Memo (Bid Award)

To Board of Education

From Denise Gail Saddler, Ed.D., Interim Superintendent
Preston Thomas, Chief Systems & Services Officer

Board Meeting Date December 10, 2025

Subject Amendment No. 2, Agreement Between Owner and Alternative Design-Builder – C. Overaa & Company – Coliseum College Preparatory Academy Site Expansion Project– Division of Facilities Planning and Management

Action Requested Approval by the Board of Education of Amendment No. 2, Agreement Between Owner and Alternative Design-Builder Contract by and between the **District** and **C. Overaa & Company**, Richmond, CA., to provide additional construction services, which includes incorporating three new classroom spaces, implementing design changes and preparing a preliminary schematic submittal to DSA for the Coliseum College Preparatory Academy Site Expansion Project, in an additional amount of \$95,300.00, increasing Agreement’s total not-to-exceed amount from \$3,178,098.00 to \$3,273,398.00. All other terms and conditions of the Agreement remain in full force and effect.

Discussion This Amendment is for additional construction services.

LBP (Local Business Participation Percentage) 90.19%

Recommendation Approval by the Board of Education of Amendment No. 2, Agreement Between Owner and Alternative Design-Builder Contract by and between the District and C. Overaa & Company, Richmond, CA., to provide additional construction services, which includes incorporating three new classroom spaces, implementing design changes and preparing a preliminary schematic submittal to DSA for the Coliseum College Preparatory Academy Site Expansion Project, in an additional amount of \$95,300.00, increasing Agreement’s total not-to-exceed amount from \$3,178,098.00 to \$3,273,398.00. All other terms and conditions of the Agreement remain in full force and effect.

**AMENDMENT NO. 2 TO
AGREEMENT BETWEEN OWNER AND ALTERNATIVE DESIGN-BUILDER**

CCPA Site Expansion Project at Coliseum College Preparatory Academy

This Amendment No. 2 to Agreement Between Owner and Alternative Design-Builder (this “**Amendment**”), dated as of December 11, 2025 (“**Effective Date**”), is entered into by and between the Oakland Unified School District (“**District**”) and C. Overaa & Co., a California corporation and licensed general contractor (“**Contractor**”).

RECITALS

WHEREAS, District and Contractor entered into that certain Agreement Between Owner and Alternative Design-Builder, dated August 28, 2024 (the “**Original Agreement**”), as amended by that certain Amendment No. 1 to Agreement Between Owner and Alternative Design-Builder, dated June 12, 2024 (“**First Amendment**”), whereby Contractor agreed to perform certain work for the CCPA Site Expansion Project at Coliseum College Preparatory Academy (the “**Project**”);

WHEREAS, as part of the Work of the Project, District and Contractor intend to provide additional construction services, which includes incorporating three new classroom spaces, implementing design changes and preparing a preliminary schematic submittal to DSA for the Project (“**Amendment No. 2 Work**”).

WHEREAS, District and the Contractor wish to amend the Agreement to establish the scope of work for the Amendment No. 2 Work, the construction and completion schedule for the Amendment No. 2 Work, and pricing for the Amendment No. 2 Work, pursuant to the terms and conditions set forth in this Amendment.

AGREEMENT

NOW, THEREFORE, in consideration of the promises and of the mutual agreements and covenants contained herein, and other valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto do hereby agree as follows:

A. The foregoing provisions of the Recitals are true and correct and are incorporated into this Amendment by this reference. Any defined terms not defined herein will have the definition meaning given those terms in the Original Agreement, and the First Amendment. As used herein and in the Original Agreement and the First Amendment, the term “**Agreement**” shall mean the Original Agreement, as amended by the First Amendment and this Amendment.

B. Article IV of the Original Agreement defines the Construction Price and provides the mechanism to calculate the Construction Price. The portion of the Construction Price for the Amendment No. 2 Work shall be Ninety-Five Thousand Three Hundred Dollars and 00/100 (\$95,300.00) as further described on **Exhibit A** attached hereto and incorporated herein by

reference. The Construction Price for the Amendment No. 2 Work required to be completed by this Amendment shall include all labor, materials, equipment, taxes, and costs necessary for the completion of the Amendment No. 2 Work.

C. Article III of the Original Agreement defines the Contract Time and provides the milestones for the deadlines to complete the Project. Notwithstanding the foregoing, the Contract Time and milestone deadlines for the completion of the Amendment No. 2 Work of the Project is indicated on **Exhibit B** attached hereto and incorporated herein by reference.

D. Article II of the Original Agreement identifies the scope of work of the Project. Notwithstanding the foregoing, the “Amendment No. 2 Work” that is required to be completed by the Contractor pursuant to this Amendment is identified on **Exhibit C** attached hereto and incorporated herein by reference.

E. As contemplated by Article III of the Agreement, failure to achieve the respective milestone deadlines for each Amendment No. 2 Work by shall subject the Contractor to assessment of liquidated damages in the amount of \$4,000 per day from the respective scheduled milestone deadline until such milestone is achieved.

F. Except as specifically modified herein this Amendment, the Agreement shall remain unmodified and in full force and effect. In the event of any inconsistency between the provisions of the Original Agreement as amended by the First Amendment and this Amendment, the provisions of this Amendment shall govern and control.

G. This Amendment may be executed in counterparts, each of which shall be deemed an original, and such counterparts shall together be deemed to constitute one and the same instrument.

[Signature page follows]

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to be executed as of the Effective Date by their respective officers thereunto duly authorized.

10/23/2025

Oakland Unified School District
Attn: Ellen Clemente
955 High Street
Oakland, CA 94601

Re: 3564- OUSD Coliseum College Preparatory Academy
Subject: District Requested Design Changes (ASR 05.1, ASR 06, ASR 07)

Dear Ellen,

During the Design Phase, the District requested design changes to be incorporated into the project. The changes include:

ASR 05.1- Additional (3) classrooms incorporated into the current design
ASR 06.0- Incremental Submittal to DSA
ASR 07.0- Redesign due to Value Engineering

We request a sum of **\$95,300.00** to incorporate these scopes into the project.

ASR 05.1	0.00
ASR 06.0	49,300.00
ASR 07.0	<u>\$46,000.00</u>
TOTAL COST	\$95,300.00

Clarification:

1. We have specifically excluded any indirect cost. This will be handled when the GMP is finalized.
2. We are unable to quantify the time savings at this time due to not having a subcontractor on board or DSA approval. We believe we will save the district approximately (1) month of time on critical path by executing an early site package along with early subcontracting (Amendment 3.0). We will finalize time impact along with the GMP.

We appreciate your effort to timely review this request and issue the associated contract change order.

This quotation covers only the direct cost of the work described and does not include any evaluation of the impact of the subject change upon the contract time or any costs related thereto. This quotation is only for the work described herein. No other impacts are considered unless specifically noted. Unless noted otherwise, this proposal will remain valid for ten days from the date of this proposal.

Re: Classroom quantity increase

Dear Mr. Conrad,

This additional service request is provided at the District's request to incorporate three additional general classrooms into the project. This addition increases the number of general classrooms from eleven to fourteen. The new classrooms will be incorporated into the new classroom building. The gymnasium building will remain a single-story structure. The overall footprint of the classroom building will increase in length and occupy a portion of the east parking lot.

Scope of Work:

- a. Prepare preliminary schematic option for District review and approval
- b. Incorporate design into Design Development package

Schedule:

- a. 3 weeks will be added to the Design Development phase to allow the design team to assess impacts including:
 - 1) code requirements (occupant load, distance to exits, etc.)
 - 2) site impacts (electrical service area, parking lot revisions, biofiltration areas, etc.)
 - 3) MEPS impacts (revisions to mechanical, electrical, plumbing and structural scope)
- b. See revised schedule attached

Fees:

Our basic fee for this scope shall be lump sum fixed fee of ~~Forty-Two Thousand Dollars (\$42,000.00)~~ billed monthly on a percent complete basis. Services rendered beyond the agreed scope of work will be billed at our hourly rates.

No Cost as Agreed to N&T and District 5/8/25 (attached)

Sincerely,

Zachary Goodman
Noll & Tam Principal

ASR NO. 6

August 26, 2025

Mr. Mike Conrad
Overaa Construction
200 Parr Boulevard
Richmond, CA 94801

Re: Construction Documents Phase pause and VE scope revisions

Dear Mr. Conrad,

This additional service request is provided to address the District direction to pause the Construction Documents Phase and then resume work while the DD construction cost estimate was being reconciled. On Thursday July 17th, Noll & Tam was instructed to pause work without a clear indication of the duration. Sub-consultants were informed and Noll & Tam reassigned staff to other projects. On Friday July 25th, we were given an email authorization to resume work which represents a loss of 10 calendar days. To extract the staff from other projects and reassemble the CCPA design team took another few days. A formal District Authorization to begin the CD phase was received August 4, 2025 (20 days).

In addition, a list of value engineering items was accepted by the District which will require the team to revise the design and documentation. Making changes to building systems, materials and scope of work during the Construction Documents Phase requires extensive design revisions to dozens of drawings, specifications and calculations. While some value engineering is mentioned in the prime agreement, the industry standard is for this to occur during the design development phase. In this instance, the initial list of changes was agreed upon 30% into the CD phase (mid-July) and resolution of the VE materials and scope extended into %50 CD phase (mid-August). Undoing key building components like roofing and siding systems requires reworking plans, sections, elevations, details and specifications with the new systems.

In order to make the revisions and meet the schedule identified below, Noll & Tam has added architectural staff and authorized overtime work. This effort amounts to approximately 150 additional hours.

Scope of Work:

See attached Email correspondence titled "CCPA authorization to proceed into CD", received on 7/28/25 for the list of scope reductions and changes. In order to incorporate the value engineering and scope changes into the design and construction documents (CD's), the design team will:

- a. Research, suggest and participate in cost and scope reduction discussion with the District
- b. Prepare preliminary design diagrams for District review and approval
- c. Distribute new backgrounds to consultants
- d. Incorporate design changes into the construction documents

Schedule:

Since the completion of the DD estimate which identified a significant budget overage on 6/18/25, the design team has continued to work on the project, although with a significantly reduced effort as we attempted to work around potential changes and unknowns. To catch up with where we would normally be

midway through CD's, 14 days will be added to the CD phase. This will allow the design team to implement the changes and produce a set of drawings and specifications that will satisfy the contract requirement for the DSA submission. **This will change the proposed DSA submittal date from 11/5/25 to 11/19/25.**

Fee:

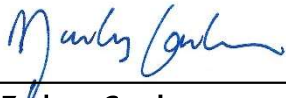

Our basic fee for this scope shall be a lump sum fixed fee of **Forty-Nine Thousand Three Hundred Dollars** (\$49,300) billed monthly on a percent complete basis. Services rendered beyond the agreed scope will be billed at our hourly rates.

Noll & Tam	\$31,300
Degenkolb Structural	\$12,000
Merrill Morris Landscape	\$6,000
Total	\$49,300.

If you have any questions or comments, please let me know. We appreciate the collaborative nature of working through difficulties on this project and look forward to transforming the CCPA campus.

Sincerely,

Approved:

OUSD CCPA Campus Expansion

ASR NO. 7

September 17, 2025

Mr. Mike Conrad
Overaa Construction
200 Parr Boulevard
Richmond, CA 94801

Re: Incremental Submittal to DSA

Dear Mr. Conrad,

This additional service request is provided to address the District's request for an incremental DSA submittal. INC1 would be for earthwork, grading, and underground utilities for the building pad area (excluding the courtyard area). INC2 would be the rest of the project. The intent is to submit both increments at the same time and have DSA focus on providing comments and approval for INC1 first. This approach has some inefficiencies and will require duplication of tasks including:

- Pre-App meeting with DSA to confirm incremental approach (required by DSA IR A-11)
- Prepare separate DSA submittal package:
 - 2 sets of Drawings and specifications
 - 2 sets of DSA forms (DSA1, DSA1REG, DSA1INC, DSA3, DSA103, etc.)
 - 2 sets of Reference drawings
 - 2 sets of supplemental information
- Responding to 2 sets of DSA comments
- Attending 2 backcheck sessions
- Manage 2 sets of documents during construction

Scope of Work:

- Meet with DSA to confirm incremental approach (required by DSA IR A-11)
- Prepare INC1 submittal: Architectural and Civil drawings and specifications, DSA forms, LFA approval, supplemental information, plan check fee, etc.
- Submit to DSA
- Provide response to DSA review comments
- Complete backcheck and INC1 approval
- Provide Project Management of INC1 design, permitting and construction

Schedule:

In order to meet the proposed schedule, written approval to move forward with the incremental process would need to be received by 9/24.

