-arranged mental health services (Mental Health Day Treatment)

To excuse an absence, the parent/guardian must call the school by 7:30 a.m. the day of the absence and where relevant, provide necessary documentation within 24 hours of the student's return to the School's main office.

Please note that if these steps are not followed, this may trigger a Truancy Letter and other forms of intervention in alignment with this Attendance Policy.

Examples of unexcused absences and tardies are:

- Transportation problems
- Vacations or trips
- Weather conditions
- Running errands for family
- Babysitting

Truancy

Students shall be classified as truant if the student is absent from school without a valid excuse three (3) full days, or if the student is tardy for more than any thirty (30) minute period during the school day without a valid excuse on three (3) occasions in one (1) school year, or any combination thereof. After three (3) truanies in one (1) school year, a student is considered habitually truant. Once a student becomes a truant, or shows early warning signs of habitual truancy, we will initiate various forms of intervention to help improve attendance and remove barriers to missing school. Please see the section on attendance interventions below.

Chronic Absenteeism

A student shall be classified as a chronic truant if the student is absent from school for ten percent (10%) or more of the school days at one school, from the date of enrollment to the current date. Chronic absenteeism is linked with poor student performance, low academic engagement, and increased risk of high school dropout. Many families are surprised to learn that missing just two (2) days of school per month can lead to a student becoming chronically absent. We are committed to partnering with families to prevent chronic absenteeism. When a student becomes, or is at risk of becoming chronically absent, we will initiate various forms of intervention to help improve attendance and remove barriers to missing school.

Procedures for Excessive Unexcused Absences and Tardies

If students struggle to meet our expectations of attendance, to embody our core values and to develop into responsible, college-bound community members, KIPP Schools implements logical consequences where there is a focus on accountability, repairing harm and reintegrating students into the school community.

The objective of our Attendance Policy is for students to attend school consistently so that they are advancing towards their academic goals and are contributing members of our school community. Like our tiered plan, we have increasing levels of interventions to support students and families in meeting this objective:

<p>Phone Call 1 UA/UT30</p>	<p>When a student obtains either one (1) unexcused absence (“UA”) or one (1) unexcused truant tardy (“UT30”), the parents/guardians will receive a phone call alerting them to their child’s absence or tardiness.</p>
<p>Written Notice 3 UAs/UT30s</p>	<p>When a student obtains either three (3) unexcused absences or three (3) unexcused truant tardies, or a combination thereof, the parents/guardians will receive a written notice alerting them of their child’s repeated absences and/or tardiness. This letter must be signed by the parent/guardian and returned to the School. This letter shall also be accompanied by a copy of this Attendance Policy. This letter, and all subsequent letter(s) sent home, shall be sent by Certified Mail, return receipt requested, or some other form of mail that can be tracked.</p>
<p>Trigger 1: Formal Written Notice and Attendance Review Meeting 5 UAs/UT30s</p>	<p>When a student obtains either five (5) unexcused absences or five (5) unexcused truant tardies, or a combination thereof, the parents/guardians will receive a Formal Written Notice requesting their attendance at a mandatory meeting with school administrators.</p> <p>Both the student and a parent/guardian must attend this meeting. The goal for this Attendance Review Meeting (“ARM”) is for the student and family, working with school staff, to produce a plan of action to ensure that the student’s attendance is in accordance with school and state requirements. If the parent/guardian fails to attend the meeting, the matter will be escalated to KIPP’s Regional Administration Team who will work with the School Leader to determine an appropriate response on a case-by-case basis. Lack of response to either the School administration or regional administration may risk the student’s enrollment in the School.</p>
<p>Trigger 2: Formal Written Notice and Attendance Review Meeting 10 UAs/UT30s</p>	<p>When a student obtains either ten (10) unexcused absences or ten (10) unexcused truant tardies, or a combination thereof, the parents/guardians will be sent another Formal Written Notice requesting they attend a mandatory Attendance Review Meeting with the Assistant Principal and/or other School Administrators.</p> <p>The goal for this Attendance Review Meeting is for the student and family, working with School staff, to produce a plan of action to ensure that the student’s attendance is in accordance with school and state requirements. If the parent fails to attend the meeting the matter will be escalated to KIPP’s Regional Administration Team who will work with the School Leader to determine an appropriate response on a case-by-case basis. Lack of response to either the School administration or regional administration may risk the student’s enrollment in the School.</p>
<p>Trigger 3: Formal Written Notice, Attendance Review Contract 15 UAs/UT30s</p>	<p>When a student obtains either fifteen (15) unexcused absences or fifteen (15) unexcused truant tardies, or a combination thereof, the parents/guardians will be sent a Formal Written Notice inviting them to a mandatory meeting with the School Leader and other KIPP Bay Area Public Schools administrators.</p> <p>The Attendance Review Team, comprised of the student, parent(s)/guardian(s), School Leader and KIPP Bay Area Public School regional administrators, will discuss the absence problem with the Parent/Guardian to work on solutions, develop strategies, discuss appropriate support services for the student and his/her family, and establish an agreed upon contract to resolve the attendance issue.</p> <ul style="list-style-type: none"> ● The Attendance Review Team shall direct the parent/guardian that no further unexcused absences or tardies can be tolerated. ● The parent shall be required to sign a contract formalizing the agreement by the parents to improve the child’s attendance or face additional administrative action. The contract will identify the corrective actions required in the future, and indicate that the Attendance Review Team shall have the authority to order consequences as necessary to improve the student’s attendance at school, including but not limited to one or more of the following for non-compliance with the terms of the contract: Parent/guardian to attend school with the child for one day; Student retention; After school detention program; Required school counseling; Loss of field trip privileges; Loss of school store privileges; Loss of school event privileges; Required remediation plan as set by the Attendance Review Team; Notification to the District Attorney or Child Protective Services.

	<ul style="list-style-type: none"> • The Attendance Review Team may discuss other school placement options. • Notice of action recommended by the Attendance Review Team will be provided in writing to the parent/guardian.
Potential Disenrollment Action	<p>If the conditions of the Attendance Review Team contract are not met, the student may incur additional administrative action up to and including disenrollment from the school, consistent with the Involuntary Removal Process described below. If the student is disenrolled after the Involuntary Removal Process has been followed, a notification will be sent within thirty (30) days to the student’s last known district of residence.</p> <p>For all communications set forth in this process, the school will use the contact information provided by the parent/guardian in the registration packet. It is the parent’s or guardian’s responsibility to update the school with any new contact information.</p> <p>If the student is absent ten (10) or more consecutive school days without valid excuse and parent/guardian cannot be reached at the number or address provided in the registration packet and does not otherwise respond to the school’s communication attempts, as set forth above, the student will be in violation of the contract, and the Attendance Review Team will recommend that the student be disenrolled in compliance with the Involuntary Removal Process described below.</p>

Involuntary Removal Process

No student shall be involuntarily removed by KIPP Schools for any reason unless the parent or guardian of the student has been provided written notice of intent to remove the student no less than five (5) school days before the effective date of the action (“Involuntary Removal Notice”). The written notice shall be in the native language of the student or the student’s parent or guardian or if the student is a foster child or youth or a homeless child or youth, the student’s educational rights holder. The Involuntary Removal Notice shall include the charges against the pupil and an explanation of the pupil’s basic rights including the right to request a hearing before the effective date of the action. The hearing shall be led by KIPP Bay Area Regional Administrative Team. If the student’s parent, guardian, or educational rights holder requests a hearing, the student shall remain enrolled and shall not be removed until KIPP Schools issues a final decision. As used herein, “involuntarily removed” includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions or expulsions pursuant to the KIPP Schools’ suspension and expulsion policy.

Upon parent/guardian request for a hearing, KIPP Schools will provide notice of hearing, through which the pupil has a fair opportunity to present testimony, evidence, and witnesses and confront and cross-examine adverse witnesses, and at which the pupil has the right to bring legal counsel or an advocate. The notice of hearing shall be in the native language of the student or the student’s parent or guardian or, if the student is a foster child or youth or a homeless child or youth, the student’s educational rights holder and shall include a copy of the KIPP Schools' expulsion hearing process.

If the parent/guardian is nonresponsive to the Involuntary Removal Notice, the Student will be disenrolled as of the effective date set forth in the Involuntary Removal Notice. If parent/guardian requests a hearing and does not attend on the date scheduled for the hearing the Student will be disenrolled effective the date of the hearing.

If as a result of the hearing the student is disenrolled, notice will be sent to the student’s last known district of residence within thirty (30) days.

A hearing decision not to disenroll the student does not prevent KIPP Schools from making a similar recommendation in the future should student truancy continue or reoccur.

Referral to Appropriate Agencies or County District Attorney

It is the school’s intent to identify and remove all barriers to the student’s success, and the school will explore every possible option to address student attendance issues with the family. For any unexcused absence, the school may refer the family to appropriate school-based and/or social service agencies.

If a child’s attendance does not improve after an Attendance Review Team contract has been developed according to the procedures above, or if the parents fail to attend a required Attendance Review Team meeting, the school shall notify the District’s Attorney’s office, which then may refer the matter for prosecution through the court system. Students 12 years of age and older may be referred to the juvenile court for adjudication.

Non-Discrimination

These policies will be enforced fairly, uniformly, and consistently without regard to the characteristics listed in Education Code Section 220 (actual or perceived disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in Section 422.55 of the Penal Code or association with an individual who has any of the aforementioned characteristics).

Acceleration and Retention Policy

KIPP expects students to progress through each grade within one school year. To accomplish this, instruction should accommodate the varying interests, learning styles, and growth patterns of individual students and include strategies for addressing academic gaps when needed. Students shall progress through grade levels by demonstrating growth and mastery in learning and meeting grade-level standards of expected student achievement.

Acceleration

When a student's academic mastery vastly exceeds grade-level standards, the School Leader or designee (the "School Leader") may recommend a student for acceleration into a higher section of the particular course (e.g. 6th grade Language Arts instead of 5th grade Language Arts). The student's social and emotional growth shall be taken into consideration in making a determination to accelerate a student.

Retention

When a student's academic mastery is vastly below grade-level standards, the School Leader may recommend a student for retention into a content course section more appropriate for the student's level (e.g. 5th grade Language Arts instead of 6th grade Language Arts).

As early as possible in the school year and in students' school tenure, the School Leader shall identify students who should be retained for an entire grade level and who are at risk of being retained in accordance with law and Board policy.

The following indicators shall be used when making retention decisions: the student's grades, overall classroom progress and performance, and other indicators of academic achievement such as national, state, and KIPP placement assessments, and portfolios of student work. Additional factors to be considered shall be academic, physical, social, and emotional readiness for the next grade.

Decisions about retention of Special Education students will be based on the criteria of the student's IEP and performance level.

Students will not be retained more than 2 times during their KIPP tenure. Students can be retained up to 2 non-consecutive years throughout their K-12 experience.

When a student is recommended for retention or is identified as being at risk for retention, the School Leader shall ensure opportunities for instructional support to assist the student in overcoming his/her academic deficiencies. Such opportunities may include but are not limited to tutorial programs, after-school programs, summer and school programs.

Identification of Students for Retention

If a student is identified as performing below the minimum standard for promotion, the student shall be retained in his/her current grade level unless the student's regular classroom/homeroom teacher or grade level teaching team determines that retention is not the appropriate intervention for the student's academic deficiencies. Students will not be retained two consecutive years.

Parent Notification of Risk of Retention

When a student is identified as being at risk of retention, the School Leader or designee shall notify the student's parent/guardian at the earliest time possible and provide a copy of the region's retention policy.

Appeals Process

The burden shall be on the appealing party to show why the School Leader's decision should be overruled. To appeal a School Leader's decision, the appealing party shall submit a written request to the Chief of Schools or designee (the "Chief of Schools") specifying the reasons why the School Leader's decision should be overruled. The appeal must be initiated within 10 school days of the determination of retention or promotion. The School Leader shall be provided an opportunity to state orally and/or in writing the criteria on which their decision was based.

Within 30 days of receiving the request, the Chief of Schools shall determine whether or not to overrule the School Leader's decision. Prior to making this determination, the Chief of Schools or designee may meet with the appealing party and the School Leader. If the

Chief of Schools determines that the appealing party has overwhelmingly proven that the School Leader’s decision should be overruled, the Chief of Schools shall overrule the School Leader’s decision.

Special Education Annual Notice and Policy

Special education is an individualized education program designed to meet the unique needs of any student with a disability who qualifies for special education. Special education services may include specialized instruction, related services such as speech or occupational therapy, equipment, assistive technology, and anything else identified by the IEP team to enable your child to make progress in his or her regular education program. These services are available to children and youth through age 21 (inclusive) determined to be eligible for special education.

The IEP team is the team that guides the special education process, from identification (eligibility) to monitoring student progress. The IEP team membership may vary, depending on the purpose; however, parental input is always essential. If your child requires special education and related services because of a disability, you will be involved in the decisions about identification, assessment, or educational placement of your child and other matters relating to your child’s FAPE (Free Appropriate Public Education). KIPP Schools provide special education instruction and related services in accordance with the Individuals with Disabilities in Education Improvement Act (“IDEIA”), Education Code requirements, and applicable policies and procedures of the SELPA (SMCOE SELPA for KIPP Valiant and EDCOE SELPA for all other schools)

KIPP will ensure that your child’s special education services are provided in the least restrictive environment. This means your child will receive special education services in an educational setting with non-disabled students his or her own age, as long as your child’s specific needs can be met there. KIPP embraces inclusive education—that is, the participation of all students, including those with disabilities, limited English proficiency, identified gifts and talents, and other special needs—in the general education program, to the maximum extent appropriate in light of the child’s unique needs.

KIPP’s full policy regarding special education (Section 504 Policy) is available online or from the school office. For more information about special education at your school, please refer to the Parent Handbook for Special Education.

Child Find Annual Notice and Policy

Child Find is an ongoing process used by KIPP to identify children and youth who may be eligible to receive special education and related services because they have developmental delays or disabilities. KIPP is responsible for locating, identifying, assessing, and evaluating (with parental consent) students who may have a disability to ensure they receive needed special education and related services. Every child with a disability is entitled to a free appropriate public education (FAPE) designed to meet the child’s individual needs. KIPP will follow all applicable federal and state laws, including the Individuals with Disabilities Education Act (“IDEA”), 20 U.S.C. § 1400 (2004). If you have a concern about your child, contact your child’s KIPP School Leader to request complete information about Child Find. The Child Find process may lead to the formation of a Student Success Team to consider interventions and supports that would benefit your child, or to formal assessment for the identification of a disability. If the SST team recommends assessment for a possible disability, an Individualized Education Program (IEP) team, which always includes the child’s parents, will be formed to guide the process to determine if your child qualifies for special education and related services.

Sexual Health Education Annual Notice and Policy (Grade Levels 7-12)

A Parent or guardian of a student has the right to excuse their child from all or part of comprehensive sexual health education, HIV prevention education, and assessments related to that education through a passive consent (“opt-out”) process. KIPP does not require active parental consent (“opt-in”) for comprehensive sexual health education and HIV prevention education. Parents and guardians may:

- a. Inspect written and audiovisual educational materials used in comprehensive sexual health education and HIV prevention education.
- b. Excuse their child from participation in comprehensive sexual health education and HIV prevention education in writing to KIPP.
- c. Be informed whether the comprehensive sexual health education or HIV/AIDS prevention education will be taught by KIPP personnel or outside consultants. When KIPP chooses to use outside consultants or to hold an assembly with guest speakers to teach comprehensive sexual health education or HIV/AIDS prevention education, be informed of:
- d. The date of the instruction
- e. The name of the organization or affiliation of each guest speaker
- f. Request a copy of Education Codes 51930 through 51939.

Anonymous, voluntary, and confidential research and evaluation tools to measure students’ health behaviors and risks may be

administered to any student in grades seven (7) to twelve (12), inclusive. A parent or guardian has the right to excuse their child from the test, questionnaire, or survey (“opt-out”). Parents or guardians shall be notified in writing that this test, questionnaire, or survey is to be administered, given the opportunity to review the test, questionnaire, or survey if they wish, notified of their right to excuse their child from the test, questionnaire, or survey, and informed that in order to excuse their child they must state their request in writing to KIPP.

A student may not attend any class in comprehensive sexual health education or HIV/AIDS prevention education, or participate in any anonymous, voluntary, and confidential test, questionnaire, or survey on student health behaviors and risks, if the school has received a written request from the student’s parent or guardian excusing the student from participation. An alternative educational activity shall be made available to students whose parents or guardians have requested that they not receive the instruction or participate in the test, questionnaire, or survey.

Annual Notice: Statewide Testing

California students take several mandated statewide tests. These tests provide parents/guardians, teachers, and educators with information about how well students are learning and becoming college and career ready. The test results may be used for local, state, and federal accountability purposes.

The California Assessment of Student Performance and Progress (CAASPP) tests consist of the following:

Smarter Balanced Assessment Consortium Assessments (SBAC)

The Smarter Balanced computer adaptive assessments are aligned with the Common Core State Standards (CCSS). English language arts/literacy (ELA) and mathematics tests are administered in grades three through eight and grade eleven to measure whether students are on track to college and career readiness. In grade eleven, results from the ELA and mathematics assessments can be used as an indicator of college readiness.

California Science Tests (CAST)

The computer-based CAST measures students’ achievement of the California Next Generation Science Standards (CA NGSS) through the application of their knowledge and skills of the Science and Engineering Practices, Disciplinary Core Ideas, and Crosscutting Concepts. The CAST is administered to all students in grades five and eight and once in high school (i.e., grade ten, eleven, or twelve).

California Alternate Assessments (CAAs)

Only eligible students—students whose individualized education program (IEP) identifies the use of alternate assessments—may participate in the administration of the CAAs. Test examiners administer the computer-based CAAs for ELA, mathematics, and science one-on-one to students. Students in grades three through eight and grade eleven will take the CAA for ELA and mathematics. Test items developed for ELA and mathematics are aligned with the CCSS and are based on the Core Content Connectors.

Students in grades five and eight and once in high school (i.e., grade ten, eleven, or twelve) will take the CAA for Science based on alternate achievement standards derived from the CA NGSS. Students taking the CAA for Science will take three embedded performance tasks in spring 2019.

Pursuant to California Education Code Section 60615, parents/guardians may annually submit to the school a written request to excuse their child from any or all of the CAASPP assessments.

English Language Proficiency Assessments for California

The ELPAC is aligned with the 2012 California English Language Development Standards. It consists of two separate English Language Proficiency (ELP) assessments: one for the initial identification of students as English learners and the other for the annual summative assessment to identify students’ English language proficiency level and to measure their progress in learning English.

Physical Fitness Test

The physical fitness test for students in California schools is the FitnessGram®. The main goal of the test is to help students in starting lifelong habits of regular physical activity. Students in grades five, seven, and nine take the fitness test.

Annual Notice: English Learners

The Charter School is committed to the success of its English Learners and support will be offered both within academic classes and in supplemental settings for students who need additional support for English language learning. The Charter School will meet all applicable legal requirements for English Learners as they pertain to annual notification to parents, student identification, placement, program options, English Learners and core content instruction, teacher qualifications and training, reclassification to fluent English proficient status, monitoring and evaluating program effectiveness, and standardized testing requirements. The Charter School will implement policies to assure proper placement, evaluation, and communication regarding English Learners and the rights of students and parents.

Annual Notice: Foster Youth

The Charter School has adopted a policy governing the education of foster youth, consistent with state and federal law. A copy of the complete Policy is available upon request at the main office.

Homeless Youth Annual Notice and Policy

The McKinney-Vento Act is designed to ensure that each homeless student has equal access to the same free, appropriate public education as other students. KIPP have an obligation to ensure that homeless children have access to the same free and appropriate public education provided to other children enrolled at a school within KIPP. Each school shall provide homeless students with access to education and other services necessary for these students to meet the same challenging performance standards as other students.

The term “homeless children and youth” means individuals who lack a fixed, regular and adequate nighttime residence due to economic hardship. It includes children and youths who (42 USC 11434(a)):

1. Are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals;
2. Have a primary nighttime residence that is a public or private place not designed for or ordinarily used as regular sleeping accommodations for human beings;
3. Are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings;
4. Migratory children and unaccompanied youth (youth not in the physical custody of a parent or guardian) may be considered homeless if they meet the above definition of “homeless.”

Homeless status is determined in cooperation with the parent or guardian. In the case of unaccompanied youth, status is determined by the School Liaison. Please contact your School Leader for the contact information on the designated School Liaison for your school. The School Liaison shall ensure that (42 U.S.C. 11432(g)):

1. Homeless students are identified by school personnel and through coordination activities with other entities and agencies.
2. Homeless students enroll in, and have a full and equal opportunity to succeed at KIPP.
3. Homeless students and families receive educational services for which they are eligible, including services through Head Start programs (including Early Head Start programs) under the Head Start Act, early intervention services under part C of the Individuals with Disabilities Education Act, any other preschool programs administered by KIPP, if any, and referrals to health care services, dental services, mental health services and substance abuse services, housing services, and other appropriate services.
4. Parents/guardians are informed of the educational and related opportunities available to their children and are provided with meaningful opportunities to participate in the education of their children.
5. Public notice of the educational rights of homeless children is disseminated at places frequented by parents or guardians of such youths, and unaccompanied youths, including schools, shelters, public libraries, and soup kitchens, and in a manner and form understandable to the parents and guardians of homeless youth and unaccompanied youth.
6. Enrollment/admissions disputes are mediated in accordance with law, KIPP charter, and Board policy.
7. Parents/guardians and any unaccompanied youth are fully informed of all transportation services, as applicable.
8. School personnel providing services receive professional development and other support.

9. The School Liaison collaborates with State coordinators and community and school personnel responsible for the provision of education and related services to homeless children and youths.
10. Unaccompanied youth are enrolled in school; have opportunities to meet the same challenging State academic standards as the State establishes for other children and youth; and are informed of their status as independent students under section 480 of the Higher Education Act of 1965 and that the youths may obtain assistance from the School Liaison to receive verification of such status for the purposes of the Free Application for Federal Student Aid described in section 483 of the Act.

For any homeless student who enrolls at a KIPP Bay Area Public Schools school, a copy of the School's complete policy shall be provided at the time of enrollment and at least twice annually.

Homeless students shall not be segregated into a separate school or program based on their status as homeless, nor shall homeless students be stigmatized in any way. The School Leader shall ensure that placement decisions for homeless students are based on the student's best interest as defined by law and administrative regulations.

In the event that KIPP provides transportation services to all KIPP students, KIPP shall provide comparable transportation services to each homeless child or youth attending KIPP, as noted above. (42 U.S.C. § 11432(g)(4)). If KIPP does not otherwise provide transportation services to all KIPP students, KIPP shall ensure that transportation is provided for homeless students to and from the KIPP Bay Area School of attendance, at the request of the parent/guardian (or liaison). (42 U.S.C. § 11432(g)(1)(J)).

Parents/guardians with questions about the designation of a homeless status should contact the school.

Independent Study Information

The Board of Directors of KIPP Bay Area Public Schools (the "Board") authorizes independent study as an optional alternative instructional strategy for the purpose of allowing students to achieve curriculum objectives and fulfill graduation requirements during periods of extended absence (minimum of 5 consecutive days). Extended absences may include, but are not limited to, travel for personal/family matters, medical leave, and bereavement leave. Independent study is available for all students currently enrolled at KIPP, Transitional Kindergarten through 12th grade. Independent study requires a commitment from both parent/guardian and student at all grade levels. As a student gets older, he/she should assume a greater portion of the responsibility involved. For each independent study request, the School Leader shall determine that the prospective independent study student is prepared to meet KIPP's requirements for independent study. The School Leader has the right to deny requests should it be determined that independent study is not in the best academic interest of the student. The full Independent Study Policy is available on the KIPP website, or through the school office.

Mathematics Course Sequence and Placement Policy (Grades 6 - 10)

KIPP Bay Area Public Schools is committed to graduating 100% of students college-ready, which requires developing strong foundational mathematical knowledge and skills, offering a course sequence that satisfies the UC "a-g" subject requirement, "c" for mathematics, and providing opportunities for high achieving students to take an Advanced Placement mathematics course. KIPP has established a standard mathematics course sequence for all students in grades 6 through 10 with opportunities for acceleration in high school. Parents and guardians who have questions about mathematics placement and course sequencing can find more information on our website, or through the school office.

Course and Credit Transferability to and from a KIPP High School Information

Parents/guardians will be notified of the acceptability of credit for transferring into or out of KIPP High School through parent meetings, letters, and emails. The policy adheres to these principles:

Parent Notification: Course Eligibility for College

- KIPP's High School graduation requirements are based on the University of California A-G requirements, and all courses will be submitted for approval by the University of California.
- Using PowerSchool, or a similar student information system, the parents and students at KIPP High School will receive specific status updates each year, regarding course eligibility: when KIPP High School proposes courses, their prospective eligibility to the University of California, and when the courses are approved. This will occur via school materials and mailed letters. In addition, the charter authorizer will be provided copies of courses approved by the University of California.

Parent Notification: Credit Transferability

- Students seeking to transfer into a KIPP High School may be notified of their prospective credit transferability in person and via a detailed, mailed letter. KIPP proposes the following for credit transferability for all students transferring to a KIPP High School:

Course Transferability

Course at Former School	Credit Granted at KIPP High School
A grade of C- or higher in a UC-approved course at a previous high school.	Full credit at KIPP High School.
A grade of C- or higher in non-UC approved course at previous high school.	Full credit upon KIPP High School's review of the course description, and determination that the course is comparable with a like KIPP High School course.
A grade of D+ or lower in any course at previous school.	No credit granted.

- If a course from a student's previous school is accepted as full credit at a KIPP High School, students must still meet KIPP's High School graduation requirements, even if these requirements are higher than their previous school. Students may apply for waivers from a KIPP High School on a case-by-case basis.
- It is expected that local schools will give full course credit to all University of California approved courses, and will give due consideration to elective courses that are offered at a KIPP High School, but are not part of KIPP's High School graduation requirements or approved by the University of California. Parents may be notified of these matters via parent meetings, letters, and emails. In addition, information on credit transferability from a KIPP High School may be posted on the school's website.

Annual Notice: Animal Dissections (High School)

Students at the Charter School may perform animal dissections as part of the science curriculum. Any pupil who provides his or her teacher with a written statement, signed by his or her parent/guardian, specifying the pupil's moral objection to dissecting or otherwise harming or destroying animals, or any parts thereof, may be excused from such activities if the teacher believes that an adequate alternative education project is possible. The alternative education project shall require a comparable time and effort investment by the pupil. It shall not, as a means of penalizing the pupil, be more arduous than the original education project. The pupil shall not be discriminated against based upon his or her moral objection to dissecting or otherwise harming or destroying animals, or any parts thereof.

Annual Notice: Cal Grant Program (High School)

KIPP Bay Area High Schools are required by state law to submit the GPA of all high school seniors by Oct. 1 of each year, unless the student over age 18 or parent/guardian for those under 18 opt-out. Students currently in eleventh (11th) grade will be deemed a Cal Grant applicant, unless the Student (or Parent, if the Student is under 18) has opted out by or before February 1 .

Student Behavior and Discipline

Student Discipline - Suspension and Expulsion

Vision Statement Regarding Discipline

We recognize that certain groups have been historically suspended and expelled at a disproportionately higher rate. We aspire to engage in a fair and equitable process in addressing student behavior, regardless of socio-economic status or any protected class status, including among other things, race, gender, ethnicity, sexual orientation, disability, national origin, and/or immigration status, in order to eliminate this disparity.

We Believe

- We Believe suspensions and expulsions should be used only when student and/or staff safety is a concern.
- We Believe that if a suspension is warranted, it should never be implemented in isolation, but with a combination of consequences and supports to reintegrate the student back into the school community.
- We Believe that in more severe situations, suspension length should be based on time needed by the school to address the issue fully and get the student back into the school community as soon as possible.
- We Believe expulsions should generally be used after all possible supports and consequences that the school can provide have been *exhausted*, except in the most egregious instances.

Pupil Suspension & Expulsion Policy

KIPP Bay Area Public Schools has established a Pupil Suspension and Expulsion Policy in order to promote learning and protect the safety and well-being of all students at our schools. In creating this policy, KIPP has reviewed Education Code Section 48900 et seq., which describes the noncharter schools' list of offenses and procedures to establish its list of offenses and procedures for suspensions and expulsions. The language that follows closely mirrors the language of Education Code Section 48900 et seq., but it is not intended that the Education Code be followed. KIPP is committed to annual review of policies and procedures surrounding suspensions and expulsions and, as necessary, modification of the lists of offenses for which students are subject to suspension or expulsion.

When the Policy is violated, it may be necessary to suspend or expel a student from regular classroom instruction. This policy shall serve as KIPP' policy and procedures for student suspension and expulsion and it may be amended from time to time without the need to amend the charter so long as the amendments comport with legal requirements.

Charter School staff shall enforce disciplinary rules and procedures fairly and consistently among all students. This Policy and its Procedures are printed and distributed as part of the Student Handbook and clearly describe discipline expectations.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of the Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

The Charter School administration shall ensure that students and their parents/guardians are notified in writing upon enrollment of all discipline policies and procedures. The notice shall state that this Policy and Procedures are available on request at the School Leader's office.

Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

We recognize that students in grades TK-4 are in the earliest stages of development. As a result, we do not suspend students in these grades, except in the most extreme circumstances, where safety is a concern. We believe that there are multiple approaches we can take to address situations with these students that does not involve suspending them from school.

Suspension should also be a last resort for grades 5-12 and is only considered when all other options have been exhausted. When suspension is necessary, however, KIPP requires all schools to have a reintegration process that successfully supports and reconnects the student(s) back into the school community.

A student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability pursuant to the Individuals with Disabilities Education Improvement Act of 2004 ("IDEA") or who is qualified for services under Section 504 of the Rehabilitation Act of 1973 ("Section 504") is subject to the same grounds for suspension and expulsion and is accorded the same due process procedures applicable to general education students except when federal and state law mandates additional or different procedures. The Charter School will follow all applicable federal and state laws including but not limited to the California Education Code, when imposing any form of discipline on a student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according due process to such students.

No student shall be involuntarily removed by the Charter School for any reason unless the parent or guardian of the student has been provided written notice of intent to remove the student no less than five schooldays before the effective date of the action. The written notice shall be in the native language of the student or the student's parent or guardian or, if the student is a foster child or youth or a homeless child or youth, the student's educational rights holder, and shall inform him or her of the right to initiate the procedures specified below for suspensions, before the effective date of the action. If the student's parent, guardian, or educational

rights holder initiates the procedures specified below for suspensions, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision. As used herein, “involuntarily removed” includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions or expulsions pursuant to the suspension and expulsion procedures described below.

A. Grounds for Suspension or Expulsion

A student may be suspended or expelled for prohibited misconduct if the act is related to school activity or school attendance occurring at the school or at any other school or a school-sponsored event at any time including but not limited to: a) while on school grounds; b) while going to or coming from school; c) during the lunch period, whether on or off the school campus; d) during, going to, or coming from a school-sponsored activity.

1. **Discretionary Suspension Offenses:** Students in grades 5-12 may be suspended for any of the following acts when it is determined the pupil:
 - a. Caused, attempted to cause, or threatened to cause physical injury to another person.
 - b. Willfully used force or violence upon the person of another, except in self-defense.
 - c. Unlawfully possessed, used, sold or otherwise furnished, or was under the influence of any controlled substance (as defined in Health and Safety Code Sections 11053-11058), alcoholic beverage, or intoxicant of any kind.
 - d. Unlawfully offered, arranged, or negotiated to sell any controlled substance (as defined in Health and Safety Code Sections 11053-11058), alcoholic beverage or intoxicant of any kind, and then sold, delivered or otherwise furnished to any person another liquid substance or material and represented same as controlled substance, alcoholic beverage or intoxicant.
 - e. Committed or attempted to commit robbery or extortion.
 - f. Caused or attempted to cause damage to school property or private property, which includes, but is not limited to, electronic files and databases.
 - g. Stole or attempted to steal school property or private property, which includes, but is not limited to, electronic files and databases.
 - h. Possessed or used tobacco or products containing tobacco or nicotine products, including but not limited to cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets and betel. This section does not prohibit the use of his or her own prescription products by a pupil.
 - i. Committed an obscene act or engaged in habitual profanity or vulgarity.
 - j. Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia as defined in Health and Safety Code Section 11014.5.
 - k. Knowingly received stolen school property or private property, which includes, but is not limited to, electronic files and databases.
 - l. Possessed an imitation firearm, i.e.: a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.
 - m. Committed or attempted to commit a sexual assault as defined in Penal Code Sections 261, 266c, 286, 288, 288a or 289, or committed a sexual battery as defined in Penal Code Section 243.4.
 - n. Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness.
 - o. Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma.
 - p. Engaged in, or attempted to engage in, hazing. For the purposes of this policy, “hazing” means a method of initiation or preinitiation into a pupil organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective pupil. For purposes of this policy, “hazing” does not include athletic events or school-sanctioned events.
 - q. Made terroristic threats against school officials and/or school property, which includes, but is not limited to, electronic files and databases.
 - i. For purposes of this section, “terroristic threat” shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars (\$1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for his or her own safety or for his or her immediate family’s safety, or for the protection of school property, which includes, but is not

limited to, electronic files and databases, or the personal property of the person threatened or his or her immediate family.

- r. Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this section, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment.
- s. Caused, attempted to cause, threatened to cause or participated in an act of hate violence, as defined in subdivision (e) of Section 233 of the Education Code.
- t. Intentionally harassed, threatened or intimidated school personnel or volunteers and/or a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder and invading the rights of either school personnel or volunteers and/or student(s) by creating an intimidating or hostile educational environment.
- u. Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act.
 - i. "Bullying" means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, and including one or more acts committed by a student or group of students which would be deemed hate violence or harassment, threats, or intimidation, which are directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following:
 - 1. Placing a reasonable student (defined as a student, including, but is not limited to, a student with exceptional needs, who exercises average care, skill, and judgment in conduct for a person of his or her age, or for a person of his or her age with exceptional needs) or students in fear of harm to that student's or those students' person or property.
 - 2. Causing a reasonable student to experience a substantially detrimental effect on his or her physical or mental health.
 - 3. Causing a reasonable student to experience substantial interference with his or her academic performance.
 - 4. Causing a reasonable student to experience substantial interference with his or her ability to participate in or benefit from the services, activities, or privileges provided by the Charter School.
 - ii. "Electronic Act" means the creation or transmission originated on or off the schoolsite, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager, of a communication, including, but not limited to, any of the following:
 - 1. A message, text, sound, video, or image.
 - 2. A post on a social network Internet Web site including, but not limited to:
 - 3. Posting to or creating a burn page. A "burn page" means an Internet Web site created for the purpose of having one or more of the effects as listed in subparagraph (I) above.
 - 4. Creating a credible impersonation of another actual pupil for the purpose of having one or more of the effects listed in subparagraph (I) above. "Credible impersonation" means to knowingly and without consent impersonate a pupil for the purpose of bullying the pupil and such that another pupil would reasonably believe, or has reasonably believed, that the pupil was or is the pupil who was impersonated.
 - 5. Creating a false profile for the purpose of having one or more of the effects listed in subparagraph (I) above. "False profile" means a profile of a fictitious pupil or a profile using the likeness or attributes of an actual pupil other than the pupil who created the false profile.
 - iii. An act of cyber sexual bullying.
 - 1. For purposes of this clause, "cyber sexual bullying" means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a pupil to another pupil or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects described in subparagraphs (i) to (iv), inclusive, of paragraph (I). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.
 - 2. For purposes of this clause, "cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.
 - iv. Notwithstanding subparagraphs (I) and (II) above, an electronic act shall not constitute pervasive conduct

solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.

- v. A pupil who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a pupil who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to subdivision (1)(a)-(b).
 - w. Possessed, sold, or otherwise furnished any knife unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the School Leader or designee's concurrence.
2. **Non-Discretionary Suspension Offenses:** Students must be suspended and recommended for expulsion for any of the following acts when it is determined the pupil:
- a. Possessed, sold, or otherwise furnished any firearm, explosive, or other dangerous object unless, in the case of possession of any object of this type, the students had obtained written permission to possess the item from a certificated school employee, with the School Leader or designee's concurrence.
- 3.
- a. Caused, attempted to cause, or threatened to cause physical injury to another person.
 - b. Willfully used force or violence upon the person of another, except self-defense.
 - c. Unlawfully possessed, used, sold or otherwise furnished, or was under the influence of any controlled substance, as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage, or intoxicant of any kind.
 - d. Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage or intoxicant of any kind, and then sold, delivered or otherwise furnished to any person another liquid substance or material and represented same as controlled substance, alcoholic beverage or intoxicant.
 - e. Committed or attempted to commit robbery or extortion.
 - f. Caused or attempted to cause damage to school property or private property, which includes, but is not limited to, electronic files and databases.
 - g. Stole or attempted to steal school property or private property, which includes, but is not limited to, electronic files and databases.
 - h. Possessed or used tobacco or products containing tobacco or nicotine products, including but not limited to cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets and betel. This section does not prohibit the use of his or her own prescription products by a pupil.
 - i. Committed an obscene act or engaged in habitual profanity or vulgarity.
 - j. Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code Section 11014.5.
 - k. Knowingly received stolen school property or private property, which includes, but is not limited to, electronic files and databases.
 - l. Possessed an imitation firearm, i.e.: a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.
 - m. Committed or attempted to commit a sexual assault as defined in Penal Code Sections 261, 266c, 286, 288, 288a or 289, or committed a sexual battery as defined in Penal Code Section 243.4.
 - n. Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness.
 - o. Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma.
 - p. Engaged in, or attempted to engage in hazing. For the purposes of this subdivision, "hazing" means a method of initiation or preinitiation into a pupil organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective pupil. For purposes of this section, "hazing" does not include athletic events or school-sanctioned events.
 - q. Made terroristic threats against school officials and/or school property, which includes, but is not limited to, electronic files and databases. For purposes of this section, "terroristic threat" shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars (\$1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its

face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for his or her own safety or for his or her immediate family's safety, or for the protection of school property, which includes, but is not limited to, electronic files and databases, or the personal property of the person threatened or his or her immediate family.

- r. Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this section, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual's academic performance or to create an intimidating, hostile, or offensive educational environment.
- s. Caused, attempted to cause, threatened to cause or participated in an act of hate violence, as defined in subdivision (e) of Section 233 of the Education Code.
- t. Intentionally harassed, threatened or intimidated school personnel or volunteers and/or a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder and invading the rights of either school personnel or volunteers and/or student(s) by creating an intimidating or hostile educational environment.
- u. Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act.
 - i. "Bullying" means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, and including one or more acts committed by a student or group of students which would be deemed hate violence or harassment, threats, or intimidation, which are directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following:
 - 1. Placing a reasonable student (defined as a student, including, but is not limited to, a student with exceptional needs, who exercises average care, skill, and judgment in conduct for a person of his or her age, or for a person of his or her age with exceptional needs) or students in fear of harm to that student's or those students' person or property.
 - 2. Causing a reasonable student to experience a substantially detrimental effect on his or her physical or mental health.
 - 3. Causing a reasonable student to experience substantial interference with his or her academic performance.
 - 4. Causing a reasonable student to experience substantial interference with his or her ability to participate in or benefit from the services, activities, or privileges provided by the Charter School.
 - ii. "Electronic Act" means the creation or transmission originated on or off the schoolsite, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager, of a communication, including, but not limited to, any of the following:
 - 1. A message, text, sound, video, or image.
 - 2. A post on a social network Internet Web site including, but not limited to:
 - 3. Posting to or creating a burn page. A "burn page" means an Internet Web site created for the purpose of having one or more of the effects as listed in subparagraph (I) above.
 - 4. Creating a credible impersonation of another actual pupil for the purpose of having one or more of the effects listed in subparagraph (I) above. "Credible impersonation" means to knowingly and without consent impersonate a pupil for the purpose of bullying the pupil and such that another pupil would reasonably believe, or has reasonably believed, that the pupil was or is the pupil who was impersonated.
 - 5. Creating a false profile for the purpose of having one or more of the effects listed in subparagraph (I) above. "False profile" means a profile of a fictitious pupil or a profile using the likeness or attributes of an actual pupil other than the pupil who created the false profile.
 - iii. An act of cyber sexual bullying.
 - 1. For purposes of this clause, "cyber sexual bullying" means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a pupil to another pupil or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects described in subparagraphs (i) to (iv), inclusive, of paragraph (I). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.
 - 2. For purposes of this clause, "cyber sexual bullying" does not include a depiction, portrayal, or

image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.

- iv. Notwithstanding subparagraphs (I) and (II) above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.
 - v. A pupil who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a pupil who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to subdivision (3)(a)-(b).
 - w. Possessed, sold, or otherwise furnished any knife unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the School Leader or designee's concurrence.
4. **Non-Discretionary Expellable Offenses:** Students must be recommended for expulsion for any of the following acts when it is determined pursuant to the procedures below that the pupil:
- a. Possessed, sold, or otherwise furnished any firearm, explosive, or other dangerous object unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the School Leader or designee's concurrence.

If it is determined by the Administrative Panel and/or Board of Directors that a student has brought a firearm or destructive device, as defined in Section 921 of Title 18 of the United States Code, on to campus or to have possessed a firearm or dangerous device on campus, the student shall be expelled for one year, pursuant to the Federal Gun Free Schools Act of 1994. In such instances, the pupil shall be provided due process rights of notice and a hearing as required in this policy.

The term "firearm" means (a) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (b) the frame or receiver of any such weapon; (c) any firearm muffler or firearm silencer; or (d) any destructive device. Such term does not include an antique firearm.

The term "destructive device" means (a) any explosive, incendiary, or poison gas, including but not limited to: (i) bomb, (ii) grenade, (iii) rocket having a propellant charge of more than four ounces, (iv) missile having an explosive or incendiary charge of more than one-quarter ounce, (v) mine, or (vi) device similar to any of the devices described in the preceding clauses.

A. Suspension Procedure

Suspensions shall be initiated according to the following procedures:

I. Conference

Suspension shall be preceded, if possible, by a conference conducted by the School Leader or the School Leader's designee with the student and his or her parent/guardian and, whenever practical, the teacher, supervisor or Charter School employee who referred the student to the School Leader or designee.

The conference may be omitted if the School Leader or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or Charter School personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school or the central office for the purpose of a conference.

At the conference, the pupil shall be informed of the reason for the disciplinary action and the evidence against him or her and shall be given the opportunity to present his or her version and evidence in his or her defense, in accordance with Education Code Section 47605(b)(5)(J)(i). This conference shall be held within two (2) school days, unless the pupil waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a pupil for failure of the pupil's parent or guardian to attend a conference with Charter School officials. Reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil's parent or guardian at the conference.

II. Notice to Parents/Guardians

At the time of the suspension, an administrator or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense committed by the student. In addition, the notice may also state the date and time when the student may return to school. If Charter School officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests

without delay.

III. Suspension Time Limits/Recommendation for Expulsion

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. Upon a recommendation of expulsion by the School Leader or School Leader's designee, the pupil and the pupil's parent/guardian or representative will be invited to a conference to determine if the suspension for the pupil should be extended pending an expulsion hearing. In such instances when the Charter School has determined a suspension period shall be extended, such extension shall be made only after a conference is held with the pupil or the pupil's parents, unless the pupil and the pupil's parents fail to attend the conference.

This determination will be made by the School Leader or designee upon either of the following: 1) the pupil's presence will be disruptive to the education process; or 2) the pupil poses a threat or danger to others. Upon either determination, the pupil's suspension will be extended pending the results of an expulsion hearing.

B. Authority to Expel

As required by Education Code Section 47605(b)(5)(J)(ii), students recommended for expulsion are entitled to a hearing adjudicated by a neutral officer to determine whether the student should be expelled. The procedures herein provide for such a hearing and the notice of said hearing, as required by law.

A student may be expelled following a hearing before a neutral and impartial Administrative Panel, to be assigned by the KIPP Bay Area Public Schools Board. The Administrative Panel shall consist of at least three (3) members who are school leaders, assistant principals, deans, teachers, or regional leaders in KIPP. Administrative Panel members shall not include the teacher of the pupil, staff who have been involved in the alleged incident or investigation, or a Board member of the KIPP Board. The Administrative Panel shall be presided over by a designated neutral hearing chairperson. The Administrative Panel may expel any student found to have committed an expellable offense.

C. Expulsion Procedures

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the Chief of Schools or designee determines that the pupil has committed an expellable offense. The Chief of Schools will convene the Administrative Panel to conduct a hearing upon this determination.

The hearing shall be held in closed session (complying with all pupil confidentiality rules under FERPA) unless the pupil makes a written request for a public hearing in open session three (3) days prior to the date of the scheduled hearing.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the pupil. The notice shall include:

- a) The date and place of the expulsion hearing;
- b) A statement of the specific facts, charges and offenses upon which the proposed expulsion is based;
- c) A copy of the Charter School's disciplinary rules which relate to the alleged violation;
- d) Notification of the student's or parent/guardian's obligation to provide information about the student's status at the Charter School to any other school district or school to which the student seeks enrollment;
- e) The opportunity for the student and/or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor;
- f) The right to inspect and obtain copies of all documents to be used at the hearing;
- g) The opportunity to confront and question all witnesses who testify at the hearing;
- h) The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

D. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses

- a) KIPP may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by the Charter School or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the pupil.
- b) The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five (5) days' notice of his/her scheduled testimony, (b) have

- up to two (2) adult support persons of his/her choosing present in the hearing at the time he/she testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.
- c) KIPP must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.
 - d) At the discretion of the entity conducting the expulsion hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.
 - e) The entity conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.
 - f) The entity conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.
 - g) Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the entity presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The entity conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.
 - h) If one or both of the support persons is also a witness, the Charter School must present evidence that the witness' presence is both desired by the witness and will be helpful to the Charter School. The entity presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.
 - i) The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the courtroom during that testimony.
 - j) Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the pupil being expelled, the complaining witness shall have the right to have his/her testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.
 - k) Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

E. Record of Hearing

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

F. Presentation of Evidence

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. An order by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense.

Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Administrative Panel determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the accused pupil, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public. In addition, if any witness is a minor in any case, the hearing shall be closed for the minor's testimony.

The decision of the Administrative Panel shall be in the form of written findings of fact and a written decision. The decision of the

Administrative Panel is final.

If the Administrative Panel decides not to recommend expulsion, the pupil shall immediately be returned to his/her educational program.

G. Written Notice to Expel

The Chief of Schools or designee, following a decision of the Administrative Panel to expel, shall send written notice of the decision to expel, including the findings of fact, to the student or parent/guardian. This notice shall also include the following:

1. Notice of the specific offense committed by the student;
 - a. Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the Charter School; and
 - b. Notice of the appeal grounds and procedures.

The School Leader or designee shall send a copy of the written notice of the decision to expel to the authorizer. This notice shall include the following:

- a. The student's name; and
- b. The specific expellable offense committed by the student.

Additionally, in accordance with Education Code Section 47605(d)(3), upon expulsion of any student, KIPP shall notify the superintendent of the authorizing school district of the pupil's last known address within 30 days, and shall, upon request, provide that school district with a copy of the cumulative record of the pupil, including a transcript of grades or report card and health information.

H. Disciplinary Records

KIPP shall maintain records of all student suspensions and expulsions at each school. Such records shall be made available to the authorizer upon request.

I. Right to Appeal

If a pupil is expelled from KIPP, the pupil or parent/guardian, within 30 days of the Administrative Panel's decision, may file an appeal with the Grievance Committee of the Board. The Grievance Committee shall hold a hearing within 30 school days following the formal request under this section. The Pupil shall remain expelled during any appeal proceeding, and shall enroll in another educational program pursuant to compulsory education laws, pending the outcome of the appeal process.

The period within which an appeal is to be filed shall be determined from the date an Administrative Panel votes to expel even if enforcement of the expulsion action is suspended and the pupil is placed in an interim alternative educational setting. A pupil who fails to appeal the original action of the Board within the prescribed time may not subsequently appeal a decision of the Administrative Panel.

The review by the Grievance Committee of the decision of the Administrative Panel shall be limited to the following questions:

1. Whether the Administrative Panel acted without or in excess of its jurisdiction
2. Whether there was a fair hearing before the Administrative Panel.
3. Whether there was a prejudicial abuse of discretion in the hearing.
4. Whether there is relevant and material evidence which, in the exercise of reasonable diligence, could not have been produced or which was improperly excluded at the hearing before the Administrative Panel.

If the Grievance Committee finds that relevant and material evidence exists which, in the exercise of reasonable diligence, could not have been produced or which was improperly excluded at the hearing before the administrative panel, it may do either of the following:

1. Remand the matter to the Administrative Panel for reconsideration and may in addition order the pupil reinstated pending the reconsideration.
2. Grant a hearing de novo upon reasonable notice thereof to the pupil and to the Administrative Panel.

If the Grievance Committee determines that the decision of the Administrative Panel is not supported by the written findings, but evidence supporting the required findings exists in the record of the proceedings, the Grievance Committee may remand the matter to the Administrative Panel for adoption of the required findings. This remand for the adoption and inclusion of the required findings shall not result in an additional hearing.

In all other cases, the Grievance Committee shall enter an order either affirming or reversing the decision of the Administrative

Panel. The decision of the Grievance Committee shall be final and binding upon the pupil and upon the Charter School. The pupil and the Charter School shall be notified in writing of the final order of the Grievance Committee.

The Grievance Committee (“Committee”) may act on behalf of the Board in determining student expulsion appeals. The Committee is a Board Committee established under Section 5.10 of the KIPP Bylaws and exercises the authority of the Board subject only to the statutorily enumerated exceptions found in California Corporations Code section 5212(a)(1) – (8). As such, only directors may be members of the Committee. The Committee shall be composed of three (3) directors, and no one who is not a director. The Board shall appoint members of the Committee and a Chair of the Committee to serve for one-year terms. The Chair of the Committee and the Chair of the Board, respectively, shall recommend nominees for appointment to the Committee and appointment as Chair of the Committee, respectively. The Chair of the Board, if not an appointed member of the Committee, will serve as an ex-officio member of the Committee and may attend Committee meetings, but will not have a vote.

The Board may fill vacancies on the Committee from the Board at-large, and anyone on the Board may substitute for a member of the Committee who is unable to participate in a particular grievance/expulsion appeal.

The Board may remove a Committee member from the Committee at any time, with or without cause.

J. Expelled Pupils/Alternative Education

Parents/guardians of pupils who are expelled shall be responsible for seeking alternative education programs including, but not limited to, programs within the County or their school district of residence. Charter school will work together with parent and District to help the student identify a suitable placement.

K. Rehabilitation Plans

Students who are expelled from KIPP shall be given a rehabilitation plan upon expulsion as developed by the Administrative Panel at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one year from the date of expulsion when the pupil may reapply to KIPP for readmission.

L. Readmission

The decision to readmit a pupil or to admit a previously expelled pupil from another school district or charter school shall be in the sole discretion of the Chief of Schools or designee following a meeting with the School Leader and the pupil and parent/guardian or representative to determine whether the pupil has successfully completed the rehabilitation plan and to determine whether the pupil poses a threat to others or will be disruptive to the school environment. The School Leader shall make a recommendation to the Chief of Schools following the meeting regarding his or her determination. The Chief of Schools shall then make a final decision regarding readmission. The pupil’s readmission is also contingent upon the Charter School’s capacity at the time the student seeks readmission.

M. Special Procedures for the Consideration of Suspension and Expulsion or Involuntary Removal of Students with Disabilities

1. Services During Suspension:

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting (which could constitute a change of placement and the student’s IEP would reflect this change), and to progress toward meeting the goals set out in the child’s IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

2. Procedural Safeguards/Manifestation Determination

Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, KIPP, the parent/guardian, and relevant members of the IEP/504 Team shall review all relevant information in the student’s file, including the child’s IEP/504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

- a) If the conduct in question was caused by, or had a direct and substantial relationship to, the child’s disability; or
- b) If the conduct in question was the direct result of the local educational agency’s failure to implement the IEP/504 Plan.

If KIPP, the parent/guardian, and relevant members of the IEP/504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child’s disability.

If KIPP, the parent/guardian, and relevant members of the IEP/504 Team make the determination that the conduct was a manifestation of the child’s disability, the IEP/504 Team shall:

- a) Conduct a functional behavioral assessment and implement a behavioral intervention plan for such child, provided that KIPP had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;
- b) If a behavioral intervention plan has been developed, review the behavioral intervention plan if the child already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and
- c) Return the child to the placement from which the child was removed, unless the parent and KIPP agree to a change of placement as part of the modification of the behavioral intervention plan.

If KIPP, the parent/guardian, and relevant members of the IEP/504 Team determine that the behavior was not a manifestation of the student’s disability and that the conduct in question was not a direct result of the failure to implement the IEP/504 Plan, then KIPP may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

3. Due Process Appeals:

The parent/guardian of a child with a disability who disagrees with any decision regarding placement, or the manifestation determination, or KIPP believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent/guardian or KIPP, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer in accordance with state and federal law, including 20 U.S.C. Section 1415(k), or until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, unless the parent and KIPP agree otherwise.

In accordance with 20 U.S.C. Section 1415(k)(3), if a parent/guardian disagrees with any decision regarding placement, or the manifestation determination, or if KIPP believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, the parent/guardian or KIPP may request a hearing.

In such an appeal, a hearing officer may: (1) return a child with a disability to the placement from which the child was removed; or (2) order a change in placement of a child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of such child is substantially likely to result in injury to the child or to others.

4. Special Circumstances:

KIPP personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The School Leader or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student’s disability in cases where a student:

- a) Carries or possesses a weapon, as defined in 18 U.S.C. Section 930, to or at school, on school premises, or to or at a school function;
- b) Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or
- c) Has inflicted serious bodily injury, as defined by 20 U.S.C. Section 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

5. Interim Alternative Educational Setting:

The student's interim alternative educational setting shall be determined by the student's IEP/504 Team.

6. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to IDEA and who has violated KIPP' disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if KIPP had knowledge that the student was disabled before the behavior occurred.

KIPP shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

- a. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to KIPP supervisory or administrative personnel, or to one of the child's teachers, that the student is in need of special education or related services.
- b. The parent/guardian has requested an evaluation of the child.
- c. The child's teacher, or other KIPP personnel, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the director of special education or to other KIPP supervisory personnel.

If KIPP knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEA-eligible children with disabilities, including the right to stay-put. If KIPP had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. KIPP shall conduct an expedited evaluation if requested by the parent/guardian; however, the student shall remain in the education placement determined by KIPP pending the results of the evaluation.

KIPP shall not be deemed to have knowledge that the student had a disability if the parent/guardian has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

Anti-Bullying Policy

Bullying is a disruptive behavior which interfere with students' ability to learn and negatively affects student engagement, diminishes school safety, and contributes to a hostile school environment. As such, KIPP Schools prohibit any acts of bullying altogether. This policy is inclusive of instances that occur on any area of the school campus, at school-sponsored events and activities, regardless of location, through school-owned technology, and through other electronic means.

As used in this policy, bullying is described as the intentional conduct, including verbal, physical, written communication or cyber-bullying, including cyber sexual bullying, based on the actual or perceived characteristics of disability, pregnancy, gender, gender identity, gender expression, nationality, ancestry, race or ethnicity, immigration and citizenship status, religion, religious affiliation, sexual orientation, childbirth or related medical conditions, marital status, age, or association with a person or group with one or more of these actual or perceived characteristics or any other basis protected by federal, state, local law, ordinance or regulation. In addition, bullying encompasses any conduct described in the definitions set forth in this Policy. Hereafter, such actions are referred to as "misconduct prohibited by this Policy."

"Bullying" means any severe, pervasive, or persistent act or conduct, whether physical, electronic or verbal, including communications made in writing or by means of an electronic act. Bullying includes one or more acts committed by a student group or group of students that may constitute as sexual harassment, hate violence, or creates an intimidating and/or hostile educational environment, directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following

- Place a reasonable student* or students in fear of harm to his or her person or property;
- Causing a reasonable student to experience a substantially detrimental effect on the student's physical or mental health;
- Causing a reasonable student to experience a substantial interference with the student's academic performance or attendance; or
- Causing a reasonable student to experience a substantial interference with the student's ability to participate in or benefit from school activities, services, or privileges; or
- Materially and substantially disrupts the education process or the orderly operation of a school.

* "Reasonable student" is defined as a student, including, but not limited to, an exceptional needs student, who exercises care, skill and judgment in conduct for a person of his or her age, or for a person of his or her age with his or her exceptional needs.

Bullying also occurs when a student or group of students organize a campaign against another student or when a student or group of students maliciously spread rumors about another student.

Cyberbullying is an electronic act that includes the creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images on the Internet, social media, or other technologies using a telephone, computer, or any wireless communication device. Cyberbullying also includes breaking into another person's electronic account and assuming that person's identity in order to damage that person's reputation.

Electronic act means the creation and transmission originated on or off the schoolsite, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager, of a communication, including, but not limited to, any of the following:

1. A message, text, sound, video, or image.
2. A post on a social network Internet Web site including, but not limited to:
 - a. Posting to or creating a burn page. A "burn page" means an Internet Web site created for the purpose of having one or more of the effects as listed in the definition of "bullying," above.
 - b. Creating a credible impersonation of another actual pupil for the purpose of having one or more of the effects listed in the definition of "bullying," above. "Credible impersonation" means to knowingly and without consent impersonate a pupil for the purpose of bullying the pupil and such that another pupil would reasonably believe, or has reasonably believed, that the pupil was or is the pupil who was impersonated.
 - c. Creating a false profile for the purpose of having one or more of the effects listed in the definition of "bullying," above. "False profile" means a profile of a fictitious pupil or a profile using the likeness or attributes of an actual pupil other than the pupil who created the false profile.
3. An act of "Cyber sexual bullying" including, but not limited to:
 - a. The dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a pupil to another pupil or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects described in definition of "bullying," above. A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.
 - b. "Cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.
4. Notwithstanding the definitions of "bullying" and "electronic act" above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.

Preventing Bullying

KIPP Schools employ restorative practices to build healthy school communities. Restorative practices allow for a shift in practice from punitive traditional discipline policies to a culture that is inclusive, build fair processes into decision-making practices, and facilitate students' learning to address the impact of their behavior on others, including the impact of bullying. Restorative practices allow for true accountability, skill building, cooperation, mutual understanding, and respect.

All KIPP Schools students will participate in restorative practices and social-emotional learning curriculum integrated into the school day, which ensures students have the opportunity to be heard, helps them to understand the impact of their actions, teaches them to take responsibility and repair the harms their actions may have caused, and encourages them to see themselves as positive contributing members of a safe and social school community. KIPP Schools believe the benefits of this approach will include a decrease in bullying, and an increase in the number of students who feel comfortable reporting when they are being bullied or suspect another student is being bullied.

Intervening in and Reporting Bullying

Students are encouraged to notify school staff when they are being bullied or suspect that another student is being bullied. In addition, KIPP Schools shall develop means for students to report threats or incidents confidentially and anonymously.

Parents/guardians who believe their student is being bullied, may be bullying others, or who otherwise become aware of acts of bullying should report the incident to school staff.

All staff are expected to provide appropriate supervision to enforce standards of conduct and, if they observe or become aware of misconduct prohibited by this Policy, to intervene as soon as it is safe to do so, call for assistance, and report such incidents. The Board requires staff to follow the procedures in this policy for reporting alleged acts of misconduct prohibited by this Policy.

When appropriate based on the severity or pervasiveness of the bullying, the School Leader or designee shall notify the parents/guardians of students involved. When a report of bullying is submitted, the School Leader shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with Uniform Complaint Procedures.

Investigation and Resolution

Any complaint of bullying shall be investigated and, if determined to be discriminatory, resolved in accordance with law and KIPP Schools' disciplinary and uniform complaint procedures. Depending on the severity of the conduct in question (such as when it includes threats of violence, child pornography or sexually explicit materials, and stalking or hate crimes) school personnel, students, or parents/guardians, should consider involving law enforcement.

If during the investigation, it is determined that a complaint is about nondiscriminatory bullying, the School Leader or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

Any students involved in the alleged episode of bullying shall be given an opportunity to describe the incident from their perspective and begin steps to address the harm, using restorative practices. Staff shall address any reports of bullying according to KIPP Schools' specified restorative practices procedures.

The school leader or school leader's designee may refer any students affected by, witness to, found to have committed, or otherwise involved in an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in restorative justice programming as appropriate.

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with KIPP Schools' policies [See KIPP Bay Area Public Schools Suspension & Expulsion Policy].

****Please see the Uniform Corresponding Title IX, Harassment, and Bullying Complaint Form within the Appendix ****

Technology: Internet and Computer Usage Policy

The Internet and other online resources are provided by KIPP to support instructional programs and appropriate student learning. While the Internet can be a powerful educational tool, it is also an unregulated space that contains materials unsuited to the school setting. For this reason, KIPP will make every reasonable effort to ensure that the resources are used responsibly, and will further require that every student and his/her parent/guardian sign the accompanying **Acceptable Internet Use Agreements** before Internet access is granted. In that agreement, the student and his/her parent/guardian shall agree not to hold KIPP or any KIPP staff responsible for the failure of any technology protection measures, violations of copyright restrictions, or user mistakes or negligence. They shall also agree to indemnify and hold harmless KIPP and KIPP personnel for any damages or costs incurred.

Student and Parent Agreement

It is important to understand that student use of the Internet at KIPP is a privilege. If used properly, this resource can greatly enhance a student's learning experience and provide students with countless hours of exploration. However, anyone who uses the Internet improperly or for purposes inconsistent with the educational program at KIPP may lose all network privileges.

Acceptable and Unacceptable Uses

The intent of KIPP in providing Internet connectivity is to support learning consistent with our academic programs. We expect students to use the Internet to pursue intellectual activities, to access libraries and other resources, and to further their education at KIPP that is consistent with expectations set by the instruction or program. A student's online conduct is ALWAYS subject to the general code of student conduct at KIPP.

Some parts of the Internet contain material that is not suited for students and is not supportive of KIPP' educational activities. Students are not allowed to use the Internet at KIPP to access such materials, including sites containing inappropriate or obscene content. It is likewise improper to use the Internet in any manner that supports any illegal or unethical activity, or for commercial or

for-profit purposes, or for any purpose that conflicts with the mission of KIPP or its status as a California Public School.

To the extent practical, technology protection measures shall be used to block or filter Internet, or other forms of electronic communications, access to inappropriate information. Specifically, blocking shall be applied to visual depictions of material deemed obscene or child pornography, or to any materials deemed harmful to minors. KIPP utilizes robust technology to filter and monitor Internet activity and prevent student exposure to inappropriate materials. However, while KIPP is able to exercise reasonable control over content created and purchased by KIPP, it has limited control over content accessed via the internet and no filtering system is 100% effective. Neither KIPP nor its staff shall be responsible for the failure of any technology protection measures, violations of copyright restrictions, or user mistakes, misuse or negligence. The student and parent/guardian agree not to hold KIPP or any KIPP staff responsible for the failure of any technology protection measures, violations of copyright restrictions, or user mistakes, misuse or negligence. They also agree to indemnify and hold harmless KIPP and KIPP' personnel for any damages or costs incurred.

KIPP' technology, hardware, software and bandwidth are shared and limited resources and all users have an obligation to use those resources responsibly. Students are provided access to the KIPP technology primarily for educational purposes. Students shall not use KIPP technology or equipment for personal activities or for activities that violate school policy or local law. Although the following list is not intended to be comprehensive, it provides a sampling of some of the unacceptable uses of the Internet that could result in the suspension or revocation of a student's online privileges:

- Using the Internet for any illegal activity, including violation of copyright or other laws
- Downloading software, music, movies or other content in violation of licensing requirements, copyright or other intellectual property rights;
- Revealing any personally identifiable information about yourself or any other student or staff member on a social networking website or chat room;
- Engaging in any activity that is harmful to other student(s) or staff, including the use of technology to harass, intimidate, bully, cyber-bully or otherwise disrupt the educational process;
- Sending or displaying offensive pictures or graphics, using obscene language, or harassing, insulting, threatening or abusing others;
- Any online activity that encourages the use of drugs, alcohol or tobacco, or that promotes unethical practices or any activity prohibited by law or KIPP policy;
- Posting, sending or displaying any personally identifiable information of any minor without parental consent;
- Using the Internet for financial or commercial gain;
- Degrading, vandalizing or disrupting equipment, software or system performance or the data of another;
- Accessing or attempting to access resources or systems on the network that the student is not authorized to access;
- Invading the privacy of others or using an account owned by another user;
- Posting anonymous messages or messages with a false identity;
- Downloading, viewing, sharing, storing or printing files or messages, including pornographic, defamatory or otherwise offensive material, that use language that offends or degrades others;
- Playing unauthorized games on the Internet;
- Computer piracy, hacking, or any tampering with hardware or software;
- Using hacking tools on the network or intentionally introducing malicious code or viruses into KIPP' network;
- Using any software or proxy service to obscure either the student's IP address or the sites that the student visits;
- Disabling, bypassing, or attempting to disable or bypass any system monitoring, filtering or other security measures;
- Downloading applications or programs without approval from teachers or administrators;
- Conducting any activity that is in violation of school policy, the student code of conduct or local, state or federal law.

Google Apps for EDU: As part of our mission to ensure all KIPP students will succeed in college, KIPP utilizes Google Apps for Education to promote collaboration and communication between our students and teachers. As a KIPP student, your child may receive a Google Apps user account in the KIPPBAYAREA.ORG Google Apps for EDU domain and have access to Gmail and other Google Apps for EDU.

Google Mail (Gmail): KIPP students may receive an account with an email address @kippbastudent.org

Google Apps: Google Apps provides word processing, spreadsheet, drawing, and presentation software similar to Microsoft's Office suite. However, Google's applications are completely online, allowing access from any location with Internet connectivity. Google Apps also allows students to collaborate with other students and teachers in real-time as well as electronically submit homework items to their teachers.

Google Accounts Access Restriction: If there is reason to believe that violations of the law or of KIPP policies have occurred, a student may be prevented from any computer and account access until such time as an investigation can be completed.

Security: KIPP cannot and does not guarantee the security of electronic files located on the Google Apps system or servers. Although Google does have a powerful content filter, redundancy and backup solutions in place, KIPP cannot assure that students will not be exposed to unsolicited information nor that student work saved within the Google Apps system will always be available. Neither KIPP nor its staff shall be responsible in the event that student work becomes irretrievable or inaccessible. The student and parent/guardian agree not to hold KIPP or any KIPP staff responsible in the event that student work becomes irretrievable or inaccessible. They also agree to indemnify and hold harmless KIPP and KIPP’ personnel for any damages or costs incurred.

Regarding student information held in its systems of record, KIPP appropriately secures this information from unauthorized access, loss or damage while supporting the open, information-sharing needs of our academic culture. KIPP carefully selects vendors that meet our data security requirements and requires compliance with its data security policies in its contracts with third parties.

Privacy: KIPP reserves the right to access any student account content (email, documents, etc.) without consent from the student or parent/guardian at any time for any reason. If parents/guardians have reason to believe their child is being threatened or bullied in any way, KIPP staff will review the student’s email and respond to any findings according to school policies.

Use of Equipment: All members of the KIPP community, including students, faculty, staff and volunteers are expected to respect our technology resources and use them with care. KIPP will repair or replace damaged equipment resulting from normal use. However, all other replacements and repairs will be the responsibility of the students and/or family.

****Please see the corresponding Technology Use Agreement Form within the Appendix ****

Public Displays of Affection Policy

We generally do not allow public displays of affection (PDA) within our school environments. Students are expected to exercise self-control and respect for the personal space of others. We recognize that these displays of affection vary dependent on student age and developmental level, and we will manage behaviors and our responses accordingly. Regardless, PDA and/or inappropriate sexual physical contact, whether affectionate (i.e., hand-holding, kissing) or aggressive (i.e., pushing, grabbing) are not in accordance with policies at KIPP and may result in disciplinary action against the student/s.

Student Health

KIPP Bay Area Public Schools enforce health and safety requirements that ensure that all children are healthy and ready to learn. Our policies also help to manage a safe and healthy school environment for teachers, staff and visitors. All campuses are non-smoking and substance free.

Immunizations Requirements and Information

Per the California Department of Education, all children under eighteen years of age entering a California public or private elementary or secondary school for the first time, or transferring between schools, must present a written immunization record, including at least the month and year of receipt of each dose of required vaccines. All students need to submit an immunization record upon enrollment. In accordance with SB 277, these requirements can be waived only if a properly signed medical exemption is filed with the school. The immunization status of all students will be reviewed periodically. Those students who do not meet the State guidelines may be excluded from school until the requirements are met. Students who have been exposed to a communicable disease for which they have not been immunized may be excluded from school at the discretion of KIPP Schools.

To meet California’s school entry requirements, **all students entering TK/kindergarten** and newly admitted students entering grades 1 - 12, who are not exempt from the immunization requirements must show proof of the following immunizations:

Immunization	Dosage
Diphtheria, Tetanus, and Acellular Pertussis(DTaP)	Five (5) doses
Polio	Four (4) doses
Measles, Mumps, and Rubella (MMR)	Two (2) doses

Hepatitis B	Three (3) doses
Varicella (chicken pox)	Two (2) doses

NOTE: Four (4) doses of DTaP are allowed if one (1) was given on or after the fourth birthday. Three (3) doses of Polio are allowed if one (1) was given on or after fourth birthday. MMR doses must be given on or after the first birthday.

State law also requires each child’s family to provide, within ninety (90) days of entrance into the **first grade**, a certificate documenting that the child has received a health checkup within the previous eighteen (18) months. Parents may waive the health checkup requirement because they do not want to or are unable to obtain a health screening for their child. Please request a copy of this waiver from the School: [https://www.dhcs.ca.gov/formsandpubs/forms/Forms/ChildMedSvcForms/pm171b\(bi\).pdf](https://www.dhcs.ca.gov/formsandpubs/forms/Forms/ChildMedSvcForms/pm171b(bi).pdf)

To meet California’s school entry requirements, **all students entering** seventh grade who are not exempt from the immunization requirements must show proof of the following immunizations:

Immunization	Dosage
Tetanus, reduced Diphtheria, and acellular Pertussis (Tdap)	One (1) dose
Varicella (chicken pox)	Two (2) doses

NOTE: In order to begin 7th grade, students who had a valid personal belief exemption on file with a public or private elementary or secondary school in California before January 1, 2016 must meet all requirements for children 7-17 years old (i.e., polio, MMR, chickenpox and primary series for diphtheria, tetanus, and pertussis), **in addition to** the 7th grade requirements for Tdap and two (2) doses of Varicella.

Verification of immunizations will be completed with written medical records from the child’s doctor or immunization clinic. Immunization records shall be part of the mandatory permanent pupil record and shall be kept in accordance with KIPP Schools’ record-keeping policy. KIPP Schools will file a written report on the immunization status of all new entrants to KIPP Schools with the California Department of Public Health as required by law.

Any child leaving the United States for a short vacation to or long stay in any country considered by the Center of Disease Control and Prevention (“CDC”) to have increased risk of TB exposure (such as Mexico, the Philippines, India or Southeast Asia) **MUST** contact the County Tuberculosis Clinic for a TB Screening upon return.

All students from out of state must show proof of varicella (chicken pox) immunization. KIPP shall immediately admit a foster child, as defined in Education Code § 48853.5(a), and a homeless child, as defined in Section 11434a(2) of Title 42 of the United States Code, whose immunization records are not available or are missing. However, this does not alter KIPP’s obligation to obtain immunization records for foster and homeless students or to ensure the full immunization of foster and homeless students as required by law.

If KIPP Schools discovers that an admitted student who is not exempt from the immunization requirements has not received all required immunizations and does not meet the conditional admission requirements set forth below, KIPP Schools will notify his/her parent/guardian. If, within ten (10) school days of the notice, the child does not provide documentation of having received all required immunizations, KIPP Schools shall exclude this student from attendance. The student shall remain excluded from KIPP Schools’ campuses until he/she is fully immunized. The student shall also be reported to the School Leader.

The School Leader, or designee, may arrange for qualified medical personnel to administer immunizations at KIPP Schools to any Student whose parent/guardian has consented in writing.

Whenever there is good cause to believe that a student has been exposed to a communicable disease for which immunization is required, that student may be temporarily excluded from the campuses until the local health officer is satisfied that the person is no

longer at risk of developing the disease.

Conditional Admittance

Students may be conditionally admitted in accordance with Health and Safety Code Section 120340 and Title 17, California Code of Regulations Section 6035. The School Leader or designee shall notify the student's parents/guardians of the date(s) by which the student must complete all the remaining doses. The School Leader or designee shall review the immunization record of each student admitted conditionally every thirty (30) days until that student has received all the required immunizations. If a student conditionally admitted fails to fulfill the conditions of admission, KIPP Schools will prohibit the student from further attendance until that student has been fully immunized as required by law.

Documentary Proof

The School shall maintain the Student's immunization information in the Student's mandatory permanent record and shall file annual immunization status reports as required by the California Department of Public Health.

Exemptions from Immunization Requirements:

All students must be fully immunized in accordance with the California Health and Safety Code and the California Code of Regulations with the following exceptions:

- o Students who show proof of a medical exemption pursuant to Health and Safety Code Section 120370; If there is good cause to believe that a child has been exposed to a disease listed in subdivision (b) of Section 120335 and his or her documentary proof of immunization status does not show proof of immunization against that disease, that child may be temporarily excluded from the school or institution until the local health officer is satisfied that the child is no longer at risk of developing or transmitting the disease.
- o Students who are enrolled in a home-based private school or independent study program and do not receive any classroom-based instruction; and
- o Students who, prior to January 1, 2016, submitted a letter or affidavit on file at a private or public elementary or secondary school in California stating beliefs opposed to immunization, and who provide said letter or affidavit to KIPP Schools, shall be allowed to enroll at KIPP Schools without being fully immunized until the student enrolls in the next grade span pursuant to Health and Safety Code Section 120335(g);
 - "Grade span" means each of the following:
 - Birth to Preschool.
 - Kindergarten and grades 1 to 6, inclusive, including transitional kindergarten.
 - Grades 7 to 12, inclusive.

This Policy does not prohibit a pupil who qualifies for an individualized education program ("IEP"), pursuant to federal law and Education Code Section 56026, from accessing any special education and related services required by his or her individualized education program.

Annual Notice: Physical Examinations

All pupils are to have completed a health screening examination on or before the 90th day after the pupil's entrance into first grade or such pupils must have obtained a waiver pursuant to Health and Safety Code Sections 124040 and 124085. This examination can be obtained from your family physician or possibly through the services provided by your County Health Department. Information and forms are distributed to pupils enrolled in kindergarten. Failure to obtain an examination for your child or a waiver may result in your child being denied enrollment consistent with the Charter School's enrollment practices. If your child's medical status changes, please provide the teacher with a physician's written verification of the medical issue, especially if it impacts in any way your child's ability to perform schoolwork.

Annual Notice: Oral Health Requirement (KG and/or first grade)

All kindergarten or first grade students enrolled for the first time in public school must have documentation of a dental assessment performed by a licensed dental professional. Documentation must be submitted no later than May 31st of the year of entrance to public school. The dental assessment must have been performed no earlier than 12 months before the date of the initial enrollment of the student.

Administration of Medicine Policy

1. Any student who is required to take, during the regular school day, medication prescribed for him or her by a physician, must submit to the school (1) a written and signed statement from such physician detailing the method, amount, and time schedules by which such medication is to be taken and (2) a written and signed statement from the parent or guardian of the student indicating the desire that the school assist the student in the matters set forth in the physician's statement. This can be fulfilled with the completion of the "School Medication Authorization Form." The administration of medicine, during the school day, is the responsibility of the student or parent/guardian. On a limited basis, the School Leader may appoint a designated employee to assist with the administration of medication. Medication will not be dispensed to a student without this documentation present in his or her files. Students are not permitted to carry any medication with them during the school day, unless it is a prescription inhaled asthma medication or auto-injectable epinephrine and authorized in writing by their parent/guardian and specially arranged by a doctor's note. The required form for these services can be requested from the school. Students found carrying any medication (unless consistent with the above requirements) will have the medication confiscated and a parent/guardian will have to retrieve the medication from the school office. Students are never permitted to share medication (even over-the-counter) and the office/school staff are not allowed to administer any medication (including over-the-counter) without express written parent/guardian consent. Prior to the administration of medication the following procedures must be in place.
 - a. School Medication Authorization Form (one per medication)
 - i. Completed and signed by medical provider.
 - ii. Completed and signed by parent/guardian.
 - iii. Completed annually or when there is a change in the medication order.
 - b. Medication is supplied by parent/guardian.
 - i. In a pharmacy labeled container/dispenser, clearly marked with the child's first and last name.
 - ii. Any medical equipment needed to dispense medication is supplied by the parent/guardian.

Illness during School Hours Policy

If a child becomes ill or injured during the school day and is not well enough to stay in class, the parent/guardian will be called to pick the child up. It is necessary to have updated emergency contact numbers on file in the school office in case the parent/guardian cannot be contacted. In case of emergencies, the school will also call 911. All students must have an "authorization to treat" form on file in order for medical personnel to provide medical care to students in emergencies. The required form can be requested from the school.

Suicide Prevention and Intervention Policy (High School)

Supporting the health and well-being of all students is of utmost importance to KIPP. In accordance with California AB 2246, the Board of Directors has adopted a suicide prevention policy to help prevent, intervene, and support students who may be experiencing suicidal thoughts, planning for, or who may have attempted suicide through the following steps:

- Students will learn about recognizing and responding to warning signs of suicide in themselves and peers; learning and utilizing positive coping skills; developing and seeking supportive adult relationships and resources for mental wellness; and assisting their peers in need of supports. Teachers and school staff will also receive training to recognize and respond to the warning signs of suicide, suicide attempts, and re-integration of a student after a suicide attempt.
- Each school has designated a suicide prevention coordinator to serve as a point of contact for students in crisis who will either provide or refer students to appropriate mental health resources. This will be the Mental Health Counselor, School Psychologist, or the School Leader or Assistant Principal in conjunction with the Associate Director of Mental Health or a local community-based crisis response organization.
- When a student is identified as being at risk of suicide, they will be assessed by on their school site by a mental health professional, School Psychologist, or School Leader or other Administrator in conjunction with the Associate Director of Mental Health or a local community based crisis response organization to work with the student and help connect the student to appropriate local resources.
- Students and families can contact your school's mental health professional for additional resources, or can access the resources below for support:
 - The Trevor Project: www.thetrevorproject.org; Trevor Lifeline: 1-866-488-7386 (24/7 and specifically for LGBTQ-identified youth)
 - National Suicide Prevention Hotline: 1-800-273-8255 (24/7)

- o Text: EASE to 741-741
- o Download the MY3 Suicide prevention app (www.my3app.org) on your child(ren)'s and/or their friend(s)' cell phone(s)
- Staff will assist students in helping to create a school culture of respect, support, and safety in which students feel comfortable seeking help for themselves or friends. Students are encouraged to tell any staff member if they, or a friend, are feeling suicidal or in need of help.
- Students should be aware that in cases of suicidal thoughts, plans, or attempts, confidentiality may be broken in order that the staff or mental health professional can seek help for the student in crisis.
- For a more detailed review of policy changes, please see the KIPP full suicide prevention policy, which can be found in the main office and on the KIPP website.

Annual Notice: Counseling Services

KIPP Schools is committed to ensuring that our students and families are informed about available mental health services on campus and in the community, and how to initiate access to these services. We understand that there may be times when students may benefit from additional emotional support. At KIPP Schools we believe strongly in the value of holistic wellness. We believe that it is important to ensure that the whole child is well so that they can then be successful in their goals.

KIPP Schools offers the following services on its campuses:

1. School-based counseling services – your student is encouraged to directly contact a school counselor to make an appointment to speak with the Mental Health Counselor. Our Mental Health Counselors support students by providing individual sessions, group or parent consultations whenever a student is having a difficult time due to academic stress, transition to changes in their environment, or social concerns, including isolation. Counseling services, whether provided by our school or by an outside provider listed below, are voluntary.
2. If you would like to pursue local agencies that offer counseling, KIPP Schools can provide local recommendations for mental health services.

If you would like to explore the supports offered by national organizations, here are three renowned organizations:

1. National Suicide Prevention Hotline - This organization provides confidential support for adults and youth in distress, including prevention and crisis resources. Available 24 hours at 1-800-273-8255.
2. The Trevor Project - This organization provides suicide prevention and crisis intervention for LGBTQ youth between the ages of 13 and 24. Available at 1-866-488-7386 or visit <https://www.thetrevorproject.org/>.
3. Big Brothers/Big Sisters of America – This organization is a community-based mentorship program. Community-specific program information can be found online at <https://www.bbbs.org> or by calling (813) 720-8778.

Vision and Hearing Screening Information

Vision and hearing screenings will be conducted in accordance with state mandates. You will be notified when your child is scheduled to be screened for vision and hearing. This screening is a general assessment of your child's vision and hearing. It may indicate possible difficulties your child may have with vision or hearing; it will not provide a confirmed diagnosis. This screening **is not a substitute for regular medical visits to your child's doctor and optometrist.**

You will be notified of your child's screening results only if he or she does not pass the test. At that time, your child will receive a referral for further evaluation by a qualified medical professional. If you choose for your child to not have screening at this time, please submit a signed written request to your site administrator.

Annual Notice: Free and Reduced Price Meals

The School participates in the National School Lunch Program. Applications for free or reduced-price meals are distributed to all families and can also be obtained on the School website and in the main office. All families are encouraged to complete the application form in order to include as many eligible students as possible.

Annual Notice: Connecting Families to Health Coverage

California schools are required to provide information to families about healthcare coverage options. You will be receiving a flyer about healthcare coverage options with this school handbook. If you need a new copy of the flyer, please contact your school office.

Annual Notice: Availability of Health Insurance

Children—regardless of immigration status (foster youth, pregnant women, and legally present individuals, including those with deferred action for childhood arrivals (“DACA”) status) may be eligible for no- or low-cost Medi-Cal insurance. Medi-Cal covers immunizations, checkups, specialists, vision and dental services, and more for children and youth at no- or low-cost. Medi-Cal enrollment is available year-round.

Covered California is where legal residents of California can compare quality health plans and choose the one that works best for them. Based on income and family size, many Californians may qualify for financial assistance. Enroll during Open Enrollment or any time you experience a life-changing event, like losing your job or having a baby. You have sixty (60) days from the event to complete enrollment. Information regarding the availability of insurance is provided with enrollment forms and available at:

http://hbex.coveredca.com/toolkit/PDFs/ALL_IN_Flyer_EnrollGetCareRenew_CC.pdf

The Charter School shall not discriminate against a pupil who does not have health care coverage or use any information relating to a pupil’s health care coverage or interest in learning about health care coverage in any manner that would bring harm to the pupil or the pupil’s family.

Annual Notice: Sudden Cardiac Arrest Prevention

KIPP is invested in the health of its athletes, especially their heart health. Sudden cardiac arrest (“SCA”) is when the heart stops beating, suddenly and unexpectedly. Those wishing to participate in athletics at KIPP must review the information sheet on sudden cardiac arrest via the link below:

<http://cifstate.org/sports-medicine/sca/SCAInformationSheet2017.pdf> (English)

<http://cifstate.org/sports-medicine/sca/SCAParentStudentReviewFormSpanish.pdf> (Spanish)

Because KIPP has elected to offer an athletic program, we must immediately remove from a school-sponsored athletic activity a pupil who passes out or faints while participating in or immediately following an athletic activity, or who is known to have passed out or fainted while participating in or immediately following an athletic activity. The athlete may not return to that activity until he or she is evaluated and cleared to return to participate in writing by a physician, surgeon, nurse practitioner or physician assistant. On a yearly basis, an acknowledgement of receipt of the information on sudden cardiac arrest symptoms and warning signs must be signed and returned by the athlete and the athlete’s parent or guardian before the athlete participates in an athletic activity not governed by the California Interscholastic Federation (“CIF”). This requirement does not apply to an athlete engaging in an athletic activity during the regular school day or as part of a physical education course.

Annual Notice: Concussion/Head Injuries

A concussion is a brain injury that can be caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. Even though most concussions are mild, all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. Those wishing to participate in athletics at KIPP must review the information sheet on concussions via the link below:

http://www.cifstate.org/sports-medicine/concussions/CIF_Concussion_Info_Sheet.pdf (English)

http://www.cifstate.org/sports-medicine/concussions/CIF_Concussion_Info_Sheet_SP.pdf (Spanish)

Because KIPP has elected to offer an athletic program, we must immediately remove from a school-sponsored athletic activity for the remainder of the day an athlete who is suspected of sustaining a concussion or head injury during that activity. The athlete may not return to that activity until he or she is evaluated by, and receives written clearance from, a licensed healthcare provider. If the licensed health care provider determines the athlete has a concussion or head injury, the athlete shall also complete a graduated return-to-play protocol of no less than 7 days in duration under the supervision of a licensed health care provider. On a yearly basis, a concussion and head injury information sheet must be signed and returned by the athlete and the athlete’s parent or guardian before the athlete initiates practice or competition. This requirement does not apply to an athlete engaging in an athletic activity during the regular school day or as part of a physical education course.

Annual Notice: Pregnant and Parenting Students

The Charter School recognizes that pregnant and parenting pupils are entitled to accommodations that provide them with the opportunity to succeed academically while protecting their health and the health of their children. A pregnant or parenting pupil is entitled to eight (8) weeks of parental leave, or more if deemed medically necessary by the pupil’s physician, which the pupil may

take before the birth of the pupil's infant if there is a medical necessity and after childbirth during the school year in which the birth takes place, inclusive of any mandatory summer instruction, in order to protect the health of the pupil who gives or expects to give birth and the infant, and to allow the pregnant or parenting pupil to care for and bond with the infant. The Charter School will ensure that absences from the pupil's regular school program are excused until the pupil is able to return to the regular school program or an alternative education program.

Upon return to school after taking parental leave, a pregnant or parenting pupil will be able to make up work missed during his or her leave, including, but not limited to, makeup work plans and re-enrollment in courses. Notwithstanding any other law, a pregnant or parenting pupil may remain enrolled for a fifth year of instruction in the Charter School if it is necessary in order for the pupil to be able to complete any graduation requirements, unless the Charter School determines that the pupil is reasonably able to complete the graduation requirements in time to graduate from high school by the end of the pupil's fourth year of high school.

Complaints of noncompliance with laws relating to pregnant or parenting pupils may be filed under the Uniform Complaint Procedures ("UCP") of the Charter School. The complaint may be filed in writing with the compliance officer:

Marie Huxley
Chief Academic Officer
1000 Broadway, Suite 460
Oakland, CA 94607
510-465-5477

A copy of the UCP is available within the KIPP Regional Policies Manual. For further information on any part of the complaint procedures, including filing a complaint or requesting a copy of the complaint procedures, please contact the School Leader.

Annual Notice: Diabetes

The school will provide an information sheet regarding type 2 diabetes to the parent or guardian of incoming 7th-grade students, pursuant to Education Code Section 49452.7. The information sheet shall include, but shall not be limited to, all of the following:

1. A description of type 2 diabetes.
2. A description of the risk factors and warning signs associated with type 2 diabetes.
3. A recommendation that students displaying or possibly suffering from risk factors or warning signs associated with type 2 diabetes should be screened for type 2 diabetes.
4. A description of treatments and prevention of methods of type 2 diabetes.
5. A description of the different types of diabetes screening tests available.

Please contact the Office if you need a copy of this information sheet or if you have any questions about this information sheet.

Tobacco Free Schools Policy

Ample research has demonstrated the health hazards associated with the use of tobacco products, including smoking and the breathing of secondhand smoke. KIPP provides instructional programs designed to discourage students from using tobacco products. The KIPP Bay Area Public Schools Governing Board ("Board") recognizes that smoking and other uses of tobacco and nicotine products constitute a serious public health hazard and are inconsistent with the goals of all KIPP to provide a healthy environment for students and staff.

In the best interest of students, employees, and the general public, the Board therefore prohibits the use of tobacco products at all times on KIPP property and in KIPP vehicles. This prohibition applies to all employees, students, visitors, and other persons at school or at a school-sponsored activity or athletic event. It applies to any meeting on any property owned, leased, or rented by or from KIPP.

Smoking or use of any tobacco-related product or disposal of any tobacco-related waste is prohibited within 25 feet of any playground, except on a public sidewalk located within 25 feet of the playground. Smoking or use of any tobacco-related product is also prohibited within 250 feet of the youth sports event in the same park or facility where a youth sports event is taking place. In addition, any form of intimidation, threat, or retaliation against a person for attempting to enforce this policy is prohibited.

