# High School Network Superintendent's Report: Update on High School Key Performance Indicators

**Presented by Vanessa Sifuentes**

**Presented to Measures N & H Commission**

**January 14, 2025**

# Outcomes

---

- Share updated information regarding OUSD high school key performance indicators
- Gather insight from Measures N & H Commissioners to inform ongoing strategies to support the ongoing improvement of long-term student outcomes

# Our Vision:

All students will graduate from OUSD college, career, and community-ready.

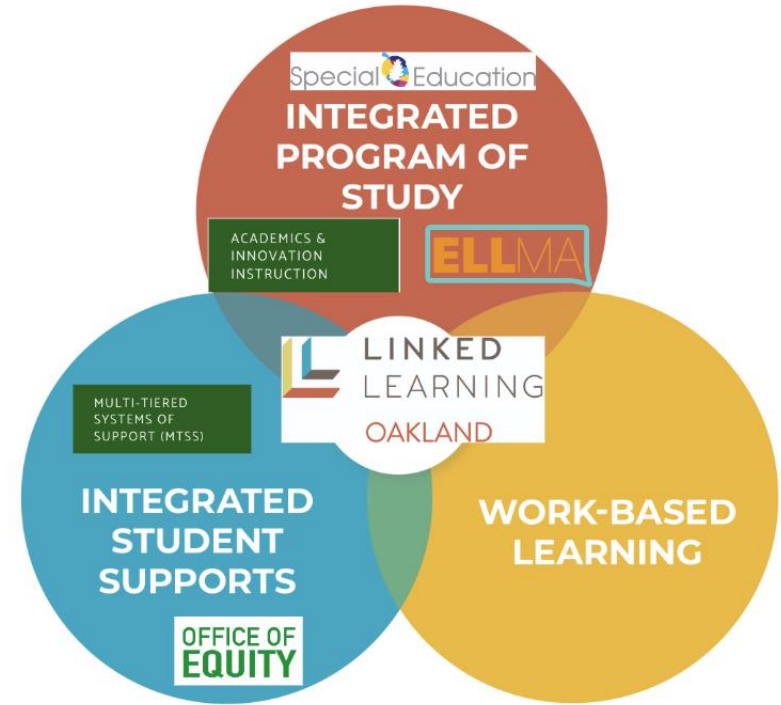

## Long-Term Metrics of Success:

- 4 & 5-year cohort graduation rate
- Dropout Rate
- A-G completion Rate
- [California College/Career Indicator](https://www.ousd.org)

# Our Mission:

Provide students access to learning experiences inside and outside the classroom that support them in developing the competencies necessary to thrive after graduation through the implementation of robust **Linked Learning Pathways**.

# Headlines for the Class of 2024

# Improved Four-Year Cohort Graduation Rate

**Target #1: 80% of students overall, and in LCAP focal groups, will graduate within 4 years.**

The District's four-year cohort graduation rate for the Class of 2024 increased by over 6%, reflecting a significant improvement across the student population.

Graduation rates among several LCAP focal groups—African American, Latino, and Native American students, as well as students with IEPs—also demonstrated notable gains, ranging from single-digit to double-digit increases. These outcomes underscore the effectiveness of targeted interventions and equity-focused initiatives.

Conversely, the graduation rate for Pacific Islander students declined by 5.6%, highlighting the need for renewed efforts to address disparities and ensure equitable outcomes for all student groups.

OUSD Four-Year Cohort Graduation Rate

# Reduction in Drop-Out Rate

## Target #2: Reduction in Drop-Out Rate

# Improved A-G Completion Rates

## Target #3: Improve A-G completion rate overall and for LCAP focal groups by 5% or higher from 2022-2023.

The District has made significant progress in A-G completion rates for 12th graders from 2023 to 2024, improving overall from 42.2% to 48.7%.

Latino, Native American, and Pacific Islander students saw the largest gains, with increases of 9.3, 13.3, and 14.8 percentage points, respectively.

Students with Individualized Education Programs (IEPs) improved from 19.8% to 28.7%.

Despite these gains, disparities persist, with IEP and Native American students having the lowest completion rates. The upward trend reflects positive steps toward greater educational equity.

# Improved Outcomes on College/Career Indicator

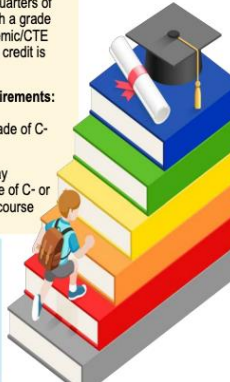

## Target #4: Increase the percentage of graduates placed in the "Prepared" level on the College/Career Indicator.

California's accountability system is based on a multiple measures system that assess how local educational agencies (LEAs) and schools are meeting the needs of their students. Performance on these measures is reported through the California School Dashboard.

One such measure is the College/Career Indicator. This indicator measures how well LEAs and schools are preparing students for likely success after graduation.

For schools and LEAs to demonstrate success on this state indicator, students must:

- Graduate
- Meet at least one of the measures in the "Prepared" level

# Key Data Observations from 2019 to 2024

---

- **All Students:**

- **Graduation and A-G completion** rates show **positive trends**, indicating academic progress.
- **Dropout rates decreased significantly**, despite a temporary rise in 2022.
- **College/Career readiness** fluctuates but **shows improvement** in the latest year.
- **On-track rates for 9th graders saw the most consistent improvement**, while 10th and 11th graders showed modest gains.

# Key Data Observations from 2019 to 2024

---

- **African-American Students:**

- **Graduation rates and A-G completion rates** show positive trends, with **consistent improvement** over the years.
- **Dropout rates have decreased overall**, showing a steady decline since 2022.
- **College and career readiness is improving**, albeit slowly.
- **On-track rates for 9th-grade students show the most significant growth**, while 10th and 11th graders display moderate improvement.

- **Latino Students:**

- **Graduation rates and A-G completion rates show** substantial and consistent **improvement**.
- **Dropout rates decreased** significantly, particularly after a peak in 2022.
- **College and career readiness improved sharply** in 2024, after some stagnation.
- **On-track rates for all grades showed upward trends**, with 9th graders experiencing the largest improvement.

# Considerations

# Collaborative Strategies Driving Student Success

---

- **Improved Outcomes Are Multifaceted:** Higher graduation rates result from a combination of strategies, not a single approach.
- **School-Level Initiatives:** Personalized learning, targeted interventions, and strong student relationships play a critical role.
- **High School Linked Learning Office Support:** Provides professional development, resource allocation, and data-driven decision-making.
- **Collaboration is Key:** Synergy between schools and central office ensures comprehensive support for lasting improvements.

# Connection to Measures N and H

---

- **While not comprehensive, the following investments—made possible by Measures N and H—have significantly contributed to improving student outcomes in OUSD:**
  - Academic Counselors
  - College and Career Readiness Specialists
  - Career Transition Specialists
  - Contracts with Post-Secondary Access Organizations
  - Academic Credit Recovery
  - Tutoring
  - Dual Enrollment course materials
  - Student Internship Stipends
  - Transportation to college and career exploration visits and student internship sites
