How will this grant contribute to sustained student achievement or academic standards?	<p>The experience of nature is a fundamental human right with benefits for individuals, communities and societies. It is well-documented that spending time outdoors in nature improves physical and mental health, emotional well-being, learning capacity, productivity, resilience, and social cohesion. As such, the mission of Oakland Goes Outdoors (OGO) is to increase opportunities for Oakland students to regularly experience the outdoors. According to the California Surgeon General's Report (2020), nature increases opportunities for relationships and connections, restful sleep, family functioning and attachment, social ties, cognitive functioning and attention, psychological well-being, and meaningfulness. The wellbeing of students, school communities, and their families not only help with overall physical and mental health outcomes, but also allow students to more deeply engage with each other and their surrounding environment.</p> <p>Oakland Goes Outdoors (OGO) is a grant-funded program of the Oakland Unified School District. Oakland Goes Outdoors (OGO) is one of the first school district-wide programs in the United States that seeks to provide regular outdoor learning experiences to all students attending a public school within Oakland Unified School District (OUSD). Beginning in 2018 and working in partnership with the Bay Area Wilderness Training (BAWT) and other program providers & park agencies, OGO is in its sixth year.</p>

	Students engage in Next Generation Science Standards (NGSS), Common Core, California Environmental Principles and Concepts (EP&Cs).
How will this grant be evaluated for impact upon student achievement? (Customized data design and technical support are provided at 1% of the grant award or at a negotiated fee for a community-based fiscal agent who is not including OUSD's indirect rate of 4.22% in the budget. The 1% or negotiated data fee will be charged according to an Agreement for Grant Administration Related Services payment schedule. This fee should be included in the grant's budget for evaluation.)	This grant will be monitored and evaluated using both quantitative and qualitative measures focusing on social emotional learning, perceptions of the outdoors, attendance, and self- and classroom-reported academic achievement.
Does the grant require any resources from the school(s) or district? If so, describe.	No
Are services being supported by an OUSD funded grant or by a contractor paid through an OUSD contract or MOU? (If yes, include the district's indirect rate of 4.22% for all OUSD site services in the grant's budget for administrative support, evaluation data, or indirect services.)	No
Will the proposed program take students out of the classroom for any portion of the school day? (OUSD reserves the right to limit service access to students during the school day to ensure academic attendance continuity.)	Yes

Dear Sam and the Outdoor Equity Program team,

We are looking to update and revise our OEP grant. We have unfortunately encountered significant challenges implementing our original proposal, which focused all of our programming at a single school site, Madison Park Academy (MPA), our selected community home base. Unfortunately, since submitting our proposal back in December 2021, all team members at MPA involved have left. This turnover has significantly impacted our ability to successfully meet the deliverables of our original grant proposal. We have begun building relationships anew at MPA, but this will take time to build back up to the level of activity we are looking to implement.

Therefore, we are requesting that we change our community home base to another school site where we have much stronger and more stable relationships. Urban Promise Academy (UPA) is a community school that serves Grades 6-8 in the Fruitvale neighborhood in Oakland, California. Founded in 2001, Urban Promise Academy serves 372 students per year, hosts community events throughout the year, and is a familiar location to all in the neighborhood. This community home base is a Title I school, nearly all students identify as students of color, and many will go on to be the first in their families to graduate from high school and attend college.

We are confident in UPA's ability to meet our revised grant deliverables due to the long standing relationships held there with numerous teachers and leaders, along with a demonstrated record of successful programming since we launched our program back in 2018. We also have reasonable confidence that the administration is unlikely to change during the remainder of this grant timeline. There is also a particularly strong relationship between afterschool staff and administration leadership, which is necessary for overnight/beyond the school day programming.

We are also requesting to add in two additional school sites - Life Academy and Coliseum College Prep Academy - that are within a 5 mile radius of our proposed community home base (UPA) in order to reach a wider number of deserving community members with our programming. This would not change the amount of funding, as we have adjusted the budget to represent programming costs across these three school sites using the same amount of funds originally allocated.

Our proposed community activities and nature trips for Urban Promise Academy are a result of community meetings that were held on site in the fall of 2023, engaging both students and families/parents. 1 student meeting was held, with 21 students present and 1 community/ families/residents meeting was held, with 15 adults present. Since then, we have had follow up discussions with teachers and staff at UPA as recently as August 2024, as well as collected both written and oral feedback from students. We have also collected this same feedback from teachers and students at Life Academy and Coliseum College Prep Academy. Feedback from all of these discussions/meetings have been incorporated into what activities in the community and nature area trips we are proposing in our revised scope of work document.

As a result, the attached revised criteria requirements much better reflects what our community both wants to do and can successfully complete.

We also will not have any additional challenges recruiting participants, as all trips are integrated directly into the academic school day, and therefore do not require additional recruitment efforts beyond school attendance. This method allows us to reach a significant number of youth in Oakland on an ongoing and sustained basis, who historically are not well-represented in or able to easily access outdoor spaces & activities. Our program meets youth where they are spending a significant portion of time already (at school), addressing a common barrier that extracurricular-based activities face when children are required to opt-in. This approach also ensures programming is equitably distributed to all students across a school district, instead of being dependent on an individual school's resources.

It is worth noting that we were able to complete one nature trip that was proposed in our original grant proposal. 30 students & 5 adult leaders from Madison Park Academy spend 3 days, 2 nights at Camp Arroyo in fall 2023. We have not since repeated this trip or others in our proposal due to the community site turnover challenges, as well as feedback about Camp Arroyo not being the best programmatic fit for our students.

You will see on our updated scope of work that we have identified 10 activities in the community within Oakland at 4 different park sites for our 3 school sites to participate in over the next two years. This is the same number of activities as our original scope of work. We are projecting that we will serve about 50 more participants through this model than on the original proposal, due to the fact that more school sites will be engaged. We also have significantly increased the number of nature trips (to 49) and participants served (nearly 2900, up from 1700). This again is largely due to both being able to engage more school sites, and a result of our team having much deeper relationships on these schools to be able to implement more trips successfully. We also have much more accurate cost estimates possible now compared to when we submitted our original proposal, because we have 2 more years of completed programming to base our expenses off of.