TBD	DSA pre-application meeting
TBD	DSA 1REG submittal
11/18/25	DSA submittal (both INC1 & INC2)
4/30/26	INC1 Approval (estimated)

Fee:

Our basic fee for this scope shall be a lump sum fixed fee of **Forty-Six Thousand Dollars** (\$46,000) billed monthly on a percent complete basis. Services rendered beyond the agreed scope will be billed at our hourly rates.

NOLL & TAM FEE BREAKDOWN		Hours/Rate						Lump Sum Fee	Total \$
Rates Updated on 4/2025 Refer to P:\7-Resources\Billing Rates		PIC	PM		PA / Job Cap	Intermediate	Designer		
Phase / Task		\$270	\$220	\$210	\$180	\$170	\$150		
TOTAL NOLL & TAM PROFESSIONAL FEE									\$21,000
1. CCPA									
A. ASR 07 INCREMENTAL SUBMITTAL		18	48		31				\$21,000

Noll & Tam	\$21,000
BKF	\$25,000
Total	\$46,000.

If you have any questions or comments, please let me know. We appreciate the collaborative nature of working through difficulties on this project and look forward to transforming the CCPA campus.

Subject Amendment No. 1 to Agreement Between Owner and Alternative Design-Builder – C. Overaa & Company – Coliseum College Preparatory Academy Site Expansion Project– Division of Facilities Planning and Management

Action Requested Approval by the Board of Education of Amendment No. 1 to Agreement Between Owner and Alternative Design-Builder Contract by and between the District and C. Overaa & Company, Richmond, CA., to provide additional redesign and development services, which include the preparation of preliminary schematic diagrams for classroom breakout spaces that meet the 960-square-foot code requirements for the **Coliseum College Preparatory Academy Site Expansion Project**, in an additional amount of **\$295,520.00**, increasing the total not-to-exceed amount of the Design Price from **\$2,882,578.00 to \$3,178,098.00**, and extending the term of the Agreement from August 29, 2024, through September 30, 2027, to December 6, 2027, (an additional 67 days). All other terms and conditions of the Agreement remain the same and in full force and effect.

Discussion This Amendment is for additional redesign and development services and an extension of the term for an additional sixty-seven (67) calendar days.

AMENDMENT 01.0

04/16/2025

Oakland Unified School District
Attn: Ellen Clemente
955 High Street
Oakland, CA 94601

Re: 3564- OUSD Coliseum College Preparatory Academy
Subject: District Requested Design Changes

Dear Ellen ,

During the Design phase, the District requested that the project be redesigned accommodate the following:

1. Provide an additional 960sf for each classroom independent of breakout spaces.
2. Redesign both the gym and the classrooms to accommodate district accepted Value engineering scopes.

We request a sum of **\$295,520.00** to incorporate this scope into the project.

Design N&T ASR 001.0/ASI 004.0	\$254,570.00
C. Overaa & Co.	<u>\$40,950.00</u>
GRAND TOTAL	\$295,520.00

Clarifications:

1. We anticipate a (67) calendar impact to critical path as a result of this change. This includes (52) day time impact to design phase and a (25) day impact to construction phase.
2. We have specifically excluded indirect cost as a result of this change. Those cost will be finalized at GMP.
3. We anticipate construction cost to increase as a result of this change. We have specifically excluded direct or indirect cost associated with construction. Those costs will be finalized at GMP.

We appreciate your effort to timely review this request and issue the associated contract change order. This quotation covers only the direct cost of the work described and does not include any evaluation of the impact of the subject change upon the contract time or any costs related thereto. This quotation is only for the work described herein. No other impacts are considered unless specifically noted. Unless noted otherwise, this proposal will remain valid for ten days from the date of this proposal.

ASR NO. 1
December 16, 2024

**NOLL
& TAM**
ARCHITECTS

Mike Conrad
Overaa Construction
200 Parr Boulevard
Richmond, CA 94801

Re: Classroom Expansion to 960sf (independent of breakout spaces)

Dear Mr. Conrad,

This additional service request is provided at the District's request to redesign the classroom building to provide 960 sf for each classroom independent of breakout spaces. The classroom size will be calculated following the convention of measuring from the centerline of demising walks and the outside face of exterior walls. Breakout spaces will have windows with operable shades into the classrooms and a door to the exterior walkway.

Scope of Work:

- a. Prepare preliminary schematic option for District review and approval
- b. Incorporate design into Design Development package

Schedule:

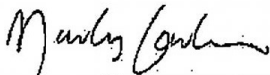

- a. 3 weeks will be added to the Design Development phase to allow the design team to assess impacts including:
 - 1) code requirements (occupant load, distance to exits, etc.)
 - 2) site impacts (electrical service area, parking lot revisions, biofiltration areas, etc.)
 - 3) MEPS impacts (revisions to mechanical, electrical, plumbing and structural scope)
- b. See revised schedule attached

Fees:

Our basic fee for this scope shall be lump sum fixed fee of **Twenty-Eight Thousand Dollars (\$28,000.00)** billed monthly on a percent complete basis. Services rendered beyond the agreed scope of work will be billed at our hourly rates.

Sincerely,

Approved:

Zachary Goodman

date

On Tue, Nov 19, 2024 at 9:39 AM Mike Conrad <mikec@overaa.com> wrote:

Hi Wil,

We put together the below to respond to the questions. We looked at one scenario of increasing classroom sizes to 960sf excluding wall thicknesses, mechanical closets, and breakout rooms. We looked at another scenario of increasing classroom sizes to 960sf based on this calc, but still counting ½ of internal breakout space. This is preliminary information, but hopefully helpful in guiding a decision.

Design implications:

- Changing room SF could change the occupant load and exiting requirements. If classrooms are 960sf plus breakout 57sf net, that would be 1,017sf total and would require a second exit from each classroom.
- Lengthening the classroom building will increase the distance between exit stairs on the egress balcony. This will require further analysis and may require an additional exit stair.
- Lengthening the classroom building will encroach onto the courtyard and bioswale area, impacts of this TBD.

- Design is currently based on the west face of classroom and gymnasium buildings aligning and creating a gateway to the breezeway between the buildings. Lengthening the classroom building will alter this relationship.

Item 1: A table showing the existing room square footage calculated using the face of interior paint. The table will also show any increase in square footage to meet the 960 sf measured from face of interior paint, broken down by classroom.

We are still in schematic design where items that affect these numbers are still in design, but we put together the table from our current schematic design that show approximately what this change would mean in growing the building. It's adding about 120sf per classroom if you don't count the breakout spaces, or adding about 60 sf per classroom if you do count half the breakout spaces. The below numbers are approximate net sf, so gross sf would be a little more. For now, I would use 1730 added gross sf or 884 added gross sf depending on whether you calculate without breakout rooms or with half breakout rooms.

w/o breakouts rooms			1/2 breakout rooms		total	
room	net sf	add sf	1/2 net	combo	add sf	notes
E110	848	112	57	905	55	no mech chase @ 1st floor
E111	848	112	57	905	55	no mech chase @ 1st floor
E112	848	112	57	905	55	no mech chase @ 1st floor
E113	848	112	57	905	55	no mech chase @ 1st floor
E114	848	112	57	905	55	no mech chase @ 1st floor
E115	848	112	57	905	55	no mech chase @ 1st floor
E116	848	112	57	905	55	no mech chase @ 1st floor
E210	838	122	57	895	65	end classroom
E211	838	122	57	895	65	
E212	838	122	57	895	65	
E213	838	122	57	895	65	
E214	838	122	57	895	65	
E215	838	122	57	895	65	
E216	828	132	57	885	75	end classroom
add net sf 1648					850	
add gross sf ~1730					~884	

Item 2: A table showing the rough additional cost added to the projects if the District elects to proceed with the larger classrooms.

We will be developing the budget once we receive the SD set. We would also need to evaluate what the other site impacts would be to make this change. For rough added cost review purposes, we anticipate the change would add approximately \$1.5M (also excluding breakout from the calc), or add approximately \$750K (still including half of breakout rooms in the calc).

Item 3: A rough schedule impact if this change is made by 12/5/24.

We plan to complete and provide the SD set by 12/9/24 without this change regardless. If a decision is made by 12/5/24, we will pivot and the design schedule will be extended by 2-3 weeks. Construction schedule of larger space can also take more time. I would plan to add 2-3 weeks to the construction schedule depending on which of the two scenarios are followed.

Item 4: A rough cost for any redesign.

We will complete and provide the SD set by 12/9/24 without this change regardless. If a decision is made by 12/5/24, we will pivot and the design cost will be increased by \$24-\$36k.

Let us know if anything we can discuss further to aid in decision making.

Thanks,
Mike

Subject: CCAP and MLA classroom sizes

To: William Newby (Consultant) <william.newby@ousd.org>, Victor Manansala (Consultant) <victor.manansala@ousd.org>, Ty Taylor (Consultant) <ty.taylor@ousd.org>

Wil and Victor,

We discussed the square footage for new classrooms during our senior leadership meeting today. There were several options on how to measure classroom space and what should be included or excluded in the spaces. Moving forward, the District is going to measure classrooms from the face of paint on interior walls. The hot water heater closet will not be included in this calculation. As MLA and CCPA are both in design, we would like additional information before making a decision on whether to revise the designs in progress. We would like you to work with your architects and come up with the following by end of day on 11/19/24:

Item 1: A table showing the existing room square footage calculated using the face of interior paint. The table will also show any increase in square footage to meet the 960 sf measured from face of interior paint, broken down by classroom.

Item 2: A table showing the rough additional cost added to the projects if the District elects to proceed with the larger classrooms.

Item 3: A rough schedule impact if this change is made by 12/5/24.

Item 4: A rough cost for any redesign.

Please do not hesitate to reach out with any questions.

OUSD CCPA Campus Expansion

ASR NO. 4

February 11, 2025

Mr. Mike Conrad
Overaa Construction
200 Parr Boulevard
Richmond, CA 94801

Re: VE scope revisions

Dear Mr. Conrad,

This additional service request is provided at the District's request to redesign the project with the intent of reducing construction costs and matching the District's revised budget.

Scope of Work:

See attached document titled "CCPA Scope Revisions-DRAFT", received on 2/07/25 for the District approved list of scope reductions and changes. In order to incorporate the value engineering and scope changes into the design and Design Development (DD) documents, the design team will:

- Research, suggest and participate in cost and scope reduction discussion with the District
- Prepare preliminary design diagrams for District review and approval
- Distribute new backgrounds to consultants
- Incorporate design changes into the DD package for pricing, District review and approval

Schedule:

Since the completion of the SD estimate which identified a significant budget overage on 1/16/25, the design team has continued to work on the project, although with a significantly reduced effort as we attempted to work around potential changes and unknowns. To catch up with where we would normally be at midway through DD, 4 weeks will be added to the DD phase. This will allow the design team to implement the changes and produce a DD set of drawings that is suitable for pricing and will satisfy the contract requirement for a 70% milestone submittal. This will change the DD submittal date from 3/28/25 to 4/25/25.

