Compensation to the Design Consultant, if any, for such revisions shall be determined as follows: The District shall obtain an independent estimate of the Construction Cost. If such independent estimate is within the Project Construction Budget, and if the lowest responsible and responsive bid price nevertheless exceeds the Project Construction Budget, then Design Consultant shall be entitled to receive compensation for executing such revisions in an amount not exceeding 100% of the total Additional Services. If the District's independent estimate exceeds the Project Construction Budget prior to bid, and if the lowest responsible and responsive bid price exceeds the Project Construction Budget and if the District elects to require the Design Consultant to revise the Construction Documents, the Design Consultant shall perform any such revisions at its own expense and without additional compensation or reimbursement by the District.
- 2.5.5. Basic Services Fee.** If the lowest bid or proposal meets or exceeds one hundred and five (105%) percent of the amount designated as the Project Construction Budget at the time of bid, the "Computed Cost" for Design Consultant's Fee for Basic Services shall be based on such Project

---

Construction Budget amount, plus any additive alternates not taken, plus any change orders for additional scope of work, unless Design Consultant can demonstrate good cause to the District.

- 2.5.6.** Should the District proceed to perform the Project in multiple phases, Design Consultant may be required to provide all services related to the Bidding Phase as set forth in this Section 2.5, and any and all related deliverables as further described herein, for each phase of the Project.

Design Consultant shall only be responsible for a review that complies with the applicable Standard of Care, and an approval by the Design Consultant shall not relieve the Contractor from its responsibility to comply with the Contract Documents. The Design Consultant's review shall not constitute approval of safety precautions or, unless otherwise specifically stated by the Design Consultant, of any construction means, methods, techniques, sequences, or procedures. The Design Consultant's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

**2.6.7. All such observations shall be conducted in accordance with the Standard of Care. Such observations shall address matters relating to: the general progress, character, and complexity of the Work; design issues or questions of concern to the Design Consultant or its Subconsultants, or as noted in any inspection reports furnished to the Design Consultant; the observed quality of Contractor's performance during previous visits; the review of construction of crucial components of the Work; and the results of specified or directed tests significant to the acceptability of crucial components of the Work. Such observations shall be performed by Design Consultant and its Subconsultants when reasonably requested by the District or as appropriate to the stage of the Project. Without limitation to the foregoing, observations shall be for the purpose of ascertaining the general progress of the Work and that the character, scope, quality and detail of construction (including workmanship and materials) generally comply with the Contract Documents, approved Submittals and clarifications. Observations shall be separate from any inspections which may be provided by others and such inspections by others shall not relieve the Design Consultant of its responsibilities under this Agreement. Any Sub consultant who has prepared designs or specifications shall be responsible to observe in accordance with the provisions of this Agreement those portions of the Work that he/she has so designed or specified. However, neither the Design Consultant nor any Sub consultant shall be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. The Design Consultant shall be responsible for its negligent acts or omissions but shall not have control over or charge of and shall not be responsible for acts or omissions of the Contractor, Subcontractors, or their agents or employees, or of any other persons or entities performing portions of the Work.

The Design Consultant shall review the punch list, advise the District and Project Inspector whether items listed thereon have been completed in accordance with the requirements of the Contract Documents and issue such recommendations of Substantial Completion and Final Completion as may be requested by the District. The Design Consultant shall review for conformance with the Contract Documents all Record Documents and other items required by the Contract Documents to be delivered by Contractor as a condition of the final payment to such Contractor. In addition to the foregoing, Design Consultant shall, based on its evaluations of the Work, notify the District and Project Inspector when the Work is completed to the point that, in the opinion of the Design Consultant, a notice of completion required by Section 4-339, Part 1, Title 24 of the California Code of Regulations may be filed.