Due to the change in community home base, we would also like to switch our internship partners. Instead of working with BAWT and The Center, we will be partnering with EBAYC, who already serves as the primary/lead after-school support affiliate at UPA. We are increasing our projected number of internships slightly, from 18 to 20, to reflect the fact that 10 internships will be hosted by EBAYC each year. We are excited about working with EBAYC because they already have demonstrated success offering student internships. The site is also a better location for our students, since the student interns will be hosted at UPA's school site vs BAWT's office, which is much more difficult to access via public transit.

We are very grateful for your consideration of these revisions. Please feel free to be in touch with the Oakland Goes Outdoors team if you have any follow up questions or curiosities.

In gratitude,

DocuSigned by:

Outdoor Equity Grants Program Application & Revisions MPA

Grant Selection Criterion #1: Community Home Base (30%)

1.A. - Use the Community FactFinder at www.ParksforCalifornia.org/outdoorequity to list the following data for the area surrounding the COMMUNITY HOME BASE.

Fact Finder Report ID	Program Name	School Site(s)	Address	Per Capita Income	People in Poverty	Free or Reduced Price Meals	English Learners
105614	MPA Outdoors	Madison Park Academy Upper (6-12)	400 Capistrano Drive, 94603 (& Topanga Drive)	\$22,662	1,269	93.0%	36.4%

1.B. - Why was this COMMUNITY HOME BASE selected as a central gathering place in the community for RESIDENTS who currently lack access to an OUTDOOR PROGRAM? Describe the CHALLENGES facing RESIDENTS, including YOUTH, and their need for access to an OUTDOOR PROGRAM.

This community home base was selected as a central gathering place in the community for residents because Madison Park Academy is a community school that serves Grades TK-12. This area of Oakland is a difficult place to reach with public transportation, making it difficult for residents of this community to visit any parks that are not within walking distance. During the closure of schools during the COVID-19 pandemic, the community home base was one of twelve locations in Oakland that provided food access and assistance through Oakland Unified School District. This community home base is a Title I school, nearly all students identify as students of color, and many will go on to be the first in their families to graduate from high school and attend college. While some students grow up playing soccer or basketball on outdoor courts and turf fields, few grow up playing in parks or hiking on the trails found just a few miles from this community home base. For many students who attend schools that are able to fund school trips to outdoor locations, these trips are often cited as highlights of their K-12 education, and ones that are seen as the most impactful.

Grant Selection Criterion #2: Community Planning (15%)

Method of Outreach such as in-person meetings, online platform (identify platform), teleconference, etc.	Location, date, and start and end time of the Community Planning engagement. Cite why this was an effective location and time to engage residents near the Community Home Base.	Number of Residents and general description. Identify the number of residents engaged, as well as whether the group was made up of families, guardians, youth, older adults, people with disabilities, etc. Of this total, how many were youth.
A single grade level advisory is held in-person, four times per week at the start of the school day. This particular advisory was identified as a good group to meet with since it consisted of students in Grades 6. This group was not shy and had active participation.	October 6, 2021 from 8:30-9:00 am at Madison Park Academy. This was an effective location and time to engage students since students are already present in school and attending advisory. These advisory meetings happen four times a week at the	There were 13 total residents in this community planning meeting, 11 students in Grades 6 as well as 2 of their teachers. A mixed-grade level advisory is held in-person, four times per week at the start of the school day. This mixed-grade level advisory consisted of students from Grades 9-12. This group has many younger siblings in Madison Park Academy's elementary and middle school.	October 6, 2021 from 9-9:30 am at Madison Park Academy. This was an effective location and time to engage students since students are already present in school and attending advisory. These advisory meetings happen four times a week at the beginning of every school day.	There were 18 total residents in this community planning meeting. 16 students in Grades 9-12, as well as 2 of their teachers. In total 16 of the 18 residents are K-12 youth.

Activities in the Community	
List the planning topics discussed with residents. Topics can include goals and logistics for Criteria 3-6.	List the ideas from residents that will be implemented for activities in the community.
School Family Campouts: On campuses of school sites, either on the soccer field, blacktop, or in the school auditorium.	Residents were excited by the idea and goals of family campouts. While K-12 youth of middle school age were less excited about camping with their families, they were excited about spending the night on the school campus and sleeping in tents and sleeping bags. Parents and grandparents were excited by family campouts and it being in a space that they already know and are comfortable with. Parents, guardians, and other family members of K-12 students were especially excited about family campouts to build connections with other families and school staff. They expressed that they would like to have activities and games that allow families to get to know one another, have some unstructured time, and have practice setting up and using outdoor gear (tents, stoves, etc.) so they become more familiar and comfortable. Residents, both adults and youth alike, were excited about camping out at schools in a place that is familiar as a starting point for visiting and camping in nature areas in the future.

Natural Area Trip(s)	
List the planning topics discussed with residents. Topics can include goals and logistics for Criteria 3-6.	List the ideas from residents that will be implemented for activities at or near the natural area trip(s).
Camp Arroyo (Outdoor School) for students in Grade 6	K-12 youth were very excited about attending Camp Arroyo, an outdoor school that included an overnight component. Nearly all K-12 youth were excited to spend time with their peers and away from their families, although some students were less excited about bugs and some wildlife. Students older than Grade 6 were disappointed that they would not be able to participate and suggested that there be a similar opportunity for them in Grade 9. While within the scope of this grant, we won't be able to include Outdoor School for

	<p>Grade 9, we hope to find additional funding to be able to do this in the future. Parents and other adult residents were excited about students having the opportunity to participate in a well established Outdoor School. They approved of the Outdoor School being close, but not too close, as well as the activities that Camp Arroyo offers. Residents suggested that for more hesitant parents and guardians, that they could participate as a chaperone during a week that their child is not attending (to give their child room for some independence) to help assuage parental fears. Both adults and students were excited about the goals and logistics of 6th grade students attending Camp Arroyo.</p>
<p>Nature Family Campouts: Campouts can be held at local East Bay Regional Parks.</p>	<p>Residents were excited by the idea and goals of family campouts. While K-12 youth of middle school age were less excited about camping with their families, they were excited about getting to hang out with their friends, sleep in tents, and have a campfire with s'mores. Parents and grandparents were excited by family campouts and it being in a space that they already know and are comfortable with. Parents, guardians, and other family members of K-12 students were especially excited about family campouts to build connections with other families and school staff. They expressed that they would like to have activities and games that allow families to get to know one another, have some unstructured time, and have practice setting up and using outdoor gear (tents, stoves, etc.) so they become more familiar and comfortable. Residents, both adults and youth alike, were excited about the idea of camping in local parks and even those who felt nervous about participating in an East Bay Regional Park, families appreciated that they could participate in a Family Campout on a school campus before venturing out into a less familiar area.</p>