Fee:

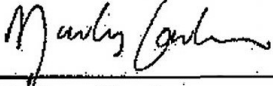

Our basic fee for this scope shall be a lump sum fixed fee of **Two Hundred Twenty-Six Thousand, Five Hundred and Seventy Dollars (\$226,570)** billed monthly on a percent complete basis. Services rendered beyond the agreed scope will be billed at our hourly rates.

Noll & Tam	\$143,070
MM	\$24,000
BKF	\$12,000
Alter	\$9,500
OMM	\$18,000
Degenkolb	\$20,000
Total	\$226,570.

If you have any questions or comments, please let me know. We appreciate the collaborative nature of working through difficulties on this project and look forward to transforming the CCPA campus.

Sincerely,

Approved:

CCPA Scope revisions - DRAFT

The intent of this memo is to record our agreement regarding the scope of the CCPA project. All values identified are to be considered preliminary and we will revisit them once the DD estimate has been received. This is a draft version, I would like all parties to review and provide input before we formalize our agreement.

The first list of items is the scope changes OUSD agreed with, the second list is scope changes OUSD would like more information on, and the third list is scope changes that OUSD does not wish to proceed with.

Scope changes OUSD has agreed to:

001	Move two science labs into the classroom building (reduce size to approx. 2,880 GSF) Remove walkway, canopy, and stair associated with second floor at gym. Also remove acoustic separation	(3,000,000)
002	Relocate two classrooms into the existing shop building classrooms and relocate a third into portable building (allowance)	150,000
003	Look at existing campus to determine if there are spaces to capture to receive displaced classroom	TBD
005	Minimize scope of courtyard program (target design program to \$500,000 - \$600,000)	(288,000)
007	Reduce size of general storage room and vestibule in Gym	(575,000)
008	Reduce size of ball storage room by half in Gym (credit included in item 007)	-
009	Eliminate breakroom area in Gym (credit included in item 007)	-
010	Reduce number of showers by 4, 6 total will remain in the project (credit included in item 007)	-
011	Reduce the number of janitorial rooms to one in Gym	(69,000)
015	Use alternative gym roofing manufacturer at Gym	?
016	Provide single ply roofing in lieu of built up in mechanical well	?
017	Reduce scope of metal wall panels by 75% and replace with plaster	(743,395)
018	Provide alternate metal cladding	TBD
019	Provide plaster in lieu of fiber cement panels	(120,000)
020	Provide VCT in lieu of linoleum	(52,000)
021	Provide 2/3 solid roof in lieu of polycarbonate canopy at walkway	(89,345)
024	Remove roof equipment screens	(577,000)
026	Use and alternate floor at weight room	(15,060)
027	Reduce tack boards by 50%	(98,000)
032	Replace storefront with doors and windows	(250,000)
039	Open spec with local ALR lighting rep	(125,000)
043	Install kitchen group 1 in lieu of group 3 for case work tops custom grade cabinetry in lieu of premium grade @ classrooms	?(56,625)
044	Install lab grade 1" trespassers in lieu of epoxy custom grade cabinetry in lieu of premium grade @ science rooms	?(58,320)
045	Install 2x4 acoustic ceiling tile in lieu of 2x2	(10,000)
051	Open ceiling in mech/janitor/MDF/IDF/storage/lce	(60,000)

Commented [C11]: This was for a lt. metal roof manufacturer for all roofs (classroom & gym). Are we only looking at the gym now?

Commented [C12]: This was for a single-ply roof in lieu of metal for both buildings, not just at a mechanical well.

Commented [Z63]: Items 17 & 18 to be combined pending building exterior design studies

Formatted: Font: Metric Regular, Font color: Auto

Formatted: Strikethrough

Formatted: Strikethrough

Commented [Z64]: This will require walls to extend to underside of roof

Scope changes OUSD would like more information on or needs to do more research on:

013	Revise gym mech system	
014	Revise gym east and west end of gym to wood frame construction	
028	Remove classroom sinks	(140,000)
029	Simplify gym structure to create single volume	
033	Open spec plumbing equipment	(50,000)
035	Open spec mechanical equipment	(100,000)
036	Broaden HVAC controls	(45,670)
037	Use packaged units in lieu of current design	(762,000)
046	Replace acoustic metal deck at gym with field painted structural deck and acoustic panels	(130,000)
050	Simplify STC ratings shown in acoustic narrative	
054	Alternate gym wood flooring	(87,327)

Formatted: Strikethrough

Commented [ZG5]: NT to research alternatives

Scope changes that OUSD does not wish to proceed with

004	Extend classroom building west into parking area	
006	Minimize solar array over gym	
022	Use alternate product for translucent canopy	
023	Provide traffic coating at 2nd level walkway	
025	Reduce restroom tile to wet wall only	
031	Use schedule 40 PVC DWV in lieu of cast iron	
034	Utilize Pex tubing for CW/HW	
038	Eliminate skylights	
040	Open spec w/out of area rep	
041	MC cable in lieu of rigid conduit	
042	Install cat 5A/UV system in lieu of Cat 6 (A?)	
043	Use plam in lieu of solid surface counter tops	
044	Use plam in lieu of solid surface counter tops	
047	Revise glazing layout at floor level	
048	Install tile at wet walls only	
052	Replace steel downspouts with sheet metal	
055	Eliminate cantilever walkway and use column supports	
056	Use top of mat as top of slab	
057	Implement smaller prefabricated steel trusses	
058	Reduce classroom size

Memo

To Facilities Committee

From Kyla Johnson-Trammell, Superintendent
Preston Thomas, Chief Systems & Services Officer – Kenya Chatman, Executive Director, Division of Facilities Planning & Management

Board Meeting Date August 21, 2024

Subject Award of Agreement Between Owner and Alternative Design-Builder – C. Overra & Co.- Coliseum College Preparatory Academy Site Expansion Project, - Division of Facilities Planning and Management

Action Requested Approval by the Board of Education, upon recommendation by the Facilities Committee, of Award of Bid to, rejection of all other Bids, if any, and of Agreement Between Owner and Alternative Design-Builder by and between the District and C. Overra & Co., Richmond, CA, for the latter to design and construct the new gymnasium and classroom building, including fourteen (14) standard classrooms and two (2) laboratory classrooms, on the southwest portion of the campus for the Coliseum College Preparatory Academy Site Expansion Project, in the lump sum amount of \$2,882,578.00, with the work scheduled to commence on August 29, 2024, and scheduled to last until September 30, 2027.

Discussion Design-Builder is providing Alternative Design Build Services at the Coliseum College Preparatory Academy Site Expansion Project and was selected pursuant to Education Code sections 17250.60 et seq.

LBP (Local Business Participation Percentage) Based on LBU Worksheet Affirmation Sheet attached.

Recommendation Approval by the Board of Education, upon recommendation by the Facilities Committee, of Award of Bid to, rejection of all other Bids, if any, and of Agreement Between Owner and Alternative Design-Builder by and between the District and C. Overra & Co., Richmond, CA, for the latter to design and construct the new gymnasium and classroom building, including fourteen (14) standard classrooms and two (2) laboratory classrooms, on the southwest portion of the campus for the Coliseum College Preparatory Academy Site Expansion Project, in the lump sum amount of \$2,882,578.00, with the work scheduled to commence on August 29, 2024, and scheduled to last until September 30, 2027.

Agenda Contract.

Legislative File ID No. 24-1884

Department: Facilities Planning and Management

Vendor Name: C. Overra & Co.

Project Name Coliseum College Preparatory Academy Site Expansion

Project No.: 21113

Contract Term: Intended Start: 8-29-2024

Intended End: September 30, 2027

Total Cost Over Contract Term: \$2,882,578.00

Approved by: Preston Thomas

Is Vendor a local Oakland Business or has it met the requirements of the

Local Business Policy? ☐ Yes (No if Unchecked)

How was this contractor or vendor selected?

C. Overra & Co. was chosen directly based on scores through an RFP process.

Summarize the services or supplies this contractor or vendor will be providing.

C. Overra & Co. will provide design build services which consists of design and construction of the new gymnasium and new classroom building on southwest portion of the campus for the Coliseum College Preparatory Academy Site Expansion Project

Was this contract competitively bid? ☐ Check box for "Yes" (If "No," leave box unchecked)

If "No," please answer the following questions:

1) How did you determine the price is competitive?

The district received proposals through an RFQ/P process, which includes review/scoring of proposals. C. Overra & Co. was selected based on the highest interview scores and because their prices were fair and reasonable compared to the prices submitted by the other responding consultants.

2) Please check the competitive bidding exception relied upon:

Construction Contract:

- ☐ Price is at or under UPCCAA threshold of \$60,000 (as of 1/1/19)
- ☐ CMAS contract [may only include “incidental work or service”] (Public Contract Code §§10101(a) and 10298(a)) – *contact legal counsel to discuss if applicable*
- ☐ Emergency contract (Public Contract Code §§22035 and 22050) – *contact legal counsel to discuss if applicable*
- ☐ No advantage to bidding (including sole source) – *contact legal counsel to discuss if applicable*
- ☐ Completion contract – *contact legal counsel to discuss if applicable*
- ☐ Lease-leaseback contract RFP process – *contact legal counsel to discuss if applicable*
- ☒ Design-build contract RFQ/RFP process – *contact legal counsel to discuss if applicable*
- ☐ Energy service contract – *contact legal counsel to discuss if applicable*
- ☐ Other: _____ – *contact legal counsel to discuss if applicable*

Consultant Contract:

- ☐ Architect, engineer, construction project manager, land surveyor, or environmental services – selected (a) based on demonstrated competence and professional qualifications (Government Code §4526), **and** (b) using a fair, competitive RFP selection process (Government Code §§4529.10 et seq.)
- ☐ Architect or engineer *when state funds being used* – selected (a) based on demonstrated competence and professional qualifications (Government Code §4526), (b) using a fair, competitive RFP selection process (Government Code §§4529.10 et seq.), **and** (c) using a competitive process consistent with Government Code §§4526-4528 (Education Code §17070.50)
- ☐ Other professional or specially trained services or advice – no bidding or RFP required (Public Contract Code §20111(d) and Government Code §53060) – *contact legal counsel to discuss if applicable*
- ☐ For services other than above, the cost of services is \$114,500 or less (as of 1/1/24)
- ☐ No advantage to bidding (including sole source) – *contact legal counsel to discuss if applicable*

Purchasing Contract:

- ☐ Price is at or under bid threshold of \$114,500 (as of 1/1/24)
- ☐ Certain instructional materials (Public Contract Code §20118.3)
- ☐ Data processing systems and supporting software – choose one of three lowest bidders (Public Contract Code §20118.1)

- ☐ Electronic equipment – competitive negotiation (Public Contract Code §20118.2) – *contact legal counsel to discuss if applicable*
- ☐ CMAS contract [may only include “incidental work or service”] (Public Contract Code §§10101(a) and 10298(a)) – *contact legal counsel to discuss if applicable*
- ☐ Piggyback contract for purchase of personal property (Public Contract Code §20118) – *contact legal counsel to discuss if applicable*
- ☐ Supplies for emergency construction contract (Public Contract Code §§22035 and 22050) – *contact legal counsel to discuss if applicable*
- ☐ No advantage to bidding (including sole source) – *contact legal counsel to discuss if applicable*
- ☐ Other: _____

Maintenance Contract:

- ☐ Price is at or under bid threshold of \$114,500 (as of 1/1/24)
- ☐ No advantage to bidding (including sole source) – *contact legal counsel to discuss*
- ☐ Other: _____

3) Explain in detail the facts that support the applicability of the exception marked above:

- Contractor is providing alternative design build services for the Coliseum College Preparatory Academy Site Expansion project for the District.

OAKLAND UNIFIED
SCHOOL DISTRICT

Community Schools, Thriving Students

Department of Facilities Planning and Management

LOCAL BUSINESS UTILIZATION AFFIRMATION WORKSHEET

Design-Build Team: C. Overaa & Co. / Noll & Tam

The Design-Build Entity affirms that it will achieve OUSD's minimum Local Business Utilization (LBU) requirements. Included in our proposal is a detailed narrative and strategy describing how the DBE intends to meet or exceed the District's LBU requirements.