- 2.6.14. Change Orders.** The Design Consultant shall prepare Drawings and Specifications as specifically requested by the District in connection with the issuance of Field Instructions and Construction Change Documents and secure approvals thereof by the applicable Governmental Authorities, including, but not limited to, DSA, in accordance with Applicable Laws prior to the commencement of the Work thereof. When requested or when necessary to maintain progress of the construction, Design Consultant shall prepare, submit and obtain approval by DSA of Construction Change Documents, followed promptly by submittal of a formal Change Order. Design Consultant shall be entitled to compensation for the preparation of Drawings and Specifications in connection with the issuance of Field Instructions and Change Orders to the extent allowed by Article 3 of this Agreement. The Design Consultant shall not be entitled to compensation for the preparation of Drawings and Specifications necessitated by errors, omissions, deficiencies, ambiguities, conflicts or violations of Applicable Laws caused or created by the Design Consultant or its Subconsultants.

Within six (6) weeks after receipt of Contractor's complete and corrected As-Built, the Design Consultant shall, at no additional cost, draft and furnish to the District Record Documents showing the as-built condition of all portions of the Work (including without limitation the location of electrical, HVAC, plumbing and other lines that may be diagrammatically represented in the Contract Documents), and one (1) annotated hardcopy of the Specifications and one (1) flash (thumb) drive in software format acceptable to the District. The revisions and changes reflected in the As-Built shall be coordinated and accurately annotated and cross-referenced by the Design Consultant from the Contractor prepared As-Built. Each page of the Drawings and the coverage page of the annotated Specification shall prominently bear the words "Record Documents."
  3. Record Drawings shall be submitted by the Architect to the District in both hard copy and an electronic form acceptable to the District.

If a Change during the Construction Phase of the Project is the result of errors, omissions or other defects in the Design Documents or failures of the Design Consultant or its Subconsultants to timely and completely perform the Basic Services, services required of the Design Consultant or its Subconsultants in connection with such Change shall not result in adjustment of the Compensation.

Pursuant to Civil Code section 3320 subdivision (a), should the District withhold all or a portion of any payment invoiced by Design Consultant, the District shall so notify Design Consultant in writing of the reasons, therefore. All such books and records shall be maintained in accordance with generally accepted accounting principles and shall be clearly identified and readily accessible. Such records shall be kept separate from other documents and records unrelated to the Project for a period of four (4) years after the later of termination of this Agreement or Final Completion of the Project.
- 7.1.2. If such audit discloses an overcharge of five (5%) percent or more of the total amount invoiced to the District for any year audited, and such audit is subsequently determined to be correct, Design Consultant shall pay the actual cost of such audit, which cost, in the case of audits conducted by the District using in house staff, shall be computed on the basis of two (2) times the direct payroll of the audit staff completing the audit and audit report.
- 7.1.4. The Term of this Agreement shall commence upon the District and the Design Consultant each executing a counterpart copy hereof, delivery of an executed counterpart copy hereof to the other and ratification of this agreement by the District's Board of Trustees ("Term"). This Agreement shall be in effect unless terminated prior thereto under the provisions of this Article 8. In the event that Project construction is not completed or the District shall not have issued Final Payment to the Contractor as of the Termination Date through no fault or neglect of Design Consultant, or its Subconsultants, the Termination Date shall be extended and Basic Services provided by Design Consultant following the Termination Date shall be in accordance with the Rate Schedule attached to the Project Authorization. If Project construction is not completed by the Termination Date and delayed completion of Project construction is caused in whole or in part by: (a) the acts, omissions or other conduct of the Design Consultant or any Sub consultant; (b) delayed review and/or approval by DSA or other government authorities; or (c) acts of God, the Termination Date shall be extended commensurate with the number of calendar Days attributed to (a), (b), and/or (c) above ("the Extended Duration"). During the Extended Duration, the Design Consultant shall continue to provide or perform the Basic Services without adjustment of the Compensation.

