OAKLAND UNIFIED SCHOOL DISTRICT GENERAL SERVICES AGREEMENT

This general services agreement (“Agreement”) is made and entered into effective **October 10, 2024** (the “Effective Date”), by and between the Oakland Unified School District (“District”) and **Terraphase Engineering Inc.** (“Contractor” and together with District, the “Parties”).

1. **Contractor Services.** Contractor agrees to provide the following services to District (collectively, the “Basic Services”): Geotechnical and Geohazard consulting services for the Modernization Project at Coliseum College Preparatory Academy 1390 66th Avenue, Oakland CA 94621; Project 21113 (“Project”), as further described in *Exhibit A* to this Agreement. Contractor shall provide services related to the Project other than Basic Services (i.e., “Additional Services”) if directed in writing by District to perform specific Additional Services and if sufficient contract funds for Additional Services remain to pay for the directed Additional Services (see Section 5, below). “Services” shall mean Basic and Additional Services. Contractor agrees to perform such Services as expeditiously as is consistent with professional skill and care and the orderly progress of the Services and the Project. All services performed by the Contractor under this Agreement shall be conducted in a manner consistent with the level of care and skill ordinarily exercised by Terraphase Engineering Inc. consultants specially qualified to provide the services required by the District.

2. **Contractor Qualifications.** Contractor represents and warrants to District that Contractor, and all of Contractor’s employees, agents or volunteers (the “Contractor Parties”), have in effect and shall maintain in full force throughout the Term of this Agreement all licenses, credentials, permits and any other qualifications required by law to perform the Services and to fully and faithfully satisfy all of the terms set forth in this Agreement. Contractor and any Contractor Parties performing Services shall be competent to perform those Services.

3. **Term.** The term for performance of the Services shall be the duration of the Project (“Term”), except as otherwise stated in Section 4 below, and Contractor shall complete the Services within the Term. There shall be no extension of the Term without an amendment signed by all Parties and approved by the District’s governing board. Written notice by the District Superintendent or designee shall be sufficient to stop further performance of the Services by Contractor or the Contractor Parties. In the event of early termination, Contractor shall be paid for satisfactory Services performed to the date of termination. Upon payment by District, District shall be under no further obligation to Contractor, monetarily or otherwise, and District may proceed with the work in any manner District deems proper.

4. **Termination.** Either Party may terminate this Agreement at any time by giving thirty (30) days advance written notice to the other Party. Notwithstanding the foregoing, District may terminate this Agreement at any time by giving written notice to Contractor if (1) Contractor materially breaches any of the terms of this Agreement; (2) any act or omission of Contractor or the Contractor Parties exposes District to potential liability or may cause an increase in District’s insurance premiums; (3) Contractor is adjudged a bankrupt; (4) Contractor makes a general assignment for the benefit of creditors; (5) a receiver is appointed because of Contractor’s insolvency; or (6) Contractor or Contractor Parties fail to

comply with or make material representations as to the fingerprinting, criminal background check, and/or tuberculosis certification sections of this Agreement. Such termination shall be effective immediately upon Contractor's receipt of the notice.

5. **Payment of Fees for Services.** District agrees to pay Contractor based on the hourly rates listed in *Exhibit B* for Services satisfactorily performed. Contractor shall not increase these hourly rates over the course of this Agreement. Total fees paid by District to Contractor for Services under the Agreement shall not exceed **One Hundred Nineteen Thousand Six Hundred Eight-Six Dollars (\$119,686.00)**, which consists of a not-to-exceed amount of **One Hundred Eight Thousand Eight Hundred Five Dollars and Forty-Two Cents (\$108,805.42)** for performance of the Basic Services, and a not-to-exceed contingency amount of **Ten Thousand Eight Hundred Eighty-Eight Dollars and Fifty-Eight Cents (\$10,880.58)** for performance of any Additional Services. Contractor acknowledges that the not-to-exceed fee for Basic Services, above, includes contingency compensation in the foreseeable event that more time and costs may be necessary to complete the Basic Services. Contractor shall perform all Basic Services required by the Agreement even if the not-to-exceed amount for performance of the Services has already been paid and no more payments will be forthcoming. District agrees to make payment within sixty (60) days of receipt of a detailed invoice from Contractor based on hours worked and hourly rates, including any additional supporting documentation that District reasonably requests. Contractor shall not submit its invoices to District more frequently than monthly. Contractor will not be compensated for any Basic or Additional Services required as a result of wrongful acts or omissions.