The narrative shall describe previously implemented methods used for successful local business utilization and shall be inclusive of at least one relevant California K-12 DBE example.

The narrative shall include our LBU strategy, but not limited, to the following:

- Identified Joint-Venture partnership agreements at the prime and sub level
- An outline of small and local firms with planned partnership
- Areas and/or scopes that have been identified as carve out opportunities for small, local partners
- Other identified opportunities for local and small local utilization

The submitted narrative and strategy will be scored and awarded up to 5 additional points by the District's LBU Consultant.

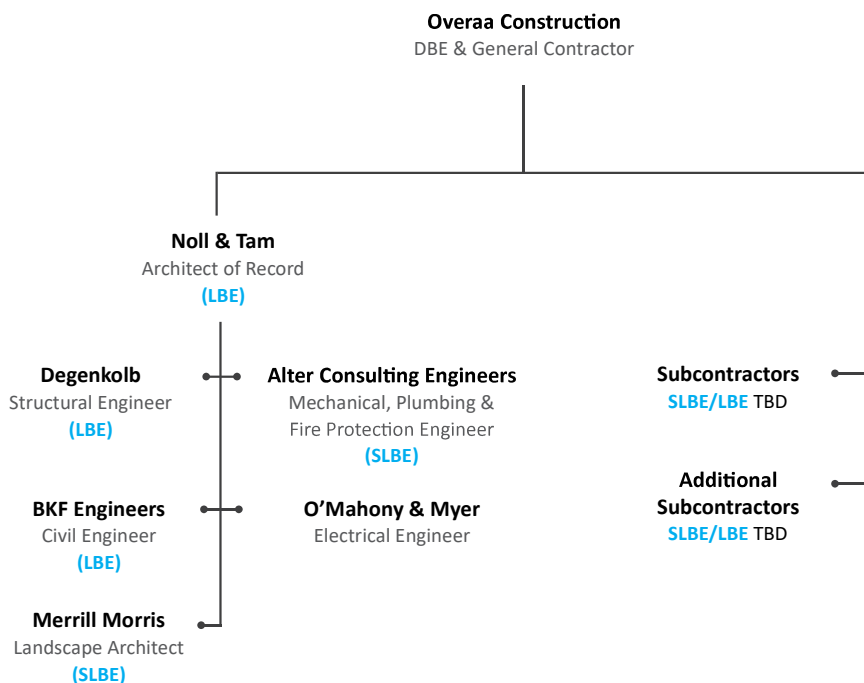

Minimum Local Business Participation per District Policy can be found in the following link:

<https://www.ousd.org/facilities-planning-management-department/opportunities/local-business-utilization-lbu-policy>

Signature: Carl Overaa

Date: 7 / 12 / 2024

Regarding Trade Partnerships, we have identified carve out opportunities and have a path to exceed 50% LBE/SLBE participation. Please see table on following page for more information.

To begin with, the composition of the team shown above is the beginning of the LBU roadmap for the CCPA Project. This direction illustrates a positive affirmation that the Overaa/Noll & Tam team takes LBU commitment very seriously with the District, Oakland District Board Members, and community members in exceeding District's requirement. The CCPA Project introduces many tangibles and uncertainty on scope and the Overaa/Noll & Tam team will begin developing buckets spends for each scope as design progresses and define the opportunities for trade partners to assist in the process. A project that spans for several years like the CCPA

After participating in the District's ***Virtual Outreach Matchmaking Session***, Overaa added subcontractors to our subcontractor database and followed up with them to complete an internal prequalification. This is an early communication engagement of the process to contract with Overaa on future projects.

[illegible]

LBU Strategy

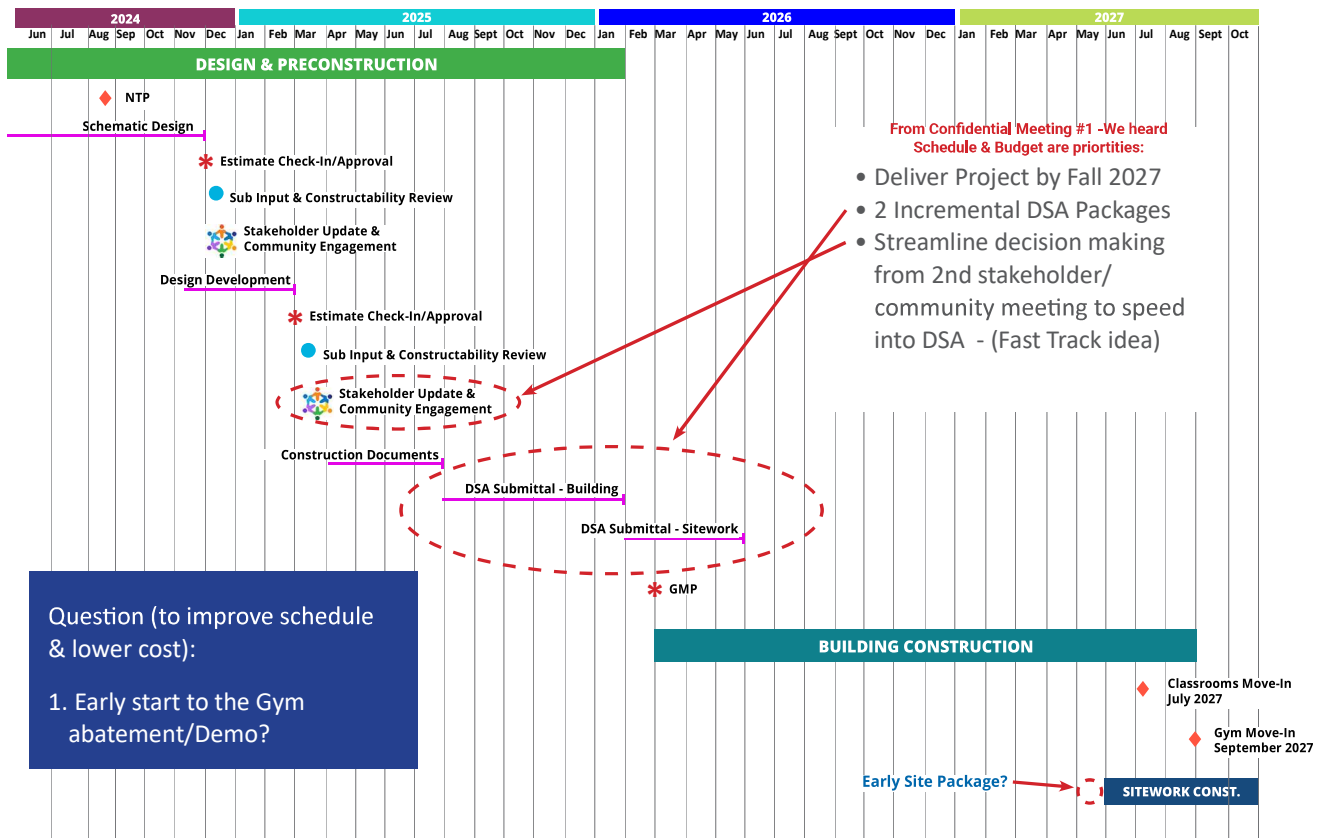

In a series of confidential meetings, while design and budgeting were underway, we researched and pulled our sub trade data from several sources—City of Oakland, the Matchmaking Network participant list and Building Connected—to generate a list of subcontractors certified as LBE /SLBE's. We then mapped major scopes of work on the CCPA Project and the carve out opportunities for local and small certified partner participation in these scopes. The table to the right shows these major scopes on the CCPA Project and where LBU percentages can build up this requirement. Of course this is all contingent upon that the trade partners are capable, available, prequalified, and experienced to perform these services. During our GMP development, our preconstruction department will begin developing trade relationships as the process unfolds.

LBU Carve Out Opportunities & Path to Exceed 50% LBE/SLBE Participation

On Track for a Minimum of 52% LBE/SLBE Participation

After NTP, Sr. Project Manager **Rick Moore** and Precon Director **Cody Lee** will engage with **Shonda Scott** with Total 360 Concept for recommendations that will point us to several consulting firms to coordinate several community outreach meetings in soliciting interest and efforts in the LBU percentages. In our 2nd confidential meeting, we developed a LBU Roadmap graphic, shown below, outlining community engagement meetings to gain traction in our pursuit of exceeding the District's LBU requirements. Like our success on OUSD's The Center project, we will be transparent in reporting LBU percentages throughout the project. The preliminary LBU Roadmap will be adjusted based on the agreed schedule from initial kick-off meetings. **We will fulfill and exceed any remaining participation with our construction trade partners.** Overaa has extensive experience participating in local/small Oakland subcontracting partnerships as evidenced by our project examples on the following page.

Proven Experience Exceeding Oakland Small/Local Business Requirements

Small/Local Outreach Consultant

In our qualification package under “LBU Approach”, we described our subcontractor outreach efforts during subcontractor selection. We will extend outreach to local grassroots, employment workforce department, Department of General Services, and additional agencies we have enlisted in our qualification package. On past projects with similar local participation requirements, we have had bigger, more experienced subcontractors set up mentor-protégé relationships with smaller, local firms in order to build the smaller firm’s experience and expertise. The formation of these relationships works out beneficially for all parties involved: the bigger subcontractor gets to participate in the project, the smaller subcontractor builds their resume and hones their skills, and Overaa has the pleasure of contributing to the local economy and knowledge base in under utilized service areas.

Lease-Leaseback OUSD Roosevelt Middle School Modernization

On the current Roosevelt Middle School Modernization Project, we are partnered with SLBE’s Tulum and Focon.

We achieved 78% SLBE/SLRBE on the Science Modular Increment of the Project.

Lease-Leaseback OUSD Central Commissary

Overaa provided preconstruction and construction services for the new \$51M centralized kitchen and food distribution facility for the entire Oakland Unified School District that provides 40,000 meals a day to those in the area who are in need. The District had a very intentional small local business plan for this project: 50% local hire and 50% small local business participation.

We made the District’s goals our goals. We partnered with two small/local minority owned contractors, Eclipse Electric and Tulum (which is also woman owned) in a mentorship environment to provide opportunities in harmony with the spirit of OUSD’s mission. We also worked with our JV partners to subcontract a high percentage of small local minority Owned businesses. We hired a local community liaison, a single mother, to provide her opportunity and to increase communication about the project with the

community. Our JV partners were amazing and helped us better connect with the local community. **Ultimately, we surpassed OUSD’s 50% SLBE/SLRBE/LBE requirements by 11%.** The project was driven by immense passion of bridging gaps in social equity and we feel fortunate to have played a part in it.

Lease-Leaseback OUSD Sankofa Academy / Washington Elementary Modernization

For this LLB project, Overaa hired a small/local workforce outreach consultant to keep documented records of outreach efforts and to contract such activities as trade associations, small business developments networks and conferences, plus trade fairs to locate LBEs. This resulted in us partnering with small/local minority owned contractor, Eclipse Electric, whom we later also partnered with on OUSD’s Central Commissary Project. We maintained records of internal guidance and encouraged participation in workshops, seminars, and training while monitoring performance to evaluate compliance with OUSD’s requirements. **Ultimately, we surpassed OUSD’s 70% LBE/SLBE/SLRBE requirement by 2%.**

Design-Build Willie L. Brown, Jr. STEM Middle School

For this \$51M Design-Build project, the site was located in Hunters Point of San Francisco and community relations were very important. We hosted outreach meetings, coordinated with public agencies, and actively participated in community events and local mixers. We also partnered with Aboriginal Blackmen United (ABU) on the project, meeting with the organization leaders to establish a plan for targeted opportunities. We encouraged our plumbing subcontractor to bring on a plumbing apprentice from the ABU, who has taken well and flourished in the industry. Ultimately, the local hire goal was 20% and we achieved 18% on the project.