**8.2. TERMINATION BY THE DISTRICT**

**8.2.1. For Cause.** If the District determines that Design Consultant has failed to perform in accordance with the terms and conditions of this Agreement, the District may terminate all or part of the Agreement (or of any Project) for cause. This termination shall be effective if Design Consultant does not begin to cure its failure to perform within ten (10) Days (or longer, if authorized in writing by District) after receipt of a notice of intention to terminate from the District specifying the failure in performance. If a termination for cause does occur, the District will have the right to withhold monies otherwise payable to Design Consultant to the extent caused by the Design Consultant's cited failure to perform. If the District incurs additional costs, expenses or other damages due to the negligent failure of Design Consultant to properly perform pursuant to this Agreement, these costs, expenses or other damages shall be deducted from the amounts withheld. Should the amounts withheld exceed the amounts deducted; the balance will be paid to Design Consultant upon Final Completion of the Project. If the costs, expenses or other damages incurred by the District exceed the amounts withheld, Design Consultant shall be liable to the District for the difference. The provisions of this Paragraph 8.2.1 are in addition to, and not a limitation upon, any other rights and remedies of the District under law or in equity.

**8.2.2. For Convenience.** The District may terminate or suspend performance of all or part of this Agreement (or of any Project) for convenience and without cause at any time upon ten (10) Days' written notice to Design Consultant, in which case the District will pay Design Consultant as provided in Article 5 for all Basic Services and authorized Additional Services performed, and all authorized Reimbursable Expenses incurred and paid (excepting any disputed amounts), under and in accordance with this Agreement up to and including the date of termination. Such payment shall be Design Consultant's sole and exclusive compensation and the District shall have no liability to Design Consultant for any other compensation or damages, including without limitation, anticipated profit, prospective losses or consequential damages, of any kind.

**8.2.3. Deletion of Services.** In the event of termination by the District, for cause or convenience, of a portion of the Project, then the Design Consultant's fixed or maximum compensation for Basic

---

Services for the portions of Project or services not so terminated shall be equitably adjusted to reflect the resulting reduction in Design Consultant's scope of Basic Services.

### **8.3. TERMINATION BY DESIGN CONSULTANT**

#### **8.3.1. Termination of the Agreement.** Design Consultant may terminate this Agreement:

1. If the District fails to make any undisputed payment to Design Consultant when due in accordance with this Agreement and such failure remains uncured for thirty (30) Days after written notice to the District of such default and of Design Consultant's intent to terminate; or
2. If the Project is abandoned by the District for more than sixty (60) consecutive Days, Design Consultant may terminate this Agreement upon thirty (30) Days' notice to the District, provided the District does not reactivate the Project within such thirty (30) Day period. If the Project is reactivated and this Agreement is still in full force and effect, Design Consultant's compensation and time for performance shall be equitably adjusted to provide for reasonable expenses incurred by Design Consultant and delays which are directly attributable to the interruption and resumption of service.

#### **8.3.2. Payment for Services.** In the event of a termination of this Agreement by Design Consultant in accordance with this Section 8.3, the District's obligation shall be to pay Design Consultant an amount for its Basic Services, Additional Services, and Reimbursable Expenses calculated in accordance with Paragraph 8.2.2 of this Agreement. Such payment shall be Design Consultant's sole and exclusive compensation and the District shall have no further liability or obligation to Design Consultant for any other compensation or damages, including, without limitation, anticipated profit, prospective losses or consequential damages, of any kind.

The Design Consultant's obligations hereunder shall survive the Design Consultant's completion of services and obligations hereunder or the earlier termination of the Agreement until any such claim, demand, loss, responsibility or liability covered by the provisions hereof is barred by the applicable Statute of Limitations.

---

The Indemnitees shall be entitled to the defense and indemnification provided for hereunder except to the extent the loss, liability, claim, damage or cost is in part caused or contributed to by the acts or omissions of an Indemnatee; provided, however, that nothing contained herein shall be construed as obligating Design Consultant to indemnify any Indemnatee for any loss, liability, claim, damage or cost to the extent resulting from that Indemnatee's negligence or willful misconduct.