Grant Selection Criterion #3: Outdoor Program Goals (20%)

Activities in the Community					
Activity Goal #	Activity Goal Title (up to 7 words that best describes the activity)	Location where activity will take place (name and addresses if available)	Number of intended participants per each activity day (an average day is acceptable)	Number of planned activity days	Total number of intended participants
1	School Family Campouts	Madison Park Academy, 400 Capistrano Drive, Oakland, CA 94603	40	10	400

Activity #1 in the Community

Activity Goal Title (up to 7 words that best describes the activity)	Location where activity will take place (name and addresses if available)	Number of intended participants per each activity day (an average day is acceptable)	Number of planned activity days	Total number of intended participants
School Family Campouts	Madison Park Academy, 400 Capistrano Drive, Oakland, CA 94603	40	10	400
Provide a general description of intended participants. Of the total listed above, how many will be youth participants?		There will be 5 School Family Campouts per year for 2 years, for a total of 10 School Family Campouts. For each campout, 10 families (with approximately 4 family members) will be invited to participate. At least 50% of participants (20 per campout) will be K-12 youth, with the other 50% of participants (20 per campout) will be parents, grandparents, and guardians of youth. There will be approximately 400 participants, 200 of which are K-12 youth participants. School staff will be there to provide support and facilitation of the School Family Campout.		
Cite which educational goal will be met. Briefly summarize the qualifications of the group or individual who will provide the experience and what teaching method(s) will be used.		Fostering stewardship of the environment (#2) will be fulfilled through a 2-day, 1-night school family campout for K-12 youth and their families. Those participating on the school family campout will learn about camping safety, day-hiking, tent and stove-set up, clothing requirements, nutrition and team building activities. All learning will be hands-on and experiential. Training will be provided by Bay Area Wilderness Training, a local non-profit that seeks to provide equitable access to outdoor experiences. In addition to camping skills, those participating on the campout will also have the opportunity to participate in the creation and maintenance of schoolyard gardens found on the school site campus. Training will be provided by The Center, an integrated hub focused on food, education, health, and sustainability.		
How will the activity increase community capacity to foster a long-term environmental justice legacy such as engaging in planning and improving the community's environment?		Family campouts will include camping on school grounds. Camping on school grounds will allow families to learn to set up and break down camp in a familiar environment, will allow families to get to know each other and build communities at school sites. Campouts on school grounds will also include a survey of local parks near to the school as well as creating and maintaining community gardens.

Bay Area Wilderness Training (BAWT). The purpose of this partnership is to provide training and use of their gear library for community and nature trips.	BAWT will offer internships focused on gaining skills and knowledge around maintaining the gear library, development and events, and operations and administration for high school aged students and alumni of OUSD schools (Grant Selection Criterion 4). Bay Area Wilderness Training will help to train trip leaders through their Frontcountry Leadership Training. Following this training, trained individuals can use the gear library to borrow gear to take youth and families on outdoor trips. BAWT staff will also assist in setting up Family Campouts (Grant Selection Criterion 3).
The Center: Central Kitchen, Instructional Farm, and Education Center. The purpose of this partnership is to further connect residents to their communities through school guardians and outside learning at the community home base.	The Center will offer internships and volunteer opportunities that help interested students and alumni connect with their environment, either through school gardens, parks, outside learning, and trips to nature areas (Grant Selection Criterion 4). The Center will also help to support School Family Campouts (Grant Selection Criteria 3) and to help create and maintain school gardens. The Center will help to mentor leaders who are interested in becoming environmental leaders within California (Grant Selection Criterion 6).

Grant Selection Criterion #6: Mentoring Youth Leaders after the Grant (10%)

Describe a plan to recruit and empower youth who will be selected by the applicant as having potential to become future environmental leaders in California. To describe the plan, include the following:

1. Approximately how many youth will be selected by the applicant and how will they be identified as having interest in becoming future environmental leaders in California?
2. What types of activities will the mentoring involve? Examples include capacity building or educational mentoring towards careers in natural resource and environmental professions. Or civic engagement including making environmental recommendations to the local, state, or federal government. This includes cultivating active involvement in the civic decision-making process to have a healthy environment.
3. From approximately what time-period will the youth be mentored after the grant performance period?

Youth who are selected as having the potential to become future environmental leaders in California will have several opportunities available. Beginning in high school, up to 2 youth per school site will be identified and recruited to apply for an internship and/or volunteer opportunities at the Bay Area Wilderness Training (BAWT) or through the Center. The up to 20 high school students will have the opportunity to intern at the Bay Area Wilderness Training as a Gear Library intern, a Development and Events Intern, or as an Operations and Administrative Intern. These students will have the opportunity to see how an outdoor non-profit operates, have the ability to participate in Frontcountry and Wilderness Leadership Trainings, become certified in Wilderness First Aid, and become connected with the greater outdoor community through connections with BAWT. At the Center, students who are interested in creating and maintaining school gardens, participating in OUSD's Environment and Climate Change Literacy working group, and other future programming will be encouraged to intern and participate in activities hosted by the Center. Youth will be mentored for 5 years following the grant period as partnerships between Oakland Goes Outdoors, the Bay Area Wilderness Training, and the Center continue to be developed and sustained.

Welcome to the Outdoor Equity Grants Program (OEP)

FOREWORD

In 2019, the Outdoor Equity Grants Program (OEP) was enacted when Governor Gavin Newsom signed Assembly Bill 209 (AB 209) – Chapter 675, located in Public Resources Code §5090.75(c)(1.26). On July 1, 2020, the California Legislature authorized funding for OEP.