Subcontractor Procurement: Carving Out Opportunities For Small/Local Partners

Regarding confirming our commitments with subcontractors in the GMP phase and exceeding OUSD’s full compliance, our database of pre-qualified subcontractors contains nearly 5,000 companies and we have established a reputation as a trusted industry partner over our 117+ year history in the Bay Area.

Key steps in our outreach efforts include:

- Exchange local listings and databases with local unions, local apprenticeship agencies, Carpenters Pre-Apprentice Program, Laborers Apprentice Program and the projects's targeted cities in Alameda County
- Heavily solicit and advertise the bidding opportunity in multiple channels –trade papers, websites, and grassroots newspapers.
- Community outreach meetings, like at **Cypress Mandela Vocational Training Center in Oakland**, to inform and educate potentially interested subcontractors about the opportunity, and provide guidance on the prequalification and document requirements.
- Clear bidder instructions describing the local participation goals and requesting larger trades to utilize local suppliers.

During the bidding period, Overaa/Noll & Tam will solicit to small/local business categories for all appropriate categories or divisions of work. Project assigned Small/Local Business Contract Manager, **Elizabeth Brown**, will oversee our effort in addressing any subcontractor questions about the bidding and prequalification process. Elizabeth has over 15 years of experience with local/small/diverse business subcontracting compliance. Her contact information:

Elizabeth Brown
Small/Local Business Contract Manager
200 Parr Blvd., Richmond, CA 94801
Office: 510-234-0926 / Fax: 510-237-2435
Email: elizabethb@overaa.com

Elizabeth will work closely with Cody Lee, Preconstruction Director, throughout the bidding and prequalification process outlined below:

1. Utilizing our internal subcontractor database, we fax and email via **BuildingConnected** an "Invitation to Bid" to begin the prequal bidding process, which is further detailed in Tab "Technical Design & Construction Experience" Tab.
2. We place multiple advertisements in local/grassroots newspapers soliciting the involvement and participation of qualified businesses.
3. We plan on contacting identified participants to verify their interest in this project. Extra attention will be paid to encouraging local businesses to research and provide pricing for the project and assisting them in defining their scope of work.
4. Follow-up notifications will be sent to all solicited businesses one week before the bid date.
5. We plan on organizing evening community outreach meetings and networking sessions via Zoom or in-person at either the CCPA site or other District facility to promote and educate businesses about opportunity for participation

In addition to the California agencies we use in contracting with certified small business categories, we will include Oakland USD's LBU policy's list of Oakland based firms certifying agencies plus the City of Oakland's Resource Lists of Labor, Consultants, and Contractors mentioned on City's website.

The list below combines all entities that will help expand the invitation for participation from certified small and local businesses:

- City of Oakland
- The Port of Oakland
- Alameda County Transportation Commission
- Alameda County
- California Public Utilities Commission
- Caltrans

AGREEMENT BETWEEN OWNER AND ALTERNATIVE DESIGN-BUILDER

This agreement is effective August 29, 2024 (the "Agreement") by and between the Oakland Unified School District, Alameda County, California, hereinafter called the "District" or "Owner," and C. Overaa & Co., hereinafter called the "Design-Builder."

WITNESSETH: That the Design-Builder and the Owner for the consideration hereinafter named agree to enter this Agreement for design and construction of the Project pursuant to Education Code sections 17250.60 et seq., as follows:

ARTICLE I. SCOPE OF WORK.

For the Owner's CCPA Site Expansion Project at Coliseum College Preparatory Academy (the "Project"), the Design-Builder agrees to furnish all labor, equipment, and materials, including tools, implements, and appliances required, and to perform all the Work in a good and workmanlike manner, free from any and all liens and claims from mechanics, material suppliers, subcontractors, artisans, machinists, teamsters, freight carriers, and laborers. The Work includes all obligations of the Design-Builder under this Agreement, the Contract, and the Contract Documents (see Article II, below), including all design and construction services necessary to complete the Project.

A. Design Services

The Design-Builder shall complete the design of the Project within the parameters of the Owner's requirements for design of the Project (the "Design Criteria," or "Bridging Documents") that were included in the Request for Proposals and on which the Design-Builder based its proposal, and within the other requirements of the Contract Documents (including Article VI, below).

Design-Builder shall, if requested by the District, meet with District staff and provide the District with progress plans during the Schematic Design and Design Development Phases as necessary to allow the District to ensure the Project is being designed in accordance with District requirements.

The Design-Builder shall prepare a 70% complete construction document set for the Owner's review and approval, and then prepare a 100% complete construction document set for the Owner's review and approval prior to the submission to the Division of the State Architect ("DSA").

Constructability review of the design and value engineering are the responsibility of the Design-Builder, but Owner may provide its own constructability or value engineering comments when reviewing the 70% construction document sets.

After obtaining Owner approval of the 100% complete construction document set, the Design-Builder shall submit it to the Division of State Architect (“DSA”) for approval. The Design-Builder shall make all changes in the design necessary to obtain DSA approval, but first must obtain Owner approval. If any such changes reduce the scope of construction, then the Owner shall be entitled to a deductive change order. If any such changes are outside the scope of the Design Requirements, then the Design-Builder shall be entitled to a change order to the extent that the change increases the Design-Builder’s design or construction costs.

B. Construction Services

The Design-Builder may not commence construction until it delivers to Owner complete DSA approval of the design for the Contract and the price for construction has been set via amendment to this Agreement (see below). The Design-Builder shall perform all construction necessary to construct the Work in compliance with its DSA-approved design (“Design”) and the Contract Documents, including the General Conditions.

ARTICLE II. CONTRACT DOCUMENTS.

The Design-Builder and the Owner agree that the following documents form the Contract Documents:

- A. The Request for Proposals, including all attachments, appendices, and addenda.
- B. The Design-Builder’s proposal in response to the Request for Proposals (“Proposal”), including all attachments, certifications, and declarations required to be submitted with the Proposal.
- C. This Agreement.
- D. The General Conditions.
- E. Any written and Board-approved agreement to modify this Agreement, such as an amendment or change order.
- F. The payment bond.
- G. The performance bond.
- H. The documents listed in Article 1.1.1 of the General Conditions.

This Agreement incorporates the above Contract Documents by reference, and together they constitute the “Contract.”

The Contractor and its subcontractors must use the Owner’s program software (ColbiDocs and Accountability) for projects. The District will provide training for the Contractor and its subcontractors on how to use ColbiDocs and Accountability

After award, the Design-Builder shall timely submit the bonds, fingerprinting certification, and Student Contact Form, as required by the Request for Proposals.

ARTICLE III. TIME TO COMPLETE AND LIQUIDATED DAMAGES.

Time is of the essence in this Contract, and the time of Completion for the Work (the “Contract Time”) shall be One Thousand One Hundred Twenty-Eight (1128) calendar days which shall start to run on (a) the date of commencement of the Work as established in the Owner’s Notice to Proceed, or (b) if no such date is established in a Notice to Proceed from Owner, the date ten (10) calendar days after award of the Contract, whichever being the shorter project duration that meets a completion date of September 30, 2027.

In addition, the Design-Builder shall meet the following milestone deadlines:

- Owner approval of the 70% construction document set of the Project within Three Hundred Fifty-Two (352) calendar days from (a) the date of commencement of the Work as established in the Owner’s Notice to Proceed, or (b) if no other date is established in a Notice to Proceed from Owner, the date ten (10) calendar days after award of the Contract by the Board on August 28, 2024;
- Submittal for Board approval of the GMP for the Building Package within 40 calendar days of DSA approval of the Final 100% Plans and Specifications; Submittal for Board approval of the GMP for the Site Package within 7 days of DSA approval of the Final 100% Plans and Specifications.
- Completion of the construction of the Project within Six Hundred Eight (608) calendar days from DSA approval of the Final 100% Plans and Specifications for the Building Package and Three Hundred Ninety-Eight (398) calendar days from DSA approval of the Final 100% Plans and Specifications for the Site Package.

The time period between (a) Design-Builder’s submission of the Board-approved Final 100% Plans and Specifications to DSA, and (b) DSA’s first comments regarding the Final 100% Plans and Specifications, shall not count against the Contract Time, and the Design-Builder shall be entitled to a time extension for such time period.

The site for the Project will not be available to the Design-Builder for construction on the following dates: Student Testing Days (TBD). The Design-Builder shall not be entitled to time extensions for lack of access to the site on these dates.

Failure to Complete the Work within the Contract Time, or by the milestone deadlines noted above, in the manner provided for by the Contract Documents shall subject the Design-Builder to liquidated damages. For purposes of liquidated damages, the concept of “substantial completion” shall not constitute Completion and is not part of the Contract Documents. The actual occurrence of damages and the actual amount of the damages which the Owner would suffer if the Work were not Completed within the Contract Time, or by the milestone deadlines noted above, are dependent upon many circumstances and conditions which could prevail in various combinations and, from the nature of the case, it is impracticable and extremely difficult to fix the actual damages.

Damages which the Owner would suffer in the event of delay include, but are not limited to, loss of the use of the Work, disruption of activities, costs of administration, supervision, and the incalculable inconvenience and loss suffered by the public.

Accordingly, the parties agree that \$4,000.00 per calendar day of delay shall be the damages which the Owner shall directly incur upon failure of the Design-Builder to Complete the Work within the Contract Time or Complete any specified portion of the Work by a milestone deadline, as described above. Liquidated damages will accrue for failure to meet milestone deadlines even if the Design-Builder Completes the Project within the Contract Time.

Accordingly, the parties agree that the following amounts shall be the damages which the Owner shall directly incur for the specified failures of the Contractor:

- For failure to Complete the Work within the Contract Time, \$4,000.00 for each calendar day of delay.

If the Design-Builder becomes liable under this section, the Owner, in addition to all other remedies provided by law, shall have the right to withhold any and all retained percentages of payments and/or progress payments, and to collect the interest thereon, which would otherwise be or become due the Design-Builder until the liability of the Design-Builder under this section has been finally determined. If the retained percentages and withheld progress payments appear insufficient to discharge all liabilities of the Design-Builder incurred under this Article, the Design-Builder and its sureties shall continue to remain liable to the Owner for such liabilities until all such liabilities are satisfied in full.

If the Owner accepts any work or makes any payment under this Agreement after a default by reason of delays, the payment or payments shall in no respect constitute a waiver or modification of any Agreement provisions regarding time for Completion and liquidated damages.

ARTICLE IV. PAYMENT AND RETENTION.

The Owner shall pay to Design-Builder in current funds a total of Two Million Eight Hundred Eighty-Two Thousand Five Hundred Seventy-Eight Dollars (\$2,882,578.00) for the design of the Project satisfactorily performed ("Design Price") according to the following schedule:

- *Up to • 50% upon Owner approval of the 70% design package (see the Request for Proposals).
- *Up to • 30% upon full DSA approval of the Final 100% Plans and Specifications (see the Request for Proposals).
- 20% upon completion of design services after DSA approval (including but not limited to design services during construction).

Once the complete design has been approved by DSA and the subcontractors have

been selected, the District will set the price for all of the construction work (“Construction Price”) based on the following formula: (Price of all subcontracts for construction work + Price of the construction work (if any) to be performed by the design-build entity) \times 1.0996. The design-build entity and District shall sign an amendment to the design-build agreement stating the price set for the construction work, to be approved by the District’s governing board. No construction may commence until the amendment is approved by the District’s governing board.