To the fullest extent permitted by law, the District agrees to defend, indemnify and hold harmless, the Design Consultant, from any and all losses, liabilities, claims, damages and costs arising out of or attributable, in whole or in part, to the negligent or willful acts, omissions, errors and/or other conduct of the District, and those of the District's Trustees, officers, employees, agents and volunteers arising from the Project that is subject to this Agreement; provided, however, that nothing contained herein shall be construed as obligating the District to indemnify any Design Consultant for any loss, liability, claim, damage, or cost to the extent resulting from that Design Consultant's, or its Subconsultants', or their respective employees,' agents,' representatives' or independent contractors,' negligence or willful misconduct, omissions, errors and/or other conduct. If the Claim involves an assertion of a right or claim by a Sub consultant against Design Consultant that is in turn being asserted by Design Consultant against the District, then such Subconsultant shall also have a representative attend such negotiations, with the same authority and knowledge as just described. Upon completion of the meeting, if the Claim is not resolved, the Parties may either continue the negotiations or either Party may declare negotiations ended. - 10.3.5. Arbitration.** All claims, disputes or other matters in controversy between Design Consultant and the District arising out of or pertaining to this Agreement which are not fully resolved through the mandatory mediation set forth in Paragraph 10.3.3 above shall be settled and resolved by binding arbitration conducted under the auspices of the AAA Construction Industry Arbitration Rules in effect at the time of the filing of a Demand for Arbitration, as modified herein. The award rendered by the Arbitrator(s) shall be final and binding upon the District and the Contractor and shall be supported by law and substantial evidence pursuant to California Code of Civil Procedure section 1296. Any written arbitration award that does not include findings of fact and conclusions of law in conformity with California Code of Civil Procedure section 1296

and Rule R-47 of the AAA Construction Industry Arbitration Rules shall be invalid and unenforceable. The District and Contractor hereby expressly agree that the Court shall, subject to California Code of Civil Procedure sections 1286.4 and 1296, vacate the award if, after review of the award, the Court determines either that the award is not supported by substantial evidence or that it is based on an error of law. In connection with any arbitration proceeding commenced hereunder, the discovery rights and procedures provided for in California Code of Civil Procedure section 1283.05, shall be applicable, and the same shall be deemed incorporated herein by this reference. If any claim or dispute is asserted by the Contractor, the Construction Manager or the District relating to the Project and arising in whole or in part out of this Agreement, the services provided by or through the Design Consultant hereunder or the Instruments of Service prepared by or through the Design Consultant, Design Consultant and District agree that any arbitration proceedings initiated between Design Consultant and District hereunder shall be consolidated with any arbitration proceedings initiated in connection with such other claim or dispute with the Design Consultant, or the Contractor, the Construction Manager. # Oakland Unified School District

Design Consultant Services for Turf Sports Field Replacement  
Projects at Various School Sites  
Project Number: #25009

March 14, 2025

# 2.1 Letter of Interest

Kenya Chatman, Executive Director  
Department of Facilities Planning and Management  
Oakland Unified School District  
955 High Street  
Oakland, CA 94601

March 14, 2025

Dear Ms. Chatman and Members of Evaluation Team,

Improvement to playing fields and athletic facilities requires specialized knowledge of infrastructure, suppliers, codes and construction to be successfully implemented. The LCA Architects' team is ideally suited for inclusion on Oakland Unified School District's pre-qualified list of service providers as we possess the required experience with the potential projects the District is considering. In addition, the exemplary service LCA has provided the District over the last 25 years gives you the confidence that we will perform – regardless of project type, complexity or timeline.

We've assembled a similarly qualified consultant team. All have experience working with Oakland USD, on athletic/turf field projects, and with LCA and each other. The LCA team exceeds OUSD's Local, Small and Resident Business goals. As a cohesive, collaborative unit, we will work together to serve the needs of the District.

