Presented to the Measures N and H Commission

Overview

- EIP Assessment recap: Suggestions for continued Progress monitoring
- 2-year Conditionally Approved timeline

Criterion 1: Measures N and H Pathway Improvement Progress Reflection

Score: 2	Suggestions for 25-26 Continued Progress Monitoring
Rationale: The EIP provides minimal reflection on a clear theory of action. The connection between goals and strategic actions to meet those goals is unclear. No clear connection between goals and an improvement in graduation rate.	Revisit program goals and structure by collecting input from impacted stakeholders. I.e. Students, Parents, and staff for program improvement. Establish a site monitoring team to include Alternative Education Pathway Coach or additional Linked Learning designee.

Criterion 2: Measures N and H Pathway Improvement Plan (Actions)

Score: 1	Suggestions for 25-26 Continued Progress Monitoring
Rationale: The EIP does not state a clear connection between work based visits and the pathway. Integrated student supports are not clearly identified.	Revisit goals and actions with OUSD Alternative Education Pathway Coach for ongoing progress monitoring.

Criterion 3: Alignment of Funding to Linked Learning Criteria, Strategic Actions, Permissible Expenses, and Measures N

Score: 2	Suggestions for 25-26 Continued Progress Monitoring
Rationale: EIP does not provide a clear connection between expenditures and pathway goals.	Review expenditures with OUSD Alternative Education Pathway Coach and Linked Learning Office to provide a clear connection with EIP and student success.