Owner may elect to include a special allowance or general contingency allowance (“Allowance”) in the Construction Price, from which the Owner may, in its sole discretion, elect to pay any additional amounts that are owed to the Design-Builder under the Contract Documents, rather than pay the Design-Builder by a Board-approved change order. Any payment from an Allowance is entirely at the discretion, and only with the advanced written approval, of the Owner. To request payment from an Allowance, the Design-Builder must fully comply with the Contract Documents’ requirements related to Notice to Potential Changes, Change Order Requests, and Claims, including but not limited to Articles 4 and 7 of the General Conditions and its provisions regarding waiver of rights for failure to comply. If the Owner approves in writing a payment from an Allowance, no change order approved by Owner’s governing body shall be required, but Design-Builder must sign an Allowance expenditure form, after which the Design-Builder may include a request for such payment in its next progress payment application. Design-Builder’s acceptance of a progress payment that includes such payment shall act as a full and complete waiver by Design-Builder of all rights to recover additional amounts, or to receive a time extension or other consideration, related to the underlying basis of such payment; and such waiver shall be in addition to any other waiver that applies under the Contract Documents (including Article 4 of the General Conditions). If Design-Builder requests a time extension or other consideration in connection with or related to a requested payment from an Allowance, Design-Builder must comply with the Contract Documents’ requirements related to Notice to Potential Changes, Change Order Requests, and Claims, including but not limited to Articles 4, 7, and 8 of the General Conditions and their provisions regarding waiver of rights for failure to comply, and no such time extension or other consideration may be issued until a change order is approved by the Owner’s governing body pursuant to the Contract Documents. The amount of an Allowance may only be increased by a change order approved by Owner’s governing body. Once an Allowance is fully spent, the Design-Builder must request any additional compensation pursuant to the procedures in the Contract Documents for Notices of Potential Claim, Change Order Requests, and Claims, and payment must be made after a change order approved by the Owner’s governing body pursuant to the General Conditions. Upon Completion of the Work, all amounts in an Allowance that remain unspent and unencumbered shall remain the property of the Owner, Design-Builder shall have no claim to such funds, the Owner shall be entitled to a credit for such unused amounts against the above Construction Price, and the Owner may withhold such credit from any progress payment or release of retention.

The Design-Builder shall be responsible for all of its costs related to the Work, including home office, administration, copies, and travel expenses.

The Design-Builder may not request an increase in the Design or Construction Price except as permitted in the Contract Documents; and under no circumstances may the Design-Builder request an increase in the Design or Construction Price based on costs caused by Design-Builder's errors in design of the Work or construction of the Work, based on unforeseen site conditions, or based on DSA corrections to the Design-Builder's design of the Work.

ARTICLE V. CHANGES.

Changes in this Agreement or in the Work to be done under this Agreement shall be made as provided in the General Conditions, and shall be in the form of a written amendment or change order to this Agreement approved by the Owner's governing body.

ARTICLE VI. DESIGN RESPONSIBILITIES OF THE DESIGN-BUILDER.

A. Definitions.

1. Design Services. "Design Services" shall mean the Design-Builder's design services, including landscaping architectural services and landscape irrigation design, civil, structural, mechanical, and electrical engineering services, foreseeably required under law, the standard of care, and this Agreement, to complete the design of the Work, obtain DSA approval of the design of the Work, and administer the construction of the Work, as further defined in this Article.

2. Wrongful Acts or Omissions. "Wrongful Acts or Omissions" shall mean Design-Builder's acts or omissions in breach of this Agreement, the applicable standard of care, or law.

B. Standard of Care.

District retains Design-Builder to perform, and Design-Builder agrees to provide to District, for the consideration and upon the terms and conditions set forth below, the architectural and engineering services specified in this Agreement and related incidental services. The Design-Builder agrees to perform such services as expeditiously as is consistent with professional skill and care and the orderly progress of the Project. All services performed by the Design-Builder under or required by this Agreement shall be performed (a) in compliance with this Agreement, and (b) in a manner consistent with the level of care and skill ordinarily exercised by architects in the same discipline, on similar projects in California with similar complexity and with similar agreements, who are specially qualified to provide the services required by the District; and all such services shall be conducted in conformance to, and compliance with, all applicable Federal, State and local laws, including but not limited to statutes, decisions, regulations, building or other codes, ordinances, charters, and the Americans with Disabilities Act ("ADA"). Design-Builder shall be responsible for the completeness and accuracy of the plans and specifications.

C. Design Services.

1. General.

The Design-Builder shall complete the design for the Project in conformance to the Contract Documents, including the Bridging Documents prepared by the District's Architect, and applicable law.

The District shall have the right to add or delete from the Design-Builder's scope of Design Services as it may determine is necessary for the best interests of the Project and/or the District. Design-Builder shall expeditiously and diligently perform all of its work and obligations under this Agreement. Design-Builder may not cease, delay or reduce, or threaten to cease, delay or reduce, its performance based on a payment dispute with District. The Design-Builder acknowledges that its priority is to complete the Project and its Design Services, and that any payment disputes with the District, if not resolved during the Project, must wait for resolution after the Project.

All personnel provided by Design-Builder shall be qualified to perform the services for which they are provided. Design-Builder shall obtain District's written approval of each employee of Design-Builder who provides services under this Agreement, and written approval of each change of employees who are providing such services. District may, upon ten working (10) days' written notice, cause Design-Builder to remove a person from the Project if he/she has failed to perform to District's satisfaction. Should additional employees be required to timely perform all of the services required under this Agreement and/or to avoid delay, Design-Builder shall provide them immediately.

Design-Builder is an agent of District and shall reasonably represent the District at all times in relation to the Project.

Design-Builder shall be fully licensed as required by law at all times when providing services under this Agreement.

2. Consultants.

The Design-Builder shall employ or retain at Design-Builder's own expense, engineers and other consultants necessary to Design-Builder's performance of this Agreement and licensed to practice in their respective professions in the State of California. Engineers and consultants retained or employed by Design-Builder for this Project shall be approved by District prior to their commencement of work. The Design-Builder's consultants shall be employed or retained to provide assistance during all aspects of performance of the Design Services for the Project, including but not limited to review of schedules, shop drawings, samples, submittals, and requests for information. The Design-Builder's consultants shall also conduct periodic inspections of the site to determine conformance with the DSA-approved design and shall participate in the final inspections

and development of any "punch list" items. Design-Builder must disclose to District all such consultants employed or retained, and the compensation paid to those retained.

Design-Builder shall confer and cooperate with consultants retained by District as may be requested by District or as reasonably necessary. District may retain an architect or construction manager to assist District in performance of District's duties for the Project.

If not done by the District's architect for the Project ("Architect"), the Design-Builder shall procure a certified survey of the site if required, including grades and lines of streets, alleys, pavements, adjoining properties and structures; adjacent drainage; rights-of-way, restrictions, easements, encroachments, zoning, deed restrictions, boundaries and contours of the building site, locations, dimensions and floor elevations of existing buildings, other improvements and trees; and full information as to available utility services and lines, both public and private above and below grade, including inverts and depths. All the information on the survey customarily referenced to a project benchmark shall be referenced to a Project benchmark. The cost of any such survey shall be borne by the District, and the District shall own and, upon termination of this Agreement or Completion of the Project, shall have returned to it by Design-Builder any designs, plans, specifications, studies, drawings, estimates or other documents prepared as part of the survey.

If not done by the Architect, Design-Builder shall procure chemical, mechanical or other tests required for proper design, tests for hazardous materials and borings or test pits necessary for determining subsoil conditions. The cost of any such tests shall be borne by the District, and the District shall own and, upon termination of this Agreement or completion of the Project, shall have returned to it by Design-Builder any designs, plans, specifications, studies, drawings, estimates or other documents prepared as part of the testing.

3. Schematic Design Phase.

The Design-Builder shall treat the Bridging Documents as the schematic design for the Project. The Design-Builder shall complete the design of the Project in conformance with the Bridging Documents, as described in this Agreement.

4. Design Development Phase.

Design-Builder shall provide all necessary architectural and engineering services to prepare design development documents for the District's governing board's written approval, which fix and describe the size and character of the project and which shall include, but are not limited to, site and floor plans, elevations and other approved drawings and shall outline the specifications of the entire Project as to kind and quality of materials, categories of proposed work such as architectural, structural, mechanical and electrical systems, types of structures and all such other work as may be required. The design development documents shall represent a 70% complete design, and shall conform to the Bridging Documents and other Contract Documents. Design-Builder shall submit the 70%

development design to the District for its review and for Board approval. Design-Builder is encouraged to make recommendations to District regarding benefits that could be realized by altering the scope of work or completion deadlines. If District incorporates any recommended changes or otherwise does not approve the submitted design development documents, then Design-Builder shall revise the design development documents as necessary until District's governing board approves them in writing. Design-Builder shall attend, and present at, as many meetings of the District's governing board as may be necessary to obtain the board's approval of the design development documents.

The Design-Builder shall prepare the Storm Water Pollution Prevention Plan if any such plan is required for this Project.

Design-Builder shall prepare necessary documents for and oversee the processing of District's application for and obtaining of required approvals from the DSA, the OPSC (if applicable), the Department of Education, the State Fire Marshall and other agencies exercising jurisdiction over the Project. Design-Builder shall also be responsible for the preparation and submission of any required applications, notices or certificates to public agencies as required by law. Design-Builder shall provide a copy of all such documents to the District.

Design-Builder shall provide at no expense to the District one complete set of preliminary plans for the review and written approval of the District and one set for each public agency having approval authority over such plans for their review and approval at no expense to the District.

5. Completion of Design Phase.

Following the District's governing board's written approval of the design development documents, the Design-Builder shall prepare for the written approval of District's governing board the 100% complete working drawings and specifications setting forth the work to be done in detail sufficient for construction, including but not limited to the materials, workmanship, finishes and equipment required for the architectural, structural, mechanical, electrical system and utility-service-connected equipment and site work. The 100% complete design shall conform to, comply with, and satisfy the Bridging Documents and other Contract Documents, as well as all applicable Federal, State and local laws, including but not limited to statutes, decisions, regulations, building or other codes, ordinances, charters, and the Americans with Disabilities Act ("ADA"). As part of the 100% complete design, Design-Builder shall prepare an accurate set of drawings indicating dimensions and locations of existing buried utility lines, which shall be included in the bid packages.

Prior to submission of the 100% complete construction documents to DSA for plan check and approval, the Design-Builder shall submit the design to the District for review and for board approval. Design-Builder shall attend, and present at, as many meetings of

the District's governing board as may be necessary to obtain the board's written approval of the 100% complete construction documents.

After approval by the District's governing board, the Design-Builder shall submit the 100% complete construction documents to DSA for Electronic Plan Review ("EPR") and approval, and make the necessary corrections to secure DSA approval. If the DSA requires any changes in the 100% complete construction documents, Design-Builder shall submit its changes to the District for review and Board approval before submitting them to DSA for approval.

6. Construction Phase.

The construction phase shall begin on the date that Design-Builder has obtained complete DSA approval of the 100% complete design and the Construction Price has been set by amendment to this Agreement (see above). The construction shall be performed as required by the Contract Documents.

The Design-Builder shall be responsible for the preparation and submission of any notifications regarding excavation in areas which are known or suspected to contain subsurface installations under Government Code section 4216, *et seq.* Design-Builder shall provide a copy of all such notifications to the District.

After DSA approval of the design, the Design-Builder may select subcontractors for performance of construction work, and if the scope of a subcontractor's construction work is greater than 0.5% of the total value of the price allocable to construction work, then the Design-Builder shall use the procedures specified in Education Code section 17250.65(b) to select that construction subcontractor. The Design-Builder shall award each construction subcontract on a best value basis. If the Design-Builder wants to directly perform any scope of construction work, it must obtain proposals from at least two subcontractors for that scope of work and then establish to the District satisfaction and written approval that the Design-Builder's proposal is the best value.