**Record of Excellence** Collective experience and proven track record with Oakland USD is unmatched. OUSD turns to LCA for some of its most challenging projects (non-Field Act facility modernizations, 21st Century STEM buildings, Net Zero Energy design, and shared community services).

**Extensive Experience** Work w/ 20+ education districts on numerous athletic facilities.

**Unique Qualities** Direct experience in all project types anticipated with understanding of DSA requirements for special facilities such as fled amenities and path of travel. Consultants with direct District and campus knowledge.

**Good Fit** 25+ years working collaboratively w/ OUSD, completing over 55 projects, trusted by staff, community, and stakeholders. Local business supported by small, local consultants.

Thank you for your thoughtful consideration of our qualifications. We look forward to continuing our partnership with OUSD to realize your vision of creating places of pride that support all aspects of the student experience.

Sincerely,

## 2.2 (2.3) Firm Information

### 2.3.1 History of LCA

LCA Architects is a full-service architecture firm, specializing in the planning, design and construction of educational facilities. As the Architect of Record for over 200 education projects, we have a strong reputation in the industry for providing award-winning designs that are easy to operate and maintain. We take a comprehensive approach to whatever challenge is presented; streamlining otherwise complicated processes, through the expertise of our experienced staff and consultant partners.

### 2.3.2 Firm Approach

In its purest form, design is problem solving. Oakland USD need, program, budget, schedule, and a broad range of other criteria, serve as parameters for establishing project scope and direction. The desire to produce a design that enriches Oakland’s community, while elevating the quality of life for those that use District facilities, results in a complex set of requirements that must be addressed.

LCA Architects utilizes a rigorous design process to achieve a balance between disparate project criteria that are often at odds with one another. Given the complex and technical nature of the components for Oakland USD’s various Turf Sports Field Replacement projects, LCA Architects engaged experts in field designand engineering, accessibility and cost estimating to provide requisite input in the process. LCA’s design and construction administration process is collaborative in nature with Architect, District, Contractor, and all specialists contributing toward project success. LCA’s role is to be the proactive leader, maintaining effective communication, while coordinating the efforts of all participants.

LCA possesses a current working knowledge of design and specification needs as well as deliverables for the District. We enter each project with a clear understanding of the requirements for Oakland USD. The specific needs of the District, budget, code requirements, and facility configuration all inform our design options and contribute to how the upgrades will be completed. Knowing DSA’s preferences for accessibility for fields and adjacent facilities will be critical to supporting timely approvals.

As the majority of the work will be in sports field upgrades, only an Architectural Team experienced in the design and delivery of turf fields, tracks and bleachers will consider the additional factors that affect the cost of constructing a synthetic turf field such as:

- Accessibility for heavy equipment
  - Drainage profile & underground system type
  - Cost of freight
- Edge material & types of attachments along edges
  - Turf density, type of backing and quality of landfill
  - Adequate water source for cleaning and maintenance

## 2.2(2.3) Firm Information

### 2.3.3 Political Environment & Community Involvement

We understand that constituents pay close attention to how their dollars are spent. LCA fosters a transparent process and project documentation approach that gives the public and District administration confidence in sound decision making. We must also be sensitive to the District's commitment to school parity. Understanding the indirect project influences leads to a project that is embraced by all.

LCA routinely facilitates community involvement, whether it is soliciting feedback from the surrounding neighborhood, working with site committees or parent groups, or incorporating input from athletic organizations. Our projects bring us in front of School Boards, City Councils, Planning Commissions, Board of Supervisors, and Architectural Review Boards throughout the Bay Area. By embracing the community engagement process, we can understand actual priorities, communicate what the project will look like, mitigate potential impacts, and alleviate community concerns.