5.1 **Reimbursement for Certain Expenses.** Contractor shall not be reimbursed directly for any of its expenses, as the fees to be paid under this Agreement include compensation for any and all of Contractor's expenses.

6. **Indemnity.** Contractor shall defend, indemnify, and hold harmless District and its agents, representatives, officers, consultants, employees, Board of Trustees, members of the Board of Trustees (collectively, the "District Parties"), from and against any and all claims, demands, liabilities, damages, losses, suits and actions, and expenses (including, but not limited to attorney fees and costs including fees of consultants) of any kind, nature and description (collectively, the "Claims") directly or indirectly arising out of, connected with, or resulting from any act, error, omission, negligence, or willful misconduct of Contractor, the Contractor Parties or their respective agents, subcontractors, employees, material or equipment suppliers, invitees, or licensees in the performance of or failure to perform Contractor's obligations under this Agreement, including, but not limited to Contractor's or the Contractor Parties' use of the site, Contractor's or the Contractor Parties' performance of the Services, Contractor's or the Contractor Parties' breach of any of the representations or warranties contained in this Agreement, or for injury to or death of persons or damage to property or delay or damage to the District or the District Parties. Such obligation shall not be construed to negate, abridge, or reduce other rights or obligations of indemnity, which would otherwise exist as to a party, person, or entity described in this paragraph. The indemnification provided for in this Section 6 includes, without limitation to the foregoing, claims that may be made against District by any taxing authority asserting that an employer-employee relationship exists by reason of this Agreement, and any claims made against District alleging civil rights violations by Contractor or Contractor Parties under the California Fair Employment and Housing Act ("FEHA").

7. **Equipment and Materials.** Contractor at its sole cost and expense shall provide and furnish all tools, labor, materials, equipment, transportation services and any other items (collectively,

“Equipment”) which are required or necessary to perform the Services in a manner which is consistent with generally accepted standards of the profession for similar services. Notwithstanding the foregoing, District shall not be responsible for any damages to persons or property as a result of the use, misuse or failure of any Equipment used by Contractor or the Contractor Parties, even if such Equipment is furnished, rented or loaned to Contractor or the Contractor Parties by District. Furthermore, District may reject any Equipment or workmanship that does not conform to the requirements of this Agreement and Contractor must then promptly remedy or replace it at no additional cost to District and subject to District’s reasonable satisfaction.

8. **Insurance.** Without in any way limiting Contractor’s liability, or indemnification obligations set forth in Section 6 above, Contractor shall secure and maintain throughout the Term of this Agreement the following insurance: (i) comprehensive general liability insurance with limits of not less than \$1,000,000 each occurrence and \$2,000,000 in the aggregate; (ii) commercial automobile liability insurance with limits not less than \$1,000,000 each occurrence and \$2,000,000 in the aggregate; (iii) worker’s compensation insurance as required by Labor Code section 3200, et seq.; and (iv) professional liability insurance covering errors and omissions. Neither Contractor nor any of the Contractor Parties shall commence performing any portion of the Services until all required insurance has been obtained and certificates indicating the required coverages have been delivered to and approved by District. All insurance policies shall include an endorsement stating that District and District Parties are named additional insureds. All of the policies shall be amended to provide that the insurance shall not be suspended, voided, canceled, reduced in coverage or in limits except after thirty (30) days’ prior written notice has been given to District. If such a notice is not given or even if District receives a notice, District may, at its sole option, terminate this Agreement. All insurance policies shall include an endorsement stating that it is primary to any insurance or self-insurance maintained by District and shall waive all rights of subrogation against District and/or the District Parties. A copy of the declarations page of Contractor’s insurance policies shall be attached to this Agreement as proof of insurance.