The School Leader or designee shall inform students, parents/guardians, employees, and the public about this policy. All individuals on KIPP premises share in the responsibility of adhering to this policy. Additionally, KIPP will post signs stating "Tobacco use is prohibited" prominently at all entrances to school property.

Appropriate school officials will monitor KIPP property and facilities for compliance with the Board Policy. The School Leader shall develop and maintain procedures to resolve grievances that may result from alleged non-compliance.

Student Safety

Emergency Preparedness Plan and Emergency Contacts Information

KIPP routinely participates in fire, earthquake, shelter-in-place, and lockdown drills as part of its ongoing commitment to safety and security on campus. Each school has a developed and tested emergency plan specific to the building layout and surrounding community facilities. Plans are updated annually to ensure that emergency response procedures and resources meet industry best practice standards. Each school will communicate the plan to students and families and each school's plan can be reviewed upon request at the main office.

The school will request emergency contact information regularly to ensure that communication during an emergency is consistent. It is imperative that the school have up-to-date emergency contact information on file for all students, and that parents/guardians provide multiple contacts for their child.

With that, throughout the year parents/guardians may receive test and real emergency communication through our Emergency Notification Provider. These messages are sent to inform parents/guardians and maintain an open line of communication throughout an emergency. Generally, these messages will include specific directions on what parents'/guardians' actions should be. In an emergency, it's imperative that parents/guardians follow these directions in order to keep everyone on campus and in the neighborhood safe.

School Visitor Policy

The School Leader has the authority to determine which visits are to be permitted as well as the discretion to set any appropriate conditions on the nature and extent of such visits. In exercising the School Leader's discretion, the School shall consider the purpose of the visit, the impact of the visitor's presence and the relationship of any visitor to the students. School personnel shall seek to assure that parents and other visitors are courteously received and that sincere efforts are made to provide them with information as may be needed to foster a cooperative relationship between home, school and community.

A "visitor" is defined as any person seeking to enter the school building who is not an employee of the School or a student currently enrolled in that building. All visitors who are not parents or guardians of a student must have a specific and educationally relevant purpose for their visit and contact the School Leader or appropriate staff member beforehand to arrange a visit. The School Leader may refuse to register a visitor if it is believed that the presence of the visitor would cause a threat of disruption or physical injury to teachers, other employees, or students.

ALL visitors, including parents and guardians, must check in at the office upon their arrival so that they can sign in and obtain a visitor badge identifying themselves. When registering, the visitor is required to provide his/her name, ~~address, age (if under 21),~~ his/her purpose for entering school grounds, and proof of identity. Visitor badges must be worn at all times while on School premises.

If the visitor is a government officer/official (including but not limited to local law enforcement officers, immigration enforcement officers, social workers, district attorneys, or U.S. attorneys) the officer/official will also be asked to produce any documentation that authorizes school access. KIPP shall make reasonable efforts to notify parents or guardians prior to permitting a student to be interviewed or searched, consistent with the law and/or any court order, warrant or instructions from the officer/official. A copy of the documentation provided by the officer and notes from the encounter may be maintained by KIPP, consistent with the law. The KIPP Board of Directors and Bureau of Children's Justice in the California Department of Justice, at BCJ@doj.ca.gov, will be timely informed regarding any attempt by a law-enforcement officer to access a school site or a student for immigration-enforcement purposes, as recommended by the Attorney General.

Access to classrooms and other instructional areas might be restricted and is at the discretion of the School Leader. We ask that all visitors respect the learning environment by quietly observing classes, and by not distracting the students or teachers. Visitors may be asked to leave a classroom or the school grounds if their presence is a distraction to learning or the school environment. Because classrooms and other instructional areas are the most vulnerable to disruption, specific conditions may be imposed upon visitors, including but not limited to:

- A. Requiring that the visitor be chaperoned
- B. Limiting the duration of the visit to particular times or length of time

- C. Limiting the activities of the visitor to a particular purpose(s)
- D. Designating particular routes of travel in the building or upon the school grounds.

Visitors must sign out at the end of their visit and return the visitor badge. Visitors may be on school grounds only during open school hours, unless given permission from School Leadership and/or for specific before - or after-school events open to the public.

Removal from Campus

The School Leader may withdraw consent to be on campus even if the visitor has a right to be on campus whenever there is reason to believe that the person has willfully disrupted or is likely to disrupt KIPP's orderly operation. If consent is withdrawn by someone other than the School Leader, the School Leader may reinstate consent for the visitor if the School Leader believes that the person's presence will not constitute a disruption or substantial and material threat to KIPP's orderly operation. Consent can be withdrawn for up to fourteen (14) days.

The School Leader may request that a visitor who has failed to register, or whose registration privileges have been denied or withdrawn, promptly leave school grounds. When a visitor is directed to leave, the School Leader shall inform the visitor that if he/she reenters the school without following the posted requirements he/she will be guilty of a misdemeanor.

Any visitor that is denied registration or has his/her registration revoked may request a conference with the School Leader. The request shall be in writing, shall state why the denial or revocation was improper, shall give the address to which notice of conference is to be sent, and shall be delivered to the School Leader with fourteen (14) days of the denial or revocation of consent. The School Leader shall promptly mail a written notice of the date, time, and place of the conference to the person who requested the conference. A conference with the School Leader shall be held within seven (7) days after the School Leader receives the request. If no resolution can be agreed upon, the School Leader shall forward notice of the complaint to the KIPP Board of Directors. The KIPP Board of Directors shall address the Complaint at the next regular Board meeting and make a final determination.

Penalties

Pursuant to the California Penal Code, if a visitor does not leave after being asked or if the visitor returns without following the posted requirements after being directed to leave, he/she will be guilty of a crime as specified, which is punishable by a fine of up to \$500.00 (five hundred dollars) or imprisonment in the County jail for a period of up to six (6) months or both.

Under California Education Code section 44811, disruption by a parent, guardian or other person at a school or school sponsored activity is punishable, upon the first conviction, by a fine of no less than \$500.00 (five hundred dollars) and no more than \$1,000.00 (one thousand dollars) or by imprisonment in a County jail for no more than one (1) year, or both, the fine and imprisonment.

Disruptive conduct may lead to KIPP's pursuit of a restraining order against a visitor, which would prohibit him/her from coming onto school grounds or attending school activities for any purpose for a period of up to three (3) years.

Bad Weather or Other Conditions and School Closing Information

In the event of bad weather or other conditions that may result in a school closure, seek out information about closures applicable to your local school district. KIPP will normally follow the instructions for the local district. If the district schools are closed or school opening is delayed, KIPP will normally also be closed or delayed. In some cases, KIPP may elect to close or remain open independent of the district. The school will make every attempt to communicate this decision in a timely manner through an automated phone call to families. In the event that weather or other conditions make traveling to school hazardous and unsafe, it is recommended that parents/guardians use their discretion in bringing their child to school.. In case of a mid-day school cancellation, parents/guardians will be contacted to pick up their child.

Annual Notice: School Bus and Passenger Safety

Upon registration, KIPP is required to provide safety regulations to all kindergarten through sixth (6th) grade new students and students who have not previously been transported by school bus. Additionally, if applicable, KIPP must provide safety instruction to all students in kindergarten through eight (8th) grade who receive home-to-school transportation. Currently, KIPP provides transportation for field trips and provides transportation to and from two (2) KIPP schools. A copy of the complete policy is available upon request at the main office.

Student Transportation Policy

The safe operation of motor vehicles is very important at KIPP. All employees and volunteers must be cleared to drive by Human Resources and Operations before they can transport students. In addition, employees must have parent/guardian and School administration permission before transporting students.

At all times during the field trip or excursion, teachers, staff and parents will use the safest mode of transportation and the safest and most direct routes of travel. If travel is not by bus, the legal occupancy limit of ten (10) occupants (including the driver) must not be exceeded, all speed notices must be strictly adhered to and students are to be seated with individual seat belts at all times.

The following shall apply to all persons operating school vehicles or operating their own vehicles to transport students for any reason or for school business:

1. KIPP participates in the California Department of Motor Vehicles employer pull notice program. Through this program, KIPP will be able to review employee Motor Vehicle Records periodically and upon notice of new violations. Volunteers are also responsible for providing their own Motor Vehicle Records to KIPP.
2. Employees or volunteers must have a valid driver's license at all times when operating a school vehicle or their own personal vehicle when used for student transportation or school business. Volunteers must also have completed the following before they can transport students.
 - Volunteer application
 - TB (tuberculosis clearance)
 - Fingerprinting background clearance
 - Chaperone agreement (if for a field trip)
3. For employees or volunteers who drive their personal vehicles for student transportation or school business purposes, KIPP requires that the employee or volunteer carry insurance with the following coverage:
 - Liability
 - Bodily Injury - \$100,000 per person; \$300,000 per occurrence
 - Property Damage - \$50,000 per occurrence
 - Alternatively: \$300,000 combined single limit
 - Medical Payments - \$5,000 per person
 - Uninsured Motorist Coverage - Mirrors Liability
 - In the event of an accident, the employee's or volunteer's insurance coverage will act as the primary insurance coverage for damages. Evidence of this insurance as well as a copy of the employee's or volunteer's current motor vehicle report (MVR), a copy of their driver's license, and a copy of their vehicle registration, and a written statement acknowledging that their insurance carrier is the primary agent responsible for insurance during the field trip or excursion must be kept on file. KIPP is not liable for collision damage on an employee's or volunteer's vehicle.
4. Employees and volunteers must maintain a clean driving record and infractions may result in not being approved or the revocation of a driving privilege. Employees or volunteers with driving records with two (2) points or more shall not be permitted to transport students or operate any vehicle for Charter School field trips and excursions
5. Anyone with one or more of the following citations on their record may NOT drive on behalf of the school: Driving under the influence of drugs or alcohol, failure to stop for an accident, homicide, manslaughter or assault arising out of the operation of a motor vehicle, driving with a revoked or suspended license, possession of an opened container of alcohol in a vehicle, speed contest drag or highway racing, attempting to elude a police officer, hit and run, reckless driving, and car safety seat violations. Any employee or volunteer convicted of a felony shall not be permitted to transport Charter School students on Charter School business.
6. Seat belts and child safety seats (when applicable) are an essential element of our driver safety policy/procedures. All employees and volunteers must wear seat belts while transporting students and must make sure that students are wearing seatbelts or are properly secured in a child safety seat (if applicable).
 - Children under age 8 and under 57" must be properly secured in a child restraint system. All other children age 8 to 16 or over 57" must be secured in a properly fitted seat belt.
 - Children under age 8 must be restrained in a child passenger restraint system in the rear seat.
 - California law specifically requires children to be properly restrained, meaning the lap belt is low on the hips, touching the upper thighs, and the shoulder belt is crossing the center of the chest.
 - Children in rear-facing car seats may not ride in front if there is an active passenger airbag.

7. Driving non-employee passengers in school vehicles either during or after normal business hours can be a major liability to KIPP. Therefore, no KIPP employee is allowed to transport non-employees in any KIPP vehicle unless prior approval by management is granted and a waiver of liability is signed by the non-employee.
8. Only authorized employees are allowed to operate the school vehicles and they are for school business use only.
9. Under no circumstances shall students transport other students.

Search and Seizure Policy

The California Constitution requires that all students and staff of public schools have the right to attend campuses which are safe, secure, and peaceful. Incidents which jeopardize the health, safety and welfare of students and KIPP employees may necessitate the search of students and their property, student use areas, student lockers and/or student automobiles located on school property, and may necessitate the seizure of any illegal, unauthorized or contraband materials in the search. Personal belongings, including those which are normally authorized, may be temporarily seized by school officials or legal authorities to serve as evidence in ongoing investigation.

A student's person and/or personal effects (e.g. backpack, purse, etc.) including personal student electronic devices, may be searched if a school official has reasonable suspicion based on articulable facts for suspecting that the student has violated or is violating either the law or KIPP's rules and regulations, including, but not limited to, possession of illegal, unauthorized or contraband materials. Illegal, unauthorized or contraband materials include those materials which are dangerous to the health or safety of students or school personnel, are disruptive or potentially disruptive, or which have been cited as unauthorized in school rules or regulations.

Any search of a student and/or their personal effects shall be conducted in the presence of another adult witness whenever possible. The scope of the search shall be reasonably related to the objectives of the search and not excessively intrusive in light of the age and sex of the pupil and the nature of the infraction.

In no case shall a strip search be conducted by school officials, including asking a student to remove or arrange some or all of their underclothing, and/or inspecting of parts of the student's underclothing or body.

Student use areas, including, but not limited to, instructional space, recreational space, and lockers, are school property and remain at all times under the control of KIPP. Periodic general inspections of school property may be conducted by school officials for any reason at any time without notice.

Student vehicles may not be used to store illegal, unauthorized, or contraband materials. The use of the parking facilities for privately owned vehicles on school campus by any student shall constitute consent by the student to the search of such vehicles by authorized school personnel and/or law enforcement if a school official has reasonable suspicion based on articulable facts for suspecting that the student has violated or is violating either the law or KIPP's rules and regulations, including, but not limited to, possession of illegal, unauthorized or contraband materials. (*High school students*)

If a lawfully conducted search yields illegal, unauthorized, or contraband materials, such materials shall be turned over to the proper legal authorities for ultimate disposition. School officials may impose discipline upon the responsible student(s) (including suspension and/or expulsion) in accordance with KIPP's discipline policies and procedures.

Violence and Weapons Policy

It is the policy of KIPP that violence or threats of violence in any form are unacceptable and will not be tolerated. KIPP will not tolerate, condone or allow violence, whether engaged in by employees, supervisors, managers, non-employees (including contract workers or vendors), visitors, students, family members or others who interact KIPP. KIPP encourages the reporting of all incidents or threats of violence regardless of who the offender may be. This policy prohibits all acts or threats of violence, inappropriate aggression, or intimidation in any form, including verbal, written, physical, or any conduct that may be construed as a racial, sexual, ethnic or religious slur, or a slur based upon any Protected Status.

Specific examples of conduct that may constitute threats or acts of violence under this policy include, but are not limited to, the following:

- Threats or acts of physical or aggressive contact directed toward another individual;
- Threats or acts of physical harm directed toward an individual or their family, friends, associates, or property;
- The intentional destruction or threat of destruction of KIPP's property or another student's property;
- Harassing or threatening phone calls;
- Harassing or threatening social media conduct;

- Surveillance;
- Stalking;
- Veiled threats of physical harm or similar intimidation

Any pattern of behavior that seems to indicate violence toward another individual, student to student or staff to student, must be reported to School Administration. No weapons may be brought to school under any circumstances. In addition, nothing that looks like or could be construed as a weapon should be on or around a school campus. We strongly recommend the safe storage and proper security around weapons in the home - especially if one is inviting another child into the home for a party, play date, or other social activities. If a child is feeling unsafe at school, or in their method of transportation to and from school, we encourage a conversation with the School Leadership team to consider options.

Confidential disclosure

In order to have a safe community of trust, students are expected to take responsibility for disclosing any and all knowledge of any weapons, drugs, tobacco, or alcohol on campus or at any school function. Such confidential disclosure should not be considered a betrayal of any other student, or avoided due to fear of reprisal. Instead, the confidential disclosure would be an honest commitment to the health and well-being of every member of the community.

Police on Campus Policy Information

The purpose of our law enforcement on campus policies is two-fold: First, to support a safe school environment by empowering leadership to coordinate with law enforcement in response to imminent threats to the community. Second, to limit students' exposure to law enforcement and the juvenile justice system when alternative and more restorative practices are available. Please request a full copy of this policy from the school office.

Annual Notice: Guidelines for Safe Staff/KIPPster Interactions

For the purposes of this policy, the term "KIPPster" refers to any current KIPP Student, or alumni still enrolled in a KIPP program, including KIPP Through College (KTC) which extends throughout their college career. KIPP ("KIPP") recognizes its responsibility to make and enforce all rules and regulations to bring about the safest environment possible for students, alumni enrolled in KIPP programs, and KIPP Staff.

Corporal Punishment

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of, or willfully causing the infliction of, physical pain on a student.

For purposes of this policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to property.

For clarification purposes, the following examples are offered for direction and guidance of KIPP personnel:

- A. Examples of PERMITTED actions (NOT corporal punishment)
 1. Stopping a student from fighting with another student;
 2. Preventing a pupil from committing an act of vandalism;
 3. Defending yourself from physical injury or assault by a student;
 4. Forcing a pupil to give up a weapon or dangerous object;
 5. Requiring an athletic team to participate in strenuous physical training activities designed to strengthen or condition team members or improve their coordination, agility, or physical skills;
 6. Engaging in group calisthenics, team drills, or other physical education or voluntary recreational activities.

- B. Examples of PROHIBITED actions (corporal punishment)
 1. Hitting, shoving, pushing, or physically restraining a student as a means of control;
 2. Making students do push-ups, run laps, or perform other physical acts that cause pain or discomfort as a form of punishment;
 3. Paddling, swatting slapping, grabbing, pinching, kicking, or otherwise causing physical pain.

Professional Boundaries

This policy is intended to guide all faculty and staff in conducting themselves in a way that reflects the highest standards of behavior and professionalism required of school employees and to specify the boundaries between students, alumni, and staff. Trespassing the boundaries of an Employee/KIPPster relationship is deemed an abuse of power and a betrayal of public trust.

All staff must carefully review this policy along with each of the examples given in the policy related to acceptable and unacceptable employee behavior (see examples section below). Although this policy gives specific, clear direction, it is each staff member's obligation to avoid situations that could prompt suspicion by parents, students, alumni, colleagues, or school leaders. One viable standard that can be quickly applied when the employee is unsure if certain conduct is acceptable is to ask themselves, "Would I be engaged in this conduct if my family or colleagues were standing next to me?"

Some activities may seem innocent from a staff member's perspective, but can be perceived as flirtation, sexual insinuation, or unprofessional from a student, alumni, or parent's point of view. The objective of providing the examples of acceptable and unacceptable behaviors listed below is not to restrain innocent, positive relationships between staff and students, but to prevent relationships that could lead to, or may be perceived as, sexual misconduct or generally unprofessional.

Staff members must understand their own responsibility for ensuring that they do not cross the boundaries as written in this policy. Disagreeing with the wording or intent of the established boundaries will be considered irrelevant for disciplinary purposes. Thus, it is crucial that all employees learn this policy thoroughly and apply the lists of acceptable and unacceptable behaviors to their daily activities. Although sincere, competent interaction with KIPPsters certainly fosters learning, staff interactions with KIPPsters, including alumni receiving services through KIPP Through College (KTC), must respect professional boundaries surrounding potential activities, locations, and intentions.

Duty to Report

All staff members play an integral role in keeping our KIPPsters safe, and it is an employee's duty to report any concerns related to misconduct to the appropriate authority, even if they don't have full information or context. When any employee becomes aware of another staff member or adult on campus having engaged in unacceptable behaviors as specified in this policy, or behaviors regarding professional boundaries otherwise causing suspicion, they must immediately report the matter to the school administrator and/or to the Human Resources Department at hr@kippbayarea.org. All reports shall be as confidential as possible under the circumstances. It is the duty of the administrator or HR Director to investigate and thoroughly report the situation to the CEO. Employees must also report to the administration any awareness or concern of student behavior that crosses boundaries or where a student appears to be at risk for sexual abuse.

Examples of Specific Behaviors

The following examples are not an exhaustive list.

Examples of Unacceptable Behaviors (Violations of This Policy):

- Giving gifts to a KIPPster that are of a personal and intimate nature.
- Kissing of any kind.
- Any type of unnecessary physical contact with a KIPPster in a private situation.
- Making or participating in sexually inappropriate comments.
- Sexual jokes.
- Seeking emotional involvement with a KIPPster for the employee's benefit.
- Listening to or telling stories that are sexually oriented.
- Discussing inappropriate personal troubles or intimate issues with a KIPPster in an attempt to gain their support and understanding.
- Becoming involved with a KIPPster so that a reasonable person may suspect inappropriate behavior.
- Having/inviting one student into the employee's home is unacceptable.
- Providing any treatment that could be viewed as preferential or unprofessional (buying lunches, special privileges, etc.)

Unacceptable Staff/Student Behaviors if conducted without Parent and Supervisor Permission:

(These behaviors should only be exercised when a staff member has parent and supervisor permission.)

- Giving students a ride to/from school or school activities.
- Being alone in a room with a student at school with the door closed.

Cautionary Staff/Student Behaviors:

(These behaviors should only be exercised when a reasonable and prudent person, acting as an educator, is prevented from using a better practice or behavior. Staff members should inform their supervisor of the circumstance and occurrence prior to or immediately after the occurrence)

- Remarks about the physical attributes or development of anyone.
- Excessive attention toward a particular student.
- Sending emails, text messages or letters to students if the content is not about school activities.
- Having a group of KIPPsters over to your house with school administration and parent/guardian permission.

Examples of Acceptable Behaviors:

- Emails, text, phone calls and instant messages to KIPPsters that are professional and pertain to school activities or classes. (Communication should be limited to school technology).
- Keeping the door open when alone with a KIPPster.
- Keeping reasonable space between you and a KIPPster.
- Stopping and correcting a KIPPster if they cross an employee's own personal boundaries.
- Keeping parents informed when a significant issue develops about a student.
- Keeping after-class discussions with a student professional.
- Recognizing the responsibility to stop unacceptable behavior of KIPPsters or coworkers.
- Giving KIPPsters praise and recognition without touching them.
- Pats on the back, high fives and handshakes are acceptable.
- Hugging students is only appropriate if it is done in a public space where others are present, minimal bodily contact is involved (e.g. side or arm around the shoulder hug) and it does not make the student uncomfortable in any way (ask in advance; don't assume). Please be aware of the positive reinforcement methods that are age-appropriate for your students (e.g. elementary students may appreciate a quick hug while middle and high schoolers may not). When in doubt, do not hug a student.
- Asking yourself if your actions are worth your job and career.

Required safety practices for the protection of staff and students:

- Obtaining signed parental consent and written approval from the school leader are required for any non-sponsored after school activity.
- Obtaining formal approval to take KIPPsters off school property for activities such as field trips, athletic events or competitions.
- Asking another staff member to be present if the employee will be alone with any type of special needs student.
- Asking another staff member to be present when the employee must be alone with a student after regular school hours.
- Asking for advice from fellow staff or administrators if an employee finds themselves in a difficult situation related to boundaries.
- Involving the employee's supervisor if conflict arises with a KIPPster.
- Informing the employee's School Leader about situations that have the potential to become more severe.
- Making detailed notes about an incident that could evolve into a more serious situation later.
- Keeping your professional conduct a high priority.

Mandated Reporting Policy

California Penal Code section 11166 requires child care custodians who have knowledge of, or observe, a child in their professional capacity or within the scope of their employment whom they know or reasonably suspect has been the victim of child abuse to report the known or suspected instance of child abuse to a child protective agency immediately, or as soon as practically possible, by telephone and to prepare and send a written report thereof within thirty-six (36) hours of receiving the information concerning the incident.

Please be aware that it is each employee's duty to report the suspicion of child abuse and neglect only. Employees are not required to investigate or substantiate the suspected abuse. CPS and/or law enforcement agencies will be charged with investigating the matter.

- If an employee believes a child's safety is in immediate danger, they must call 911.
- Call CPS to make an initial verbal report
 - Oakland: (510) 259-1800
 - San Francisco: (800) 856-5553

- o San Jose: (408) 299-2071, (408) 683-0601, (650) 493-1186
- o San Lorenzo and Oakland:(510) 259-1800
- o Redwood City: (650) 802-7922 or (800) 632-4615
- The employee must complete a written report and any evidence relating to the incident within thirty-six (36) hours of becoming aware of the information concerning the incident and fax it or mail it in to the name of the Social Worker who took the verbal report. (link written report: https://oag.ca.gov/sites/all/files/agweb/pdfs/childabuse/ss_8572.pdf?)

Employees must also report to their School Leader any suspicions of child abuse and neglect in order to enable KIPP to timely intervene, investigate, and remediate as appropriate.

Child abuse does not include:

- A mutual altercation between minors
- Self-defense
- Injury caused by reasonable force used by a peace officer acting within the scope of employment
- Use of reasonable force from a certificated/classified employee to maintain order, protect property and protect the health and safety of pupils

Please see the School Leader if you have any questions or concerns.

Regional Volunteer Policy

Our parent volunteers give our students the opportunity to have individual attention that is vital to their education and their journey to college. The safety of our students and staff is of the utmost importance at KIPP. It is our policy to approve volunteers prior to having them work with and/or drive our students. There are administrative procedures that have been established with this policy. Parents, guardians or other community members who are interested in volunteering (and have not been cleared within the current school year) must request a *Volunteer Handbook* from the school in which they wish to volunteer. The KIPP school will communicate any additional documentation requests, notices of clearances and scheduled volunteer opportunities. Please note that it may take several weeks for all clearances to be met. We recommend interested volunteers reach out to their school as soon as possible to begin the process.

Child Custody Agreements Information

KIPP asks that families with an active child custody agreement in place provide a copy to the School Leader at the start of the school year and any revisions to the agreement as they become available. KIPP will not get involved in family disputes as it is not KIPP's intention or responsibility to enforce the terms of a child custody order. Rather our expectation is that all custodial parties (1) comply with the terms of the Order and work to resolve any such disputes without involving KIPP and (2) remain focused on the student(s)' education and working cooperatively to resolve any familial disputes without negatively impacting the student(s)' ability to learn and attend School. KIPP will comply with all terms of a custody order or agreement that has been provided to KIPP.

Student and Family Rights

Safe School Zones and Immigrant Student Rights

KIPP is committed to providing a safe, welcoming, and inclusive learning environment for all students, including immigrant students and their families. KIPP is also committed to protecting the rights of immigrant students and their families through policies that prohibit information-sharing with local law enforcement and federal immigration authority to the fullest extent possible under the law. KIPP shall not adopt or implement policies, practices, or procedures that exclude students from school based on their or their parents' or guardians' actual or perceived immigration status. Furthermore, KIPP personnel shall treat all students equitably in the receipt of all school services, including but, not limited to, the free and reduced lunch program, transportation, and educational instruction.

Resources and Trainings

KIPP trains all teachers, administrators and other staff on how to respond to federal immigration authorities who are requesting information about students and families and/or are attempting to enter school property. Additionally, KIPP maintains an online resource for students and families, and collaborates with local organizations to provide legal education workshops. Please visit www.kippbayarea.org/family-preparedness/ for general resources, as well as the full version of policies KIPP has adopted related to

the rights of immigrant students and their families. Please speak to your school office if you would like to know about upcoming trainings.

Information Collection and Security

KIPP staff shall not require information that relates to a student's or their families' immigration status, such as a social security number, passport, a birth certificate, or other citizenship-related documents. KIPP personnel shall not inquire into a student's or a family member's immigration status. While documents that relate to immigration status may be submitted to meet various requirements of the enrollment process (such as a birth certificate for documenting proof of age), these documents are not required, and families are allowed to use other methods to prove residency and age-eligibility, such as a baptismal certificate or parent affidavit. KIPP will not initiate communication with federal immigration authority or local, state, or federal law enforcement regarding a student's or their family member's personal information; nor shall they disclose personally identifying information found in a student's education records without parental authorization or a judicial order mandating the disclosure. KIPP personnel who learn of information related to a student's or their family member's actual or perceived immigration status must keep that information confidential and shall not record or distribute that information.

Campus Security

KIPP shall not enter into agreements with state or local law enforcement agencies, federal immigration authority, or any other federal agency for immigration enforcement activities. Absent a judicial warrant or other court order, state or local law enforcement agencies, federal immigration authority, or any other federal agency for immigration enforcement activities will not be permitted access to school sites, to interview a student, or to student records. Any formal requests from state or local law enforcement agencies, federal immigration authority, or any other federal agency for immigration enforcement activities shall be forwarded to the Chief Executive Officer and Legal Counsel for review.

If state or local law enforcement agencies, federal immigration authority, or any other federal agency for immigration enforcement activities request or gain access to a student or their records held by the school or KIPP, KIPP staff must immediately notify the student's parent/guardian that the federal immigration authorities sought access to the student. KIPP shall remind the parent/guardian that they have the right to authorize and send a designee to pick up their child on the parent's/guardian's behalf.

Efforts to contact parents/guardians by the School Leader or designee must include calling all numbers listed on the student's emergency card, including work numbers, cell phone numbers, and all numbers supplied by the student.

Freedom of Speech

The KIPP Bay Area Public Schools Board of Directors (the "Board") believes that free inquiry and exchange of ideas are essential parts of a democratic education. The Board respects students' rights to express ideas and opinions, take stands on issues, and support causes, even when such speech is controversial or unpopular.

Student freedom of expression shall be limited only as allowed by law in order to maintain an orderly school environment and to protect the rights, health, and safety of all members of the school community. Expression shall be prohibited which is obscene, libelous, or slanderous. Also prohibited shall be material that so incites pupils as to create a clear and present danger of the commission of unlawful acts on school premises or the violation of lawful school regulations, or the substantial disruption of the orderly operation of KIPP. The use of "fighting words" or epithets is prohibited in those instances where the speech is abusive and insulting, rather than a communication of ideas, and the speech is used in an abusive manner in a situation that presents an actual danger that can cause a breach of the peace. In accordance with these beliefs, the Board adopts the following policies regarding on-campus and off-campus expression.

On-Campus Expression

Students shall have the right to exercise freedom of speech and of the press including, but not limited to, the use of bulletin boards; the distribution of printed materials or petitions; the wearing of buttons, badges, and other insignia; and the right of expression in official publications.

Student expression on school Internet web sites and online media shall generally be afforded the same protections as in print media.

Off-Campus Expression

A student shall be subject to discipline for off-campus expression, including expression on off-campus Internet web sites, when such expression poses a threat to the safety of other students, staff, or school property, or substantially disrupts the educational program.

The Chief Executive Officer, School Leader, or designee shall document the impact the expression had or could be expected to have on the school program.

Publications

Official school publications include material produced by students in journalism, newspaper, yearbook, or writing classes and distributed to the student body either for a fee or for free.

Each School Leader or designee shall develop a school publications code outlining the responsibility of student journalists, editors, and publication advisors.

All student submissions shall be held to professional standards of English and journalism.

If the School Leader or designee considers material submitted for publication to violate Education Code 48907, he/she shall notify the student, without undue delay, and give specific reasons why the submitted material may not be published. Absent extraordinary circumstances, such notice should be given in sufficient time to allow the student time to either modify the material or to seek review of the School Leader's determination from the Chief Executive Officer or designee. Prior to any restriction of student speech, school officials shall consider any feasible alternative options to restricting the speech.

To the extent that the School Leader or designee believes that the school and KIPP should be disassociated from a particular idea or opinion, the School Leader or designee may require student articles to include disclaimers.

Distribution of Printed Materials and Petitions by Students

The School Leader or designee may provide bulletin boards on which students and student organizations may post materials of general interest. Students may also post or distribute handbills, leaflets, and other printed material, whether produced within or outside of the school. Students may also collect signatures on petitions concerning school or non-school issues.

All written material and petitions distributed, circulated or posted on school property (including School websites, email, etc.) shall bear the name and the address or contact information of the sponsoring organization or individual. Leaflets, pictorial and any other printed/written material to be distributed shall be submitted to the School Leader or designee at least one school day prior to distribution.

Printed materials or petitions may be distributed only:

1. Before or after school or during lunch time
2. In locations that do not obstruct the normal flow of traffic within the school or at entrances.

The manner of distribution shall be such that coercion is not used to induce students to accept the printed matter or to sign petitions. The solicitation of signatures must not take place in instructional classes or school offices, nor be substantially disruptive to the school program (as determined by the School Leader or designee). No funds shall be collected for any material distributed.

Student Conduct

Conduct by a student, whether during class or outside of class, which for any reason materially disrupts classwork or involves substantial disorder or invasion of the rights of others, is not immunized by the constitutional guarantee of free speech.

Appeals

The following procedures shall be used to address general disputes regarding student freedom of expression. When applied to school-sponsored publications, these procedures are to be supplemental to those outlined within that section:

1. The student and faculty member shall first attempt to resolve the problem internally.
2. If the student and faculty member are unable to resolve the dispute, the student and/or faculty member may bring the matter to the School Leader or designee, who shall hear both sides and strive to resolve the dispute as quickly as possible.
3. If the School Leader or designee is unable to resolve the dispute, or if the student and/or faculty member disagree with the School Leader or designee's decision, the student and/or faculty member may bring the matter to the Chief of Schools or designee, who shall hear both sides and strive to resolve the dispute as quickly as possible. The Chief of Schools or designee's decision shall be final.

Controversial Issues Policy

KIPP believes that students should have opportunities to discuss controversial issues which have political, social or economic significance, and which the students are mature enough to investigate and address. These topics may include, but are not limited to: federal, state and local politics; race; religion; gay, lesbian, and transgender issues; discrimination against protected classes; suicide; war; and local, state, national and/or international current and/or past events in the news, including but not limited to, statements made by political leaders about those events. The study of a controversial issue should help students learn how to gather and organize pertinent facts, discriminate between fact and fiction, draw intelligent conclusions, and respect the opinions of others.

School management works with teachers to ensure they exercise caution and discretion when deciding whether or not a particular issue is suitable for study and discussion, and to ensure all sides of a controversial issue are impartially presented, with adequate and appropriate factual information. Teachers shall not suppress any student's views on any issue so long as its expression is not obscene, libelous, slanderous, malicious or abusive towards others. If students, parents, or guardians have questions about this policy, or the study or discussion of a particular controversial issue, they may reach out to the teacher and/or School Leader. Teachers will endeavor to notify parents/ guardians in advance of controversial topics being discussed when they are part of the school's curriculum or a teacher's lesson plan so that parents can also share their personal views at home. However, since students often make statements or ask questions about these sorts of topics, or bring in materials and discuss or share them spontaneously, we cannot always notify parents/ guardians in advance of such classroom discussions. Where advance notice is not possible, teachers will endeavor to notify parents/guardians via email or verbally after the fact. It must be noted that since every parent has a different definition of what would constitute a controversial and/or sensitive topic, the school cannot always guarantee notice to parents / guardians because a teacher might not recognize a topic as generally controversial or sensitive even though it might be controversial and/or sensitive to an individual.

As teachers notify parent(s) regarding controversial and/or sensitive topics being addressed at school, in accordance with the right to privacy contained in the California State Constitution, parent(s) will not be notified of any issues involving individual students without the consent of that student's family. For example, if a student is undergoing cancer treatments and a discussion of this comes up in class, you will not be notified that a student in your child's class has cancer or is undergoing medical treatments. Such information shall not be disclosed without consent of that student's parent(s) and/or legal guardian(s) in order to protect the privacy rights of the student as afforded by the California State Constitution. As a result of student privacy rights, parent(s) may not be notified of all circumstances that led KIPP to choose a particular piece of supplemental instructional material. For example, if KIPP determines that it is necessary to prevent racial harassment or bullying, it might choose to expose students to material on racial discrimination to sensitize students about the need to teach others with respect.

Gender Identity Inclusion and Nondiscrimination Policy

PURPOSE:

California law and KIPP Bay Area Public Schools ("KIPP") require that all programs, activities, and employment practices be free from discrimination based on sex, sexual orientation, or gender identity. This policy is designed to comply with these mandates to create a safe learning environment for all students and to ensure that every student has equal access to all school programs, activities, and facilities.

This policy sets out guidelines for KIPP and KIPP staff to address the needs of transgender, gender nonconforming, and queer students and clarifies how state law should be implemented in situations where questions may arise about how to protect the legal rights or safety of such students.

This policy does not anticipate every situation that might occur with respect to transgender or gender nonconforming students, and the needs of each transgender, gender nonconforming, or queer student must be assessed on a case-by-case basis. In all cases, the goal is to ensure the safety, comfort, and healthy development of the transgender, gender nonconforming, or queer student while maximizing the student's social integration and minimizing stigmatization of the student.

DEFINITIONS:

The definitions provided here are not intended to label students but rather to assist in understanding this policy and the legal obligations of KIPP staff. Although these are commonly used terms, students may or may not choose to use these terms to describe their gender identity, appearance, or behavior. We encourage students and staff to refrain from sharing information about someone's gender identity, gender expression, or orientation, or using a specific term to describe someone's identity, orientation, or expression,

unless that person has used the term themselves and given permission for others to use it to describe them.

- **“Gender expression”** or **“Gender Presentation”** is an individual’s characteristics and behaviors that are perceived as gendered, such as appearance, dress, mannerisms, speech patterns, and social interactions. Under California law, “gender expression” is defined as person’s gender-related appearance and behavior whether or not stereotypically associated with the person’s assigned sex at birth.
- **“Gender Fluid”** refers to persons who does not identify as, or who do not express themselves as, solely one gender.
- **“Gender identity”** is a person’s internal, deeply felt sense knowledge of their own gender, regardless of the gender they were assigned at birth. Everyone has a gender identity.
- **“Gender nonconforming”** is a term used to describe a person who is or is perceived to have gender characteristics or behaviors that do not conform to traditional or societal expectations. Gender non-conforming people may or may not identify as LGBTQ.
- **“LGBTQ”** is an umbrella term that stands for "lesbian, gay, bisexual, transgender, and questioning." The category "questioning" is included to incorporate those that are not yet certain of their sexual orientation and/or gender identity.
- **“Queer,”** refers to a member of the LGBT and/or gender nonconforming community. This term may be used by someone who identifies as a member of the LGBT community, but who does not specifically consider themselves to be lesbian, gay, bisexual, or transgender. This term is also sometimes associated with sexual orientation.
- **“Sex”** refers to the biological condition or quality of being a female or male human being.
- **“Sexual Orientation”** is a person's emotional and sexual attraction to other people based on the gender of the other person. While KIPP recognizes that people may not identify their sexual orientation with the following terms, sexual orientation as a protected class under California law is defined as heterosexuality, homosexuality, or bisexuality.
- **“Sexualized Bullying”** refers to unwanted or demeaning conduct or comments directed at or about an individual on the basis of actual or perceived gender, gender identity and expression, sex, sexual behavior, sexual orientation, or other related personal characteristics with the intention to humiliate. Anti-gay and sexist epithets are common forms of sexualized bullying.
- **“Transgender”** is an umbrella term used to describe people whose gender identity, characteristics, or expression does not conform to the identity, characteristics, or expression traditionally associated with their biological sex.
- **“Transition”** is the process by which a person goes from living and identifying as one gender to living and identifying as another. Transitions may include physical, social, and/or medical processes. The exact steps involved in transition vary from person to person. Transitions are private, and personal information about a transition should not be discussed unless the conversation is initiated and led by the transgender or gender nonconforming student.

Privacy

All persons, including students, have a right to privacy. This includes the right to keep private one’s transgender status or gender nonconforming presentation at school.

Information about a student’s transgender status, legal name, or sex assigned at birth also may constitute confidential medical information. KIPP personnel should not disclose information that may reveal a student’s transgender status or gender nonconforming presentation to others, including parents and other school personnel, unless

- legally required to do so by a court order,
- there is a significant threat to the health or safety of a student or other individuals, and/or
- the student has authorized such disclosure.

Transgender and gender nonconforming students have the right to discuss and express their gender identity and expression openly and to decide when, with whom, and how much to share private information.

When contacting the parent or guardian of a transgender or gender nonconforming student, school personnel *should use the student’s legal name and the pronoun corresponding to the student’s sex assigned at birth unless the student, parent, or guardian has specified otherwise*. Additionally, KIPP will take measures to ensure that disclosures under the permitted circumstances outlined above are made in a way that reduces or eliminates the risk of re-disclosure and protects the transgender student from harassment and discrimination. Those measures may include providing counseling to the student and the student’s family to facilitate the family’s acceptance and support of the student’s transgender status.

Official Records

KIPP **is required** to maintain a mandatory permanent pupil record (“official record”) that includes a student’s legal name and legal gender. However, KIPP **is not required** to use a student’s legal name and gender on other unofficial school records or documents (e.g.

school IDs, announcements, yearbooks, certificates, etc.). To the extent that the school is not legally required to use a student's legal name and gender on other school records or documents, every effort should be made to update student records with the student's chosen name and not circulate records with the student's birth name.

KIPP will change a student's official record to reflect a change in legal name or legal gender upon receipt of documentation that such change has been made pursuant to a court order. In situations where school staff or administrators are required by law to use or to report a transgender student's legal name or gender, such as for purposes of standardized testing, school staff and administrators shall adopt practices to avoid the inadvertent disclosure of such confidential information. This may include keeping records that reflect a transgender student's birth name and assigned sex (e.g., a copy of the birth certificate) apart from the student's school records.

Names/Pronouns

A student has the right to be addressed by a name and pronoun that corresponds to the student's gender identity. A court-ordered name or gender change is not required, and the student need not change his or her official records. The student's age is not a factor. If KIPP personnel are unsure how a student wants to be addressed, they may privately ask the student. KIPP personnel should prioritize the safety, confidentiality, and respect of the student in a manner that affirms the law

The intentional or persistent refusal to respect a student's gender identity (for example, intentionally referring to the student by a name or pronoun that does not correspond to the student's gender identity) is a violation of this policy and may constitute as sex discrimination.

Gender-Specific Activities

To the extent possible, schools should reduce or eliminate the practice of segregating students by gender. Whenever students are separated by gender in school activities or are subject to an otherwise lawful gender-specific rule, policy, or practice, students must be permitted to participate in such activities or conform to such rule, policy, or practice consistent with their gender identity. Examples of such activities may include gym classes, health classes, or intramural activities. Transgender or gender nonconforming students shall not be denied the opportunity to participate in such activities, nor shall they be forced to participate in these activities outside of the assigned time. Activities that may involve the need for accommodations to address student privacy concerns, such as overnight field trips, will be addressed on a case-by-case basis. In such circumstances, staff shall make a reasonable effort to provide an available accommodation that can address any such concerns.

Restroom Accessibility

Students shall have access to the restroom that corresponds to their gender identity. Any student who has a need or desire for increased privacy, regardless of the underlying reason, should be provided access to a reasonable, safe, and adequate alternative, such as a single "unisex" restroom or staff restroom. Any alternative arrangement should be provided in a way that protects the student's ability to keep their transgender status confidential. However, transgender students shall not be forced to use a separate, single-stall facility.

Locker Room Accessibility

The use of locker rooms by transgender students shall be assessed on a case-by-case basis with the goals of maximizing the student's social integration and equal opportunity to participate in physical education classes and sports, ensuring the student's safety and comfort, and minimizing stigmatization of the student. Transgender students will have access to the locker room that corresponds to their gender identity. Any student who has a need or desire for increased privacy, regardless of the underlying reason, will be provided with a reasonable alternative changing area such as the use of a private area (e.g., a nearby restroom stall with a door, an area separated by a curtain, a P.E. instructor's office in the locker room, or a nearby health office restroom), or with a separate changing schedule (e.g., using the locker room that corresponds to their gender identity before or after other students). Any alternative arrangement should be provided in a way that protects the student's ability to keep their transgender status confidential. In no case shall a transgender student be required to use a locker room that conflicts with the student's gender identity.

Physical Education Classes & Intramural Sports

Transgender and gender nonconforming students shall be permitted to participate in physical education classes and intramural sports in a manner consistent with their gender identity.

Interscholastic Competitive Sports Team

Transgender and gender nonconforming students shall be permitted to participate in interscholastic athletics in a manner consistent with their gender identity.

Dress Codes

Transgender and gender nonconforming students have the right to dress in a manner consistent with their gender identity or gender expression. In general, schools may not adopt dress codes that restrict students' clothing or appearance on the basis of gender. School staff must not enforce the dress code more strictly against transgender and gender nonconforming students than other students.

Addressing Instances of Discomfort

KIPP recognizes that non-staff members of the KIPP community, such as students or parents/guardians, may express discomfort with the guidance and accommodations outlined in this policy, such as restroom or locker room access. This discomfort is not a valid reason to deny or limit the rights of access and expression outlined in this policy. School administrators, teachers, and mental health professionals will work with students to address the discomfort, foster understanding, and create a school culture that respects and values all students.

Discrimination, Harassment, & Bullying

It is the responsibility of each KIPP Bay Area School and KIPP staff to ensure that transgender and gender nonconforming students have a safe school environment. This includes ensuring that any incident of discrimination, harassment, or violence is given immediate attention, including investigating the incident, taking appropriate corrective action, and providing students and staff with appropriate resources. Complaints alleging discrimination or harassment based on a person's actual or perceived transgender status or gender nonconformity are to be handled in the same manner as other discrimination or harassment complaints. (See the "Related Resources" and the "Assistance" sections of this policy for further information regarding the filing of discrimination or harassment complaints.)

RELATED RESOURCES

Please refer to the "Policy Regarding Gender Identity Equality and Nondiscrimination Guidance" document for resources, related policies, and FAQs.

Complaints about violations of this policy should be handled through the Uniform Complaint Procedures. Cal. Code Regs. tit. 5, §§ 4600-4687. You can access KIPP' "Uniform Complaint Policy" in the main office and in this Manual.

SUPPORTING EDUCATION CODE PROVISIONS:

The California Education Code states that "all pupils have the right to participate fully in the educational process, free from discrimination and harassment." Cal. Ed. Code Section 201(a). Additionally, it provides that no person shall be subject to discrimination on the basis of gender, gender identity, or gender expression in any program or activity conducted by an educational institution that receives or benefits from state financial assistance. Cal. Ed. Code Section 220. The Education Code further provides that public schools have an affirmative obligation to combat sexism and other forms of bias, and a responsibility to provide equal educational opportunity to all pupils. Cal. Ed. Code Section 201(b).

The California Code of Regulations similarly provides that "[n]o person shall be excluded from participation in or denied the benefits of any local agency's program or activity on the basis of sex, sexual orientation, gender, ethnic group identification, race, ancestry, national origin, religion, color, or mental or physical disability in any program or activity conducted by an 'educational institution' or any other 'local agency'. . .that receives or benefits from any state financial assistance." 5 CCR Section 4900(a).

The California Code of Regulations defines "gender" as: "sex and includes a person's gender identity and gender related appearance and behavior whether or not stereotypically associated with the person's assigned sex at birth." 5 CCR Section 4910(k).

Annual Notice: Parent and Family Engagement Policy

The Charter School aims to provide all students in our school significant opportunity to receive a fair, equitable, and high-quality education, and to close educational achievement gaps while abiding by guidelines within the Elementary and Secondary Education Act ("ESEA"). The Charter School staff recognizes a partnership with families is essential to meet this goal. Our Parent and Family

Engagement Policy leverages and promotes active involvement of all families as partners with schools to ensure student success.

Annual Notice: Parents / Guardians Rights to Know

KIPP receive Title I funding that supports many important strategies for student's success. A provision of Federal Title I requires that all schools receiving Title I funding must notify the parents/guardians that they have the right to request and receive timely information on the professional qualifications of classroom teachers and paraprofessionals. This includes state qualifications, licensing for the grade level or subject taught, any waivers for qualifications, emergency provisions, college major, graduate degrees and subject.

Parent and Guardian Grievance Policy

KIPP has established the following grievance protocol, the intent of which is to fairly and promptly resolve any concern, dispute, or complaint brought by parents or guardians against any KIPP policy, practice, procedure, or employee. For complaints regarding harassment or perceived violations of state or federal laws, please refer to the KIPP Anti-Discrimination, Sexual Harassment, Harassment, Discrimination and Bullying Policy and/or the KIPP Uniform Complaint Procedures.

KIPP takes parent and guardian concerns and complaints seriously. There are no negative consequences for filing a complaint, or asking for assistance in doing so. No reprisals or retaliation shall be invoked against any student, parent or guardian for processing, in good faith, a complaint, either on an informal or formal basis, or for participating in any way in these complaint procedures.

If parents and guardians have questions about the formal process outlined below, or would like assistance with the process, they should contact the office of the Chief of Schools. Requests for assistance can include but are not limited to requests for translation or transcription services, and assistance contacting and scheduling with the appropriate parties.

Every attempt is made to resolve complaints informally and through direct dialogue with the affected parties. In the instances when that is not possible, a formal process is in place.

Parent and Guardian Complaints

1. **Informal Resolution:** Schedule a conference with the immediately-involved teacher, school leader, or administrator to discuss and informally resolve the issue.
2. **School Site Conference:** If parent(s) or guardian(s) concludes that the initial response/course of action was insufficient:
 - a. If the School Leader is immediately involved in the complaint, move to Regional Management Review.
 - b. Submit a written Grievance Letter to the School Leader that identifies: (a) the issue / concern / complaint; (b) what steps have been taken to resolve the situation; and (c) proposed solutions. If a parent or guardian is unable to put a complaint in writing due to conditions such as a disability or illiteracy, or requires translation services to put a complaint into writing, KIPP staff shall assist him or her in the filing of the complaint.
 - c. Within 10 business days of the receipt of a Grievance Letter, the School Leader will reach out to arrange a conference, to take place as soon as possible.
3. **Regional Management Review:** If a resolution cannot be reached with the School Leader, repeat Steps 2B and 2C with the School Leader's manager (Managing Director of Schools and/or Chief of Schools).
4. **Chief Executive Officer's Review:** If a resolution cannot be reached with the Chief of Schools, repeat Steps 2B & 2C with Chief Executive Officer.
5. **Grievance Committee Review:** If a resolution cannot be reached with the Chief Executive Officer, parent(s) may submit a formal Grievance Packet to the Grievance Committee of the Board of Directors. The contents of the packet and process for submission are outlined below.

Board of Directors' Grievance Committee Resolution Procedures

KIPP Bay Area Public Schools' Board of Directors shall annually appoint a Grievance Committee comprised of three (3) Directors and the Chief Executive Officer (the Chief Executive Officer shall not participate in any grievance proceeding in which s/he is the subject of an original grievance).

A parental Grievance Packet should be submitted in writing to the Grievance Committee within 30 days of the last meeting with staff. If a parent or guardian is unable to complete a Grievance Packet in writing due to conditions such as a disability or illiteracy, or requires translation services to put a complaint into writing, KIPP staff shall assist him or her in the filing of the Grievance Packet.

The Grievance Packet should contain:

- The nature and date of the grievance and any related or supporting documents;

- The results of previous discussions to resolve the conflict, including any correspondence;
- The reason for the parent(s) or guardian(s)' dissatisfaction with the decisions previously rendered; and
- A description of the relief sought.

Within 30 days of the submission of a complete Grievance Packet, the Grievance Committee shall:

- Research the nature of the complaint;
- Interview the concerned parties; and
- Render a final ruling on the grievance.

The decision of the Grievance Committee shall be final. The Board of Directors shall, at its next regularly scheduled meeting, be informed of all decisions made by the Grievance Committee.

General Requirements

1. **Confidentiality:** All complainants will be notified that information obtained from the complainants and thereafter gathered will be maintained in a manner as confidential as possible, but in some circumstances absolute confidentiality cannot be assured.
2. **Non-Retaliation:** All complainants will be advised that they will be protected against retaliation as a result of the filing of any complaints or participation in any complaint process.
3. **Resolution:** KIPP will investigate complaints appropriately under the circumstances and pursuant to the applicable procedures, and if necessary, take appropriate remedial measures to ensure effective resolution of any complaint.

****Please see the corresponding General Complaint Form within the Appendix ****

Harassment Policy

KIPP is committed to providing a work and educational environment that is free of harassment based on any protected characteristics. As a result, KIPP maintains a strict policy prohibiting harassment of any kind against students, families, employees, individuals providing services in the workplace pursuant to a contract and unpaid interns or volunteers based on any legally-recognized basis, including, but not limited to, their actual or perceived race or ethnicity, religion, religious affiliation, religious creed, color, national origin, ancestry, physical or mental disability, medical condition (including pregnancy, childbirth, lactation and related medical conditions), genetic information, marital status (including registered domestic partnership status), gender (including gender identity and expression), age (40 or over), sexual orientation, Civil Air Patrol status, military and veteran status, immigration and citizenship status or any other consideration protected by federal, state or local law. For purposes of this policy, harassment on the basis of "national origin" also includes harassment against an individual because that person holds or presents the California driver's license issued to those who cannot document their lawful presence in the United States. All such harassment is prohibited.

Harassment is any form of uninvited and unwanted physical or verbal behavior that creates an intimidating, hostile, or demeaning environment for education including but not limited to:

- Verbal conduct including threats, epithets, derogatory comments or slurs based on an individual's protected classification;
- Visual conduct, including derogatory posters, photographs, cartoons, drawings or gestures based on protected classification;
- Physical conduct, including assault, unwanted touching, intentionally blocking normal movement or interfering with school because of sex, race or any other protected basis;
- Retaliation for reporting or threatening to report harassment; and
- Deferential or preferential treatment based on any of the protected classes above.

Prohibited Unlawful Harassment under Title IX

Title IX (20 U.S.C. § 1681 *et. seq.*; 34 C.F.R. § 106.1 *et. seq.*) and California state law prohibit harassment on the basis of sex. In accordance with these existing laws, discrimination on the basis of sex in education institutions is prohibited. All persons, regardless of sex, are afforded equal rights and opportunities and freedom from unlawful discrimination in education programs or activities conducted by KIPP Schools. KIPP Schools is committed to providing an educational environment free of sexual harassment and considers such harassment to be a major offense, which may result in disciplinary action.

Sexual harassment consists of sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature when: (a) Submission to the conduct is explicitly or implicitly made a term or a condition of an individual's employment, education, academic status, or progress; (b) submission to, or rejection of, the conduct by the individual is used as the basis of employment, educational or academic decisions affecting the individual; (c) the conduct has the purpose or effect of having a negative impact upon the individual's work or academic performance, or of creating an intimidating, hostile, or offensive work or educational

environment; and/or (d) submission to, or rejection of, the conduct by the individual is used as the basis for any decision affecting the individual regarding benefits and services, honors, programs, or activities available at or through the educational institution. It is also unlawful to retaliate in any way against an individual who has articulated a good faith concern about sexual harassment against him/her or against another individual. Sexual harassment may include, but is not limited to:

- Physical assaults of a sexual nature, such as:
 - Rape, sexual battery, molestation or attempts to commit these assaults.
 - Intentional physical conduct that is sexual in nature, such as touching, pinching, patting, grabbing, brushing against another's body, or poking another's body.
- Unwanted sexual advances, propositions or other sexual comments, such as:
 - Sexually oriented gestures, notices, remarks, jokes, or comments about a person's sexuality or sexual experience.
 - Preferential treatment or promises of preferential treatment to an individual for submitting to sexual conduct, including soliciting or attempting to solicit any individual to engage in sexual activity for compensation or reward or deferential treatment for rejecting sexual conduct.
 - Subjecting or threats of subjecting a student to unwelcome sexual attention or conduct or intentionally making the student's academic performance more difficult because of the student's sex.
- Sexual or discriminatory displays or publications anywhere in the educational environment, such as:
 - Displaying pictures, cartoons, posters, calendars, graffiti, objections, promotional materials, reading materials, or other materials that are sexually suggestive, sexually demeaning or pornographic or bringing or possessing any such material to read, display or view in the educational environment.
 - Reading publicly or otherwise publicizing in the educational environment materials that are in any way sexually revealing, sexually suggestive, sexually demeaning or pornographic.
 - Displaying signs or other materials purporting to segregate an individual by sex in an area of the educational environment (other than restrooms or similar rooms).

The illustrations of harassment and sexual harassment above are not to be construed as an all-inclusive list of prohibited acts under this Policy.

Suspensions and expulsion may be the result and consequence for any physical or verbal harassment.

Harassment Complaint Procedure

KIPP Schools' reporting procedure provides for a thorough and objective investigation of any harassment or discrimination claim, appropriate disciplinary action against one found to have engaged in prohibited harassment or discrimination, and appropriate remedies for any victim of harassment or discrimination, if warranted under the circumstances.

All staff are expected to provide appropriate supervision to enforce standards of conduct and, if they observe or become aware of misconduct prohibited by this Policy, to intervene as soon as it is safe to do so, call for assistance, and report such incidents. The Board requires staff to follow the procedures in this policy for reporting alleged acts of misconduct prohibited by this Policy.

Any student who believes they have been subject to misconduct prohibited by this Policy or has witnessed such prohibited misconduct is encouraged to immediately report such misconduct to the School Leader.

Complaints regarding such misconduct may also be made to the U.S. Department of Education, Office for Civil Rights.

The School Leader will notify the authorities, if necessary, and Regional Human Resources. When a report is received, KIPP Schools will conduct a fair, timely, thorough and objective investigation that provides all parties appropriate due process and reaches reasonable conclusions based on the evidence collected.

While submission of a written report is not required, the reporting party is encouraged to submit a written report to the Coordinator. Oral reports shall also be considered official reports. Reports may be made anonymously, but formal disciplinary action cannot be based solely on an anonymous report.

KIPP Schools acknowledges and respects every individual's right to privacy. All reports shall be investigated in a manner that protects the confidentiality of the parties and the integrity of the process. This includes keeping the identity of the reporter confidential, as appropriate, except to the extent necessary to carry out the investigation and/or to resolve the issue, as determined by the Coordinator or administrative designee on a case-by-case basis.

Upon receipt of a report of misconduct prohibited by this Policy from a student, staff member, parent, volunteer, visitor or affiliate of KIPP, the Coordinator or administrative designee will promptly initiate an investigation. In most cases, a thorough investigation will

take no more than seven (7) school days. If the Coordinator, or administrative designee determines that an investigation will take longer than seven (7) school days, he or she will inform the complainant and any other relevant parties and provide an approximate date when the investigation will be complete.

Upon completion of the investigation, KIPP Schools will communicate its conclusion as soon as practical directly to the parties involved. However, in no case may the Coordinator or administrative designee reveal confidential information related to other students or employees, including the type and extent of discipline issued against such students or employees. All records related to any investigation of complaints under this Policy are maintained in a secure location.

If KIPP Schools determines that this Policy has been violated, remedial action will be taken, commensurate with the severity of the offense, up to and including termination of employment or student expulsion. Appropriate action will also be taken to deter any such conduct in the future.

Uniform Complaint Procedures

The complainant will be referred to the Uniform Complaint Procedures located in this Manual, when harassment or bullying is based upon one of the protected characteristics set forth in this Policy.

Right of Appeal

Should the Complainant find the School Leader's resolution unsatisfactory, he/she may, within five (5) school days, file an appeal with the Chief of Schools. In such cases, the Chief of Schools will conduct a confidential review of the Complainant's appeal and render a final decision.

Protection Against Retaliation

Retaliation is prohibited against any person by an employee, student or by KIPP Schools for using KIPP Schools' complaint procedure, reporting proscribed discrimination or harassment or filing, testifying, assisting or participating in any manner in any investigation, proceeding or hearing conducted by a governmental enforcement agency.

Employees should reference the Policy Against Workplace Harassment and Discrimination in the KIPP Bay Area Staff Handbook and follow the Complaint Procedure contained therein.

****Please see the corresponding Title IX, Harassment, and Bullying Complaint Form within the Appendix ****

Uniform Complaint Policy and Procedures

KIPP's policy is to comply with applicable federal and state laws and regulations. KIPP is the local agency primarily responsible for compliance with federal and state laws and regulations governing educational programs. Pursuant to this policy, persons responsible for conducting investigations shall be knowledgeable about the laws and programs which they are assigned to investigate. This complaint procedure is adopted to provide a uniform system of complaint processing for the following types of complaints:

- (1) Complaints of unlawful discrimination, harassment, intimidation or bullying against any protected group, including actual or perceived discrimination, on the basis of the actual or perceived characteristics of age, ancestry, color, disability, ethnic group identification, gender expression, gender identity, gender, genetic information, nationality, national origin, race or ethnicity, immigration status, religion, sex, or sexual orientation, or on the basis of a person's association with a person or group with one or more of these actual or perceived characteristics in any KIPP program or activity; and
- (2) Complaints of violations of state or federal law and regulations governing the following programs including but not limited to: Adult Education Programs, Consolidated Categorical Aid Programs, Migrant Education, Career Technical and Technical Education and Career Technical and Technical Training Programs, Child Care and Development Programs, Child Nutrition Programs, Foster and Homeless Youth Services, Every Student Succeeds Act / No Child Left Behind Act (2001) Programs (Titles I-VII), and Special Education Programs.
- (3) A complaint may also be filed alleging that a pupil enrolled in a public school was required to pay a pupil fee for participation in an educational activity as those terms are defined below.
 - a. "Educational activity" means an activity offered by a school, school district, charter school or county office of education that constitutes an integral fundamental part of elementary and secondary education, including, but not

limited to, curricular and extracurricular activities.

- b. “Pupil fee” means a fee, deposit or other charge imposed on pupils, or a pupil’s parents or guardians, in violation of Section 49011 of the Education Code and Section 5 of Article IX of the California Constitution, which require educational activities to be provided free of charge to all pupils without regard to their families’ ability or willingness to pay fees or request special waivers, as provided for in *Hartzell v. Connell* (1984) 35 Cal.3d 899. A pupil fee includes, but is not limited to, all of the following:
 - i. A fee charged to a pupil as a condition for registering for school or classes, or as a condition for participation in a class or an extracurricular activity, regardless of whether the class or activity is elective or compulsory, or is for credit.
 - ii. A security deposit, or other payment, that a pupil is required to make to obtain a lock, locker, book, class apparatus, musical instrument, uniform or other materials or equipment.
 - iii. A purchase that a pupil is required to make to obtain materials, supplies, equipment or uniforms associated with an educational activity.
 - c. A pupil fees complaint may be filed anonymously if the complaint provides evidence or information leading to evidence to support an allegation of noncompliance with laws relating to pupil fees.
 - d. If KIPP finds merit in a pupil fees complaint, the school shall provide a remedy to all affected pupils, parents, and guardians that, where applicable, include reasonable efforts by the school to ensure full reimbursement to all affected pupils, parents, and guardians, subject to procedures established through regulations adopted by the state board.
 - e. Nothing in this section shall be interpreted to prohibit solicitation of voluntary donations of funds or property, voluntary participation in fundraising activities, or school districts, school, and other entities from providing pupils prizes or other recognition for voluntarily participating in fundraising activities.
- (4) Complaints of noncompliance with the requirements governing the Local Control Funding Formula or Sections 47606.5 and 47607.3 of the Education Code, as applicable.
- (5) Complaints of noncompliance with the requirements of Education Code Section 222 regarding the rights of lactating pupils on a school campus. If the Charter School finds merit in a complaint, or if the Superintendent finds merit in an appeal, the Charter School shall provide a remedy to the affected pupil.

KIPP acknowledges and respects every individual’s rights to privacy. Unlawful discrimination, harassment, intimidation or bullying complaints shall be investigated in a manner that protects (to the greatest extent reasonably possible) the confidentiality of the parties and the integrity of the process. KIPP cannot guarantee anonymity of the complainant. This includes keeping the identity of the complainant confidential. However, KIPP will attempt to do so as appropriate. KIPP may find it necessary to disclose information regarding the complaint/complainant to the extent necessary to carry out the investigation or proceedings, as determined by the investigator on a case-by-case basis.

KIPP prohibits any form of retaliation against any complainant in the complaint process, including but not limited to a complainant’s filing of a complaint or the reporting of instances of unlawful discrimination, harassment, intimidation or bullying. Such participation shall not in any way affect the status, grades or work assignments of the complainant.

Compliance Officers

The following compliance officer(s) have been designated to receive and assign investigators to complaints and to ensure KIPP’ compliance with law:

Complaints Concerning or Involving KIPP Staff

Lupita Medina
Director of Human Resources
1000 Broadway, Suite 460
Oakland, CA 94607
510-465-5477

The Director of Human Resources or designee shall ensure that employees designated to investigate complaints are knowledgeable about the laws and programs for which they are responsible. Designated employees may have access to legal counsel as determined by the Director of Human Resources or designee. Should a complaint be filed against the investigator, the compliance officer for that case shall be the Chief People Officer.

Complaints Concerning or Involving KIPP Students

Marie Huxley
Chief Academic Officer
1000 Broadway, Suite 460
Oakland, CA 94607
510-465-5477

Notifications

KIPP shall annually provide written notification of the uniform complaint procedures to employees, students, parents and/or guardians, advisory committees, private school officials and other interested parties.

The annual notice shall be in English, and when necessary, in the primary language, pursuant to section 48985 of the Education Code if fifteen (15) percent or more of the pupils enrolled in KIPP speak a single primary language other than English.

KIPP shall make available copies of the uniform complaint procedures free of charge.

The annual notice shall include the following:

- (a) A statement that KIPP is primarily responsible for compliance with federal and state laws and regulations.
- (b) A statement that a pupil enrolled in a public school shall not be required to pay a pupil fee for participation in an educational activity.
- (c) A statement identifying the responsible staff member, position, or unit designated to receive complaints.
- (d) A statement that the complainant has a right to appeal KIPP' decision to the CDE by filing a written appeal within 15 days of receiving the KIPP' Decision.
- (e) A statement advising the complainant of any civil law remedies that may be available under state or federal discrimination, harassment, intimidation or bullying laws, if applicable, and of the appeal pursuant to Education Code § 262.3.
- (f) A statement that copies of the local educational agency complaint procedures shall be available free of charge.

Procedures

The following procedures shall be used to address all complaints which allege that KIPP has violated federal or state laws or regulations governing educational programs. Compliance officers shall maintain a record of each complaint and subsequent related actions.

All parties involved in allegations shall be notified when a complaint is filed, when a complaint meeting or hearing is scheduled, and when a decision or ruling is made.

Step 1: Filing of Complaint

Any individual, public agency or organization may file a written complaint of alleged noncompliance by KIPP. A complaint alleging unlawful discrimination, harassment, intimidation or bullying shall be initiated no later than six (6) months from the date when the alleged unlawful discrimination, harassment, intimidation or bullying occurred, or six (6) months from the date when the complainant first obtained knowledge of the facts of the alleged unlawful discrimination, harassment, intimidation or bullying. A complaint may be filed by a person who alleges that he/she personally suffered unlawful discrimination, harassment, intimidation or bullying or by a person who believes that an individual or any specific class of individuals has been subjected to unlawful discrimination, harassment, and intimidation or bullying.

The complaint shall be presented to the compliance officer who shall maintain a log of complaints received, providing each with a code number and date stamp.

Pupil fee complaints shall be filed not later than one (1) year from the date the alleged violation occurred.

If a complainant is unable to put a complaint in writing due to conditions such as a disability or illiteracy, KIPP staff shall assist him/her in the filing of the complaint.

Step 2: Mediation

Within three (3) days of receiving the complaint, the compliance officer may informally discuss with the complainant the possibility of using mediation. If the complainant agrees to mediation, the compliance officer shall make arrangements for this process.

Before initiating the mediation of an unlawful discrimination, harassment, intimidation or bullying complaint, the compliance officer

shall ensure that all parties agree to make the mediator a party to related confidential information.

If the mediation process does not resolve the problem within the parameters of law, the compliance officer shall proceed with his/her investigation of the complaint.

The use of mediation shall not extend KIPP' timelines for investigating and resolving the complaint unless the complainant agrees in writing to such an extension of time.

Step 3: Investigation of Complaint

The compliance officer is encouraged to hold an investigative meeting within five (5) days of receiving the complaint or an unsuccessful attempt to mediate the complaint. This meeting shall provide an opportunity for the complainant and/or his/her representative to repeat the complaint orally.

The complainant and/or his/her representative shall have an opportunity to present the complaint and evidence or information leading to evidence to support the allegations in the complaint.

A complainant's refusal to provide KIPP' investigator with documents or other evidence related to the allegations in the complaint, or his/her failure or refusal to cooperate in the investigation or his/her engagement in any other obstruction of the investigation, may result in the dismissal of the complaint because of a lack of evidence to support the allegation.

KIPP' refusal to provide the investigator with access to records and/or other information related to the allegation in the complaint, or its failure or refusal to cooperate in the investigation or its engagement in any other obstruction of the investigation, may result in a finding, based on evidence collected, that a violation has occurred and may result in the imposition of a remedy in favor of the complainant.

Step 4: Response

Unless extended by written agreement with the complainant, the compliance officer shall prepare and send to the complainant a written report of KIPP' investigation and decision, as described in Step #5 below, within sixty (60) days of KIPP' receipt of the complaint.

Step 5: Final Written Decision

KIPP' decision shall be in writing and sent to the complainant. KIPP' decision shall be written in English and in the language of the complainant whenever feasible or as required by law.

The decision shall include:

1. The findings of fact based on evidence gathered.
2. The conclusion(s) of law.
3. Disposition of the complaint.
4. Rationale for such disposition.
5. Corrective actions, if any are warranted.
6. Notice of the complainant's right to appeal KIPP' decision within fifteen (15) days to the CDE and procedures to be followed for initiating such an appeal.
7. For unlawful discrimination, harassment, intimidation or bullying complaints arising under state law, notice that the complainant must wait until sixty (60) days have elapsed from the filing of an appeal with the CDE before pursuing civil law remedies.
8. For unlawful discrimination, harassment, intimidation or bullying complaints arising under federal law such complaint may be made at any time to the U.S. Department of Education, Office for Civil Rights.

If an employee is disciplined as a result of the complaint, the decision shall simply state that effective action was taken and that the employee was informed of KIPP' expectations. The report shall not give any further information as to the nature of the disciplinary action.

Appeals to the California Department of Education

If dissatisfied with the KIPP' decision, the complainant may appeal in writing to the CDE within fifteen (15) days of receiving KIPP' decision. When appealing to the CDE, the complainant must specify the basis for the appeal of the decision and whether the facts are incorrect and/or the law has been misapplied. The appeal shall be accompanied by a copy of the locally filed complaint and a copy of KIPP' decision.

Upon notification by the CDE that the complainant has appealed KIPP' decision, the following documents shall be forwarded to the

CDE:

1. A copy of the original complaint.
2. A copy of the decision.
3. A summary of the nature and extent of the investigation conducted by KIPP, if not covered by the decision.
4. A copy of the investigation files, including but not limited to all notes, interviews, and documents submitted by all parties and gathered by the investigator.
5. A report of any action taken to resolve the complaint.
6. A copy of KIPP' complaint procedures.
7. Other relevant information requested by the CDE.

The CDE may directly intervene in the complaint without waiting for action by KIPP when one of the conditions listed in Title 5, California Code of Regulations, Section 4650 exists, including cases in which KIPP has not taken action within sixty (60) days of the date the complaint was filed with KIPP.

Civil Law Remedies

A complainant may pursue available civil law remedies outside of KIPP' complaint procedures. Complainants may seek assistance from mediation centers or public/private interest attorneys. Civil law remedies that may be imposed by a court include, but are not limited to, injunctions and restraining orders. For unlawful discrimination, harassment, intimidation or bullying complaints arising under state law, however, a complainant must wait until sixty (60) days have elapsed from the filing of an appeal with the CDE before pursuing civil law remedies. The moratorium does not apply to injunctive relief and is applicable only if KIPP has appropriately, and in a timely manner, apprised the complainant of his/her right to file a complaint in accordance with 5 CCR 4622.

****Please see the corresponding Complaint UCP Form within the Appendix ****

Education Records, Student Information and Retention Policy (Including FERPA)

DEFINITION:

A "student record" is defined as any item of information directed related to an individual pupil, other than directory information, that is maintained by KIPP Bay Area Schools ("KIPP, the "School, "Charter School") or required to be maintained an employee in the performance of his/her duties whether recorded by handwriting, print, tapes, film, microfilm, or other means.

Such information includes, but is not limited to:

- A. Date and place of birth; parent and/or guardian's address, mother's maiden name and where the parties may be contacted for emergency purposes;
- B. Grades, test scores, courses taken, academic specializations and school activities;
- C. Special education records;
- D. Disciplinary records;
- E. Medical and health records;
- F. Attendance records and records of past schools attended; and/or
- G. Personal information such as, but not limited to, a student's name, the name of a student's parent or other family member, student identification numbers, social security numbers, photographs, biometric record or any other type of information that aids in identification of a student.

An education record does not include any of the following:

- A. Records that are kept in the sole possession of the maker, are used only as a personal memory aid, and are not accessible or revealed to any other person except a temporary substitute for the maker of the record;
- B. Records maintained by a law enforcement unit of KIPP that were created by that law enforcement unit for the purpose of law enforcement;
- C. In the case of a person who is employed by KIPP but not in attendance at KIPP, records made and maintained in the normal course of business, relate exclusively to the individual in that individual's capacity as an employee and are not available for any other purpose;

- D. Records on a student who is 18 years of age or older, or is attending an institution of postsecondary education, that are: a) made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in his or her professional capacity or assisting in a paraprofessional capacity; b) made, maintained, or used only in connection with treatment of the student; and c) disclosed only to individuals providing the treatment. For the purpose of this definition, “treatment” does not include remedial educational activities or activities that are part of the program of instruction at KIPP;
- E. Records that only contain information about an individual after he or she is no longer a student at KIPP; or
- F. Grades on peer-graded papers before they are collected and recorded by a teacher.

“Personally identifiable information” includes, but is not limited to, (a) the student’s name, (b) the name of the student’s parent/guardian or other family member, (c) the address of the student or student’s family, (d) a personal identifier such as the student’s social security number, biometric record, or student number, (e) other indirect identifiers, such as the student’s date of birth, place of birth, and mother’s maiden name, (f) other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty, and/or (g) information requested by a person who the educational agency or institution reasonably believes knows the identity of the student to whom the education record relates.

- “Directory Information” – KIPP may disclose the personally identifiable information that it has designated as directory information, consistent with the terms of the annual notice provided by KIPP pursuant to the Family Educational Rights and Privacy Act of 2001 (20 U.S.C. § 1232g) (“FERPA”). KIPP has designated the following information as directory information:
 - Student’s name
 - Student’s address
 - Parent/guardian’s address
 - Telephone listing
 - Parent/guardian’s electronic mail address
 - Date and place of birth
 - Dates of attendance
 - Grade level
 - The most recent educational agency or institution attended
 - Student ID number, user ID, or other unique personal identifier used to communicate in electronic systems that cannot be used to access education records without a PIN, password, etc. (A student’s SSN, in whole or in part, cannot be used for this purpose.)
- “School Official” is a person employed by KIPP as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the Board of Directors of KIPP. A school official also may include a volunteer for KIPP or an independent contractor of KIPP or other party who performs an institutional service or function for which KIPP would otherwise use its own employees and who is under the direct control of KIPP with respect to the use and maintenance of personally identifiable information from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks.
- “Legitimate Educational Interest” a school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

All folders, documents, and items created by KIPP Bay Area Schools and received from previous schools which are directed related to an individual pupil are all considered to be part of the student’s record and will be maintained as follows:

Cumulative Folder:

The cumulative file must contain at a minimum, the following:

- Enrollment Paperwork and Application
- Emergency Contact Information
- Report Cards

- Transcripts
- Standardized Test Scores
- Disciplinary Records (Suspensions and Expulsions)
- Immunization Card
- Health Records

The cumulative file may also contain items regarding student’s health such as:

- Record of Doctor Visit
- Record of Dentist Visit
- Results of any School Based Screenings (Vision, Hearing, Scoliosis)

Confidential Folder

The “Confidential Folder” is kept separate from the cumulative student record to provide additional protection for student privacy and is established when a student is referred for special education screening, a 504 plan has been established, an individual educational program (“IEP”) has been established, or for information that is personal or supplemental to student data.

Schools must contact the Education Specialist at their school site or the Director of Special Education for KIPP Bay Area Schools for clarity of processes around maintenance, location, and access regarding Special Education Student Records within the confidential folder and/or the cumulative records folder. The School’s Special Education department should work with the Operations team to manage these confidential files.

Record Classification:

All student records are classified as “Mandatory Permanent Pupil Records,” “Mandatory Interim Pupil Records,” or “Permitted Pupil Records.” Regulations governing access, transfer, and destruction of records vary according to their classification (*See Retention and Access and Transfer sections for more information.*)

- Mandatory Permanent Pupil Records: are those records which are maintained in perpetuity and which schools have been directed to compile by state law, regulation or authorized administrative directive.
- Mandatory Interim Pupil Records: are those records, which the schools are directed to compile and maintain for stipulated periods of time (3 years) and are then destroyed in accordance with state law, regulation or authorized administrative directive.
- Permitted Pupil Records: are those records having clear importance only to the current educational process of the student (6 months).

(See Classification of Records Table on next page)

Mandatory Permanent Pupil Records (Maintain Permanently)	Mandatory Interim Pupil Records (Maintain 3 years after usefulness has ceased)	Permitted Pupil Records (Maintain 6 months after usefulness has ceased)
<p>The following Permanent Records shall be kept indefinitely:</p> <ol style="list-style-type: none"> 1. Legal name of student. 2. Date and place of birth. 3. Method of verification of birth date. Sex of the student. 4. Name and address of parent/guardian of minor student, or address of minor student if different from the above with annual verification of address. 	<p>Unless forwarded to another district or school, Interim Records shall be maintained subject to destruction during the third school year following a determination that their usefulness has ceased. These records include:</p> <ol style="list-style-type: none"> 1. A log identifying persons or agencies who request or receive information from the record. 2. Health records and information, including Child Health and 	<p>Permitted Record may be destroyed six months after the student completes or withdraws from the educational program, including:</p> <ol style="list-style-type: none"> 1. Objective counselor/teacher ratings (e.g. Student success documents). 2. Standardized test results older than three years. 3. Routine disciplinary data (e.g. KIPP Paychecks). 4. Verified reports of relevant

<ol style="list-style-type: none"> 5. Enrollment start and end date of each school year and for any summer session or other extra session. 6. Subjects taken during each year, half-year, summer session or quarter/trimester, and marks, credits, or grades given. 7. Verification of or exemption from required immunizations. 8. Date of high school graduation or Equivalent (<i>if applicable</i>). 	<ol style="list-style-type: none"> 3. Information on participation in Special Education programs, including required tests, case studies, authorizations, and evidence of eligibility for admission or discharge. 4. Language training records 5. Progress slips/notices for student academic evaluation required by Ed. Code 49066 & 49067. 6. Parental restrictions/stipulations regarding access to directory information. 7. Parent/guardian or adult student rejoinders to challenged records and to disciplinary action. 8. Parent/guardian authorization or denial of student participation in specific programs. 9. Results of standardized tests administered within the past three years. 10. Attendance verification documentation needed to fiscal audit 11. Work permits/Permits to Employ (<i>if applicable</i>) 	<p>behavioral patterns.</p> <ol style="list-style-type: none"> 5. All disciplinary notices. 6. Attendance records not covered in the Administrative Code Section 400.
--	---	---

PARENT RIGHTS & DEFINITION:

Annual Notification to Parents/Guardians

Upon students’ initial enrollment and at the beginning of each school year thereafter, KIPP Bay Area Schools shall notify parents/guardians and eligible students currently in attendance, in writing, of their rights related to student records. Insofar as practicable, KIPP Bay Area Schools shall provide these notices in the student’s home language and shall effectively notify parents, guardians or eligible students who are disabled.

The notification shall include information about:

- The types of student records and the information contained therein which are directly related to students and maintained by KIPP Bay Area Schools.
- The titles of the official(s) responsible for maintaining each type of record.
- The location of the log identifying those who request information from the records.
- KIPP Bay Area Schools criteria for defining “school officials and employees” and for determining “legitimate educational interest.”
- KIPP Bay Area Schools policies for reviewing and expunging student records.
- The right/procedures of the parent to inspect and review student records.
- The right/procedures to challenge/amend the content of a student record that the parent/guardian or student believes to be inaccurate, misleading, or otherwise in violation of the student’s privacy rights.
- The cost, if any, charged for duplicating copies of records.
- The categories of information defined as directory information.
- The right to consent to disclosures of personally identifiable information contained in the student’s records except when disclosure without consent is authorized by law.
- Any other rights and requirements set in Education Code sections 49060 - 49078 and the rights of parents/guardians to file a complaint with the United States Department of Education concerning an alleged failure

by KIPP Bay Area Schools to comply with this section of the law.

- The availability of the prospectus.
- A statement that KIPP Bay Area Schools forwards education records to other agencies or institutions that have requested the records and in which the student seeks or intends to enroll.
- Request that KIPP not release student names, addresses and telephone listings to military recruiters or institutions of higher education without prior written parental consent.

Disclosure of Directory Information

At the beginning of each school year, KIPP shall provide parents and eligible students with a notice containing the following information: 1) The type of personally identifiable information it designates as directory information; 2) The parent's or eligible student's right to require that KIPP not release "directory information" without obtaining prior written consent from parent or eligible student; and 3) The period of time within which a parent or eligible student must notify KIPP in writing of the categories of "directory information" that it may not disclose without the parent's or eligible student's prior written consent. KIPP will continue to honor a valid request to opt out of the disclosure of a former student's directory information made while the former student was in attendance unless the student rescinds the opt out request.

Parent Definition

Anyone who meets one of the definition of Parent included below may serve as a parent in relation to Schools records.

- 1) A biological or adoptive parent of a child;²
- 2) A foster parent;³
- 3) A guardian generally authorized to act as the child's parent, or authorized to make educational decisions for the child, including a responsible adult appointed for the child by court order;
- 4) An individual acting in the place of a biological or adoptive parent (including a grandparent, stepparent, or other relative) with whom the child lives, or an individual who is legally responsible for the child's welfare; and/or
- 5) A surrogate parent who has been appointed.⁴

Non-Custodial Parents

Both natural and adoptive parents of any student may access their child's student records, participate in School activities, visit the student at School and pick up the student after school. These rights shall be respected even if legal custody is vested in only one named parent, unless a court order restricts the right of the non-custodial parent. Parent/guardians may be asked to provide evidence of any completed or pending legal action, which curtails the non-custodial parent's rights. School staff shall always abide by the most recent court order on the matter.

Adult Students

An "adult student" or "eligible student" is a person who is or was enrolled in School and who is 18 years of age. Educational rights transfer from the parents to a student who is 18 years old under State law. As such, an adult will have the ability to request his or her own student records, challenge student records, etc.

Parents and eligible students have the right to file a complaint with the U.S. Department of Education concerning alleged failures by KIPP to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue. S.W.
Washington, D.C. 20202-5920

² The biological or adoptive parent, when attempting to act as the parent under this part and when more than one party is qualified as a parent, must be presumed to be the parent for purposes of this section unless the biological or adoptive parent does not have legal authority to make educational decisions for the child.

³ Only if the authority of the biological or adoptive parents to make educational decisions on the child's behalf specifically has been limited by court order

⁴ If a judicial decree or order identifies a specific person or persons under paragraphs (a)(1) through (4) of this section to act as the "parent" of a child or to make educational decisions on behalf of a child, then such person or persons shall be determined to be the "parent" for purposes of this section.

MAINTENANCE AND RETENTION

Regional Roles & Responsibilities:

KIPP Bay Area Schools recognizes the importance of keeping accurate, comprehensive student records as required by law. KIPP Bay Area Schools' regional office will be responsible for developing and providing to schools a description of the policies and procedures for proper maintenance and transfer of student records.

This procedures and regulations in this Policy will also apply if a School within KIPP Bay Area Schools closes. In addition, KIPP Bay Area Schools' regional office will ensure a final audit of the School to determine the disposition of all assets and liabilities of the School, as well as the compliant process for disposition, and the maintenance and transfer of student records.

At each school, a designee shall act as custodian of records for students enrolled at that school. Each school site is held responsible to adhering all the procedures and regulations stated in this Policy regarding all files and documentation identified as a student record. All student records, electronic and physical, will be managed and kept at each appropriate school site where the student's current enrollment is held. Each school site shall be responsible for the coordination of information security for student data and records. KIPP Bay Area Schools will designate an employee to serve as custodian of records, with responsibility for student records at the regional level.

Security & Confidentiality:

Safe Location

Records for each individual student shall be maintained and stored in a central file at the school site attended by the student. When records are maintained in different locations, a notation in the central file as to where such other records may be found is required. The location of the central file must be a secure location.

Other student records for students that have left the school or been promoted must be retained for the required period of time, must also be maintained and stored in a central file at the appropriate school site. These records must also be stored in a secure location, as well as labeled appropriately up until the scheduled date for destruction (*see Retention section for more information.*)

Procedures for Confidentiality

The custodian of record is the administrator/school official of the site in which the documents are held. The following guidelines must be enforced at each school site where student records are held:

1. Maintain all records in a locked filing cabinet or room.
2. Records should not be left out unattended. The public should not be able to view any student information including student's names on files, binders, or documents.
3. Individual files are to be checked out using an insert that identifies the student, the date, and employee accessing the files.
4. Records sent to other school sites and/or other public or private schools need to be clearly marked confidential and tracked as to when they were sent, by whom, and when received.
5. Files kept by authorized educators with confidential information also need to be treated with the same process to protect student information.

The staff designee at each School site shall be responsible for the security of student records and shall assure that access is limited to authorized persons. The designee shall prevent the alteration, damage, or loss of original records during inspection of a parent or authorized third party. Each school site shall ensure the confidentiality of records as required by law and shall establish additional regulations if necessary to safeguard data against damage or loss. Parents may request copies of their student's record by submitting the required documentation.

Sensitive Records Defined

Documentation within a student record can be considered "sensitive" and may be stored in either electronic or printed format within the central file. Records shall be defined as "sensitive" if they contain an individual's first name or first initial

and last name in combination with any one of the following data elements, when either the name or the elements are not encrypted or redacted:

- Social security number
- Driver's license number
- Home address*
- Salary information
- Student attendance or grade data*
- Medical information
- Bank account or credit card account number
- Date of birth*
- Home phone number*
- Maiden name

Student "directory information" shall not be defined as "sensitive records." Any document that is part of a student record marked "Confidential," "Sensitive," or otherwise similarly labeled shall be treated as a "sensitive record".

Amendments:

Grounds

A parent/guardian or adult student can submit a written request to correct or remove information from a student's record. The parent/guardian or adult student must establish that specific grounds exist and provide any information concerning the student that may include any of the following grounds.

- Inaccurate.
- An unsubstantiated personal conclusion or inference.
- A conclusion or inference outside of the observer's area of competence.
- Not based on the personal observation of a named person with the time and place of the observation noted.
- Misleading.
- In violation of the privacy or other rights of the student.

Process

Within 30 days of receiving a request to correct or remove information from a student record, the School leader shall attempt to meet with the parent/guardian and with the certificated employee (if still employed) who recorded the information in question.

The Charter School's response will be in writing, and if the request for amendment is denied, the School leader will set forth the reason for the denial and inform the parent or eligible student of his or her right to a hearing challenging the content of the education record.

If the School leader sustains any or all of the allegations, he or she must order the correction or the removal and destruction of the information. The School leader or designee must then inform the parent or eligible student of the amendment in writing.

Hearing to Challenge the Education Record

If the School leader denies a parent or eligible student's request to amend an education record, the parent or eligible student may, within 30 days of the denial, request in writing that he/she be given the opportunity for a hearing to challenge the content of the student's education records on the grounds that the information contained in the education records is: inaccurate, misleading, in violation of the privacy rights of the student, an unsubstantiated personal conclusion or inference; a conclusion or inference outside of the observer's area of competence; or not based on the personal observation of a named person with the time and place of the observation noted.

The Chief of Schools or designee ("Chief of Schools") or the Board Chair may convene a hearing panel to assist in making determinations regarding educational record challenges provided that the parent has given written consent to release information from the pupil's records to the members of the panel convened. The hearing panel shall consist of the following persons:

1. The school leader of a public school other than the public school at which the record is on file;

2. A certificated employee; and
3. A parent appointed by the Chief of Schools or by the Board of Directors, depending upon who convenes the panel.

The hearing to challenge the education record shall be held within thirty (30) days of the date of the request for a hearing. Notice of the date, time and place of the hearing will be sent by KIPP to the parent or eligible student no later than twenty (20) days before the hearing.

The hearing will be conducted by the Chief of Schools or his/her designee, who shall not be required to use formal rules of evidence or procedure. The parent or eligible student will be given a full and fair opportunity to present evidence relevant to the issues relating to the challenge to the education record. The parent or eligible student may also, at his/her own expense, be assisted or represented by one or more individuals of his/her choice, including an attorney. The decision of the Chief of Schools or designee will be based solely on the evidence presented at the hearing and is final. Within thirty (30) days after the conclusion of the hearing, KIPP's decision regarding the challenge will be made in writing and will include a summary of the evidence and the reasons for the decision.

If, as a result of the hearing, the KIPP decides that the information is inaccurate, misleading, in violation of the privacy rights of the student, an unsubstantiated personal conclusion or inference, a conclusion or inference outside of the observer's area of competence, or otherwise not based on the personal observation of a named person with the time and place of the observation noted, it will amend the record accordingly and inform the parent or eligible student of the amendment in writing.

