<p>How will this grant contribute to sustained student achievement or academic standards?</p>	<p>This experience will be one of the culminating activities of the students' Senior Projects, as they have several opportunities to apply their learning and research from the last three years into authentic interactions with various people who affect change in public health at the local and state legislative levels. These opportunities include: meeting with elected representatives (e.g. Mia Bonta, California State Assemblymember for District 18) who are working on critical public health issues and advocating for their ideas and needs that have been thoroughly researched in the fall semester, attending a session of the California State Legislature, visiting the California Railroad Museum to focus on the roles of women and the Chinese in the development in the railway, relative to curriculum in American Government and their senior public health career-technical education course, and a workshop with a qualified, engaging presenter (former high school teacher and current CSU instructor) who will talk to students about personal finance and how to start early to build a stable financial future. To round out the significant learning opportunities, there will also be several fun, community building activities.</p>	
<p>How will this grant be evaluated for impact upon student achievement?</p> <p><b>(Customized data design and technical support are provided at 1% of the grant award or at a negotiated fee for a community-based fiscal agent who is not including OUSD's indirect rate of 3.89% in the budget. The 1% or negotiated data fee will be charged according to an Agreement for Grant Administration Related Services payment schedule. This fee should be included in the grant's budget for evaluation.)</b></p>	<p>The grant awarding organization requires a survey after the funds have been spent, and we will complete one internally for student reflection and feedback.</p>

<p>Will the proposed program take students out of the classroom for any portion of the school day? <b>(OUSD reserves the right to limit service access to students during the school day to ensure academic attendance continuity.)</b></p>	<p>Yes</p>
