This general services agreement (“Agreement”) is made and entered into effective **December 11, 2025** (the “Effective Date”), by and between the Oakland Unified School District (“District”) and **ACC Environmental Consultants, Inc.** (“Contractor” and together with District, the “Parties”).

1. Contractor Services. Contractor agrees to provide the following services to District (collectively, the “Basic Services”): conduct hazardous material survey, primarily focusing on asbestos and lead paint with PCB sampling for the Coliseum College Preparatory Academy Site Expansion Project (“Project”), (as further described in *Exhibit A* to this Agreement). Contractor shall provide services related to the Project other than Basic Services (i.e., “Additional Services”) if directed in writing by District to perform specific Additional Services and if sufficient contract funds for Additional Services remain to pay for the directed Additional Services (see Section 5, below). “Services” shall mean Basic and Additional Services. Contractor agrees to perform such Services as expeditiously as is consistent with professional skill and care and the orderly progress of the Services and the Project. All services performed by the Contractor under this Agreement shall be conducted in a manner consistent with the level of care and skill ordinarily exercised by ACC Environmental Consultants, Inc. consultants specially qualified to provide the services required by the District.

2. Contractor Qualifications. Contractor represents and warrants to District that Contractor, and all of Contractor’s employees, agents or volunteers (the “Contractor Parties”), have in effect and shall maintain in full force throughout the Term of this Agreement all licenses, credentials, permits and any other qualifications required by law to perform the Services and to fully and faithfully satisfy all of the terms set forth in this Agreement. Contractor and any Contractor Parties performing Services shall be competent to perform those Services.

3. Term. The term for performance of the Services shall be the duration of the Project (“Term”), except as otherwise stated in Section 4 below, and Contractor shall complete the Services within the Term. There shall be no extension of the Term without an amendment signed by all Parties and approved by the District’s governing board. Written notice by the District Superintendent or designee shall be sufficient to stop further performance of the Services by Contractor or the Contractor Parties. In the event of early termination, Contractor shall be paid for satisfactory Services performed to the date of termination. Upon payment by District, District shall be under no further obligation to Contractor, monetarily or otherwise, and District may proceed with the work in any manner District deems proper.

4. Termination. District may terminate this Agreement at any time by giving thirty (30) days advance written notice to Contractor. Notwithstanding the foregoing, District may terminate this Agreement at any time by giving written notice to Contractor if (1) Contractor materially breaches any of the terms of this Agreement; (2) any act or omission of Contractor or the Contractor Parties exposes District to potential liability or may cause an increase in District’s insurance premiums; (3) Contractor is adjudged a bankrupt; (4) Contractor makes a general assignment for the benefit of creditors; (5) a receiver is appointed because of Contractor’s insolvency; or (6) Contractor or Contractor Parties fail to comply with or make material representations as to the fingerprinting, criminal background check, and/or

5. **Payment of Fees for Services.** District agrees to pay Contractor based on the hourly rates listed in *Exhibit B* for Services satisfactorily performed. Contractor shall not increase these hourly rates over the course of this Agreement. Total fees paid by District to Contractor for Services under the Agreement shall not exceed **Forty-Six Thousand Five Hundred Ninety-Six Dollars (\$46,596.00)**, which consists of a not-to-exceed amount of **Forty-Two Thousand Three Hundred Sixty Dollars (\$42,360.00)** for performance of the Basic Services, and a not-to-exceed contingency amount of **Four Thousand Two Hundred Thirty-Six Dollars (\$4,236.00)** for performance of any Additional Services. Contractor acknowledges that the not-to-exceed fee for Basic Services, above, includes contingency compensation in the foreseeable event that more time and costs may be necessary to complete the Basic Services. Contractor shall perform all Basic Services required by the Agreement even if the not-to-exceed amount for performance of the Services has already been paid and no more payments will be forthcoming. District agrees to make payment within sixty (60) days of receipt of a detailed invoice from Contractor based on hours worked and hourly rates, including any additional supporting documentation that District reasonably requests. Contractor shall not submit its invoices to District more frequently than monthly. Contractor will not be compensated for any Basic or Additional Services required as a result of wrongful acts or omissions.

5.1 **Reimbursement for Certain Expenses.** Contractor shall not be reimbursed directly for any of its expenses, as the fees to be paid under this Agreement include compensation for any and all of Contractor's expenses.