If, as a result of the hearing, KIPP decides that the information in the education record is not inaccurate, misleading in violation of the privacy rights of the student, an unsubstantiated personal conclusion or inference, a conclusion or inference outside of the observer's area of competence, or otherwise not based on the personal observation of a named person with the time and place of the observation noted, it shall inform the parent or eligible student of the right to place a statement in the record commenting on the contested information in the record or stating why he/she disagrees with the decision of KIPP, or both. If KIPP places a statement by the parent or eligible student in the education records of a student, it will maintain the statement with the contested part of the record for as long as the record is maintained and disclose the statement whenever it discloses the portion of the record to which the statement relates.

Grades

When a student's grade is challenged, the teacher who gave the grade shall be given an opportunity to state orally, in writing, or both, the reasons for which the grade was given. Insofar as practicable, he/she shall be included in all discussions related to any grade change. In the absence of clerical or mechanical error, fraud, bad faith or incompetency, the student's grade as determined by the teacher shall be final.

Additions

No additions except routine updating shall be made to a student's record after high school graduation or permanent departure without prior consent of the parent/guardian or adult student.

Yearly Parent Notification

At the beginning of each school year, parents/guardians shall be notified of the availability of the above procedures for challenging student records.

Retention:

Guidelines

Records retention is the holding (period) of records and/or documents for further use. The retention periods indicated are to assist school sites in both the retention of records and the timely destruction of documents. Records shall be destroyed in a way that assures they will not be available to possible public inspection in the process of destruction. No original student record that is required for auditing purposes shall be destroyed prior to the second month of July succeeding the completion of the audit. School sites should use due diligence in handling and protecting confidential files and written documents included in student records prior to or during the process of disposing.

Schedule of Disposition

Materials (such as miscellaneous notes, duplicate report cards, obsolete tests, etc.) that may not fall into any classification of

records and no longer serve an educational purpose shall be destroyed at the end of the school year or if the student withdraws for any reason prior to transfer of student record (*see the sections on Classification of Records*).

SCHEDULE OF DISPOSITION	
Record Classification or Type	Retention Time Period
Mandatory Permanent Pupil Records	In perpetuity
Mandatory Interim Pupil Records	3 years after ceased usefulness
Permitted Pupil Records	Six months after ceased usefulness
Additional Materials	End of school year or withdrawal

Electronic Copies

The original of any records of which a photographic, microfilm, or electronic copy has been made may be destroyed according to the regulations in this Policy. At that time, provision must also be made for adhering to the regulations of permanently maintaining such photographic, microfilm, or electronic copies for the required time period according to the schedule of disposition.

If created photographic, microfilm, or electronic copies will be disposed of after required retention time period, care shall be taken to properly erase these records from electronic files when they are no longer needed or when computer hardware containing such records is discarded.

TRANSFERS:

New Parent Notification

If a student transfers from any other school, district or private school and is enrolled, the School site shall provide to the parent/guardian the rights regarding student records, including the right to review, challenge and receive a copy of student records.

Transfer Requests Received (From KIPP to another school)

When a request for a student record is received, the KIPP custodian of records shall forward the appropriate student records to the requesting school, district, or private school within ten (10) school days. The school site shall require a written request on an official letterhead and send the student records in a secure packaging to the requesting school's address.

The custodian of records at each school site shall forward student *mandatory permanent records* as requested by the other school, district, or private school. The original mandatory permanent records, or a paper or electronic copy, shall be retained permanently by the school Site. If the transfer is to another California public school, the student's entire *mandatory interim record* shall be forwarded and *permitted records* may be forwarded. If the transfer is out of state or to a private school, the *mandatory interim record* may be forwarded.

Materials (such as miscellaneous notes, duplicate report cards, obsolete tests, etc.) that may not fall into any classification of records, shall be removed from the student record prior to transferring of student record. The school site is responsible for ensuring that all student records are updated before they are transferred.

Transfer Requests Sent (From another school to KIPP)

When sending a request for student records, the KIPP custodian of records shall contact the prior school of enrollment directly. If the prior school is closed, KIPP shall contact the local school district, county office of education, or governing body of the school for assistance.

Log of Transfers

All transfers of student records must be recorded in a record or log of requests for information. The log or record must be open to the inspection of a parent and the school officials and kept separate from student records. The log or record must contain the following information:

- The name and address of the requesting school or agency
- Date of request
- First and last name of student
- Student DOB

Record Holds

Student records shall not be withheld from the requesting district because of any charges or fees owed by the student or parent/guardian.

Transcripts and grades may be withheld from students who willfully fail to return school property which they have been lent. If the school is withholding grades, diploma, or transcripts from the student because of willful damage or loss of school property, this information shall be sent to the requesting school or district or private school along with the student's records.

Court and Law Enforcement Orders

Prior to disclosing a record pursuant to a court order, the School leader or designee shall, unless otherwise instructed by the order, give the parent/guardian or adult student at least three (3) days' notice of the name of the requesting agency and the specific record requested if lawfully possible within the requirements of the judicial order.

When authorized by law to assist law enforcement in investigations of suspected kidnapping, the custodian of records and School leader shall provide information about the identity and location of the student as it relates to the transfer of that student's records to another district or private school within the state. The information shall be released only to designated peace officers, federal criminal investigators and federal law enforcement officers whose names have been submitted by their law enforcement agency in writing.

Health Institutions

The School leader or designee may release a student's immunization record information to local health departments operating countywide immunization information and reminder systems and the State Department of Health Services. The following information may be released:

- Name of the student
- Name of student's parent/guardian
- Types and dates of immunizations received by the student
- Manufacturer and lot number of the immunization received
- Adverse reaction to the immunization
- Other non-medical information necessary to establish the student's unique identity and record
- Current address and telephone number for the student and parent/guardian
- Student's gender
- Student's place of birth

ACCESS:

Definition

"Access" means a personal inspection and review of a record, an accurate copy of a record or receipt of an accurate copy of a record, an oral description or communication of a record, and a request to release a copy of any record.

"Disclosure" means to permit access to or the release, transfer, or other communication of personally identifiable information contained in education records, to any party, by any means including oral, written or electronic means.

Parental Request to Review Records

Parents can submit a written request to review their student's records. The written request should specify the specific records to be disclosed. KIPP will provide copies of requested documents within five (5) business days of a written request for copies.

Log of Access

A log shall be maintained in each student's record, which lists all persons, agencies or organizations requesting or receiving information from the records and the legitimate educational interest of the requester.

In every instance of inspection by persons who do not have assigned educational responsibility, the custodian of records at the School site shall make an entry in the log indicating the record inspected, the name of the person granted access, the

reason access was granted, and the time and circumstances of inspection.

The log does not need to include the following persons accessing student records:

- Parents/guardians or adult students
- Parties obtaining directory information.
- Parties who provide written parental consent, in which case the consent notice shall be filed with the record.
- School officials or employees who have legitimate educational interest.
- A party seeking or receiving the records as directed by a court order or subpoena.

The log shall be accessible only to the parent/guardian, adult student, or school official or designee, responsible for the maintenance of pupil records, and to the Comptroller General of the United States, the Secretary of Health, Education, and Welfare, and administrative head of an education agency, and state educational authorities as a means of auditing the operation of the system.

Student cumulative records may not be removed from the premises of the KIPP, unless the individual removing the record has a legitimate educational interest, and is authorized by the School leader, or by a majority of a quorum of the Board of Directors at a duly agendized meeting. Employees who remove student cumulative records or other student records from the KIPP premises without a legitimate educational interest and authorization may be subject to discipline. Employees are permitted to take student work-product, or other appropriate student records, off premises without authorization for legitimate academic purposes (e.g. grading work-product, assigning credit, reviewing materials for classroom discussion, etc.)

Duplications

To provide copies of any student record, the School site can charge a reasonable fee not to exceed the actual cost of furnishing the copies. The School designee or administrative staff shall set a fee and update the amount annually if actual costs change.

No charge shall be made for providing up to two (2) transcripts or up two (2) verifications of various records for any former student. No charge shall be made to locate or retrieve any student record.

Personally Indefinable Information

For disclosures of personally identifiable information to institutions that make disclosures of the information on behalf of KIPP in accordance with 34 C.F.R. § 99.33(b), the record must include the names of the additional parties to which the receiving party may disclose the information on behalf of KIPP and the legitimate interests that each of the additional parties has in requesting or obtaining the information.

The records relating to disclosures of personally identifiable student information may be inspected by parents and eligible students, KIPP officials (or their assistants) responsible for the custody of the records, and parties authorized by regulations for the purpose of auditing the recordkeeping procedures of KIPP.

KIPP must have a signed and dated written consent from the parent or eligible student before releasing any non-directory information from a student's education record except as provided below. The written permission must specify the records that may be disclosed, the purpose of the disclosure and the party or class of parties to whom the disclosure may be made. When disclosure is made pursuant to written permission, the parent or eligible student may request a copy of the disclosed records and KIPP shall provide him or her with a copy of the records disclosed upon request. Signed and dated written consent may include a record and signature in electronic form if it identifies and authenticates a particular person as the source of the electronic consent and indicates such person's approval of the information contained in the electronic consent.

KIPP will only disclose personally identifiable information on the condition that the receiving party not disclose the information to any party without the prior written consent of the parent or eligible student and that the receiving party use the information for the purposes for which the disclosure was made. This restriction does not apply to disclosures that fall within the disclosure exceptions listed below. KIPP must maintain the appropriate records related to these disclosure exceptions, as described below. Except for disclosures pursuant to a warrant, judicial order or lawfully issued subpoena, or

directory information or to parents or eligible students, the KIPP will inform a receiving party of the requirement that the party not disclose the information to any other party without the prior written consent of the parent or eligible student and that the receiving party use it for the purpose for which the disclosure was made. Note specifically that KIPP will not release information to third parties for immigration-enforcement purposes, except as required by law or court order.

KIPP will disclose education records, without prior written consent of the parent or eligible student, to the following parties:

1. School employees who have a legitimate educational interest as defined by 34 C.F.R. Part 99;
2. Other schools to which a student seeks or intends to enroll so long as the disclosure is for purposes related to the student's enrollment or transfer. When a student transfers schools, KIPP will mail the original or a copy of a student's cumulative file to the receiving district or private school within ten (10) school days of following the KIPP will make a reasonable attempt to notify the parent or eligible student of the request for records at his/her last known address, unless the disclosure is initiated by the parent or eligible student. Additionally, KIPP will give the parent or eligible student, upon request, a copy of the record that was disclosed and give the parent or eligible student, upon request, an opportunity for hearing pursuant to Section (IV)(3) above;
3. Certain government officials listed in 20 U.S.C. § 1232g(b)(1) in order to carry out lawful functions;
4. Appropriate parties in connection with a student's application for, or receipt of, financial aid if it is necessary to determine eligibility, amount of aid, conditions for aid or enforcing the terms and conditions of the aid;
5. Organizations conducting certain studies for the KIPP in accordance with 20 U.S.C. § 1232g(b)(1)(F);
6. Accrediting organizations in order to carry out their accrediting functions;
7. Parents of a dependent student as defined in section 152 of the Internal Revenue Code of 1986;
8. Individuals or entities, in compliance with a judicial order or lawfully issued subpoena. Subject to the exceptions found in 34 C.F.R. § 99.31(a)(9)(i), reasonable effort must be made to notify the parent or eligible student of the order or subpoena in advance of compliance, so that the parent or eligible student may seek a protective order;
9. Persons who need to know in cases of health and safety emergencies;
10. State and local authorities, within a juvenile justice system, pursuant to specific State law;
11. A foster family agency with jurisdiction over a currently enrolled or former student, a short-term residential treatment program staff responsible for the education or case management of a student, and a caregiver (regardless of whether the caregiver has been appointed as the pupil's educational rights holder) who has direct responsibility for the care of the student, including a certified or licensed foster parent, an approved relative or nonrelated extended family member, or a resource family, may access the current or most recent records of grades, transcripts, attendance, discipline, and online communication on platforms established by KIPP for student and parents, and any individualized education program ("IEP") or Section 504 plan that may have been developed or maintained by KIPP; and/or
12. A victim of an alleged perpetrator of a crime of violence or a non-forcible sex offense. The disclosure may only include final results of the disciplinary proceedings conducted by KIPP with respect to that alleged crime or offense. KIPP may disclose the final results of the disciplinary proceeding, regardless of whether KIPP concluded a violation was committed.

Team and Family Handbook Acknowledgement Form 2022-2023

Please initial the following statements, complete and sign the information below *in pen*, and return this entire page to your student's homeroom teacher.

- _____ I have read the 2019-2020 Team & Family Handbook. I understand that KIPP is a public charter school, and therefore, a school of choice. Choosing to send my student to KIPP means that I am also choosing to adhere to the policies outlined in the handbook, with the understanding that they are rooted in the identity and philosophy of our school.
- _____ I understand that consistent daily attendance at this school is mandatory. Because I understand the importance of consistent daily attendance, I will also use the calendar as a reference when planning appointments and/or vacations. If my child has to miss school for any reason, I will call or write the office within 48 hours to excuse the absence.
- _____ I will support the teachers and staff of KIPP and will do whatever it takes for my child to succeed both academically and behaviorally. This means that I will make myself available by phone, in person, and will sit with my child during class, if necessary.
- _____ I realize that the administration reserves the right to interpret, revise, amend, or withdraw policies and procedures at its discretion.

Student and Family Technology Use Agreement

[PARENT SECTION]

I, _____, the parent / guardian of _____, agree to allow my child to have access to the Internet through KIPP Bay Area Schools and access to a Google Apps for EDU account within the KIPPBAYAREA.ORG domain.

I have read the KIPP Bay Area Public Schools Internet and Computer Usage Policy and agree to the KIPP Bay Area Public Schools Acceptable Internet & Technology Use Agreement. I understand that KIPP Bay Area Schools cannot guarantee the appropriateness of information or material that my child may encounter on the Internet. I shall not hold KIPP Bay Area Public Schools responsible for materials acquired or viewed on-line by my child, for violations of copyright restrictions, or any costs incurred by my child.

[STUDENT SECTION – REVIEW WITH PARENT]

I, _____, have read and agree to the above KIPP Bay Area Public Schools Acceptable Internet & Technology Use Agreement and will strive to act with honesty, integrity and respect. Whenever I use the Internet on KIPP computers, I promise to: (please initial each box as you review it with your student)

I promise to...	Student Initials	Parent Initials
Be aware of what I post online. Website and social media venues are public. What I post leaves a digital footprint for all to see. I will not post anything that I wouldn't want my peers, parents, teachers, future colleges, or employers to see.		
Follow the school's code of conduct when writing online. It is acceptable to disagree with other people's opinions; however, I will do so in a respectful way. I will make sure that criticism is constructive and not hurtful. What is inappropriate in the classroom is inappropriate online.		
Be safe online. I will never give out my, or anyone else's, personal information, including, but not limited to, last names, phone numbers, addresses, exact birthdates or pictures. I will not share my password with anyone besides my teachers and parents.		
Always tell a parent or teacher if someone makes me feel pressured or uncomfortable, or acts inappropriately toward me online. I will talk to a parent or teacher about anything that happens online that makes me feel upset, sad or not safe.		
Model kind behavior online. I will not bully, humiliate, or upset anyone online and I will stand up to those who do.		
Read and review an entire website prior to linking to it to ensure that all the information is appropriate for a school setting. I know that not everything I read, hear, or see online is true. I will consider whether a source or author is credible.		
Do my own work! I will not use other people's intellectual property without their permission. I am aware that it is a violation of copyright law to copy and paste other people's thoughts.		
Be aware that pictures may be protected under copyright laws. I will verify that I have permission to use the image or that it is under Creative Commons attribution.		

Not to download any programs or applications onto KIPP Bay Area Schools' machines without teacher or administrator approval.		
Treat school computers with care and protect them from damage to the best of my ability.

Appendix 20- Leadership Excellence Rubric

2021-22 Leadership Excellence Rubric

A tool to support leader growth and development

Why was the Leadership Excellence Rubric created?

The Leadership Excellence Rubric (LER) was created to support leader growth and development. We believe establishing a rigorous and shared vision for what leadership excellence looks like at KIPP NorCal will help us accelerate leader growth, develop leadership pipelines, align leadership development activities and ultimately, drive stronger and more consistent outcomes for our students.

What are the components of the rubric?

There are 4 components of the rubric:

1. **Leadership Categories:** The LER focuses on seven categories of school practices. Among them are two primary drivers of student achievement: rigorous, goal and data-driven teaching and learning and restorative school-wide culture. Two additional categories of a school leader's work are essential to supporting these drivers: building and managing a high-quality aligned staff to the school's vision and instituting operations and systems to put the vision into place. Undergirding all of these categories is the diversity, equity and inclusion leadership, team and family leadership, and personal leadership modeled by the school leader who sets the tone for all student and adult relationships and practices in the school.
2. **Essential Question:** The essential questions are the core questions to answer about the particular leadership category. For an effective leader, the answer to each essential question is "yes."
3. **Descriptor Language:** Descriptions of each leadership category are used to differentiate four levels of performance: Distinguished, Proficient, Approaching and Emerging.
4. **Examples of Outcomes** - The LER uses descriptors that focus both on observable leader actions and school outcomes that may result from these actions. The examples of school outcomes are intended to help facilitate reflection on leadership proficiency in each leadership category but is not meant to be a fully comprehensive list of all possible outcomes.

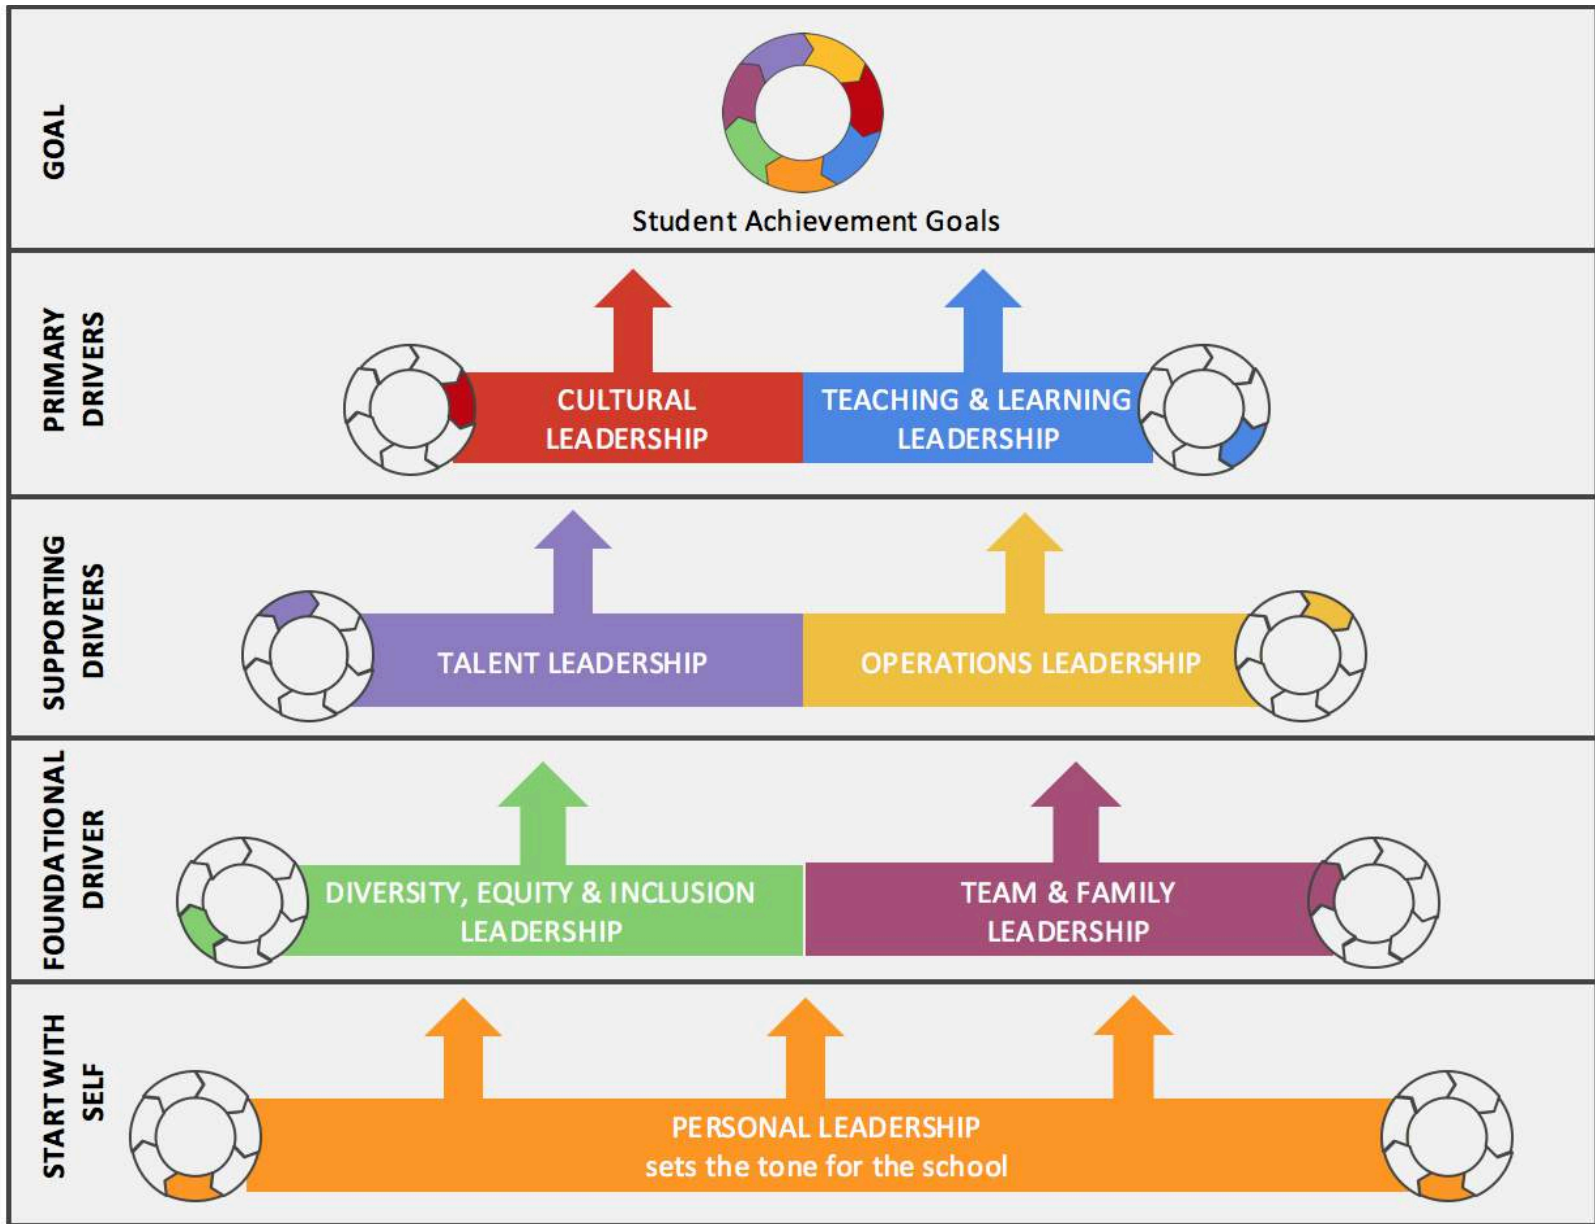

How was the rubric created?

- After reviewing several research-based leadership rubrics from high-performing CMOs, districts and other sources, New Leaders for New School's leadership development framework was selected as a foundation based on its clear progression and alignment of leadership categories. Denver Public School's leadership framework was also integrated due to its clear linkage between observable leader actions AND school outputs,
- A guiding team of RSO staff and school leaders researched and prioritized leadership indicators that are predictive of excellent school outcomes, drawing from a variety of sources including the KIPP Foundation's Leadership Competency Model and Leading For Learning actions, the National Equity Project's Leading for Equity Rubric and New Leaders for New School's evaluation rubric.
- School leaders and assistant principals provided detailed feedback on the rubric to ensure it aligned with KIPP NorCal priorities and values.

How will the rubric be used?

- **Performance Management** - The LER will be the foundational tool for our leader performance management system, used by our assistant principals, school leaders, and managing directors of schools.
- **Coaching** - The LER will be the foundation for coaching and developing APs and school leaders. A team of KIPP NorCal leaders have created "leadership development arcs" that prioritize specific leadership skills from the leadership excellence rubric to help focus coaching and development efforts. These prioritized skills represent foundational skills that we believe assistant principals and school leaders need to master in sequence from onboarding through their first and second year in the role. Leadership development arcs are meant to be a starting point for managers to determine *what* to coach APs and school leaders on, *when* to coach on each foundational skill and *how* to develop these skills in their teaches (via accompanying 70/20/10 plans). Not all leaders are expected to follow development arcs exactly and we encourage managers to modify the arcs for each of their leaders as needed. Leadership development arcs can be found here: [Leadership Development Arcs](#)
- **RSO Support** - The LER will inform how the RSO structures professional development, communities of practice and other supports for KIPP NorCal leaders.
- **Leadership bench building** - The LER will be used to attract and identify talent, as well as determine readiness for leadership roles.

Category Relationships

1. Personal Leadership

Does the leader have a vision that is grounded in excellence and centered around what is best for students? Does the leader rally others towards this vision through building authentic relationships, effectively leading change and continuously learning and improving?

	1. EMERGING	2. APPROACHING	3. PROFICIENT	4. DISTINGUISHED	EXAMPLES OF OUTCOMES
Develops school-wide goals and plans that lead school towards an ambitious vision for students outcomes					<ul style="list-style-type: none"> Students and families can share what the school vision is and how it is impacting their education and lives Relationships with staff, students and families are deep, long lasting and built on strong communication and trust Leader brings their best self to work, continually drives her/his personal development and maintains their personal passions Staff strongly agree/agree on the TNTP Insight survey that: <i>My school leaders articulate a clear overarching vision that drives priorities, goals and decision making within the school (Teachers)</i>
1.1 -School vision	Sets a limited school vision that does not position students to be on a path to and through college and/or conflicts with organizational core values, student data and our shared commitment to diversity, equity and inclusion	Sets and communicates a school vision for all students; vision is based on a limited analysis of organizational core values, student data and our shared commitment to diversity, equity and inclusion	Sets and communicates an ambitious school vision that leads all students on a path to and through college; vision is based on an analysis of organizational core values, student data and our shared commitment to diversity, equity and inclusion; engages and invests students, staff and families in the school vision	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Develops secondary leaders to own and invest other stakeholders in the school vision Infuses the school vision into all aspects of the school so that the vision is lived out on a daily basis 	
1.2 - Planning & Execution	Develops and implements school-wide plans that do not identify and lead the school towards high impact goals and priorities; does not implement the plan effectively due to challenges with contingency planning, aligning time and resources and/or holding herself and others accountable for achieving intended outcomes identified in the plan	Develops and implements school-wide plans that inconsistently identify and lead the school towards high impact goals and priorities; inconsistently implements the plan due to challenges with contingency planning, aligning time and resources or holding herself and others accountable for achieving intended outcomes identified in the plan	Engages and invests staff in developing school-wide plans that identify and lead the school towards high impact goals and priorities; consistently implements the plan through contingency planning, aligning time and resources and holding her/himself and others accountable for achieving intended outcomes	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Planning and execution is delegated beyond the school's leadership team 	
1.3 - Decision Making	Rarely applies critical thinking to make difficult decisions and take smart risks; struggles to make decisions in the face of ambiguity	Inconsistently applies critical thinking to make difficult decisions and take smart risks; at times makes timely decisions in the face of ambiguity ; inconsistently considers long term and unintended consequences of decisions	Consistently applies critical thinking to make difficult decisions and take smart risks by gathering information from multiple sources, breaking down information, considering consequences and effectively weighing pros and cons; makes timely decisions in the face of ambiguity; considers longer term and unintended consequences of decisions; willingly makes and stands by controversial decisions that benefit students	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Uses intuition to make the most effective decisions in the face of ambiguity Decisions are made for the long-term health and sustainability of the school Anticipates and mitigates unintended consequences 	
Builds authentic relationships, communicates effectively and positively supports others through change in pursuit of the school's vision and goals					
1.4 -Relationship Building & Communication	Rarely builds authentic relationships and trust with key stakeholders; rarely demonstrates effective communication skills (e.g., active listening, seeking multiple perspectives, etc...); has a minimal leadership presence on campus	Inconsistently builds authentic relationships and trust with key stakeholders; inconsistently demonstrates effective communication skills (e.g., active listening, seeking multiple perspectives, etc...); has a leadership presence on campus	Consistently builds authentic relationships and trust with key stakeholders; demonstrates effective communication skills (e.g., active listening, seeking multiple perspectives, etc...); has a strong leadership presence on campus	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Develops a presence that leaves a positive legacy within the school community 	

1.5 – Adaptive Leadership	Passively manages school change while ignoring the role change may have on the school community and rarely provides support to staff during times of change	Provides minimal time for staff, students and families to process or adapt to change; supports changes that may be in the best interest of the students; understands that change could raise emotions and attempts to support staff	Effectively supports staff, students and families as they raise questions, doubts and feelings about change and as they adapt to change; embraces changes that are in the best interest of the students; anticipates reactions to change and initiates forward moving momentum. Adapts leadership style as needed based on staff members unique professional and cultural backgrounds and learning/processing styles	<i>In addition to “Proficient”:</i> <ul style="list-style-type: none"> Proactively facilitates opportunities for others to process change Leverages emotional intelligence to support staff to move through stages of change
Demonstrates a high level of self-awareness, desire for continuous learning and ability to sustain her/himself and others				
1.6 – Self Awareness & Continuous Learning	Rarely recognizes his/her strengths and areas for growth and how s/he is perceived by others; unwilling to accept feedback and adjust leadership practice; resistant to participating in learning opportunities or accepting responsibility for mistakes	Inconsistently recognizes his/her strengths and areas for growth and how s/he is perceived by others; demonstrates a non-defensive attitude in receiving feedback from staff members and makes minor adjustments to own leadership practice; seeks some learning opportunities aligned with student needs; accepts partial responsibility for mistakes	Consistently recognizes his/her strengths and areas for growth and how s/he is perceived by others; proactively seeks feedback, self-reflects, and adapts own leadership practice; engages in learning opportunities aligned with student needs; accepts personal responsibility for mistakes and uses them as learning opportunities; seeks out learning opportunities aligned with student needs; builds a school culture that fosters a growth mindset	<i>In addition to “Proficient”:</i> <ul style="list-style-type: none"> Models and builds the capacity of staff to seek feedback on their own practice, self-reflect, and adapt their leadership practice At the forefront of best practices and research
1.7 – Renew to get stronger	Does not prioritize sustaining self; lack of self-care is apparent to others and has a negative impact on others; does not promote a culture of self-care with staff	Inconsistently sustains self through using well-being strategies; attempts to model renewal and self-care for staff	Consistently sustains self through skillfully using several well-being strategies; models and promotes renewal and self-care for staff; establishes a healthy work-life balance and sets appropriate boundaries	<i>In addition to “Proficient”:</i> <ul style="list-style-type: none"> Establishes systems and structures that promote self-care for entire school community Develops systems to ensure staff has a healthy work-life balance.

2. Diversity, Equity and Inclusion Leadership Does the leader identify, examine and disrupt inequitable systems?

Does the leader model and facilitate courageous conversations to promote diversity, equity and inclusion?

	1. EMERGING	2. APPROACHING	3. PROFICIENT	4. DISTINGUISHED	EXAMPLES OF OUTCOMES
Develops a school-wide vision for diversity, equity and inclusion grounded in a deep analysis of the causes of systemic inequity and exclusion					<ul style="list-style-type: none"> Leader and staff reflect on their personal biases and engage in courageous conversation across lines of difference Staff strongly agree/agree on the TNTIP Insight survey that: <ol style="list-style-type: none"> My school's leaders make promoting diversity and inclusion a high priority (Teachers) My school has an inclusive culture, where staff from diverse backgrounds and perspectives can excel (Teachers) At this school, my point-of-view and my experiences are respected (Leaders) People with diverse backgrounds and perspectives have fair access to leadership roles at my school (Teachers)
2.1 – Diversity, Equity and Inclusion Vision	Does not set an equity agenda that ensures equitable results for students, staff and families	Sets and communicates an equity agenda that ensures equitable results for some students, staff and families based on limited input from stakeholders and/or a limited analysis of community needs, power, privilege and inequity	Sets and communicates an equity agenda that ensures inclusion and equitable results for all students, staff and families based on input from stakeholders and an analysis of community needs, power, privilege and inequity	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Engages and invests students, staff and families in collectively developing and executing the equity agenda Sets, clearly communicates and invests all stakeholders in equity agenda and aligned equity goals Vision is integrated with other domains 	
2.2 – Begins with self	Does not ground diversity, equity and inclusion leadership in an examination of her/his own beliefs, race, power and privilege	Grounds diversity, equity and inclusion leadership in a limited examination of her/his own beliefs, race, power and privilege	Grounds diversity, equity and inclusion leadership in an examination of her/his own beliefs, race, power and privilege	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Receives, examines and responds to feedback from stakeholders as it relates to beliefs, race, power and privilege 	
Interrupts patterns of inequity and exclusion through courageous conversations and revising school systems, policies and practices					
2.3 – Leader's interactions with others	Avoids or does not respectfully interrupt conversations and behaviors laden with unconscious, implicit, or explicit bias; exhibits basic cultural competence and abilities to effectively lead across differences in identify (race, ethnicity, class, age, etc...)	Reactively responds to conversations and behaviors laden with unconscious, implicit, or explicit bias; exhibits emerging cultural competence and ability to effectively lead across differences in identify (race, ethnicity, class, age, etc...)	Has the courage and skill to respectfully interrupt conversations and behaviors laden with unconscious, implicit, or explicit bias; exhibits cultural competence and the ability to effectively lead across differences in identify (race, ethnicity, class, age, etc...)	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Creates a safe environment and builds capacity in all community members (students, staff, and families) to engage in courageous conversations and actions that respectfully interrupt conversations and behaviors laden with unconscious, implicit, and/or explicit bias 	
2.4 – Equitable systems, policies, and practices	Does not examine current systems, policies and practices and/or does not identify root causes behind institutionalized racism, inequity and exclusion; does not build new systems that lead to equitable results for students	Examines current systems, policies and practices and identifies surface level causes behind institutionalized racism, inequity and exclusion; builds new systems as a result of examination that lead to equitable results for some students	Examines current systems, policies and practices to determine root causes behind institutionalized racism, inequity and exclusion; builds and sustains systems as a result of examination that lead to equitable results for most students	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Builds coalitions to develop and sustain systems that lead to equitable results for all students DEI policies, structures, and cultural conditions are in place to sustain progress 	

3. Team & Family Leadership Does the leader model the way and positively contribute to our team & family culture?

	1. EMERGING	2. APPROACHING	3. PROFICIENT	4. DISTINGUISHED	EXAMPLES OF OUTCOMES
Models a high level of collaboration, team spirit, responsiveness and professionalism					<ul style="list-style-type: none"> Leader creates a strong spirit of collaboration and team & family at the school and regional level All school and regional responsibilities are completed in a professional, timely and high-quality manner Staff strongly agree/agree on the TNTP Insight survey that: <ol style="list-style-type: none"> My school leaders model the behavior they hope to see across the school community (Teachers)
3.1 - Collaboration & team spirit	Rarely interacts, collaborates and participates in school and region-wide activities (e.g., staff meetings, communities of practice, etc...) with all colleagues in a manner that contributes to creating a positive school and regional environment for students and school/regional staff	Inconsistently interacts, collaborates and participates in school and region-wide activities (e.g., staff meetings, communities of practice, etc...) with colleagues in a manner that contributes to creating a positive school and regional environment for students and school/regional staff	Consistently interacts, collaborates and participates in school and region-wide activities (e.g., staff meetings, communities of practice, etc...) with all colleagues, across diverse identities and backgrounds, in a manner that contributes to creating a positive school and regional environment for students and school/regional staff	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Actively seeks out leadership opportunities to strengthen school and regional culture 	
3.2 - Responsiveness & follow through	Rarely completes all responsibilities (e.g., goal setting, performance management, school/parent communications, etc...) in a timely and high-quality manner. Rarely interacts with stakeholders (students, parents, school/regional staff) in a professional and proactive manner that builds positive rapport and trust	Inconsistently completes all responsibilities (e.g., goal setting, performance management, school/parent communications, etc...) in a timely and high-quality manner. Inconsistently interacts with stakeholders (students, parents, school/regional staff) in a professional and proactive manner that builds positive rapport and trust	Consistently completes all responsibilities (e.g., goal setting, performance management, school/parent communications, etc...) in a timely and high-quality manner. Consistently interacts with stakeholders (students, parents, school/regional staff) in a professional and proactive manner that builds positive rapport and trust	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Effectively interacts with stakeholders (students, parents, school/regional staff) in a professional and proactive manner that builds positive rapport and trust in self and others 	
3.3- Professionalism	Rarely lives up to the professional expectations established by the school and region (e.g., attendance, absences, dress, etc...). Rarely maintains optimism even in the face of obstacles and challenges	Inconsistently lives up to the professional expectations established by the school and region (e.g., attendance, absences, dress, etc...). Inconsistently maintains optimism even in the face of obstacles and challenges	Consistently lives up to the professional expectations established by the school and region (e.g., attendance, absences, dress, etc...). Consistently maintains optimism even in the face of obstacles and challenges	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Serves as a regional role model for professionalism 	

4. Talent Leadership

Has a highly diverse and effective staff been hired, appropriately developed, managed and retained to ensure long-term school success and continuity? Are leadership team members empowered and held accountable to being true owners of the work?

	1. EMERGING	2. APPROACHING	3. PROFICIENT	4. DISTINGUISHED	EXAMPLES OF OUTCOMES
Develops a comprehensive talent vision and aligns all recruitment, development and retention practices to this vision					<ul style="list-style-type: none"> Consistently high, year over year retention of staff Able to attract high-quality talent to fill vacancies Consistently high interview-to-offer rate and acceptance rate Teachers and leaders are observed and coached at least bi-weekly Clear systems are in place to develop successors for key school and regional roles Staff strongly agree/agree on the TNTP Insight survey that: <ol style="list-style-type: none"> My school is a good place to teach and learn (Teachers)
4.1 – Talent Vision	Sets a limited vision for talent that does not clarify the bar of excellence for staff and how staff will be hired, developed and retained to achieve this bar of excellence; vision is not based in a analysis of the school's vision, goals teacher retention and performance data	Sets and communicates a talent vision that partially clarifies the bar of excellence for staff and how staff will be hired, developed and retained to achieve this bar of excellence; vision is based in a limited analysis of the school's vision, goals and teacher retention and performance data	Sets and communicates a talent vision that clarifies the bar of excellence for all staff and for how staff will be hired, developed and retained to achieve this bar of excellence; vision is based in an analysis of the school's vision, goals and teacher retention and performance data	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Engages and invests staff in developing and executing the talent vision 	
4.2 – Recruits, hires and onboards highly-effective and diverse school staff	Develops recruitment processes, selection criteria and hiring processes that do not result in attracting and hiring diverse staff that meet or exceed performance expectations; develops onboarding processes that rarely prepare staff to succeed in their first year	Develops recruitment processes, selection criteria and hiring processes that inconsistently result in attracting and hiring diverse staff that meet or exceed performance expectations; develops onboarding processes that inconsistently prepare staff to succeed in their first year	Develops recruitment processes, data-driven and equitable selection criteria and hiring processes that consistently result in attracting and hiring diverse staff that meet or exceed performance expectations; develops onboarding processes that consistently prepare staff to succeed in their first year	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Strategically projects teachers vacancies to ensure positions are filled early and identifies multiple staffing models to ensure the best candidates are matched with the right roles 	
4.3 – Performance management	Rarely drives results of other adults due to ineffective accountability and performance management processes	Inconsistently drives results of other adults due to inconsistently setting individual and team performance goals, maintaining a high degree of accountability to achieving goals , providing honest and ongoing feedback, holding effective O3s and/or executing performance management processes	Consistently drives results of other adults through setting individual and team performance goals and maintaining a high degree of accountability to achieving goals through providing honest and ongoing feedback, holding effective O3s and executing performance management processes	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Regularly reflects on impact of performance management systems on school outcomes and revises systems as needed 	
4.4 – Retains effective teachers and leaders	Does not retain effective teachers and leaders and/or retains ineffective teachers and leaders; infrequently collects and monitors staff data (E.g., satisfaction, exit interview, performance) to meet staff retention goals	Retains some effective teachers and leaders through individualized retention strategies (E.g.,improving school culture, individual and school-wide recognition, career opportunities, etc...); sometimes collects and monitors staff data (E.g., satisfaction, exit interview, performance) to meet staff retention goals	Retains most effective teachers and leaders through individualized retention strategies (E.g.,improving school culture, individual and school-wide recognition, career opportunities, etc...); regularly collects and monitors staff data (E.g., satisfaction, exit interview, performance) to meet staff retention goals	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Consistently retains effective teachers and leaders and exceeds staff retention goals for 3+ years Effective in coaching up and coaching out 	
Develops high-performing leaders, teams and staff culture					

4.5 -Develops other leaders	Does not build a pipeline of leaders for the school through inconsistent leadership development practices; inconsistently cultivates a successor for her/his role and other key roles in the school	Inconsistently builds a pipeline of leaders for the school through inconsistent delegation, feedback and execution of leadership development plans; inconsistently cultivates a successor for her/his role and other key roles in the school	Builds a pipeline of leaders for the school through insisting that leaders are true owners of the work, providing intentional feedback and drives progress on leadership development plans; explicitly identifies and cultivates a successor for her/his role and other key roles in the school	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Promotes leaders based on demonstrated performance and potential Tailors development plans to provide high-impact growth opportunities Develops a visible leadership pipeline that positions future leaders to lead 2-4 years out from leadership vacancies 	
4.6 - Staff culture	Does not develop staff and leadership teams due to minimal team building practices; does not encourage productive conflicts and disagreement; rarely monitors staff culture and responds appropriately	Inconsistently develops staff and leadership teams due to inconsistent team building practices; inconsistently encourages productive conflicts and disagreement; inconsistently monitors staff culture and responds appropriately	Consistently develops strong and diverse staff and leadership teams through cultivating and modeling staff culture, expectations, collaboration and a "lead learner" mindset; encourages productive conflicts and disagreement; monitors staff culture and responds appropriately	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Invests and empowers staff members to take ownership of staff culture by holding self and others accountable to norms and expectations 	

5. Operations Leadership Are school operations running effectively and efficiently in service of teaching and learning?

	1. EMERGING	2. APPROACHING	3. PROFICIENT	4. DISTINGUISHED	EXAMPLES OF OUTCOMES
Develops a comprehensive operations vision and positions a senior operations leader to effectively execute this vision					<ul style="list-style-type: none"> School consistently breaks even on budget and/or is on track to break even on public funding once fully grown Consistently high, year over year enrollment Seamless integration between school and community services (E.g., after school programming, mental health services, law enforcement and safety, etc...) Staff strongly agree/agree on the TNTP Insight survey that: <i>Day-to-day operations at my school run smoothly</i>
5.1 - Operations vision	Sets a limited school operations vision that does not clarify the bar of excellence for all school operations; vision is not aligned with the school's teaching and learning vision and goals	Sets and communicates school operations vision that partially clarifies the bar of excellence for school operations; vision is somewhat aligned to the school's teaching and learning vision and goals	Sets and communicates a school operations vision that clarifies the bar of excellence for all school operations; vision is aligned to the school's teaching and learning vision and goals; engages and invests staff in developing and executing the operations vision	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Vision is seamlessly integrated and directly in support of teaching and learning 	
5.2 - Budget and resource management	Does not allocate resources (financial, community partnerships, staffing, technology, etc...) in alignment with school priorities	Allocates and appropriately manages some resources in alignment with school priorities	Allocates and appropriately manages all or almost all financial and school resources in alignment with school priorities	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Proactively seeks additional resources and innovatively leverages existing resources to maximize impact on school Operations policies, structures, and cultural conditions are in place to sustain progress 	
5.3 - Delegating to operations leader	Does not/rarely hires, empowers and/or holds a senior operations leader accountable for executing the operations vision with excellence, resulting in ineffective and/or inefficient school operations	Inconsistently hires, empowers and/or holds a senior operations leader accountable for executing the operations vision with excellence, resulting in inconsistent school operations	Consistently hires, empowers and holds a senior operations leader accountable for executing the operations vision with excellence, resulting in school operations consistently running effectively and efficiently	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Develops operations leader in their management skills and grows them to be a senior leader on campus 	
5.4 - Community partnerships	Rarely engages community organizations to support vision and mission of the school	Engagement of community partnerships is limited and lacks impact	Implements best practice in forming community partnerships to support the vision and mission of the school	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Develops community partnerships that reflect the community, understand the mission of the school and actively support its vision 	

6. Cultural Leadership

How effectively are leaders fostering a restorative approach, building healthy school cultures and establishing a relationship-centered school environment?

	1. EMERGING	2. APPROACHING	3. PROFICIENT	4. DISTINGUISHED	EXAMPLES OF OUTCOMES
Develops a comprehensive cultural vision and builds the capacity of APs and teacher-leaders to achieve this vision					<ul style="list-style-type: none"> The cultural vision is reflected in all school systems and structures, including academics, coaching, curriculum decisions, school documents (E.g., Faculty, team and family handbooks), etc... Staff demonstrate proficiency leading elements of school culture (E.g., proactive and reactive circles) School is a safe and productive learning environment Consistently high, year over year attendance, student retention, teacher retention and low suspension rates Staff strongly agree/agree on the TNTP Insight survey that: <ol style="list-style-type: none"> <i>Interactions between students and adults at my school are respectful (Teachers)</i> <i>Across my school, there are consistent expectations and consequences for student behavior (Teachers)</i>
6.1 - Cultural vision	Sets the vision and tone for cultural expectations with teachers, students and families through leading with a restorative approach; vision does not integrate character development, social emotional learning and restorative practices into all aspects of the school	Sets and communicates the vision and tone for cultural expectations through leading with a restorative approach; vision partially integrates character development, social emotional learning and restorative practices into all aspects of the school	Sets and communicates an ambitious vision for cultural expectations and models restorative behavior; vision integrates character development, social emotional learning and restorative practices into all aspects of the school, including but not limited to systems, policy, curriculum and communication; engages and invests staff, students and families in developing and executing the cultural vision	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Vision fully integrates character development, social emotional learning, restorative practices and into all aspects of the school while meeting the needs of all underserved subgroups The cultural vision is seamlessly integrated with the vision for instruction and they mutually reinforce each other 	
6.2 - Builds cultural expertise	Rarely builds others' knowledge, skills and mindsets to realize the vision of culture (E.g., unpacking SEL curriculum, building knowledge of trauma-informed care, supporting teachers in approaching student discipline with a restorative lens, etc..)	Inconsistently builds others' knowledge, skills and mindsets to realize the vision of culture (E.g., unpacking SEL curriculum, building knowledge of trauma-informed care, supporting teachers in approaching student discipline with a restorative lens, etc..)	Consistently builds others' knowledge, skills and mindsets to realize the vision of culture (E.g., unpacking SEL curriculum, building knowledge of trauma-informed care, supporting teachers in approaching student discipline with a restorative lens, etc..)	<i>In addition to "Proficient"</i> <ul style="list-style-type: none"> Vision of culture is maintained through the leadership/toolkits of others, beyond current leader 	
6.3 - Supports excellence in cultural enabling systems	Rarely facilitates and drives the continuous improvement of the school's cultural enabling systems and structures (E.g., SEL classes, proactive circles, CARE team, restorative conferences, etc...)	Inconsistently facilitates and drives the continuous improvement of the school's cultural enabling systems and structures (E.g., SEL classes, proactive circles, CARE team, restorative conferences, etc...)	Consistently facilitates and drives the continuous improvement of the school's cultural enabling systems and structures (E.g., SEL classes, proactive circles, CARE team, restorative conferences, etc...)	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Innovates /creates new enabling systems to further the vision of culture for the school and community Enabling systems operate consistently and effectively without direct management by the leader Leadership team aligns, reviews, and assesses effectiveness of the systems in a systematic way 	
Actively uses data to track progress towards cultural student outcomes and adjust strategies as needed					
6.4 - Uses data to monitor progress and adjust support	Rarely uses data to monitor instructional and cultural student outcome trends, and prioritize needs; does not create effective system for data monitoring and/or does not use data to inform continuous improvement	Inconsistently uses data to monitor instructional and cultural student outcome trends, and prioritize needs; creates moderately effective system for data monitoring and uses data to inform continuous improvement and accountability; identifies the	Consistently uses multiple sources of data to monitor instructional and cultural student outcome trends and prioritize needs; creates effective system for data monitoring and uses data to inform continuous improvement and accountability; invests and builds capacity in others to use data to monitor	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Uses data to drive all the systems, policies, and decision making in long and short term Creates processes to analyze and identify the right data that enables others to use data to drive decision making 	

	and accountability; identifies the wrong data to monitor	right to data to monitor with support from RSO or others	progress and make adjustments; identifies the right data to monitor independently and consistently	<ul style="list-style-type: none"> Incorporates instructional data seamlessly into conversations about culture (when appropriate) resulting in the two systems mutually reinforce each other 	
6.5 - Culture of learning	Very few students <u>or</u> staff take the initiative to ensure well-established systems and routines run smoothly and behavioral expectations and norms are rarely followed; Significant instructional time is wasted and very few students work with genuine curiosity, interest, joy and a love for learning	Establishes a school culture where some students and staff take the initiative to ensure well-established systems and routines run smoothly and behavioral expectations and norms are inconsistently followed; Some instructional time is wasted and some students work with genuine curiosity, interest, joy and a love for learning	Establishes a school culture where most students and staff take the initiative to ensure well-established systems and routines run smoothly and behavioral expectations and norms are consistently followed; in the majority of classrooms little instructional time is wasted and most students work with genuine curiosity, interest, joy and a love for learning	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> School leader has instilled accountability among teachers such that teachers hold each other accountable for maintaining a culture of learning School leaders have instilled strong systems and accountability such that students hold each other accountable for maintaining a culture of learning Students are intrinsically motivated to learn and achieve without explicit rewards and explicit punitive systems 	

7. Teaching & Learning Leadership

Has an ambitious vision for academic excellence been established? Have leadership team members and enabling systems been developed to achieve this vision?

	1. EMERGING	2. APPROACHING	3. PROFICIENT	4. DISTINGUISHED	EXAMPLES OF OUTCOMES
Develops a comprehensive instructional vision and builds the capacity of APs, content leads and teachers to achieve this vision					
7.1 - Instructional Vision	Sets a limited vision and goals that do not position students to be on a path to and through college and fulfill our shared commitment to equity	Sets and communicates an instructional vision for academic achievement for all students; vision is based on a limited analysis of school vision, student data and our shared commitment to equity	Sets and communicates an ambitious school-wide instructional vision that leads all students on a path to live choice filled lives and realize their potential; vision is based on an analysis of the schoolwide culture, teacher performance, and academic data and a shared commitment to equity Engages and invests all staff, students and families in developing and executing the instructional vision Staff can articulate instructional vision and relationship to mission	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> The Instructional vision is seamlessly integrated with the vision for culture and they mutually reinforce each other Instructional vision includes specific vision/plans that address the needs of underserved subgroups 	<ul style="list-style-type: none"> Teachers are on track to meet all end of year student achievement and growth goals Clear systems for progress monitoring student achievement that result in teacher and student growth (E.g., exit tickets, APM meetings, etc.) are consistently implemented Staff strongly agree/agree on the TNTP Insight survey that: <ol style="list-style-type: none"> <i>Teachers at my school share a common vision of what effective teaching looks like (Teachers)</i> <i>My school is committed to improving my instructional practice</i> <i>The expectations for effective teaching are clearly defined at my school</i> <i>My content team collaborates effectively to advance student learning</i>
7.2 - Builds Instructional Knowledge and Expertise	Rarely builds the instructional knowledge and expertise in others (E.g., unpacking standards to develop staff's conceptual understanding, building knowledge of how standards map to curriculum and assessment, supporting teachers in how to effectively execute key instructional methods)	Inconsistently builds the instructional knowledge and expertise in others (E.g., unpacking standards to develop staff's conceptual understanding, building knowledge of how standards map to curriculum and assessment, supporting teachers in how to effectively execute key instructional methods)	Consistently and proactively builds the instructional knowledge and expertise in others and self (E.g., unpacking standards to develop staff's conceptual understanding, building knowledge of how standards map to curriculum and assessment, supporting teachers in how to effectively execute key instructional methods)	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Creates systems and structures to ensure the ongoing development of staff and self 	
7.3 - Curriculum Implementation	Rarely engages the leadership team and other key stakeholders in developing, adapting, and implementing curriculum aligned to Common Core, NGSS and CCRS standards; curriculum rarely meets student learning needs	Inconsistently engages the leadership team and other key stakeholders in developing, adapting, and implementing curriculum aligned to Common Core, NGSS and CCRS standards; curriculum inconsistently meets student learning needs	Consistently engages the leadership team and other key stakeholders in developing, adapting, and implementing curriculum aligned to Common Core, NGSS, CCRS and/or AP standards; curriculum consistently meets student learning needs	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Leadership team aligns, reviews and assesses curriculum effectiveness, including using protocols to review/assess scope and sequences, unit plans and/or lesson plans 	
7.4 - Supports excellence in enabling systems	Rarely creates, facilitates and drives the continuous improvement and alignment of the school's enabling systems to achieve school goals, including instructional coaching, content teams, RTI and PD	Inconsistently creates, facilitates and drives the continuous improvement and alignment of the school's enabling systems to achieve school goals, including instructional coaching, content teams, RTI and PD	Consistently creates, facilitates and drives the continuous improvement and alignment of the school's enabling systems to achieve school goals, including instructional coaching, content teams, RTI and PD	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> Leadership team aligns, reviews and assesses enabling systems in a systematic way Innovates /creates new enabling systems to further the vision of instruction for the school and community Enabling systems operate consistently and effectively 	

				without direct management by the leader	
Actively uses data to track progress towards student outcomes and adjust instructional strategies as needed					
7.5 - Uses Data to Monitor and Adjust Instructional Strategy	Rarely engages the leadership team to collect and analyze student and school data to drive continuous improvement (E.g., conducting weekly walkthroughs of content areas, re-teaching, leading weekly academic progress monitoring meetings)	Inconsistently engages the leadership team to collect and analyze student and school data to drive continuous improvement (E.g., conducting weekly walkthroughs of content areas, re-teaching, leading weekly academic progress monitoring meetings)	Consistently engages the leadership team to collect and analyze student and school data to drive continuous improvement (E.g., conducting weekly walkthroughs of content areas, re-teaching, leading weekly academic progress monitoring meetings)	<i>In addition to "Proficient":</i> <ul style="list-style-type: none"> • Incorporates culture data seamlessly into conversations about instruction (when appropriate) resulting in the two systems mutually reinforcing each other • Uses data to drive all the systems, policies and decision making in the long and short term • Creates processes that enable staff to analyze and use data to drive decision making

Board of Directors
KIPP Bay Area Schools
dba KIPP: Public Schools Northern California
Oakland, California

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California, a California nonprofit public benefit corporation, which comprise the consolidated statement of financial position as of June 30, 2023, and the related consolidated statements of activities, cash flows, and functional expenses for the year then ended, and the related notes to the consolidated financial statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California as of June 30, 2023, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Change in Accounting Principle

As discussed in Note 1 to the consolidated financial statements, in 2023 KIPP Bay Area Schools dba: KIPP: Public Schools Northern California adopted new accounting guidance for leases. The guidance requires lessees to recognize a right-of-use asset and corresponding liability for all operating and finance leases with lease terms greater than one year. Our opinion is not modified with response to this matter.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's ability to continue as a going concern for one year after the date the consolidated financial statements are available to be issued.

Auditors' Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Report on Summarized Comparative Information

We have previously audited KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's 2022 consolidated financial statements, and expressed an unmodified opinion on those statements in our report dated December 13, 2022. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2022 is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's consolidated financial statements as a whole. The KBAS, KBARE, and Eliminations columns in the statements of financial position, activities, and cash flows as well as the supplementary information (as identified in the table of contents) accompanying supplementary schedules, and the accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. Such information is the responsibility of management and, except for the portion marked "unaudited," was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole. The Local Education Agency Organization Structure, which is marked "unaudited," has not been subjected to the auditing procedures applied in the audit of the consolidated financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated December 11, 2023 on our consideration of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's internal control over financial reporting and compliance.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California is a network of public charter schools educating elementary, middle, and high school students in grades TK-12. KIPP schools are free, public, and open to all students. Together with families and communities, KIPP creates joyful, academically excellent schools that prepare students with the skills and confidence to pursue the paths they choose – college, career, and beyond – so they can lead fulfilling lives and create a more just world.

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California operates high-performing, college-preparatory schools in the San Francisco Bay area. These campuses serve students with the goal of preparing them for success in college and in life.

KBARE is a nonprofit corporation which was formed to finance, develop, lease, and maintain certain school facilities for the exclusive support of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California and KBARE, a California nonprofit public benefit corporation formed exclusively to support KIPP Bay Area Schools dba: KIPP: Public Schools Northern California, and its single member limited liability company subsidiaries, Seven Trees, LLC, 1700 Market School, LLC, 1039 Garden Street, LLC, Houston Avenue, LLC, 820 North American, LLC, and 1060 Key, LLC. All material intercompany transactions have been eliminated.

Cash, Cash Equivalents, and Restricted Cash Equivalents

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California defines its cash and cash equivalents to include only cash on hand, demand deposits, and liquid investments with original maturities of three months or less. Restricted cash equivalents includes certain with liquid investments with original maturities of three months or less that are maintained according to bond reserve requirements.

**KIPP BAY AREA SCHOOLS
DBA: KIPP: PUBLIC SCHOOLS NORTHERN CALIFORNIA
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2023**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting

The consolidated financial statements have been prepared on the accrual method of accounting, and accordingly reflect all significant receivables and liabilities.

Basis of Presentation

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as prescribed by the Financial Accounting Standards Board.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosures. Accordingly, actual results could differ from those estimates.

Functional Allocation of Expenses

Costs of providing KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's programs and other activities have been allocated on a functional basis in the consolidated statement of activities. During the year, such costs are accumulated into separate groupings as either direct or indirect. Indirect or shared costs are allocated among program and support services by a method that best measures the relative degree of benefit. The expenses that are allocated include salaries and wages, pension expense, other employee benefits, and payroll taxes, which are allocated on the basis of estimates of time and effort.

Net Asset Classes

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor or grantor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Net Assets Without Donor Restrictions – Net assets available for use in general operations and not subject to donor (or certain grantor) restrictions.

Net Assets With Donor Restrictions – Net assets subject to donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Gifts of long-lived assets and gifts of cash restricted for the acquisition of long-lived assets are recognized as restricted revenue when received and released from restrictions when the assets are placed in service. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

Accounts Receivable

Accounts receivable primarily represent amounts due from federal and state governments as of June 30, 2023. Management believes that all receivables are fully collectible; therefore, no provisions for uncollectible accounts were recorded.

**KIPP BAY AREA SCHOOLS
DBA: KIPP: PUBLIC SCHOOLS NORTHERN CALIFORNIA
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2023**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Contributions Receivable

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California recognizes unconditional promises to give expected to be received in one year or less are reported as contributions receivable at net realizable value, which approximates fair value. Unconditional promises to give expected to be received after one year are reported as contributions receivable at fair value using estimated future cash flows discounted by rates ranging from 1.44% to 8.36%.

Pledges receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a provision for bad debt expense and an adjustment to a valuation allowance based on its assessment of the current status of individual accounts. The allowance for uncollectible pledge is \$246,287 for the year ended June 30, 2023.

Investments

Investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the consolidated statement of financial position. Unrealized and realized gains and losses, investment income, and investment expense are reported in the consolidated statement of activities according to the existence of donor restrictions. Investment income and gains restricted by a donor are reported as increases in net assets without donor restrictions if the restrictions are met (either by the passage of time or by use) in the reporting period in which the income and gains are recognized.

Property, Plant, and Equipment

Property, plant, and equipment purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on a straight-line basis over the various estimated useful lives of the assets which range from 3 to 7 years for equipment, 5 to 15 years for leasehold improvements, and 30 to 40 years for new facility construction.

Debt Issue Costs

Costs incurred in connection with acquiring long-term debt financing are netted against the related note payable in the accompanying consolidated statements of financial position. These are amortized to interest expense over the term of the associated long-term debt on a straight-line basis, which approximates the effective interest method.

Property Taxes

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and are payable in two installments on or before November 1 and February 1. Unsecured property taxes are not a lien against real property and are payable in one installment on or before August 31. The County bills and collects property taxes for all taxing agencies within the County and distributes these collections to the various agencies. The sponsor agency of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California is required by law to provide in-lieu property tax payments on a monthly basis, from August through July. The amount paid per month is based upon an allocation per student, with a specific percentage to be paid each month.

**KIPP BAY AREA SCHOOLS
DBA: KIPP: PUBLIC SCHOOLS NORTHERN CALIFORNIA
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2023**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue Recognition

Amounts received from the California Department of Education are conditional and recognized as revenue by KIPP Bay Area Schools dba: KIPP: Public Schools Northern California based on the average daily attendance (ADA) of students. Revenue that is restricted is recorded as an increase in net assets without donor restriction, if the restriction expires in the reporting period in which the revenue is recognized. All other restricted revenues are reported as increases in net assets with donor restriction.

In-Kind Contributions

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California receives donated professional legal services as in-kind contribution at the respective fair values of the services. Services received during the year ended June 30, 2023 is \$206,340.

Contributions

All contributions are considered to be available for use unless specifically restricted by the donor. Amounts received that are restricted to specific use or future periods are reported as contributions with donor restrictions. Restricted contributions that are received and released in the same period are reported as promises to give without donor restrictions. Unconditional promises to give expected to be received in one year or less are recorded at net realizable value. Unconditional promises to give expected to be received in more than one year are recorded at fair value at the date of the promise. Conditional promises to give (those with a measurable performance or other barrier and a right of return) are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met.

Conditional Grants

Grants and contracts that are conditioned upon the performance of certain requirements or the incurrence of allowable qualifying expenses (barriers) are recognized as revenues in the period in which the conditions are met. Amounts received are recognized as revenue when KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has incurred expenditures in compliance with specific contract or grant provisions. Amounts received prior to incurring qualifying expenditures are reported as deferred revenues in the consolidated statement of financial position. As of June 30, 2023, KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has conditional grants of \$18,939,775 of which \$14,677,230 is recognized as deferred revenue in the consolidated statement of financial position.

Other Revenue

Other revenues consist primarily of uniform fees and other student charges. The performance obligation for providing these services is simultaneously received and consumed by the students; therefore, the revenue is recognized ratably the course of the academic year.

Income Taxes

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California and KBARE are nonprofit entities exempt from the payment of income taxes under Internal Revenue Code Section 501(c)(3) and California Revenue and Taxation Code Section 23701d. Accordingly, no provision has been made for income taxes. Management has determined that all income tax positions are more likely than not of being sustained upon potential audit or examination; therefore, no disclosures of uncertain income tax positions are required. KIPP Bay Area Schools dba: KIPP: Public Schools Northern California and KBARE file informational returns and any applicable unrelated business income tax return in the U.S. federal jurisdiction, and the state of California.

KIPP BAY AREA SCHOOLS
DBA: KIPP: PUBLIC SCHOOLS NORTHERN CALIFORNIA
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2023

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Taxes (Continued)

Seven Trees, LLC and 1700 Market School, LLC, 1039 Garden Street, LLC, Houston Avenue, LLC, 820 North American, LLC, and 1060 Key, LLC, are considered disregarded and therefore exempt from the payment of income taxes. Additionally, the LLCs have been granted exemption from the California state LLC fee under California Revenue and Taxation Code.

Comparative Totals

The consolidated financial statements include certain prior year summarized comparative information in total, but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's consolidated financial statements for the year ended June 30, 2022, from which the summarized information was derived.

Leases

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California leases school facilities, office facilities, and equipment. KIPP Bay Area Schools dba: KIPP: Public Schools Northern California determines if an arrangement is a lease at inception. Operating leases are included in operating lease right-of-use (ROU) assets, and operating lease liabilities on the consolidated statement of financial position.

ROU assets represent KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's right to use an underlying asset for the lease term and lease liabilities represent KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's obligation to make lease payments arising from the lease. ROU assets and liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term. As most of leases do not provide an implicit rate, KIPP Bay Area Schools dba: KIPP: Public Schools Northern California uses a risk-free rate based on the information available at commencement date in determining the present value of lease payments. The operating lease ROU asset also includes any lease payments made and excludes lease incentives. The lease terms may include options to extend or terminate the lease when it is reasonably certain that KIPP Bay Area Schools dba: KIPP: Public Schools Northern California will exercise that option. KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has elected to recognize payments for short-term leases with a lease term of 12 months or less as expense as incurred and these leases are not included as lease liabilities or ROU assets on the consolidated statement of financial position.

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has elected not to separate nonlease components from lease components and instead accounts for each separate lease component and the nonlease component as a single lease component.

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California lease agreements do not contain any material residual value guarantees or material restrictive covenants.

In evaluating contracts to determine if they qualify as a lease, KIPP Bay Area Schools dba: KIPP: Public Schools Northern California considers factors such as if it has obtained substantially all of the rights to the underlying asset through exclusivity, if KIPP Bay Area Schools dba: KIPP: Public Schools Northern California can direct the use of the asset by making decisions about how and for what purpose the asset will be used and if the lessor has substantive substitution rights. This evaluation may require significant judgment.

KIPP BAY AREA SCHOOLS
DBA: KIPP: PUBLIC SCHOOLS NORTHERN CALIFORNIA
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2023

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Leases (Continued)

The individual lease contracts do not provide information about the discount rate implicit in the lease. Therefore, KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has elected to use a risk-free rate determined using a period comparable with that of the lease term for computing the present value of lease liabilities.

Adoption of New Accounting Standards

In February 2016, the FASB issued Accounting Standards Update 2016-02, *Leases* (ASC 842). The new standard increases transparency and comparability among organizations by requiring the recognition of ROU assets and lease liabilities on the consolidated statement of financial position. Most prominent of the changes in the standard is the recognition of ROU assets and lease liabilities by lessees for those leases classified as operating leases. Under the standard, disclosures are required to meet the objective of enabling users of consolidated financial statements to assess the amount, timing, and uncertainty of cash flows arising from leases.

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California adopted the requirements of the guidance effective July 1, 2022 and has elected to apply the provisions of this standard to the beginning of the period of adoption with certain practical expedients available. Lease disclosures for the year ended June 30, 2022 are made under prior lease guidance in FASB ASC 840.

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has elected to adopt the package of practical expedients available in the year of adoption. KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has elected to adopt the available practical expedient to use hindsight in determining the lease term and in assessing impairment of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's ROU assets.

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California elected the available practical expedients to account for existing capital leases and operating leases as operating leases, respectively, under the new guidance, without reassessing (a) whether the contracts contain leases under the new standard, (b) whether classification of capital leases or operating leases would be different in accordance with the new guidance, or (c) whether the unamortized initial direct costs before transition adjustments would have met the definition of initial direct costs in the new guidance at lease commencement.

In addition, KIPP Bay Area Schools dba: KIPP: Public Schools Northern California elected the hindsight practical expedient to determine the lease term for existing leases. The election of the hindsight practical expedient resulted in the shortening of the lease term for the existing lease and the useful life of the corresponding leasehold improvements.

The standard had a material impact on the consolidated statement of financial position but did not have an impact on the consolidated statement of activities, nor the consolidated statement of cash flows. The most significant impact was the recognition of ROU assets and lease liabilities for operating leases.

Evaluation of Subsequent Events

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has evaluated subsequent events through December 11, 2023, the date these consolidated financial statements were available to be issued.

**KIPP BAY AREA SCHOOLS
DBA: KIPP: PUBLIC SCHOOLS NORTHERN CALIFORNIA
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2023**

NOTE 2 LIQUIDITY AND AVAILABILITY

Financial assets available for general expenditure are those without donor or other restrictions less with donor restricted net assets:

Cash and Cash Equivalents	\$ 60,323,889
Accounts Receivable - Federal and State	30,514,284
Accounts Receivable - Other	2,196,497
Contributions Receivable, Current	3,068,000
Restricted Cash Equivalents	20,423,444
Investments	68,688,325
Contributions Receivable, Net of Current	3,423,713
Less: Net Assets with Donor Restrictions	<u>(12,323,340)</u>
Total	<u>\$ 176,314,812</u>

As part of our liquidity management plan, we invest cash in excess of daily requirements in short-term investments and money market funds.

NOTE 3 CONCENTRATION OF CREDIT RISK

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California maintains its cash in bank deposit accounts at two financial institutions. Accounts at these institutions are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has a need to maintain cash balances with a single financial institution in excess of the \$250,000 FDIC-insured limit. KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents.

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California invests excess cash in various types of investments. Balances in the KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's investment accounts exceed the Securities Investors Protection Corporation insured limit. KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has established guidelines relative to diversification and maturities that maximize safety and liquidity. These guidelines are periodically reviewed and modified to take advantage of trends in yields and interest rates. KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has not experienced any losses in these accounts.

NOTE 4 CONTRIBUTIONS RECEIVABLE

Unconditional promises to give are expected to be realized in the following periods as follows:

In One Year or Less	\$ 3,068,000
Between Two and Five Years	<u>3,670,000</u>
Total Gross Contributions Receivable	6,738,000
Less: Discount on Pledges Receivable	(112,148)
Less: Allowance for Uncollectible	<u>(134,139)</u>
Net Contributions Receivable	<u>\$ 6,491,713</u>

KIPP BAY AREA SCHOOLS
DBA: KIPP: PUBLIC SCHOOLS NORTHERN CALIFORNIA
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2023

NOTE 5 FAIR VALUE MEASUREMENTS AND INVESTMENTS

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California follows accounting standards relating to fair value measurements which define fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States of America, and expands disclosures about fair value measurements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The accounting standards relating to fair value measurements establish a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The hierarchy gives the highest priority to unadjusted quoted prices in active markets (Level 1) for identical assets or liabilities and the lowest priority to unobservable inputs (Level 3).

The three-level valuation hierarchy on inputs is summarized as follows:

Level 1 – Quoted prices for identical assets or liabilities in active markets at the measurement date.

Level 2 – Observable inputs other than quoted prices as described in Level 1 for the asset or liability through corroboration with market data at the measurement date.

Level 3 – Unobservable inputs that reflect management’s best estimate of what market participants would use in pricing the asset or liability at the measurement date.

As of June 30, 2023, KIPP Bay Area Schools dba: KIPP: Public Schools Northern California’s financial instruments consist of cash and cash equivalents, investments, accounts receivable, contributions receivables, prepaid expenses, accounts payable and accrued liability, deferred revenue, and long-term debt. The fair values of the KIPP Bay Area Schools dba: KIPP: Public Schools Northern California’s financial instruments excluding investments and long-term debt approximate their fair values because of the short-term nature of these instruments. Long-term debt at fixed rates is not materially different from fair value based upon maturities and similar credit risk comparisons available to the KIPP Bay Area Schools dba: KIPP: Public Schools Northern California at June 30, 2023.

The fair market value for the KIPP Bay Area Schools dba: KIPP: Public Schools Northern California’s investments is based upon Level 1 inputs. Investments were comprised of the following on June 30, 2023:

	Level 1	Fair Value
Bond Exchange-Trade Fund (ETF)	\$ 58,877,978	\$ 58,877,978
Bond Mutual Funds	9,810,347	9,810,347
Total	<u>\$ 68,688,325</u>	<u>\$ 68,688,325</u>

Investment income for the year ended June 30, 2023 consists of:

Interest and Dividends From Investments	\$ 2,002,341
Realized Gains From Investments	21,078
Unrealized Gains From Investments	420,311
Total	<u>\$ 2,443,730</u>

NOTE 7 NOTES PAYABLE

Through Proposition 1D, KIPP King Collegiate has a note payable of \$4,141,422, maturing in 2043 and bearing interest at a rate of 2%. During the year ended June 30, 2023, principal payments of \$125,616 and interest of \$61,881 were made. The total balance as of June 30, 2023 was \$3,014,498.

A second loan was obtained in September 2017 for \$411,349, maturing in 2047 and bearing an interest rate of 2%. During the year ended June 30, 2023, principal payments of \$11,136 and interest of \$7,336 were made. The total balance as of June 30, 2023 was \$359,530.

Estimated future maturities of the notes are as follows:

Year Ending June 30,	Amount
2024	\$ 139,740
2025	142,559
2026	145,435
2027	148,369
2028	151,362
Thereafter	2,646,563
Total	<u>\$ 3,374,028</u>

KBARE entered into a loan agreement with Charter Impact Fund, Inc. for \$16,000,000 on March 14, 2019. The note bears interest at 4.25% and matures on April 1, 2049. During the year ended June 30, 2023, principal payments of \$310,237 and interest of \$634,288 were made. The balance as of June 30, 2023 was \$14,755,259.

KBARE entered into a loan agreement with Equitable Facilities Fund, Inc. for \$11,733,266 on April 28, 2021. The note bears interest at 4.00% and matures on March 1, 2056. During the year ended June 30, 2023, principal payments of \$163,875 and interest of \$459,049 were made. The balance as of June 30, 2023 was \$11,399,887.

KBARE entered into a loan agreement with Equitable Facilities Fund, Inc. for \$32,226,266 on June 2, 2022. The note bears interest at 5% and matures on May 1, 2057. During the year ended June 30, 2023, principal payments of \$297,624 and interest of \$1,603,957 were made. The balance as of June 30, 2023 was \$31,928,642.

NOTE 8 ENDOWMENT AND NET ASSETS CLASSIFICATION

The Board of Directors of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, KIPP Bay Area Schools dba: KIPP: Public Schools Northern California classifies as restricted net assets in perpetuity (a) the original value of gifts donated to the endowment in perpetuity, (b) the original value of subsequent gifts to the endowment in perpetuity, and (c) accumulations to the endowment in perpetuity made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

The remaining portion of the donor-restricted endowment fund that is not classified in donor restricted net assets in perpetuity is classified as donor restricted net assets for purpose until those amounts are appropriated for expenditure by KIPP Bay Area Schools dba: KIPP: Public Schools Northern California in a manner consistent with the standard of prudence prescribed by UPMIFA.

The purpose of the Endowment Fund is to provide funds for the current and future support of KIPP Forward, based on a donor-restricted contribution. The objective of the financial goal is to preserve and enhance the endowment fund's inflation-adjusting purchase power, and withdrawal no more than 4% of the value of the endowment fund without withdrawing from the corpus. The spend rate is targeted at 4% of the value of the fund as of March 31 of the preceding budget year.

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has adopted policies for return on investments to achieve a moderate rate of return and risk for initial investments. Appropriations of expenditures, after the minimum disbursement value is achieved, are made by approval of the Board of Directors.

DBA: KIPP: PUBLIC SCHOOLS NORTHERN CALIFORNIA
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2023**

NOTE 8 ENDOWMENT AND NET ASSETS CLASSIFICATION (CONTINUED)

In accordance with UPMIFA, KIPP Bay Area Schools dba: KIPP: Public Schools Northern California considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the various funds
- (2) The purposes of the donor-restricted endowment funds
- (3) General economic conditions
- (4) The possible effect of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources
- (7) The investment policies

From time to time, the fair value of assets associated with donor-restricted endowment funds may fall below the level that the donor or the UPMIFA requires KIPP Bay Area Schools dba: KIPP: Public Schools Northern California to retain as a fund of perpetual duration. Subsequent gains that restore the fair value of the endowment fund to the required level are classified as an increase in net assets without donor restrictions and net assets with donor restrictions, as appropriate. There were no deficiencies of this nature as of June 30, 2023. Changes in endowment net assets for the year ended June 30, 2023 are as follows:

	June 30, 2022	Additions	Releases	June 30, 2023
Regional Support Office:				
Restricted Due to Time	\$ 6,168,586	\$ 4,283,500	\$ (4,701,012)	\$ 5,751,074
Restricted Giving for a Specific School	939,246	233,500	-	1,172,746
Endowment Fund	5,000,000	599,520	(200,000)	5,399,520
Total	<u>\$ 12,107,832</u>	<u>\$ 5,116,520</u>	<u>\$ (4,901,012)</u>	<u>\$ 12,323,340</u>

NOTE 9 NET ASSETS WITH DONOR RESTRICTION

For the year ended June 30, 2023, net assets with donor restriction, which were received and released within the year, is as follows:

	June 30, 2022	Additions	Releases	June 30, 2023
Regional Support Office:				
Restricted Due to Time	\$ 6,168,586	\$ 4,283,500	\$ (4,701,012)	\$ 5,751,074

NOTE 10 EMPLOYEE RETIREMENT

401(k) Plan

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has a 401(k) defined contribution plan for those employees who meet the eligibility criteria set forth in the plan. KIPP Bay Area Schools dba: KIPP: Public Schools Northern California matches employee contributions based upon criteria set forth in the plan up to 4% of compensation. Contributions to the plan for the year ended June 30, 2023 totaled \$2,581,571.

State Teachers' Retirement System (STRS)

Qualified employees of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California (KIPP Summit Academy and the Regional Support Office) are covered under multiemployer defined benefit pension plans maintained by agencies of the state of California. Certificated employees are members of the State Teachers' Retirement System (STRS). The risks of participating in this multiemployer defined benefit pension plan are different from single-employer plans because: (a) assets contributed to the multiemployer plan by one employer may be used to provide benefits to employees of other participating employers, (b) the required member, employer, and state contribution rates are set by the California Legislature and detailed in Teachers' Retirement Law, and (c) if KIPP Bay Area Schools dba: KIPP: Public Schools Northern California chooses to stop participating in the multiemployer plan, it may be required to pay a withdrawal liability to the plan. KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has no plans to withdraw from this multiemployer plan.

Plan Description

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California contributes to the State Teachers' Retirement System (STRS), a cost-sharing, multiemployer public employee retirement system defined benefit pension plan administered by STRS. Plan information for STRS is not publicly available. The plan provides retirement, disability, and survivor benefits to beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law. According to the most recently available Comprehensive Annual Financial Report and Actuarial Valuation Report for the year ended June 30, 2022 total STRS plan net assets are \$300 billion, the total actuarial present value of accumulated plan benefits is \$434 billion, contributions from all employers totaled \$6.513 billion, and the plan is 74.4% funded. KIPP Bay Area Schools dba: KIPP: Public Schools Northern California did not contribute more than 5% of the total contributions to the plan.

Copies of the STRS annual financial reports may be obtained from STRS, 7667 Folsom Boulevard, Sacramento, CA 95826 and www.calstrs.com.

Funding Policy

Active plan members hired before January 1, 2013 are required to contribute 10.25% of their salary and those hired after are required to contribute 10.21% of their salary. KIPP Bay Area Schools dba: KIPP: Public Schools Northern California is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the STRS Teachers' Retirement Board. The required employer contribution rate for year ended June 30, 2023 was 19.10% of annual payroll. The contribution requirements of the plan members are established and may be amended by state statute.

NOTE 10 EMPLOYEE RETIREMENT (CONTINUED)

State Teachers' Retirement System (STRS) (Continued)

Funding Policy (Continued)

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's (KIPP Summit Academy and the Regional Support Office) contributions to STRS for the past three years are as follows:

<u>Year Ended June 30,</u>	<u>Required Contribution</u>	<u>Percent Contributed</u>
2021	\$ 400,543	100%
2022	\$ 294,599	100%
2023	\$ 500,881	100%

NOTE 11 OPERATING LEASES – ASC 842

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California leases equipment as well as certain operating and office facilities for various terms under long-term, non-cancelable lease agreements. The leases expire at various dates through December 31, 2053. In the normal course of business, it is expected that these leases will be renewed or replaced by similar leases. Certain facility leases provide for increases in future minimum annual rental payments based on defined increases in the Consumer Price Index, subject to certain minimum increases. Additionally, the agreements generally require KIPP Bay Area Schools dba: KIPP: Public Schools Northern California to pay real estate taxes, insurance, and repairs. Some lease agreements also require KIPP Bay Area Schools dba: KIPP: Public Schools Northern California to comply with certain covenants and to maintain certain financial ratios. As of June 30, 2023, KIPP Bay Area Schools dba: KIPP: Public Schools Northern California believes it was in compliance with all ratios and covenants.

The following table provides quantitative information concerning KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's lease for the year ended June 30, 2023:

	<u>2023</u>
Lease Costs (Income)	
Operating Lease Costs:	\$ 9,720,114
Sublease Income	<u>(4,843,725)</u>
Total Lease Costs	<u><u>\$ 4,876,389</u></u>
Other Information:	
Cash Paid for Amounts Included in the Measurement of Lease Liabilities:	
Operating Cash Flows from Operating Leases	\$ 9,163,226
Right-Of-Use Assets Obtained in Exchange for New Operating Lease Liabilities	\$ 112,104,625
Weighted-Average Remaining Lease Term - Operating Leases	28.12 Years
Weighted-Average Discount Rate - Operating	3.23%

KIPP Bridge Academy (Bridge) has a conditional future rent credit with its lessor in the amount of \$8.13 million as of June 30, 2023. The barrier for the condition is that Bridge is required to make leasehold improvements up in exchange for rent credit up to \$8.13 million. As of June 30, 2023, Bridge has not recorded the future rent credit as the condition has not been fulfilled.

NOTE 11 OPERATING LEASES – ASC 842 (CONTINUED)

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California classifies the total undiscounted lease payments that are due in the next 12 months as current. A maturity analysis of annual undiscounted cash flows for lease liabilities as of June 30, 2023, is as follows:

<u>Year Ending June 30,</u>	Related Operating Leases	Unrelated Operating Leases
2024	\$ 4,960,986	\$ 4,911,754
2025	4,960,986	2,922,099
2026	4,960,986	1,048,907
2027	4,960,986	766,802
2028	4,960,986	625,032
Thereafter	119,595,398	8,292,487
Total Lease Payments	144,400,328	18,567,080
Less: Interest	(52,790,040)	(3,901,161)
Present Value of Lease Liabilities	<u>\$ 91,610,288</u>	<u>\$ 14,665,919</u>

NOTE 12 RELATED PARTY TRANSACTIONS

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California received contributions of \$228,100 from the KIPP Foundation, a related party, during the year ended June 30, 2023. The amount was fully collected during the year and there was no outstanding contributions receivables from the related party at year end.

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California expense licensing fees of \$411,103 to the KIPP Foundation during the year ended June 30, 2023. On June 30, 2023, KIPP Bay Area Schools dba: KIPP: Public Schools Northern California recorded \$350,718 in accounts payable due to the KIPP Foundation for licensing fees and other expenses.

NOTE 13 COMMITMENTS

As of June 30, 2023, KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has construction projects in progress with approximately \$40,028,729 left to complete.

NOTE 14 CONTINGENCIES, RISKS, AND UNCERTAINTIES

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has a commercial card line of credit with a financial institution for up to \$800,000. This line of credit is associated with KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's credit cards and is settled monthly. The line of credit expires in March 2026.

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California obtained a line of credit with a financial institution for \$15,000,000 starting from October 2022, with an annual interest rate of the greater of prime rate less 75 basis points or 2.5%. The line of credit expires in October 2024. There are no withdrawals from the line of credit during the year ended June 30, 2023.

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has received state and federal funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate disallowances under terms of the grants, it is believed that any required reimbursement would not be material.

Litigation

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California is subject to asserted and unasserted claims encountered in the normal course of business. KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's management and legal counsel assess such contingent liabilities and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against KIPP Bay Area Schools dba: KIPP: Public Schools Northern California or unasserted claims that may result in such proceedings, KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's legal counsel evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein. These claims are covered by insurance, and no range of loss is estimated. In the opinion of management, disposition of these matters will not have a material effect on KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's financial condition or results of operations.

**KIPP BAY AREA SCHOOLS
DBA: KIPP: PUBLIC SCHOOLS NORTHERN CALIFORNIA
NOTES TO SUPPLEMENTARY INFORMATION
JUNE 30, 2023**

PURPOSE OF SCHEDULES

NOTE 1 SCHEDULE OF INSTRUCTIONAL TIME

This schedule presents information on the amount of instructional time offered by each charter school and whether it complied with the provisions of California Education Code.

NOTE 2 SCHEDULE OF AVERAGE DAILY ATTENDANCE

Average daily attendance is a measurement of the number of pupils attending classes of School. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to charter schools. This schedule provides information regarding the attendance of students at various grade levels.

NOTE 3 RECONCILIATION OF ANNUAL FINANCIAL REPORT WITH AUDITED CONSOLIDATED FINANCIAL STATEMENTS

This schedule provides the information necessary to reconcile the net assets of the charter schools as reported on the Annual Financial Report form to the audited consolidated financial statements.

NOTE 4 SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California under programs of the federal governmental for the year ended June 30, 2023. The information in this Schedule is presented in accordance with the requirements of the Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of operations of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California, it is not intended to and does not present the financial position, changes in net assets, or cash flows of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California.

Expenditures reported on the Schedule are reported on the accrual basis of accounting. KIPP Bay Area Schools dba: KIPP: Public Schools Northern California has elected to use a rate other than the 10-percent de minimus indirect cost rate allowed under Uniform Guidance.

NOTE 5 SUPPLEMENTARY STATEMENTS BY LOCATION AND ENTITY

The supplementary consolidating statements report the financial position, activities, and cash flows for each of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's charter schools as is required for the various sponsoring agencies.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF CONSOLIDATED FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Directors
KIPP Bay Area Schools
dba KIPP: Public Schools Northern California
Oakland, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California, a nonprofit California public benefit corporation, which comprise the consolidated statement of financial position as of June 30, 2023, and the related consolidated statements of activities and cash flows for the year then ended, the related notes to the consolidated financial statements, and have issued our report thereon dated December 11, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's internal control. Accordingly, we do not express an opinion on the effectiveness of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's consolidated financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Board of Directors
KIPP Bay Area Schools
dba: KIPP: Public Schools Northern California

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether KIPP Bay Area Schools dba: KIPP: Public Schools Northern California’s consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the consolidated financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering KIPP Bay Area Schools dba: KIPP: Public Schools Northern California’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH
MAJOR FEDERAL PROGRAM, AND REPORT ON INTERNAL CONTROL
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Board of Directors
KIPP Bay Area Schools
dba KIPP: Public Schools Northern California
Oakland, California

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the compliance of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023. KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, KIPP Bay Area Schools dba: KIPP: Public Schools Northern California complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Board of Directors
KIPP Bay Area Schools
dba KIPP: Public Schools Northern California

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON STATE COMPLIANCE AND REPORT ON INTERNAL CONTROL OVER STATE COMPLIANCE

Board of Directors
KIPP Bay Area Schools
dba: KIPP: Public Schools Northern California
Oakland, California

Report on Compliance

Opinion on State Compliance

We have audited KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's compliance with the types of compliance requirements applicable to KIPP Bay Area Schools dba: KIPP: Public Schools Northern California described in the *2022-2023 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel for the year ended June 30, 2023. KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's applicable State compliance requirements are identified in the table below.

In our opinion, KIPP Bay Area Schools dba: KIPP: Public Schools Northern California complied, in all material respects, with the compliance requirements referred to above that are applicable to KIPP Bay Area Schools dba: KIPP: Public Schools Northern California for the year ended June 30, 2023.

Basis for Opinion

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and *2022-2023 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel. Our responsibilities under those standards and *2022-2023 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. Our audit does not provide a legal determination of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's state programs.

Auditors' Responsibility for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and *2022-2023 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's compliance with the requirements of the government program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and *2022-2023 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with *2022-2023 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel, but not for the purpose of expressing an opinion on the effectiveness of KIPP Bay Area Schools dba: KIPP: Public Schools Northern California's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Compliance Requirements Tested

In connection with the audit referred to above, we selected and tested transactions and records to determine KIPP Bay Area Schools dba: KIPP: Public Schools Northern California’s compliance with the laws and regulations applicable to the following items:

<u>Description</u>	<u>Procedures Performed</u>
School Districts, County Offices of Education, and Charter Schools:	
California Clean Energy Jobs Act	Not Applicable ¹
After/Before School Education and Safety Program	Yes
Proper Expenditure of Education Protection Account Funds	Yes
Unduplicated Local Control Funding Formula Pupil Counts	Yes
Local Control and Accountability Plan	Yes
Independent Study-Course Based	Not Applicable ²
Immunizations	Not Applicable ³
Educator Effectiveness	Yes
Expanded Learning Opportunities Grant (ELO-G)	Not Applicable ⁴
Career Technical Education Incentive Grant (CTEIG)	Not Applicable ⁵
Transitional Kindergarten	Yes
Charter Schools:	
Attendance	Yes
Mode of Instruction	Yes
Nonclassroom-Based Instruction/Independent Study	Not Applicable ⁶
Determination of Funding for Nonclassroom-Based Instruction	Not Applicable ⁷
Annual Instructional Minutes – Classroom Based	Yes
Charter School Facility Grant Program	Yes

Not Applicable¹: KIPP Bay Area Schools dba: KIPP: Public Schools Northern California did not have any expenditures for California Clean Energy Jobs Act in the year under audit or a completed project between 12 and 15 months prior to any month in the audit year.