9. **Independent Contractor Status.** The Parties agree that Contractor is free from the control and direction of District in connection with Contractor’s performance of the Services. Contractor is hereby retained to provide the specified Services for District, which are outside the usual course of District’s business. Contractor certifies that it is customarily engaged in an independently established trade, occupation, or business to provide the Services required by this Agreement. Contractor understands and agrees that Contractor and the Contractor Parties shall not be considered officers, employees, agents, partners, or joint venturers of District, and are not entitled to benefits of any kind or nature normally provided to employees of District and/or to which District’s employees are normally entitled.

10. **Taxes.** All payments made by District to Contractor pursuant to this Agreement shall be reported to the applicable federal and state taxing authorities as required. Unless required by law, District will not withhold any money from fees payable to Contractor, including FICA (social security), state or federal unemployment insurance contributions, or state or federal income tax or disability insurance. If applicable, Contractor shall assume full responsibility for payment of all federal, state and local taxes or contributions, including unemployment insurance, social security and income taxes with respect to Contractor and the Contractor Parties and otherwise in connection with this Agreement.

11. **Fingerprinting/Criminal Background Investigation Certification.** Contractor and the Contractor Parties shall at all times comply with the fingerprinting and criminal background

investigation requirements of the California Education Code (“Education Code”) section 45125.1. Before performing any Services, Contractor shall execute and return the District’s Fingerprinting Notice and Acknowledgement form and the required certification (see *Exhibit C*).

Contractor further agrees and acknowledges that if at any time during the Term of this Agreement Contractor learns or becomes aware of additional information which differs in any way from the information learned or provided pursuant to Section 45125.1, or Contractor or Contractor Parties add personnel who will provide Services under this Agreement, Contractor shall immediately notify District and prohibit any new personnel from interacting with District students until the fingerprinting and background check requirements have been satisfied and District determines whether any interaction is permissible.

Accordingly, by checking the applicable boxes below, Contractor hereby represents and warrants to District the following:

Scope of Services

3. Project Approach

Our understanding of the project is that the CCPA Expansion consists of a new 25,700-square-foot (s.f.) two-story classroom building, a new 16,600-s.f. gymnasium, and an approximately 1,150-s.f. restroom/elevator building which serves the new classroom building. The footprints of the new buildings are presented on attached Figure 1 which also shows the existing improvements at the new building locations.

Our proposed scope of work includes:

- Pre-field work including permitting (Alameda County Drilling Permit)
- Field work consisting of a subsurface investigation using cone penetration test (CPT) and hollow stem augers (HSA). The Shear Wave Velocity in the top 100 feet will be assessed using a seismic cone during the CPT work.
- Analysis and Report
 - Performing geotechnical analyses for the Site; and
 - Preparation of a geotechnical design report which satisfies the requirements of the California Geological Survey (CGS) Note 48.

The scope of work is described in further detail in the following subsections.

3.1 Preliminary Field Activities

Terraphase will review the plans for the Site existing buildings (if available) and assess the visible condition of the existing buildings to evaluate if their foundation systems have performed acceptably. We note that the last earthquake on the Hayward Fault, located 1.8 miles east of the Site, was in 1868. Therefore, even if the existing buildings have performed acceptably, they have not been fully tested as they were not constructed at the time of the last earthquake.

Terraphase will prepare a site-specific health and safety plan to guide field personnel in implementing the work in a safe manner. Subcontractors will be required to adhere to the plan. The plan will include potential hazards (rotating equipment, traffic, slips, trips, falls, et cetera), procedures to reduce risks from the identified hazards, and a hospital evacuation map.

Terraphase will contract with a private utility locator to clear each boring location and will alert Underground Service Alert of Northern California that subsurface work will be performed at the Site. Terraphase will obtain permits for the borings from Alameda County at least two weeks prior to performing the work.

Prior to advancing borings using mechanical drill rigs, under the oversight of Terraphase staff, Terraphase's drilling subcontractor will hand clear each of the subsurface exploration locations to 5 feet below the ground surface (bgs). This work will be conducted on a day when school is not in session. The holes in the playground surface will be backfilled to 2 inches bgs and then patched with cold patch asphalt so as not to pose a tripping hazard for students and staff.

