Board Cover Memorandum

To Board of Education

From Dr. Denise G. Saddler, Interim Superintendent
Jenine Lindsey, General Counsel
Rebecca Littlejohn, Risk Management Officer

Meeting Date June 24, 2026

Subject Basic Accident Insurance for Students - Premium Payment for 2026-2027 Fiscal Year

Ask of the Board Authorize Risk Management to support funding of Basic Student Accident Insurance.

Background Alliant Student Accident Program (ASAP) has arranged Basic Student Accident Insurance coverage (underwritten by Certain Underwriters at Lloyd’s) at a cost of \$72,707.65.

This provides coverage to the students for all injuries that occur during school hours and days when the schools regular classes are in session, including one hour before and one hour immediately after regular classes, while continuously on the school premises; while participating in or attending school-sponsored and directly supervised school activities including interscholastic athletic activities; while traveling directly (without interruption) to or from residence and school for regular attendance or from school to off campus site to participate in school sponsored and directly supervised school activities (provided the travel is arranged by the District) and/or traveling in school vehicles at any time. Additionally, ASAP provides two plan enhancements. First, coverage will be extended to volunteers and children/youth who are not enrolled students at OUSD (such as student athletes on District property). Second, ASAP offers counseling services under the Basic Student Accident Program that our previous provider did not cover.

Just as the previous program, the benefit maximum per student per accident is \$25,000 with a \$0 deductible This program would act as an excess or secondary insurance for students who are already covered under another valid and collectible insurance or health agreement. For students not covered under a valid or collectible insurance program or health agreement, this would act as a primary coverage. Examples of coverage include but are not limited to: hospital/facility

services (inpatient and outpatient), physician services (surgical, assistant surgeon, anesthesiologist, etc), other services (prescriptions, lab tests, x-ray, air and ground ambulance, dental, durable medical, etc).

Discussion

State Law (EC 35330) and District policy (AR 6153) require that school districts conducting field trips or excursions provide or make available medical and/or hospital services for students injured while participating in field trips or excursions. Both state law (EC 32221 and District policy (AR 6153) also require that students participating in certain high risk activities, including but not limited to interscholastic athletic activities have insurance coverage. Further, both law and District policy provide that students may not legally be excluded from activities due to an inability to pay.

Coverage for Student Accident Insurance began in fiscal year 2016-17 under Myers-Stevens & Toohey. Risk Management reviewed other programs to ensure the District is getting the best coverage at a low cost. The coverage offered by Alliant Student Accident Program provides a low per pupil cost and is more comprehensive, providing coverage to students for injuries that occur during school hours and days when school is in session and while attending or participating in school sponsored and supervised activities on or off school premises. In addition, the coverage includes all school sponsored interscholastic sports (excluding tackle football which is covered under the Catastrophic coverage). An added benefit under ASAP is up to four (4) counseling services as part of the Basic SAI which was not included with the previous provider.

The District continues to expand opportunities for students to participate in work based learning off site as well as inception of the Middle School Sports League, which allows middle school students to participate in interscholastic athletic activities. These are exciting opportunities for students, however they carry increased risk of injuries to students, some of which could result in significant costs for medical treatment.

There is also a growing concern related to certain playground and sports injuries such as head injuries and concussions and this coverage would provide a significant benefit to students suffering those injuries and could decrease government code claims filed by families who cannot afford medical expenses.

Both the District and our families are better served by the assurance of some accident insurance to cover all students. Requiring families who do not have medical insurance to pay for accident insurance can pose a significant financial hardship for many of our families. This is also out of step with changes in the law generally prohibiting pupil fees in public schools and with our mission to serve the whole child, including facilitating access to healthcare and eliminating inequity. This coverage would significantly benefit our students while enabling the District to comply with its legal and policy requirements at a low per pupil cost.

Such compensation may vary depending on a number of factors, including the insurance contract(s) and the insurer(s) the purchaser selects. In some cases, other factors such as the volume of business a producer provides to an insurer or the profitability of insurance contracts a producer provides to an insurer also may affect compensation.

The insurance purchaser may obtain information about compensation expected to be received by the producer based in whole or in part on the sale of insurance to the purchaser, and (if applicable) compensation expected to be received based in whole or in part on any alternative quotes presented to the purchaser by the producer, by requesting such information from the producer.

Certificates / Evidence of Insurance

A Certificate or Evidence is issued as a matter of information only and confers no rights upon the certificate holder. The certificate does not affirmatively or negatively amend, extend or alter the coverage afforded by a policy, nor does it constitute a contract between the issuing insurer(s), authorized representative, producer or recipient.

You may have signed contracts, leases or other agreements requiring you to provide this evidence. In those agreements, you may assume obligations and/or liability for others (Indemnification, Hold Harmless) and some of the obligations that are not covered by insurance. We recommend that you and your legal counsel review these documents.

In addition to providing a Certificate or Evident of Insurance, you may be required to name your landlord, client or customer on your policy as a loss payee on property insurance or as an additional insured on liability insurance. This is only possible with permission of the insurance company, added by endorsement and, in some cases, an additional premium.

By naming the certificate holder as additional insured, there are consequences to your risks and insurance policy including:

- Your policy limits are now shared with other entities; their claims involvement may reduce or exhaust your aggregate limit.
- Your policy may provide higher limits than required by contract; your full limits can be exposed to the additional insured.
- There may be conflicts in defense when your insurer has to defend both you and the additional insured.
- An additional insured endorsement will most likely not provide notification of cancellation. Some insurance companies use a “blanket” additional insured endorsement that provides coverage automatically when it is required in a written contract. Most insurance companies do not want to be notified of all additional insureds when there is a blanket endorsement on the policy. If a notice of cancellation is required for the additional insured party, you must notify us immediately and we will request an endorsement from your insurance company. There may be an additional premium for adding a notice of cancellation endorsement for an additional insured.

See Request to Bind Coverage page for acknowledgement of all disclaimers and disclosures.