Not Applicable²: KIPP Bay Area Schools dba: KIPP: Public Schools Northern California did not report ADA pursuant to Education Code section 51749.5.

Not Applicable³: KIPP Bay Area Schools dba: KIPP: Public Schools Northern California did not have any charter school subject to audit of immunizations as listed in the California Department of Public Health (CDPH) website as listed in the *2022-2023 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*.

Not Applicable⁴: KIPP Bay Area Schools dba: KIPP: Public Schools Northern California did not have any expenditures for ELO-G in the year under audit.

Not Applicable⁵: KIPP Bay Area Schools dba: KIPP: Public Schools Northern California did not receive a CTEIG allocation for the audit year.

Not Applicable⁶: KIPP Bay Area Schools dba: KIPP: Public Schools Northern California did not report ADA to the CDE as generated through nonclassroom-based instruction (independent study).

Not Applicable⁷: KIPP Bay Area Schools dba: KIPP: Public Schools Northern California did not report more than 20% of its ADA as generated through nonclassroom-based instruction (independent study).

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the *2022-2023 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel and which are described in the accompanying schedule of findings and questioned costs as items 2023-001. Our opinion on each major state program is not modified with respect to these matters.

KIPP Bay Area Schools dba: KIPP: Public Schools Northern California’s response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. KIPP Bay Area Schools dba: KIPP: Public Schools Northern California’s response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditors’ Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be a significant deficiency.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that a material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention from those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2023-001, to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on KIPP Bay Area Schools dba: KIPP: Public Schools Northern California’s response to the internal control over compliance findings identified in our audit described in the accompanying schedule of findings and questioned costs. KIPP Bay Area Schools dba: KIPP: Public Schools Northern California’s response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the *2022-2023 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Accordingly, this report is not suitable for any other purpose.

State Compliance Finding

2023-001 Unduplicated Local Control Funding Formula Pupil Counts 40000

KIPP Navigate College Prep (Navigate) - #1955

Criteria: Education code section 42238.02 (b)(2) requires a charter school to submit its enrolled free and reduced-price meal eligibility, foster youth and English learner pupil-level records for enrolled pupils using the California Longitudinal Pupil Achievement Data System (CalPADS). The CalPADS 1.17 and 1.18 reports should accurately report the number of students eligible for free and reduced-price meals and those identified as “English Learners.”

Condition: During our testing of Navigate, we compared students’ family income per Free and Reduced Price Meal (FRPM) eligibility applications to the Income Eligibility Scales for 2022-23, and found 1 error of students out of 20 students selected for review, that was inaccurately reported as eligible for free and reduced price meals. The estimated error is 4 based on sampling projection.

**KIPP BAY AREA SCHOOLS
DBA: KIPP: PUBLIC SCHOOLS NORTHERN CALIFORNIA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2023**

2023-001

Unduplicated Local Control Funding Formula Pupil Counts (Continued)

40000

Effect: Navigate is not in compliance with Education code section 42238.02 (b)(2). The error identified above was extrapolated to the population of the free and reduced eligible pupils and the 1.17 and 1.18 reports contained errors as follows:

Charter School Audit Adjustments to CALPADS Data - KIPP Navigate College Prep for June 30, 2023

<u>Original</u>		<u>Updated</u>		<u>Net Change</u>		<u>LCFF Entitlement</u>		
<u>Enrollment Count</u>	<u>Unduplicated Pupil Count</u>	<u>Enrollment Count</u>	<u>Unduplicated Pupil Count</u>	<u>Enrollment Count</u>	<u>Unduplicated Pupil Count</u>	<u>Original Entitlement</u>	<u>Revised Entitlement</u>	<u>Adjustment</u>
968	738	968	734	0	(4)	4,620,821	4,608,343	(12,478)

Cause: Navigate provided meal applications for the student that qualified the students as paid and did not support the free or reduced classification that was submitted to CalPADS. The error was identified due to lack of oversight for the school in regards to verifying meal applications.

Questioned Costs: The error identified in the condition was extrapolated to the population of free and reduced eligible pupils and resulted in revised entitlement with a likely error extrapolated to the total population error decrease of \$12,478 which is used in the calculation of the LCFF entitlement.

Recommendation: We recommend Navigate to obtain proper control and resources for verifying meal applications.

Repeat Finding: This is not a repeat finding.

Corrective Action: KIPP has been investing in support for this annual income verification over the last three years as the organization continues to improve operations in a post-pandemic educational landscape. Each year we've increased collection with families and had success in earlier collection (prior to the state's deadline). Prior year improvements have included:

- An internal, school based initial review and designation, followed by a secondary internal regional review and designation of income qualification (with the use of temporary support for the influx in forms);
- An improved data and submission tracker for more transparent review and escalation of questions or concerns from school or regional teams;
- An analysis of "free" status to "paid" status to identify students who may have been misidentified, and/or confirm that their former status has been updated (employment, household status improvement, etc.).

Upon receiving the notification of the 2022-23 audit finding, the Public Accountability and Compliance Team initiated a comprehensive review of the standard and more recent improvements, and implemented additional data quality safeguards to ensure compliance in the income verification process, including:

- We've transitioned the temporary support at the regional level into a full-time employee's role on the Public Accountability and Compliance Team;
- In addition to the analysis of "free" to "paid," we are also now analyzing from "paid" to "free" to identify students who may have been misidentified, and/or confirm that their former status has been updated (employment, household status impediment, etc.);
- After more clarity from the CDE, we've been able to partner with our district NSLPs to use a consistent income verification form across all KIPP schools.

Next Steps: As a result of the ongoing best practices, the implementation of new process improvements and regular internal audits and training programs, the Public Accountability and Compliance Team feels confident in meeting ongoing compliance rules associated with family income verification. To rectify the additional funds received by KIPP NorCal, we plan to make adjustments to KIPP Navigate's apportionment by the proportional amount of \$12,478. This adjustment will take place during the P-Annual reporting period (June 2024).

Vision Statement Regarding Discipline

We recognize that certain groups have been historically suspended and expelled at a disproportionately higher rate. We aspire to engage in a fair and equitable process in addressing student behavior, regardless of socio-economic status or any protected class status, including among other things, race, gender, ethnicity, sexual orientation, disability, national origin, and/or immigration status, in order to eliminate this disparity.

We Believe

- We Believe suspensions and expulsions should be used only when student and/or staff safety is a concern.
- We Believe that if a suspension is warranted, it should never be implemented in isolation, but with a combination of consequences and supports to reintegrate the student back into the school community.
- We Believe that in more severe situations, suspension length should be based on time needed by the school to address the issue fully and get the student back into the school community as soon as possible.
- We Believe expulsions should generally be used after all possible supports and consequences that the school can provide have been *exhausted*, except in the most egregious instances.

Pupil Suspension & Expulsion Policy

KIPP Public Schools Northern California has established a Pupil Suspension and Expulsion Policy in order to promote learning and protect the safety and well-being of all students at our schools. In creating this policy, KIPP has reviewed Education Code Section 48900 et seq., which describes the noncharter schools' list of offenses and procedures to establish its list of offenses and procedures for suspensions and expulsions. The language that follows closely mirrors the language of Education Code Section 48900 et seq., but it is not intended that the Education Code be followed. KIPP is committed to annual review of policies and procedures surrounding suspensions and expulsions and, as necessary, modification of the lists of offenses for which students are subject to suspension or expulsion.

When the Policy is violated, it may be necessary to suspend or expel a student from regular classroom instruction. This policy shall serve as KIPP' policy and procedures for student suspension and expulsion and it may be amended from time to time without the need to amend the charter so long as the amendments comport with legal requirements. Charter School staff shall enforce disciplinary rules and procedures fairly and consistently among all students. This Policy and its Procedures are printed and distributed as part of the Student Handbook and clearly describe discipline expectations.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of the Policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

The Charter School administration shall ensure that students and their parents/guardians are notified in writing upon enrollment of all discipline and involuntary removal policies and procedures. The notice shall state that this Policy and Procedures are available on request at the School Leader's office.

Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

We recognize that students in grades TK-4 are in the earliest stages of development. As a result, we do not suspend students in these grades, except in the most extreme circumstances, where safety is a concern. We believe that there are multiple approaches we can take to address situations with these students that does not involve suspending them from school.

Suspension should also be a last resort for grades 5-12 and is only considered when all other options have been exhausted. When suspension is necessary, however, KIPP requires all schools to have a reintegration process that successfully supports and reconnects the student(s) back into the school community.

KIPP® Public Schools

NORTHERN CALIFORNIA

Board Approved: 6/4/2021

A student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability pursuant to the Individuals with Disabilities Education Improvement Act of 2004 (“IDEA”) or who is qualified for services under Section 504 of the Rehabilitation Act of 1973 (“Section 504”) is subject to the same grounds for suspension and expulsion and is accorded the same due process procedures applicable to general education students except when federal and state law mandates additional or different procedures. The Charter School will follow all applicable federal and state laws including but not limited to the California Education Code, when imposing any form of discipline on a student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according due process to such students.

No student shall be involuntarily removed by the Charter School for any reason unless the parent or guardian of the student has been provided written notice of intent to remove the student no less than five (5) schooldays before the effective date of the action. The written notice shall be in the native language of the student or the student’s parent or guardian or, if the student is a foster child or youth or a homeless child or youth, the student’s educational rights holder, and shall inform him or her of the basis for which the student is being involuntarily removed and his or her right to request a hearing to challenge the involuntary removal. If the student’s parent, guardian, or educational rights holder requests a hearing, the student shall remain enrolled and shall not be removed until the Charter School issues a final decision. As used herein, “involuntarily removed” includes disenrolled, dismissed, transferred, or terminated, but does not include suspensions or expulsions pursuant to the suspension and expulsion procedures described below.

A. Grounds for Suspension or Expulsion

A student may be suspended or expelled for prohibited misconduct if the act is related to school activity or school attendance occurring at the school or at any other school or a school-sponsored event at any time including but not limited to: a) while on school grounds; b) while going to or coming from school; c) during the lunch period, whether on or off the school campus; d) during, going to, or coming from a school-sponsored activity.

1. **Discretionary Suspension Offenses:** Students in grades 5-12 may be suspended when it is determined the pupil:
 - a. Caused, attempted to cause, or threatened to cause physical injury to another person.
 - b. Willfully used force or violence upon the person of another, except in self-defense.
 - c. Unlawfully possessed, used, sold or otherwise furnished, or was under the influence of any controlled substance (as defined in Health and Safety Code Sections 11053-11058), alcoholic beverage, or intoxicant of any kind.
 - d. Unlawfully offered, arranged, or negotiated to sell any controlled substance (as defined in Health and Safety Code Sections 11053-11058), alcoholic beverage or intoxicant of any kind, and then sold, delivered or otherwise furnished to any person another liquid substance or material and represented same as controlled substance, alcoholic beverage or intoxicant.
 - e. Committed or attempted to commit robbery or extortion.
 - f. Caused or attempted to cause damage to school property or private property, which includes, but is not limited to, electronic files and databases.
 - g. Stole or attempted to steal school property or private property, which includes, but is not limited to, electronic files and databases.
 - h. Possessed or used tobacco or products containing tobacco or nicotine products, including but not limited to cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets and betel. This section does not prohibit the use of the student’s own prescription products by a pupil.
 - i. Committed an obscene act or engaged in habitual profanity or vulgarity.
 - j. Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia as defined in Health and Safety Code Section 11014.5.
 - k. Knowingly received stolen school property or private property, which includes, but is not limited to, electronic files and databases.
 - l. Possessed an imitation firearm, i.e.: a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.
 - m. Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary

KIPP®Public Schools

NORTHERN CALIFORNIA

Board Approved: 6/4/2021

proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness.

- n. Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma.
- o. Engaged in, or attempted to engage in, hazing. For the purposes of this policy, “hazing” means a method of initiation or preinitiation into a pupil organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective pupil. For purposes of this policy, “hazing” does not include athletic events or school-sanctioned events.
- p. Made terroristic threats against school officials and/or school property, which includes, but is not limited to, electronic files and databases.
 - i. For purposes of this policy, “terroristic threat” shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars (\$1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for their own safety or for their immediate family’s safety, or for the protection of school property, which includes, but is not limited to, electronic files and databases, or the personal property of the person threatened or his or her immediate family.
- q. Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this section, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual’s academic performance or to create an intimidating, hostile, or offensive educational environment.
- r. Caused, attempted to cause, threatened to cause or participated in an act of hate violence, as defined in subdivision (e) of Section 233 of the Education Code.
- s. Intentionally harassed, threatened or intimidated school personnel or volunteers and/or a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder and invading the rights of either school personnel or volunteers and/or student(s) by creating an intimidating or hostile educational environment.
- t. Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act.
 - i. “Bullying” means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, and including one or more acts committed by a student or group of students which would be deemed hate violence or harassment, threats, or intimidation, which are directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following:
 - 1. Placing a reasonable student (defined as a student, including, but is not limited to, a student with exceptional needs, who exercises average care, skill, and judgment in conduct for a person of his or her age, or for a person of his or her age with exceptional needs) or students in fear of harm to that student’s or those students’ person or property.
 - 2. Causing a reasonable student to experience a substantially detrimental effect on his or her physical or mental health.
 - 3. Causing a reasonable student to experience substantial interference with his or her academic performance.
 - 4. Causing a reasonable student to experience substantial interference with his or her ability to participate in or benefit from the services, activities, or privileges provided by the Charter School.
 - ii. “Electronic Act” means the creation or transmission originated on or off the school site, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager, of a communication, including, but not limited to, any of the following:
 - 1. A message, text, sound, video, or image.

KIPP® Public Schools

NORTHERN CALIFORNIA

Board Approved: 6/4/2021

2. A post on a social network Internet Web site including, but not limited to:
 3. Posting to or creating a burn page. A “burn page” means an Internet Web site created for the purpose of having one or more of the effects as listed in subparagraph (I) above.
 4. Creating a credible impersonation of another actual pupil for the purpose of having one or more of the effects listed in subparagraph (I) above. “Credible impersonation” means to knowingly and without consent impersonate a pupil for the purpose of bullying the pupil and such that another pupil would reasonably believe, or has reasonably believed, that the pupil was or is the pupil who was impersonated.
 5. Creating a false profile for the purpose of having one or more of the effects listed in subparagraph (I) above. “False profile” means a profile of a fictitious pupil or a profile using the likeness or attributes of an actual pupil other than the pupil who created the false profile.
- iii. An act of cyber sexual bullying.
 1. For purposes of this clause, “cyber sexual bullying” means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a pupil to another pupil or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects described in subparagraphs (i) to (iv), inclusive, of paragraph (I). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.
 2. For purposes of this clause, “cyber sexual bullying” does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.
 - iv. Notwithstanding subparagraphs (I) and (II) above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.
 - u. A pupil who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a pupil who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to subdivision (1)(a)-(b).
 - v. Possessed, sold, or otherwise furnished any knife unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the School Leader or designee’s concurrence.
2. **Non-Discretionary Suspension Offenses:** Students must be suspended and recommended for expulsion for any of the following acts when it is determined the pupil:
 - a. Possessed, sold, or otherwise furnished any firearm, explosive, or other dangerous object unless, in the case of possession of any object of this type, the students had obtained written permission to possess the item from a certificated school employee, with the School Leader or designee’s concurrence.
 - b. Brandishing a knife at another person.
 - c. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900(n).
 3. **Discretionary Expellable Offenses:** Students in grades 5-12 may be recommended for expulsion for any of the following acts when it is determined the pupil:
 - a. Caused, attempted to cause, or threatened to cause physical injury to another person.
 - b. Willfully used force or violence upon the person of another, except self-defense.
 - c. Unlawfully possessed, used, sold or otherwise furnished, or was under the influence of any controlled substance, as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage, or intoxicant of any kind.
 - d. Unlawfully offered, arranged, or negotiated to sell any controlled substance as defined in Health and Safety Code Sections 11053-11058, alcoholic beverage or intoxicant of any kind, and then sold, delivered or otherwise furnished to any person another liquid substance or material and represented same as controlled substance, alcoholic beverage or intoxicant.
 - e. Committed or attempted to commit robbery or extortion.

KIPP®Public Schools

NORTHERN CALIFORNIA

Board Approved: 6/4/2021

- f. Caused or attempted to cause damage to school property or private property, which includes, but is not limited to, electronic files and databases.
- g. Stole or attempted to steal school property or private property, which includes, but is not limited to, electronic files and databases.
- h. Possessed or used tobacco or products containing tobacco or nicotine products, including but not limited to cigars, cigarettes, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets and betel. This section does not prohibit the use of his or her own prescription products by a pupil.
- i. Committed an obscene act or engaged in habitual profanity or vulgarity.
- j. Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Health and Safety Code Section 11014.5.
- k. Knowingly received stolen school property or private property, which includes, but is not limited to, electronic files and databases.
- l. Possessed an imitation firearm, i.e.: a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.
- m. Harassed, threatened, or intimidated a student who is a complaining witness or witness in a school disciplinary proceeding for the purpose of preventing that student from being a witness and/or retaliating against that student for being a witness.
- n. Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma.
- o. Engaged in, or attempted to engage in hazing. For the purposes of this subdivision, “hazing” means a method of initiation or preinitiation into a pupil organization or body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective pupil. For purposes of this section, “hazing” does not include athletic events or school-sanctioned events.
- p. Made terroristic threats against school officials and/or school property, which includes, but is not limited to, electronic files and databases. For purposes of this section, “terroristic threat” shall include any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars (\$1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for his or her own safety or for his or her immediate family’s safety, or for the protection of school property, which includes, but is not limited to, electronic files and databases, or the personal property of the person threatened or his or her immediate family.
- q. Committed sexual harassment, as defined in Education Code Section 212.5. For the purposes of this section, the conduct described in Section 212.5 must be considered by a reasonable person of the same gender as the victim to be sufficiently severe or pervasive to have a negative impact upon the individual’s academic performance or to create an intimidating, hostile, or offensive educational environment.
- r. Caused, attempted to cause, threatened to cause or participated in an act of hate violence, as defined in subdivision (e) of Section 233 of the Education Code.
- s. Intentionally harassed, threatened or intimidated school personnel or volunteers and/or a student or group of students to the extent of having the actual and reasonably expected effect of materially disrupting class work, creating substantial disorder and invading the rights of either school personnel or volunteers and/or student(s) by creating an intimidating or hostile educational environment.
- t. Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act.
 - i. “Bullying” means any severe or pervasive physical or verbal act or conduct, including communications made in writing or by means of an electronic act, and including one or more acts committed by a student or group of students which would be deemed hate violence or harassment, threats, or intimidation, which are directed toward one or more students that has or can be reasonably predicted to have the effect of one or more of the following:
 1. Placing a reasonable student (defined as a student, including, but is not limited to, a student with exceptional needs, who exercises average care, skill, and judgment in conduct for a person of his

KIPP® Public Schools

NORTHERN CALIFORNIA

Board Approved: 6/4/2021

- or her age, or for a person of his or her age with exceptional needs) or students in fear of harm to that student's or those students' person or property.
2. Causing a reasonable student to experience a substantially detrimental effect on his or her physical or mental health.
 3. Causing a reasonable student to experience substantial interference with his or her academic performance.
 4. Causing a reasonable student to experience substantial interference with his or her ability to participate in or benefit from the services, activities, or privileges provided by the Charter School.
- ii. "Electronic Act" means the creation or transmission originated on or off the schoolsite, by means of an electronic device, including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager, of a communication, including, but not limited to, any of the following:
1. A message, text, sound, video, or image.
 2. A post on a social network Internet Web site including, but not limited to:
 3. Posting to or creating a burn page. A "burn page" means an Internet Web site created for the purpose of having one or more of the effects as listed in subparagraph (I) above.
 4. Creating a credible impersonation of another actual pupil for the purpose of having one or more of the effects listed in subparagraph (I) above. "Credible impersonation" means to knowingly and without consent impersonate a pupil for the purpose of bullying the pupil and such that another pupil would reasonably believe, or has reasonably believed, that the pupil was or is the pupil who was impersonated.
 5. Creating a false profile for the purpose of having one or more of the effects listed in subparagraph (I) above. "False profile" means a profile of a fictitious pupil or a profile using the likeness or attributes of an actual pupil other than the pupil who created the false profile.
- iii. An act of cyber sexual bullying.
1. For purposes of this clause, "cyber sexual bullying" means the dissemination of, or the solicitation or incitement to disseminate, a photograph or other visual recording by a pupil to another pupil or to school personnel by means of an electronic act that has or can be reasonably predicted to have one or more of the effects described in subparagraphs (i) to (iv), inclusive, of paragraph (I). A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.
 2. For purposes of this clause, "cyber sexual bullying" does not include a depiction, portrayal, or image that has any serious literary, artistic, educational, political, or scientific value or that involves athletic events or school-sanctioned activities.
- iv. Notwithstanding subparagraphs (I) and (II) above, an electronic act shall not constitute pervasive conduct solely on the basis that it has been transmitted on the Internet or is currently posted on the Internet.
- u. A pupil who aids or abets, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person may be subject to suspension, but not expulsion, except that a pupil who has been adjudged by a juvenile court to have committed, as an aider and abettor, a crime of physical violence in which the victim suffered great bodily injury or serious bodily injury shall be subject to discipline pursuant to subdivision (3)(a)-(b).
- v. Possessed, sold, or otherwise furnished any knife unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the School Leader or designee's concurrence.
4. **Non-Discretionary Expellable Offenses:** Students must be recommended for expulsion for any of the following acts when it is determined pursuant to the procedures below that the pupil:
- a. Possessed, sold, or otherwise furnished any firearm, explosive, or other dangerous object unless, in the case of possession of any object of this type, the student had obtained written permission to possess the item from a certificated school employee, with the School Leader or designee's concurrence.
 - b. Brandishing a knife at another person.

KIPP® Public Schools

NORTHERN CALIFORNIA

Board Approved: 6/4/2021

- C. Committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900(n).

If it is determined by the Administrative Panel and/or Board of Directors that a student has brought a firearm or destructive device, as defined in Section 921 of Title 18 of the United States Code, on to campus or to have possessed a firearm or dangerous device on campus, the student shall be expelled for one year, pursuant to the Federal Gun Free Schools Act of 1994. In such instances, the pupil shall be provided due process rights of notice and a hearing as required in this policy.

The term "firearm" means (a) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (b) the frame or receiver of any such weapon; (c) any firearm muffler or firearm silencer; or (d) any destructive device. Such term does not include an antique firearm.

The term "destructive device" means (a) any explosive, incendiary, or poison gas, including but not limited to: (i) bomb, (ii) grenade, (iii) rocket having a propellant charge of more than four ounces, (iv) missile having an explosive or incendiary charge of more than one-quarter ounce, (v) mine, or (vi) device similar to any of the devices described in the preceding clauses.

A. Suspension Procedure

Suspensions shall be initiated according to the following procedures:

I. Conference

Suspension shall be preceded, if possible, by a conference conducted by the School Leader or the School Leader's designee with the student and the student's parent/guardian and, whenever practical, the teacher, supervisor or Charter School employee who referred the student to the School Leader or designee.

The conference may be omitted if the School Leader or designee determines that an emergency situation exists. An "emergency situation" involves a clear and present danger to the lives, safety or health of students or Charter School personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right to return to school or the central office for the purpose of a conference.

At the conference, the pupil shall be informed of the reason for the disciplinary action and the evidence against the student and shall be given the opportunity to present their version and evidence in their defense, in accordance with Education Code Section 47605(c)(5)(J)(i). This conference shall be held within two (2) school days, unless the pupil waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a pupil for failure of the pupil's parent or guardian to attend a conference with Charter School officials. Reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil's parent or guardian at the conference.

II. Notice to Parents/Guardians

At the time of the suspension, an administrator or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense(s) committed by the student as well as the date the student may return to school following the suspension. In addition, the notice may also state the time when the student may return to school. If Charter School officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests without delay.

III. Suspension Time Limits/Recommendation for Expulsion

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. Upon a recommendation of expulsion by the School Leader or School Leader's designee, the pupil and the pupil's parent/guardian or representative will be invited to a conference to determine if the suspension for the pupil should be extended pending an expulsion hearing. In such instances when the Charter School has determined a suspension period shall be extended, such extension shall be made only after a conference is held with the pupil or the pupil's parents, unless the pupil and the pupil's parents fail to attend the conference.

This determination will be made by the School Leader or designee upon either of the following: 1) the pupil's presence will be

KIPP® Public Schools

NORTHERN CALIFORNIA

Board Approved: 6/4/2021

disruptive to the education process; or 2) the pupil poses a threat or danger to others. Upon either determination, the pupil's suspension will be extended pending the results of an expulsion hearing.

IV. Homework Assignments During Suspension

In accordance with Education Code Section 47606.2(a), upon the request of a parent, a legal guardian or other person holding the right to make education decisions for the student, or the affected student, a teacher shall provide to a student in any of grades 1 to 12, inclusive, who has been suspended from school for two (2) or more school days, the homework that the student would otherwise have been assigned.

In accordance with Education Code Section 47606.2(b), if a homework assignment that is requested pursuant to Section 47606.2(a) and turned into the teacher by the student either upon the student's return to school from suspension or within the timeframe originally prescribed by the teacher, whichever is later, is not graded before the end of the academic term, that assignment shall not be included in the calculation of the student's overall grade in the class.

B. Authority to Expel

As required by Education Code Section 47605(c)(5)(J)(ii), students recommended for expulsion are entitled to a hearing adjudicated by a neutral officer to determine whether the student should be expelled. The procedures herein provide for such a hearing and the notice of said hearing, as required by law.

A student may be expelled following a hearing before a neutral and impartial Administrative Panel, to be assigned by the KIPP Public Schools Northern California Board. The Administrative Panel shall consist of at least three (3) members who are school leaders, assistant principals, deans, teachers, or regional leaders in KIPP. Administrative Panel members shall not include the teacher of the pupil, staff who have been involved in the alleged incident or investigation, or a Board member of the KIPP Board. The Administrative Panel shall be presided over by a designated neutral hearing chairperson. The Administrative Panel may expel any student found to have committed an expellable offense.

C. Expulsion Procedures

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the Chief of Schools or designee determines that the pupil has committed an expellable offense and recommends the student for expulsion. The Chief of Schools will convene the Administrative Panel to conduct a hearing upon this determination.

The hearing shall be held in closed session (complying with all pupil confidentiality rules under FERPA) unless the pupil makes a written request for a public hearing in open session three (3) days prior to the date of the scheduled hearing.

Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the pupil. The notice shall include:

- a) The date and place of the expulsion hearing;
- b) A statement of the specific facts, charges and offenses upon which the proposed expulsion is based;
- c) A copy of the Charter School's disciplinary rules which relate to the alleged violation;
- d) Notification of the student's or parent/guardian's obligation to provide information about the student's status at the Charter School to any other school district or school to which the student seeks enrollment;
- e) The opportunity for the student and/or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor;
- f) The right to inspect and obtain copies of all documents to be used at the hearing;
- g) The opportunity to confront and question all witnesses who testify at the hearing;
- h) The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

D. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses

KIPP®Public Schools

NORTHERN CALIFORNIA

Board Approved: 6/4/2021

- a) KIPP may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations that shall be examined only by the Charter School or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the pupil.
- b) The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of their right to (a) receive five (5) days' notice of their scheduled testimony, (b) have up to two (2) adult support persons of their choosing present in the hearing at the time the complaining witness testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.
- c) KIPP must also provide the victim a room separate from the hearing room for the complaining witness' use prior to and during breaks in testimony.
- d) At the discretion of the entity conducting the expulsion hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which the complaining witness may leave the hearing room.
- e) The entity conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.
- f) The entity conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours the complaining witness is normally in school, if there is no good cause to take the testimony during other hours.
- g) Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the entity presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The entity conducting the hearing may permit any one of the support persons for the complaining witness to accompany the complaining witness to the witness stand.
- h) If one or both of the support persons is also a witness, the Charter School must present evidence that the witness' presence is both desired by the witness and will be helpful to the Charter School. The entity presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising their discretion to remove a person from the hearing whom they believes is prompting, swaying, or influencing the witness.
- i) The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the courtroom during that testimony.
- j) Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the pupil being expelled, the complaining witness shall have the right to have their testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.
- k) Evidence of specific instances of a complaining witness' prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

E. Record of Hearing

A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

F. Presentation of Evidence

KIPP® Public Schools

NORTHERN CALIFORNIA

Board Approved: 6/4/2021

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. An order by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense.

Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay. Sworn declarations may be admitted as testimony from witnesses of whom the Administrative Panel determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the accused pupil, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public. In addition, if any witness is a minor in any case, the hearing shall be closed for the minor's testimony.

G. Expulsion Decision

The decision of the Administrative Panel shall be in the form of written findings of fact and a written decision. The final decision by the Administrative Panel shall be made within ten (10) school days following the conclusion of the hearing. The decision of the Administrative Panel is final.

If the Administrative Panel decides not to expel, the pupil shall immediately be returned to their previous educational program.

H. Written Notice to Expel

The Chief of Schools or designee, following a decision of the Administrative Panel to expel, shall send written notice of the decision to expel, including the findings of fact, to the student or parent/guardian. This notice shall also include the following:

1. Notice of the specific offense committed by the student;
2. Notice of the student's or parent/guardian's obligation to inform any new district in which the student seeks to enroll of the student's status with the Charter School; and
3. Notice of the appeal grounds and procedures.

The School Leader or designee shall send a copy of the written notice of the decision to expel to the chartering authority. This notice shall include the following:

- a. The student's name; and
- b. The specific expellable offense committed by the student.

Additionally, in accordance with Education Code Section 47605(e)(3), upon expulsion of any student, KIPP shall notify the superintendent of the authorizing school district of the pupil's last known address within thirty (30) days, and shall, upon request, provide that school district with a copy of the cumulative record of the pupil, including a transcript of grades or report card and health information.

I. Disciplinary Records

KIPP shall maintain records of all student suspensions and expulsions at each school. Such records shall be made available to the chartering authority upon request.

J. Right to Appeal

If a pupil is expelled from KIPP, the pupil or parent/guardian, within thirty (30) days of the Administrative Panel's decision, may file an appeal with the Grievance Committee of the Board. The Grievance Committee shall hold a hearing within thirty (30) school days following the formal request under this section. The Pupil shall remain expelled during any appeal proceeding, and shall enroll in another educational program pursuant to compulsory education laws, pending the outcome of the appeal process.

The period within which an appeal is to be filed shall be determined from the date an Administrative Panel votes to expel even if enforcement of the expulsion action is suspended and the pupil is placed in an interim alternative educational setting. A pupil who fails to appeal the original action of the Board within the prescribed time may not subsequently appeal a decision of the Administrative Panel.

KIPP® Public Schools

NORTHERN CALIFORNIA

Board Approved: 6/4/2021

The review by the Grievance Committee of the decision of the Administrative Panel shall be limited to the following questions:

1. Whether the Administrative Panel acted without or in excess of its jurisdiction
2. Whether there was a fair hearing before the Administrative Panel.
3. Whether there was a prejudicial abuse of discretion in the hearing.
4. Whether there is relevant and material evidence which, in the exercise of reasonable diligence, could not have been produced or which was improperly excluded at the hearing before the Administrative Panel.

If the Grievance Committee finds that relevant and material evidence exists which, in the exercise of reasonable diligence, could not have been produced or which was improperly excluded at the hearing before the administrative panel, it may do either of the following:

1. Remand the matter to the Administrative Panel for reconsideration and may in addition order the pupil reinstated pending the reconsideration.
2. Grant a hearing de novo upon reasonable notice thereof to the pupil and to the Administrative Panel.

If the Grievance Committee determines that the decision of the Administrative Panel is not supported by the written findings, but evidence supporting the required findings exists in the record of the proceedings, the Grievance Committee may remand the matter to the Administrative Panel for adoption of the required findings. This remand for the adoption and inclusion of the required findings shall not result in an additional hearing.

In all other cases, the Grievance Committee shall enter an order either affirming or reversing the decision of the Administrative Panel. The decision of the Grievance Committee shall be final and binding upon the pupil and upon the Charter School. The pupil and the Charter School shall be notified in writing of the final order of the Grievance Committee within ten (10) school days.

The Grievance Committee ("Committee") may act on behalf of the Board in determining student expulsion appeals. The Committee is a Board Committee established under Section 5.10 of the KIPP Bylaws and exercises the authority of the Board subject only to the statutorily enumerated exceptions found in California Corporations Code section 5212(a)(1) – (8). As such, only directors may be members of the Committee. The Committee shall be composed of three (3) directors, and no one who is not a director. The Board shall appoint members of the Committee and a Chair of the Committee to serve for one-year terms. The Chair of the Committee and the Chair of the Board, respectively, shall recommend nominees for appointment to the Committee and appointment as Chair of the Committee, respectively. The Chair of the Board, if not an appointed member of the Committee, will serve as an ex-officio member of the Committee and may attend Committee meetings, but will not have a vote.

The Board may fill vacancies on the Committee from the Board at-large, and anyone on the Board may substitute for a member of the Committee who is unable to participate in a particular grievance/expulsion appeal.

The Board may remove a Committee member from the Committee at any time, with or without cause.

K. Expelled Pupils/Alternative Education

Parents/guardians of pupils who are expelled shall be responsible for seeking alternative education programs including, but not limited to, programs within the County or their school district of residence. Charter school will work together with parent and District to help the student identify a suitable placement.

L. Rehabilitation Plans

Students who are expelled from KIPP shall be given a rehabilitation plan upon expulsion as developed by the Administrative Panel at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. The rehabilitation plan should include a date not later than one year from the date of expulsion when the pupil may reapply to KIPP for readmission.

M. Readmission

The decision to readmit a pupil or to admit a previously expelled pupil from another school district or charter school shall be in the sole discretion of the Chief of Schools or designee following a meeting with the School Leader and the pupil and parent/guardian or representative to determine whether the pupil has successfully completed the rehabilitation plan and to determine whether the

KIPP® Public Schools

NORTHERN CALIFORNIA

Board Approved: 6/4/2021

pupil poses a threat to others or will be disruptive to the school environment. The School Leader shall make a recommendation to the Chief of Schools following the meeting regarding his or her determination. The Chief of Schools shall then make a final decision regarding readmission. The pupil's readmission is also contingent upon the Charter School's capacity at the time the student seeks readmission.

N. Special Procedures for the Consideration of Suspension and Expulsion or Involuntary Removal of Students with Disabilities

1. Services During Suspension:

Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting (which could constitute a change of placement and the student's IEP would reflect this change), and to progress toward meeting the goals set out in the child's IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

2. Procedural Safeguards/Manifestation Determination

Prior to the student exceeding ten (10) school days in an alternate setting for suspension, or of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, KIPP, the parent/guardian, and relevant members of the IEP/504 Team shall review all relevant information in the student's file, including the child's IEP/504 Plan, any teacher observations, and any relevant information provided by the parents to determine:

- a) If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- b) If the conduct in question was the direct result of the local educational agency's failure to implement the IEP/504 Plan.

If KIPP, the parent/guardian, and relevant members of the IEP/504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child's disability.

If KIPP, the parent/guardian, and relevant members of the IEP/504 Team make the determination that the conduct was a manifestation of the child's disability, the IEP/504 Team shall:

- a) Conduct a functional behavioral assessment and implement a behavioral intervention plan for such child, provided that KIPP had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;
- b) If a behavioral intervention plan has been developed, review the behavioral intervention plan if the child already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and
- c) Return the child to the placement from which the child was removed, unless the parent and KIPP agree to a change of placement as part of the modification of the behavioral intervention plan.

If KIPP, the parent/guardian, and relevant members of the IEP/504 Team determine that the behavior was not a manifestation of the student's disability and that the conduct in question was not a direct result of the failure to implement the IEP/504 Plan, then KIPP may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

3. Due Process Appeals:

The parent/guardian of a child with a disability who disagrees with any decision regarding placement, or the manifestation determination, or KIPP believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent/guardian or KIPP, the student shall remain in the interim alternative educational setting pending the

KIPP® Public Schools

NORTHERN CALIFORNIA

Board Approved: 6/4/2021

decision of the hearing officer in accordance with state and federal law, including 20 U.S.C. Section 1415(k), or until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, unless the parent and KIPP agree otherwise.

In accordance with 20 U.S.C. Section 1415(k)(3), if a parent/guardian disagrees with any decision regarding placement, or the manifestation determination, or if KIPP believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, the parent/guardian or KIPP may request a hearing.

In such an appeal, a hearing officer may: (1) return a child with a disability to the placement from which the child was removed; or (2) order a change in placement of a child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of such child is substantially likely to result in injury to the child or to others.

4. Special Circumstances:

KIPP personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The School Leader or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student's disability in cases where a student:

- a) Carries or possesses a weapon, as defined in 18 U.S.C. Section 930, to or at school, on school premises, or to or at a school function;
- b) Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or
- c) Has inflicted serious bodily injury, as defined by 20 U.S.C. Section 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

5. Interim Alternative Educational Setting:

The student's interim alternative educational setting shall be determined by the student's IEP/504 Team.

6. Procedures for Students Not Yet Eligible for Special Education Services

A student who has not been identified as an individual with disabilities pursuant to IDEA and who has violated KIPP' disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if KIPP had knowledge that the student was disabled before the behavior occurred.

KIPP shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

- a. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to KIPP supervisory or administrative personnel, or to one of the child's teachers, that the student is in need of special education or related services.
- b. The parent/guardian has requested an evaluation of the child.
- c. The child's teacher, or other KIPP personnel, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the director of special education or to other KIPP supervisory personnel.

If KIPP knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEA-eligible children with disabilities, including the right to stay-put.

If KIPP had no basis for knowledge of the student's disability, it shall proceed with the proposed discipline. KIPP shall conduct an

KIPP®Public Schools

NORTHERN CALIFORNIA

Board Approved: 6/4/2021

expedited evaluation if requested by the parent/guardian; however, the student shall remain in the education placement determined by KIPP pending the results of the evaluation.

KIPP shall not be deemed to have knowledge that the student had a disability if the parent/guardian has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.

O. Notice to Teachers

KIPP shall notify teachers of each pupil who has engaged in or is reasonably suspected to have engaged in any of the acts listed in Education Code Section 49079 and the corresponding enumerated offenses set forth above.

P. Involuntary Removal for Excessive Unexcused Absences

As charter schools are schools of choice and as a charter school pupil who fails to attend school is potentially depriving another student of their opportunity to enroll, a student may be involuntarily removed as described within KIPP's Board adopted Attendance Policy for excessive absences and only after KIPP follows the requirements of the Attendance Policy and only in accordance with the policy described above which requires notice and an opportunity for a parent, guardian, educational rights holder to request a hearing prior to any involuntary removal. Students who are involuntarily removed for excessive unexcused absences or tardies will be given a rehabilitation plan and will be subject to the readmission procedures set forth herein.

Appendix 23- Long-Term Independent Study Policy

LONG TERM INDEPENDENT STUDY POLICY

This Board Policy applies to all KIPP Public Schools Northern California (collectively, the “Charter Schools”)¹. The following written policies have been adopted by the KIPP Public Schools Northern California Board of Directors (the “Board”) for implementation at the Charter Schools:

1. The Board authorizes long-term independent study as an optional alternative instructional strategy for the purpose of allowing students to achieve curriculum objectives and fulfill graduation requirements during periods of extended absence. Long term independent study is defined as independent study for fifteen (15) or more school days in one school year. As the Charter Schools offer classroom based programming, long term independent study is intended to provide ongoing progress towards course objectives despite extenuating circumstances which may include but are not limited to health conditions which prevent participation in in-person instruction.
2. Long term independent study may be offered at the discretion of the School Leader (“SL”). The SL’s considerations may include, but are not limited to, budgetary, staffing and other operational considerations for their school.
3. Independent study is available to Transitional Kindergarten through 12th grade students currently enrolled in the Charter Schools whose health would be put at risk by in-person instruction, as determined by a medical professional or the parent or guardian of the student. A limited number of independent study spaces will be available and therefore priority of available spaces will be determined by the criteria listed below.
 - a. Medical condition of a student that would put them at a health risk by participating in in-person instruction, as verified by a doctor,
 - b. Medical condition of a student that would put them at a health risk by participating in in-person instruction, as attested to by parent or guardian,
 - c. Health concern of parent or guardian that cannot be remedied/addressed by the school
4. While independent study requires a commitment from both parent/guardian and student at all grade levels, as a student gets older, the student assumes a greater portion of the responsibility involved. For each independent study request, the School Leader or designee shall determine that the prospective independent study student is prepared to meet the Charter Schools’ requirements for independent study. The School Leader or designee has the right to deny requests should it be determined that independent study is not in the best academic interest of the student. The SL’s considerations may include, but are not limited to, the student’s current academic standing, the student’s grade level, the timing during the grading period, the purpose of the absence for which independent study is requested, previous participation in independent study, and input from teachers, MTSS team or IEP team as

¹ As of the date of adoption, the charter schools operated by KIPP Public Schools of Northern California include: KIPP Bridge Rising, KIPP Bridge Academy, KIPP Summit Academy, KIPP King Collegiate, KIPP Bayview Elementary, KIPP Bayview Academy, KIPP San Francisco Bay Academy, KIPP San Francisco College Preparatory, KIPP Heartwood Academy, KIPP Heritage Academy, KIPP Prize Preparatory, KIPP San Jose Collegiate, KIPP San Jose College Prep, KIPP Excelencia, KIPP Valiant Community Prep, KIPP Esperanza, KIPP Stockton Middle School, KIPP Stockton University Park

Adopted/Ratified:
Revision Date:

applicable. The SL shall not deny a request for independent study on the basis of race, ethnicity, age, gender, mental or physical disability or on the basis of any other protected characteristic, either actual or perceived.

5. For students in all grade levels offered by the School, long-term independent study is applicable to absences extending a minimum of five (5) consecutive school days. No independent study agreement shall be valid for any period longer than one (1) school year. The Charter Schools will consult with the student's parent or guardian to determine the appropriate length of time, and request, but not require, a commitment to participate in independent study that is aligned with the Charter School's grading term or other length of time deemed to be in the best academic interest of the student.

- For all Charter Schools, the maximum length of time that may elapse between the time an assignment is made and the due date by which the student must complete the assignment shall be:

- Ten (10) school days for students in grades TK-12

6. The School Leader or designee shall conduct an evaluation to determine whether it is in the best interests of the student to remain in independent study upon the following triggers:

- a. When any student fails to complete three (3) independent study assignments during any period of ten (10) school days for students in grades TK-8 and fifteen (15) school days for students in grades 9-12 or misses two (2) consecutive appointments with the supervising teacher without valid excuse.

- b. In the event Student's educational progress falls below satisfactory levels as determined by the Charter Schools' KIPP NorCal Multi-Tiered System of Support which considers ALL of the following indicators:

- i. The student's achievement and engagement in the independent study program, as indicated by the student's performance on applicable student-level measures of student achievement and student engagement set forth in Education Code Section 52060(d) paragraphs (4) and (5).

- ii. The completion of assignments, assessments, or other indicators that evidence that the student is working on assignments.

- iii. Learning required concepts, as determined by the supervising teacher.

- iv. Progressing toward successful completion of the course of study or individual course, as determined by the supervising teacher.

A written record of the findings of any evaluation conducted pursuant to this policy shall be treated as a mandatory interim student record. The record shall be maintained for a period of three years from the date of the evaluation and, if the student transfers to another California public school, the record shall be forwarded to that school.

7. The Charter Schools shall provide content aligned to grade level standards that is substantially equivalent to in-person instruction. For high school grade levels this shall include access to all courses offered by the Charter Schools for graduation and approved by the UC or CSU as creditable under the A-G admissions criteria.

8. The Charter Schools have adopted tiered reengagement strategies for all students who are not generating attendance for more than 10 percent of required minimum instructional time over four

Adopted/Ratified:
Revision Date:

continuous weeks of the Charter School's approved instructional calendar, students found not participatory in synchronous instructional offerings pursuant to Education Code Section 51747.5 for more than 50 percent of the scheduled times of synchronous instruction in a school month as applicable by grade span, or students who are in violation of the written agreement pursuant to Education Code Section 51747(g). These procedures shall include local programs intended to address chronic absenteeism, as applicable, with at least all of the following:

- a. Verification of current contact information for each enrolled student;
- b. Notification to parents or guardians of lack of participation within one school day of the absence or lack of participation;
- c. Outreach from the Charter Schools to determine student academic, school culture, or behavioral needs including connection with health and social services as necessary;
- d. A clear standard for requiring a pupil-parent-educator conference to review a pupil's written agreement, and reconsider the independent study program's impact on the pupil's achievement and well-being, consistent with the policies adopted pursuant to paragraph (4) of subdivision (g) of Education Code Section 51747.

9. The following plan shall be in place in accordance with Education Code Section 51747(e) for synchronous instruction and live interaction:

- a. For students in transitional kindergarten through grade 3, inclusive, the plan to provide opportunities for daily synchronous instruction for all students throughout the school year by each student's teacher or teachers of record shall be as follows: students participating in long-term independent study will be enrolled in a live, daily, scheduled online class where they will engage with peers, and receive synchronous instruction and support.
- b. For students in grades 4-8, inclusive, the plan to provide opportunities for daily live interaction between the student and a certificated or non-certificated employee of the Charter Schools and at least weekly synchronous instruction for all students throughout the school year by each student's teacher or teachers of record shall be as follows: students participating in long-term independent study will be enrolled in a live, daily, scheduled online class where they will engage with peers, and receive synchronous instruction and support.
- c. For students in grades 9-12, inclusive, the plan to provide opportunities for at least weekly synchronous instruction for all students throughout the school year by each student's teacher or teachers of record shall be as follows: students participating in long-term independent study will be enrolled in a live, weekly, scheduled online class where they will engage with peers, and receive synchronous instruction and support.

10. The Charter Schools shall assist families to transition students whose families wish to return to in-person instruction from independent study expeditiously, and, in no case, later than five instructional days, back to in-person instruction.

11. A current written agreement shall be maintained on file for each independent study student, including but not limited to, all of the following:

- a. The manner, time, frequency, and place for submitting a student's assignments, for reporting the student's academic progress, and for communicating with a student's parent or guardian regarding a student's academic progress.

Adopted/Ratified:
Revision Date:

- b. The objectives and methods of study for the student's work, and the methods used to evaluate that work.
- c. The specific resources, including materials and personnel, that will be made available to the student. These resources shall include confirming or providing access to all students to the connectivity and devices adequate to participate in the educational program and complete assigned work.
- d. A statement of the policies adopted pursuant to Education Code Section 51747 subdivisions (a) and (b) regarding the maximum length of time allowed between the assignment and the completion of a student's assigned work, the level of satisfactory educational progress, and the number of missed assignments allowed before an evaluation of whether or not the student should be allowed to continue in independent study.
- e. The duration of the independent study agreement, including the beginning and ending dates for the student's participation in independent study under the agreement. No independent study agreement shall be valid for any period longer than one school year.
- f. A statement of the number of course credits or, for the elementary grades, other measures of academic accomplishment appropriate to the agreement, to be earned by the student upon completion.
- g. A statement detailing the academic and other supports that will be provided to address the needs of students who are not performing at grade level, or need support in other areas, such as English learners, individuals with exceptional needs in order to be consistent with the student's individualized education program or plan pursuant to Section 504 of the federal Rehabilitation Act of 1973 (29 U.S.C. Sec. 794), students in foster care or experiencing homelessness, and students requiring mental health supports.
- h. The inclusion of a statement in each independent study agreement that independent study is an optional educational alternative in which no student may be required to participate. In the case of a student who is referred or assigned to any school, class, or program pursuant to Section 48915 or 48917, the agreement also shall include the statement that instruction may be provided to the student through independent study only if the student is offered the alternative of classroom instruction.
- i. For a pupil participating in an independent study program that is scheduled for more than 14 school days, each written agreement shall be signed, before the commencement of independent study, by the student, the student's parent, legal guardian, or caregiver, if the student is less than 18 years of age, the certificated employee who has been designated as having responsibility for the general supervision of independent study, and the certificated employee designated as having responsibility for the special education programming of the pupil, as applicable. For purposes of this paragraph "caregiver" means a person who has met the requirements of Part 1.5 (commencing with Section 6550) of Division 11 of the Family Code.
- Written agreements may be signed using an electronic signature that complies with state and federal standards, as determined by the California Department of Education, that may be a marking that is either computer generated or produced by electronic means and is intended by the signatory to have the same effect as a handwritten signature. The use of an electronic signature shall have the same force and effect as the use of a manual signature if the requirements for digital signatures and their acceptable technology, as provided in Section 16.5 of the Government Code and in Chapter 10 (commencing with Section 22000) of Division 7 of Title 2 of the California Code of Regulations, are satisfied.
12. The Charter Schools shall comply with the Education Code sections 51745 through 51749.3 and the provisions of the Charter Schools Act of 1992 and the State Board of Education regulations adopted there under.

Adopted/Ratified:
Revision Date:

13. The School Leader may establish regulations to implement these policies in accordance with the law.

14. Limitations:

a. A student participating in independent study must fulfill course requirements that are consistent with those for students enrolled in the regular school program.

b. The Charter Schools function as “classroom-based instruction” as defined in Education Code section 47612.5 (e)(1) and will meet the following conditions:

i. The Charter Schools’ students are engaged in educational activities required of those students, and the students are under the immediate supervision and control of an employee of the Charter Schools .

ii. At least 80 percent of the instructional time offered at the Charter Schools is at the school site.

iii. Each of the Charter Schools’ school sites are facilities that are used principally for classroom instruction.

iv. Each of the Charter Schools require students to be in attendance at the school site at least 80 percent of the minimum instructional time.

c. Each student’s master agreement shall be coordinated, evaluated, and carried out under the supervision of a certificated employee.

Project Description

As a Matter of Fact: The National Charter School Study III 2023 (NCSSIII) is the third national study by CREDO evaluating the academic progress of students enrolled in charter schools in the United States. The current report presents findings from 2014 to 2019, which yields four periods of year-to-year student growth as measured by state achievement tests. It includes data from 29 states plus Washington, D.C., and New York City, which for convenience we report as 31 states. In addition, because we have used a common methodology across the three studies, we can combine results into trends to support insights of the performance of students enrolled in charter schools over the past 15 years.

To organize the extensive body of this current research effort, CREDO separated the analysis into two parts and produced two reports: (1) [Charter School Performance in 31 States \(CSP31\)](#) and (2) [Charter Management Organization 2023 \(CMO23\)](#). CSP31 examines the performance of the full set of charter school students and schools, while CMO23 analyzes the difference in academic growth between students attending charter schools associated with charter management organizations (CMOs) and those attending stand-alone charter schools (SCS).¹ We present this combined Executive Summary for both reports as well as common Summary of Findings, Conclusions and Implications to ensure we present the fullest picture of performance in charter schools.

Our work deliberately focuses on a specific outcome: the annual progress that students make over an academic year. In this report, we look at students in charter schools compared to the experience they would have had in the traditional public schools (TPS) they would otherwise have attended. One notable limitation of this approach is that we have limited line of sight “under the hood” and into the role that localized environmental, regulatory and organizational factors play on individual school performance. Our contribution to the K-12 education research and practice landscape is to test fundamental questions of the effectiveness of charter schools and highlight outcomes and trends rooted in academic progress.

A study of the academic impacts of charter schools on their students is timely. Insights about the educational effectiveness of schools, school operators, K-12 academic programs and education policy are valuable today more than ever. The 2022 results from the National Assessment of Educational Progress removed any ambiguity about student learning after the COVID-19 pandemic. As a country, student academic performance has regressed by two decades in math and fallen steeply in reading, with the most severe performance declines found among minority, poverty and special needs populations that were already struggling before the pandemic. The need for evidence-backed approaches to sustained academic success for students transcends demographic, economic and political divides. As school and district leaders, policy makers, teachers, families and philanthropists build and implement plans to address pandemic-accelerated declines in student learning, they need analysis of school and system achievement presented here to guide and support their efforts.

¹ The CMO study does not include Idaho, Maryland, and Ohio.

Methodology

This research depends on data-sharing partnership agreements with state education agencies. One common requirement across all agreements is that the processing, analysis and security of the student-level data must meet the Federal Education Rights and Privacy Act (FERPA) requirements. This study complies with FERPA regulations as interpreted by each state providing data.

Using both student and school level data, our resulting data set included 81 percent of tested public school students in the United States, making it one of the largest data sets of student-level observations created to date. We used this information to create a matched student data set with over 6,500,000 student-level observations from over 1,853,000 charter students and a matched comparison group.

To create rigorous tests of our research questions, we need to compare charter school students' experience with an alternative, in this case the learning that occurs in nearby TPS. We match each charter student whose records appear in the data with records of traditional public school students with identical traits and aligned prior test scores who enrolled in schools that the charter student would have attended if not at their charter school. This approach, the Virtual Control Record protocol, creates a "virtual twin" to a charter school student. For research purposes, the virtual twin differs from the charter student only in the school attended.

This study approach mirrors the one used in the 2009 and 2013 studies. The only change to the method was to rematch the charter school students to a new set of TPS students each year.² The data collected for this study consisted of student-level demographics, school enrollment and achievement test scores in reading/English language arts (ELA) and math. To assure accurate estimates of charter school impacts, we use statistical methods to control for differences in student demographics and eligibility for categorical program support such as free or reduced-price lunch eligibility and special education. In this way, we have created the analysis so that differences in the academic growth between the two groups are a function of which schools they attended.

In these 2023 studies, we present our findings about learning outcomes measured in days of learning. The measure uses a benchmark of learning: the average student in TPS will obtain a year's learning in a year's time. Computationally, the benchmark student attends school for 180 days in a year and advances their learning by 180 days. If another student makes more (or less) progress in the same period of time, we present that as additional (or fewer) days of learning.

² This change meets the new standards of the What Works Clearinghouse at the National Center for Education Evaluation.

Summary of Findings

Looking at year-to-year academic progress from 2015 to 2019, **the typical charter school student in our national sample had reading and math gains that outpaced their peers in the traditional public schools (TPS) they otherwise would have attended.** We report these differences as marginal days of additional (or fewer) days of learning on a learning benchmark of 180 days of learning each school year for matched TPS students. In math, charter school students, on average, advanced their learning by an additional six days in a year's time, and in reading added 16 days of learning.

Figure 1: Annual Academic Growth of Charter School Students, Reading and Math

** Significant at $p \leq 0.01$
Figure above originally appears as Figure 1.7 in CSP31.

These average effects are across all students, all schools, for all time periods. There is considerable variation around these averages and this variation forms the foundation for additional analyses and findings in our two papers.

This growth represents accelerated learning gains for tens of thousands of students across the country. Each student and each school is a proof point that shows that it is possible to change the trajectory of learning for students at scale, and it is possible to dramatically accelerate growth for students who have traditionally been underserved by traditional school systems.

Do All Students Benefit?

When we probe these results to determine if all students benefit, we find positive results are not only present in the aggregate, but also across student race/ethnicity groups:

- > **Black and Hispanic students** in charter schools advance more than their TPS peers by large margins in both math and reading.
- > **Multiracial, Native American, and White students** in charter schools show equivalent progress to their TPS peers in reading, but had weaker growth than their TPS peers in math.
- > **Asian students** in charter schools showed similar growth to their TPS peers.

When we examined academic growth for special populations of students, we found that, compared with their TPS peers:

- > Charter school **students in poverty** had stronger growth
- > **English-language learner students** attending charter schools had stronger growth
- > **Students receiving special education services** had significantly weaker growth in both math and reading on average, though CMO-affiliated students with Special Education needs have learning on par with their TPS Special Education peers.

In the past, a common claim asserted that positive academic results in charter schools arise from advantages that their students bring to their schooling. In some cases the claim focused on students having more motivated parents. Another version suggests targeting behavior on the part of the school results in a student body that is better prepared academically, a practice commonly referred to as “cherry picking” or “cream skimming”. If true, the students in charter schools would show higher academic achievement at the point of enrollment. In multiple analyses, we do not see significant evidence of an undue advantage to charter schools. In fact, we find the opposite is true: charter schools enroll students who are disproportionately lower achieving than the students in their former TPS.

Where Is Positive Academic Growth Happening?

Deeper into our analysis, we examine *where student learning gains are occurring*, and find that positive and strong effects exist in charter schools that vary widely by location and configuration.

- > **States** – 18 states in the NCSS3 study produced significantly stronger growth for students enrolled in their charter schools when compared with their TPS peers; in 12 states, growth was similar to TPS peers. Students attending charter schools had weaker reading growth than their TPS peers in only one state, Oregon. In 12 states, charter school students had significantly stronger growth in math than their peers in TPS. In 16 states, math growth was similar between charter students and their TPS peers. Only three states showed weaker growth for charter students compared to their peers.
- > **Locale** – compared to their TPS peers, urban charter school students had 29 additional days of growth per year in reading and 28 additional days of growth in math, both of which were significant. Suburban charter school students also had stronger growth in reading (+14 days) and in math (+3 days). Rural students enrolled in charter schools had the equivalent of five additional days of learning in reading,

but 10 days less growth in math than their TPS peers. These results are strongly hampered by the performance of virtual charter schools; despite having only six percent of charter school students enrolled, their impact on student progress of 58 fewer days of learning in reading and 124 fewer days in math has damaging consequences for students and exerts a outsized drag on overall national results.

- > **Grade configuration** – charter schools serving elementary, middle, and high school students had statistically positive growth in both reading and math. Results for multilevel charter schools were negative in math and similar to the TPS comparison groups in reading. Seeing growth in all grade spans helps us understand that trends in the national aggregate performance are not concentrated in particular grades.
- > **Continuous Enrollment** – charter students overcome an initial learning dip associated with a school change, and by their fourth year in their charter school, they show 45 days stronger growth in reading than their TPS peers and 39 additional days of learning per year in math. The longer a student stays enrolled in a charter school, the better the student’s academic outcomes are.
- > **School Management** – students who attend a charter school that is part of a charter management organization (CMO) experience significantly accelerated growth compared to students enrolled in stand-alone charter schools (SCS). Even so, CMO schools and SCS provide stronger learning than TPS in reading, and CMOs do so in math. CMO-affiliated students advanced by 27 additional days in reading and 23 more days in math over TPS, both of which are statistically significant. Stand-alone charter schools still grew significantly more than TPS in reading by 10 additional days of learning, but were no different in math. Given that SCS serve two-thirds of all students enrolled in charter schools, soft math performance in these schools taints the otherwise decisive results in other parts of the study.

Figure 2: Annual Academic Growth of Charter School Students by Charter School Type, Reading and Math

Figure above originally appears as Figure 2.4 in CMO23.

What Can We Learn from CMOs?

Comprising one-quarter of the schools, but serving 37 percent of students in our national data set, Charter Management Organizations (CMOs) are producing much of the learning gains we observed for charter school students.

As with our national top-line results, we find robust results for CMOs when we grouped their students by race/ethnicity, special populations, where the CMOs are located, grade spans of the schools in the network and how long a student enrolls in the school. As with all schools, there is a range of performance for CMOs, and we share their student impacts in [Appendix A](#).

Our analysis uncovered additional ways that CMOs are returning more positive, and often gap-busting, results:

- > **New CMOs and new schools in existing CMOs** open with strong results, in both cases delivering stronger average gains for their students than their local TPS. The student gains in new CMOs are not as strong initially as their older CMO peers. New schools started by mature CMOs deliver positive gains in their early years that were none the less smaller than the older CMO schools.
- > **Size or age of a CMO does not relate to their quality**, which means some CMOs are growing poorly performing networks of schools.
- > **Clustering of CMOs' schools within a single state** returns significantly more days of learning for their students than in CMOs that operate schools in more than one state.
- > **CMOs that took on "turn-around" schools**, absorbing those schools into their portfolios, positively impacted results for students who remained enrolled in the turn-around school. In addition, the balance of the CMO portfolio did not experience a downturn in student learning.
- > **The Charter School Growth Fund** serves as a case study of charter school growth accelerators. CMOs that the Growth Fund chooses to support have dramatically larger pre-funding learning gains than other CMOs. The schools that existed at the time of selection remain strong. New CMO schools also open with dramatically larger learning gains in both subjects judged against their TPS comparisons.
- > **Excellence at Scale** puts dozens of CMOs at the forefront of efforts to provide education that is both equitable and effective in moving student achievement to give their students full preparation for their next steps.

Variations in Charter School Performance

In our reports, we analyze school-level performance, in addition to student-level performance, continuing to report on growth as the outcome variable. Not every charter school provides quality academic programming or an effective learning environment for students. Across all charter schools in our study, 36 percent have greater growth, 47 percent have equivalent growth and 17 percent have lower growth relative to their local TPS. CMO-affiliated charter schools display stronger performance, with 43 percent having greater growth, 42 percent having equivalent growth, and 15 percent having lower growth in comparison to their local TPS. Stand-alone charter schools have slightly more moderate results.

Figure 3: Academic Growth of Charter Schools Compared to Their Local TPS, Reading

Figure above draws from Figure 1.22 in CSP31, and Figure 36 in CMO23.

In math, more charter schools have weaker results than they do in reading, as presented in the figure below. As the share of charter schools with growth greater than their TPS peers is comparable with the same growth in reading across all categories, the driver of the overall weaker performance in math is the greater percentage of charter schools (all, CMO-affiliated and stand-alone charter schools) that perform worse than their TPS peers. Stand-alone charter schools have the largest share of schools with lower growth in math in comparison to their local TPS.

Figure 4: Academic Growth of Charter Schools Compared to Their Local TPS, Math

Figure above draws from Figure 1.22 in CSP31, and Figure 37 in CMO23.

These encouraging results require a note of caution. Since the reference point in these comparisons is the growth that equivalent students in the local TPS realize, this comparison does not reveal if the difference is modest or large, nor does it indicate where in the range of absolute achievement the difference occurs. Positive differences at the lowest levels of achievement may not be sufficient to move students ahead fast enough to reach long-term outcomes such as academic proficiency or post-secondary readiness. Similarly, a charter school may post growth results that are considered outsized for any school but still lag behind

the community schools in achievement. Simultaneous consideration of student academic growth and achievement is the only way to get the complete picture of charter school performance.

Charter School Growth and Achievement

Student academic growth measures how much students advance their learning in a year’s time, and student achievement measures the stock of their knowledge at the end of the year. We believe it is critical to examine both growth and achievement in order to understand how well schools prepare students for next steps in school and life. We map each school’s average growth and average achievement against the the growth of matched TPS students and average state performance. Examining both measurements for all schools in our national data set during the most recent growth period, we present findings in four basic categories of school performance:

- > **High Growth—High Achievement:** schools that exceed the growth of their local options and whose students are above the state average in overall achievement
- > **High Growth—Low Achievement:** schools that exceed the growth of their local options but with overall student achievement below the state average
- > **Low Growth—High Achievement:** schools whose students exceed the state average on achievement but do not advance as much yearly as their comparisons
- > **Low Growth—Low Achievement:** schools with lower academic growth than their local alternatives and whose students’ achievement is lower than the state average at the end of a school year.

NOTE TO READERS:

The thumbnail table below presents the total proportion of students in each major quadrant in Figure 5. These values appear on the [study website](#) as a layer of the chart—the user can see the quadrant totals and then drill down to see the inner-quadrant values.

11.4	31.7
26.3	30.9

Figure 5: Academic Growth and Achievement 2015 to 2018, Reading

Growth (in Days of Learning)	Low Growth, High Achievement		High Growth, High Achievement		
	-87	0	87		
	0.1%	1.5%	5.8%	2.8%	70th Percentile
	0.7%	9.1%	17.0%	6.1%	50th Percentile
	3.1%	12.3%	17.6%	6.4%	30th Percentile
	4.1%	6.8%	5.8%	1.1%	
	Low Growth, Low Achievement		High Growth, Low Achievement		

Figure above originally appears as Figure 1.25 in CSP31.

Schools that have average student achievement above the state average (above the 50th percentile) are presented in the top half of the figure. In reading, 43 percent of all schools have average performance in the upper half in their respective states, with a majority of those high achievement schools also having stronger growth than their local TPS. Zeroing in on the low-growth/low-achievement quadrant, 207 schools (4.1 percent) in our study have lower academic growth than their local alternatives and have student achievement that is below the 30th percentile of state achievement at the end of the school year.

NOTE TO READERS:

The thumbnail table below presents the total proportion of students in each major quadrant in Figure 6. These values appear on the [study website](#) as a layer of the chart—the user can see the quadrant totals and then drill down to see the inner-quadrant values.

11.8	28.2
33.8	26.4

Figure 6: Academic Growth and Achievement 2015 to 2018, Math

Figure above originally appears as Figure 1.26 in CSP31.

In math, above average achievement exists in 40 percent of charter schools, while 60 percent of schools have achievement that is lower than their state averages. Twenty-eight percent of schools in the data set are high-growth/high-achievement schools, returning great gains for their students. Zeroing in again on the low-growth/low-achievement quadrant, 348 schools (7.1 percent) have lower academic growth than their local alternatives and have student achievement that is below the 30th percentile of state achievement at the end of the school year.

The number of schools in the low-growth/low-achievement quadrant, though smaller in reading than in math, remains a key concern.

Exceptional Performance in Charter Schools

Perhaps the most revealing finding of our study is that more than 1,000 schools have eliminated learning disparities for their students and moved their achievement ahead of their respective state’s average performance. We refer to these schools as “gap-busting” charter schools. They provide strong empirical proof that high-quality, high-equality education is possible anywhere. More critically, we found that dozens of CMOs have created these results across their portfolios, demonstrating the ability to scale equitable education that can change lives.

Evidence of Improvement over Time

Findings from this study take on even more weight when considered in the historical context of the 15 years of CREDO studies on student academic progress in charter schools. Between the 2009 and 2023 studies, against a backdrop of flat performance for the nation as a whole, the trend of learning gains for students enrolled in charter schools is both large and positive.

Figure 7: Annual Academic Growth of Charter School Students across Three National Studies

** Significant at $p \leq 0.01$
Figure above originally appears as Figure 1.8 in CSP31.

Conclusions

The outcomes of these studies are largely positive and support several conclusions about the current landscape of charter schools across America. Perhaps more importantly, the opportunity to position these findings in the larger body of research leads to a number of implications about the fundamental policies and practices of charter schooling at a more global level.

1. In both reading and math, charter schools provide students with stronger learning compared with the learning in the traditional public schools that are otherwise available to them.

Across the broad range of charter schools, the evidence suggests that they are a robust education option under many conditions. Whether stand-alone or networked, charter schools operate by law mainly on their own, making decisions they expect will serve their students well. According to our latest findings, the autonomy given to them usually yields positive results. The majority of charter schools provide better year-to-year outcomes for students compared to their traditional public-school options. Most of these schools perform better to such a degree that the difference is statistically significant.

The results stand up to deeper investigation. Charter schools produce superior student gains despite enrolling a more challenging student population than their adjacent TPS. They move Black and Hispanic students and students in poverty ahead in their learning faster than if they enrolled in their local TPS. They are more successful than the local public school alternatives across most grade spans and community settings. These results show that charter schools use their flexibility to be responsive to the local needs of their communities.

These findings generalize into lessons for policy leaders, educators, and funders. Knowing that the average student in the average charter school can outperform their TPS peers raises important questions about the priority placed on student outcomes in education decisions in many communities.

2. Some charter schools provide less student learning than their local district schools, although a larger proportion delivers better learning outcomes. The latter group includes over 1,000 charter schools managing staffing and resources to deliver superior academic results that eliminate the learning gap across student groups.

Vital lessons also come from the distribution of school performance around the average. Over the past 30 years, small, large, urban, rural, networked or stand-alone charter schools, autonomous and independent of each other, have arrived at their own solutions for giving their students stronger learning experiences. The discretion that charter schools enjoy does not guarantee that each school or every charter network realizes strong student outcomes. Our study illuminated the range of learning across schools.

Despite declining shares, there remain a concerning number of charter schools with weaker student outcomes. While lower-performing schools make up a larger share of stand-alone charter schools, CMOs and networks also have a substantial share that produces low gains for their students. This study has profound implications for charter schools and charter networks that do not support student learning. Charter boards and authorizers are the accountability side of the charter school equation. They evaluate school performance and, if necessary, dictate remedies. As our analysis shows, disturbing numbers of charter schools and networks have low learning levels. There are brick-and-mortar, online, networked, and stand-alone charter schools with sub-par results.

The number of school closures we observed in the years of this study was small compared to the counts of schools with the lowest student growth and academic achievement. Since primary and secondary education is essential to the social contract, providing a foundation for future opportunities, the claim of “choice” cannot justify derailing students’ preparation. Especially in the post-COVID era, the need for charter boards and authorizers to address under-performance in their schools has never been more critical.

Closure is not the sole remedy. As we learned from our special investigation, the “takeover” of underperforming schools by strong CMOs led to improved student learning for the students who remained enrolled before and after the transfer. The gains did not adversely affect student academic progress in the rest of the CMOs’ schools. This policy tool may have broader utility than previously realized.

At the high end of the performance range, good news exists in the growing share of schools outpacing learning in their local TPS. In both subjects and for both CMO and stand-alone schools, larger shares are “better than” and a smaller share is “weaker than” compared to earlier work.

The real surprise of the study is the number of charter schools that have achieved educational equity for their students: we call them “gap-busting” schools. Ensuring equivalent yearly growth across student groups has two critical consequences. First, ensuring minority and poverty students learn on par with or better than their White peers interrupts or reduces the achievement gap. It happens regularly in a large swath of charter schools. More critically, there is strong evidence that these gap-busting schools can be scaled. Added to the traditional district schools that achieve similar results, this is the life-transforming education that so many students need. Second, these schools deliver hundreds of independent proof points that learning gaps between student groups are not structural or inevitable; better results are possible.

Charter schools function as a portfolio, and their varied impacts on student learning are expected. Charter school boards and authorizers are responsible for ensuring students perform well. Evidence shows that the charter school enterprise benefits students, and its positive outliers (e.g., gap busters) can pressure the rest of the system.

The near-term implication for charter school boards and authorizers is two-pronged. Addressing chronic and/or severe underperformance is necessary and imperative in the current education climate. Identifying high-impact exemplars for probationary charter schools to study and emulate is possible. Transfer of sub-par schools to higher-performing operators could be part of a larger incentive for growth and replication. At the same time, authorizers might consider longer charter terms for charter schools that consistently demonstrate outstanding student learning success.

Education leaders and policy makers need to understand that in efforts to improve, some failure is inevitable. Any subsequent failure to address the poor performance compounds the damage. It also blocks constructive learning for the future. Strong examples of authorizing exist and should be emulated.

Leadership and responsibility demand embracing practices and policies that lead to better results for students, not maintaining the status quo.

3. The larger scale of Charter Management Organizations does not guarantee high performance—but on balance, it helps.

When taken as a whole, schools managed by Charter Management Organizations and charter networks bring a greater learning benefit to students compared to stand-alone charter schools. Despite the differences, both groups of charter schools have had larger student success than traditional public schools with respect to reading. We note, however, that math gains in stand-alone charter schools were equivalent to TPS learning.

Our analysis highlights attributes of higher-performing CMOs and networks that could be useful in future discussions. Size or age of the CMO does not relate to student learning: at every increment of CMO age

or portfolio size, we see high- and low-impact CMOs and networks. This further supports earlier CREDO research that showed that CMOs only replicate the quality they already have. The implications of replicating schools with weak results is clear. The big upside is the ability of dozens of CMOs to scale their gap-busting performance. Additionally, CMOs that concentrate their operations within a single state have stronger gains than multistate CMOs, though both groups do well by their students.

Programs of external funding and support to CMOs to grow their networks, represented here by the Charter School Growth Fund, focus on some of the stronger CMOs and networks in our study. After high-performing CMOs receive endorsement, the learning of students in those CMO schools rises in reading but holds steady in math.

The majority of new CMO schools are no better or worse than the parent organization has already produced, so decisions to approve applications by CMOs to open new schools must consider the contributions to student learning of schools in the existing portfolio.

CMO growth accelerators help augment board and authorizer reviews through their extensive selection process; the growth of their grant-receiving CMOs maintains the strong student learning that led to their selection. The expansion of these high-quality schools and networks benefits more students and communities.

4. Charter schools and networks improve over time, as do the systems that oversee them.

Insights about improvement in schools and networks stem from this study and CREDO's prior multistate studies.

In the years of this study, student growth in charter schools was the strongest observed in any of CREDO's multistate studies. Added to the results from the previous two studies, a strong trend of improvement becomes clear. We see substantial increases in student learning in CMOs in both tested subjects and in reading for stand-alone charter schools. Even the finding of no difference in math learning in stand-alone charter schools vis a vis TPS, a decline from the 2017 study results, still marks an improvement from the statistically significant negative results in the first CMO vs. stand-alone comparisons in 2013.

A better understanding of the improvement in the sector comes from two different findings. The first is that the largest share of improvement comes from existing charter schools. Compared to the National Assessment of Education Progress (NAEP) trend, evidence of schools getting better over time is welcome news.

Second, new schools opened with stronger results than at any time in the past. Growth in the number of CMOs since the last study plays a role. Many stand-alone charter schools also pushed their results upward. Strengthening authorizer standards and practices, a drive that took root in the 2010s, also sets a higher bar that resulted in better schools opening.

Finding ways to improve student academic outcomes is an ambition shared by policy and community leaders, educators, funders and parents. Charter school results show that change for the better is possible in the larger education system. The key to improvement lies outside any particular school or network model, though many are worthy of emulation. It is simply not possible to drive single solutions through the diverse landscape that is U.S. public education. Lessons from the charter school experience and results may be helpful in charting a future course in public education.

Implications

The **charter school policy framework** sets the conditions for charter schools' growing positive outcomes. It is the fundamental common denominator in every case, and its role is powerful.

The framework offers a divergent approach from the conventional strategy for public schools. The “flexibility for accountability” construct is not just a catchphrase. It is a distinctly different mode of operation. The “loose-tight” parameters of the framework create incentives to which schools and networks respond. The incentives find positive support in this study's findings and the broader trends. While our study design cannot make causal claims (because randomly assigning schools to the traditional or charter school approach has yet to happen), it can deliver a plausible argument of the value of the policy based on available evidence.

On the “loose” side of the approach, the framework establishes a **policy of possibility** where educators, leaders and boards of directors have the discretion to build and deliver curriculum and instruction that meets high standards for learning and is responsive to local needs.

According to this study, there are a lot of positive possibilities. The process has led to many successful schools nationwide, often with meaningful innovations. The diversity of schools illuminates an important feature of the framework: success is attainable via **many paths**. Over time, many have sought and gained permission to expand and then shown the ability to create strong student learning at scale.

Students in these schools, especially minority students and those in poverty, make larger advances than in local public schools. Beyond the benefits for their students, successful charter schools deliver **critical proof points** of ways to improve outcomes for students. In the current regulatory climate, it is difficult to imagine how similar efforts could become conventional among traditional public schools.

Beyond flexibility in school design, school teams have the leeway to tinker with their operations. The results show that existing charter schools have improved over time. The proportion of charter schools with superior results is on the rise. The share that lags behind the local TPS alternatives is also shrinking. This means schools and networks use their discretion and autonomy to foster a **standing capacity to adapt over time**.³

Accordingly, the framework also aims to be “tight” at key points as schools open and mature. Authorizers are expected to behave as **governors of quality**. They set the bar to receive initial permission to operate, which exerts quality and safety controls at the outset. Others have documented stronger standards among authorizers in the review and approval of new applications (Mumma & West, 2018). The findings of stronger new schools in this study compared to earlier results attest to the effort and to the CMO replications and new charter schools that meet the higher bar.

Authorizing is a delicate job that requires resources, expertise and substantial political acumen and courage. There is growing attention to authorizers adopting rigorous standards and practices and using a variety of performance data to evaluate schools that apply for renewal (NACSA, 2016).

³ We saw that capacity in stark terms when we examined how charter schools in three states responded to the COVID-instigated school closure orders (CREDO, 2022). Rapid transformation into remote instructional mode; acquisition and distribution of food, technology, or internet access; and strengthening of personal supports were widespread. Return to in-person instruction in the fall of 2020 was nearly universal. These points rest admittedly on smaller bases of qualitative evidence, but they provide human dimensions to the point that the present quantitative analysis illuminates nationally. See also: Boast et al. (2020); Henderson et al. (2021); Childs et al. (2022).

Poorly performing charter schools are often ignored. A number of these schools were observed during this study window. There is data to assess policy leaders and authorizers to hold them accountable for protecting children’s futures. As tough as closing schools is, the disservice of not closing poorly performing schools has large and lingering ripple effects.

Our results show that the framework of charter schools helps current students and strengthens public education overall. We contend these incentives have broader applicability in public schools and see signs of their spread. Collaborations between charter schools and local district schools have grown over time. Some states, including Kentucky and Maine, have adopted policies to give educators freedom in adjusting instruction and boosting performance. However, uptake is slow.

In the year 2023, the importance of strong academic achievement among America’s students has never been greater. The students hit hardest by school closures during the coronavirus pandemic are precisely those whom this research illuminates as being able to benefit the most from charter schools. In this study thousands of charter schools have proved that we can do better for our students. The current number of students benefiting from these schools is 3.7 million, but the number could drastically increase if more schools agreed to the same arrangement. Whether it be termed “charter school” or something else, the deduction from this data is that when both sides of the equation—flexibility and accountability—are working together for more schools, more students’ academic results will improve.

CREDO, the Center for Research on Education Outcomes at Stanford University, was established to improve empirical evidence about education reform and student performance at the primary and secondary levels. CREDO at Stanford University supports education organizations and policy makers in using reliable research and program evaluation to assess the performance of education initiatives. CREDO's valuable insight helps educators and policy makers to strengthen their focus on the results of innovative programs, curricula, policies and accountability practices.

Acknowledgments

CREDO gratefully acknowledges the support of the state education agencies that contributed their data to this partnership. Our data access partnerships form the foundation of CREDO's work, without which studies like this would be impossible. We strive daily to justify the confidence placed in us.

1.1 Introduction

The year 1992—the year that City Academy Charter School opened in St. Paul, Minnesota—was over 30 years ago. The fundamental bargain of public charter schools—“flexibility for accountability”—took root in the school’s first charter and in the more than 7,800 public charter schools that came after. With over 3.7 million students currently enrolled in charter schools in 43 states and the District of Columbia, charter schools represent the largest experiment in public school innovation in the nation’s history.

The current study is the third multistate study of charter school effectiveness—the first was released in 2009 and the second in 2013. It adds to a large slate of charter school research¹ released by CREDO in 2006. This study covers the education experience of 2,080,913 unique students enrolled in charter schools in 31 states from 2014-15 to 2018-19. As our work in this area uses the same peer-reviewed research design and analytic approaches, the results across studies provide the basis for examining charter school performance trends since 2006.

CREDO’s work joins a body of research on the subject (Booker et al., 2009; Mead et al., 2015). Our unique contribution lies in the scope of the effort: CREDO uses longitudinal student-level information derived from state administrative data from 29 states plus the District of Columbia and New York City.² In our research, we include 94 percent of the nation’s charter school students in tested grades. We use a detailed matching method to ensure that our analytic comparisons to students in district schools are as precise as the data allows. Consequently, our findings carry strong levels of reliability and validity.

A study of the academic impacts of charter schools on their students is timely. Insights about the educational effectiveness of schools, school operators, K-12 academic programs and education policy are valuable today more than ever. The 2022 results from the National Assessment of Educational Progress removed any ambiguity about student learning after the COVID-19 pandemic. As a country, student academic performance has regressed by two decades in math and fallen steeply in reading, with the most severe performance declines found among minority, poverty and special needs populations that were already struggling before the pandemic. The need for evidence-backed approaches to sustained academic success for students transcends demographic, economic and political divides. As school and district leaders, policy makers, teachers, families, and philanthropists build and implement plans to address pandemic-accelerated declines in student learning, they need the analysis of school and system achievement presented here to guide and support their efforts.

¹ Center for Research on Education Outcomes, <http://credo.stanford.edu>.

² We refer to these 31 jurisdictions as “states” to maintain consistency with previous studies. New York City data is not included in New York results. The two groups are mutually exclusive for this study.

A Brief Primer on Charter Schools in the United States

Enabling legislation allows charter school founders and operators to design and tailor organizational structures, staffing and instructional approaches to provide their students with an alternative to local district schools. They pursue different missions such as STEAM, college prep, social justice or new technologies. They can be small or large; they can operate as single schools or in school networks. Some charter schools outsource some or all of their operations to outside vendors. Some charter schools mirror traditional public school (TPS) grade level or grade band configurations, and others serve students K-12 in one school. Some charter schools own and operate their facilities, and some are tenants of local school districts or rent space from commercial landlords.

Charter schools operate under governing boards separate from local district school boards. Following the “flexibility for accountability” construct, in exchange for discretion in school design and operation, charter schools must undergo periodic accountability reviews to remain open and in good standing. These accountability reviews weigh the schools’ operational and fiscal health and student academic performance.

Thirty-seven states allow multiple schools to be held and operated under a common management structure known as charter networks or charter management organizations (CMOs). This option has increased the number of available charter school seats, yet it raises questions of scalability and quality. This study examines these questions and the performance of charter schools and charter networks against the legislative and regulatory incentives in place.

The Structure of the National Charter School Study III Report

We report four sets of findings, summarized below. The first three are included in this volume, *Charter School Performance in 31 States (CSP31)*. The fourth is presented in Volume 2, *Charter Management Organizations 2023 (CMO23)*.

Aggregate Charter Student Academic Progress

The first set of findings focuses on student performance in all charter schools included in the study. Looking at year-to-year academic progress from 2015 to 2019, **tested students enrolled in all charter schools in the 31 states had reading and math gains that outpaced their peers in the TPS that charter school students otherwise would have attended.** We report these differences as marginal days of additional (or fewer) days of learning on a learning benchmark of 180 days each school year. In math, charter school students, on average, were found to advance their learning by an additional six days in a year. For reading, on average, their learning added 16 days of learning.

In the past, a common claim asserted that positive academic results in charter schools arise from advantages that their students bring to their schooling. In some cases the claim focused on students having more motivated parents. Another version suggests targeting behavior on the part of the school results in a student body that is better prepared academically, a practice commonly referred to as “cherry picking” or “cream skimming.” If true, the students in charter schools would show higher academic achievement at the point of enrollment. In multiple analyses, we do not see significant evidence of an undue advantage to charter schools. In fact, we find the opposite is true: charter schools enroll students who are disproportionately lower achieving than the students in their former TPS.

The current results are larger than what we reported in the second national study, which were larger than the first national study. The three studies taken together produce a solid positive trend over the 15 school years between 2004 and 2019. Notably, the upward trend was due to existing charter schools improving over time, not an influx of higher-performing new schools.

Academic Progress for Student Groups in Charter Schools

The second set of findings addresses how consistent the results are for all students. We again report these differences as marginal days of additional (or fewer) days of learning on a benchmark of 180 days of learning in a single school year. We found important differences in the amount of learning for different groupings of students enrolled in charter schools in our study.

Consistent with our earlier studies, we found significant variations in charter student learning when we examined results for students in different racial/ethnic groups. In math performance, Asian/Pacific Islander students in charter schools realized more than a year of academic progress in a school year. In contrast, Black, Hispanic, White and Native American students have academic gains that fall short of a year's progress in a year. In reading performance, Asian/Pacific Islander students made gains well above the benchmark 180 days of learning, while White and Hispanic students were closer to the benchmark of one year of growth in a year. Black and Native American students fell considerably short of the 180 days of learning mark.

Despite overall low growth, Black and Hispanic students in charter schools fared better when compared with the learning gains of their TPS peers. White, Native American and multiracial students had smaller learning gains than their TPS comparisons.

Charter school students in poverty and their TPS counterparts fell short of the learning of their non-poverty peers. Despite this, charter students in poverty had stronger growth, equal to 17 additional days of learning in math and 23 additional days of learning in reading, than their TPS peers in poverty. Likewise, English-language learner (ELL) students who attended charter schools also had stronger growth in math (eight days) and reading (six days) than their TPS peers but were still left considerably behind non-ELL students. Students receiving special education services had significantly weaker growth in both math and reading than their TPS peers. Specifically, they grew 14 fewer days in math and 13 fewer in reading.

Student Academic Progress in Different School Settings

As the conversation about public education focuses on schools as units of analysis, the third set of conclusions refers to the effects of charter school students' learning when different school characteristics are considered. Across the sample of 6,802 charter schools in math, 36 percent had overall learning gains that were statistically significantly larger than the local TPS alternatives. One quarter posted statistically significantly smaller results, and 39 percent had gains equivalent to their local peer schools. In reading, the results were stronger: 36 percent had statistically significantly larger learning results, 47 percent posted gains on par with their TPS peers, and 17 percent had statistically significantly smaller results. At both ends of performance, these results improve on earlier results from the last national study—a greater share of charter schools is stronger than the local option and a smaller percentage is worse.

The performance of charter schools in different types of communities continues in earlier patterns. As seen in earlier national studies, students in urban charter schools outpace their TPS peers and post larger gains than their charter school peers in suburban, town or rural settings.

The academic performance of students enrolled in virtual charter schools compares poorly to the 180-day learning standard in TPS and the performance of students enrolled in brick-and-mortar charter schools. Students in virtual schools had 124 fewer days of learning in math and 60 fewer days in reading against our 180-days of learning benchmark. By contrast, students in brick-and-mortar charter schools posted 21 additional days of learning in reading and 14 extra days in math.

The findings show important differences for charter schools when grouped by the state in which they operate. Ten states/regions had learning gains in reading and math that were statistically significantly larger than the TPS students: Colorado, Illinois, Massachusetts, Michigan, Missouri, New Jersey, New York City, Upstate New York, Rhode Island and Tennessee. Seven states posted better gains in reading: Arizona, California, Florida, Idaho, Minnesota, North Carolina and Texas. Only Oregon saw the reverse: charter school learning was statistically significantly smaller in both subjects. Ohio and South Carolina had negative and significant learning advances in math.

The Role of Charter Management Organizations in Student Academic Progress

We extensively investigated student progress according to the type of charter school they attended. When the results were grouped by independently operated charter schools (stand-alone charter schools, or SCS) versus those in Charter Management Organizations (CMOs or networks), students in schools run by CMOs had stronger results than their stand-alone student counterparts. While both sets of schools are stronger than their TPS peers, the CMO learning gains are substantially stronger and carry the overall results of the study despite having only a third of the schools.

We expanded our typical format for sharing results with this study. We moved all results into a web-based interactive data set at nccss3.stanford.edu. No individual student data or identifiable small group information is included in the graphics and other data visualizations. All the results from this study on the website mirror the document's findings.

1.2 Methods and Data

Methodology

Since the 2009 study, *Multiple Choice: Charter School Performance in 16 States*, CREDO has refined our matching and analysis techniques and expanded our data collection. This chapter provides a nontechnical overview of the data sources and analytic methods used in the current study. The chapter presents general descriptions of the data sources used in the recent study and explanations of how the study was organized and executed.

The Technical Appendix to this report and the Technical Appendix of the 2013 National Charter School Study II (Cremata et al., 2013) includes greater scientific detail on these topics. Table 1.1 represents the states included in each study and the years of data included in each study.

Table 1.1: States Participating in Each CREDO National Charter School Study (NCSS)

	NCSS I - 2009	NCSS II-2013	NCSS III-2023
First School Year of Data	2000-01	2006-07	2014-15

		Utah	Utah
			Washington
			Wisconsin

For this study, CREDO partnered with education departments in 31 jurisdictions to use their student and school level data. **The resulting data set included 81 percent of tested public school students in the United States, making it one of the largest data sets of student-level observations created to date.** We used this information to create a matched student data set with over 6,500,000 student-level observations from over 1,853,000 charter students and a matched comparison group.

Our partnerships with the 31 individual states depend on negotiated data-sharing agreements. One common requirement across all agreements is that the processing, analysis and security of the student-level data must meet the Federal Education Rights and Privacy Act (FERPA) requirements. This study complies with FERPA regulations as interpreted by each state providing data.

No single study can provide the definitive analysis on a topic as broad as the effectiveness of charter schools. A solid body of evidence emerges only by accumulating evidence from multiple studies. With this expansion and update to CREDO's earlier works, we add to the growing array of studies about charter schools and their impact on students' academic outcomes. In doing so, we strived to create a study that was both as rigorous and as balanced as possible.