The Design-Builder shall submit to the District and its Architect all schedules, shop drawings, samples and other submissions as set forth in the Contract Documents. The District and its Architect shall take action within fourteen (14) days of receipt of the submittals, unless the critical path of the Project is impacted in which case District and its Architect shall take such action as soon as possible. If District and its Architect are not able to take such action within the required time due to reasons beyond their control, they may take action within a reasonable period of time under the circumstances; however, they shall make such determination within four (4) calendar days of receipt of the submission, and shall notify the Design-Builder immediately after such determination with an explanation as to why they cannot take action within the time required, what they are doing to expedite its response, when they expect to be able to issue a response, and what action, if any, should be taken by the Design-Builder in the meantime to mitigate delays and/or costs. The District and its Architect will have the authority to reject work and materials

which do not conform to the Contract Documents, including the Bridging Documents. The approval of a specific item shall not be an approval of an assembly of which the item is a component. Whenever, in the reasonable judgment of the District, it is considered necessary or advisable for the implementation of the intent of the Contract Documents, the District and its Architect will have authority to require special inspection or testing of the work or materials in accordance with the Contract Documents whether or not such work or materials be then fabricated, installed or completed. The District and its Architect will also recommend substitution of materials or equipment when, in their reasonable judgment, such action is necessary to the accomplishment of the intent and purpose of the Contract Documents. Such actions as are described in this paragraph shall be taken with reasonable promptness.

The Design-Builder shall make such regular reports as shall be required by agencies having jurisdiction over the Project and keep the District informed in writing of the progress of the Project.

The Design-Builder will, consistent with standards of due care, make reasonable professional efforts to exclude hazardous materials from new construction. In the event the District or Design-Builder is or becomes aware of the presence of, or exposure of persons to, asbestos, polychlorinated biphenyl (PCB) or any other toxic or hazardous contaminants, materials, air pollutants or water pollutants at the Project site ("Hazardous Substances"), or the substantial risk thereof, each shall have a duty immediately to notify the other in writing. The parties recognize, however, that neither Design-Builder nor the District is trained or licensed in the recognition or remediation of Hazardous Substances.

Design-Builder shall prepare an accurate set of as-built record drawings indicating dimensions and locations of all work, including but not limited to buried utility lines and mechanical, electrical and plumbing layouts, which shall be forwarded to the District upon Completion of the Project. Design-Builder shall also assemble and deliver to District all written guarantees, instruction books, operation and maintenance manuals, diagrams, charts and other documents required under the Contract Documents.

With respect to asbestos and asbestos containing materials, the parties acknowledge that the Design-Builder has recommended and the District has agreed to retain a qualified consultant to evaluate the presence of such materials at certain District facilities which are included in the scope of this Agreement. In the event that said consultant recommends a procedure to deal with such materials, said consultant shall have the responsibility to draft specification language for the removal or other remediation of such materials, and subsequently may be required to certify that they have been properly removed or otherwise remediated. Design-Builder shall include consultant's recommendations and specifications in the appropriate design documents for modernization and shall, as part of its Basic Services, provide designs and other bid documents consistent therewith.

When construction is properly completed, Design-Builder shall provide such certification as to Hazardous Substances as is required of architects for such projects by the OPSC.

Notwithstanding any other provision of this Agreement, the Design-Builder will not be entitled to a change order or additional payment if the underlying issue was caused by a Wrongful Act or Omission. At its own expense, the Design-Builder shall perform all Work caused or necessitated by the Wrongful Act or Omissions. Design-Builder is responsible to ensure that the 100% complete design, and the finished Project based on that design, comply with all standards imposed by the Americans with Disabilities Act, section 504 of the Rehabilitation Act of 1973, disability access requirements of the State Building Code and any other laws applicable to disability access. If a court, administrative agency or other trier of fact later determines that Design-Builder has violated any of the above-referenced laws, or District, because of Design-Builder's Wrongful Acts or Omissions, has violated any of the above-referenced laws, Design-Builder shall remedy the violation at its own cost. **Design-Builder shall indemnify, defend and hold the District harmless under Section VI.G of this Agreement for any breach of this paragraph due to Design-Builder's negligence, recklessness or willful misconduct.** In the event that the Design-Builder is or becomes aware of possible non-compliance with the foregoing standards, Design-Builder shall have a duty immediately to notify the District in writing of the possible non-compliance.

7. Use of Previously Prepared Materials. In the event that there exist previously prepared designs, plans, specifications, studies, drawings, estimates or other documents, or any other works of authorship fixed in any tangible medium of expression, including but not limited to physical drawings, data magnetically or otherwise recorded on computer disks, or other writings, that were prepared by design professionals other than Design-Builder, whether supplied by District or by others, which are relied upon, altered or otherwise utilized by Design-Builder, Design-Builder shall be responsible for giving appropriate recognition to such other design professionals in any materials prepared by Design-Builder under this Agreement.

D. Errors and Omissions Insurance.

Prior to the commencement of services under this Agreement, the Design-Builder shall furnish to the District satisfactory proof that the Design-Builder has, for the period covered by this Agreement, errors and omissions insurance on an occurrence basis, with limits of at least Two Million Dollars (\$2,000,000.00) and with a deductible in an amount not to exceed the sum of Twenty-Five Thousand Dollars (\$25,000). If errors and omissions insurance is not reasonably available on an occurrence basis, Design-Builder shall provide errors and omissions insurance on a claims-made basis.

Each of Design-Builder's professional sub-consultants (including consultants of Design-Builder) shall comply with this section, and Design-Builder shall include such provisions in its contracts with them.

Said insurance shall provide that the coverage afforded thereby shall be primary coverage (and non-contributory to any other existing valid and collectable insurance) to the full limit of liability stated in the Declarations Page and such insurance shall apply separately to each insured against whom claim is made or suit is brought, but the inclusion of more than one (1) insured shall not operate to increase the insurer's limits of liability.

Should any of the required insurance be provided under a claims-made form, Design-Builder shall maintain coverage continuously throughout the term of this Agreement, and without lapse, for a period of at least ten (10) years beyond the Agreement expiration or the completion of construction (whichever is later), to the effect that, should occurrences during the Agreement term give rise to claims made after expiration of the Agreement, such claims shall be covered by such claims-made policy. Nothing herein shall in any way limit or diminish Design-Builder's obligations to the District under any provision, including any duty to indemnify and defend the District.

Design-Builder shall not commence work under this Agreement until all required insurance certificates, declarations pages and additional insured endorsements have been obtained and delivered in duplicate to the District for approval. Thereafter Design-Builder shall produce a certified copy of any insurance policy required under this Article upon written request of the District.

At the time of making application for any extension of time, Design-Builder shall submit evidence that all required insurance policies will be in effect during the requested additional period of time.

If the Design-Builder fails to maintain such insurance, the District may, but shall not be required to, take out such insurance, and may deduct and retain the amount of the premiums from any sums due the Design-Builder under this Agreement.

Nothing contained in this Agreement shall be construed as limiting, in any way, the extent to which the Design-Builder may be held responsible for the payment of damages resulting from the Design-Builder's operations.

Each of Design-Builder's consultants shall comply with this Article, and Design-Builder shall include such provisions in its contracts with them.

Insurance companies providing the above policies shall be legally authorized, licensed and admitted through the California Department of Insurance to engage in the business of furnishing insurance in the State of California. All such insurance companies shall have no lower than an "A-, VIII" in Best's Rating Guide and shall be satisfactory to the District.

Any failure to maintain any item of the required insurance may, at District's sole option, be sufficient cause for termination of this Agreement.

E. Compliance with Laws.

Design-Builder shall be familiar with, and Design-Builder and Design-Builder's design shall comply with, all State and Federal laws and regulations applicable to the Project or lawfully imposed upon the Project by agencies having jurisdiction over the Project, including but not limited to statutes, decisions, regulations, building or other codes, ordinances, charters, prevailing wage law, and the Americans with Disabilities Act ("ADA").

F. Ownership of Documents; Licensing of Intellectual Property.

All designs, plans, specifications, studies, drawings, estimates and other documents or any other works of authorship fixed in any tangible medium of expression, including but not limited to physical drawings, data magnetically or otherwise recorded on computer disks, or other writings prepared or caused to be prepared by the Design-Builder under this Agreement shall be and shall remain the property of the District for all purposes, not only as they relate or may relate to this Project (including but not limited to any repair, maintenance, renovation, modernization or other alterations or revisions to this Project) but as they relate or may relate to any other project, provided that any invalidity of such ownership in relation to any other project shall not affect the validity of such ownership in relation to this Project (including but not limited to any repair, maintenance, renovation, modernization or other alterations or revisions to this Project) under Education Code Section 17316.

The Design-Builder will provide the District with a complete set of reproducible designs, plans, specifications, studies, drawings, estimates and other documents or any other works of authorship fixed in any tangible medium of expression, including but not limited to physical drawings, data magnetically or otherwise recorded on computer disks, or other writings prepared or caused to be prepared by the Design-Builder under this Agreement, and will retain, on the District's behalf, the original documents or reproducible copies of all such original documents, however stored, in the Design-Builder's files for a period of no less than fifteen (15) years. Design-Builder shall promptly make available to District any original documents it has retained under this Agreement upon request by the District.

This Agreement creates a non-exclusive and perpetual license for the District to copy, use, modify, reuse or sublicense any and all copyrights, designs and other intellectual property embodied in plans, specifications, studies, drawings, estimates and other documents, or any other works of authorship fixed in any tangible medium of expression, including but not limited to physical drawings, data magnetically or otherwise recorded on computer disks, or other writings prepared or caused to be prepared by the Design-Builder under this Agreement, not only as they relate or may relate to this Project (including but not limited to any repair, maintenance, renovation, modernization or other alterations or revisions to this Project) but as they relate or may relate to other projects, provided that any

invalidity of such license in relation to such other projects shall not affect the validity of such license in relation to this Project (including but not limited to any repair, maintenance, renovation, modernization or other alterations or revisions to this Project) under Education Code Section 17316. The Design-Builder shall require any and all subcontractors and consultants to agree in writing that the District is granted a similar non-exclusive and perpetual license for the work of such subcontractors or consultants performed under this Agreement.

The compensation for this Project includes compensation not only for any use in connection with this Project and use or re-use for repair, maintenance, renovation, modernization or other alterations or revisions to this Project, but also for any re-use by the District in relation to other projects. The only other term or condition of such re-use shall be that if the District reuses the plans prepared by the Design-Builder and retains another certified architect or structural engineer for the preparation of those plans for the re-use, the District shall indemnify and hold harmless the Design-Builder and its consultants, agents, and employees from and against any claims, damages, losses, and expenses, including attorney's fees, arising out of or resulting from, in whole or in part, the re-use to the extent required by Education Code section 17316, subdivision (c).

Design-Builder represents and warrants that Design-Builder has the legal right to license any and all copyrights, designs and other intellectual property embodied in plans, specifications, studies, drawings, estimates or other documents that Design-Builder or its consultants prepares or causes to be prepared under this Agreement. **Design-Builder shall indemnify, defend and hold the District harmless under Section VI.G of this Agreement for any breach of this section due to Design-Builder's negligence, recklessness or willful misconduct.** The Design-Builder makes no such representation and warranty in regard to previously prepared designs, plans, specifications, studies, drawings, estimates or other documents, or any other works of authorship fixed in any tangible medium of expression, including but not limited to physical drawings, data magnetically or otherwise recorded on computer disks, or other writings, that were prepared by design professionals other than Design-Builder and provided to Design-Builder by the District.

G. Indemnity Regarding Design.

Design-Builder Indemnification – **To the fullest extent permitted by law, including California Civil Code section 2782.8, the Design-Builder shall defend, indemnify, and hold harmless the District, the governing Board of the District, each member of the Board, and their officers, agents and employees ("District Indemnitees") against claims to the extent that they arise out of, pertain to, or relate to negligence, recklessness or willful misconduct of the Design-Builder, the Design-Builder's officers, employees, or consultants in performing or failing to perform any design work, services, or functions provided for, referred to, or in any way connected with any design work, services, or functions to be performed under this Agreement.**

The Design-Builder's defense obligation shall consist of payment of 50% of the attorneys' fees, experts' fees, and all other litigation costs incurred in the District's defense ("Defense Costs"), with such payment occurring within thirty (30) days of Design-Builder's receipt of each invoice for such Defense Costs. After conclusion of the action against the District Indemnitees (including all appeals), the District shall reimburse the Design-Builder for any amount of Defense Costs paid by Design-Builder in excess of the proportional fault of the Design-Builder to the extent specified in a settlement agreement, arbitration award, or verdict; or Design-Builder shall reimburse the District for any amount of Defense Costs paid by District in excess of the proportional fault of the parties other than the Design-Builder to the extent specified in a settlement agreement, arbitration award, or verdict.