OEP will increase the ability of residents in underserved communities, with an emphasis on students eligible for free or reduced-price meals, foster youth, and students of limited English proficiency, to participate in outdoor experiences at state parks and other public lands. OEP's focus is on providing funding for transportation, logistics, program operations, and capacity costs associated with reaching historically underserved urban and rural communities throughout California.

OEP grants will improve the health and wellness of Californians through new educational and recreational activities, service learning, career pathways, and leadership opportunities that strengthen a connection to the natural world.

The concept for OEP began with findings in the 2015 Parks Forward Commission Report stating that DPR must expand access to parks for underserved communities and urban populations. The 2015 Parks Forward discussions became a catalyst for AB 209. Californians shared a similar vision in 2017 during thirty focus groups with over 500 participants for the Statewide Comprehensive Outdoor Recreation Plan (SCORP). Throughout the state, from heavily urbanized to rural areas, Californians emphasized a desire for multi-generational programs that “bring families together;” that activate local parks and that take residents with transportation challenges to natural areas outside their communities. Photos of the thirty focus groups may be seen at parksforcalifornia.org/focusgroups.

I. PROGRAM OVERVIEW

INTRODUCTION

The Outdoor Equity Grants Program (OEP) will support the HEALTH of Californians by creating OUTDOOR PROGRAM access for underserved communities. OEP will fund program operating and transportation costs but will not fund CAPITAL PROJECTS.

Key words and terms in SMALL CAPS are defined beginning on page 50, including **COMMUNITY HOME BASE**, **OUTDOOR PROGRAM**, and **NATURAL AREA TRIPS**.

ELIGIBLE APPLICANTS

- **Public Agencies:** Includes all local, state, and federal agencies. Examples include school districts and other public education agencies, cities and counties, joint powers authorities, open-space authorities, regional open-space districts, and other relevant public agencies.
- **NON-PROFITS** with 501(c)(3) status.

GRANT PERFORMANCE PERIOD

July 1, 2020 to June 30, 2023 is the current period for ELIGIBLE COSTS. Visit parks.ca.gov/oep to sign up for e-mail updates for the program.

AMOUNT AVAILABLE

\$19 million is available for competitive GRANTS statewide.

GRANT AMOUNT PER APPLICATION

- Maximum grant request per **COMMUNITY HOME BASE**: \$700,000
- Minimum grant request per **COMMUNITY HOME BASE**: \$20,000
- There is no match requirement

One **COMMUNITY HOME BASE** = One **APPLICATION**. This will allow for reporting on the impacts of OEP within one community.

Multiple **COMMUNITY HOME BASES** = Multiple **APPLICATIONS**. Each **COMMUNITY HOME BASE** requires a separate **APPLICATION**. One **APPLICANT** can submit multiple **APPLICATIONS**. An **APPLICANT** may receive multiple grants to serve multiple communities.

POSSIBILITY FOR AWARDS OF MORE THAN \$700,000

While \$700,000 is the grant amount cap, it is **per APPLICATION**. More than \$700,000 may be awarded to one **APPLICANT**. An **APPLICANT** can submit a separate **APPLICATION** for each additional community it is capable of serving.

- For example, three **APPLICATIONS** could be submitted by an **APPLICANT** to serve three rural towns or three urban communities at \$300,000 per **APPLICATION**. If all three **GRANTS** are awarded, that would total \$900,000 in program funding.
- In this example, if 1 of the 3 **GRANTS** is awarded, both the State and **APPLICANT** will be clear on which community will be served through that awarded **APPLICATION**.

COMMUNITY HOME BASE

Each application will address the following in the Grant Selection Criteria section on pages 14 to 23.

First Step – Choosing a Home Base

- Identify a central gathering place in an underserved community that needs access to outdoor programs.
- Examples of the central gathering place in a community could be a school, a recreation center, a community meeting space, a local park, etc.
- This central gathering place is the COMMUNITY HOME BASE where the participants will primarily get access to the proposed activities.

Second Step – Activities

- Plan ACTIVITIES IN THE COMMUNITY and trips from the COMMUNITY HOME BASE to NATURAL AREAS.

For example:

- ACTIVITIES IN THE COMMUNITY could include:
 - Teaching school students about the community's environment.
 - Taking educational walks in the community to discover nature in action.
 - Preparing participants for a NATURAL AREA TRIP.
- NATURAL AREA TRIPS from the COMMUNITY HOME BASE could include:
 - Traveling to a regional, state, national park, tribal land, river or lake, beach, forest, mountain, or desert area for day or overnight trips within the state.

Summary of the Above Steps:

1. Establish a COMMUNITY HOME BASE in an underserved community.
2. Organize educational ACTIVITIES IN THE COMMUNITY and trips from the COMMUNITY HOME BASE to natural areas.

GRANT PRIORITIES

The Grant Selection Criteria section starting on page 14, provides additional guidance about the grant priorities.

APPLICATION DEADLINE

The APPLICATION deadline will be announced at parks.ca.gov/oep.

APPLICATION PROCESS

1. Review the “Competitive Chart” at parks.ca.gov/oep
 - The “Competitive Chart” is an important technical assistance tool that outlines what needs to be prioritized and considered for a competitive OEP APPLICATION.
2. Review this guide to understand the competitive APPLICATION requirements in more detail.
3. Participate in the extensive technical assistance methods such as APPLICATION workshops and contacting OGALS’ OEP experts. See page 42 for a complete list of technical assistance services available for APPLICANTS.
4. Review the GRANT ADMINISTRATION GUIDE, including CONTRACT provisions, to understand the requirements if the competitive APPLICATION is selected for funding.
5. Submit the online APPLICATION by the application deadline announced at parks.ca.gov/oep. APPLICATION submittal instructions are found on page 9.
6. As another form of technical assistance, APPLICANTS may be advised to correct or complete documents after the APPLICATION is submitted.
 - Exception: Grant Selection Criteria (pages 14– 23) responses must be complete by the APPLICATION deadline. Revisions will not be accepted.
7. Competitive APPLICATIONS will be evaluated and ranked based on Grant Selection Criteria responses. GRANT award decisions will be announced approximately five months after the application deadline. APPLICANTS will receive either a GRANT award or GRANT denial letter.