Consolidating Student Data from Multiple States

This study is built on a methodology similar to the one used in the 2009 study. The only change to the method was to rematch the charter school students to a new set of TPS students each year.³ The data collected for this study consisted of student-level demographics, school enrollment and achievement test scores in reading/English language arts (ELA) and math. Since No Child Left Behind's implementation, reading and math tests have been given consistently across grades 3–8. However, testing could be more consistent across other grades.

Many states had early elementary or high school testing. High school testing often took the form of an end-of-course (EOC) exam, which was tied to course enrollment rather than a student's grade. These EOC tests differed by state in several ways that could impact growth estimates. These variations included the grade in which the EOC exam was given, the number of times a student is allowed to take the EOC exam, and the time gap between the EOC tested grade and the previously tested grade. All of these factors had to be considered when constructing our data set.

Growth is the change in each student's score from one school year to the next. For each two-year series of individual student achievement data, we calculated a measure of academic growth. We could compute complete growth data from the 2013–14 school year through the 2017–18 school year. Two states are missing one year of data. Nevada is missing growth data from 2016–17 to 2017–18. Tennessee is missing data for 2015–16. Thus, the first period of growth for Tennessee was measured from 2014–15 to 2016–17.

Additional details about creating the study data set for the 31 states in this study are available in the [Technical Appendix](#).

³ This change was implemented to meet the new standards of the What Works Clearinghouse at the National Center for Education Evaluation.

Selection of Comparison Observations

As in previous CREDO studies, this study employed the virtual control record (VCR) method of analysis developed by CREDO (Davis & Raymond, 2012). The VCR approach creates a “virtual twin” for each charter student who is represented in the data. In theory, this virtual twin would only differ from the charter student in that the charter student attended a charter school and the twin attended a TPS. The VCR matching protocol has been assessed against other possible study designs and judged to be reliable and valuable by peer reviewers (Egalite & Ackerman, 2015).⁴

Using the VCR approach, a “virtual twin” was constructed for each charter student by drawing on the available records of traditional public school (TPS) students with identical traits and aligned prior test scores who were enrolled in TPS that the charter students would have likely attended if they were not in their charter school.⁵

Factors included in the matching criteria were:

- > Grade level
- > Gender
- > Race/ethnicity
- > Free or reduced-price lunch eligibility
- > English-language learner status
- > Special education status
- > Prior test score on state achievement tests

Figure 1.1 shows the matching process used by CREDO to create the virtual twins linked to each charter school student. In the first step, CREDO identifies all TPS students who enrolled in a given charter school. These schools are referred to as “feeder schools” for that charter. Each charter school has a unique feeder school list for each year of data. Students attending a charter school that is also a feeder school are eliminated from the match pool for each charter student to ensure VCRs consist entirely of TPS students. The feeder school method provides a strong counterfactual as residential school assignment commonly used to place students in TPS has been shown to group demographically and socioeconomically similar students into schools. This practice increases the likelihood that students assigned to similar schools have similar backgrounds, knowledge of school choice programs and school choice options. Once a school is identified as a feeder school for a particular charter, all the students in that TPS become potential matches for students in the charter school. All of the student records from all of a charter’s feeder schools were pooled: this became the source of records for creating the virtual twin match.

⁴ Details of these assessments of the VCR method are presented in the Technical Appendix of the 2013 National Charter School Study, https://credo.stanford.edu/wp-content/uploads/2021/08/ncss2013_technical_appendix.pdf

⁵ The majority of VCRs included only test scores which were exact matches. Non-exact matches must be within 0.1 standard deviations to be included as part of a VCR.

Figure 1.1: CREDO Virtual Control Record (VCR) Methodology

The VCR matching method eliminates any of the remaining TPS students whose demographic characteristics do not match exactly and who did not have an identical or similar prior test score. As part of the match process, we also drop any students who enrolled in a charter school in subsequent years from the TPS match pool.

Using the records of TPS students at feeder schools in the year prior to the first year of growth, CREDO randomly selects up to seven TPS students with identical values on the matching variables in Figure 1.1, including aligned prior test scores. Students with similar test scores were used only when there were not enough TPS students with exact test score matches. The values for the selected TPS students are then averaged to create values for the virtual twin. As all other observable characteristics are identical, the only characteristic that differs between the charter student and their VCR is attendance in a charter school. Thus, we concluded that any differences in the post-test scores are primarily attributable to charter school attendance (Unlu et al., 2021). The matching process was conducted separately for reading and math. Table 1.2 below displays the proportion of charter students in each racial/ethnic group for whom CREDO was able to create a VCR.

Student Match Rates

CREDO's VCR matching method resulted in 81.2 percent of the charter students from participating states being matched with TPS students to create VCRs. This match rate provided a data set with 3,669,446 matched charter student-by-year records. The match rates vary by the race and ethnicity of the students; smaller race/ethnic groups had lower match rates.⁶ With CREDO's strict standards to create the VCRs, smaller race/ethnic groups have fewer identical students to match with the charter students. Table 1.2 provides the match rates for each race/ethnicity and shows each group's share of the data set. Racial/ethnic group match rates at the state level are listed in the Technical Appendix.

Table 1.2: Match Rates by Race/Ethnic Group

Race/Ethnic Group	Group Match Rate	Proportion of Student Body in each Race/Ethnic Group in Study
White	84.4%	32.6%
Black	81.4%	25.3%
Hispanic	83.3%	36.0%
Asian/Pacific Islander	64.0%	3.6%
Native American	38.0%	0.3%
Multiracial	58.1%	2.3%

Students in poverty - commonly measured by those eligible for free or reduced-price lunches—had a slightly stronger match rate (82.3 percent) than non-poverty students (79.7 percent). Match rates for ELL students (74.9 percent) were lower than those for non-ELL students (81.7 percent).

School Match Rates

The charter school data set contained 7,288 individual schools. Almost all charter schools (98.3 percent) had at least one school match. In seven states, all the schools had a matching school. The state with the lowest rate was Washington, at 86.7 percent.

Fair Analysis of Impacts on Student Academic Progress

Most researchers agree that the best method of measuring school effectiveness is to look at schools' impact on student academic growth, independent of other possible influences. The technical term for this is "value-added" (Betts & Tang, 2008). The central idea is that schools should be judged on their direct contribution to student academic progress. This necessarily considers the students' starting scores on standardized tests and student characteristics that might influence academic performance. This approach forms the foundation of our study design.

To conduct a fair analysis, this study followed the approach of the previous CREDO studies: we looked at the academic growth of individual students as reflected in their performance on state achievement tests in both reading and math. To ensure accurate estimates of charter school enrollment on student academic growth,

⁶ Due to the variable distribution of students by school type and subgroup across the country, some student subgroups have low match rate in some states. Low match rates require a degree of caution in interpreting the national pooled findings as they may not fairly represent the learning of the student groups involved.

we used statistical methods to neutralize the influence of student demographics and eligibility for categorical program support, such as free or reduced-price lunch eligibility and special education. In this way, we structured the analysis so that differences in academic growth between the two groups are a function of which schools they attended.

While we went to great efforts in each state to match the charter students and their virtual twins, it is important to recognize that states differ in the location of charter schools and the students they serve. These differences mean that charter students are not likely to be representative of the state's full complement of students. These differences are described in the Student Characteristics section. Our statistical models included controls for these differences between states to consider these differences when estimating the overall impact of charter school attendance.

Basic Analytic Models

The purpose of this study is to address multiple questions. All focused around one central question, "How did the academic growth of charter school students compare to similar students who attended traditional public schools (TPS)?" By answering this foundational question, we aim to extend the pool of knowledge on charter school effectiveness and provide reliable information for policy makers.

In CSP31, we analyze charter schools' effectiveness in the 31 states with which we have data partnerships. We also discuss the performance change for the states covered in the 2009 and 2013 reports. These cross-study comparisons are included by research topic when applicable.

How We Present the Results

We present the findings in units of days of learning to make the results clearer to non-technical readers. The statistical analysis produces results denominated in standard deviations—an unfamiliar currency to the general public. The days-of-learning metric takes the statistical findings of our analysis and transforms them. It uses a protocol that was developed prior to the study and then applied here.⁷ For each growth period, we identify the one-year learning growth of an exactly average TPS student in each state and grade and set that learning gain as "180 days of learning in 180 days of schooling." We then take our results, student by student, and compare their academic progress to the benchmark learning of 180 days. If a student in our study has more learning, we award him extra days of learning on top of the 180. If a student learns less than the benchmark, they are awarded negative days of learning which added to the 180 benchmark result in fewer days of learning.⁸

While transforming the statistical results into days of learning provides a more accessible measure, the days of learning are estimates and should be used as general guides (Hanushek & Rivkin, 2006). We provide the difference in growth in standard deviation units in the outputs of the statistical methods used for each analysis found in the Technical Appendix.

⁷ Using nationwide growth data from the National Assessment of Education Progress, the transformation involves multiplying the standard deviation units produced by our statistical analyses by 578 days. This yields 5.78 days of learning for every 0.01 standard deviation difference in our analysis. For those wanting to convert these larger counts into weeks or months: a school week consists of five days; a school month is 20 days and a quarter or nine-week term is typically 45 days.

⁸ The expression "additional days of learning" does not mean the students were necessarily in school for more days during the school year. It means that the additional learning that took place in charter schools during the school year was equivalent to attending school for x additional days in a TPS setting.

1.3 Descriptive Statistics

In this section of the report, we familiarize the reader with the attributes of the research data set and discuss student and school differences between charter schools and TPS. Table 1.3 describes and compares our data. We first provide information on the TPS sector as a whole. This sector represents all the TPS schools in the 31 states included in the analysis. We then look at the feeder schools. Feeders are the TPS schools that charter school students would have attended had they not enrolled in a charter school; they are a subset of the entire class of TPS. Because charter schools are not evenly scattered across all types of locations and communities, the feeder schools from which they draw their students have characteristics that are different from the class of all TPS schools (Monarrez et al., 2022).

Student Characteristics

There are also differences in the characteristics of enrolled students, even within the charter sector. The students who enroll in virtual charter schools tend to differ demographically from students enrolled in brick-and-mortar charter schools. It is important to understand how charter school students differ from the larger body of all TPS students when generalizing charter school outcomes to other student bodies with different demographics. The table below shows the student demographic characteristics for schools in the 31 states included in the study.

Table 1.3 Demographic Comparison of Students in TPS, Feeders, and Charter Schools (Brick-and-Mortar and Virtual) in 31 States, 2017–18

	All TPS	Feeders	All Charters	Brick-and-Mortar Charters	Virtual Charters
Number Schools	69,706	34,792	6,802	6,588	214
Average Enrollment	552	671	463	444	1,565
Total Enrollment	37,369,048	22,658,792	2,963,468	2,755,778	207,690
% In Poverty	51%	57%	55%	56%	44%
% ELL	11%	13%	10%	11%	2%
% SPED	13%	13%	11%	11%	14%
% White	47%	40%	32%	29%	63%
% Native American	1%	1%	1%	1%	1%
% Hispanic	30%	35%	34%	36%	15%
% Black	13%	16%	25%	26%	12%
% Asian/Pacific Islander	6%	5%	4%	4%	2%
% Multiracial	4%	4%	4%	4%	7%

Brick-and-mortar charter schools enroll a larger proportion of students living in poverty than the TPS schools in our 31-state study. Most states define a student being in poverty as a student eligible for free or reduced-price meal programs; however, some states use a state-specific metric to classify a student as

being in poverty. We treat these two methods as equally valid for these analyses. The percentage of students in poverty in charter schools is similar to those in poverty in the feeder schools that students would have attended if not enrolled in their charter schools. The percentage of charter school students in brick-and-mortar charter schools identified as English learners and students receiving special education services is comparable to that of the full set of TPS schools and feeder schools. The brick-and-mortar charter schools have twice the rate of Black student enrollment as the TPS schools and 10 percentage points higher than their feeder schools. The enrollment rate for Hispanic students in brick-and-mortar charters is similar to that in the set of feeder schools, yet lower than the overall rate for all TPS schools. These increased enrollment rates for Hispanic and Black students were offset by lower rates in brick-and-mortar charters for White students than in the feeder charters and the complete TPS set of schools.

When it comes to student profiles, virtual charter schools have different profiles from the other forms of charter schools, traditional public schools and brick-and-mortar charters. Virtual charters have a smaller percentage of students living in poverty, students identified as English learners, Hispanic students and Black students. On the other hand, they have a disproportionately high number of White students relative to the other groupings mentioned in Table 1.3.

Race/Ethnicity Composition of Matched Charter Students⁹

The data set was made up of matched charter students with at least two successive test scores who attended the public charter schools in the years under study in the included states. Therefore, the makeup of the student body for this study will differ slightly from the student body described in the overall charter landscape and the 31-state summary (see Table 1.3).

Table 1.4: Race/Ethnic Proportions for All versus Matched Students

Race/Ethnic Group	Proportion of Student Body in each Race/Ethnic Group — All Charters	Proportion of Student Body in each Race/Ethnic Group — Matched Student Data Set
White	32%	33%
Black	25%	25%
Hispanic	34%	36%
Asian/Pacific Islander	4%	4%
Native American	1%	0.3%
Multiracial	4%	2%

The largest race/ethnic group included in the study is Hispanic students, who comprise 36 percent of the matched data set. The next-largest groups are White students (32.6 percent) and Black students (25.3 percent). Asian and Pacific Islander students are 3.6 percent of the data set. Multiracial students, those of two or more races, are 2.3 percent of the students in the analyses, and Native American students make up the smallest portion, with only 0.3 percent of students identifying as Native American only.

⁹ Because the VCR matching protocol produces a single record (the average of up to seven TPS matched students), the demographic profiles of charter and VCR student-year records are identical.

Other Student Characteristics

For other student characteristics, 57.8 percent of students in the study are students in poverty—defined as eligible to receive free or reduced-price lunches or using their state’s specific economic metric to identify students in poverty.¹⁰ English-language learning students (ELL) made up 7.1 percent of the data set. Students receiving special education services made up 7.9 percent of the data set. Just over half (51.5 percent) of charter school students are female. The proportions of the matched student body are similar to the proportions of these special populations in the larger sample of all charter students in the 31 states.

Table 1.5: Special Population Proportions for All versus Matched Students

Special Population	Proportion of Student Body in each Special Population — All Charters	Proportion of Student Body in each Special Population — Matched Student Data Set
In Poverty	55%	58%
ELL	10%	7%
SPED	11%	8%

One in four students in the data set is a Hispanic student in poverty (26.2 percent), while 20 percent of students are Black students in poverty. Also, 6.2 percent of students in the data set are Hispanic ELL students.¹¹

While the national distribution fits the expected pattern, student achievement decile patterns vary greatly by state. For example, in 2017, Pennsylvania drew a larger percentage of its charter enrollment from the lower deciles, as do Michigan and Ohio. The opposite—higher achieving students enrolling in charter schools—is found in New York City, North Carolina and Arizona. In the figure below, there are 10 boxes in each state, with the lowest box being the first decile (lowest achievement) and the highest box representing the 10th decile (highest achievement).

Figure 1.2 shows the within-state decile of the average achievement level for all students enrolled in charter schools by state for math. There is a wide variance in the achievement levels of charter students in different states. While some states have average charter student achievement as high as the sixth decile, which means the average charter student has achievement above the average TPS student in the state, most are in the third and fourth deciles. The average achievement scores are due to a combination of new charter students’ entry-level achievement and the impact of attending charters for existing charter students.

¹⁰ CREDO acknowledges the declining usefulness of free and reduced-price lunch eligibility as an indicator of poverty. We have used a state-specific variable in states where a better metric is available. For the remaining states, free or reduced-price lunch eligibility was the best indicator available (Fazlul et al., 2023).

¹¹ Hispanic students in poverty and Hispanic ELL students are not mutually exclusive groups. A student could be in both.

To get a better understanding of the achievement of students entering charter schools, Figure 1.2 provides the percentage of charter students in each state with student math achievement in each decile. If charter schools drew their students from the same deciles as TPS, we would expect roughly 10 percent of students to come from each decile.¹² However, the patterns in Figure 1.2 show that is not typical. Some states draw a disproportionate share of their students from the lower deciles, creating a pyramid-shaped distribution. Other states invert the pyramid by pulling more high-achieving students into charter schools than the TPS. Much of the achievement distribution of charter school enrollees has to do with where charter schools are located. In states where charter schools are located primarily in urban locations, we would expect more lower decile students to enroll in charter schools. We could expect to see a more even distribution in states where charter schools are distributed more evenly throughout the state.

Figure 1.2: Average Achievement of All Charter Students by State, Math 2017¹³

¹² Decile by state percentages for charter school reading achievement are included in the Technical Appendix. The distributions support the insights gleaned from math achievement.

¹³ Results for Reading are available in the Technical Appendix

Figure 1.3: Average Academic Growth of Charter Students by State, Math 2017

Perceptions of Charter School Student Advantage

In the past, a common claim asserted that positive academic results in charter schools arise from advantages that their students bring to their schooling. The claim has taken one of two forms: a “push” on the part of parents or a “pull” on the part of charter schools. The “push” alternative posits that charter school students have parents that, by the act of enrolling their student in a charter school, reveal they value education more and/or are more motivated to pursue educational success for their children than other parents. As a result of parental investments of time and resource, their students are thought to be better prepared academically. The “pull” version suggests that charter schools signal or sift interested students to enroll more advantaged students, drawing them away from neighborhood schools. This practice commonly is referred to as “cherry picking” or “cream-skimming.”

Despite different mechanisms, both versions of “charter school students are advantaged” can be tested with the same analysis. If either or both claims are true, then entering charter school students would present stronger academic preparation than the students in the feeder TPS schools. With our analysis, we advance earlier work to examining achievement distribution for low-end and high-end differences in starting achievement (Kho et al., 2022; Zimmer et al., 2009).

We compare students who initially enrolled in a TPS and took at least one achievement test before transferring to a charter school to their peers who enroll in the TPS. We can observe the distribution of charter students’ test scores across deciles of achievement and do the same for students in the feeder TPS. Taking the difference in the two percentages for each decile illuminates how equal the distributions of student achievement are in the two school settings. We conduct the analysis by subject for each state, yielding 62 tests (i.e., 31 states and 2 subjects).

Table 1.6 presents the results. For example, in Michigan, the share of students entering charter schools from the bottom three deciles of achievement is 24.4 percentage points larger than the share the feeder schools enrolled. We consider two percentage points difference for any achievement decile as natural variation.

Table 1.6 presents reveals important results at both ends of the achievement continuum. In 17 states, charter schools enroll more students from the bottom three deciles of achievement than do their feeder schools. In many cases, the share is 10 to 20 percent larger than in feeder schools. For eight states, the differences fall in the 2-percentage margin of variation. In five states new charter school student enrollment in the lowest deciles is smaller by three to six percentage points.

At the upper end of the achievement range, in three states, the share of charter school enrollment from the top three deciles is three percent larger than their feeder schools. Six states have equivalent enrollment. In 21 states, charter schools enrolled smaller shares of top-decile students than their feeder schools, with smaller enrollments upwards of 17 percentage points.

To recap the analysis, across the 62 tests the claim charter schools are advantaged by the students they enroll was unfounded in 54. Where the distributions differed, the balance of evidence shows larger shares of students entering charter schools with achievement in the lowest deciles and smaller shares of students had prior achievement in the highest deciles than in the schools they left. In the handful of tests where the entering student distribution favors charter schools, the advantage is insubstantial. The evidence dispels claims that charter schools gain an unfair edge by enrolling “better” students.

Table 1.7: Percentage Differences between Entering Charter Students and Feeder School Students by Decile of Achievement ¹⁴

State	Achievement Group

School Characteristics

School Location

The majority of charter school students in the study attend charter schools located in an urban setting (53.6 percent), according to the locale designations of the National Center for Education Statistics (NCES). The study's second largest group of students is those attending a suburban charter school, at 29 percent. Rural charter school students (8.4 percent) and charter students in towns (3.1 percent) comprise the remainder of the brick-and-mortar charter school students. The remaining 5.9 percent of charter school students attend online charter schools.¹⁵

Figure 1.4: Percent of Charter School Student Enrollment by Location

The geographic settings where charter students attend school remain relatively stable between the 2013 and the 2023 studies. The one exception is the number of rural students dropping by half, from 16 percent of the matched sample to just eight percent. Between the two studies, CREDO added the virtual category to report separately for students who attend online charter schools. In the 2013 study, students attending online schools were categorized by the location of the online schools' headquarters. Any changes in locale reporting would impact only the comparisons between locale reporting when comparing outcomes between the 2013 and 2023 studies. The larger overall and state-level comparisons will not be impacted.

¹⁵ While online charter schools are assigned an NCES locale based on the locations of their offices, for this study we group students attending an online charter into a separate "online" locale regardless of where the school's offices are physically located.

School Level/ Grade Span

We also group students into school levels based on the NCES grade-span categories: elementary, middle, high, and multilevel schools. This gives us a picture of the distribution of charter school enrollment by school configuration. The majority of charter school students in our study (40.7 percent) are enrolled in K-6 elementary schools; 16.6 percent of charter school students in our study are enrolled in stand-alone middle schools (grades 6–8); and 5.6 percent are enrolled in charter high schools (grades 9–12). Multilevel schools serve a combination of grades outside traditional school grade groupings. For example, K-8 schools, 6–12 schools or schools that enroll students in K-12. Students in these schools make up 37.1 percent of charter school students in this study.

Figure 1.5: Percent of Charter Schools by Grade Level

Between the 2013 and 2023 studies, the only major changes we see in locales are an eight percentage point decrease in the proportion of charter students attending high schools and a seven percent increase in the proportion of charter schools classified as multilevel schools.

1.4 Analytic Findings

Academic Growth of Charter School Students

The typical charter school student in our national sample has statistically significant positive year-over-year growth in both math and reading compared to the TPS VCRs.¹⁶ The benefit of attending charter schools during the period of study amounts to additional days of learning equivalent to six days in math (0.011) and 16 days in reading (0.028).¹⁷

Figure 1.6: Annual Academic Growth of Charter School Students, Reading and Math

** Significant at $p \leq 0.01$

This is a step forward for charter school performance over CREDO's two previous national studies. In the 2009 national study, students attending charter schools had less growth in both math (17 days less) and reading (six days less) than their TPS VCRs. In the 2013 national study, the growth of charter students was not significantly different from their TPS VCRs in math but was significantly stronger in reading (six days more).

16 Throughout this report, numbers referred to as "significant" are statistically significant at least at the 0.05 level. In graphics, a single star (*) means statistically significant at the 0.05 level; double stars (**) means statistically significant at the 0.01 level. Differences that are not statistically significant are reported as being similar.

17 As described in the Methodology section of this report, when we transform our analytic growth results from standard deviation units to days of learning, a .01 standard deviation equates to 5.78 days of learning.

Figure 1.7: Annual Academic Growth of Charter School Students across Three National Studies

** Significant at $p \leq 0.01$

While these results are the national averages for charter school students, the results vary greatly from state to state and by student characteristics. Since many charter school policies are set at the state level, differences across states are partly a function of variation in charter schools' legal and regulatory environments. Below we examine the outcomes by different student subpopulations.

To explore the trend of improved performance, we examined the pooled national data to see if schools that are new to our sample (by being new or having tested grades for the first time) had different results than schools that were included in earlier national studies. This comparison provides a partial view of the source of overall improvement over time. The existing charter schools had stronger growth than their TPS peers in reading (+18 days) and math (+10 days). The new-to-the-study schools had stronger growth in math (+13 days) and identical growth in reading as their TPS peers. Based on these results, the larger part of the improved performance of charter schools since the 2013 study stems from the earlier cohort getting stronger. Interestingly, the new schools in this study had better performance than new schools in the second national study and outpaced overall growth for all charter schools in both prior studies.

Figure 1.8: Annual Academic Growth in Previously Studied Schools Compared to Current Schools

** Significant at $p \leq 0.01$

One mechanism by which the existing charter schools can get stronger over time is by the closure of poorer-performing charter schools. However, there are reasons other than academic performance that can lead to school closure. We examined the performance of the 207 charter schools that closed during our study window. The performance of these closed schools was similar in both subjects. Using reading to illustrate, the majority of these charter schools that closed (58 percent) were those with below-average achievement and weaker growth than their TPS comparisons. However, 30 percent of the schools that closed had stronger growth than their TPS comparisons, even if their achievement was below the state's average. Surprisingly, seven percent of the closed schools had stronger growth than their TPS comparisons and above-average achievement for their state.

RECAP: Academic Growth of Charter School Students by Type of School

To complement these aggregate analyses, CREDO expanded the analyses of charter school student academic growth by distinguishing the progress of students attending charter schools associated with charter management organizations (CMO) from those attending stand-alone charter schools (SCS).¹⁸ The complete set of findings is available in the second volume: [Charter Management Organizations 2023](#). Students attending CMO-affiliated charter schools have statistically significant positive learning gains in reading and math compared to their TPS peers with similar observable characteristics. Students attending SCS had stronger growth in reading and similar growth in math to their TPS peers. Figure 1.10 shows these differences to be equivalent to an additional 27 days of learning in reading and 23 days in math for students attending charter schools associated with a charter management organization over their comparison group. This is contrasted to 10 additional days in reading and similar growth in math for students attending SCS as compared to their VCRs.

Figure above originally appears as Figure 2.4 in CMO23.

¹⁸ The CMO study does not include Idaho, Maryland, and Ohio.

Charter School Student Academic Growth by State

Charter school students had weaker reading growth than their TPS peers only in Oregon. Significantly stronger growth by charter students was seen in 18 states. In the remaining 12 states, growth for students attending charter schools was similar to that of their TPS peers. The strongest gains were in the Northeast. Rhode Island (+90 days) and New York State (+75 days) charter students saw the largest gains. New York City (+42 days) students had strong gains, as did students from Massachusetts (+41 days).

Changes in Charter School Student Academic Growth by State

Having longitudinal data over multiple studies allows us to examine the performance of states relative to each other and each state's performance over time. This helps us understand the impact of state policies over time. Of the 25 states in the 2013 and 2023 studies, state charter school academic growth in reading increased in 2023 for 17 states and decreased for eight states.²⁰ The differences for New Jersey, Oregon, and Michigan were trivial.

In math, 15 states had stronger growth in 2023 than in 2013, and 10 had weaker growth. The differences for Ohio, Florida, and Rhode Island were negligible.

The largest decreases in both subjects occurred in Washington, D.C., and Louisiana. The largest increase for both subjects was in Nevada. Nevada had charter growth in 2023 that was not significantly different from the state's VCRs. Still, that modest performance was a vast improvement over the extremely negative performance of Nevada charter schools in 2013.

²⁰ Due to the mandated destruction of data files from prior studies, differences for each state between periods could not be tested for statistical significance.

Rhode Island stood out in particular for having high growth in both subjects for both studies, even though the state's change in scores from 2013 to 2023 was negligible. Other notable improvements were Missouri in math and New York state, New York City, and Texas in reading. Even though Texas had a smaller reading growth score in 2023 than several other states, its change in growth from 2013 was larger.

Figure 1.12: Average Reading Growth of Charter School Students by State, 2013 vs 2023

Figure 1.13: Average Math Growth of Charter School Students by State, 2013 vs 2023

Differences in Academic Growth by Charter School Student Characteristics

Differences by Race/Ethnicity

As seen in our earlier studies, the impacts of attending charter schools are not uniform for all students. When looking at student groupings, our analyses reveal varying overall status and growth for different subgroups. Therefore, it is important to examine the outcomes for students by this characteristic to gain a deeper understanding of the overall results at both the national and state levels. Students from different racial and ethnic groups can have opposite impacts from attending charter schools, which is obscured when looking at overall student outcomes. For example, in previous CREDO studies, White students attending charter schools generally have weaker growth than their peers attending TPS. Asian/Pacific Islander and Native American students tend to have growth similar to their peers. However, previous studies have shown that for Black and Hispanic students, attending a charter school often leads to significant academic growth.

We compared the academic growth across student race/ethnicity groups. Students were grouped into White, Black, Hispanic, Asian/Pacific Islander, Native American, and Multiracial students.

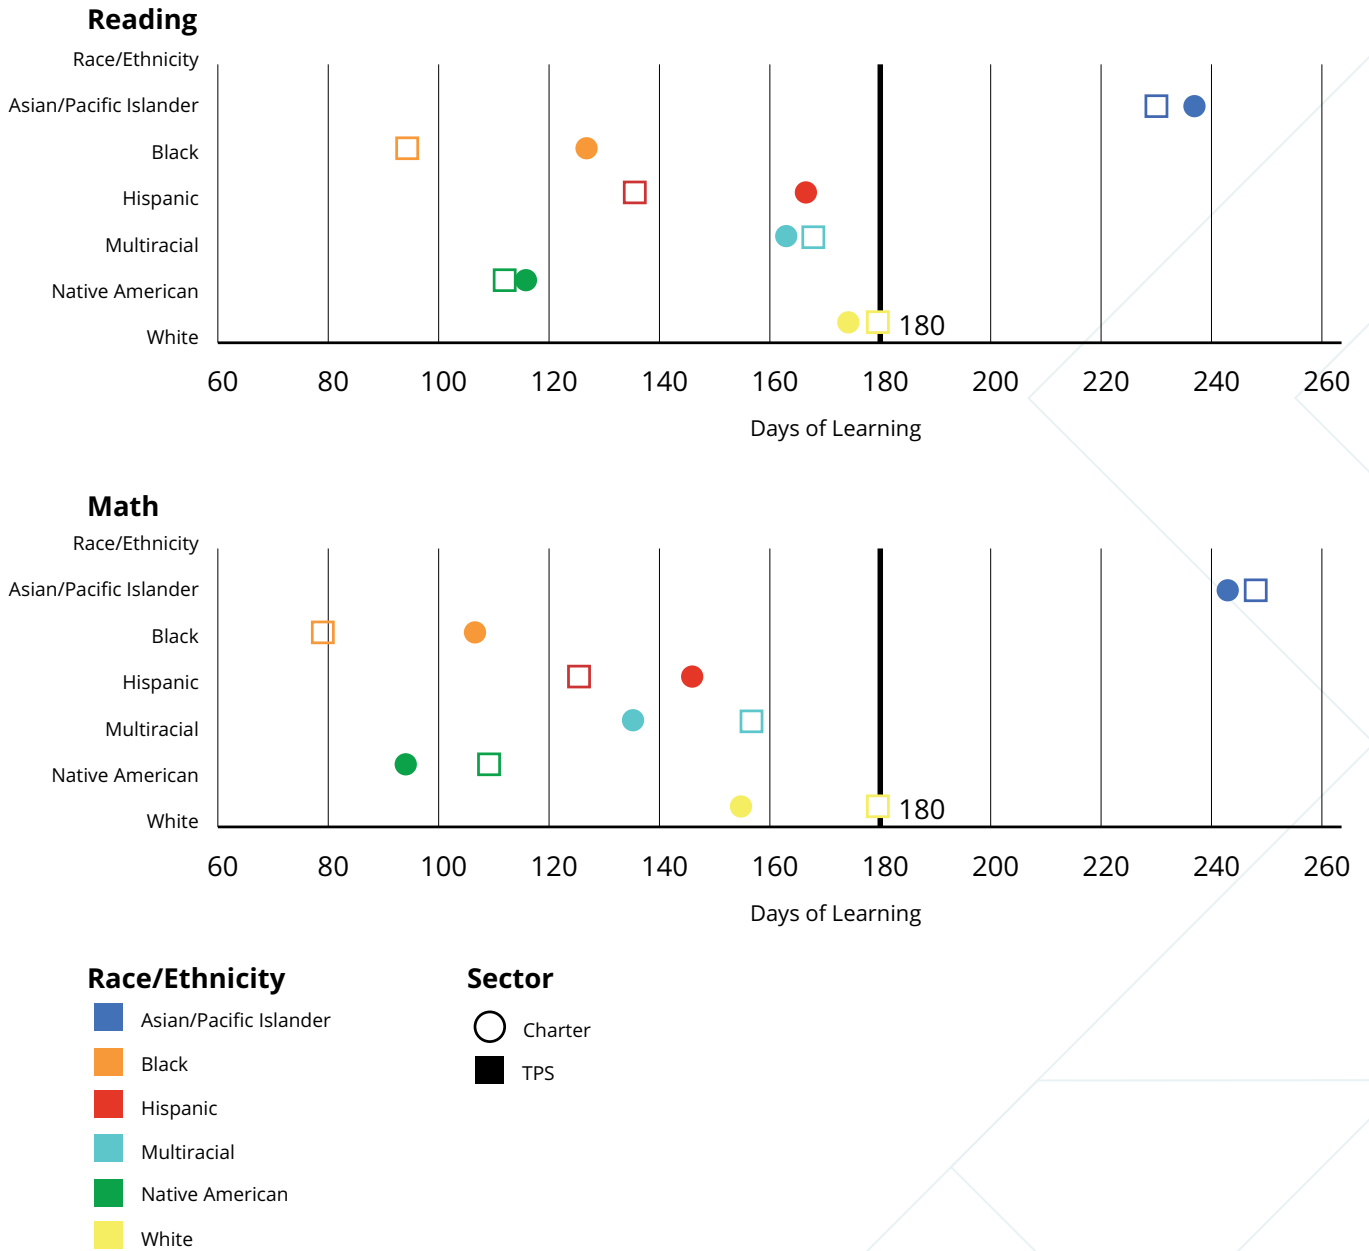

Compared to their TPS peers, Black students attending charter schools had 35 days more growth in a school year in reading and 29 days in math. This would be as if the students had attended an additional 1.5 months of schooling each year. The results were also positive and significant for Hispanic students. Relative to their TPS peers, Hispanic students grew an extra 30 days in reading and 19 additional days in math. Only two subpopulations of charter school students had weaker growth than their TPS peers in math. White and Multiracial students attending charter schools grew 24 fewer days per school year than their TPS peers. No racial/ethnic subpopulations had weaker growth than their TPS peers in reading.

However, because the TPS peer groups often have growth weaker than the average 180 days per year that anchors these analyses, even those subpopulations with positive growth may experience less than 180 days of growth per school year. The figure below shows the typical growth in math for each subpopulation of charter students and their TPS peers.

UNDERSTANDING SUBPOPULATION RESULTS

In these analyses, the growth of subpopulations in charter schools is compared to the growth of the same subpopulations in TPS. This means learning for Black charter school students is compared to their Black TPS peers. Both TPS and charter student results are studied against the 180-day baseline for White comparison students.

Figure 1.14: Days of Learning for Charter School and TPS Students by Race/Ethnicity, Reading and Math

Relative to the standard of 180 days of learning per year—the amount of growth that the average White TPS student in this study makes each year—Figure 1.15 delivers two essential findings. First, Black and Hispanic students in charter schools advance more than their TPS peers by large margins in math and reading. Multiracial, Native American, and White charter students show the reverse in math, lagging behind the growth of their TPS peers. Reading progress was equivalent for these subpopulations. Asian/Pacific Islander students in both sectors show similar growth.

The second conclusion is more sobering: neither in the typical charter schools nor in the comparison TPS are Black, Hispanic, or Native American students posting growth that is close to 180 days a year in either reading or math. Multiracial students fare better but still don't reach typical growth. White students in charter schools are on par in reading and lag in math. Only Asian/Pacific Islander students, a small fraction of the student population, post better growth than the average growth of White TPS students. The message is clear. The majority of students in both settings are not learning as much as they need to for their schooling to be on track. These growth gaps are the building blocks of learning inequality that result in the achievement gaps that plague the nation.

Beyond the picture of different results at the average for different groups of students, the insights available from the distribution of student experience are potentially transformative. There are thousands of minority and economically disadvantaged students whose progress outpaces or is on par with White students in their school. We note these gap-busting cases and present more detail in the school-level results below.

Academic Growth for Charter School Students in Special Populations

Many studies have shown persistent disparities between students at the upper and lower ends of the socioeconomic spectrum (Duncan & Murnane, 2016; Hanushek et al., 2019). In this study, charter school students in poverty had stronger growth equal to 17 additional days of learning in math and 23 days stronger growth in reading than their TPS peers. English-language learner students who attended charter schools also had stronger growth in math (eight days) and reading (six days) than their TPS peers. However, students receiving special education services had significantly weaker growth in both math and reading than their TPS peers. Specifically, they grew 13 fewer days in reading and 14 fewer in math. Compared to the 2013 National Charter School Study, these most recent results represent a slight increase in charter school effectiveness for students in poverty and a slight decrease in effectiveness for English-language learners and special education students.

Figure 1.15: Annual Academic Growth for Charter School Students in Special Populations

** Significant at $p \leq 0.01$ * Significant at $p \leq 0.05$

The findings for separate subgroups detail the growth we observe for all charter students in each group, all else being equal. Of course, that is not the case; within groups, we know that some students, in addition to being in a minority group, also experience poverty or are not native English speakers. Students with compound designations are likely to face more challenges in their education. CREDO studied three such groups: Black students in poverty, Hispanic students in poverty and Hispanic students who are also English-language learner students.

In the current study, we find that Black students in poverty had 37 days stronger growth in reading and 36 days stronger growth in math when compared to their TPS peers. The results were similar for Hispanic students in poverty: they grew 36 more days in reading and 30 more in math than their TPS peers. There were also significant benefits for Hispanic students who are English-language learners (ELL). Hispanic ELL students gained an additional 11 days in reading and an extra eight days of learning in math by attending charter schools instead of their local TPS option.

Figure 1.16: Annual Academic Growth for Charter School Students with Compound Designations

** Significant at $p \leq 0.01$

Student Annual Academic Growth by Charter School Grade Level

Another way CREDO has typically looked at charter school performance has been by examining charters grouped by the grades served by the school. Typically, there are four levels of schools. These are elementary (K-5), middle schools (6-8), high schools (9-12) and multilevel schools (a mix of grades that do not fall easily into one of the other categories, e.g., K-6, 6-12 or K-12).

The results show significantly positive growth in reading and math for charter schools serving elementary, middle or high school-age students. In contrast, results for multilevel charter schools were negative in math and similar to the TPS comparison groups in reading.

In reading, the results for charter schools were stronger. The average increase in growth for elementary charter school students was 24 additional days of learning. Middle school students saw 29 extra days and high school students saw 25 extra days on average. Students attending multilevel charter schools had growth similar to their TPS peers.

The average impact on math growth for charter school students was the same as attending 17 extra days for elementary students, 29 extra days for middle school students, and 31 additional days for high school students. Multilevel charter school students, on average, had 20 days less learning per school year.

Figure 1.17: Annual Academic Growth of Charter School Students by Grade Level

** Significant at $p \leq 0.01$

Examining grade level charter performance against earlier CREDO study results, shown in Table 1.7, we see a marked improvement in all grade levels in both subjects. Seeing growth in all grade spans helps us understand that trends in the national aggregate performance are not concentrated in particular grades.

Table 1.8: Charter School Student Academic Growth by Grade Level across Studies, Reading and Math

	Reading			Math		
	2009	2013	2023	2009	2013	2023

Middle	12**	23**	29**	12**	29**	29**
High	-29**	0	25**	-12**	0	31**
Multilevel	-46**	-12**	1	-23**	-40**	-20**

** Significant at $p \leq 0.01$

Annual Academic Growth of Online Charter School Students

While enrolling only six percent of the charter school student population, online schooling continues to grow over time (Lehrer-Small, 2022). CREDO and other partners conducted a study of online charter schools in 2015, finding significant underperformance in the online setting compared to brick-and-mortar charter schools. With time since the previous study and additional focus from a number of charter school authorizers, we reexamine the growth of students attending online or brick-and-mortar charter schools compared to their TPS peers.²¹

Brick-and-mortar charter school students had significantly stronger growth in reading (22 more days) and math (15 more days). Online charter school students had much weaker growth. Online charter school students grew 58 fewer days in reading and 124 fewer days in math than their TPS peers.

Stated another way, compared to 180 days of learning for their brick-and-mortar TPS peers, the learning for an average online charter student advanced only 122 days in reading; in math, the progress for online charter students was 56 days per year. While across the nation, six percent of charter school students attend a virtual charter school; in Ohio and South Carolina, this rate is as high as 14 percent.²²

It is important to note that examples of equivalent or better academic growth for students in virtual charter schools exist today, and their numbers have increased. These neutral and positive examples buck the preponderance of the evidence: of the 214 virtual charter schools in the study, 73 percent had weaker growth than their comparison group in reading, and 90 percent underperformed their comparison group in math.

Figure 1.18: Annual Academic Growth for Charter School Students by School Mode, Reading and Math

** Significant at $p \leq 0.01$

21 The comparison students for online charter students come from brick-and-mortar TPS. It is not possible to create comparison students from online TPS only.

22 Massachusetts, Maryland, New Jersey, New York, Rhode Island, and Tennessee do not allow online charter schools.

Academic Growth by Continuous Enrollment in Charter School

Students often have their weakest growth in their first year in a charter school (Cremata et al., 2013). This fits the known issues around school transitions and decreases in student performance. As seen in Figure 1.20, the subset of students who enroll in a charter school during our data window follow the pattern.²³ However, charter students overcome the initial dip associated with a school change, as shown below. By their fourth year in their charter school, students show 45 days stronger growth in reading than their TPS peers and 39 additional days of learning per year in math. However, it should be noted that the sample size of students attending a charter school for four years is small, limited by the number of tested grades available for study and the alignment of the study window with grade patterns in schools.

Figure 1.19: Annual Academic Growth for Charter School Students by Years of Enrollment

** Significant at $p \leq 0.01$

²³ This analysis included only those students seen entering charter schools from a TPS. Students already in charter schools in their first year of the data window were excluded.

Table 1.9: Charter School Student Academic Growth by Years of Charter Enrollment across Studies, Reading and Math

	Reading			Math		
	2009	2013	2023	2009	2013	2023
1 Year in Charter	-35**	-35**	-17**	-52**	-46**	-35**
2 Years in Charter	6**	17**	17**	0	12**	12**
3 Years in Charter	12**	35**	31**	17**	17**	27**
4 Years in Charter	n/a	41**	45**	n/a	35**	39**

** Significant at $p \leq 0.01$

As with measures of charter growth presented earlier, we see persistent improvement in the charter sector in reading and math. While students consistently take a large dip in their first year in charter schools, the size of the drop has decreased from the 2009 study to the 2023 study. We also see steady or improving performance for the charter sector in the 2023 study except for a slight drop in reading from 2013 for students in their third year attending a charter school. These results suggest improved onboarding of new students across the charter school community.

Charter School Student Academic Growth by Location of their School

In previous studies, CREDO and others have found that charter schools were most effective for students living in urban communities (Clark et al., 2015; Cremata et al., 2015; Cremata et al., 2013). This remains true in this latest study. Compared to their TPS peers, urban charter school students had an additional 29 days of growth per year in reading and 28 additional days in math, both of which were significant. Suburban charter school students also had stronger growth in reading (+14 days). However, rural students enrolled in charter schools tended to have 10 days less growth in math than their TPS peers.²⁴

²⁴ Analyses of charter performance by school location exclude those students attending virtual charter schools as the location of these students cannot be determined. The impact on students attending virtual schools was discussed in a previous section.

Figure 1.20: Charter School Student Academic Growth by School Location, Reading and Math

** Significant at $p \leq 0.01$

1.5 School-Level Impacts

School-Level Academic Growth

Analyzing school-level performance is another valuable way to assess the effectiveness of charter schools. Though the overall results of the charter school sector are largely positive in reading and math, it does not follow that every individual charter school performs better than the alternative. School performance is important for policy-related decisions such as funding or renewal. Thus, it is helpful to test if charter schools deliver academic progress that is greater, the same, or smaller than is seen for identical students in the feeder schools nearby.

In order to determine school-level charter performance, we compute each charter school's average impact on student learning over the two most recent growth periods (2017 and 2018). We compare the school average to the same measure of learning for their TPS VCRs.²⁵ The average gains of the TPS VCRs serve as a proxy comparison of what learning would have occurred for a charter schools' students had they instead enrolled in the local TPS options. The outcome of interest is the average contribution to student learning gains for each charter school per year. The measure is expressed relative to the gains the charter school students' TPS peers posted. Each charter school is assessed to see if it is performing significantly stronger, significantly weaker, or similar (not statistically significantly different) to its VCR comparison group.

²⁵ We chose to base the school-level analysis on the two most recent growth periods in this analysis for two reasons. First, we wanted to base the result on a contemporary picture of charter school performance. Second, the two-growth-period time frame made it possible to include the newest schools and still ensure that performance for all the schools included the same amount of data, thereby creating a fair test for all. The school-level analysis includes only those schools with at least 30 students to ensure a sufficient sample size for the statistical stability of estimates.

Charter schools with stronger growth comprised 36 percent of the study schools in reading. Forty-seven percent of charter schools had similar growth to their TPS peers. Charter schools with weaker average growth in reading than their TPS comparison groups comprised 17 percent of the study.

In math, 36 percent of charter schools had statistically significantly stronger growth for their students than the TPS peers. This is compared to 25 percent of charter schools with weaker math growth than their TPS comparisons and 39 percent with similar growth.

Figure 1.21: Academic Growth of Charter Schools Compared to Their Local TPS, Math and Reading

We can compare these distributions to earlier work. Both prior CREDO studies included local school-level comparisons for math. The 2013 National Charter School Study presented an analysis for reading, but not the 2009 report. A consistent pattern appears by examining the results of these analyses over time. Charter schools have improved performance over time at both ends of the range. Figure 1.22 shows a marked rise in the number of charter schools with better development and a decrease in those with weaker growth than their VCR set. This trend amplifies the average national charter school effect at the student level, suggesting that improvements are widespread and not due to concentrated impacts in a subset of schools.

Figure 1.22: Academic Growth of Charter Schools Compared to Their Local TPS across Studies, Reading and Math

School-Level Academic Growth by State

The prior multi-state comparisons can be repeated separately for each state. Since each state has its policies and practices that can impact how charter schools operate, these state-specific school-level comparisons give us a small view of these differing environments. The data reveals that some states have stronger charter markets than others. As seen in the figure, New York does not have any charter schools whose reading growth is significantly weaker than their VCRs.

READER NOTE:
On the [interactive website](#), the reading and math figures display the percentages for each category of performance.

Figure 1.23: Average Academic Growth in Charter Schools versus. Their Local TPS by State: Reading

Figure 1.24: Average Academic Growth in Charter Schools versus. Their Local TPS by State: Math

These results are encouraging, but they require a note of caution. Since the reference point in these comparisons is the growth that equivalent students in the local TPS realize, this comparison does not reveal if the difference is modest or large, nor does it indicate where the difference occurs in the range of absolute achievement. Positive differences at the lowest levels of achievement may not be sufficient to move students ahead fast enough to result ultimately in constructive long-term outcomes such as academic proficiency or post-secondary readiness. Similarly, a charter school may post growth results that are considered outsized for any school but still lag behind their community schools in achievement. Simultaneous consideration of student academic growth and achievement is the only way to get the complete picture of charter school performance.

1.6 Charter School Academic Growth and Achievement

Student academic growth measures how much students advance their learning in a year, and student achievement measures the stock of their knowledge at the end of the year. In this section, we integrate the findings about growth and achievement to show comprehensively the results that charter schools deliver for their students.

Both dimensions of student performance are needed to situate charter schools in their local community contexts and within the larger mission of academically preparing students with knowledge and skills for future success. Importantly, considering growth and achievement simultaneously also gives us a basis for making predictive statements about how charter schools will likely support their students in the future.

To ground this presentation, it is useful to consider four basic categories of school performance. This construct applies to all schools, CMO-affiliate charter schools, stand-alone charter schools, district schools and others.

We can classify any school based on whether and by how much its average academic progress in a year compares to the other options its students could select. Schools that do not advance student learning as much as the comparison are considered “low growth.” Those that exceed the local standard are deemed “high growth.” These differences can be mapped on a continuum from “very low growth” to “very high growth.” We use the growth of the local TPS alternative as the standard in this demonstration.

Looking at absolute achievement—the measure of what students know at the end of a school year—we use the achievement scores that students get on state performance tests as a measure of achievement and place schools along that distribution based on school-wide averages. Schools that mirror the state average are designated “50th percentile.”²⁶ Schools with an average performance at lower (or higher) points of the achievement range are situated below (above) the average—we use the 25th percentile and the 75th percentile as additional reference points.

If we map the growth and achievement dimensions together, four groups result:

- > **High Growth—High Achievement:** schools that exceed the growth of their local options and whose students are above the state average in overall achievement.
- > **High Growth—Low Achievement:** schools that exceed the growth of their local options but with overall student achievement below the state average.
- > **Low Growth—High Achievement:** schools whose students exceed the state average on achievement but do not advance as much yearly as their comparisons.
- > **Low Growth—Low Achievement:** schools with lower academic growth than their local alternatives and whose students’ achievement is lower than the state average at the end of a school year.

²⁶ The 50th percentile is the point value in a range of scores, in this case achievement for each state, that splits all the scores so that 50 percent are above and 50 percent are below the point.

Using the last two years of school performance, we mapped the charter schools in this study onto the structure described above. (For reliability, we only included schools with 30 tested students.) We subdivided each quadrant into four smaller groups, yielding 16 cells within the map. The results appear in Figure 1.25 for Reading and Figure 1.26 for Math.

NOTE TO READERS:

The thumbnail table below presents the total proportion of students in each major quadrant in Figure 1.25. These values appear on the [study website](#) as a layer of the chart—the user can see the quadrant totals and then drill down to see the inner-quadrant values.

11.4	31.7
26.3	30.9

Figure 1.25: Academic Growth and Achievement, Reading

Growth (in Days of Learning)	Low Growth, High Achievement		High Growth, High Achievement		
	-87	0	87		
	0.1%	1.5%	5.8%	2.8%	70th Percentile
	0.7%	9.1%	17.0%	6.1%	50th Percentile
	3.1%	12.3%	17.6%	6.4%	30th Percentile
	4.1%	6.8%	5.8%	1.1%	
	Low Growth, Low Achievement		High Growth, Low Achievement		

As shown in Figure 1.25, summing the percentages in the top quadrants yields 43 percent of schools with average student achievement above the state average. Currently, these students are better prepared for future learning than half the students in their respective states. However, their growth performance significantly influences their outlook for the future. Sixty-two percent of charter schools have stronger yearly growth than the local TPS and 38 percent have weaker growth.

Schools in the High Growth—High Achievement quadrant can expect to remain in that part of the map if their growth continues at their current pace. Roughly a third of charter schools appear in this quadrant. At current levels of performance, these schools will likely increase their students’ achievement levels over time. Of particular interest is the subset of High Growth—High Achievement schools that advance students of any academic background to high levels of achievement; their operations and practices could help inform improvements in lower-performing charter and traditional schools.

Schools in the Low Growth—High Achievement quadrant can expect to drift downward in the achievement ratings if they maintain their current pace of growth since other schools with higher growth rates will eventually surpass them. Since student achievement in these schools is above state averages, the impact of lower growth may not be as concerning as for students at lower levels of achievement. Roughly a tenth of charter schools display this pattern, many of which are close to average in both growth and achievement. Modest improvements in student learning each year could move those schools into the upper right quadrant.

The remaining charter schools, 57 percent, are situated in the lower two quadrants with achievement that falls below the state average. This is consistent with the earlier findings that charter schools enroll both a larger share of lower-decile students and a smaller share of high-decile achievers. Again, their position and prospects are distinguished by the amount of growth their students demonstrate.

The High Growth—Low Achievement quadrant displays the results for 31 percent of all charter schools. These schools serve students with current achievement that is weaker than the average in their states. These schools have demonstrated success with students of modest or challenged academic backgrounds. With higher than average growth each year, their students will elevate their achievement over time. In theory, given enough time, the students in the lower left quadrant would move up to the upper right quadrant.

The 26 percent of schools in the Low Growth—Low Achievement quadrant are of greatest concern. These schools serve academically challenged students and produce weaker growth than their TPS comparisons. Should the performance of these schools remain unchanged, their students will drift further behind over time, even if all the other schools on the map remain stable. Increases in growth are within reach for these schools, which seem possible for nearly 20 percent, which would migrate them to the lower right area. Especially concerning at the moment are outcomes for the students attending the four percent of schools in the cell with the lowest growth and achievement. This group represents charter schools in need of immediate attention.

Figure 1.26: Academic Growth and Achievement, Math

Growth (in Days of Learning)	Low Growth, High Achievement		High Growth, High Achievement		
	-87	0	87		
	0.2%	2.0%	4.9%	3.8%	70th Percentile
	1.0%	8.6%	12.0%	7.5%	50th Percentile
	4.9%	14.3%	13.8%	6.2%	30th Percentile
	7.1%	7.5%	5.3%	1.3%	
	Low Growth, Low Achievement		High Growth, Low Achievement		

The inferences for math are the same, albeit with different percentages. Above-average achievement exists in 40 percent of charter schools, while 60 percent have achievement lower than their state averages. Compared to their local TPS, 55 percent of charter schools had stronger growth, with 45 percent having weaker growth. The data provides additional evidence that charter schools tend to serve lower-performing students but grow them more than is typical. As with reading, the current and future story depends on the quadrant in which schools are located.

NOTE TO READERS:

The thumbnail table below presents the total proportion of students in each major quadrant in Figure 1.26. These values appear on the [study website](#) as a layer of the chart—the user can see the quadrant totals and then drill down to see the inner-quadrant values.

11.8	28.2
38.8	26.4

The High Growth—High Achievement quadrants contain 28 percent of charter schools, a slightly smaller share than appeared for reading. Maintaining the current pace of growth would result in these schools moving higher in the achievement range.

The High Growth—Low Achievement quadrant in the lower right reflects schools that deliver stronger growth to below-average achieving students. This group makes up 26 percent of all charter schools, a smaller share than in the same reading quadrant. Their students will move higher in the achievement range if these schools maintain or improve their growth.

Twelve percent of schools land in the **Low Growth—High Achievement** quadrant in the upper left, with high average achievement but below average growth. The share of charter schools in this quadrant is nearly identical for reading and math. The majority of schools in this quadrant could either move down into the lower achievement quadrant if they remain static or move to the High Growth—High Achievement area with improved growth.

The left-hand-side lower quadrant, representing **Low Growth—Low Achievement**, makes up 34 percent of charter schools. This is a significantly larger share of schools than in the analogous reading quadrant. The greatest worry is that 7 percent of schools are situated in the lowest performing cell. They offer the weakest growth to students with constantly low achievement levels.

1.7 Gap-Closing Charter Schools

Earlier in the findings, we reported that a significant share of charter schools deliver gap-busting growth for their students. We probed this finding further to see if these exceptional schools shared any common attributes. We found hundreds of schools that satisfy dual criteria: (1) the average achievement of the school exceeds the state average, and (2) their disadvantaged students (Black, Hispanic, in-poverty, ELL) have growth as strong or stronger than their non-disadvantaged peers in the same school.

In reading, seven percent of schools in the study sample (526 schools) met the dual criteria for Black students compared to their White peers. Comparing Hispanic students to White students, the percentage of charter schools meeting the dual criteria was 13 percent (912 schools).

Further, 19 percent of charter schools (1,393 schools) met the criteria for students in poverty, compared to their peers not in poverty. For ELL students compared to non-ELL students, 14 percent of charter schools (1,015 schools) met the dual criteria.

In math, Black students outpaced their White peers in six percent of charter schools (456 schools). Similar results for Hispanic students occurred in 10 percent of charter schools (731 schools). Comparing students in poverty to their peers not in poverty, 16 percent of schools (1,142 schools) met the criteria. For ELL students, 11 percent of schools (809 schools) met the criteria. These charter schools excel at addressing achievement gaps for their students.

Table 1.10: Charter Schools with No Learning Gaps and High Achievement

	Reading		Math	
	Number	Percentage	Number	Percentage
Blacks equal or outperform Whites	526	7.3	456	6.3
Hispanics equal or outperform Whites	912	12.6	731	10.2

CREDO, the Center for Research on Education Outcomes at Stanford University, aims to improve empirical evidence about education reform and student performance at the primary and secondary levels. CREDO at Stanford University supports education organizations and policy makers in using reliable research and program evaluation to assess the performance of education initiatives. CREDO's valuable insight helps educators and policy makers strengthen their focus on the results of innovative programs, curricula, policies and accountability practices.

Acknowledgments

CREDO gratefully acknowledges the support of the state education agencies that contributed their data to this partnership. Our data access partnerships form the foundation of CREDO's work, without which studies like this would be impossible. We strive daily to justify the confidence placed in us.

The research presented here uses confidential data from state departments of education. The views expressed herein do not necessarily represent the positions or policies of the organizations noted above. No official endorsement of any product, commodity, service or enterprise mentioned in this publication is intended or should be inferred. In addition:

- > This research result used data structured and maintained by the MERI-Michigan Education Data Center (MEDC). MEDC data is modified for analysis purposes using rules governed by MEDC and is not identical to data collected and maintained by the Michigan Department of Education (MDE) and/or Michigan's Center for Educational Performance and Information (CEPI). 2.1 Introduction

Minnesota’s legislature adopted the first charter school law in 1991, allowing for the creation of public schools governed and managed independently from local school boards. City Academy in St. Paul opened in 1992 as the first charter public school in the country, serving about 35 students in its first year of operation. In the 2021-22 school year, over 7,800 charter schools were in operation, serving over 3.7 million students. Forty-five states and the District of Columbia permit the operation of charter schools.

Although the majority of charter schools in the United States are single schools, many organize into formalized entities that pool common governance, operational, financial and programmatic resources. These arrangements, called Charter Management Organizations (CMOs) or “networks,” aim to increase operational efficiencies and encourage strong student academic outcomes. Aspire Public Schools created the first CMO in the country in the early 1990s for its growing network of schools in Northern California; in the 2020-21 school year, 432 CMOs operated a total of 2,045 CMO-affiliated schools and campuses, serving 955,730 students (White & Xu, 2022).

For the past two decades, the Center for Research on Education Outcomes (CREDO) at Stanford University has examined charter schools in general and CMOs as a distinct subset from a nonpartisan and policy-neutral position. The evolution of charter schools in the United States public school scene is worthy of study. There is broad interest in their contributions to improving outcomes for the students they serve and, by extension, to the broader public education group.

In this report, we classify charter schools into two categories.¹

Many definitions exist for Charter Management Organizations (CMO), so it is important to articulate the one used in this study. We define a CMO as an organization that is contracted to perform whole-school services to at least three separate charter schools. A governing board holds the charter for the school(s) and contracts with the CMO to provide a range of services to the school(s), including, for example, academic programming, operations and back-office services. The governing board is ultimately responsible for fiscal health, legal compliance and academic performance of the schools it oversees. Our designation of CMO applies to nonprofit or for-profit operators, which are sometimes known as Education Management Organizations (EMOs). For this study, we include both non-profit and for-profit organizations in our CMO count.

In this study, we define stand-alone charter schools (SCS) as any charter school that operates as one or, at most, two schools.

¹ CREDO’s 2017 CMO study categorizes charter schools into four types: 1. CMOs, 2. VOSs, 3. Hybrid, and 4. Independent charters (Woodworth et al., 2017). In the current study, we break down the charter into two categories. 1. CMOs and 2. Non-CMOs that combine VOSs, Hybrid, and Independent charters.

Funders and policy makers consider CMOs as an important lever in their aims to provide high-performing schools. Their assumptions rarely are put to the test. Even when they are, previous research measuring the impact of CMOs on students' academic outcomes produced mixed results. Some of the work has been anecdotal or small-scale, showing improved student outcomes associated with students enrolled in CMO schools (Angrist et al., 2012; Dobbie & Fryer, 2015; Raudenbush et al., 2011). More generally, the earlier literature shows CMO impacts on student outcomes to be small. Large variations in CMO quality across the group have appeared in several studies (Furgeson et al., 2012; Woodworth et al., 2017).

This report presents the results of our third study of CMOs. The first report from 2013, [Charter Growth and Replication](#), examined the performance patterns from the opening of schools through the period of replication and scaling. The second report, [Charter Management Organizations](#), released in 2017, analyzed the different contributions to academic progress by CMOs and SCS (though the nomenclature for this latter group has changed over time).

This report on CMO performance is part of a more extensive national study of charter schools prepared by CREDO. *As a Matter of Fact: The National Charter School Study III (NCSS3)* examines the impact of charter school enrollment on students' academic growth. Due to the large scope of the research, the report is sectioned into two volumes. The first, *Charter School Performance in 31 States 2023 (CSP31)* pools all charter students together to examine sector-wide impacts. This report, Volume 2, explores an important structural and operational attribute of charter schools; namely, whether students attend a school that is a stand-alone charter school (SCS, also called independent charter schools) or a member of a Charter Management Organization (CMO), also called networks in some cases. The nationwide impact of charter schools on student academic progress over time is, partly, a story of the rise in the number and sizes of CMOs. This report tells that story empirically.

This study uses anonymized student-level administrative data from 28 states.² We treat New York City and Washington, D.C., as separate jurisdictions to give us 28 "states" included in this study. The data window spans the school years from 2014-15 to 2018-19, which creates four growth periods. We address the critical questions on whether systematic differences in the impact on student learning exist between CMO-affiliated and SCS schools.

Our outcome of interest is the change in students' knowledge and skills from one year to the next. We use the terms "growth," "gains," and "learning" interchangeably in describing the incremental progress students make over a school year.

We probe the aggregate results to understand better how students fare in different charter school environments and, in turn, how well different charter schools can provide high-quality education to all their students. Since many students attending charter schools are people of color from educationally and economically disadvantaged backgrounds, understanding the impact of CMOs and SCS on vulnerable populations is important. Disparities in academic outcomes are well documented, for example, between those from high socioeconomic backgrounds and those from underserved communities (Duncan & Murnane, 2016; Hanushek et al., 2019). Here, we seek not only to quantify any differences between student groups but also to identify cases where all students benefit academically.

² Idaho, Maryland and Ohio are included in the companion study, CSP31, but not part of the CMO analysis due to restrictions in CREDO's data use agreements with each state.

The results provide the most current picture possible of the charter group in the nation.

Section 2 of this report describes methods and data, and Section 3 documents descriptive facts and trends about the charter groups. The main results from the impact analyses follow in Section 4. We present findings disaggregated by student and school characteristics. A market analysis provides evidence of effectiveness by organizational traits.

Because the National Charter School Study III findings and this deeper investigation of CMOs and SCS are intertwined, we prepared a consolidated Summary of Findings, Conclusions and Implications.

2.2 Methods and Data

Definition of Network Schools

Building upon the database created for CREDO's 2013 and 2017 reports, we identified 368 CMOs operating in the 28 states between the 2014–15 and 2018–19 school years. There is no national database of CMO networks. Thus, CREDO used a variety of data sources to identify the CMOs, including data from state educational agencies, charter school organizations and individual CMOs.

Measure of Academic Performance

For the key outcome variable, we use academic growth at the student level. Academic growth is defined as the change in learning from one testing period to the next. For readers to understand better the results of our analyses, academic growth is presented as marginal days of learning compared to a typical student who obtains 180 days of educational progress in a typical school year of 180 days. Students with above average growth are said to obtain additional days of learning in the same period and students with lower-than-average growth are said to have fewer than 180 days of learning.

Comparison Group and Analytic Model

To create a comparison group with similar demographic and academic profile characteristics to that of students enrolled in the charter schools, we use a combination of matching and statistical analyses to account for the systematic differences between students attending different types of schools.

In the first stage of the analysis, we employ the virtual control record (VCR) method, which is a matching strategy developed by CREDO (Davis & Raymond, 2012) to construct a comparison group including traditional public school students who exhibit similar socio-demographic and academic characteristics as the students who attend CMO-affiliated and non-CMO-affiliated charter schools. The VCR approach creates a “virtual twin” for each charter student by drawing on the available records of the TPS that the students in a given charter school would have likely attended if they were not in that charter school. We ensure that all dimensions of observable characteristics are statistically similar between the students enrolled in the CMO-affiliated charter schools and the comparison group from the TPS.³

In the second stage, based on the matched sample, we conduct statistical analyses to examine the effect of CMO-affiliated charter school attendance on the student's academic growth.

³ Due to the variable distribution of students by school type and subgroup across the country, some student subgroups have low match rate in some states. Low match rates require a degree of caution in interpreting the national pooled findings as they may not fairly represent the learning of the student groups involved.

Data

This study uses student-level administrative data from 29 states.⁴ We treat New York City and Washington, D.C., as separate jurisdictions that give us 31 “states” included in this study. The data window spans school years from 2014–15 to 2018–19, which creates four growth periods. Under FERPA-compliant data-sharing agreements, we use anonymized student-level administrative data; this study uses data from five school years, from 2014–15 to 2018–19.

Using test scores from Every Student Succeeds Act (ESSA)-mandated achievement tests administered each spring, we calculate the difference in a student’s scores.

Figure 2.1. Map of States Included in the 31-State and CMO Studies

⁴ Figure 2.1 shows the map of states included in the CSP31 and CMO analysis.

2.3 Descriptive Statistics of Students and Schools

Figure 2.2 shows the recent nationwide expansion of CMO-affiliated and stand-alone charter schools. CMO-affiliated charter schools increased from 2,381 schools in 2014–15 to 2,793 schools in 2018–19, a 17 percent increase over the five years. The growth among the stand-alone charter group was about 2.6 percent during the same period, but there were about two stand-alone charter schools for every CMO-affiliated charter school in 2014–15. The ratio decreased to about 1.8 in 2018–19.

Figure 2.2. Growth in Number of Schools by Charter School Type, 2014–15 to 2018–19

Source: NCES Core of Common Data, 2015–2019. CMO school list identified by authors.

A summary of school characteristics by CMO affiliation status is included in the analytic data presented in Table 2.1. Regardless of the group, many students enrolled in the charter schools are students of color, and Hispanic students make up the largest minority group in both groups. Most students enrolled in CMO-affiliated charter schools and stand-alone charter schools live in poverty, with 65 and 53 percent, respectively.⁵ Another substantial difference between the SCS and CMO-affiliated charters is the share of White students: CMO-affiliated charters have 21.6 percent White students. In comparison, the share in SCS is higher at 38.2 percent. The location differences may contribute to the demographic differences in the student bodies between the groups. Approximately 58 percent of CMO-affiliated charters are in urban areas, while 46 percent of SCS operate in urban settings. The percentage of virtual schools is similar between the groups at about five percent.

⁵ A student in poverty is eligible for free or reduced-price lunches under the National School Lunch Program, is certified as a recipient of public assistance support or meets state-defined criteria for poverty. Since our study design compares each charter school student to his exact-match VCR from nearby TPS, both students face the same criteria for poverty designations. The variation in definitions across states does not affect the results.

Table 2.1. School Characteristics by Charter Charter School Type, Matched Analytic Data

	SCS	CMO
Number of Schools	3,578	1,959
Number of Observations (student-level)	563,224	431,718
Student Demographic Characteristics		
Percent Students in Poverty	52.9%	64.5%
Percent ELL	7.6%	10.8%
Percent Students receiving Special Education	7.7%	6.9%
Percent White	38.2%	21.6%
Percent Black	21.2%	27.7%
Percent Hispanic	33.7%	44.8%
Percent Asian/Pacific Islander	3.9%	3.6%
Percent Native American	0.4%	0.2%

Middle	13.7%	21.2%
High	5.4%	7.0%
Multi-grade	38.8%	31.4%

Note: Values use data for the 2017–18 school year

2.4 Analytic Findings

This section presents the average impact of attending CMO or stand-alone charter schools on a student’s academic growth. Academic growth is denominated in the days of learning scale, based on an average student in a TPS who attends school for 180 days and gains 180 days of learning. In each analysis, we compare the growth of charter school students to the learning of their TPS peers, represented by a virtual control record as described in the Methods section. We conduct two statistical tests: one to test differences between charter learning and TPS learning and the second to examine differences in results between students in SCS and those in CMO-affiliated charter schools.

2.4.1. RECAP: Annual Academic Growth of Charter School Students in 31 States

As mentioned, this study parallels *Charter School Performance in 31 States 2023 (CSP31)*. The primary finding in CSP31 of positive annual academic gains for charter school students provides the departure point for this study. As shown in Figure 2.3, CSP31 reported that in a year's time, students attending charter schools make an additional 16 days of learning in reading and six days of learning in math, compared to their TPS comparison peers. Importantly, CSP31 shows steady increases in student academic growth over the years of the current study and over the 15 years of CREDO's charter school research. In this report, we probe the overall charter school results from CSP31 by structural and operational attributes of charter schools.

Figure 2.3. RECAP: Annual Academic Growth of Charter School Students, Reading and Math

Note: The figure above originally appears as Figure 1.7 in CSP31.

* Significant at the 0.05 level, ** Significant at the 0.01 level

2.4.2. Academic Growth by Charter School Type

The overall impact of attending SCS or CMO charter schools on students' annual academic growth in reading and math is shown in Figure 2.4. Compared to their TPS VCR peers, CMO-affiliated charter school students have statistically significant learning gains in reading and math. Students attending stand-alone charter schools had stronger growth in reading and similar growth in math compared to their TPS peers. The students attending CMO schools gain the equivalent of 27 additional days of reading learning and 23 additional days of math learning per 180-day school year. Students attending the stand-alone charter also make statistically significant gains in reading (+10 days), but the difference is not statistically different from their peers. In order to test the difference in the learning growth in math between the CMO and SCS, we

conduct a statistical test.⁶ For reading and math, the analysis indicates that students attending CMO-affiliated charter schools show stronger growth than students attending stand-alone charter schools in both subjects.

Figure 2.4. Annual Academic Growth of Charter School Students by Charter School Type, Reading and Math

* Significant at the 0.05 level, ** Significant at the 0.01 level

The results in Figure 2.4 reflect the average growth based on all tested students in all schools in all the study years for each type of charter school. It is important to note that around the average, there are wide variations in academic growth. This is evident in Figures 2.5 and 2.6, showing the school-level distribution of academic growth by their charter group affiliation. In each charter group, the academic growth ranges from negative 300 days to positive 300 days, suggesting the school quality varies greatly within each group. We use the variation across students, schools or types of charter schools in the rest of our analysis.

CMOs have multiple schools that, in theory, could have distinctly different results. Accordingly, we disaggregate the distributions from Figures 2.5 and 2.6 to create CMO-specific averages and ranges. The average academic growth for each CMO is of keen interest to leaders and policy makers; [Appendix A](#) presents these results.

⁶ We conducted a test to determine whether there is a statistical difference between the academic growth in the two groups.

Figure 2.5. Distribution of Academic Growth in SCS and CMO Schools - Reading

Figure 2.6. Distribution of Academic Growth in SCS and CMO Schools - Math

2.4.3. Academic Growth Trend by Charter School Type

Figures 2.7 and 2.8 show the academic growth by charter group estimated in CREDO’s series of CMO reports (Woodworth et al., 2017; Woodworth & Raymond, 2013). CMO-affiliated charter schools have seen a marked improvement in student academic growth in reading and math, adding approximately 10 additional days of learning in each study. In reading, students’ progress in stand-alone charter schools is positive in two of the three studies and equivalent to the learning of TPS peers in the third. For math, learning gains for students in stand-alone charter schools lagged that of their TPS VCR peers by seven days of learning in the 2013 study. Growth improved over time to show six days of additional learning in the 2017 study and has no significant difference from growth in TPS students in the current study. Examining the graphs also reveals a widening gap between SCS and CMO-affiliated charter schools in the magnitude of student academic growth for reading and mathematics.

Figure 2.7. Academic Growth Trend by Charter School Type, Reading

* Significant at the 0.05 level, ** Significant at the 0.01 level

Figure 2.8. Academic Growth Trend by Charter School Type, Math

* Significant at the 0.05 level, ** Significant at the 0.01 level

2.4.4. Academic Growth by Students' Years of Enrollment in Charter Schools

Figures 2.9 and 2.10 show changes in learning growth in reading and math with each additional year of enrollment in a group-specific charter school compared to TPS peers.⁷ The academic growth of a student shows an increase in growth the longer a student is enrolled in either CMO-affiliated charter or stand-alone charter schools. This relationship exists for both reading and math. Students enrolled in stand-alone charter schools display a comparable rate of improvement, but their growth is smaller than the students in CMO charter schools. Students in their first year of a CMO-affiliated charter school gain 23 days more of learning than those in the traditional public school system.

In comparison, students enrolled in stand-alone charters only make three additional days of progress. The number of additional days of learning grows as the students' years of enrollment in the school increase. In their fourth year, CMO students gain 40 additional days of learning, while stand-alone charter students gain 27 more than their TPS peers. The statistical tests indicate that the difference in the academic performance between the two charter groups is statistically significant in all years in the data window.

⁷ This analysis included only those students seen entering the charter schools from a TPS. Students already in charter schools in their first year of the data window were excluded.

Figure 2.9. Academic Growth by Students' Years of Enrollment by Charter School Type, Reading

* Significant at the 0.05 level, ** Significant at the 0.01 level

Figure 2.10. Academic Growth by Students' Years of Enrollment by Charter School Type, Math

* Significant at the 0.05 level, ** Significant at the 0.01 level

2.4.5. Academic Growth by Charter School Grade Span

Students enrolled in all grades K through 12 in CMO-affiliated charter schools show statistically significant positive academic growth compared to their TPS VCRs. Consistent with previous CREDO findings, students in CMO-affiliated middle schools exhibit the most sizable academic growth at 40 additional days of learning for reading and math. Figures 2.11 and 2.12 show adverse effects only for the students enrolled in multilevel stand-alone charter schools. The statistical test shows that the difference in the academic performance between the CMO and stand-alone schools is statistically significant for students in all grade bands except for high schools (grades 9–12). For high schools, the difference in the size of the academic growth between the CMO and stand-alone schools is minimal, especially for reading. The results show no meaningful differences between the two groups in terms of reading and math scores.

Figure 2.11. Academic Growth by Charter School Grade Span and Charter School Type, Reading

* Significant at the 0.05 level, ** Significant at the 0.01 level

Figure 2.12. Academic Growth by Charter School Grade Span and Charter School Type, Math

* Significant at the 0.05 level, ** Significant at the 0.01 level

2.4.6. Academic Growth by Charter School Locale

Figures 2.13 and 2.14 reflect the academic growth of charter school students by the physical locale of charter schools affiliated with CMOs and those that are stand-alone. Because virtual charter schools can enroll students from larger geographic areas than brick-and-mortar charter schools, they appear as a separate category in these analyses. As shown earlier, CMO charters are more likely to be in urban areas (58 percent, vs. 46 percent for SCS). The figures demonstrate that students in CMO-affiliated charters in urban areas experience 40 more days of reading instruction and 46 more days of math instruction compared to the TPS VCRs. While the difference in student learning is still noticeable in suburban CMO schools, the difference is less dramatic. Students attending urban stand-alone charter schools make 20 additional days of learning in reading and 12 additional days of learning in math. Urban and suburban stand-alone charters make up more than 80 percent of the total stand-alone charter groups, and students attending these stand-alone charters show growth on par with their TPS peers. When comparing the academic performance between the CMO-affiliated and stand-alone charters, statistical tests point to the fact that CMO-affiliated charters located in urban and suburban areas provide better results than stand-alone charters.

A troubling result is virtual schools' dramatically sizeable negative impact on academic growth. The students in the virtual CMO schools trail behind their TPS peers by 107 days in reading and 155 days in math. The results for stand-alone virtual charters is similar at 77 days less learning in reading and 142 days less learning in math than their TPS peers.⁸ This finding is consistent with previous CREDO studies that found substantially lower academic growth in virtual charter schools across the group (Woodworth et al., 2015, 2017).

⁸ The results for CMO and SCS mirror but do not precisely align with the findings in CSP31 because three states are omitted from the CMO/SCS analysis.

2.4.7. Average Academic Growth of Charter School Students by State

Table 2.2 shows the academic growth for students in CMOs and SCS in each state included in the study. Across the states in both charter school settings, statistically significant positive growth in reading was more prevalent than in math. CMO-affiliated charters showed statistically significant growth in 14 states in reading and 11 in math. For SCS, students in 15 states had significantly positive reading gains but significant math gains appeared only in seven states.

The state results also revealed a few cases where charter school students had statistically significantly smaller learning gains than their TPS peers: CMO-based learning lagged TPS in two states in reading and two states in math. SCS learning significantly lagged TPS comparisons in only one state in reading but was found in six states for math learning.

The remaining comparisons to TPS were statistically insignificant.

The bolded text in each column indicates the contrast between student academic growth in various types of charter schools in each state. If a particular group has larger growth with a statistically significant difference within the same state, it is highlighted.

2.4.8. Academic Growth of Charter School Student Groups

2.4.8.1. Academic Growth by Race/Ethnicity

Beyond the overall learning impacts of attending CMO schools or stand-alone charter schools, we are interested in knowing if all students share the gains. We first examine the gains for different race/ethnicity groups. This is one way to track if schools are fulfilling their role as builders of opportunity for every enrolled student.

As shown in Figures 2.15 and 2.16, the academic growth of students in CMOs and stand-alone charter schools can be arranged by student groups. For each type of charter school, we compare students to their TPS peers of the same race/ethnicity, whose performance is benchmarked on the zero line. (For instance, we assess the educational improvement of Black CMO and SCS students relative to their Black TPS peers, likewise Hispanic students in comparison to TPS Hispanic learners, etc.) The impact of attending different groups of charter schools is nearly null on reading and 23 days weaker in math for White students compared to their White peers in the TPS. On the other hand, Black and Hispanic students in charter schools display substantially

higher growth when compared to the TPS students of the same racial/ethnic group enrolled in TPS. For example, Black students enrolled in CMO-affiliated charter schools make an additional 41 days of learning in reading and 47 days in math relative to the Black students in TPS. For Black students attending a stand-alone charter, the impact is smaller with 25 additional days in reading and 17 days in math. The data shows that the differences between the types of charter schools of 16 days for reading and 30 days for math are statistically significant.

The story is quite similar for Hispanic students. Hispanic students attending either the CMO-affiliated or stand-alone charters perform substantially better than their peers in TPS. However, Hispanic students attending CMO-affiliated charter schools had 22⁹ days more reading gain than Hispanic students attending SCS. The difference in math for Hispanic students was even larger, with CMO-affiliated Hispanic students gaining 30 days more learning than those in stand-alone charter schools. Black and Hispanic students comprise many of the student bodies in schools in urban cities across the United States. The statistical analysis results indicate that the differences in academic performance between the CMO and stand-alone schools for Black and Hispanic students were statistically significant. These findings indicate that both stand-alone and CMO-affiliated charters, on average, may contribute to narrowing the racial achievement gaps, but CMO-affiliated charter schools give the stronger boost.

The effects on Asian/Pacific Islander students are not as strong as those on Black and Hispanic students. However, those enrolled in charters associated with CMOs increased their learning by 17 days in reading, while no statistically significant impact was found for math. Meanwhile, Asian/Pacific Islanders in stand-alone charters show similar growth to their TPS peers in reading but are lagging in math by 11 days. This difference between CMO charters and stand-alone charters is statistically significant, signifying that CMOs have a more positive impact on Asian/Pacific Islanders over stand-alone charters.

According to our analysis, the academic performance of Native American students does not improve when they attend charter schools. In addition, multiracial students enrolled in charter schools do not perform as well in reading as their counterparts in traditional public schools and have similar performance in math.

The estimates in this section align with the previous findings. CREDO's previous reports show that the impact of charter schools on academic growth was positively significant for Black and Hispanic students: the 2017 CMO study reported that Black students attending CMO-affiliated charter schools made, on average, 40 additional days of learning in reading and 29 additional days of learning in math compared to the Black students attending TPS. Similarly, Hispanic students attending CMO-affiliated charter schools made 34 additional days in reading and 29 additional days in math compared to the Hispanic students in TPS (Woodworth et al., 2017).

9 The 22 days of learning difference is derived by subtracting days of learning of SCS (16 days) from the days of learning of CMO (38 days).

2.4.8.2. Academic Growth by Poverty Status

Education is a critical factor in improving life outcomes for students in poverty. The role of charter schools in opening future options for students has been a strong interest of policy makers, funders and educators for much of the 30 years of charter school operations.

Our analysis indicates that students enrolled in CMO-affiliated charter schools show 35 days of additional learning in reading and 36 days in math compared to their VCR TPS peers who are also in poverty (Figures 2.17 and 2.18). Students in poverty attending stand-alone charter schools show positive learning gains in reading and similar gains in math compared to their VCR TPS peers. The academic gains of CMO-affiliated students are significantly larger than those attending stand-alone charters, yielding a 22-day difference in reading and a 32-day gap in mathematics.

For non-poverty students, the magnitude of the effect is significant but smaller in reading. Non-poverty students in CMOs had similar growth to their peers in math. Non-poverty students attending stand-alone charter schools had negative growth compared to their TPS peers. CMO students not in poverty made greater learning gains for both subjects than those students in stand-alone charter schools.

2.4.8.3. Academic Growth by ELL Status

Public schools commit to educating students whose first language is not English. This requires additional expertise and resources. The learning outcomes of English-language learner (ELL) students is a continuing interest in public education. In the context of this study, serving ELL students is also an area where a CMO’s scale of multiple schools potentially could provide advantages over independent charter schools.

CMO-affiliated charter school ELL students outperform their TPS ELL peers as well as the ELL peers in the stand-alone schools: ELL students enrolled in CMO-affiliated charter schools make 18 additional days of learning in reading and 24 additional days of learning in math relative to the ELL TPS peers (Figures 2.19 and 2.20). The academic growth is slightly larger in reading and similar in math for non-ELL students enrolled in the CMO-affiliated charter schools. For reading, they make 27 additional days of learning while exhibiting 23 additional days of learning in math. Stand-alone charter students trail behind CMO students in academic growth in all categories, and the differences are statistically significant.

2.4.8.4. Academic Growth by Special Education Status

One of the largest federal funding sources for K–12 education is IDEA¹⁰, which serves more than 7.5 million eligible children and students with disabilities. State spending policies allocate additional investment for students with disabilities eligible for specialized education services. It is important to understand how the learning of this vulnerable population fares in either type of charter school.

Approximately 11 percent of students attending charter schools receive special education services. As shown in Figures 2.21 and 2.22, when it comes to the academic growth of special education students, CMO special education students gain equivalent learning as their TPS counterparts in reading and math. In this case, a “no different” finding reflects an improvement over earlier periods. However, special education students attending stand-alone charter schools exhibit significantly smaller learning gains than their TPS peers, on the order of 18 fewer days of learning in reading and 23 fewer days in math.¹¹ The difference was even larger in math at 22 days. The relative differences between the CMO and stand-alone charter schools are statistically significant for special and non-special education students in reading and math.

¹⁰ See Individuals with Disabilities education Act (IDEA) at <https://sites.ed.gov/idea/>

¹¹ The difference between the learning of SPED students in CMO and SCS was 15 days. The 15 days of learning difference is derived by subtracting days of learning of SCS (-18 days) from the days of learning of CMO (-3 days).

Figure 2.22. Academic Growth by Special Education Status and Charter School Type, Math

* Significant at the 0.05 level, ** Significant at the 0.01 level

2.4.8.5. Academic Growth by Race/Ethnicity & Poverty Status

As shown in Table 2.1, students served by the CMO-affiliated charter schools are predominantly low-income minority students. In this section, we examine how student learning differs for student groups in different types of charter schools by race/ethnicity and poverty status. Compared separately for CMOs and stand-alone charter schools, we estimated the growth of each student group against its TPS peers. Although the learning gains of attending stand-alone charter schools are smaller than that of CMO-affiliated charter schools, Black and Hispanic students, regardless of the poverty status in both settings, make statistically significant positive academic growth compared to their TPS VCRs in both subjects.¹²

As shown in Figures 2.23 and 2.24, CMO-affiliated charters appear to show more positive impacts for Black students and Hispanic students in both subjects. In addition, the amount of growth is larger for the students in poverty than those not in poverty. For reading, Black students in poverty enrolled in CMO-affiliated charter schools make, on average, 42 additional days of learning compared to their TPS peers, while the Black students in poverty enrolled in stand-alone charter schools make 24 additional days of learning than their TPS peers. While the results demonstrate a positive and robust impact for Black and Hispanic students, it is notable that for white students in poverty underperform by 15 days in CMO and 13 days in SCS compared to the white students in poverty in TPS schools. This research implies that CMO-affiliated charters are more successful in the academic development of children from minority backgrounds and low-income households.

¹² With one exception for the Hispanic non-poverty group in math, where students attending stand-alone charters grow on par with TPS peers.

Figure 2.24. Academic Growth by Race/Ethnicity & Poverty Status and Charter School Type, Math

* Significant at the 0.05 level, ** Significant at the 0.01 level

2.4.8.6. Academic Growth by Hispanic & ELL Status

In recent years about 30 percent of Hispanic students identified as English-language learners (ELL), and Hispanic students make up three-quarters of total ELL students in the United States (De Brey et al., 2019). Given the high proportion of Hispanic students in charter schools and the significant share of ELL, we examine the impacts of different types of charter schools on the academic success of Hispanic students with and without ELL status.

We found a marked difference in the learning impacts for Hispanic ELL students across the two types of charter schools. Figures 2.25 and 2.26 show that CMO-affiliated charters promote higher academic growth for Hispanic students in both subjects, independent of their ELL status. Hispanic ELL students benefit if enrolled in CMO schools; they gain 20 extra days of learning in reading and 25 additional in math. This was not the case if students enrolled in SCS, where their learning was on par with their TPS peers. The magnitude of learning impacts was greater for non-ELL Hispanic students; they made an average of 42 days of learning in reading and 39 days in math more than the TPS peers. Non-ELL Hispanic students attending stand-alone charter schools saw an increase in reading and math learning of 19 and eight days, respectively, relative to those in traditional public schools. The gap between ELL students attending CMO and stand-alone charter schools was statistically significant.

2.4.9. Operational Analysis of CMOs

In this section of the report, we focus exclusively on CMOs with analyses targeted to their particular operating attributes. A critical interest about CMO networks is how well they maintain academic gains for their students as they grow. This question cuts both ways: Do CMO-affiliated new schools demonstrate equivalent learning gains as the rest of the CMO portfolio? In addition, does adding new schools affect the rest of the schools in the CMO? After presenting the full sample results, we focus on exceptional cases.

2.4.9.1. Does Charter Network Size Matter?

Network size reflects the number of schools for which a charter organization holds the charter and responsibility for operations and performance. We exclude any schools with operating contract arrangements with other educational institutions. The average number of schools managed by CMO networks is 6.96, ranging from three to 73 schools.

We examined the relationship between size and student learning with several measures and proxies for portfolio size. We found a weak correlation between portfolio size and student academic progress. At every increment of size (and similarly of age), we saw roughly the same shares of positive, negative and equal growth CMOs relative to their TPS counterparts, but since the larger portfolios enroll more students, the balance shifts slightly in favor of larger scale.

Earlier CREDO work pointed out that CMOs can only replicate schools at the quality level they already produce. That might explain how some larger CMOs have smaller gains than others. Authorizers need to explain fully how operators with low performance receive permission to expand.

2.4.9.2. Annual Academic Growth in New CMO Schools and Networks

Questions of scale and effectiveness accompany growth in the CMO community. Policy makers and funders have targeted CMO expansion to increase education options for families or shift the proportion of high-quality seats in high-needs areas. Authorizers have faced a degree of scrutiny in their treatment of CMO applications for new schools. The underlying assumption is that CMOs offer better odds of creating strong schools than alternative approaches. This study has a unique vantage point to examine that idea empirically.

2.4.9.2.1. Annual Academic Growth in New CMO Networks

One facet of CMO growth is the emergence of new networks. Recall that we define CMO networks as operating three or more schools. Eighty CMOS, roughly 20 percent of the CMO networks in the study, opened their third (or more) school during our study window. The increase in the number of CMOs allows us to see if newer CMOs “come out of the gates” with student academic learning that supports backing CMOs as strong education instruments.

We compare learning gains for students in newly emerged CMOs to those enrolled in previously existing CMOs. As demonstrated in Figure 2.27, new and existing CMOs had a significantly positive impact on student academic growth compared to their TPS counterparts. New CMOs contribute less to academic gains than older CMOs, but still aid in delivering improved education for their students.

Figure 2.27. Academic Growth in Persisting CMOs and New CMOs

* Significant at the 0.05 level, ** Significant at the 0.01 level

2.4.9.2.2. Annual Academic Growth in New Charter Schools versus Continuing Schools

Another way to examine growth among CMOs is to see how well they can replicate and grow new schools. Adding new schools to a CMO portfolio entails two different forms of risk. One is that the school will not fledge successfully, and students will not have strong academic results. The second risk is that launching new schools burdens the CMO and its existing schools to the point that its results suffer.

We regard CMO charter schools established after 2014–15 as new entrants. Sixteen percent of CMO-affiliated schools in our data are new, pointing to significant efforts to grow networks over the years of this study. Persisting schools are those in operation before 2014–15.