Such obligation shall not be construed to negate, abridge, or reduce other rights or obligations of indemnity, which would otherwise exist as to a party, person, or entity described in this paragraph. The indemnification provided for in this Section 6 includes, without limitation to the foregoing, claims that may be made against District by any taxing authority asserting that an employer-employee relationship exists by reason of this Agreement, and any claims made against District alleging civil rights violations by Contractor or Contractor Parties under the California Fair Employment and Housing Act ("FEHA").

Notwithstanding the foregoing, District shall not be responsible for any damages to persons or property as a result of the use, misuse or failure of any Equipment used by Contractor or the Contractor Parties, even if such Equipment is furnished, rented or loaned to Contractor or the Contractor Parties by District. Furthermore, District may reject any Equipment or workmanship that does not conform to the requirements of this Agreement and Contractor must then promptly remedy or replace it at no additional cost to District and subject to District's reasonable satisfaction.

8. **Insurance.** Without in any way limiting Contractor's liability, or indemnification obligations set forth in Section 6 above, Contractor shall secure and maintain throughout the Term of this Agreement the following insurance: (i) comprehensive general liability insurance with limits of not less than \$1,000,000 each occurrence and \$2,000,000 in the aggregate; (ii) commercial automobile liability insurance with a combined single limit not less than \$1,000,000 each occurrence; (iii) worker's compensation insurance as required by Labor Code section 3200, et seq.; and (iv) professional liability insurance covering errors and omissions. Neither Contractor nor any of the Contractor Parties shall commence performing any portion of the Services until all required insurance has been obtained and certificates indicating the required coverages have been delivered to and approved by District. All insurance policies shall include an endorsement stating that District and District Parties are named additional insureds. All of the policies shall be amended to provide that the insurance shall not be suspended, voided, canceled, reduced in coverage or in limits except after thirty (30) days' prior written notice has been given to District. If such a notice is not given or even if District receives a notice, District may, at its sole option, terminate this Agreement. All insurance policies shall include an endorsement stating that it is primary to any insurance or self-insurance maintained by District and shall waive all rights of subrogation against District and/or the District Parties. A copy of the declarations page of Contractor's insurance policies shall be attached to this Agreement as proof of insurance.

10. **Taxes.** All payments made by District to Contractor pursuant to this Agreement shall be reported to the applicable federal and state taxing authorities as required. Unless required by law, District will not withhold any money from fees payable to Contractor, including FICA (social security), state or federal unemployment insurance contributions, or state or federal income tax or disability insurance. General Services Agreement – ACC Environmental Consultants Inc. –Coliseum College Preparatory Academy Site Expansion Project-
\$46,596.00

Project Team

Resumes and our Employee Certification chart are included as Additional Data in the Appendix.

Presently, ACC works with several School Districts including OUSD. For these client’s we are frequently involved in construction projects of various types all of which require surveys and/ or abatement consulting services for hazardous materials prior to bidding and construction. The projects range from smaller boiler replacement projects, intrusion/fire alarm installations, ADA retrofits, school site modernizations which include building modernization and in some cases building replacement. Working with the project team (Construction Manager, Community Leaders, Owners Project Managers, Architects and Engineers) ACC ensures that the scope of our surveys, sampling and inspection is adequate to allow for successful permitting (local office and DSA), bidding and construction.

ACC was the environmental consultant for several Seismic Retrofit Projects at OUSD. ACC provided hazardous materials surveys, construction documents for the abatement and management of hazardous materials, attended meetings, prepared cost estimates and provided abatement oversight and documentation. This project included several phases and coordination between contractors and stakeholders.

Approach to Scope of Work

ACC understands that the District is looking to engage a consultant to provide hazardous abatement consulting services for the CCPA site expansion project at Coliseum College Preparatory Academy Project.

ACC will provide all services as described under “**Section C. Basic Services & Section D. Scope of Services**”. ACC will complete the full scope of work detailed in “**Section D. Scope of Services**”. ACC understands and is fully qualified to provide the full Scope of Work detailed in this RFQ/Q.

ACC’s dedicated project manager, Steve Jackson will work with the District’s team to develop a detailed approach and work plan for each site and it’s identified project scope of work outlined in the RFQ/P.

Below is an example narrative of ACC's general approach, safety and quality control measures to Hazardous Material Abatement Consulting Projects.