GRANT ADMINISTRATION PROCESS AND PERFORMANCE PERIOD

1. APPLICANTS who receive a GRANT award letter from OGALS must attend a mandatory GRANT administration workshop. Multiple workshops will be offered in accessible areas throughout the state.
 - The attendee(s) for the GRANT administration workshop should include the administrative person responsible for:
 - ✓ overseeing how the grant funds will be spent,
 - ✓ reporting those expenditures during payment requests,
 - ✓ maintaining all records related to the GRANT for audit purposes.
 - As another form of technical assistance, Outdoor Recreation Leadership Training from the Department's Office of Community Involvement will be offered to successful APPLICANTS.
 - ✓ Attendance is not mandatory.
 - ✓ OUTDOOR PROGRAM leaders who will directly engage with the PARTICIPANTS will benefit most from this training.
2. After the mandatory GRANT administration workshop, OGALS will send a CONTRACT to the APPLICANTS.
3. After a signed CONTRACT is returned and signed by the State, the APPLICANT becomes a GRANTEE.
4. The GRANT PERFORMANCE PERIOD starts with the APPROPRIATION DATE.
 - PRE-AWARD PLANNING COSTS dating back to the APPROPRIATION DATE are eligible for a reimbursement of up to 5% of the GRANT amount.
 - A start date for POST AWARD ACTIVITY COSTS will be based on A and B below.
 - Do not start ACTIVITIES IN THE COMMUNITY and NATURE AREA TRIPS with PARTICIPANTS until both of the following is approved by OGALS:
 - A) CONTRACT is signed by both the GRANTEE and the State representative.
 - and
 - B) GRANTEE's insurance policy is approved by OGALS. The Grant Administration Guide explains insurance policy requirements.

IV. Appendices

TECHNICAL ASSISTANCE FOR APPLICANTS

This page summarizes the assistance available to APPLICANTS.

To ensure a fair process, OGALS' Competitive Project Officers will provide all APPLICANTS with correct and consistent guidance.

All statewide APPLICANTS are encouraged to access the following:

Application Workshops by OGALS

Application Workshops will be offered featuring a page-by-page review of this Application Guide, including time for questions.

Access to Program Competitive Project Officers

OGALS' Competitive Project Officers provide a range of customer service options to all applicants in a timely manner. APPLICANTS are encouraged to email, call, or schedule meetings when guidance is needed. A list of OGALS' Competitive Project Officers is available at parks.ca.gov/oep.

Assistance with Incomplete Application Documents

OGALS may contact APPLICANTS to explain what corrections are needed. OGALS does not automatically disqualify an APPLICATION if a document is incomplete or needs a correction with the exception of the Grant Selection Criteria. OGALS' Competitive Project Officers can also preview Checklist Items 1, and 3-10 before the APPLICATION deadline.

Strengths and Weaknesses

APPLICANTS that do not receive a GRANT award can get strengths and weaknesses feedback based on the Grant Selection Criteria after GRANT awards are announced. This feedback may be useful to APPLICANTS if another ROUND of funding is available.

Grant Administration Workshop

APPLICANTS who receive a GRANT award must attend a mandatory GRANT administration workshop. During the workshop, OGALS and DPR auditors provide an in-depth review of the GRANT ADMINISTRATION GUIDE that explains the requirements and forms necessary for administration. OGALS' Grant Administration Project Officers are also available to answer administrative questions through the final payment process.

Outdoor Recreation Leadership Training

The Department's Office of Community Involvement offers interactive, hands-on training that equips adults with the skills and confidence to lead outdoor recreation activities with an emphasis on camping. This training is optional for GRANTEEES. Visit parks.ca.gov/oci for more information.

GRANT SELECTION CRITERIA GUIDANCE

This section gives technical assistance for Grant Selection Criteria 1 through 6 found on pages 14 to 22.

GRANT SELECTION CRITERION 1 {COMMUNITY HOME BASE} ON PAGE 14

The goal of OEP is to provide access to RESIDENTS who otherwise would be financially, imaginatively (due to a lack of awareness), or physically unable to benefit from the proposed experience(s) described in Grant Selection Criterion 3.

The COMMUNITY HOME BASE should be strategically located near where a majority of the targeted population lives in the underserved community. PARTICIPANTS can also live further than a half-mile radius from the COMMUNITY HOME BASE. For example, a school in a rural area may be the central gathering place for PARTICIPANTS.

Part A – Community FactFinder Report:

The COMMUNITY HOME BASE half-mile radius will be used to evaluate data within the community. The APPLICANT may choose any point in or on the boundary of the proposed COMMUNITY HOME BASE to place the blue pin point to establish the half-mile radius.

The use of the half-mile radius helps steer APPLICANTS towards selecting a COMMUNITY HOME BASE that best meets the intent of this funding opportunity. The FactFinder's half-mile radius uniformly quantifies per capita income, people below poverty, and public-school data using consistent data available statewide.

If the radius were larger, it could encompass higher income areas, which would disadvantage many statewide APPLICATIONS.

Part B – Other Challenges:

Review the definition for CHALLENGES and use it as a guide to describe the community's story.

This Criterion is the APPLICANT's chance to describe the need for the OUTDOOR PROGRAM not covered by the data found in the Community FactFinder. There may be other circumstances affecting the need for the OUTDOOR PROGRAM in addition to the examples listed in the definition for CHALLENGES. If so, describe those circumstances as well.

For rural areas where PARTICIPANTS may need to commute further distances from their neighborhoods to the COMMUNITY HOME BASE, explain why the COMMUNITY HOME BASE is centrally located and accessible.

GRANT SELECTION CRITERION 2 {COMMUNITY PLANNING} ON PAGE 16

This criterion is about planning the OUTDOOR PROGRAM goals, activities, and logistics through an exchange of ideas and feedback with RESIDENTS.

APPLICANTS are encouraged to partner with community-based organizations that can help engage the RESIDENTS. A BROAD REPRESENTATION of RESIDENTS should be engaged through at least 2 MEETINGS. While a specific MEETING may not have a BROAD REPRESENTATION, when each MEETING is added with others, the combination should.