Figure 2.28 shows that new and persisting CMO schools have a positive and statistically significant influence on student academic growth on average compared to traditional public school peers.

The academic growth observed in persisting CMO schools was stronger in both subjects than in newer ones. The impacts were 29 additional days of learning for reading and 27 for math in persisting CMO schools versus new school learning of 21 more days in reading and 13 additional days in math. While the differences between persisting and new charter schools are statistically significant for both subjects, newer schools retain a considerable share of their CMO DNA even in their early years.

Figure 2.28. Academic Growth in Persisting CMO Schools vs. New CMO Schools

* Significant at the 0.05 level, ** Significant at the 0.01 level

2.4.9.2.3. *New Charter Schools versus Persisting Schools in the Same Network*

Pushing the inquiry about new CMO schools further, we probe the relationship between old and new schools within individual CMOs to discern if CMOs are launching schools of equivalent quality. We took the 383 new schools we examined earlier and related their performance to the other schools in the same portfolio. The relative performance of the new school appears in Table 2.3.

Table 2.3. Student Growth in New Schools Compared to Persisting Schools in Same CMO Network

	Percentages of CMOs (with new schools)	
Compared to CMO portfolio, student learning in new school is:	Reading	Math
Better by 13 days or more	32 %	31 %
About the same (+/- 12 days)	23 %	13 %
Smaller by 13 days or more	45 %	56 %
Total	100 %	100 %

Almost a third of CMOs start schools that are noticeably stronger than the average of their existing schools. Using an arbitrary cut of plus-or-minus 12 days of student learning in the rest of the CMOs schools, 23 percent of CMOs replicate the new school at about the same performance in reading and 13 percent do so in math. The share of CMOs that started new schools with notably weaker student learning (by a shortfall of 13 days or more) was 45 percent in reading and 56 percent in math. That about half of new CMO schools dilute the overall performance of their portfolio with weaker student gains suggests an area for future attention by replicating CMOs.

2.4.9.3. *Annual Academic Growth of CMOs Operating in Multiple States*

A third facet of CMO growth concerns the geographic concentration of networks. The number of CMOs that extend their school networks across state lines has grown since our last study. Managing a CMO portfolio across states might provide diversification of policy and fiscal risks for the better long-term sustainability of the network. On the other hand, dispersed schools might present leadership, operations and reporting challenges that highly localized networks don't need to face. Committing resources to buffer these effects might play out in the student learning experience.

Our test examines whether there are differences between CMOs operating in multiple states and those confining operations to a single state. Our definition of the CMO network used in this analysis is region specific. Some large national CMOs include multiple regional networks that operate in a single state. For example, KIPP New Orleans or KIPP New York City is included in our work as a separate entity that operates in a single state.

Figure 2.29 suggests that students learning in CMOs operating in multiple states have weaker growth than students in single-state CMOs. Single-state CMOs support additional learning of 30 extra days in reading and 29 more days in math. This compares to 19 days of additional reading in multistate CMOs and on-par learning in math. The differences between the two groups of CMOs are large and statistically significant. Assuming that new school start-up is a challenge wherever it occurs, the findings suggest that more tightly clustered CMOs have a better time of it.

Figure 2.29. Annual Academic Growth in CMOs Operating in Single or Multiple States

* Significant at the 0.05 level, ** Significant at the 0.01 level

2.4.9.4. Special Analysis: CMO Growth Accelerator Case Study—Charter School Growth Fund

Expanding the number of high-quality schools and seats in the United States has been a target of considerable interest. One strategy is to foster the growth of successful CMOs. Several CMO growth accelerators operate nationwide, ranging from supporters of single CMOs or networks to public and private programs that support dozens of CMOs. Our broader study of the effectiveness of CMOs provided the opportunity to conduct a case study of one such entity, the Charter School Growth Fund (CSGF). CSGF shared its list of 72 funded CMOs for this analysis.¹³

CSGF is a nonprofit organization that makes multiyear investments in charter school networks to grow into multi-school networks. The CSGF is known for selecting high-quality charter schools to receive expansion funds. A related expectation is that the entire portfolio will grow its impact on students. We can test whether student academic performance improves after a CMO receives support from CSGF.

Approximately eight percent of charter schools in this study belong to CSGF-affiliated CMOs. We examined the impact of the Charter School Growth Fund affiliation of CMOs on student academic growth. The estimates of the impact of CSGF appear in Figure 2.30.

¹³ It bears noting that the Charter School Growth Fund has other strands of work that focus on leaders and organizations at earlier points in their history. This analysis does not assess the results of those endeavors.

CMOs have student progress that outpaces the peers' learning in TPS independent of CSGF designation. This is consistent with CREDO's 2013 and 2017 CMO studies. That said, the strength of CSGF student results cannot be ignored. The advantage of attending CSGF-affiliated schools is quite large for reading (an additional 61 days) and math (an additional 69 days) compared to their TPS peers. It suggests that schools funded by CSGF provide very large academic benefits to student quality. The benefit is also outsized compared to the CMOs that never received funding, despite the non-CSGF CMO schools showing meaningful positive impact in reading (a margin of 18 days) and math (12 more days). There is a statistically significant difference in academic gains between the two groups of CMOs.

Figure 2.30. Student Academic Growth in CMO Schools by Charter School Growth Fund Support, Reading and Math

* Significant at the 0.05 level, ** Significant at the 0.01 level

Accelerator programs of all types receive the scrutiny of their results. Curiosity revolves around the relative weights of selecting already high-performing organizations and the lift the program provides from that point forward. Our data can test the relative contributions of these elements.

To address the question, we restrict our analysis to 29 CMOs that received support from CSGF for the first time between 2015–16 and 2017–18. We estimate the average academic growth before and after CSGF affiliation. As shown in Figure 2.31, students attending CSGF-supported schools exhibit much larger academic growth prior to affiliation than students in CMOs that never received funding. In both subjects, CSGF-selected CMOs have student learning 75 days greater than their TPS peers in reading and 76 in math. The striking difference illustrates the CSGF's focus on choosing strong CMOs for investment.

A corollary question is whether the CMOs affiliated with CSGF maintain their high performance levels after selection. The final columns of Figure 2.31 display their post-selection student learning, which covers up to three additional years of operation, depending on when the CSGF selected the CMO in our study window. Three new schools started by the newly funded CMOs are included. After receiving CSGF support, student learning remained significantly stronger than TPS, with 57 additional days of learning in reading and 80 extra days in math. The differences between pre- and post-CSGF support are not statistically significant, showing that the CMOs remain strong but do not quickly improve student learning.

Figure 2.31. Student Academic Growth in CMO Schools, Before and After Charter School Growth Fund Support, Reading and Math

Since the major purpose of CMO growth accelerators is to launch new schools, the most important question is how effective the new schools are. During our years of study, 43 CSGF-affiliated CMOs opened 96 new schools. We compare the newly opened schools' performance to the existing schools in all the CMOs that CSGF has supported. Figure 2.32 shows the comparison. Students enrolled in the new schools in the CSGF sphere produced large gains in reading (37 additional days of learning) and math (55 extra days) compared to their TPS peers. These new starts were dramatically stronger than the performance of the complete set of new schools (13 additional days in reading and one more day in math) reported in the NCSS3. These results, however, were significantly lower than the gains students in the continuing CMO schools had, which were 62 additional days of learning in reading and 69 additional days in math compared to their TPS peers.

Figure 2.32. Student Academic Growth in New CMO Schools, Before and After Charter School Growth Fund Support, Reading and Math

2.4.9.5. Special Analysis: CMOs and Turnaround Schools

Turnaround schools are schools that intentionally change leadership and governance in an effort to improve their effectiveness. Since 2007, billions of dollars from the federal government were funneled through Race to the Top and School Improvement Grant (SIG) programs to divert the learning trajectory of chronically low-performing schools (Corbett, 2015; Legislation, Regulations, and Guidance—School Improvement Fund, 2010). The turnaround typically takes the form of restarting the schools with a new management system (Zimmer et al., 2017). We examine the impact on student learning from a handoff of school operations in a low-performing school (either charter school or TPS) to an existing multi-school charter operator.

Two questions frame this special analysis. Where turnaround schools became part of CMOs, what is the subsequent evidence on students’ academic growth? Additionally, what effect, if any, did the CMO’s choice to accept a turnaround school have on the other schools in the CMO portfolio?

We are grateful to Public Impact for sharing its extensive data repository on turnaround schools across the country. From its list, we identified 12 underperforming schools with tested students who migrated to CMOs between the 2015–16 and 2017–18 school years.¹⁴ Many others occurred prior to our data window, so their transition is not visible with our available data. With the small set of schools with timely turnarounds, we measure student performance before and after the school is moved to management by a CMO.

¹⁴ Two of the 12 schools became the third school operated by their new organization, meeting the minimum criteria for CMO inclusion in this study of three schools.

Figures 2.33 and 2.34 compare turnaround schools' pre- and post turn-around student academic growth. Growth is measured at two points: the academic growth period before CMO takeover and the subsequent period. Before the transfer, students in turnaround schools had 21 fewer days of growth in reading and 35 fewer days in math than their TPS peers. The small number of cases helps to explain why these results were not statistically different from the experience of TPS students. After joining their respective CMOs, average student performance improved compared to their TPS peers: students enrolled after the turn-around were observed to have 21 more days of learning in reading and 38 more days in math. The fact that learning was on par with TPS—i.e., that the difference was not statistically significant—can be viewed as a positive. Even if the learning only rose to equal TPS progress, movement occurred in the right direction.

However, these comparisons at each point only tell part of the story. The change in growth for the turnaround schools over time was statistically significant: student learning increased by 42 days for reading and 73 days for math.¹⁵ These changes appear for “all students” in Figures 2.33 and 2.34.

To thoroughly test the strength of improvement, however, we need to consider whether the observed positive academic growth stems from churn in student enrollment after the transfer. Some families may not have supported the newly reconstituted school and moved to other public schools. Some may have read the transfer as a signal of serious failure and left the system entirely. Alternatively, the CMO might have had a waitlist of students wanting to enroll who joined the school after the turn-around. Any of these factors could elevate the post-turnaround results.

As a robustness check, we redo the analysis, only including the students enrolled in the same turnaround school before and after the transfer. These are the students most in need of turnaround efforts. In Figures 2.33 and 2.34, we contrast the academic growth of the continuously enrolled students to the full set of enrolled students in the turnaround before and after the transfer. For students who remained enrolled (that is, continuously enrolled) before and after the transition, we can see 42 days of learning gains in reading between the two periods of transition and 113 days of learning gains in math. The growth we observe for “all students” in the pre-and post-turnaround periods occurs for different sets of students. In the “pre” period, the value includes students who left the school before the CMO took over; the “post” period value includes students who were newly enrolled in the school.

The question of the spillover impact of adding a turnaround school to a CMO's portfolio is more straightforward. Looking only at the CMO schools that existed before the transfer, Figure 2.35 shows that compared to their TPS peers, the academic growth for students prior to the addition of the turnaround school is positive and statistically significant at 39 additional days of learning in reading and 28 more days in math. After the turnaround school joined the CMO, academic growth in the pre-existing portfolio declined by 12 days of learning in reading but remains positive and statistically significant at 27 more days of learning compared to their TPS peers. In math, student academic learning increases by three days to 31 days of learning. Between the two periods, neither the change in reading gains nor the change in math gains is statistically significant. These results indicate that adopting turnaround schools is not injurious to the performance of the rest of the CMO portfolio.

¹⁵ The pre-, post-turn difference was statistically significant at the 5 percent level in reading and the 10 percent level in math.

2.4.9.6. Comparison of Average Academic Growth of Charter Schools and Their Local TPS

In this section, we examine school-level performance to assess the effectiveness of schools by charter group. The evidence presented in the prior sections showing a positive impact on student academic performance displays the average growth, which is the correct way to gauge the impact of each type of school.

However, this does not mean that all CMO-affiliated or stand-alone charter schools perform better than their TPS counterparts. For each type of charter school, we identify the proportion of schools that perform better, the same and worse than their TPS comparison group. The approach mirrors prior studies and the companion CSP31. However, the reader should be aware that the values for CMO schools and SCS will not necessarily sum to the totals in the CSP31 report due to the exclusion of several states from this CMO analysis.

Figure 2.36 presents the comparisons for reading. The analysis shows that 42 percent of CMO-affiliated charter schools have statistically significantly greater reading gains than their TPS peers. In comparison, 15 percent have statistically significantly smaller academic growth than their TPS peers. Forty-three percent of the remaining schools advance their students in reading similarly to their TPS counterparts. When considering the relative performance of stand-alone charter schools, the results in Figure 2.36 show that 32 percent of these schools have statistically significantly greater gains in reading than their TPS alternatives. We find that 18 percent of stand-alone charter schools have reading gains that are statistically significantly smaller than their local TPS. The remaining 50 percent of stand-alone charter schools have no difference in

reading gains compared to local TPS. The graphs make clear that for reading, the CMO advantage compared to stand-alone charter schools applies top to bottom: larger shares of CMO schools are stronger performing than their local TPS and smaller shares are on par or posting smaller gains.

Figure 2.36. School Comparisons of Charter School vs. Local TPS Average Academic Growth by Charter School Type, Reading

In terms of math results, the difference between CMO schools and independent charter schools is much more notable. As Figure 2.37 displays, 44 percent of CMO schools have statistically significantly larger academic gains in math, 22 percent have statistically significantly smaller learning gains and 34 percent are not markedly different from the TPS alternatives.

The results for stand-alone charter schools in math run parallel to their reading results. Figure 2.37 shows that 31 percent of stand-alone charter schools have statistically better gains than TPS. The proportion with statistically significantly smaller math gains than TPS is 27 percent in math. Of the rest of the stand-alone charter schools, 42 percent demonstrate equivalent academic gains as their local TPS.

Figure 2.37. School Comparisons of Charter School vs. Local TPS Average Academic Growth by Charter School Type, Math

One final note about these results: For CMO schools and stand-alone alike, the share of schools with stronger learning impacts is larger, and the share of schools with less academic progress is smaller than seen before in any of CREDO's studies. In both spheres of charter schools, the record of performance is improved.

These results are encouraging but require a note of caution in interpretation. Since the reference point in these comparisons is the growth that equivalent students in the local TPS realize, this comparison does not reveal where in the range of absolute achievement the difference occurs. Positive differences at the lowest levels of achievement may not be sufficient to move students ahead fast enough to result ultimately in constructive long-term outcomes such as academic proficiency or post-secondary readiness. Similarly, a charter school may post growth results that are considered outsized for any school but still lag their community schools in achievement. Simultaneous consideration of student academic growth and achievement is the only way to get the full picture of charter school performance.

2.4.9.7. The Relationship of Academic Growth and Achievement

Student academic growth measures how much students advance their learning in a year, and student achievement measures the stock of their knowledge at the end of the year. In this section, we integrate the findings about growth and achievement to show comprehensively the results that charter schools deliver for their students.

We need both dimensions of student performance to situate charter schools both in their local community contexts and within the larger K-12 mission of preparing students with knowledge and skills for future success. Importantly, considering growth and achievement simultaneously also gives us a basis for making predictive statements about how charter schools are likely to support their students in the future.

To ground this presentation, it is useful to consider four basic categories of school performance. This construct applies to all schools: CMO-affiliate charter schools, stand-alone charter schools, district schools and others.

We can classify any school based on whether and by how much its average academic progress in a year compares to the other TPS options. Schools that do not advance student learning as much as the comparison are considered "low growth." Those that exceed the local standard are deemed "high growth." These differences can be mapped on a continuum from "very low growth" to "very high growth." We use the growth of the local TPS alternative as the standard in this demonstration.

Looking at absolute achievement—the measure of what students know at the end of a school year—we use the achievement scores that students get on state performance tests as a measure of achievement and place schools along that distribution based on school-wide averages. Schools that mirror the state average are designated "50th percentile."¹⁶ Schools with an average performance at lower (or higher) points of the achievement range are situated below (above) the average; we use the 25th percentile and the 75th percentile as additional reference points.¹⁷

¹⁶ The 50th percentile is the point value in a range of scores—in this case, achievement for each state—that splits all the scores so that 50 percent are above and 50 percent are below the point.

¹⁷ The measures of achievement show student learning after enrollment in a charter school.

If we map the growth and achievement dimensions together, four groups result:

High Growth—High Achievement: schools with larger growth than their local alternative and whose students are above the state average in overall achievement

High Growth—Low Achievement: schools that exceed the growth of their local options but with overall student achievement below the state average

Low Growth—High Achievement: schools whose students exceed the state average on achievement but do not advance as much yearly as their comparisons

Low Growth—Low Achievement: schools with lower academic growth than their local alternatives and whose students’ achievement is lower than the state average at the end of a school year

We mapped the charter schools in this study onto the structure described above using the last two years of school. (For reliability, we included only schools with 30 tested students.) We subdivided each quadrant into four smaller groups, yielding 16 cells within the map. The results appear in Figures 2.38 and 2.39 for reading and Figures 2.40 and 2.41 for math.

NOTE TO READERS:

	4.3%	6.2%	4.9%	1.0%	
	Low Growth, Low Achievement		High Growth, Low Achievement		

The stronger growth of CMO-affiliated schools finds a parallel in achievement patterns. As illustrated in Figure 2.38, 68 percent of CMO-affiliated charter schools have average reading growth above their comparison groups (sum of two right columns) and 32 percent below. For reading achievement, 44 percent of charter schools have average student achievement above their state’s average (sum of top two rows) and 56 percent below. In Figure 2.39, the chart shows 59 percent of students enrolled in stand-alone charter schools show stronger growth than their TPS comparisons in reading, with 41 percent of schools having weaker growth. Fifty-five percent of students in SCS had average student achievement below their state’s average, and 45 percent of charter schools had an above-average performance.

Schools in the High Growth—High Achievement quadrant of Figure 2.38 can expect to remain in that part of the map if their reading growth continues at the current pace. Thirty-five percent of CMO-affiliated charter schools and 31 percent of stand-alone charters appear in this quadrant. There is no meaningful difference between the two types of charters in creating outstanding academic results. At current levels of performance, these schools will likely increase their students’ achievement levels over time. The gap-busting schools and networks reside in this quadrant. Of particular interest is the subset of High Growth—High Achievement schools that advance students of any academic background to high levels of achievement; their operations and practices could help inform improvements in lower-performing charter and traditional schools.

Schools in the Low Growth–High Achievement quadrant can expect to drift downward in the achievement ratings if they maintain their current pace of growth since other schools with higher growth rates will eventually surpass them. Nine percent of CMO charter schools and 14 percent of stand-alone charter schools sit in this quadrant. Since student achievement in these schools is above state averages, the impact of lower growth may not be as concerning as for students at lower levels of achievement. Since many of the schools in this quadrant are close to average in both growth and achievement, modest improvements in student learning each year could move those schools into the upper right quadrant.

The remaining charter schools are situated in the lower two quadrants with achievement below the state average. For CMO charters, this amounts to 56 percent; for stand-alone charters, 55 percent are below the state average. This is consistent with the earlier findings that charter schools enroll both a larger share of lower-decile students and a smaller share of high-decile achievers. Their position and prospects are distinguished by their students’ growth.

The High Growth—Low Achievement quadrant displays the results for 33 percent of all CMO charter schools and 28 percent of stand-alone charter schools. Though these schools serve students with current achievement weaker than the average in their states, they have demonstrated success with students of modest or challenged academic backgrounds. With higher-than-average yearly growth, their students will elevate their achievement over time. In theory, given enough time, the students in the lower right quadrant would move up to the upper right quadrant.

The share of schools in the **Low Growth—Low Achievement** quadrant is of greatest concern. These schools serve academically challenged students and produce weaker growth than their TPS comparisons. The proportions of schools in this quadrant are similar for the two types of charter schools. For CMO charter schools, the performance of 23 percent of schools maps to this quadrant. For stand-alone charter schools, the share is 27 percent. Given the substantial difference in average growth in reading between CMO-affiliated and stand-alone charter schools, it is surprising to see the proportions in this quadrant be so similar. Should the performance of these schools remain unchanged, their students will drift further behind over time, even if all the other schools on the map remain stable. Increases in growth are within reach for many of these schools, which would migrate them to the lower right area. Especially concerning at the moment are outcomes for the students attending schools in the cell with the lowest growth and achievement. This group represents charter schools in need of immediate attention.

	5.7%	16.4%	13.7%	5.1%	30th Percentile
	6.8%	7.2%	5.0%	1.2%	
	Low Growth, Low Achievement		High Growth, Low Achievement		

The inferences for math are the same as for reading, albeit with different percentages (Figures 2.40 and 2.41). In 61 percent of CMO schools, their growth outpaced their TPS comparisons, with 39 percent having weaker growth. Forty-four percent of CMO-affiliated charter schools had average student achievement larger than their state’s average. Fifty-six percent of CMO charter schools had a below-average performance.

Regarding math performance in stand-alone charter schools, about 51 percent of schools show stronger growth than their TPS comparisons, with 49 percent having weaker growth. Thirty-nine percent of stand-alone charter schools had average student achievement above their state's average; 61 percent of stand-alone charter schools had average achievement below their state averages. The data indicates that, similar to the CMO charters, stand-alone charters tend to serve lower-performing students but grow them more than their TPS peers.

The High Growth—High Achievement quadrants contain 34 percent of CMO charter schools, a slightly smaller share than appeared for reading. Among stand-alone charters, the share was 26 percent. Maintaining the current pace of growth would result in these schools moving higher in the achievement range.

The High Growth—Low Achievement quadrant in the lower right reflects schools that deliver stronger growth to below average achieving students. This quadrant contains 26 percent of all CMO charter schools and 25 percent of all stand-alone charter schools. Both proportions are smaller than occurred in the same reading quadrant. Their students will move higher in the achievement range if these schools maintain or improve their growth.

Ten percent of CMO-affiliated charter schools land in the **Low Growth—High Achievement** quadrant in the upper left, schools with high average achievement but below average growth. Thirteen percent of stand-alone charter schools appear in the same quadrant. The majority of schools in this quadrant could either move down into the lower achievement quadrant if they remain static or move to the High Growth—High Achievement area with improved growth.

The left-hand-side lower quadrant, representing **Low Growth—Low Achievement**, contains 28 percent of CMO charter schools and 36 percent of stand-alone charter schools. The CMO-affiliated percentage is substantially smaller than for stand-alone charter schools. This is a noticeably larger share of CMO and stand-alone schools than in the analogous quadrant for reading. The greatest worry is the schools situated in the lowest performing cell. They offer the weakest growth to students with constantly low achievement levels.

2.4.9.8. Gap-Closing CMOs

In the companion report, CSP31, we highlight the dramatic performance of thousands of charter schools with outstanding progress for minority and poverty students. These “gap-busting schools” show that disparate student outcomes are not a foregone conclusion: people and resources can be organized to eliminate these disparities. The fact that thousands of schools have done so removes any doubt.

How do we know these results are not simply the fortunate alignment of events at these individual schools? Is there evidence that the practice can be systematic? We looked at CMOs' impacts on growth for minorities and students in poverty compared to their White student counterparts.

Table 2.4. CMOs with Above Average Achievement Portfolios and Equitable Learning, Reading

CMOs where:	Number	Percentage
Black outperforms White	65	18%
Hispanic outperforms White	95	26%
Lunch outperforms no-lunch	122	33%
ELL outperforms non-ELL	128	35%
Total	368	□

Note: □ Percentages do not sum to 100% since a CMO could be included in multiple rows.

Table 2.5. CMOs with Above Average Achievement Portfolios and Equitable Learning, Math

CMOs where:	Number	Percentage
Black outperforms White	51	14%
Hispanic outperforms White	72	20%
Lunch outperforms no-lunch	97	26%
ELL outperforms non-ELL	115	31%
Total	368	□

Note: □ Percentages do not sum to 100% since a CMO could be included in multiple rows.

Tables 2.4 and 2.5 present the numbers of CMOs with student achievement that exceeded the state average (“High Achievement”) and in whose schools Black and Hispanic students had learning gains on par or better than the White students. The tables also present the number of CMOs with students in poverty making larger gains than their non-poverty peers or English-language learners who outpace their non-ELL classmates.¹⁸

The importance of these findings is obvious: when dozens of schools and networks can prevent differences in learning across student groups while also delivering learning above their state averages, they are forestalling and even reversing the achievement gap that has persisted for decades in our country. The discovery that this is prevalent in numerous CMOs suggests that these entities have found a way to implement and disseminate this transformative knowledge on a large scale.

¹⁸ CMOs that are included in the results of Tables 2.4 and 2.5 are flagged in Appendix A.

Center for Research on Education Outcomes

Stanford University

Stanford, CA

<https://credo.stanford.edu>

CREDO, the Center for Research on Education Outcomes at Stanford University, aims to improve empirical evidence about education reform and student performance at the primary and secondary levels. CREDO at Stanford University supports education organizations and policy makers in using reliable research and program evaluation to assess the performance of education initiatives. CREDO's valuable insight helps educators and policy makers strengthen their focus on the results of innovative programs, curricula, policies and accountability practices.

Acknowledgments

CREDO gratefully acknowledges the support of the state education agencies that contributed their data to this partnership. Our data access partnerships form the foundation of CREDO's work, without which studies like this would be impossible. We strive daily to justify the confidence placed in us.

The research presented here uses confidential data from state departments of education. The views expressed herein do not necessarily represent the positions or policies of the organizations noted above. No official endorsement of any product, commodity, service or enterprise mentioned in this publication is intended or should be inferred. In addition:

- > The research presented here utilizes SLDS Data from the Idaho State Board of Education (SBOE) and the Idaho State Department of Education. Any research errors are the sole responsibility of the author(s).
- > This research result used data structured and maintained by the MERI-Michigan Education Data Center (MEDC). MEDC data is modified for analysis purposes using rules governed by MEDC and is not identical to data collected and maintained by the Michigan Department of Education (MDE) and/or Michigan's Center for Educational Performance and Information (CEPI). Results, information and opinions solely represent the analysis, information and opinions of the author(s) and are not endorsed by, or reflect the views or positions of, grantors, MDE and CEPI or any employee thereof.
- > Data for this report was provided by the Missouri Department of Elementary and Secondary Education.
- > The conclusions of this research do not necessarily reflect the opinions or official position of the Texas Education Agency, the Texas Higher Education Coordinating Board, or the State of Texas.

The analysis and conclusions contained herein are exclusively those of the authors and are not endorsed by any of CREDO's supporting organizations, their governing boards, or the state governments, state education departments or school districts that participated in this study. All errors are attributable to the authors.

CREDO also acknowledges the support of the Walton Family Foundation and The City Fund for supporting this research.

3.1 Summary of Findings

As a Matter of Fact: The National Charter School Study III 2023 (NCSSIII) is the third national study by CREDO evaluating the academic progress of students enrolled in charter schools in the United States. The current report presents findings from 2014 to 2019, which yields four periods of year-to-year student growth as measured by state achievement tests. It includes data from 29 states plus Washington, D.C., and New York City, which for convenience we report as 31 states. In addition, because we have used a common methodology across the three studies, we can combine results into trends to support insights of the performance of students enrolled in charter schools over the past 15 years.

To organize the extensive body of this current research effort, CREDO separated the analysis into two parts and produced two reports: (1) [Charter School Performance in 31 States \(CSP31\)](#) and (2) [Charter Management Organization 2023 \(CMO23\)](#). CSP31 examines the performance of the full set of charter school students and schools, while CMO23 analyzes the difference in academic growth between students attending charter schools associated with charter management organizations (CMOs) and those attending stand-alone charter schools (SCS).¹ In this volume, we integrate the Summary of Findings, Conclusions and Implications sections from both reports to ensure we present the fullest picture of performance in charter schools.

Our work deliberately focuses on a specific outcome: the annual progress that students make over an academic year. In this report, we look at students in charter schools compared to the experience they would have had in the traditional public schools (TPS) they would otherwise have attended. One notable limitation of this approach is that we have limited line of sight “under the hood” and into the role that localized environmental, regulatory and organizational factors play in individual school performance. Our contribution to the K-12 education research and practice landscape is to test fundamental questions of the effectiveness of charter schools and highlight outcomes and trends rooted in academic progress.

Looking at year-to-year academic progress from 2015 to 2019, **the typical charter school student in our national sample had reading and math gains that outpaced their peers in the traditional public schools (TPS) they otherwise would have attended.** We report these differences as marginal days of additional (or fewer) days of learning on a learning benchmark of 180 days of learning each school year for matched TPS students. In math, charter school students, on average, advanced their learning by an additional six days in a year’s time, and in reading added 16 days of learning.

¹ The CMO study does not include Idaho, Maryland, and Ohio.

Figure 3.1: RECAP – Annual Academic Growth of Charter School Students, Reading and Math

* Significant at the 0.05 level, ** Significant at the 0.01 level
This figure originally appears as Figure 1.7 in CSP31.

These average effects are across all students, all schools, for all time periods. There is considerable variation around these averages and this variation forms the foundation for additional analyses and findings in our two papers.

This growth represents accelerated learning gains for tens of thousands of students across the country. Each student and each school is a proof point that shows that it is possible to change the trajectory of learning for students at scale, and it is possible to dramatically accelerate growth additional students who have traditionally been underserved by traditional school systems.

3.1.1 Do All Students Benefit?

When we probe these results to determine if all students benefit, we find positive results are not only present in the aggregate, but also across student race/ethnicity groups:

- > **Black and Hispanic students** in charter schools advance more than their TPS peers by large margins in both math and reading.
- > **Multiracial, Native American, and White students** in charter schools show equivalent progress to their TPS peers in reading, but had weaker growth than their TPS peers in math.
- > **Asian students** in charter schools showed similar growth to their TPS peers.

When we examined academic growth for special populations of students, we found that, compared with their TPS peers:

- > Charter school **students in poverty** had stronger growth
- > **English-language learner students** attending charter schools had stronger growth
- > **Students receiving special education services** had significantly weaker growth in both math and reading on average, though CMO-affiliated students with Special Education needs have learning on par with their TPS Special Education peers.

In the past, a common claim asserted that positive academic results in charter schools arise from advantages that their students bring to their schooling. In some cases the claim focus on students having more motivated parents. Another version suggests targeting behavior on the part of the school results in a student body that is better prepared academically, a practice commonly referred to as “cherry picking” or “cream skimming”. If true, the students in charter schools would show higher academic achievement at the point of enrollment. In multiple analyses, we do not see significant evidence of an undue advantage to charter schools. In fact, we find the opposite is true: charter schools enroll students who are disproportionately lower achieving than the students in their former TPS.

3.1.2 Where Is Positive Academic Growth Happening?

Deeper into our analysis, we examine where student learning gains are occurring, and find that positive and strong effects exist in charter schools that vary widely by location and configuration.

- > **States** – 18 states in the NCSS3 study produced significantly stronger growth for students enrolled in their charter schools when compared with their TPS peers; in 12 states, growth was similar to TPS peers. Students attending charter schools had weaker reading growth than their TPS peers in only one state, Oregon. In 12 states, charter school students had significantly stronger growth in math than their peers in TPS. In 16 states, math growth was similar between charter students and their TPS peers. Only three states showed weaker growth for charter students compared to their peers.
- > **Locale** – compared to their TPS peers, urban charter school students had 29 additional days of growth per year in reading and 28 additional days of growth in math, both of which were significant. Suburban charter school students also had stronger growth in reading (+14 days) and in math (+3 days). Rural students enrolled in charter schools had the equivalent of five additional days of learning in reading, but 10 days less growth in math than their TPS peers. These results are strongly hampered by the performance of virtual charter schools; despite having only six percent of charter school students enrolled, their impact on student progress of 58 fewer days of learning in reading and 124 fewer days in math has damaging consequences for students and exerts a outsized drag on overall national results.
- > **Grade configuration** – charter schools serving elementary, middle, and high school students had statistically positive growth in both reading and math. Results for multilevel charter schools were negative in math and similar to the TPS comparison groups in reading. Seeing growth in all grade spans helps us understand that trends in the national aggregate performance are not concentrated in particular grades.

- > **Continuous Enrollment** – charter students overcome an initial learning dip associated with a school change, and by their fourth year in their charter school, they show 45 days stronger growth in reading than their TPS peers and 39 additional days of learning per year in math. The longer a student stays enrolled in a charter school, the better the student’s academic outcomes are.
- > **School Management** – students who attend a charter school that is part of a charter management organization (CMO) experience significantly accelerated growth compared to students enrolled in stand-alone charter schools (SCS). Even so, CMO schools and SCS provide stronger learning than TPS in reading, and CMOs do so in math. CMO-affiliated students advanced by 27 additional days in reading and 23 more days in math over TPS, both of which are statistically significant. Stand-alone charter schools still grew significantly more than TPS in reading by 10 additional days of learning, but were no different in math. Given that SCS serve two-thirds of all students enrolled in charter schools, soft math performance in these schools taints the otherwise decisive results in other parts of the study.

3.1.3 What Can We Learn from CMOs?

Comprising one-quarter of the schools, but serving 37 percent of students in our national data set, Charter Management Organizations (CMOs) are producing much of the learning gains we observed for charter school students.

As with our national top-line results, we find robust results for CMOs when we grouped their students by race/ethnicity, special populations, where the CMOs are located, grade spans of the schools in the network and how long a student enrolls in the school. As with all schools, there is a range of performance for CMOs, and we share their student impacts in [Appendix A](#).

Figure 3.2: RECAP – Annual Academic Growth of Charter School Students by Charter School Type, Reading and Math

** Significant at $p \leq 0.01$
This figure originally appears as Figure 2.3 in CMO23.

Our analysis uncovered additional ways that CMOs are returning more positive, and often gap-busting, results:

- > **New CMOs and new schools in existing CMOs** open with strong results, in both cases delivering stronger average gains for their students than their local TPS. The student gains in new CMOs are not as strong initially as that of their older CMO peers. New schools started by mature CMOs deliver positive gains in their early years that were none the less smaller than the older CMO schools.
- > **Size or age of a CMO does not relate to their quality**—which means some CMOs are growing poorly performing networks of schools.
- > **Clustering of CMOs' schools within a single state** returns significantly more days of learning for their students than in CMOs that operate schools in more than one state.
- > **CMOs that took on "turn-around" schools**, absorbing those schools into their portfolios, positively impacted results for students who remained enrolled in the turn-around school. In addition, the balance of the CMO portfolio did not experience a downturn in student learning.
- > **The Charter School Growth Fund** serves as a case study of charter school growth accelerators. CMOs that the Growth Fund chooses to support have dramatically larger pre-funding learning gains than other CMOs. The schools that existed at the time of selection remain strong. New CMO schools also open with dramatically larger learning gains in both subjects judged against their TPS comparisons.
- > **Excellence at Scale** puts dozens of CMOs at the forefront of efforts to provide education that is both equitable and effective in moving student achievement to give their students full preparation for their next steps.

3.1.4 Variations in Charter School Performance

In our reports, we analyze school-level performance, in addition to student-level performance, continuing to report on growth as the outcome variable. Not every charter school provides quality academic programming or an effective learning environment for students. Across all charter schools in our study, 36 percent have greater growth, 47 percent have equivalent growth and 17 percent have lower growth relative to their local TPS. CMO-affiliated charter schools display stronger performance, with 43 percent having greater growth, 42 percent having equivalent growth, and 15 percent having lower growth in comparison to their local TPS. Stand-alone charter schools have slightly more moderate results.

Figure 3.3: RECAP – Academic Growth of Charter Schools Compared to Their Local TPS, Reading

This figure combines findings that originally appear as Figures 1.22 in CSP31 and Figure 2.36 in CMO23.

In math, more charter schools have weaker results than they do in reading, as presented in the figure below. As the share of charter schools with growth greater than their TPS peers is comparable with the same growth in reading across all categories, the driver of the overall weaker performance in math is the greater percentage of charter schools (all, CMO-affiliated and stand-alone charter schools) that perform worse than their TPS peers. Stand-alone charter schools have the largest share of schools with lower growth in math in comparison to their local TPS.

Figure 3.4: RECAP – Academic Growth of Charter Schools Compared to Their Local TPS, Math

This figure combines findings that originally appear as Figures 1.22 in CSP31 and Figure 2.37 in CMO23.

These encouraging results require a note of caution. Since the reference point in these comparisons is the growth that equivalent students in the local TPS realize, this comparison does not reveal if the difference is modest or large, nor does it indicate where in the range of absolute achievement the difference occurs. Positive differences at the lowest levels of achievement may not be sufficient to move students ahead fast enough to reach long-term outcomes such as academic proficiency or post-secondary readiness. Similarly, a charter school may post growth results that are considered outsized for any school but still lag behind the community schools in achievement. Simultaneous consideration of student academic growth and achievement is the only way to get the complete picture of charter school performance.

3.1.5 Charter School Growth and Achievement

Student academic growth measures how much students advance their learning in a year’s time, and student achievement measures the stock of their knowledge at the end of the year. We believe it is critical to examine both growth and achievement in order to understand how well schools prepare students for next steps in school and life. We map each school’s average growth and average achievement against the growth of matched TPS students and average state performance. Examining both measurements for all schools in our national data set during the most recent growth period, we present findings in four basic categories of school performance:

- > **High Growth—High Achievement:** schools that exceed the growth of their local options and whose students are above the state average in overall achievement
- > **High Growth—Low Achievement:** schools that exceed the growth of their local options but with overall student achievement below the state average
- > **Low Growth—High Achievement:** schools whose students exceed the state average on achievement but do not advance as much yearly as their comparisons
- > **Low Growth—Low Achievement:** schools with lower academic growth than their local alternatives and whose students’ achievement is lower than the state average at the end of a school year.

Figure 3.5: RECAP – Academic Growth and Achievement 2015 to 2018, Reading

Growth (in Days of Learning)	Low Growth, High Achievement		High Growth, High Achievement		
	-87	0	87		
	0.1%	1.5%	5.8%	2.8%	70th Percentile
	0.7%	9.1%	17.0%	6.1%	50th Percentile
	3.1%	12.3%	17.6%	6.4%	30th Percentile
	4.1%	6.8%	5.8%	1.1%	
	Low Growth, Low Achievement		High Growth, Low Achievement		

This figure originally appears as Figure 1.25 in CSP31.

Schools that have average student achievement above the state average (above the 50th percentile) are presented in the top half of the figure. In reading, 43 percent of all schools have average performance in the upper half in their respective states, with a majority of those high achievement schools also having stronger growth than their local TPS. Zeroing in on the low-growth/low-achievement quadrant, 207 schools (4.1 percent) in our study have lower academic growth than their local alternatives and have student achievement that is below the 30th percentile of state achievement at the end of the school year.

Figure 3.6: RECAP – Academic Growth and Achievement 2015 to 2018, Math

Growth (in Days of Learning)	Low Growth, High Achievement		High Growth, High Achievement		
	-87	0	87		
	0.2%	2.0%	4.9%	3.8%	70th Percentile
	1.0%	8.6%	12.0%	7.5%	50th Percentile
	4.9%	14.3%	13.8%	6.2%	30th Percentile
	7.1%	7.5%	5.3%	1.3%	
	Low Growth, Low Achievement		High Growth, Low Achievement		

This figure originally appears as Figure 1.26 in CSP31.

In math, above average achievement exists in 40 percent of charter schools, while 60 percent of schools have achievement that is lower than their state averages. Twenty-eight percent of schools in the data set are high-growth/high-achievement schools, returning great gains for their students. Zeroing in again on the low-growth/low-achievement quadrant, 348 schools (7.1 percent) have lower academic growth than their local alternatives and have student achievement that is below the 30th percentile of state achievement at the end of the school year.

The number of schools in the low-growth/low-achievement quadrant, though smaller in reading than in math, remains a key concern.

3.1.6 Exceptional Performance in Charter Schools

Perhaps the most revealing finding of our study is that more than 1,000 schools have eliminated learning disparities for their students and moved their achievement ahead of their respective state’s average performance. We refer to these schools as “gap-busting” charter schools. They provide strong empirical proof that high-quality, high-equality education is possible anywhere. More critically, we found that dozens of CMOs have created these results across their portfolios, demonstrating the ability to scale equitable education that can change lives.

3.1.7 Evidence of Improvement over Time

Findings from this study take on even more weight when considered in the historical context of the 15 years of CREDO studies on student academic progress in charter schools. Between the 2009 and 2023 studies, against a backdrop of flat performance for the nation as a whole, the trend of learning gains for students enrolled in charter schools is both large and positive.

Figure 3.7: RECAP – Annual Academic Growth of Charter School Students across Three National Studies

** Significant at $p \leq 0.01$
This figure originally appears as Figure 1.8 in CSP31.

3.2 Conclusions

The outcomes of these studies are largely positive and support several conclusions about the current landscape of charter schools across America. Perhaps more importantly, the opportunity to position these findings in the larger body of research leads to a number of implications about the fundamental policies and practices of charter schooling at a more global level.

1. In both reading and math, charter schools provide students with stronger learning compared with the learning in the traditional public schools that are otherwise available to them.

Across the broad range of charter schools, the evidence suggests that they are a robust education option under many conditions. Whether stand-alone or networked, charter schools operate by law mainly on their own, making decisions they expect will serve their students well. According to our latest findings, the autonomy given to them usually yields positive results. The majority of charter schools provide better year-to-year outcomes for students compared to their traditional public-school options. Most of these schools perform better to such a degree that the difference is statistically significant.

The results stand up to deeper investigation. Charter schools produce superior student gains despite enrolling a more challenging student population than their adjacent TPS. They move Black and Hispanic students and students in poverty ahead in their learning faster than if they enrolled in their local TPS. They are more successful than the local public school alternatives across most grade spans and community settings. These results show that charter schools use their flexibility to be responsive to the local needs of their communities.

These findings generalize into lessons for policy leaders, educators, and funders. Knowing that the average student in the average charter school can outperform their TPS peers raises important questions about the priority placed on student outcomes in education decisions in many communities.

- 2. Some charter schools provide less student learning than their local district schools, although a larger proportion delivers better learning outcomes. The latter group includes over 1,000 charter schools managing staffing and resources to deliver superior academic results that eliminate the learning gap across student groups.**

Vital lessons also come from the distribution of school performance around the average. Over the past 30 years, small, large, urban, rural, networked or stand-alone charter schools, autonomous and independent of each other, have arrived at their own solutions for giving their students stronger learning experiences. The discretion that charter schools enjoy does not guarantee that each school or every charter network realizes strong student outcomes. Our study illuminated the range of learning across schools.

Despite declining shares, there remain a concerning number of charter schools with weaker student outcomes. While lower-performing schools make up a larger share of stand-alone charter schools, CMOs and networks also have a substantial share that produces low gains for their students. This study has profound implications for charter schools and charter networks that do not support student learning. Charter boards and authorizers are the accountability side of the charter school equation. They evaluate school performance and, if necessary, dictate remedies. As our analysis shows, disturbing numbers of charter schools and networks have low learning levels. There are brick-and-mortar, online, networked, and stand-alone charter schools with sub-par results.

The number of school closures we observed in the years of this study was small compared to the counts of schools with the lowest student growth and academic achievement. Since primary and secondary education is essential to the social contract, providing a foundation for future opportunities, the claim of “choice” cannot justify derailing students’ preparation. Especially in the post-COVID era, the need for charter boards and authorizers to address under-performance in their schools has never been more critical.

Closure is not the sole remedy. As we learned from our special investigation, the “takeover” of underperforming schools by strong CMOs led to improved student learning for the students who remained enrolled before and after the transfer. The gains did not adversely affect student academic progress in the rest of the CMOs’ schools. This policy tool may have broader utility than previously realized.

At the high end of the performance range, good news exists in the growing share of schools outpacing learning in their local TPS. In both subjects and for both CMO and stand-alone schools, larger shares are “better than” and a smaller share is “weaker than” compared to earlier work.

The real surprise of the study is the number of charter schools that have achieved educational equity for their students: we call them “gap-busting” schools. Ensuring equivalent yearly growth across student groups has two critical consequences. First, ensuring minority and poverty students learn on par with or better than their White peers interrupts or reduces the achievement gap. It happens regularly in a large swath of charter schools. More critically, there is strong evidence that these gap-busting schools can be scaled. Added to the traditional district schools that achieve similar results, this is the life-transforming education that so many students need. Second, these schools deliver hundreds of independent proof points that learning gaps between student groups are not structural or inevitable; better results are possible.

Charter schools function as a portfolio, and their varied impacts on student learning are expected. Charter school boards and authorizers are responsible for ensuring students perform well. Evidence shows that the charter school enterprise benefits students, and its positive outliers (e.g., gap busters) can pressure the rest of the system.

The near-term implication for charter school boards and authorizers is two-pronged. Addressing chronic and/or severe underperformance is necessary and imperative in the current education climate. Identifying high-impact exemplars for probationary charter schools to study and emulate is possible. Transfer of sub-par schools to higher-performing operators could be part of a larger incentive for growth and replication. At the same time, authorizers might consider longer charter terms for charter schools that consistently demonstrate outstanding student learning success.

Education leaders and policy makers need to understand that in efforts to improve, some failure is inevitable. Any subsequent failure to address the poor performance compounds the damage. It also blocks constructive learning for the future. Strong examples of authorizing exist and should be emulated.

Leadership and responsibility demand embracing practices and policies that lead to better results for students, not maintaining the status quo.

3. The larger scale of Charter Management Organizations does not guarantee high performance—but on balance, it helps.

When taken as a whole, schools managed by Charter Management Organizations and charter networks bring a greater learning benefit to students compared to stand-alone charter schools. Despite the differences, both groups of charter schools have had larger student success than traditional public schools with respect to reading. We note, however, that math gains in stand-alone charter schools were equivalent to TPS learning.

Our analysis highlights attributes of higher-performing CMOs and networks that could be useful in future discussions. Size or age of the CMO does not relate to student learning: at every increment of CMO age or portfolio size, we see high- and low-impact CMOs and networks. This further supports earlier CREDO research that showed that CMOs only replicate the quality they already have. The implications of replicating schools with weak results is clear. The big upside is the ability of dozens of CMOs to scale their gap-busting performance. Additionally, CMOs that concentrate their operations within a single state have stronger gains than multistate CMOs, though both groups do well by their students.

Programs of external funding and support to CMOs to grow their networks, represented here by the Charter School Growth Fund, focus on some of the stronger CMOs and networks in our study. After high-performing CMOs receive endorsement, the learning of students in those CMO schools rises in reading but holds steady in math.

The majority of new CMO schools are no better or worse than the parent organization has already produced, so decisions to approve applications by CMOs to open new schools must consider the contributions to student learning of schools in the existing portfolio.

CMO growth accelerators help augment board and authorizer reviews through their extensive selection process; the growth of their grant-receiving CMOs maintains the strong student learning that led to their selection. The expansion of these high-quality schools and networks benefits more students and communities.

4. Charter schools and networks improve over time, as do the systems that oversee them.

Insights about improvement in schools and networks stem from this study and CREDO's prior multistate studies.

In the years of this study, student growth in charter schools was the strongest observed in any of CREDO's multistate studies. Added to the results from the previous two studies, a strong trend of improvement becomes clear. We see substantial increases in student learning in CMOs in both tested subjects and in reading for stand-alone charter schools. Even the finding of no difference in math learning in stand-alone charter schools vis a vis TPS, a decline from the 2017 study results, still marks an improvement from the statistically significant negative results in the first CMO vs. stand-alone comparisons in 2013.

A better understanding of the improvement in the sector comes from two different findings. The first is that the largest share of improvement comes from existing charter schools. Compared to the National Assessment of Education Progress (NAEP) trend, evidence of schools getting better over time is welcome news.

Second, new schools opened with stronger results than at any time in the past. Growth in the number of CMOs since the last study plays a role. Many stand-alone charter schools also pushed their results upward. Strengthening authorizer standards and practices, a drive that took root in the 2010s, also sets a higher bar that resulted in better schools opening.

Finding ways to improve student academic outcomes is an ambition shared by policy and community leaders, educators, funders and parents. Charter school results show that change for the better is possible in the larger education system. The key to improvement lies outside any particular school or network model, though many are worthy of emulation. It is simply not possible to drive single solutions through the diverse landscape that is U.S. public education. Lessons from the charter school experience and results may be helpful in charting a future course in public education.

3.3 Implications

The **charter school policy framework** sets the conditions for charter schools' growing positive outcomes. It is the fundamental common denominator in every case, and its role is powerful.

The framework offers a divergent approach from the conventional strategy for public schools. The “flexibility for accountability” construct is not just a catchphrase. It is a distinctly different mode of operation. The “loose-tight” parameters of the framework create incentives to which schools and networks respond. The incentives find positive support in this study's findings and the broader trends. While our study design cannot make causal claims (because randomly assigning schools to the traditional or charter school approach has yet to happen), it can deliver a plausible argument of the value of the policy based on available evidence.

On the “loose” side of the approach, the framework establishes a **policy of possibility** where educators, leaders and boards of directors have the discretion to build and deliver curriculum and instruction that meets high standards for learning and is responsive to local needs.

According to this study, there are a lot of positive possibilities. The process has led to many successful schools nationwide, often with meaningful innovations. The diversity of schools illuminates an important feature of the framework: success is attainable via **many paths**. Over time, many have sought and gained permission to expand and then shown the ability to create strong student learning at scale.

Students in these schools, especially minority students and those in poverty, make larger advances than in local public schools. Beyond the benefits for their students, successful charter schools deliver **critical proof points** of ways to improve outcomes for students. In the current regulatory climate, it is difficult to imagine how similar efforts could become conventional among traditional public schools.

Beyond flexibility in school design, school teams have the leeway to tinker with their operations. The results show that existing charter schools have improved over time. The proportion of charter schools with superior results is on the rise. The share that lags behind the local TPS alternatives is also shrinking. This means schools and networks use their discretion and autonomy to foster a **standing capacity to adapt over time**.²

Accordingly, the framework also aims to be “tight” at key points as schools open and mature. Authorizers are expected to behave as **governors of quality**. They set the bar to receive initial permission to operate, which exerts quality and safety controls at the outset. Others have documented stronger standards among authorizers in the review and approval of new applications (Mumma & West, 2018). The findings of stronger new schools in this study compared to earlier results attest to the effort and to the CMO replications and new charter schools that meet the higher bar.

² We saw that capacity in stark terms when we examined how charter schools in three states responded to the COVID-instigated school closure orders (CREDO, 2022). Rapid transformation into remote instructional mode; acquisition and distribution of food, technology, or internet access; and strengthening of personal supports were widespread. Return to in-person instruction in the fall of 2020 was nearly universal. These points rest admittedly on smaller bases of qualitative evidence, but they provide human dimensions to the point that the present quantitative analysis illuminates nationally. See also: Boast et al. (2020); Henderson et al. (2021); Childs et al. (2022).

Authorizing is a delicate job that requires resources, expertise and substantial political acumen and courage. There is growing attention to authorizers adopting rigorous standards and practices and using a variety of performance data to evaluate schools that apply for renewal (NACSA, 2016).

Poorly performing charter schools are often ignored. A number of these schools were observed during this study window. There is data to assess policy leaders and authorizers to hold them accountable for protecting children's futures. As tough as closing schools is, the disservice of not closing poorly performing schools has large and lingering ripple effects.

Our results show that the framework of charter schools helps current students and strengthens public education overall. We contend these incentives have broader applicability in public schools and see signs of their spread. Collaborations between charter schools and local district schools have grown over time. Some states, including Kentucky and Maine, have adopted policies to give educators freedom in adjusting instruction and boosting performance. However, uptake is slow.

In the year 2023, the importance of strong academic achievement among America's students has never been greater. The students hit hardest by school closures during the coronavirus pandemic are precisely those whom this research illuminates as being able to benefit the most from charter schools. In this study thousands of charter schools have proved that we can do better for our students. The current number of students benefiting from these schools is 3.7 million, but the number could drastically increase if more schools agreed to the same arrangement. Whether it be termed "charter school" or something else, the deduction from this data is that when both sides of the equation—flexibility and accountability—are working together for more schools, more students' academic results will improve.

This report would not have been possible without the contributions of many individuals and organizations. First, we deeply appreciate the willingness of students and their families to participate in this evaluation. We would also like to thank Danielle Eisenberg, Rebecca Vichniac, Jonathan Cowan, and Sabrina Yusuf at the KIPP Foundation, for providing input at various stages of the study and providing student enrollment data from KIPP schools. This study was carried out with support from Arnold Ventures, and we are very grateful to Shrutika Sabarwal at Arnold Ventures for support and guidance related to our research.

Many staff members at Mathematica contributed to this report. Jessica Falbaum provided valuable support in all aspects of our interview efforts with KIPP staff. Elias Walsh provided invaluable advice on methodological approaches. Kerry Kern and Larisa Wiseman edited the report. Kirsten Miller, Jill Miller, and Jessica Coldren provided excellent production and dissemination support. Chloe Shawah and Juha Sohlberg provided exceptional programming, guidance, and quality assurance reviews for the study's restricted use file. Finally, this study would not have existed without the tireless work of our fellow Mathematica researchers who conducted the original RCT of KIPP middle schools in 2013, including Christina Clark Tuttle, Brian Gill, Virginia Knechtel, and Alexandra Resch.

Executive Summary

The Knowledge Is Power Program (KIPP) is the nation’s largest network of public charter schools. KIPP began as a network of charter middle schools designed to serve underserved communities, with the goal of closing achievement gaps and preparing students to succeed in college. KIPP has since expanded its model to include elementary and high schools in most regions, and expanded its goals to include preparing students to persist in multiple postsecondary pathways.

Prior research has demonstrated that KIPP has large positive impacts on student achievement (Angrist et al. 2010; Tuttle et al. 2013; Gleason et al. 2014; Tuttle et al. 2015; Knechtel et al. 2017). However, less is known about the network’s impacts on longer-term outcomes, such as entry into and success in college. Prior studies have examined whether the success of other charter school networks like KIPP in improving student test scores can translate into success in improving longer-term college outcomes; the results were mixed, with findings that vary across charter school operators and grade levels (Greene 2016; Angrist et al. 2016; Davis and Heller 2019; Place and Gleason 2019).

In this report, we present the results of the second phase of a long-term tracking study that follows 2,066 students who applied to enter 21 oversubscribed KIPP middle schools through an admission lottery in 2008, 2009, or 2011. The first phase of our study examined the impacts of KIPP middle schools on enrollment and early persistence in four-year colleges using the first two of these three cohorts (Coen et al. 2019). This report builds on the 2019 study in two important ways: We increased the study’s statistical power by adding a third cohort of students, and we tracked the students over a longer period. For all three of the study cohorts, we can observe college enrollment and college persistence patterns for three years; for the first two study cohorts, we can also examine college persistence and college graduation rates over five years. In addition, this phase of the study introduces a new analysis that separately examines the effects of attending both a KIPP middle school and a KIPP high school, providing a more detailed picture of how college outcomes vary across students who attended KIPP for varying lengths of time.

The study uses a randomized controlled trial design to ensure that students who were offered admission to a KIPP middle school (the treatment group) are similar on average to students who did not receive an offer of admission (the control group) on both observable characteristics, such as prior test scores, and unobservable characteristics, such as levels of motivation and parental support. The study focuses on two primary research questions:

1. What impact do KIPP middle schools have on students’ enrollment in a four-year college during the first three years after high school graduation?
2. What impact do KIPP middle schools have on persistence in four-year college programs during the first three years after high school graduation?

Because we can track our first two cohorts over a longer period (five years after high school graduation), we also explored the impacts of KIPP middle schools on four-year college degree completion. To collect information about these outcomes, we gathered data from the National Student Clearinghouse on college enrollment and graduation. Our primary impact estimates of KIPP middle schools compare students who received an admission offer through the lottery with students who did not receive an offer. These intent-to-treat (ITT) impact estimates use a conservative approach that includes students in the treatment group even if they declined to enroll in a KIPP school after receiving an admission offer.

KIPP middle schools had a positive impact on enrollment in four-year college programs, but the effect was not statistically significant. On average, students who received an admission offer to a KIPP middle school were 3.8 percentage points more likely to enroll in a four-year college than students who applied to KIPP but were not offered admission (p -value = 0.123) (Figure ES.1). Students who received

an admission offer had a rate of persistence in four-year colleges that was very similar (within 1 percentage point) of those who were not offered admission (p -value = 0.784). Among our first two cohorts, students who received an admission offer to a KIPP middle school also graduated from a four-year degree program at rates similar to those of students not offered admission (p -value = 0.992). In an exploratory analysis, we also adjusted each impact estimate by accounting for which students ended up attending a KIPP middle school (this is often referred to as a “treatment-on-the-treated” impact estimate). With this adjustment, the impact estimates generally increase in magnitude but still do not reach statistical significance.

Figure ES.1. Impact of KIPP middle schools on four-year college enrollment, persistence, and graduation

Note: Study includes 2,066 students who applied to enter KIPP through middle school admission lotteries. The college graduation outcomes includes 1,177 students from the first two cohorts. The model pools all 21 lottery schools (13 lottery schools for the college graduation outcome) and estimates outcome means by regressing the outcome measure on treatment status using inverse probability weights and controlling for student-level covariates and the lottery school, year, and grade. The control mean is unadjusted, and the treatment mean is the sum of the control mean and the regression-adjusted difference between groups.

In a separate exploratory analysis, we also examined the combined effect of attending KIPP for both middle school and high school compared with never attending KIPP. Because many of KIPP’s college-preparation and support programs take place in KIPP high schools, it is plausible that the direct effects of attending a KIPP middle school on college-related outcomes could differ substantially from the combined effect of attending KIPP for both middle and high school. To examine this issue, we estimated an instrumental variables (IV) model based not only on the randomized admission lotteries described above, but also on the differences between KIPP regions in the availability of KIPP high schools—in other words, differences in KIPP middle school students’ opportunities to go on to attend a KIPP high school. We measured the availability of KIPP high schools in a region using what we refer to as the high school ratio (*HSR*) which represents the capacity of the region’s KIPP high schools relative to the capacity of KIPP middle schools at the time the student was making the transition from middle to high school. Approximately half of the students in our study’s treatment group who attended KIPP middle schools went on to attend a KIPP high school, and a much smaller share of students in the control group attended

a KIPP high school. Because this analysis deviates from our primary analysis in several ways, the analysis is considered exploratory.

Attending both a KIPP middle school and a KIPP high school had large, positive impacts on students' college enrollment and college persistence rates (Figure ES.2). Compared to students who did not attend KIPP, students who attended both a KIPP middle and high school were 30.5 percentage points more likely to enroll in a four-year college within three years of graduating high school (p -value < 0.000) and 19.7 percentage points more likely to persist for at least three years in a four-year college upon graduating high school (p -value < 0.000).

KIPP middle and high schools also had a large and statistically significant combined effect on college graduation rates. Compared to students who did not attend KIPP schools, students who attended KIPP middle and high schools were 18.9 percentage points more likely to graduate from a four-year college within five years after high school (p -value = 0.025).

Figure ES.2. Impact of KIPP middle and high school attendance on four-year college enrollment, persistence, and graduation

Note: Study includes 2,066 students who applied to enter KIPP through middle school admission lotteries. The college graduation outcome includes 1,177 students from the first two cohorts. Estimates use the lottery and *HSR* as instruments for whether a student ever attended a KIPP middle school and a KIPP high school. The model pools all 21 lottery schools (13 lottery schools for the college graduation outcome) and estimates outcome means by regressing the outcome measure on treatment status using inverse probability weights and controlling for student-level covariates and the lottery school, year, and grade. The control mean is unadjusted, and the treatment mean is the sum of the control mean and the regression-adjusted difference between groups.

*Impact estimate is significantly different from zero at the .05 level, two-tailed test.

**Impact estimate is significantly different from zero at the .01 level, two-tailed test.

HSR = high school ratio.

The magnitude of these impact estimates is large, and effects of this size have substantial policy relevance. For example, these impacts match or exceed the gaps in college attainment rates in the United States among Black and Hispanic students, compared to White students. Nationally, among students ages

25 to 29, 45 percent of White Americans have a bachelor’s degree compared to only 26 percent of Black Americans and 23 percent of Hispanic Americans—degree completion gaps of 19 and 22 percentage points, respectively (National Center for Education Statistics 2022). Our study shows that KIPP middle and high schools have a combined effect of approximately 19 percentage points on college completion rates, for a group of students that is almost entirely composed of Black or Hispanic students from low-income families. An effect of this size, extrapolated nationwide, would be large enough to nearly close the degree-completion gap for Hispanic students or entirely close the degree-completion gap for Black students in the United States.

Previous research on KIPP high schools and interviews with KIPP college support staff suggest that these findings may be driven by the college preparatory culture at network high schools, as well as college-related supports delivered to KIPP high school students and alumni. To prepare students for the intellectual challenges of college, KIPP high schools make rigorous coursework (including Advanced Placement [AP] courses) available to all students (“KIPP High School Excellence Blueprint” 2019). Prior research has shown that KIPP middle school students who have the opportunity to attend a KIPP high school enroll in more AP courses and, correspondingly, take or intend to take more AP exams than KIPP middle school students without access to a KIPP high school (Tuttle 2015). KIPP high schools also work to establish a “college-going culture” by providing a range of college-related supports to high school students and alumni. For example, every KIPP high school student is paired with a college counselor who provides support in identifying and applying to college programs that are well matched to students’ capabilities, goals, and needs (“Match Matters in Your Region” 2014). KIPP regions also help students and families with financial aid applications and support students in identifying and applying to precollege summer programs, like enrichment programs on college campuses. Further, KIPP regions also provide alumni with additional advice and support after they graduate from high school. For example, advisors or peer mentors meet with alumni to check in on their academic progress through virtual counseling and on-campus visits. In recent years, KIPP has broadened supports for students and alumni to include career-centered counseling and supports for multiple viable postsecondary pathways, including four-year degree programs as well as associate degree programs, career and technical education (CTE) programs, and the military. These college- and career-related supports are largely directed to KIPP high school students and high school alumni. For students who attend a KIPP middle school but do not attend a KIPP high school (including those in regions without any KIPP high schools), these support programs are more limited and the lack of consistent contact with KIPP during high school can make accessing services more challenging. The academic preparation and breadth of college-related services directed to KIPP high school students and, to a lesser extent, the advising supports provided to high school alumni could help to explain why attendance at a KIPP high school is so central to the impacts we observed in this study.

The study has important implications for KIPP, as well as for other charter-school networks and school districts seeking to support student success in college. For example, our findings suggest that KIPP could deliver large, long-term benefits to its students by continuing to expand access to KIPP high schools and encouraging its middle school students to remain enrolled at KIPP through high school graduation. However, it remains to be seen whether KIPP’s impacts on college enrollment and persistence will ultimately translate into improved employment and earnings outcomes for these KIPP alumni. Prior research suggests charter high school attendance may have some positive effects on long-term earnings (Sass et al. 2016; Dobbie and Fryer 2020), but such a study does not exist for KIPP schools in particular. As KIPP alumni pursue four-year college programs as well as alternative pathways, further research may also examine whether KIPP middle and high schools are affecting the earnings and employment outcomes of alumni who choose to pursue other options after high school, such as employment or military service, alongside those who choose to pursue a college degree before entering the labor market.

I. Introduction

A. The Knowledge Is Power Program

The Knowledge Is Power Program (KIPP) is the nation’s largest network of public charter schools, serving nearly 120,000 students across a network of 280 schools located throughout the United States in the 2022-2023 school year. KIPP schools largely enroll students of color from low-income households: approximately 88 percent of KIPP students qualify for free or reduced-price school meals and 94 percent are African American or Hispanic. KIPP’s model focuses on preparing these students for success in college and career, with an approach that emphasizes academic excellence, strong counseling and advising, and empowering effective teachers and school leaders.

To support students’ efforts to choose and prepare for a postsecondary pathway that fits their goals, KIPP provides access to rigorous, college preparatory coursework (including Advanced Placement courses) as well as counseling and other college and career-related supports to students and alumni through the KIPP Forward program. With direction and resources from the national KIPP Foundation, regional KIPP Forward teams coordinate the delivery of various forms of support for local KIPP students (generally high school students) and KIPP alumni (generally alumni attending or planning to attend postsecondary institutions).

In the current study, all students who attended a KIPP high school had access to these college-related supports (Figure I.1). Most students received services through KIPP’s former postsecondary support program known as “KIPP through College,” which primarily supported students to prepare and succeed in traditional college pathways, with a focus on four-year college degrees. However, in recent years, the KIPP network expanded its mission, tasking schools to “prepare students with the skills and confidence to pursue the paths they choose—*college, career and beyond.*” In 2021, KIPP rebranded the network’s postsecondary support program as “KIPP Forward,” marking a formal, networkwide shift to provide counseling and support for multiple viable postsecondary pathways (including four- and two-year degree programs, career and technical education programs, and the military). While all students in our study sample who attended KIPP high schools had access to the general supports listed in Figure I.1, some students in the sample may have experienced more career-related services because of the shift to KIPP Forward.¹ Additional details about the college-related supports offered to students in our study sample can be found in Appendix D.

¹ Students in our sample who attended KIPP and were still in high school in 2017 and 2018 may have had access to more career-related services and information about alternative postsecondary pathways than older students in our sample.

Figure I.1. College-related supports offered to KIPP high school students and alumni during the study period

Source: Interviews with KIPP staff from 10 KIPP regions, conducted in summer 2022, and KIPP Foundation materials.

B. KIPP’s early impacts on student achievement

Prior research has shown that KIPP schools have large positive impacts on student achievement, as measured by standardized test scores (Angrist et al. 2010; Tuttle et al. 2013; Gleason et al. 2014; Tuttle et al. 2015; Knechtel et al. 2017). For example, Tuttle et al. (2013) used a random assignment design to estimate the impacts of 13 oversubscribed KIPP middle schools on student achievement. The design used the schools’ admission lotteries to identify a treatment group of students who received a lottery-based admission offer and compared their outcomes to an equivalent control group of students who did not receive a lottery-based admission offer. For students who attended KIPP, the study found that these KIPP middle schools produced a large and statistically significant gain in students’ math achievement of 0.36 standard deviations after two years and a gain in English language arts (ELA) achievement of 0.15 standard deviations, which was positive but not statistically significant. That study concluded when these students were still in middle school, but now enough time has elapsed to observe whether these students entered college and are completing or have completed college degrees.

The Tuttle et al. (2013) study also paired the lottery study with a nonexperimental analysis and verified that a matched comparison group design produced estimates of KIPP’s achievement impacts that were similar to the lottery-based estimates for schools where both approaches were possible. Further, the study used the matched comparison group approach to examine the impacts of a broader sample of 41 KIPP middle schools and found that KIPP’s achievement impacts were positive and statistically significant in both reading and math throughout four years of middle school. These middle schools also had positive and statistically significant impacts on test scores in the subjects of science and social studies.

Other studies have also provided evidence that KIPP schools have positive impacts on student achievement for elementary and high school students. A study of KIPP elementary schools found that a

lottery-based admission offer to KIPP resulted in positive and statistically significant impacts on three of four measures of students' reading and mathematics skills after three years (Tuttle et al. 2015). Additional evidence from that study suggested that KIPP prekindergarten programs positively affected student achievement above and beyond the effect of KIPP elementary schools (Knechtel et al. 2017). There is also evidence of positive effects in KIPP high schools. In a matched comparison group analysis, Tuttle et al. (2015) found that KIPP high schools had a positive and statistically significant impact on new KIPP entrants (students who did not transition from a KIPP middle school) in the subjects of math, ELA, and science (but not social studies). The study also found that KIPP high schools have positive effects on several aspects of college preparation, including exposure to guidance counseling about college, applying to college, and taking Advanced Placement (AP) courses and exams. Specifically, the study found KIPP has an 11-percentage point impact on the likelihood of students having in-depth discussions at school about how to pay for college (p -value = 0.00). KIPP students were also 5 percentage points more likely to apply to at least one college or university by spring of senior year (p -value = 0.04). Lastly, students with the opportunity to attend a KIPP high school enrolled in 0.9 more AP courses (p -value = 0.00) and, correspondingly, have taken or intend to take 0.82 more AP exams (p -value = 0.00).

C. Prior research on long-term charter school effects

While the evidence of KIPP's effectiveness in improving student test scores is widely known, less is known about the network's impacts on longer-term outcomes, such as entry into and success in college. These are important questions given that success in college, career, and beyond is a central pillar of KIPP's mission. There are also questions about whether the success of charter school networks like KIPP in improving student test scores can translate into success in improving longer-term college outcomes (Greene 2016). Doubts about this have been bolstered by the mixed results from other recent studies of charter schools' long-term effects, which may differ across charter school operators and grade levels. For example, one study found that a set of charter high schools in Boston had large positive impacts on test scores and on enrollment in four-year college programs (Angrist et al. 2016). Another study found similar positive impacts on college enrollment of a Chicago charter high school (Davis and Heller 2019). However, a national study of charter middle schools found that there were no long-term effects of attending a charter middle school on college enrollment, on average (Place and Gleason 2019). Moreover, that study found no relationship between the schools' effects on middle school test scores and the schools' effects on college enrollment. In other words, the schools in that study that were successful in improving middle school test scores did not improve students' postsecondary outcomes as well.

D. Current study on KIPP's long-term effects

This study is the first randomized controlled trial to estimate the long-term impact of receiving an admission offer at a KIPP middle school. The first phase of our study, completed in 2019, revealed that KIPP middle schools have a positive and statistically significant impact on students' enrollment in four-year colleges, as well as a positive—but not statistically significant—impact on college persistence over two years (Coen et al. 2019). This analysis included two cohorts of KIPP students who applied to enter 1 of 13 KIPP middle schools in 2008 or 2009.

This report presents the results of the study's second phase, which builds on the 2019 study in several important ways. First, we increase the precision of the study's impact estimates by adding a third cohort of students who applied to 14 KIPP middle schools in 2011, nearly doubling the study's sample size. Second, we track the students over a longer period (through spring 2022): for all three of the study cohorts, we can observe college enrollment and college persistence patterns for three years after high

school graduation; for the two older study cohorts, we can also examine college persistence and college graduation rates over five years. Finally, this phase of the study includes new exploratory analyses that examine the effect of KIPP high schools alongside the effect of KIPP middle schools, providing a more detailed picture of how college outcomes vary across students who attended KIPP for varying lengths of time.

II. Research Methods

In this chapter, we describe the data and methods we used to estimate the effects of KIPP middle schools on students' postsecondary outcomes. We begin by summarizing our research questions and estimation approach before defining the study sample, data sources, primary and secondary outcomes, and analytical model.

A. Research questions and overview of estimation methods

The study aimed to answer the following primary research questions:

1. What is the impact of KIPP middle schools on students' enrollment in a four-year college?
2. What is the impact of KIPP middle schools on persistence in four-year college programs for at least three years?

To answer these research questions, we used a lottery-based study design derived from the admission process at oversubscribed KIPP middle schools. When a KIPP school had more applicants than the number of available seats, it used a random lottery to determine who received an admission offer. The study used the school lotteries to form treatment and control groups, making it essentially a randomized experiment—the gold standard for estimating impacts. In a properly conducted random assignment study, the treatment group is similar to the control group at the time of the lottery on both observable characteristics (such as prior test scores) and unobservable characteristics (such as levels of motivation and parental support).

During the study period, KIPP continued to expand, with several regions opening new high schools or expanding existing ones, affording some KIPP middle school graduates with more opportunities to remain a part of KIPP beyond eighth grade. Other regions, however, had not opened a KIPP high school by the time the students in our sample graduated middle school. To better understand experiences of students after they applied to a KIPP middle school, we explored the effects of attending a KIPP middle school *and* a KIPP high school on our primary four-year college enrollment and persistence outcomes. To distinguish the effects of attending both KIPP middle and high schools with the effect of attending just a KIPP middle school, the study used an instrumental variables (IV) model that took advantage not only of the randomized admission lotteries described above, but also of the differences between KIPP regions in the availability of KIPP high schools. More specifically, in each region we measured students' opportunity to attend a KIPP high school by the ratio of the number of 9th-grade seats available at KIPP in the region relative to the number of KIPP 8th-grade graduates in that region. In regions where a larger number of high school seats were available, the opportunity to attend a KIPP high school was assumed to be higher. Because this analysis deviates from our primary analysis in several ways, the analysis is considered exploratory.

The study's analyses of the combined effects of KIPP middle and high schools aimed to answer the following exploratory research questions:

- What is the combined impact of KIPP middle and high school attendance compared with no KIPP attendance on students’ enrollment in a four-year college?
- What is the combined impact of KIPP middle and high school attendance compared with no KIPP attendance on persistence in four-year college programs for at least three years, or graduation from four-year college programs in five years?

The study includes three cohorts of students who participated in admission lotteries across 21 different KIPP middle schools (Table II.1). The first two cohorts of students participated in the first nationwide randomized controlled trial of KIPP middle schools (Tuttle et al. 2013), while the third cohort participated in Mathematica’s evaluation of KIPP’s federal Investing in Innovation (i3) grant (Tuttle et al. 2015). In the two original studies, we compared the achievement outcomes of students who received a KIPP admission offer to the achievement outcomes of students who did not receive an admission offer through the lotteries. This follow-up study estimates the impacts of these middle schools on students’ entrance into college and persistence in postsecondary programs approximately 12 to 14 years after the lottery.

B. Study sample and data collection

The study sample consists of 2,066 students who applied to enter grade 5 or grade 6 at an oversubscribed KIPP middle school for either the 2008–2009, 2009–2010, 2010–2011, or 2011–2012 school year. The

study includes data from a total of 36 admission lotteries at the 21 schools, with each lottery representing a distinct combination of school, cohort, and entry grade. As of summer 2022, all students in the sample would have been old enough to have completed at least their third year of college if they followed a standard grade progression through middle and high school (Table II.2). In addition, 57 percent of the sample was old enough to observe college persistence and graduation outcomes for at least five years.

For a KIPP school to be eligible for the study, it had to (1) be oversubscribed—have more applicants than open seats—for 5th or 6th grade by its scheduled lottery date, (2) conduct a lottery to randomly select students for admission offers and produce a randomly ordered waitlist of students not selected for admission via the lottery, (3) make subsequent offers of admission to fill additional open seats following the randomly ordered waitlist, and (4) not exhaust the randomly ordered waitlist of original lottery participants through the start of the school year.

Table II.2. Overview of possible college semester exposure by cohort

Year cohort entered KIPP	Entry grade	Number of lotteries	Potential college semesters by summer 2022	Treatment (N)	Control (N)	Percentage of sample
2008	5	3	12	76	100	9
2008	6	1	14	33	33	3
2009	5	6	10	276	230	24
2009	6	9	12	150	279	21
2011	5	11	6	359	268	30
2011	6	6	8	99	163	13
Total		36		993	1,073	

Note: Because we do not directly observe high school graduation in our study sample, we assume a standard grade progression to estimate a student's potential number of college semesters.

The two original studies excluded students from the sample if they were automatically admitted to the school without participating in the lottery, as would typically happen for students who had a sibling already enrolled in the school. As a result, no students in the study's treatment or control group had any siblings enrolled at KIPP at the time of the lottery. Parental consent was obtained for eligible applicants to participate in the study prior to the schools' admission lotteries, which ensured that there was no systematic relationship between the likelihood of consent for given students and whether they received an admission offer to the school (and thus were in the treatment group) or did not receive an admission offer (and thus were in the control group). The average consent rate among lottery participants was 75 percent and was statistically equivalent for treatment and control students (74 percent and 76 percent, respectively).

To help confirm that the lotteries resulted in treatment and control groups with similar characteristics, we tested for differences between the two groups on key baseline student characteristics. Of the 23 baseline indicators available for the sample, the treatment and control group differ by less than 0.11 standard deviations in all cases. There were no statistically significant differences on the study's four baseline and pre-baseline achievement measures, and there was a statistically significant difference on only 1 of 19 measures of the students' demographic characteristics (Table II.3). These small differences are consistent with the random amount of variation we would expect in a sample of this size. In our regression model to estimate impacts, we also control for any remaining differences in baseline characteristics.

These baseline characteristics also provide a picture of how the students in the study compare to broader populations of students. Most of the sample consists of students of color from low-income households. Among the treatment group, approximately 48 percent of the students are Hispanic, 43 percent are Black, 77 percent are eligible for free or reduced-price lunch, 61 percent of families have incomes of less than \$35,000 a year, 43 percent speak another language than English at home, and 43 percent of the mothers of students never enrolled in any type of postsecondary program. In terms of academic achievement, treatment group students had baseline test scores that were close to the average for their school district (scoring at the 46th percentile in reading and the 48th percentile in math).²

Table II.3. Baseline equivalence for the analytic sample

Baseline characteristic	Treatment	Control	Difference	Number with valid data
Baseline reading score (z-score)	-0.106	-0.149	0.043 (0.054)	1,161
Baseline math score (z-score)	-0.050	-0.121	0.070 (0.058)	1,167
Pre-baseline reading score (z-score)	-0.111	-0.171	0.059 (0.057)	1,073
Pre-baseline math score (z-score)	-0.116	-0.127	0.011 (0.060)	1,078
Student is female	0.502	0.488	0.015 (0.028)	1,879
Age relative to cohort (in years)	-0.004	-0.028	0.024 (0.025)	1,893
Student is Hispanic	0.479	0.485	-0.006 (0.019)	1,875
Student is White	0.024	0.033	-0.009 (0.008)	1,865
Student is Black	0.435	0.411	0.025 (0.017)	1,865
Student is other ethnicity	0.064	0.075	-0.012 (0.012)	1,865
Student has an Individualized Education Program	0.118	0.140	-0.022 (0.020)	1,584
Student received free or reduced-price lunch	0.773	0.750	0.023 (0.021)	1,696
Primary language at home is English	0.575	0.570	0.004 (0.021)	1,850
Household has only one adult	0.275	0.243	0.032 (0.024)	1,939
Family income is less than \$15,000	0.193	0.183	0.010 (0.022)	1,568
Family income is \$15,000 to less than \$25,000	0.217	0.225	-0.008 (0.024)	1,568
Family income is \$25,000 to less than \$35,000	0.196	0.227	-0.032 (0.028)	1,568

² This sample of students at oversubscribed KIPP middle schools is also broadly representative of the overall population of KIPP schools at the time the studies began. See Appendix A for additional detail.

Baseline characteristic	Treatment	Control	Difference	Number with valid data
Family income is \$35,000 to less than \$55,000	0.203	0.177	0.026 (0.023)	1,568
Family income is greater than \$55,000	0.191	0.188	0.004 (0.025)	1,568
Mother has less than a high school education	0.165	0.210	-0.045* (0.020)	1,735
Mother completed high school education	0.261	0.235	0.026 (0.024)	1,735
Mother has some college education	0.259	0.291	-0.033 (0.027)	1,735
Mother has at least a college education	0.316	0.264	0.052 (0.026)	1,735

Note: Standard errors reported in parentheses. The difference between lottery winners and nonwinners is based on a regression of the characteristic on treatment status and site indicators for the original analytic sample of 2,066. The lottery nonwinner mean is unadjusted, and the lottery winner mean is the sum of the lottery nonwinner mean and the regression-adjusted difference between groups. Missing data were not imputed: sample sizes differ by row, due to variation in data availability by site. All the baseline characteristics in this table are included as covariates in the study’s primary impact model.

*Significantly different from zero at the 0.05 level, two-tailed test.

C. Data sources

Our data source for measuring students’ college outcomes is the National Student Clearinghouse (NSC), which provides data on college enrollment, persistence, and degree completion at colleges and universities enrolling more than 97 percent of all public and private students in the United States (Dundar and Shapiro 2016). We requested data from the NSC on postsecondary enrollment patterns through the spring 2022 semester for 1,177 of the 1,179 students in the original randomized controlled trial study and 889 of the 891 students from the i3 evaluation for whom we have valid birthdates (for a total of 2,066 of the 2,070 students, or 99.8 percent). The NSC provides information on whether the students in our sample match a student in their database of those who attended a postsecondary institution. Students for whom there is a match are considered to have enrolled in a postsecondary institution. Students for whom there is no NSC match are defined as not having attended any postsecondary institution. In addition to using NSC enrollment data, we also used the NSC’s indicator for college graduation to measure graduation rates for the first two cohorts of students in the study. (We did not measure college graduation rates for cohort 3 because most of the students in this cohort did not have enough time to complete four years of college by spring 2022, the final semester in our NSC data set).

It is possible that some students in our sample attended college but were not successfully matched in the NSC database due to data errors in names or birthdates, as well as colleges or students withholding enrollment data to the NSC (Dynarski et al. 2015). We used several approaches to mitigate this risk. We crosschecked multiple sources of students’ birthdates in our sample, and if there was a discrepancy, we submitted both birthdates to the NSC. If a student had a middle name or a hyphenated last name, we submitted permutations of student names to the NSC to ensure that our request included each student’s official name in the NSC database. Finally, the NSC reported the number of student matches that were blocked by the school or student and thus not included in our analysis (and coded as not enrolling). The rates were similar in the treatment and control groups (4 percent for the control group and 2 percent for the treatment group). Appendix A provides more information on our NSC data request.

In addition to the NSC database, we downloaded administrative data from the Integrated Postsecondary Education Data System, which provides information on college enrollment, graduation, financial aid, and demographics. The KIPP Foundation also provided student rosters for KIPP schools for the duration of the follow-up period, so we could ascertain the number of years that each student in the sample (including those in the treatment and control groups) attended a KIPP middle school or high school. For baseline data on the sample (measuring the characteristics of students before they applied to a KIPP middle school lottery), we used data collected for the original KIPP study and the i3 study, including lottery application records; a baseline survey of parents, which included demographic and socioeconomic information; and administrative records from states, districts, or schools that provided baseline and pre-baseline test score data for the study sample.³

Finally, to better describe the extent of college supports provided to KIPP students and alumni across study cohorts and schools in different regions, we conducted interviews with KIPP staff in regions served by the KIPP middle and high schools in our sample. Through these interviews, we collected information about the types of college-related support services available to students and alumni during the study period. We also asked staff about changes to programming over the last ten years, including changes related to the COVID-19 pandemic and the KIPP network's evolution to support diverse postsecondary pathways in addition to four-year college programs. Interviews took place in summer 2022 and included staff from 10 of the 13 regions served by KIPP schools in our study. The interviews cover regions that include 86 percent of the KIPP middle schools and 83 percent of the students in the study sample.

D. Outcomes

Our analysis focused on two primary outcomes: college enrollment and college persistence.⁴ We define our primary measures as:

- ***Ever enrolled in a four-year college.*** Student was enrolled in a four-year college within three years following the student's expected high school graduation date.
- ***Persisted through first six semesters in a four-year college.*** Student was enrolled in a four-year college for six consecutive semesters, following the student's expected high school graduation date.

While the KIPP network seeks to counsel and support students who may choose a variety of career pathways, it is heavily focused on helping students to enroll and succeed in four-year postsecondary programs with relatively high graduation rates, particularly among first-generation, Pell Grant-eligible students of color. As such, the study's primary analyses focus on enrollment and persistence in four-year postsecondary programs (rather than two-year programs).

Because we do not directly observe high school graduation in the data collected for this study, we assume each student followed a standard grade progression from the date of their middle school admission lottery through to the end of high school.⁵ As a result, patterns of grade retention among students in the sample

³ In coordination and agreement with NSC and Arnold Ventures, a restricted use file containing the data used to conduct the impact analyses is available to external researchers upon request. Requests for the restricted use file can be sent to researchrequests@kipp.org.

⁴ Prior to collecting any data or performing data analyses, we preregistered the study's choice of primary outcomes and analytical methods through the Open Science Framework, hosted by the Center for Open Science (Nichols-Barrer et al. 2021).

⁵ If the NSC data reported that a student was enrolled in college full time one year prior to their expected high school graduation date, we assumed the student graduated high school one year early and adjusted their high school (continued)

could introduce bias into our outcome measures if grade-retention rates differ significantly between the treatment and control groups. If grade-retention rates differed in the two groups, this could be a source of bias because those who were held back a year in middle or high school would not have an opportunity to enroll in college “on time” in the fall after their *expected* high school graduation date (because they remained in secondary school for at least one year longer than expected).

In our sample, we can observe grade-retention rates among students who attended a KIPP school using data provided by the KIPP Foundation. Across both middle and high school, 7 percent of students who ever enrolled in a KIPP school repeated a grade while enrolled at KIPP. We cannot directly observe grade-retention rates outside of KIPP, and therefore we cannot directly compare the retention rates of the treatment and control groups. However, prior studies have shown that students at KIPP middle schools have tended to repeat a grade at higher rates than students at traditional public schools (Nichols-Barrer et al. 2016; Tuttle et al. 2013; Tuttle et al. 2015). If a larger share of treatment students than control students repeated a grade in their middle or high school years, this could lead to higher rates of on-time college enrollment in the control group even if the two groups were equally likely to proceed to college immediately following their high school graduation.

To help address this issue, this study’s primary measure of college enrollment considers a student to have enrolled in college if they appear in a four-year college program at any point within the first three years after high school graduation (the longest follow-up period available for all of the study’s cohorts).⁶ The three-year window is more likely to capture the college enrollment outcomes of students who were held back in middle school or high school (and we also estimate the effects of KIPP on “on-time” college enrollment as a secondary outcome).

Our first study examining the long-term effects of KIPP middle schools (Coen et al. 2019) was limited to a two-year follow-up period, and only examined two cohorts of KIPP middle school students. The outcomes examined in this study use a three-year follow-up period. Tracking students for an additional year allows us to identify patterns in delayed enrollment—for instance, if the comparison group “catches up” to the treatment group—as well as rates of persistence over a longer period. In addition, this study has added a third cohort of KIPP middle students, nearly doubling the study’s sample size.

Using data through spring 2022, we are also able to measure college degree completion rates for our first two cohorts.⁷ Our primary college graduation outcome measures four-year degree completion within five years of expected high school graduation. We also defined an outcome identifying whether a student had either graduated or remained “on-track” to complete a four-year degree program (students were defined as being “on-track” if they were enrolled in college on a part-time or full-time basis in the tenth semester after high school).

graduation date accordingly. If a student was enrolled part-time in college prior to their expected high school graduation, we classified the student as being dual-enrolled in both high school and college and did not adjust their high school graduation date.

⁶ The NSC data allow us to identify whether students withdrew or completed each college semester in which they enrolled. Our primary measure of college enrollment includes all students who enrolled in college during the first three years after high school, irrespective of whether they withdrew in their first semester. As a sensitivity test, we also examine a secondary version of this outcome that excludes withdrawals (requiring that the student completes their first enrolled semester).

⁷ There is evidence that the NSC database is more likely to omit graduation indicators from two-year college programs compared to four-year programs (Dynarski et al. 2015). As a result, we do not estimate impacts on graduation rates for two-year degree programs.

To better understand and contextualize results for our primary outcome measures, we also estimated impacts on secondary measures of college enrollment and persistence. This included examining enrollment and persistence at any type of college, including two-year programs. Examining other types of colleges allows the study to explore the postsecondary trajectories of students who began in a two-year program before transferring to a four-year program. We also measured several alternative ways of defining college persistence, including the total number of semesters enrolled over three years (and five years for the first two cohorts) and the total number of consecutive semesters enrolled, among others. A full list of secondary outcome measures of college enrollment and persistence is included in Appendix B.

Lastly, in addition to these alternative ways of defining enrollment and college persistence, we examined whether KIPP affects the types of colleges that students select. To do so, we used measures of each college’s selectivity, average graduation rate, and the socioeconomic makeup of the student body.⁸ Details about these outcome measures are provided in Appendix B as well.

E. Analytical approach

Intent-to-treat impacts. Our primary impact estimates compare students who received an admission offer through the lottery to students who did not receive an admission offer at the time of the lottery. These “intent to treat” (ITT) impact estimates use a conservative approach that includes students in the treatment group even if they declined to enroll in a KIPP school after receiving an admission offer. Therefore, the estimates capture the impact of receiving an admission offer. We estimated the impacts of KIPP on postsecondary outcomes using the regression model in equation (1), which compares outcomes of treatment and control students while adjusting for differences in their baseline characteristics:

$$(1) \quad y_{ik} = \alpha + \delta * T_{ik} + \beta * X_{ik} + \gamma_k + \varepsilon_{ik}$$

In this model, i and k index students and school lotteries, respectively, and y is the student-level outcome of interest (either binary or continuous). T is a binary treatment status variable indicating whether the student received an admission offer by lottery to the KIPP school to which they applied, and X is a set of control variables that capture student-level characteristics. These control variables include baseline and pre-baseline math and reading test scores; gender; age (standardized by grade and year to reflect whether a student is young or old for their grade); race/ethnicity; household income; mother’s education; whether a household has only one adult; and if the student receives free or reduced-priced lunch, has an individual education plan, and primarily speaks English at home. The regression model also controls for the school to which the student applied, the year, and the grade they were in (sometimes referred to as *lottery fixed effects*).