ACC's Project Managers and field staff members are Certified Asbestos Consultants, Certified Industrial Hygienists, Site Surveillance Technicians, and California Department of Public Health Lead Inspector/Risk Assessors/ Supervisors/Monitors. Our team is National Institute of Occupational Safety and Health (NIOSH) 583 trained and ACC participates in the American Industrial Hygiene Association's (AIHA) Proficiency Analytical Testing (PAT) Program. ACC maintains all the necessary equipment and the facility required to provide Phase Contrast Microscopy on-site or in our laboratory. Our qualified team has extensive experience with the Office of Public School Construction, the California Building Code, the California Green Building Standards Code, and other applicable California Code of Regulations.

Field Survey Work: ACC will review existing survey reports and sample results available for each building. If the site inspection confirms that existing sampling is adequate and the data will be included on ACC material data forms as having already been sampled previous and this information will be included in the final report.

Upon the commencement of a hazardous materials survey, ACC will proceed in the following manner; 1) conduct a walk-through of the building and take an inventory of all suspect building materials and components that will require testing for asbestos and/or lead and note each suspect material on the ACC's Material Information Form; 2) While taking inventory of all suspect asbestos and/or hazardous materials or components that will require sampling, ACC will also be filling out the Building Information Form, which provides all the details on the make up of the structure, age, length, width, type of construction, square footage, make up of both interior and exterior walls, floors, ceilings and mechanical systems. Typically this form is used on commercial and more complex structures. 3) Upon completing the inventory of all suspect materials that will require sampling, ACC will inspect the site and determine the presence and number of suspect materials to be sampled at the site. 4) ACC will obtain the appropriate number of samples in accordance with the related material using appropriate methods for sampling. 5) Lastly ACC will construct a floor plan sketch of the property showing all rooms, bathrooms, closets, etc. so that material and sample locations in the report can located more easily by the reader.

The survey of each buildings' MEP systems and building components will identify all impacted hazardous materials, including, but not limited to:

1. Asbestos
2. Lead

Preparation of Survey Reports

Data collected during the survey is documented on ACC's Survey Data Forms, including the Material Information Form, Building Information Form and Chain of Custody with Sample Location Form. Quantities of materials, description of material locations and any damaged conditions of materials will be entered into final report. Sample results are entered into the report as soon as they are received from the laboratory.

A draft report is prepared and reviewed by the project manager (CAC and or CIH) and upon completion of the review the final Draft report is generated and provided to OUSD for review and comment. Upon completion and if there are no unanswered questions after review of the report, a final report will be issued including five (5) hard copies as well as an electronic version in PDF Format. **The report will contain all requirements listed in the RFQ/P and agreed upon with the District.**

Project Design: Design of Asbestos Containing Materials, Lead-Based Paint/Lead-Containing Materials and Other Hazardous Substances Methodologies and Specification and Monitoring Lead-Based Paint/Lead-Containing Materials, Asbestos and Other Hazardous Substances Abatement work will be prepared as needed based on our findings.

Abatement Design, Specification and Bidding Assistance: ACC provides cost effective and safe abatement methodologies incorporating the best project management principals in accordance with local, state and federal regulations. ACC will work with the District to develop comprehensive construction documents for the abatement and management process.

Laboratories

All outside laboratories used by ACC are fully accredited by DOHS and participate in NIOSH (PAT), AIHA, ELPAT, and NAVLAP. ACC selects outside laboratories based on accreditation, timeliness (contracted turn around time) and accuracy of samples submitted for analysis.

ACC works with these labs on a daily basis and is able to negotiate both best costs and services for all forms of sample analysis. All laboratories publish and follow approximately the same time frames for turn around of sample analysis. Ensuring the best service from the lab however requires the consultant to communicate properly with the labs as well as to execute best practices in obtaining samples and transmitting them to the laboratory.

Regulatory Compliance and Safety Observation

ACC project managers and technicians have all completed their asbestos and lead-based paint certification courses, as well as several other Hazardous Material certification courses (detailed in our Technical Certification chart in the attachments), which require them to possess and demonstrate a thorough knowledge of all applicable regulations. In addition, ACC holds semi-monthly staff meetings where any changes in regulations or enactment of new regulations are discussed.