MEETINGS can promote a group dynamic, with RESIDENTS building upon the ideas of one another. Engaging and interactive group discussions can lead to a more in-depth understanding of the RESIDENTS' needs. A survey may be used during the process as another way of gathering input from RESIDENTS in addition to MEETINGS. However, while a survey can be a tool, it is not by itself a MEETING where RESIDENTS have discussions.

Outreach Methods: Cost effective approaches and inclusive approaches to engaging RESIDENTS for OUTDOOR PROGRAM planning includes:

1. Identifying a RESIDENT that is seen as a leader who can assist with outreach and even with language translation. YOUTH may be able to assist with outreach and language translation. Or, due to COVID-19 restrictions, YOUTH can help with technology/webinar MEETINGS.
2. Using MEETING locations RESIDENTS, such as sidewalk meetings. APPLICANTS or a partnering community group can set up a banner, easels, and tables on a Saturday morning and knock door-to-door inviting residents to join neighbors and discuss OUTDOOR PROGRAM ideas.
3. Having MEETINGS where RESIDENTS will already be present. For example, facilitate MEETINGS with students in their classes, or a MEETING at a senior center or retirement community complex, or add OEP planning to the agendas of neighborhood/community-based organization meetings where RESIDENTS will be available.
4. Scheduling MEETINGS to accommodate RESIDENTS with different employment and family schedules, including weekend or evening hours.

Capturing Ideas:

- It is recognized that awareness of opportunities can be a barrier to getting fully informed ideas from RESIDENTS. To overcome this barrier, APPLICANTS or partners can consider a brainstorming approach with RESIDENTS. The APPLICANT or partner and RESIDENTS can share ideas and feedback with each other to make fully informed decisions.
- Capture ideas about ACTIVITIES IN THE COMMUNITY and logistics for planning NATURE AREA TRIPS. See Grant Selection Criteria 3-6 which can be a basis for planning topics to discuss.
- To help the RESIDENTS prioritize the selection of their preferred activities, make budget limitations and projections clear to RESIDENTS.

The MEETINGS or other planning efforts must take place before the APPLICATION is sent to OGALS. Make it clear to RESIDENTS that OEP may be highly competitive, that funding is not guaranteed, and be prepared to discuss other options for funding the activities.

GRANT SELECTION CRITERION 3 {OUTDOOR PROGRAM ACTIVITIES} ON PAGE 18

Design the activities to strengthen the PARTICIPANTS' connection with the natural world.

- 1) EDUCATION and SELF-DISCOVERY activities with structured and unstructured time allows PARTICIPANTS to develop personal connections to nature.
- 2) Activities for population groups with unique needs and interests may be scheduled:
 - a. For example, different types of activities may serve OLDER ADULTS compared to YOUTH.
 - b. Families may go on one nature experience trip, and a youth leadership group may go on another trip.
 - c. Activities that bring different generations together are also encouraged.
- 3) Partnerships may help to provide additional experience or serve other age groups or abilities.
- 4) The majority of activities should take place outdoors; however, indoor EDUCATION classes or some indoor activities due to weather constraints are acceptable.
- 5) Transportation is an eligible cost if it meets the following purpose:
 - a. Taking PARTICIPANTS to and from the COMMUNITY HOME BASE to NATURAL AREA TRIPS.
 - b. Taking PARTICIPANTS to and from the COMMUNITY HOME BASE, their schools, and neighborhoods.
- 6) For potential ENVIRONMENTAL JUSTICE community reporting, a web-based tool will be available at parks.ca.gov/oep.

The following examples may occur during ACTIVITIES IN THE COMMUNITY or during NATURAL AREA TRIPS:

EDUCATION topics may include but are not limited to these examples:

1. Natural resources and interpretation.
2. ENVIRONMENTAL JUSTICE data collection, analysis and reporting. For example, testing water and soil, and identifying other environmental health factors.
3. Guided nature walks.
4. Art instruction such as videography, graphic design, photography, painting and drawing
NATURAL AREA TRIPS or ENVIRONMENTAL JUSTICE scenes.
5. Cultural heritage and historic exploration, including museums
6. Tribal land visits.
7. Building awareness of parks, recreation, and resource protection benefits.
8. Water conservation and solutions to prevent pollution.
9. Climate change and potential solutions.
10. Coastal protection.
11. Safety (CPR, wilderness first responder, first aid, etc.).
12. Camping skills.
13. Wildlife viewing, and other outdoor pursuits.
14. Wilderness survival skill building.

Recreation activities may include but are not limited to:

1. Activities in nature: Hiking, biking, horseback riding, paddling, swimming, surfing, skiing, sledding, and off-highway motorized vehicle recreation in designated areas, etc.
2. Teamwork and leadership building activities in nature.
3. Therapeutic recreation in nature to heal from the effects of PTSD, trauma, and other physical and emotional conditions.
4. Cooking and learning sound nutrition habits and food storage safety for camping trips. (Note: The purchase of food and food storage through the GRANT program is only eligible during NATURAL AREA TRIPS. (See page 38).
5. Cultural activities such as performing arts, music, dance, visual art activities, tribal gatherings, etc.
6. Other recreation-based multi-generational activities that bring together families, YOUTH, OLDER ADULTS, and other diverse populations.

Planned activities may also include service learning, career pathway, and leadership opportunities; see examples of these on page 47.

Developing Cost Estimates for Criterion #3

Use the following guidance to respond to items i through l on page 18 and j through m on page 19.

- For equipment, supplies, activity fees and travel start the phrase with “Purchase,” “Lease,” or “Rent” and include the number to be purchased and name of the item, multiplied by the cost per item. The most economical use of state funds is required between these options to achieve the goals during the GRANT PERFORMANCE PERIOD only.
- For labor include the type of work, number of workers and titles, estimated hours per worker, multiplied by hourly salary.
- Contingency for costs can be folded into the lump sum cost estimate. Do not list “contingency” as its own separate item.