Soil samples collected during the hand clearing will be used for soil characterization in a geotechnical laboratory (see Section 3.3).

3.2 Field Exploration

If the schedule allows, the field exploration program will take place on September 20, 2024, which is a Teacher Work Day with no students present. Otherwise, the work will be done on a weekend or school holiday.

The subsurface exploration program will satisfy each of the applicable requirements of the CGS Note 48 (Checklist for the Review of Engineering Geology and Seismology Reports for California Public Schools, Hospitals, and Essential Services Buildings), including ground rupture, liquefaction potential, and 2022 CBC seismic design parameters. CGS requires that there be one boring for every 5,000 square feet of building footprint with a minimum of two borings per building. Terraphase proposes to advance borings as follows:

- three borings within the footprint of the proposed classroom building (13,100 s.f. footprint),¹ and
- four borings within the footprint of the proposed gymnasium building (16,600 s.f.).

The borings will be logged in the field by a Terraphase geologist, who will examine the continuous samples as they are extracted from the hole, using visual classification in general accordance with the Unified Soil Classification System.

Our proposed geotechnical investigation will use CPTs for the first phase of investigation. One CPT probe will be advanced to between 60 and 100 feet bgs to obtain the seismic shear wave velocity of the Site, an important input to the seismic risk assessment.

Based on the CPT results, we may return to the Site to collect soil samples for analysis in a geotechnical laboratory for strength testing. However, if there is no objective for collecting additional soil samples beyond the samples collected during hand clearing of the borings, no additional subsurface work will be conducted, resulting in a cost savings to the District.

3.3 Laboratory Testing

Soil samples collected during the hand clearing of the CPT probe locations will be submitted to the Cooper Geotechnical Laboratory in Palo Alto, California, for testing for Atterberg Limits, Corrosion Potential, gradation, and moisture/density.

In the event that additional soil characterization data is needed, after consultation with the District and the project structural engineers, Terraphase will collect relatively undisturbed soil samples for direct shear testing. Based on soils encountered at adjacent sites, Terraphase does not anticipate this will be required.

3.4 Geology and Geologic Hazards Study

Christopher Alger, a California Certified Engineering Geologist, will lead the geological hazards study. The Site is mapped in a CGS Liquefaction Hazard Zone. Our experience is that, because of the high seismic accelerations in Oakland, except for rock sites, liquefaction occurs at every site in Oakland. The Peak Ground Acceleration at the Site will be 0.97g (ASCE Hazard Tool for ASCE 7 2016). Hence, liquefaction settlements between 1 and 4 inches can be expected at the Site but will be analyzed during our study. We will work with the District and the project structural engineers to identify an economical foundation system for the proposed structures that can withstand the predicted liquefaction settlements.

The hazard study will document the following hazard topics:

- The Site is not in an Earthquake Special Studies (Alquist Priolo) Zone.
- Because of the shallow groundwater, expansive soils are not likely to be a significant hazard.
- As the Site is flat, slope instability is not an issue for the Site nor are collapsible soils.
- Tsunamis and flooding is not an issue for the Site (FEMA Flood Map 06001C0095G, effective on 8/3/2009).
- We will assess if Site utilities will be exposed to corrosive soils.

3.5 Report Preparation

In consultation with the District and the project structural engineers, Terraphase will document its work in a report that meets each of the requirements of CGS Note 48. The report will document the results of the field investigation and laboratory study. The report will provide recommendations for a foundation system capable of withstanding the expected liquefaction settlements at the Site.

¹ As noted in Addendum @2, District Response # 5, "The Schematic Design indicated that the Gymnasium's footprint as 16,597.70 s.f. and the Classroom Building's footprint (including the elevator/restroom tower) as 13,109.97 s.f.".

We will also provide recommendations for stormwater management systems depending on the depth to the groundwater table.