The regression model also includes a set of dummy variables, one for each covariate, indicating whether the value of a covariate is missing for each student. Missing data in baseline control variables were primarily imputed using single stochastic regression imputation as part of the original two studies. This approach was selected as it represents the most rigorous method of accounting for missing covariate data without biasing the magnitude or standard error of the impact estimates. Specifically, imputation of missing values was conducted separately by treatment status, and included all of the covariates in the regression used for our main impact analysis. The model also included a stochastic component randomly selected from the set of all residuals in the imputation regression to ensure that the variance of the

⁸ Our analysis of college program attributes included the first college attended after high school graduation for students who enrolled in multiple colleges during the study period. For the impact analyses, students who did not attend college received a value of zero for each college program attribute outcome.

imputed values is the same as the variance of observed values in the treatment or control group, respectively. In addition, there were some students for whom this regression imputation procedure was not possible because they were excluded from the original two studies (due to missing outcomes, for instance) or who were missing the covariate data needed to conduct this procedure. For these students, we used a dummy imputation approach by setting all missing covariates to a value of zero and including imputation indicators in the regression model.⁹

To estimate the impact model (equation 1), we used a linear probability model for any binary outcomes and incorporated sample weights that account for the fact that some students have a higher probability of receiving an admission offer (either based on their inclusion in a particular lottery stratum defined by a student characteristic or because they have a sibling in the lottery).

Our model is the same one used to estimate achievement impacts in the initial two studies of KIPP middle schools. We tested the model by successfully replicating the middle school achievement impacts from the original KIPP middle school study, using the follow-up study's updated and merged data files. We also conducted a series of sensitivity analyses to check if our results were sensitive to our model specification. We estimated impacts using models without covariates, without imputation for baseline covariates, and using a logit instead of a linear probability model for binary outcomes. In addition, we checked results using two alternative weighting approaches: (1) inverse-variance weights, which give greater weight to the lottery sites with more precise site-level impact estimates; and (2) equal site weights, which estimate the impact of the average KIPP lottery site. Our primary approach weights the KIPP lottery sites according to each site's weighted sample size, so it effectively yields an estimate of the impact of KIPP on the average lottery participant. Results from our sensitivity analyses are included as Appendix B.1 and show that the primary impacts are not sensitive to any of these modeling decisions.

In addition to our primary analyses for the full study sample, we conducted several exploratory subgroup analyses. First, we examined whether KIPP's impacts differed for key subgroups of students, including subgroups defined by a student's race, gender, socioeconomic status, and baseline achievement level. Due to small sample sizes these subgroup analyses are only exploratory, and the results can be found in Appendix B. To examine other potential underlying patterns in the impact estimates, we also tested whether the impact of KIPP differed by the grade level of the lottery applicant (grade 5 or 6) as well as by study cohort. Additional details and summary of findings for these analyses can also be found in Appendix B.

Treatment-on-the-treated impacts. Our primary impact estimates (the ITT impacts) measure the effect of receiving an admission offer to a KIPP middle school, regardless of whether treatment group students actually attended a KIPP middle school (or, conversely, whether control-group students who did not receive an admission offer attended KIPP in a later year). In our sample, a significantly larger proportion of treatment students attended a KIPP school (71 percent) than control students (15 percent), as shown in Figure II.1. In terms of years of attendance, the average treatment student attended KIPP schools for 3.62 years, compared to 0.76 years for the average control student. In other words, students in the treatment group attended KIPP for about 2.9 years longer on average than students in the control group.

While treatment students attended KIPP schools longer than students in the control group, only 36 percent of treatment students attended a KIPP high school for any length of time. The relatively low prevalence of

⁹ While we use these imputed baseline covariates in our analysis of KIPP's impacts, none of the imputed values were included in the tests of baseline equivalence discussed previously in this chapter. For the analysis of baseline equivalence, students missing data on a given variable were simply treated as being missing from the sample.

KIPP high school attendance in the sample could be related to several different factors. For instance, some students who received admission offers to KIPP never enrolled in a KIPP middle school, or they enrolled but did not graduate from a KIPP middle school—decreasing their likelihood of ever attending a KIPP high school. In addition, some students who completed middle school at KIPP did not continue to a KIPP high school because KIPP did not have an operational high school in their region at the time, or the region had one or more high schools but did not have the capacity to enroll all rising 9th-grade KIPP students. Still other students may have graduated from a KIPP middle school and had the opportunity to continue in the KIPP network but declined the opportunity to attend a KIPP high school. Nevertheless, compared with the control group a significantly larger proportion of the treatment group attended a KIPP high school (36 percent compared to 11 percent) and graduated from a KIPP high school (17 percent compared to 6 percent).

Figure II.1. Exposure to KIPP middle and high schools, by lottery group

Note: We estimated sample means by regressing KIPP attendance on treatment status using inverse probability weights. The control mean is unadjusted, and the treatment mean is the sum of the control mean and the regression-adjusted difference between groups. The difference for each indicator is statistically significant (p -value < 0.01). Sample size = 2,066.

To estimate the effect of attending a KIPP middle school, as opposed to having the opportunity to attend, we conducted an exploratory analysis that involved estimating an IV model, which used the outcome of a KIPP admission lottery as an instrument for whether a student ever attended a KIPP middle school. This “treatment-on-the-treated” (TOT) model requires additional assumptions that are not needed to estimate ITT impacts.¹⁰ Specifically, to adjust for the patterns of KIPP middle school attendance in both the

¹⁰ The TOT estimates are sometimes referred to as complier average causal effect (CACE) estimates. Technically, they provide an estimate of the effect of attending a KIPP middle school for students who comply with the lottery outcome. In other words, these compliers attend a KIPP middle school if they receive an admission offer and do not attend KIPP if they do not receive an admission offer.

treatment group and the control group, the analysis assumes that the impact of attending KIPP experienced by students in the treatment group is the same on average as the impact of attending KIPP experienced by students in the control group. Our estimating equation follows the model used in the original KIPP study. We used two-stage least squares to first estimate the effect of receiving an admission offer on KIPP middle school attendance (IV equation 1), and in the second stage estimated the impact of KIPP middle school attendance (as predicted by the lottery) on student outcomes (IV equation 2).

$$(IV \text{ equation } 1) \quad attendKIPPMS_i = \mu + \rho * T + \sigma * X_{ik} + v_k + j_{ik}$$

$$(IV \text{ equation } 2) \quad y_{ik} = \alpha + \delta * \widehat{attendKIPPMS}_{ik} + \beta * X_{ik} + \gamma_k + \varepsilon_{ik}$$

In IV equation 2, δ is the parameter of interest, representing the impact of attending a KIPP middle school at any point after the initial school lottery. Because students who attend a KIPP middle school have an increased likelihood of attending a KIPP high school, part of this estimated impact for a portion of the sample may reflect the influence of also attending a KIPP high school. In other words, the KIPP middle school impact captures any effects on college outcomes of these middle schools for the full sample as well as any additional effects of KIPP high schools for a portion of the sample.

Estimating the combined effect of KIPP middle and high schools. As discussed above (Figure II.1) approximately half of the students in the treatment group who attended a KIPP middle school also attended a KIPP high school. As a result, estimates from the TOT model represented by IV equations 1 and 2 reflect the combined effect of KIPP middle and high schools for about half of the treatment group, and the effect of KIPP middle schools alone for the remaining half of the treatment group. Because many of KIPP’s college-preparation and support programs are concentrated on students in KIPP high schools, it is plausible that the direct effects of attending a KIPP middle school on college-related outcomes could differ substantially from the combined effect of attending KIPP for both middle and high school. To examine this issue, we estimated the following IV model designed to measure the effects of attending KIPP middle and high schools:

$$(IV \text{ equation } 3) \quad attendKMS_{ik} = \mu + \rho_{M1} * T_{ik} + \rho_{M2} * HSR_{ik} + \sigma_M * X_{ik} + v_{kM} + j_{ikM}$$

$$(IV \text{ equation } 4) \quad attendKHS_{ik} = \mu + \rho_H * T_{ik} + \rho_{H2} * HSR_{ik} + \sigma_H * X_{ik} + v_{kH} + j_{ikH}$$

$$(IV \text{ equation } 5) \quad y_{ik} = \alpha + \delta_1 * \widehat{attendKMS}_{ik} + \delta_2 * \widehat{attendKHS}_{ik} + \beta * X_{ik} + \gamma_k + \varepsilon_{ik}$$

In this model, we first predicted attendance at a KIPP middle school (*attendKMS*) and attendance at a KIPP high school (*attendKHS*) using two first-stage equations (3 and 4). We then estimated the impact of KIPP middle school attendance (δ_1) and high school attendance (δ_2) on college outcomes in the second stage. Although attending a KIPP middle and high school are included separately in this equation, it is important to note that nearly all students in the treatment group who attended a KIPP high school had previously attended a KIPP middle school. In interpreting the results of this model, we therefore focus on the combined effect of attending a KIPP middle school and then a KIPP high school, relative to attending neither (that is, no KIPP attendance). This combined δ effect is represented by the sum of δ_1 and δ_2 .

There are two key instrumental variables included in the first-stage equations.¹¹ The first, T , is a student’s treatment status (whether they received a lottery-based, middle school admission offer). The second, HSR , represents the capacity of the region’s KIPP high schools relative to the capacity of KIPP middle schools at the time the student was making the middle to high school transition. HSR is defined as follows:

$$HSR_{ik} = \left(\frac{\text{\# of 9th graders in KIPP high schools in the region in student's 9th grade year}}{\text{\# of 8th graders in KIPP middle schools in the region in student's 8th grade year}} \right)$$

We used the HSR variable as an instrument in this model because it measures the extent to which a KIPP middle school student had “the opportunity to attend a KIPP high school.” A ratio greater than 1 signifies that KIPP high schools had the capacity to enroll more students than the number of graduating 8th graders at KIPP middle schools in that region. When this was the case, a student who graduated from a KIPP middle school would be guaranteed a seat in a KIPP high school if they desired one. A ratio less than 1 signifies that there was an insufficient number of seats in KIPP high schools to enroll all of the region’s rising 9th-grade students. Around the time students in our study were entering high school, KIPP was in the process of broadly expanding from a network of middle schools to a K–12 model. Moreover, the timing of expansion (for example, the number of new KIPP high schools that opened in a given year) varied from region to region, and some regions did not open any high schools in time for the students in our sample to attend a KIPP high school. In other regions, a KIPP high school was able to accommodate a large portion of the students in the study who wanted to continue at KIPP after middle school. For example, one region participating in our study (KIPP Northern California) had opened two high schools by fall 2011, in time to enroll the first two cohorts in our study. At that time, the high schools in this region had capacity to enroll approximately three-fourths of the graduates from KIPP middle schools, so the HSR variable was equal to approximately 0.75 for the students in these two cohorts. In contrast, a region like KIPP Baltimore did not open any KIPP high schools in time to serve the three cohorts in our study, so the HSR variable there was equal to 0.

To provide valid impact estimates, this IV model must satisfy two important conditions. First, IV equations 3 and 4 (the first stage of model) must provide strong predictions about which students attend KIPP middle schools and which students attend KIPP high schools. Second, the instruments used in the model must satisfy the assumption that they are not correlated with the study’s outcomes of interest (college enrollment and persistence) through any channel other than their influence on the endogenous variables of KIPP middle and high school attendance. In Appendix C, we present the results of a variety of empirical tests assessing the extent to which the model satisfies these two conditions.

¹¹ In practice there are five instruments in total, because T and HSR are also interacted with each other, and each is interacted with an indicator for whether a student was in grade 5 or grade 6 when they applied to enter KIPP.

III. KIPP’s Impact on College Enrollment and Persistence

In this section we present three sets of findings from our analyses of the impact of KIPP on college outcomes. First, we present the impacts of KIPP middle schools on our primary college enrollment and college persistence outcomes. We estimate these outcomes for the full sample, on key subgroups of students and by study cohort, and under different model assumptions in a series of sensitivity analyses (findings from the sensitivity analyses are provided in Appendix B). Second, we estimate the impact of KIPP middle schools on college graduation rates, as well as impacts on the outcome of being “on-track” for degree completion five years after high school. Finally, we build on these analyses to examine the joint effect of attending both a KIPP middle school and a KIPP high school on college enrollment, college persistence, and college graduation outcomes.

A. Primary impacts of KIPP middle schools on college enrollment and persistence

KIPP middle schools had a positive impact on enrollment in four-year colleges, but the effect was not statistically significant. On average, students who received a lottery-based admission offer to a KIPP middle school were 3.8 percentage points more likely to enroll in a four-year college than students who applied to KIPP but did not receive an admission offer (*p*-value 0.123). In particular, 51.4 percent of treatment students enrolled in a four-year college within three years of high school graduation, compared with 47.6 percent of control students (Figure III.1).

Figure III.1. Impact of KIPP middle schools on four-year college enrollment

Note: Study includes 2,066 students who applied to enter KIPP through middle school admission lotteries, and compares the outcomes of students who received an admission offer to KIPP (treatment group) to those who did not receive an admission offer (control group) at the time of the lottery. Exploratory estimates of the impact of KIPP attendance use the lottery as an instrument for whether a student ever attended a KIPP middle school. The model pools all 21 lottery schools, controls for baseline covariates, and includes weights to account for probability of assignment to the treatment or control group.

ITT = intent-to-treat; p.p. = percentage points; TOT = treatment-on-the-treated.

In our exploratory analysis estimating impacts among students who ended up attending a KIPP middle school, we find that the impact estimate is almost twice the size of the impact estimate based on admission offers alone, but this still does not reach statistical significance.¹² The impact of attending a KIPP middle school on enrolling in a four-year college is 6.5 percentage points and represents an increase from 46.8 percent in the control group to 53.3 percent in the treatment group (*p*-value 0.116).

While KIPP middle schools did not have a detectable impact on college enrollment rates, they did have a modest (but statistically significant) positive effect on the selectivity of college programs that students attend. Students admitted to KIPP middle schools attend more selective colleges, on average, compared to control-group students. Among students in the study sample who went to college, the average college attended by a college-going treatment student had an admission rate of 74 percent, compared to 77 percent for control-group students. However, we saw no significant differences between the treatment and control groups on other college-program attributes, such as college graduation rates, the percentage of students who are non-White, the percentage of students who received Pell Grants, or the percentage of students who received federal loan grants (Figure III.2). In Appendix B we also estimate the effect of KIPP middle schools on alternative measures for these college attributes and find no significant differences.

Figure III.2. Types of colleges attended for the treatment and control groups

Note: Sample size contains students who ever attended a postsecondary institution. All measures have a sample size of 1,359 except college graduation rate, where the rate was missing from colleges attended by four students.

*Difference is significantly different from zero at the .05 level, two-tailed test.

¹² Our treatment-on-the-treated model adjusts for the rate of KIPP middle school attendance in both the treatment group (70 percent) and the control group (12 percent). Implicitly, this model assumes that attending KIPP has the same impact on college outcomes for the students from the treatment group and control group who attended a KIPP middle school. An alternative, outlined in Bloom (2006), avoids this assumption by adjusting only for rates of KIPP middle school attendance in the treatment group and ignoring attendance patterns in the control group. Under this alternative model, the estimated impact of attending KIPP would be 5.1 percentage points for enrollment in four-year colleges and the impact estimate remains statistically insignificant.

Next, we measured whether KIPP middle schools had an impact on rates of persistence in four-year college programs. As shown in Figure III.3, we did not find evidence that KIPP middle schools impact college persistence rates over three years. Here we define “persistence” as enrollment in a four-year college beginning in the fall after high school graduation and continuing without interruption for three years (or six semesters). In our sample, 23.8 percent of students who received an admission offer to a KIPP middle school ended up entering and persisting in a four-year college through their first six semesters, compared to 23.3 percent of students who did not receive an admission offer to a KIPP middle school—a difference of 0.6 percentage points (*p*-value 0.785). Even after accounting for which students ended up attending a KIPP middle school, the difference between the treatment and control group remains small and statistically insignificant.

Figure III.3. Impact on persistence through six semesters in a four-year college

Note: Study includes 2,066 students who applied to enter KIPP through middle school admission lotteries, and compares the outcomes of students who received an admission offer to KIPP (treatment group) to those who did not receive an admission offer (control group) at the time of the lottery. Exploratory estimates of the impact of KIPP attendance use the lottery as an instrument for whether a student ever attended a KIPP middle school. The model pools all 21 lottery schools, controls for baseline covariates, and includes weights to account for probability of assignment to the treatment or control group.

ITT = intent-to-treat; p.p. = percentage points; TOT = treatment-on-the-treated.

We summarize the study’s primary intent-to-treat and exploratory treatment-on-the-treated impact estimates for college enrollment and persistence in Table III.1, with standard errors for each impact estimate reported in parentheses. We also examined whether our findings on four-year college enrollment and early persistence were sensitive to the specifications of our impact model and found that the impact estimates remained consistent when using alternative estimation models, different approaches to dealing with missing baseline data, or alternative sample weights. The full results of these sensitivity analyses can be found in Appendix B.

Table III.1. Primary impact estimates for college enrollment and persistence

Primary outcome	Impact of KIPP middle school admission offer (primary results)				Impact of attending a KIPP middle school (exploratory results)			
	Treatment mean	Control mean	Impact estimate	p-value	Treatment mean	Control mean	Impact estimate	p-value
Ever enrolled in a four-year college	51.4%	47.6%	3.8 p.p. (2.4 p.p.)	0.123	53.3%	46.8%	6.5 p.p. (4.1 p.p.)	0.116
Persisted through first six semesters (four-year college)	23.8%	23.2%	0.6 p.p. (2.1 p.p.)	0.785	24.1%	23.1%	1.0 p.p. (3.5 p.p.)	0.781

Note: Standard errors are reported in parentheses under each impact estimate. Study includes 2,066 students who applied to enter KIPP through middle school admission lotteries, and compares the outcomes of students who received an admission offer to KIPP (treatment group) to those who did not receive an admission offer (control group) at the time of the lottery. Estimates of the impact of KIPP attendance use the lottery as an instrument for whether a student ever attended a KIPP middle or high school. The model pools all 21 lottery schools, controls for baseline covariates, and includes weights to account for probability of assignment to the treatment or control group.

p.p. = percentage points.

In addition to our full lottery sample, we also investigated whether the impact of KIPP middle schools differed for subgroups of students, such as students with lower family income or lower baseline academic achievement. While subgroup sample sizes were small, we found no evidence that the long-term effects of KIPP middle schools differed for groups of students based on race, gender, income, mother’s education, or baseline test scores. There was some suggestive evidence that KIPP’s impacts on primary outcomes may have been somewhat lower for low-income students and students with low baseline math scores; however, after adjusting for multiple comparisons across subgroup findings, these impacts were no longer statistically significant (see Appendix B).

Finally, to better understand how KIPP impacts may have changed over time (and assist in comparing the results in this report to the study’s earlier report [Coen et al. 2019], which focused only on cohorts 1 and 2), we estimated impacts on our primary outcomes for cohort 3 (applicants to KIPP middle schools in 2011) separately from cohorts 1 and 2 (applicants in 2008 or 2009). This allows us to track the earlier cohorts’ educational outcomes over a longer period as well as compare KIPP’s effects between the earlier and later cohorts.

While the estimated impacts of KIPP middle schools on both four-year college enrollment and persistence were larger in magnitude for cohorts 1 and 2 than for cohort 3, the estimates for the two groups were not statistically distinguishable from one another. For instance, although treatment students in cohorts 1 and 2 enrolled in four-year colleges at similar rates as treatment students in cohort 3 (51 percent compared to 52 percent; Figure III.4), cohort 1 and 2 treatment students were 4.4 percentage points more likely to enroll in college than their peers in the control group (p -value = 0.202), whereas cohort 3 treatment students were 2.9 percentage points more likely to enroll in college than their peers in the control group (p -value = 0.383). However, the difference in impacts across cohorts was not statistically significant (p -value = 0.746).

Similarly, estimated impacts on college persistence rates were more positive for students in cohorts 1 and 2, relative to cohort 3, but none of the cohorts experienced an impact that was statistically significant (Figure III.5). Cohort 1 and 2 treatment students were 2.8 percentage points more likely to persist in college than their peers in the control group (p -value = 0.343), whereas cohort 3 treatment students were 2.3 percentage points less likely to persist in college than their peers in the control group (p -value =

0.416). The difference in impacts across cohorts was not statistically significant (p -value = 0.199). Appendix B provides a complete set of cohort-level impact estimates for these outcomes.

Figure III.4. Impact of KIPP middle schools on four-year college enrollment, by cohort

Note: Study includes 2,066 students who applied to enter KIPP through middle school admission lotteries (1,177 students who applied in 2008 or 2009 [Cohorts 1 and 2] and 889 students who applied in 2011 [Cohort 3]) and compares the outcomes of students who received an admission offer to KIPP (treatment group) with those who did not receive an admission offer (control group) at the time of the lottery. The model pools all 21 lottery schools and estimates outcome means by regressing the outcome measure on treatment status using inverse probability weights and controlling for student-level covariates and the lottery school, year, and grade. The control mean is unadjusted, and the treatment mean is the sum of the control mean and the regression-adjusted difference.

p.p. = percentage points.

It is important to note that the study’s estimates on college enrollment rate for cohorts 1 and 2 from the previous phase (Coen et al. 2019) are slightly smaller in magnitude than the findings presented in this report. The results differ because the enrollment outcome used in the current report tracks students for three years after high school, whereas the previous report tracked students for only two years after high school. After following cohorts 1 and 2 for a third year, the impact of KIPP middle schools on college enrollment became smaller because, in their third year after high school, students in the comparison group entered college at a slightly higher rate than students in the treatment group who had not entered college previously. In other words, students who attended KIPP middle schools were more likely to enter college one or two years after high school, rather than waiting until the third follow-up year.

Figure III.5. Impact on persistence through six semesters in a four-year college, by cohort

Note: Study includes 2,066 students who applied to enter KIPP through middle school admission lotteries (1,177 students who applied in 2008 or 2009 [Cohorts 1 and 2] and 889 students who applied in 2011 [Cohort 3]) and compares the outcomes of students who received an admission offer to KIPP (treatment group) with those who did not receive an admission offer (control group) at the time of the lottery. The model pools all 21 lottery schools and estimates outcome means by regressing the outcome measure on treatment status using inverse probability weights and controlling for student-level covariates and the lottery school, year, and grade. The control mean is unadjusted, and the treatment mean is the sum of the control mean and the regression-adjusted difference between groups.

p.p. = percentage points.

B. Impacts on four-year degree completion

KIPP middle schools had little to no impact on four-year degree completion rates among the first two cohorts in the study. On average, 21.9 percent of cohort 1 and 2 students who received a lottery-based admission offer to a KIPP middle school completed a four-year degree within five years of their expected high school graduation date, compared to 21.8 percent of students who applied to KIPP but did not receive an admission offer. The 0.1 percentage point difference is not statistically significant (p -value = 0.992).

We also estimated if KIPP middle schools had an impact on whether students remained “on-track” to graduate college five years after high school. In addition to students who completed a four-year degree within five years, this outcome also includes students who remained enrolled in a four-year degree program in the tenth semester after high school. Our findings for this outcome suggest students in the treatment group remained on-track for graduation at higher rates than the control group after five years (35.5 percent of treatment students, versus 34.3 percent of control students), but the 1.3 percentage point difference is not statistically significant (p -value = 0.698; Table III.2). In our exploratory analysis accounting for which students ended up attending a KIPP middle school, the impact estimates for degree completion (and being on-track for degree completion) remain small and statistically insignificant.

Table III.2. Impact estimates for college graduation and longer-term college persistence

Outcome	Impact of KIPP middle school admission offer (primary results)				Impact of attending a KIPP middle school (exploratory results)			
	Treatment mean	Control mean	Impact estimate	p-value	Treatment mean	Control mean	Impact estimate	p-value
Graduated from a four-year college in five years	21.9%	21.8%	0.0 p.p. (2.7 p.p.)	0.992	21.9%	21.8%	0.0 p.p. (4.8 p.p.)	0.992
Enrolled in a four-year program in 10th semester (or graduated in 10 semesters or fewer)	35.5%	34.3%	1.3 p.p. (3.2 p.p.)	0.698	36.2%	34.0%	2.3 p.p. (5.7 p.p.)	0.691

Note: Standard errors are reported in parentheses under each impact estimate. Sample includes 1,177 students who applied to enter KIPP through middle school admission lotteries in 2008 and 2009 and compares the outcomes of students who received an admission offer (treatment group) to those who did not receive an admission offer (control group) at the time of the lottery. Estimates of the impact of KIPP attendance use the lottery as an instrument for whether a student ever attended a KIPP middle school. The model pools 13 lottery schools, controls for baseline covariates, and includes weights to account for probability of assignment to the treatment or control group.

p.p. = percentage points.

C. Exploratory analysis of the combined impact of attending a KIPP middle school and a KIPP high school

Thus far, we have observed that KIPP middle schools have a modest positive effect on college enrollment, but the estimated impacts are not statistically significant (either for the overall sample or for subgroups of interest). We also did not find evidence that KIPP middle schools affect college persistence or graduation rates. However, the students in our study’s treatment group who attended KIPP middle schools fall into two groups: approximately half attended KIPP only for middle school, and the other half went on to attend a KIPP high school. Among this latter group, the joint effect of attending KIPP for both middle and high school could differ substantially from the effect of attending KIPP for middle school alone. To investigate this question, we estimated the combined impact of KIPP middle and high schools on the college outcomes of students who attended both types of schools.

There are strong reasons to hypothesize that KIPP high schools could be especially important in driving college outcomes. KIPP’s college-support programs and services tended to be strongly concentrated at the high school level. At the time the students in the study sample were attending high school, these services included rigorous, college-preparatory coursework; individualized college counseling, including support identifying schools well matched to students’ needs; support throughout the college application and financial aid application process; and help applying to and attending precollege summer programs. In contrast, only a small number of regions offered college-related programs and services to students in middle school (such as high school placement support and college tours). In addition, staff in all regions reported that it was much more difficult to maintain contact with and provide support to middle school alumni who did not also attend a KIPP high school.

Prior literature on charter schools also suggests that the combined effect of attending a charter middle and high school may be greater than the effect of attending a middle school alone. Booker et al. (2011) compare college outcomes for students in Florida who attended both a charter middle and high school with those who attended only a charter middle school. They find a statistically significant impact of 8 percentage points on college attendance within five years of graduation for students who attended both a

charter middle and high school. Using a larger sample of Florida students, Sass et al. (2016) replicate these findings, reporting a similar impact on college attendance within six years of graduation. Sass et al. also find a statistically significant impact of 12 percentage points on college persistence in at least two consecutive years for students who went on to attend a charter high school. In addition, one study found positive (but not significant) effects of a New York City charter middle school on students' college enrollment in a setting where nearly half the students who received an admission offer to the charter middle school also attended the network's charter high school (Dobbie and Fryer 2015). Further, among studies that have found a positive effect of charter schools on college outcomes, almost all have examined the effect of charter high schools (Angrist et al. 2016; Davis and Heller 2019). In contrast, prior research on the long-term effects of charter middle schools suggests that attending a charter middle school alone may not have an effect on college enrollment (Place and Gleason 2019).

Consistent with this prior literature, we found that attending both a KIPP middle school and a KIPP high school had large, positive impacts on students' college enrollment, college persistence, and college graduation rates. Estimates of the combined impact of attending KIPP for both middle and high school are shown in Figure III.6, and detailed findings are provided in Table III.3. Compared to students who did not attend KIPP, students who attended both a KIPP middle and high school were 30.5 percentage points more likely to enroll in a four-year college within three years of graduating high school (p -value < 0.000) and 19.7 percentage points more likely to persist for at least three years in a four-year college upon graduating high school (p -value < 0.000). Seventy-seven percent of students who attended a KIPP middle and high school went on to enroll in a four-year college, compared to 46 percent of students who attended neither. We found similar impacts on the study's primary persistence outcome: 41 percent of students who attended a KIPP middle and high school enrolled in college immediately after high school and persisted for at least three years—this is almost double the share of students who did not attend KIPP (22 percent).

KIPP middle and high schools also had a large and statistically significant combined effect on college graduation rates. Compared to students who did not attend KIPP, students who attended KIPP middle and high schools were 18.9 percentage points more likely to graduate from a four-year college within five years after high school (p -value = 0.025). Accounting for students who remained enrolled in college five years after high school, the difference in college persistence rates is even larger: KIPP middle and high school attendees were 35.3 percentage points more likely to either graduate from college or to continue pursuing a degree after five years, relative to students who never attended KIPP (p -value < 0.000).

Figure III.6. Impact of KIPP middle and high school attendance on four-year college enrollment, persistence, and graduation

Note: Study includes 2,066 students who applied to enter KIPP through middle school admission lotteries. College graduation and “on-track” graduation outcomes include 1,177 students from the first two cohorts. Estimates use the lottery and *HSR* as instruments for whether a student ever attended a KIPP middle and a KIPP high school. The model pools all 21 lottery schools (13 lottery schools for the college graduation and “on-track” graduation outcomes) and estimates outcome means by regressing the outcome measure on treatment status using inverse probability weights and controlling for student-level covariates and the lottery school, year, and grade. The control mean is unadjusted, and the treatment mean is the sum of the control mean and the regression-adjusted difference between groups.

*Impact estimate is significantly different from zero at the .05 level, two-tailed test.

**Impact estimate is significantly different from zero at the .01 level, two-tailed test.

HSR = high school ratio.

Table III.3. Impact of KIPP middle and high school attendance on four-year college enrollment, persistence, and graduation

Outcome	Mean (attended KIPP MS + KIPP HS)	Mean (attended neither KIPP MS nor KIPP HS)	Impact estimate	p-value
Ever enrolled in a four-year college	76.6%	46.0%	30.5 p.p.** (6.7 p.p.)	0.000
Persisted through first six semesters (four-year college)	41.4%	21.8%	19.7 p.p.** (5.6 p.p.)	0.000
Graduated from a four-year college in five years	39.3%	20.4%	18.9 p.p.* (8.4 p.p.)	0.025
Enrolled in a four-year program in 10th semester (or graduated in 10 semesters or fewer)	67.6%	32.3%	35.3 p.p.** (9.5 p.p.)	0.000

Note: Standard errors are reported in parentheses under each impact estimate. The enrollment and persistence outcomes include 2,066 students from all three cohorts. College graduation and “on-track” graduation

outcomes include 1,177 students from the first two cohorts. Estimates of the impact of attending a KIPP middle and high school using the KIPP admission lottery as an instrument for the ratio of 9th-grade seats to 8th-grade seats within each region. The model pools all 21 lottery schools (13 lottery schools for the college graduation and “on-track” graduation outcomes) and estimates outcome means by regressing the outcome measure on treatment status using inverse probability weights and controlling for student-level covariates and the lottery school, year, and grade. The control mean is unadjusted, and the treatment mean is the sum of the control mean and the regression-adjusted difference between groups.

*Impact estimate is significantly different from zero at the .05 level, two-tailed test.

**Impact estimate is significantly different from zero at the .01 level, two-tailed test.

HS = high school; MS = middle school; p.p. = percentage points.

The magnitude of these impact estimates is large, and effects of this size have substantial policy relevance. The combined impact of attending KIPP for both middle and high school is strongly positive for college enrollment (30.5 percentage points), persistence (19.7 percentage points), graduation rates (18.9 percentage points), and “on-track” for graduation rates (35.3 percentage points). For example, these impacts match or exceed the gaps in college attainment rates in the United States among Black and Hispanic students, compared to White students. For example, nationally among 25- to 29-year-olds, 45 percent of White Americans have a bachelor’s degree compared to only 26 percent of Black Americans and 23 percent of Hispanic Americans—degree completion gaps of 19 and 22 percentage points, respectively (National Center for Education Statistics 2022). Our study shows that KIPP middle and high schools have a combined effect of approximately 19 percentage points on college completion rates among our sample, which is almost entirely comprised of Black or Hispanic students from low-income families. An effect of this size, extrapolated nationwide, would be large enough to nearly close the degree-completion gap for Hispanic students or entirely close the degree-completion gap for Black students in the United States.

IV. Discussion

This study provides new evidence about how KIPP affects the long-term college outcomes of its students. Viewed in isolation, the KIPP middle schools in our sample had modest positive effects on college enrollment but little effect on college persistence rates or college graduation rates. However, during the period of our study, the KIPP network was undergoing a major wave of expansion, opening KIPP high schools in more regions and delivering intensive college-support and college-related alumni services to the students who attended those high schools. For the subset of students who attend a KIPP middle and high school, the results are dramatic. Compared with otherwise equivalent non-KIPP students, these students were 30.5 percentage points more likely to enroll in a four-year college within three years of graduating high school and 19.7 percentage points more likely to persist for at least three years in a four-year college. Similarly, students who attended a KIPP middle and high school were 18.9 percentage points more likely to graduate from a four-year college within five years after high school, compared to students who attended neither.

This pattern in our results aligns well with the prior literature on the long-term effects of charter high schools relative to charter middle schools. Studies of other charter high schools find positive impacts on four-year college enrollment (Angrist et al. 2016; Davis and Heller 2019). For example, Angrist et al. (2016) find that students who attended a set of six charter high schools in Boston were 18 percentage points more likely to enroll in a four-year college. Further, studies that compare students who attend both a charter middle school and charter high school to students who only attend a charter middle school find positive impacts of charter high schools on college attendance and persistence (Booker et al. 2011; Sass et al. 2016). For example, Sass et al. (2016) find statistically significant impacts of 9 percentage points on college attendance and 12 percentage points on college persistence for students who attended both a

charter middle school and charter high school. Meanwhile, studies of charter middle schools suggest a marginal impact on college outcomes. For example, Place and Gleason (2019) find a small and not statistically significant impact of 3 percentage points on four-year college enrollment for students admitted to a nationwide sample of 30 oversubscribed charter middle schools. Dobbie and Fryer (2015) examined the long-term effects of a New York City charter middle school on college enrollment. Like our study, a portion of these charter middle school students could attend the local charter high school, and the long-term effects of attending the charter middle school alone were positive but insignificant.

While our findings are not surprising, the magnitude of the combined KIPP middle and high school effect is dramatic and exceeds what has been found in this prior literature. It is possible that this large effect results from combining the well-established benefits of attending a KIPP middle school (a substantial boost to students' academic achievement) with the strong emphasis on college-related supports found in KIPP high schools. To prepare students for the intellectual challenges of college, KIPP high schools make rigorous coursework (including Advanced Placement [AP] courses) available to all students ("KIPP High School Excellence Blueprint" 2019). Prior research has shown that KIPP middle school students with the opportunity to attend a KIPP high school enroll in more AP courses and, correspondingly, take or intend to take more AP exams than KIPP middle school students without access to a KIPP high school (Tuttle 2015). KIPP high schools also foster a college-going culture by aligning academic policies and courses of study to college standards and offering a range of college-related supports through the KIPP Forward program ("KIPP High School Excellence Blueprint" 2019). For example, all KIPP high school students are paired with a college counselor who provides support throughout the college application process through workshops and individual counseling sessions. KIPP college counselors are trained to support students in identifying and applying to college programs that are well matched to students' capabilities, goals, and needs, and have relatively high graduation rates (particularly for first-generation, Pell Grant-eligible students of color) ("Match Matters in Your Region" 2014). KIPP Forward staff also help students and families with financial aid applications and support students in attending precollege summer programs, like enrichment programs on college campuses. Further, the KIPP Forward program also provides alumni additional advising in the form of advisors or peer mentors who meet with alumni to check-in on their academic progress through virtual counseling and on-campus visits.

One implication of our findings is that KIPP could deliver large potential benefits to its middle school students by expanding access to KIPP high schools and encouraging its middle school students to remain enrolled at KIPP through high school graduation. There is evidence that the KIPP network is making efforts in this direction: 80 percent of KIPP regions currently operate at least one KIPP high school. Most KIPP regions also now offer elementary schools as well, and it is possible that the combined effects of attending KIPP for grades K–12 on a continuous basis could differ meaningfully from what we observed for the students in this study sample.

While the combined impacts of KIPP middle and high schools are dramatic and substantial, it remains to be seen whether they will ultimately translate into improved employment and earnings outcomes for these KIPP alumni. Prior research suggests that there may be potentially positive effects of charter high school attendance on long-term earnings. Sass et al. (2016) find a statistically significant increase of 12 percentage points (or \$2,318) on maximum annual earnings five to seven years after high school graduation for students who attended both charter middle schools and high schools, relative to students who only attended charter middle schools. Dobbie and Fryer (2020) find a similarly positive but not statistically significant effect of attending a No Excuses charter school (defined by high behavioral expectations and an extended school day) in Texas on annual earnings nine years after high school graduation. It would be valuable to learn if the alumni of KIPP middle and high schools are able to

translate success in college into even longer-run success in the workforce. As KIPP alumni pursue four-year college programs as well as alternative pathways, further research may also examine if KIPP middle and high schools are affecting the earnings and employment outcomes of alumni who choose to pursue other options after high school, such as employment or military service, alongside those who choose to pursue a college degree before entering the labor market.

Appendix A

Additional Information on Study Sample and NSC Data Requests

This page has been left blank for double-sided copying.

The study sample consists of 2,066 students who applied to enter grade 5 or grade 6 at an oversubscribed KIPP middle school for the 2008–2009, 2009–2010, or 2011–2012 school year. The study includes data from 21 KIPP middle schools holding a total of 36 admission lotteries, with each lottery representing a distinct combination of school, cohort, and entry grade. Sample sizes differ considerably by school, as some schools had more eligible seats for the lottery and/or had more applicants to those seats. Because of this, we present aggregated impact estimates for the overall sample rather than estimating school-level impacts. Table A.1 provides treatment and control group sample sizes for each KIPP middle school that students applied to in our study sample.

Table A.1. Sample sizes by KIPP middle schools

State	City	KIPP School	Treatment sample size	Control sample size
CA	Bay Area	Summit Academy	160	76
CA	Los Angeles	Academy of Opportunity	17	66
CA	Los Angeles	LA College Preparatory School	63	148
DC	Washington, DC	KEY Academy	16	17
DC	Washington, DC	WILL Academy	6	11
GA	Atlanta	South Fulton Academy	216	96
GA	Atlanta	WAYS Academy	27	17
MD	Baltimore	Ujima Village Academy	12	24
MA	Massachusetts	Academy Lynn Middle School	92	140
NY	New York City	Academy Middle School	113	34
NY	New York City	Infinity Middle School	45	44
NY	New York City	STAR Harlem Middle School	13	24
NC	Eastern North Carolina	Gaston College Preparatory	20	9
PA	Philadelphia	Philadelphia Charter School	36	18
PA	Philadelphia	West Philadelphia Preparatory	17	20
TX	Austin	Austin College Prep	11	45
TX	Austin	Austin College Prep with Austin Academy of Arts & Letters ^a	28	56
TX	Dallas-Fort Worth	TRUTH Academy	40	43
TX	Houston	Academy Middle School	46	153
TX	Houston	Sharpstown College Prep	6	20
TX	San Antonio	Aspire Academy	9	12
Total			993	1,073

^a In Cohorts 1 and 2, the KIPP Austin sample includes only students from Austin College Prep. In Cohort 3, the KIPP Austin sample includes students from two distinct schools (Austin College Prep and Austin Academy of Arts & Letters) that were treated analytically as one site in this cohort due to elevated rates of joint application and crossover enrollment patterns among lottery participants in the two schools.

Table A.2 provides additional information on our data request to the National Student Clearinghouse (NSC). In particular, we provide the postsecondary data opt-out rates reported by the NSC for the treatment and control groups. Students and institutions have the option of refusing to share records through the NSC database; these cases consist of students who were matched to a college according to the NSC, but either they or their school opted out of allowing their data to be shared. In our data set, we cannot differentiate between a student who blocked their enrollment data from being shared and a student who did not go to college. However, we can identify whether opt-out rates are biasing our impact estimates by examining the overall opt-out rates separately by the treatment and control group. We find that the rates are similar and thus should not be biasing our impact estimates: 2.3 percent of the treatment group and 3.6 percent of the control group opted out of sharing their college enrollment data.

We also examined match rates separately by treatment and control group for the cases when we included a single record request for a student, as compared to cases when we included multiple record requests for the same student. We used the same process for both the treatment and control groups to determine which students warranted submitting multiple records. Specifically, when a student had a hyphenated name or multiple first and/or last names, we submitted a batch of multiple records for that student with the different name permutations in the NSC submission file. There were also a few students in both the treatment and control groups that listed multiple birth dates in our sample file. In those cases, we submitted records with each of the recorded birth dates in our data set. If the NSC provided any matched postsecondary records for a student with multiple submissions, we classified the student as having enrolled in a postsecondary program.

We find that the match rates were slightly higher for the students with multiple record submissions compared to a single record submission. Overall, for any college type and all years of available data, 72.8 percent of students with multiple submitted records matched to the NSC, compared to 68.1 percent of students with a single submitted record. (This overall match rate is substantially higher than the enrollment rate in four-year college programs cited in the study’s primary findings, because a considerable portion of the matched students only enrolled in two-year college programs and because some of the students in older cohorts enrolled in college after the study’s three-year follow-up period.) The slightly higher match rate for students with multiple submitted records compared to a single record persists when examining the results separately by treatment status: The difference in match rate between multiple and single record requests is 3.9 percentage points and 5.0 percentage points for the treatment and control groups, respectively. Overall, these differences are still relatively low and do not indicate that submitting multiple or single records for students appreciably affected the match rates used to define the study’s outcomes in the treatment and control group.

Table A.2. Summary of postsecondary data requested and returned

Characteristic	Full sample	Treatment group	Control group
Percentage of students who opted out of sharing data with the NSC	3.0%	2.3%	3.6%
Match rate from submitting single records	68.1%	70.1%	66.3%
Number of single record requests	1,695	789	906
Match rate from submitting multiple records	72.8%	74.0%	71.3%
Number of multiple record requests	371	204	167
Overall sample size	2,066	993	1,073

Note: The NSC reports a count of the number of students in the data request file who were found in NSC records but had opted out of sharing their data. The means presented in the first row of this table represent the raw

proportion of the treatment or control group students in the data request who opted out and are not adjusted for selection probability or site. The match rates reported cover any college type and all years of available data. They are also raw means that are not adjusted for each student's KIPP-lottery selection probability or lottery site.

The study's sample of KIPP middle schools is broadly representative of the overall population of KIPP students at the time the study began. For example, 93 percent of students in sample schools were either Black or Hispanic compared with 95 percent of students attending KIPP schools in 2008, 2009, or 2011 (Table A.3). Approximately 51 percent of both sample school students and those in the overall KIPP population were male. However, the study does include a substantially larger number of Hispanic students and a smaller number of Black students compared to the overall KIPP network. The study conducted subgroup analyses to test whether the pattern of college impacts among Black students is similar to the pattern observed among Hispanic students in our sample.

Table A.3. Characteristics of study schools compared to the national KIPP network

Baseline characteristic	KIPP middle schools in the study sample	All KIPP network middle schools
Student is male	49%	49%
Student is female	51%	51%
Student is Hispanic	45%	31%
Student is White	3%	2%
Student is Black	48%	64%
Student is other race/ethnicity	4%	3%
Student has an Individualized Education Program	9%	9%
Student received free or reduced-price lunch	82%	84%
Number of middle schools (2008–2009)	4	52
Number of middle schools (2009–2010)	13	55
Number of middle schools (2011–2012)	15	61
Number of students (2008–2009)	1,382	14,337
Number of students (2009–2010)	4,406	16,123
Number of students (2011–2012)	5,254	19,123

Source: KIPP Report Cards 2008–2012.

Note: KIPP Report Cards include data for students enrolled in the fall of the school year for all schools that were operational during the previous school year. For schools that were operational for the first time in either the 2008, 2009, or 2011 school year, we used data reported in the following year's Report Card. The averages presented in this table are weighted based on school enrollment in the respective year. The number of middle schools in the study sample for 2011–2012 is 15 because Austin College Prep and Austin Academy of Arts & Letters were two distinct schools in the KIPP network; however, they were treated analytically as one site in Cohort 3 due to elevated rates of joint application and crossover enrollment patterns among lottery participants in the two schools.

Appendix B

Supplementary Analyses: Middle School Impacts

This page has been left blank for double-sided copying.

1. Sensitivity analyses

We conducted a series of sensitivity analyses for the study's primary analysis estimating the impacts of KIPP middle schools. These analyses tested whether the results are robust to different approaches to regression modeling, covariate selection, baseline imputation, and sample weights. Table B.1 presents impact estimates for each of these analyses, as well as the estimates from our primary impact model for ease of comparison.

Logit model. To estimate our primary impacts, we used an ordinary least squares (OLS) regression model. When estimating impacts on binary outcomes (that is, the outcome has two possibilities, such as enrolled in college or not enrolled in college), an OLS regression model is also known as a linear probability model (LPM). Different model forms can plausibly produce different results, so we reestimated impacts on our primary outcomes using a logit model to test how sensitive our findings are to the model type. We used the same covariates as our primary impacts model. To compare findings between logit and LPM results, we converted our logit results to treatment and control means and reported the marginal impact (the difference between the treatment and control means), which is directly comparable to the impact estimate from an LPM.

We find that the logit impact estimates are almost identical to the LPM impact estimates. For our logit results, we find a positive but statistically insignificant impact of KIPP middle schools on four-year college enrollment of 3.9 percentage points (compared to 3.8 percentage points for the LPM result) and a positive but not significant difference of 0.4 percentage points for persisting through a student's first six college semesters (compared to 0.6 percentage points for the LPM result).

Baseline imputation. Our primary impact model uses baseline data on test scores, socioeconomic characteristics, and demographic characteristics as covariates. For students missing data for some of the covariates, we imputed values by conducting single stochastic regression imputation. Imputation was conducted separately by treatment status, and each imputation included a stochastic component randomly selected from the set of all residuals in the imputation equations to ensure that the variance of the imputed values is the same as that of the observed values (see Chapter II of this report and Tuttle et al. [2013] for more information on the imputation process).

To test whether our imputation method affected any of the study's primary findings, we estimated results using two alternative models. First, we replaced all imputed baseline values with a value of 0 (zero imputation model) but kept the model identical to our primary approach otherwise (including using imputation flags as covariates). Second, we estimated impacts without including any baseline covariates (no covariates model). These models still controlled for the school, grade, and year of the student's application to a KIPP middle school.

We find that the magnitude and directionality of the impacts are similar between our primary model and our alternative imputation models. The zero-imputation model resulted in slightly lower impact estimates for college enrollment and persistence: The enrollment impact fell from 3.8 percent to 3.0 percent, and the persistence impact fell from 0.6 percent to 0.0 percent. However, for the no covariates model, the enrollment impact estimate decreased by only 0.1 percentage points and the persistence impact estimate increased by 0.5 percentage points.

Sample weights. Our primary impact model includes sample weights, known as inverse probability weights, to account for the fact that not all students in the lottery have the same probability of being admitted to the KIPP school (that is, being selected into the treatment group). Some students have a

higher probability of admission, either based on their inclusion in a priority group defined by a student characteristic or because they have a sibling in the lottery. The primary sample weights follow the original RCT studies (Tuttle et al. 2013; Tuttle et al. 2015) and are based on the procedure used in Gleason et al. (2010).

In the simple case, where all students interested in attending a particular KIPP school enter the lottery and no preferences are given for siblings or other characteristics, the sample weight for a given student is based on the probability that he or she ended up in the treatment or control group. This probability is used in the calculation of each student's base weight. In particular, the base weight assigned to treatment (or control) group members is set to the inverse of the probability of being selected into the treatment (or control) group. We then normalize this weight to account for the fact that the sample will be representative of the set of all consenting lottery participants at that site. We set this normalization factor such that the weights of each experimental group sum to one-half of the total sample size within the site. Thus, the sum of all students' weights within a site will be equal to the overall sample size in that site (that is, the number of consenting lottery participants), with the sum of weights among treatments equal to that among controls.

In sites with sibling preference rules (that is, siblings of students already enrolled in a KIPP school have a higher likelihood of winning the lottery), the basic approach to calculating sample weights is the same as in the simple case above. The difference, however, is in the calculation of the probability of admission. No longer can we simply use the number of admitted students divided by the number of lottery participants. This is because the exact probabilities of admission depend on the number of sets of siblings who participate in the lottery at the school, as well as the number of students within each sibling set.

To test whether our impact results are being driven by our choice of sample weights, we reestimated our primary impacts using two alternative weighting approaches that alter the relative weight of sites in the estimation—the treatment and control groups continue to contribute equally within sites, but these normalizations affect the relative weight of different sites in the analysis. First, we weight school impacts equally (known as equal site weights). Second, we weight schools by the treatment group sample size, which is an alternative version of inverse-variance weights in the sense that it still provides greater weight to the lottery sites with more precise site-level impact estimates. Within each site, the alternative weights still account for differences between applicants in their probability of being offered admission (based on factors such as whether they have siblings applying to the school). Besides the change in weighting approach, the model is identical to our primary impacts model.

We find that these alternative weighting approaches do not change the size of the impact estimates in meaningful ways. The impact estimate for the primary enrollment outcome slightly increases when we weight schools equally and slightly decreases when we weight schools proportional to the treatment group sample size. Both of the alternative approaches slightly increase the magnitude of the impact estimates for the primary persistence measure. The difference between the main sample weights and the alternative ones is how sites are weighted relative to one another. Thus, the change in estimated impacts implies that sites with larger persistence impacts are being weighted somewhat more heavily when using the alternative approaches (either weighting schools equally or weighting by treatment group sample size).

Table B.1. Impact estimates on primary outcomes using alternative model specifications

Outcome	Model	Treatment mean	Control mean	Impact estimate	p-value
Ever enrolled in four-year college	Linear probability model (primary)	51.4%	47.6%	3.8 p.p. (2.4 p.p.)	0.123
Persisted through first six semesters (four-year college)	Linear probability model (primary)	23.8%	23.2%	0.6 p.p. (2.1 p.p.)	0.785
Ever enrolled in four-year college	Logit	51.4%	47.5%	3.9 p.p. (2.4 p.p.)	0.101
Persisted through first six semesters (four-year college)	Logit	23.7%	23.3%	0.4 p.p. (2.0 p.p.)	0.863
Ever enrolled in four-year college	Zero imputation	51.0%	48.0%	3.0 p.p. (2.5 p.p.)	0.230
Persisted through first six semesters (four-year college)	Zero imputation	23.5%	23.5%	0.0 p.p. (2.1 p.p.)	0.982
Ever enrolled in four-year college	No covariates	51.3%	47.6%	3.7 p.p. (2.6 p.p.)	0.163
Persisted through first six semesters (four-year college)	No covariates	24.0%	23.0%	1.1 p.p. (2.3 p.p.)	0.632
Ever enrolled in four-year college	Weight schools equally	49.8%	46.8%	3.0 p.p. (2.8 p.p.)	0.280
Persisted through first six semesters (four-year college)	Weight schools equally	22.6%	21.1%	1.6 p.p. (2.2 p.p.)	0.476
Ever enrolled in four-year college	Weight schools by treatment group sample size	54.2%	49.7%	4.5 p.p. (2.5 p.p.)	0.075
Persisted through first six semesters (four-year college)	Weight schools by treatment group sample size	26.2%	24.9%	1.3 p.p. (2.4 p.p.)	0.579

Note: Standard errors are reported in parentheses under each impact estimate. The study includes 2,066 students who applied to enter KIPP through a middle school via admission lotteries, and compares the outcomes of students offered admission to KIPP (treatment group) to those not offered admission (control group) at the time of the lottery.

p.p. = percentage points.

2. Subgroup analyses

We also explored whether KIPP impacts differed for key subgroups for our primary outcome measures. We examined subgroups defined for students with low baseline math or reading scores (below district mean), low household income (less than \$35,000 a year), and low mother’s education (completed high school or less); as well as for students who are male, mainly speak another language than English at home, and are Hispanic, Black, or eligible for free or reduced-price lunch. Given our sample size, the subgroup sizes are small, and results should be interpreted with caution. Our overall sample size is only powered to detect college enrollment impacts of around 5.4 percentage points. Most of the subgroups are less than half the size of our overall sample, so the true impacts would need to be much larger for us to be able to reliably detect these effects as being statistically different from zero.

To estimate subgroup impacts, we use the same model as our primary specification (see Equation [1] in Section II.E of the report) but add in a term that represents the interaction between a subgroup indicator and the treatment variable. The coefficient on the interaction term represents how the estimated effect of KIPP on a given outcome among that subgroup differs from the effect among students who are not in the

subgroup. A positive estimate for the interaction effect indicates that KIPP has a more positive effect on college enrollment or persistence among the subgroup than among other students. Similarly, a negative estimate indicates that KIPP has a more negative effect among the subgroup than among other students. Estimates that are indistinguishable from 0 imply that KIPP's effect is no different for students in the subgroup than for those not in the subgroup. As with our primary model, we control for baseline student achievement, demographics, socioeconomic factors, the school to which the student applied, the year, and the grade they were in. We also use inverse probability weights to account for students having different probabilities of being offered admission to a KIPP middle school.

Table B.2 presents our subgroup findings. In general, we do not find any significant subgroup-level differences in the effects of KIPP middle schools on college enrollment or persistence. That said, there is some evidence that KIPP has a more negative effect on college enrollment among students with low baseline math scores and a more negative effect on college persistence among students from low-income households. Due to the large number of significance tests in these subgroup analyses, we also performed a multiple comparison adjustment across all subgroup findings, by outcome measure.¹³ After we applied the multiple comparison adjustment, none of the subgroup-level results remained statistically significant. In other words, although the magnitudes and directionality of the subgroup interaction effects vary widely, this appears to be a byproduct of “noise” in the data related to the small sample sizes in these subgroup analyses. These results imply that the effect of KIPP middle schools does not appear to be concentrated among particular subgroups of students.

¹³ The multiple comparison correction assessed the significance of findings across subgroups for each outcome. We first ranked subgroups by p -value, calculated the Benjamini-Hochberg critical value for each p -value (equal to the rank of the finding divided by the total number of findings, then multiplied by 0.05). Any statistically significant finding with an impact p -value smaller than its critical p -value is considered to maintain its statistical significance (Benjamini & Hochberg, 1995).

Table B.2. Impact estimates on primary outcomes on student subgroups

Outcome	Subgroup	Interaction effect	p-value	Treatment subgroup size
Ever enrolled in four-year college	Low baseline math scores	-14.8 p.p.** (5.7 p.p.)	0.009 ^a	271
Persisted through first six semesters (four-year college)	Low baseline math scores	-3.4 p.p. (4.9 p.p.)	0.496	271
Ever enrolled in four-year college	Low baseline reading scores	-1.1 p.p. (5.8 p.p.)	0.852	277
Persisted through first six semesters (four-year college)	Low baseline reading scores	-5.4 p.p. (4.8 p.p.)	0.262	277
Ever enrolled in four-year college	Low household income	9.5 p.p. (5.8 p.p.)	0.099	449
Persisted through first six semesters (four-year college)	Low household income	5.9 p.p. (4.9 p.p.)	0.230	449
Ever enrolled in four-year college	Low mother's education	4.8 p.p. (5.2 p.p.)	0.359	323
Persisted through first six semesters (four-year college)	Low mother's education	-0.2 p.p. (4.4 p.p.)	0.967	323
Ever enrolled in four-year college	Male	8.9 p.p. (5.1 p.p.)	0.079	451
Persisted through first six semesters (four-year college)	Male	0.9 p.p. (4.2 p.p.)	0.839	451
Ever enrolled in four-year college	Main language at home not English	8.6 p.p. (5.0 p.p.)	0.089	341
Persisted through first six semesters (four-year college)	Main language at home not English	0.3 p.p. (4.2 p.p.)	0.950	341
Ever enrolled in four-year college	Hispanic	2.3 p.p. (5.0 p.p.)	0.650	384
Persisted through first six semesters (four-year college)	Hispanic	-6.7 p.p. (4.3 p.p.)	0.118	384
Ever enrolled in four-year college	Black	-4.6 p.p. (5.1 p.p.)	0.368	438
Persisted through first six semesters (four-year college)	Black	2.2 p.p. (4.4 p.p.)	0.621	438
Ever enrolled in four-year college	Eligible for FRPL	-5.8 p.p. (6.4 p.p.)	0.368	606
Persisted through first six semesters (four-year college)	Eligible for FRPL	-11.2 p.p.* (5.5 p.p.)	0.041 ^a	606
Ever enrolled in four-year college	Black males	-2.9 p.p. (5.3 p.p.)	0.588	204
Persisted through first six semesters (four-year college)	Black males	-2.1 p.p. (4.3 p.p.)	0.628	204
Ever enrolled in four-year college	Hispanic males	8.8 p.p. (5.5 p.p.)	0.105	187
Persisted through first six semesters (four-year college)	Hispanic males	-1.9 p.p. (4.2 p.p.)	0.647	187

Note: We used nonimputed baseline data to identify each subgroup. Standard errors are reported in parentheses. The study compares the outcomes of students offered admission to KIPP (treatment group) to outcomes of students not offered admission (control group) at the time of the lottery. Impacts are based on a regression model that pools all lottery schools, controls for baseline covariates, and includes weights to account for probability of assignment to the treatment or control group. Low math and reading scores = below-average test scores (z-scores < 0); FRPL = free or reduced-price lunch; Low income = less than \$35,000 in household income a year; Low mother's education = high school degree or lower.

^a Finding is not statistically significant at the 0.05 level of significance after correcting for multiple comparisons across subgroups within outcome measure.

p.p. = percentage points; FRPL = free or reduced-price lunch.

* Significantly different from zero at the .05 level, two-tailed test.

** Significantly different from zero at the .01 level, two-tailed test.

3. Cohort analyses

Table B.3 presents detailed findings by study cohort. In this analysis, we estimated impacts on our primary outcomes for Cohort 3 (applicants to KIPP middle schools in 2011) separately from Cohorts 1 and 2 (applicants in 2008 or 2009) using the same model as our primary specification (equation 1 in Section II.E). With the addition of a third cohort and another year of outcome data, this analysis enables us to track the earlier cohorts' educational outcomes over a longer period and compare KIPP's effects between the earlier and later cohorts.

As noted in Chapter III, impacts of KIPP middle schools on both four-year college enrollment and persistence were larger in magnitude for Cohorts 1 and 2 than for Cohort 3, although the estimates for the two groups were not statistically distinguishable from one another. Table B.3 shows that the impact estimate on college enrollment for Cohorts 1 and 2 was 1.5 percentage points larger than for Cohort 3, whereas the estimated impact on college persistence rates was 5.1 percentage points larger among Cohorts 1 and 2 than for Cohort 3. Despite the potential change in effects, differences between impacts were not statistically significant for enrollment (p -value = 0.416) or persistence (p -value = 0.199).

Nonetheless, any differences across cohorts may be explained by several factors including disruptions to learning during the COVID-19 pandemic, related changes in KIPP's alumni support model during the study period, and changes across cohorts in the KIPP schools included in the analysis or in the types of colleges students selected. Our follow-up period tracks college outcomes during the 2019–2020 and 2020–2021 school years, which were heavily disrupted by the COVID-19 pandemic. Cohort 3 students, just having begun their postsecondary careers at the time (on-track 5th grade applicants would have enrolled in college in fall 2019 and 6th grade applicants in fall 2018), may have felt the effects of the pandemic on their postsecondary education to a greater extent than students in the earlier cohorts (who would have been further along in college or would have graduated when the pandemic began).

Table B.3. Primary impact estimates of KIPP middle school admission offer for college enrollment and persistence, by cohort

Primary outcome	Cohorts 1 & 2 (2008 and 2009 lotteries)				Cohort 3 (2011 lottery)				Difference between Cohorts 1 & 2 and Cohort 3	
	Mean (treatment)	Mean (control)	Impact estimate	p- value	Mean (treatment)	Mean (control)	Impact estimate	p- value	Difference between impact estimates	p-value of difference
Ever enrolled in four-year college	51.2%	46.8%	4.4 p.p. (3.5 p.p.)	0.202	51.6%	48.7%	2.9 p.p. (3.3 p.p.)	0.383	-1.5%	0.746
Persisted through first six semesters (four-year college)	26.0%	23.2%	2.8 p.p. (3.0 p.p.)	0.343	20.8%	23.1%	-2.3 p.p. (2.8 p.p.)	0.416	-5.1%	0.199

Note: Standard errors are reported in parentheses under each impact estimate. The study includes 1,177 students who applied to enter KIPP through a middle school via admission lotteries in 2008 and 2009 (Cohorts 1 and 2) and 889 students who applied in 2011 (Cohort 3) and compares the outcomes of students offered admission to KIPP (treatment group) to outcomes of those not offered admission (control group) at the time of the lottery. Estimates of the impact of KIPP attendance use the lottery as an instrument for whether a student ever attended a KIPP middle or high school. The model pools all 13 lottery schools in Cohorts 1 and 2 and all 14 lottery schools participating in Cohort 3, controls for baseline covariates, and includes weights to account for probability of assignment to the treatment or control group. The p-value of the difference in impacts measures whether the difference in Cohorts 1 and 2 impact and Cohort 3 impact is statistically significantly different than zero.

p.p. = percentage points.

The pandemic also disrupted KIPP’s alumni support model in important ways. Although many KIPP regions had intended to expand alumni support services in 2020 and 2021, qualitative data from our interviews with KIPP Forward staff suggest that KIPP students actually began receiving fewer and less intensive supports during the first two years of the pandemic; for example, KIPP Forward limited or discontinued in-person activities, college visits from KIPP staff, and KIPP alumni gatherings during college breaks. In Appendix D, we provide additional information learned through our qualitative interviews of KIPP staff related to services offered to KIPP students and alumni and how services changed over time or were disrupted during the pandemic.

4. Entrance grade-level analyses

Table B.4 presents the impact estimates of KIPP for our primary enrollment, persistence, and graduation outcomes by the grade in which students applied for admission to KIPP. In this analysis, we estimated impacts on our primary outcomes for students who applied for admission in grade 5 separately from those of students who applied in grade 6 using the same model as our primary specification (equation 1 in Section II.E).

The purpose of this analysis is to quantify differences in impacts of KIPP between students who applied for admission in grade 5 compared to grade 6. When the lotteries took place, most KIPP middle schools had atypical grade configurations (enrolling grades 5 through 8) compared with most traditional public middle schools, which typically enroll grades 6 through 8. Therefore, grade 5 applicants would have sought to transfer into KIPP before their school’s natural final grade. Grade 6 applicants, meanwhile, sought to enroll in KIPP a year after most of their cohort, during a more natural transition year out of

traditional public schools. This may mean that grade 6 entrants to KIPP experienced challenges acclimating to KIPP or may have fallen further behind others in their cohort who entered in grade 5.

We found that KIPP had more favorable impacts on college enrollment, persistence, and graduation among students who applied and received an admission offer to KIPP via lottery in grade 5 compared to grade 6. In fact, KIPP middle schools had positive impacts among students who received an admission offer to a KIPP middle school in grade 5 and negative impacts among students who received an admission offer in grade 6, although only the impact of college enrollment among grade 5 applicants was statistically significant. For this finding, students who received a lottery-based admission in grade 5 were 7.2 percentage points more likely to enroll in a four-year college three years after high school than students who applied but did not receive an offer in grade 5 (p -value = 0.018). Meanwhile students who received an admission offer in grade 6 were 3.2 percentage points less likely to enroll in a four-year college than grade 6 applicants who were not offered admission (p -value = 0.429). In other words, the impact of KIPP middle schools on college enrollment was 10.4 percentage points higher among grade 5 treatment students than grade 6 treatment students, a difference in impacts that is statistically significant (p -value = 0.034).

The impact of KIPP middle schools on college persistence was small but favorable among students in the grade 5 treatment group and small and negative among the grade 6 treatment group. Grade 5 treatment students were 2.5 percentage points more likely to persist through three years at a four-year college compared to grade 5 control students (p -value = 0.359), whereas grade 6 treatment students were 2.8 percentage points less likely to persist in college compared to students in the grade 6 control group (p -value = 0.369). The difference in impacts (5.3 percentage points) is not statistically significant (p -value = 0.187).

We do not find any significant differences between KIPP's effect on four-year college graduation among students who were offered admission to KIPP in grade 5 compared to grade 6. In our sample of Cohorts 1 and 2 students, those who were offered admission to a KIPP middle school in grade 5 were 2.4 percentage points more likely to graduate from a four-year college in five years than students who were not offered admission to a KIPP middle school in grade 5 (p -value = 0.500). KIPP had the opposite effect among students offered admission in grade 6, decreasing the likelihood of graduating from a four-year college by 2.7 percentage points (p -value = 0.426). The difference in impacts, 5.1 percentage points, is also not statistically significant different than zero (p -value = 0.280). However, when we consider students who are on-track to graduate (enrolled at a four-year college in the 10th semester after high school graduation) in addition to those who had graduated in that time, we see the pattern strengthen: KIPP had a 7.8 percentage point impact on being enrolled in the 10th semester or having graduated by the 10th semester among students who were offered admission to KIPP in grade 5 (p -value = 0.064) and a negative 6.6 percentage point impact among students offered admission in grade 6 (p -value = 0.151). Although neither impact is statistically significant, the difference between impacts (14.4 percentage points) is significantly different (p -value = 0.016).

Table B.4. Impact estimates of KIPP middle school admission offer for college enrollment, persistence, and graduation, by lottery entrance grade

Primary outcome	Grade 5 applicants				Grade 6 applicants				Difference between grade 5 and grade 6 applicants	
	Mean (treatment)	Mean (control)	Impact estimate	p-value	Mean (treatment)	Mean (control)	Impact estimate	p-value	Difference between impact estimates	p-value of difference
Ever enrolled in four-year college	54.8%	47.6%	7.2 p.p.* (3.0 p.p.)	0.018	44.9%	48.1%	-3.2 p.p. (4.1 p.p.)	0.429	-10.4%*	0.034
Persisted through first six semesters (four-year college)	26.1%	23.7%	2.5 p.p. (2.7 p.p.)	0.359	19.7%	22.5%	-2.8 p.p. (3.1 p.p.)	0.369	-5.3%	0.187
Graduated from a four-year college in five years	26.2%	23.7%	2.4 p.p. (3.6 p.p.)	0.500	16.3%	19.0%	-2.7 p.p. (3.3 p.p.)	0.426	-5.1%	0.280
Enrolled in a four-year program in 10th semester (or graduated in 10 semesters or fewer)	41.9%	34.2%	7.8 p.p. (4.2 p.p.)	0.064	27.3%	33.91%	-6.6 p.p. (4.6 p.p.)	0.151	-14.4%*	0.016

Note: Standard errors are reported in parentheses under each impact estimate. The college enrollment and persistence outcomes include 1,309 students who applied to enter KIPP through a middle school via admission lotteries in grade 5 and 757 students who applied in grade 6, and compares the outcomes of students offered admission to KIPP (treatment group) to outcomes of students not offered admission (control group) at the time of the lottery. The college graduation and “on-track” to graduate outcomes include 682 students in Cohorts 1 and 2 who applied to enter KIPP through a middle school via admission lotteries in grade 5 and 495 students who applied in grade 6 in Cohorts 1 and 2, and compares the outcomes of students offered admission to KIPP (treatment group) to outcomes of students not offered admission (control group) at the time of the lottery. Estimates of the impact of KIPP attendance use the lottery as an instrument for whether a student ever attended a KIPP middle or high school. The model pools all 13 lottery schools in Cohorts 1 and 2 and all 14 lottery schools participating in Cohort 3, controls for baseline covariates, and includes weights to account for probability of assignment to the treatment or control group. The p-value of the difference in impacts measures whether the difference in impacts for grade 5 and grade 6 lottery applicants is statistically significantly different than zero.

p.p. = percentage points.

When interpreting the differences in impacts across lottery grade, it is important to keep in mind that grade 6 applicants were entering at a natural transition grade. Grade 5 applicants, on the other hand, were presumably established at a school outside of KIPP while seeking to transfer to KIPP, which suggests that these students may have been unsatisfied with the traditional public school system, more committed to KIPP, or both. Entrance grade, therefore, could be considered a proxy measure of one's commitment and desire to attend KIPP. In fact, while we know that, overall, students in our study who were offered admission to KIPP went on to attend and graduate from KIPP middle schools and KIPP high schools at higher rates compared to students not offered admission (Figure II.1), we further see that grade 5 applicants attended and graduated from KIPP middle and KIPP high schools at higher rates than grade 6 applicants (Figures B.1 and B.2, respectively). Seventy-six percent of treatment students who applied for admission in grade 5 went on to attend a KIPP middle school, compared to 60 percent of students in the grade 6 lottery, and 58 percent of treatment students in grade 5 lotteries graduated from a KIPP middle school, compared to 39 percent of grade 6 treatment students. This pattern persisted through high school, where 47 percent of treatment students who applied for admission in grade 5 lotteries attended a KIPP high school with 21 percent graduating from a KIPP high school, compared to just 16 percent of treatment students who applied in grade 6 attending and 8 percent graduating from a KIPP high school.

As we saw in our analysis of KIPP attendance in Chapter III, students in our study who attended both a KIPP middle school and a KIPP high school experienced positive and statistically significant impacts on college enrollment, persistence, and graduation. These findings, coupled with the fact that grade 5 students tend to enroll and remain in KIPP longer than grade 6 applicants, explains the differential effects of KIPP by student entry grade. For instance, students who enter KIPP in grade 6 but leave before completing middle school (about 20 percent of students in our sample) likely experienced two transitions during this time—into KIPP and then back into a traditional public school—which may contribute to their weaker college attainment outcomes later on.

Figure B.1. Exposure to KIPP middle and high schools, by lottery group (grade 5 lottery applicants)

Note: We estimated sample means by regressing KIPP attendance on treatment status using inverse probability weights. The control mean is unadjusted, and the treatment mean is the sum of the control mean and the regression-adjusted difference between groups. The difference for each indicator is statistically significant (p -value < 0.01). Sample size = 1,309.

Figure B.2. Exposure to KIPP middle and high schools, by lottery group (grade 6 lottery applicants)

Note: We estimated sample means by regressing KIPP attendance on treatment status using inverse probability weights. The control mean is unadjusted, and the treatment mean is the sum of the control mean and the regression-adjusted difference between groups. The difference for each indicator is statistically significant at the 0.01 level of significance, except for the difference between KIPP high school graduation rates, which is statistically significant at the 0.05 level. Sample size = 757.

5. Impacts on secondary measures of college enrollment and persistence

Table B.5 presents definitions for the study’s secondary measures of college enrollment and persistence. For secondary enrollment measures, we estimated the impact of KIPP middle schools for “on-time” college enrollment in the fall after high school graduation, enrollment in a two-year college, or enrollment in any type of college. To measure if students’ initial enrollment represented a serious effort to continue in the program, we also included a version of the enrollment outcome that also requires students to remain enrolled through the end of their first semester.

Because we had a limited follow-up period in which to observe persistence patterns among the entire study sample, we examined persistence in multiple ways that allowed for flexibility around late entry into college, noncontinuous enrollment, and different follow-up periods across cohorts. For one measure (the percentage of possible semesters that a student enrolled in college), we also included more than three years of college data from the first two cohorts (which had a chance to persist in college for up to seven years). We estimated impacts separately for two-year and four-year colleges, as well as for overall college persistence, since students may shift from two-year to four-year programs. We also estimated the average number of consecutive semesters enrolled, the shares of students enrolled in the third and fifth semester following high school graduation, and the number of semesters enrolled out of the number of total possible semesters a student could attend college (depending on their cohort and the grade in which they applied to KIPP).

Table B.5. Overview of secondary outcome measures of college enrollment and persistence

Outcome	Definition
Enrollment outcomes	
Ever enrolled in any college	Student enrolled in college within the study at any point after high school graduation and within the three-year follow up period, separately for students enrolled in any college or in a two-year college.
Enrolled in four-year college without withdrawing	Student enrolled in a four-year college within three years after expected high school graduation and did not withdraw from the first semester they enrolled in.
Enrolled on time in college	Student enrolled in college in the fall after their expected high school graduation date. We measured this outcome separately for students who enrolled in any college, in a four-year college, or in a two-year college.
Persistence outcomes	
Enrolled in college for at least three consecutive years and in a four-year program in sixth semester	Student was enrolled in a four-year postsecondary program in the sixth semester following expected high school graduation, and any two-year or four-year postsecondary program between the first and fifth semester.
Enrolled in college in sixth semester	Student was enrolled in any postsecondary program in the sixth semester following expected high school graduation. We measured this outcome separately for students enrolled in any college, in a four-year college, or in a two-year college.
Persisted through first 10 semesters at a four-year college (or graduated in 10 semesters or fewer)	Student was continuously enrolled in a four-year college on a part-time or full-time basis for five years—10 semesters—after expected high school graduation or had graduated from a four-year program within 10 semesters. We measured this outcome for Cohorts 1 and 2 only, as Cohort 3 has only up to four years of enrollment data.
Enrolled in four consecutive semesters with the first three years following high school graduation	Continuous enrollment for at least four semesters in one or more postsecondary programs, during the first three years after their expected high school graduation date. We measured this outcome separately for students enrolled in any college, in a four-year college, or in a two-year college.
Total number of semesters enrolled in three years	This measure counts the number of semesters a student enrolled within the first three years after high school graduation.
Total number of semesters enrolled in five years	This measure counts the number of semesters a student enrolled within the first five years after high school graduation. We measured this outcome for Cohorts 1 and 2 only, as Cohort 3 has only up to four years of enrollment data.
Number of consecutive semesters enrolled	This measure counts the number of consecutive semesters a student enrolled, beginning the fall after their expected high school graduation and continuing for six semesters. If a student did not enroll in college in the first semester following high school graduation, they received a zero for this variable. We measured this outcome separately for students who persisted in any college, persisted only in a four-year college, or persisted only in a two-year college.
Percentage of possible semesters enrolled	This is the share of semesters that a student was enrolled in college following expected high school graduation for all available years of data. This outcome is set equal to 100 percent if the student graduated from a four-year program within five years of expected high school graduation. The denominator for Cohort 1 and 2 is top coded to 10 semesters. The denominator for Cohort 3 5th and 6th grade students is six and eight semesters, respectively.

Intent-to-treat (ITT) impacts on secondary outcome measures. Tables B.6 and B.7 present the exploratory ITT impact estimates for our secondary outcome measures. The ITT impacts are estimated using the same regression model used for the primary impacts (equation 1 in section II.E) and thus represent the impact of an admission offer to a KIPP middle school.

We do not find evidence that receiving an admission offer to a KIPP middle school affects these other measures of college enrollment. The estimated impacts on these secondary outcomes are positive but not statistically significant (Table B.6). For example, 67.3 percent of the treatment group and 64.6 percent of the control group enrolled in any type of college within three years of high school graduation, but the difference is not statistically significant (p -value = 0.261). The rates are similar when looking at students who did not withdraw from the first semester at any school: 66.4 percent of the treatment group and 63.5 percent of the control group did not withdraw (p -value = 0.231). In the case of on-time enrollment at four-year colleges, the estimated impact is again not significant (p -value = 0.098), although the magnitude of the estimated impact is similar to the estimated impact on our primary enrollment outcome: 4.3 percentage points for on-time enrollment and 3.8 percentage points for any enrollment.

We also find no significant impacts of KIPP on measures of enrollment in two-year college programs (typically community college or associates degree programs). The rate of enrollment in a two-year college within three years of expected high school graduation was similar among students offered admission to a KIPP middle school (24.7 percent) and those not offered admission (22.3 percent).

Table B.6. Impact estimates on secondary college enrollment measures (intent-to-treat)

Outcome	Treatment mean	Control mean	Impact estimate	Sample size	p -value
Ever enrolled					
Any college	67.3%	64.6%	2.7 p.p. (2.4 p.p.)	2,066	0.261
Four-year colleges	51.4%	47.6%	3.8 p.p. (2.4 p.p.)	2,066	0.123
Two-year colleges	24.7%	22.3%	2.4 p.p. (2.1 p.p.)	2,066	0.265
Ever enrolled without withdrawing					
Any college	66.4%	63.5%	2.9 p.p. (2.4 p.p.)	2,066	0.231
Four-year colleges	50.8%	46.7%	4.0 p.p. (2.4 p.p.)	2,066	0.098
Two-year colleges	23.8%	21.8%	2.0 p.p. (2.1 p.p.)	2,066	0.342
On-time college enrollment					
Any college	57.7%	54.3%	3.4 p.p. (2.5 p.p.)	2,066	0.171
Four-year colleges	44.6%	40.2%	4.3 p.p. (2.4 p.p.)	2,066	0.073
Two-year colleges	13.1%	14.0%	-0.9 p.p. (1.7 p.p.)	2,066	0.594

Note: Standard errors are reported in parentheses under each impact estimate. The study includes 2,066 students who applied to enter KIPP through a middle school via admission lotteries, and compares the outcomes of students offered admission to KIPP (treatment group) to outcomes of students not offered admission (control group) at the time of the lottery. Impacts are based on a regression model that pools all lottery schools, controls for baseline covariates, and includes weights to account for probability of assignment to the treatment or control group.

p.p. = percentage points.

Similar to the results for enrollment, for these secondary measures of college persistence, we continue to find a pattern of small (albeit positive) and statistically insignificant KIPP middle school impacts (Table B.7). For example, students offered admission to KIPP persisted continuously for one-tenth of a semester longer at four-year colleges (1.93 semesters versus 1.84 semesters in the control group), although this impact was not significantly significant (p -value = 0.437).

Because entering and persisting in college would result in students being enrolled at the end of the three-year follow-up period, we also examined impacts on enrollment in the third spring after expected high school graduation. Again, the estimated impact of KIPP was positive but not statistically significant—32.6 percent of the treatment group and 30.5 percent of the control group was enrolled in a four-year college in that semester (p -value = 0.366). Among the first two cohorts, 24.7 percent of the treatment group and 24.6 percent of the control group was continuously enrolled in a four-year college for 10 semesters after high school graduation, or had graduated within that time (p -value = 0.971).

Our final persistence measure—the percentage of possible semesters enrolled—takes advantage of all available years of data for each cohort. However, as with our other measures, we find no significant differences between the treatment and the control group. Students offered admission to a KIPP middle school enrolled in a four-year college in 45.3 percent of possible college semesters compared with 44.4 percent among the control group (p -value = 0.655).

Table B.7. Impact estimates on secondary college persistence measures (intent-to-treat)

Outcome	Treatment mean	Control mean	Impact estimate	Sample size	p -value
Persisted through first six semesters					
Four-year colleges	23.8%	23.2%	0.6 p.p. (2.1 p.p.)	2,066	0.785
Any college, ending in a four-year college in sixth semester	25.6%	24.8%	0.8 p.p. (2.1 p.p.)	2,066	0.701
Enrolled in fifth spring after high school graduation or graduated from a four-year program					
Four-year college	24.7%	24.6%	0.1 p.p. (2.8 p.p.)	1,177	0.971
Enrolled three springs after high school graduation					
Any college	40.4%	38.1%	2.3 p.p. (2.3 p.p.)	2,066	0.328
Four-year colleges	32.6%	30.5%	2.0 p.p. (2.2 p.p.)	2,066	0.366
Two-year colleges	7.9%	7.6%	0.3 p.p. (1.3 p.p.)	2,066	0.822
Enrolled in four consecutive semesters in three years					
Any college	38.8%	37.6%	1.3 p.p. (2.4 p.p.)	2,066	0.589
Four-year colleges	31.6%	29.8%	1.8 p.p. (2.3 p.p.)	2,066	0.422
Two-year colleges	4.9%	6.1%	-1.2 p.p. (1.1 p.p.)	2,066	0.249

Outcome	Treatment mean	Control mean	Impact estimate	Sample size	p-value
Consecutive semesters enrolled in three years					
Any college	2.41	2.33	0.08 (0.12)	2,066	0.526
Four-year colleges	1.93	1.84	0.10 (0.12)	2,066	0.437
Two-year colleges	0.33	0.41	-0.08 (0.05)	2,066	0.145
Percentage of possible semesters enrolled					
Any college	45.3%	44.4%	0.9 p.p. (2.0 p.p.)	2,066	0.655
Total semesters enrolled					
In three years, any college	2.90	2.80	0.10 (0.12)	2,066	0.431
In five years, any college	4.16	3.92	0.25 (0.26)	1,177	0.350
In five years, four-year colleges	3.23	3.00	0.22 (0.25)	1,177	0.378

Note: Standard errors are reported in parentheses under each impact estimate. The study includes 2,066 students who applied to enter KIPP through a middle school via admission lotteries, and compares the outcomes of students offered admission to KIPP (treatment group) to outcomes of students not offered admission (control group) at the time of the lottery. Impacts are based on a regression model that pools all lottery schools, controls for baseline covariates, and includes weights to account for probability of assignment to the treatment or control group.

p.p. = percentage points.

Treatment-on-the-treated (TOT) impacts on secondary outcome measures. Tables B.8 and B.9 present exploratory TOT impact estimates for our secondary outcome measures (for completeness we also include our two primary outcome measures in the table as well). The TOT impacts use the KIPP admission lottery as an instrument for whether a student ever attended a KIPP middle school. Thus, the effect estimates represent the impact of *attending* a KIPP middle school, rather than the intent-to-treat (ITT) impacts that represent the impact of an *admission offer* to a KIPP middle school. Because only 77 percent of treatment group students attended a KIPP middle school, while 12 percent of control students ended up attending a KIPP middle school, the TOT impacts increase the magnitude of the effect size compared to the ITT impacts.

Similar to an admission offer to a KIPP middle school (ITT model), *attending* a KIPP school (TOT model) did not have a statistically significant impact on any of our secondary enrollment and persistence measures at the 5 percent level. Under the TOT model, attending a KIPP school increased the likelihood of on-time college enrollment in any type of college by 7.4 percentage points; however, the impact was just shy of reaching statistical significance (p -value = 0.069).

Table B.8. Impact estimates on secondary college enrollment measures (treatment-on-the-treated)

Outcome	Treatment mean	Control mean	Impact estimate	Sample size	p-value
Ever enrolled					
Any college	68.8%	64.0%	4.7 p.p. (4.1 p.p.)	2,066	0.252
Four-year colleges	53.3%	46.8%	6.5 p.p. (4.1 p.p.)	2,066	0.116
Two-year colleges	25.9%	21.8%	4.1 p.p. (3.6 p.p.)	2,066	0.257
Ever enrolled without withdrawing					
Any college	67.9%	62.9%	5.0 p.p. (4.1 p.p.)	2,066	0.223
Four-year colleges	52.9%	45.9%	6.9 p.p. (4.1 p.p.)	2,066	0.092
Two-year colleges	24.8%	21.4%	3.4 p.p. (3.6 p.p.)	2,066	0.334
On-time college enrollment					
Any college	59.4%	53.6%	5.9 p.p. (4.2 p.p.)	2,066	0.163
Four-year colleges	46.8%	39.4%	7.4 p.p. (4.1 p.p.)	2,066	0.069
Two-year colleges	12.6%	14.2%	-1.6 p.p. (2.9 p.p.)	2,066	0.588

Note: Standard errors are reported in parentheses under each impact estimate. The study includes 2,066 students who applied to enter KIPP middle schools via admission lotteries and compares the outcomes of students offered admission to KIPP (treatment group) to outcomes of students not offered admission (control group) at the time of the lottery. Estimates of the impact of KIPP attendance use the lottery as an instrument for whether a student ever attended a KIPP middle or high school. The regression model pools all 21 lottery schools, controls for baseline covariates, and includes weights to account for probability of assignment to the treatment or control group. Standard errors are reported in parentheses under each impact estimate. Sample for college graduation rate variables = 2,062. Sample for five-year outcomes = 1,177.

p.p. = percentage points.

Table B.9. Impact estimates on secondary college persistence measures (treatment-on-the-treated)

Outcome	Treatment mean	Control mean	Impact estimate	Sample size	p-value
Persisted through first six semesters					
Four-year colleges	24.1%	23.1%	1.0 p.p. (3.5 p.p.)	2,066	0.781
Any college, ending in a four-year college in sixth semester	26.0%	24.6%	1.4 p.p. (3.6 p.p.)	2,066	0.697
Enrolled in fifth spring after high school graduation or graduated from a four-year program					
Four-year college	24.8%	24.6%	0.2 p.p. (5.0 p.p.)	1,177	0.970

Outcome	Treatment mean	Control mean	Impact estimate	Sample size	p-value
Enrolled three springs after high school graduation					
Any college	41.6%	37.7%	3.9 p.p. (4.0 p.p.)	2,066	0.320
Four-year colleges	33.6%	30.1%	3.4 p.p. (3.7 p.p.)	2,066	0.358
Two-year colleges	8.0%	7.5%	0.5 p.p. (2.1 p.p.)	2,066	0.819
Enrolled in four consecutive semesters in three years					
Any college	39.5%	37.3%	2.2 p.p. (4.0 p.p.)	2,066	0.583
Four-year colleges	32.6%	29.5%	3.1 p.p. (3.8 p.p.)	2,066	0.415
Two-year colleges	4.2%	6.4%	-2.1 p.p. (1.8 p.p.)	2,066	0.243
Consecutive semesters enrolled in three years					
Any college	2.45	2.31	0.14 (0.21)	2,066	0.519
Four-year colleges	1.98	1.82	0.16 (0.21)	2,066	0.430
Two-year colleges	0.29	0.42	-0.13 (0.09)	2,066	0.140
Percentage of possible semesters enrolled					
Any college	45.8%	44.3%	1.5 p.p. (3.3 p.p.)	2,066	0.650
Total semesters enrolled					
In three years, any college	2.95	2.78	0.17 (0.21)	2,066	0.423
In five years, any college	4.30	3.86	0.44 (0.46)	1,177	0.337
In five years, four-year colleges	3.36	2.95	0.41 (0.45)	1,177	0.366

Note: Standard errors are reported in parentheses under each impact estimate. The study includes 2,066 students who applied to enter KIPP middle schools via admission lotteries and compares the outcomes of students offered admission to KIPP (treatment group) to outcomes of students not offered admission (control group) at the time of the lottery. Estimates of the impact of KIPP attendance use the lottery as an instrument for whether a student ever attended a KIPP middle or high school. The regression model pools all 21 lottery schools, controls for baseline covariates, and includes weights to account for probability of assignment to the treatment or control group. Standard errors are reported in parentheses under each impact estimate. Sample for college graduation rate variables = 2,062. Sample for five-year outcomes = 1,177.

p.p. = percentage points.

6. Impacts on measures of college type

In Chapter III of this report, we highlight differences in the types of colleges students in the treatment and control groups attend. Most notably, we found that (among students who went to college) students in the treatment group attend more selective colleges, as measured by the average college admission rate.

To examine the direct impact of KIPP middle schools on whether students attend a college with certain attributes, we separately estimated impacts on enrollment rates in various types of college programs for all students in the study sample (including students who never enrolled in college). To do so, we defined a set of binary outcomes for college attributes including a college’s selectivity, average graduation rate, and the socioeconomic makeup of the student body. Table B.10 presents definitions for the study’s measures of college program attributes.

Table B.10. Overview of college program attributes measures

Outcome	Definition
College admission rate	Four binary variables measuring whether a student enrolled in a college with an admission rate of (1) 25 percent or lower, (2) greater than 25 percent and less than or equal to 50 percent, (3) greater than 50 percent and less than or equal to 75 percent, or (4) greater than 75 percent. We used the admission rate at the college in which the student was most recently enrolled.
College graduation rate	Four binary variables measuring whether a student enrolled in a college with a graduation rate falling in different ranges (for the college in which the student most recently enrolled). We used the same cut-points as for the college admission variables described previously.
Share of Pell Grant recipients	Two binary variables measuring whether a student enrolled in a college with a low or high percentage of students who received Pell Grants during the 2018–2019 school year (College Board 2022). One variable measured whether a student went to a college with above-average recipients of Pell Grants (school average was greater than 31 percent). The second variable measured whether a student went to a college with below-average recipients of Pell Grants (school average was less than or equal to 31 percent).

We find no evidence that KIPP middle schools impacted students’ rates of enrollment across these types of college programs (Table B.11). Admission to a KIPP middle school did not result in students being more likely to enroll in highly selective colleges, colleges with higher graduation rates, or colleges with higher rates of Pell Grant recipients.