Estimated Costs Examples:

- **Equipment, supplies, and activity fees**
 - Purchase 100 tents x \$250/tent = \$25,000 (costs such as shipping, tax, warranty, etc. should be folded into the above lump sum estimated cost.)
- **Travel**
 - Rent 3 vans x \$200/day x 4-day trip = \$2,400 (costs such as gas, parking, insurance, tolls, etc. should be folded into the above lump sum estimated cost.)
- **Labor**
 - 10 Camp Guides x 30 hours each x \$20/hour = \$6,000 (see employee services costs and ineligible costs on pages 39 to 41):

GRANT SELECTION CRITERION 4 {SERVICE LEARNING, CAREER PATHWAY, AND LEADERSHIP OPPORTUNITIES} ON PAGE 20

This criterion encourages and is designed to give RESIDENTS, especially YOUTH or under-employed adults, opportunities that can be used for employment resumes or college admissions.

- ✓ The opportunities may also be unpaid opportunities.
- ✓ Employment of RESIDENTS through internships is only eligible if the activities are consistent with the GRANT SCOPE to achieve the goals of the OUTDOOR PROGRAM.

The series of activities offered through the OUTDOOR PROGRAM can introduce PARTICIPANTS to the fields of therapeutic recreation, services for Adverse Childhood Experiences, natural science, park or resource management, and community engagement or public service. Leadership development will cultivate diverse adaptive leaders who prioritize outdoor EDUCATIONAL and recreational experiences, healthy lifestyles, exercise, value of and participation in nature, and community development.

The opportunities may also include activities designed to influence the community's health and quality of life (environmental, recreational, EDUCATIONAL, and cultural) if consistent with the GRANT SCOPE to achieve the goals of the OUTDOOR PROGRAM.

Examples of meaningful opportunities for RESIDENTS consistent with the purpose of the GRANT SCOPE include:

1. YOUTH leadership and community organizing in outreach to RESIDENTS during community-based planning.
2. Language translators.
3. MEETINGS assistance or web-based technical assistance (IT) for RESIDENTS.
4. Internships, training positions, or paid positions for those to gain experience as nature guides, interpreters, rangers, natural scientists, physical activity coaches, therapists, trainers, etc.
5. Developing communication related to water, parks, climate, coastal protection, and other outdoor pursuits (graphic art, messaging/writing, photography, videography, painting/drawing, social media or website development, etc.).
6. Reporting on or interviewing PARTICIPANTS, including using technical skills such as videography.
7. Leadership can be developed by PARTICIPANTS sharing their skills, insight, and experiences with other RESIDENTS.
8. Community development to work across boundaries (cross-disciplinary, cultural, generational, geographic) to strengthen community connections and action. Working with people and institutions to equip them to address access related CHALLENGES and work together to solve them.

GRANT SELECTION CRITERION 5 {PARTNERSHIPS AND CAPACITY BUILDING} ON PAGE 21

Time period: To receive up to ten points, the PARTNERSHIP contributions should occur starting from July 1, 2020 onward. A PARTNERSHIP can involve a public agency, non-profit organization, or company that is assisting the APPLICANT to achieve one or more goals related to Grant Selection Criteria 2, 3, 4, and 6.

Partnership Examples

1. Assisting with outreach and MEETINGS with RESIDENTS (see Criterion 2).
2. Capacity building such as teaching the APPLICANT or another partner a service skill, cultural awareness training, administrative assistance, mentoring, etc.
3. Fiscal Sponsors can qualify as a partnership. This is when the APPLICANT/GRANTEE will serve as the fiscal sponsor of community organizations. The APPLICANT/GRANTEE will administer the GRANT funds and ensure compliance. The community organizations can conduct OUTDOOR PROGRAM activities on behalf of the GRANTEE as a PARTNERSHIP.
4. Conducting one or more activities related to Grant Selection Criteria 3, 4, and 6, such as providing EDUCATION or outdoor skills.
5. Transportation services.
6. A group that specializes in serving a specific age or cultural group, foster youth, or language translation/interpretation.
7. Contributing volunteer services.
8. Contributing materials, equipment, supplies, etc.
9. Contributing cash donations, or providing a grant.

There is no point advantage for greater amounts of COMMITTED FUNDS. Cash contributions are not required to receive the maximum 10 points.

Partnership with a HEALTH ORGANIZATION

AB 209 includes the following priority: *“Contribute to healthy lifestyles, sound nutritional habits, and improved outdoor educational and recreational experiences.”*

Forming a partnership with a HEALTH ORGANIZATION is encouraged, but not required for the response to this criterion.

“HEALTH ORGANIZATION” is broadly defined to mean a government, foundation or community-based organization, or private entity with a primary mission of supporting clean air, water, and land, physical activity, therapeutic recreation, active transportation, nutrition, social and mental wellness, or ENVIRONMENTAL JUSTICE.

To form new partnerships with the HEALTH sector, APPLICANTS may want to consider local health departments, health insurance companies or local hospitals and clinics, NON-PROFIT health advocates or community-based organizations, and even statewide or national health foundations.

California’s 2021-2026 Statewide Comprehensive Outdoor Recreation Plan (SCORP) recognizes shared goals between park agencies and HEALTH ORGANIZATIONS. Visit ParksforCalifornia.org to read the SCORP and learn more.

GRANT SELECTION CRITERION 6 {MENTORING YOUTH LEADERS AFTER THE GRANT PERFORMANCE PERIOD} ON PAGE 22

This criterion encourages, but does not require, APPLICANTS to develop a plan to mentor YOUTH for civic engagement, leadership roles, and career pathways after the GRANT PERFORMANCE PERIOD.

For example, an annual community needs assessment about ENVIRONMENTAL JUSTICE may be conducted and reported by YOUTH.

- A web-based tool that allows for community reporting will be available at parks.ca.gov/oep.

APPLICANTS have an option to describe why it will not be possible to mentor YOUTH after the GRANT PERFORMANCE PERIOD by answering part B instead of part A.

GRANT SELECTION CRITERIA REQUIREMENTS

If the GRANT is awarded, responses to the Criteria listed below will be included in a Status Report sent to GRANTEEES every six months until final grant payment.