At the outset of the campus transformation of Fremont High School, LCA facilitated the community engagement efforts that resulted in respecting Fremont's historic nature as well as visibility as a treasured resource by the community. LCA also recently completed the San Antonio Park Master Plan which involved an extensive outreach to over 8,000 residents and 150 community based organizations, garnering input on improvements and services offerings at Oakland's largest and oldest open space. LCA worked with many public agencies during the design and construction of the conversion of a two story classroom building into the new Health and Family Resource Center at West Oakland Middle School in Oakland. Agencies included Lifelong Medical Care, Alameda County Health Care Services, Safe Passages, Youth Ventures, the Atlantic Philanthropies, the City of Oakland and Oakland USD.

Recently, concerns have been raised about the viability of synthetic turf and its effects on athlete health. We will address these concerns with interested parties and be prepared to discuss alternatives such as plant-based infill, which is often a mix of coconut fiber, cork or rice husks, over crumb rubber. Encouraging the use of organic infill offers the opportunity to allay ongoing community concerns.

### 2.3.4 Ability to Meet Schedules

**“Plan for the work, then work the plan.”** We start with the required date for Substantial Completion of Construction and work backwards when it comes to preparing a project schedule. From that desired end date, we estimate the duration for whole design process to play out: Contract Documents, Agency Approvals, Bidding, and Negotiations. Then we develop in greater detail how the Contract Documents will be prepared, showing phase milestones for Schematic Design, Design Development, and Construction Documents. It is important for District to have a clear map at the beginning of the journey so they can:

- a. feel assured there will be adequate opportunities to review the work and provide input*
- b. be able to communicate to stakeholders how the project is progressing*
- c. track the completion of the work.*

We develop staffing and resource planning to ensure allocations are adequate to meet the delivery schedule. We garner commitment from the entire consultant team that they have adequate bandwidth to adhere to the milestone schedule. We confer with DSA as to submittal timelines and anticipated review time based on the project's complexity. Key elements include:

- Decision making hierarchy, roles and responsibilities and project communication plan. Delays in decisions or input from regulatory agencies are reduced with planning and proactive implementation
- Systematic gathering of record drawings, existing topographic surveys, base data, maps, site diagrams, and site measurements to fully understand project constraints in preparation for the development of a well-coordinated, innovative design solution
- Conducting walk-throughs of the site with entire design team to evaluate site, look at code issues, fire and life safety concerns, accessibility, determine possible challenges, secure photographic documentation, and to compare as-built drawings with existing conditions
- Confer with PG&E, Sanitary District, Alameda County Health Department, Fire and Water District, and other agencies to determine need to upgrade electrical service, and fire access
- Synthesizing data gathered into a prioritized program of action including cost estimating to inform the District of our findings, and indentifying possible project options and cost implications

### Meeting District's Local Business Utilization Requirements

**LCA Architects** established our Oakland office in 2011. As such, we have outstanding relationships with local and small local consultants that collaborate with us on educational projects throughout California as well as ALL our projects for Oakland USD, City of Oakland, and Alameda County.

**Small and Local Firms Planned Partnerships:** LCA Architects is a certified SLBE by Alameda County as is our cost estimator, MicroEstimating. Due to City of Oakland's ever increasing restrictive certification requirements, the pool of LOCAL and SMALL LOCAL consultants is significantly diminished. However, for the Turf Sports Field Replacement Projects, the majority of the design work will be done by our landscape architect Cupple Keller Designs and civil/survey engineers CaliChi, Inc. This team is 100% LOCAL certified and an estimated 77% of total fees will go to SMALL LOCAL firms, far exceeding Oakland Unified's goals. Worksheet in Section 2.6

**Carve Out Opportunities:** All field design and any related improvements such as tracks, etc. will be completed by Cupples Keller Design (SLBE). All civil engineering (grading, drainage, accessibility, paving, etc) as well as required surveys will be completed by Calichi, Inc (SLBE).

**Other Identified Opportunities:** Should field projects require the services of electrical engineering (lights, scoreboards) and/or mechanical/plumbing engineering (water, piping), these services will also be provided by SMALL LOCAL engineering firms such as YEI Engineers, H-M Mechanical and Alter Engineering.