Table B.11. Secondary impact estimates on college type (intent-to-treat)

Outcome	Treatment mean	Control mean	Impact estimate	p-value
College admission rate				
Went to college with admission rate ≤25%	4.1%	2.6%	1.4 p.p. (0.9 p.p.)	0.103
Went to college with admission rate >25% and ≤50%	9.7%	7.7%	2.0 p.p. (1.4 p.p.)	0.163
Went to college with admission rate >50% and ≤75%	16.5%	15.5%	1.0 p.p. (1.8 p.p.)	0.570
Went to college with admission rate >75%	37.1%	38.8%	-1.7 p.p. (2.6 p.p.)	0.508
College graduation rate				
Went to college with grad rate ≤25%	16.1%	17.3%	-1.2 p.p. (1.8 p.p.)	0.509
Went to college with grad rate >25% and ≤50%	19.4%	20.1%	-0.7 p.p. (2.0 p.p.)	0.732
Went to college with grad rate >50% and ≤75%	20.3%	18.4%	1.9 p.p. (2.0 p.p.)	0.350
Went to college with grad rate >75%	11.5%	8.8%	2.7 p.p. (1.7 p.p.)	0.117

Outcome	Treatment mean	Control mean	Impact estimate	p-value
Pell Grants rate				
Went to college with above average rate of recipients	42.6%	42.3%	0.3 p.p. (2.5 p.p.)	0.908
Went to college with below average rate of recipients	24.7%	22.3%	2.5 p.p. (2.2 p.p.)	0.275

Note: Standard errors are reported in parentheses under each impact estimate. The study includes 2,066 students who applied to enter KIPP through a middle school via admission lotteries, and compares the outcomes of students offered admission to KIPP (treatment group) to outcomes of students not offered admission (control group) at the time of the lottery. Impacts are based on a regression model that pools all lottery schools, controls for baseline covariates, and includes weights to account for probability of assignment to the treatment or control group.

p.p. = percentage points.

Appendix C

Supplementary Analyses: Combined Middle and High School Impacts

This page has been left blank for double-sided copying.

1. Testing the validity of the instrumental variable model

To examine the impact of attending a KIPP middle school and a KIPP high school, we estimated a two-stage least squares (2SLS) model designed to measure the effects of attending KIPP middle and high schools. The “first stage” of the 2SLS model is presented as Equations (3) and (4) below (and in Chapter II of this report), in which the model’s instrumental variables predict KIPP middle and high school attendance; the second stage of the 2SLS model is presented in Equation (5) (also in Chapter II), which is used to estimate the impact of KIPP middle and high school attendance on college outcomes:

$$\text{(IV equation 3) } attendKMS_{ik} = \mu + \rho_{M1} * T_{ik} + \rho_{M2} HSR_{ik} + \sigma_M * X_{ik} + v_{kM} + j_{ikM}$$

$$\text{(IV equation 4) } attendKHS_{ik} = \mu + \rho_H * T_{ik} + \rho_{H2} HSR_{ik} + \sigma_H * X_{ik} + v_{kH} + j_{ikH}$$

$$\text{(IV equation 5) } y_{ik} = \alpha + \delta_1 * \widehat{attendKMS}_{ik} + \delta_2 * \widehat{attendKHS}_{ik} + \beta * X_{ik} + \gamma_k + \varepsilon_{ik}$$

In this model, we first predicted attendance at a KIPP middle school (*attendKMS*) and attendance at a KIPP high school (*attendKHS*) using two first-stage equations (Equations [3] and [4]). We then estimated the impact of KIPP middle school attendance (δ_1) and high school attendance (δ_2) on college outcomes in the second stage (Equation [5]). In interpreting the results of this model, we focus on the combined effect of attending a KIPP middle school and then a KIPP high school, relative to attending neither (that is, no KIPP attendance). This combined effect is represented by the sum of δ_1 and δ_2 .

In this appendix, we detail the steps taken to test the model’s validity. Specifically, we assess the extent to which the model satisfies the following two conditions: (1) the first stage of the model must provide strong predictions about which students attend KIPP middle schools and about which students attend KIPP high schools; and (2) the instruments used in the model must satisfy the assumption that they are not correlated with students’ college outcomes through any channel other than their influence on the endogenous variables of KIPP middle and high school attendance.

To test the first condition, we used F-tests to measure the combined strength of the model’s instrumental variables in predicting, separately, KIPP middle school attendance and KIPP high school attendance. To assess the second condition, we conducted a placebo test to examine the validity of the model’s instrumental variables, including treatment status and the high school ratio (HSR) instrumental variable.¹⁴ The placebo test estimated the same 2SLS model represented by Equations (3) through (5), but it used students’ *middle school test scores* as the dependent variable in the second stage. In other words, the placebo test checked whether the model produces results that imply that KIPP high schools have an impact on students’ earlier middle school test scores (which is implausible, because students completed middle school before enrolling in a KIPP high school). Conversely, if the instruments in the 2SLS model are working as intended, we would expect this placebo test to show that attending a KIPP high school does not affect students’ earlier middle school test scores.

As we explain below, we found that the model’s instrumental variables are very strong predictors of KIPP middle school attendance and KIPP high school attendance. However, the placebo test revealed some

¹⁴ The *HSR* measures the capacity of the region’s KIPP high schools relative to the capacity of KIPP middle schools at the time the student was making the transition from middle to high school. *HSR* is calculated separately for each region, cohort, and entrance grade as the number of 9th grade students in KIPP high schools in the region in the student’s 9th grade year divided by the number of 8th grade students in middle schools in the region in the student’s 8th grade year.

evidence that the HSR instrument is correlated with students’ earlier middle school achievement levels for the study’s full sample. To address this potential source of bias, we also present the results of two sensitivity tests. The first sensitivity test shows that the overall pattern of impact estimates in the main model remains highly consistent after restricting the sample to a set of KIPP regions that do not produce problematic results in the placebo test. The second sensitivity test includes region-level fixed effects in both the Stage 1 and Stage 2 equations, which effectively removes any between-region variation in the HSR instrument. This test examines whether the HSR instrument could be biased by any selective region-level patterns in where KIPP chose to open high schools during the study period (for example, the possibility that KIPP might have prioritized opening high schools in regions where KIPP middle schools were especially successful). This test does not reveal evidence of bias in the HSR instrument: Most of the relevant variation in *HSR* likely comes from within-region variation in access to a KIPP high school, rather than across-region variation that could potentially be correlated with the quality of KIPP middle schools.

Condition 1: Predictive strength of the instrumental variables

We assessed the strength of the model’s instrumental variables (including the student’s middle school lottery result and *HSR*)¹⁵ in predicting the model’s two endogenous variables (KIPP middle school and KIPP high school attendance). When 2SLS models rely on weak instruments—those that are not strongly correlated with the endogenous variables—the resulting estimated effects of those variables from the Stage 2 equation may be biased (Bound et al. 1995). Stock and Yogo (2005) provide a test of weak instruments based on the *F*-statistic from a test of the null hypothesis that the coefficients on the instruments are jointly equal to 0 in the Stage 1 equation. For example, they suggest that a set of five instruments in a model in which two endogenous variables are being predicted should be considered sufficiently strong if the *F*-statistic exceeds 19.45. The joint significance of the instrumental variables in the first stage of our 2SLS greatly exceeded this benchmark for both the equation predicting KIPP middle school attendance ($F[5, 2020] = 184.96$; p -value = 0.000) and the equation predicting KIPP high school attendance ($F[5, 2020] = 96.44$; p -value = 0.000) (Table C.1). Notably, it appears that each of our two primary instruments (the lottery result and *HSR*) is strongly related to the endogenous variables.

Table C.1. First-stage regression coefficients on primary instruments and F-test results, full sample

First-stage outcome	Impact estimate	Impact estimate <i>p</i> -value	Sample size	<i>F</i> -statistic	<i>F</i> -statistic <i>p</i> -value
Attended a KIPP middle school					
Receiving admission offer (treatment indicator)	62.3 p.p.** (5.0 p.p.)	0.000	2,066	184.96	0.000
<i>HSR</i>	17.3 p.p.** (4.0 p.p.)	0.000	2,066		
Attended a KIPP high school					
Receiving admission offer (treatment indicator)	16.7 p.p.** (4.0 p.p.)	0.000	2,066	96.44	0.000
<i>HSR</i>	30.6 p.p.** (3.0 p.p.)	0.000	2,066		

¹⁵ In practice, there are five instruments in total: student middle school lottery result (treatment indicator), *HSR*, treatment indicator interacted with *HSR*, treatment indicator interacted with entry grade, and *HSR* interacted with entry grade.

Note: Standard errors are reported in parentheses under each impact estimate. The impact estimates represent the estimated effect of these instrument on the likelihood of attending KIPP in the first-stage equations. These equations controlled for five instrumental variables (treatment indicator, the *HSR* at the time the student entered high school, the treatment indicator interacted with *HSR*, the treatment indicator interacted with lottery grade level, and *HSR* interacted with the lottery grade level), as well as student characteristics. The *F*-statistic is a measure of the joint significance of the full set of instrumental variables.

p.p. = percentage points; *HSR* = high school ratio.

Condition 2: Instrumental variables are not correlated with college outcomes, except through their influence on attendance at KIPP middle schools and KIPP high schools

To produce unbiased impact estimates, the instruments in the 2SLS model should not be correlated with the study's long-term college outcomes of interest, except through their influence on the endogenous variables of KIPP middle school attendance and KIPP high school attendance. The assumption would be violated if, for instance, the *HSR* instrument (the ratio between the number of available grade 9 seats in a KIPP region and the number of graduating KIPP 8th graders in that region) is also related to the underlying quality of KIPP middle schools in the region. We are more concerned with the possibility that the instruments related to *HSR* might violate this assumption.¹⁶

Although we cannot directly test this assumption, we conducted several placebo tests to examine whether the instruments are correlated with outcomes that might be related to students' later college outcomes and on which one would not expect KIPP high school attendance to have any direct effect. To test the validity of the *HSR* instrument, we estimated the 2SLS model with various measures of students' middle school test scores serving as the dependent variable in Stage 2. The idea here is that *HSR* should not be correlated with middle school achievement (that is, it should not be correlated with those outcomes through its influence on KIPP high school attendance, because students' middle school tests are completed before they reach high school). If *HSR* is significantly related to middle school test scores, that would suggest that it may be proxying for unobserved characteristics correlated with students' academic performance, and hence may be an unreliable instrument.

We conducted the placebo test using four different middle school test outcomes—students' math and English language arts (ELA) scores both one and two years after the admission lottery to a KIPP middle school. For each middle school test outcome, the main analysis uses the sample of students with valid data for that outcome (meaning the sample sizes vary by outcome).

The results of the placebo test were mixed (Table C.2). As expected, attendance at a KIPP middle school was positively and significantly related to middle school test scores, as was shown in the original KIPP studies (Tuttle et al. 2013, 2015). Also as expected, in three of the four placebo tests, KIPP high school attendance was not significantly related to students' middle school test scores. However, the remaining (fourth) placebo test found that KIPP high school attendance was negatively and statistically significantly related to Year 1 middle school mathematics scores. To the extent that one focuses on the results of this fourth placebo test rather than the other three placebo tests, the results suggest that the *HSR* variable (which could be a proxy for a region's capacity or demand for opening KIPP high schools) may be negatively correlated with factors affecting students' college outcomes (assuming that students' middle school math scores are positively correlated with their college outcomes). Such patterns could have arisen

¹⁶ Earlier studies of KIPP (Tuttle et al. 2013, 2015) assessed the validity of the treatment indicator, showing that the result of the middle school lottery was not correlated with a large set of baseline student and family characteristics.

by chance or through strategic decisions made by KIPP about where to place high schools (for instance, in places where KIPP middle school graduates were in greater need of supports).

Table C.2. Second-stage impacts of attending a KIPP middle school or a KIPP high school on middle school academic achievement, full sample

Outcome	Impact estimate of middle school attendance	Impact estimate <i>p</i> -value	Impact estimate of high school attendance	Impact estimate <i>p</i> -value
Year 1 mathematics achievement	0.44** (0.10)	0.000	-0.44** (0.13)	0.001
Year 1 ELA achievement	0.21* (0.10)	0.032	-0.24 (0.14)	0.091
Year 2 mathematics achievement	0.33** (0.12)	0.006	0.20 (0.16)	0.221
Year 2 ELA achievement	0.36** (0.12)	0.003	-0.19 (0.15)	0.221

Note: Standard errors are reported in parentheses under each impact estimate. The model estimates the impact of KIPP middle school and high school attendance on early academic achievement, controlling first-stage estimates of middle and high school attendance and student characteristics. First-stage estimates predicting KIPP attendance use the treatment indicator, the *HSR* at the time the student entered high school, the treatment indicator interacted with *HSR*, and lottery grade level interacted separately with the treatment indicator and *HSR* as instruments for whether a student ever attended a KIPP middle or high school.

HSR = high school ratio.

2. Sensitivity analyses

Because the placebo test produced a different set of results for Year 1 middle school test scores compared to Year 2 middle school test scores, we tested whether the results would be robust under different modeling specifications. First, we tested whether the results would be robust when using a more consistent sample—specifically, students in KIPP regions that were able to provide valid middle school test score data for both Year 1 and Year 2. In practice, there was one region (KIPP Southern California) that was able to provide Year 1 but not Year 2 test scores. We included data from this region in our main placebo test analysis but excluded them from a test of the sensitivity of the placebo test results, to create a consistent sample of regions across the middle school test score outcomes in the placebo test. As it turned out, this was a region in which there were no KIPP high schools (*HSR* = 0).

Second, we tested the validity of the *HSR* instrument as an instrumental variable by including region-level fixed effects in the Stage 1 and Stage 2 equations. In our primary model, variation in the *HSR* comes from both the differences between regions and differences over time within KIPP regions. Between-region variation in *HSR* could potentially be affected by selective patterns in where KIPP opened high schools during the study period if the regions with more-successful middle schools tended to open or expand KIPP high schools more rapidly. Including region fixed effects in the model addresses this issue directly, by limiting the analysis to within-region variation in *HSR*.

In this section, we describe the Stage 1 and 2 results of these sensitivity analyses. The consistent-sample analysis passes the placebo test and produces impact estimates that are consistent with the results we reported for the full sample in Chapter III of the main report. The region-level fixed effects analysis produced findings smaller in magnitude, but these, too, pass the placebo test.

Condition 1: Predictive strength of the instrumental variables (sensitivity analyses)

As in the original model, we found that when excluding KIPP Southern California from our analysis sample, the model’s full set of instruments still strongly predicted KIPP middle school attendance ($F[5, 1828] = 183.64$; p -value = 0.000) and KIPP high school attendance ($F[5, 1828] = 85.89$; p -value = 0.000) in Stage 1 (Table C.3). In the region fixed effects analysis, the model’s full set of instruments also strongly predicted KIPP middle school attendance ($F[5, 2008] = 170.67$; p -value = 0.000) and KIPP high school attendance ($F[5, 2008] = 44.96$; p -value = 0.000) in Stage 1.

Table C.3. First-stage regression coefficients on primary instruments and F-test results, sensitivity analyses

First-stage outcome	Impact estimate	Impact estimate p-value	Sample size	F-statistic	F-statistic p-value
Excluding KIPP Southern California					
Attended a KIPP middle school					
Receiving admission offer (treatment indicator)	61.7 p.p.** (5.1 p.p.)	0.000	1,874	183.64	0.000
HSR	20.2 p.p.** (4.4 p.p.)	0.000	1,874		
Attended a KIPP high school					
Receiving admission offer (treatment indicator)	18.1 p.p.** (3.8 p.p.)	0.000	1,874	85.89	0.000
HSR	32.7 p.p.** (3.5 p.p.)	0.000	1,874		
Including region fixed effects					
Attended a KIPP middle school					
Receiving admission offer (treatment indicator)	62.2 p.p.** (5.0 p.p.)	0.000	2,066	170.67	0.000
HSR	3.3 p.p. (11.1 p.p.)	0.767	2,066		
Attended a KIPP high school					
Receiving admission offer (treatment indicator)	16.3 p.p.** (3.8 p.p.)	0.000	2,066	44.96	0.000
HSR	-13.2 p.p. (11.1 p.p.)	0.234	2,066		

Note: Standard errors are reported in parentheses under each impact estimate. The impact estimates represent the estimated effect of these instruments on the likelihood of attending KIPP in the first-stage equations. These equations controlled for five instrumental variables (treatment indicator, the HSR at the time the student entered high school, the treatment indicator interacted with HSR, the treatment indicator interacted with lottery grade level, and HSR interacted with the lottery grade level), as well as student characteristics. The F-statistic is a measure of the joint significance of the full set of instrumental variables.

HSR = high school ratio; p.p. = percentage points.

Condition 2: Instrumental variables are not correlated with outcomes, except through their influence on middle and high school attendance (sensitivity analyses)

In the second stage, we reestimated impacts of KIPP middle school and KIPP high school attendance using each alternative model specification. For our analysis on the same subsample of regions with valid

test score data as Stage 1, we re-estimated impacts on Year 1 math and ELA scores.¹⁷ In our region fixed effects model, we re-estimated Stage 2 impacts on all four test score outcomes. In both instances, the estimated relationship between *HSR* and Year 1 math scores fell substantially in magnitude and was no longer statistically significant at the 5 percent level (Table C.4). The impacts on Year 1 ELA scores also remained statistically insignificant. The lack of significant findings in these sensitivity analyses suggests the main placebo test is sensitive to the sample of included KIPP regions as well as to the influence of between-region variation in the *HSR*. In other words, limiting the sample to regions that had data on middle school test scores in both Year 1 and Year 2 or controlling for any bias in the model that may arise from which regions had KIPP high schools lessens any concerns raised by the placebo test results in the main sample.

Table C.4. Second-stage impacts of attending a KIPP middle school or a KIPP high school on middle school academic achievement, sensitivity analyses

Outcome	Impact estimate of middle school attendance	Impact estimate <i>p</i> -value	Impact estimate of high school attendance	Impact estimate <i>p</i> -value
Excluding KIPP Southern California				
Year 1 mathematics achievement	0.29** (0.11)	0.006	-0.27 (0.15)	0.061
Year 1 ELA achievement	0.08 (0.11)	0.471	-0.03 (0.15)	0.868
Year 2 mathematics achievement	0.33** (0.12)	0.006	0.20 (0.16)	0.221
Year 2 ELA achievement	0.36** (0.12)	0.003	-0.19 (0.15)	0.221
Including region fixed effects				
Year 1 mathematics achievement	0.39** (0.11)	0.000	-0.31 (0.19)	0.110
Year 1 ELA achievement	0.19 (0.11)	0.093	-0.23 (0.22)	0.287
Year 2 mathematics achievement	0.28 (0.16)	0.070	0.27 (0.26)	0.301
Year 2 ELA achievement	0.34* (0.16)	0.033	-0.14 (0.25)	0.570

Note: Standard errors are reported in parentheses under each impact estimate. The model estimates the impact of KIPP middle school and high school attendance on early academic achievement, controlling first-stage estimates of middle and high school attendance and student characteristics. First-stage estimates predicting KIPP attendance use the treatment indicator, the *HSR* at the time the student entered high school, lottery grade level, and lottery grade level interacted separately with the treatment indicator and *HSR* as instruments for whether a student ever attended a KIPP middle or high school.

HSR = high school ratio.

¹⁷ Because KIPP Southern California did not report Year 2 test scores, this region is already excluded in the Year 2 impacts presented in Table C.2. Given that the placebo test on Year 2 scores demonstrated no relationship between the *HSR* and test scores using the full sample, no additional sensitivity analyses were conducted on Year 2 achievement outcomes.

Combined impact of KIPP middle and high school attendance on college enrollment, persistence, and graduation (sensitivity analyses)

As a final step to assess the validity of the model, we also repeated the impact analysis (IV Equations [3] through [5]) for the study’s main college enrollment and persistence outcomes, to understand whether the impact estimates are sensitive to the decision to restrict the data to the alternative sample of regions with valid test score data or to include region fixed effects in the model—two decisions that pass the study’s placebo test. Findings from these analyses are provided in Table C.5 (our primary impacts are presented in the first set of columns for reference). Overall, the sensitivity analysis that included the subsample of regions with valid test score data yielded similarly large, positive, and statistically significant results. With the restricted sample, the combined middle school plus high school impact estimates remained positive and statistically significant for the outcomes of college enrollment, college persistence for three years, and college persistence for five years. For the college graduation outcome, the combined impact of KIPP middle and high schools increased from 18.9 to 20.4 percentage points when excluding KIPP Southern California; due to the smaller sample size in the restricted sample, the impact estimate for this outcome also became statistically insignificant at the 0.05 level (the *p*-value increased from 0.025 to 0.080). When removing within-region variation in the *HSR* in the fixed effects model, the combined middle school plus high school impact estimates remained positive and statistically significant for the outcomes of college enrollment, college graduation in five years, and college persistence for five years. For the college persistence outcome, the combined impact of KIPP middle and high schools decreased from 19.7 to 15.7 percentage points, becoming statistically insignificant at the 0.05 level (the *p*-value increased from 0.000 to 0.075).

Table C.5. Impact of KIPP middle school and high school attendance on four-year college enrollment, persistence, and graduation: Full sample and sensitivity analyses

Primary outcome	Full sample		Sample excluding KIPP Southern California		Full sample with region fixed effects	
	Impact estimate of attending KIPP MS + KIPP HS	<i>p</i> -value	Impact estimate of attending KIPP MS + KIPP HS	<i>p</i> -value	Impact estimate of attending KIPP MS + KIPP HS	<i>p</i> -value
Ever enrolled in four-year college	30.5 p.p.** (6.7 p.p.)	0.000	26.5 p.p.** (6.9 p.p.)	0.000	28.0 p.p.** (10.0 p.p.)	0.005
Persisted through first six semesters (four-year college)	19.7 p.p.** (5.6 p.p.)	0.000	18.8 p.p.** (5.8 p.p.)	0.001	15.7 p.p. (8.8 p.p.)	0.075
Graduated from a four-year college in five years	18.9 p.p.* (8.4 p.p.)	0.025	20.4 p.p. (11.7 p.p.)	0.080	24.0 p.p.* (10.7 p.p.)	0.025
Enrolled in a four-year program in 10th semester (or graduated in 10 semesters or fewer)	35.3 p.p.** (9.5 p.p.)	0.000	33.3 p.p.** (12.6 p.p.)	0.008	38.4 p.p.** (13.0 p.p.)	0.003

Note: Standard errors are reported in parentheses under each impact estimate. Estimates of the impact of attending a KIPP middle school and a KIPP high school using the KIPP admission lottery as an instrument for the ratio of 9th grade seats to 8th grade seats within each region. The models that use the full sample pool all 21 lottery schools (13 lottery schools for the college graduation and “on-track” graduation outcomes); the model that excludes KIPP Southern California pools 20 lottery schools (12 lottery schools for the graduation outcomes). All models estimate outcome means by regressing the outcome measure on treatment status using inverse probability weights and controlling for student-level covariates and the lottery school, year, and grade. The control mean is unadjusted, and the treatment mean is the sum of the control mean and the regression-adjusted difference between groups.

HS = high school; MS = middle school; p.p. = percentage points.

* Impact estimate is significantly different from zero at the .05 level, two-tailed test.

** Impact estimate is significantly different from zero at the .01 level, two-tailed test.

Appendix D

Findings from KIPP Staff Interviews

This page has been left blank for double-sided copying.

Introduction

To contextualize the quantitative impact findings described in the main report, we conducted interviews with KIPP staff from regions that participated in our study. Specifically, in a subset of the KIPP regions in the study sample, we interviewed one staff member per region who had a strong familiarity with their region’s college-related supports.

This appendix highlights regional approaches to supporting KIPP students and alumni to prepare for and apply to college and then persist in college to earn a college degree, as described by staff from each region. Although KIPP’s postsecondary programming continues to evolve, the interview data we collected focused primarily on the supports offered to KIPP students and alumni during our study period. This includes supports offered in KIPP middle schools between the 2008–2009 and 2014–2015 school years, high school supports offered between the 2012–2013 and 2018–2019 school years, and postsecondary supports offered between 2016 and 2022 (Table D.1). For this analysis, we were particularly interested in facets of the programs that may explain the importance of KIPP high school access for college outcomes, as well as any changes to these support programs that could help to explain differences between the KIPP impact estimates observed for the first two study cohorts (students who applied to KIPP middle schools in 2008 or 2009) relative to the third study cohort (students who applied to KIPP middle schools in 2011). In particular, the estimates suggested somewhat more favorable effects of KIPP on college outcomes in the first two cohorts.

Table D.1. School years applicable to the full study sample and to each cohort of students

School level/ Cohort	2008– 09	2009– 10	2010– 11	2011– 12	2012– 13	2013– 14	2014– 15	2015– 16	2016– 17	2017– 18	2018– 19	2019– 20	2020– 21	2021– 22	2022

High school					HS	HS	HS	HS	HS	HS	HS				
College									C	C	C	C	C	C	C
By cohort															
Cohort 1	MS	MS	MS	MS	HS	HS	HS	HS	C	C	C	C			
Cohort 2		MS	MS	MS	MS	HS	HS	HS	HS	C	C	C	C		
Cohort 3				MS	MS	MS	MS	HS	HS	HS	HS	C	C	C	C

Note: This table lists only the school years applicable to students who entered KIPP middle schools in grade 5, followed a standard grade progression in middle school and high school, and proceeded to college immediately after high school graduation. Some students in our sample also entered KIPP middle schools for the first time in grade 6 and would have started high school and college one year earlier.

MS = middle school; HS = high school; C = college.

In the sections that follow, we begin by describing the procedures used to conduct interviews with staff from KIPP study regions. Next, we detail findings about the college-related supports available to our study sample, including in what grade levels services were offered, types of services, engagement with services, and services KIPP staff identified as most important for promoting college enrollment and persistence outcomes. We then conclude with a discussion about how college-related supports changed over the course of the study period, including disruptions and adaptations made related to the COVID-19 pandemic and the KIPP network’s evolution to support diverse postsecondary pathways in addition to four-year college programs.

Overview of regional staff interviews

Although the KIPP Foundation, which serves as the central office for the KIPP network, provides frameworks and resources for college support programming, regional KIPP staff are ultimately responsible for coordinating service delivery for students in their region. Accordingly, to understand the scope of college support programming across regions, we aimed to speak with at least one staff member from each region included in our study sample. The KIPP Foundation connected us with staff who could speak to the college-related support services offered during the study period in their region. In some cases, we spoke with staff who had left their role in the region or who were newer to their role or region, but who had knowledge of the services offered during the study period.

In total, we interviewed staff from 10 of the 13 regions in our study sample. Interviewed regions covered 86 percent of schools in the study sample and 83 percent of students in the study sample. On average, staff had nearly 11 years of experience working in their region, and all had held a leadership role in their region's college support program during the study period. Specifically, during the study period, most of the staff we interviewed (8 regions) directed their region's college support program—overseeing all middle school, high school, and postsecondary programming—while the other two staff led smaller teams delivering specific services (high school counseling and postsecondary programs, respectively).

We conducted 30-minute interviews with these 10 KIPP staff in the summer of 2022. Before the interviews, staff were also asked to fill out a spreadsheet recording information about services in their region, including the span of years and grades in which each service was offered and the level of engagement with each service (for example, whether all, most, or some students accessed the service).

During the interviews, we asked KIPP staff to describe the service offerings in their region in greater detail, explain how these service offerings varied across middle school and high school, describe their postsecondary programming, and provide additional information about student engagement with these services. We also asked about changes to programming over the last ten years. Staff who were not in their roles for the entirety of the study period relied on institutional memory to report on their region's service offerings in certain years, and most staff could only provide estimated dates for service changes.

College Support Programming Characteristics

To identify the most common college-related support services available to students in the study sample, we asked staff to describe the services offered in middle school, high school, and after high school during the study period. Further, we asked them questions about which grade levels were offered services, student engagement with services, and which services were most critical in promoting college enrollment and persistence.

Program structure

Staff described the typical service timeline in their region, including at what grade level services were first offered. **Most regions (seven of 10) began providing college-related supports in high school**, with about half first offering services in 9th grade. Only three regions offered programming beginning in middle school,¹⁸ and two of these did not operate any KIPP high schools during the study period. In these two regions, KIPP staff continued to provide support to middle school alumni while they attended a non-KIPP high school and in college.

We also asked staff about which students were eligible for college-related supports during the study period, including whether students who attended a KIPP middle school but did not attend a KIPP high school could still receive services. **Between 2018 and 2020, most regions with a KIPP high school (five of eight) reduced or eliminated services for KIPP middle school alumni who did not go on to attend a KIPP high school.** Three of these regions shifted to an opt-in model for KIPP middle school alumni services, in which program staff delivered services upon request but did not actively reach out to students, and two regions discontinued services for middle school alumni altogether. Regions described similar reasons for the shift, including that they did not have the staff capacity to support all the KIPP middle school alumni, especially as the number of alumni continued to grow; that the region wanted to encourage families to stay in the KIPP network for high school; and that middle school alumni had low levels of engagement with services before the shift. In some regions, for example, fewer than half of middle school alumni had been engaging with services before the region decided to scale back middle school programming.

Three regions with a KIPP high school did offer services to middle school alumni during the full study period. However, two of them also noted limitations in their service offerings for these students; for example, one region noted that donors preferred that competitive services, like college scholarships, go to students who graduated from a KIPP high school. Another region described challenges engaging middle

Interview findings underscore the importance of attending a KIPP high school for receiving college support services.

During the study period, most regions provided college-related support services starting in high school.

During the years Cohort 3 students were in high school and college, most regions with a KIPP high school discontinued or limited support services for students who did not attend a regional KIPP high school.

“We discontinued the KIPP middle school program in 2020 ... the choice was really because of capacity. Our alumni base is exponentially growing. For the KIPP Forward team to continue to fund and support [these students]; it became more difficult.

¹⁸ Although several other regions identified that some services like college fairs and high school course selection supports may have been available to middle school students, they emphasized that formal programming (in which college support staff were directly involved) started only in high school.

school alumni because they had left the KIPP network and were no longer attending school on KIPP campuses, and noted that these students received only a portion of typical college support services.

Service offerings

To understand the prevalence of specific college-related supports and when they were provided, we asked staff to describe the supports available to students during middle school, during high school, and after high school during the study period.

In the three regions that offered college-related supports during middle school, the most common service offering was high school placement support (Table D.2). Both regions without a high school offered high school placement services, including support identifying high schools that had demonstrated success sending students to college and completing high school applications. In addition, one region offered career assessments for 8th graders; another offered selective summer programs and several lessons for middle school students on college topics; and another offered college tours to middle school students.

Across all regions, including those without KIPP high schools, students were offered college-related supports during high school, including college counseling services and support with financial aid applications (Table D.2). All regions offered college counseling, including matching students with a college counselor, providing support throughout the college application process for students and families through workshops or individual counseling sessions, and support with college essay writing. Further, all regions offered support with financial aid applications, including making FAFSA forms available in counselors' offices, sending FAFSA forms home to families, and offering workshops for families to support them with completing the forms. Finally, all regions offered students support on enrolling in pre-college summer programs, such as enrichment programs and internships.

Similarly, across all regions, supports were available to students during college, including academic progress check-ins, financial supports, and on-campus visits (Table D.2). All regions offered college students opportunities to meet with a counselor or peer mentor to check in on their academic progress or review their academic transcript. Similarly, all regions offered students opportunities to receive financial supports, which could range from small awards (\$200–\$300) to buy books and other supplies, to larger scholarships of several thousand dollars or more. Financial incentives or supports often required students to meet with a KIPP advisor or submit their college transcript to KIPP to demonstrate their investment and progress in college and help KIPP advisors pinpoint their support. Most regions (nine of 10) reported that only some alumni took advantage of financial supports (as opposed to most or all alumni). Further, all regions offered on-campus visits from an advisor or peer, which could include one-on-one visits or meeting up with other alumni on the same campus or in the region; opportunities for virtual mentoring; and various holiday or school break events hosted by the region.

//////
"We have the Book Fellowship program. ...It's \$200. In exchange for that money, kids share their transcripts with us. It's been a wide-reaching program. We've been able to get it out to a lot of kids. It also helps us to see their transcripts."

Table D.2. Proportion of regions that offered specific college-related supports during middle school, high school, and college during the study period

College-related support	Proportion of regions that offered
Supports offered during middle school	
High school placement support	20%
Career assessments	10%
Selective summer programs	10%
College open houses	10%
Supports offered during high school	
College counseling	100%
Support with financial aid applications	100%
Pre-college summer programs	100%
Career assessments	90%
College open houses, tours, and trips	90%
Career and college fairs	90%
Dual enrollment coursework	90%
Standardized test preparation support	80%
High school course selection	70%
Standardized tests hosted at KIPP school (or KIPP provides transport)	60%
Supports offered in the period between high school and college	
Summer melt mitigation supports	60%
Supports offered during college	
Academic progress discussions with a counselor or peer	100%
Financial supports	100%
On-campus visits with a counselor or peer	100%
Virtual mentoring with a counselor or peer	100%
Holiday or school break events	100%
Formal “Near peer” advisor system	40%
Other peer support systems	40%
Internship support and career coaching	30%

Source: Interviews with KIPP staff from 10 KIPP regions, conducted in summer 2022.

Note: This table shows the proportion of interviewed regions that offered the support for at least two years during the applicable reference period, namely 2008–2014 for middle school supports, 2012–2018 for high school supports, and 2016–2022 for college supports.

Engagement with services

We asked staff to describe the share of students who engaged with each service offering during middle school, high school, and college during the study period and to describe successes and challenges engaging students with services.

Across all regions, the share of students engaging with high school services varied. For example, all 10 regions reported that all or most students accessed college counseling and financial aid application support during high school. In contrast, of the nine regions that organized college tours, including travel, only six regions reported that most or all students accessed this opportunity. Similarly, although dual

enrollment coursework was accessible in nine regions, only five regions actively endorsed dual enrollment coursework for high school students. Even in regions where dual enrollment was endorsed, student participation varied widely; for example, one region reported 80 percent of students took dual enrollment courses, whereas another reported only 10 to 15 percent took these courses. Staff reported that some services were required and others were voluntary for high school students; however, even when staff reported that services were required, they noted that not all students participated.

To engage students with services during high school, staff mentioned specific programmatic strategies, including prioritizing rapport-building with students and families, and offering programming during the summer. Specifically, one region described the importance of building individual relationships with students, including in the earlier years of high school. Another region mentioned the importance of including parents in the college preparation process, rather than telling them what to do to prepare for college. Several regions offered intensive programming in the summer between high school and college; two of these regions emphasized this offering as a critical engagement strategy. Summer programming included activities such as transition days, where staff would meet with students to finalize financial aid paperwork and look at their course schedules, and extensive follow-up with students in the summer before college matriculation.

Both regions that did not have KIPP high schools during the study period reported challenges providing college-related supports to middle school alumni. These regions reported challenges

keeping in contact with students after middle school, especially as students were no longer physically present in a KIPP school. They also described how the large caseloads of their college counseling staff made it challenging, if not impossible, to engage with all middle school alumni. One region described offering most college-related supports starting in 11th grade, noting that staff typically had little contact with middle school alumni in the first two years of high school.

“There has never been a KIPP high school in our region ... We lose contact with them in high school, that’s the biggest challenge ... When kids go to college is when we’re most connected ... We’ve tried to do a better job communicating with them early on, but that’s not the case.”

Regions reported that student engagement with services during college tended to drop off after two to four semesters. A few regions reported engagement dropping off after the first year of college, and others reported engagement declining after the first two years. In contrast, one region reported increased engagement in the latter years of college, explaining that students sought out services more when they were closer to graduating. Even in the first two years of college, however, regions described challenges engaging students with programming. Two regions noted that some students found the college supports too intrusive or inappropriate given their age (they felt they were adults now and did not want further support from their middle or high school provider) and were hesitant to engage with KIPP because they did not want to share their grades or appear like they needed help. Three regions highlighted that some students did not need the supports because they were receiving services from their college or other selective scholarship programs, and two regions described challenges in communicating available services to students and having to rely on individual outreach.

Most critical services to promote college enrollment and persistence

We asked staff to reflect on which services offered during the study period were most critical for promoting student college enrollment and persistence. **To promote college enrollment, staff most frequently described the importance of connecting college planning to career aspirations and providing supports for identifying best-match colleges.** Some

regions described how connecting college planning to career goals helped motivate students and made the results of their college planning feel more tangible. Other regions described the importance of helping students identify colleges that match their interests, goals, and financial needs so that students' applications are

successful, and students are more likely to enroll if accepted. Regions described various strategies for helping students build strong lists of colleges they planned to apply to, including exposing students to schools that they may not have heard of; guiding students to consider the costs of attending schools when choosing schools of interest; and focusing students on the need to identify good-fit schools earlier in the application process.

Regions also mentioned other impactful strategies. For example, regions highlighted the importance of college support staff building rapport with students when helping them navigate the complex college planning process. Other regions described the

importance of encouraging students to apply to schools through Early Decision, a process offered by some colleges that enables students to apply early with a commitment to enroll if accepted. Staff felt applying using Early Decision helped increase student engagement in pre-college activities and made their applications more competitive. In addition, staff highlighted other region-specific services that they thought were critical to promoting college enrollment, including standardized test prep boot camps; instant admission days, in which colleges interviewed students at their school building and made same-day admission decisions; office hours with counselors, in which groups of students worked with counselors on college applications; and intensive, region-funded summer programs for students on college campuses.

To promote college enrollment and persistence, staff most frequently highlighted the importance of financial supports during college and supports in the transition from high school to college. Most staff described the importance of specific financial supports: these included \$200 awards for books and supplies, larger scholarships funded by local donors, and the KIPP Foundation microgrants program started in 2020 to help prevent students from leaving college in response to the COVID-19 pandemic. Staff noted higher rates of persistence in students who received these awards, and shared that students felt the awards made a difference in their financial situations during college. Staff also described the effectiveness of other related strategies in boosting persistence, including supporting students and families to understand their financial awards letters, and sending students small care packages during college to keep them connected to a KIPP advisor.

"If [students have] never heard of [a college], it is hard to convince [them] to look at it and think about it. The thing we try to do is introduce schools that are unknowns that we think are good fits on their wish lists."

"Our matriculation numbers are pretty high. I would attribute that to our 1:1 advising— [counselors] spend a lot of time with students over those two years, following up with students and families, lots of conversations and support. It takes that much to articulate what they want to do and where they want to go."

Most staff also highlighted the positive impacts of supports in the college transition period on college enrollment and persistence outcomes. Many regions (five of 10) match students with a transition counselor or peer mentor who works with students in 12th grade and continues to support them throughout the summer before students move to alumni advisor caseloads; in some regions, transition counselors continue to work with students through their first semester or two of college. Transition support staff may work with students to apply for financial awards, complete matriculation paperwork and other transition tasks, build confidence and other interpersonal skills, and introduce students and families to their persistence advisor and other available supports during college. Regions reported these supports limited “summer melt,” when students do not matriculate in the fall after high school, by enabling staff to identify and alleviate barriers to matriculation early by providing targeted supports. Staff also described how the continuity of supports built student trust in their advisors and the program, encouraging students to continue engaging with supports later in college.

//////
“Our [summer] melt has decreased based on that college transition specialist (CTS), even in the midst of COVID ... With the CTS being on campuses and meeting with the college team and students each week, [we are] able to learn much earlier students who are going to be at high risk of melt, and triage those students, meet with them and talk about [their goals] ... That has been a tremendous impact.”

Some staff also described how strong relationships between students and program staff increase students’ comfort in seeking support and the ability of staff to provide tailored services, thus promoting persistence. Further, some staff reported that on-campus college visits from advisors, peer mentors, and other local alumni promoted persistence by solidifying connections to the program and encouraging students’ sense of belonging on campus.

Changes to Programming Over Time

To identify how college-related supports may have evolved during the study period, we asked staff to describe changes in their support programs over the last 10 years, and, where possible, to identify the years in which changes occurred. We also asked staff about changes to the types and intensity of services prompted by the COVID-19 pandemic. Finally, many staff reported changes prompted by the networkwide evolution to support more diverse postsecondary pathways beyond supporting only students’ transitions to a four-year college.¹⁹

Students in Cohort 3 may have experienced different types of supports in high school and college, compared to students in the first two cohorts.

In high school, Cohort 3 students had access to expanded service offerings, including services oriented toward diverse postsecondary pathways.

In the early years of college, Cohort 3 students had access to additional financial supports but also experienced service disruptions and other changes due to the COVID-19 pandemic. Cohort 1 and 2 students experienced these changes in the later years of college, when students are typically less engaged with supports.

¹⁹ We did not ask staff to describe changes in programming related to alternative career pathways explicitly; however, we were able to glean information on these changes from staff responses to other questions.

Expansion of services offered in high school and college

Between roughly 2015 and 2018, the years in which Cohort 3 students were in high school, **regions reported expanding the college-related supports offered during high school, including additional supports during the transition from high school to college and expanded college preparatory coursework (Table D.3).**

As discussed previously, many regions identified college transition supports as critical to promoting enrollment and persistence. Further, all these regions described implementing these supports, or making significant changes to these supports, between 2015 and 2019. For example, many regions described changes they made to their counselor staffing structures, including adding summer transition counselors or ensuring that transition or persistence advisors had more frequent touchpoints with students while still in high school.

Since 2015, regions also reported expanding high school coursework offerings and college preparatory supports. During this time, the KIPP network supported regions to expand access to and student participation in Advanced Placement (AP) classes as part of a networkwide “AP for All” effort. In addition, some regions (four of 10) described adding or expanding dual enrollment course offerings, further increasing students’ access to advanced coursework. Others added career assessments to facilitate goal-setting discussions, or increased supports for standardized test preparation and test-taking.

Regions also mentioned varied programmatic shifts to increase student engagement with services during and after high school. Namely, a few regions reported attempts to deepen service offerings for 9th and 10th grade students, including increased supports to help students understand their academic transcripts and build soft skills at an earlier stage in high school. Other regions mentioned efforts to deepen parental involvement with college supports during high school and to build support networks of alumni during college.

Between roughly 2018 and 2022, when most Cohort 3 students first had the opportunity to make the transition to college, **most regions (seven of 10) also expanded financial supports for college students (Table D.3).** Two regions described adding or expanding Book Scholarship or Book Fellowship programs, in which students received \$200 for books and supplies in exchange for sharing their transcript or meeting with a KIPP college advisor. Other regions reported students making use of KIPP Foundation Bridge Fund and KIPP network microgrant funds, made available in 2020 and 2022, respectively; because of both KIPP network programs, staff described students having access to more funds to support college persistence than previously offered in the region. Further, two other regions used regional and local donor funds to expand financial support offerings, including persistence scholarships and larger stipends.

////////////////////

“A few years ago, we changed how the persistence team operated... Before, [the college transition specialist (CTS)] was working in the regional office and would come in now and then and kids didn’t know or trust [them] ... now the CTS works with them through their first full year of college, as their main contact person, checking transcripts, doing benchmarks, checking if they are on the right track and the ones visiting campuses.”

////////////////////

“When we first started, there was not a lot [of money] for scholarships ... We had students who probably dropped out because of a few thousand dollars ... Now we have persistence scholarships and micro grants.”

Table D.3. Proportion of regions that expanded specific college-related supports for high school students between 2015 and 2018, and for college students between 2018 and 2022

College-related support	Proportion of regions that expanded
Supports offered during high school	
Dual enrollment	40%
Support for standardized test prep and test taking	40%
Career assessments	30%
College support classes	20%
Supports offered in the period between high school and college	
Summer melt mitigation supports	60%
Supports offered during college	
Microgrants and other financial supports	70%

Source: Interviews with KIPP staff from 10 KIPP regions, conducted in summer 2022.

Note: This table shows the proportion of interviewed regions that offered the support for the first time or improved or increased the support during the applicable reference period.

Reduction of services offered in high school and college

While regions largely expanded high school and college supports over the last 10 years, **staff also described discontinuing specific services that were not beneficial to students or were too costly or burdensome on staff to administer.** For example, one region discontinued its dual enrollment course offerings in 2017, due to inconsistencies in the quality of course instruction from community college professors. One region discontinued college and career fairs in high school, and another stopped holiday break events in college, both citing the cost and staff capacity associated with coordinating the events. Two regions ended their formal peer-to-peer advisory programs, in which KIPP alumni attending college provided support to high school students interested in their college or other KIPP alumni on campus; both regions decided to prioritize supports from a KIPP college advisor rather than a peer, and one region also cited ending the program because funding had ended. In response to declining engagement with services after the first few years of college, one region described focusing college supports on first- and second-year students at four-year colleges and third- and fourth-year students at community colleges.

Changes related to the COVID-19 pandemic

We asked staff to reflect on changes to postsecondary programming over the last five years related to the COVID-19 pandemic. When the COVID-19 pandemic began in the spring of the 2019–2020 school year, college-going students in the third study cohort were early in their college careers (typically completing just their second semester), whereas students in the first two study cohorts had already been in college for several years (completing their third or fourth years). Because student engagement is highest with KIPP supports during the first few semesters of college and these semesters are critical for later persistence, changes to KIPP supports due to the COVID-19 pandemic may have affected students in the third study cohort most acutely.

Changes in services offered in college

Understandably, many students in our sample experienced disruptions in their postsecondary careers due to the COVID-19 pandemic. In response, KIPP staff cited several programmatic changes to provide students the supports they needed to remain on-track while minding the importance of public safety. Of the five regions that described programming changes related to the pandemic, **three regions reported disruptions to in-person postsecondary programming, and two**

regions reported expanded services to meet student need. As discussed earlier, several regions identified on-campus visits from an advisor or peer as an important strategy in promoting college persistence. Three regions, however, reported pausing in-person visits during the pandemic due to health and safety concerns.

Other regions described expansions in services in response to the pandemic. For example, two regions reported increasing virtual mentoring supports for high school and college students. Other regions mentioned using funds from the KIPP Foundation microgrants program, which was established at the start of the pandemic to provide emergency support to alumni enrolled in college and certificate programs, giving their college students unprecedented financial support for tuition and materials. Another region reported adding extensive wraparound services for students in the period between high school and college to address food insecurity, child care needs, and other financial challenges exacerbated by the pandemic.

Changes in alumni enrollment and persistence in college

Consistent with declines in college enrollment observed nationwide (National Student Clearinghouse Research Center, 2020), **all 10 regions described declines in college matriculation rates related to the COVID-19 pandemic.** Regions attributed these declines to various pandemic-related factors, including learning loss and lower standardized test scores because of learning disruptions; lower in-person exposure to college campuses before college; affordability concerns, especially for four-year programs away from home; and financial challenges that motivated students to delay enrollment or choose working over attending school.

Half of regions reported declines in four-year college enrollment, specifically. They described increased hesitancy to invest in four-year programs and an uptick in interest in enrolling first in two-year programs. Two regions reported that all types of college enrollment had declined, including enrollment in four- and two-year programs.

Of the four regions that commented on changes in college persistence related to the pandemic, three described persistence challenges. For example, one region reported their students were not able to access mental health resources during the pandemic and generally “did not thrive in the virtual space,” which affected persistence. Another region reported that students were persisting, but often taking longer to complete college.

“Before COVID, persistence advisors’ goal was to visit every student at least once ... [this was] highly successful: The most engagement from alumni before COVID [was] when counselors were able to go see them. During COVID they did virtual coffees or lunches ... but [these were] not as effective as in-person visits.”

“We are seeing more and more of our families start at two-year programs, or going to work, or choosing a different degree pathway because of finances.”

Changes related to the networkwide transition to support diverse postsecondary pathways

In the early years of the study period, the KIPP network promoted supports that prepared and encouraged students to pursue traditional four-year college pathways. However, in 2017, with the input of families and school communities, the network expanded its mission, tasking schools to “prepare students with the skills and confidence to pursue the paths they choose—*college, career and beyond*—so they can lead fulfilling lives and build a more just world.” In 2021, the KIPP network rebranded the KIPP Through College support program as KIPP Forward, marking a formal, networkwide commitment to support diverse postsecondary pathways. As described in the 2022 summer training for KIPP Forward staff, the network now encourages regions to implement the following postsecondary-related supports:

- Counseling and support for multiple viable postsecondary pathways—including bachelor’s program matriculation and graduation as well as matriculation to associate degree programs, career and technical education (CTE) programs, and the military²⁰—while continuing to emphasize the value of a bachelor’s degree
- Career-centered counseling, in which students are supported to consider postsecondary pathways through the lens of their highest career aspirations (this marks a departure from counseling that started with the students’ academic profile and identified feasible options from there)
- Efforts to track more expansive long-term outcomes of postsecondary supports, such as alumni fulfillment (including happiness and well-being) and career success

To do this, the network is providing counselors and other KIPP Forward staff with the following:

- Information on the kinds of non-bachelor programs, partners, and trainings students may explore
- Direction and structure for counseling toward diverse postsecondary outcomes, including consistent use of career matching tools to support all students toward their career
- Direction and structure for ensuring positive student experience, including methods for ensuring students understand the choices available to them and feel empowered by their counselor

During interviews, regional staff described programmatic changes over the last five years in line with this network-wide evolution. **Staff most commonly reported shifts in how they talked about career planning with high school students (five of 10 regions).**

These regions described consistently coupling college planning with career discussions, including two regions that described starting high school supports with career exploration and goal setting before talking about college and other postsecondary pathways. These five regions also described providing additional information about different postsecondary pathways so students could understand their options. Two regions, however, reported that they were still figuring out how to include career discussions during high school. For example, in one region, staff reported noticing a gap in

“A couple things have changed ... [now] we don’t initiate conversations with college, but with career, and what [students] need to be successful. This is more tangible and tactile for students on the fence [of college and career].”

²⁰ Counselors are not encouraged to counsel toward joining the workforce immediately following high school if the student does not have plans for further credentialing.

students' ability to connect their reason for being in school with their long-term plans, but that the region was still tackling how to incorporate career discussions.

A few staff described changes to staffing models to accommodate counseling toward diverse postsecondary pathways. Two regions mentioned they had added or were planning to add additional staff, including career advisors, to expand their career counseling services. Another region described a complete reorganization of their postsecondary programming team, to include staff and services intended to reengage students who had not chosen college immediately following high school.

It remains to be seen whether KIPP's more recent efforts to support alternative postsecondary pathways—while still emphasizing the value of bachelor's programs—will affect the pattern of long-term impacts observed among students in this study. This shift to support a more diverse set of postsecondary pathways began in 2017 when most Cohort 3 students were in their final years of high school, so any changes made right away could have affected students' postsecondary outcomes. For example, a larger proportion of KIPP high school graduates may have decided to enroll in a two-year program rather than a four-year program immediately after graduation. On the other hand, the full set of changes in postsecondary support services provided to KIPP students may not have occurred until more recent years and so may not have influenced sample members' immediate postsecondary outcomes. To examine how this evolution in KIPP's postsecondary support model may have affected students, future studies may estimate the effects of KIPP on additional postsecondary outcomes, such as enrollment and persistence in associate degree and career and technical education programs. It may also be valuable to examine KIPP's impacts on broader labor market outcomes (such as employment and earnings) that could be affected by KIPP's evolving approach to supporting alumni in pursuing their aspirations and goals. Finally, studies of KIPP's impacts on later cohorts of middle or high school entrants may more fully capture the effects of this evolution in KIPP's postsecondary support services.

Appendix 25 - Financial Packet (as required by OUSD)

KIPP Bridge Academy
Budget Narrative
July 15, 2024

This document serves as the budget narrative for the KIPP Bridge Charter Renewal application to OUSD. It provides an overview of our financial position, including an outline of funding sources, enrollment, major expenses and financial health metrics.

Overview

KIPP Bridge operates with a sound financial model, enabling multi-year health and financial sustainability. Due to a focus on a fiscally sound business and management structure, KIPP Northern California has received unqualified audit opinions year after year. KIPP Northern California closed FY23 with a fund balance of approximately 132% of annual expenses. We ended FY23 with cash reserves totaling approximately 111% of annual expenses. KIPP Bridge is projected to remain steady financially due to the thoughtful planning outlined below.

Funding Sources

KIPP Bridge’s funding sources will be diverse. The per-pupil payments from local and state sources and federal school funding programs cover approximately 91.4% of the Charter School’s operating expenses, and will be combined with other grants and donations. The table below provides an overview of the amount and sources of our funds; this is further elaborated upon in the appendices *Financial Packet_MYB projection FY25-FY28* and *Financial Packet_Bridge Cash Flow FY25-FY28*.

	Amounts and Sources of Funds			
Revenues	Year 0: 2024-25	Year 1: 2025-26	Year 2: 2026-27	Year 3: 2027-28
LCFF Sources	\$6.8M	\$7.05M	\$7.59M	\$7.83M
Federal	\$289K	\$300K	\$340K	\$347K
Other State	\$2.55M	\$1.91M	\$1.77M	\$1.77M
Local (incl. Grants and Philanthropy)	\$2.05M	\$1.66M	\$1.14M	\$1.01M
Total	\$11.78M	\$10.92M	\$10.83M	\$10.95M

If KIPP Bridge’s financial goals were to fall short, the organization’s substantial fund balance would provide a cushion while the Charter School made necessary changes to its operating model.

Enrollment

Enrollment is the biggest driver of revenue for our schools. In recent years, we have revised long-term enrollment targets across grades as we plan for FY25 through FY30 at Bridge for FY25+). The table below provides updated enrollment projections by year and by grade.

	Maximum Student Enrollment for Each Year by Grade Level and Total Enrollment
--	---

Grade Level	Year 1: 2025-26	Year 2: 2026-27	Year 3: 2027-28	Year 4: 2028-29	Year 5: 2029-30
<i>TK</i>	20	20	20	20	24
<i>K</i>	47	56	56	56	56
<i>1</i>	40	50	56	56	56
<i>2</i>	51	40	54	56	56
<i>3</i>	52	51	43	56	56
<i>4</i>	51	53	56	44	56
<i>5</i>	55	60	66	66	66
<i>6</i>	70	70	70	70	70
<i>7</i>	65	65	65	65	65
<i>8</i>	60	63	63	65	65
Total	511	528	549	554	570

Personnel Expenses

KIPP Bridge will maintain a fiscally sustainable administrative staff in order to allocate as many funds as possible to direct instructional materials and teaching staff. In FY25, returning teachers will receive a raise of 4.5%, on average; Returning non-teacher FTEs will receive a 3.5% raise on average. KIPP Bridge’s staffing model aligns with our multi-year projections for enrollment and is affordable over the long-term. Long-term, KIPP Bridge will be operating with a school staff-to-student ratio of approximately 1:10. The table below provides our staffing levels by year and by role.

	Staffing Model for Each Year and each role				
	Year 1: 2025-26	Year 2: 2026-27	Year 3: 2027-28	Year 4: 2028-29	Year 5: 2029-30
School Leader	2.0	2.0	2.0	2.0	2.0
Assistant Principal / Content Specialist	5.0	4.0	4.0	4.0	4.0
Core Teachers	21.0	19.0	19.0	19.0	19.0
Elective Teachers	4.0	4.0	4.0	4.0	4.0
Mental Health Clinician	2.0	2.0	2.0	2.0	2.0
Instructional Aide	4.0	3.0	3.0	3.0	3.0
Operations	7.8	7.8	7.8	7.8	7.8
Expanded Learning Opportunity	8.0	8.0	8.0	8.0	8.0
SpEd Teachers	7.0	7.0	7.0	7.0	7.0

SpEd Mental Health Clinician	<i>1.8</i>	<i>1.9</i>	<i>1.9</i>	<i>2.0</i>	<i>2.0</i>
Total Staff	62.6	58.7	58.7	58.8	58.8

Equity-Centered Financial Supports

As KIPP Bridge serves predominantly students from marginalized communities, with an unduplicated rate of 76.6%, it's of utmost importance that this school delivers on our promise of providing an excellent education to our students. KIPP NorCal fundraises regionally to support KIPP Bridge in funding academic roles that are above and beyond what is affordable on public funding alone. This enables the Charter School to deliver strong instructional programming, which contributes to their growing academic success. In particular, KIPP Bridge will have four (4) instructional FTEs on staff in FY26 who are funded through regional philanthropy funds from KIPP NorCal.

**CHARTER SCHOOL
MULTI-YEAR PROJECTION - ALTERNATIVE FORM**

Charter School Name: KIPP Bridge Academy
 (name continued) _____
 CDS #: 01 61259 0115014
 Charter Approving Entity: Oakland Unified
 County: Alameda
 Charter #: 938
 Fiscal Year: 2024/25

This charter school uses the following basis of accounting:

- Accrual Basis** (Applicable Capital Assets / Interest on Long-Term Debt / Long-Term Liabilities objects are 6900, 7438, 9400-9499, and 9660-9669)
 Modified Accrual Basis (Applicable Capital Outlay / Debt Service objects are 6100-6170, 6200-6500, 7438, and 7439)

Appendix 26 - Performance Report (as required by OUSD)

Charter Renewal Performance Report

Background

According to Board Policy 0420.4 - Philosophy, Goals and Objective; Charter Schools:

...Any charter granted by the Board shall contain adequate processes and measures for holding the school accountable for fulfilling the terms of its charter. These shall include, but not be limited to, fiscal

accountability systems, public governance systems, and multiple measures for evaluating the educational program...

Therefore, in keeping with this policy, the Office of Charter Schools (OCS) asks that charter schools requesting renewal prepare and submit a performance report that includes reporting of key data points and information that may not be available through other sources.

Goals

- Highlight unique areas of success from the charter school's perspective beyond traditional academic measures
- Provide guidance for OCS for further inquiry during the renewal site visit
- Collect additional information related to OCS priority areas that may not be available elsewhere in the petition

Guidelines

The performance report includes requests for descriptive responses as well as data tables. Where descriptive responses are requested, please provide comprehensive yet concise responses. If there are sections where you feel you are not in a position to respond, please elicit responses from more appropriate parties (e.g. governing board president).

A draft of this report needs to be submitted to OCS staff via Epicenter in Word format **at least 2 weeks before** either the renewal site visit or the submission of the charter renewal request, whichever is earlier. **The final draft of this Performance Report needs to be submitted as an Appendix in the Renewal Charter Petition.**

- **Measurable Pupil Outcomes (MPOs):** For the 2024-25 Renewal Cycle (for schools with charters ending in June of 2025), MPOs will be incorporated directly in the District Required Language (available on the Charter Petition Information page of the OCS website). Please note, the District is transitioning away from the Collective MPOs that many charter schools adopted previously.

- **Verified Data:** For the 2024-25 Renewal Cycle, schools submitting Verified Data will need to submit specific data reports depending on the Verified Data source. Schools will include a narrative to this data as part of the Performance Report (See Question 12 on sheet 1). The specific data reports should be submitted separately via Epicenter and should be incorporated as an Appendix in the Renewal Charter Petition, directly after the Performance Report.

Open Responses

<p>1. Instruction</p>	<p>Describe any unique schoolwide instructional practices that have positively impacted student outcomes. Please note any specific practices used in response to the COVID-19 pandemic's impact on student learning.</p>	<p>Science of Reading The school has implemented several new initiatives to further enhance student learning and engagement. These include the adoption of the CKLA phonics curriculum, also known as the Science of Reading, for TK-2nd graders, which is leading to more students mastering the word recognition strand of the reading rope and reading on grade level. This reading growth is demonstrated in our DIBELS data, a verified data source.</p> <p>Social-Emotional Learning (SEL) Program KIPP Bridge Rising has introduced an internally created and run Social-Emotional-Learning (SEL) program for TK-4th grade students, where staff members create criteria for success, run weekly Community Meetings, and recognize students with SEL superstar awards for exemplifying weekly SEL skills. This is in response to an unprecedented need for additional behavioral and social regulation support post-pandemic. KIPP Bridge Upper (5th-8th) has incorporated a weekly check-in with students and their homeroom teacher to facilitate deeper relationships between students and, at least, one teacher in the building.</p> <p>Increasing Number of Reading Groups and Instructional Time To support students reading below a 3rd-grade level, KIPP Bridge has increased the number of targeted reading groups focusing on building phonics and fluency skills. The school has also extended math class time to 90 minutes daily, allowing for reteaching, review, and the introduction of new lessons, ensuring that students have ample time to grasp and apply mathematical concepts.</p> <p>Tier 2 and Tier 3 Reading Intervention for TK-4 All students reading below grade level are progressed monitored using DIBELS assessments every two weeks. That data is used to shift instruction to close literacy gaps and increase mastery. Bridge partners with Ignite reading to provide one-on-one 15 minute student tutoring sessions. This one-on-one support, targeted at specific data driven gaps in reading skill, has increased our students' reading growth and provided students the additional touch points with a teacher needed to make additional growth.</p> <p>Tier 2 Reading Intervention for 5th-8th students: To support students in literacy, all are enrolled in an additional literacy block to support any remediation that may need to occur.</p>
<p>2. Areas of Success</p>	<p>Describe any unique areas of success beyond traditional academic measures.</p>	<p>Suspension and Chronic Absenteeism Rates A notable achievement is the significant decrease in suspensions, from 10% in 2021-22 and 3% in 2022-23 to just 1% in 2023-24. This improvement can be attributed to the school's focus on creating a positive and inclusive learning environment for all students, and a School Leader change at Bridge Upper. Additionally, KIPP Bridge has decreased chronic absenteeism by 7% from the previous year, thanks to the tireless efforts of the operations team. School operations teams and administrators actively engage with families of absent students, partner with community organizations to provide resources for attendance, and organize strong family events to strengthen relationships with families.</p> <p>The school utilizes a Coordination of Services Team (COST) and tiered attendance systems to identify and support students at risk of becoming chronically absent. By investing staff in connecting and following up with families, the school encourages consistent attendance and addresses any barriers or concerns that may impact student presence. The use of incentives has also been effective in promoting regular attendance and fostering a positive school culture.</p> <p>Family Satisfaction The school has seen a 4% increase in family satisfaction through our annual Family Survey from 2022-23 to 2023-24, demonstrating their commitment to building a strong community. The school has strong structures for family engagement, including a KIPP Family Council, and over 15 joyful family events throughout the year, including Back to School Night, 8th Grade Promotion Ceremony, After School Program performances, Art Shows, All-School Team and Family Meetings, Parent Coffees, Pride Parade, Moms & Muffins, Dads & Donuts, Diamano Coura West African Dance Troupe Performance, Step Team Performances, Eid Festival, Human Rights March, Weekly Fun Fridays aligned to Monthly Theme (i.e. Indigenous People's Heritage, Latinx Heritage Month, Disability Awareness Month, etc), and Dia de los Muertos Ofrenda.</p> <p>Teacher Retention and Satisfaction KIPP Bridge's success can also be attributed to its high teacher retention rate of approximately 94%, which leads to strong relationships and high-quality instruction. Moreover, through our bi-annual staff survey, teacher emotional safety and support measures have increased by 21% during the same period, supported by KIPP Nor Cal's Mental Health for All initiative, which provides all staff members with access to high-quality mental health services.</p>

<p>3. Diversity of student enrollment</p>	<p>What are the strategies and processes that you have put in place to ensure your school enrolls a diverse student population (e.g. racial/ethnic balance, representation of English Learners (including newcomers), students with disabilities, or of homeless status)? Where have you seen success and how do you plan to modify these practices for student groups who are underrepresented at your school (While we encourage you to reflect on recruitment practices in this section, we also recommend reflecting on practices at your school site which may impact the school's enrollment of various student groups (I.E. family affinity groups, increased staffing, etc.)?</p>	<p>KIPP Bridge goes above and beyond to recruit and welcome all students representative of Oakland's diverse communities. Our demographics mirror OUSD, and in the 2022-23 school year, KIPP Bridge had a 16 % SpED rate, 91% of students were socioeconomically disadvantaged, and 55% Black population, compared to OUSD which had a 15% SpED rate, 77% socioeconomically disadvantaged, and 20% Black population.</p> <p>Some strategies the school uses to reach a demographically diverse population include:</p> <ul style="list-style-type: none"> - Variety of languages for marketing and recruitment materials, included languages that are emerging (simplified Chinese and Arabic) - Partner with local community-based organizations to recruit a diverse population of students and provide services to ensure a smooth transition to middle school for new students - Host information sessions and school site visits for families of students with disabilities - Visit and speak at local community based organizations in targeted low-income neighborhoods - Hire and develop diverse staff from the community to implement recruitment activities, including in the native language of families in the community - Post flyers and notices in local supermarkets, restaurants, businesses, churches, community centers, and apartment complexes in low-income neighborhood - Visit and explain to prospective students and their families the mission of the KIPP Bridge at pre-schools, community centers and other local organizations - Conduct parent information sessions to elaborate on the commitment involved with attending KIPP Bridge
<p>4. Student Engagement</p>	<p>Are there opportunities for all students to be involved in decision-making and the governance of the school?</p> <p>What is an example of a change you have made to the school based on student feedback?</p>	<p>Students are formally engaged in the school's decision-making process by sharing feedback in regular Pulse Surveys. These surveys are designed to quickly gather feedback and insights from students about various aspects of their educational experience. These surveys focus on capturing students' thoughts, feelings, and opinions on topics such as their overall satisfaction with the learning environment, their engagement in class, their relationships with teachers and peers, their understanding of school priorities and policies, and their general well-being.</p> <p>Student voice is also captured in various ways at the school, including student leadership councils and through regular communication and access to their teachers and administration.</p> <p>At KIPP Bridge Rising, the feedback gathered has led to the development of several key initiatives. In response to input from stakeholders, the school has introduced a new Social-Emotional Learning (SEL) program that focuses on building students' social and emotional skills, fostering a positive school culture, and promoting overall well-being. The SEL lessons help students develop essential life skills, such as building healthy relationships and using kind words, and promoting a more supportive and inclusive school community. Additionally, the school has organized a variety of fun family events, such as trunk or treat, bingo night, arts and crafts night, and an Encanto showing, to strengthen the bond between the school and the community it serves.</p> <p>Students in 5th-8th grade have established Advisories, which include student circles where students can bring up feedback and areas the school can improve. An example of a change we made was from student feedback on the type of rims on the basketball courts. Students wanted different rims on the basket to use during recess, and we were able to install them. Students have also given feedback on wanting peers to be kinder to each other and the team is working on incorporating kindness into SEL lessons for SY 2024-25.</p>

<p>5. Family engagement</p>	<p>How do families voice concerns?</p> <p>Are there opportunities for all families to be involved in decision-making and the governance of the school?</p> <p>What is an example of a change you have made to the school based on family feedback?</p>	<p>A student's teacher is the first place a family should go to voice any concerns. If their concern is not resolved, a member of the leadership team, including the School Leader, will communicate with the family to understand and collaboratively resolve the issue. If the family is not satisfied with this resolution, they may utilize KIPP's grievance procedure, which can include speaking before our Board of Directors and meetings with members of KIPP NorCal's Leadership Team. This procedure ensures a thorough and prompt investigation of any reported unlawful harassment, discrimination, intimidation, or bullying, adhering to our Uniform Complaint Procedures (UCP). These procedures mandate swift action, confidentiality, and protection against retaliation, while providing clear avenues for support, investigation, and resolution to uphold a safe and respectful educational environment.</p> <p>Families have multiple ways to participate in school decision-making and governance. These include the KIPP Family Council, English Learner Advisory Committee, and monthly Coffee with the Principal.</p> <p>We also ensure ample family engagement as part of the annual Local Control and Accountability planning process to provide meaningful engagement opportunities, allowing for refinement and reflection on goals and actionable steps to enhance student outcomes. Families receive invitations to attend various events with the School Leader, as mentioned above. Interpreters are available at these gatherings, and translated materials are provided in the school's most common languages to ensure equitable engagement. Meeting topics cover a range of subjects, including but not limited to: the CA State Dashboard and LCAP alignment, state priorities, specific school goals, and actionable steps to achieve them. Input is gathered through small group exercises during meetings, where families can brainstorm together and share feedback with the community and school leadership. Additionally, the LCAP survey, the School Culture survey, and summarized empathy interview feedback (families of students with IEPs) are all additional opportunities to collect important feedback to be considered in the school's plan.</p> <p>On a regional-level, beginning in the 2021-22 school year, the KIPP Northern California board has two KIPP parents serving as Board of Directors. The two parents currently serving terms have children at KIPP Summit and KIPP King (San Lorenzo) and KIPP San Jose Collegiate and KIPP Heartwood (San Jose). KIPP Bridge parents are also welcome to apply for these board seats when they open again in the 2024-25 school year.</p> <p>An example of a change made based on family feedback is an expansion of our afterschool program to serve all families who apply. We heard from families that afterschool childcare is important to them to maintain their work schedules, and that a lack of capacity in our program forced them into difficult choices. As a result, we offer Extended Learning Opportunities (ELO) to provide students with after-school care until 6 pm daily. During school breaks, including February break, spring break, and summer break, we provide intersession programming to keep students engaged and learning. Another change we implemented was when families expressed a desire for more consistent communication from teachers and the school. In response, the school has increased the frequency of updates sent to families through various channels, including phone calls, Parent Square, and DeansList. This enhanced communication keeps families informed about their children's progress and provides opportunities for meaningful engagement.</p> <p>Another change we made based on family feedback was removing the minimum school day. School used to end early on Wednesday's to make time for staff professional development. However, we heard from families over the years this was logistically challenging and burdensome to their work schedules. We implemented this feedback and now have full school days on Wednesdays.</p>
<p>6. Teacher engagement</p>	<p>Are there opportunities for teachers to be involved in decision-making and the governance of the school?</p> <p>What is an example of a change you have made to the school based on teacher feedback?</p>	<p>Teachers are engaged in the decision-making process in various ways, including bi-annual region-wide teacher surveys, LCAP meetings, and through regular staff development and feedback channels. Teachers have individual check-ins annually with members of leadership, and have the opportunity to give feedback after PDs, and trends in feedback is shared with staff at the following meeting.</p> <p>The New Teacher Project (TNTP) survey is used to assess various aspects of the teaching profession and educational environment at KIPP region-wide. Measurements include teacher satisfaction, school culture, professional development opportunities, leadership effectiveness, and the overall working conditions within the school. TNTP surveys provide valuable insights into the experiences and perspectives of educators, which are then used to inform decision-making, improve policies and practices, and support teacher retention and effectiveness. One result of the survey was region-wide we saw a need to invest in Mental Health services in response to staff need post-pandemic. We rolled out a Mental Health of All Initiative which includes free therapy for all employees through Headspace.</p> <p>Throughout the year, teachers engage in weekly staff meetings where they review data to inform classroom instruction. Beginning in the spring, this development will include a review of longer term data trends that will be used to inform LCAP initiatives for the following school year. Additionally, through individual coaching, teachers will share their feedback and perspectives about their experience, their support needs as well as their ideas for improving student performance.</p> <p>Based on feedback from staff and students, KIPP Bridge has also realigned shared space expectations, particularly in hallways, to ensure a safe and orderly environment conducive to learning. The school has also moved lunch from classrooms to the cafeteria, creating a more social and communal experience for students. Furthermore, in response to input from teachers and families, KIPP Bridge Rising has adopted the CKLA curriculum, which provides a comprehensive and research-based approach to literacy instruction.</p> <p>Teachers at KIPP Bridge also requested increased planning time and a more consistent behavior plan. To address these concerns, the school introduced a new proactive behavior plan for teachers to follow, providing a clear and structured approach to addressing disciplinary issues. Additionally, the afternoon meeting schedule was adjusted to give teachers more time for planning, allowing them to better prepare for their classes and meet the diverse needs of their students.</p> <p>Staff members at KIPP Bridge also expressed a desire for more opportunities to build community. In response, the school has created time for consistent Team and Family appreciation activities, fostering a supportive and collaborative environment where staff members can recognize and support one another.</p> <p>By actively seeking and incorporating feedback from various stakeholders, KIPP Bridge demonstrates their commitment to creating a school community that is responsive, inclusive, and dedicated to the success and well-being of all students.</p>

<p>7. Performance of key student groups</p>	<p>(a) English learners: KIPP Bridge has prioritized support for English Language Learners by increasing the number of ELD classes, allowing for more targeted instruction at various proficiency levels. This differentiated approach ensures that all students receive the appropriate level of language support to thrive academically. KIPP Bridge has also expanded the EL Achieve program to TK-2 graders by having the 3-4 ELD teacher coach the TK-2 ELD teacher and sending EL teachers to various language development professional development opportunities. The school has also begun training staff in integrated ELD to ensure that all teachers are equipped with the skills and strategies to support Multilingual Learners effectively.</p> <p>KIPP Bridge is doing well with foundational literacy, with 62% of English Language Learners in K meeting their end of year benchmark on DIBELS. We are also seeing progress in our preliminary 2023-24 SBAC data: there is a 19% decrease in MLs scoring L1 in Math in grades 3-4 and 4% increase in MLs scoring proficient and a 6% decrease in MLs scoring L1 in grades 5-8. In ELA, we are seeing a 19% increase of MLs scoring proficient and a 14% decrease in MLs scoring L1 in grades 3-8. Additionally, our preliminary ELPAC data shows growth in ELPI from beginner ML students.</p> <p>KIPP Bridge can improve in delivering designated ELD to all multilingual learners at all proficiency levels. Due to staffing shortages, it has been challenging to meet with every multilingual learner and deliver instruction by proficiency level. The leadership team has been creative with assigning administrators and education specialists to prioritize instruction for our multilingual learners at the beginning level and newcomers. With additional staff members assigned to teach designated ELD to multilingual learners this upcoming school year, the goal is to ensure that multilingual learners at each proficiency level receives designated ELD. Additionally, our academics team is working with all leaders to ensure that all content area teachers receive training on developing language objectives for each content area so that multilingual learners continue to develop academic language during integrated ELD.</p> <p>(b) students with disabilities: KIPP Bridge provides special education services to students based on the offer of FAPE in IEPs and this includes students with mild/moderate support needs and students with extensive support needs. The most common services provided includes specialized academic instruction, speech language services, occupational therapy, individual counseling, counseling & guidance, and behavior intervention services.</p> <p>KIPP Bridge has a specialized teaching program (STP) to serve students with moderate/severe disabilities. The STP includes 2 special day classrooms, one for TK-4 and the second for 5-8, and the focus is functional academics, communication, socialization, behavior, and adaptive/daily living skills. The STP also prioritizes meaningful inclusion opportunities based on individual student needs. Students with mild/moderate disabilities participate to the maximum extent appropriate in the general education curriculum and receive special education services through an individualized combination of push-in and pull-out services.</p> <p>The KIPP Bridge special education team includes education specialists, paraeducators, and mental health clinicians. KIPP Bridge special education is also supported by regional special education staff including program specialist, school psychologist, board certified behavior analyst, speech language therapist, occupational therapist, adapted physical education provider, and other contracted providers as needed.</p> <p>An area of strength is KIPP Bridge's special education staff regularly receiving professional development and support at the site-level and through communities of practice at the regional level. For example, education specialists participate in regular trainings, up to ten per year, led by regional program specialists and in community with education specialist peers from other schools in the KIPP Public Schools Northern California network. These trainings cover topics ranging from implementing a behavior intervention plan to reflecting on IEP goal progress and mastery to updating statewide testing accommodations in student IEPs.</p> <p>KIPP Bridge, in partnership with the regional academics team and special education team, is working to improve the differentiation of and use of the general education mathematics curriculum being launch in the 2024-2025 school year called Eureka Squared. Education specialists are receiving curriculum training this summer in order to best prepare to support students with grade level standards and to intervene or remediate curriculum as needed.</p> <p>(c) students in need of remediation: We identify students needing additional support by regularly reviewing critical data such as grades, testing results, and attendance to look for early warning signs of academic struggles and provide targeted interventions. KIPP data demonstrates that socio-economically disadvantaged students meet more thresholds for intervention than all other students.</p> <p>Based on teacher's ongoing review of instructional materials (assignments/exit tickets/internal assessments), teachers are able to create re-teaches, and modify and adapt lessons to meet students where they are while maintaining a high level of rigor.</p> <p>What is working well is using data and small group and instruction pivot and address gaps in learning. Where we could improve is addressing the large gaps in beginning reading skills, even in our middle school grades, as a result of the pandemic. Addressing these foundational skills and extreme learning loss has proved challenging and we are still working to balance grade-level rigor and meeting students where they are.</p> <p>(d) advanced students performing above grade level, and The curriculum we use is rigorous and allows us to scaffold instruction so students can work on more complex tasks if needing additional challenges. We believe in differentiation within the curriculum and not tracking students into different classes based on ability. What's working well is our ability to identify more advanced students through our ongoing data analysis, the rigorous curriculum we use, and where we can improve is utilizing more small group instruction for our highest performing students.</p> <p>(e) any other student groups you are paying particular attention to We are constantly looking at data with an equity lens and analyzing the racial breakdown of data. Our focus is on ensuring our Black students are performing as well as our Latinx population. Our strength is we are doing this regularly, and think of each student on an individual level as well as a subgroup.</p>
--	--

<p>8. Governance</p>	<p>Beyond board meetings, how does the governing board interact with students, parents, and/or teachers?</p> <p>Does the governing board evaluate the school leader? If so, how?</p> <p>Provide an example of a recent issue or policy that the board is working on.</p>	<p>KIPP NorCal's board ensures students, parents, and teachers are at the forefront of decision-making. All board members spend at least one-day in-person at a school per year in order to be close to the environments they are serving, and are regularly invited to joyful community events, such as graduations, anniversary celebrations, and new school openings. Additionally, the board composition is diverse by design, with two parents and two KIPP alumni sitting on the board at all times, ensuring varying perspectives are represented.</p> <p>The board is in charge of evaluating the Chief Executive Officer. During the annual evaluation process, the Board Chair gathers insights from KIPP staff, reflects on available staff and parent survey data, and meets with fellow board members to inform the annual review. Our CEO oversees multiple other Academic-focused staff, who ultimately are closer to the day to day innerworking of a school leader and manage School Leaders-- this includes a Superintendent, Chief of Schools, and multiple Managing Director of Schools. One Managing Director of Schools will manage multiple School Leaders, including KIPP Bridge's two leaders. We ensure to align the School Leader Manager's grade level expertise with the grade level of the school they support (i.e. elementary, middle).</p> <p>A recent policy issue the board has been discussing includes the use Artificial Intelligence in education--- the opportunities, pitfalls, and how KIPP Northern California can, ultimately, capitalize on the positive aspects of AI and guard against the negative to benefit our staff and students.</p> <p>For board meetings, virtual teleconferencing is available for all of KIPP's public meetings, and the community is notified in compliance with the Brown Act. Translation services are also available upon request. All KIPP board meeting agendas and minutes are available online at https://kipppnorcal.org/kippp-board-of-directors/.</p>
<p>9. Innovation</p>	<p>What are 2-3 innovative practices at your school that would be challenging to implement in a district school setting?</p>	<p>Personalized Learning and EdTech: KIPP values innovation in the classroom and seeks to discover new methods of teaching students with diverse needs. By utilizing personalized learning approaches and assessments, KIPP can effectively monitor individual student progress and establish high expectations for achievement. To ensure the most accurate and meaningful engagement with these systems, a staff member provides support in the administration of EdTech tools. This individualized process, coupled with the reinforcement of high achievement standards, is designed to enhance student outcomes, engagement, and attendance. By tailoring the learning experience to meet the unique needs of each student, KIPP aims to create an environment that fosters academic success and encourages consistent participation in the educational process.</p> <p>Teacher Quality: Intensive Summer Three-Week Professional Development and Addt'l Instruction Time: KIPP provides high quality professional development for all teachers, based on individual goals, school goals, and the needs of the students based on recent and relevant data. KIPP teachers and staff receive professional development as it relates to the new Common Core State Standards and Culturally Responsive Teaching (CRT) in order for teachers to implement them into classrooms and support students at all levels of proficiency. Teachers new to KIPP receive an additional week of dedicated professional development and onboarding to best prepare them to support students. Additional support includes high-quality dedicated coaching where new teachers have the opportunity to apply what they learned, gain hands-on experience in real classrooms, differentiated instruction, and working directly with diverse learners in a supervised context. We have a rigorous coaching model we use for the entire instructional team built on the premise that real time, data meetings, and coaching sessions help build a reflective, confident teacher.</p> <p>In an effort to close academic gaps, KIPP teachers spend more time instructing students than is required by the state. All teachers commit to this increased instructional time, and KIPP offers competitive teacher salaries to support this "more time" model.</p>
<p>10. Special Education Programming</p>	<p>What is your school's plan to support students with extensive/moderate to severe disabilities? What systems are in place and/or are ready to be deployed?</p>	<p>KIPP offers an extensive special education program run by the Regional Support Office in partnership with the El Dorado County Charter SELPA and San Mateo SELPA. The special education department offers interventions for students with IEPs. Services and interventions include specialized academic instruction, language and speech therapy, adapted physical education, occupational therapy, counseling, psychological services, and behavior intervention services. Students with mild to moderate disabilities receive their services as a mix of push-in and pull-out support. Students with moderate to severe disabilities receive their services primarily in a small group, self-contained classroom with targeted mainstreaming appropriate to the student's individualized program. The program maintains a small student to staff ratio and uses a separate curriculum based on modified standards, CAPTAIN evidence-based practices, and community-based instruction. KIPP is committed to creating supportive and regionally-based classrooms for each grade band in order to make the program as accessible as possible. Additional detail in question 7b.</p>

<p>11. English Learner Programming</p>	<p>What is your school's plan to support English Learner students? What systems are in place and/or are ready to be deployed?</p> <p>What is your school's plan to support newcomer students? What systems are in place and/or are ready to be deployed?</p> <p>What is your school's plan to support Long-Term English Learner students? What systems are in place and/or are ready to be deployed?</p>	<p>A KIPP administrator is trained to support the success of multilingual learner students (Levels 1-4, RFEP and LTELs) in meeting CA state standards, and to administer the ELPAC exam and other interim assessments in order to assess student progress in attaining proficiency in the English language and in finding success after reclassification. KIPP teachers are trained to use techniques and tools that maximized learning for multilingual learners at all points in their academic journey. As a recipient of the California Community Schools Partnership grant, the school has made additional investments by continuing to provide targeted instruction in English language development to multilingual learners at all proficiency levels by assigning a content specialist to teach newcomers and other teachers to teach low intermediate, intermediate, and advanced multilingual learners during designated ELD. Additionally, next year all content area teachers will receive training on writing/choosing high quality language objectives and focus on explicitly teaching academic language within their disciplines.</p> <p>KIPP uses title III funds to support the salary of a title III consortium lead multilingual learner (ML) instructional coach. The duties of this position include the implementation of supplemental programming; training and facilitation of data meetings where teachers, APs, and instructional coaches review student data to drive instructional decisions and the effective implementation of ML instructional strategies; targeted coaching and feedback to schools and across schools through classroom observation; and identification of supplemental regional curricula and educational technology designed to improve outcomes for ML students (Levels 1-4, RFEP and LTELs) throughout all stages in their academic journey.</p>
<p>12. Verified Data</p>	<p>For data that meets the Ed Code definition of "verified data" and adheres to the most recently released State Board of Education guidance, please include a summary of the results from your school's verified data. For additional information, please see the CDE's guidance on Verified Data Criteria and Adopted Indicators.</p> <p>Please also describe how and to what extent the data shows (a) evidence that the school achieved measurable increases in academic achievement (defined by at least one year's progress for each year in the school) and/or (b) evidence of strong postsecondary outcomes (defined by college enrollment, persistence, and completion rates equal to similar peers).</p> <p>Note: Specific data reports should be attached depending on the verified data source. Please contact OCS for guidelines regarding these reports.</p>	<p>Please see our charter petition narrative for an in-depth overview of all data sources, tables, and takeaways. We have uploaded mCLASS by Amplify (DIBELS) raw data to EpiCenter for OUSD's further analysis.</p> <p>Our Verified Data Headlines include the below (we understand CORE data is not technically a verified data source, though allowable for renewal consideration):</p> <ul style="list-style-type: none"> - KIPP Bridge's DIBELS data demonstrates that, on average, a majority of KIPP Bridge kindergarten through 4th graders make average, above average, or well above average reading growth in one year. - The CORE data growth metric and index levels show that, when comparing KIPP Bridge students with their academic peers across California in similar subgroups, middle schoolers in 6th through 8th grades make well above average growth. <p>Our DIBELS and CORE data demonstrates that KIPP Bridge is achieving measurable increases in academic achievement through reading scores and SBAC.</p>

Special Education

Instructions: For the table below, please ensure the data is accurate as of the last day of school (if your school uses SEIS, the Current Services Report will be helpful). If you need assistance, please contact the Office of Charter Schools. Please note, OCS may request additional information regarding this data following submission, if needed.

	2022-23	2023-24
# of students with IEPs receiving < 450 service minutes weekly	65	64
# of students with IEPs receiving > 450 service minutes weekly	30	35
# of students with IEPs in NPS placement	0	0
Total SWD enrolled	95	99

Please upload the below CALPADS report to Epicenter. Once uploaded, please certify this item as complete by checking the box to the right.

• 2023-24 End-of-Year SELPA 16.12 Report - Students with Disabilities – Education Plan By Primary Disability (EOY 4) (If you are submitting prior to EOY certification window, please submit the Revised Uncertified report as of the last day of school).

Facilities and Proposed Material Revisions/Substantial Changes

<p>Facilities</p>	<p>Please respond to the following:</p>	<p>Does the school's current lease(s) extend through the end of the requested charter term? If not, please describe your plans for a facility solution.</p> <p>Do you anticipate applying for District facilities through Prop 39 during the course of the upcoming charter term?</p>	<p>Yes, the current lease extends through the end of the charter term.</p>
<p>Proposed Material Revisions/Substantial Changes</p>	<p>Note: Material revision requests typically will need to be submitted separately from the renewal petition. Prior to submitting the renewal petition, petitioners should consult with OCS staff regarding any substantial proposed changes to the petition to determine whether these changes constitute a material revision necessitating a separate submission. Please respond to the following:</p>	<p><i>If applicable:</i> Describe any material revisions and/or substantial changes you are proposing for this renewal period, particularly in any of the following areas:</p> <ul style="list-style-type: none"> • Substantial changes to the educational program • Changes in grade levels to be served • Increasing the enrollment cap • Changes to lottery preferences or admission procedures • Changes to the governance structure • Adding or changing school location (with the exception of moving into a District-owned facility) • Entering into or revising a contract with a Charter Management Organization <p>The Office of Charter Schools (OCS) staff may reach out to request additional information related to any proposed material revisions/substantial changes. Please see the OCS Material Revision Handbook for more detailed information.</p>	<p>NA</p>

Appendix 27 - Verified Data– mCLASS by
Amplify (as required by OUSD)

Instructions

mCLASS Measure Data (xx-xx) Tab

1. Copy and paste your mCLASS Data File into the tab labeled 'mCLASS Measure Data (xx-xx)' (For instructions on downloading the mCLASS Raw Data, please refer to the mCLASS one-pager)
2. Rename the 'mCLASS Raw Data (xx-xx)' tab to include the relevant measure and school year. (e.g. 'mCLASS LNF Data (23-24)')
3. Duplicate the 'mCLASS Raw Data (xx-xx)' tab if you wish to include multiple school years of data for each measure and repeat steps 1-2 for each school year appropriately.

Note: Raw data should be student-level data but may be anonymized for privacy

mCLASS Summary Table Tab

1. Delete the example row and populate the summary table for all indicators, all grades tested, and all appropriate student groups.

Note: In cases where student group data cannot be disaggregated at the grade level, please specify the grade span.

School Participation Table

1. After completing the data tabs, fill in the open response on the School Participation Tab.
2. Please be sure each school year you are submitting mCLASS Growth data is accounted for.

Indicator	School year	Student Group	Grade	Percent Met Average or Above Growth
Composite	2022-2023	All	1	31%
Composite	2022-2023	All	2	55%
Composite	2022-2023	All	3	52%
Composite	2022-2023	All	4	66%
Composite	2022-2023	All	K	79%
Composite	2022-2023	Black	K-4	54%
Composite	2022-2023	EL Students	K-4	46%
Composite	2022-2023	Has IEP	K-4	21%
Composite	2022-2023	Latino	K-4	66%
Composite	2023-2024	All	1	71%
Composite	2023-2024	All	2	74%
Composite	2023-2024	All	3	62%
Composite	2023-2024	All	4	82%
Composite	2023-2024	All	K	88%
Composite	2023-2024	Black	K-4	74%
Composite	2023-2024	EL Students	K-4	74%
Composite	2023-2024	Has IEP	K-4	39%
Composite	2023-2024	Latino	K-4	75%

[The page contains extremely faint and illegible text, likely bleed-through from the reverse side of the document. The text is arranged in approximately 25 horizontal lines across the page.]

School Participation

To be eligible for inclusion as verified data, a data source (assessment or postsecondary outcome) must include the results of at least 95 percent of eligible students. Note: Consistent with the U.S. Department of Education's flexibility that was afforded to states in 2019–20 and 2020–21, the 95 percent participation rate requirement should not apply in those years. For additional information, please see the CDE's guidance on Verified Data Criteria and Data Use Procedures.

1. Please demonstrate in the space provided, that your charter school has administered the assessment to, and included the results of, at least 95 percent of pupils for whom the assessment is appropriate. During all assessment periods (beginning of year and end of year in 2022-23 and 2023-24, we have tested between 95%-100% of students, as outlined below.