ACC project management personnel have frequent contact with Air Quality Management District and Cal/OSHA inspectors who often visit our job sites. ACC's project managers always tour the site with the regulator and if requested make any suggested modifications. ACC has never had a project cited by a regulator.

Quality Assurance and Quality Control

ACC employs methods and tools that assure quality outcomes and quality controls for all of our work. ACC's staff will follow a comprehensive Quality Control Plan to guarantee that all required services are provided to OUSD as specified in this RFQ/P.

ACC has developed proprietary software programs for survey work to assist inspectors in the gathering and recording of information in standardized format. This certifies that our clients receive documentation that is consistent from project to project. Our Field Technicians use tablets in the field and upload project documentation to internal servers daily for review by project managers. Client access to daily documentation is available upon request.

This standardized format also acts as a built in quality assurance mechanism by requiring our staff to be thorough and accurate when gathering project data. Accuracy in data gathering allows for development of precise scopes of work that reflect the true requirements of projects, leading to the best opportunity for fair and accurate bids. This, combined with our depth of experience helps us prepare clear and well-defined specifications that minimize the possibility for costly change orders.

2.2.3 Firms Ability to Meet Schedule

ACC’s team understands that the District proposes the following “tentative project schedule”:

Overall Construction Schedule: May 26, 2026 to December 23, 2027

Classroom Building Schedule: June 22, 2026 to December 10, 2027

Gymnasium Schedule: June 23, 2026 to November 1, 2027

Site Improvements Schedule: August 17, 2027 to December 23, 2027

Our team is able to meet this current schedule and in the event that an agency approval delay occurs our assigned project management team will work closely and regularly communicate with District staff to reschedule the work as soon as possible once approval is received.

ACC understands the importance and value of ensuring projects are completed on time and on budget. Our established team comprised of a Sr. Project Manager (SPM), a Project Manager (PM), certified technicians and administrative staff provide client communication, project oversight and technical monitoring and document submittal during and after completion of each phase of the project. ACC will communicate with OUSD to ensure consistent response times to meet all projected requirements.

SPMs attend regularly scheduled meetings to discuss forecasted staffing requirements on projects. Each week a schedule is distributed to all staff members. ACC will work with OUSD to predict delays both for the contract documents and for changes in the field. ACC is dedicated to using local staff on projects and will ensure staff continuity on projects.

ACC has a large local staff of professionals capable of providing our diverse range of professional services. Behind the scenes we have a company scheduler who is responsible for maintaining our technician/project schedule. This is a constantly changing schedule. Most of our services are in response to client needs, often times urgent or emergency driven. Additionally, many of our services are dependent upon contractor scheduling and performance. As such, our team of professionals is ready for daily changes to our schedule, so that each project and client is serviced to meet expectations. By utilizing our in-house staff who have appropriate professional certifications and experience allows us to provide each client with a consistent technical approach. Quality starts with our first client conversations. It is important to understand the needs of every client for every project and consult with the client to ensure the scope of a proposed service is adequate to address the clients’ needs. At ACC every scope of work is peer reviewed to make sure that each aspect of a project has insight from more than one technical expert.

Once a project is authorized the ACC Project Manager will coordinate with the District’s Team to determine the schedule, access, site restriction and any other project specific requirements. Once these details have been reviewed, the ACC project manager will assign the project internally to one of our project technicians (or project team). The Project Manager will receive project field documentation daily and address any questions or concerns with the technician promptly. All samples are submitted to local accredited laboratories following industry standard chain-of-custody protocols.

ACC's team of professionals has vast experience in working as part of design teams on many diverse projects. Managing environmental conditions is sometimes overlooked, but ACC strives to inform each client of the potential impacts that environmental issues can have on a project's budget and schedule. Working with a client to clearly understand the goals of each project early on is helpful in keeping the client and the entire design team aware of potential environmental issues so they can be addressed as part of the ongoing design, bid and construction process allowing for better control of the project schedule and budget.

ACC has been an early adopter of technology. All of our inspection tools have been developed such that data collection, note taking, sample submissions and reporting can be completed utilizing e-Tablets. This allows for accurate and consistent data collection and easy sharing of information between technicians, managers and technical oversight. By having automated processes, we can easily track project progress, key milestones, budgets, reporting and invoicing. Each of which is critical in delivering timely, accurate projects, on budget while meeting client goals.