3.6 Supplemental Engineering Review, Consultation and Meetings

Jeff Raines, PE, GE, will be available for consultations and meetings with the District and the rest of the project team (architect, structural and civil engineers, etc.). We have proposed a budget of 20 hours of Mr. Raines's time for this task.

3.7 Construction Phase Geotechnical Services

Terraphase's teaming partner, CTS, will provide on-call compaction testing services during construction. As shown in the attached resumes, CTS specializes in special inspections and can provide concrete and steel special inspections in addition to soil compaction control. Terraphase understands from Addendum #2 that the construction is scheduled to take place between March 12, 2026, and August 9, 2028. Terraphase assumes that a total of up to 30 half days of on-call compaction testing and associated compaction reports will be required.

3.8 Schedule

We anticipate conducting fieldwork within three weeks of receiving a notice to proceed. Field testing may require two weeks (two days in the field plus assessing the initial data to determine if a second mobilization is warranted). We anticipate that geotechnical analyses will require three weeks and report preparation three weeks. Hence, the total required time is 11 weeks. Task 3.7, Construction Phase Geotechnical Services, will be conducted during construction on a time-and-materials basis.

4. Litigation

There are no judgments against Terraphase, nor any other evidence of liability of Terraphase during the past five (5) years preceding this response to the RFQ.

Terraphase's five (5)-year summary of litigation, arbitration, and negotiated/settled history with previous clients follows.

Entity bringing suit:	Terraphase Engineering Inc.
Complaint:	Breach of contract
Accusation:	Contract was breached; client did not inform Terraphase of any issues with invoices and failed to pay them
Outcome:	Dispute was resolved without further litigation in May 2020

5. Professional Fees

A detailed cost estimate is attached (Table 1). The not-to-exceed fee for Tasks 3.1 through 3.6, including the 10% contingency and the assumption that a second day of subsurface investigation will be required, is \$119,686.

5.1 Hourly Rates

Terraphase's and CTS's discounted standard schedules of charges are included in Attachment 4. The fee schedules will be valid through the end of 2025.

Other than business entities performing construction, reconstruction, rehabilitation, or repair who have complied with Education Code section 45125.2, business entities entering into contracts with the District must comply with Education Code sections 45125.1. Such entities are responsible for ensuring full compliance with the law and should therefore review all applicable statutes and regulations. The following information is provided simply to assist such entities with compliance with the law:

1. You (as a business entity) shall ensure that each of your employees who interacts with pupils outside of the immediate supervision and control of the pupil's parent or guardian or a school employee has a valid criminal records summary as described in Education Code section 44237. (Education Code §45125.1(a).) You shall do the same for any other employees as directed by the District. (Education Code §45125.1(c).) When you perform the criminal background check, you shall immediately provide any subsequent arrest and conviction information it receives to the District pursuant to the subsequent arrest service. (Education Code §45125.1(a).)
2. You shall not permit an employee to interact with pupils until the Department of Justice has ascertained that the employee has not been convicted of a felony as defined in Education Code section 45122.1. (Education Code §45125.1(e).) See the lists of violent and serious felonies in ***Attachment A*** to this Notice.
3. Prior to performing any work or services under your contract with the District, and prior to being present on District property or being within the vicinity of District pupils, you shall certify in writing to the District under the penalty of perjury that neither the employer nor any of its employees who are required to submit fingerprints, and who may interact with pupils, have been convicted of a felony as defined in Education Code section 45122.1, and that you are in full compliance with Education Code section 45125.1. (Education Code §45125.1(f).) For this certification, you shall use the form in ***Attachment B*** to this Notice.
4. If you are providing the above services in an emergency or exceptional situation, you are not required to comply with Education Code section 45125.1, above. An "emergency or exceptional" situation is one in which pupil health or safety is endangered or when repairs are needed to make a facility safe and habitable. The District shall determine whether an emergency or exceptional situation exists. (Education Code §45125.1(b).)
5. If you are an individual operating as a sole proprietor of a business entity, you are considered an employee of that entity for purposes of Education Code section 45125.1, and the District shall prepare and submit your fingerprints to the Department of Justice as described in Education Code section 45125.1(a).

(Education Code §45125.1(h).)