The Status Report will serve as a reminder of what the APPLICANT committed to during the competitive process. It will list responses to the following Grant Selection Criteria:

- Criterion 2 (use of RESIDENTS' ideas)
- Criterion 3 (activity plan)
- Criterion 4 (service learning, career pathway, leadership opportunities)
- Criterion 5 (partnerships and capacity building)
- Criterion 6 (engagement with YOUTH leaders after the GRANT PERFORMANCE PERIOD)

PROJECT AREA MAP

REPORT BACKGROUND

The project statistics have been calculated based on half mile radius around the point location selected. Only park acres within the project area's half mile radius are reported.

Population and people in poverty are calculated by determining the percent of any census block-groups that intersect with the project area. The project area is then assigned the sum of all the census block-group portions. An equal distribution in census block-groups is assumed. Rural areas are calculated at a census block level to improve results.

Median household and per capita income are calculated as a weighted average of the census block- group values that fall within the project area.

More information on the calculations is available on the methods page.

Demographics—American Community Survey (ACS) 5-year estimates 2014-2018; Decennial 2010 Census; the margin of error (MOE) was not analyzed.

Parks—California Protected Areas Database 2020a CFF adjusted (6/2020) - more information at <http://www.CALands.org>. APPLICANT CAPACITY (CHECKLIST #7)

1. Oakland Goes Outdoors has the capacity to achieve the plan set out in Criterion #3 of School Family Campouts, Nature Family Campouts, and Outdoor School with Camp Arroyo. Oakland Goes Outdoors is entering its third year serving middle school students within Oakland Unified School District (OUSD). When the COVID-19 pandemic began in March 2020, school sites shut down in-person learning and all outdoor day and overnight trips that had been planned were put on hold indefinitely or canceled due to shelter-in-place orders and because, during the 2020-2021 school year, the majority of instruction at the secondary level was virtual. As a result, many students missed spending time together outdoors on overnight trips with their classmates, teachers, and friends. Due to the success of the pilot program despite the strain of COVID-19, what began as a pilot program serving only middle school students will be expanding into a program serving all students K-12 in OUSD. Oakland Goes Outdoors is ready for an expansion because it has the infrastructure and buy-in from school sites and partner organizations. Due to this expansion, a project lead who is solely dedicated to this project was hired in March 2021. This project lead is working in collaboration with the Bay Area Wilderness Training, the Middle School Network Superintendent, Secondary Science Coordinator, Expanded Learning After School Program, and The Center. This collaboration will enable the success of the program, with all parties deeply invested in the work of Oakland Goes Outdoors and the plan set out in Criterion #3 of the Outdoor Equity Grants Program.
2. Oakland Goes Outdoors is a partnership between the San Francisco Foundation, Oakland Unified School District (OUSD), Oakland Public Education Fund, and the Bay Area Wilderness Training (BAWT). Since 2018, the San Francisco Foundation, through the Youth Access to Nature Fund, has funded the pilot program, Oakland Goes Outdoors as a program within OUSD. The purpose of this grant seeks to provide equitable outdoor experiences for every student in OUSD. Beginning in 2018, the San Francisco Foundation has funded Oakland Goes Outdoors with \$830,760, granted to the Bay Area Wilderness Training and the Oakland Public Education Fund. To date, nearly 1,700 middle school students have served on 36 outdoor trips, with 64 OUSD staff trained by the Bay Area Wilderness Training's Frontcountry Leadership Training. The Youth Access to Nature Fund has awarded the grant to BAWT to assist with outdoor leadership training and access to the gear library.
3. The Applicant and the Partnering Organizations are located near the Community Home Base. Oakland is a moderately sized city and the community home base can be reached within a 10-15 minute drive from the OUSD District Office, the Bay Area Wilderness Training office, and the Center. Nearly all of the members of the Oakland Goes Outdoor Lead Team have worked with the school site located on the community home base, as teachers, after school service providers, or school site administrators. Members of the Oakland Goes Outdoors Lead Team regularly visit school sites and these connections are continually being built and reinforced as school sites and Oakland Unified School District work to serve youth and provide students with equitable outdoor opportunities. Additionally, the Bay Area Wilderness Training office is nearby to the community home base, and is relatively easy for residents to access.
4. The Outdoor Program will take place at school sites, at campgrounds located in the East Bay Regional Parks, and at Camp Arroyo. Conversations about using school sites for family campouts have begun, and, once dates have been set, permits can be reserved through the school site. Permits to utilize the school site for an event outside of academic classes can be secured as soon as dates are set with school sites. Camping reservations can be made at group campsites through the East Bay Regional Parks, and conversations have begun about reservations with Camp Arroyo beginning as early as Fall 2022. As soon as funding is secured, we can work with the school site to reserve group campsites at East Bay Regional Parks and secure dates at Camp Arroyo's Outdoor School.

PHOTOS AND COPYRIGHT LICENSE AGREEMENT (CHECKLIST #8)

No photos will be submitted as part of this application since permission was not received from parents of students.

REPORTING CERTIFICATION (CHECKLIST ITEM #9)**Certification Form**

The following reporting requirements are only applicable if the GRANT is awarded. By signing this form, the APPLICANT agrees to keep reporting requirements, #1-5, listed below, during the GRANT PERFORMANCE PERIOD. To meet AB 209 reporting requirements, GRANTEES will submit the following information to OGALS through an online reporting system before the final grant payment will be approved.

Reporting Requirements:

1. Total number of YOUTH served.
2. Partnerships formed through the OUTDOOR PROGRAM, including a description of partnership accomplishments and lessons learned.
3. EDUCATIONAL goals achieved through the OUTDOOR PROGRAM per the definition of EDUCATION found on page 51, and how the objective was met.
4. Videos and/or photos that provide a sample of highlights with quotes, captions, or testimonials about the impact of the OUTDOOR PROGRAM.
5. To inform future OUTDOOR PROGRAMS, provide tips and lessons-learned:
 - o successful methods used,
 - o unforeseen challenges and recommended solutions.
 - o These tips will be made available online to help build capacity statewide.

The APPLICANT understands that if the GRANT request is approved, GRANTEES will respond to the Reporting Requirement #1-5 above through an online reporting system that will be made available at _____ before the final grant payment will be approved.