For purposes of this Article 18.1 only, "claims" means all claims, demands, actions and suits brought by third parties against the District Indemnitees for any and all losses, liabilities, costs, expenses, damages and obligations.

If one or more defendants is/are unable to pay its/their share of Defense Costs due to bankruptcy or dissolution of the business, the Design-Builder shall meet and confer with other parties regarding unpaid Defense Costs.

This indemnification shall apply to all liability, as provided for above, regardless of whether any insurance policies are applicable, and insurance policy limits do not act as a limitation upon the amount of the indemnification to be provided by the Design-Builder.

District Indemnification for Use of Third Party Materials – The District shall defend, indemnify, and hold harmless the Design-Builder and its employees against any and all copyright infringement claims by any design professional formerly retained by the District arising out of Design-Builder's completion, use or re-use of that former design professional's designs or contract documents in performing this Agreement. Design-Builder shall be entitled to such indemnification only if each of the following conditions are met: (a) Design-Builder actually re-draws or completes such other designs or contract documents; (b) Design-Builder complies with the provisions of this Agreement regarding use of materials prepared by other design professionals; (c) District has supplied Design-Builder with the previously prepared documents or materials; and (d) District expressly requests that the Design-Builder utilize the designs or contract documents in question. By providing this or any other indemnification in this Agreement, District does not waive any immunities.

ARTICLE VII. TERMINATION.

The Owner or Design-Builder may terminate the Contract as provided in the General Conditions.

In addition, if the Design-Builder refuses to sign an amendment to set the Construction Price (see above), then the District may (a) terminate the entire design-build

contract, or (b) terminate just the construction portion of the design-build contract and then require the Design-Builder to provide design services during construction performed by another contractor hired by the District.

ARTICLE VIII. PREVAILING WAGES.

The Project is a public work, the Work shall be performed as a public work and pursuant to the provisions of Section 1770 et seq. of the Labor Code of the State of California, which are hereby incorporated by reference and made a part hereof, the Director of Industrial Relations has determined the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work in the locality in which the Work is to be performed, for each craft, classification or type of worker needed to execute this Contract. Per diem wages shall be deemed to include employer payments for health and welfare, pension, vacation, apprenticeship or other training programs, and similar purposes. Copies of the rates are on file at the Owner's principal office. The rate of prevailing wage for any craft, classification or type of workmanship to be employed on this Project is the rate established by the applicable collective bargaining agreement which rate so provided is hereby adopted by reference and shall be effective for the life of this Agreement or until the Director of the Department of Industrial Relations determines that another rate be adopted. It shall be mandatory upon the Design-Builder and on any subcontractor to pay not less than the said specified rates to all workers employed in the execution of this Agreement.

The Design-Builder and any subcontractor under the Design-Builder as a penalty to the Owner shall forfeit not more than Two Hundred Dollars (\$200.00) for each calendar day or portion thereof for each worker paid less than the stipulated prevailing rates for such work or craft in which such worker is employed. The difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage rate shall be paid to each worker by the Design-Builder.

The Design-Builder and each Subcontractor shall keep or cause to be kept an accurate record for Work on this Contract showing the names, addresses, social security numbers, work classification, straight time and overtime hours worked and occupations of all laborers, workers and mechanics employed by them in connection with the performance of this Contract or any subcontract thereunder, and showing also the actual per diem wage paid to each of such workers, which records shall be open at all reasonable hours to inspection by the Owner, its officers and agents and to the representatives of the Division of Labor Law Enforcement of the State Department of Industrial Relations. The Design-Builder and each subcontractor shall furnish a certified copy of all payroll records directly to the Labor Commissioner at least monthly.

Public works projects shall be subject to compliance monitoring and enforcement by the Department of Industrial Relations. A contractor or subcontractor shall not be qualified to submit a bid or to be listed in a bid proposal subject to the requirements of Public Contract Code section 4104 unless currently registered and qualified under Labor

Code section 1725.5 to perform public work as defined by Division 2, Part 7, Chapter 1 (§§1720 et seq.) of the Labor Code. A contractor or subcontractor shall not be qualified to enter into, or engage in the performance of, any contract of public work (as defined by Division 2, Part 7, Chapter 1 (§§1720 et seq.) of the Labor Code) unless currently registered and qualified under Labor Code section 1725.5 to perform public work.

ARTICLE IX. WORKING HOURS.

In accordance with the provisions of Sections 1810 to 1815, inclusive, of the Labor Code of the State of California, which are hereby incorporated and made a part hereof, the time of service of any worker employed by the Design-Builder or a Subcontractor doing or contracting to do any part of the Work contemplated by this Agreement is limited and restricted to eight hours during any one calendar day and forty hours during any one calendar week, provided, that work may be performed by such employee in excess of said eight hours per day or forty hours per week provided that compensation for all hours worked in excess of eight hours per day, and forty hours per week, is paid at a rate not less than one and one-half (1½) times the basic rate of pay. The Design-Builder and every Subcontractor shall keep an accurate record showing the name of and the actual hours worked each calendar day and each calendar week by each worker employed by them in connection with the Work. The records shall be kept open at all reasonable hours to inspection by representatives of the Owner and the Division of Labor Standards Enforcement. The Design-Builder shall as a penalty to the Owner forfeit Twenty-five Dollars (\$25.00) for each worker employed in the execution of this Agreement by the Design-Builder or by any subcontractor for each calendar day during which such worker is required or permitted to work more than eight hours in any one calendar day, and forty hours in any one calendar week, except as herein provided.

ARTICLE X. APPRENTICES.

The Design-Builder agrees to comply with Chapter 1, Part 7, Division 2, Sections 1777.5 and 1777.6 of the California Labor Code, which are hereby incorporated and made a part hereof. These sections require that contractors and subcontractors employ apprentices in apprenticeable occupations in a ratio of not less than one hour of apprentice's work for each five hours of work performed by a journeyman (unless an exemption is granted in accordance with Section 1777.5) and that contractors and subcontractors shall not discriminate among otherwise qualified employees as indentured apprentices on any public works solely on the ground of sex, race, religious creed, national origin, ancestry or color. Only apprentices as defined in Labor Code Section 3077, who are in training under apprenticeship standards and who have signed written apprentice agreements, will be employed on public works in apprenticeable occupations. The responsibility for compliance with these provisions is fixed with the Design-Builder for all apprenticeable occupations.

ARTICLE XI. SKILLED AND TRAINED WORKFORCE.

The Project shall be subject to the District's Project Labor Agreement.

ARTICLE XII. DSA OVERSIGHT PROCESS.

The Design-Builder must comply with the applicable requirements of the Division of State Architect ("DSA") Construction Oversight Process ("DSA Oversight Process"), including but not limited to (a) notifying the Owner's Inspector of Record/Project Inspector ("IOR") upon commencement and completion of each aspect of the Work as required under DSA Form 156; (b) coordinating the Work with the IOR's inspection duties and requirements; (c) submitting verified reports under DSA Form 6-C; and (d) coordinating with the Owner, Owner's Architect, any Construction Manager, any laboratories, and the IOR to meet the DSA Oversight Process requirements without delay or added costs to the Work or Project.

Design-Builder shall be responsible for any additional DSA fees related to review of proposed changes to the DSA-approved construction documents, to the extent the proposed changes were caused by Design-Builder's Wrongful Act or Omission. If inspected Work is found to be in non-compliance with the DSA-approved construction documents or the DSA-approved testing and inspection program, then it must be removed and corrected. Any construction that covers unapproved or uninspected Work is subject to removal and correction, at Design-Builder's expense, in order to permit inspection and approval of the covered work in accordance with the DSA Oversight Process.

ARTICLE XII. INDEMNIFICATION AND INSURANCE.

The Design-Builder will defend, indemnify and hold harmless the Owner, its governing board, officers, agents, trustees, employees and others as provided in the Contract Documents, including the General Conditions.

By this statement the Design-Builder represents that it has secured the payment of Workers' Compensation in compliance with the provisions of the Labor Code of the State of California and during the performance of the work contemplated herein will continue so to comply with said provisions of said Code. The Design-Builder shall supply the Owner with certificates of insurance evidencing that Workers' Compensation Insurance is in effect and providing that the Owner will receive thirty (30) days' notice of cancellation.

Design-Builder shall provide the insurance set forth in the General Conditions. The amount of general liability insurance shall be Two Million Dollars (\$2,000,000.00) per occurrence for bodily injury, personal injury and property damage and the amount of automobile liability insurance shall be Four Million Dollars (\$4,000,000.00) per accident for bodily injury and property damage combined single limit.

ARTICLE XIII. ENTIRE AGREEMENT.

The Contract constitutes the entire agreement between the parties relating to the Work, and supersedes any prior or contemporaneous agreement between the parties, oral

or written, including the Owner's award of the Contract to Design-Builder, unless such agreement is expressly incorporated herein. The Owner makes no representations or warranties, express or implied, not specified in the Contract. The Contract is intended as the complete and exclusive statement of the parties' agreement pursuant to Code of Civil Procedure section 1856.

ARTICLE XIV. EXECUTION OF OTHER DOCUMENTS.

The parties to this Agreement shall cooperate fully in the execution of any and all other documents and in the completion of any additional actions that may be necessary or appropriate to give full force and effect to the terms and intent of the Contract.

ARTICLE XV. EXECUTION IN COUNTERPARTS.

This Agreement may be executed in counterparts such that the signatures may appear on separate signature pages. A copy, or an original, with all signatures appended together, shall be deemed a fully executed Agreement.

ARTICLE XVI. BINDING EFFECT.

Design-Builder, by execution of this Agreement, acknowledges that Design-Builder has read this Agreement and the other Contract Documents, understands them, and agrees to be bound by their terms and conditions. The Contract shall inure to the benefit of and shall be binding upon the Design-Builder and the Owner and their respective successors and assigns.

ARTICLE XVII. SEVERABILITY; GOVERNING LAW; CHOICE OF FORUM.

If any provision of the Contract shall be held invalid or unenforceable by a court of competent jurisdiction, such holding shall not invalidate or render unenforceable any other provision hereof. The Contract shall be governed by the laws of the State of California. Any action or proceeding seeking any relief under or with respect to this Agreement shall be brought solely in the Superior Court of the State of California for the County of Alameda, subject to transfer of venue under applicable State law, provided that nothing in this Agreement shall constitute a waiver of immunity to suit by Owner.

ARTICLE XVIII. AMENDMENTS.

The terms of the Contract shall not be waived, altered, modified, supplemented or amended in any manner whatsoever except by written agreement, including a change order, signed by the parties and approved or ratified by the Governing Board.

ARTICLE XIX. ASSIGNMENT OF CONTRACT.

The Design-Builder shall not assign or transfer by operation of law or otherwise any or all of its rights, burdens, duties or obligations without the prior written consent of

the surety on the payment bond, the surety on the performance bond and the Owner.

ARTICLE XX. WRITTEN NOTICE.

Written notice shall be deemed to have been duly served if delivered in person to the individual or member of the firm or to an officer of the corporation for whom it was intended, or if delivered at or sent by registered or certified or overnight mail to the last business address known to the person who gives the notice.

ARTICLE XX. SANCTIONS IN RESPONSE TO RUSSIAN AGGRESSION.

The Owner requires Design-Build to comply with the Governor's March 4, 2022, Executive Order N-6-22 ("Order") relating to any existing sanctions imposed by the United States government and the State of California in response to Russia's actions in Ukraine, including additional requirements for contracts of \$5 million or more. Failure to comply may result in the termination of the Contract.
